

"Saloon Editor" To Be Speaker On Rec Hall Program Tomorrow

Earl Wilson—they call him the "saloon editor" of the New York Post—will speak at 7:15 p.m. tomorrow at the Rec hall. He is the second lecturer for the spring semester.

Wilson is the author of three best selling books, "Pike's Peek or Bust," "I Am Gazing Into My 8-Ball" and his latest, "Let 'Em Eat Cheesecake." The dedication of the second book is widely quoted and contains a typical Wilson twist "To the wonderful woman who cooks my meals, darns my socks and rears my son—my mother-in-law." The book is a collection of anecdotes including many commentaries on the humorous state of the nation.

A native of Rockford, O., Wilson has been a newspaperman for almost 25 years. When the editor of the amusement section of the New York Post was drafted into the Army, Wilson was drafted to fill his niche. He had been with the Post for seven years as re-write man.

Wilson meets many celebrities nightly on his rounds of Broadway and stopovers at Greenwich village and the Metropolitan Opera house. While other reporters concentrate on the glitter and plush of the crowd, Wilson takes note that the bar does a thriving business, that many "opera lovers know the opera is over when the bartenders start to close up."

The Cincinnati Post says of Earl

Earl Wilson

Wilson, "Some folks look at his column only for what's new in bright and funny stories. But news is also Earl's business. Straight on-the-spot news, usually served up as a clean-cut scoop."

Institutional host for the lecturer will be the Press club. The club will have a reception for Wilson following the lecture.

College Convocation Slated Today In Gym

AWS To Elect Officers Today

AWS officers will be elected from 8-11 a.m. and 1-3 p.m. today. Polls will be open in the Home Economics and Administration buildings, with Mary Hall in charge.

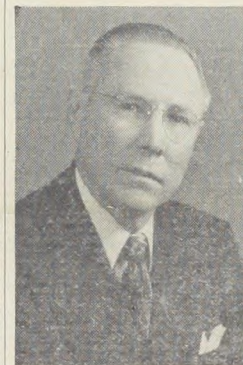

Nominees are president, Jerry Freeman, Fat Findley and Dottie Stokes; vice president, Claudyne Young; secretary, Katie Atkinson, Marvel Gibner, Peggy Carter, Erin Nevitt; treasurer, Jo Ann Deaton, Mary Jo Craig, Pat Lindsey; reporter, Jo Ann Schovajsa, Sandra Sadler, Shirley Schmidt.

Constitutional revision will also be voted on.

Students To Be Recognized; Wiggins Will Confer Honors

By MARILOU WILLIAMS
Toreador Staff Writer

Three students will be presented with college honor keys at the recognition convocation in the Gym at 9:25 a.m. today by Pres. D. M. Wiggins. These students recognized scholastically at three previous recognition programs are James L. Cooke, of McLean, engineer; Walter C. Perkins, Lamesa, engineer; Lee Robert Pfluger, Eden, agriculture.

Pres. D. M. Wiggins

Of the 327 students to be recognized, 13 will receive divisional honors; 31, class honors; 107, individual honors; 46, scholarships; 67, leadership recognition; 38, football letters; 12, awards in basketball. Ten students will be recognized as top-ranking in their division.

Eight organizations will be honored for scholarship. They are Alpha Chi, national scholastic honorary fraternity composed of the upper ten per cent of the junior and senior classes; Alpha Lambda Delta, national freshman honor society for women; Forum, organization of 15 outstanding junior and senior women to act as a service organization to create interest in students and their activities; Junior Council, organization of not more than 20 women who have maintained a 2-point average during their first year and a half of college work.

Phi Upsilon Omicron, national honorary society composed of the upper two-fifths of women in Home Economics; Sigma Tau Delta, national fraternity for English majors; Tau Beta Phi, honor society for engineering students from the upper eighth of the junior class and upper fifth of the senior class; Theta Sigma Phi, honorary journalism organization for women.

Divisional, Class Honors
Top ranking students within their respective divisions are Robert L. Hicks, agriculture; Ray Don Baker, Marvin C. Kitten, J. Donald Smiley, arts and sciences; John A. Iverson, Edward W. Lamb, Burton R. Myers, LaJuana Smart, business administration; Gerald Church, engineering; Juanita Davis, home economics.

Those receiving divisional honors are seniors, Ray Don Baker, Jean V. Beene, Jack V. Bolkin, George T. Edwards, M. Dan Howard, Edwin D. Langford, Julius, Jack C. Alderson, Sharon Cone, Marvin C. Litten, John C. Pinson, Elizabeth Schovajsa, LaJuana Smart, J. Donald Smiley. Class honors will be conferred upon seniors, Gerald Church, Billy H. Easter, Paula D. Fox, Houston Hodges, Robert Kral, Ralph E. Lacy, Edward W. Lamb, Claude G. Lawson, Burton R. Myers, Larry E. Peague, Flake H. Tompkins. Juniors, Jack J. Bond, Frank D. Burton, Virginia Butler, W. Wallis Davis, G. Elaine Felke, Patricia Findley, Alton G. Goodrich, David N. Smiley, Jo Della Smith, Twila M. Smith, Peggy J. Terrill. Sophomores, June Austin, George T. Baker, Juanita Davis, Nancy M. Davis, James H. Dent, William Holmes, Sally.

- See CONVOCATION Page 8

YMCA Officials Here This Week

Two YMCA representatives will be on the campus this week to see if there is enough interest to stimulate the organization of a "Y" here, according to Margaret G. Twyman, dean of women.

Fred Miller, from the national YMCA office and Ned Linegar, the regional YMCA office will hold a meeting in the Aggie auditorium at 5 p.m. tomorrow. Anyone interested in YMCA or YWCA should attend this meeting, stated Mrs. Twyman.

Appointments may be made with these men tomorrow or Friday through Mrs. Twyman.

Attend General convocation today!

Election Petitions Available; Funds Voted For Rec Move

Petitions for next year's student offices may be taken out today, according to a Student council committee report Monday. The council also voted to use a special fund for moving the north section of the Rec hall to make way for construction of the Student Union.

Twenty-three offices will be filled in a general election April 10, it was announced. Petitions may be secured in the Student council office, Ad323, starting at 2 p.m. today. They must be returned fully signed by 5 p.m. Tuesday, March 27.

Student body officers to be elected are a president, vice president, secretary, business manager and head cheerleaders. Number of council representatives from each division will be five from arts and sciences, four from engineering, three from agriculture, three from business administration and two from home economics.

Petitions for student body officers must be signed by five per cent of the student body or approximately 200 persons. Petitions for council representatives must have a mini-

See ELECTIONS Page 8

May Grads Under GI Bill Must Obtain Fee Receipt

It was noted in last Saturday's Toreador that students attending college under the GI bill do not have to pay the \$5 graduation fee which is required of those who expect to graduate this May.

Vice Pres. E. N. Jones has announced while such students are not required to pay the fee, they are required to obtain receipt from window No. 5 of the business office located in the Administration building.

Shakespeare's "Taming Of The Shrew" To Be Presented In Studio Theater

In observance of International Theater month, the Tech speech department will present William Shakespeare's "The Taming of the Shrew," at 8 p.m. tomorrow in the Studio theater.

During March, all theatrical organizations—community, educational and professional groups—are asked to do some sort of dramatization, stated Miss Cecilia Thompson, director.

The story of the hot-tempered red-head will go before the footlights tomorrow through Saturday and Monday through Wednesday. Tech students will be admitted on activity tickets but are urged to make reservations in the speech office or call extension 356 before 5 p.m. on the day they wish to attend. General admission is 82 cents with reservation and \$1.10 at the door.

Columbia University Physics Professor To Address Techsans On Spectroscopy

Dr. Charles H. Townes, director of the Columbia university radiation laboratory in New York city, will speak on "Spectroscopy in the Microwave Region" 8:15 p.m. Friday in the Aggie auditorium.

Townes, lecturer for Sigma Xi national science organization, will be sponsored by the Tech branch of Sigma Xi. Dr. J. C. Cross, head of the biology department, is president of the Tech chapter.

The application of radar techniques to spectroscopy, or the use of the spectroscope, is a post-war development of interest to scientists in many fields of activity, Philip E. Dennis, associate profes-

sor of geology, said. Dr. Townes is one of the most prolific research men in the field.

"The material Doctor Townes offers will be noteworthy to people not connected with the field and will be presented in an interesting and non-technical manner," Dennis added.

The lecturer, who is married and has three children, is professor of physics at Columbia university and consultant on microwave spectroscopy and "atomic" clocks for the National Bureau of Standards.

All interested persons are invited to attend the lecture. No admission will be charged.

Foreign Student Education Aided By WSSF Show

For 25 cents each Techsan can help make it possible for some student in a war-torn country to receive an education. The World Student Service fund variety show will be presented at 7:30 tonight in the Rec hall. Admission will be 25 cents.

Tech's contribution to the WSSF will come mainly from the talent show admissions, Mary Ruth Norris, chairman of the WSSF Student council committee, said.

Tech organizations contributing talent are Kemas, the freshman class, Speed hall, Newman club, Double T association, AWS, Future Teachers of America, Cosmopolitan club, Phi Eta Sigma, Silver Keys, Ko Shari, College Club and Women's Dorm III.

The show will be composed of a variety of numbers including chorus routines, imitators, skits, a Latin American number and piano selections.

Gamma Delta has expressed a wish to participate but due to their small membership they felt they could not produce sufficient talent. During the latter part of this month Gamma Delta is planning a social function and will donate half of the proceeds to the WSSF.

Miss Norris added that the Student council WSSF committee hopes to be able to contribute at least \$500 to the service.

Student Injured In Traffic Mishap

Billye Williamson, 18-year-old student from Childress, was hospitalized briefly Monday as the result of an accident south of the Tech Bookstore, said Lee Shelley and James D. Atchison, attending Lubbock traffic officers.

Miss Williamson, who walked into a car driven by Mrs. V. C. Smart Jr., Lubbock High school teacher, about 12:50 p.m., received minor bruises and was able to return to the campus the same day, the police officials said.

SOCIETY

Maid Of Cotton Contestants Featured In Style Show For Cotton Company

A luncheon-style show featuring the six finalists in the Tech Maid of Cotton contest will be held at noon today at the Plains Co-operative Oil mill by South Plains Cotton Co-operative for its members.

Ruth Brunson, who went to the Nashville, Tenn. contest as the South Plains Maid of Cotton, will model a complete wardrobe of cotton garments. Modeling cotton forms will be Maylene Meester, Betty Ellingm, Mary Lou Jones, Glenda Wright and DeRose Wittenburg.

Mrs. Velma Compton, Mary Ruth Sims and Betty Millican will also be presented wearing dresses made of a new fabric, cotton tricot, developed in the cotton research division at Tech under the direction of Dr. Lyle Heffler.

Special guests will be Dean Margaret Weeks, Miss Mabel Erwin and Miss Ellen Wright, all of Tech's division of home economics.

Kemas Breakfast Held For Pledges

Kemas fraternity honored 25 new pledges with a big brother-little brother breakfast at 8 a.m. Sunday in Hilton hotel according to Harold Barber and Joe Stoltz.

New pledges and big brothers are Bob Anthony, Victor Lolans, Bill Bailey, David Leaverton, Dennis Brock, Gene Thomas, Bill Burton, George Belcher, Hardy Clemens, George Belcher, Billy Jack Fraley, Sam Bates, Bill Greene, Billy Bob McMullan, George Knowles, Stanley Hazewood, Loyd Leasure, Bud Spellings, Robert Lowke, Ronald Rushing.

George Mallett, Clyde Schrader, James I. McMillan, Spot Cooper, John McMinn, I. J. Pierce, Bob Miller, James Bradley, Garnet Reeves, Bob Nease, Marlis Smith, Bobby Jenkins, Eldon Smith, Walter Rector, Jim Spellings, Ronald Bennett, Ronnie Stewart, Bill Chandler, Phil Stribling, Harold Everett, Bill Summers, Alton Griffin, J. Taylor, Rossie Atwood, Jimmie Voyles, Harold Barber, Joe Wheatheby, DeWitt Harvey, Brad Wide, George Hotchco.

Pledge officers for the year are McMinn, pledge captain; Fraley, secretary; Clemens, sergeant-at-arms.

Following the breakfast an impromptu program was given by the pledges.

Adelphi Honors New Pledges With First Date Picnic Of Spring Season

Adelphi fraternity staged the first date-picnic of the spring season Sunday to honor 13 new pledges who were initiated last Wednesday night.

Harry Albaugh, president, presided at the initiation services held for Buddy Adams, James Atwood, Walter Cox, Charles Davenport, Wadi Parach, James Langford, Joel Mitchell, Troy Powell, Neil Sheffield, Bill Stucker, George Wehling and Harvey Bolin.

Twenty members, pledges and dates attended the picnic according to Bolin.

Dr. Wiggins Is Speaker For Dedication Program

Pres. D. M. Wiggins will speak tonight on the program for the dedication of Brownfield's new high school building. Dean of Student Life James G. Allen and Roy J. Wells, assistant to the president, will also attend the ceremony.

Wiggins will speak again Thursday night when he appears before the Amarillo Rotary club.

MSSE variety show at 7:30 tonight in the Rec hall.

at 10 a. m. today in the Gym. The number, general convocation

Wranglers Initiate, Honor Pledges At Sunday Service

Big brother-little brother breakfast was given in conjunction with initiation services by Wrangler fraternity for 16 spring pledges at 8 a.m. Sunday in Aztec Inn. Harold Brockett, president, presided said John Maner, reporter.

Those initiated and their big brothers are Bob Bachman, Dwayne Sparks; Jim Belsler, Bob Wood, Bob Burnett, Cody Johnson; Don Grossman, Eddie Goetze; Bob Hart, Max Zachary; John Kallas, Carl Rodolph; Bill Little, Tommy Cooper; Earnest Lokey, David Moorhouse; John Nolan, Harold Brockett; Bud Reeds, Jack Ramsey; Harold Schaefer, Joe Wolford; Bobby Slapp, Dave White; David Thomas, Casey Jones; Don Whetzel, George Morris; Malcolm Young, Glen Marburger.

Gene Conley is a holdover pledge.

Eighth Annual German Musical Show To Be Presented By Liederkranz Club

"Liederkranz Melodien 1951," a musical show produced by the Liederkranz club in co-operation with the foreign language department, will be presented at 8 p.m. Tuesday in Ad202.

The show, sponsored by Theodor Alexander, instructor in foreign languages, is composed of skits and songs in German. The directors, Donald Smiley and Jack Burgess, emphasize that enough English will be used during the show to give the audience a clear understanding of the production.

A trio, Becky Bently, Frankie Boyd and Jo Morrow, will be featured in German versions of such songs as "The Thing" and "Tennessee Waltz."

Setting for the skits is a radio station. The cast includes Ted Austin, David Smiley, Joyce Worrels, Jim McGraw and Jack Murphy, who will play the accordion.

The script for the show, which is the eighth annual production of the Liederkranz club, was written by students who are members of classes in scientific, literary and beginning German.

Art students under the direction of Roderick Parkinson, instructor in architecture, are constructing stage sets for the production.

Admission to the show is free.

Go to the polls today.

Roman Vase Now Shown In Museum

A Roman tear vase is the Museum Treasure-of-the-Month for March. The vase is on permanent loan to the Peabody Museum at Harvard from Mrs. H. R. McKee, former resident of Slaton.

The tear flasks, also called Balsamara or Ampullae, were found throughout the Roman Empire from the first to the fourth centuries A.D. according to the Peabody museum.

The flasks were made of a bubble of molten glass with the pipe held down vertically. The bubble then elongated itself by its own weight and was widened at the end by blowing.

Women mounters used them to collect tears at funerals according to the scholars' theories. However, traces of oil and resin were found in them and it is thought that they were probably containers for oils and perfumes.

Jones To Speak At Waco Banquet Climaxing Campfire Girls' Meeting

Dr. E. N. Jones, vice president, will be guest speaker Saturday night at a banquet in Waco, climaxing an annual regional meeting of the Campfire Girls.

Groups from Texas, Oklahoma, Louisiana and Arkansas will convene for the three day meeting. Accompanied by executives from the local chapter, Jones will leave the campus tomorrow.

News Of Tech Clubs

CHEMISTS HEAR MACKEY

Dr. J. F. Mackey, chief chemist for Continental Carbon company, will speak on printing inks at 7:30 p.m. Thursday in Cg. He is being sponsored by the Tech student chapter of the American Chemical society.

Mackey is in charge of control and research and is now setting up a new laboratory for the company. He is a graduate from Northwestern university.

CAMPING DISCUSSION HELD

Marie Lewis, Gene Matthews and Dick Witte will discuss caravanning and work camps at the Wesley Foundation forum at 7:15 tonight in the Methodist Student center.

Bob Jacobsen will lead the singing.

SPANISH CLUB WILL MEET

Sigma Delta Pi will meet at 7:30 p.m. Thursday in Ad202 for a social meeting, according to Emma Lou Garrett, president. The program includes Spanish games and songs.

WOMEN JOURNALISTS MEET

A meeting of Theta Sigma Phi has been called at 5 p.m. Friday in J204. Committee reports will be taken to elect the outstanding senior woman journalist for this year.

CASA LINDA HOLDS PANEL

A buffet supper and square dance, carrying out a Western theme, was held by the residence of Casa Linda, campus women's residence, Saturday night, according to Billie Stacey, social chairman.

Hollis Smith was guest caller. Out-of-town guests were Mr. and Mrs. Bob Burks of Levelland. Mrs. Burks, the former Dean Richardson, was previously a Casa Linda resident.

FTA ELECTS SWEETHEART

Election of officers for next year and local chapter sweetheart will be held at a meeting of the Future Teachers of America at 7 p.m. Thursday in the Extension building. The sweetheart winner

will compete in the state FTA Sweetheart contest.

KAM SHOWS TOP PRINTS

The national Kappa Alpha Mu print show went on exhibit at 8 a.m. today in the Museum auditorium. Tech's chapter, Eta, of the national honorary fraternity in photographic journalism is sponsoring the show, which will continue until the Easter holidays.

The show, comprised of 75 prints selected from the 750 entries at last year's convention, is the annual traveling print exhibit shown to KAM chapters and camera clubs throughout the United States.

Delegates from the local chapter will carry the exhibit to the national convention at Baylor university in Waco, March 22-24, stated Bill Weeks, sponsor.

REFINERY PHOTOGRAPHED

Delores Ketchersid, Bill Langford, Marty Courtney, Paul Kessinger jr., Robert Duke, John McAleer and Bill Weeks, sponsor of KAM, went on a field trip to Levelland Saturday afternoon.

They made pictures of an oil refinery to enter in the local KAM print show to be held in April.

Patricia Kirk and Kessinger jr. began pledging KAM Tuesday.

All-College Participation . . .

Three big events are on today's schedule for Techsians. Kicking off the day's activities will be the all-college convocation, which may begin another Tech tradition.

Many awards, recognitions and introductions will be made when Techsians assemble this morning at 9:25 for the first convocation of the semester. Scholarship recognition for individuals and groups, outstanding leadership recognition, introduction of Tech's new coaches and athletic awards are to be rolled into one. Classes will be dismissed for the event, so that the convocation will be truly an all-school affair.

By combining the recognition service with the annual spring convocation, students may see that it takes a great many phases of activity to make a college. Leaders will be recognized, but everyone knows that an organization is only as good as the followers make it. Because of that, every student should feel he will be included in the services, since every student is a part of at least one organization—the Student association.

Tech is a diversified school, which makes it difficult to draw all students together into one body. This convocation will be the time when the many parts may be drawn into a whole.

Beat a path to the Gym this morning and take your seat with your classmates and fellow Techsians at the major event of the spring.

Quarter Relief . . .

Third on the day's program of events is the talent show sponsored by the Student council to aid the World Student Service fund.

Following the all-student convocation and the AWS balloting, the variety show will offer an enjoyable close to the day's activities—and a worthwhile one.

Instead of having a fund drive to aid students in war-devastated countries, the council planned a variety show with talent provided by student organizations. Instead of asking students to dig deep in their pockets and contribute to a worthy cause, the council is making it possible for students to enjoy the contribution of twenty-five cents, the price of a ticket to the 7:30 show in the Rec hall.

WSSF spells out friendship and understanding to many nations of the world. For a quarter, Tech students will be helping to give food, clothing, medical aid, books and housing to students in other countries.

Specifically, contributions made of the combined quarters paid by Techsians may buy, among other things, one of the following:

\$1,000—meets the needs of one student center in Indonesia, which provides recreation and food, just as Lubbock student centers do.

\$250—provides medicines and equipment for free care to students at a clinic in Karachi, Pakistan.

\$100—will add a bed and facilities for one more tubercular student in a hospital in Salonika, Greece.

\$50—will buy instruments for a looted laboratory in Rangoon, Burma.

\$12—will buy 200 pounds of paper for student center mimeographed textbooks.

\$10—will buy CARE books through WSSF for a devastated university library.

\$5—will pay for one student's share in cost of equipping a free canteen for 100 students in Padua, Italy.

With a world-minded student body such as Tech has, the contribution from here should easily provide that necessary free care to students in faraway Karachi.

Sanstorming

Raiders From Fan's Eye View

By SAN ANDERSON

Now that SWSTC Bobcats have dashed the hopes of Texas Tech's Red Raiders, thus ending the season, it still does not seem out of line to give a fan's eye view of the team.

Paul Nolen, Tech's 6-10 center, captured individual scoring laurels in the Border conference, and would rate high on any man's team. Nolen is not a flashy player, but the towering sophomore is worth watching nevertheless. The Alvarado Red Raider does not seem unduly tall, despite his 82 inches, because of a build that is exceptional for a person of his height. Opposing centers will vouch for the length tape required to measure Tech's tallest cageman, however.

Now, the all-around guard, and his scoring thrusts are never of the scintillating type; therefore, people often leave a ball game singing the praises of a shorter team mate and mourning the fact that Paul just wasn't "on." These same people are usually surprised the next morning to find that the big lanky lad copped high scoring honors. Fans forget his short, under the basket shots, but remember the long, net-popping set or push shots of another Raider.

Jack Alderson is another Techsian who pushed a few points through opponents hoops this season. The Lubbock boy can not be classified as the best team-man in the world.

This is not necessarily a criticism. Many so called "team-players" are merely ball players who can be called nothing more complimentary by sportswriters.

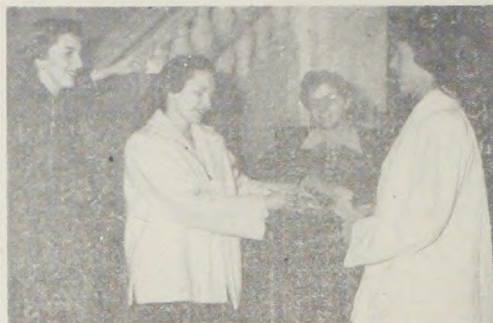

Alderson may be found guilty of shooting sometimes when a pass might seem the best bet, but he is also quite frequently found guilty of making these same shots. If the necessity arises, however, the junior cagers can pass with the best of them. Alderson is also an adept dribbler, and under suitable conditions, will demonstrate this ability without false modesty.

Another Hustler

The hustlingest player on the team can be no other than the scrapping, rebounding Verdell Turner. Turner follows a basketballing style that is not only a credit to himself, but as if the cager didn't shoot at all, but merely took a tremendous leap toward the basket while holding the ball above his head. Several Lubbock players score more points than the long armed Turner, but none of them hawk the ball so consistently.

Virgil Johnson, practically as thin as Frank Sinatra, is the Raiders' set shot artist. Johnson shoots from over his head with an accuracy that at times borders on the miraculous. A ball that finds nothing but netting after a long arc is the most beautiful thing in basket-

(H. A. Tuck jr. Photo)

AWS Voting . . .

Setting the pace for today's Association of Women Students' election are the smiling coeds above. Dodie Stokes, Women's Dorm IV AWS representative, is presiding at the poll where Mary Jo Ann Northeutt, Doris Cooper and Mary Katherine Johnson mark their choices for next year's leaders of women's activities.

Over 1,200 women are eligible to choose their leaders for next year. Every coed at Tech has the responsibility of choosing the guiding women for next year's AWS.

Among activities which AWS sponsors are the big-sister-little-sister program for acquainting new women students with Tech traditions, a convocation at the beginning of school for women and a float in the Homecoming parade.

It takes strong leaders to coordinate women's activities. Balloting takes place in the Ad and Home Economics buildings this morning. What's woman suffrage for if the women students don't take part in their elections?

PAT'S PATTERS

By PAT JOHNSON

Tech's men students just don't "stand a chance" today—that is, if the women students uphold their right to vote in the only campus-wide election open exclusively to the so-called weaker sex.

Their voting right will be the selection of officers for Tech's chapter of the Association of Women Students and approving or disapproving revision in the organization's constitution.

The election will certainly have elected officers will take their wide-spread repercussions, because ideas for aiding women on college campuses to the national AWS convention held later this spring.

Polls will be open from 8-11 a. m. and 1-3 p. m. in the Home Economics and Administration buildings today.

Be sure to go by and cast your ballot for the rights of women. Who knows, the confidence voters place in an officer may inspire her to run for president of the United States!

This election is the first showing of student voting strength for next year's officials. General elections will be held early next month; plus many club elections throughout the remainder of the semester. As usual, persons will be nominated who have no interest in the position and care only for the glory.

Too many times campus citizens think, "Well, ole Joe Doaks is a pretty good old boy, and even though he has never come to a club meeting or voted in a campus election, I know he will make a good officer."

And Joe Doaks, being a well-liked individual, wins the election. He still fails to attend meetings or vote in elections and as a result students lose interest and complain about the job "good ole Joe" is doing.

Therefore, voting, instead of being the only test of student intelligence should be the last. First, voters should nominate individuals who are interested and qualified for positions.

Go to the polls to express confidence in your choice of student leaders.

"The Government is my shepherd, I shall not want. It allows me to lie down on good jobs; it keeps me from the hell of factories."

"Yes, though I walk through the valley of laziness and deficit spending, I will fear no evil; for the government is with me; its doles and its vote-getters they comfort me. It prepareth an economic Utopia for me by appropriating the earnings of my grandchildren. It fillets my head with bologna; my inefficiency runneth over."

"Surely the government shall care for me all the days of my life, and I shall dwell in a fool's paradise forever!"—Rev. Gaston Foote, Grace Methodist church in Savannah, Ga.

About The Campuses

In spite of a general mental depression about the current war situation, the stateside situation has its humorous side. Coeds at Northwestern university report that they have been getting letters from the war department urging them to join the Women's Army corps.

Inducements were a \$375-a-month pay check, a second lieutenant's commission and a "permanent career."

One coed said her reaction was negative because "my fiance is in the Coast Guard and I'd have a higher rank than he if I went in."

Another incident caused by the letters was Ian Campbell, senior at Northwestern, receiving a letter also. It was addressed to Miss Campbell, and offered him a pleasant stay in the army. Campbell had no comment.

The library of the University of New Mexico has recently been enlarged by the addition of an important zoology bibliography. The bibliography covers the period from 1859 to 1950 and lists books and articles published on the subject of zoology.

The Library of Congress offered the set to some institution that would agree to pay transportation costs. Several institutions submitted bids, and library officials recommended that the set be sent to New Mexico.

According to the Daily Athenaeum, student newspaper of West Virginia university, the list of snobs already compiled by Russell Lynes is incomplete without a few campus snobs. These are of several types.

The first is the scholarly snob who regards anyone who spends time on pursuits other than a study as immature. You can recognize this person by the way he mutters, "What do they come to college for, anyway?"

Second is the socially active snob, who regards anyone as a barbarian who spends an occasional evening in his room.

Third sub-division in the campus snob classification is the grades-don't-mean-anything snob. This is the type person who studies when there is nothing else to do. Although the majority of them make passing grades, some are always philosophically remarking at the end of the semester, "Oh, well, grades don't mean anything, anyway."

the toreador

THE TOREADOR, student newspaper of Texas Technological college, is published every Wednesday and Saturday on the Campus of Texas Technological college at Lubbock by the associated student of the college.

McDonald Heads Education Project

Donald McDonald, assistant director of elementary education on leave of absence to graduate work at the University of Texas, has been selected coordinator of a project to stimulate parent-teacher co-operation school improvement. The project is sponsored jointly by the Texas Congress of Parents and Teachers and the Texas Association of Supervision and Curriculum Development. It will begin in September, and will include 10 public schools, teaching techniques of parent-teacher co-operation.

Dean A. St. Claire, head of department of industrial engineering and engineering drawing, announced that industrial engineering graduates in the North area have petitioned the National Organization of Architects for permission to organize a Fort Worth chapter. Temporary officers of the group are: Emil D'Acosta, chairman; Morris Koers, vice-chairman; James R. Dezzelle, secretary; D'Acosta and Dezzelle are both graduates of Tech.

Speeches And Repair Work

Hard Work And Long Hours Demanded of Student Prexy

By JOHN NORCROSS
Toreador Staff Writer

Everything from repairing the loud speaker system to addressing a luncheon group is included among the activities of Tech's Student Association president.

President Horton Russell, senior chemical engineering major, finds variety and stimulation in his duties, though they demand hard work and long hours.

Russell can be found most any afternoon at his desk in the Student council office, A323, if he's not out of town representing Tech in some meeting or convention. Several times during the year, he has had to mount the dusty, narrow stairs to the tiny room in the west tower on the Ad building to put the loud speaker in working order. Right now the system is out of order, he explains, while some of its parts are being repaired at the factory.

Presides At Council Meetings

Tech's constitution lists as the first duty of the president, presiding at all meetings of the Student association. When a meeting of the association is necessary, he must call it and make all arrangements. These meetings are called at various times throughout the year when speakers are presented or problems concerning the entire student body arise.

A council project tried for the first time this year was a Student Council clinic, to which representatives from a number of Texas high schools were invited. During the clinic Russell and other officers conducted discussion groups in various phases of student government, giving Texas high schools an idea of how Tech's system operates.

One of the first council-sponsored projects of the year was the trip to Fort Worth for the Tech-TCU football game. The affair was supervised by the president and the out-of-town trip committee.

Council Sponsors Opinion Poll

All committees are appointed by the president. He must know the qualifications, therefore, of each member of the council. Besides the regular committees which serve all year, special ones must be named to study problems and report their findings. This year the double-T problem, which had been arising every year, was decided once and for all by a student opinion poll sponsored by the

council. Russell meets with college officials to express the views of the student body, as well as corresponding with student officials in other colleges throughout the southwest.

He presides at meetings of the Board of Student Organizations, composed of all club presidents. Through this group he is able to reach the members of every organization on the campus. The Homecoming parade, participated in by hundreds of students, is planned and directed by this group.

Other council activities for the year in which the president has taken a leading role include the

ART METAL STEEL BOND

Sports Slants

By DICK BROOKS

Now that Southwest Texas State college of San Marcos has brought Texas Tech's 1951 basketball season to an official close, a recap of what went on during the campaign might be in order.

San Anderson, former sports editor of the Toreador, has written a little squib about some of the players. It appears on the editorial page of this issue.

Looking at the season as a whole, we find that Tech won 14 and lost 14 in regular competition. Three "unofficial" games were played, one against Phillip 66's mighty Oilers, and two against Dowell's Cafe, a strong AAU quintet from Amarillo. Phillips downed the Raiders 76-32. The pair of games with Dowell's was split.

For their conference efforts, the charges of coach Folk Robison finished in a tie for second place in the Border loop. Tech won 10 and lost six games in league play. Only one team was able to beat Tech twice.

That was conference champion Arizona university, which won its sixth consecutive Border confer-

Council

safety campaign, recognition service and selection of Who's Who. On practically every bulletin board, safety campaign posters were displayed last semester to make the school more safety conscious.

Crosses Erected

In every spot on the campus where an accident had occurred, white crosses with question marks painted in black in the center were erected. Thanks to the council, our parking system has been greatly improved this year. In each of these projects, the Student association president had the job of direction and supervision.

In addition to his duties as president, Russell takes an active part in several campus organizations. He is a member of Tau Beta Pi, honorary engineering fraternity; Phi Eta Sigma, freshmen honor fraternity; AICHE, American Institute of Chemical Engineers; Saddle Tramps and Centaur social club.

Softball Deadline Reset; Entries To Close Today

To allow more softball teams to get their rosters in, the deadline for submitting them has again been postponed. Today is absolutely the last chance for entering, it has been announced by the intramural activities department.

Teams in the independent and engineering group are urged to submit their rosters today because of the shortage of entries in these divisions.

ence crown. Other four losses came at the hands of Texas Western, Hardin-Simmons, New Mexico A&M, and Arizona State of Tempe. Tech's two losses to Arizona were both close, hard fought contests. In Lubbock, Arizona won 56-57. In Tucson, the score was 78-88. None of the other losses showed more than a five point difference. New Mexico A&M, who tied Tech for second place, turned the trick by 64-59. Tempe edged Tech by one point, 72-71; Texas Western won 80-76 after two overtimes; and Hardin-Simmons won 51-49.

After opening the season with a 70-43 victory over McMurry, coach Robison took his squad to Odessa to meet TCU. The Frogs, who finished in a tie for the

Promotions Listed By Tech Air Group

Robert L. Goyette has been named new deputy group commander and given the rank of cadet lieutenant colonel last week by the department of air science and tactics. Promotions for 19 other Tech cadets were listed by the department.

Cadets receiving the rank of cadet staff sergeant were Richard A. Armstrong, R. L. Bell, Donald J. Hart, C. D. Coxon, J. H. Garner, O. K. Howe, K. L. Leonard and J. D. Waldon. Promoted to the rank of cadet sergeant were F. J. Alnoch, E. B. Altendorf, E. H. Andrews, E. L. Baker, Ivan L. Chiles, T. A. Gibson, J. W. Hampton, P. P. Cooke, Joe E. Holt, C. B. Nichols and Lawrence Patton.

Sanstorming

(Continued from page 4)

ball (unless you just happen to be sitting next to something prettier), and this lean cager manages to sack up several of these per contest.

Clayton Stallings, a Johnny come lately on Tech's first team, got in a few good licks while he was in the line-up. Nolen can thank Stallings for helping him become the conference scoring leader because Stallings was quite adept at lobbing the ball high into the air and into the waiting hands of Tech's postman, Clayton, like Turner, is a hustler. He picked off many rebounds, although he is not tall as basketballers go.

Scales Balanced

Jim Eddins, who alternated with Stallings, is a cool and deliberate type player. If Alderson shot too much, Eddins balanced the scales. This Red Raider guard would pass up scoring opportunities that looked good to everyone

but him. It appeared from the stands as if Eddins had more ability than confidence; for once Tech's big guns were on the bench, Eddins branched out into a much more aggressive player.

Here's a quick run-down on the rest of the team.

Weldon McClure—the fanciest passer on the whole team.

Jack Little—who played little, but moved around a lot while he was playing.

Irl Brown—who had a hookshot with more form than force; but who, nevertheless, looked good in the last two games played by Tech on the home court.

Lewis Martin—a pretty fair set shot artist himself.

Ted O'Neil—not the last in importance by any means, but somebody had to end this thing.

WE DARE THEM ALL!

PHILIP MORRIS challenges any other leading brand to suggest this test

HUNDREDS OF THOUSANDS OF SMOKERS, who tried this test, report in signed statements that PHILIP MORRIS IS DEFINITELY LESS IRRITATING, DEFINITELY MILDER!

1... Light up a PHILIP MORRIS. Just take a puff—DON'T INHALE—and s-l-o-w-l-y let the smoke come through your nose. Easy, isn't it? And NOW...

2... Light up your present brand. Do exactly the same thing—DON'T INHALE. Notice that bite, that sting? Quite a difference from PHILIP MORRIS!

Other brands merely make claims—but PHILIP MORRIS invites you to compare, to judge, to decide for yourself. Try this simple test. We believe that you, too, will agree... PHILIP MORRIS is, indeed, America's FINEST Cigarette!

Coaches Introduced Today

Texas Tech's student body will get its first chance to meet the new coaching staff Wednesday morning at the all-college convocation in Tech gym.

DeWitt Weaver, new head coach and athletic director, will introduce his assistants, Jack Mitchell, Bobby Goad, and W. A. Wood, Wade Walker and James Posey, the other assistant mentors, have not arrived in Lubbock.

Thirty-eight football players and eleven basketball men will receive letter awards at the convocation.

Still no date has been set for the opening of spring football practice, answered coach Mitchell in an interview Monday. Practice probably will begin sometime next week, he said.

Coach Weaver has not set up a training schedule yet, Mitchell went on. He is waiting until his line coaches arrive before calling the staff into a planning session.

The situation remains materially the same as it did two weeks ago, related the new backfield mentor. No new players have been gained and no old ones lost during the passed few days.

In the spring it is "hunting time" for the coaches of the nation, and that includes Texas Tech. Weaver, Mitchell, Woods, and Goad have already been scouring the country for prospective football players.

"We have seen quite a few boys we like all over the Panhandle and South Plains," Mitchell nodded. "We have talked to boys in Midland, Pecos, Kermit, Pampa, Amarillo, Lubbock, Plainview, Littlefield, Lamesa, and several other towns."

Coaches Posey and Wood and Walker have talked to some boys from the East, and in the Tennessee area.

Speaking of the boys now in camp, Mitchell said they "looked big." He went on to say, however, that he didn't think size made much particular difference, regardless of the offense in use.

"They've got to be able to move," he commented. He added that a boy can actually be too small also, you will find some big boys and some little ones who can move, but who won't have what it takes. "Every boy is different," he smiled.

Mitchell said the main thing they are looking for in a player is a will to play football. "Almost any boy who really wants to play football can make a place for himself."

"We aren't turning anyone down without a look at him. We are giving every boy a chance."

COACHING STAFF—Head Coach DeWitt Weaver looks over a schedule with the other members of his staff. Left to right are W. A. Wood, defensive backfield coach; Bobby Goad, end coach; Jack Mitchell, offensive backfield coach; James Wyatt Posey, defensive line coach, and Wade Walker, offensive line coach, have not arrived in Lubbock. (Photo by H. A. Tuck jr.)

Former Davis Cupper To Lead Visiting Colorado Tennis Squad Against Tech

Peter Arendrup, one time member of the Denmark Davis Cup team, will lead the University of Colorado tennis team in a dual meet with the Tech varsity here next Monday.

In addition to Davis Cup competition, the Danish net star reached the finals in French doubles championships one year. In this country, he won the Big Seven singles' crown last year.

Arendrup was a prisoner of war during World War II until he escaped the Germans and joined the French Maquis to finish out the war. He came to America and went straight to Hollywood to work as a photography specialist before going to Colorado.

Number two man with the Colorado university squad is Anil. See DAVIS CUPPERS Page 8

Southwest conference championship, won that time, 70-53. A few weeks later, during a Christmas season tournament, Tech felled TCU 51-45, and came within one point of SMU 44-43.

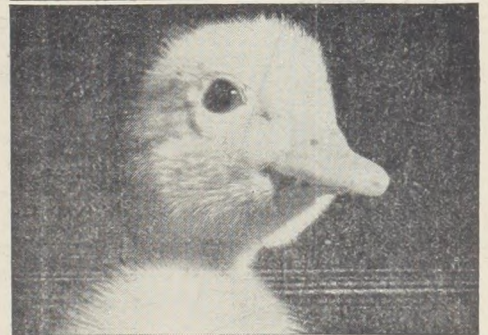

After the first TCU defeat, the Big Red won an easy home game over Colorado Western 74-38, then embarked on a double-tough Midwestern road trip.

On the road, the Raiders met some of the strongest teams in the nation and gained a great deal of valuable experience, even though winning only one game. The victory was an unexpected 62-48 win over Washington university of St. Louis. Losses came from Oklahoma City university 37-33, Illinois Wesleyan 76-58, Toledo university 82-66, Bowling Green 79-60, and Murray State 66-52.

Barring unforeseen circumstances, the entire Tech team will be back for another year's play next season, with the exception of one man, Weldon McClure, cool, capable ball handler from Claude, is the only senior on the squad.

Without a doubt, Tech will be stronger next year. They will have to be. Most of Texas Western's hot-and-cold team will be back—especially Gerald Rogers and Buddy Travis, Western's scoring aces, will be back. West Texas State stands to be tough, with more players and a new gym. Arizona will again be after the conference crown, and all the other schools are building. Nevertheless, Tech should be a front runner. But time enough for that next year.

J. Paul Sheedy* Switched to Wildroot Cream-Oil Because He Flunked The Finger-Nail Test

POOR Paul was having a fowl time because his down was up. All the chicks made wise quacks about his upswep hairdo until his shellmate suggested he duck over to the drugstore. "Waddle I do?" he asked. "Get Wildroot Cream-Oil!" the druggist answered. "Non-alcoholic. Made with soothing lanolin. Grooms your hair neatly and naturally without that plastered-down look. Removes ugly ducklings—I mean ugly dandruff! Helps pass the fingernail test!" Now he's engaged—he's lovely—he uses ponds—to swim in! (Isn't he decoy one?) So water you waiting for? Get a tube or bottle of Wildroot Cream-Oil Hair Tonic at any drug or toilet goods counter today. Ask your barber for professional applications. And tell all your webfooted friends it's eggactly what the dacktor ordered!

Jimmy Clossin Back At Tech To Instruct Square Dancing

Jimmy Clossin, square dance teacher and "ex-officio" member of the physical education department, is back at Tech for his tenth year, teaching townspeople and students the meaning of "alemande left" and "do-si-do." But he confesses that the students' change from cynicism to enthusiasm makes them his favorite pupils.

The long association between Tech and Clossin began the summer of 1939 when a former Tech PE instructor was in Clossin's square dance class at Texas university. The following year he was invited to come to Tech, and has returned annually, except one year during the war.

This year, classes are taught in the Gym, and beginners classes are held from 7:30-9:30 p.m. today and Friday. Advanced classes are taught from 7:30-9:30 p.m. tomorrow and Saturday.

Clossin started calling squares when he was eight, and continued for several years "just for fun." The past 18 years, however, it has become his job. Some places, like Tech, he makes regularly, and others write asking him to conduct schools. He also "teaches the teachers" at square dance summer camps held at Lincoln Memorial university in Tennessee and Camp Farley in Minnesota.

"After 18 years, it's just about like any other job," says Clossin, although he does admit it's more interesting than most. Mrs. Clossin, who helps teach, agrees, but says she gets most tired of traveling. The Clossins, who recently

ASME To Unveil Plaque Saturday

Traditional unveiling ceremonies of the annual clover-bordered ASME brass plaque will be held between classes at 10:50 a.m. Saturday, Saint Patrick's day, on the porch of the Engineering building.

President D. M. Wiggins, vice president E. N. Jones, engineering department heads and students have been invited to attend. A section of the Tech band will furnish music for the occasion according to Kenneth Wilson, program chairman.

To begin the meeting, the group will sing Irish songs, accompanied by the band. The master of ceremonies will recognize dignitaries present and introduce the speaker, who will mention the traditions of ASME and unveil the plaque embedded in the porch floor.

The unveiling ceremony this year is the sixteenth annual one for the Engineering department; the first on Saint Patrick's day in 1936.

Each plaque, inscribed with the proper year, may be seen embedded in the porch.

Elections —

(Continued from Page 1) mum of 100 signatures. All students may sign petitions.

To be eligible to be elected to office, a student must be enrolled in at least 12 hours of resident work and have maintained a one point of C average in his last semester of work and throughout his previous college career.

Special requirements are that the president and vice president have passed at least 90 semester hours by the end of the semester in which they are elected, and that the secretary and business manager have passed at least 60 hours by the end of the semester in which they are elected. Council representatives must be from the division they will represent.

Other business of the regular council meeting Monday night was the appropriation of a special Rec hall fund of \$3,700 for moving of

the north section of the building. Construction of the new Student Union building is to begin immediately upon the removal of the structure, which will probably be within a week.

Ten Student council members will leave early tomorrow for the TISA convention to be held Friday and Saturday at A&M. The group will arrive in College Station in time for registration at 5 p.m. Charles Beedy will attend in place of Sam Bates, who was previously announced as a delegate. No other changes in delegates were announced.

The controversial question of admitting Negro colleges to the association will be on the agenda for the meeting.

Also at the Monday night session, Harold Brannan reported that the Parent's Day committee had decided to drop the affair for this year. Charles Joplin was sworn in by president Horton Russell.

Stangel Meets With Insurance Boards

W. L. Stangel, dean of agriculture, who has been on an extended trip, attended a meeting of the board of directors of the National Farm Life Insurance company at Fort Worth Monday. On Tuesday Dean Stangel met with the directors of the Agricultural Mutual Auto Insurance Company at Fort Worth. Dean Stangel is chairman of the board for both of these companies.

FOUNDATION BOARD MEETS

Board of Directors of the Tech Foundation will have a luncheon meeting Friday called by Chairman C. T. McLaughlin, Snyder W. T. Gaston, business manager; Pres. D. M. Wiggins and his assistant, Roy J. Wells will attend the meeting from the college.

Convocation —

M. Larson, Ellen W. Massengill, Jack L. Ross.

Individual Honors

Recognition for the first time in the form of individual honors will be given to seniors, William T. Aaron, Kathryn Lundberg Adams, Faye Beth Adams, Jeanne D. Battey, Edward S. Bigham, Robert J. Boren, Aubrey J. Brooks, Ouida L. Cavett, Joan Cervoni, John E. Covey, Jones Egger, Helga W. Fuller, Randolph Greiss, James D. Hall, J. Marvin Hamilton, Joseph A. Henderson, James D. Jones, William J. Kitchen, Jean Pratt Loshier, J. Paul Ramer, Douglas Renner, F. Ralph Shouse, Fred E. Woods.

Yagnik, whose home is Bombay, India. He reached the finals of the Denver championships last year.

Number one Raider netter, Joe Wheatley, will do battle with Arentrup in singles. Number two man for Tech, Shaff DeGaulsh, will play Yagnik. Other Tech players who will meet the remaining Colorado swatters are Charles Orren and Buddy Satterwhite.

The Colorado team will be in the middle of a tour which pits them against West Texas State, Texas Tech, and Hardin-Simmons.

On March 30, the Raiders meet the University of Oklahoma on Varsity courts here, says coach Glenn Ivy. A similar match, four singles and two doubles encounters, is planned.

The Tech stokers journey to Albuquerque to meet the University of New Mexico on April 27 in a dual meet. Golf, and track teams will also make the trip.

No other meets are scheduled at present, Ivy noted, but meets will be played with TCU and SMU in addition to Border conference competition.

Employment in automotive plants is up 11 per cent.

ert Broyles, Richard Cavazos, Robert Close, Jack Cockburn, Lewis Crossley, Gene Dees, Charles Edwards, Frank Graves, Robert Garner, Don Gray, Tim Hatch, Robert Hix, Richard Jackson, Earl Jackson.
