## Tenth Annual Home Economics Open House In Progress Visitors Crowd 14th Engineer's Show

Entire Home Ec Department Open For Inspection

Demonstration And Exhibits On War Work Features Exposition

By MAXINE CONNER  
Toreador Staff Writer

HUNDREDS of visitors—students from other divisions of the college, town's people, and out-of-town guests—are attending the tenth annual Home Economics Open House now in progress.

Program for today is: 9 a.m., a crayon talk—"The Great Arch"; 10 a.m., Fashions for War Workers; 10:45 a.m., Block Printing on Textiles; 11:15, Designing a dress on a model; 1:30 p.m., Block Printing on Textiles; 2 p.m., A crayon talk—"The Great Arch"; 2:30, Making and Using Decorative Paper; 3:15, Styles on Textiles; 4 p.m., Block Printing on Textiles.

Demonstrations in hand weaving are being held in Annex B from 11 a.m. to 2:15 p.m.

Canteen service for emergency feeding is in front of the Home Economics building.

This morning from 9 to 11 o'clock and this afternoon from 2 to 5 o'clock the Home Management house will be open to guests. The kitchen in Women's Dormitory No. 2 is open for inspection. Students in the institutional management class are on duty to explain the equipment to visitors.

With the crisis of war calling attention more than ever before to the necessity for wholesome family relations and wise guidance of young children, reference lists of books and pamphlets have been prepared by the family relations and child development class and are available at the nursery school.

Exhibits from the department of applied arts show art as a basic factor in daily lives which helps to provide emotional balance, mental stimulus and economy in selection and use of materials.

For the past 10 years Home Economics club has sponsored Open House each spring. In previous years slogans and themes have been chosen around which to base the program. This spring limited materials and funds have set the theme for Open House—"Making the Most of What is Available."

### Even Nightgowns Are Included In "Lost and Found"

The lost and found department, located in the registrar's office, has a large collection of valuable articles that the owners can recover by calling at the office and identifying them.

In the collection anything from a fur piece to a hub cap can be found. There are several men's jackets both leather and suede, a red reversible raincoat and about five short coats belonging to girls.

Other articles are slide rules, books, notebooks, keys, fountain pens, oversharp pencils, purses (some containing money), a nightgown, glasses, and a Lady Elgin wrist watch.

All students who have lost anything since the beginning of school are requested to go to the lost and found department and claim their property.

### Extension Service Cuts Fees For Men In Service

The Army institute, under which the War department will pay one-half of the expenses for correspondence courses for soldiers, now is ready for operation, according to J. F. McDonald, director of the extension division.

### Defense Program

The classes in Red Cross Nutrition will be taught in the auditorium instead of beginning now because of lack of time. If any student is interested in taking these courses through the summer please see Jean Spencer who is in charge.

Names of those women students who are supposed to get Red Cross First Aid certificates will be posted on the bulletin boards of the offices of Dean Weeks and Dean Doak and the certificates will be available at these places.

Top picture: Departmental managers gather with Watson Carlock, top left, general manager, to discuss plans for Tech's fourteenth Annual Engineers' Show. Bottom: Tech co-eds pose for fine arts class in architectural lab. Throongs have seen the shows.

## Synthetic Rubber Is Popular Exhibit

By ELIZABETH YOUNG  
Toreador Staff Writer

EXPERIMENTS with synthetic rubber, reproduction of alcohol from small grains, and other exhibits by all engineering departments are proving of great interest to the general public as the fourteenth annual Engineering Show is being staged here this week-end. Buildings were open from 2 p.m. until 10:30 p.m. yesterday and will be open the same hours today.

## Officials Chosen For Fish-Soph Judging Battle

Contest To Be Held This Afternoon In Main Aggie Building

OFFICIALS who will preside over the freshman-sophomore judging contest being held Saturday afternoon in the Agriculture building were chosen at a meeting of the Plant Industry club.

In the horticulture division of the contest, Mark Miles is superintendent, Ralph Havis, Billy Nivin and Norman Jones are assistant superintendents. Judges will be W. W. Yocum, associate professor of horticulture, and O. B. Howell, professor of horticulture, assisted by J. A. Foy and Buford Haley.

Bob Spener will be superintendent of the agronomy phase. He will be assisted by Bob Hargroves, James Arron and Welbourn Miller. Crop judges will be Dr. A. W. Young, head professor of plant industry, Ernest Alder, instructor in agronomy and students Burney Rager and J. R. Wright.

Fifty specimens of crops and weeds which have been studied in agronomy 131 laboratory will be offered for identification and judging to agronomy contestants. The horticulture phase includes the identification of 50 specimens in addition to practices which have been studied, such as patch budding, whip grafting, cleft grafting, pruning newly transplanted fruit trees and pruning established grape vines.

Ribbons will be awarded for first, second and third places in all phases of the contest. For first, second and third place winners of all agronomy and all horticulture, gold, silver and bronze medals will be given. Presentation of the awards will be made April 27, at the open house. All sophomores and prospective members will be invited.

## Aggies Vote To Sponsor Softball Tournament

At a regular meeting of the Aggie Club last Tuesday night plans were made toward getting the Aggie softball tournament underway. Euton Estes was elected general manager of the teams. It is planned now to have teams made up from the different departments and two teams from each of the Sophomore and Freshman classes. Team names will be posted soon, and it is hoped that every aggie will sign up with the team of his department or class in case of the Fish and Sophomores.

All aggies are reminded not to forget the picnic May 2.

## Magnetometer Is Damaged By Vandals

By R. G. EDWARDS  
Toreador Staff Writer

VANDALISM sprang forth anew on Tech campus last week in the form of destroying equipment in the magnetometer house of the physics department.

J. H. Rush, instructor in physics, first discovered the damage shortly after the Easter holidays when he went to check up on equipment.

This is the second time within the past three months that equipment in the house has been damaged or broken. On February 8 the house was broken into and much damage done. At this time the vandal entered through a window, last week however, the door was removed from the hinges with tools and the hasp and lock removed completely.

A trap door that was to have

been burglar proof when completed was destroyed, a ladder broken into three pieces. The most expensive part of the machine was still in the physics department where it had been moved some time before.

The magnetometer is usually kept in a small wooden building west of the Library, it necessary to store it in such a building for the machine will not operate properly if placed too close to any iron.

Magnetometer readings have been carried on by the physics department for several years. This is an instrument to ascertain the force and the variations in the force of magnetism. The magnetometer measures the magnetic forces that are constantly shifting in the earth. Experiments are now being conducted to predict weather conditions by the use of this instrument.

See DAMAGE, Page 4

## Convocation Set For Nominations

By FELICIA BOULTER  
Toreador Staff Writer

A STUDENT convocation slated for Thursday morning at 11 o'clock will ring the proverbial bell for the annual spring election bout, attracting Tech student vying for Student Association offices.

Techsians will convene in the Double T gymnasium, where nominations will be made from the floor for the Student Association officers, including the president, vice-president, business manager, secretary, representative to the Athletic Council and cheer leaders.

Nominations for yell leaders will come partially from the Double T Association, which will make recommendations amounting to nominations at their meeting Monday night. Positions to be filled are those of the two head cheer leaders, one boy and one girl.

To meet qualification requirements for candidacy for the offices of president, vice-president, secretary and business manager, see CONVOCATION, Page 4

## "Figaro" Seems Sure Fire Hit

Its success in New York and other cities indicates that the new and exciting production of "The Marriage of Figaro" to be heard here on Tech's Artist Course Monday night in the High School Auditorium is doing more to popularize opera in America than anything in years.

The performance is in English in a notable translation by the great contemporary English librettist and critic, Edward Dent. This is the translation which Grove's authoritative Dictionary of Music and Musicians credits with having "set a new standard in English translation of opera."

By substituting a narrator in the manner of "Our Town" for the usual cumbersome operatic sets the Figaro troupe can "travel light." As a result they are able to bring this acknowledged masterpiece of opera buffa to places where opera was only a name before.

When this production was done in New York Gotham's hard-boiled critics were united in their enthusiasm for a Figaro which could be as hilarious as a George Kaufman comedy and yet fulfill the highest standard of musical excellence. James Whittaker, in the New York Mirror called it "an utterly disarming and delicious performance of the same opera which set the town afire in Metropolitan Opera performance last season. It is recalled that, in the 'Met,' the audience listened gravely while the cast sang farce. Only those

who understood Italian were permitted to laugh out loud. Honestly, it would be hard to say which of the two performances of Figaro gave the most pleasure."

It was high in praise of Virgil

Thomson's who composed the music to Gertrude Stein's words in the opera "Four Saints in Three Acts" wrote "From Row J I heard and distinguished without effort literally every word pronounced or sung on the Town Hall stage even in the concerted numbers. Believe me or not, it's the God's truth, I'm telling you!" Having tackled the problem of making Stein's intelligible over the footlights no one was in a better position to know the importance of good diction.

The young artists responsible for this feat met in New York at the Julliard Graduate School which has produced great Metropolitan voices as the baritone, Julius Huehn, the tenor, Charles Kullman, and the mezzo-soprano, Rise Stevens. Their talents had won them scholarships but they were already seasoned troupers. Six of them had sung under the well-known conductor, Albert Stoessel, in his Chautauqua Opera Company. All of them had won concert laurels.

Coming from all parts of the United States, they are American, born and bred. They liked the American public and they liked Mozart and they knew that the two would like each other if given a chance.

Audiences everywhere have given the praise of the New York Herald-Tribune's music critic who wrote: "Never have I seen an audience enjoy, never have I myself enjoyed 'Figaro' with such wholehearted gusto."

HELEN VAN LOON—Metropolitan soprano who will star in "The Marriage of Figaro" when the light opera appears as the second number on the Tech Spring Artist course program. Miss Van Loon will be seen in her leading role Monday night at the high school auditorium.

## Kitchen To Speak To YM-YWCA Group

WILMER J. "Bill" Kitchen will be the main guest and principal speaker at the West Texas Area Spring conference of the Student Christian associations which opens on the campus this morning at ten o'clock. Kitchen has been field secretary for the New England Christian movement since 1928. J. Fred Miller, secretary of the southwest regional staff for the Student Christian associations will also be present for the meetings which last through today and Sunday.

Saturday's program opens with registration at ten a.m. Deans James G. Allen and J. M. Gordon open the convention proper at 11 a.m. today with the welcoming addresses. Neyland Heater will make introductions following the assembly.

"What it means to win the war" will be the subject of an address by Mr. Kitchen at two p.m. today which will be followed by discussion groups.

See KITCHEN, Page 4

Are Double T Lettermen Getting A Square Deal?

A short time ago the sweaters of first year football lettermen were received, a fact that is not generally known over the campus because the football men receiving the letters refused to wear them.

The sweaters are the same weight as those issued freshmen lettermen last year and the Double T is of the size used to denote minor sports, a six-inch letter.

Jackets were made from reed wool rather than the black leather, and the Double T design on the blankets was of felt rather than of the high grade stock used previously.

The student representative to the athletic council is elected by popular vote of the student body, and is entitled to one vote, the same as any other member of that committee.

IS THIS THE WAY OF THE DEMOCRACIES? Are we, as students, supposed to sit by and let the athletic council tear down our customs and traditions without giving us our rightful say and vote?

HERBERT J. JACKSON, junior arts and sciences student: I do think that a man's former beliefs should hinder his present election.

Hesitating to say who is responsible for the injustices done the student body and the football lettermen, THE TOREADOR is asking that Morley Jennings, czar of Tech athletics, and W. L. Stangel, chairman of the athletic council, reconsider the appropriations.

This time THE TOREADOR hopes to get some action. In past editorials appearing in our columns, we have been completely ignored, but this is a situation that must be remedied.

This Collegiate World

Members of Delta Gamma sorority at the University of Akron, hearing that men students were buying fewer defense stamps than were the co-eds, offered a kiss with each stamp sold on "bargain" day.

The usual day's sales had been \$8. "Bargain" day hit \$30. Not to be outdone, the Purdue university chapter of Alpha Zeta, national agricultural honorary fraternity, held a dinner.

Iowa State college engineering extension service is preparing a fire service training course to get offered in various Iowa cities.

Five hundred six students and faculty members at Washington State college registered in the most recent selective service registration.

THE TOREADOR

THE TOREADOR, student newspaper of Texas Technological college, is published every Wednesday and Saturday on the campus of Texas Technological college at Lubbock by students of the Journalism department.

Techsians Say: The Isolationist Has No Place In Today's Politics

By CLEM SIMPSON Student Opinion Editor

Should all former isolationists be defeated in the coming elections?

ADRIAN COOK, senior arts and sciences student: Yes, once an isolationist, always an isolationist.

DON KLEINSCHMIDT, Yes, because this type of person is dangerous to the safety of a nation because he retards or hinders necessary bills which are necessary to the defense of a nation in time of peril.

ROSS GEE, junior student: For me, isolationists, though no longer isolationists, are apt to change back at any time. I think that they should be removed from office.

HAL CRABB, freshman CE major: If an isolationist is not still an isolationist, let him hold office if he performs his duties; otherwise remove him.

JAMES MASTERSON, junior engineer: Yes, our war production is at least a year behind on their account.

JOHN H. WATKINS, senior A.H. major: Yes, I think that in a war there is no place for isolationists. If the former isolationist should change his views, I see no reason for his not being elected.

ERNEST AMOS, freshman pre-engineer: Not necessarily, if a man is working for the good of the nation in war time, he is doing his duty.

BERTELL JACKSON, junior arts and sciences student: I do think that a man's former beliefs should hinder his present election. Some of our best politicians are former isolationists.

Navy Class V-7 Terminates On First of May

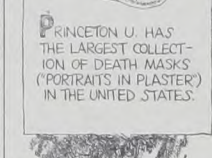

Navy Department Announces End Of V-7 Program

Termination of Class V-7 program on or about May 1, 1942, has been announced by Rear Admiral Randall Jacobs, chief of the Bureau of Navigation, Navy Department, Washington, D. C.

For those with just one year of college, the job to apply for is that of "Junior Technician and Scientific Aid." Emphasis on college physics and chemistry is required.

Yale graduates have on the average only 2.3 children, while Vassar graduates have 2.6, according to surveys.

Campus Camera

JOB... Each day adds to the likelihood of all-out registration of women-power (ages 18 to 65).

The swing is most dramatic in war industries. Less startling—but of more practical value to college women—is the fact that the swing is taking place in almost every field.

The Federal Government is leading the way. Not to mention those hired "in the field," 600 women arrived in Washington each week to enter Federal service.

Uncle Sam is using them, too, in skilled and semi-skilled fields—as gas mask inspectors and assemblers, arsenal apprentices, mechanical time fuse workers, examiners of knitted and woven articles, power sewing machine operators.

Right now Civil Service is looking for women mathematicians to make computations in ballistic testing for war agencies.

There are also vacancies right now for women "Junior Physicians" (especially those trained in radio or sound) at \$2,000 a year.

Dr. Ralph Chaney, professor of paleontology from the University of California, spoke of "Tertiary Plants" to a point meeting of Sigma Xi and the Science club Thursday night.

Dr. Chaney is one of the few paleontologists in the U. S. and has been in Texas collecting fossils in the vicinity near Amarillo.

Dr. W. S. Glock, associate professor of geology in Tech, assisted Dr. Chaney in this collection before he came to Lubbock to address the group.

Patronize Toreador Advertisers.

Incidentally, there's no intention of shouldering college men out of this job picture. However, current vacancies are for women.

Alumni of 651 American educational institutions are represented at the "University of the Air," Naval Air Corps training base at Corpus Christi, Texas.

The U. S. Office of Education here reports that world war has brought students from 70 foreign countries to American colleges and universities during the last year.

When Stavanger students heard their school was to be taken over by Nazi troops, they sneaked into the school building, stripping it of fixtures before the Nazis arrived.

Sigma Xi, Science Club Hear Dr. Ralph Chaney

Musing On Amusements

By Raymond Piller

QUOTING publicity from 20th Century-Fox: "Betty Grable is now princess of one of the tribes native to the South Seas. During the filming of her latest starring vehicle, 'Song of the Islands,' Betty had a scene in which she was supposed to be inducted into the local tribe. The ceremony took place with great fanfare and a native 'ex-hilarious climax of the production' officiated.

The cast of "Ball of Fire" includes Dana Andrews, Dan Duray, Henry Travers and Leonid Kinskey. Gene Krupa and his band are featured in one sequence.

Heading the line-up of talent are Sir Cedric Hardwicke, Lon Chaney, Ralph Bellamy, Lionel Atwill, Bela Lugosi and Evelyn Akers.

The Tech theatre has a hit on their hands with "Ball of Fire," a rowdy, riotous comedy to keep any audience in almost continuous laughter.

Gaining practical experience in the production of dairy products was the object of the field trip to Texas plants taken by the senior and junior Dairy Manufacturers students of Texas Technological College, March 31 to April 6.

Major equipment observed were mechanical can washers, dump vats and scales, mechanical bottle washers, pasteurizers, clarifiers, homogenizers, vacuum pans, cheese vats, cheese presses, cooling separators, churns, skim drying plants, deodorizers, filters, ice cream freezers, and mechanical bottle fillers and cappers.

Different methods used in producing market milk, condensed milk, skim milk powder, cheese, butter, and margarine were observed and comparisons made.

The Unit Method of Learning and Teaching is a new handbook written for prospective and in-service teachers, by Dr. W. B. Irvin, superintendent of Lubbock public schools and immediate past-president of the Texas State Teachers Association, and Dr. Doyle D. Jackson, professor of education, Texas Technological college.

Education Book By Tech Prof Is Published

For the use of public-school administrators and supervisors, together with classroom teachers, there is a treatment of the four-year plan of public-school organization. There is included, also, a discussion of the new high-school evaluation criteria.

The Federal Food and Drug Laboratories in Houston were visited, and the Federal inspector discussed practical experience he had had in inspection work.

Tentative Plans For Annual Band School Are Given

Largest Attendance Since Beginning of School Is Expected

Plans for Tech's ninth annual summer band school are virtually complete, according to Prof. D. O. Wiley. The school is to last from June 3 through July 11, and will include intensive courses for pre-college students, for regular college students in summer school, and for band directors and others working toward graduate degrees.

Tuition and deposit fees for the band school will be \$18, while room and board in the dormitories will be \$45 for the period.

Reports coming in from over the area, Professor Wiley believes that the attendance is likely to be the largest since the school started.

Major equipment observed were mechanical can washers, dump vats and scales, mechanical bottle washers, pasteurizers, clarifiers, homogenizers, vacuum pans, cheese vats, cheese presses, cooling separators, churns, skim drying plants, deodorizers, filters, ice cream freezers, and mechanical bottle fillers and cappers.

**Veteran Fencers Bow To Techsians In League Finals**

Beakley, Rollwage Battle to Second And Third Places

Taking a second and third place in the Southwest Fencing League finals at Dallas, the darkhorse Texas Tech fencing squad surprised veteran contenders in swordplay, according to George Beakley, student fencing coach.

Meeting college and professional teams from throughout Louisiana, Oklahoma, New Mexico and Texas, the five Red Raider swordsmen made a name for themselves in their first year of conference play.

Beakley, recovering from an attack of influenza, hewed his way to the finals in sabre competition to surprise nationally-known swordsmen. Among those who bowed to the Techsians' sword were Clem D'Albergo, Italian duke and present holder of the national foil title; Captain Spiller of the Purdue championship team, and Roland Stiles, experienced Dallas swordsman. During this match Stiles knocked Beakley out when he hit him on the back of the head in a heated exchange of thrusts.

Rois Brockman, veteran swordsman, defeated Beakley, 5-4, in the final match.

Bill Rollwage, freshman Raider dualist, surprised the more experienced swordsmen when he placed third in foil competition. One of his most surprised victims was Captain Stillinger of the Texas A&M squad.

Left-handed J. W. Martin managed to work his way to the quarter-finals before he was edged out of the competition. Others making the trip included Ellis Stagner and Arvis Hilton, with John Harding, economics professor, as faculty advisor.

University of Pennsylvania coeds have formed sewing and cutting squads to make blackout curtains for the men's dormitories.

**Tech Defeats Buffs 69-61 In Home Event**

In the first home track meet in several seasons, Tech trackmen defeated West Texas State college of Canyon 69 to 61 on Lubbock High school's Chapman Field Wednesday afternoon. Lubbock High easily swamped Littlefield in the same meet.

J. R. Callahan was high point man with 14 1-2 points. Other winners that put Tech ahead were Weldon Barton, first in 880, second in 440, Maxey McKnight, first in broad jump, second in high hurdles, and J. V. Burdett, first in 220 and 440.

Among those appearing for the first time as Raider trackmen were Leete Jackson, Elvis Erwin, Norman Volz, L. A. Storrs, Caylor Caddell, Rufus Rush, John St. Clair, Roger Smith, Gabe Gilley, Ed Irons, and Clifford Barr. Elmer Hargrove and Luther Cunningham, freshmen, competed in varsity events for the first time.

Until the last event Tech was leading by only three points. In this event, the mile relay, Norman Volz passed his enemy of basketball days, Price Brookfield, in the third quarter, despite Brookfield's beginning lead of 140 yards. Burdett held the lead in the final quarter which gave Tech the victory.

Events and winners in order of finish: 120-yd. high hurdles: House West Texas; McKnight, Tech; Dowlen, West Texas. Time 16.9.

100-yd. dash: McManan, 10.7, West Texas; Webster, Tech; Curb, West Texas.

One-mile run: Campbell, 4 min. 51.5 sec., Tech; Mikeska, Tech; Hall, West Texas.

440-yd. dash: Burdett, 53.4, Tech; Barton, Tech; Pruitt, West Texas.

220-yd. dash: Burdett, 23.8, Tech; McManan, West Texas; Winter, West Texas.

880-yd. run: Barton, 2 min. 9 sec., Tech; Brooks, West Texas; Thornburg, West Texas.

Two-mile run: Cunningham, 11 min. 35.5 sec., Tech; Clinton, West Texas.

One-mile relay: Tech (Callahan, Barton, Volz, Burdett), 3 min. 36 sec.; West Texas.

Javelin: Brookfield, 140 ft., 1 in., West Texas; Callahan, Tech; Hall, West Texas.

Pole vault: Stockman, West Texas and Callahan, Tech, tie for first 10 ft., 9 in.; Winter and Word, West Texas, and Gilley, Storrs, Tech, tie for next place.

Broad jump: McKnight, 20 ft. 4 in., Tech; Thornburg and Dowlen, West Texas, tie for second.

Discuss throw: Reed, 122 ft., West Texas; Halbert, West Texas; Callahan, Tech.

Adoption of the quarter system at the University of Kentucky will become effective in June.

**Sports Program Going Forward**

Upon completion of two divisions of the Tech intramural sports program, West hall and a composite town squad made up of the Trojan Spartan teams stand tied with 150 points each for first place in the intra-school series.

Receiving 100 points upon winning the basketball series playoff, West hall took an early lead from the town team and Sneed hall who followed with 50 and 25 points respectively. In the intramural track meet the Trojans came back to win first place, bringing the town team in to tied position with West hall who took second slot and 50 points leaving the third place to Sneed hall.

Softball play goes into its final stages this week as probable playoff contenders emerge from the series. Few games remain on the docket for the eight-team conference. Upon completion of the softball schedule, the mural program moves to baseball with the same schedule and teams.

Volleyball, the fourth sport on the mural program, got under way early this week in the three divisions.

Tennis the last division of the sports program will get under way immediately upon completion of the softball series, according to Coach Morley Jennings, director of the sports program.

Harvard university has called Dr. C. P. Borer, University of Texas physicist and nationally-known authority on sound, as director of a program of research in acoustics for the services.

COMEDY LATE NEWS

**League Track Finals Held Here This Afternoon**

Final events in the interscholastic league track meet here begin at 2 o'clock this afternoon, Earl Huffman, athletic director for interscholastic league district 3, has announced. Preliminaries were held yesterday.

Admission fee of 25 cents will be charged for the final event which will feature such performers as Hamett of Hale Center, Hammond and Yarbrough of Littlefield, and Nabors, Thorne, Brewer, Moore and Bechtel of Lubbock.

Huffman stated that despite the fact that many of the 16 counties of district 3 did not have a county meet this year, some 150 athletes are participating in the event. Normally 250 or 300 take part.

Winners this year, the director said, will be awarded defense stamps this year instead of the customary medals. Denominations of 25 cent stamps will be awarded winning teams, while 10 cent stamps will be awarded individual winners.

Muleshoe won the track events last year. Observers think their chances of repeating the win are small. Lubbock, with its well-rounded and already proven team is expected by many to win the meet.

Also held today will be the rural pentathlon which is expected to attract considerable attention. In it one man competes in all of the five events of 100-yard dash, high jump, broad jump, shot put, and hop, skip and jump.

**New Members of Junior Council Are Honored**

Twenty new members of Junior council were honored by the outgoing members with a picnic at 5:30 Thursday afternoon at Mackenzie park, followed by a theater party. Initiation services for the service organization of outstanding junior girls were held the preceding Thursday.

Council members who will serve next year are Betty O'Mara, president, Maxine Craddock, Genevieve Decker, Sarah Eiland, Eleanor Gillham, Marydel Hawkins, Marie Hunsucker, Louise Lewis, Rowena McKinley, Billie Marie Miller Edith Poole, Marie Peterman, Mary Beth Smith, Ophelia May Beal, Lydia Ann Duff, Mary Menon Stangel, Mary Ann Stephenson, Gertrude Parrot, Evelyn Woodson and Bertie Jo Shell.

**Raiders In Albuquerque For Triple Match Today**

Tech's golf, tennis and track representatives are in Albuquerque today opposing the University of New Mexico in a triple match.

All aggregations are conceded good chances for victory. Netmen have three victories against one defeat on their record, while the golf team has won two of three meetings, and the track team has participated in three meets, placing in all and winning one.

The same squads are formulating plans for attending the Border conference meet in Tempe, Ariz., May 1, coaches have announced.

Damage

Continued from Page 1

strument. Tech is using this machine in connection with research that is being carried on in static electricity and sand storms.

At about the same time the house was broken into, the ceiling light of the U. S. Weather bureau reporting station was thrown out of adjustment.

The magnetometer is not part of the weather bureau but Rush expressed the opinion that someone might have mistaken the two. Rush thinks that there might be a possibility of sabotage in connection with the tampering.

Evidence left at the scene has been turned over to the local police. Federal authorities will also be notified of the tampering.

For the present time readings have been discontinued and will not be resumed until the damage can be repaired and the building made burglar proof.

Kitchen

Continued from Page 1

A picnic at aggie grove will furnish entertainment for the visitors this afternoon at 6.45 o'clock.

Kitchen will address the group again tonight on "The responsibility of winning the peace." Recreation will be provided for conventionaires following the address.

A nine o'clock worship service will open Sunday's activities and will be followed by an address on "The Christian norm for the post war world" by Mr. Kitchen. The rest of the day will be spent in discussion groups, a summary, business session and a 2 p.m. worship service.

Members of the area council will be guests at a breakfast Sunday morning.

Three schools will be represented at the conference. They are: West Texas State Teachers' College from Canyon, Eastern New Mexico College from Portales and Texas Tech.

Student leaders for the discussion groups will be: Helen Walker, Texas Tech, Mildred Merchant, West Texas State Teachers' College, Lucille West, Eastern New Mexico College, and Mary Frances Bell, Tech.

Adult resource leaders are: J. Frederick Miller, Dr. A. K. Knott, sponsor of the SCA at WTSTC, Fred Griffin, SCA sponsor at Tech, Dr. Mattie Swayne, WTSTC, and Dr. H. C. Gossard, director of internal organization at Eastern New Mexico college.

Headquarters for the conference will be Seaman Hall.

Election of Pre-Law club officers will be held Tuesday night at 7:30 o'clock in room 302 of the Administration building. Members are urged to attend this meeting, and if you have been absent from any one of the last three meetings, a written excuse is required before being able to vote.

Officers were installed in formal rites Tuesday for Theta Sigma Phi, women's journalistic fraternity. Those installed were: Georgia Lee Powers, president; Felicia Boulter, vice-president; Kara Hunsucker, secretary; Elizabeth Young, treasurer; Maxine Conner, A.W.S. representative; Helen Joy Smith, Keeper of the Archives; Mary Margaret Tunnell, retiring vice-president, conducted the service. Mrs. Louise C. Allen is sponsor of the group.

A short course in gardening, given for the benefit of Edwardes clerks and salesmen of garden tools, will be held early next week by Prof. O. B. Howell of the plant industry department. The course will be held two nights either at Meinecke Brothers or Terry-Childress.

Various committees for the annual Women's Recognition service have been appointed by Dean Mary W. Doak, general chairman. The service honoring outstanding women students will be held the night of May 12 on the A building green. Committee chairmen will meet with Dean Doak at 5 p.m. Tuesday in Ad 207.

Annual banquet and initiation services for Kappa Mu Epsilon, national honorary mathematics fraternity, were held Monday night at the Mexican Inn. Nancy Ann Miller, acting president, presided. Students initiated were Orville Alderson, George Beakley, Madge Boyd, Charles Britton, Charles Freeman, Bernard Hayron, Jay Martin, Bruce Moore, Elmer Jamieson, Bruce Johnston, Buster Houston, Catherine Thruston, Robert Scott, Roger Owen, Mary Sparks, Gene Pendleton, Cecil Pinkerton, and Charles Arnold.

Prof. Roy MacKay of the New Mexico State college at Las Cruces will visit Texas Tech campus next Wednesday in a lecture tour sponsored by the Southwestern section of the Mathematical

Convocation

Continued from Page 1

dents must have maintained a C average in all college work. They are required to have passed a minimum of nine semester hours with at least a "C" average during the semester preceding the election, making the fall semester the term under consideration.

Candidates for the offices of president and vice-president must be credited with at least 90 semester hours at the time they assume office, with 60 semester hours being required of the remaining officers. Technically speaking, officers shall assume the duties of office upon the last day of the spring semester, although council members are not elected until the following fall semester.

Election of Student Association officers will be held Thursday, April 30, by secret, preferential voting. Ballot boxes will open from 8 until 5 o'clock in the Administration Agriculture, Home Economics and Engineering buildings.

Association of America, of which he is chairman. He will speak on "Some Interesting Properties of Solids" at 8 p.m. Wednesday in Room 208 of the Press building. The public is invited to attend the lecture. The talk will replace the regular May departmental meeting of the mathematics faculty, according to Prof. J. N. Michie, math head.

A Pan-American theme was featured at a banquet given last night at the Mexican Inn, attended by high school Spanish teachers and students here for the Interscholastic League meet and members of the Tec foreign languages department. Students from Olton, Tahoka, Lubbock, and O'Donnell high schools were on the program.

Ray Halsey, B. S. in geology, 1940, visited the geology department this week on business. At present Halsey is employed by the Petty Geophysical company.

Dean O. V. Adams and Prof. O. A. St. Clair were in Fort Worth last week to attend ESMST committee meetings. Dean Adams served as chairman of the Northwest Texas committee. Prof. St. Clair organized courses in production engineering and safety engineering in Fort Worth, Midland and Big Spring.

In order to receive a senior letter at registration next September, all engineers of senior standing should apply for their degree in Dean Adams office before June 30. Seniors should have at least 90 hours college credit, including 4 hours of physical education, and have at least 90 grade points.

AGRICULTURAL STUDENTS

The 1942 summer school offers an opportunity not to be disregarded.

ARE YOU—

Behind in your course—

if so attend summer school and catch up.

Working for self support—

work will be available next year. How about clearing up some course work so that you may more nearly do justice to yourself during the long session next year.

Desirous of getting through college just as soon as possible—

a regular summer session schedule will enable you to do it.

Wishing to start your freshman work—

the time to start is now.

A senior with some more work to do—

it will be available.

Texas Technological College has more to offer the Agricultural student than ever before. The new agricultural building will be ready for use next year. There are many who should wish to attend this college now who have had some doubts previously.

If you are a student here you may wish to direct some acquaintances to me for advice or suggestion. Will you please do so?

Surely one of the great questions before the young man today is, after the war, what about my future? College training is not only needed now; it will be needed in the future and Agriculture will continue to require and demand the best and the highest development you can possibly attain.

Please remember that the new student can cover an entire 15 weeks program this summer. Students now in college are urged to interview the Deans and Department heads now to go over a long time program so that the entire college program may be planned to the best advantage.

A. H. LEIDIGH, Dean Division of Agriculture

More Pleasure for You

There's satisfaction in knowing that the 6 1/2¢ revenue tax you pay on every pack of twenty cigarettes is doing its bit for Uncle Sam

And Chesterfield's superior blend of the world's best cigarette tobaccos has everything it takes to satisfy a smoker. It gives you a smoke that is definitely Milder, far Cooler and lots BETTER-TASTING. Get yourself a pack of Chesterfields today.

Smoke the cigarette that SATISFIES.

MORE ARMS for AMERICA. We Pay More Than \$2,000,000 A WEEK into the U.S. Treasury for the Tax Stamps necessary for one week's output of Chesterfields. Here's what this would buy for defense in one year: 4,160 105-mm. HOWITZERS or 52,000 COMPLETE FIELD KITCHENS or 115,555 3-PASSENGER COMBAT CARS. BUY U.S. DEFENSE BONDS AND STAMPS TODAY

ON THE NATION'S FRONT It's Chesterfield. WITH MEN OF STEEL, building our ships and tanks and planes, it's Chesterfield. Everybody who smokes them likes them. CHESTERFIELDS follow the flag. On every front you'll find them giving our fighting men more pleasure with their milder, better taste. RUTH HAVILAND and SUSAN CLARKE, of the Women Flyers of America. With the alert young women flyers of America who are doing their part in the National Defense picture...it's Chesterfield. They Satisfy.
