

# Tech Forms New Departments

## the forecaster

Vol. XXVII Texas Technological College, Lubbock, Tuesday, April 22, 1952 No. 22

### Chow Protest Filed By 203

A 203-name petition complaining of the quality of dormitory food was given to Dr. D. M. Wiggins, Tech president, Friday by three spokesmen for the group of dormitory residents.

Cody Barnett, Fort Worth junior; Jess McIvain, Pecos sophomore, and Keith Brock, Friona freshman, reported that Dr. Wiggins would "look into the situation and see if he couldn't have conditions improved."

Dr. Wiggins will also talk with Shirley Schulz, head dietitian, about the matter, the group added.

Dr. Wiggins, who spoke in New Mexico last week-end, was unavailable for comment. (See petition in column at right)

### Photo Entries Due Wednesday Noon

Deadline for entering prints in the annual Kappa Alpha Mu print show sponsored by Eta chapter is Wednesday noon, according to Dolores Ketchersid, president.

Print judging will be done Wednesday night by Chrystal Davis, commercial photographer, for Reeves Studios; Bill Weeks, Plainview commercial photographer, and Sgt. Lamar Monts-de-Oca, Reese airforce base photographer.

The prints will be displayed for a week in the Museum beginning Thursday afternoon.

### Dorsey Orchestra Will Give Concerts

Tommy Dorsey, famed "Sentimental Gentleman of Swing," will give two dance-band concerts in Tech Gym at 7 and 9:30 p.m., April 30.

Tickets will be available Thursday in the office of Dan Pursel, Recreation hall manager. Techsans wanting tickets may get them during the following hours: 9 a.m. to 6 p.m., MWF; 9 a.m. to 1 p.m., TTS; and 6 p.m. to 9, TTS.

Pursel cautions that men with dates should apply for tickets in company with their date, or bring both activity books to his office. The 2,200 tickets available for each show will be marked for first or second show.

### Second BA Run-off Set To Fill Council Vacancy

A second student council run-off will be held Wednesday to fill the vacancy in the business administration division.

The new election between Pete Morris and J. C. Chambers was necessary as both received 125 votes in the last campaign.

The election booth will be open from 8 a.m. to 5 p.m. in the east rotunda of the Administration building.

### Petition to the President:

We, as students, have been griping among ourselves about the dormitory food situation, but have not been going to the right people to get anything done about it.

The time has now come when the quantity and palatability have become so low as to render it almost inedible. It is time to do something about it.

At wholesale prices, according to Dun and Bradstreet index, the dollar will buy 10.1 percent more food than one year ago. A food basket which a year ago would have cost \$7.21 (wholesale prices) can be bought for \$8.48. The dormitory system buys its food at wholesale prices and we are paying \$5 per month more now for room and board than we did a year ago.

This being the case, we do not think this unbearable situation should exist. We, the undersigned, believe this situation can and should be changed.

Sincerely,

- |                        |                      |                     |                  |

## College Board Okays Expansion of Stadium

Establishment of two new departments and the authorization of issuance of \$200,000 in revenue bonds to finance an increase in the seating capacity of Jones stadium were the major steps taken by the Tech board of directors in a meeting here Saturday.

The board also approved a number of routine items on the agenda.

CHARLES E. MAEDGEN, SR.

### LV Editor Hopes For May Delivery

"We hope for the 1952 La Ventura to be here by May 17, unless something totally unexpected happens," Dick Brooks, editor, said. Brooks; Benny Bruckner, business manager, and Bert Goodyear, associate editor and 1952 editor, returned Monday from Iowa City, Iowa, where they read proof on the yearbook.

"It is satisfactory; it is not below par, but it is not exceptional in quality," Brooks continued.

He reminded students that floods or printing snags could still delay delivery of the book.

Stadium seating will be increased to a capacity of 30,000 by the addition of four sections, each seating 2,000 persons, to each end of the present stands. Steel and wooden stands from the old football field will be moved to the south end zone of the stadium.

### Further Enlargement

This action will be a step toward the favorable reception of Tech's Southwest Conference bid. The board stated that should Tech be admitted to the SWC, a committee of local business men had proposed to conduct a campaign to raise funds to enlarge the stadium further by closing in the north end and forming a horseshoe-shaped stadium which would seat 40,000 persons.

At the meeting Dr. D. M. Wiggins, Tech president, reviewed work already done on Tech's application to the conference.

### Purpose Set Forth

The two new departments set up both seek "preservation of our American heritage of freedom and the American way of life."

One, a department of Americanism, will be established through a trust estate set up by C. E. Maedgen Sr., and his wife, Florence. It will be known as The Charles Ernest Maedgen Foundation.

The other is called the department of Adult Education and is established by a \$24,000 grant over a three-year period from funds of the Ford Foundation's Fund for Adult Education.

Both trusts provide for the employment of distinguished professors to head the departments.

### Five-Year Grant

Aiding "The Charles Ernest Maedgen Foundation" in its initial period will be a five-year grant of \$15,000 by an anonymous Lubbock businessman. See BOARD MEETING, Page 8

## Council Committee Appointed to Probe College's Policy on Student Class Cuts

Investigation of the college's policy on class absences will be conducted by a Student council committee appointed at a called meeting of the SC Monday night.

The investigation was instigated at the request of Charles Joplin, business administration representative, who was appointed chairman of the committee by Bob Schmidt, retiring SC president, Charlie Orren, BA representative, Jimmy Nickel, agriculture; Bill Burton, engineering, and Juanita Davis, home economics, also work on the committee. All are newly-elected members of the council.

### SC Defray Soph Deficit

The SC will defray the deficit incurred at the Sophomore Hedge-Podge. The \$49 will be taken from the SC dance fund which is used to aid classes which lose money on all-college functions.

Committee reports, appointments and correspondence completed the evening's agenda.

The annual Student council banquet will be held at 7 p.m. Thursday in the Hilton hotel. The group also scheduled a picnic for May 4 at Mackenzie park.

Elizabeth Schovajsa, SC secretary, announced the date for the run-off election in the BA division. Balloting will be held

Wednesday from 8 a.m. to 12 noon and from 1 to 5 p.m. in the east rotunda of the Administration building. Election percentages for this spring reported were 49 percent, general election; 30 percent, first run-off.

"The Varsity show gained some of its lost prestige and perhaps made a little money this year," Joplin, show chairman, stated. Harold Brannan, retiring business manager and incoming president, estimated the show profited five or six hundred dollars this year.

### Spring Allotment

Spring allotment to the council is \$785, which will bring the general fund to \$1,750, Brannan added.

Joe Hastings, newly-elected engineering representative; Liz McCain, incoming arts and sciences representative; Brian Boyett, agriculture, and Melvin Brock, engineering, were appointed to investigate the advisability of allowing advertising to be carried over KITC, campus radio station.

The group approved the sending of a delegate to the Cultural committee meeting of the Texas Intercollegiate Students association May 3 in Austin. The delegate will be selected by the executive board of the Recreation hall committee.

## Mrs. Mary Doak Dies on Sunday

Mrs. Mary W. Doak, prominent educator and dean emerita of women at Tech, died early Sunday in her home at 1917 seventeenth street.

Mrs. Doak was a member of the original faculty when the college was established in 1925. She retired as dean of women in 1945, but continued her duties as professor of English until her retirement in 1950.

Mrs. Doak, who was about 74, had been in ill health for two years.

### BA Degrees

She received BA degrees from Sam Houston State Teachers college and the University of Texas, and an MA from Texas Tech. She taught in public schools in Austin and Taylor before going to Texas university to teach English and work as secretary of the extension division, after which she came to Tech.

Mrs. Doak was born on a ranch near Live Oak. She was the widow of a lawyer.

Active in many fields, the dean See Mrs. Doak, page 8

Mrs. Mary W. Doak

### New SC Representatives To Be Installed at Banquet

Newly elected officers of the Student council will be installed in the annual Student Council banquet to be held at 7 p.m. Thursday in the Hilton hotel, Bob Schmidt, president, said.

Speaker for the banquet will be D. M. McElroy of the Ex-students' association.

## New Tech Fraternity Receives Charter In Installation Ceremony Saturday Night

National charter for the Tech Beta Xi chapter of Kappa Phi Kappa, honorary education fraternity, was presented at a charter dinner Saturday night in the Yagui room of the Hilton hotel.

Dr. E. J. Ashbaugh of Miami university in Oxford, Ohio, national president of the fraternity, installed the new Tech chapter at the dinner. Also present for the ceremony were Frank A. Peak, executive secretary from Birmingham, Ala., and Dr. C. L. Wiseman, a counselor from SMU.

Thirty-one students and faculty members became charter members of the fraternity, which has more than 60 chapters from coast to coast. Kappa Phi Kappa was founded 30 years ago at Dartmouth college.

Officers for the new group are Bert Goodyear, president; Joe

Payne, vice-president, and Bill Escobar, secretary. Horace Hartzell, assistant professor of education, will be sponsor.

Dr. Ashbaugh, in an address at the dinner, praised Tech for its large number of organizations which permit "group meetings of minds." He said that he believed the fundamentals of education not to be the "three R's," but instead "ideals, attitudes and appropriate actions."

### Women Recruiting Officers Lecture to Campus Co-eds

A team of women officers representing each branch of the armed services lectured on the campus Monday and Tuesday. Their appearance here was sponsored by Mrs. Jean A. Jenkins of the placement service.

The educational team lectured to women in physical education and home economics departments about opportunities in physical therapy, occupational therapy and dietetics.

Qualifications for the different services vary only slightly. In all cases, women must be unmarried, high school graduates, physically fit and citizens of the United States. They must meet moral and mental standards. Waves must be between ages of 18 and 25 years; WACs or WAFs 18 and 24; and women Marines, 18 and 30.

### Area Livestock Men Visit Tech For Feeders Day

Livestock men and county agents from this area were on Tech campus Tuesday to attend the annual Livestock Feeders day, according to Ray C. Mowery, head of the animal husbandry department.

Included in the morning's activities were a visit to the Tech feed lots, a discussion of lot-fed cattle which were fed on various mixtures of feeds, inspection of beef cattle on irrigated pastures and a barbecue.

During the afternoon the group viewed and discussed the results of the 1951-52 lamb feeding experiment. A tour of a private irrigated pasture and an inspection of the Keeton company's cattle feeding system concluded this year's activities.

### HE Instructor to Attend Meeting

Martha Graves, instructor in home economics education, will direct a workshop in Home and Family Life Education at the 14th District Parent-Teacher association conference in Brownfield April 24. She will also attend a Board of Managers meeting in the capacity of district chairman of Home and Family Life Education.

## 'As You Like It' To Play May 5-11

Love of three kids will be portrayed when the Shakespearean comedy, "As You Like It," final speech department production of the year, opens May 5 through 11.

Three pairs of lovers will keynote the production, representing comic love, conventional love, and the unmatchable romance in the story of Rosalind and Orlando, according to Miss Cecilia Thompson, director of the play.

### Tickets Reservations

Tickets for the play will go on sale Wednesday, April 30, in the Speech office. Admission will be by presentation of student activity books, but reservations must be made and tickets must be picked up the day before the show to be attended. Adult admission will be \$1. Students are urged to make reservations early. There will be little possibility of holdover performances as four shows are scheduled for the following week.

### New Faces

Several new faces in Tech drama will be seen in this show. Frances Gibbs, playing the leading role of Rosalind, will be portraying her first major role, although she appeared as the Armenian grandmother in "My Heart" in the Highlands' earlier this year. This play will mark the first leading role for Bill Childers, who plays Orlando, although he will be remembered as Hortensio in last year's production "Taming of the Shrew."

Other newcomers in the cast include Bruce Owen, new both to Tech and this drama department, in the role of Touchstone, and Jerry Raun, in the part of Oliver.

### High School Students Visit Campus for TIL Events

Approximately 1,700 high school students from the Panhandle, South Plains and Pecos Valley regions participated in the Texas Interscholastic league meet on Tech campus Friday and Saturday.

Winners in the contests here will go to the state meet in Austin May 1, through 3, according to Dr. P. M. Larson, director-general of the League.

### Two Tech Future Teachers Are Elected to State Posts

Margaret Smiley, Lubbock junior, and Shirley Schmidt, junior from Post, have been elected state financial secretary and state corresponding secretary of Future Teachers of America.

The election took place at the state FTA convention in Alpine March 28 and 29.

Reports of this convention will be given and election of local chapter officers will be held at the next regular meeting of FTA to be held at 7 p.m. Thursday in the Extension building. Announcements will be made concerning the annual spring picnic April 27 at 3:30 at the old party house in Mackenzie park.

### Morning Watch Is Announced

Connie Hayes is leader of Morning Watch 7:30 a.m. Wednesday at the First Christian church.

### Will Lead Methodist Forum

Duane Fincher is in charge of the forum at 7:15 p.m. Wednesday to the Methodist Student center.

## Seniors May Set Job Interviews

The Office of Naval Officer Procurement, the National Supply company and the Chicago Bridge and Iron company will have representatives on the campus this week to interview May and August degree candidates, says Mrs. Jean Jenkins, director of the Placement service.

Lt. Cmdr. J. R. McElroy will talk to proposed graduates and others who are interested in the Naval Officer Procurement plan Thursday and Friday.

The navy officer candidate class, previously scheduled for early June, will convene June 30 to permit the inclusion of June graduates. Quota for this class has been increased from 800 to 1,010 candidates of the unrestricted line, staff corps and restricted line designators. Subsequent classes convene every two months thereafter. Quotas for these classes have been increased to 1,150 candidates.

Applicants who are draft eligible may apply for inclusion in the officer candidate program which entails immediate active duty for three years following completion of 120 days if indoctrination.

Marketing, management, finance, economics, accounting and civil, electrical, industrial, mechanical and petroleum engineering proposed graduates will be interviewed by a representative of the National Supply company of Odessa, Friday. Openings are in West Texas and other parts of Texas.

Civil, electrical and mechanical engineering proposed graduates will have an opportunity to talk to a representative of the Chicago Bridge and Iron company of Houston, Thursday. This company can use one or two juniors for summer work also.

The Chicago Bridge and Iron company handles steel plate welding construction work throughout the United States and in foreign countries.

Students who are interested in any of these positions should report to the Placement office immediately to fill out interview records and make appointments, Mrs. Jenkins stated.

### Movie To Be Shown Friday

The movie, "Miracle on Thirty-fourth Street", will be shown in Aggie auditorium at 8 p.m. Friday, according to Dan Pursel, Recreation hall manager. Admission is free.

## Tulane U. Official Talks to Faculty

Dr. Roger P. McCutcheon, graduate dean of Tulane University, spoke to a general faculty meeting in Aggie Auditorium Tuesday at 4 p.m.

Dr. McCutcheon has been on the campus for the past two days as an observer and advisor on the Tech graduate program. He has served as president of the Conference of Deans of Southern Graduate Schools, is the southern representative of the Carnegie Foundation, and a member of the Committee on Institutional Self-Evaluation of the Board for Southern Regional Education.

### National Fraternities To Be Discussed By Representative At Tech Wednesday

National fraternities will be discussed by H. Gardner Symonds, representative of the National Interfraternity Research and Advisory Council, while he is on the Tech campus Wednesday.

Recognition and awards to top athletic and scholastic students will be presented at the annual spring MICC smoker at the Lubbock hotel Wednesday at 7 p.m. Symonds will be the speaker.

A luncheon will be held in Symonds' honor at 12:15 p.m. in the Plainsman hotel. School officials and club presidents will be present.

Individual club members and pledges will hold conferences with Symonds between 2:30 and 5:30 p.m. and 9:15 and 10:15 Wednesday night. The schedule is: Los Camaradas, 2:30 to 3; College

Club, 3 to 3:30; Socii, 3:30 to 4; Adelphi, 4 to 4:30; Kemas, 4:30 to 5; and Centaurs, 5 to 5:30.

Two conferences that will be held Wednesday night are Silver Keys, 9:15 to 9:45; and Wranglers, 9:45 to 10:15. The meetings are to be held in room 164 of the Administration building.

Symonds is president of the Tennessee Gas Transmission company of Houston.

Social club women will vote Wednesday night as to whether they want affiliation with national sororities.

### Home Economics Club to Nominate Candidates at Tonight's Meeting

The Home Economics club will meet Tuesday at 7:15 p.m. in HE 105 to nominate club officers for next year, according to Marie Lewis, president.

Election of officers will be held from 8 a.m. until 5 p.m. Wednesday in the Home Ec. building.

The nominating meeting will be out in time for the Lubbock Symphony orchestra, the president says.

### Rec Hall Reports Activities At Governing Board Meet

The Recreation hall governing board met at 5 p.m., Thursday, in Dean James G. Allen's office. Business included a report by Director Dan Pursel concerning the Rec hall budget, activity count, student mimeograph service and an outline of the Tommy Dorsey program which will be presented here April 30.

Facts and figures concerning the budget and expenditures will be published at the end of the semester when all expense accounts are completed, Pursel said.

The last dance of the season on the Recreation hall program will take place Saturday night according to Dan Pursel, Rec hall director.

Burt Hubbard and his "Varsitoniens" will play for dancing from 8:30 to 11:30 p.m.

### Tech Choir Presents Programs Today for Spur's Public Schools

Tech Choir is in Spur Tuesday for two programs for the Spur public schools. The group is to sing at 3 p.m. in an assembly for Spur high school and at 8 p.m. for the Spur Parent-Teacher association.

GARDNER SYMONDS

### Tech Music Groups Present Program

Three Tech music groups sang for the Southwestern Bankers' association meetings Sunday and Monday.

The Harmonettes, a women's quartette consisting of Shirley Schmidt, Marjorie Hendricks, Betty Haberer and Rosemary Sprague, and the Techsians, men's quartet, furnished entertainment at 8 p.m. Sunday at the SWBA banquet in the Hilton hotel. In the men's group were Charles Nolan, Leroy Reynolds, Paul Laverty and Tim Magness.

Ira Schantz, music instructor, was soloist for the banquet.

Tech choir, directed by Dr. Gene Hemmle, head of the music department, sang for the bankers'

### 'Canada North' Is to Be Presented in Museum Auditorium Tuesday

Bert Harwell, National Audubon society photographer, will present "Canada North" in the Museum auditorium, at 8 p.m. Tuesday.

The movie-lecture will include pictures of scenes, birds and plants found in Canada and the Arctic region. Harwell combines vocal bird song imitations with his all-color motion pictures.

Admission will be 70 cents. general assembly at 10:15 a.m. Monday in the Lindsey theater.

### Campus Interviews on Cigarette Tests

No. 40...  
**THE WHALE**

"Wait 'til I come up for air!"

Poor guy was submerged in a veritable sea of cigarette tests! He didn't know whether he should "blow"—or just jettison the whole job! But he fathomed the matter when he suddenly realized that cigarette mildness can't be judged in one quick spout! Millions of smokers have found, too, there's a thorough cigarette test!

**It's the sensible test...** the 30-Day Camel Mildness Test, which simply asks you to try Camels as your steady smoke — on a day-after-day, pack-after-pack basis. No snap judgments! Once you've tried Camels in your "T-Zone" (T for Throat, T for Taste), you'll see why...

After all the Mildness Tests...

**Camel leads all other brands by billions**

### ANNOUNCING A NEW BOOK TO BE PUBLISHED IN JUNE THE COMANCHES

By Ernest Wallace and E. Adamson Hoebel

This is the story of the Comanches, their life, warfare and institutions. Many years have gone into the study of material that this book is complete and authentic and will take its place beside the great work of Grinnell's, The Cheyennes.

Ernest Wallace is Professor of History and Assistant Dean of Arts and Science. Dr. Hoebel is Professor of Anthropology at Utah.

Autographed copies will be available... place your order now. Price \$5.00

TEXAS TECH COLLEGE BOOKSTORE

### A Great Personality . . .

As Tech students and faculty members alike mourn the passing of one of the college's great personalities, Mrs. Mary W. Doak, all might well look for a moment at the qualities for which the dean emeritus of women stood.

A member of Tech's original faculty, Mrs. Doak worked faithfully and courageously during her long career as dean of women to stimulate honesty and fair play on the campus.

Mrs. Doak counselled and guided thousands of college women, taking an individual interest in each. She strived not only for scholastic improvement in the college, but was instrumental in developing club and other extra-curricular activities at Tech.

But, most of all, Mrs. Doak demonstrated a glowing faith in youth. No more eloquent memorial could the great educator have asked, than for students to prove worthy of that faith.

### What Is Your Blood Type? . . .

What is your blood type?

The Lubbock Red Cross made an attempt to answer this question for Tech students last November. This organization gave a series of blood type tests in the dormitories to determine the blood donor potential of Tech.

The aims of this drive were two-fold: (1) To determine what blood types would be available and who could be called upon to donate in case of emergency; (2) To acquaint students with their own blood types for their own protection if they should ever need an emergency transfusion.

Despite the sensible ideas behind this drive, the majority of Tech students weren't interested. Less than a third of the eligible dorm students volunteered for the tests.

Most students felt that by allowing their blood to be typed, they would be committed to donate blood at the drop of a hypo.

This was not the reason for the tests at all. The Red Cross wanted only to have a record of blood types to meet emergencies that may arise. The existing blood banks in most hospitals in the Lubbock area are very short of certain types of blood. And when, as sometimes happens, an emergency patient must be given a transfusion of one of these rarer types, the only recourse the hospital has is to volunteer donors. It is at such times as this that the Red Cross will be able to supply the names of people with the type needed.

This is a good reason for having your blood typed, but put yourself in the place of that emergency patient and it becomes an even better reason.

Those students who did not have their blood typed last year will still be able to have this done at no cost to themselves. Report to the Red Cross center and volunteer your services. You may be glad you did.—E.R.

**Under the Breezeway**  
By SHIRLEY JOHNSON  
Toreador Associate Editor

One month from today, Tech-sans will be quietly going into hysterics with the prospect of finals in only one week. Dead week (or, as the calendar lists it, the week of restricted social activities) starts May 19, and finals begin May 24. Summer school starts June 2. Long rest.

Engineer's show, 1952, has been closed now for the season. From all indications, it must have been very successful, especially when measured by the incredulous look of many townspeople and their children. One little boy in particular, somewhere around 10 or 11, was fascinated by the physics displays. He came back through the line at least twice, standing as long at each object as he had the first time.

Signs, of course, were everywhere. Three particularly caught our attention. One was above an ordinary water fountain just outside the mechanical engineering display. It read "This fountain mechanically operated."

Another sign was the cleverest

way to warn hand off, or do not touch, that we have seen in a long time. It was placed atop a Mack engine in the ME show, and read, "Do not Feed the Horses."

The last sign had been altered to provide the touch of humor we found there. In the zoology display on the second floor of the chemistry building, there appeared a large culture dish containing a large crayfish and a medium sized one of same origin. The label lay nearby and read, "The large crayfish is a male and the medium sized one is a female. The small one is immature." The last two words were marked out, and someone had inserted in pencil, "has been eaten." It was true.

Only one anecdote has come our way about the Home Ec Open House. Just before time for the afternoon fashion show, one boy walked up to an official hostess and asked, "Will there be any bathing suits in this show?"

Upon being assured that none would be present, he sighed and added, "It was just an idea."

"Boy! Has the librarian got a false impression of me!"

### Texas Tech Talk

## Outlook for SWC Bid Brighter Than in '48

By JOHN NORCROSS  
Toreador Editor

Considerable speculation is floating about the campus on Tech's chances of getting into the Southwest Conference come May 8. And most of the speculators, it seems, say Tech will be approved for membership.

A step which may well improve the college's chances for admittance was made Saturday, when the board of directors approved plans for enlarging Jones stadium to a seating capacity of 30,000.

Of course, there were lots of persons who thought Tech would be admitted to the conference in 1948. They missed their guess. At least there are fewer skeptics this year. Chances look good from here.

Several thousand persons who visited the Engineer's show and Home Economics openhouse last weekend also got to view the new Home Economics and Engineering buildings. This was quite a show in itself, for the new structures contain the latest type equipment and are designed to afford spacious teaching facilities.

Speaking of new buildings, we note that the long dreamed-of Student Union building is at least half completed. The Union is to be finished and ready for occupancy by next fall.

Sometimes we wish we were just now that not-yet-dry-behind-the-ears freshman of four years back. Yep, things would be different. We'd get to waltz under the stars on the balcony on the Student Union, attend classes in new buildings, maybe see the Raiders play as members of the Southwest Conference . . . but then, with graduation about a month off, we look down our senior nose and say philosophically, "It's been fun, but we're ready for a change of scenery."

Arthur G. Phillips, associate professor of English at the University of Miami, Fla., recently wrote a guest editorial for the paper, in which he made the following observations about the species freshman and sophomore:

1. Freshmen believe that all of their professors are smart; soph-

more believe that one or two of their professors are smart—the ones that give them A's.

2. Freshmen are in college to get an education; sophomores are in college because their fathers refuse to pay their fare to Las Vegas.

3. Freshmen aren't dry behind the ears; sophomores are always dry.

4. A freshman will take a wooden nickel; a sophomore will take a wooden nickel too, and five minutes later put it in the slot machine.

5. Freshmen write home once a week; sophomores write when even they're broke.

6. A freshman is looking for a girl like mother; this is also true of the sophomore, if his mother happens to be Jane Russell.

7. A freshman believes the way to get good grades is to study hard; the sophomore has decided that a better way is to sit next to someone who studies hard.

8. Freshmen kiss their dates goodbye; sophomores kiss them hello.

★ ★ ★ ★

**With The Colors**

★ ★ ★ ★

Kenneth Cox is an instructor of the 370th Air Force band at Lackland air force base in San Antonio. Kenneth is a former drum-major of the Matador band.

Andy Behrends, Lubbock, is enroute to Denver, Colo., to be stationed with the air force there. Andy was a Los Camaradas member.

Ray Chappelle jr. is stationed with the V division of the USS Maury in Saudi Arabia. A resident of Lubbock, he is expected home in June.

### About The Campuses

Prices skyrocketed to a new high at the University of Arkansas as 16 pies were sold for \$121. The top price paid was \$12. The pie supper was staged to help pay for construction of the rodeo arena at the university.

A new chapter has been added to the book of education. The theory of "farming out" practice teachers is still in experimental stages at College of Arts and Industries in Kingsville; but directors of the teacher training program hope it will soon be an actuality.

A reading accelerator, an instrument to increase speed of reading, has been put to use by several colleges recently. The machine moves down the page of reading, covering up lines that have been read. The speed with which one machine moves can be regulated, hence, increasing or decreasing the reading speed. Extensive use of the machine by the air force revealed that good readers profit as much through using the machine as poor ones.

When Hoover was campaigning for President in 1928, one of his slogans was "a chicken in every pot." Evidently this gave Americans an appetite for chicken. Last year, Americans ate 750 million chickens, 22 times the consumption in the early 1930's. Also, the chickens are said to be bigger and better than before.

As a final comment on night life, we note that the campus is due to get all lit up. The Student council has approved a project to put more lighting around the buildings. Parked-car conversation groups will have to move to already-crowded Aggie grove and points beyond. The Science building parking lot will lose most of its nocturnal charm.

One encouraging fact: the prairie dog lobby in City hall will never let them light Mackenzie park.

### College Foreign Language Department Will Offer Summer Course in Mexico

The department of foreign languages will offer a course in Spanish to be taught in Mexico City during the second summer session, Dr. Earle Hamilton, associate professor of Spanish announced.

Students who have taken three years of college Spanish or the equivalent are invited to join the group.

They will travel via the Pan-American highway in private cars and stay in Mexico City. Side trips will be made to Taxco, Cuernavaca, Huejotzingo, Cholula, Puebla, Teotihuacan, the pyramids, and Amecameca. The students will also climb to the snow fields of the volcano, Popocatepetl, said Dr. Hamilton.

The course is designed for teachers of potential teachers, those who are preparing for positions in government, international organizations, private business, or those who intend to apply for scholarships and those who want to improve their Spanish and acquire an intimate knowledge of Mexican culture.

Students who are interested should contact Dr. Hamilton in Ad334.

Students who are majoring in foreign languages may apply for the Roscoe Wilson Memorial scholarship, which is offered each year, announced Dr. C. B. Qualia, head of the foreign languages department.

A payment of \$30 per month for nine months each year will be made to a student majoring in foreign languages. The money is from the Roscoe Wilson Memorial Fund. The selection is made in the spring by the staff of the department of foreign languages.

Applications should be addressed to the head of the department of foreign languages, says Dr. Qualia.

### Foreign Language Assistance Offered

Pvt. Bill Dunlap, former architecture student, is in Mexico where he is taking naval boot camp training.

### Watkins Attends Engineer's Meet

Lowell D. Watkins, senior electrical engineering student from Lubbock, represented the Tech student branch of the American Institute of Electrical Engineers and the Institute of Radio Engineers at a meeting in St. Louis, Mo. Friday and Saturday.

Watkins presented a paper entitled "D-C Calculating Board." His paper was the result of a seminar project under the direction of M. J. Smith, professor of electrical engineering. In the project, Watkins designed and constructed the calculating board and used it to solve some electrical engineering problems. He will demonstrate the solution of a typical problem as a part of his talk in St. Louis.

Other electrical engineering students who attended the meeting were H. A. Bigbie, B. Fyfe, R. Jones, R. Hulsey and J. M. Tucker. They were accompanied by Prof. Tom Stenis, counselor for the AIEE student branch.

Agriculture Division Visited

Dr. R. E. Erb, professor of dairy husbandry at Washington State college; Charles Shepardson, dean of agriculture, and R. E. Bursell, extension dairy specialist, both of Texas A&M, visited the Tech agriculture division last Tuesday.

### Air ROTC Unit To Be Host

Lubbock Boy Scout officials have announced plans for an explorer encampment on Tech campus May 8, under auspices of Tech's air ROTC unit and the Lewis C. Ellis squadron of Arnold Air Society.

Included on the program for the camp will be lectures on navigation, weather and flying regulations; movies on first aid and survival methods; demonstrations of flying model planes; a review of air force ROTC cadets, and marching in a parade with the ROTC band.

### Atlanta Education Authority To Interview Tech Officials

Dr. W. J. McGlothlin, a member of the Atlanta office of the Board for Southern Regional Education, will be on the campus Thursday, to meet with the Dean's council and department heads for interviews, according to Dr. W. B. Gates, dean of graduate studies.

Dr. McGlothlin is interested in developing programs in graduate and professional education. He is especially interested in divisions and departments that can make an outstanding contribution to the region, Gates said.

### Seniors To Be Interviewed For Marine Officer School

First Lt. James E. Harrell, U. S. marine corps, will be on the campus through Wednesday to enroll students in the marine corps officer candidate program.

Undergraduates enrolling in the platoon leaders class will receive commissions upon graduation from college. Members of the class are given a 1-D draft classification. They are not required to attend training classes or drills during the academic year.

A junior platoon leader class is held at Parris Island, S. C., and the second summer class is held at Quantico, Va.

College graduates or seniors enrolling in the officer candidate courses will be given 10 weeks training at Quantico, Va., and then commissioned as second lieutenants in the marine corps.

Seniors will begin their training after graduation. Five months of specialized officer schooling will be given the members of both programs before assignment to duty.

Seniors will begin their training after graduation. Five months of specialized officer schooling will be given the members of both programs before assignment to duty.

Seniors will begin their training after graduation. Five months of specialized officer schooling will be given the members of both programs before assignment to duty.

### '44 Home Economics Grad To Receive McCall Award

Miss Fern Brannen, a 1944 graduate of Tech in the Home-Economics division, is one of five home economists over the nation chosen to receive the Laura McCall awards.

These awards are given for originality and advanced thinking in the production of new home service activities, and are open to home service advisors of public utility companies.

While in Tech Miss Brannen was a member of Phi Upsilon Omicron, Association of Women Students council, Book Reviewers club and Sans Souci. She received her BS in home economics education in 1944, and since has been home service advisor for the Southwestern Public Service company in Amarillo.

**Annual Weavers' Meeting To Be Staged Here Friday**

Annual conference of the West Texas Hand Weavers will be conducted Friday and Saturday on the campus, said Miss Mabel D. Erwin, head of the clothing and textile department.

The meeting will be open to the public.

**Animal Husbandry Experts Use Wool Samples in Selecting Sheep for College**

Experts in Tech animal husbandry department can tell a sheep by his wool—that is, by careful study of wool staple, fineness and shrinkage from samples obtained from shearing, they can judge the quality of the animal.

"Side-sampling," as this method of testing wool is termed, plays an important part in the selection of fine breeding sheep for the college's flocks. The practice serves a double purpose—improvement in Tech's breeding stock and the processing of wool samples for study by students of the textile engineering department.

**Wool Study**

The study of wool and mohair through the production and marketing stages is an elective part of the animal husbandry department's curriculum.

Although not required for the animal husbandry major, courses in the study of wool are popular with agriculture students. Tech's flock of registered Rambouillet, Southdown, Hampshire sheep and Angora goats, plus its facilities in the wool laboratory and teaching staff, give the student a good background in the production and marketing of wool.

**Wool Made into Cloth**

Training in the Agriculture division can be followed by courses in textile engineering which will follow wool from the raw market into the making of cloth.

Classroom instruction in wool and mohair at Tech includes laboratories and lectures on the physical and chemical properties of wool; how to grade and classify wool; manners and methods of marketing wool; and the fundamental steps in the processes of manufacturing wool.

As much practical experience as possible is obtained by students in the various laboratories and working with the college flock.

Tech's wool laboratory is equipped with a fleece breaker, scouring tubs, drying ovens, photomicrograph equipment for measuring wool fiber diameter, and equipment determining fiber strength.

"We try to teach the students more about the marketing and production of wool than does the average Texas wool grower," Allen said.

**Study Is Valuable**

The study of wool and mohair rounds out the graduate's knowledge of farm and ranch life; and the student having this training

**Tech Librarian To Speak At Galveston Conference**

Tech Librarian R. C. Janeway will take part in the convention program of the Texas Library Association meeting Thursday and Friday in Galveston.

The meeting will initiate an intensified drive for better library service in Texas.

Janeway is scheduled to conduct discussions on the purpose of the Texas State Library agency. Approximately 750 persons are expected to attend the conference.

The librarian was guest speaker at a Friends of Library Founders Day dinner staged at Hardin-Simmons university Friday.

Program for the convention provided for group and committee reports on survey plans, forum meetings on library planning and divisional meetings in which college, public, county and school libraries study particular problems, as well as a preliminary to a year of state-wide study.

**Tech Choir Sings in Spur**

Tech choir, conducted by Dr. Gene Hemmie, travelled to Spur Tuesday to give two concerts. The first was presented at an assembly in the high school, while the second will be given at 8 p. m. in the Spur High School auditorium under sponsorship of the local P-TA.

**Band-Shes to Pick 'Handsome Man'**

Penny votes will be cast this week to determine who will be crowned Handsome Man of the Band for 1952 at Saturday's annual Club Finale, sponsored by Tau Beta Sigma, band sorority, and Kappa Kappa Psi, band fraternity.

Winner of last year's contest, the first Handsome Man of the Band race held on the campus, was Gerald Hise, said Marjorie Asbill, Tau Beta Sigma president.

Candidates for the distinction are being sponsored by members of the sorority, she said. Ballot boxes are stationed in the Band building and are also being carried by the sponsors.

Top man in the race will be presented at the annual Club Finale Saturday night in the band hall. The two highest runners-up will be awarded gifts. Profits from the contest will be used in financing Club Finale, Miss Asbill stated, with the remaining funds going into the club treasury.

Contestants listed are Richard McCollum, Midland sophomore; Cecil Green, Ralls junior; Don Andrews, Brownfield sophomore; Don Miller, Vernon junior; Bill Reuss, Borger graduate student; Jim Bradford, Abilene freshman; Joe Haddon, assistant band director; Jim Sheperd, Hobbs senior, and James Knuckles.

finds it valuable for successful ranch specialized wool work. Graduates planning to enter the extension service or teach in a ranching country are eager to take the courses.

**Accountants Plan Meeting At Tech**

The Lubbock chapter of the Texas Society of Certified Public Accountants will hold a one-day conference on the Tech campus Thursday, according to Dr. Reginald Pushing, head of the Tech accounting department.

The first session will begin at 10 a. m. in the Aggie auditorium with L. Edwin Smith of Conroy, Pratas and Smith, Lubbock, presiding.

After a welcome address by Dean George Heather of business administration, four talks will be given. L. Edwin Smith will speak on "Accounting as a Profession." Mr. Smith's talk will be followed by "Opportunities in Public Accounting," by W. Glyn Hearn, Lubbock accountant; "Opportunities in Private Accounting," by Curtis Miles, of Grappa-Denton, Inc.; and "Opportunities in Governmental Accounting," by Hugh S. Thomas, of Merriman and Thomas.

**HERE'S HOW YOU CAN WIN THE "STREAMLINER AWARD-OF-THE-MONTH":**

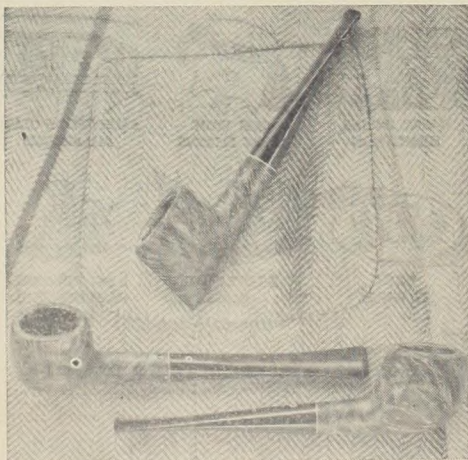

Who'll win the "Streamliner Award-of-the-month" this month? Will it be you?

The Kaywoodie Company, makers of fine pipes, in cooperation with The Toreador announces a new contest for men students at Texas Tech.

And what do you know?—You can smoke the prize they're offering. That's right, smoke it! The "Streamliner" will be the kind of prize you'll be proud to own—and smoke.

What do you have to do to win this prize? Nothing really, because prize awards will be based on what you've accomplished on the campus. Winners will be chosen on the basis of outstanding accomplishments in either scholarship, athletics, or extracurricular activities.

Hold on! Cause we're huddling right now to pick the first "Streamliner Award-of-the-Month" winner. The lucky man will be notified and his picture and that of the pipe award will be featured in the April 29th issue of The Toreador.

**STREAMLINER**—three styles of the sensationally new Kaywoodie Streamliner pipe . . . finger-thin in design . . . ends pocket bulge . . . designed for college men . . . super modernistic . . . bowl made of choice sweet Mediterranean briar . . . bit made from pure rubber.

# Odessa Fans See Red Team Tie Whites on Pass, 21-21

A desperation pass in the fading minutes of Friday's Red Raider football game in Odessa paid off as the Reds came from behind to tie up the Whites, 21 to 21, before 2,000 fans.

The Reds had been favored prior to the game on the basis of their strong forward wall, but it took two last quarter touchdowns to catch up to the high flying Whites.

### Turner Scores

Jim Turner was the star of the night as he tallied all three White pointers.

Red scores came on two smashes by Sandy Welton and the last minute pass play from Jerry Johnson to Dean White.

### Whites Lead

The Whites lead all the way up to the last minutes. Turner drew first blood on a four-yard sprint after David Brown had pounced on a Red fumble at the four. Punk Whitaker made good the first of his three conversions.

Turner scored again early in the second period by crashing tackle for one foot to climax a 61-yard drive. He was aided by the brilliant running of Bobby Cavazos and Rick Spinks.

The Reds countered when Welton drove one foot to paydirt after Johnson had worked the ball 73 yards downfield with short quick passes and two sparking runs. John Moughon converted.

The half ended with the Whites leading 14 to 7.

### Cavazos Runs

After a scoreless third quarter, Cavazos set up the third White counter with two long runs. Turner lunged three yards for the touchdown.

Welton, Skeeter Lewis and Johnson then worked the ball 68 yards to set the ball on the two-yard line. Welton smashed over from there for the Reds.

With about a minute and 57 yards to go, Johnson, Red field general, faded back, spotted White on the enemy 21-yard line and fired a perfect strike. White took the ball over his shoulder without breaking stride and raced all the way. The stage was set for Moughon's third successful conversion which deadlocked the game at 21-21.

Three plays were run off after the final t.d., but there was no time for further scoring.

## Attention, Pliz!

Intramural golf play will start May 6.

All entries must be filed with Coach George Philbrick in the Gym between April 23 and 30, Philbrick announced today.

## Cowpokes Slash Raider Win Streak

The Red Raider golfers had their four-match winning streak ended Thursday when they lost to the Hardin-Simmons Cowboys 5 to 1 in Abilene.

The Cowboys, who have won 12 of 17 matches this year, lost only one game to Tech.

Joe Stoltz and Paul McCully, Raider golfers, defeated Carl Chambers and Tommy Hale, HSU linksmen, 2 and 1.

In other results, Billy Phillips, HSU, dumped G. W. Warden, Tech 5 and 4; George Smith, HSU, topped Jerry Thornton, Tech, 4 and 3; Tom Hale, HSU, defeated McCully, 3 and 2; Chambers, HSU, topped Stoltz 2-up, and the team of Smith and Phillips downed Warden and Thornton of Tech, 5 and 4.

Joe Stoltz had the best individual score for Tech with a 75.

## Tech Will Share Summer Programs with Reese AFB

A major step has been made to improve the relations between Texas Tech and Reese air force base.

A committee from both Tech and Reese AFB agreed to cooperate with each other in their respective educational, recreational, and entertainment programs in the future. The committees agreed to contact each other when scheduled artists and prominent speakers so that the other will have an opportunity to contract similar appearances.

It is hoped the school and air base will be able to share Fred Waring's "Festival of Song" and the Dallas Symphony orchestra scheduled to appear at Tech this summer, and the Princeton choir, due at the air base in the summer.

The base committee was headed by Maj. Alvin A. Katt, wing chaplain. Tech's committee was headed by Dr. E. N. Jones, vice-president.

## Textile Research Completed By Manufacturing Company

The Chicopee manufacturing co. has completed its textile research at Texas Tech.

George W. Pfeiffenberger, in charge of Chicopee's experimental project at Tech, has announced the research results, accumulated during the past few years will be operations. Pfeiffenberger is in Springfield, Mass., the company's main offices. Chicopee has been using the textile engineering department's equipment in its research.

## Students To Fry Hamburgers

The Church of Christ Student center will hold a hamburger fry at 7:15 p.m. Saturday. The group will meet at the center before going to Mackenzie park.

## Sports Panorama

By Sports Staff

Texas Tech's 1952 football team proved in Odessa that it will be tough next fall when it goes into its 11-game schedule.

In the tenth practice session of spring football the team was in good shape as it divided into two squads and played to a 21-21 tie.

The game was tied after a 56-yard pass play from Jerry Johnson to Dean White in the fourth quarter. John Moughon kicked the extra point to tie up the count and add more rivalry to the annual Red Raider Roundup game which will be played in Jones Stadium Friday night.

The White team had led throughout the game. The Whites scored three times on short plunges by halfback Jim Turner. Vernon "Punk" Whitaker accounted for the three extra points.

Fullback Sandy Welton scored the first two touchdowns for the Red squad and showed that the fullback spot on the Red Raider team next fall is likely to be much more important that it was during the past season.

Bobby Cavazos, playing for the Whites, showed the same speed and shiftness that helped the Raiders so much last year.

But, some new developments on the team stood out more as the two squads battled it out. The principal one was the development of James Odom as a quarterback. Last fall Odom ran in a halfback spot on the freshman team. Shifted to the quarterback role, he has shown development that may pose him as a rival to Johnson, the number one quarterback.

Another move that has proved profitable is the transfer of Moughon from quarter to half. In Friday's match, Moughon booted three extra points, averaged 44 yards per punt, and got off three good kickoffs. He may prove to be the help that the Raiders have needed in punting. However, the teams showed in Odessa that little punting will be in order next fall.

There will be a surplus of power when the two teams that met in Odessa are combined next fall. The two were well divided, with the number one defensive line playing against the number one offensive line and the backfields divided almost as equally.

But for this week at least the two squads will continue a mock rivalry that flared at least once into a fight in Odessa. Spurred on by the rivalry of coaches Babe Wood and Wade Walker against Wyatt Posey and Jack Mitchell, the teams are likely to make a determined effort for victory when they meet again Friday night at Jones stadium.

—Jimmy Henley

## Raider Golfers to Compete For Third BC Win Friday

Texas Tech's golfers will seek their third straight victory over Border conference opponents in a three-way meet at El Paso Friday.

New Mexico A&M and host Texas Western will be the other participants. The same three angle again Saturday at Las Cruces, home for A&M.

## 'Mural Cinder Meet to Open for Entries; Toreador Is Sponsor of Annual Event

Tech's fourth annual Toreador sponsored intra-mural track meet will be held May 10.

Entries open May 1 and close May 6.

A 13 inch trophy will be given the winner. To obtain this trophy permanently a team must win three years in succession. All first, second and third place event winners will be awarded ribbons.

Thirteen teams entered last year's meet with Kemas winning followed in order by Los Cams,

and Centaurs, with BSU, and College Club tied for fourth. Other entries were Bledsoe Hall, Doak Hall, Whirlwinds, Cherry Pluckers, Silver Keys, Wranglers, Snead Hall and Wesley Wildcats.

Individuals must not be a member of any varsity athletics past or present. Each team may enter three men in each event and one man is eligible for only five events.

All entries must be left in the office of Coach George Philbrick in the gym.

## Tech Fencers Finish Second at El Paso; Had Held First Place For 12 Years

Tech's swordmen returned to Lubbock Sunday with a second place trophy won in the Border Invitational International fencing tournament held in El Paso Saturday.

Raider fencers dropped from the first place slot they have occupied for the last twelve years by a margin of ten points to the University of Arizona.

Tech men fighting in the tournament were coach Roddy Hobson from Mineral Wells; Don Olsen, Houston; Max Preston, Ralls; Ed Sims, Mobeetie, and Jim Luckler, Levelland.

The Tech team took first place in the epee division and received a gold cup. Team members received individual medals. In foil they won second place, receiving medals, and in sabre copped third place, also receiving medals. In three - weapon competition the Raiders came in second and team members were awarded mdals.

The tournament, sponsored annually by the Sala De Armas Windsor, El Paso fencing club, was held in the Catholic Community center and consisted of four divisions, foil, epee, sabre, and three-weapon.

Teams entered were Escuela de Arte Dramatico de Chihuahua, Chihuahua, Mexico; University of Arizona, Tucson, YMCA Tucson Arizona; Sala de Armas Windsor, El Paso; WMCA, El Paso; and Tech.

Following the tournament an investiture service in the Order Le Cordon D'Or, order of chivalry for fencers, was held. Three Tech men, Hobson, Sims, and Tucker, were installed. Preston and Olsen had previously competed in the annual tournament and had been installed.

## Students Will Get Engineering Prizes

Two awards to engineering students will be made at a meeting of the Lubbock-Amarillo sub-section of the Institute of Radio Engineers at 7:30 p.m. Wednesday in room 152 of the West Engineering building, said Duane Harmon, instructor in electrical engineering.

A \$25 award will be given to a member of the student branch by the Dallas-Fort Worth section, of which the local chapter is a part.

This award will be made on the basis of professional development, accomplishment and interest of the student in engineering and allied fields. The student must have demonstrated these qualities in student branch activities, student papers, original work, scholarship and extra-curricular activities.

A second award of \$35 will be granted by the Amarillo-Lubbock sub-section to the winner of a paper presentation given at the meeting. Any member of the sub-section is eligible for the award.

Members of the committee who will choose the student to receive the first award are H. A. Spuhler, C. E. Houston and C. V. Bullen.

Both prizes will be used by the recipients to attend the Southwestern Institute of Radio Engineering conference set for May 16 and 17 in Houston.

Coffee and doughnuts will be served at the Wednesday meeting. The public is invited.

Pvt. Billy M. Powell, former agriculture student at Tech, is at Fort Sill, Okla. He is expected to be shipped out for basic training soon.

### Alvino Rey Booked To Play at Prom

Alvino Rey, "virtuoso of the guitar", and his orchestra have been signed to play for the Junior Senior Prom May 16, Dick Witte, junior class president, said.

The semi-formal dance will be held at Lubbock Country club. Tickets may be obtained soon from various members of the junior class, and later in the Administration building.

"Lower classmen may go only if they have dates with juniors or seniors, since this is for the upperclassmen," Witte added.

### Techsan To Star In Comedy Role

Pat Edwards, junior speech and journalism major from Fort Worth, will take the leading role of Katrin in the forthcoming Lubbock Little Theater production "I Remember Mama."

To be staged April 8 and 29 in Lubbock High School auditorium, the production will feature three other Tech students in the cast. Halsey Hildreth, Lubbock, will take the role of Sigrid, an aunt. Marjorie Ashill and Nancy McKissack, both of Lubbock, will play nurses in the drama.

"I Remember Mama", a comedy by John van Druten, is based on a book by Katherine Forbes entitled *Mamma's Bank Account*. It is the humorous story of a Norwegian immigrant family.

Aron Thompson, who will play Mama in the drama, is a former Tech student.

Director of the production is Roberta McGinnis, who has directed other Little Theater plays in the past and who was in the cast of the recent "Pygmalion."

Tickets at 40 cents for students 75 cents general admission and \$1.20 for reserved seats may be obtained at the door.

### Air Society To Meet

Tech Arnold Air society will meet at 7:30 p.m. Thursday in the Engineering auditorium, said Maj. Melvin Burnett, assistant professor of air science and tactics. A Reese AFB official is scheduled to explain the cadet aviation program. The meeting is open to all students, he said.

**alschuler's  
POTPOURRI**

"How do you get rid of cooties?"  
"Easy, rub down with alcohol and take a bath in sand. The cooties will get drunk and kill each other throwing rocks."

"Mother, I'm writing a theme. Where did Grandma come from?"  
"Why, the stork brought her, just like he brought me and you."

So he began his theme:  
"There have been no natural births in our family for three generations."

She: "I'm Suzzette, the Oriental dancer."  
He: Shake.

It seems that everyone is talking about the man on the flying trapeze who caught his wife in the act!

### KTTC Off the Air; More Help Needed

Station KTTC has not been on the air since Easter because of technical difficulties.

Jess McIlvain, program director, states that it is impossible to say when the station will return to its regular broadcasting schedule, but he believes it will return to the air this week.

KTTC needs more announcers to take programs on Wednesday, Thursday and Friday nights. Anyone interested in having a program on one of these nights is asked to contact McIlvain in Gordon hall.

### BOARD MEETING—

foundation is so composed that additional gifts and grants may be given throughout the year.

The trust estate includes the C. E. Maedgen home at 1811 Broadway and the Midway apartments on the same property.

It was stated that the department of Americanism should "teach and emphasize to a large portion, if not all, of the students of said college, both male and female (especially should Americanism be taught to those who make school teaching a profession) and to the publicize generally the American system of free enterprise and the inherent values of our American way of life, as well as those fundamental concepts of our founding fathers under which this country has prospered to an amazing extent unknown elsewhere in the world."

R. J. Blakely of St. Louis, representative of the Ford Foundation, explained the program and objectives of the Ford grant.

"The personnel of the Fund for Adult Education are greatly concerned with having the adult citizens of our country increasingly well informed upon the crucial and basic social issues which we are facing today in the world and will continue to face in the future," he said.

**\$16,000 Appropriated**  
An appropriation of \$16,000 for improvements to the irrigation system on the college farm was approved by the board. Three wells will be connected by underground concrete pipe which will conserve at least 40% of the water pumped from wells, said Dr. W. L. Stangel, dean of Agriculture. Two new wells will be drilled on the land north of the campus proper which is used for growing of feed for college livestock.

### MRS. DOAK—

emeritus was state parliamentarian of AAUW, state chairman of the finance committee of Delta Kappa Delta, local president of Delta Kappa Gamma, national teachers' fraternity, president of Quarterly club (campus faculty organization), a member of the social life committee, the administrative committee and the discipline committee until her retirement as active dean of women.

### Mary Doak Scholarship

A Mary W. Doak scholarship fund for student education majors has recently been established by the local chapter of Delta Kappa Gamma. A portrait by Emily Gutherie Smith of Mrs. Doak, sponsored and contributed by ex-students, individuals and campus organizations, hangs in the library.

Mrs. Doak organized Las Chaperitas, first women's social club on the campus, in 1926.

Funeral services were held Monday afternoon in St. Paul's Episcopal church. Tech classes were dismissed from 4 to 5 that day. Later services will be held in Taylor, where she will be buried. The family requested that no flowers be sent to the home.

She is survived by a sister, Mrs. Max Eikel, housemother of Horn hall; a brother, Dudley Woodward, Dallas, and a daughter, Mrs. Horace J. Wilson, McAllen.

## Record Crowds See Engineering Show, HE Open House for 1952

A record crowd of near 15,000 persons from this area and several neighboring states visited the 20th annual Texas Tech Engineering Show Friday and Saturday, while approximately 4,500 visitors saw the Home Economics Open-house held during the same period.

Officials of both shows said attendance was above normal. James Porter, manager of the Engineering show, stated that last year's attendance was around 13,000.

**Dedicated to New Building**  
This year's Engineering Show was dedicated to the newly completed East Engineering building,

### Determent Test Looms

Crossed fingers and four-leaf clovers will be in order for 125 men Thursday when they take the selective service deferment tests.

Scheduled to report to the office of the arts and sciences dean at 8:30 a.m., the men will then be assigned to rooms for the test. The tests are expected to last until 12:30.

A Guernsey dairy herd, tentatively set at 21 animals, will be purchased from surplus funds procured in operation of the Pan-Tech farms project.

### Budget Approved

Summer school budget was approved at the meeting as were numerous changes in construction work now going on in buildings on the campus. Plans for a score-board gift were discussed and President Wiggins was authorized to sign a contract with the Air Force Reservists for a 60-class hour night course in Personnel Management.

Charles C. Thompson, Colorado City, chairman of the board, presided. Members attending were Robert B. Price, El Paso; George E. Benson, Lubbock; Tom Abbott, Fort Worth; C. T. McLaughlin, Snyder; Leon Ince, Houston; Charles Woodruff, Dallas; Raymond Pfluger, Eden, and Chanslor Weymouth, Amarillo; and Dr. Wiggins, Dr. E. N. Jones, Tech vice-president; W. T. Gaston, business manager, and Roy Wells, secretary.

Members were guests at a luncheon at noon in Drane Hall.

which provided about twice as much room for exhibits as previous shows had utilized. Each exhibit in the show was constructed by students and sponsored by a department of the Engineering division.

Industrial engineers showed plant design displays and a slow motion and time exhibits, while the textile engineering department exhibited fiber-displays and a miniature textile mill. Regular machinery in the Textile building was also open to inspection.

### EE Exhibit

Electrical engineers sponsored a demonstration of an electronic turtle and an electronic color selector. Other gadgets in their display were a thinking machine and a weight tester. A vortex tube was demonstrated by mechanical engineers, who also showed visitors a rope pump, a demonstration of supersonic water flow through water analogy to air.

Architects and commercial artists exhibited all types of art, including water color, oil, free hand and pen and ink paintings. Pottery displays were also shown in this division.

A magic show featuring demonstrations of various unusual chemicals was sponsored by the chemistry department, while the geology department showed displays depicting the job of the geologist in the locating and digging of an oil well.

### HE Open House

Buses and cars brought students from several high schools in the area to the HE Open House. The youngest group of students noted was a busload of 65 fourth graders.

Every room of the new Home Economics building was on display, as well as the Nursery school and the Home Management house. One room containing rats for use in experimental work was promptly labeled the "Animal Husbandry

department" by some visiting Aggie.

One hundred gallons of fruit punch were consumed by visitors during the two days of the Open House. The drink was prepared by students in the foods department. Another attraction was an exhibit of two model kitchens, one electric and one gas, on display in the home management lab.

### Style Shows

Four style shows were given during the Open House, under the direction of Alice Qualla, senior clothing major from Lubbock. Garments ranging from tennis to formal occasions were modeled by the girls who made them. Some of the students designed and made patterns for their apparel. Fifty-two girls participated in the style show with Joyce Pember and June Franklin as commentators.

The Open House is held every year in the home economics division to give students experience in explaining and demonstrating their work, and to acquaint the general public with the work of this division.

### Saddle Tramps Will Meet To Plan for Friday Game

Old and new executive committees of Saddle Tramps will meet at 5 p.m. Wednesday in CG to discuss plans for the coming year. Bill Bales, president, said.

Regular ST meeting will be at 5 p.m. Thursday in CG. New cheerleaders will be present and plans will be made for the inter-squad game Friday night.
