

Registration Date Given

Registration for the first semester of summer school at Texas Tech will begin June 3 with classes starting at 7:20 a.m. June 5. Two dormitories Drane and Sneed—will be available to students this summer opening at 10 a.m. the first day of registration.

THE COST of regular room and board in the dormitories, two occupants per room, will be \$108 per six-week term, payable in advance.

Applications for dormitory reservations should be made by women students May 19-20 and by

men May 15-16 in the Office of Dormitory Reservations.

Registration for the first term will begin at 2 p.m. on June 3 and continue through 5 p.m. June 4.

APPLICATIONS WILL be received during registration but all students are urged to obtain summer school bulletins and applications now.

Registration fee for residents of Texas is \$25 if a normal load of six semester hours is taken. Registration is \$20 if less than four hours is taken.

INFORMATION ON these workshops and field trips to Europe and Mexico are featured in the summer school bulletins.

Scrugg Plan Tech Visit

An official pioneer in U. S. exploration for new knowledge will visit Texas Tech Thursday.

He is Chemstrand Corp.'s Dr. Jack G. Scruggs, who has literally been assigned by that company to its pioneering section.

DR. SCRUGGS works with a specially selected group of scientists who are doing basic research and otherwise look for new ideas and products. He will spend most of the afternoon conferring with the Tech chemistry department faculty.

At 5 p.m. in Chemistry building, room C-2, he will discuss tranquilizers during a graduate seminar of chemistry and other science students.

Physicians, professional scientists and technicians are invited to attend the seminar, Dr. George K. Estok, associate professor of chemistry, said.

SCRUGGS HOLDS bachelor's, master's and doctor's degrees from the University of Michigan. He is a member of Alpha Chi Sigma, chemistry society, and numerous other honoraries.

TEXAS TECH COLLEGE BOOKSTORE

"ON THE CAMPUS"

AN OPEN LETTER TO ALL STUDENTS OF TEXAS TECH:

Within a few short days you will begin packing for your trip home and deciding what items you will dispose of and what you will keep.

Among your possessions, TEXTBOOKS will doubtless loom large and heavy. You will recall to your mind the cash you spent for them. Although we are in the book business — in fact we make a considerable portion of our profit from buying and selling books — we hope you will keep the ones you feel will be useful to you in the future. By the same token we hope you will bring those you want to dispose of to us.

Here is our policy regarding buying back TEXTBOOKS.

First: ALL TEXTBOOKS currently in use or that have been used in the Fall Semester and which Professors have told us they will reuse we will pay One-Half (1/2) price cash for them.

Second: For all TEXTBOOKS that have been discontinued for use in the future at Texas Tech, as well as any other old books you may have accumulated, will purchase such books for jobbers.

We hope this letter will encourage you to sell a lot of used books that we can resell to the 1958-59 Texas Techsians.

Wishing for all of you a pleasant and profitable summer, we are,

Sincerely,
 TEXAS TECH COLLEGE BOOKSTORE
 W. C. COLE
 MANAGER

Fellow Techsans Found All Over World

Whistle the Texas Tech Mator Song while traveling throughout the state and you'll find a fellow Techsan in 89 per cent of the counties to join you. That's how representative Tech's of the 48 states in the nation. 9,524 enrollment is in the Lone Star state. Students have come from 225 of the 254 counties for the 1957-58 Long Session, the registrar's office reports. They also have come from 40 of the 48 states in the nation. Most (188) are from New Mexico.

The beautiful Delray 2-Door Sedan, one of three budget-priced Delray models.

Chevrolet's dollar-stretching DELRAY YOU JUST CAN'T TIE THIS BUY!

Here's surefire proof Chevrolet always knows how to give you more for your money—from longer, newer, lovelier bodies to a wider range of engines, transmissions and suspension systems. The more you look the more you'll find to like in Delray—THE LOWEST PRICED OF ALL THE LOW-PRICED CHEVROLETS!

Chevy doesn't have any "smaller" models. The big, beautiful Chevrolet Delray is just as long, just as wide, just as softly sprung on the same 117-inch wheelbase as the luxurious Bel Air models. Like every other Chevrolet, it has the extra solidity and quality of Body by Fisher. There's no stinting on optional equipment, either. You

can get anything from Fuel Injection* to Level Air* ride, any Chevrolet transmission, any Chevrolet engine, just as you choose. Take a long, long look at this one next time you drop in at your Chevrolet dealership—because the more you demand for your money the surer it is you'll decide on Delray!

*Optional at extra cost.

FINAL SCHEDULE

Wednesday, May 21	
2- 4:30	All sections of Government 233 and 234, including evening classes, will be given at this time only. Room numbers will be announced in the respective classes by the instructors.
Thursday, May 22	
8-10:30	Classes meeting 8 TTS
11- 1:30	Classes meeting 3 MWF
2- 4:30	Classes meeting 11 MWF
Friday, May 23	
8-10:30	Classes meeting 9 MWF
11- 1:30	Classes meeting 1 TTS
2- 4:30	Classes meeting 10 TTS
Saturday, May 24	
8-10:30	Classes meeting 8 MWF
11- 1:30	Classes meeting 5-6 MWF and Saturday classes only.
2- 4:30	Classes meeting 11 TTS
Monday, May 26	
8-10:30	Classes meeting 10 MWF
11- 1:30	Classes meeting 2 TTS
2- 4:30	Classes meeting 4 MWF
Tuesday, May 27	
8-10:30	Classes meeting 9 TTS
11- 1:30	Classes meeting 3 TTS
2- 4:30	Classes meeting 1 MWF
Wednesday, May 28	
8-10:30	Classes meeting 2 MWF
11- 1:30	Classes meeting 5 TTS and 12 Noon
2- 4:30	Classes meeting 4 TTS

Classes scheduled for more than one hour will take the first hour on the exam schedule and two-semester hour course will take precedence over one-semester hour courses.

In case of conflict of orientation with regular exams, the orientation exam should be given the last day the class meets.

Requested changes in the schedule for individual students will be considered by the Dean of the School in which the student is registered.

EXAMINATION SCHEDULE FOR EVENING COURSES

Wednesday, May 21	
6:30-9 p.m.	Classes meeting 6:30-8 p.m. MW and Wednesday only.
Thursday, May 22	
6:30-9 p.m.	Classes meeting 6:30-8 p.m. TTh and Thursday only.
Friday, May 23	
6:30-9 p.m.	Classes meeting 8-9:30 p.m. MW and Monday only.
Monday, May 26	
6:30-9 p.m.	Classes meeting 8-9:30 p.m. TTh and Tuesday only.

They're Full-Size Chevies

No skimping in seat width, leg-room, wheelbase—Delray gives you every generous dimension offered by any Chevrolet.

A COMPLETE CHOICE OF ENGINES

You can order a Delray with Chevy's top Fuel Injection V8 if you like—or get any one of the five V8's or the Blue-Flame Six!

AUTOMATIC DRIVES

Choice of time-proved Powerglide* or supremely smooth Turboglide*—the only triple-turbine drive in Chevy's field.

UNIQUE

Full Coil Suspension

Delray's standard suspension system puts a cloud-soft coil spring at each wheel, blends this with the beautiful roadability of four-link rear control arms!

and Delray is the only

car in its class with the extra rigidity of an all-new Safety-Girder frame, the extra clarity of Safety Plate Glass all the way around, the extra convenience of crank-operated vent windows!

Drive with care... everywhere!

Students Can Work Way To Europe

All students interested in working their way through a summer tour in Europe can now take the trip for \$800, reports Gordon Graves, Tech student and Lubbock's Community Ambassador in India last summer.

Graves has been selected by the Experiment in International Living of Putney, Vermont, as their representative to contact students who may be interested in applying for these summer openings.

Requirements include: (1) genuine interest in making a personal contribution to international understanding; (2) proven maturity and ability to get along well with people of different backgrounds and interests; (3) constructive personal interests or hobbies; (4) participation in extracurricular or civic activities; (5) experience in outdoor living; (6) conversational fluency where a foreign language is required; (7) satisfactory academic standing; (8) sound emotional stability and physical health.

"I don't see how anyone qualified to go can pass up the opportunity for the experience as well as knowledge gained, Graves says. Additional information may be secured from Graves at PO 5-9617.

Map Gives GradLocale

If you have ever been in the lobby of the Home Economics Building you have noticed the huge map on the wall.

This map tells where every graduate in the field of home economics from Texas Tech is located. Huge maps of Lubbock county, Texas, the United States and the world, with name tags pinned into the location of each graduate are contained. These tags are in different colors; pink, a bachelor of science, blue, a master's; and yellow, a doctor's degree.

This map was the creation of Dean Willa Vaughn Tinsley, who got the idea while visiting another school. She came back and started her own version. It took a lot of research on both her part and that of Dean Emeritus Margaret Weeks, she says, before the map was finally ready to go up on the wall. Now the work is easier, because visitors seeing the map will tell the dean if a correction of changed address or location needs to be made.

The map is enclosed in a case six feet long and two and one-half feet wide. The case is opened once a year to change name tags and add new ones.

THE 1958-59 TOREADOR Staff Announced

Boney To Receive PhD

The 1958-59 edition of THE TOREADOR staff was officially announced by editor Ben McCarty at the annual TOREADOR awards banquet Tuesday night.

MCCARTY HAD BEEN selected at an earlier date by the Publications Committee. His staff includes: James Hamm, managing editor; Tommy Schmidt, news editor; Bill Dean, sports editor; Merium Jackson, campus editor; Everett Groseclose, Tuesday copy editor; Arthur Mayhew, Thursday copy editor; and Mary Alice Atchison, Saturday copy editor.

Mayhew, Groseclose and Miss Jackson are the only ones who haven't filled an editorial position on the Toreador before.

MCCARTY WAS this year's news editor; Miss Atchison, Thursday copy editor, and Bill Dean, sports editor.

An added feature of next year's TOREADOR is the Bodoni head schedule which has been experimented with the last few issues.

This schedule will give the newspaper a uniformity and unity that has been lacking in the past.

LEAVING THE STAFF will be Editor C. J. Wren, who will be graduated this spring, and managing editor Billy Ellis and campus editor Carolyn Mimms, who will work for LA VENTANA next year.

Besides his job as this year's news editor, McCarty has served in the past as assistant copy editor and reporter. Hamm, as well as being copy editor, this year has held positions of issue sports editor, freshman edition sports editor and reporter.

SCHMIDT, present Saturday copy editor, has served as freshman edition editor and reporter. Dean will hold the sports editor's job for the second year in a row. He was freshman edition news editor.

Next year, Miss Atchison will be shifted from Thursday copy editor to Saturday copy editor. Groseclose and Mayhew have been reporters and have worked on the editing desk.

MISS JACKSON has reported and served this year as freshman edition editor.

McCarty and Hamm will be the lone seniors on next year's staff. Schmidt, Dean, Miss Atchison, Groseclose and Mayhew will be juniors. Miss Jackson will be a sophomore.

A proofreader will be selected at a later date.

Six years of study will be climaxed May 31 by the awarding of a doctor of Philosophy degree to Miss Elaine Boney of Texas Tech.

For six years Miss Boney has been studying the works of an early-century German poet whose works anticipated current existentialist writers.

MISS BONEY SPIKES the general belief that existentialism is the result of a moral thinking by left Bank Frenchman by saying that existential thought is a very austere and demanding philosophy.

She has written her dissertation on existentialist thought in the works of Rainer Maria Rilke. It is the result of a preliminary study began in 1952 while Miss Boney was a Fulbright scholar at the University of Copenhagen in Denmark.

"Rilke's basic ideas are that man can influence his destiny and that it's his responsibility to make the world as he would like to have it. It is man's awareness of his inner-world, his spirit, that makes him immortal," she said.

"EXISTENTIAL THOUGHT is demanding because the individual is constantly reminded that himself and everyone about him should make the very best he can out of the world," she added.

Miss Boney expanded her study of the German poet with the counsel of Professor Helmut Rehder of the University of Texas, a former student of the German existentialist philosopher Karl Jaspers.

In explaining the basic beliefs of existentialism, Miss Boney noted that Jean Paul Sartre, whose writings popularized this philosophy in the mid-1940's is a relative late-comer in the field.

SARTRE EXTENDED the pessimistic philosophy of Nietzsche into existentialism in denying the existence of God. Other existentialist philosophers like Soren Kierkegaard and Jaspers also supported the view of transcendent and immortal man.

A copy of Miss Boney's dissertation has been requested by the Insel Publishing Company of Wies-

baden, Germany, for use in its research library. The Insel company has published all the works of Rilke, who died in 1926.

BEFORE TURNING to a career in foreign languages, Miss Boney was a chemist with the Phillips Petroleum Company, Lever Brothers Incorporated and the Army. She studied chemistry and German at the University of Kansas, where she earned her bachelor's degree. She later received a master's degree at the University of Wisconsin.

NO CONSTRUCTION

Eisenhower has thrown cold water on the idea of any new big public works program to counter the business slump. He says some programs already under way—such as construction of post offices—are all right, but that it would be at least two years before construction of any new large projects could get under way.

Prof Talks On Water

Dr. J. Roy Sampson, writing in the latest issue of Oregon Business Review, discusses the Federal and State position in the question of water rights.

The Texas Tech economist warns, if Federal agencies claim control over all waters within their reservations despite State laws, the economies of western and other states may be "vastly dislocated".

He cites cases where the Federal claim has been upheld by the courts when Federal and State laws conflicted on water rights.

In one case the Supreme Court held that if Federal and State water laws conflict, the latter must yield. A second decision upheld the Federal Power Commission on the grounds that a dam was to be built on a location where the Federal Government owned land on either side of the stream.

Sampson points out that in four Western states the Federal government owns more than half the total land areas, excluding land ownership because of military expansion and related projects. Forty per cent of all Federal land purchases since 1789 have occurred between 1937 and 1955.

Techsans Talk Back

Editor's note: The author of this article, Cesar Pieve, is a senior foreign student from Caracas, Venezuela.

Editor,
Today (Tuesday) I learned that the vice president of the United States, Mr. Richard Nixon, was ignominiously stoned and vexed during his visit to Caracas, Venezuela.

Through this letter I want to state that not all Venezuelans feel that way toward American officials, and not all Venezuelans are so uncivilized as to stone goodwill visitors.

All the rioting and disturbance has been attributed to Communist led mobs. I don't know whether this is true or not. At any rate, the exact identity of the rioters does not matter too much and is beyond the intention of this letter.

It has been said that the students were, at least in the majority, the mass of the mob. Perhaps this is true.

The students were the ones who led the mobs in Peru and other incidents in South America. Perhaps the Venezuelan students wanted to show that they could demonstrate as big, or bigger, than the students in the other countries. The same types of demonstrations seem to indicate this.

It is possible that the pending oil restrictions menacing our economy had something to do with the trouble.

Venezuela has just come out of an extremely severe dictatorship, and, I am afraid we have not had time to digest the newly acquired democracy.

I am not attempting to give excuses for the stoning of Mr. Nixon, because there are no excuses for such acts. I am merely trying to explain why it happened, and above all, I want to make clear

that there are many Venezuelans who condemn the actions as being stupid and savage.

STUDENTS OF TECH AND OTHER CITIZENS OF THE UNITED STATES, I APOLOGIZE!

Sincerely,
Cesar Pieve

EHH?

Editor,
The parking situation at Tech leaves lots to be desired.
Don Murray
2312 28th

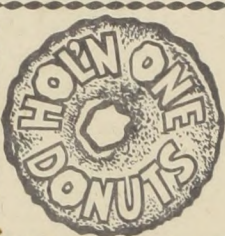

(Editor's note: And that ain't all.)

ALLIES CONSULT

Eisenhower says the United States is consulting with its Allies regarding Soviet Premier Nikita Khrushchev's latest note expressing willingness to start talks on the policing of any nuclear test ban.

TAX CUT?

The administration is going to have to decide soon, Eisenhower says, whether to advocate a tax cut as an anti-recession step.

HOL'N ONE

PO 2-4653

Korean Is Enjoying Texas Tech

by TOM NISBET

"I don't think I would find another school which is so good," says Eun Sang Lew, of Tech. Lew is from Seoul, Korea, and came to Tech in January, 1957. He lives in Gordon Hall and is a sophomore majoring in animal husbandry.

After graduation from high school in 1950, Lew entered Officer's Candidate School in Korea. He was sent to Ft. Sill in Oklahoma in 1952 and spent a year in an officer's special training course. He returned to Korea in the spring of 1953 and was then an instructor in the Korean Army Artillery School until he got out of service in 1956. Part of this time was spent in active duty on the front.

Lew attended Chosun University, one of about ten universities in Seoul, while instructing in the Artillery School. During part of his high school days and while he was in the service, he played on a Judo team. He was majoring in economy and was a junior at the University when he got out of the Army and decided to come to America to go to school.

Lew made a friend while at Ft. Sill who is a Tech graduate, attended Harvard, and is now practicing dentistry in Lawton, Oklahoma. This friend is helping him through college. Lew says he wants to graduate as fast as he can. He wants to go to graduate school and then will return to Korea. When asked about the instruction at Tech, Lew replied "Most of the teachers seem very conscientious about their work."

He says he doesn't understand rock and roll music, so he can't

say whether or not he likes it. As could be expected, Lew says he got homesick during the first few months, but "I'm much too busy to think about it now." The 25-year-old Korean boy is never too busy to say "hello", however, and he always has a smile on his face.

When asked what he thought of the cowboy boots and big hats that most of his fellow students wear, Lew replied that he is going to buy himself some boots and a hat as soon as he can.
