

11th Man May Have Been On Giant Plane

Dutch Airline Officials, Boeing Employees Victims

ALDER, Wash., Mar. 18 (AP) — At least ten persons were killed, including two officials of Dutch Airlines, when a four-motored, 33-passenger airplane, designed to operate through the stratosphere, plunged to earth near here during a test flight today.

Witnesses said the plane appeared suddenly out of the clouds and that the sound of its motors died down momentarily.

The motors then seemed to speed up and the plane began a long, crazy spin earthward. The tail assembly apparently broke away during the fall. It struck in a narrow ravine in logged-off land.

"It traveled toward the earth at tremendous speed," said Mrs. L. W. Gilbert of Lagrange.

"There was an exceptionally loud noise, not like an explosion but more like a roar."

"It was terrible to stand there and watch it all. The noise was terrific, even though we were some distance away."

Seattle headquarters of the Boeing Airplane company, which built the \$500,000 "stratoliner," named the victims as:

Julius Barr, Boeing test pilot. Earl A. Ferguson, Boeing test pilot. John Kylastra, Boeing engineer. Ralph L. Cram, Boeing flight engineer and aerodynamics expert. William Doyle.

Harry West, Boeing flight engineer. Ben Pearson.

E. Glendon, assistant general manager of Royal Dutch Airlines. A. G. von Baumauer, Dutch Klm line.

Harlan Hull, chief test pilot for Transcontinental and Western Airways.

The company said an 11th man, E. B. Kinneman, may have been aboard the plane.

The stratoliner was the first four-engine transport designed and equipped with cabins and facilities for high altitude operation 20,000 feet or higher, above storms on the earth's surface.

It was to carry 33 passengers by day or 25 in luxurious night accommodations, with a crew of four or five and a capacity of two tons of mail and air express.

C. L. Eggeby, president of the Boeing company, in announcing the crash said:

"We know quite definitely the conditions in this upper zone or stratosphere, and we are able for the first time to capitalize on the inherent flight advantages it offers—additional speed, comfort and safety."

This plane was the first of 10 to be built. It had a wing span of 100 feet, a length of 74 feet and an overall height of 17 feet, three inches.

One of its innovations was a "super-charged cabin," to provide passengers and crew with "sea-level" air pressure while flying 20,000 feet in the air. This was a sealed cabin, into which air was pumped, creating automatically maintaining air pressure comparable to that at sea level.

Looks like nature is catching the St. Patrick's Day theme—the wearing of the green. Here's hoping that Old Man Winter doesn't become jealous of the verdant finery and spoil it all like he did last year.

Right now, despite some pretty shilly breezes last week, fruit prospects are best since 1935.

Ranchers are beginning to need some rain and farmers would not frown upon it. However, another month of dry weather wouldn't hurt the farmer's chances for a crop to any appreciable degree.

On the other hand, the rancher needs more weeds and early grass.

Speaking of St. Patrick's Day, radio programs were so glutted with good Irish music and home-made brogue that we've begun to wonder what to expect around Yom Kippur.

Last week four new stop-and-go traffic lights were hung at strategic locations over the city. These serve a very good purpose and bring the total number of such lights to 15. Which raises this question: What is the minimum number for classification as a real city?

Over in Midland, our friends tell us, the pool hall operators have experienced a stroke of genius. Their business closed by grand jury operation, they knocked the rails off equipment and turned them into ping-pong tables. Can't you just see the incorrigibles chalking their paddles?

We have it pretty straight that there is going to be some "cracking down" on grocery stores that operate on Sunday. Some substantial evidence already has been gathered and will be used unless...

HITLER SPURNS POWERS' DENUNCIATION

U. S. Slaps A High Tariff On Nazi Items

Economic Blow In Wake Of State Department Attack

WASHINGTON, Mar. 18 (AP) — On the heels of the state departments' strongly worded denunciation of Germany's absorption of Czechoslovakia, the treasury ordered an extra 25 per cent tariff today on many products that the reich sends to this country.

"Speaks For Itself" A treasury spokesman who announced the action said it was taken with the state department's knowledge, but refused comment when asked if it was related to Germany's seizure of the Czech republic.

"The action," he said, "speaks for itself." There seemed little doubt, however, that this economic blow to Germany could be interpreted other than as a forceful expression of this country's displeasure at what Sumner Welles, acting secretary of state, called yesterday the "wanton lawlessness" of the occupation of Czechoslovakia.

It recalled, too, that President Roosevelt said in his message to congress last January there were means "short of war, but stronger and more effective than mere words, of bringing home to aggressor nations the aggregate sentiments of our own people."

The treasury ordered the extra tariff by imposing what are known as "countervailing duties," effective April 23.

(The tariff act of 1930 provides that such duties shall be levied in addition to regular tariffs—on any foreign products subsidized in manufacture or export, by the government of the country of origin.)

The treasury acted after Attorney General Murphy ruled that German goods imported under barter arrangements should be subject to extra duties.

Officials said the treasury could not now say what goods would be affected. It was said, however, "a substantial part" of imports from Germany would feel the extra duty.

In view of Welles' expression yesterday, diplomats here were convinced this country would not recognize the Nazi absorption of Czechoslovakia.

The administration also, authoritative sources said, will give complete moral backing to the fight by Vladimir B. Hruband, the Czech minister, to prevent his dismembered country's legation here from falling into German hands.

The state department, it was said, will lead the German embassy See HIKE TARIFF, Pg. 6, Col. 4

In School Memorial Address, O'Daniel Pleads For Safety

HENDERSON, Mar. 18 (AP)—Governor W. Lee O'Daniel, speaking as memorial services were held on the second anniversary of the New London school explosion, told Texans the loss suffered "may rekindle the spark of love and devotion to our own children."

Hundreds of persons from the East Texas oil belt gathered today for the services at Pleasant Hill cemetery, where most of the several hundred victims of the disaster were buried. O'Daniel spoke from Austin by remote control on a program which was broadcast.

"Men—men of Texas, let's do our part," the governor said. "Let's not only make our school houses safe, but, before it's too late, let's discard all of these old rattle-trap school buses. Let's protect the lives of our dearest possessions—our little school boys and girls."

RUMANIA'S FLIGHT CONCERNS BRITAIN

LONDON, Mar. 18 (AP)—Britain and France today sent bitter denunciatory notes to Germany for her seizure of Czechoslovakia and acted quickly to block a reported Nazi move against Rumania.

Both nations, it was said are trying to persuade Soviet Russia to join them in aiding Rumania to protect herself against a German threat to her independent economic existence.

Prime Minister Chamberlain rushed back from Birmingham and presided over a 3 1/2-hour cabinet session—the first Saturday session of the cabinet since last year's September crisis.

Robinson And Long Bid For Places On City Commission

Deadline For Filing Candidacies Is Monday

Two new candidates appeared on the political horizon Saturday when T. J. A. Robinson and Cecil Long filed for places on the ballot in the April 4 city commission election.

Two commissioners are to be named in the voting. G. C. Dunham and Harvey Clay, incumbents, previously had filed for places on the ballots.

Deadline for filing is Monday, City Secretary H. W. Whitney pointed out. Names accompanied by a petition bearing the signatures of 50 qualified voters will be included on the ballot if presented not later than March 31.

In announcing, Robinson and Long said that they favored a business-like administration of city affairs, would seek to perform the duties of city commissioner in an impartial, judicious and progressive manner.

Robinson has been a resident of Big Spring for 18 years, engaging in the grocery business for a good part of that time. Long has been a druggist here for the past 12 years and has been in business for

T. J. A. ROBINSON

CECIL LONG

himself for five years. Both are taxpayers and businessmen here.

Other spring election, that of the Big Spring Independent school district, is slated for April 1. W. W. Inkman and Ira L. Thurman, members of the board, are seeking reelection.

Deadline for filing for a place on the school board is Wednesday, 10 days in advance of the election date.

Like Dunham and Clay on the city commission, Inkman and Thurman are serving as appointees to fill out unexpired terms.

Testimony Heard On T&P's Plea To Take Off Trains

Examiner's Recommendation To Go To Commission

Testimony in support of and in protest against the Texas & Pacific Railway company's proposal to curtail its day train service went into the records for Texas railroad commission consideration Saturday, at a six-hour hearing before the commission's examiner, C. F. Petet.

At the conclusion of the hearing, during which about a dozen witnesses appeared, Examiner Petet granted the Big Spring chamber of commerce 20 days after the time of receipt of record of the hearing in which to file a brief with the commission. That body will take final action from a study of the examiner's recommendation and briefs filed by interested parties. When the decision will be handed down remained indeterminate.

Morning session was devoted to presentation of railroad testimony, and J. C. Hall, mayor of Lorraine, division superintendent; Frank Jensen, general passenger agent, and P. D. Reyburn, chief accountant, as the witnesses. Railroad Brotherhoods, and representatives of civic groups in Big Spring, Colorado and Lorraine, were the protestants represented during the afternoon.

There was a battery of lawyers almost equal in number to the witnesses. R. L. Shepard and Sam Lancaster represented the railroad; J. T. Steadham, W. H. Gallaher, J. H. Shield and O. L. Kinsey were counsel for transportation employees; and Jas. T. Brooks and Joe Faucett represented the Big Spring chamber of commerce. Other questioners were J. H. Greene, C-C manager; H. B. Spence, manager of the Colorado chamber of commerce, and J. C. Hall, mayor of Lorraine.

It was, for a hearing of the type, distinctly a harmonious session. Testimony was restricted largely to presentation of figures, with questions and answers on those figures and on proposed service if the train service is to be curtailed.

The T&P has asked authority to discontinue day trains Nos. 3 and 4 between Big Spring and Sweetwater, operating them only between Fort Worth and Sweetwater.

See HEARING, Page 6, Col. 5

Land-Planning League Events Meet Slated On Calendar

Representatives of all agencies dealing in any manner with agricultural interests are to convene here Tuesday morning at the Settles hotel in a sub-district land use planning meeting.

George Adams, assistant state extension service director, will be here for the party. J. D. Frewitt, district agent is to preside.

Those in Howard county invited to sit in on the meeting are O. P. Griffin, county agent; Thomas Gore, farm security administration; Ira Driver, farm credit administration; M. Weaver, adjustment assistant for the AAA; Fred Keating, U. S. Experiment Farm superintendent; and representatives from the county commissioners' court.

Procedure for comprehensive surveys of every county in the area, looking toward the mapping of a farm and ranch program in which all agencies would cooperate without overlapping, will be discussed at the meeting.

Griffin already has started work on a soil map for Howard county on which would be based the division for community planning.

BOND RETIREMENT FAVORED BY JUDGES

LUBBOCK, Mar. 18 (AP)—Lubbock judges and commissioners bill before the Texas legislature, county judges and commissioners of West Texas in semi-annual convention in Lubbock elected to meet next at Mineral Wells and closed their meeting today.

Of the eight resolutions proposed, only one, that supporting the plan to divert one cent of the gasoline tax to retire outstanding road bond indebtedness of counties and districts, met with opposition. Speakers were numerous and the issues drew pleas that Texas not be sectional in its vote on the bill.

See HEARING, Page 6, Col. 5

Land-Planning League Events Meet Slated On Calendar

This is to be the big week for the Howard county intercollegiate league with the majority of its annual contests slated to be held from Wednesday through Saturday.

Starting at 6 p. m. in the municipal auditorium on Wednesday, the competition opens with the choral singing division. One hour later the rhythm band contests will be staged and at 8 p. m. the one-act play tournament will be held.

Declarations will be heard at 7:30 p. m. Thursday in the Midway school auditorium.

Friday, the big day of the league meet, the tiny-tot story telling, senior and junior spelling, sub-junior spelling, music memory, picture memory, arithmetic, extemporaneous speaking and debate will be held at the Midway school. Typing and shorthand and the ready readers contests will be held Friday afternoon at Midway.

Track and field events are set for Saturday at Coahoma.

Rodeo Grounds Are Being Improved

Improvements are being made at the grounds of the Big Spring Cowboy Reunion and Rodeo association with the view of putting the plant in first class shape for the opening of the annual show here June 23.

Among the additions will be a saddle and feed house and a new corral to accommodate horses of about 30 sponsors expected to participate in the show.

Jess Slaughter, vice-president of the association, said that other improvements and renovations would be effected before show time.

At the chamber of commerce office approximately 15 entries from West Texas towns have been received for the sponsors contest, a new part of the Big Spring three-day show. Competition will be open to young women between the ages of 14 and 25 years.

Calls Home His Ambassador To London

All Europe Anxious About Der Fuehrer's Next Move

BERLIN, Mar. 18 (AP)—Germany tonight promptly rejected British and French denunciations of her conquest of Czechoslovakia, declaring they "lacked every political, legal and moral basis."

Envoy Recalled At the same time Chancellor Hitler called home his ambassadors to London, Herbert von Dirksen, "to make a report," reciprocating action taken by Britain yesterday in calling her Berlin envoy back to London.

(France, following Britain's lead, also called her Berlin ambassador home "to report.")

The government announced that its rejection of the British and French denunciations had been delivered to the British and French ambassadors, who earlier in the day had presented notes charging that Germany's course in Czechoslovakia was illegal and a violation of the Munich agreement.

These developments occurred as reports of consternation came from European states within arm's reach of the expanding Nazi empire. The foreign office watched the gathering cloud of criticism imperturbably.

Tonight the returning British envoy, Sir Neville Henderson, took a train to London.

(In London it was said by Dirksen, ambassador to Britain since last April 1, was expected to leave Sunday.)

While all Europe anxiously watched the lengthening shadow of the swastika, Adolf Hitler rode from Vienna amid tumultuous "hells" to a secret stopping place on his way to Berlin. He left to lieutenant the task of imposing the Nazi will on Europe.

See HITLER, Page 6, Col. 3

Injunction Issued To Prevent Jones' Tech Election

GROESBECK, Mar. 18 (AP)—District Judge Fountain Kirby today granted a temporary injunction restraining the board of trustees of Texas Technological college from meeting to elect or attempting to elect Clifford B. Jones president of the college.

The order was obtained by George W. Winghamam, farmer who resides east of Mexia, and named L. L. Steele of Mexia and other Tech board members. Attorney General Gerald Mann in a ruling requested by Steele declared Jones' recent election to the presidency of Tech was not constitutional because Jones technically was a member of the board at the time he was chosen.

Winghamam's petition for the order set forth that Mann had ruled Jones' appointment was illegal and the board of trustees had given notice they would meet at Houston March 20 and would re-elect Jones at that time.

Judge Kirby set no date for a hearing on the temporary order. Winghamam obtained the injunction as an interested taxpayer, said his attorney, L. W. Sheppard.

"Mr. Winghamam as a taxpayer alleges that the appointment of Jones and payment of his salary would be a misappropriation of funds of the taxpayers because Jones' appointment would be in violation of the decision rendered in the case by Attorney General Mann," Sheppard stated.

Winghamam, a former state representative from Limestone county, conducts a column in a Waco weekly newspaper. He left here shortly after the order was granted.

Move For War Referendum Is Speeded

WASHINGTON, Mar. 18 (AP)—Spurred by American reaction to Chancellor Hitler's march into Czechoslovakia, supporters of a war referendum amendment decided today to seek speedy consideration of their proposal on the floors of congress.

In this move they won the backing of Senator Borah (R-Idaho) who said he favored bringing into the senate for debate a resolution introduced by 12 senators.

"I'm for the principle behind this resolution," Borah declared, adding, however, he believed there must be some revision of it.

The proposed amendment would require an acquiescent vote of the people before congress could declare war, except in case of invasion or threat of invasion of the western hemisphere by a hostile power.

Senator Clark (D-Idaho), one of a dozen senators who introduced it, said he was convinced American public opinion was more than ever in favor of the war referendum proposal because of the disturbing events in Europe.

"Letters are pouring in every day in favor of this amendment," Clark said.

The referendum proposal has encountered outspoken opposition from both President Roosevelt and Secretary of State Hull. They have contended it would not be workable and would hamper the government in time of crisis. A similar proposal narrowly was defeated in the house last session.

BURNED TO DEATH

MALAKOFF, Mar. 18 (AP)—W. C. Calhoun, 45, of Texarkana, was burned to death today when his gasoline truck overturned and caught fire three miles west of Athens.

COLLISION FATAL

HOUSTON, Mar. 18 (AP)—A man identified as R. L. Sherouse, a Fort Crockett soldier, was killed today in an automobile-truck collision near here.

B'SPRING TROOP IS FIFTH IN FIRST AID CONTESTS

Troop No. 3 of Big Spring finished fifth in the sectional first aid competition at Lubbock Saturday, Alfred Stiles, area executive, advised.

The troop had tied with Troop No. 41 of Sweetwater for council honors here a week ago.

A Lubbock troop—No. 5—won first place in the Saturday competition and the Sweetwater troop second for the right to compete in the regional finals. Troop No. 6 of Eastland was third and Troop No. 3 of Abilene fourth. The local team, composed of Jack Riggs, Robert Smith, Arvie Walker, Wofford Hardy and C. A. Smith, scored 445 out of a possible 500 points.

RIVER DRAGGED FOR MISSING TEACHER

CROCKETT, Mar. 18 (AP)—Searching parties, among them CCC enrollees from Ratcliff camp, dragged the Neches river today for J. Dudley Poole, 36, mathematics teacher, who disappeared from camping party on the river late Thursday night.

Poole, a resident of Ratcliff, was tracked to the edge of the stream, now swollen by flood waters. Searchers feared he had drowned.

Lines Getting Longer For Auto Licenses, But Not Long Enough

The lines are gradually getting longer at the tax collector's office where all motor vehicles must be registered not later than April 1. Although two weeks remain in

which to get the new tags on machines, there was a noticeable rush Saturday for the license plates. However, it was not enough to lessen the apparent last minute rush that will keep motorists in line for long intervals.

At closing time Saturday evening 1075 passenger car tags had been issued. This was slightly above the 1063 plates sold at the same date a year ago, but it was far under the 4129 issued through April 1 of last year. On this basis, it would mean an average of 229 registrations daily until deadline time Saturday, which looked like a rush day, saw only 175 plates issued.

Tax Collector J. F. Wolcott urged car owners to secure their plates as soon as possible in order to avoid a long wait and to help expedite the work of the office.

The law prescribes that all motor vehicles must have the 1939 tags in place not later than midnight April 1. After that the car may not be driven until the plates are secured.

CAREFULLY PLANNED, EXECUTED PROPAGANDA CAMPAIGN WAS BUILT UP FOR HITLER'S LATEST MARCH INTO CZECHO-SLOVAKIA

By BOY F. POSTER BERLIN, Mar. 18 (AP)—Adolf Hitler's third bloodless territorial acquisition in a year was built up on a carefully planned and executed propaganda campaign by Nazi experts in Czechoslovakia.

Spearhead of this high-powered propaganda drive was Ernst Kundt, Czechoslovak deputy who was trained in the Konrad Henlein school which successfully brought Czechoslovakia's Sudeten regions into Germany last autumn.

Behind him were undercover agents and operatives. They all had one purpose: to bring

Czechoslovak political policies into line with national socialism in preparation for complete Nazi domination as Austria had been prepared for union with expanding Germany.

Event of the last few months show the success of the propaganda campaign which opened the way for German troops into Bohemia and Moravia March 15.

Kundt, who cooperated fully with Henlein while heading the German delegation in the Czechoslovak parliament, was left inside Czechoslovakia to lead its Nazi campaign after the Munich accord Sept. 30.

Appointment of Henlein

Chvalkovsky as Prague's foreign minister placed a pro-Nazi at the controls of Czech diplomacy.

As undercover agents met in Czech cities under swastika banners, the steam-roller movement gained momentum.

Kundt received "a large sum" of money to distribute among needy Germans in Czechoslovakia. Jewish firms were banned. Press censorship, already rigid under the Czechs, became nastier in its prohibition of any publications "unfriendly or unfavorable to Germany."

Prague university was "aryanized." Jews became a minority. "Mein Kampf," Hitler's auto-

graphy, translated into Czech appeared in Prague bookshops. Free entry of all German publications was permitted.

Kundt's first movements were mild, his speech restrained. But as the movement gained adherents, ever among the Czechs, he launched out until finally his full program was disclosed.

An internal fight within the Czech-Slovak state arose between Prague and Joseph Tiso, premier of autonomous Slovakia.

Even while Germany was declaring officially that she was "uninterested," Nazi agents in See PROPAGANDA, Pg. 6, Col. 1

A black crepe frock (left, below) which can do service now and through the Easter season is accented with side insertions of pleated beige crepe. A lacquer red bolero and swinging blue skirt, both of wool, are linked with a white crepe blouse to make the youthful spring suit picture at the right. Hat and gloves are blue.

Country Club To Give Tea Today

Club Membership To Be Present At Affair

Members of the country club will entertain their guests at an open house and tea to be given Sunday afternoon from 4 o'clock until 6 o'clock. The affair is for members of the club and their families.

50 Years Of Wedded Life To Be Observed By J. P. Andersons

MR. AND MRS. J. P. ANDERSON - Photo by Bradshaw

On March 20, 1889, Alfretha Sanders of Kilgore, Mr. and Mrs. Norman Spencer and son, Norma, Jr., of Alpine, Mr. and Mrs. James R. Robinson of Lake Charles, La., Mr. and Mrs. C. F. Anderson of Calhan, Colo., Mrs. Floyd P. Barwick and son, Robert, of Kansas City, Mo., Mr. and Mrs. Homer R. Robinson of New Orleans, La., Mr. and Mrs. Floyd F. Edwards of Florence, Colo., and Mr. and Mrs. Walter Anderson and family, and Mr. and Mrs. Lawrence Anderson.

To Hold Antique Tea Tuesday Afternoon

FORSAN, Mar. 18 (Sp) - The Forsan Study club will entertain with an "Antique Tea" from 4 o'clock to 8 o'clock Tuesday in the home of Mrs. R. L. Carpenter.

Altar Society To Meet

The Altar Society of St. Thomas Catholic church will meet at 7:30 o'clock at the rectory with Mrs. Martin Dehlinger in charge.

Announcement Party Is Held For Hattie Belle Mullens

Announcement of the approaching marriage April 15 of Hattie Belle Mullens and Bert Shive was made Friday evening at a shower held in the home of Mrs. Houston Cowden. Tiny capsules were given to each guest that contained the names of the couple and the date April 15.

Sisterhood Will Present Review Here April 4

For the second time this year, Miss Evelyn Oppenheimer will be presented in a book review here and this time will give "Remember the End" by Agnes S. Turnbull under the auspices of the Jewish Sisterhood on Tuesday, April 4, at the Settles hotel ballroom.

Admission is 50 cents for adults and 25 cents for children and the proceeds will be used in caring for refugees. This is the first time the Jewish people here have ever sponsored an affair of this kind but due to charity obligations in caring for the Jewish people they are attempting to raise funds for their share of the work of rehabilitating their people.

The young literary critic and lecturer, who annually speaks to a total audience of over 150,000 men and women throughout Southwest Texas, Oklahoma and Louisiana, has made special appearances in St. Louis, Chicago and Los Angeles.

She has made an average of two appearances a year here for the past 2 years and is well known to Big Spring people. Her appearances here have always been greeted with a great deal of interest and enthusiasm and a large attendance.

Her originality, sense of humor, and personality coupled with her style and technique have assured her success in the book-reviewing field.

Tickets may be obtained either from members of the Sisterhood or at the door.

Stitch and Chatter Club Meets With Mrs. H. Poole

STANTON, Mar. 18 (Sp) - Mrs. H. A. Poole was hostess this week to members and guests of the Stitch and Chatter club. A social hour was spent in sewing and visiting.

High Heel Slipper Club Continues Initiation Continuing the initiation of two pledges by making them wear dresses backwards and high heel shoes, the High Heel Slipper club met Saturday afternoon in the home of Dorothy Hayward.

Mr. and Mrs. Cole Entertain Bridge Club Friday Mr. and Mrs. Ben Cole were hosts to the Centennial club Friday when they entertained at the Settles hotel. The St. Patrick's Day motif was used in the decorations and miniature clay pipes were given as favors to the men and pansy corsages were favors for the women.

Ladies Golf Ass'n. Accepts Three New Members At Meet

Voting in three new members and planning an affair for April 10, members of the Ladies' Golf Association met Friday noon at the Country club for a luncheon.

Mrs. A. E. Pistole was winner in the ringer golf tournament and a gift was presented to her.

Women At Work Flowers Reveal Many Secrets

The only thorns Mrs. Esta Williams has in her job which she has held for four years at Philpott Florist company are among the roses, as her work of arranging bouquets, centerpieces for tables, corsages, and other floral pieces is one of never-ending delight to her and chuck full of romance.

MRS. ESTA WILLIAMS —Photo by Kelsey

When her meeta girl, that's romance and Mrs. Williams doubles for Cupid when it comes to sending flowers which men know are the way to a woman's heart.

When a man comes in and asks for a suitable bouquet for a woman sick in the hospital, the florist knows that if he has a pleasing and happy look, he wants something pink or something blue because he is just that happiest of all creatures, a proud papa.

Long before the general public reads of the wedding in the paper, Mrs. Williams has heard all the details as she has planned the wedding corsages and no bride takes a chance on leaving that to the last minutes.

With her finger on the pulse of the town, the florist also hears of the sad things that happen and is the sort of person that feels maybe by sending her prettiest flowers, arranged with thought and care, she can help ease the blow a little.

Mrs. Williams has worked for 15 years as a milliner and was temporarily without a job when the owner of the shop in Abilene asked her if she would like to come to work.

Without any previous experience but with a real love of flowers, she accepted the job and went to work. Here she was an assistant and followed around behind the manager until she learned the names of all flowers, their prices, and their types.

range the bouquet without foliage and just use the green of the leaves for background.

There are other angles to this business of selling flowers that occur when someone comes in and wants a corsage for a dance. Then Mrs. Williams asks questions, finds out how tall the girl is, what color hair and eyes, and what color her dress is to be.

Some flowers she believes are made for some occasions and she likes to send bright flowers for anyone who is sick, white flowers for anniversaries, and gardenias if it is for an evening of fun.

Mrs. Williams, whose hands pick up flowers as if she loves to touch them, wears them herself whenever she can and automatically becomes the object of envy for those to whom flowers are not an everyday occurrence.

Frans Schubert Is Topic Of Allegro Music Study Club

Frans Schubert was the topic discussed Saturday when the Allegro Music Study club met with G. A. Smith with Jean Ellen Chown, co-hostess.

David H. McConnell discussed the life and works of the musician and Jean McDowell won the prize in the quiz.

Playing piano solos were Dorothy Ann Sikes, Marilyn Keaton and Helen Blount.

Refreshments were served to Mary Louise Davis, Sue Beth Hargrove, Peggy Ann Margrove, Luan Wear, Dorothy Ann Sikes, Dorothy Battersworth, Joanna Winn, Beverly Ann Stalling, Emma Jean Slaughter, Jean McDowell, David McConnell, Marilyn Keaton, Cornelia Fraxier, Lula Beth Duff, Mary Ann Dudley, Eva Jane Darby, Jean Connelly, Jean Ellen Chown, Lorena Brooks, Helen Blount, and Mrs. Raymond Winn, sponsor.

Re-elect Officers At The Baptist District Convention In Odessa

All officers were re-elected at the Baptist district convention held in Odessa, Thursday and Friday, and include Mrs. J. Strickland, president, Mrs. Frank Boyles, corresponding secretary and treasurer, Mrs. O. C. Speck, Lamesa, recording secretary.

The Friday morning program was devoted to the Woman's Missionary Union work and chairmen of each department reported on their work.

Among those attending the Friday meetings from here were Mrs. B. Reagan, Mrs. F. F. Gary, Mrs. R. C. Hatch, the Rev. and Mrs. J. J. Strickland, and the Rev. and Mrs. E. E. Mason.

Billie Jean O'Neal Celebrates Seventh Birthday Here

Billie Jean O'Neal, daughter of Mr. and Mrs. Bill O'Neal, celebrated her seventh birthday anniversary Saturday with a party in her home. Outdoor games provided diversion for the afternoon.

Miss Mardena and Miss Woodine Hill assisted in serving. The green and white color motif was carried out in decorations and refreshments.

CALENDAR Of Tomorrow's Meetings

Monday FIRST BAPTIST W.M.S. will meet in circles as follows: Mary Willis with Mrs. J. P. Dodge, 610 Gollad, at 3 o'clock; Eva Sanders with Mrs. M. M. Mancill, 300 Dixie, at 3:30 o'clock; Central at the church at 3 o'clock; Lucille Reagan at the church at 3 o'clock; Christine Coffee with Mrs. Thomas Roberts, 807 Ayford, at 3 o'clock; and May Belle Taylor with Mrs. T. B. Mallicoate, 1602 Johnson, at 3 o'clock.

FIRST METHODIST W.M.S. will meet at 3 o'clock in circles as follows: Young Women's circle, Mrs. J. O. Haynes, 404 Seurry; Circle One, Mrs. Loy Smith, 505 Bell; Circle Two, Mrs. H. G. Keaton, 4166 Dallas; Circle Three, Mrs. Pascal Buckner, 1201 Runnels; Circle Four, Mrs. C. B. Verner, 1017 Johnson.

EAST FOURTH BAPTIST W.M.U. will meet at 3 o'clock at the circles for a Royal Service missionary program.

FIRST PRESBYTERIAN AUXILIARY will meet at 3:15 o'clock for an inspirational meeting with Mrs. Emory Duff as program leader. Officers will be installed and Dr. D. F. McConnell will have charge of the meeting.

FIRST CHRISTIAN COUNCIL will meet at 3 o'clock at the church for a business meeting.

WESLEY MEMORIAL METHODIST W.M.U. will meet at 2:30 o'clock at the church for a mission study lesson.

ST. THOMAS CATHOLIC UNITS will meet as follows: St. Theresa at 7:30 o'clock with Mrs. W. E. Mc-Nallen, 501 Bell; St. Catherine at 2:30 o'clock with Mrs. W. D. Wilbanks, 1602 Gregg.

ST. MARY'S EPISCOPAL AUXILIARY, St. Mary's unit, will meet at 3 o'clock at the parish house with Mrs. E. V. Spence as program leader.

Mrs. Qualls Entertains Hum And Buzz Club FORSAN, Mar. 18 (Spl)—Mrs. Warren G. Qualls entertained the Hum and Buzz club Wednesday in her home and members spent the afternoon sewing.

Refreshments were served to Mrs. Hugh Graves, Mrs. Earl Lucas, Mrs. J. E. Calicoe, Mrs. Bob Qualls, and Mrs. L. C. Abston.

Sub-Debs Plan Barn Dance For March 25 At Country Club

Planning a barn dance for March 25 at the Country club and hearing a program on etiquette, the Sub-Debs club met Thursday in the home of Mary Jo Russell.

Officers reported and Betty Lee Eddy spoke on Emily Post's etiquette book. Joan James read an article from the sub-deb column.

Mary Nell Edwards, Billie Bass Shive and Sara Lamun were hostesses to the group.

Annabelle Edwards and Abbey Drew Kurley were rubees. A sweet course was served to those present. Janice Slaughter is to be hostess at the next meeting.

In an earlier meeting, Champe Phillips was hostess to the group in her home and Marie Dunham played a piano solo, "Deep Purple". Betty Lee Eddy and Janice Slaughter spoke on the problems concerning young girls. Rubess at this meeting were Carolyn Smith and Kathleen Boatman.

Attending both meetings were Sara Lamun, Janice Slaughter, etc.

Marie Dunham, Champe Phillips, Mary Nell Edwards, Billie Bass Shive, De Alva McAllister, Joan James, Mary Freeman, Mary Jo Russell, Joyce Croft, Betty Lee Eddy and Miss Lillian Shick, sponsor.

Moral: Go Easy On That Suntan Process For The First Few Days

AUSTIN, Mar. 18—Last Sunday all the girls in the house went out on the roof and got under the weather, which, incidentally, was very hot. We stayed out all afternoon playing bridge, studying and filling our finger nails, and chewing up juicy morsels of gossip which digested with the sun gave us a friendly baking.

Today it is an entirely different story—a sad story that pains me to think about. We discovered, much to our sorrow, that the sun was too friendly and took advantage of us. Yesterday we were lily white and comfortable; today we grimace at each other with cracked lips, peeling noses, and white eyebrows—from the chin on down we have become unrecognizable.

As I walked under my favorite tree today I noticed tiny leaves had proudly taken possession. I was surprised because this particular tree has been resisting the temptations of spring with a stubborn determination lacking in other trees.

Fairview HD Club Meets With Mrs. Cleatus Langley

Mrs. Cleatus Langley was hostess to the Fairview Home Demonstration club when it met Thursday in her home, Miss Alice Wooten and Mrs. J. W. Denton, with Miss Lora Farnsworth, home demonstration agent, were guests.

Roll call was answered with new recipes for chicken. Mrs. Willard Smith led the recreation hour and reported from the Council. Mrs. Wooten spoke on kitchen improvement and Mrs. W. H. Ward read a poem.

Miss Farnsworth spoke on diets and foods. Refreshments were served to Mrs. Ray Smith, Mrs. Jesse Henderson, Mrs. J. W. Wooten, Clara Harrell, Mrs. Willard Smith, Mrs. W. A. Langley, Mrs. W. H. Ward, Mrs. J. W. Denton, Gabra and J. G. Hammack, Mrs. J. L. Warren, Mrs. Cleatus Langley and the guests.

Mrs. Wooten is to be hostess at the next meeting.

Let's talk Price. FORD '60' COUPE \$584. Lowest delivered price for any car with more than four cylinders. You expect Ford prices to be low. They always have been—always will be. But it's what you get for what you pay that makes Ford prices so amazing.

The Sports Parade

By HANK HART

Red Roberts, the Wink hurling regular of the 1935 season, had designs to push the West Texas-New Mexico baseball league to eight clubs in event Pampa did not come through. He was going over to Sweetwater the latter part of the week to talk with club leaders of that city toward promoting the venture there. Sweetwater had turned a cold shoulder toward the deal earlier in the year when approached by Neal Babe and Jodie Tate, the national association campaigners. . . . Longue officials expect the city to be prepared by 1940, however, along with San Angelo and possibly Wichita Falls. . . . Harry Faulkner, Lubbock's business manager, who is in the Longview training camp along with the White Sox farm rookies, says Lubbock is going to have a better team this year than last. . . . The Hubs are going to find it difficult to replace Joe Godwin and Johnny Taylor, however. . . . Speaking of Joe, who is in spring training with the Chicago White Sox at Pasadena now, he expects to end up in the American Association but would settle for a good Class A job right now. . . . Over in Abilene, Fletcher Withers has signed Johnny Lamp, a Wheatfield, Ind., boy, to do the second basing chores for his Apaches in case Barney Barnhill doesn't sign his contract. . . . Lamp signed for Withers at Midland last season but was taken ill and had to retire. . . . Barnhill, remember, was the youngster Withers wanted to trade to Big Spring earlier in the year. . . .

Bill Collins, a WT-NM league vice president last year, has been elected president of the Midland club for the coming season. The Midland club will function much as did the local organization from June through September last year. . . . Incidentally, the Midland club will be outfitted in green colored uniforms with Navy blue button strip on the shirt trimmed with Cardinal military braid, Navy blue tunnel belt loops and double digit numerals with the lettering "Midland" in fancy style. . . . Withers' crew last year was decked out in Navy blue uniforms. . . . What is there to this than Jodie Tate and

Counted upon as a regular center for the McMurry college football team next fall is Gerald "Dopey" Anderson, a Big Spring boy. . . . Coach McElroy says Gerald's only handicap is lack of weight. . . . He performed at end while with Big Spring two seasons ago. . . . Another Big Spring boy, H. C. Burrow, probably had something with Frank Kimbrough's plans to employ an aerial game at Hardin-Simmons next season. . . . H. C. Burrow will become eligible for the Cowboy variety along with Woodrow Cook, a local high school back in 1936, in September. . . . H. C. is one of the greatest pass receivers to ever wear Big Spring's colors. . . .

Amateur Golf Team Named

DALLAS, Mar. 15 (AP)—Twelve amateur golfers today were selected to oppose professionals in the Texas cup matches June 4 at the Wichita Falls country club. They were Don Schumacher, Harry Todd, Howard Creel, David (Spec) Goldman, Reynolds Smith,

Jack Munger and O'Hara Watts, all of Dallas; Robert Riggs, Houston; Billy Bob Coffey, Fort Worth; Rufus King and Morris Norton, Wichita Falls, and Bill Clark, Gladewater.

Two of the 12 will be alternates while the ten team will be chosen by the captains, who is yet to be named. The selections were made by a special committee appointed by the Texas Professional Golfers' association. The ten low professionals in the 36-hole medal play at Wichita Falls June 1 and 2 will compose the professional team. Foursome matches will be played in the morning and singles in the afternoon. The professionals, who won last year at Tyler, hold a three to two lead over the amateurs in the series.

BAYLOR NINE LOSES
WACO, Mar. 15 (AP)—The Baylor Bears lost again today to the Grand Prize Brewers of Houston, 12-2.

19 RECORDS FALL AT FT. WORTH PLAN FOR TEXAS RELAYS APR. 1

LITTLEFIELD TO TAKE NO ACTIVE PART

AUSTIN, Mar. 15 (AP)—With Clyde Littlefield directing activities from his sickbed despite the frowns of his physicians, the University of Texas athletic department started concentrating this week on its biggest show of the year—the 12th Texas Relays, which will be run at Memorial Stadium April 1. Littlefield's recent near-fatal brush with pneumonia will keep him out of the thick relays history.

To replace the veteran track coach as head of the relays management has secured Col. Frank Anderson, of the Texas A. & M. physical education department. Although official entry blanks have been received from relatively few "big-time" schools, 10 days remains before the deadline. Littlefield lists among the sure bets Louisiana State, Drake, Kansas, Kansas State, Nebraska and Oklahoma A. & M.—not to mention Rice, Texas and other Southwest conference schools and North Texas Teachers and East Texas Teachers. Ralph Young, Michigan State coach, has written he will bring between six and 12 of his Spartans. Howard Payne's entry blank is in. Stephen F. Austin has filed its entry.

Texas high schools already entered included Bastrap, Beeville, Midland, Waco, Harlandale, John Reagan, Thomas Jefferson, Lockhart, Cameron, Boling, Mart, Brady, LaGrange, El Campo and Stockdale. Don Lash, world's record-holder in the two-mile, is booked for an exhibition 2,000-meter race.

CARDS TRIP YANKEES
ST. PETERSBURG, Fla., Mar. 15 (AP)—The St. Louis Cardinals pounded Bump Hadley for four runs in the first inning, then collected three more in the eighth off Joe Beggs to defeat the New York Yankees 7 to 6 today.

THREE HIT HOMERS
LOS ANGELES, Calif., Mar. 15 (AP)—The Chicago Cubs unlimbered their heavy bats today to blast out a 9-6 exhibition triumph over the Pittsburgh Pirates. Bue mound ace Jim Tobin and Russ Bauers were shelled for three circuit clouts by Joe Marty, Steve Meier and Phil Cavarretta.

RALLY TO WIN
SARASOTA, Fla., Mar. 15 (AP)—Jim Bagby held the hard-hitting Cincinnati Reds to one run in the five innings he pitched today as the Boston Red Sox came from behind to win 5 to 4.

ATHLETICS GO WILD
NEW ORLEANS, Mar. 15 (AP)—Four Cleveland pitchers tossed seven bases on balls, hit one batsman, made two wild pitches and allowed 14 hits today as the Indians lost to the Philadelphia Athletics, 15-13, in an exhibition.

Herd Grid Hopes Hinge On Bethell

Murphy To Have Well Balanced Forward Wall

Of the 48 boys working out under Coach Pat Murphy in the Big Spring high school football camp, ten will complete their high school eligibility at the termination of the 1936 season, 27 have two years of eligibility remaining, nine are sophomores while the other two can play four years.

Murphy revealed after a checkup Saturday that the average age of the squad as of Sept. 1, 1936 will be 16 years, that but three are 18, that seven are 17, twenty six 16, eight 15, three 14 and one 13.

The average weight of the entire squad at the present is 163.5 pounds. No lumbering giant like James Wisent, who last year tipped in at 235 pounds, is reporting but it is evident that Murphy will have a better balanced forward wall than when his pallid average tonnage was around 171 pounds.

Biggest candidates for a line berth is Winsler White, a 200 pound sophomore who was not eligible last season. White is a transfer from Odessa.

Best Bet White apparently is the best bet at a tackle position along with Winslet Nance, a 178-pounder, who lettered as a guard last season. McWade McDaniel and John Patton, sophomore and junior respectively, will probably see plenty of action.

Nance promises to be better than any of the performers last season while White may develop into a fine all-around boy.

Murphy's center of the line is well established. He has Paul Kaach, a 160-pound letterman at center. Flanking him will be Hal Bette, a 190 pound numeral wearer, and Horace Bostick, a fine prospect up from John Daniel's yearling squad. Bostick, now at 150 pounds, promises to beat out Bill Fletcher, another letterman who has been slow in coming around. Bill's 165 pounds may stand him in good stead.

The mentor is converting Skeets Davidson and Rus Woods, backs for the Yearlings last season, into wings. Davidson tips in at 190 pounds with Woods at 180 even. Bobby Savage and Jack Grab, both 155 pounders, may grab off the regular wing slots, however, while Lem Nations, a speedy 100-pounder, is a distinct possibility.

Should Go Places The Steer secondary has the necessary equipment to go places. Let-termen returning are Harold "Lefty" Bethell, the versatile 170 pound junior who earned all-district laurels last fall, Johnny Miller, 130 pounds, and D. R. Gartinman, who comes in at 154 pounds. Then there's Bobby Martin, quarterback to be, and Jake Anderson, who promises to surprise, along with Tablor Ross and Owen Brummett.

Upon Bethell hinges the Long-horns chances to go places. When he clicked last year the team clicked. He has all the abilities required of a great back—speed and weight—can pick and throw. He served as blocking fullback last year but has been switched to half by Murphy.

The squad will continue its spring work until the middle of April when a two weeks halt will be called for spring basketball drills.

Following is a check on the squad's weight, experience and remaining seasons of eligibility:

Name	Wt.	Yrs.	Ex.
Anderson	140	1	0
Lamun	130	4	F
Martin	126	1	S

GATEWOOD IS TWO EVENT WINNER

House Beaten By Sivley In Net Tournery

Gibbs Sacks Up Laurels In Sweetwater Invitation

SWEETWATER, Mar. 15—Upsetting Rufus Sivley, Abilene, in the second round, Billy Gibbs, Sweetwater, went on to sack up singles honors in Sweetwater high school's invitational tennis tournament here Saturday, defeating Charles Brownfield, Stamford, in the finals, 6-2, 6-4, 6-1.

Sweetwater also boasted the doubles' titlist, Jo-Jo Elrod and John Tubba, decisioning Abilene's representatives, Chuck Francis and R. C. Rogers in the finals, 6-2, 6-1, 6-1.

Marvin House, Jr., Big Spring, was eliminated in the first round of singles play by Sivley, 6-3, 6-1. Post, San Angelo, Sweetwater, Abilene, Roscoe, Stamford and Big Spring were represented.

A similar tournament will be staged in Abilene next Saturday.

McCasland Is Natl. Tyro Shoot Titlist

TAMPA, Fla., Mar. 15—F. McCasland, Big Spring, Tex., won the all-around tyro championship in the National Mid-Winter pistol shoot here Friday, gaining 2,215 of a possible 2,700 points.

McCasland, a highway patrolman with headquarters in Big Spring, has been competing in the tournaments at Coral Gables and Tampa for the past 10 days, along with J. P. Woody, Stanton, Tex., marksmen.

BS Bowlers To Abilene Today

To Compete in Keglers Tournament As Two Teams

Two teams of Big Spring bowlers will go to Abilene today where they will compete along with representatives of eight or 10 other West Texas towns in a bowling tournament at the Abilene alleys.

Stanley Wheeler, J. C. Loper, Harry and E. Hochlander, Ward Hall, Hiram Brimberry, Seth Lacy, J. O. Simpson, Ray Ramsey and D. Ausmus will make the trip.

Cash prizes will be awarded to the winners.

Detroit Shellacked

ORLANDO, Fla., Mar. 15 (AP)—Roberto Ortiz, 21-year-old right-handed pitcher from Cuba, helped the Washington Senators to a 4 to 3 victory over Detroit today.

Lamesa Officers Elected

Work On B'Spring Ball Park Begun

Work on the San Antonio and West Fifth streets baseball park got underway Friday with plans calling for the distribution of 125 yards of dirt on the infield, leveling of the outfield and strengthening of the bleachers and grandstand. Too, the concession stand is being moved opposite to its original location. A large booth has been provided for. A ticket booth for the bleachers, to be located on the north side is to be erected.

The official scorer's and radio booths have been moved, providing a total of 22 box seats.

Sale of the boxes and fence signs was progressing (this week under the supervision of T. J. A. Robinson and L. E. Morris. The signs will have to be rearranged since the center portion of the wall must be painted green under national association rules. The score board, now in center field, will be placed across the right field wall.

Club directors awaited the arrival of Tony Rego, newly appointed general manager, who was to arrive in Big Spring this week from his home in Tulsa where he has been completing a business deal. Rego has been working toward a playing agreement with a club of higher classification. In telephone conversation with R. L. Cook, club president, last week he said he already had four players under contract.

Most of the players on the Big Spring reserve list have already been signed to contract. Bobby Decker, all-star second sacker, is still out of the fold, however. Cook said the club could not meet his demands. Richard Hobson, Al Brendt, Johnny Soden, Frank Jacot, Pat Stacey and Clarence Trantham have signed contracts.

An organization similar to the one formed here last year has been established at Lamesa, according to Johnny Lane who talked with a Herald reporter Saturday. Seaburn Collins, president; Clark Peterson, vice president; and Lane, secretary-treasurer and business manager; were the officers named in the Friday night meeting of fans. Other club officers along with a field manager will be selected in a session of fans slated today.

Construction of the Lamesa park, scheduled to be built a block west of the location of the old park, was to get underway this week, Lane said. The old site will be used as a parking lot.

PSAA Title Is At Stake In Monday Tilt

COAHOMA NETTERS VICTORS

COURTNEY, Mar. 15 (AP)—The girls' basketball team of Courtney and Garner high schools will tangle here Monday evening in a game that will decide the champions in the Pioneer School Activities association standings.

Both teams were tied at the termination of the schedule and a playoff was necessitated. In the two games played to date each team has won a decision.

Coach Nolan Robnett returned with his Courtney team from Waco Friday where they competed in the state girls' tournament. They were eliminated by Gatesville in a first round game.

Garland Hannaford will serve as chief official.

PSAA Title Is At Stake In Monday Tilt

COAHOMA NETTERS VICTORS

COAHOMA, Mar. 15—Coahoma high school tennis representatives won five of eight matches in exhibitions with Stanton and R-Bas players here Friday afternoon.

Coahoma performers gained decisions in senior boys' singles, senior girls' doubles, senior boys' doubles and two matches in junior boys' doubles.

The R-Bas team was the winner in senior girls' doubles, junior boys' singles and junior girls' singles. The Stanton team did not record a victory.

Hezlie Read, Roy Collins, Lawrence Robinson, Harold Boswell, Herbert Lindley, L. B. Wheat, LeVelle Hayworth, Gaynelle Yardley, Miriam Prather and Kathleen Sullivan represented Coahoma.

In a special exhibition DeBerry, Stanton coach, won out over Evert Hill, Coahoma player, 6-3, 6-3.

GIANTS SHUT OUT GIANTS

BATON ROUGE, La., Mar. 15 (AP)—The New York Giants varsity pitching staff gave the Jersey City farmhands a lesson in major-league hurling today and won a 4 to 0 shutout on five hits.

PSAA Title Is At Stake In Monday Tilt

Coach Nolan Robnett returned with his Courtney team from Waco Friday where they competed in the state girls' tournament. They were eliminated by Gatesville in a first round game.

Garland Hannaford will serve as chief official.

GULDAHL TRIMMED IN FLA.

ST. AUGUSTINE, Fla., Mar. 15 (AP)—Marvin Stahl and Chick Harbert knocked off another favorite today and barged into the finals of the national amateur professional ball golf tournament.

The Lansing, Mich., pro and Battle Creek, Mich., amateur took the last big stride by whipping Ralph Gulda, the national open champion, and Morton Bright of Daytona Beach, Fla., 2 and 1.

The other finalists, Denny Shute of West Newton, Mass., and Bill Stark of Jacksonville, had a bigger margin of safety. They scored 4 and 3, over Jack Groust of Hershey, Pa., and Maynard Ramsey of Tampa, Fla.

Tomorrow's final, like the matches today, is over the 36-hole distance. A \$1,000 check awaits the pro member of the winning team and the losing money player can get a lot of consolation out of a \$500 prize.

Since they won the medal Wednesday with a 17-under par 127 for 36 holes, Stahl and Harbert have advanced steadily at the expense of favored opponents.

60 Years of Progress
Business Life Company increased its admitted assets more than 12,000,000 in 1935. Total admitted assets on December 31, 1935, were in excess of 122,000,000. The Company has increased its assets each year since its organization in 1875. This steady year by year increase is shown in the chart above. The heavy curved line, portraying the Company's admitted assets in millions of dollars, is superimposed on a graph showing ups and downs in general business since 1879, as indicated by industrial production.

ANNUAL REPORT 1935

Assets	Liabilities
U. S. Government Securities and Cash. \$ 4,011,065.15	Reserve on Outstanding Insurance as Reported by Law \$10,362,000.00
State, Municipal and Other Government Bonds 40,154,239.88	Other Liabilities under Insurance Co. 1,742,000.00
Public Utility Bonds 20,297,063.53	Trusts 10,792,000.00

LEGAL NOTICE

THE STATE OF TEXAS
To the Sheriff or any Constable of Howard County—Greeting:
You are hereby commanded to summon Glen Sexton by making publication of this Citation once in each week for four consecutive weeks previous to the return day hereof, in some newspaper published in your County, if there be a newspaper published therein, but if not, then in the nearest County where a newspaper is published, to appear at the next regular term of the District Court of Howard County, to be held at the Court House thereof, in Big Spring, on the third Monday in April A. D. 1936, the same being the 17th day of April A. D. 1936, then and there to answer a petition filed in said Court on the 17th day of March A. D. 1936, in suit numbered on the docket of said Court No. 3606, wherein Margaret Sexton is Plaintiff, and Glen Sexton is Defendant, and a brief statement of plaintiff's cause of action, being as follows: Plaintiff is and has been for more than twelve months prior to exhibiting her petition an actual bona fide inhabitant of the State of Texas and has resided in the County of Howard for six months next preceding the filing of this suit. Plaintiff is suing the Defendant for divorce alleging cruelty by reason of frequent intoxication and relations with other women, and requesting the custody of the minor child Allie Margaret Sexton, alleging that such conduct on the part of defendant was so cruel as to render her living with him unbearable and unsupportable and she therefore quit him January 1, 1935, with intentions of never living with him again.
Herein Plaintiff has but have before said Court at its next regular term, this writ with your return thereon, showing how you have executed the same.
Given under my hand and seal of said Court, at this office in Big Spring, Texas, on this 18th day of March, A. D. 1936.
HUGH DUBBERLY, Clerk District Court Howard County, Texas. (SEAL)

LEGAL NOTICE

IN THE UNITED STATES DISTRICT COURT IN AND FOR THE WESTERN DISTRICT OF TEXAS, WACO DIVISION
J. M. HUBBERT vs. TEMPLE TRUST COMPANY, NO. 236—IN EQUITY.
NOTICE IS HEREBY GIVEN that the undersigned has filed his application with the Clerk of the United States District Court in and for the Western District of Texas, Waco Division, for an order authorizing him to sell and convey to David S. Orr and wife, Myrtle Orr, all of Lot One (1) in Block One (1) of Edwards Heights Addition to the city of Big Spring, Howard County, Texas, together with all improvements thereon situated, and for a consideration of \$700.00, and of which amount \$700.00 will be paid in cash, and the balance, \$2000.00, to be evidenced by one note in said sum, to be executed by said purchaser, payable to the order of the undersigned at his office in the city of Temple, Bell County, Texas, and the principal and interest to accrue on said note being due and payable in 108 monthly installments of \$25.05 each, the first installment to be due and payable on or before May 1, 1936, and one each on or before the first day of each succeeding 107 months, to bear interest from April 1, 1936, at the rate of seven per cent per annum, the interest to become due and payable monthly, and each payment when made to be applied first to the accrued interest on said note, and the balance to the principal, and to provide that failure to pay any monthly installment of principal or interest thereon when due shall at the option of the holder hereof constitute a default for ten per cent additional as attorney's fees, and said note to be secured by a vendor's lien and deed of trust lien on the property and premises above described.
Said application will be heard by the Honorable Charles A. Boynton, Judge of said court, after this notice shall have been published or a period of ten days, and any person interested in said Receivership Estate may contest this application.
WITNESS my hand at Temple, Texas, this 17 day of March, A. D. 1936.
H. C. GLENN, as Receiver for Temple Trust Company, Temple, Texas.

Texas Expected To Win S'west Baseball Flag

A&M And Rice Institute Due To Be Strong; Others Given Little Chance

By HAROLD V. RATLEFF
Associated Press Staff

There have been times when Uncle Billy Ditch and his Texas Longhorns failed to win the Southwest Conference baseball championship but few critics were brave enough today to predict 1936 would be one of those rare occasions.

The six teams that make up the diamond race start the fireworks this week. From the amount of veteran material in some of the camps, it would seem Texas had its work cut out for it.

But thinking back over several decades when "favored" nines took the field against Texas only to see their hopes blasted out of the park by the Longhorns, who always are toughest when the chips are down, this correspondent won't join any of the timid voters for an upset.

Texas squares off against a hopeful Rice team Monday and Tuesday at Houston in the conference's opening games. Ditch will be seeking his twentieth championship, which means that any team ever able to take the Longhorns into camp had something to crow over.

Texas returns to the wars with nine lettermen, including such stars as Bobby Moore. Rice has six lettermen and a flock of promising new material. Reports indicate the Owls may be quite tough before the flag is raised—probably over the home of the Longhorns, as usual.

Baylor Meets Farmers
Thursday and Friday Baylor, lean on quantity but reported rather long on quality, tangles with Texas A. and M., which lost but one 1935 regular. This series will be at College Station, Friday and Saturday the other two teams swing into action with Texas Christian university, flaunting eight veterans and high hopes of finishing around the top, engaging the Southern Methodist Mustangs, who, unlike Baylor's Bears, seem long on quantity but short on quality. This series will be at Dallas.

Rice and Baylor finish out the week with a clash at Houston Saturday.

Texas will depend largely on a sophomore pitching staff but there's one letterman to help with the chores—Ned McDonald.

Baylor has only three lettermen but one of them is Tommie Fine, one of the best pitching prospects in years. Many pro teams have been bidding for his services ever since he starred in semi-pro ranks. S. M. U. has nine lettermen but Coach Roswell Higginbotham remains pessimistic regarding the Mustangs' chances. He lost J. C. Wofford, all-conference pitcher, and that's the chief cause of his gloom.

Coach Marty Karow of the Aggies has expressed pleasure at the way his team is shaping up despite early season losses against semi-pro and pro outfits.

Howard Grubbs, one of the leading gloom chasers of the conference, has admitted he may have a "pretty fair team" at T. C. U. When Coach Grubbs says that much the critics usually figure his outfit strong enough.

SUMMARY OF SOUTHWESTERN EXPOSITION TRACK MEET

FORT WORTH, Mar. 18 (AP)—Finals in Southwestern Exposition track and field meet:

College division:
800-yard run—Won by Elaine Rideout, North Texas State; second, Sahling, North Texas State; third, Felly, East Texas State; fourth, Cordell, Oklahoma Baptist. Time—4 minutes 14.2 seconds. (New meet record.)
Junior college division:
Mile run—Won by B. Reams, Cameron Aggies; second, Duckworth, Paris. Time—17 minutes 45 seconds.
High school division:
Mile run—Won by Perry, Tulsa; second, Schrimp, Highland Park, Dallas; third, Lewallen, Brady; fourth, Dymke, Rockdale. Time—14 minutes 37.7 seconds (new division record).
University division:
Pole vault—Won by Bryan, Texas, 12 feet 9 inches; second, Dunivant, Texas Christian, 12 feet; third, Dreiss, Texas Aggies, 10 feet 6 inches. Only three qualified.
College division:
440-yard dash—Won by Todd, Stephen F. Austin; second, Cook, East Texas State; third, Wilson, Howard Payne; fourth, Barbee, Howard Payne. Time—51 seconds.
University division:
440-yard dash—Won by Moser, Texas Aggies; second, Dial, Oklahoma Aggies; third, Siebert, Texas; fourth, McLean, Texas Aggies. Time—50 seconds. (Division record).
High jump—Won by Davidson, Texas; Walters, Baylor and Creasey, Baylor, 6 feet 1 inch; fourth, Rowe, Texas, and Dreiss, Texas Aggies, 5 feet 10 inches.
Discus throw—Won by Hughes, Texas, 153 feet; second, Schroeder, Texas Aggies, 135 feet 1 inch; third, Eunas, Texas, 134 feet 6 inches; fourth, Faubian, Texas Aggies, 133 feet, 1 inch. (New meet record).
High School Division
440-yard dash—Won by Calley, Brady; second, Williams, Hugo, Okla.; third, Means, Weatherford; fourth, Forrester, Duke, Okla. Time—50.5 seconds. (Division record).
University division—220-yard dash—Won by Burrus, Oklahoma Aggies; second, Cecil, Texas Aggies; third, Morris, Texas; fourth, Stewart, Texas. Time—22.1 seconds.
College division:
220-yard dash—Won by Witcher, East Texas State; second, Watson, Oklahoma Baptist; third, Hicks, North Texas State; fourth, Boedeker, Howard Payne. Time—22.2 seconds.
University division:
Broad jump—Won by Atchison, Texas, 22 feet 9 1/2 inches; second, Clapham, Oklahoma Aggies, 22 feet 8 1/2 inches; third, Cecil, Texas Aggies, 21 feet 9 inches; fourth, Toddy, Texas Aggies, 21 feet 8 inches.
High school division:
220-yard dash—Won by Cooley, Kaufman; second, Tyler, Claude; third, Fry, Arlington Heights, Fort Worth; fourth, Williams, Hugo, Okla. Time—22.5 seconds.
College division:
220-yard low hurdles—Won by Everett, North Texas State; second, Owens, Howard Payne; third, Haase, Southwest Texas; fourth, Boardland, East Texas State. Time—25.2 seconds.
University division:
220-yard low hurdles—Won by Dreiss, Texas Aggies; second, O'Dell, Oklahoma Aggies; third, Metcalf, Oklahoma Aggies; fourth, Pack, Texas. Time—24.9 seconds.
High school division:
High jump—Won by Cox, Texas, 5 feet 8 inches; second, Watkins, Iowa Park, 5 feet 11 inches; third, Nichols, Capital Hill of Oklahoma City, 5 feet 10 inches; fourth, Shepherd, Kilgore, 5 feet 9 inches.
220-yard low hurdles—Won by

Inches for East Texas Teachers in the college division.

Division records chalked up include:

University division:—440-yard dash: Jackson, North Texas, 50.5 seconds; 220-yard dash, Rogers, North Texas, 21.5 seconds; 750-yard low hurdles, Munn, Oklahoma Aggies, 26.7 seconds; 880-yard run, Milner, North Texas, 2 minutes, 2.6 seconds; high jump, Boydston, Oklahoma Aggies, and Baggett, Texas, 6 feet 2 5/8 inches; shot put, Wilson, Baylor, 44 feet, 6 5/8 inches and mile relay, North Texas, 3:26.6.

High school division:—120-yard high hurdles: Nichols, Capital Hill (Oklahoma City), 15.3; mile run, Perry, Tulsa, 4 minutes, 37.7 seconds; 440-yard dash, Calley, Brady, 50.5 seconds.

Chasing the first place team winners were:

College division—East Texas State Teachers, 23 5/4 points; Howard Payne, 20 3/4; Southwest Texas State Teachers 13 3/4; Oklahoma Baptist, 10; Stephen F. Austin, 7; Abilene Christian, 1. Junior college—Connors (Okla.) Aggies, 25 points; Cameron (Okla.) Aggies, 23; Schreiner, 18; Kilgore, 13; North Texas Aggies, 8; Westminster, Murray (Okla.) Aggies, and Paris, 3; Decatur Baptist, 2. Preparatory and academy—Texas, 33 1/2; Oklahoma A. & M., 21 1/2; Baylor, 7; Tulsa, 6; East Texas State, 4.

High school—Kaufman and Texarkana, 10 points; Tulsa and Rockdale, 9; Capital Hill, Oklahoma City, 8; Adamson, Dallas, and Thibodaux, 7; Hugo, Okla., 6; Gaston, 5; Waurika, Okla., Claude, Woodward Wilson (Dallas), and Richardson, 4.

Meet officials declared the tourney the finest in the 17-year-old history of the show, one of the biggest in the southwest. More than a thousand athletes from Oklahoma and Texas worked under a warm sun, but officials kept events moving swiftly, and the job of running off 12 final events in five divisions within the span of an afternoon was achieved in four hours.

WINS ACQUITTAL

BELTON, Mar. 18 (AP)—L. E. Trimble, charged with slaying Wiley Tomlinson near Menard five years ago, was acquitted by a jury here today which received the case at 5:30 p. m. Thursday.

LION CANDIDATE

A. G. Beardon, manager of the Lamesa chamber of commerce, is being sponsored by the Lamesa Lions club as a candidate for the post of governor of Lions district 2-T. Lamesa Lions are rallying clubs in this area to his support and will push for his election at the El Paso district convention next month.

W. L. Burns Baby Is Pneumonia Victim

Funeral services will be held at 3 o'clock this afternoon at the Nailey Funeral chapel for Thelma Gene Burns, eight-months-old daughter of Mr. and Mrs. W. L. Burns who died at the family residence, 507 Donnelly street, Saturday.

The baby, a victim of pneumonia, was ill only a few days.

Melvin J. Wise, minister of the Church of Christ, will conduct the service and burial will be in a local cemetery.

Surviving, besides the parents, are three sisters, Betty Jo, 9; Ruby Nell, 4; and Beulah Louise, 3; the maternal grandparents, Mr. and Mrs. J. M. Smith of Portales, and the paternal grandfather, J. L. Burns of Lamesa.

OFFICERS ELECTED BY TEACHER GROUP

ALPINE, Mar. 18 (AP)—Officers were elected here today at the final session of the three-day meeting of the sixth annual Trans-Pecos division of Texas State Teachers association.

Officers elected included: J. F. Reeves, Fort Stockton, president; Taylor Rushing, Odessa, vice president; M. F. Glover, Alpine, secretary, and E. A. Lang, El Paso, treasurer.

Named to the state executive committee were Clifford B. Casey, Sul Ross; Mrs. Virginia Link, El Paso, and J. T. H. Bickley, Iraan.

Next year's meeting was awarded El Paso.

LOCAL GROUP TO IOOF MEETING

T. J. McKinney of Center Point left Saturday night for Fort Worth where he will attend state meeting of the L.O.O.F. lodge. He will be accompanied by Mr. and Mrs. Ando Henderson of Coahoma and Bill Mays, representative of Mullin Lodge No. 372, Big Spring. Perry Holmes, also of Big Spring, will attend. Following the lodge meeting, Mr. McKinney will continue to Dallas, where he will visit in the home of his sister-in-law, Mrs. Magge McKinney. He will also visit in Ennis, Corsicana and points in Collin county before returning to Big Spring about the middle of April.

E. L. Digby Is Death Victim

An illness of 10 days duration ended fatally Saturday at 6:30 p. m. for E. L. Digby, 46, who resided at 1109 W. 3rd street.

Digby, born in Carbon, Tex., in February, 1893, had made his home in Big Spring for the past 23 years.

Services were set for 4 p. m. at the Nalley chapel with Rev. Homer Sheals, pastor of the Assembly of God church, in charge.

Surviving are the widow, Mrs. E. L. Digby, and six children, Mrs. Irene Myrick, Mrs. Randall Patterson, Elliott, Ollie, Nollie and Eddie Lath Digby of Big Spring; four brothers, Earl, Bob, Atlas and John Digby of Big Spring; four sisters, Mrs. Arthur Rice, Mrs. J. E. Hughes and Mrs. W. E. Harper of

Propaganda

(Continued from Page 1)

Bratislava were bringing their activities to a finish. Tiso was displaced by Karl Sidor as premier on accusations of encouraging separatist agitation. But Tiso remained the white hope of the Germans.

Ferdinand Durcansky, ousted by Prague from a cabinet post along with Tiso, was given use of a Vienna radio station to attack the Sidor government. Slovakia declared her independence of Prague. Carpatho-Ukraine, third part of the federal state, tried to follow suit.

At this propitious moment, Kundt again stepped forth, borrowing a page from the story of Sudetenland.

First rumors, then reports and finally flat assertions accused the Czechs of "terrorism" against Germans. Casualties were said to be mounting and Hitler, "protector of all Germans," was "forced" to intervene.

Hitler

(Continued from Page 5)

hemis-Moravia and ironing out relations with Slovakia, Germany's new protectorate.

The fuesher was expected to make a triumphal entry into Berlin at 7:30 p. m. (12:30 p. m. CST) Sunday.

He named Baron Konstantin von Neurath, former German foreign minister and president of the secret cabinet council, as reichs-protektor of Bohemia-Moravia. Von Neurath, responsible only to the fuesher, will have supreme power over 7,000,000 Czechs who have become German subjects.

Meanwhile, Rumania feared for her fertile wheat fields and oil wells, alarm was reported in Lithuania, concern was shown in Poland, suspicion grew of a coup d'etat in Danzig and the possibility was mentioned of German aggression against Hungary.

Heimuth Wohltat, adviser to Field Marshal Hermann Wilhelm Goering, Nazi economic dictator, was in Bucharest, apparently attempting to tighten Germany's economic sway in southeastern Europe.

A government spokesman, however, described as "nonsense" reports that Rumania and Hungary were slated to follow Czechoslovakia in Hitler's book of conquests.

(A spokesman for the Rumanian embassy in London said his government had received and rejected a German proposal that Rumania accept virtual German dictation over her economics in return for Nazi guarantees of Rumanian territorial integrity.)

A German spokesman denied there had been any ultimatum to Rumania.

Annie Laurie Griffin, student in Texas Tech, is visiting with her parents, Mr. and Mrs. O. P. Griffin, here during the weekend.

Pension-Tax Battle To Be Resumed By Solons Monday

Decision May Come Soon, But It Will Not Necessarily Be A Final One

AUSTIN, Mar. 18 (AP)—Cannonading will roar again Monday in the pension-tax battle in the Texas house of representatives. All indications are that a decision, not necessarily final, will come soon.

While the legislature was in recess over the weekend, a tremendous amount of work was being done in efforts to win recruits for opposing forces.

The situation was this: Tuesday, Wednesday and Thursday the house fiercely debated a proposed constitutional amendment which would authorize financing liberalized old age pensions by a combination sales-natural resource-utility bills tax.

The chief disputes were whether an income tax should be substituted for the sales tax and whether natural resources levies in the constitutional resolution as it came from a drafting committee should be increased.

First, the house voted by a narrow margin for the income tax substitution, then overnight reversed the action by overwhelming majority. Next it refused to kill the amendment, declared for a higher levy on natural gas and was considering oil and sulphur taxes at adjournment.

There was little argument over the pension part of the resolution, which would follow recommendations of Gov. W. Lee O'Daniel for guaranteeing \$30 a month income to all over 65 who do not have such income.

A senate committee reported a constitutional resolution featuring a two per cent sales tax and taxes on a wide variety of services, but making no changes in the present pension administration system.

The outstanding question was whether the constitutional amendment in the house could muster 100 votes, the required two-thirds majority. Observers generally agreed the issue would be close.

In the debate, here are the principle arguments heard:

For the amendment—

1. Putting the pension tax plan in the constitution would take pensions out of politics and squelch demagogic politicians.

2. The amendment would meet the laudable goal last summer in the campaigns of Governor O'Daniel and many members of the legislature.

3. Every citizen should support the social security program, and the sales tax is the best way to make support general.

4. Old folks will not object to participating in this support by the medium of a sales tax; they do not want to be considered paupers.

5. A sales tax will make the people tax conscious, and if this is not done the state will be wrecked.

6. A sales tax is the only way to curb widespread sentiment for government money to satisfy pension and other social desires.

7. An income tax would not raise needed money.

8. An income tax would defeat all pension legislation.

9. The federal government already is milking the country dry on an income tax.

10. The amendment is an attempt to relieve poverty; it is not a levy on poverty.

Against the amendment—

1. A sales tax is a levy on the poor.

2. The sales tax proposed in the amendment would be, in actual effect, greater than the specified two and one-half per cent.

3. Governor O'Daniel is against a sales tax.

4. An income tax is fairer than a sales tax because it levies chiefly on the top economic stratum and is based on ability to pay; a sales tax bears heaviest on people who spend all they have on comparatively small, retail purchases.

5. Natural resources could stand the entire burden and not miss the money; other states tax natural resources much more than Texas.

6. Every special interest in Texas is supporting the amendment.

7. Taxes should not be written into the constitution, but the legislature should have the courage and ability to draft a tax program; submission on an amendment is "passing the buck."

Hike Tariff

(Continued from Page 1)

no assistance in obtaining possession of the legation.

Hurban said he would not turn over the legation until the Czech-Slovak National assembly approved the merger with Germany.

Since the national assembly no longer exists, it appears the doughty Czechs may continue to hold on for some years.

Germany's only recourse would be to sue before the United States supreme court.

At the state department, Sumner Welles, acting secretary, said the United States was preparing an answer to Germany's formal notification of the developments in central Europe.

Welles said the exchange of notes probably would be made public early next week. A decision likely will be announced then as to the status of Wilbur J. Carr, the American minister to Prague.

The Week

(Continued from Page 5)

these firms assist in Sunday trade not specifically authorized.

Last week Eloise Haley's high school debaters appeared before a service club and debated the sales tax question. If other clubs are interested in learning about a valuable school activity—debating—and lots more than they know about the sales tax, they will do well to invite Miss Haley and her debaters for an appearance.

The City of Big Spring was \$6,000 under its budget appropriation at the end of the 11th month, and likely will under-run for the year. Which reminds us that now ought to be the time to draft the proposed budget. The city usually is one or two months into the new year before a new budget is ever completed and approved.

Commissioners court took under advisement the matter of appointing a child welfare board. Our guess is that the court will not see fit to name such a board until some funds for that type of work are in sight. They certainly are not in sight just at the moment.

Last week Ira Yates gave \$15,000 for a Salvation Army canteen in San Angelo. It will be remembered that Mrs. Dora Roberts gave \$5,000 and Mrs. Holmes gave another \$500 toward such a building here. Since then the matter has dragged. It should be revived.

Herschel Summerlin, Midway school head, had a good article on school buses last week. The time is coming and ought to come when buses will be brought into more prominent use through the consolidation of districts and ultimately into the reorganization of the entire school set-up of town and county. That time will mean fairer educational opportunities to every child in the county.

Ted Grobel was one who took the stand, to assert that a 30-minute delay each afternoon was probable with truck service, and that his business wanted more prompt service. T. B. Currie, active vice president of the State National bank, said he considered the trains a convenience to the public.

Other Witnesses

Others who testified along similar lines were Hall, who also is a bank official at Lorraine, and said his institution was concerned about regular service on money shipments; Lee Carter, Colorado furniture man, who said he used the trains occasionally as a passenger and felt that other Coloradans joined him in wanting the service continued; Bob Fee, lumber-hardware dealer of Colorado, and Spence.

Some discussion was heard during the day on maintenance of the trains, and Steadham took the stand to assert that today's east-bound No. 4 was not air conditioned. Pistole replied that the car usually used as an air conditioned one was temporarily out of service, and that conditioning was used regularly in accordance with weather conditions. The railroad men also gave assurance of making every effort to retain business through advertising and personal representation.

Testimony of the three railroad men also followed similar lines, each discussing the loss in revenue. Their statements were backed up with comprehensive records of passengers hauled, revenues from all sources, train expenses, expenses per mile, etc. Jensen told the examiner the two trains' revenues each week this year had been below the corresponding period last year, and Pistole testified similarly as to declining traffic. He also explained in detail the substitute service proposed through use of truck—the Texas & Pacific Motor Transport company, an affiliated corporation which already operates in the freight field.

More detail on the cost-breakdown was given by Reyburn, whose figures showed that the two trains lost \$23,430 last year, the east-bound run \$10,166, the west-bound \$13,264. He also showed that some three-fourths of this loss—which did not include the train's share on taxes, administrative and maintenance costs and the like—occurred between Big Spring and Sweetwater, which segment is only about one-fourth the total mileage. Questioned closely and at length on his basis of this figuring, the accountant produced breakdown figures showing numbers of passengers arriving and departing from all stations on the line. The trainmen's lawyers queried him on the basis of showing that actual train operation expense between Sweetwater and Big Spring was small enough, in comparison, to justify the continued operation.

Pistole's testimony also dealt with plans for stopping other trains at the smaller towns which now are served only by 3 or 4. He admitted, however, that "flagging" would be necessary in some instances.

Rotary Chief Here To Talk Convention

(Continued from Page 5)

To confer with local committees on plans for the annual district Rotary conference, to be held in Big Spring May 7-9, the district governor, Linton H. Estes of Wichita Falls will arrive here Monday. He possibly will remain through Tuesday, the local club's regular luncheon day.

Committees, under general direction of Elmo Wasson, have been at work for some time on arrangements for the convention.

Location, dates and chairmen for the meetings follow: Lomax, March 21, A. J. Stallings; Garner, March 22, W. T. Bly; Vincent, March 23, Willis Winters; Coahoma, March 24, C. T. DeVaney; Moore, March 27, Dale Hart; Vealmoor, March 28, M. L. Hamlin; Elbow, March 29, J. O. Rosser; Gay Hill, March 30, M. L. Hamlin; Center Point, March 31, H. C. Reid; Morgan, April 3, H. C. Reid; and Big Spring, April 4, L. H. Thomas, W. D. Lipscomb will be the county committee representative at Elbow and Lomax. H. T. Hale will be at Morgan, Coahoma and Vincent. H. C. Reid at Center Point, and L. H. Thomas at Garner, Moore, Vealmoor, and Gay Hill.

H. R. ARRANT

ments for the convales, and indications are that it will be one of the district's best. Estes plans to confer with all committee chairmen while here.

While convention plans go forward here, word has come that Abilene has placed in nomination for the governorship, as successor to Estes, H. R. Arrant, professor of chemistry at Hardin-Simmons university.

Arrant has been an H-SU faculty member for 14 years, and city chemist eight years. He was president of the Abilene Rotary club in 1936, and has served on the board of directors.

The 127th Rotary district, extending from Arlington on the east to Odessa on the west, and north to the Oklahoma line, includes 51 clubs.

New Series Of Farm Parleys Scheduled

(Continued from Page 5)

Monday at 8 p. m. in the Lomax school the first of a new series of farm meetings concerning allotments, payments, classification of crops and food production.

The series continues in 10 other communities through April 4. County and community committees will be in charge at the various sessions.

Bulletins containing information on the subjects to be discussed will be distributed at the community parleys, said L. H. Thomas, chairman of the county committee.

Location, dates and chairmen for the meetings follow: Lomax, March 21, A. J. Stallings; Garner, March 22, W. T. Bly; Vincent, March 23, Willis Winters; Coahoma, March 24, C. T. DeVaney; Moore, March 27, Dale Hart; Vealmoor, March 28, M. L. Hamlin; Elbow, March 29, J. O. Rosser; Gay Hill, March 30, M. L. Hamlin; Center Point, March 31, H. C. Reid; Morgan, April 3, H. C. Reid; and Big Spring, April 4, L. H. Thomas, W. D. Lipscomb will be the county committee representative at Elbow and Lomax. H. T. Hale will be at Morgan, Coahoma and Vincent. H. C. Reid at Center Point, and L. H. Thomas at Garner, Moore, Vealmoor, and Gay Hill.

SERVICE MAN HERE

Granville Routh, field representative of the state service office will be here Thursday and Friday to assist those interested in service matters to make claims. He likely will be at the chamber of commerce office.

40 AND 8 TO MEET

A special meeting of the 40 and 8, American Legion unit, has been called for Monday evening at 8 o'clock. J. F. Laney, member of the organization, urged its members to participate in the session.

Mr. and Mrs. B. L. Bailey and sons, Bubba and Billie, of El Paso are visiting with her parents, Mr. and Mrs. J. B. Pickle.

Mr. and Mrs. Gene Wilson returned Saturday from Temple, and other Central Texas points, where they have been visiting relatives.

Would You Buy a Car Blind-Folded?

PROBABLY NOT! because buying a car is serious business. You want to see with your own eyes the condition of the motor, the tires, the finish. You want to be certain that you're getting a bona fide value. You want to be SURE before you buy. But you cannot be sure when you don't buy your car from a reliable dealer. Even though your eyes are open, you are still buying blind-folded. We want you to get full value from your money. Our cars have all been reconditioned and thoroughly tested. They are sold with a 30-day 50-50 written guarantee. Here, your confidence counts most!

To Our Friends

-In-

Big Spring and West Texas

We take this opportunity to thank the thousands of people in Big Spring and West Texas who called to show their appreciation of our new SUPER DRUG STORE.

Too, we thank our many business friends for the flowers and telegrams of congratulations sent on Formal Opening day.

This complete remodeling program just finished is in line with our policy to offer the public the very best in everything carried by a SUPER DRUG STORE at all times . . . We strive daily to make it easier to shop and to better our service in every respect. To those of you who visited us over the week end . . . to the many who complimented us on the general layout of our new SUPER store (may we suggest that you think of it as your store?), we thank you sincerely.

A New House Was Built TO GIVE HIM A REAL HOME

A man walked into our bank one day and said, "I want to build a home of my own. I have a wife and two of the finest kids and I want a real home for her and my youngsters. Can I afford to build a home?"

We showed him how easy it was to build a home—how the rent money he was now paying was enough to cover the easy monthly payments . . . and before the day was over, plans had been started for a new house to be built. We have helped many like that; come in, maybe we can help you to own your own home.

Denver Field Widened In 2 Directions

Production Shown In Wells In Garza And Scurry

SAN ANGELO, Mar. 15 — The east side of the Denver field in Yoakum county was extended 1.3 miles north this week by Texas Pacific No. 1 A. M. Brownfield, a half mile west extension of the same pool was effected by Oage Drilling Co. No. 1 Miller and Sinclair-Prairie No. 1 Fay Holt indicated a three-quarter mile west extension to the north end of the North Cowden field in Ector county.

Gulf No. 25 Waddell in the Henderson-Waddell pool in northern Crane county became one of the largest natural producers in West Texas outside the Yates field in Pecos county, rating 15,586 barrels daily. A record potential for the most northerly producing counties in the West Texas Permian Basin, 2,048 barrels daily, was established by S. W. Richardson's No. 1 Miss A. E. Coe, one-mile northeast extension to the Slaughter field in Hockley county.

In Garza County Gulf was credited with reviving flowing production from the lower Pennsylvania in its No. 1-B Swanson, northeastern producing section from 7,375 to 7,400 feet, plugged back depth, through casing perforations. The well was reported to have flowed 125 barrels of oil and 40 barrels of salt water in 24 hours. Its first flow, short-lived, was early last December. Location is in the center of the north-west quarter of section 25-2-H&G-N.

Paul C. Toss No. 1 W. P. Thompson, one-mile northwest outcrop to the southwestern Scurry county pool opened by Coffield & Guthrie's No. 1 Spears, was estimated good for 15 barrels of oil daily at 2,460 feet in lime. It was scheduled to shoot. Location is in the northwest quarter of section 129-97-H&T-C.

Yarborough & Wheeler No. 1 Bishop, in the southwest corner of the northeast quarter of section 140-97-H&T-C, bled dry in 24 hours, yielding four barrels of oil, at 2,509 feet in lime and shutdown for orders. It is 1.2 miles northeast of production.

127 Barrels in 24 Hours Texas Pacific No. 1 Brownfield, Denver extension well in Yoakum county, swabbed and flowed 27 barrels of oil in 24 hours on a natural test through tubing, bottomed at 5,151 feet, and was to be shot. It is 2,200 feet from the north, 440 feet from the east line of section 802-D-John H. Gibson, Oage No. 1 Miller, in the northeast corner of section 888, half mile west of Denver production, would not flow after treatment with 9,000 gallons of acid, but appeared a producer. It was bottomed at 5,106 feet.

Shell No. 1 Ruyts, one-mile southeast extension to the Bennett pool, was completed at a plugged back depth of 5,229 feet with daily potential of 161 barrels of oil plus 19 per cent water. It is 990 feet from the north, 330 feet from the west line of section 742. Shell No. 1 Waples-Platter, 1.34 miles northeast of the Bennett pool, was moving in cable tools to drill ahead at 5,000 feet.

In Cochran County T. G. Shaw No. 1 C. S. Dean in eastern Cochran county, 1.34 miles northwest of the Dean pool and in the southwest part of league 84, Mills county school land, headed 82 barrels of oil, with three to four per cent basic sediment, the first 24 hours after installing a flow packer. During the next 48 hours it headed 72 barrels of oil with only one per cent basic sediment. Devenian staked No. 2-B-19 Duggan 580 feet out of the southwest corner of labor 19, league 55, Oldham county school land, half mile southeast of the Duggan pool.

S. W. Richardson started No. 1 Sun-Denton in Hockley county three-quarters of a mile north and slightly west of his record producer, No. 1 Coe, and 1,320 feet from the south and west lines of labor 41, league 40, Maverick county school land. The Sun Oil Co. armout provides continuous drilling until four wells have been completed.

Oage and Everest No. 1 Dr. E. H. Jones, northwestern Gaines county wildcat 1,980 feet from the north and west lines of section 20-A7-pd, spudded with rotary and the fourth day was drilling at 1,900 feet in redbeds.

59 SHIP INSPECTION OFFICE PLANNED FOR PT. ARTHUR
WASHINGTON, Mar. 15 (AP)—The communications commission announced today it would open a ship inspection office at Port Arthur, Texas, next week, to facilitate the inspection of vessels operating in the Sabine district.

The inspector in charge will be William J. Hoffer, Supervision of the office will be under L. L. McCabe, Galveston, Texas.

Shackelford Gets Large Producer

Ivy Pool Extended Quarter Mile By New Completion

ABILENE, Mar. 15 — Quarter-mile northwest extension to the Palo Pinto producing Ivy pool by one of the largest producers in Shackelford county's history, the Owens-Stonbold Oil corporation of Fort Worth and associates' No. 1 J. S. McKeever, was the outstanding feature of West Central Texas development this week.

Difficulty was experienced in running tubing on the well this week, after tanks had been erected for taking initial tests, but it was expected to go on railroad commission potential gauge this weekend. High pressure from an estimated five to nine million cubic feet of gas necessitated use of special equipment for running tubing and completion. Owners have estimated its natural flow as high as 150 to 250 barrels hourly, although no actual gauge has been taken.

Four Miles From Avoca The No. 1 McKeever, first out-post drilled on the northwest side of the two-year old pool, is producing from lime which showed oil and gas from 3,145 to 3,187 feet, the last two feet of which was soft and highly porous.

Located 300 feet out of the southeast corner of the west half of the northeast quarter of section 155-BBB&C survey, the well is about four miles east of the prolific Jones county original Avoca field, little more than a mile inside the Shackelford county line. Offsets are owned by Fortson & Polk of Fort Worth and the Texas company. In the Avoca townsite (Griffin) pool of northeast Jones, Lewis Production company staked location for an east out-post, No. 1 G. G. Muenler, 330 feet out of the northwest corner of the southeast quarter of section 190-BBB&C survey. A south out-post, Falls Refining company and D. Humphrey

cored oil some from 2,325-76 feet and cemented a string of casing for completion. It is also in section 190-BBB&C.

Gregg Oil company No. 1 E. D. Appling, northwestern Jones county pool opener five miles southwest of Stamford, established a railroad commission potential gauge of 812 barrels daily by flowing tubing from natural sand at 2,625-28 feet, total depth.

The well is the first producer for that part of Jones county and is located in the southwest quarter of section 22-BBB&C survey, more than a quarter mile northwest of two previous tests on the Appling farm which had been drilled by Grisham-Hunter corporation of Abilene.

Second producer and northwest extension for the only pool in Stonevally county, W. I. Southern Inc. of Tulsa, Okla., No. 2 H. T. Carlie established a railroad commission potential flowing 245 barrels of oil in 24 hours natural from Palo Pinto lime pay at 5,347-55 feet, total depth.

COMPLETION IS RECORDED IN SOUTH FIELD

Test In Snyder Pool Given 800-Quart Shot; Martin Wildcat Abandoned

One well was completed in the Howard-Glasscock field and another was subjected to an 800-quart shot in the Snyder area to highlight all activity in this territory last week.

F. W. Merrick, Inc., No. 6-D Chalk, section 95-24, W&NW, pumped 63.40 barrels of oil the second hour of a potential test for a daily rating of 1,521.00 barrels. The test is bottomed at 2,944 feet in brown lime. It is in the Chalk extension area.

Shell No. 3 Snyder, 1,850 feet from the north and 2,310 feet from the west lines of section 28-30-1a, T&P, was shot with 800 quarts from 2,885-2,886 feet. It bridged following the shot and was being cleaned out.

Martin county's sole oil test was plugged during the week when the T. G. Shaw, Trustee No. 1 H. H. Wilkinson, section 35-A, B&C, was abandoned at 3,780 feet with no shows. In western Howard county, the T. G. Shaw, Trustee No. 1-B H. H. Wilkinson, logged three barrels of sulphur water hourly from 3,465-3,468 feet in lime. However, it was ordered to drill ahead and may be sunk an additional 1,000 feet. The test experienced three quarts of free oil hourly from a saturated lime stratum from 3,238-3,244 feet. Location is in section 19-34-1a, T&P.

Shut Down
In the northwest corner of Howard county the Steve Owens No. 1 G. G. Wright, 990 feet from the south and east lines of section 33-33-3n, T&P, remained shut down after drilling plugs from five-inch string at 1,990 feet. Water appeared to be coming in from behind the casing, forestalling efforts to test brown lime from 4,042 to 4,117 feet. Continental No. 1 Munger, Borden county wildcat test nine miles south of Gall, drilled below 2,730 feet in hard lime. Location is 440 feet from the south and west lines of section 38-31-4n, T&P.

Three-quarters of a mile northeast of the small Dodson-Duffy No. 1 J. G. Carter discovery well in north central Glasscock county, the B. A. Duffy No. 1 Shell-Carter shifted to standard tools at 1,840 feet. Location is 1,980 feet from the north and east lines of section 8-33-3a, T&P.

Test Acidized
Continental No. 14-A Clay, section 138-39, W&NW, Howard county, acidized and was preparing to test pay at 2,521 feet. Continental No. 1-A Chalk, a despending test, was ready to run pipe at 2,650 feet. Continental staked location in section 135-29, W&NW, to be known as its No. 5-3-A Settles.

Built for ACTION-PRICED the same way!

The model illustrated is the Buick SPECIAL model 41 four-door touring sedan \$990 delivered at Flint, Mich.

FIRST time we saw the blueprints for this Buick thirty-niner we knew we had something pretty special for folks who like action in their travels.

It had eight eager cylinders in a mighty Dynafash engine—and they could make a scared jack rabbit eat dust whenever the word was given!

It had a ride we promptly dubbed "full float"—its stout coiled springs are now 15% softer in the rear, and hooked up, in front, with Knee-Action that banks curves for you.

It had a view, a gorgeous view, from windows and windshields as much as 412 square inches bigger—and it had style that has already altered the pattern on many another car-stylist's drawing board.

So we looked it all over—and went a step further. We decided a car so plainly meant for action needed to have a price that would get action for it!

Now it isn't easy to build such a traveler—rich in reliable Buick quality clear down to the metals it's made of—and still give it a price that rubs elbows with the sixes.

But just look around, match up the price tags, and you'll find that this great straight-eight lists for less than some cars with two fewer cylinders!

It comes complete with equipment that's extra in many another instance—yet the figures still read lower than on Buick of a year ago. So when you see this Buick you not only see the car, but the one big value of the year. That's why we're anxious to have you try Buick—it's a car with a winning way about it, and a winning price tag in the bargain!

YOU GET A BETTER USED CAR FROM A BUICK DEALER

\$894 and up delivered at Flint, Mich. *Subject to change without notice. Transportation, title and local taxes (if any), optional equipment and accessories extra.

Silver And Crystal Are Discussed At 1930 Hyperion

For a program on silver, china, and crystal, members of the 1930 Hyperion club met Saturday afternoon in the home of Mrs. Harry Hurt.

Mrs. Omar Pitman told of the manufacture of the articles and had tables set for informal and formal lunches and dinners and for tea and after-dinner tables. Each table was set with appoint-

ments to correspond to its occasion.

Mrs. Harry Hurt and Miss Clara Secret each told of the history of the items and illustrated their talks with the appointed tables.

Mrs. J. W. Middleton of Lamesa was the only guest and others present included Mrs. J. C. Loper, Mrs. E. V. Spence, Mrs. Hubert Stipp, Mrs. R. V. Middleton, Mrs. Jake LeFever, Mrs. M. N. Bennett, Mrs. J. Y. Robb, Mrs. Preston R. Sanders, Mrs. J. E. Hogan, Miss Clara Secret, Mrs. Omar Pitman, Mrs. H. G. Keaton, Mrs. H. B. Resgan, and the hostess.

Delphian Society To Be Organized Here Soon

A local chapter of the National Delphian Society will be organized at the Settles hotel March 28th, Tuesday, at 9:45 a. m.

Mrs. Lura McDaniel Brown of San Antonio will be in charge. "Orientation for Modern Times" is to be the three year course given here this year.

Mr. and Mrs. Earl Corder are in Abilene visiting with Mrs. Corder's brother, Joe Canning.

Who's Who In The News

Mrs. Elton Taylor and daughters, Mina Mae and Wilma Jo, are spending the weekend in Sweetwater with her mother, Mrs. J. W. Horton and her mother-in-law, Mrs. Zach Taylor.

Miss Ailsay Forrester of Roswell, N. M., spent Friday here with Mrs. L. T. Terrell and Mr. and Mrs. Lea Hayes while en route to Fort Worth where she is to take a new position.

Mr. and Mrs. Jack Rogers have as guests, her parents, Mr. and Mrs. R. L. Spalding of Colorado.

Frank Eggoff of Dallas was a guest Thursday of Mr. and Mrs. Cecil Thixton.

Cecil Thixton and Cecil Burch of San Angelo will enter the motorcycle hill climbing contest to be staged in Albuquerque, N. M. on Sunday.

Mrs. Jessie Wilkerson of Christoval, sister of Mrs. May Thixton is spending the weekend here.

Mrs. Charles Frame of Odessa was here Friday to attend the funeral of J. D. Stamper. She is a cousin of Mrs. Theo Andrews. Paul Frame was here Thursday to be with the Stampers.

Helen Mae Rogers, John Stewart and Willis Nell Rogers are spending the weekend in Lubbock.

Mr. and Mrs. J. R. Copeland, who have been living in Tyler but are former residents of Big Spring, are here at the Settles hotel where they plan to stay for about a month.

Mr. and Mrs. Robert E. Lee and Mrs. Lee's father, S. H. Chumley of Bronte are spending Sunday in Tahoka.

E. C. Boatler is in Austin on business this week.

Mr. and Mrs. Rex Rader and son, Jack, of Hobbs, N. M., are guests this weekend of Mr. and Mrs. Ray Lawrence.

Mr. and Mrs. M. N. Thorp had as guests this week Mr. and Mrs. Carl B. Halmbeck and son, Lynn Carl, of Big Lake.

Mrs. Ethel Brown of Dallas is the weekend guest of Mr. and Mrs. Shine Phillips. She was formerly of Big Spring.

Mrs. Ray Simmons spent Saturday in Midland.

Beta Sigma Phi Holds Dinner-Dance Friday

Members of Beta Sigma Phi sorority entertained with a dinner-dance Friday evening in the coffee shop of the Settles hotel.

St. Pat's colors were used in the decorations and refreshments. Music was furnished by the nickelodeon and attending were Jimmie Lou Goldman, Marguerite Alderson, Mary Burns, Evelyn Merrill, La Fern Dehlinger, Maxine Reigel, Betty Pat Barker, Frances Rogers, Anne Zazafonelis, Elizabeth Northington, Mick Green, Stormy Thompson, H. A. Knox, Ed Meador of Odessa, Johnny Nall, Jack Bates, Wilson Loper and Morris Davis of Odessa and Vernon Smith.

Nobody Wants The 'Good Old Days' When Conveniences Of Modern Refrigerators Demonstrated

By MARY WHALEY

Having spent a recent afternoon seeing what the master minds of our scientists have thought up to make the burden of a housewife that much easier, I sit back in silent praise and am glad I wasn't born in the "good old days" when ice was a little hard of luxury.

These men who spend all their time thinking up the easiest way to do things so we gals don't have to take an extra-step or do anything the hard way, have devised refrigerators, a necessity, so that they look like luxuries, perform noiselessly, and are still efficient.

No longer does the busy woman have to equip herself with a crowbar to release the ice cubes and no longer does she have to set down a dish, open the box, then go back and get the food to put in the box. The 1939 boxes are so equipped that you can touch a button with a finger, elbow, or just lean against it, and presto, the door opens. I felt sure it could be done even pushing it with your nose or forehead but restrained myself from trying.

Then gone are the days when you reach for those left-over potatoes and bring out the butter, reach again and still miss and then decide to eat the butter anyway. Lights are so arranged now that you can see inside from the top to the bottom.

I can't imagine anyone letting food sit for 14 days without eating it but the newest angle in some of the boxes prove before your very eyes that the food kept that long in the moisture-controlled boxes still is as appetizing as when it was put in.

It's remarkable what a bunch of smart men can think up and from the results this year they must have been doing a lot of burning the midnight oil.

I don't know what I would do with one myself but seems like I would like to have one around just because they are so pretty. I could keep my other dress in it I guess. Anyway it is a thought.

PERSONAL ITEMS FROM STANTON

STANTON, Mar. 18 (Sp)—Noren Anderson of Denver, Colo., arrived Thursday night for a several days visit with his wife. He plans to return Sunday night.

Mrs. Poe Woodard, accompanied by her parents, Mrs. and Mrs. George Wilke of Big Spring, went to San Antonio for the weekend. They will return Tuesday.

Joe Clare of Hamilton was a visitor in Stanton Friday afternoon.

Mrs. W. C. Glazener and son, Stanton, spent last weekend in College Station where they were the guests of W. C. Glazener.

Presbyterian Junior Choir Given Party At Church Friday

Mrs. Harry Hurt, junior choir director, assisted by Mrs. R. V. Middleton and Mrs. Raymond Duggan entertained the choir members with a party Friday evening in the recreation room of the First Presbyterian church. Chinese checkers and ping-pong provided entertainment for the older group and Mrs. Middleton and Mrs. Duggan directed various games for the younger ones present.

The table was centered with a bronze bowl filled with yellow blossoms and crystal candelabra with yellow tapers were placed at each end of the table.

Refreshments were served to Gwendolyn and Evelyn Tucker, Doris Coe, Lorena Brooks, Dorothy and Janice Carmack, Robbie Piner, Mary Ann Dudley, Ann Talbot, Janet Robb, Camille Inkman, Ros-

alle Ferguson, Marijo Thurman, Lula Beth Duff, David Lamun Ruth Jane Thompson, Nancy Miller Thompson, David McConnell, Charles Blake Talbot, Bud Purser, Patay Sue McDaniel, Bobbie Frances Sanders, Vivian Middleton Lynn Porter, James Edwards Brooks, Junior Myers, Harry Middleton, Joe Fowler Brooks, Johnnie Allison, Harry Hurt, Jesse Allison, Lola Mae Neill, Hazel Carmack, Mrs. Middleton, Mrs. Duggan, Mrs. George Neill, Mrs. N. J. Allison, Mrs. Hurt, and Dr. and Mrs. McConnell.

Midway Students Out To Retain Choral Trophy

For several years the pupils and parents living in the Midway school district have taken a great interest in the county choral singing contest. In fact, they have shown a greater interest in this contest than in any other contest sponsored by the interscholastic league.

Each year most of the pupils in school make strong efforts to be selected as choir members. Only about 25 are chosen, however. Usually the choir contains about 35 members until the last two weeks before the contest and then the best 25 are selected to represent the school in competition with the

other choirs of the county.

In 1935 a school choir was organized at Midway but did not compete in the county contest. The next year the Midway choir won second place, losing to Forsan in a contest that offered much strong competition. In the contests of 1937 and 1938 the singers from Midway won first place and the trophy. The victory last year, however, was a close one with Coahoma winning second place.

Since the choral trophy is a three-year cup it must be won three years in succession by one school before it becomes the property of that school. The Midway songsters are determined to gain permanent possession of the cup by winning first place in the county contest for the third consecutive time this year.

Refrigeration Service

New Models Are Being Shown By Local Dealers

Refinements And Improvements Make Latest Lines Of Top Value To The Housewife And Bill-Paying Husband

The last word in efficiency, economy and practicability. And handsome enough to rank as one of the home's treasured items.

That's the 1939 refrigerator. It's refrigerator time, and Big Spring dealers have received consignments of the newest models, are ready to display them and demonstrate them, satisfied that Mr. and Mrs. Public will find in the 1939 refrigerators such features that boxes of previous years are out of date.

In other columns of today's Herald appear messages from the various refrigerator dealers, and articles outlining features of the various lines. The public is invited to study these items and to have a first-hand look at the displays to be convinced that in the 1939 refrigerators there are offered values never before attained.

There are many refinements, many additions, many improvements to attract the eye of the housewife and to be satisfactory to Mr. Bill-Paying Husband.

Factor freezing, more space, quick-release trays and cubes, adjustable shelves—these and many more features are to be noted in the 1939 refrigerators. And the exterior finish of the boxes is more efficient and more handsome than ever.

Sealed units for the ice chamber prevent air reaching the ice and closed evaporators eliminate odors and leave the ice clean tasting. Others feature an air-conditioned box that will not dehydrate food. It is not necessary to cover meat because of this principle.

Another new feature is a container placed under the ice compartment that holds the water when the defroster is on. This prevents water dripping down in the box and creating a soggy mess of food.

Removable Shelves
 Designers were thinking of everything when they designed the removable shelves that will make room for an object as large as a watermelon and tall milk bottles.

Food is now safe to leave in the new refrigerators for as long as 14 days with the new coil featured by one dealer that keeps the moisture in the box and prevents food from drying out. Scientists discovered that the lack of moisture in the foods took some of the necessary vitamins from vegetables and to prove this guinea pigs were fed on the two kinds of food. It was found that retarded growth resulted in the animal whose food had lost some of the necessary vitamins by evaporation.

Master Switch
 Taking the place of three switches that controlled the temperature of the refrigerator formerly, is a master switch that does the work of all three. Also, even when defrosting, one dealer's box shows that the temperature only varies two degrees.

If formerly you have despaired of trying to make ice cream for a large number in the cube trays, your predicament was of major concern to the designers who now have made cube trays that will hold as much as a half gallon of ice cream. Some of the new boxes also are built without hinges on the outside to keep any warm air from entering through the cracks.

Almost unbelievable is the proof offered by one company that their box will withstand the weight of a four-ton elephant and yet the door will open easily. These non-warp boxes are made in one piece, with rounded corners and neither heat nor moisture can penetrate.

Accessories
 Other local dealers are selling refrigerators that are equipped with a casserole, water jug and 9 custard cups trimmed in contrasting colors that can be used for baking or for holding extra cubes. Even the top of some of the meat containers are equipped this year with a stainless steel tray that can be used for serving, as well as a meal cover.

Handles are arranged so that if your hands are filled, just a touch on the handle will open the box

Tulsa Man Heads Journalism Unit In School Memorial

STILLWATER, Okla., Mar. 18 (AP)—George E. Simmons, Tulsa University, New Orleans, was elected president of the Southwestern Journalism Congress today and New Orleans was chosen host city for 1940 at the annual meeting at Oklahoma A. and M. college here. Frigidaire's Cold-Wall An Innovation

Revolutionary Method Of Refrigeration Introduced

Food preservation has been a matter of concern and study to mankind for centuries and, although gradual advances have been made which aided in the fight against rapid deterioration and the ultimate preservation of foods for longer periods of time, it has been only about a quarter of a century ago that American housewives were introduced to electric refrigeration which gave them a more advanced type of food preservation.

Since that time, no basic change was made in food preservation until this year when Frigidaire division of General Motors Sales Corporation announced the introduction of its new Cold-Wall Refrigerator, which, because of its new method of applying refrigeration, may easily revolutionize the household electric refrigerator industry. Through all these years, the keystone of all claims has been the basic fact of "cold"—that electric refrigeration was colder than other methods.

In all electric refrigerators, the fundamental theory was the same. There was some form of substituting a freezing coil or unit for the conventional block of ice. The unit was placed either in one corner or the center of the refrigerator in order to get circulation to all parts of the cabinet, it being realized that cold air, being heavy, always falls, driving warm air upward, thus establishing "circulation."

Just What It Says

With the Cold-Wall type of refrigerator comes an innovation. Cold wall means exactly what it implies. The lower part of the refrigerator is cooled by cold walls. Refrigerator coils are concealed in the walls of the lower portion of the cabinet which is closed from the upper part by a heavy glass shelf or partition.

The upper section still uses circulation of air from a center freezer. This is good for foods in containers, those not affected by the circulation of cold air, or those requiring some degree of circulation.

Circulation is retarded in the lower half of the cabinet because of the concealed coils which furnish equal cooling all around the compartment. As a result there is no drying out of foods because the humidity is more than 90 percent. This highly moist air does not need to rob foods of native moisture. A highly desirable feature of this cold-wall section is that the transferring of flavors from one food to another is reduced to almost nothing. The need for covering of dishes is practically eliminated while food flavors are preserved.

COOLERATOR CIRCULATION SHOWN

A special circulation system which provides the proper temperature for all corners of the box is shown here in this cut-away view of the 1939 Coolerator, distributed in Big Spring by the Southern Ice company.

In addition, the appearance of foodstuffs is vastly improved.

Seven Times Longer

"Some foods stored in the new Cold-Wall Frigidaire," said Carl Strom, local dealer, "are preserved almost seven times longer than formerly. This has been brought out by exhaustive research. As a result of this new and forward step in the fundamental principle of food preservation, the user obtains greater economy and satisfaction."

"Equally interesting to the public," Strom said, "even if not so startling in character as the new type of food preserver, is the announcement of a new super-value six cubic foot Frigidaire of conventional design to retail at a new all-time low for a Frigidaire of this size. Although representing a major cut in retail price in comparison to previously available models, the new six will retain the meter-mixer type of compressor and freezing unit to be found in all models of the line."

The complete 1939 line of Frigidaire household refrigerators includes three basic series known as the Special, the Master and the Cold Wall series, all being exclusive of the new super value six which has been produced as a single model of outstanding value in the six foot classification. These models are now on display at Carl Strom Home Appliances, 213 West 3rd Street.

Philco Enters Refrigerator Manufacture

New Conservador Shown In B'Spring At Carnett's

Having enjoyed singular success in the radio field and boasting a radio in 12 million homes, Philco this year is entering the refrigerator product—the Conservador.

Gaining its name from an outstanding new development—as shelf-lined inner door—the Conservador lays claim to 26 per cent more quickly usable space at no extra cost.

The box may be seen at Carnett Radio Sales store, agency for the Conservador.

Utility of the inner door is based on the fact that it contains space for foods most often used. In fact, two-fifths of the times the refrigerator would have to be exposed to room temperature is cut down by reason of the food stuffs stored on the inner door. Thus, it cuts by nearly half, the amount of exposure to the main compartment of the box. It also permits the arrangement of the larger articles in the box without necessity of constant rearrangement, a development which makes space count for more.

In opening the box, the main door may be opened by touching the top latch. A tug at the bottom handle opens outer and inner door. If the inner door is to be opened after the outer one has been swung ajar, a touch of a button does the trick.

Other features include an over-sized compressor unit which uses a fan to accelerate radiation and thus freezes rapidly and saves on current; an auto-overload protector which takes care of current fluctuations; full view thermometer and illuminated freezing control; efficient box insulation; and a new ice release which readily ejects one or an entire tray of cubes.

One time an unsuccessful attempt was made to organize a New Deal patronage committee in Maryland. (These three senators were opposed unsuccessfully by President Roosevelt in last year's primary elections because of their opposition to various administration measures.)

CHARGE PATRONAGE USED TO CONTROL CONVENTION

WASHINGTON, Mar. 18 (AP)—Senator George (D-Ga) charged the Roosevelt administration today with attempting to gain control of delegates to the 1940 democratic convention through dispensation of federal patronage.

"I know that is happening in Georgia," he said, "and I understand substantially the same thing is taking place in several other states."

While George declined to discuss specifically any state other than his own, Senator Smith (D-SC) expressed belief that administration was trying to exercise direct control of patronage in his state. Senator Tydings (D-Md) said that at

Triple-Thrift Stressed For 1939 GE's

Utility And Efficiency Added To Economy Advantages

Triple-thrift—that's the description given the new General Electric refrigerator models.

But more than economy, these refrigerators offer beauty, utility and efficiency as leading features this season. These boxes may be seen and demonstrated at Carnett Radio Sales at 211 Main street.

On an inspection of the General Electric, the box catches the eye first. Here is durable, all-steel frame with enameling that withstands punishment and does not flake. It has finger tip latch and piano type hinges with ball-bearing aids. It is built so airtight that it floats and the finish is perfect enough it will not leave odors on even fresh, unsalted butter.

Inside, the box is styled for varying storage needs, and is arranged for frozen, cold, crisp and general storage needs. Trays may be arranged to accumulate ice, store frozen desserts in sherbet or parfait glasses, or keep nearly a case of beverages.

Interior steel, including the GE super-freezer, is made of stainless steel. Efficiency of the freezing unit is shown in its ability to turn out 480 ice cubes or the equivalent of 48 pounds of ice daily. Insertion of the release lever ejects one or as many ice cubes as are wanted. The sliding shelves are good enough that tests have proven 30 years of normal use make no appreciable wear.

The vegetable drawer insures a degree of crispness in plants right out of the garden. High humidity and low temperatures mean ideal conditions for meats.

The vacuum sealed mechanism, the pressure oil bath, the Scotch yoke compressor milled to 3-10,000 of an inch precision, the unloader valve, the natural draft condenser are other proven points of the General Electric refrigerator.

MONTGOMERY WARD

Jas. Cagney Essays Western Role In Drama At The Ritz

'Oklahoma Kid' Tells Of Frontier Days

The Warner Bros. studio contributes its part to the current cycle of "big" westerns, with "The Oklahoma Kid," a stirring melodrama of America's westward march, which is at the Ritz theatre today and Monday. And, strange as it may seem, James Cagney has the starring role, heading a cast that includes Humphrey Bogart, Rosemary Lane, Donald Crisp and Harvey Stephens.

It is against an altogether different type of background than is generally associated with Cagney that the tough yet charming young red-head displays in his new picture his inimitable gift for lusty, he-man drama.

This picture is laid in the wild and lawless days when the Indian Territory was being opened to settlement, and one of its most impressive scenes is the beginning of the famous land rush of 1889 in which some 30,000 homesteaders raced across country to stake out sites in newly opened Indian territory.

But, though the period and background are different from those of most of the Cagney pictures, Jimmy is essentially the same type of character as he has been in his biggest successes.

At the outset of the story, Jimmy is a young outlaw who has become famous as a sort of Robin Hood of the Southwest. He is blithely pursuing his devil-may-care existence when his highly respectable

CAGNEY TURNS FRONTIERSMAN

Jimmy Cagney, erstwhile tough guy of gangster melodramas, has joined other Hollywooders in a try at frontier roles, taking the stellar part in "The Oklahoma Kid," an action story of the opening of the neighboring state. The picture is at the Ritz theatre today and Monday.

Hospital Notes

Big Spring Hospital
Dr. Amos R. Wood was improved Saturday afternoon.
Master Jackie O'Neal, 1 1/2 year old son of Mr. and Mrs. F. F. Sheedy of Fortna, was admitted to the hospital Friday afternoon for treatment of an attack of influenza.

Douglas-Bruce Combination In Comedy

'There's That Woman Again' Offered At Lyric Theatre

You remember, of course, Columbia's fun-filled show in which Melvyn Douglas and Joan Blondell were paired as Bill Reardon and his scatter-brained wife, Sally. Titled "There's Always a Woman" and directed by comedy-inspired Alexander Hall, the picture proved an early "knockout" of 1938.

Today and Monday the Reardons return to the Lyric theatre in "There's That Woman Again," which, as the title implies, concerns the further misadventures of the detective couple. Mel Douglas subtly augments his previous characterization of the wife-suffering sleuth while Virginia Bruce rises to new comedy peaks as an even more delirious Sally.

There are countless jewel thefts, mysterious disappearances, murders, robberies, plots and counterplots, but through it all romps Sally with the ease of the legendary trapeze artist.

Alexander Hall directed this one with deft feeling for farce-flavored mystery drama, and with a superbly-turned story and capable cast, has produced another Columbia creation of sterling entertainment.

Margaret Lindsay, as the "heavy" Mrs. Nacelle with a homicidal turn of mind, and Tom Dugan, as Flannigan, slightly slug-happy aide to Detective Reardon, stand out among the co-stars' supporting players. Excellent performances are also given by such artists as Gordon Oliver, Stanley Ridges, Paul Harvey, Pierre Watkin and Jonathan Hale.

DIRE DOINGS AT THE RACE TRACK

Here's a scene from the featured Queen offering for today and Monday—a yarn called "Road Demon" which adds the thrills of auto racing with the chills of a murder mystery. Henry Arthur and Joan Valerie are the romantic principals.

Race Course Setting For Murder Yarn

Mystery Thriller, 'Road Demon,' Plays At The Queen

The writing boys who needed a different background for each of their murder mystery yarns finally

bit upon an auto speedway as their latest. And a film version of killings to the accompaniment of roaring exhausts will be unrolled at the Queen theatre today and Monday in a production called "Road Demon."

The cast includes Henry Arthur, Joan Valerie, Henry Armetta, Tom Beck and Bill Robinson. Arthur and Miss Valerie have the romantic roles, Armetta no doubt does some more of those explosive Italian characterizations, and it is left to guesswork as to whether Bill Robinson does tap dancing on the speedway.

"Road Demon" reportedly fulfills the demands of thrill fans who like their action fast, furious and often. The story, as big and sensational racing sequences are unfolded, tells the story of a young man who takes to the race track in order to avenge a killing.

THOSE ON RELIEF THE LONGEST MAY BE REPLACED

WASHINGTON, Mar. 18 (AP) — The WPA and congressmen handling relief appropriations are giving serious consideration to a plan for replacing persons who have been on relief rolls longest with individuals on the waiting list.

Both WPA Administrator Harrington and members of a house appropriations subcommittee were described today as favoring such an arrangement.

'My Lucky Break' Program Today Will Dramatize The Life Of Baritone Lawrence Tibbett

"My Lucky Break," Joseph Cherniavsky's successful new musical program, will introduce "Dopey Cokey," the hit tune from the current University of Cincinnati musical revue as the "lucky break" tune today from 5 to 5:30 over the Mutual network and KBST.

"Variety Vanities," the 1939 University of Cincinnati production, is the 16th annual musical show presented by the students of that university. "Dopey Cokey" is a composition of 20-year-old Irving Berlin of Kansas City. Cherniavsky plans to give the tune a spooky hot treatment, using a vocal background of eight voices to obtain the collegiate effect. "Dopey Cokey" will be used as a contrast on the program, as the other half of "My Lucky Break" will be devoted to the story of Lawrence Tibbett, Metropolitan Opera star.

IS MORE WEEKS
"The Admiration Show of the Week," radio reviewing stand of America's musical monarchs, will be heard for an additional 13 weeks over the coast-to-coast Mutual network, effective Sunday (March 26) from 5:30 to 6 p. m.

The program featuring a guest-star dance band each week and the terse news commentaries of Ernest Chappell, who also is employed as the program's lively master of ceremonies, will present Horace Heidt and his Brigadiers today at 10 a. m.

SIGN TSN'S LARGEST ACCOUNT

Col. R. E. Fairchild, district manager for Anheuser-Busch, congratulates Elliott Roosevelt, president of the Texas State Network, upon the inauguration of the first radio program in the history of Budweiser, which is the largest account ever signed by Roosevelt's network. The program—"Personalities in the Headlines"—will start March 28, and will run Mondays through Fridays from 10 to 10:15 a. m. over Station KBST. Roger Campbell is commentator.

Crosley Uses Every Inch Of Space

Storage, Accessible Compartments Are Talking Points

Utilizing every inch of space and featuring a one-piece welded steel box with insulation sealed-in for long life and economy, the new 1939 Shelvador is being offered by the Crosley corporation through the Big Spring Hardware company. Here's a refrigerator in which a woman can get to things easily. The shelves in the door permit storing of small items so that more food can be stored in the box. It's annoying to unpack and re-pack the cabinet every time something is needed, but the Shelvador, without a person being conscious of it,

automatically sorts food items in a handy get-at-able manner.

Eggs, fruit, cheese, butter, and other small items are hooked into the shelf in order to leave space on the main shelves for big bowls, fowl, bottles and larger containers.

Cube And Tray Release

The Speeds-cube release and quick action ice tray release, inventions of Powell Crosley, Jr., president of the Crosley Radio corporation, are exclusive features of the Shelvador. A lever releases the ice tray and cubes with a single twist of the wrist. All the cubes are loosened at the same time but remain in the tray until needed for use.

From 10 to 15 per cent more weight in ice cubes is secured in this way to better the old method of pouring hot water over the tray. The cubes come out full-size, solid and dry with corners square.

Eighteen points of cold control permit variation of freezing speed and food compartment temperature according to every need.

Dial Control

Two points on the colored indicator of the radio-type dial insure frugal economy when the demand for refrigeration is light. There are four positions in the winter range and three for fall or spring usage. Five places are provided for summer usage and three for fast freezing.

Special Shelvador glass jars are provided for tidbits and leftovers. They fit into the door shelves and are easily accessible.

A vegetable crisper is of drawer-type and self-closing. It keeps vegetables garden-fresh and appetizing. It is a deep, roomy container of porcelain enamel with chromium handle and removable wire grid bottom. This container can also be used for chilling salads, fruit dishes, candy, sea foods and gelatin. The large glass tray provides storage space for food and is convenient to hold a reserve supply of ice cubes. Its design permits proper air circulation and

when the cooling unit is defrosted, it serves as a tray for moisture.

Insulation

A stainless steel breaker-strip is used on the Deluxe Shelvadors and is an exclusive Crosley feature. The door is insulated with a cushion of rubber around the edge of the door and is grease resistant, long wearing, and makes a seal to keep the cold in and the heat out. Glass wool is used to insulate the cabinet, and has extremely low heat conductivity. It also will not absorb or conduct moisture.

The improved Crosley Electromover hermetically sealed unit is economical in operation. The compressor provides a flexible mounting and eliminates the transmission of any vibrations to the cabinet. A bath of oil passes over the top of the cylinder head, keeping it cool and increasing the efficiency of the pump.

The cooling unit compartment is spacious and enables the Shelvador to freeze big, solid ice cubes in short time as the direct freezing surface has been increased by the addition of a refrigerated shelf in all models. Freon F-12 refrigerant, which is safe and highly efficient, is used.

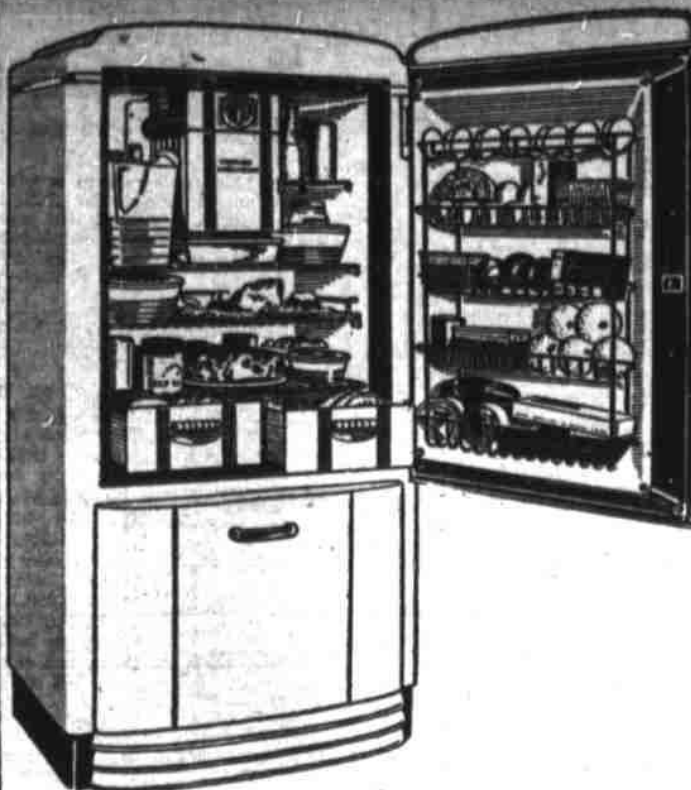

In the Deluxe models, the Crosley Storadrawer is provided and is used for bulk goods such as potatoes, apples and is an ideal place for reserved canned and bottled goods.

This year a smartly designed and colored ovenproof pottery set is provided as a special feature.

ACCEPTS ELLIOTT'S RESIGNATION AS A&M DIRECTOR

AUSTIN, Mar. 18 (AP)—Governor W. Lee O'Daniel today accepted the resignation of Elliott Roosevelt, son of the president, as a director of Texas A. & M. College, and appointed H. L. Kokernot, Jr., of Jeff Davis county to the position.

THE 1939 CROSLY SHELVDOR

Use of all available space for handy shelves is one of the big features of the Crosley Shelvador, 1939 models of which are being displayed at the Big Spring Hardware company.

Modern Refrigeration Essential In Home Where There's A Baby

The moment there's a new baby in the house, the young mother realizes how utterly essential are all the modern conveniences which top hours off of housework time and save her most precious energy. She also realizes most of all,

that a modern refrigerator is one of the most positive answers to the question of foods prepared and fed to make the baby grow strong and husky as rapidly as he should.

More and more, doctors are advising individual formulas for each baby, and they must be made with precision and be kept perfectly fresh. The infant has so many feedings, that it seems dozens of bottles must be on hand at a time, to the mother who is deluged by all these exacting new demands made by one little mite.

As the months go on what seems to be ridiculously small amounts of vegetables have to be cooked and pureed each day; and still later shreds of meat come into His Highness, The Baby's diet.

Whether the mother is willing to devote her every waking hour to making foods for baby, or whether she cherishes every moment of liberty she can manage, she will find the refrigerator the solution to every one of baby's food problems.

It will keep his formulas safe so that every feeding will be pure and wholesome when it gets into baby's precious mouth.

And no matter how hot the summer may be, the refrigerator is still the invaluable guardian of the very foods on which depend baby's growth and well-being.

Actually, to the modern mother in city or village, farm or isolated valley, the refrigerator is as essential as the very crib in which the baby spends his many sleeping hours.

For it is by means of refrigeration that larger quantities of baby's foods can be prepared at one time, and kept wholesome until required for various feedings. When the infant is at the "one teaspoon of pureed carrot" stage, mother can prepare enough vegetables at once for several days' feeding, sure of the fact that the refrigerator will retain their freshness just as when they were first picked.

Bottles cease to seem a burdensome task, too, when an entire day's feedings can be got ready at one time, bottled, and placed into the generous storage space of the refrigerator where the contents keep pure and sweet until feeding hour shows on baby's clock.

TROOPERS THOUGHT THEY WERE TO QUELL CZECH REBELLION

PRAGUE, Mar. 18 (AP)—Some German troops expressed amazement today at the icy greeting the Czechs gave them as they occupied Bohemia and Moravia. They said they thought they were coming here to quell a revolution and were surprised that they were not given a great welcome.

The German soldiers—most of them from 18 to 20 years old—have shown good discipline.

WICHITA OIL MAN TAKEN BY DEATH

DALLAS, Mar. 18 (AP)—Ernest R. Fain, wealthy Wichita Falls oil operator and polo player, died in a hospital here at 2:30 p.m. today of a heart ailment.

Fain had been in the hospital since Feb. 19.

Norge Models Shown Here By D&H

'C-M Synchronizer' Is New Feature This Year

A new engineering achievement—"C-M (colder moisture) Synchronizer"—is being hailed by Norge this year as the outstanding refrigeration invention of the age. D. and H. Electric company has the new type Norge refrigerators on display at their store now where this development may be inspected.

Norge claims that the C-M synchronizer obsoletes ordinary refrigeration by maintaining extra moisture and extra cold. It delays drying out, saves food freshness, taste and nourishment for more than twice as long.

New Norge models have two separate refrigerating systems. The C-M synchronizer itself is a large exterior food-cooling surface around the ice compartment. The free freezer is an inside, separately refrigerated, rubber-sealed series of shelves. Each system is insulated from the other.

Not only does it keep the temperature below 50 degrees, but always under 40 degrees. Yet it accumulates so little frost that the proper amount of moisture is retained to keep foods juicy fresh. Behind this is the Norge Duo-Rollator compressor which has only three moving parts hermetically sealed in an oil bath. Norge believes in this mechanism to the degree that it posts a 10-year warranty with every box.

Pure ice production is another Norge feature for the year. In contrast to the ordinary mechanical refrigerator ice which absorbs food flavors and odors, ice made in the "glacier-sealed" compartment are tasteless and odorless.

Easy defrosting is another new point. The Norge "handfroster" is ready at all times to deposit melted ice in a special container that is easy to empty and takes up practically no room in the refrigerator.

Some other Norge features are the "cold-pack" meat container that is already ready and usable; new Norge flexible ice trays and instant ice release, pullout bottle shelf, mobile-shelf for extra storage, glass-covered sliding "hydro-voir," water bottles, fruit drawer, and faster, more efficient freezing.

ACCIDENTS HAPPEN JUST ANY MINUTE

BALDWIN PARK, Calif., Mar. 18 (AP)—"An accident may happen any minute," argued Insurance Salesmen Ray Williams and Gus Johnson to their client, David C. Phillips, as they stood in his front yard.

Phillips fell at their feet, wounded by a bullet which ricocheted after a neighbor shot at a gopher.

THE PLACE OF THE BIBLE

Extremely gratifying to The Herald has been the public's response to an offer, instituted only a few weeks ago, of copies of the Bible at a nominal cost. These Bibles are being handled by the newspaper at no profit, and the distribution was undertaken merely as what was regarded as an extra service to readers.

And it is encouraging to know that the public's interest in the Holy Writ has not flagged, despite the mockings of those who claim that the world has forgotten God. One local minister, commenting favorably on the Bible distribution plan, asserted it has been his observation that the world today is turning more than ever to spiritual comfort and spiritual guidance in its effort to find a way out of darkness, despondency and seeming failure.

The Scriptures remain, of course, the largest selling book in the world. The American Bible Society, largest distributor, has reported that its sales have run more than 7,000,000 copies a year for the past three years. Add to that the sales of other distributors and the sales of Testaments, Portions, and the like, and it is found that the Scriptures go out by more than 10,000,000 copies a year. And this has been the story through the years.

PUTS A PREMIUM ON EXTRAVAGANCE

A ruling by one government agency that Texas must not necessarily lose its share of federal highway aid if the proposed gasoline tax diversion were voted to finance state assumption of county and district road bonds undoubtedly has served as a spur to efforts to have the measure enacted at this session of the legislature.

The argument of federal aid loss against the so-called "judges' bill" is a good one, because Texas' highway program needs the help; but if it fades, there still remains the very good argument that many counties in the state will be penalized to help a few.

Those counties which added themselves with road bonds they cannot now pay are willing enough to have the state take over those bonds. But the counties which have pursued an economically safe course and have their fiscal affairs in shape stand to lose heavily in the diversion of that one cent of the gasoline tax.

Rep. James H. Goodman of Midland said in the legislature this past week that an organized minority was wanting to "saddle this bonded indebtedness on the entire state," and on the surface of things this appears to be true.

It is not keeping with public policy to put a premium on waste, and many counties did waste their bond money and to put a penalty on sound governmental economy. The gasoline tax should be retained in full for the purposes it now serves.

IT WAS DESPERATELY COLD. ALL THE CANNED FOOD WAS FROZEN SOLID. I DRAGGED MYSELF PAINFULLY TO THE THERMOMETER. IT WAS 82 BELOW ZERO

Today And Tomorrow

By Walter Lippmann

Mr. Lippmann's column is published as an informational and news feature. His views are personal and are not to be construed as necessarily reflecting the editorial opinion of The Herald—Editor's Note.

THE PROBLEM OF ALL THE PROBLEMS

There is no one among us, I should suppose, who would even pretend that he is able to keep in touch with, let us say, the six main questions in domestic affairs which are now being actively discussed. But it might be useful to make a list of these questions and then to look at them, not separately, but as a whole.

There is the question of federal spending with one school arguing that it must continue in order to maintain recovery and the other arguing that the spending prevents recovery by terrifying the private investor. There is the question of federal taxation, with one school arguing that taxes should be reduced in order to improve the inducement to seek profits, the other arguing that taxes should be maintained in order to redistribute purchasing power to the mass of the people who will use it to buy goods.

There is the question of peace between the A. F. of L. and the C.I.O. desired by some in order to strengthen the bargaining power of labor by uniting the unions, by others to reduce the labor disputes caused by the effort of rival unions to outbid each other in enrolling members. There is the question of monopolistic practices in industry, opposed by some because it raises prices and, therefore, reduces production, defended by others because it protects many plants which could not otherwise give employment if they had to meet competitive and, therefore, lower prices. There is the question of the agricultural surplus, which some wish to get rid of by letting farm prices fall and others wish to manage by subsidizing the limitation of production.

And then there is the question, which is just now beginning to be generally appreciated, of the amazing growth of barriers to trade inside the United States, the growth of what are in effect internal tariffs, erected by the several states against the commerce and the labor of other states.

Here we have six highly controversial subjects: spending, taxes, unions, industrial monopolies, farm surplus, and internal protectionism. There are men who are specialists in each of them. There are concerned with each of these subjects persuasive advocates of opposing vested interests. About each of these questions there exists a mass of data and technical theory which few men can hope to master separately, and no man has mastered as a whole. Yet in the end all these questions converge for decision upon the president, the congress, and the citizen and some sort of intelligible attitude toward all these questions is necessary.

Now I have a notion that these questions are aspects of a single and a general question that only by seeing them in that perspective can they be truly understood, and that only by understanding them as a whole does it become possible to see the direction in which effective answers are to be found.

These questions arise, I suggest, out of the fact that for more than 20 years, but particularly since 1929, we have been living in a frozen economy. We have been living in a world where economic opportunity is not expanding to keep pace with the growth of the population, where, in fact, opportunity is contracting.

No doubt it is true that all the separate questions I have named have existed in the past. But what makes them acute and urgent in our time is the fact that economic opportunity is contracting. These separate problems are the result, it seems to me, of a general effort on the part of workers, business men, farmers and government officials, to respond to the feeling of all sorts of groups and interests that opportunity is scarce and must be jealously protected.

This, it seems to me, the underlying cause of the controversy between the C.I.O. and the A. F. of L. These two federations of unions are rivals because Mr. Green's unions have obtained protection for certain kinds of skilled labor which Mr. Lewis's unions threaten to weaken in their efforts to obtain protection for the great mass of unskilled labor. This is what divides the rival organizations. What might unite them is the desire to raise and maintain the level of industrial wages as a whole against the competition of the newer industrial regions of the West and the South. This desire for protection is also, it may be noted in passing, the motive behind the federal wages and hours legislation.

The monopolistic practices of industry, including the whole tendency toward the formation of cartels, either under government help, as under N.R.A., or by private agreement, is primarily due to the desire of existing producers to hold for themselves the opportunities of what seems to be a limited market. Because they feel that the opportunity to expand is limited, they seek to control the opportunities such as they are.

The measures dealing with agricultural surplus arise out of the same condition, out of the belief that, though the peoples of the

The Herald's Serial Story Old Home Week Murder

By Phoebe Atwood Taylor

Chapter 13 CHAT WITH A SOPRANO At dinner, back at Aunt Sara's, Zeb announced his intention of working most of the night.

"Orders!" he said. "You never saw so many orders in your life. Matt's daft. Thought he had enough for this week, and we had to phone Boston fifty times. Matt's ordering, carload lots now. And Baked Beans'll be up ten points by the end of the week. It's awfully funny. You say, what about a can of beans, and they say, why yes, they'll be nice to have in the house. It seems you don't ever buy baked beans to eat, you buy them to have in the house, like coal or flowers. I've sent father a wire. Something's radically wrong with his advertising. Say, Jane, you'll have to go with Assey tonight."

"I already asked her," Assey said. "Miss Randall's got' proper with Jeff an' Sara, an' all in a blue-an'-yellow draped box, but Jane an' I, we're goin' to mingle with the hol' p'ol an' eat peanuts."

"I'm going to flirt with the trumpet," Jane said. "He asked me for a date, Monday, and when I asked him who he thought he was, he said he was the best solo singer in the business. It must mean something, he was quite proud of it. While I'm busy with him, Assey, you—"

"I'll be chattrin' with Madame Meaux. Hustle, Jane. I want to hear her render the operin' number. Maybe she's better with lights an' spotlights than she was in the corridor the other day."

Madame Meaux was rendering "America The Beautiful" when they reached the ball park, and Assey admitted that she was doing it rather well.

"Maybe so, but I never liked that song," Jane said. "It's so blatant, smug. As if no other country ever had spacious skies, or amber waves of grain, or purple mountain majesties, or anything. It doesn't seem to sound right here, either. There are spacious skies, but—"

"Oh, beautiful for bay'ry bushes, for lots an' lots of saffron, if you like. No one'll ever notice."

Jane laughed. "Now this one—what's this? People have been singing it at the drop of a hat for weeks, and I never yet have understood a word. I asked Mary—she stopped and bit her lip. 'Mary didn't know. She said she just hummed a sort of obligato.'"

"That," Assey said, "is Billingsgate's crowin' opus. That is 'Billingsgate's Beautiful.' The town anthem, erected by the fine Italian hand of Beate Brinley."

Jane shivered and gritted her teeth. "Wow! Why do they sing it? How can they? I mean, after all, you don't try to sing something like that from choice, or just to be nice to Mrs. Brinley."

"Well," Assey said, "in a celebration like this, you got to sing something for brotherhood an' the 'Horat Wessel.'"

"That named," Jane said, "always sounded to me as though it should be some sort of black sausage—well, that's over! Thank goodness! Assey, where are you, are you really going to talk with her? Well, can you tie that!"

Madame Meaux greeted Assey with a dazzling smile. In evening dress, and with makeup, she was a far different woman from the hot perspiring bicyclist of the afternoon.

Der Fuehrer Has New Retreat; Does Serious Thinking In A Small House Above The Clouds

Adolf Hitler, who always has liked to get away from it all, has a new retreat. It is kept a secret from the great majority of Germans. Even some of Der Fuehrer's best friends haven't seen it. The few photographs that have been taken of it are locked in a Naaz vault. In this story the chief of the AP's Berlin bureau describes that retreat and tells why it was built.

By LOUIS F. LOCHNER BERCHTESGADEN, Germany, (AP)—Adolf Hitler can rise above the clouds whenever he wants to. He has had constructed for himself an aerie like the like of which no other living human being can boast of.

A teahouse, perched upon a mountain top and accessible except for chamois—only by an elevator on the inside of the Kehlstein mountain, affords the fuehrer of Germany an opportunity to enjoy absolute solitude in a cloudless sky. Here's the story of one of the most unique hideaways ever constructed.

Before Adolf Hitler came into power in January, 1933, his summer home in the Bavarian Alps, about five miles above Berchtesgaden, on a slope of the Obersalzberg, gave him the seclusion and quiet he craves as an offset to noisy "heils" tramping feet, and trumpets' blare.

Even then, any trained observer could foresee the end of seclusion in that spot. The writer recalls traveling to the Obersalzberg in August, 1932, and finding to his surprise that a simple Bavarian mountain restaurant about 200 yards up the road was peopled with ardent Nazis who trained their spy glasses on the house below.

Morever, the "Berghof" had to be enlarged for visits of statesmen and party leaders summoned by the chief of state. The solitude of the Berchtesgaden retreat was gone.

Hitler next discovered a little tea house some distance away from his home. Here he would often go in the afternoon to relax. But this retreat, too, was soon discovered. Then one of his closest collaborators suggested that the top of the Kehlstein would provide exactly what the Fuehrer wanted—a retreat inaccessible to the crowd and bathed in sunshine at times when the "Berghof" was wrapped in gray clouds.

Many details of Der Fuehrer's hideaway are secret, but here's an artist's conception.

low in the hope of catching a glimpse of Der Fuehrer. A simple tea house, built against a huge rock, is constructed in the same Bavarian peasant style as the buildings generally in this part of Germany.

A glass-encased veranda on three sides—to the east, south, and west—allows practically continuous sunshine until sundown. This fact gave rise to the legend that Hitler's aerie was perched on a turntable and could be turned toward the sun wherever he might be.

The house consists of three parts—a small kitchenette, a lavatory, and a large living room. In this retreat Der Fuehrer at last has the perfect solitude that he craves for thinking about problems of state.

Few Know About It Only on the rarest occasions is any foreigner invited up to this perch. The first thus honored was the departing French ambassador, Andre Francois-Poncet. He clicked well with Hitler. Hence, as a mark of special honor, the fuehrer took him personally to his retreat on October 15, 1933, for a last conference on German-French relations.

The second foreigner was Crown Prince Michael. While his father, King Carol, was conferring at the "Berghof" with Adolf Hitler on November 24, 1933, the young man was taken up to the top of the Kehlstein for tea. So small is the number of those who have been on the top that even Capt. Fritz Wiedemann (Hitler's close associate, who recently was named consul general at San Francisco) confessed he had never been on the Kehlstein. The general public knows nothing about the retreat. No publicity has been given it. The few pictures that have been taken are locked up in the secret archives of Hitler's personal photographer and official cameraman for the Naaz movement, Prof. Heinrich Hoffmann of Munich.

Here we have six highly controversial subjects: spending, taxes, unions, industrial monopolies, farm surplus, and internal protectionism. There are men who are specialists in each of them. There are concerned with each of these subjects persuasive advocates of opposing vested interests. About each of these questions there exists a mass of data and technical theory which few men can hope to master separately, and no man has mastered as a whole. Yet in the end all these questions converge for decision upon the president, the congress, and the citizen and some sort of intelligible attitude toward all these questions is necessary.

Now I have a notion that these questions are aspects of a single and a general question that only by seeing them in that perspective can they be truly understood, and that only by understanding them as a whole does it become possible to see the direction in which effective answers are to be found.

These questions arise, I suggest, out of the fact that for more than 20 years, but particularly since 1929, we have been living in a frozen economy. We have been living in a world where economic opportunity is not expanding to keep pace with the growth of the population, where, in fact, opportunity is contracting.

No doubt it is true that all the separate questions I have named have existed in the past. But what makes them acute and urgent in our time is the fact that economic opportunity is contracting. These separate problems are the result, it seems to me, of a general effort on the part of workers, business men, farmers and government officials, to respond to the feeling of all sorts of groups and interests that opportunity is scarce and must be jealously protected.

This, it seems to me, the underlying cause of the controversy between the C.I.O. and the A. F. of L. These two federations of unions are rivals because Mr. Green's unions have obtained protection for certain kinds of skilled labor which Mr. Lewis's unions threaten to weaken in their efforts to obtain protection for the great mass of unskilled labor. This is what divides the rival organizations. What might unite them is the desire to raise and maintain the level of industrial wages as a whole against the competition of the newer industrial regions of the West and the South. This desire for protection is also, it may be noted in passing, the motive behind the federal wages and hours legislation.

The monopolistic practices of industry, including the whole tendency toward the formation of cartels, either under government help, as under N.R.A., or by private agreement, is primarily due to the desire of existing producers to hold for themselves the opportunities of what seems to be a limited market. Because they feel that the opportunity to expand is limited, they seek to control the opportunities such as they are.

The measures dealing with agricultural surplus arise out of the same condition, out of the belief that, though the peoples of the

you any wrong ideas about Mike. He's a right enough sort. My money's safe with him. Say, he hasn't done anything, has he?"

"Not that I know of," Assey said. "But—say, it's time I got you back. Only—if you see him, or he gets any message to you, will you let me know?"

"Sure." They got up from the table. "I don't understand—hm."

"You specialty is murders, isn't it? And the town's making money—no, don't say anything. I shan't. Maybe I'll pick you up something. You hear a lot in a 'era like this in a place like mine. Singers and manicurists, they hear everything."

"How," Assey had no fear of telling her anything, even if she guessed the whole business, "how'll you know what to listen to?"

"I shall probably hear enough about you," she said, "to last a lifetime. Drop me here, will you? Thanks. I got to see Upjohn. Sorry I can't ask you if there's any number you want. Upjohn and Brinley planned everything—and you'll hear me sparring over 'Chloe' with that trumpet, clear in the next town. So long!"

Assey left her at the rear of the band stand, and then went to join Aunt Sara and Jeff.

"Jane is pretty sore," Sara told him. "She's not accustomed to being left for blondes—Is she as much fun as she looks, by the way? I thought so. Women like that either have a sense of humor, or they don't. No two ways about it. Anyway, Jane's a little dazed, and I'm sure it's doing her a world of good. Jane is just a little too engrossed in Jane, I think."

"It's all her fault for not believing what she's told," Assey said. "Where'd she go?"

"She's dancing with the Mitchell boy. Eloise is helping with refreshments. We got 'em free. Ah, the graft us politicians' wives do get! 'It's something fierce,' Assey said. "Canned fruit punch an' two fig newtons. What about Jane, Sara?"

"Go easy with her. She's got a heart of gold, but—"

"But gold is metal," Assey said. "She has that manner, but it's indigenous to her particular generation, I think. She'd be first to cry at the sight of a run-over dog. And right now she's soared stiff. Go easy with her, Assey. Don't rush, and don't bully. You'll find out in time what you want. She's gawfully scared, and awfully mixed up, and she wants to lie down and cry. I think there's something more than Mary that's bothering her, too, even though she adored Mary. And you'll find—ah, hullo, Jane. The prodigal's returned."

"Thanks he's going to be welcomed back into the bosom of our select group, does he, after gallivanting—"

"I guess I know," Assey said sadly, "when I'm not wanted. Yes, sure, One-Hint Mayo, that's what they call me. I'm goin' over to the Town Hall an' look around, an' leave you dancin'-mad things at your feet. See you later."

Temperature Is Steady In Electrolux

Silent Operation Prime Feature For Gas Refrigerator

Silent performance, no fluctuation of temperature within the cabinet, and an air-conditioning system which will not dehydrate food are all attributes of the new 1939 Servel Electrolux now on display at Sherrod Bros. Hardware Company.

Because there are no moving parts in its freezing system, no valves, springs or pistons, and no metal rubbing against metal to create wear and friction, the Ser-

vel refrigerator gives steady, efficient performance.

In this refrigerator a tiny gas flame or gas generated by kerosene burner supplies the energy which circulates the refrigerant.

Women's Choice

Its design was picked from samples submitted by the women of America and has rounded corners and a flat useable top. Its finish, which is composed of three coats of Newtons, has been subjected to rancid greases, had a weight dropped on it for hours, immersed in steam and hot water and subjected to ultraviolet rays representing years of direct sunlight and it withstood all this rough treatment.

The one-piece cabinet is of steel with no place for dirt to collect and no place for heat to leak through. The door hinges are hidden within the box to give the exterior a smooth appearance. The door will open with either a slight push or pull and when the latch is released will open of its own accord. This permits the user to open the door with hands full.

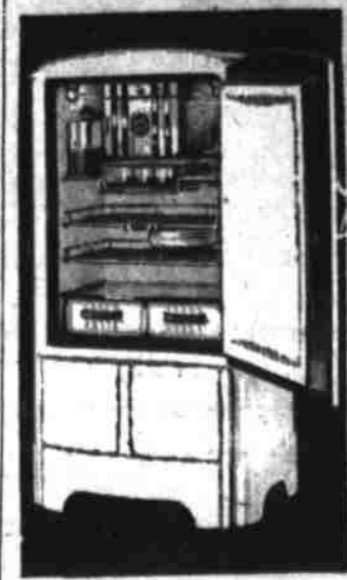

Temperature Selector

A new feature of air-conditioning makes it unnecessary to cover meat because of multi-temperature principle in the freezing unit. The interior of the freezing compartment is very cold to freeze the cubes quickly and is controlled by an illuminated dial which permits the user to regulate the temperature. This temperature selector is also used for defrosting. By turning the control around to "D" and immediately back to its normal position, the refrigerator will defrost automatically and come back on.

In order to protect food during the defrosting, there is enough refrigeration within the cabinet to keep it cold due to the gas flame that does not go out. This keeps the temperature from going above the danger point.

Doors are sealed with a rubber gasket to keep in the cold. The shelves permit sliding in and out

WARDS BOX

The 1939 MW refrigerator is being displayed at Montgomery Ward, and has many new attractive features, including faster freezing, better space distribution, and quicker tray release. Economy is another claim for the MW, and prices this year have been reduced.

of food vessels and are so constructed as to permit air circulation yet close enough to keep small bottles from tipping over. They are also arranged so it is not necessary to buy special dishes. If more bottle area is needed, the top shelf can be removed and a split shelf is provided in order that a watermelon or turkey can be safely stored.

No Wasted Space

Even the light has been arranged to provide the most illumination without wasting space. It is hidden away behind the freezing unit and being difficult to hit, cannot be easily broken.

The Servel Electrolux is approved by the Underwriters' Laboratory and its safety device, known as the "klixon disc," is kept warm as long as the burner is lighted, holding the gas valve open. Should the flame go out the disc cools and cuts off the flow of gas.

The new Servel Electrolux for 1939 has combined the necessary features of safety, economy, and efficiency with a box that is pleasing to the eye and easy to clean. Its removable parts and rounded corners guarantee no space for dirt to seep in and accumulate.

According to its designers, it may be called the "forgotten refrigerator" as far as its freezing principle is concerned once it is installed in the home. The owner can be assured of silent, trouble-free and continuous service.

FALL ON A CAKE OF SOAP IS FATAL

NEW YORK, Mar. 18 (AP)—A fall on a cake of soap killed John Sobushuk, 47, today.

He slipped while taking a bath and plunged through a window of his fifth floor apartment. His nude body fell into a courtyard.

Economy Claimed For Coolerator

Air-Conditioned Models Of High Efficiency Shown By Southern Ice

Economy—something we're all interested in nowadays—is made the chief talking point for the Coolerator, an "air-conditioned" ice refrigerator which is distributed locally by the Southern Ice company.

And, strong evidence of the value and efficiency of the Coolerator, Ben Cole of the Southern company points out, is the fact that some 400,000 families have chosen this make. The Southern Ice company has on hand a full line of the new 1939 Coolerators, and the public is invited to view them and put them to thorough tests.

"Nearly 400,000 users have proved for themselves the many advantages of the Coolerator," said Cole. "They saw for themselves how it keeps food fresher, how its new principle of using ice gives safe low temperatures whether the ice chamber is full or empty, how the air is washed and circulated, how balanced humidity prevents rapid drying out of foods. They were pleased to learn that about three icings in two weeks are usually enough."

The dependability of ice refrigeration also is stressed for the Coolerator, and it can produce ice cubes in five minutes. The model has a clever cuber as a handy accessory

shelves supports. Bulkier foods may be stored readily. There's plenty of space next to the freezing unit for tall bottles and the area under the freezing compartment may be adjusted to contain two chickens. A full width porcelain shelf is ideal for containing the host of small articles.

Ward Claims New Quality In '39 Model

Prices Of The MW Refrigerator, However, Are Lower

New features, new performance, and new values stand out in the 1939 Montgomery Ward refrigerator models now shown at the company store here in Big Spring.

Ward's proudly declares it "the greatest refrigerator" that the concern ever built. The price range, on the other hand, has been scaled downward.

Scanning the developments incorporated into the new MW boxes this season, the food froster stands out. Ward's was first to utilize this feature, which has been widely copied since its introduction two years ago. It has been improved this year and consists of a set of nine food froster molds and a large salad or utility bowl and a half-gallon beverage jug. They are done in blue and ivory overware china, thus making possible the cooking of stored food without the necessity of changing containers. Serving may even be done in the attractive molds. These froster molds set snugly in spacious glass dish and are covered with a stainless steel serving tray.

Exterior Beauty

The exterior view of the box is one of beauty—a beauty achieved by simplicity of design that makes it harmonize with any type of kitchen. Finish is in Dulux, soft and satiny in appearance and so hard and durable it defies stains and abrasions.

Adjustable shelves solve many a storage problem in the MW refrigerator. The change to achieve desirable shelf spacing may be done easily, thanks to notched

Westinghouse Model Offers Improvements

Meat-Keeper, Temperature Control Among 1939 Features

"Paacemaker" for '39, says Westinghouse in bring out its new models with innovations and improvements calculated to make the refrigerator more efficient and economical than ever.

Again one of the outstanding features of the Westinghouse is its new meat-keeper, which in its second year is 50 per cent longer. Located under the freezer, it is covered and ventilated, has an under rack which permits a steady flow of air, will hold 15 pounds, and actually keeps meat six days longer.

These and other exclusive Westinghouse developments may be seen in models on display at the Gibson Household Appliance store. Among the improvements are the "true-temp" control, a gadget which pegs the temperature at any desired level and holds it there. It works as simply as a dial telephone, but it eradicates fluctuations.

Fast Freezing

Economy of operation has always been and still is a strong talking point for Westinghouse. The super-froster unit is so improved as to turn out a supply of frozen cubes in less than 25 minutes if necessary. The forced draft cooling and life time lubrication are factors in the mechanism's thrifty current consumption which averages only 19 kilowatt hours per month. Tests show that Westinghouse only runs about 10 per cent of the time, that for at least 10 out of 12 hours it is idle.

The freezing unit contains a two and a half "multi-service" tray

suitable for freezing a host of cubes at one time or freezing and storing frozen desserts. Underneath this compartment are four additional trays for cubes. These are the "eject-o-cube" trays, now in Westinghouse for the fifth year, and capable of releasing one of 15 cubes by a touch of the hand. This is called "Eject-Press" tray release.

Shelf Arrangement

"Adjusto" shelves are adaptable to a series of arrangements and give the already roomy refrigerator 10 per cent added shelf space over corresponding Westinghouse models of a year ago. Extra large "humidrawers," covered by "humidifiers" sliding tops, are built into the new models. Finish on all Westinghouse refrigerators is of Dulux high bake type, durable and beautiful.

Westinghouse has an answer for the question of "What will this refrigerator do in the kitchen?" For the kitchen is right where

Bible Distribution

—COUPON—

Two distinct styles of this wonderful Book of Books have been adopted for this great newspaper Bible distribution. One is the far-famed Red Letter Bible (Christ's sayings printed in red for immediate identification), and the Plain Print Bible for those who can spare but a nominal sum.

Only Three Coupons

Clip this coupon and two others and present or mail them to this party with the sum set opposite either style, and come into possession of your Book of Books at once.

Style A—Red Letter Bible, overlapping limp back leather covers, gilt edges, round corners, gold lettering, large clear print, three coupons and only **\$1.98**

Style B—Plain Print Bible, Divinity circuit limp back seal grain textile leather cover, red edges, medium large type, strong and durable, three coupons and only **98c**

MAIL ORDERS: Send amount for Style A 5c or Style B, 3c, with three of these coupons, and include 15 cents additional for postage, packing and insurance.

A Chance for Every Reader to Get a New Bible

NORGE Presents

3 Great Refrigerators FOR 1939

1. **NEW NORGE SYNCHRONIZER**

- The Norge C-M Synchronizer is the latest and most spectacular development in refrigeration. It mixes more coldness and more moisture in perfect proportion . . . cold under 40 degrees, moisture over 50% . . . automatically, and as a result foods remain juicy—fresh for more than twice as long with appearance, taste, and nourishment values unimpaired.

2. **NEW NORGE MARATHON**

- More for your money is yours this year in Norge De Luxe Marathon Rollator refrigerator. Bigger, better, more powerful than ever at lower prices. Makes cold far more quickly . . . and does it inexpensively, too.

NEW NORGE GOLD SEAL

- Although low in price, it performs with the best. It sets a new standard of comparison. Powered with the new Norge Mighty Midget Rollator mechanism . . . it packs the power of a giant on the rations of a dwarf. Cabinets are in fresh, new designs—the smartest quality style . . . loaded with new conveniences.

THOUSANDS OF WOMEN SAY THEY LIKE THEIR SHELVADOR BECAUSE OF ITS ECONOMY, CONVENIENCE AND BEAUTY.

OTHER REFRIGERATOR HAS THIS ADVANTAGE SHELVADOR

AMONG \$3,000 WOMEN, CONVENIENCE WAS THE FIRST THING THEY WANTED IN AN ELECTRIC REFRIGERATOR... THE SHELVADOR IS THE GREATEST OF ALL CONVENIENCES

DEPENDABLE ECONOMY ASSURES MECHANICAL PERFECTION AND LOW OPERATING COST!

Save Food with Shelvador

Convenient storage of small items where you can always see them and easily reach them saves many a left-over that might be forgotten.

Save Current with Shelvador

Shelvador's sealed refrigeration unit shows highest operating efficiency. Running periods are short, which saves wear on motor. Temperature control permits economical cooling.

Save Steps with Shelvador

Features like quick release ice cube trays, vegetable crispers, sliding shelves, shelves in the door . . . and many others save steps and time.

Save Up-Keep with Shelvador

The Shelvador features a sealed interior of one-piece welded steel, insulation sealed-in for long life and economy . . . styled to meet every need.

as low as **9950**

Easy Terms

You'll find our help in financing makes the purchase of a Shelvador easy for very limited incomes.

The Shelvador makes it possible for a woman to store foods orderly and conveniently. The small items, of which there are many, fit into the shelves of the Shelvador. Eggs, fruit, cheese, butter, bacon, cucumbers, peppers and small covered dishes for side and ends that will make somebody's lunch, if not forgotten. These are the things that pack snugly into the Shelvador, leaving space on main shelves for items of bulk—big bowls—fruit-bottles—a roast—a melon.

Such orderliness saves money. When you open the refrigerator door you know where to find what you want. Frost—and you close it promptly. If you must stop to hunt or explore—you keep the door open much longer than necessary. That costs money. Like a wardrobe trunk, there's a right place for everything. Scientific packing, you might call it. Any way it's making use of all the space inside the refrigerator—it's the basis of the statement that you can "put more food in the Shelvador."
