LONDON, Dec. 8 (P) - A declaration by the Turkish government defining the country's stand more conclusively in the light of the Inonu - Churchill - Roosevelt conference in Cairo was viewed here today as likely to come from

Ankara in the near future. First reports, meanwhile, indicated that the terse communique emphasizing Turkey's "closest unity" with Britain and the United States at the conclusion of the three-day conference would hit with explosive force. A Turkish declaration, clari-

fying anew the country's position in the European war, might conceivably follow a meeting of the Turkish parliament to hear the reports of President Ismet Inonu and Foreign Minister Numan Menemencioglu on the conference.

A German broadcast recorded

by Reuters said the two statesmen would make such reports at an extraordinary session of parlia-ment today, while the London Daily Mail declared that a declaration was expected to be made in Ankara "in the next few days." One Turkish view of the significance of the conference came meanwhile from the Ankara radio, which said that "large-scale operations and a decisive battle are very close at hand." The broadcast, ecorded by Reuters, said the Cairo communique "can be sum-med up in these words: It is a complete agreement on the prob-

Lieut. JACK DOUGLAS, former sports writer on The Herald and who is now battling the axis in Italy, sends Christmas greetings which aren't decipherable since we can't read Italian, but we gather it means "howdy" anyway from someplace in Italy.

Received a card last week from GEORGIA LANGFORD, who was in "sunny California" so she said and giving it such a big boost that she sounded like a travel folder. Caught a glimpse of Cpl. and Mrs. HERSCHEL SUMMERLIN out for dinner and accompanied by their young son, who is practically brand new—five weeks old. Young SUMMERLIN didn't appear to be particularly impressed with his surroundings and protested from time to time. But he is a mighty pretty baby.

The story of Lieut. MURLAN SMITH'S winning the Silver Star for gallantry is the sort you read about in books, or about American soldiers these days. His family was proud of him and not the least proud was Mrs. WARD HALL, his sister-in-law, who told us about him.

Had a chat with IRA THURMAN the other day at the bank and we talked about the November bond quota which Howard county easily surpassed. With December here and bonds making the nicest sort of Christmas gifts, we figured December ought to be a banner bond month here to

# George Walmsley Sets Grid Record At Goose Creek

We know about the day you handled the ball five times for five touchdowns against Michigan, and maybe George Walmsley, didn't do that good, but then the coach didn't leave him in long enough or he probably would have.

Walmsley, 147 - pound triple-threater of the Goose Creek Ganders, one of Texas' undefeated, untied schoolboy teams, handled the ball three times for three touch-downs—all in 90 seconds.

Walmsley dld it against Conroe, racing 67, 66 and 37 yards respec-tively, but this kind of football is nothing new for the little dynamo of Goose Creek.

George made his debut in 1940at the age of 14. The coach sent him in a game to "hold down the score." Walmsley proceeded to make three touchdowns in that final period - one on an 80-yard Texas schoolboy teams have been trying to stop him ever since. Now he's a senior and has led his team to eleven straight victories. He has scored 12 touchdowns, passed for the same num-

ber, ran 24 punts back for 315 yards and intercepted five passes. But with all his great passing, blocking an drunning for touchdowns - he has made them with runs up to 85 yards—the most no-table feat performed by the Goose Creek wonder boy was in the Port Arthur game of 1941.

# Steer Cagers **Work Out Daily**

Workouts for the Big Spring high school Steer basketball team are well underway, having started Monday afternoon.

It is still too early to predict what the Steers will come up with in the way of a team, but based on experience, the quintet is not due to be a world-beater. Based on initial showings, it is not due

to be hopeless by any means.

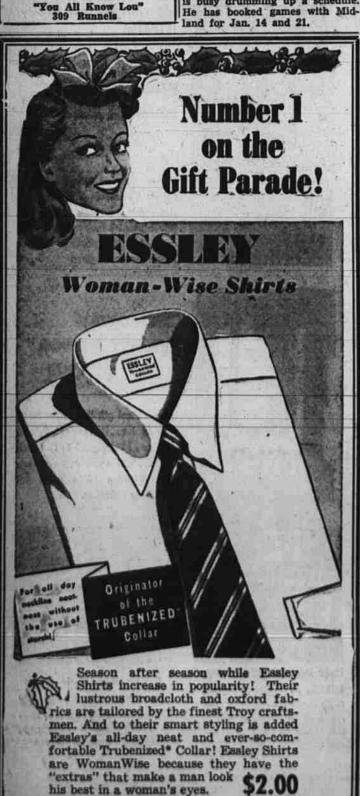

For one thing, if his lads come around with any measure of suc-cess, Coach John Dibrell might put a team on the court which flirts with the six foot level. Bobby Barron, the shortest man

in the first line material, is al-

most certain for a berth at forward. Bobby stretches to all of five feet seven. Woody Baker, his running mate, will crowd six foot.

Leading prospect for center at
the moment is Billy Ray Warren, who will measure a couple or more inches over six feet. At guard Dibrell can use Joe Bruce Cunover six feet to let him look over shorter competition, and Earl Lusk, who also tops the six foot level. Hugh Cochron, who may be a regular at guard, measures about five feet 10 inches.

Dibrell is holding to his policy of no games before Christmas but is busy drumming up a schedule He has booked games with Midland for Jan. 14 and 21.

NEW YORK, Dec. 8—There was a popular song in World War I that went something like this: "The Navy took you over and the Navy will bring you back!"
The first part of that little ditty is what happened to college football this year—the Navy took over. In fact, Navy men went so far as to grab nine places on the 19th annual College All-American football team chosen today by the Associated Press Sports Editors and writers throughout the United States. The Army landed two men despite its refusal to per mit students to participate in intercollegiate athletics. All of which recalls a recent statement made by a top football coach. Asked to name an All-America team, the mentor said:

"Pick any two sailors, two coast guardsmen, two merchant mariners, two soldiers, a marine, a filer and a paratrooper—and how can you beat them?

# **Tourists Still Head For Valley**

McALLEN, Dec. 8 (F) tourist is proving that it will take gasoline rationing to keep him in the north when the sun is shining in the south.

Confounding even the best guesses of tourism experts in the Rio Grande valley, winter visitors are pouring into this section by the hundreds. Some are coming in their cars, trusting in the Lord and their home town gasoline pan-els to get them safely back, but the majority are arriving by train and by bus.

The tourist department of the McAllen chamber of commerce, which posted what was for it an amazing statement a few mo ago in warning tourists not to come to the valley this winter, is as busy as ever trying to find liv-

ing accommodations for them.
Thus far 600 winter colonists have been counted in McAllen. The chamber had not expected more than a couple of hundred to make it.

Most of the visitors are from the middle west and north.

week, he contacted federal departments and agencies on errands for his boss. He attended sessions of Congress. He met scores of members of both chambers. And out-side of the capitol and government, he got a better than tourist's view of wartime

Washington. He went back home to write about it and talk about it. His articles appeared in more than 60 papers in Congressman Hagen's district. In addition, Meyer has been speaking for weeks before civic groups in his area on the trials and tribulations of a member of Congress; how Congress works, and what wartime Washington is like.

His second visiting secretary was Rupert Bradford, 35-year-old editor of the Bemidji Northland Times, and his third will be H. Z. Mitchell, editor of the Bemidji Daily Pioneer and Weekly Sentinel and one of Minnesota's best known newspapermen. Hagen is playing no political favorites. Meyer is an Independent Democrat; Bradford a Farmer-Laborite; and Mitchell a Republican. They can say whatever they wish and think whatever they please.

Hagen says he got the idea "in the back of my head" during the eight years that he was secretary to former Rep. R. T. Buckler. It occurred to him then that few voters had any real, down-toearth idea of what a Congressman does, or what problems he faces. It was not, however, until he took oath as a member of the 78th Congress that the idea really crystallized. He told editors and publishers

in his district that he would reserve one of his secretarial spots for any worthy newsman in his district. He would pay the first class round trip fare to and from Washington. While here, they would work and work hard as his

# **Pro Gridder May Win League Title**

By CHARLES CHAMBERLAIN CHICAGO, Dec. 8 (P) - Bill Paschal, 204-pound New York giant fullback, who set a season's high of 188 yards rushing against Washington last week, needs only 92 against the Redskins in another meeting Sunday to become

national football league. He must accumulate that yardage to beat out Clark Hinkle of Levin, Mrs. Clarence Roos, Mrs. Phil-Pitt, who picked up 59 yards E. M. Conrad, a guest, and Mrs. against Green Bay, including a 38-yard touchdown sprint, for

season's output of 571. The record of 22-year-old Paschal is one of the most startling in modern pro football, for he his the big time without benefit of ever playing varsity collegiate

After trailing Sid Luckman all season, the Redskins' Sammy appears destined to wind up Sunday with the passing championship. He needs only to keep his season percentage above Luckman's 545 to win after surpassing him in a number of com-pletions-117 to 110. Baugh's current average is .555.

# **B'Spring Stop** On New Airline **OKed By CAB**

Big Spring was included as a stop today on additional air transnauties board.

This city was covered by the approved application by Con-tinental Airlines to transport passengers, property and mall between El Paso and San An-tonio, via Hobbs, New Mexico and Midland, Big Spring and San Angelo.

In effect, this gave Big Spring a connection to the north with Denver, Colorado, for Continental now operates a line from El Paso by way of Hobbs, Alb iquer-que, New Mexico.

Braniff Airways, Inc. which had applied for a north-south line San Antonio to Denver via San Angelo, Big Spring, Lubbock, and Amarillo, was granted leave to include Austin as an in ermediate point between the terminal points of Houston and Lar :do.

Essair, Inc., which had applied for service from Houston to Garden City, kansas by way of Austin, Big Spring and Amavillo, was given leave to establish a local service for passengers, property and mail between Houston and my Black of troop No. 5, Amarillo via Austin, San Angelo, Abilene and Lubbock under a board said operation of such a

line was economically uncertain.

The authorized service by Braniff and Continental not be inaugurated until the board has notified the carriers that equipment is available without interference with the war program.

Do you have headaches? Do you lack pop or vim? Do you get irritable easily?

Do you feel depressed—nervous? 🔲 🔲 Everybody knows that poorly digested food often causes a headachy, sluggish condition.

food often causes a headachy, singgsh condition.

But you may not know that Nature must produce each day about two pints of the vital digestive juice—liver bile—to help digest your food.

If Nature fails—food doesn't digest properly—you may get irregular. And the amount of this vital digestive juice may be still further reduced. Thus, digestive upset and siuggishness can fellow each other in a vicious circle that keeps you feeling rotten. Therefore, take Carter's Little Liver Pills because they start bile flowing quickly—often within thirty minutes. When bile flow increases—you may help your digestion. You're on your way to feeling grand all over again. Remember—you can't get these same results from luxatives that fail to stimulate the flow of bile.

If you feel headachy, listless, irritable

# For THE 56 OUNCE MODEL PLANE THE 56,000 POUND BOMBER

# PHILLIPS produces AVIATION

WHY DOES PHILLIPS BOTHER making and selling Model Motor Blend Aviation Gasoline . . . which is bought by the pint and used by the medicine-dropper-ful?

The answer is simple: The boy enthusiast of today, building and flying his three and one-half pound model plane, may be the designer of tomorrow's 200-ton airliner. It is good for the future of aviation, and for the Nation's future, that such youths should be encouraged.

Less than ten years ago many of the weapons and materials, which are now so important to us in the fight for freedom, seemed as trivial as pint-size sales of special aviation fuel for nine-ounce midget engines. At that time some people wondered why Phillips research men so patiently sought the secrets of synthetic rubber, when natural rubber was

plentiful and cheap. They questioned why so much time and study was devoted to the chemistry of petroleum hydrocarbons.

Today the answer is simple: Phillips is a major producer of butadiene for synthetic rubber . . . and 100 octane aviation gasoline for the Army, Navy, and United Nations air forces. And these synthetic chemicals are only two of the limitless thousands of products which can be made by using petroleum and petroleum gases as a chemical raw material.

That is why we say, every time you see the Phillips 66 Shield, let it remind you that Phillips refineries in addition to producing gasolines, lubricants, and fuel oils, are also gigantic chemical plants, pouring out weapons for victory.
