

# Tech to Spend \$243,000

## the Foreador

Vol. XXVIII Texas Technological College, Lubbock, Tuesday, November 25, 1952 No. 18

### SC Finishes Plans On Eve of Election

Final plans for the election of Mr. and Miss Texas Tech were completed at the regular meeting of the Student Council Monday night.

Balloting began at 8 a. m. this morning and the polls will close at 5 p. m. Class favorites will be elected at 5 p. m. with the seniors meeting in Ad219, juniors in Ad-260, sophomores in C101, and freshmen in Aggie Auditorium.

Wanda Ramsey, Student Association secretary and head of the elections committee, reported on the committee's action which changed the selection of the all-school favorites from nominations by petition to write-in-balloting. A plurality of the votes cast will be required for winning candidates.

Representatives absent from the meeting were: Jimmy Nickell and Richard Johnson, agriculture; Elizabeth McCain, arts and sciences; and Joe Hastings, engineering. Latecomers were: Brian Boyett, agriculture; Phil Thompson, arts and sciences; and Buddy Barron, business administration.

The Council heard reports from the publications committee. It approved the printing of identification cards for persons authorized to sell advertising for campus publications. Council permission was granted Block and Bridle to print a program for its Little International livestock show.

Jim McGraw, Student Association vice president, reported on the executive meeting of Texas Intercollegiate Students Association which he and President Harold Brannan attended last week.

### AROTC Cadets Earn Promotions

Nineteen promotions of Air ROTC cadets were announced Monday by Col. Ollen Turner, professor of air science and tactics.

Nine of the cadets were promoted to cadet major, eight to cadet captain, and one each to cadet first lieutenant and cadet second lieutenant.

Those promoted to the rank of cadet major are: Tom E. Bailey, Dallas senior; Edward L. Baker Jr., Fort Worth junior; Reagan H. Beene, Dallas senior; C. Gordon Downum, Lubbock senior; Gene K. Koonce, Sundown senior; James L. McMillan, Dallas senior; Harold L. Simon, San Antonio junior; Olen L. Simmons, Lubbock senior; Dee L. Stevenson, Lubbock senior.

Recently promoted cadet captains are: Billy J. Chaney, Lubbock junior; Charles O. Green, Quanah senior; Carl B. Nichols Jr., Rising Star senior; Lawrence W. Patton, Sundown senior; Oris B. Reynolds, Merkel senior; Bobby J. Sears, Lubbock senior; Cash C. Wileman, Stamford senior; Rex Zachary, Happy senior.

Floyd H. Young Jr., Stamford senior, was promoted to cadet first lieutenant. Thomas E. Phillips, Fort Worth senior, was named cadet second lieutenant.

in Denton. Benny Bruckner, Association business manager, was appointed to prepare an article on this year's Student Council work for the TISA Newsletter.

Bruckner told the Council that the cheerleaders have asked for action on the question of making an Aberdeen-Angus bull, Black Invader, Tech's official mascot. The councilmen agreed that they could take action only after the cheerleaders had petitioned for a decision.

### Mullins Victorious In Run for Turkey

Maurice Mullins, Jay Fish, and Victor Theil were first, second, and third place winners, respectively, in the mile-long Turkey Run sponsored by Sneed Hall Saturday.

Mullins, junior agriculture student from Eden, won the first prize turkey by finishing in five minutes, 35 seconds.

Fish, sophomore from Snyder majoring in chemical engineering, received the second prize goose; and Theil, freshman business administration student from New Deal, was awarded the third prize egg.

James G. Allen, dean of student life, made the awards. The turkey was contributed jointly by Sneed Hall and the Agriculture Division, the goose by Piggly Wiggly stores, and the egg by Dean Allen.

Thirty-six men entered the race, including 18 from Sneed, two from Gordon, three from West, seven from Bledsoe, two from Doak, one from Drane, and three from Lubbock.

### Tech Board of Directors To Meet on Campus Dec. 6

A meeting of the Texas Tech Board of Directors is scheduled here for Dec. 6 in the president's office, says J. Roy Wells, assistant to the president.

Board members expected for the meeting include: Leon Ince, Houston; Chanlor E. Weymouth, Amarillo; Charles W. Woodriddle, Dallas; C. T. McLaughlin, Snyder; Raymond Pfleger, Eden; Robert B. Price, El Paso; George E. Benson, Lubbock; Charles C. Thompson, Colorado City; Thomas F. Abbott Jr., Ft. Worth, will be unable to attend the meeting.

### Traffic Court Tonight

Tech Traffic Court will meet at 6:45 tonight in Ad219. About 20 students have been summoned to appear, says Lewis Jones, assistant dean of student life.

### Tech Coed Named Area Cotton Maid

Patricia Mansell, Lubbock junior speech correction major, was named 1952 South Plains Maid of Cotton in the contest held last night at O. L. Slaton Junior high.

The top three contestants were: Connie Wray Hopping, Tech home economics senior, Miss Mansell, and Maxine Weisman, Sudan. Each was presented a bouquet of red roses by Mrs. De Rose Wittenburg Belcheff, 1951 South Plains Maid of Cotton from Lubbock.

### Top Eight

Five of the eight candidates selected by the judges in the first elimination were Tech students. They were: Alicia Bounds, Abilene junior and music theory major; Miss Hopping; Kathleen Williamson, Childress sociology junior; Miss Mansell; and Mary Jo Griffin, of Anna, junior majoring in elementary education. The other three were: Rowena Roach, Plainview, Miss Weisman, and Jo Denton, Merkel.

Other contestants entered in the contest were: Agnes Gloyna, Lockney; Elizabeth McCain, Tech senior political science major of Plainview; Genevieve Cook, Littlefield; Claudia Trepp, Tech senior elementary education major of Post; Audrey Marie Bryant, Plainview; Martha Ann Garner, Rockdale; Wanda Jo Williams, Tech freshman physical education major of Pampa, and Wanda Grace Ellis, Plainview.

### Will Go To Memphis

Miss Mansell will go to Memphis, Tenn., to enter the national contest sometime in December. If she wins this she will make a 65,000 mile international tour as part of the program sponsored by the National Cotton Council, the cotton exchanges of Memphis, Tenn., New Orleans, La., and New York, and the Memphis Cotton Carnival Association.

Members of the Lubbock High School Western Chorus sang several selections during the judges' decisions. Master of ceremonies for the program was Bob Nash, and Bernie Howell, organist.

### Judges

Judges for the contest were: Mrs. J. Robert Moxley, Mrs. Hiram Parks, Dixon White, O. L. Peterman, W. O. Fortenberry, G. T. Meriwether, and Dr. J. W. Kinard.

Hostesses were members from the Junior Welfare League. Approximately 500 people witnessed the contest.

### Sans Souci Receives Cup For Best Pledge Program

San Souci pledges received the cup for presenting the best pledge program at the Women's Inter-Council luncheon held Saturday in the Caprock Hotel.

Judges were: Mrs. Marjorie Neely, dean of women; Miss Jean Ewing, assistant dean of women, and Mrs. Nancy Innis, assistant dean of women.

Pledges of the five women's social clubs gave programs.

### Equipment Purchasing, Parking Lots Included

Tech's Board of Directors has approved the expenditure of \$243,000 for equipment, furnishings, and paving, says Marshall Pennington, vice president in charge of finances.

The board approved issuance of the notes Nov. 1, but the release of the news was held until the attorney-general of Texas presented his opinion, which has just been released.

The \$243,000 total is broken down as follows: Division of Business Administration, \$17,500; East Engineering and Petroleum Engineering Buildings, \$50,000; education department, west wing, Administration Building, \$3,500; biology department, \$28,825; physics department, \$17,350; geology department, \$28,825; Student Union Building, \$50,000; reserve reading room, Library, \$15,000; and streets and parking, \$32,000.

"All the money for buildings will be spent on equipment and furnishings," Mr. Pennington stated.

### Parking and Streets

The \$32,000 marked for streets and parking will be used to construct two new parking lots, accommodating a total of 760 cars, says Dr. E. N. Jones, president.

A 700-car parking lot is planned between the East Engineering Building and the men's dormitories. The 60-car lot will be located on the south side of the new Music Building.

In an L-shape, with tree wells to create the illusion of an avenue, the large parking lot will lead to the yet-to-be-constructed gym. Construction of this lot will require the removal of the old band hall and two tennis courts. A new location will be found for the courts.

The Music Building lot will be a lateral expansion of the two north-south streets that lead to 19th St.

Grading and covering with caliche will be done this fall, with later plans for blacktopping, Dr. Jones said.

### Physics and Biology

About half of the \$17,350 allocated to the physics department will be used to purchase an electrical distribution panel, according to Dr. C. C. Schmidt, department head.

The remainder of the money will be used to secure additional laboratory tables, storage shelves, bookcases, filing cabinets, and lab equipment.

The tables, chairs, and bookcases will be built by a cabinet-maker especially employed for that job.

Most of the \$28,825 appropriated for the biology department will be used to buy furniture, Dr. J. C. Cross, head of the biology department, said. Tables, chairs and locker cabinets would be bought with the allocated funds.

### Student Union

Furnishings and equipment will be purchased with the \$50,000 marked for the Student Union Building, says James G. Allen, dean of student life.

All furnishings will be of contemporary design, and orders for furniture are now being placed.

### Other Allocations

No official breakdown of the \$17,500 allotted for the Division of Business Administration had been received by Mr. Pennington Monday.

The funds will be divided among the accounting, business education and secretarial administration. **See \$243,000, page 8**

### REIL RECEIVES AWARD

Joy Reil, senior business administration student from Carrizo, N. M., has been selected to receive the national secretarial scholarship of \$50, says Donald J. Tate, head of business education and secretarial administration.

### Leroy Hand Given Magnolia Award

A Magnolia scholarship worth \$750 will be given tonight to Leroy Hand, senior petroleum engineering student, at a meeting of the American Institute of Mining and Metallurgical Engineers.

D. V. Carter, chief production engineer of Magnolia Petroleum Corporation, Dallas, will make the award. This will be the first presentation of the new annual scholarship, which was originated last spring.

Selection of the student most deserving the scholarship is on the basis of grades, financial need, and participation in student activities. Senior petroleum engineering students are eligible.

About 35 AIME members are expected to attend the meeting, which begins at 7:30 p. m., according to Norman Lamont, assistant professor of petroleum engineering, sponsor.

### WSSF Show Set For December 10

Plans are being made by the Student Council for a variety show to be held Dec. 10. Organizations wishing to contribute skits, songs, dances, and acts are asked to notify Odus Echols, master of ceremonies, by Dec. 4.

The variety show is sponsored to raise money for the World Student Service Fund, and all profit will be contributed to that organization. Elizabeth McCain is chairman of the WSSF committee. A meeting was held yesterday to make temporary plans. Tickets will cost 50 cents.

Last year's Variety Show made approximately \$160, and the committee hopes to make \$350 this year, Miss McCain says.

### Cadets to Go to Arnold Air Meet

Six members of the Arnold Air Society will leave Thursday for Los Angeles to attend the third annual national convolve of the society.

The six members, all delegates, include: Dee L. Stevenson, Lubbock senior, who is national publications officer of the society; Robert McGovern, Lubbock senior and area IV commander of the society; Loyd Simmons, Lubbock senior and local squadron commander; and J. C. Chambers, Lubbock junior; Morris Turner, Lubbock junior; and Winfred Meyer, Sudan senior.

The Tech delegation of six is the largest group with the exception of the delegation from the national headquarters at the University of Cincinnati, Capt. J. H. Baumgardner, professor of Air science and tactics, said.

The group will return Sunday.

# Fraternity Alumni Will Inspect Clubs

Men's Inter-Club council is making plans for the eight men's social clubs to meet with representatives of 13 national fraternities during the next three months, as the next step toward nationalization.

Each club will decide by Dec. 4 which fraternities it is most interested in considering. Local alumni of the national fraternities will meet with the clubs during December and January and will make reports to the national offices.

Delegations from national offices of the 13 fraternities will visit the campus for the inspection of Tech men's clubs during February.

Local clubs plan to send their histories and biographical data on members and pledges to the national offices by Dec. 15. From this material and the reports from the local alumni to the national offices, the fraternities will decide which clubs they are interested in inspecting.

Clubs are to have data on their alumni and financial program by Feb. 1 to give to the national offices.

# Tech Choristers To Sing 'Messiah'

The Tech Choir and Festival Chorus will combine with the Lubbock Symphony Orchestra to present the Christmas portion of Handel's "Messiah" Dec. 1 and 2, according to Dr. Gene L. Hemmle, music department head.

The performances will be held at 8:15 p.m. in Lubbock High School auditorium, and will conclude the program with various Christmas selections.

The Tech choirs are under direction of William Harrod, conductor of Lubbock Symphony. The choral selections have been prepared by Ira Schantz, music instructor, Herbert Colvin, instructor, and Dr. Hemmle.

Soloists appearing on the program are: Mrs. Grace Goodwin, soprano; Rosemary Sprague, alto; Mr. Schantz, tenor; and Rex Webster, bass.

# Tech Represented In Lubbock Play

Lubbock Little Theater's production, "Apple of His Eye," includes several Tech students and faculty members.

The play, in its last performance tonight at 8:15 p.m. in Lubbock High School auditorium, includes in the cast the following Tech students: Evelyn Hext, Daisy Holly, and Sharlene Wall. Two faculty members associated with the production are Dr. P. Mervile Larson, speech department head who is directing the play, and John Harding, assistant professor of management, who is a member of the cast.

# Raiders To Try Tulsa Saturday

Highly-rated Tulsa University will invade Jones Stadium Saturday afternoon to renew a rivalry with the Raiders that goes back to 1941.

The Golden Hurricane will be heavy favorites to take their third consecutive triumph over the Raiders. Featuring the ranning of Fullback Howard Waugh and the masterful quarterbacking of Ronnie Morris, the mighty Tulsans are on their way toward their third straight total offense championship.

On the line Guard Marvin Maruszak is heading toward an All-American honor again. Tackle Jim Prewett is no easy mark himself.

Tech has won only three of the 10 games played in the colorful series with the Hurricane. These triumphs were amassed in 1947, '48, and '49.

'Buddy Brothers, head coach at Tulsa, is a graduate of Tech, while Tech Coach DeWitt Weaver helped the Hurricane spill Tech's homecoming in 1950. 39-7.

The Raiders will have to stop the Tulsa offense which has run up an amazing total of 306 points this year. The Hurricane will enter the contest with a gaudy record of seven won, one lost, and one tied, including a powerful 44-34 victory over Arkansas last week.

After their win over Arizona, the Raiders will be out to give the Tulsans a battle. Tulsa will not want to let down in this contest, as their chances for a bowl bid are still bright.

Game time is 2 p.m. Saturday afternoon in Jones Stadium.

# Raiders Upset Wildcats

Marking up their twelfth win in 14 games against the University of Arizona Saturday night, an inspired band of Red Raider gridsters downed the Cats 19-14.

The Raiders, marching with unified spirit against the stunned Wildcats, scored in the first, second, and fourth quarters to capture their second win of the season.

A 33-yard run by Fullback Sandy Welton, who turned in his outstanding performance of the season, started a Raider drive which was not to be stopped.

Quarterback Jerry Johnson passed to End Paul Erwin for eight yards. Halfback Bobby Ca-

vazos carried for a first down, and two plays later Johnson passed again, this time to Halfback Jim Turner for 17 yards. Turner, Cavazos, and Johnson in that order, carried the ball on the next three plays with Johnson going over for the initial td.

After a brilliant three-yard line stand by the Raiders, a Tech fumble set up the first Arizona tally. The conversion was good, and the Raiders were on the bottom side of a 7-6 score.

In the dwindling minutes of the second quarter, however, rugged Tech Tackle Marland Ribble recovered an Arizona fumble on their 25. Tech took the ball over

in five plays. Kirkpatrick's conversion was good.

The Wildcats stormed back in the third quarter to take the lead 14-13. But the spirited Raiders were not to be denied, as Cavazos scored the final tally of the game from the one in the fourth quarter.

The thrills were not over, however, for in the final minutes of the game, Arizona passed to the Raider 13. Arizona fans expected a Wildcat touchdown, for it was first and 10 on the Tech 13. The Raiders, in a dramatic stand, however, covered every pass receiver

# Tech 'B' To Meet Amarillo Amjets

Tech's B team will travel to Amarillo Thursday to meet the Amarillo Air Base Amjets in their second test of the season.

The Raider Reserves will be facing a team coached by a former Techsan, Bill Gildewell.

The Tech B team, in its only other start this season, trampled

McMurry B, 55-0. Several stars were born in the contest, with several of them getting promotions to the varsity team.

Coaching the Raider squad will be Bobby Goad and Wyatt Posey. The expected starting offensive team for the Reserves is Pennington and Bradshaw at ends, Nelson and Hamill at tackles, Morris and Cook at guards, and West at center. In the backfield will be Millsapps at quarter, Wheeler and James at halves, and Burke at full.

# Sick List

Patients listed by the Infirmary Monday were: Patsy June Westmoreland, Dallas; Joe Jack Reynolds, Slaton; Richard Carl Homer, Groom; Bobbie Cearley, Earth; and Jean Ballew, Clarendon.

for three plays and smothered a final run attempt.

# LUCKIES TASTE BETTER!

They're made better to taste cleaner, fresher, smoother!

Ask yourself this question: Why do I smoke? You know, yourself, you smoke for enjoyment. And you get enjoyment only from the taste of a cigarette.

Luckies taste better—cleaner, fresher, smoother! Why? Because Luckies are made better to taste better. And, what's more, Luckies are made of fine tobacco. L.S./M.F.T.—Lucky Strike Means Fine Tobacco.

So, for the thing you want most in a cigarette... for better taste—cleaner, fresher, smoother taste... Be Happy—Go Lucky!

L.S./M.F.T.'s the code To keep in mind today— So for a cleaner, fresher smoke It's Luckies all the way.

Carol Osterweil  
University of Michigan

I'm always glad when Mom comes up— She brings the things I like— Not only food and candy, But good ol' Lucky Strike!

Sidney Fagan  
University of Connecticut

## COLLEGE STUDENTS PREFER LUCKIES IN NATION-WIDE SURVEY!

Nation-wide survey based on actual student interviews in 80 leading colleges reveals more smokers prefer Luckies than any other cigarette by a wide margin. No. 1 reason—Luckies' better taste. Survey also shows Lucky Strike gained far more smokers in these colleges than the nation's two other principal brands combined.

## Job Interviews for January, May Grads Scheduled for First Week in December

Job interviews for January and May men graduates are set for early December, according to Mrs. Jean Jenkins, director of the Placement Service.

The Continental Oil Company of Ponca City, Okla., will interview majors in petroleum engineering (for production department); petroleum geology, electrical engineering, and mathematics (for positions in the geophysical section), Dec. 2 and 3. They will also interview juniors in above fields who are especially interested in geophysics for summer employment.

The Stanolind Oil and Gas Company will interview January graduates majoring in electrical, mechanical, and petroleum engineering Dec. 3. Alex Clarke, Jr., division engineer, may interview a few May graduates if there are men interested. He will also talk to men who are now doing gra-

duate work and will receive degrees in January.

On Dec. 3 and 4, Lt. Comdr. J. E. McElroy will interview students in engineering, petroleum geology, and arts and sciences who have enough courses in mathematics for commissions in the Navy. He is representing the Office of Naval Officiating Procurement, U.S. Navy Recruiting Station, Albuquerque, N. M.

Majors in chemical, electrical, mechanical, and petroleum engineering, petroleum geology, physics, and accounting may be interviewed by The Western Company, Dec. 4 and 5, for jobs covering various services in the oil industry.

Mrs. Jenkins requests that students wishing interviews in any of the above fields, schedule appointments before the Thanksgiving holidays.

## Engineers to Visit Dallas, Ft. Worth

About 12 industrial engineering students will go on an inspection tour of industrial plants in the Fort Worth-Dallas area Dec. 1-2, according to H. J. MacKenzie, instructor in industrial engineering and sponsor of the trip. Plants which the group will see are: Fleming and Sons, Inc., paper manufacturers, Dallas; Trinity Portland Cement Company, Dallas; Consolidated Vultee Aircraft, Fort Worth; and the Container Corporation, carton and container manufacturers of Fort Worth.

While in Dallas, the group will attend a lecture by Warren Lamb of Paton Lawrence, firm of management consultants, Manchester, England. Mr. Lamb will discuss the Lawrence System of Personal Effort Assessment, a new technique in personnel management.

\$243,000—

nance, and management departments.

The \$3,500 for the education department, west wing of the Ad Building, is designated for the purchase of audio-visual education equipment.

The geology department had not as yet made definite plans for the exact use of its funds, Monday; neither had the Engineering Division.

**Source of Money**  
The \$243,000 is the result of issuing notes against Tech's portion of the building fund for state-supported colleges of Texas.

"Each of the seven state-supported schools receives a pro ratio amount of the 5 cent ad valorem tax," Mr. Pennington explained. "This money, from the tax-payers of the state, is collected by the state comptroller, and is deposited in the state treasury. The colleges may issue either bonds or notes against their portion."

Tech had already issued all the bonds it can; therefore, the school issued notes.

"News of the board's approval of the expenditure of the money could not be released until the state attorney-general had issued his opinion. His opinion was favorable," Mr. Pennington added.

### TO ATTEND MEET

Dr. D. J. Tate, head of business education and secretarial administration, will attend the annual convention of the Texas Educational Association to be held Nov. 28 and 29 in El Paso.

Dr. Tate will meet with other business educators while at the convention.

## Rating Raised On Tech Dairy Herd

Two changes were made in the classification of dairy cattle in Tech herd last Friday when it was graded by Harold P. Ewalt, extension dairyman of Oregon.

Rating of two cows as "Good Plus" were raised to "Very Good." This gives Tech an average rating of 83.9 for 39 head. The cows are classified on the basis of types by a score card. Perfect score is 100, but no cow has ever attained this goal, says Roy L. Neeley, associate professor of animal husbandry.

Breakdown on the cows is as follows: 1 Excellent; 13 Very Good; 23 Good Plus; 2 Fair. Tech's herd is considered average or slightly above.

## Christmas Cards Sold At Museum

Students and admirers of modern art will be interested in the Christmas cards offered for sale by the Museum. Art work on these cards is representative of the contemporary school of art, and a wide selection is offered.

These cards are distributed by the Museum of Modern Art in New York to select museums located throughout the country. Samples of the cards are on display at the sales desk in the Museum. Prices vary according to quality from 5 to 15 cents.

## Miss Drew To Go To El Paso Meet

Miss Lola Drew, associate professor of home management, will attend a meeting of the Texas Home Economics Association Friday in El Paso.

Dr. A. D. Bell, consultant for Hogg Foundation, will be principal speaker for the meeting, which will be held on the Texas Western College campus. His subject will be "Strengthening Fundamental Values in Family Life." This same theme was used at a national meeting of the American Home Economics Association last June.

## Cotton Burr Feed Tried With Cattle

Cattle eating cotton burrs? To the uninformed this does sound improbable, but W. L. Stangel, dean of agriculture, tells of an experiment that started today where beef breeding cattle will be fed cotton burr mixtures exclusively.

This experiment on wintering breeding cattle will be in three divisions. One lot of cattle will be fed cotton burrs plus a protein supplement, another will be fed cotton burrs silage plus a protein supplement, and the third group will be fed cotton burrs plus three pounds of molasses. The protein supplement consists of one pound of meal and one pound of alfalfa.

The cattle will be weighed at the beginning of the experiment, and then will be weighed again in 21 days. James Barr, senior animal husbandry major from Ballinger, is in charge of the feeding.
