"TERMITE" LEE IS BEHIND BARS, CHARGED WITH THE BILL TURNBOW "MOCK CRIME" SLAYING

... District Attorney John Stokes grins with glee as defense attorneys Monty Bray and Bill Sherbert look on in anguish.

Lee Out On Bond; Trial Set For Friday

Kenneth "Termite" Lee, arrested by Lubbock police Tuesday and charged with the murder of Bill Turnbow, was released from jail

This is the Pre-Law Club's mock trial.

Wednesday on \$125,000 bond. Turnbow was found hanged by

his roommate, Rudy Dominguez, at 11:15 p.m. Monday. Lee was formally charged with murder, Tuesday after being arrested and questioned by the Lubbock Police. He was the top suspect because of an argument he had with Turnbow Monday in the Union. Turnbow was upset with Lee when he found him drinking coffee with

his one-time girl friend, Susie Stone.

LEE SAID at the time of the incident, "I'll get back at you, you overgrown ape."

Missing since 10:05 p.m. Monday, he was located Tuesday at 10:15 a.m. in the Tech Union. By resisting arrest, Lee forced the two Lubbock Policemen to bodily carry him out of the Union.

THE prosecuting attorneys, John Stokes, Ted Wisenbaker, and Jerry Rogers, opposed the releasing of this man on bond. Because he was released, the attorneys obtained an early trial, which has been set for 7:30 Friday night in the Aggie Auditorium. The site was chosen because of the large audience that is expected. Stokes felt there was no court of law that would hold the crowd.

James Adams, the judge who set the bond, will preside over the trial. He is Chief Justice of the Tech Supreme Court and president of the Pre-Law Club. The jury will be picked from random from the audience.

LEE IS BEING defended by three well-known criminal lawyers of Texas. They are Monty Bray, Bill Sherbert, and Richard Latham. Bray said, "My client is falsely accused. He is an innocent as the day he was born, and we shall definitely prove this."

The prosecuting attorneys have a different viewpoint. Stokes says, "Justice will be done. This man will be made to pay for this heinous crime. Tech has few enough good football players as it is."

Robot, Nike Missile Featured In Show

Man-made lightning, electrocuted hotdogs and exhibited military missiles will be featured in the 28th annual Science and Engineering Show. The show, from 2 to 10 p.m. Friday and Saturday will be held in the engineering buildings, Chemistry Building, and Science Building.

The Air Force ROTC will display the Bomarc missile in the Science Building parking lot. Army ROTC will exhibit the Nike Hercules missile and also a mobile radar unit.

Sparky the robot, a mechanical bug that makes noises, runs in circles and blinks his eyes, will be one of the physics projects on display. This department will also show the man-made lightning.

MECHANICAL engineering students have devised a unique method to cook hot dogs. Elec-

See Picture, Page 9

trodes are placed inside a weiner which then sends a current through the weiner and cooks it in seconds.

Electrical engineers have developed a transistor electric organ and a strength tester. The strength tester can tell a person's strength by the way he turns the crank of a generator.

THE PURPOSES of this show are three-fold: to display recent technological developments, to stimulate interest among visiting high school students in these fields of study and to familiarize the public with the scientific and engineering curriculum and facilities available to Tech students.

Prizes will be awarded to the best overall department exhibit and for the best individual exhibit. A trophy and \$50 is the department prize; a certificate and \$15 is the individual prize.

ALL DEPARTMENTS of the school of engineering will have displays in this event, as will the senior students of chemistry, physics, geology and agricultural engineering.

Has 120 Members

Band Hit For Refusal To Make Rodeo Entry

A foursome of Saddle Tramps voiced their disappointment Wednesday over the inability of the Texas Tech band to get up a team for the wild mare race in the Tech Intercollegiate Rodeo.

Larry Campbell, Carlyle Smith, Pete Baker and Bob Ford had challenged the band to enter a team. The four are entering the event themselves.

"Band, if it's going to be too rough on you, get out," Campbell said.

Baker warned the band to get their student insurance at the Student Council office if they did

Council Has Installation

New Student Council officers and representatives were installed at the Student Council Banquet Tuesday night.

Bill Pfluger, outgoing Student Council President, administered the oath of office to new members and officers: Bill Dean, president; Pete Baker, vice president; Janice Jones, secretary; and Larry Campbell, business manager.

Dr. J. W. Davis, head of the government department, spoke to the banquet on "Politics as a Profession."

Special guests that attended were Dean of Women Florence Phillips; Assistant Dean of Women, Dorothy Garner; Dean of Student Life J. G. Allen and wife; Dean of Men and Mrs. L. N. Jones; Acting President of Texas Tech R. C. Goodwin and wife; and Dr. R. L. Rouse, Student Council sponsor.

Saturday Set For COB Dedication

Dr. Clifford Jones, former president of Tech will make the principal address at the dedication of the new Classroom and Office Building, Saturday at 10 a.m.

Previously, Dr. D. M. Wiggins, also a former Tech president, had been scheduled to be principal speaker.

Ex-Students Sponsor Senior Literary Contest

Graduating seniors at Texas Tech may enter a contest sponsored by the Tech Ex-Students Assn. Interested seniors are asked to

New Play Ages Boots 300 Years

Old cowboy boots are needed by the speech department for use in *The Imaginary Invalid*, the last production of the season to be given by the speech department.

The tops of the boots will be cut off to look like shoes of the period of the play, the 17th century.

Boots should be turned in to the speech department as soon as possible.

submit a short article of about 300 words pertaining to any of the following subjects: "What Texas Tech Means to Me," "What My Degree from Tech Will Mean," or "What I Think the Future of Tech Is." Entries are due no later than Friday in the Ex-Students Assn. office, Rm. 101 of the Ad Bldg. Interested Exes and members of Judges for the contest will be the college faculty.

Winners will have their articles and their pictures published in the June issue of the Texas Techsian, Ex-Student Assn. magazine, and will receive a five-year subscription to the Techsian. Subscription rates per year are \$3. There will be four winners.

If further information is needed call Wayne James, assn. executive secretary, at Ext. 428.

All-Intramural Night Set

The Coliseum will somewhat resemble a three-ring circus at 7 p.m. May 3 when All-Intramural Night comes to Tech.

The highlight of the evening will be the individual and team awards for the best participation in intramural sports. This will be judged on a point system. Those qualifying for the individual award are Johnny Appleby, Mike Crookshanks, Wendell Morrow, Bill Lewis and Ken Bailey. The teams trying for the team award are: Phi

Delts, S.A.E., and Pikes.

This event, which as yet does not have a permanent name, will be an annual affair.

Jack Dale, KFYO Sports Announcer, will be Master of Ceremonies and will announce the different champions between the events.

The different finals to be played concurrently will be volleyball, table tennis, weight lifting, fencing, trampoline, badminton, tug-o-war and wrestling. An exhibition boxing match will be staged between E. J. Holub and Pete Peterson.

The admission is free and the public is cordially invited.

Three Students Given Honors For 'Harbinger'

Three Tech students have written prize-winning poetry and prose for the Spring, 1960, edition of The Harbinger, literary publication of Sigma Tau Delta, professional English fraternity.

Mrs. Mary Sue Black, senior English major from Cotulla, won a first prize with her short story, "The Invitation."

James H. Powell, Jr., graduate student from Plainview, placed in both poetry and prose. He won first place for his group of three poems, "Alfama," "Gerry," "Koenigstein." He also was recognized as second place winner in the short story division. Powell's story was "Moctu of the Vortex."

Texas Writer Relates Newspaper Experiences

Boyce House of Fort Worth, widely known Texas writer and speaker, will tell his experiences as a newspaperman at a joint meeting of Sigma Delta Chi and Theta Sigma Phi, journalism groups, at a luncheon April 29 in the Tech Union.

The chronicling of the Santa Claus bank robbery in Cisco, which cost six lives, and the discovery of Old Rip, the horned frog, alive in the Eastland courthouse cornerstone were among House's experiences. Both events made front pages around the world.

Author of 17 books, House has been the subject of articles in Life and Parade magazines. Carl Sandburg described House's writings as "that peculiar blend of valor and

swagger which is Texas." His most successful book is "I Give You Texas."

House is in "Who's Who in America" and is executive vice president of the Texas Consumer Finance Assn. He writes a daily humor feature and a weekly column and averages 50 after-dinner speeches a year.

Any person wanting to attend this luncheon should contact the journalism department. The meal costs \$1 and 335 people will be allowed to attend.

BOYCE HOUSE ... speaks at Tech.

Homecoming Meeting Set

The Ex-Student's Association has requested that all organizations that received letters concerning their entries in next year's homecoming parade send representatives to an important meeting in the Tech Union today at 5 p.m.

Rules and regulations concerning the floats will be discussed. The possibility of a theme will also be considered.

Since homecoming will be October 22 next year, almost a month earlier than usual, it is imperative that many of the plans be made now.

Leap Year Dance Calls For Stags

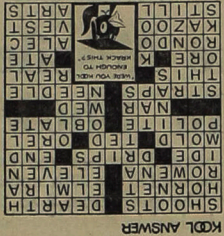

A leap year special, entitled "The Dateless Dervish" will be presented by the Tech Union at 8:30 p.m. Friday in the Union Ballroom.

Being leap year, stags are encouraged to come and dates are acceptable.

Bledsoe Chooses Sweetheart Friday

Five finalists for the Bledsoe Hall Sweetheart will vie in an election Friday night at Bledsoe Hall.

They are Lynn Buckingham, Jackie Howard, Beth O'Quinn, Joy Keller and Shirley Stephens.

The Spastic

by
Arthur
Mayhew

It always seems that earth-shaking things happen in the Lubbock-South Plains area when one is away. Take last week for example: out of a clear blue sky on April 8—the day classes were dismissed for spring vacation—a tiny precinct in Garza County voted wet, not only for liquor stores but for taverns.

Now, we know to many this means nothing, but to those who have traversed the long roads to Big Spring, Amarillo and, lately, Nazareth, this is a welcome boom. No longer will a "run" put students, bystanders and livestock in danger. It is a short 40 to 50 mile drive to the precinct—depending on which of the three roads you take—and one road is a four-lane highway.

While it will be awhile until the package stores will open, it is rumored that the taverns will be in operation Saturday. Even though it may be longer, the places should be in operation by May 1.

The unexpected vote skyrocketed land values in the wet precinct. Enterprising businessmen have already purchased plots in the area and plan to put in atmospheric dining and dancing places.

A local pizza place is planning a big cafe to cater to the college and area trade, which makes sense, as what is pizza without a good cold beer to wash it down.

Some of the Post people are very unhappy about the outcome, naturally. But they couldn't be any unhappier than the syndicate that operates the Lubbock bootlegging ring. This one election hurt them more than any other thing since Lubbock voted dry in 1908.

While there is no telling how long the dream may last—the people can call a vote again in a year—the students who do take an occasional drink owe a great deal of thanks to the fine, broad-minded people of Post.

Another new innovation in Lubbock in the last week was the advertising of the televised "Game of the Week" by Falstaff Breweries. Now this is not unusual in normal places, but in Lubbock, this is unbelievable. And, it will continue the rest of the year; that is, unless certain groups clamp down on the station for ruining the town's "morals."

This second thing was almost too much to take in the same week—but, we're not complaining. We're beginning to feel like we were home (where too many people wish we were!)

Speaking of changes in and around Tech, it looks like some things will never be altered. We are speaking of the clocks (?) in the COB which have yet to run anywhere near on time.

If we are going to have a new building, it sure would be nice if one could tell what time it was without having to ask students in the halls.

While we were home, we saw The Iconoclast, alias Joe Nicholson, who is continuing his creative writing. An English major graduate, Nicholson is a continuity writer for the Midland TV station.

He now writes kiddie shows under the name of "Cousin Joe" and two of his works include, "The Sad Saga of Turley Turtle," and "Oleandar, The Nearsighted Bull." The latter is a story about a nearsighted bull who cannot see the bull fighter, and so gets a pair of contact lenses. However, with the lenses, he cannot see the grass and starves to death. This is a kiddie show?

Many Refugee Problems Cause World Concern International Viewpoint

Third in a series of articles on current international problems written by members of the Cosmopolitan Club, an organization of foreign and American students interested in international relations.

★ ★ ★

In this, the most progressive century of all time, misery still has a commanding hand on Earth! The world's suffering can usually be attributed to acts of hate together with the general misinterpretation of human rights. A multitude of problems and complications have come about as a result of this human strife. In our 20th century, we are faced with one of the greatest problems of all, "The Problem of the Refugees."

The refugee problems have been so numerous that every nation on Earth is affected by them in one way or another. There are two general classifications of these problems—those which have been solved and those which, for some reason or another, yet remain unsolved.

There are many recent examples of solved refugee difficulties:

1. The refugees of Pakistan in India and India in Pakistan which came about with India's independence from Britain. This was solved by exchanging Moslems for Hindus.

2. The German Jewish refugee problem which was created in World War II and solved by the settling of these Jews, by their own will, in other countries of the world. Germany is now paying for their repatriation.

3. The Chinese refugees of the communist revolt who were settled in Formosa and Kong Kong.

4. The Indo-Chinese refugees of the communist revolt who were settled in the southern part of Indo-China.

5. The Hungarian refugees following the anti-communist revolt who were settled in Europe and the Western Hemisphere.

On the other side of the balance there are unsolved refugee problems which now continue to plague the world:

1. The million Palestinian refugees who were displaced en masse from their country in one of the most dramatic, inhuman acts of recent history. This was done to establish a non-Arab state in Palestine. The United Nations has condemned Israel for preventing these refugees from returning to their homes, although Israel, on the other hand, is asking millions of non-Arabs to immigrate to Palestine with utter disregard to the rights of the refugees.

Election Time Is Here

A Recipe For Campaigning

It's election time again and the great American pastime of showing how democracy works in its highest form is about to vent all its fury on John Q. Public.

Here is a favorite formula for American electioneering:

Take one who has been in office and is running for re-election. He will stand on what he has accomplished during his term and will make the same campaign promises he used in the previous elections and say that vicious political opportunists, lobbyists or red tape has kept him from fulfilling his program completely.

But, he will also state that he has made much headway and needs another term to carry out the vast work which he has started and that there is no other person so qualified to do the work.

Then take the smart young lawyer who is the opposition. He will say that personalities should not enter into politics and that one should run on his merits, of which he has plenty.

But he will also say that due to the rotten circumstances surrounding the current administration, he feels that the public must be informed.

The public becomes informed. Then the young lawyer is accused of political mud slinging, slander, lying and various other skulduggery.

The candidates then take turns blasting each other on radio and TV until election time. At last, the voters, informed on everything about the candidates from illicit love affairs to embezzlement, go to the polls and pick one.

The loser promptly wires congratulations to the winner and everybody is all smiles again. The election is over.

It sort of reminds you of a boxing match in which the fighters beat each other to a bloody pulp and then fall into each other's arms like long lost brothers as the final bell sounds.

Techsan Talks

Signal Lights Hinder Traffic

Editor:

Our campus is constantly growing and improvements in its physical facilities are to be seen everywhere, both by Texas Techsans and by interested people from all over the country. It would now seem that a further improvement is needed in view of this latter group constantly traveling across our campus.

The traffic signals on the campus are needed only 10 or 15 minutes each hour as students travel from one class to another. During the other 45 or 50 minutes of an hour they serve only to needlessly halt automobiles on our campus streets.

Many of these people are visitors and sightseers whose movement shouldn't be impeded by ill-timed and useless traffic lights. They shouldn't be welcomed by having to sit gazing at a barren campus devoid of people merely because we haven't thought of the inconvenience this may cause.

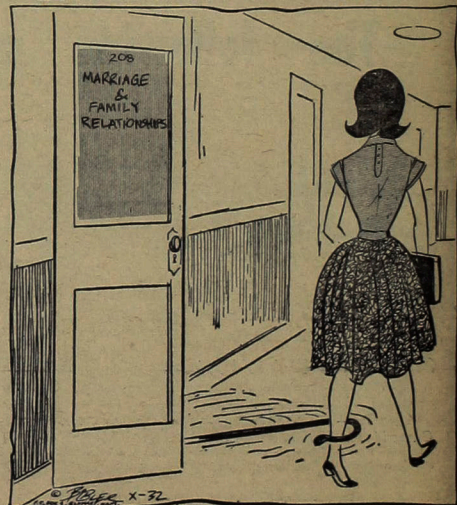

It wouldn't cost much out of our funds and could reap dividends of good will to install a timer to flash these signals urging classes and to switch them into use between classes. Things that good public relations are made of.

I believe that this would be one of those little "extras" that is seldom thought of but is also one of those minor things that make a good reason.

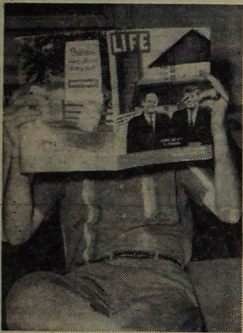

for my observation being an invalid one, but if so I would appreciate knowing why this isn't done.

Don Zimmerman

LITTLE MAN ON CAMPUS

TOM SCHMIDT LOOKS AT LIFE

bay. After the game some fans discovered that the tide had gone out and they had to wade through the mud to reach their transportation.

Pictures and story are on page 40 in this week's LIFE.

Kidnapping a child for ransom rarely occurs in France—in fact so rarely that when a child was kidnapped recently there was no French phrase for the act; so they called it "crime a l'americaine."

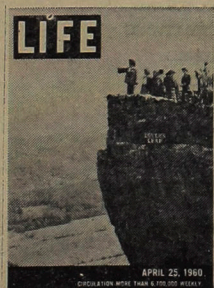

Almost everyone, no doubt, has read of the now-famous incident when 4-year-old Eric Peugot was taken from a playground in broad daylight and a ransom demanded.

But the ending was a happy one; the kidnapper(s) was not caught. LIFE tells the story... with pictures.

If you want to hear some wild tales, listen to some of the things that have been happening to the U.S. census takers. Indications have it that before it's all over 180 million Americans will have their heads counted.

Most complicated of problems occurred for census takers in Hawaii. LIFE says, "To count noses scattered around the eight major islands of Hawaii, enumerators had to climb to the brink of volcanoes, search coastlines in outrigger canoes, walk through lava wastes, poke deep into cane fields for the occupants of plantation shacks."

OTHERS: Well fixed team of fire-eaters: volunteer firemen in Michigan are among the town's top moneymakers; Smash new aerial act: a stunt flier rams his plane through a farmhouse for TV; Hospitable land for a tour in springtime: LIFE lays out a 4,000 mile trip through historic scenes in six southeast states.

Some think the San Francisco Giants will take the National League pennant this year and possibly go on to a first World Championship. If the team fails, it won't be because of a lack of facilities.

The phenomenal Candlestick Park was officially opened during the Giants' series with the St. Louis Cardinals.

It stands on Candlestick Point which juts out into San Francisco Bay. This encouraged some 500 fans to come to the game by boat.

Midway through the ceremonies an announcement came over on the public address system that a boat was adrift in the

FOR WEST TEXAS MUSEUM

Expansion Planned

by DAHLIA BRAZELL
Toreador Staff Writer

An expansion program for the West Texas Museum is now under consideration. For several months the necessities and problems of expansion have been studied by experts in the museum world, including Dr. Robert T. Hatt, national and international museum leader who helped to plan the basic program and policies for the local Museum from its beginning. The planned program might go into effect by fall.

"Expansion of facilities of the West Texas Museum would benefit the students and faculty of Texas Tech in innumerable ways," states Mrs. William C. Holden, assistant museum director.

"Collections, exhibits and laboratory displays in each area of study would be of value in relations to classroom study. They would also provide an opportunity to explore the world and introduce students to subjects never encountered in formal education."

Should a half-mill tax be voted by the citizens of Lubbock, proceeds amounting to approximately \$92,000 a year could be used to build and equip 14 new galleries within 15 years and furnish necessary maintenance and staff.

The tax for a year would be equivalent to the price of one pair of hose or five packages of cigarettes.

The State of Texas regards museums as mainly local projects, and further aid from that source is not expected, according to Mrs.

Holden.

Expansion would be on a build-as-you-go basis. Construction would not begin until enough funds were available to complete a unit. Funds for a new unit of construction would be accumulating while the unit just finished was being equipped.

A few of the exhibits planned are the Hall of Natural History, Hall of Cattle and the Cowboy of the Americas, Hall of Science, Hall of Petroleum and Minerals, and Hall of Health. Should a medical school become associated with Tech, the proposed Hall of Health would be especially beneficial.

A "dream" of the staff is to add a sculpture court where art students might do their projects in comfortable surroundings. Building of a small observatory would serve to stimulate interest in applied astronomy.

Foremost in the benefits of an expanded museum would be the opportunities for research and graduate programs comparable to that of larger universities and colleges.

TRAVELER EATS MILES AWAY

Some airline hostesses got to wondering the other day just how far the passenger on a jet travels while he is eating. Here are the results of the survey they made.

While drinking a glass of champagne, 150 miles; one hors d'oeuvre, 5 miles; appetizer, 100 miles; soup, 50 miles; main course, 450 miles; dessert, 120 miles; cup of coffee, 100 miles; liqueur, 170 miles; after dinner cigarette, 100 miles.

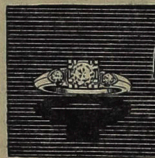

According to this survey, the passenger eats and drinks more than one third of his way across the ocean on his 3175 mile trip from New York to Paris.

Prof Attends Princeton U

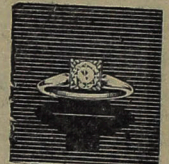

Dr. Clinton M. McPherson will attend the Princeton University Summer Institute for Chemistry Teachers from June 27 to August 5. Dr. McPherson is one of eleven who were chosen from approximately 1000 applicants.

THE INSTITUTE is made possible by a grant from the National Science Foundation and is to provide teachers of chemistry an opportunity to broaden their knowledge of their subject and to learn about newly developed techniques in the laboratory. New lines of scientific thought will be discussed with authorities in the field.

Instructors at the Institute include Prof. C. E. Bricker who has been a guest lecturer at Tech.

Giants, Dodgers Top NL Race

SAN FRANCISCO (AP) — Lefthander Mike McCormick threw a two-single shutout at Los Angeles' world champions Wednesday as the San Francisco Giants grabbed a 1-0 victory and moved into a tie with the Dodgers for the National League lead.

McCormick, who tossed a three-hitter at the St. Louis Cardinals in his first start this season, won a pitchers' duel with right-hander Don Drysdale.

Don Blasingame singled home the Giants' run in the fifth with two out.

The hit scored Willie Kirkland who had singled and advanced on an infield out and McCormick's punt.

McCormick struck out three and gave up only one walk — to Jim Gilliam in the first inning.

Drysdale had won his first two starts. He gave up only five singles in going the route.

Tigers Rap Indians

CLEVELAND (AP) — Rocky Colavito, Norm Cash and Al Kaline hit home runs Wednesday to lead the Detroit Tigers to a 6-4 decision over the Cleveland Indians and a sweep of their two-game series.

Kaline's homer into the left field stands in the ninth inning proved to be the winning run. It was Kaline's two-run single in the 15th inning of Tuesday's opener that gave the Tigers a 4-2 victory.

The Tigers scored an insurance run in the ninth on a walk to Colavito and a triple to left field by Steve Bilko.

The winner was Tom Morgan, the second of three Detroit pitchers, who set the Indians down in order in the eighth inning after starter Don Mossi was lifted for a pinch-hitter in the top of the eighth. Paul Foytack hurled the ninth inning for Detroit.

The loss went to starter Jim Perry, who was charged with all the Tiger runs.

Reds Belt Braves

MILWAUKEE (AP) — The battling Cincinnati Reds, fired up by the big bat of shortstop Roy McMillan and the ouster of Manager Fred Hutchinson, pushed across five runs in a 10th inning up-rising Wednesday and belted the Milwaukee Braves 10-5.

McMillan, a lightly regarded hitter who has a .250 lifetime average, drove in five runs with a pair of homers and three singles in the 3-hour, 22-minute marathon.

The Reds, held to five hits for eight innings, erupted for three runs to go ahead 5-4 in the ninth, lost the advantage as the Braves knotted the count in their half, and then exploded.

With Hutchinson and second baseman Billy Martin in the clubhouse after been banished for heckling and arguing with plate umpire Frank Dascoli, Cincinnati sent 10 men to the plate in the decisive rally.

The Reds employed 22 players while the Braves used 19 in the long struggle. Cincinnati had 14 hits and Milwaukee 13.

Bosox Bop Yanks

BOSTON (AP) — Jerry Casale doubled home two runs and the porous New York infield gave away another pair Wednesday for Boston's 7-1 triumph over the Yankees.

Casale, the big Red Sox right-hander from Brooklyn, turned in a sparkling 5-hit pitching job made even more impressive by the bone-chilling breezes through which he toiled.

In Boston's decisive four-run second inning, it was Casale's two bagger down the left field line with the bases loaded which was the big blow.

Yankee starter Bob Turley, using his no-windup delivery, lasted for two innings, 61 pitches, five runs, four hits and two costly errors.

Seymour Named

St. Louis Coach

ST. LOUIS (AP) — Paul Seymour was named coach of the St. Louis Hawks pro basketball team Wednesday night, succeeding Easy Ed Macauley.

Macauley, who won two regular season Western Division titles in two years as coach of the National Basketball Assn. team, became general manager. He remains a vice president.

The hiring of Seymour and the appointment of Macauley to a front office job confirms an Associated Press story of March 25.

Runners Enter Kansas Relays

Texas Tech's sprint medley relay team is among the six invited to participate in the Kansas Relays at Lawrence Friday and Saturday and Saturday.

A sparkling 3.23.3 meet record timing at the North Texas Relays won the Red Raiders the coveted invitation. Coach Don Sparks will choose his quartet from Curtis Hart of Andrews, Roger Crawford of Waco, Bob Swafford of Abilene, James Pettit of Gustine, and Charlie Draper of Amarillo. They are also entered in the mile relay. Tech's best in the latter event was 3:13.8.

W. L. (Dub) Thornton of Aspermont will defend his Kansas Relays high jump title. He is unbeaten after six meets this season. Thornton's best leap has been 6' 6 3/8".

Swafford, held out of his high hurdles specialty for a month, will enter that event, along with the 400-meter hurdles. Swafford ran a 14.2 high hurdles race before being sidelined with a muscle spasm. The sophomore's best 400-meter hurdles clocking was 52.5.

James Leonard of Abilene, primarily a pole vaulter, will enter the decathlon.

Area Trackmen Like Raiderland

Both R. E. Merritt, Andrews' great quartermiler, and Ronny Biffle, Anton's hurdles standout, have told Coach Don Sparks that Texas Tech is now their No. 1 choice. Biffle will be among the Region One schoolboy athletes participating in the spring meet in track, tennis, and golf here Friday and Saturday.

Regional competition will be conducted for the representatives of Districts 1-8AA, 1-8A, and 1-15B.

RALPH'S RAMBLINGS

by
Ralph W.
Carpenter

It is a pity that Texas Tech does not compete for the Southwest Conference baseball title. If they did, it would help all concerned. They would be able to schedule better teams, sign better players and get better crowds out to watch the team perform.

Another good point for SWC baseball membership would come when football recruiting time rolled around. There are football players who like to double-up and play baseball in the spring. SMU's Glynn Gregory is a good example. If Tech played SWC baseball this would add another selling point to Tech's fine athletic program.

We know that some people in Lubbock don't want Tech to play SWC baseball. They feel it would take away from our football program. This is poor thinking. Has basketball hurt Tech's football program? Of course not. It has probably helped it in more ways than one. Those overflow crowds at the Coliseum didn't get in free.

Of course it would be an expense to the Athletic Department. They would have to supply funds to pay for traveling expense, etc. But wouldn't it be worth it? If Tech is going to compete in the Southwest Conference, they should do it in all sports. This business of scheduling West Texas State four and five times a season is no good. Tech fans don't care a lot about watching the weak Buff team in action.

We contend that Tech officials should take a long look at the idea of trying to get the Raiders into the Southwest Conference baseball race as soon as possible. We know that if certain officials on and off the campus make up their minds to do something they get the job done. Aren't we in the SWC now? It took hard work from dedicated people in high positions. A poor sports writer could holler and yell until he was blue in the face and accomplish nothing — it is up to the people who make the big decisions for Tech.

We are not even sure all the sports writers in Lubbock want the Raiders in the conference. At least they never try to write anything that might set the right people to thinking. Well, that's their business... but we have our opinion too.

Let's get the Raiders into the SWC baseball conference or simply drop the sport at Tech. It is useless in its present condition.

★—RWC—★

Polk Robison seems to be optimistic with the way his basketball recruiting is coming along. Although no high school athletes have been signed yet, Polk has had some top prospects visiting the campus. This weekend, prospects from Midland, Dallas and McAdoo will be here.

Fullmer Retains Title

BOZEMAN, Mont. (AP)—Sturdy Gene Fullmer and Joey Giardello battled 15 bitter rounds to a draw Wednesday as Fullmer retained the National Boxing Assn. version of the world middleweight title.

THERE WERE several minutes of wild confusion at ringside before Sonny O'Day, chairman of the Montana State Athletic Commission, came up with an official announcement that Fullmer had retained the title.

At first the commissioner debated whether to declare the vote of Referee Harry Kessler for Giardello as the decisive factor.

AFTER a consultation with other officials he climbed into the ring and grabbed the microphone to confirm the draw decision.

"Under the official rules of boxing," said O'Day, "the decision has to be a draw. Fullmer retains his title."

REFEREE Kessler, an import from St. Louis, called it 145-142 in favor of Giardello. Judge Jay Evans of Butte scored it for Fullmer 145-142. Judge Billy McFarland called it all even, 145-145.

The AP card had it 145-145 and all even in rounds.

The brawl was marked by a fierce head-butting duel in the fourth round when Kessler stopped the contest for several seconds and warned both fighters.

The blood was streaming from a cut under Giardello's right eye and from a gash on Fullmer's forehead. For a moment it seemed Fullmer, thoroughly disgusted, was going to climb through the ropes.

When they resumed, they really ripped into each other with both hands.

There were no knockdowns in

their wild affair, staged before about 12,000 in the modern fieldhouse of Montana State College.

The crowd, normally favoring Fullmer, seemed to think Giardello deserved the decision.

They booed the draw and cheered for Kessler's verdict. They yelled again when Giardello's handlers

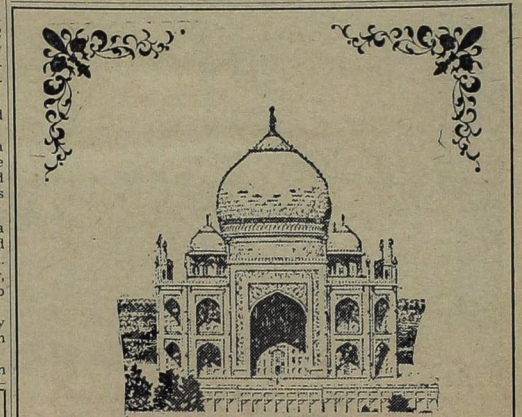

hoisted him on their shoulders.

Giardello, a 3-1 underdog, surprised the big crowd at Montana's first title fight in 37 years by moving with speed even in the last half of the fight. It had been expected that Fullmer's body punches would take the steam out of him.

Tennis Stars Forced Into Special Matches

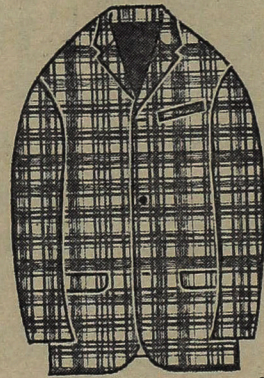

HOUSTON, Tex. (AP)—Young collegians forced Bernard Bartzten and Neale Fraser into extra games Wednesday before the top-seeded stars gained the quarter-finals of the 26th River Oaks Tennis Tournament.

Bartzten, the defending champion from Dallas, had to wait until the 18th game of the second set before defeating Ronnie Fisher, Rice Institute junior from Houston, 6-1, 10-8.

Raiders Split Two With Highlands

by **DANNY McCARTY**
Toreador Sports Writer

Texas Tech split a doubleheader with Highlands University Wednesday on the local diamond, winning the opener, 4-2, and losing the second game, 6-1.

DEL RAY MOUNTS allowed only four hits in winning the opener. Charles Flanagin started the last encounter, but was relieved by Elton Howard in the fifth. Both games went seven innings.

Camilo Estevis was on the mound for Highlands in the first

game and John Doel hurled the second game.

IN THE FIRST game, Highlands made the run column first as Hembertha Gonzales singled and was driven home by Zeke Rodriguez.

Highlands advanced its lead to 2-0 in the sixth as Willie Henderson singled to left field and was driven across by Camilo Estevis' single.

ALL OF Tech's runs came in the bottom of the sixth. George Gibson led off with a single over second base, followed by a Bruce Boyd single in shallow center field. Gibson then came home on a

centerfield single by Sam Gipson.

Ken Warren delivered a triple to deep center field which sent Boyd and Gipson across the plate.

The final run of the opening tilt was scored by Warren on a single by Mounds.

TECH'S four runs came on eight hits off Highlands ace right-hander Camilo Estevis. Highlands received only four hits from Mounds.

In the second game Raider right-hander Charles Flanagin opened, allowing two runs on two hits in the first inning. The second hit was

a home run by Henderson to deep left center.

HIGHLAND scored two more runs in the third inning, followed by two runs in the sixth on a wild throw from Gipson to second baseman Joe Reaves.

Tech threatened in the third as Flanagin led off with a walk, followed by a Reaves single into left field. Gibson walked to load the bases but Boyd and Gipson failed to hit safely and the side was retired.

TECH'S lone run came in the fifth as pinchhitter Howard led off with an infield single followed by a walk issued to Lawrence Savage.

Gibson singled to load the bases and Boyd drew a walk which forced home Howard from third. The inning ended as shortstop Tom Prichard tried to center field.

WEDNESDAY'S action leaves Tech with a 6-6 season record and puts the Raiders back in the win column after losing three games to Sul Ross College over the Easter holidays.

In the pitching department Wednesday's action gave Mounds a 2-1 season record and Flanagin a 3-3 mark.

THE RAIDER'S line-up for Wednesday's opener included: Bruce Boyd, Tech's leading hitter, first base; Joe Reaves, team captain, second base; Tom Prichard, shortstop; and Lawrence Savage, third base.

The outfield for the first game included Ken Warren, left field; George Gibson, center field; and Bill Dean right field. Sam Gipson was behind the plate for the Raiders.

THE SECOND game saw Ted Fritzier and Dean Horton in the outfield in place of Dean and Warren.

Tech has two games remaining on the schedule—West Texas State College, April 23, and Highlands April 30.

CORVAIR
BY CHEVROLET
DRIVE IT!
GET
OUR
DEAL!!!!

A pair of Corvairs recently recorded 27.03 and 26.21 miles per gallon in the 2,061.4-mile Mobilgas Economy Run. That's certified proof that Corvair skimps on gas costs. It saves other ways, too. Corvair is the only U. S. compact car that never needs antifreeze or costly radiator repairs. Come in and drive the compact car that outdoes them all.

Things Corvair gives you that America's other compact cars can't:

Practically flat floor . . . real foot room for the man in the middle. **Fold-down rear seat** gives 17.6 cu. ft. of extra storage space. **Four-wheel independent suspension** for a smoother, flatter ride. **Rear-engine traction . . .** that comes with the engine's weight bearing down on the rear wheels.

You probably realize already that the mileage figures Corvairs recorded in the Mobil-

gas Run are higher than the average driver can expect. But because the cars met every kind of driving condition—rugged mountain grades, long country straightaways, congested city traffic—those mileage figures prove Corvair's inherent ability to save. Operating costs take a nose dive the day you take delivery of a Corvair.

WANTED! New Scripts For '60 Varsity Show

The search is on for another original, humorous, whimsical, dramatic script for the 1960 Varsity Show. Writers have until May 5 to produce a script.

APPLICATIONS for producer of the show are due April 28. The Varsity Show Board will choose

the producer May 3 by interviews. The producer will be in charge of overseeing the whole production, and should have some background in show business. The producer may be a girl or boy.

TO NUDGE the dormant writing talent of Techsians, the Board is offering \$50 in prizes for a script.

"All scripts will become the property of the Varsity Show Board and if not used this year, they will be considered for future shows," stated Tony Whittington, Tech Union public relations representative.

AUTHORS may submit more than one script and the length of the script may be from 15 minutes to a full-length script. Scripts should be turned in to Whittington, in care of Student Life Office.

In a meeting Saturday, Board representatives outlined suggestions for scripts. Two primary ideas were the different aspects of college life, humorous or otherwise, and an adaptation of a well-known work, such as adapting a novel and setting it to music.

Jeff Ingham, sophomore music major from Amarillo, is the new Varsity Show Board chairman.

TCU's Lindley Talks Tonight

Dr. D. Ray Lindley, president of Texas Christian University, will speak at the Tech Union awards banquet tonight at 6 p.m.

The awards will be given to those who have done outstanding work for the Tech Union.

In reply to the invitation to speak at the banquet, Dr. Lindley said, "My keen interest and belief in the importance of the function served by the college union constrains me to accept your invitation."

Dr. Lindley, native Texan who received his Ph.D. from Yale, has been president of T. C. U. since September, 1959.

14 Initiated Into Alpha Phi

Alpha Phi initiated fourteen girls at the First Presbyterian Church March 26 and Carolyn Ashlock, Fort Worth, was chosen best pledge.

Other new members are Bettye Gray, Mary Jo Henderson, Anna Lee McCue, Susan Ziegler, Janis Newsom, Sarah James, Linda Ryno, Judy McKinnon, Billye Wirt, Nancy Wilson, Jackie Fagle, Kay Fulgham and Sally Stuart.

Four girls were given their ivy leaf. They were Amanda Coates, Betsy Brooks, Susan Jones, and Sharon Wilkerson.

Officers for the coming year were elected at a recent meeting. They are: Janet Eddleman, president; Nancy Harmon, pledge trainer; Merium Jackson, scholarship; Carole Kutner, recording secretary; Gloria Wakefield, corresponding secretary; Marilyn Warner, treasurer; Judith Belt, standards; Linda Anderson social; Nancie Morgan, Rush Chairman; Susan Ziegler, AWS; and Kay Bulgham, BSO.

Government Profs Attend Dallas Meet

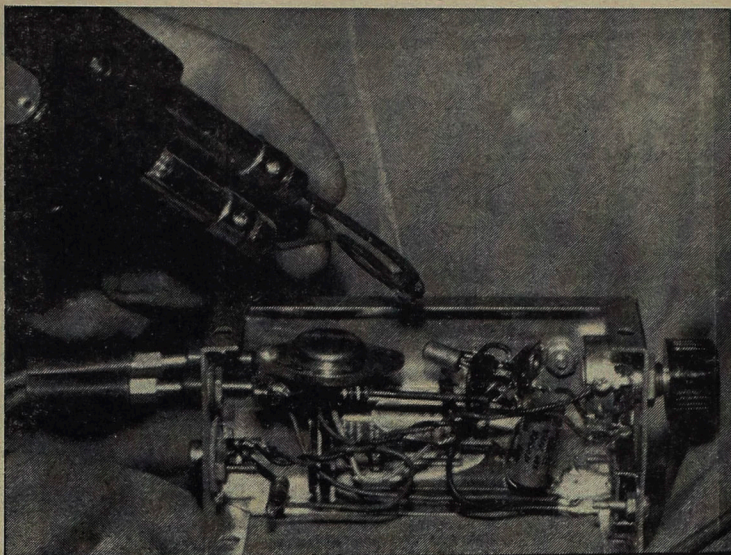

Eight members of Tech's government department attended the annual Southwestern Social Science Association meeting Friday and Saturday at Dallas.

Those attending were Dr. J. William Davis, Dr. Carl E. Johnson, Sterling H. Fuller, William E. Oden, Ruth Evans Cowart, Herbert Holland Worlin, Mrs. Earlene McCarrick and Clyde Wingfield.

Sigma Nu's Choose Annual Rose Queen

Nancy Therrel, Houston freshman, was chosen White Rose Queen at the Sigma Nu White Rose Dinner Dance recently.

Robert Clark, senior from Miami, was awarded the Most Outstanding Sigma Nu Award.

Lucky Strike's Dr. Frood declares:

Graduation is all a matter of degree

Dear Dr. Frood: I'm working my way through college. I have delivered newspapers, worked as an usher in the local movie theater and rolled bandages for the school infirmary. What can my college life possibly prepare me for?

Beaver

Dear Beaver: Publishing, motion pictures, medicine.

Dear Dr. Frood: I am about to graduate top girl in my class. I have decided to take up a career, rather than squander my intellectual achievements on bawling babies, dreary housework and a sloppy husband. Don't you think I have made the right decision?

Smart Gal

Dear Smart: I do, and I feel safe in saying that I make that statement on behalf of every man in America.

Dear Dr. Frood: What a mess I have made out of college! I am flunking out because I have been so lazy. I can't get a job because I have made such a poor record. I have no friends because I have no collegespirit. What is there left for me?

Chastened

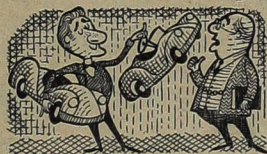

Dear Chastened: You can always serve as a horrible example.

Dear Dr. Frood: I was outraged to learn that a rich, spoiled senior is planning to give sports cars as graduation presents

© A. T. Co.

to all the friends he has made in college. Is there any action I should take?

Dean

Dear Dean: Give him a big smile, put your arm around his shoulders and say, "How're things, pal?"

Dear Dr. Frood: In the past four years, I feel that I have become a wiser and better man. How much do I owe to my college for this?

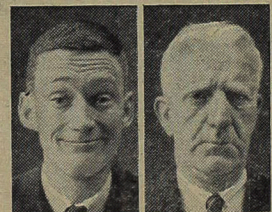

Grateful

Dear Grateful: Shhh! Somebody must have forgotten to send you the bill.

Dear Dr. Frood: The older generation claims college life is too soft. Just a lark. Well, I am finishing four years, and look! The day I enrolled in college, the photo-

graph at left was taken. At right is a recent photo. What does the older generation have to say about this?

Serious Student

Dear Serious: Just what we've said all along. Parties, parties, parties!

Dear Dr. Frood: Yesterday I visited my boy friend and I saw two Lucky Strikes burning in an ash tray. One had lipstick! Was I right in slapping him in the face and leaving the room?

Scorned

Dear Scorned: No. Why get jealous just because other girls smoke the same brand you do?

COLLEGE STUDENTS SMOKE MORE LUCKIES THAN ANY OTHER REGULAR!

When it comes to choosing their regular smoke, college students head right for fine tobacco. Result: Lucky Strike tops every other regular sold. Lucky's taste beats all the rest because L.S./M.F.T.—Lucky Strike means fine tobacco.

TOBACCO AND TASTE TOO FINE TO FILTER!

Product of The American Tobacco Company—"Tobacco is our middle name"

Union Accepts Applications

Applications for positions of sub-chairmen of various Tech Union committees are now being accepted.

Sub-chairmen handle publicity of their committee, assist the committee chairman and are members of the Public Relations Council, which handles publicity of campus-wide events.

Applications should be turned in to Dan Webster, Union director of personnel, by Monday. They should include the person's experience in Union affairs and other activities, plus his grade point average.

Annual Women's Day Honors Tech Coeds

Women's Day, next Thursday, will have two main events. There will be a tea in the Dean of Women's Office from 1:30-4 p.m. and a banquet at 6 p.m. in the Tech Union Ballroom.

Tickets for the banquet are being sold in the women's dorms for \$1.50. Louise Evans, editorial page editor for the Amarillo Globe Times, will speak on "Therefore, Let Candles Be Brought..."

Legislators will be announced at the banquet and scholarships will be given. Junior Council new members will be recognized as will new members of Mortar Board.

Weeks Hall will be recognized as the dorm with the highest scholarship. Pi Beta Phi will receive honors as the sorority with the highest scholarship.

Two other highlights of the banquet will be the installation of the new A.W.S. officers and the announcement of the woman of the year.

New Junior Council Members will start Women's Day extra early. They will be tapped for a surprise breakfast at 7:30 a.m.

All women students and faculty members have been asked to wear white on Women's Day.

Rodeo tickets may be purchased at PAYNES

Moulin Rouge Open Tonight

Moulin Rouge, a mock French nightclub sponsored annually by the French Club, will be open from 7 to 9:30 p.m. tonight in the Faculty Club. Admission charge is 75c per couple.

All money will be changed to French currency at the door. The refreshment menu will be given in French, as will the prices. The French atmosphere will be carried out further by waiters to serve the refreshments.

A SCENE AT FRIDAY'S BASIN STREET DANCE . . . these known 'hoods' and their 'molls' are part of the riffraff to be seen at the costume dance

Sharpe Spotlights Basin St.

Popular singer Ray Sharpe will be featured at the Basin Street Dance which is a costume affair sponsored by Sigma Alpha Epsilon, social fraternity.

SAE pays for the event which is open to all Tech students at no charge. Dancing begins at 8 p.m. and ends at 11 p.m. in the Fair Park Coliseum at Fair Park.

The event centers around a Mississippi and Louisiana Bayou theme as represented in old New Orleans. Costumes could depict such occupations as river boat captain, gambler, frontiersman, sailor or any other the imagination can create.

Sharpe is famous for his latest million-seller hit recording "Linda Lou." He and his four-piece band are currently appearing at the Bird Club in Fort Worth. He recently appeared on the Dick Clark television show.

Honorary Has Smarty Party

Mortar Board, honorary girls' organization, will have a Smarty Party for all freshman girls having a 2.0 grade point average Sunday in the Union Workroom from 2 to 3:30 p.m. Girls receiving invitations should RSVP to the Dean of Women's office.

The party's purpose is to acquaint freshmen girls with Mortar Board and to encourage continued scholastic achievement.

Refreshments will be served, and Dr. Mary Sue Carlock, sponsor, will speak. Slides of this year's tapping ceremony will be shown. Mary Sue Black will speak on the requirements for membership into Mortar Board.

Women Enter Ball Tourney

Seventeen teams have entered the women's softball tournament.

Games are played daily at 5 p.m. on the band practice field or south of the president's house.

Kappa Kappa Gamma will play Weeks Hall today. Monday Pi Beta Phi will compete against Delta Gamma and Delta Delta Delta against Bible Chair.

Alpha Phi will match Independents and Doak Hall will play Alpha Chi Omega Tuesday afternoon.

In the three games played in the first round, Kappa Alpha Theta won over Sigma Kappa 14-1, Knapp Hall over Pi Beta Phi 7-4, and Alpha Chi Omega over Horn Hall 7-0.

SINGING MORTAR BOARD MEMBERS SURPRISE A NEW MEMBER

With Honor, Song

Mortar Board Taps 17

Marching students interrupted sixteen Texas Tech classes Wednesday, but the teachers didn't mind.

All the marchers were young women in academic regalia. In a long line they wound through the rows of chairs in a class singing a haunting melody. Finally they would stop behind a surprised young coed who was then tapped on the shoulder.

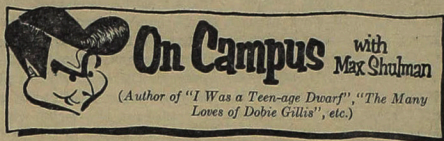

MARCHERS were members of Mortar Board, national honorary for senior women.

Coeds tapped for membership include Nancy Baldwin, Elecive Blair, Carol Burrow, Ann Fursman, Marilyn Gardner, Carolyn Jenkins, Anne McElheny, Virginia Sue Christopher.

Others were Sandra Cox, Linda Dennis, Lynell Fouts, Julienne Loomis, Sue Mims, Karen O'Brien and Suzanne Stafford.

ONE OF the 17 new members was tapped in the Student Union, one while walking across campus and the rest in class.

Mortar Board is a service organization with membership based on scholarship and demonstrated leadership. The Tech chapter is an outgrowth of Forum, a women's honorary established in 1927 under the leadership of the late Mary Doak.

A GUIDE FOR THE LOVELESS

Gentlemen, take warning. June is almost upon us—June, the month of brides. Have you got yours yet? If not, don't despair. You don't have to be rich or handsome to get a girl. All you have to be is kind, considerate, thoughtful, and obliging—in short, a gentleman.

For example, don't ever call a girl for a date at the last minute. Always give her plenty of advance notice—like three months for a coke date, six months for a movie, a year for a prom, two years for a public execution. This shows the girl that she is not your second or third choice and also gives her ample time to select her costume.

And when you ask for a date, do it with a bit of Old World gallantry. A poem, for instance, is always sure to please a young lady, like this.

*I think you're cute,
Daphne La France,
I'll put on a suit,
And take you to a dance.*

In the unlikely event that you don't know any girls named Daphne La France, try this:

*I think you're cute,
Winifred Jopp,
I'll put on a suit,
And take you to a hop.*

In the extremely unlikely event that you don't know a Winifred Jopp either, try this:

*I think you're cute,
Isabel Prall,
I'll put on a suit,
And take you to a ball.*

If there is no Isabel Prall, Winifred Jopp, or Daphne La France on your campus, it is quite obvious why you've had trouble finding dates all year: you've enrolled in an all-male school, you old silly!

Next let us take up the question of etiquette once you are out on a date with Isabel, Winifred, or Daphne. The first thing you do, naturally, is to offer the young lady a Marlboro. Be sure, however, to offer her an *entire* Marlboro—not just a Marlboro butt. Marlboro butts are good of course, but whole Marlboros are better. You get an extra inch or two of fine flavorful tobacco—and I mean flavorful. Do you think flavor went out when filters came in? Well, you've got a happy surprise coming when you light a Marlboro. This one really delivers the goods on flavor, and when you hand Isabel, Winifred, or Daphne a whole, complete, brand-new Marlboro, she will know how highly you regard and respect her, and she will grow misty and weak with gratitude, which is very important when you take her out to dinner, because the only kind of coed a college man can afford to feed is a weak and misty coed. Latest statistics show that a coed in a normal condition eats one and a half times her own weight every twelve hours.

At the end of your date with Isabel, Winifred, or Daphne, make certain to get her home by curfew time. That is gentlemanly. Do not leave her at a bus stop. That is rude. Deliver her right to her door and, if possible, stop the car when you are dropping her off.

The next day send a little thank-you note. A poem is best. Like this:

*For a wonderful evening, many thanks,
Isabel, Winifred, or Daphne,
I'll take you out for some more merry pranks
Next Saturday if you'll haph me.* © 1960 Max Shulman

We can't give you rhyme but we'll give you good reason why you'll enjoy Marlboro and Marlboro's unfiltered companion cigarette, Philip Morris. One word says it all: flavor.

MEMOS.

CHEMISTRY DEPT. DINNER

The annual chemistry department dinner will begin Saturday at 6:30 p.m. in the Tech Union Ballroom.

Dr. Edwin M. Larsen, professor of chemistry at the University of Wisconsin, will be the main speaker.

Students receiving scholarships for next year will be announced and those being awarded with honors from the department will be announced.

Dr. Larsen will present a seminar at 5 p.m. today to faculty and graduate students.

SADDLE TRAMPS

A Saddle Tramp Rush Smoker will be in the Old Rec Hall Monday, April 25, at 7:30 p.m. All male Tech students who have completed 30 hours, or will have completed 30 hours at the end of the semester, and are interested in joining Saddle Tramps are invited to attend.

KAPPA KAPPA GAMMA

Kappa Kappa Gamma sorority will have a spring dance Saturday, April 23, in their lodge at 6:30 p.m. Dinner will be served, and the Sultans of Swing will play.

DELTA TAU DELTA

Delta Tau Delta will present awards to both the outstanding pledges and members at their Big Brother-Little Brother breakfast at the Johnson House Restaurant Sunday, April 25, at 9 a.m.

RING FOUND

Found: a pearl ring in the Administration Bldg. Describe and pick up at the registrar's office.

ALPHA TAU OMEGA

Alpha Tau Omega's annual Spring Formal Dance will be at 8 p.m. Friday in the Caprock Hotel.

The student body is invited and white dinner jackets should be worn.

Members and pledges and their dates will be honored at a dinner before the dance.

Angels Parade In San Antonio

The Angel Flight will represent Texas Tech in the Battle of Flowers in San Antonio Friday.

The 28 member organization will leave at 12:45 today and will be one of many to participate in the annual seven mile parade.

Dana Lee Pope was elected social chairman of Angel Flight in an election before Easter.

Parade Kicks Off Wild Rodeo Today

Men, Beasts Stage Battle For Supremacy

A parade through downtown Lubbock at 4 p.m. today will kick off the Ninth Annual Texas Tech National Intercollegiate Rodeo.

The parade will start at 14th and Ave. C and go down Broadway, Hale, Lynn, Abernathy, Idalou, and Lubbock Sheriff's Posses will participate. The Lea County, N.M., Sheriff's Posse and the Lubbock Rangers will also ride.

THE FIRST rodeo performance will be tonight at 8 p.m. The special feature of the night will be presentation of the annual Dub Park memorial award to the out-standing Rodeo Club member of the year. The award is given each year in memory of a past president of the club who was killed.

Another special attraction at each performance will be a flaming hoop dance given by Tafford Blessing, senior park management major from Fort Worth. Blessing has been doing Indian dances for 11 years and is best known for his hoop dance using four hoops.

RODEO contest events include saddle bronc riding, bareback bronc riding, calf roping, ribbon roping, bull riding and steer wrestling. Girls' events include a barrel race and goat tying contest.

Sororities will participate in a calf dressing contest. Teams will be composed of three girls each and will be timed on catching a calf.

Fraternities will enter a wild mare race.

The top five finalists in the calf dressing contest and the top six finalists in the wild mare race will compete Saturday for the championships in these events.

The Tech Rodeo Team is com-

posed of John Holt, Clyde Fort, Dale Burnett, Steve Cone, Lum Turk and Tommy Riley. The team was chosen by the executive council of the Tech Rodeo Association. **TEAMS FROM** New Mexico, Oklahoma and Colorado will also compete. The team which collects the most points from rodeos given by colleges in this region will represent this region in the national rodeo this summer.

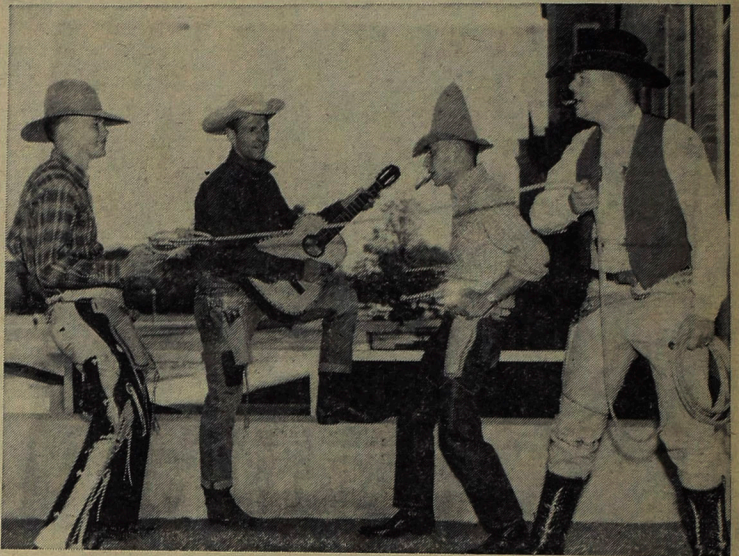

Rodeo stock will be furnished by Walter Alspaugh, Alamosa, Colo., who furnished stock for the NIRA National Championship Finals Rodeo. Included in his stock is the Brahma bull "Mickey Mouse" who was ridden after 157 consecutive failures by Ed Workman of Lubbock Christian College.

Rodeo performances will also be at 8 p.m. Friday and Saturday. There will be an American Quarter Horse Association show Friday at 9:30 in the Coliseum. The Rodeo Awards Dance to conclude rodeo festivities will be from 8:30 to 12 p.m. Saturday in the Rec Hall. Prizes to be awarded include hats, shirts, boots, buckles and cash prizes derived from the division of entry fees.

RODEO TICKETS are on sale in the Tech Union and will be on sale at the door for \$1.50 for adults, \$1 for Tech students and 75c for children.

Rodeo clowns have a dangerous and exacting job. They must distract the animals from a fallen rider and must amuse the audience at all times. This year's clowns are Ed (Snuffy) Gillian of Cleburne, Texas, and Wright Howington of Colleyville, Oklahoma.

Rodeo judges will be Dick Barrett of Ryan Oklahoma, and Dave Harper of Hereford, Texas. John Karney of Sweetwater, Texas, will be the announcer for the event.

THESE FEARLESS SADDLE TRAMPS WILL ENTER THE WILD MARE RACE ... in Texas Tech's Intercollegiate Rodeo — Bob Ford, Carlyle Smith, Larry Campbell and Pete Baker

Musicians Give Recital

The music department will present Darrell Keith McCarty, clarinetist and saxophonist, in recital Tuesday at 8:15 p.m. in the West Texas Museum Auditorium. Accompanists for this Faculty Recital Series program will be Mary Helen McCarty and John Edward Price at the piano.

Organ students of Kathleen Thomerson will give recital Tuesday at 4:10 p.m. in Bowman Chapel of the First Methodist Church.

Mary Ann Klattenhoff and Carol Wilson will be presented in Junior Organ Recital Sunday at 4 p.m. at the First Presbyterian Church.
