

Western Spirit Descends On Tech Campus Tomorrow

By **BILLIE MORRIS**
Toreador Staff Writer

SHERIFF AND POSSE—Bill Piper, far left, sheriff during Western days lasting tomorrow through Saturday, is pictured with 10 of the deputies who will keep order on campus. Back row, left to right, are Jim Warden, John Tom Baker, Jim Thornton, Lester Ericson, Henry Briscoe and R. I. Collinsworth. Front row, left to right, are Clinton Kennedy, Ross Brown, Charles Beedy and Brian Boyett. (Dolores Ketchersid Photo)

The rodeo spirit will get underway at Tech tomorrow with students and faculty members wearing western regalia prior to the first performance of the rodeo at 8 p.m. tomorrow.

Crowning of the rodeo queen will highlight the initial performance of the rodeo. Glenn Davis of Army football fame will crown the queen. Jack White, manager of the rodeo has announced, "Johnny" of Phillip Morris will carry the crown.

Performances of the rodeo will be at 8 p.m. Thursday, Friday and at 8 p.m. tomorrow, Friday 2 p.m. Saturday.

A breakfast is scheduled for 6 a.m. Friday morning in the Meat's Lab, located west of the judging pavilion. Western music will be provided for a street dance.

The annual rodeo parade will start in front of Kerr-Simmons, Studebaker building at 4 p.m. Friday and will proceed east to the Hilton hotel, south on Texas to Broadway and down Broadway to the campus.

Queen To Head Parade

The queen and her attendants will lead the parade in a convertible, followed by all the cowboys,

cowgirls and officials of the show. Alvin Davis, chairman of the parade committee, said. Eight sheriff's posses ride in the parade. They are from Post, Brownfield, Littlefield, Crosbyton, Levelland, Hereford, Tahoka and Lubbock.

High school bands from Seagraves, Sudan and Brownfield will march in the parade. A trophy will be presented to the best band and to the best riding group, Davis said.

A dance in the gym from 9-12 p.m. Saturday will complete the rodeo activities. Lefty Leftwich and his Longhorns will provide music for the dance.

Tickets for the rodeo, dance and breakfast are on sale in the lobby of the Hilton hotel, at S&Q Clothiers and in the Ad building. John Wilson, publicity chairman, said. Rodeo tickets are \$1 for students and servicemen, \$1.50 for adults and 50 cents for children. Dance tickets are \$1.50, stag or drag. Tickets for the breakfast are 75 cents a plate.

Voters Donate Pennies

Votes for the queen candidates will be counted at 5 p.m. Thursday, Dub Parks, chairman of the queen's race said. Voting is done by paying a penny for each vote. Containers are located in all ma-

ajor campus buildings.

Candidates of the queen's race are Helen Hightower, sponsored by Rodeo association; Lorelei Hankins, College club; Henel Bishop Kappa Alpha Mu; Jo Biggs, DFD; Judy Engert, Las Chaparritas; Rosemary Bloodworth, Women's Dorm IV; Olga Burns, Gargoyles society; Rossi Stiles, Sans Souci; De Rose Wittenberg, Aggie club; Ruth Carpenter, Las Vivarachas.

Bill Piper has been appointed sheriff of Western days. Serving with him to maintain law and order during the Rodeo performances will be the following deputies: Jim Warden, John Tom Baker, Jim Thornton, Lester Ericson, Henry Briscoe, R. I. Collinsworth, Clinton Kennedy, Ross Brown, Charles Beedy, Brian Boyett, Jim Wilson, Bob Northington, Smokey Dunbar, John Pitts, Alvin Nored, Matt Fuson, George Keith, Dock Graham, Sherry Hill, Ernest Sears, Jack Ham and Percy Turner.

The second annual Intercollegiate Championship rodeo is sponsored jointly by Tech Rodeo association and Block and Bridle.

If all the coal mined in the United States in one year were loaded on a single railroad train the train would be long enough to stretch around the world three times.

KAM Contest Winners Are Announced By Club Sponsor

Winners of the annual Kappa Alpha Mu, honorary photographic fraternity, solon contest, were announced today by Bill Weaks, sponsor.

Grand prize winner was Stewart Phillips. His winning picture was a portrait entitled "Meditation."

In the feature division Paul Kessinger was awarded first and second prizes with his pictures "It Was Here" and "Battlefield." Third prize went to Stewart Phillips' "Vanity." Honorable mention went to Phillips' picture "Contemplation" and "Good Morning" taken by Allen Hammer.

First prize in the editorial division went to Martha Gillispie's "Grandeur" with second prize honors awarded to Dale C. House for his "Into His Gates." "Balanced Rock" by Don Hunsaker won third prize with honorable mention going to George Burress' "Morning" and Stewart Phillips' "Transmission Lines."

"Focusing" by Robert Duke won first place honors in the industrial division with Paul Kessinger's "Just Working" taking second place honors. "Oil" by John McNear took third place with honorable mentions going to Jo Na-

bor's study entitled "Glass" and "Skyward" by George Burress. Dolores Ketchersid's "It Says Here" took first place in the news division with "We Regret" taking second and "The Escourt Carter" by J. T. Carter taking third. Honorable mention went to H. A. Tuck's "Tall Paul" and Marty Courtney's "Catch."

The salon exhibition will hang in the Museum auditorium all this week. It is open to the public.

Fiske To Interview Graduates Friday

Mr. Leland E. Fiske, reviewing engineer for the Dallas branch of the Internal Revenue service, will be on the campus Friday to interview May graduates in petroleum engineering, according to Mrs. Joan Jenkins, executive secretary of the Placement service. All who are interested should report to the Placement office to make appointments.

May and August graduates in electrical and chemical engineering who are interested in an interview with a representative of the Freeport Sulphur company Friday should schedule conferences immediately, Mrs. Jenkins said. Chemical engineers will be employed at Freeport, and the position as electrical engineer is at Port Sulphur, La. Because of housing conditions in Port Sulphur only single men can be considered.

Air And Military Science Of ROTC To Offer Summer School Program

Air and Military Science divisions of the Reserve Officers Training Corps will offer a summer school program at Tech this year, the first since 1949, according to Tech's office of Public Information.

At least 50 students must enroll in the military science division in order to carry out the program. The students, who will be eligible for draft deferments, will be required to attend both summer sessions.

Transition in Plants," Studhalter and Leonard Jansen, graduate student.

"The Age of Rhizomes," Studhalter and John McLean, graduate student.

Craig and Studhalter are past presidents of the Southwestern division.

Vol. XXV Texas Technological College, Lubbock, Wednesday, May 2, 1951 No. 53

REC DANCE POSTPONED

There will not be a Rec hall dance Saturday night because of the Rodeo dance, the office of the Dean of Student Life, announced.

Annuals Available May 21, Fix Says

The '51 annuals will be ready for students on Monday, May 21 Paula Fix, editor of the La Ventana, announced.

She requests that only seniors apply that day. Other students are invited to pick theirs up any time after that date.

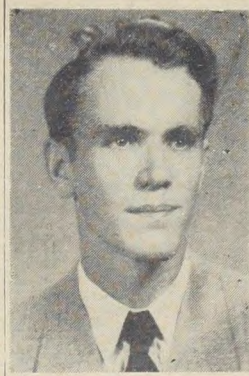

Miss Fix has just returned from a trip to Iowa City where she proofread the edition. There will be 492 pages in the yearbook.

While there Miss Fix attended the annual "Campus Kapers" show of the State university of Iowa which featured Billy Hutchings who was graduated from Tech last June.

THESPIANS HEAR LARSON

Dr. P. Merville Larson, speech department head, spoke at the annual banquet of the Lubbock High school National Thespian society at the Hilton hotel last night.

Tech Engineering Student Is Claimed In Sunday Morning Highway Accident

Clayton J. McMillan

Clayton J. McMillan, 22-year-old electrical engineering major from Shallowater, was killed instantly when struck by a car at 2 a.m. Sunday about four miles east of Lubbock.

Lubbock police reported that McMillan was apparently walking east down the center of the Idalou highway when a 1951 Studebaker, driven by Roy Gipson Calcute of 2005 Ninth street, struck him.

Police investigations have not disclosed a reason for McMillan's walking along the highway at the early hour.

Armand Smart, McMillan's roommate in Sneed hall, was also unable to explain the circumstances which led to the accident. Smart had last seen McMillan at a dance at Hotel Lubbock about 11 p.m.

A car belonging to the deceased was found in an alley in downtown Lubbock.

McMillan, who graduated from high school in Plainview, served three years in the Air Corps during World War II. At the time of his death, he was president of the dance hall dormitory association.

He is the son of the late Clint McMillan, Methodist minister at Plainview. His stepfather is the Rev. H. W. Barnett of Shallowater.

Funeral services were held Monday in Shallowater and burial was in Tech Memorial park.

National Societies Will Be Debated

Four speakers will be featured at the Forensics club's Tech campus meeting at 8:15 p.m. today in the Aggie auditorium.

Topic to be discussed is "Resolved: That This House Approves the Establishment of National Social Fraternities and Sororities on the Tech Campus." Mrs. R. R. Male, Lubbock, former member of Alpha Delta Pi at Texas university, will deliver a ten-minute speech in the affirmative. Off-campus speaker for the negative has not been announced.

Thelmaeane Hutchins, Ysleta, affirmative, and Jane Horton, Stamford, negative, will deliver five-minute speeches.

The floor will then be open to student discussion and questions. Any student may make a three-minute speech.

All students are eligible to attend, says David Blackbird, Forensics club president.

Bob Schmidt, Student council president-elect will be chairman.

Adelphi Members Paint Green Room

Adelphi club members painted the Green room last Saturday from 1-3:30 p.m. "to continue their program of useful club projects," said Bob Chambers, Adelphi member.

Sixteen boys repainted the building with green paint furnished by Tech.

The students who worked were Harry Albaugh, Adelphi president; Bob Chambers, Dave Bullen, Todd Biggs, Hugo Meith, Sonny Wehling, Jim Langford, Walter Cox, Jim Richards, Pinky Powell, Jack Sheffield, Wadi Farach, Allan Smith, Joel Mitchell, Jim Attwood, and Wade Hardesty.

Scientists To Hear Six Tech Papers

Tech professors and graduate students will have six research papers presented at the twenty-seventh annual meeting of the Southwestern division of the American Association for the Advancement of Science today and tomorrow at El Paso. The meeting began Monday.

Papers to be presented will include:

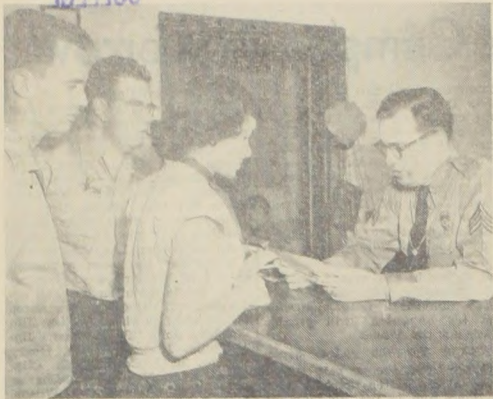

"The Internodal Diaphragm in the Aerial Stem of Ephedra," Dr. R. A. Studhalter, professor of botany, and Fred Widmeyer, graduate student.

"A Small Laboratory Model of the Automatic Spectrograph Using Photo-Multiplier Tubes," Dr. William M. Craig, professor of chemistry, and Zackie Reynolds, graduate student.

"The Internodal Diaphragm in Qualitative and Semi-Quantitative Spectrographic Analysis, II," Craig and George Burress, graduate student.

"A Comparison of the Food Value of Three Sorghum Grains with that of Wheat in the Diet of Albino Rats," Dr. Mina Lamb and Prof. Jonnie Michie, professors of foods.

"Some Problems in Anatomical

"IT SAYS HERE—Photograph by Dolores Ketchersid, sophomore from Lubbock, won first place in the news division of the annual print show staged by Kappa Alpha Mu, honorary photography fraternity. See story on page 1.

With The Colors

Charles F. Sharp, who attended Tech last year, is now stationed at US Naval Air station on Whidbey Island, Wash. After he completes a 10-week course in code-receiving practice, he will qualify as either flight or ground crewman on a long range anti-submarine patrol bomber. Sharp is from Tulla.

Marine Pfc. Dale Hamerschmidt was in Lubbock last week visiting friends. He attended school at Tech last year and was here on leave after attending boot camp at San Diego, Calif.

Pvt. Jimmie L. Green has landed in Japan with the 45th Infantry division, according to word received here this week. He graduated from Tech last spring in the agriculture division. His address is Pvt. Jimmie L. Green, US 54026326, CO-179 Inf. Reg. APO 86, Postmaster, San Francisco, Calif.

Pfc. Duane Dawkins, '49 graduate of Tech, is now stationed at Keesler Air Force Base near Biloxi, Miss., as an instructor. He majored in speech and was a member of the College Club while in Tech. His address is Pfc. Duane Dawkins AF 18268693, 3355 Training Squadron, Box 386, Keesler Air Force Base, Miss. Dawkins' home is Lubbock.

Fin Crew To Meet Sandies Friday

Tech's swimming team will be host to the Amarillo High School swim group at the Lubbock Bay's Club 7:30 p.m. Friday.

At an earlier meet between the two teams in Amarillo the Techs decisively defeated the Sandies.

A great improvement has been seen in the Tech team, said team manager Bob Weisz. Every man has deducted many seconds from his original time and the team is expected to make a good showing in the Border Conference swim meet to be held May 12.

'Cattleman' Devotes Eight Pages To Tech, Says Fine

The May issue of The Cattleman will be dedicated to Tech, according to Casey Fine, professor of agriculture.

Eight pages of the ranch magazine will contain stories and pictures about Tech and the cover page will depict campus buildings. Approximately 500 complimentary copies of the issue will be mailed to high schools, junior colleges and friends of Tech throughout the state, Fine said.

Doak Hall Reported Winner In Campus Sing Last Year

A story in last Wednesday's Toreador stated in the All-Campus Sing held last spring, "Women's Dorm IV and Doak Hall won first and second places, respectively."

The Toreador was informed Saturday by Henry C. Wechsler, Doak Hall supervisor, that Doak Hall was first place winner in the contest, with Women's Dorm IV second. The All-Campus Sing for this year is scheduled May 7 in the Rec Hall.

May Day Dinner To Be Tomorrow

Association of Women Students' May Day dinner honoring all graduating senior women will be held at 6:30 p.m. tomorrow at the Hilton hotel.

Highlighting the evening will be the installation of new AWS officers for the ensuing year who are Dodie Stokes, president; Claudyne Young, vice president; Peggy Carter, secretary; Mary Jo Craig, treasurer; Jo Ann Schovajsa, reporter.

Outstanding women in the 1951 graduating class will be recognized. Also included on the program will be the tapping of new members of Forum and Junior council and the introduction of new presidents of women's social clubs.

Chairman of the various committees for the dinner are Jo Ann Deaton, general chairman; Jerry Freeman, publicity; Claudyne Young, tickets; Katie Atkinson, decorations.

Tickets, costing \$1.50, may be purchased from AWS members.

KS Wins Trophy For Second Year

Ko Shari club's softball team, undefeated in Women's Inter-club council tournament play, was presented the WICC athletic trophy for the second consecutive year at the council-sponsored picnic held Saturday afternoon in Mackenzie State park.

Mrs. Richard Richards, assistant professor of women's physical education, presented the award to Harriet Moltz, Ko Shari president, and Jane Hyer, vice president and team captain.

Defeating the Las Vivarachas team 3-3 in their last game of the tournament Friday afternoon, Ko Shari ended the 1951 season in first place with a total of four wins and no losses. If the Ko Shari's win in tournament play next year for the third consecutive year, they will be awarded the trophy permanently.

At the picnic for all social club women the afternoon was spent playing games and eating ice cream.

COUNCIL TO ELECT OFFICERS

Junior council, honorary organization for junior women, will hold an election and installation of new officers at 5 p.m. tomorrow in Ad-207. All members are urged to attend, Virginia Butler, reporter, said.

AWS LEADERS—New officers of AWS relax and discuss plans for next year. To be installed at the May Day dinner tomorrow night, they are, left to right, Dodie Stokes, president; Claudyne Young, vice president; Peggy Carter, secretary; Jo Ann Schovajsa, reporter; Mary Jo Craig, treasurer, is not pictured. (Dolores Ketchersid Photo)

Maniss To Head TCC Next Fall

Bob Maniss was chosen president for next year by the Tech Chamber of Commerce at its regular meeting Thursday. Benny Bruckner was chosen vice president; Skeet Dugger, business manager; Venna Morrisett, secretary.

Committee chairmen will be appointed sometime in the future, announced Frank Austin, publicity director.

Requirements for the office of business manager were changed by constitutional amendment, and the softball diamond, sponsored by the TCC and due for completion next fall, was discussed.

May 8 will be the date for the first Chamber of Commerce meeting of this semester, Austin said.

FFA Steak Fry Scheduled For Mackenzie Park Friday

Dr. F. G. Harbaugh, animal husbandry department, and Fred Boren, animal husbandry instructor, will be chief cooks at the annual Future Farmers of America steak fry at 6 p.m. Friday at the barbecue pit in Mackenzie park.

A string band will provide music for square dancing for the agriculture department heads, agriculture education teachers and FFA members and guests.

Influenza caused 9212 deaths in the major towns of Enland and Wales over a period of 11 weeks.

Madrigals Give Program For Press Group Friday

The Madrigal Singers will sing for the South Plains Press association at 7:30 p.m. Friday in the Hilton hotel. Guest director will be Herbert Colvin, instructor in piano. The group sang at noon Monday for the Junior Chamber of Commerce at the Hilton hotel.

SOCIETY

Las Chaps' Annual Farewell Dance To Be Held Friday In Lubbock Hotel

Las Chaparritas club's annual Farewell dance will be held from 8:30-11:30 p.m. Friday in Hotel

Lubbock ballroom. Pastel-colored spring flowers entwined with multi-colored crepe paper will form an overhead decoration for the room.

Ted Crager and his orchestra will provide music for the sport dance.

Members and their escorts attending will be Jerry Freeman, Bill Williams; Jacque Spurlock, Bennett Helte; Betty Wright, Madison Newton; Faye Marsh, Rex Zachary; Elizabeth Haltom; George Hansen; Sue Mayfield, Ross Brown; Anne Sheffy, Brien Webster; LaVerne Estes, Jimmie Olsen; Marilyn Row, Bill Sharpley; Mary Ruth Byrd, Dirk West; Sandra Sadler, Joe Scales; Donna Caldwell, Ralph Lacey; Judy Engert, Malcolm Young; Martha McCullough, Bob Bain; Wanda Sims, Danny Ritter.

Festival Chorus Presents Oratorio

Texas Tech Festival Chorus presented Haydn's "The Creation" last night at the First Baptist church. Ira Schantz, instructor in voice, directed.

This was the first oratorio presentation the department of music has given in five years. "The Creation" is considered Haydn's greatest work, its central theme the creation of the world.

Soloists were: Mrs. Herbert Colvin, soprano; Sammie Powers, soprano; Ira Schantz, tenor; Warren Forsythe, baritone; Rex Webster, bass; Imogene Webster, organist; Joyce Carthel, pianist.

The chorus consists of approximately 75 students and townspeople.

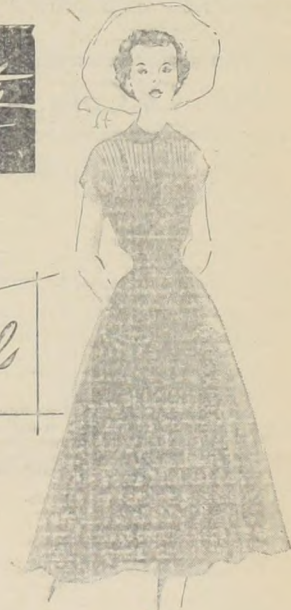

Dairy Manufactures Banquet To Feature Pampa Speaker

George Vinyard, owner of the Sunshine Dairy Food company in Pampa, will be guest speaker at the thirteenth annual informal spring banquet of the Dairy Manufactures club to be at 7:30 p.m. Friday in Sneed hall.

A men's quartet will provide a musical program, according to Charles Lawler, president.

Honored guests will be Dr. E. N. Jones, Dean W. L. Stangel of the agriculture department, agriculture department heads and dairy manufactures students and alumni.

Western Spirit Minus Spirits . . .

Shades of the old West are just around the corner. Tomorrow marks the beginning of 1951 Western days. Twenty-one rodeo-loving individuals on the campus are particularly interested in the future of the traditional Western days and are asking full cooperation from participants in the rodeo and from spectators.

These 21 persons, a sheriff and 20 deputies, are charged with maintaining a sober atmosphere throughout the remainder of the week. Levis, Stetsons, boots and plaid shirts are in order, though not compulsory attire during the rodeo days. Bottles are definitely not in order, and the 21 rodeo officials emphasize that drinking will not be permitted at any of the rodeo performances, the breakfast or dance.

Lubbock policemen will be assigned to maintain law and order. Will it be necessary for city officers to exercise their power to calm rowdies? Surely college students can have three days of good, Western fun without requiring the leveling hand of the law.

Drag out the cowboy regalia, minus flasks, bottles and cans. At least put on a bright colored scarf, but do your part to make the deputies and policemen just so much excess baggage by keeping the campus dry.

Mind Over Matter . . .

Draft boards are in a position to control the future of a large percentage of Tech men. The board members in many cases will be charged with deciding whether or not the student is engaging in study necessary to the nation's safety, health or general welfare. But where will they draw the line at what is necessary?

Let's hope the board members have the attitude of Maj. Gen. Lewis B. Hershey, who expressed some sound thoughts on a recent radio broadcast concerning the draft.

Is somebody who majors in basket weaving, rhythmic dancing, etc. going to be given a chance for deferment? General Hershey named these subjects as being extremes from engineering, science courses, etc., which would clearly be construed to be aiding national safety. But who's to say that musicians, artists, potential lawyers or the like are not adding to the nation's welfare?

"There never was a piece of music that moved our people like the French National air that was written in the revolutionary days of France," the general says. "And there never has been a time that we could anticipate in the future enough good citizens, potential presidents, cabinet officers, members of Congress, governors, legislators, etc."

"Therefore, I say a word for the fellow who is perhaps just taking liberal arts, merely trying to learn about his human beings . . ." the general continued.

Needs are pressing for the atomic scientist, jet expert and chemist, of course. But just because a student turns to a course in liberal arts does not eliminate him from the ranks of the necessary. The world is not composed entirely of machines. We still need the fellow who is mindful of the aesthetic requirements of the human race.

West Of College Avenue

By SUE HOLMES
Toreador Editor

What good is a BA degree, anyway?

A man high in educational circles has jumped to the defense of women who earn BA degrees. Otto F. Kraushaar, president of Goucher college and formerly a philosophy teacher at Smith, wrote in a popular magazine recently the assets of such a degree.

How does it happen, he asks, that a prospective employer seems unconcerned as to whether the woman applicant majored in English, philosophy or international relations? The item on her credentials that impresses him is that Bachelor of arts from a reputable college, the professor says.

Why should a major in philosophy be considered for a job on the research staff of a popular magazine? Or why if as a major in political science get the job in the personnel section of an airplane-parts manufacturing company?

Every graduate of a liberal arts curriculum will be asking herself at some time what good her course in European history or Shakespeare will do her, when she feels she needs specific preparation for certain situations. The professor says the liberal arts instruction will have given the graduate "perspective, breadth of interest, a general knowledge of the sources of information and, most important of all, will have developed in her a capacity to do research."

Kraushaar says the woman graduate should not feel that her four years were wasted, even though she may not know specifically

right now what vocation she will follow. He says those four years are of priceless value if they placed in our hands the keys that will help us unlock a succession of doors leading to changing vocations.

See WEST OF Page 8

Letters To The Editor

WRINKLE ERASER

Dear Editor:
It was with some surprise that I read the editorial entitled "Four Faced Womanhood" in which it was stated that there seemed to be no place on a college campus where coeds could learn to be "women of culture and charm" and "an intelligent leader in a democratic world."

The college catalogue is full of such references. (As an instance, see pages 69-74.) Aren't you overlooking many fine programs here which offer vast opportunities for such things as the development of social skills, practice in democratic thinking, participation in community living and growth and development in human relations? All these opportunities, and more, are here just for the taking.

As Doctor Wiggins pointed out in his talk to Student Council, "True education is the Academic-Plus! It is a culmination of all the many factors that merge to benefit the student during the time he is at college."
So, please—take that worried look off the Coed's face!
Nancy Nail
Assistant Dean of Women

NECESSARY TRIP

Dear Pat:
We were very interested in the comments of your column (Pat's Patter, April 25) regarding the new plans for student participation in government in the women's dormitories. We agree with you that the change can be much for the better, and its full benefits can only be seen after it is put into practice. We appreciate the supporting comments and the general approval of your column. We believe this is beneficial to us in making the plan realize its full potential, and it helps us to create student awareness and understanding of all that is involved and the true meaning for them in their total living situation in the dormitories.

However, we would like to toss back the "brick" of having a required convocation. Yes, this trip was necessary. It was unfortunate it had to coincide with the same time as the Weeks lecture. However, we would like to point out the following:

(1) Perhaps it was not clear to you that any student who wished to attend the Rec hall lecture would be granted

oil. Direct action on their part would be a nice parting gesture before present terms of office expire.

If another blank is drawn here, it is time for the student body to act. Perhaps if a few student organizations would offer their members for the guide service and the students make complaints known, someone would be stirred into action.

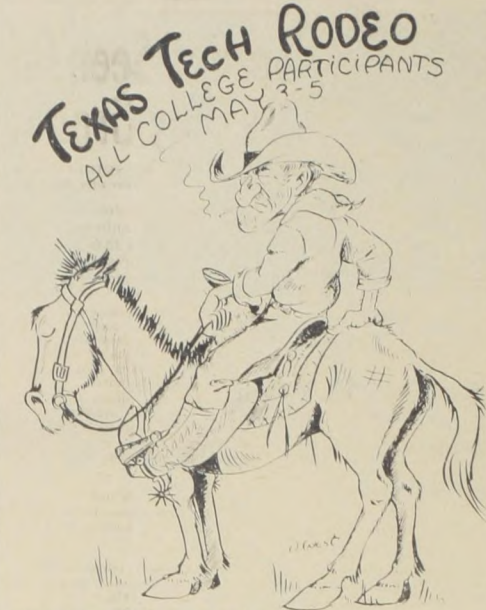

We don't care where the action starts, but the problem must be solved quickly before another traffic mishap is added to the growing campus accident rate.

The college this year will give, for the second time, a big graduation gift to seniors—no final examinations.

Yet, last year many professors failed to abide by the "no senior finals" rule. Of course they kept within the bounds of the ruling by giving senior finals in extra long "hour" quizzes or extra reports.

Both of these were piled at the

About The Campuses

Students at Wayne university in Detroit, Mich., recently held a dance to aid the parents of a former student who had died of cancer. The music was free, as were refreshments. Price of entry was 50 cents, proceeds to help the parents with bills incurred during the boy's 18-month illness.

In spite of the large expense caused by the purchase of three new cars to give as prizes in a student raffle, the Spring carnival of the University of Detroit netted about \$42,000. In just two dances over \$4,300 was taken in.

Experiments conducted at Georgia Institute of Technology showed that sawdust may someday be a practical food for cattle. Irradiation with high-voltage electrons makes part of the sawdust digestible by organisms in the cow's stomach.

Girls at the University of Hawaii have been holding their annual Women's week, but not as mindless as some of the women's activities on other campuses. They elected seven popular males to serve as "sweethearts."

Cancer research at Arizona State in Tempe, Ariz., has been given a boost by the welding class of the college. Instead of having to buy specially made cage racks for the department, the students have been making them. Another advantage besides that of savings, is that the racks are exceptionally sanitary.

To answer the question of whether Texas State college for Women and Texas A&M should be made co-educational, one columnist at TSCW has the following suggestion: To Denton and send all the students now at North Texas State college down to A&M. Simple.

Opportunity knocks but once, it is said, and 10 sociology students in Michigan colleges now have a chance which may never be presented again. The State Prison of Southern Michigan has announced that 10 students may live in the prison this summer for about six weeks in a cottage next to the deputy warden's house. The Varsity News from the University of Detroit states this is an "excellent opportunity for those interested in correction to find out what the field is like."

the toreador

THE TOREADOR, student newspaper of Texas Technological college, is published every Wednesday and Saturday on the Campus of Texas Technological college at Lubbock by the associated student of the college.

Mystery Unveiled

'Sprites' Seen On Campus Are Only Ground Squirrels

By SHIRLEY JOHNSON
Toreador Staff Writer

If people think you're crazy when you ask them if they've seen little squirrely animals running around the circle, just tell them from now on that you are right.

Those little creatures are not sprites of imported Irish leprechauns, but a common West Texas variety of ground squirrels.

The following is the essence of the conversation which occurred when a reporter was attempting to learn the technical name of the animals which are causing people to appear mentally unbalanced.

Reporter: Could you please tell me just what those little squirrely animals are that are running around on the circle?
Biology department: Do they live in holes?
Rep.: Yes.
B.d.: What do they look like?
Rep.: Well, I haven't seen them, but rumors have been coming in about them.

E.d.: Hummmm.
Rep.: May I use your telephone to phone someone who has seen them? Maybe they can help. (Over phone) What do those little things living on the circle look like? (To b.d) They are about the size of staplers, sorta' brownish. They run into small holes whenever anyone comes around.

B.d.: You say people have seen them?
Rep.: (Getting desperate) Yes.
B.d.: Do you think you would know a ground squirrel if you were to see it?
Rep.: (Now ready to scream) Yes, but I haven't seen those animals.

Young Confers On Crops For Ecuador, Indian Soils

David Neville, employee of the Massey Harris Machinery company, is on the campus conferring with the plant industry department on crops and soils in India, according to Dr. Arthur W. Young, head of the plant industry department.

Neville has just returned from Africa and will soon be sent to India to study.

Also visiting the department are two missionaries, Mr. and Mrs. Charles V. Glenn, who are obtaining information on vegetable crops and insecticides to take back with them to Esmeraldas, Ecuador.

The Glens are working with a tribe of Indians in Ecuador, Young stated. They plan to take back seeds and make the necessary contacts to have more sent to Ecuador. The couple plans to leave the states next month.

Pat's Patter —

end of the semester when seniors were trying to finish correspondence courses, work daily assignments and keep up with upperclassmen in reports and examinations regularly assigned.

The complaint has come up again this year. Instructors, finding they do not have enough senior grades, are frantically adding quizzes and reports to overworked seniors.

Is this fair? We think not. Professors knew proposed graduates would not have to take finals and should have arranged extra work throughout the semester if they felt they would not have enough grades.

Why not let the college graduate in a gift be a true one? Cancel the long "hour" examinations and let graduating Techsans enjoy their last few days of college life.

Forty-five states have enacted fair trade laws, California's, in 1931 being the first.

Be Happy - Go Lucky!

The upperclassmen kid me so:
I think that they are mean;
For of my twenty Lucky Strikes,
They get at least fifteen!

By DICK BROOKS

If you were not one of the 8,000 or so football fans in Jones Stadium Friday night, you should have been. Not only did the crowd enjoy the warm, pleasant evening and the fine entertainment by the Lubbock Sheriff's Posse, but they saw some pretty good football, too.

The two teams showed rather clearly the effects of their month's work out under the new coaches.

They were in excellent physical condition, the best this writer has ever seen a Tech squad. Early in the spring drills, coach Weaver said that the squad was going to begin working on fundamentals. Apparently they did just that, and worked hard, too.

Blocking in the line was vicious and effective. More than that after handling his assignment in the line, many of the boys raced down field to see who they could block there.

The tackles were sharp and decisive. There was little of the round-the-neck, rope 'em style which characterized Tech tackling last fall.

The split-T formation is a difficult one at best. Even with much practice and years of experience it is apt to go awry at times. Coach Weaver's charges had been working on the formation only a month. They did make some mistakes, but not as many as we had expected.

Then too, the opponents always knew pretty well what they were going to do in this game, so the deception was not at its best. The lightning speed of the split-T was obvious, however, and sent many of the fans home wide-eyed.

What did the game tell about next year's season? Not a great deal.

Several fleet backs were unveiled. Bobby Cavazos, Jess Fairley, Jim Turner and others indicated that Tech will have some speed merchants next fall.

The passing was not particularly impressive. The ends looked better, however, which might indicate that the aerial attack will be adequate, though not anything special.

One thing that particularly impressed us, though no real conclusion can be drawn from it, was John Moughon's tremendous punt. Moughon kicked from his own 39 yard line and the ball traveled in the air over the goal. It was brought out to the 20 so the records show a 41 yard punt. That isn't bad, but when you consider that Moughon was standing about on his own 29, and that the ball traveled in the air about 70 yards, it isn't hard to think that maybe we do have a kicker in the sophomore quarterback. Tech could surely use one.

Now a little on the less pleasant side of the ledger. Next fall we will have a small football team, speaking of weight. Other than Jerrel Price and Buddy Barron, the rest of the linemen are not very big in comparison with other college lines.

We doubt that the Raiders will be able to withstand such onslaughts as they must when they face Texas A&M, TCU and Baylor next fall unless some bigger boys come in from somewhere. It just takes more depth than we've got, that's all.

Too, even though there has been marked improvement over last season, we doubt if there has been enough to have appreciably changed the record as it stood. The material is just a shade shy.

Next fall freshmen will be eligible. See SPORTS SLANTS Page 7

Tech Intramurals Add Relay

Fifteen events will be run off in the third annual Toreador sponsored intramural track meet scheduled for May 12. One event, the mile relay, will be run for first time.

The meet will get under way at 1 p.m. with the pole vault, shot put and high jump. Thirteen new records were set last year in the meet. Most of these records were set by varsity athletes who are ineligible this year.

Winners of each event will receive awards and plans are under way at this time to present a trophy to the winning team. This trophy must be won three years in succession to become a permanent possession of the team.

Events and existing records are: Pole vault—Sam Davis, Silver Keys—106."

Shot Put—James Thames, Squirrel Shooters—44'11 1/2."

High Jump—Clayton Stallings, BSU, Robert Peacock, Wranglers—5'11."

Soft ball throw—Red Phillips, Squirrel Shooters—102 yds, 1'2 1/2."

High hurdles—Clayton Stallings, BSU—16.6.

Broad jump—Walter Hobgood, Squirrel Shooters—20'9 1/2."

440 yd. dash—Ben Wilson, Sneed—54.0.

220 yd. dash—Hudson Routh, Squirrel Shooters—24.0.

200 yd. low hurdles—Junior Arterburn, Squirrel Shooters—25.0.

Football throw—Paul Nolen, Squirrel Shooters—69 yds. 18."

100 yd. dash—Denton Lambert, Squirrel Shooters—10.5.

880 yd. dash—Gerald Thompson, Squirrel Shooters—2:14.3.

60 yd. dash—Arterburn, Squirrel Shooters—6.5.

440 relay—Squirrel Shooters (Routh, Arterburn, Sandy Welton and Lambert)—48.0.

CAROL SPEAKS ON PANEL

Dr. J. S. Carroll, head of the education department, attended the College Teachers of Education conference April 22-23 in Austin. He participated in a panel discussion of the present certification program. Dr. Carroll also attended a meeting of the Texas Council on Teacher Education last Wednesday in Austin.

Kemas Win MICC Basketball Playoffs

By defeating Silver Key 33-28 in the finals of MICC intramural basketball Kemas proceeded to the all-college championship finals played last night.

Cherry Pluckers, champions of the Independent and Dormitory leagues, were the underdogs in the final game of the season.

George Belcheff paced the Kemas five in their win over Keys. Belcheff's superb floor game and 14-point contribution toward the final score marked him as an outstanding player of the game. David Leverton was consistent in getting his share of the rebounds to hold the Keys at bay.

Only once during the entire contest did Keys get the lead. Shortly after the half Joe Wheatley stole the ball and dribbled the entire length of the court to put the Keys ahead 18-17. Belcheff sank a long shot that changed the lead of the game after which Kemas was never routed.

Joe Wheatley led the Key scorers with 10 points, but the Keys couldn't match Kemas' superior height and greater accuracy.

White Team Wins Roundup Tilt From Reds 25-19

Some 8,000 fans watched Coach Whit Weaver's footballers demonstrate their wares Friday night at warm spring games in the stadium. The Raider Whites, coached by Babe Woods and Wade Utter, edged the Raider Reds, Jack Mitchell and Wyatt Posey 19.

Most of the 8,000 fans went home roughly satisfied with what they saw. No one expected to see a team which would wait to a national championship with ease next fall, but the fans were looking for some improvement. They found

The squads were hitting hard, looking was sharp and tackling is better than at any time last season. The boys were superbly conditioned, and, as one fan put it in the best physical shape they've been in since 1948.

The Raider Whites demonstrated the strongest offensive punch, coming from behind to win. The Reds led 7-6 at halftime. Early in the contest the Whites were forced to make two goal line stands, but were able to stave off Red scoring

reals. Then the Whites marched to victory combining the talents of quarterback John Moughon, Jim Turner and Sandy Welton. Turner's lateral to Welton which carried the ball from the 38 to the 45 was the biggest gainer. Turner scored from the one and later missed the point try.

Moments later Junior Arterburn ended off to Lewis on the White yard line and the Reds tied it 7-7. Moe Turner's kick made it

7-6 in favor of the Red team.

The Reds came storming back after the halftime rest to score quickly. Jess Fairley ran the kick-off back 54 yards and placed the ball on the ball on the Red 16 on the opening scrimmage play.

Lewis scampered across and the score read 13-6 after the conversion attempt failed.

Jim Turner roared across from the eleven yard line to put the Whites' back in the game after a pass interception had taken the ball from the Reds. Conversion was not good.

Again the Whites took the lead moments later as Bobby Cavazos Sandy Welton and Turner rolled up 59 yards and six points, making the score 18-13.

The lead was short lived, as Arterburn sneaked over on a keeper after marching 29 yards for the score. Jones had returned the White kickoff to the 29.

Paul Erwin hauled in a touchdown pass for the Whites, their final scoring punch of the night, making the score 25-13 after Jim Turner converted.

The Whites gained 358 yards rushing to the Reds' 147, the Reds passed for 82 yards to the Whites' 52. The Whites had 20 first downs, the Reds 11.

PROF GOES TO FHA MEET

Miss Doris Nesbitt, assistant professor of home economics, will leave today for Fort Worth, where she will attend a meeting of the Texas Chapter of the Future Homemakers of America. She will return Sunday.

Loboes Top Tech Tracksters 72-59

New Mexico university scored nine first places to beat Tech's track team in Albuquerque Friday for the first time in four years.

The Loboes amassed 72 points while Tech could muster only 59.

Tech's workhorse, Charlie Pinnell, was high point man with 17 points, winning the 40 and the pole vault. He tied for first in the high jump, was second in the high hurdles, third in the broad jump and ran anchor lap on the winning mile relay team.

Sonny Stanford of Tech won the high hurdles for the Raiders' only other first place. Next meet for coach Joe Wilson's tracksters is the Border conference meet at Tucson May 12.

Sports Slants —

ble to play in the Border conference. We doubt if that will help much. It is a rare freshman who can assume college roles at once. Not many sophomores can do that.

Still, a good crop of incoming first year men could give us needed reserve strength.

Predictions are out of the question. To say that next fall will find Tech winning so many and losing so many is sheer folly. Too many things are uncertain now, and could change by September.

We will say this. Tech has a good chance of winning its four Border conference games, and a better than average chance of beating New Mexico and Houston universities. If we get by Tulsa or any of the three Southwest conference teams, we will be exceedingly fortunate. A team which begins to rebuild generally takes more than one year. It's the season of 1952 we are looking forward to.

Spring practice is over for the squad itself, but work is just beginning for the coaches. Now they will resume their back-breaking task of scouting around West Texas for football players. Every student and every alumnus can help.

Tech is offering the same thing first year men could give us needed reserve strength. Predictions are out of the question. To say that next fall will find Tech winning so many and losing so many is sheer folly. Too many things are uncertain now, and could change by September.

At Tech, a boy will have the opportunity to play under some of the finest and most promising coaches in the business. He will be able to grow with the team. He will probably get a chance to play more here than he would at some other schools.

When you go home this summer, if you really want Tech to have a first rate team, sell that home town star on Texas Tech. It shouldn't be too hard to do.

Tech Home Economics Students Model Cotton Garments In Lamesa Style Show

Sixteen Tech home economics majors modeled cotton garments for a style show in Lamesa last night, celebrating Lamesa's Cotton Observance week, said Miss Margaret W. Weeks, dean of home economics.

Miss Weeks, Miss Lola Marie Drew, associate professor of home management and Miss Ellen Wright, assistant professor of clothing and textiles, accompanied the group. Miss Wright was commentator during the part of the show presented by Tech students.

Girls modeling were Ruth Brunson, Claude; Mary Lou Jones, Lubbock; Betty Fillingim, New Home; DeRose Wittenburg, Eden; Glenda Wright, O'Donnell. These students modeled dresses worn in the South Plains Maid of Cotton contest.

Modeling cotton dresses made in home economics classes were Jo Alice Stout, Seymour; Mrs. Kathryn Adams, Lubbock; Jo Ann Boreland, San Angelo; Treasure Phegley, Plainview; Donna Caldwell, Lamesa; Marilyn Jones, Garland; Har-

West Of —

sions and personal happiness under changing conditions; if they have helped us fashion tools that will enable us to cope with our problems of war and to enjoy the blessings of peace.

Finally, . . . "if among your resources there is a growing familiarity with literature, history, philosophy, religion and with the sciences of man and nature, you have built up permanent capital which is proof against good times and bad. And if you have cultivated a discriminating mind you will be able to cope with the changing problems as they arise, including the vocational ones.

"As an educated woman you have it in your power, as they a woman can, to infuse understanding and sympathy into a cold, mechanized world."

Somebody once wrote a little poem which college students might enjoy memorizing. It is entitled "Quo Vadis" and goes as follows: My grandpa notes the world's worn cogs And says we're going to the dogs. His grandpa in his house of logs Said things were going to the dogs! His grandpa in the Flemish bogs

riet Humble, Columbia, La.; Ann Edwards, Lubbock.

Dresses made of cotton tricort, a cotton fabric recently developed at Tech, were modeled by Mary Ruth Sims, Lubbock, who modeled a lime afternoon dress trimmed in black velvet; Ann Hollingsworth of Lamesa, who modeled a lime and navy three-piece suit with matching hat and gloves; George Ann McFarland of Lubbock, who modeled a tailored copper and navy dress.

MICC Will Hold Four Tilts Today

Four games will be played today in the MICC intramural softball league. League play began yesterday.

Kemas play Wranglers, Centaurs and College Club fraternity meet. Socii tangles with Los Cams and Silver Key is scheduled to vie with Adelphi.

The league, which was won last year by Wranglers, will play games tomorrow and Friday. Games to be played tomorrow include Centaurs, Kemas; Socii, College Club fraternity; Silver Key, Wranglers; Adelphi, Los Cams.

Centaurs will play Socii, Silver Key meet Kemas, Adelphi and College Club fraternity clash and Los Cams tussle with Wranglers in games to be played Friday.

Wesley Players To Hold Spring Drama Festival

The Wesley players, Methodist drama group, will hold their annual Spring Drama festival at 7:30 p.m. Friday in the Methodist Student center.

The plays to be presented are "The Blue Beads" and "The Golden Rule in Courtship." Directors for the two comedies will be Patti Pipkin and Max Hardesty, respectively.

TYPE ERROR UPS DATE

In last Saturday's Toreador the second Army testing date was given as June 26. This was a typographical error. The second test will be given June 16.

Said things were going to the dogs His grandpa in his hairy togs Said things were going to the dogs. But this is what I wish to state— The dogs have had an awful wait!

Tech Glee Club To Return Today From Singing Tour

The Tech Glee club will return today from a two-day singing tour to Muleshoe, Hereford, Memphis, Childress and Paducah.

On the tour were Steve Bavousett, Bill Brewer, Hardy Clemons, Joe Cowan, Lynn Cowan, Bill Dear-dorf, Loyce Elliott, Mr. and Mrs. Raymond Elliott, Bill Green, Ned Hodges, Ralph Hodges and George Hardin, Luther Harris, Houston Also Robert Jacobson, Buford Jones, Jerry Julian, James Lee, Robert Leonard, Earl Morrison, David Morton, Charles Nolan, John Nolan, George Prigmore, Claude Sloan, Fletcher Stapp, Hubert Waddill and Wendell Welch.

Honorary Home Economics Club Schedules Annual Picnic Friday

Phi Upsilon Omicron, honorary home economics club, will have its annual picnic from 5:30-7:30 p.m. Friday at the home of Miss Margaret W. Weeks, dean of home economics, and Miss Mabel D. Erwin, professor of home economics.

Each member will bring a guest.

"Sprites" —

mals on the circle.

E.d.: Well, from your description, I would say that they were ground squirrels. We had a nest of them under the chemistry building one year.

Rep.: Thank you very much. (Collapses on the stairs outside the office.)

Which is all to say—those are ground squirrels living on the circle.

Smith Chosen Major-Minor Club President; Other Officers Named

Charlyne Smith of Lubbock has been named president of Major-Minor club for next year.

Frances Gibbs was chosen vice president; Patay Scales, secretary; Beverley Hibbets, treasurer; June Cook, AWS representative; Jeanette Hill, reporter.

Geology Prof To Speak At Club Banquet In Hilton Hotel Friday

Dr. Grayson E. Meade, associate professor of geology, will be honored speaker at the Geology club banquet at 7 p.m. Friday in Hilton hotel.

Louis Goss, club president, will introduce Meade, who will speak on the climate and life of the Plains during the Tertiary period.

Approximately 40 persons are expected to attend, vice president Katie Atkinson said.

Mrs. W. H. Spurgeon, '49 Tech graduate, was visiting on the campus this week. She is the former Mary Caudle of Amarillo. While attending Tech, she majored in home economics education.

Vocal, Instrumental Recitals Presents Musical Techsians

Students of the department of music were presented in a recital last night in the Museum auditorium.

Those participating were Dorothy Guinn, Nancy Davis, Gene Reynolds, Betty Haberer, Ruth Wiley, Warren Forsythe, voice students; Johnnie Evans, Mariellen Griffin, Clydella McGinley, Patricia Follen-will, Marjorie Hendrick, Robert Hufstetler, Patricia Lindsey, piano; Charles Wilson, trombone; V-

liam Cook, trombone; Robert Reed, baritone; a brass trio. A brass quartet, Charles Dav- port, trumpet; Donald Miller, horn; Robert Reitz, baritone; Charles Wilson, trombone.
