

# Twenty - Six Named To Who's Who

## the Toredor

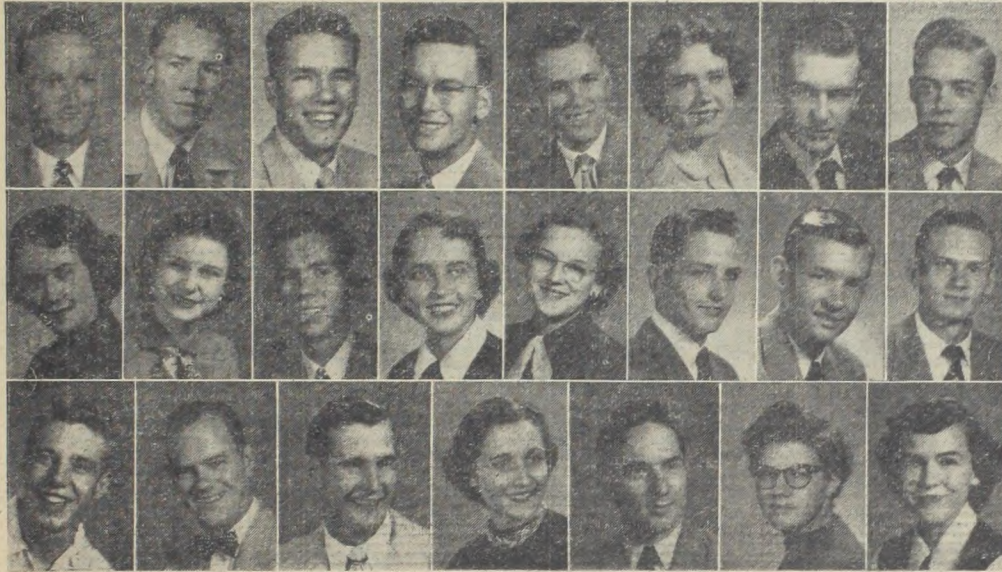

Vol. XXVI Texas Technological College, Lubbock, Tuesday, November 13, 1951 No. 16

Twenty-two seniors and four juniors have been named as Tech's nominees to Who's Who in American Colleges and Universities, a national publication, according to Dean James G. Allen in an announcement made Monday.

Students are nominees until officially accepted, Allen said.

Selection of students is made by a committee composed of 10 students and usually two faculty members. Divisional deans recommend names of Techsians, and these students then fill out applications. Final choosing is done on the basis of scholarship and leadership.

Names, grade-point averages and activities of this year's Who's Who are given below.

WHO'S WHO—First row, left to right: Emmett Adair, Jack Alderson, Harold Brannan, Brian Boyett, Kenneth Burgess, Peggy Carter, Jim Choate and James Dent; second row, left to right: Jane Foster, Pat Johnson, Charles Joplin, Mary Ann Kelley, Marie Lewis, Jim McGraw, Jimmy Mason and George Morris; third row, left to right: John Norcross, Bill Parsley, Bob Schmidt, Elizabeth Schovajsa, Fred Stanley, Dodie Stokes and Mary Byars Turner. Not pictured are Richard Brooks, Jack Cockburn and Nancy Davis.

Twenty-one seniors and five juniors have been named as Tech's nominees to Who's Who in American Colleges and Universities, a national publication, according to Dean James G. Allen in an announcement made Monday.

Students are nominees until officially accepted, Allen said.

Emmett C. Adair, engineering senior; Jack Alderson, engineering senior; Harold Brannan, arts and sciences junior; Brian Boyett, agriculture senior; Howard Dick Brooks, arts and sciences senior; Kenneth L. Burgess, agriculture senior; Peggy Carter, arts and sciences senior; Jim K. Choate, business administration senior; Jack T. Cockburn, engineering senior; Nancy Davis, arts and sciences junior; James Dent, arts and sciences junior; Jane Foster, home economics senior; Patricia Johnson, arts and sciences senior; Charles Joplin, business administration senior.

Mary Ann Kelley, arts and sciences senior; Marie Lewis, home economics senior; Jim McGraw, arts and sciences junior; Jimmie Mason, business administration senior; George E. Morris, business administration senior; John C. Norcross, arts and sciences senior; Bill J. Parsley, arts and sciences senior; Robert G. Schmidt, agriculture senior; Elizabeth Schovajsa, home economics senior; Fred C. Stanley, engineering senior; Dora Lynne Stokes, arts and sciences senior; Mary Byars Turner, engineering senior, are the students named to this year's Who's Who.

The complete list of students' activities and grade-point averages will appear in Friday's Toredor.

Selection of students is made by a committee composed of 10 students, who have voting powers, and two administrators, who do not vote. Names are given to the committee by academic deans and are also brought up by the students on the committee.

Those named then fill out application forms.

Qualifications necessary for the

See WHO'S WHO, Page 8

### Election Of Class, All-School Favorites Slated For Monday By Student Council

Applications for class favorites and Mr. and Mrs. Texas Tech may be entered in the Student council office, Ad161, from 2 to 5 p.m. tomorrow and Thursday, according to Elizabeth Schovajsa, secretary.

Monday and Tuesday were set as dates for the general election for these favorites, and also for voting on the petition for changing the school song. Polls, which will be located in the Administration, Agriculture, Home Economics and Engineering buildings, will be open from 8 a.m. to 3 p.m.

Instead of circulating petitions this year, the council voted in a regular meeting last night to ask all persons interested to come by and leave their name with anyone in the office.

Petitions from Men's Dormitories III and IV explaining eating conditions are to be sent to the administration for further action. Rodney Balke, chairman of the committee investigating the situation, requested that this action be taken since the council committee can do nothing further. Charles Joplin, chairman of the varsity show committee, announced that applications for director would open in about a week. Deadline for scripts is Jan. 7.

Selection of a Sun Princess will also be soon. Students interested must obtain 250 signatures on a petition, and the Student council will then decide on the Princess. The selection will not be brought before the student body in the general election.

Aubrey "Red" Phillips, traffic court chairman, outlined the plan for the Student Traffic court to

be set up. According to plans now made, violators of traffic laws will appear before the court receiving first only a reprimand, restricted use of their cars on the second offense, and disciplinary committee action in case of further violations.

Hardy Clemmons, A&S representative, announced that the World Student Service fund talent show would be Dec. 5. Brian Boyett, agriculture representative, reported that the council could secure any form of pin or key with the council seal on it. Jack Alderson, engineering representative, reported on the publications committee meeting.

#### TE Students, Faculty Visit Post-Tex Textile Plant

Five junior textile engineering students and two faculty members are in Post today touring the recently modernized Post-Tex Mills, according to L. E. Parsons, head of the textile engineering department.

The class will observe modern methods in the manufacturing and fabric finishing of sheeting material.

Students are Donald Davis, Lubbock; Jose Delgadillo, Mexico; Walter Matthews, Houston; Gerald White, Olney and Norman Stephens, San Antonio.

Faculty members are L. E. Parsons, head of textile engineering, and S. F. Shafter, assistant professor of textile engineering.

#### Interviews To Be Held For Engineering Grads

Interviews for positions with the Victor division of Radio corporation of America will be conducted by R. J. Tullar, manager of the engineering section for the company, in the Placement office, located in the Ad building, tomorrow from 9 a.m. to 5 p.m.

January, May and August degree candidates with majors in electrical engineering, industrial engineering, mechanical engineering, chemistry or physics will be eligible, announced Mrs. Jean Jenkins, Tech placement service director.

#### Publicity, Speech On BSO Agenda

Theta Sigma Phi, national honorary society for women journalists, will sponsor a publicity clinic at the regular meeting of the Board of Student organizations at 5 p.m. today in the Aggie auditorium.

"Duties of a Club Reporter" will be the topic of the clinic, and reporters from each campus club have been urged to attend the meeting.

Betty Formby, staff member of the Avalanche-Journal, and Choc Hutchins, news editor for radio station, KCEB, will discuss "The Club Reporter and the Society Desk" and "The Club Reporter and the News Desk," respectively.

Pres. D. M. Wiggins will give a short talk preceding the clinic. Bob Schmidt, president of the student body, will be in charge of the

#### SENIORS TO HOLD MEETING

An important senior class meeting will be held at 5 p.m. tomorrow in Ad227, Jane Hyer, class secretary, said.

"All seniors should come as their graduation depends on the business which will be discussed at the meeting," Miss Hyer added.

### Red Cross To Seek Blood Donations In One-Day Drive Here November 21

Lewis Lester, junior engineering student from Lubbock, kicked off the college blood plasma drive Friday when he became the first Techsan to volunteer blood for the Red Cross bloodmobiles which will be on the campus Nov. 21 in the Naval reserve station.

Tech's ROTC teaching staff has also registered 100 percent to give blood to the organization, Mrs. J. H. Stiles, executive secretary of the Lubbock county chapter, said.

**Sponsor Sought**  
Any organization that wishes to sponsor the campus drive may do so by contacting James G. Allen, dean of student life. The club will have the responsibility of recruiting collegians for the bloodmobiles.

A goal for the college has not been set, Mrs. Stiles continued. Goal for Lubbock is 300 persons including campus personnel, with the exception of Korean

war veterans, students 18 years-of-age and older may register for the blood procurement program. Persons under the age of 21 must have their parents sign a parental consent form which may be obtained in Dean Allen's office, Mrs. Stiles added.

**Check-up To Be Given**  
Volunteers will receive a physical check-up before they will be allowed to donate to the blood bank. Students may register for the drive by calling the Lubbock Red Cross office, number 8534. The office is open from 9 a.m. to 5 p.m. each day.

Bloodmobiles are being sent from the North Texas Defense center in Fort Worth by the American Red Cross in cooperation with the U.S. Defense department. The bloodmobiles will spend two days at Reese Air Force base, Lubbock, before coming to the campus.

### Prof Is Honored By National Society

Tech's Carl Hemminger, associate professor of German, is being honored by Phi Delta Kappa, national educational honorary fraternity.

Hemminger, a charter member of the fraternity for 45 years, has been asked to submit data on his life and activities for the past 20 to 25 years for publication in the Phi Delta Kappan, organization magazine.

Hemminger was one of the 10 earliest members and was charter secretary for the fraternity. He became a member while attending Indiana university in 1906.

### Tech Freshman To Take Screen Test For MGM

Dorothy Salters, freshman music major from Fort Worth, has been offered a screen test by Metro-Goldwyn-Mayers studio.

She was a runner-up in the Miss Fort Worth contest last summer. One of the judges, who was a film scout, asked Miss Salters to let MGM make the test.

She was selected as sweetheart of squadron H recently when the air force ROTC held an election.

The test will be held sometime in the near future.

### ROTC Air Group Members Will Attend National Meet

Members of the Tech Arnold Air society will make a trip to the National Conclave to be held in Miami, Fla., sometime late in November.

Close to 1,500 air cadets from 85 schools are expected to attend the annual meeting.

Tech is in the Fourth Area headquarters, serving Texas, New Mexico, Oklahoma, Arkansas and Louisiana.

### AYERS TO BE JUDGE

Cecil Ayers, professor of agronomy at Tech, was selected as one of the judges for the International Grain and Hay show at Chicago to be held Nov. 25.

### Placement Office Expansion Noted

Mrs. Jean Jenkins, placement service director, believes the increase in job interviews is a result of the interest and cooperation which has been shown by Tech students throughout the years.

Without this cooperation and interest, the placement bureau could not operate, according to Mrs. Jenkins. Tech's greater prominence has also caused eastern and northern companies to send representatives here.

Mrs. Jenkins declared that many Tech alumni have requested job interviews with students this year.

### DP&L Plans Interviews, Color Film For Engineers

January, May and August graduates in electrical and mechanical engineering will be interviewed by Dallas Power & Light company Tuesday.

A general meeting will be held by the company Monday at 8 p.m. in the Engineering auditorium. A sound color film telling the story of the City of Dallas and Dallas Power & Light company will be shown.

### Foreign Language Shows To Be Broadcast By KSEL

Radio programs in French, Spanish and German will be broadcast over station KSEL, beginning in December, according to Ted Alexander, instructor of foreign language. These programs are sponsored by the foreign languages department.

A Christmas program conducted entirely in German, will begin the series, Alexander said.

### POCKET BOOK RETURNED

A pocket book belonging to Jean Raifsnnyder, who is employed by the Simmons company of Lubbock was returned to her Thursday by Jesse Hampton, Tech student who resides in Sneed hall.

## Three Band Sweetheart Candidates Are Announced; Deadline Is Friday

Only three candidates had been nominated for the title of Band Sweetheart by 5 p.m. yesterday, Bill Reuss, contest chairman, said.

Nancy Moran, sophomore music education major from Waco, sponsored by Sans Souci; Dorothy Salters, freshman music education major from Fort Worth, Wranglers, and Melba White, freshman English major from Lubbock, DFD, are the women who have indicated a desire to compete for the annual title.

### Deadline Set

Deadline for submitting names to be considered in the contest is 5 p.m. Friday, Reuss continued. Any organization on the campus may enter a woman in the contest which is sponsored by Kappa Kappa Psi, honorary band fraternity.

Ten contestants will be selected Sunday in the Aggie auditorium. From these 10, three finalists will be chosen on Nov. 25 in the Journalism building. The sweetheart will be introduced in half-time ceremonies of the football game between Tech and Hardin-Simmons university, Abilene, Dec. 1 in Jones stadium.

### Businessmen Are Judges

Lubbock businessmen will be judges for the contest, Reuss continued.

Connie Hopping, sophomore home economics major from Littlefield and number one 1951 La Ventana beauty, was last year's sweetheart.

Flattery is soft soap and soft soap is 90 percent lye.

**BEST OF THE BUNCH**—Harriet Moltz, president of Ko Shari social club, receives the Best Pledge Program cup from Mrs. Marjorie M. Neely, dean of women, at the annual Fall Women's Inter-Club Council luncheon Saturday in the Hilton hotel. Pledges of the five women's social clubs competed for the annual award which was given for the first time this year. Ko Shari pledges presented a marionette sketch for the winning skit.

## Aggie Pig Roast Set For Tonight

Introduction of Tech's judging teams will be the main event of the annual Aggie Pig Roast today in the Judging pavilion.

Two scholarships will be presented at the affair to outstanding aggies, one by the Borden company and one by the Robert Price foundation.

The welcoming address will be made by John Smith, president of the club. Bryan Boyett, senior from Breckenridge, will preside as master of ceremonies and W. L. Stangel, dean of agriculture, will present the awards.

The various teams to be introduced along with their sponsors are crop, dairy products, meat, wool, dairy cattle and livestock.

High heeled shoes and "wedgies" were worn in Europe in the eighteenth century.

### Religion Or Coffee . . .

Proprietors of coffee-houses along College avenue are probably in favor of Tech's observing Religious Emphasis week more often. Beginning last Monday, the drug stores and cafes nearby had very profitable mornings.

The bell announcing the end of the shortened 9 a.m. classes was a signal for a mass exodus eastward to the places where homage was paid to the Great God Caffeine. All too few students journeyed northward to the Gymnasium where another deity was being honored.

Lack of interest, of course, is the explanation for decreased attendance at the talks; but that lack was partly justified.

The quality of the talks was not up to the standard of past RE weeks—the talks, mind you, not the speakers. We have been told that the lecturers were assigned no definite subject for their speeches until they reported for duty. No man, however dedicated to his field, can do justice to an address to collegians on such short notice. As a result, the talks were nothing more, or less, than the sermons which most Techsians hear at Sunday church services.

No one need be discouraged over this state of affairs, though; religion is still more than a match for coffee.—Ralph Shelton.

### Tech's Heritage . . .

Tech's system of student participation in government was displayed well in last night's Student council meeting.

Among various items of business brought before the student governing body was a petition asking for a general election to decide, once and for all, on a school song for the college and petitions asking for investigation of the eating situation in Mens' Dorms III and IV.

In a large number of colleges over the country, according to reports we have received, such matters would never come up before student groups. Instead, the administration would settle the question or questions involved, with little regard to opinions of the students.

Free participation in student government is one of Tech's greatest heritages and should be guarded zealously.

With the right of participation in government, however, students must accept the responsibility, acting according to best interests of the school. As long as student officeholders fulfill this great responsibility, no one need worry about Tech's losing its right of student representation and participation in government.

### Under The Breezeway

By SHIRLEY JOHNSON  
Toreador Associate Editor

When driving down a street behind an old ratty car, one usually wonders just how the thing stays together. The solution has been discovered.

Although the car involved was not a particularly old one, it was rattling because of a very bad road. The driver of the car turned to the occupants and said, "Don't worry—every piece has my return address on it. I've never lost any of it permanently."

Everybody at one time or another has joked about being taken to the insane asylum. A group of students was standing in front of the Journalism building the other day when two fellow Techsians walked by.

Just before the two arrived, one of the jokesters had stated, "After next week, I think I'll be headed for a rest institution—all my teachers have scheduled quizzes, it seems."

Then the aforementioned pair walked by—one with a box and the other with a butterfly net.

"Well, shall we say about 9? (Pause) Sort of like an appointment?"

Words are not needed to ex-

plain this, we feel.

Coffee taste funny lately? Or, if not funny, at least different? Maybe the coffee-brewer has been adding spices and the like. We recently heard a suggestion that a small amount of salt added to the coffee grounds picks up the flavor very nicely.

Wonder how cinnamon or ginger would taste?

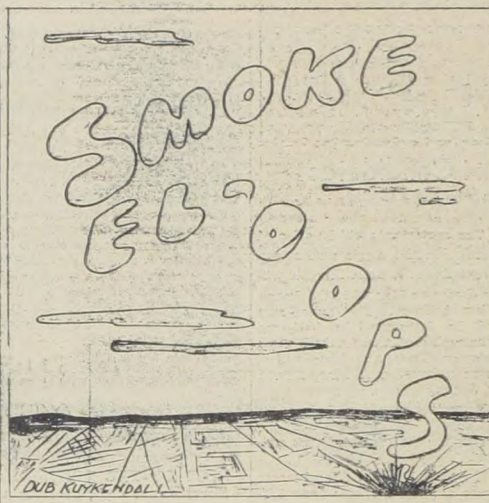

To complete this column with the same undertone of hysteria that it has attained so far, we'll close with an observation about one of the girls we know, who asked her date to strike a match for her. After repeated failures, he snarled, "Hell, this is a safety match."

The answer hysterical—"You mean it makes a difference?"

Mr. and Mrs. W. D. Revel, Tech graduates, are teaching at Lazbuddie, Mrs. Revel, the former Teresa Henson, class of '51, is teaching home economics, and Mr. Revel, class of '49, is teaching vocational agriculture.

J. H. Pruitt, class of '27, the first graduating class at Tech, attended the Homecoming festivities this year.

Roland Nabors, class of '48, is at Texas Western college, El Paso.

### Texas Tech Talk

## Wanted: Manuscripts For '52 Varsity Show

By JOHN NORCROSS  
Toreador Editor

Ever see a movie or stage production that made you turn up your nose and think, "I could do better than that myself"? Then here's your chance. Scripts are now being accepted for the 1952 Varsity show to be presented next spring.

Whether you're an engineer, home economics major or anything else for that matter, you are welcome to try your hand at producing a script.

Charles Joplin, chairman of the Varsity show committee of the Student council, says the committee would like to have as many scripts to pick from as possible and urges every interested Techsian to write one.

Suppose you have an idea for a good show and want to write a script. Just what are the requirements? To begin with, the Varsity show is produced by students and the script should use as large a cast as possible. As far as the plot goes, we'd say it should be "not too serious and not too involved."

The show usually lasts for about two and a half hours and includes eight or 10 song and dance numbers. Stage set for the production will be built by students, also, and should not require overly expensive materials. However, it doesn't necessarily take an expensive set to make a good show.

Scripts should be typewritten if possible, though handwritten scripts will be considered. They should be turned in to the Student council office, Ad 161. Every script will be given careful consideration by the committee before a decision is made.

Now you know the requirements. Take out your typewriter and hop to it. Before you know it you'll have a script worked out and be bubbling over with plans for staging it—okay, so you're not interested, we can dream, can't we?

We've heard a good many complaints about the picture situation for La Ventana this year. It seems that a number of students have had to wait unreasonably long to have their pictures made and even longer to see the proofs.

Students will have to make the best of this undesirable situation, if the 1952 La Ventana is to be produced. Through the cooperation of every student in having his picture made as soon as possible, the staff will be able to com-

plete the class sections of the book in time to meet engraving deadlines.

The editor and the publications committee are doing everything in their power to facilitate picture taking. But it will take the support and cooperation of the student body to produce a successful yearbook.

If you have not had your picture made, do so as soon as possible. All deadlines for having pictures made have been extended by the editor in order to give all students an opportunity to have their pictures in the yearbook.

Pic. Roy T. "Strawberry" Bassitt, former Tech junior, is now stationed with the first signal operations company at Camp Pendleton, Oceanside, Calif. Bassitt, who was active in Methodist student work while at Tech, enlisted with the marines early in 1951.

Former speech major Jake Sitters is now stationed at Fort Belvoir, Md., with the navy medical corps. Sitters was a member of Sock and Buskin dramatic society, and Le Cercle Francais, French club. He was a junior. Sitters also took part in the 1951 Varsity show.

Tommy G. Cooper, formerly a junior business major at Tech, is a naval air cadet at Pensacola Naval Air station, Pensacola, Fla. Cooper is now engaged in flight training.

Bill Sylvester, 1951 Tech pre-law graduate, is now stationed at Kelly Field, Roswell, N.M., where he is postal officer. Sylvester, who holds the rank of 2nd Lt., was active in Baptist student work while at Tech and a member of the Pre-law club.

He also held membership in Silver Key, social club, and sang in the glee club. His parents reside in Ropesville.

### About The Campuses

From a column entitled "Heavens; Shakespeare" in the Teachers College Index from Missouri come the following gems:

"There is something in his soul o'er which his melancholy sits on brood: He looks like he might give us that exam.

What's in a name: They can't stick me with that old buzzard again.

Or to take arms against a sea of trouble: If that professor doesn't pass me, I'll join the army.

The Mustang published at New Mexico Western college offers the following consolation; the only people who are really contented are to be found either in a graveyard or a lunatic asylum.

It seems at West Texas State college hell week is officially over. One girl said to her it wasn't so bad because she rather enjoyed wearing her pajamas to class.

At the University of Texas everything seems to be done in a big way according to the Daily Texan. It seems a University girl got pinned. Friends of the couple celebrated by throwing the boy and girl in the Memorial Fountain. In the excitement the pin was lost, and the girl, remembering that fire trucks had big search lights, turned in the alarm.

Two police cars and the fire trucks rushed to the campus. The girl only got reprimanded for turning in a false alarm. The pin is still missing.

Help week initiation activities have just been completed at Stillwater, Okla. The Daily O'Collegian reported the week is devoted to collecting food which was presented to a charity mission.

Tech isn't the only college that has accidents as a result of coke bottles. The Daily Texan had a story to the effect that one of their blind students fell down five rows of steps as a result of a carelessly placed coke bottle.

The only people who like dentists are dentists' wives, dentists' mothers and people with false teeth, according to a column in The Varsity News of Detroit, Mich.

Prof's Have Their Say

# Tech Profs, Instructors Tell What Makes Good Students

By MAURINE DENTON  
Toreador Staff Writer

What makes a 'good student'? One who devours his textbook and makes A on every quiz? One who is right there with the right answer every time? One who nods and smiles at everything the teacher says? Not if you listen to the opinion of some of the teachers at Tech.

What makes a good student? Interest and sincerity in his efforts, says E. L. McBride, professor of agricultural economics. "I like a student who is interested in the subject, who doesn't run for his book every time a question is asked but will think about it himself," said McBride. "An indifferent attitude on the part of a student is the most detestable thing to a teacher," he said.

"A good student is one who is more interested in a general education than in learning to make a living," said James F. Adams, instructor in government. The motivation of a student in coming to college often determines whether or not he will be a good student, Adams believes. "If he just comes because daddy sent him, he probably won't have much motivation," he remarked.

Another attribute of a good student, according to Adams, is one who questions the textbook. "Some of these textbooks are reeking with errors," he said, "but the students act like they're Bibles."

Interest in the subject is counted a top factor by Mrs. Mina Lamb, associate professor of foods and nutrition. "Not necessarily the amount a student learns, but the manner in which she expresses her interest and the way she sustains her interest indicate a good student," Mrs. Lamb remarked. Incidentally, Mrs. Lamb believes that boys in a classroom give it a more balanced viewpoint than an all-girl class.

Professor C. V. Bullen of the electrical engineering department said that students should "first have fundamental honesty. Second he should have a deep regard for his fellow student and, if possible, for his instructor." "He should have a keen interest in his field of study and a sense of responsibility," Bullen said.

He concluded by saying, "A student should have a clear cut objective and should take an interest in extracurricular activities, including church."

L. P. Powers, professor of mechanical engineering, also stressed interest in the student's field. He continued by saying, "Students should then realize that every course and instructor is different." "What I like to see a student do is show some individual, correct thinking," he concluded.

When asked what the qualities he thought a student should have, T. W. Camp, professor of English said, "Intelligence, integrity, initiative and perseverance."

Crop Judging Team Will Journey To Kansas City, Chicago Shows

Tech's crop judging team will go to Kansas City, Kan., Nov. 20 to compete in the National Intercollegiate Crop show and from there to Chicago to compete in the International Crop show Nov. 24, according to Cecil Ayers, sponsor.

The team is composed of Jack Bond, Archie Campbell, Paul Revere, Leonard Wilson and Bob Lile.

Charles Edward Clowe jr., class of '49, of Throckmorton, has been selected for the December class of the U.S. Navy-Officers Candidate school at Newport, R.I.

Whales sometimes live to be 500 years old.

Annual Short Course Plans Made By Dairy Department

The department of Dairy Manufactures are planning their third annual Dairy Manufacturers short course tomorrow through Friday in the Aggie auditorium, announced J. J. Willingham, head of department.

The program will cover all phases of the dairy industry. The Texas-New Mexico Dairy Technology society will meet in the Hilton hotel ball room.

TRYOUTS TO BE HELD

Final try-outs for Sock-and-Buskin, dramatics club, will be held in Room 2 of the Speech building from 3 to 5 p.m. Nov. 28 and 29.

Students interested in any phase of dramatics are urged to try-out for membership in the club, according to Jo Simmons, president. Try-out forms are available at the Speech building and should be obtained as soon as possible.

# THE DU PONT DIGEST

## M.E.'s AT DU PONT [2]

### Challenging variety of problems solved by research and development engineers

As a student of mechanical engineering, do you look forward to a future in research, development, plant engineering or production supervision?

In the Digest this month, we'd like to discuss the ample outlet Du Pont offers your talents in these fields.

Let's talk about research and development together because they often overlap indistinguishably. Both these fields deal with mechanisms for making products. In some cases, original equipment is designed for a new product. In others, machinery used in making existing products is improved to provide better quality at lower cost.

This design and development work may call for studies of the vibration of

machine elements, equipment, structural members and structures. Or there may be need for application of electronics, instrumentation, operation of test equipment and testing of experimental machines. In much of this activity there is close cooperation with other engineers, participation in group conferences, joint analysis of data, and issuance of recommendations.

Du Pont research and development engineers keep informed of developments through technical, trade and patent literature, seminars and lectures. Exceptional facilities for these are provided.

Here are some examples, specific and general, of the problems that confront Du Pont research and development engineers:

1. Develop and design high-speed slitting equipment for thin films. Involved are unwind and wind-up tension regulation, alignment of web travel and cutting-knife selection, combined in a machine easy to service.

2. Design equipment to operate at pressures up to 45,000 p.s.i. This is insurance against the time when processes may be developed that will operate in this range.

As pressures are increased, design problems for moderate pressures are magnified. Typical are stress-fatigue of metals, design of vessel closures and line joints, valves and packing for reciprocating compressors and centrifugal pumps, packing glands for stirred autoclaves, etc.

3. Design, installation and testing of large air-conditioning systems necessary in the manufacture of certain products. In one plant, water is used at the rate of 50 million gallons daily, current at 25,000 kw. per hour, and air at 5.5 million C.F.M.

These three examples, selected from

Albert Bond, B.S.M.E., M.I.T. '50 (right), and Rene Carl, M.I.T. '52 (summer worker), develop controls for chemical equipment.

E. T. Bradshaw, B.S.M.E. '46, M.S. '47, Queens U., Ireland, and J.D. McHugh, B.S. M.E., check theoretical calculations.

literally hundreds, can only hint at the breadth and variety of the problems that are constantly arising.

One of the strongest pieces of evidence that mechanical engineering is of major significance in the Du Pont Company is the existence of the Wilmington Shops. They represent an investment of over \$3,500,000 and cover an area of 300,000 sq. ft., including a foundry and pattern shop. They employ over 800 men and have a potential output in volume of work in excess of \$6,000,000 a year.

The size and diversity of this operation are justified only because the work of mechanical engineers is an important factor in Du Pont operations.

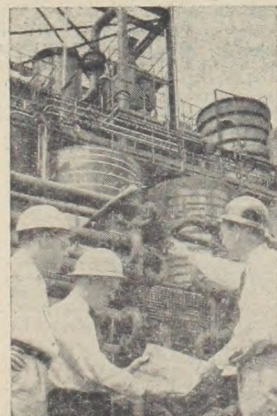

NEXT MONTH—Opportunities in plant engineering and product supervision will be discussed in the third article in this series, "M.E.'s at Du Pont." Watch for it!

Send for your copy of "The Du Pont Company and the College Graduate." Describes opportunities for men and women with many types of training. Address: 2521 Nemours Building, Wilmington, Delaware.

STOPPER FULLBACK CAUGHT ONE PASS, INTERCEPTED ONE AND REELED OFF SEVERAL LONG RUNS.

By John Lee

# Tulsa Bests Kansas State; Takes Total Offense Lead

Tulsa's Golden Hurricane became the nation's leader in total offense by romping for 705 yards while downing the Kansas State Wildcats 42 to 26 Saturday afternoon.

The Tulsans were leading the nation at the time they met and defeated the Tech Red Raiders 39 to 7 at Tech Homecoming last year.

Coach DeWitt Weaver's freshman-laden squad will be gunning to stop the powerful offense the surged ahead of Holy Cross for the national lead by an average of 38 yards per game. Holy Cross dropped from a 445 yards-per-game average to 443.8 while defeating Marquette 39 to 13 Saturday. Tulsa moved up from a 449.3 average to 491.5 yards-per-game.

## Entry Deadline Thursday For 'Mural Basketbblers'

Thursday is the final day for signing to compete in intramural basketball, George Philbrick, emphasized Monday.

He is expecting some 40 teams to compete in the three leagues this year. Actual competition will open immediately after Thanksgiving.

The Raiders this year are coached by two of the members who pushed the Golden Hurricane to the national lead last year. Coach Weaver was associate coach to Buddy Brothers, a Tech graduate, and Jack Mitchell was back field coach there. Two other Oklahoma men—Wade Walker and Bobby Goad—are on the Tech staff.

Tech enters its last days of practice for the Tulsa game with no injuries.

# Socii, Keys Keep MICC League Lead

Socii and Silver Keys continued their lead of the MICC intramural football league Sunday as they downed Centaur and College Club.

Socii downed Centaurs 13 to 0 while the Silver Keys were downing College Club 6 to 0. In other league contests Los Camaradas beat Kemas 13 to 0 and Wranglers took a one-sided 21 to 0 decision over Adelphi.

Jack Alderson sparked the Silver Key victory, intercepting a College Club pass, passing to Richard Clarke for 35 yards then running across the touchdown. In another outstanding play he passed 50 yards to George Farrell.

Don Pope passed to Jim Small for the first Socii t.d. Sammy Hale See **SOCII**, Page 7

# The Signal Caller

By JOHN LEE

Coach Mike Brumbelow of Texas Western has come up with what he considers a possible cure for the wave of roughness sweeping the football world this season—as reflected in the recent Drake-Oklahoma A&M publicity and the Tulsa-Marquette break.

Brumbelow suggested something of a grading system for the member schools of the Border conference.

He did not say that he thought the play was any better or worse, from the standpoint of sportsmanship, than any other league in the nation. Nor did he single out any school for particular comment.

The meat of Brumbelow's idea runs like this:

The Border conference might designate the top three or five football officials of the loop to constitute a board of loop and review films of all conference games with an eye to watching rules violations.

The board would assess a point value to the infractions according to their severity from the standpoint of physical danger. For example, 30 points could be charged for slugging, 25 for roughing the kicker, 20 for clipping, 15 for holding and so on down the line. This would apply to any rules violation visible in the film whether it was

caught at the time of the game or not.

The board would then total the penalty points against each school and achieve a ranking of the schools of the conference from the standpoint of unsportsmanlike play.

Making public such a list of unsportsmanlike conduct ratings by means of press and radio should have a strong deterring effect on schools most guilty.

Bad publicity on the part of the erring schools would probably tend to force the officials of the school to deal with the problem.

Brumbelow's theory sounds logical but we are inclined to believe there is too much emphasis being placed on de-emphasizing football.

Football is a great game and a rough one. It must be played rough and although dirty ball is being played to some extent at some colleges, we believe they are in the minority.

Here's to King Football, may he play a clean, hard game!

Johnny Tatum, rugged Westerner center, tells us that Raider freshman Dean White (a former Lubbock great) gave the team a real fighting pep talk prior to the Abilene tussle during an assembly program at the high school.

# BSU Bums Take Independent Crown; Score Highest Grid Score Over Band

Baptist Student Union Bums marked up the highest score in intramural football as they romped over Tech Band 54 to 0 Monday afternoon to crown themselves champion of the Independent League.

The Baptists remained undefeated as they swept through the Band for eight touchdowns. Friday they had gained a 6 to 0 edge over the Unknowns.

Next Tuesday afternoon the BSU engages the Sneed West-erners in the first game of inter-league playoffs for the college crown. Sneed West is owner of the championship of the Dorm league. They are also undefeated in league play.

Monday afternoon Bob Webster passed five times for touchdowns.

Tom Brown received three of those, George Worrell took two and Earl Hutcherson received the other. Worrell made two other scores on rushes.

Norman Key scored the other BSU counter by running back a pass interception.

In the Friday contest the BSU won on a juggled pass that Worrell finally latched onto in the end zone. Webster hurled the counter.

Jim Holleman and Billy Yoes each took long passes for the Unknowns but Steve Eckstein's crew threatened seriously only once, when John Winston ran back an intercepted pass for 50 yards. Yoes also played outstanding defensive ball.

### New Members Received By Group With Candlelight Service, Banquet

Thirteen students will be initiated into Sigma Delta Pi, national honorary Spanish fraternity, in a candlelight service at 6 p.m. tonight in Ad227.

The initiation will be followed by a banquet in the Chimayo room of the Hilton hotel at 7:15 p.m., according to Evelyn Sue Burks, resident of the Tech chapter.

Those to be initiated are Charles Leonard Ainsworth, Rossi Stiles Baker, Mary Shaw Brewer, Frances Louise Carter, Juanita Casas, Sharon Cone, Margaret Ann Garlin, Hubert Gentry, Beverly Hutcheson, Zita Martin, Bobbie Jean Mobley, Dorothy Kennedy Thompson and Peggy Ann Wilson.

### Harris Replaces Lubbock Editor In Press Club Address Tonight

Jay Harris, managing editor of the Lubbock Morning Avalanche, will address a meeting of the Press club tonight at 7:30 p.m. in J208. He is replacing Charles A. Guy, editor and publisher of the Lubbock Avalanche-Journal, who was originally scheduled to speak but was called out of town on business. All students and faculty mem-

### Lewis To Discuss Theater At Group's Dinner-Meeting

Miss Quannah Lewis, instructor in the English department, will discuss "Trends in the Theatre" before Quarterly club at a dinner-meeting tomorrow night at the Hilton hotel.

The Quarterly club is a faculty

Mrs. Dewey Pierce, the former Nadine Willis, class of '51, is teaching in the Frenship school, Wolforth, while her husband is in school at Tech.

It's not the school I dislike—it's the principal of the thing.

women's professional organization. The dinner is slated to start at 7:15 p.m., according to Miss Kate Rogers, arrangement chairman.

### Wildcats Down NSF, Fall To DM

After easing past the Westminister Student Fellowship 6 to 0 Friday the Wesleyan Wildcats dropped their final contest of the season to the Dairy Manufacturing Club 6 to 2 Monday.

It left the Dairymen in a tie with the Wildcats for the league second place. Both have won three and lost two. The Wildcats had defeated Tech Band, the WSF and the Unknowns. The Dairymen defeated Tech Band and won a forfeit from the Unknowns.

Friday Don McCauley passed to Clayton Ross for the Wildcat counter. Monday the Wildcats forced a DM fumble in the end zone to gain two points.

In the very closely played game the Dairymen scored as Deaton Rigby ran off grackle from three yards out. Tom Wendt was also outstanding for the Dairy club. Outstanding for the Wildcats were McCauley and Don Dixon.

### Burchard Downs Swinney For Mural Tennis Crown

David Burchard took three of four sets to defeat Hollis Swinney in the finals round of the intramural tennis championship tournament Monday afternoon.

Burchard took the first set (6-3), dropped the second set to Swinney (4-6), then swept the last two sets (6-3), (6-3) for the championship. The contest opened with 32 entries.

### McCasland Is Named Psychology Club President In Recent Meeting

Seven new officers were elected by the Psychology club Nov. 5 according to Aletha McCasland, new president.

Other new officers are Bill Price, vice-president; Dolores Page, secretary; Arliss Shell, treasurer; Bert Blitstein, program chairman; Courtney Skeete, recreation chairman; and Berna Bartlett, publicity chairman.

Club sponsor is Dr. James M. Kuntz, associate professor of psychology.

Darrel Freeman, former Toreador business manager, returned to Tech for Homecoming activities this year. He is stationed at Camp Chaffee, Ark.

### Socci—

passed the other seven points for the nine. Dan Ritter took the touchdown pass and Ken Daniel snagged the extra point pass. In another outstanding play Ritter punted 50 yards, the ball dying on the one-yard line. Dub Kuykendall and Don Corley were outstanding for the Centaurs.

David Moorehouse scored 13 of Wranglers 21 points and George Morris scored the other six. For Los Carns, Hub Cadenhead passed 40 yards to James Stevens for the first t.d., then 35 yards to Ray Marsh for a second counter. Marsh also scored the point after touchdown.

**Student Directories To Arrive Nov. 15**

Tech's faculty and student directories are scheduled to arrive at the Tech bookstore Thursday, Nov. 15, according to W. C. Cole, bookstore manager.

Delivery of the directories, which were originally due Nov. 7 or 8, was delayed in St. Louis as a result of the recent snowstorm. Directories will go on sale at the bookstore immediately upon arrival, Cole said.

**HM House Starts New Shift, Plans Revised Schedule**

The second nine-weeks shift will start in the Home Management House Monday.

Students who will begin residence at that time are: Mrs. Mary Flynn Freeman, Mrs. Ruth Brunson Robison, Marian Thomas, Gara Gray, Marian Gibson, Mary Norman and Ella Francis Hart.

The nine-weeks period will last from Nov. 18 through Feb. 1.

Plans are being made to shorten the time required from nine weeks to six weeks for the spring semester due to the unusually large number of senior students who need the training to graduate. The six-week periods will enable the department to provide three shifts rather than two shifts a semester.

**Constitutional Meeting Called For Music Club**

A constitution will be submitted for approval by Tech Men's Music club tonight at 7 p.m. in X3C, according to Hubert Waddill, club reporter.

Membership is still open, according to Dr. Gene Hemmle, head of the music department and club sponsor.

**'Price Controls' Is Subject Of Aldredge's Talk To TIF**

R. B. Aldredge, part-time instructor in economics and marketing and OPS economic analyst in Lubbock, will speak on "Price Controls" to a meeting of the Tech Institute of Finance at 7:30 p.m. Thursday in Ad162.

This meeting will inaugurate a plan to open membership in the TIF to all students who are interested in finance. A general invitation is also issued to all students to attend the club meetings on the third Thursday of each month when outside speakers will be presented.

The public is invited to attend.

**GRAD IS HIGHWAY EMPLOYEE**

Darryl D. Loftin, former Tech student, is now employed by the California division of highways. At Tech Loftin was a civil engineering major.

**Who's Who —**

position are excellence and sincerity in scholarship, leadership, participation in extra-curricular activities, citizenship, service to Tech and promise of future usefulness, said Allen.

Each year the committee decides what grade-point average will be required for students to qualify, and this year 1.65 was given as the lowest possible qualifying average.

Approximately 75 students were named by deans and from the floor.

Dr. En N. Jones, Tech vice-president, will speak at a Midland Rotary club luncheon Thursday.

*Wakefield's Flowers*  
**9814**

**Foreign Language Students To Be On Rotary Program**

Four foreign language students attending Tech on Parks scholarships will present a program to the Lubbock Rotary club Wednesday in observance of American Education Week.

Consul Joel Quinones of Amarillo and Dr. C. B. Qualia of the Tech foreign language department will also appear on the program.

Students are Maria Olivo of Amarillo, Juanita Casas of Leveland, Peter Aboytes of Amarillo, and Baudello Escobar of Benjamin.

Hiram Parks, local businessman offering the scholarships, will introduce the program.

**Europe—By Ship, Plane Will Be Topic Of Student, Instructor Talks**

Alice Qualia, senior home economics student, and Prof. Mabel Erwin, head of the department of clothing and textiles, will speak jointly to the members of the Home Economics club at a regular meeting tonight.

The topic to be discussed is "Ship or Plane; Europe is the Same."

Miss Erwin and Miss Qualia were in Europe this summer and have been asked to describe their visits. Miss Qualia made the cruise by ship and Miss Erwin traveled by plane.

Miss Qualia will show some color slides which she took during the trip.

**Smiley, Burkes Elected Officers Of Foreign Language Council**

Donald Smiely, pre-med major from Lubbock, was elected president of the Foreign Language council in a meeting held by the group Nov. 5. Evelyn Sue Burkes, Lubbock junior, was elected secretary.

**Arnold Air Group To Attend Conclave**

Twenty-two members of the Tech Arnold Air society and two sponsors will leave Lubbock Nov. 22 to attend the third annual national conclave of the Arnold Air society, according to Lt. H. A. Bodley, sponsor of the group.

The meeting will be held at the University of Miami from Nov. 22 to 24. The group will leave by plane from Reese air force base Thanksgiving morning.

Jim Choate was chosen primary delegate at the convention and Jim Stoltz as alternate delegate. Lawrence Patton will be representative-at-large.

Tech Arnold Air society officials, who will attend the meeting, are James Kavach, fourth area deputy commander; Max Garrett, squadron commander, and Richard Armstrong, national publication officer.

Other Tech students attending are Olen Simmons, Robert McGovern, Gerald Loeffler, Charles Ross jr., Charles Hamilton, Don Hart, Troy Powell, Gerald Dallas, Davis Zahary, Don Olsen, Carl Bright, Robert Schmidt, Don Pass, George Herd, Jim Howell and J. T. Patton.
