Pre-Law Acquits 'Syndicate Head'

By MOLLIE JORDAN
Toreador Staff Writer

Dean James G. Allen, alleged "head of the sinister syndicate" on the Tech campus, was exposed, then acquitted due to circumstantial evidence, at the Pre-Law Club's mock legal proceedings last night.

A take-off on the National un-American activities committees, the crime investigation uncovered the "vice" on the campus during the program held in the Aggie Engineering Auditorium.

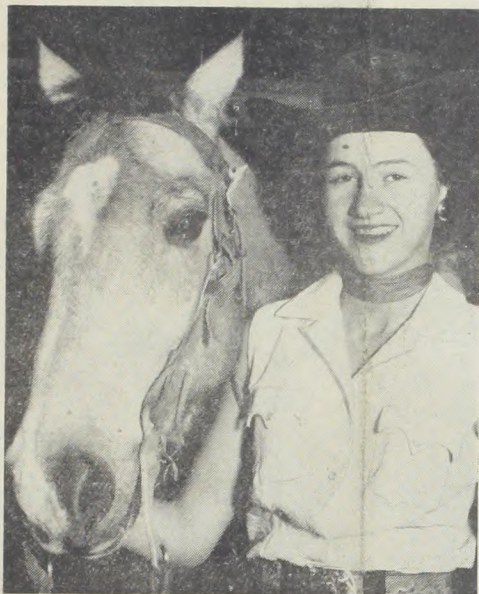

Star witnesses before the committee were Joyce Lowe, a suspected dope addict, and Ted Harrison, alleged campus bootlegger. Bill Oden, government instructor, was accused of operating a gambling place with E. R. Heine-man, professor of mathematics, figuring the odds.

Dr. F. G. Harbaugh, professor of animal husbandry, was accused of distributing the dope which Max Preston, prosecuting attorney, said Elo J. Urbanovsky, head of horticulture and park management, planted as part of the campus beautification program.

Doug Moore, assistant professor of economics, spilled the information that Allen was head of the syndicate after an extensive grilling by the committee headed by Don Hancock.

The mock legal proceedings are an annual affair given by the Pre-Law Club. Perhaps the most startling fact revealed in the investigation was that the stage in the auditorium revolves. When the committee "retired" to consider the evidence, someone pushed a lever and part of the stage moved, turning the backs of the committee to the audience.

In the words of Miss Lowe, "They're going around in circles."

QUEEN—of the 1953 Texas Tech Rodeo is Pat Boles, freshman from Midland. She was elected by majority vote, with each vote being a penny. Campaigns for rodeo queen have been in progress for about two weeks. Miss Boles was presented at the first rodeo performance Thursday night. She will be introduced at each rodeo performance, at 8 p.m. tonight, and 2 and 8 p.m. tomorrow.

Pat Boles Crowned Queen; College Club Float Is 'Best'

Over 1,000 persons watched the first performance of Tech's fourth annual Intercollegiate Championship Rodeo Thursday night. Pat Boles, Midland freshman, was crowned Rodeo Queen by W. L. Stangel, dean of agriculture.

Floats, Horses In Rodeo Parade

The parade preceding Texas Tech's Fourth Annual Intercollegiate Rodeo started in downtown Lubbock yesterday at 4 p.m.

Participants in the parade formed at the corner of Main Street and Avenue O, went east down Main to Texas Avenue, then south to Broadway and on out Broadway to the campus.

Heading the parade were color bearers from the Rodeo Association and Block and Bridle Club. Following the colors were Dean W. L. Stangel, of the Division of Agriculture; Forrest "Jukebox" Burnham, chairman of the rodeo; and Brian Boyett.

Next in the procession was a representative from the Triangle Bell Ranch, which furnished stock for the rodeo, and the eight contestants for the title of rodeo queen. Behind the queen hopefuls marched the Tech Army and Air Force ROTC units.

Floats were entered by Pi Beta Phi, College Club, Zeta Tau Alpha and the ROTC Rifle Club.

Sheriff's Poses from Lubbock, Terry, Crosby and Cochran Counties, along with the Post Stampede Cowboys, Abernathy Riding Club and Slaton Rangers added their Western touch.

Also in the parade were bands from Dunbar High School and Reese Air Force Base, floats from several organizations, and the rodeo contestants.

Winning float in the Rodeo parade was College Club, with a float of "Life on the Range." Other clubs entering floats were Wranglers, Pi Beta Phi, and Zeta Tau Alpha.

All Western Days at Tech got under way on the campus yesterday with both students and faculty attending classes in Western apparel. Saddle Tramps were busy disciplining Techs who didn't don cowboy garb by locking them in the "jail" set up in front of the Student Union Building.

Activities began officially at 4 p.m. Thursday with the rodeo parade.

Breakfast For Early Risers
Early risers attended an all-campus breakfast, sponsored by Block and Bridle, in the meat lab at 6 a.m. this morning.

Fourteen colleges and universities are taking part in this year's rodeo. Those participating are: New Mexico A&M, Texas A&M, Oklahoma A&M, Cameron Agriculture College, Range Junior College, West Texas State, Sul Ross, Hardin-Simmons University, Sam Houston State College, Southwestern State Teachers College, Texas Christian University, Odessa Junior College, Abilene Christian College, and Texas Tech.

Top Stock for All Events
Stock used in the performances, furnished by Triangle-Bell Ranch of Belton, ranks among the top rodeo animals. Competition for honors is keen between the many contestants in each category of events. Men's competitive events include: bare back bronc riding,

See **RODEO**, Page 6.

Prom Tickets Go On Sale Monday

Tickets sales for the Junior-Senior Prom will begin Monday in the Administration Building rotunda.

They will be sold from 8 to 12 a.m. Monday through Friday or See **PROM**, Page 8

Sophomore Hodge Podge Will Be Friday In Union

The sophomore class will sponsor its annual Hodge Podge at 8:30 p.m. next Friday in the Student Union Building.

The dance is an all school affair and will have a "roaring twenties" theme this year. Admission will be \$1 stag or drag.

Silver Key to Become Phi Delta Theta Chapter

Texas Epsilon, the 116th chapter of Phi Delta Theta fraternity, will be installed on Tech campus this weekend. The new chapter will be the present Silver Key club.

Phi Delta Theta was founded at Miami University in Oxford, O., Dec. 26, 1848.

Ceremonies Begin Tonight

Ceremonies will begin tonight with initiation services at the home of Parker Prouty. The services will continue tomorrow morning at St. Paul's Episcopal Church.

There will be an installation banquet tomorrow noon at the Country Club. The installation will be followed by a ceremony pledging present Silver Key pledges to Phi Delta Theta.

A formal installation at the First Christian Church will be held at 3 p.m. A reception will follow in the church parlor.

National Officers Here

About 120 out-of-town people are expected on campus for the installation. Among these will be Robert Miller, assistant executive secretary from Oxford, O.; John Wilterding, national treasurer from Menasha, Wis.; Hayward

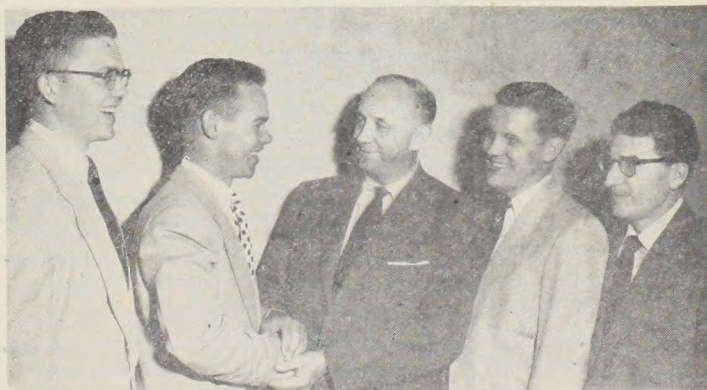

Biggers, editor of Phi Delta Theta publications, also from Menasha; Hobby H. McCall, president of the Nu Province from Dallas; and Clark Bledsoe, assistant province president from Tulsa.

Delegates from the University of Texas, Baylor, Southwestern, and Southern Methodist will be here. They are members of Nu Province, which includes Texas, Oklahoma, and Arkansas. Alumni chapters from Midland, Amarillo, and El Paso will also be represented. There will be delegates here from New Mexico.

A forty-voice fraternity choir from the Texas Delta chapter at SMU will be on campus for the installation.

Chartered Members Listed

Charter members of the Tech chapter are: George Aulback, Moody Alexander, Jerry Bailes, Bob Baker, Ed Baker, Clarence Barton, John Brown, Dale Cary, J. C. Chambers, Richard Clarke, Dick Cobb, John Curry, Ed Davis, Earl Dietz, George Farrell, Jim Farrell, Joe Kirk Fulton, Roy T. Grimes, Ernest Grote, Joe Hastings, Eddie Henderson, Don Holt, See **SILVER KEY**, Page 6

FIRST FRATERNITY—on Tech campus will be Phi Delta Theta, taking over Silver Key. Above are officers of Silver Key meeting the national fraternity officers. Left to right are J. C. Chambers, past president of Keys; Moody Alexander, present Key president; John Wilterding, national treasurer; Robert Miller, assistant executive secretary; and Hayward Biggers, editor of Phi Delta Theta publications.

Banquet, Trip and Furniture Planned

ASCE Banquet

The student chapter of the American Society of Civil Engineers will hold its annual banquet honoring former officers at the Carrock Hotel at 7:15 p.m. Saturday.

Speaker for the banquet will be E. V. Middleton, Lubbock contractor and a former member of the Tech civil engineering faculty.

Trip to Snyder

Dr. Dysart E. Holcomb, Dean of Engineering, and Dr. Geraldine Clewell, from the Home Economics Division, took part in the Snyder High School Career Conference yesterday. They, along with other college representatives, made talks about careers in their respective fields and at the same time attempted to arouse interest in attending college.

Furniture Ordered

Furniture has been ordered for the planned reading room in the East Engineering Building. The furniture is expected to be here in time for use in the fall semester.

Dr. Wiley To Be Critic in Oklahoma

Dr. D. O. Wiley, Tech band director, will serve as one of the fifteen critics at the annual Tri-State Music Festival, May 7-9, at Philips University in Enid, Okla.

Dr. Wiley, who will direct one of the nine number of the Tri-State Band, was one of three judges at the first Festival in 1933.

Other critics are Dr. A. Austin Harding, University of Illinois; Karl L. King, Fort Dodge, Iowa; Dr. Joseph E. Maddy, president of National Music Camp; Dr. Earl D. Irons, Arlington State College; Dr. Archie N. Jones, University of Texas; Harold B. Bachman, University of Florida; and George C. Wilson, University of Missouri.

Dr. Robert Hawkins, Colorado Western State College; Paul Yoder, Chicago; W. F. Ludwig Jr., Chicago; Lt. Robert Landers, USAF "Singing Sergeants"; Forrest I. McAllister, Chicago; James F. Burke, New York City; and Clayton H. Krehbiel, University of Kansas, are also included.

Double T Group Will Hold Dance

Double T Association will have a spring dance tomorrow night at 8:30 in the ballroom of the Student Union building.

Buel Hubbard will furnish music for the semi-formal dance.

Members and dates who will attend are: Jim Turner, Bobbie Wilson, Vernon Barron, Jo Barron; Paul Erwin, Diane Erwin; Jerry Johnson, Jeane Cannon; Bob Kane, Judy Parker; Bill Tillman, Thelma Tillman; Richard Duke, Linda Hancey;

Gene Doss, Betty Doss; Hudson Houth, Jean Houth; Don Davis, Bobby Cearley; Garry Boyer, Mrs. Royer; Pat Green, Carolyn Sandlin; Victor Spooner, Shirlee King; Paul Nolan, Margie Hewitt; Mary Ribble, Jayne Charles; Bobby Bouldin, Mrs. Bouldin; Bobbie Lambert, Mrs. Lambert; Jimmy Sexton, Sue Ann Hunt; Raymond Mitcham, Mrs. Mitcham; Lewis Crossley, Katie Williamson; Bob Hunt, Anne Gray; James Odum, Hava Lofley; Elmer Wilson, Scharilyn Daniels; Don Lewis, Wanda Norman; Jerry Fairley, Royleene Wheeler; Ken Kummer, Kay Collins; Alton Linne, Pat Haws; Don Funk, Marion Chambers; Joe Moore, Betty McAllister; Lew Martin, Johnnie Bice; Harold Spraggins, Joan Gay; and Hollice Davis, Carolyn Taylor.

Dr. Sadler Will Call Year's Last SUB Square Dance Friday Night

The last square dance of a year will be called by Dr. J. D. Sadler, foreign language instructor, in the ballroom of the Student Union Building from 8:30 to 11 p.m. Friday.

An article by J. S. Dwyer, head of the department of industrial engineering and engineering drawing, was published in the May issue of Journal of Industrial Engineering. The article was entitled "Process Allowances for Work Standards."

Dr. E. N. Jones, Tech president, will give the commencement address at Monahans High School, Monahans, May 29. On June 8 he will make the commencement address at New Mexico College of Agriculture and Mechanic Arts, State College, N. M.

WILL THIS SUIT FIT YOU?

If you can make the grade, you can fly the latest, hottest, fanciest jobs in the air—and do it within one year.

IT TAKES a good, tough, serious guy to wear the gear of an Aviation Cadet. But if you can measure up, here's your chance to get the finest in aviation training—training that equips you to fly the most modern airplanes in the world and prepares you for responsible executive positions, both in military and commercial aviation.

It won't be easy! Training discipline for Aviation Cadets is rigid. You'll work hard, study hard, play hard—especially for the first few weeks. But when it's over, you'll be a pro—with a career ahead of you that will take you as far as you want to go. You graduate as a 2nd Lieutenant in the Air Force, with pay of \$5,300.00 a year. And this is only the

beginning—your opportunities for advancement are unlimited.

ARE YOU ELIGIBLE? To qualify as an Aviation Cadet, you must have completed at least two years of college. This is a minimum requirement—it's best if you stay in school and graduate! In addition, you must be between 19 and 26½ years, unmarried, and in good physical condition.

YOU CAN CHOOSE BETWEEN PILOT OR AIRCRAFT OBSERVER If you choose to be an Aircraft Observer, your training will be in Navigation, Bombardment, Radar Operation or Aircraft Performance Engineering.

New Aviation Cadet Training Classes Begin Every Few Weeks!

HERE'S WHAT TO DO:

1. Take a transcript of your college credits and a copy of your birth certificate to your nearest Air Force Base or Recruiting Station. Fill out the application they give you.
2. If application is accepted, the Air Force will arrange for you to take a physical examination at government expense.

3. Next, you will be given a written and manual aptitude test.

4. If you pass your physical and other tests, you will be scheduled for an Aviation Cadet training class. The Selective Service Act allows you a four-month deferment while waiting class assignment.

Where to get more details:

Visit your nearest Air Force Base or Air Force Recruiting Officer. Or write to: Aviation Cadet, Headquarters, U. S. Air Force, Washington 25, D. C.

SOCIETY

Applied Arts Department Will Display 'Art for Everyday Living' at Museum

Tech's applied arts department will be featured in an exhibit which begins Sunday at the Museum.

"Art for Everyday Living" will begin with an informal reception from 3 to 5 p.m. Sunday in the Art Gallery. Students and faculty are invited to the reception to be given by applied arts senior and junior students and staff, according to Miss Martye Poindexter, head of the department.

Displays and exhibits from applied arts classes will be shown. These will include projects completed in interior designing, leather work, woodwork, plastics, textiles and puppetry. The textile exhibits will include designs done in block printing, stenciling, tie-dyeing, and batik. Metal pieces will include jewelry fashioned by etching, bending, enameling or repousse.

"Creative imagination used in selecting and combining fabrics

and articles, colors and textures is as important as using raw materials to make an article," according to Miss Poindexter. She believes that appreciation of art is as important as production of the medium.

The applied arts department is a part of the Home Economics Division. Graduate applied arts students are equipped to work with department stores, decorators shops, teaching, recreation, camp organization, homemaking, occupational therapy and utility companies.

All work displayed in the two-week exhibit was planned and executed by students.

Recital Announced For Nancy Davis

Nancy Davis, Lubbock voice major, will present a senior recital at 4 p.m. Wednesday in the Music Auditorium. Marjore Seales will accompany her at the piano.

The program includes:
 Alleluja Mozart
 Early One Morning Old English
 I Know Where I'm Goin'

Nacht und Traume Schubert
 Der Nussbaum Schubert
 J'ai Pleure en Reve Hue
 Carnival Fouldrahn
 Air de Lia Debussy
 Ave Maria Verdi
 Bon Voyage Charles

 Bone and Fenton
 I Hear America Singing
 van Appledorn

Interviews Announced for Aluminum Company Here

The Aluminum Company of America, Rockdale, Tex., will interview 1953 graduates Monday with majors in chemical, civil, electrical, industrial, and mechanical engineering; chemistry; and journalism, the Placement Office announces.

The company's opening in journalism is for men for advertising, house publications and public relations.

Men should report to the Placement Office to schedule appointments.

Ten Army ROTC 'Awards' Dance Students To Go To Fort Hood Sunday

Ten members of the Tech Army ROTC unit will leave here today to spend a weekend at Fort Hood, Tex., and returning to the campus Sunday.

While at Fort Hood they will observe combat operations by the combined forces of the armored cavalry and infantry. These demonstrations are for the benefit of Texas ROTC cadets.

Cadets will be housed in army barracks Friday and Saturday nights. The only expense for those attending will be food. Officers' field rations will be issued.

M Sgt. A. T. Hill, campus ROTC instructor, will be in charge of the cadets. Those making the trip are: Gayle A. Erickson, Gerald P. Dietz, Lee T. Hannah, Eugene L. Rodgers, Jessie K. Newman, Francis L. Prince, Robbie N. Floyd, Veryl M. Brunton, Carol D. Davis and Bob L. Etheridge.

Transportation will be furnished by the campus ROTC command.

Business Group Chooses Officers

Members of Delta Sigma Pi, honorary business fraternity, elected officers at the club's monthly meeting Tuesday night.

Those elected are: David Collier, president; Art Lancaster, first vice president; Theo Lofton, second vice president; George Hargrove, secretary; Wherry Goar, treasurer; and Bubba Cotton, historian.

Tuesday night's speaker was A. B. Watkins, manager of Dunlap's department store. His subject was "The Psychological Basis of Humor."

Spanish Society Chooses Officers

Margaret Ann Garlin, junior from Lubbock, was elected president of Sigma Delta Pi, national honorary Spanish fraternity, at a meeting in the Student Union Building Tuesday night.

Other officers elected for the coming school year include Beverly Hutcheson, Lubbock junior, vice-president; Ann Heatley, Lubbock freshman, secretary; Martha Hobgood, Lubbock sophomore, treasurer; and Mary Ann Wilson, junior from Floydada, reporter.

Following the election, the new officers were installed in a candle-light service.

Pro and Con . . .

The frequent debates in recent days over the proposed (and apparently inevitable) move of students from Section O in Jones Stadium seem to result in a tie for the pros and the cons.

Those who consider big-time, winning football as essential for Tech must logically give their blessings to the proposal and to the expected \$8.50 activity fee allocation to athletics. Those who favor Tech's following the example of many schools in de-emphasizing intercollegiate sports will disapprove the action and the allotment.

Which is worth more to you: expansion of the sports program or a shift of emphasis to other student activities?

It's a matter of viewpoint.

Under the Breezeway

by Shirley Johnson, Toreador Editor

Most students are satisfied with their student newspaper but not enthusiastic, according to a recent ACP student poll.

The Associated Collegiate Press took a national poll to determine the answers to two questions: (1) how would you rate the job your college newspaper is doing in stimulating student thought?; and (2) how would you rate the job your college newspaper is doing in covering campus life?

Results:

In answer to the first question, 12 per cent, excellent; 46 per cent, good; 31 per cent, fair; 8 per cent, poor; and 3 per cent, no opinion. In answer to the second query: 32 per cent, excellent; 45 per cent, good; 17 per cent, fair; 5 per cent, poor; 1 per cent, no opinion.

Toreador reporters were then sent to interview students on campus, to determine Techsians' attitude toward their campus newspaper.

Results:

First question, 9 per cent, excellent; 40 per cent, good; 34 per cent, fair; 17 per cent, poor; and none, no opinion. Second question, 9 per cent, excellent; 30 per cent, good; 35 per cent, fair; 26 per cent, poor; and none, no opinion.

At least students took enough interest to give an opinion.

Twenty-three persons were interviewed in The Toreador poll. Most of these students were in the Student Union Building, where a representative group might be found.

There is, of course, no earthly way of pleasing all the people all the time. Such things as please one person are the antithesis of what another desires to read.

For example, three students stated that the paper printed too much social club news. Since last October, complaints have averaged one to two a week that "The Toreador is not printing all the social club news turned in," or that "the story was too small."

Six interviewees felt that news coverage was inferior, with too little variety. Three others felt that the coverage could not be improved upon.

The truth probably lies between the two positions, with slightly more weight to the negative view. However, part of the lack of coverage comes from lack of space, and students failing to meet deadlines.

Some clubs and organizations have reporters who care enough to turn in news. The paper staff does not claim to know all that is going on; unless a club reporter sends in news, the story may be missed.

Another person stated that "the paper should contain more features." See BREEZEWAY, Page 5

Poll Presents Students Views Of Toreador

By JIMMY CLARK and CLAUDIA MARTIN, Toreador Staff Writers

A student opinion poll held Tuesday and Wednesday in the Student Union Building revealed that a majority of students favor the editorial policy of The Toreador and believe that it is essentially what a good newspaper should be, however.

They felt that it should contain more campus news of interest to a larger percentage of the students. They also felt a need for various improvements and say that the paper is lacking in many fields.

Questions

Two questions were asked: 1. How would you rate the job The Toreador is doing in stimulating student thought? 2. How would you rate the job The Toreador is doing in covering campus news?

Of the 23 students interviewed, two rated the first question excellent; nine, good; eight, fair; four, poor; and none, no opinion. In answer to the second question, two replied excellent; seven, good; eight, fair; six, poor; and none, no opinion.

Comments ranged from "I feel that Toreador could be improved a great deal" to "There is, in my estimation, no room for improvement."

Stimulates Thought

A junior business major said, "It's good in stimulating thought, but not always constructive thought." Another student, a senior business major, said, "I feel that Toreador does a poor job of stimulating student thought because it does not cover the student problems. I feel that the paper pleases most student readers."

"It's not expressing thought, and I wonder if it is stimulating it," another person said. "It covers the news of names and prominent organizations, but it is slightly under par on coverage of departmental organizations."

A sophomore chemical engineer stated, "I believe that Toreador frequently stimulates student thought and suggests new ideas to students."

DUB KILKENDALL '51

.. SO THEN I TOLD THAT SHERIFF THAT THIS SO-CALLED WESTERN DAYS WAS A LOT OF BULL!"

TECHNICALITIES

by Ralph Shelton, Toreador Associate Editor

The Toreador's policy of not printing anonymous letters-to-the-editor prevents the publication in BACKTALK of a two-pager received Tuesday. It was signed only "a group of Knapp Hall residents."

Since the editors feel that the information offered in the letter deserves a hearing, the writer of this column would like to present it here. The authors of the letter state that they do not feel that the membership of Las Vivarachas (now Zeta Tau Alpha) is composed of "culls"—as La Ventana's page 418 saw fit to charge. They cite a particular member as argument for their belief.

Shirley Schmidt Jackson, they state, came to Tech in 1949 on a Dunlap scholarship. Her activities since then are listed as follows: Drane Hall house senate for two years; Knapp Hall house senate two years; Tech Choir; chairman of the Rec Hall hospitality committee; chairman of the inter-dorm council; member of WICQ for two years; junior class secretary; state secretary of Future Teachers of America; AWS representative; member of Senior Carnival committee; included in all-college recognition service for three years (two for scholarship, one for leadership); president of Las Vivas; and member of Sock and Buskin, Capa y Espada, Wesley Players, Tech Chamber of Commerce, Board of Student Organizations and the Rodeo Association.

The writers ask: "Would you

call that the record of a cull?"

Also in the Vivas, we are told, one will find: the president of Theta Sigma Phi; a runner-up for Roundup Queen; one of the top six beauties and three other beauty winners; two members of Alpha Lambda Delta; two members of Phi Upsilon Omicron; a member of the Student Religious Council; the Fine Arts editor of the Lubbock Avalanche-Journal; a member of the debate team; ROTC Company A sweetheart; two members of the AWS council; and three members of Alpha Chi. There are others, they maintain, that are not mentioned in the letter.

The letter concludes: "No, we would not consider them 'culls,' and would like to ask Mr. Good-year where he got the basis for his statement, or where he got such a warped opinion that enabled him to feel that it was his prerogative to slam all the social organizations on the campus."

While we're on the topic of the Greek ladies, we note in passing that two members of a sorority were in the Gordon Hall dining room Wednesday soliciting penny votes for one of their sisters, a candidate for Rodeo Queen.

The girls need to be reminded that all such undertakings in the dorms must be approved by the Student Council and the dorm's supervisor.

At least one Council member was seen to turn his head the other way from the girls' activities. It was gallant, but was it conscientious?

Names on request.

BACKTALK

Dear Editor,

In reply to your editorial which appeared in the Friday April 24 edition just thought I might drop you this little hint.

I agree with the writer of this article, "The Window Needs Washing", but I can say that the personnel of The Toreador has no room to be complaining. In my own opinion, and several others who's fees go to pay for the publishing of the so-called student newspaper, the bullfighter should be flushed because it is past washing and certainly is not good for anything else.

You seemed to place all the blame for the condition of the La Ventana on the editor but I am sure he consulted his assistants on the form of the annual. I happen to be fairly well acquainted with Burt Goodyear, editor, and Ted Harrison, associate editor, and happen to know that they gave up their desires to be active in the student organization of their choice that they could put more time and energy toward turning out a yearbook that Techsians could be proud of. So they missed their boat, why run them down when student opinion will be heard enough on them.

As for the Honor Roll which appeared on page 119, I can at least say that they had the foresight to give credit to those people who were so cooperative with them during this past seven months and who has been given credit for the gored bullfighter? I can tell you that I have noticed the editors picture in every edition and most of the time at least one of the associate editors all of which takes up the space that the students pay for but for which they have no say about what will go into this space nor who will determine it. I am sure everyone who reads this social sheet know by now what the editor looks like so why continue boring us with this same picture week after week.

I guess by the time the editor get through digging up dirt on some student, putting staff pictures all over the thing, and any other little ditties that do not interest the students in the least there will be no room in The Toreador for this or if there is the editor will cull it back because from past observations she cannot take criticism. However, I would like her to at least take the time and space to let the annual staff know that they are not the first on Tech Campus who have goofed the show.

Respectfully,
TOM McPHERSON

Officers Give A

By JIMMY CLARK
Toreador Staff Writer

Holders of the eight major offices recently were elected. They considered their duties and those of their successors. Answers of five of the officers were printed in The Toreador and those of the remaining three are given below.

Statements printed were those of Harold E. Student Association president; McGraw, vice president; Bruckner, business manager; Mason, secretary, and address; head boy cheerleader; Joplin, head girl cheerleader, is not in school this year and could not be contacted.

Editor
"Toreador," says Editor Shirley Johnson, "has been faced with numerous problems this year. There have been the problem of little space, not being able to pass the general reader's names, and students falling short of Toreador deadlines."

Always, she added, there has been the lack of too much writing.

Miss Johnson, a Lubbock junior, says that she advised that the 1954 editorial campaigns. "Also, there should be a better system of covering news and club reports. More active," she said.

Editor
"It takes about 50,000 hours of labor to produce the 'Ventana,'" says Bert Good-

editor.
"The editor," he says, "is with the problem of trying to please not only the 3,400 students who purchase yearbooks, but the parents and friends, high school students, businessmen, and other people not directly connected with the campus. Each of these persons," he says, "seeks to be pleased with one page of the yearbook with each of the 432 pages."

SENIORS MET TODAY

The senior class met at 5 today in Ad 219. The gift certificate made a report of its activities. See: Morehouse gave a full report.

La Ventana In Student Union

La Ventana will continue distributed from 11:15 to every morning and from 2 every afternoon in the Student Union Building, says Roy Gimes, business manager.

Sick List

Tech students in the infirmary this week are: Nina Sue Blum, Oak, Horn Hall; Roger K. F. man, Oak Hall; Johann M. Lubbock.

Officers Give Advice To Successors

By JIMMY CLARK
Toreador Staff Writer

Members of the eight major campus offices recently were asked what they considered the requirements and duties of their positions. Answers of five of the officers were printed in Tuesday's Toreador and those of the remaining three are given below.

Statements printed Tuesday were those of Harold Bramman, Student Association president; Jim McGraw, vice president; Benny Bruckner, business manager; Wanda Mason, secretary, and Don Andrews, head boy cheerleader. Peggy Joplin, head girl cheerleader, is not in school this semester and could not be contacted.

Editor

"Toreador," says Editor Shirley Johnson, "has been faced with numerous problems this year. There have been the problems of too little space, not being able to please the general readership, finances, and students failing to meet Toreador deadlines," she says.

Always, she added, there has been the lack of or too much advertising.

Miss Johnson, a Lubbock journalism senior, says that she would advise that the 1954 editor use editorial campaigns. "Also, there should be a better system of recruiting news and club reporters should be more active," she says.

Editor

"It takes about 50,000 man hours of labor to produce the La Ventana," says Bert Goodyear, editor.

"The editor," he says, "is faced with the problem of trying to please not only the 3,400 students who purchase yearbooks, but also the parents and friends, exes, high school students, business men, and other people not directly connected with the campus."

"Each of these persons," he continues, "seeks to be pleased not with one page of the yearbook but with each of the 432 pages." Good-

year says that publishing a yearbook requires intricate co-operation between studio photographers, staff members, engravers, and printers.

"There is approximately \$27,000 in a La Ventana budget," he said. Goodyear is a Lubbock senior majoring in education.

Director

Varsity Show Director Odis Echols believes that the director should be chosen earlier in the year in order that there will be more time to work toward the production of a show.

"Early appointment," he says, "would enable a quicker appointment of assistants and would allow earlier tryouts and auditions." He advises that next year's director have more than one dress rehearsal.

"Some of our basic problems this year," he said, "have been in securing a place for rehearsals and establishing a time when all cast members could meet."

Engineers Get an Unusual Request

By CLYDE WALTER
Toreador Staff Writer

A letter was handed to Joe Hastings, engineer show manager, early this week containing an unusual request.

Hastings gave the letter to William Moore, a specialist in this type of problem.

The letter addressed to "Oil Production Dept. Texas Tech College," reads: "Dear Sirs: Please send me a picture of the modern oil well just like the model of the modern one at the 'Engineers Show'. I would like for the picture to be clear enough to show everything. I am going to make a model of it for my model railroad pike. I would appreciate it if you would send this."

Darral Wiggins
Box 536
Hale Center, Texas

Moore, petroleum engineer, announced today that the request has been granted.

BREEZEWAY—

It should, it should also contain more news. Until there is room for all the news, there will be no room for features.

Using material which does not interest the students was the charge leveled by four students. Others feel that stories are of interest, and that "the students are represented well in the news."

The most often cited fault was that the editorials needed reworking. Seven students registered complaints here. Changes ranged from "editorials contain prejudiced material to 'too much liberty in originating problems that are not actually existent."

Perhaps some of the editorials have represented one side more than the other. In cases where it was possible, the open view was presented; at other times, the Toreador had to take a definite stand upon a question. When it was thought necessary, we did so. However, the "Backtalk" Column was always open for any return; for instance, check the letter in this issue.

The complete report on comments obtained in the poll is in the feature beginning on the editorial page. Names and percentages are in The Toreador files, should anyone wish to disagree or check.

POLL—

the student readers. However, editorials frequently contain prejudiced material. When this happens, students fail to profit."

Need Editorial Campaign

"Editorials could be better composed, and there is a need for editorial campaigns," says a sophomore chemistry major. A pre-law freshman felt that "Toreador is quick to ridicule before it finds out details. There is a need of improvement in coverage of news and editorials need improvement."

"Newspaper editorials tend to discuss only the bad points of a thing and do not trouble themselves with congratulations." A sophomore business major stated that "Toreador issues sometimes contain catty comments. Usually, however, the editorials contain very good ideas. Sometimes the editorials directly reflect personality and tend to make students angry."

A freshman business major said, "I believe the editorials awaken the students to many existing problems but I feel that it frequently uses too much liberty in originating problems that are not actually existent."

"Editorially the paper should present both sides of an issue. Some division activities need more coverage," stated an engineering senior.

The sophomore chemistry major also said that "the editors should remember that the paper belongs to the students and that it is not a faculty bulletin."

"Some social club news is played up more than other," said the freshman business major mentioned previously. "Frequently there are not enough items of student interest. There is a tendency to make campus leaders too prominent in the news."

More Features Needed

"The paper should contain more features. Naturally, it needs to be larger," continued the sophomore chemistry engineer. "I feel that the paper contains an abundance of faculty and other material that does not interest the students."

"Toreador has shown a definite improvement since last year," said a sophomore agriculture major. "I feel that the paper could profit by using less social club news, less advertising, and using more pictures."

One of the pre-law majors added, "I believe that Toreador tends

AAUW Delegates Will Be Honored

The foods and nutrition department will serve a tea from 4 to 5 p.m. tomorrow for the delegates to the state meeting of the American Association of University Women. The meeting begins today.

Hostesses for the tea, which will be served in the dining room of the Home Economics Building, will be the Lubbock Branch of AAUW.

Mrs. E. N. Jones, Dean Margaret W. Weeks and Mrs. C. D. Eaves, president of the Lubbock branch, will be among those pouring at the tea.

Mrs. Jonnie Michie, head of foods and nutrition, and Mrs. Mayme Twyford, associate professor of foods and nutrition, are in charge of arrangements for the affair.

'51 Graduate Gets EOCS Commission

Edgar W. Brash Jr., '51 Tech Engineering graduate from Levelland, has been commissioned a second lieutenant following graduation from the 28-week Engineer Officers Candidate School at the Army's Engineer Center, Fort Belvoir, Va.

Lt. Brash was employed by Phillips Chemical Company in Borger before entering the army. His wife, formerly of Bowie, is living in Lubbock.

WILL BE SOLOIST

Ira Schantz, Tech voice instructor, will be a soloist with the Midland Symphony Orchestra and Choral Society Saturday. He will be one of the soloists with the Lubbock Symphony Orchestra's annual "pop concert" at 8:15 p.m. Monday and Tuesday in the Lubbock High School Auditorium. The songs are from Jerome Kern's music.

Texas Hand Weavers To Meet Here; Work To Be Displayed In HE Building

Hand weavers from over the state will meet on campus tomorrow and Sunday for the annual meeting of the Contemporary Hand Weavers of Texas. Exhibits of entries in the various classes will be open to the public Saturday in the Home Economics Building.

The organization is composed of weavers who use hand looms and who are Texans or have at one time lived here. Entries in the judging classes from outside the state include articles from California, Wisconsin, Ohio, Illinois, Oklahoma, and New Mexico.

About 50 of the 200 members of the organization are expected to attend. They will bring hand-woven objects with them to be entered in the judging. Included will be shirts, stoles, aprons, dress

fabric, upholstery, casement curtains, rugs and placemats, according to Miss Mabel Erwin, head of clothing and textiles and chairman of the affair.

The weavers will attend a tea given by the Home Economics Division tomorrow afternoon and a coffee in the faculty lounge of that building on Sunday.

Members of the organization are striving to adapt the ancient art of weaving to the modern demands in textiles, says Miss Erwin. High school and college students have entries in the judging. All classes will be judged by Mrs. Edna Buster, associate professor of clothing and textiles, T. H. Hewitt, Houston, and Rudolph Fuchs, professor of art, North Texas, Denton.

SILVER KEY—

Jack Hon, Carl Ince, George Lemon, Dick McColium, Dick McGuire, Reg Martin, Coy Orr, Bob Peterman, Marshall Pharr, John Pittman, Sammy Self, Jim Sexton, Bill Snyder, Donnie Stevens, Ray D. Thornton, Clyde Walter, Delwin Stults, Charles Whittfield, Wayne Williams, and John Harding.

Judging Contest Set May 9 For Freshmen, Sophomores

"A judging contest for freshman and sophomore students will be held May 9 beginning at 1 p.m. in the Judging Pavilion," says S. E. Anderson, assistant professor of animal husbandry.

Any freshman who has had or is now taking animal husbandry 131 is eligible; any sophomore now taking or who has taken animal husbandry 231 is eligible.

Sandlin Elected HE Club President

Carol Jean Sandlin, Lubbock junior, was elected president of the Home Economics Club in voting held Tuesday and Wednesday. There will be a run-off between Martha Blankenship, Morse freshman, and Patsy Wiltshire, Hereford sophomore, for the office of vice president.

Ruth Smalley, Lubbock junior, was elected secretary, and June Christian, junior from Farwell, was chosen treasurer. AWS representative is Joanne Patching, junior from Happy.

POLL—

to publicize only a few persons on campus, completely ignoring hard workers in the background." Further comment from the sophomore business major was, "There is too much social club news and I feel that there is not always adequate news coverage and there should be more news variety."

Prints Criticism

Another sophomore business student said, "I respect the way Toreador prints criticism. More emphasis should be given in recognizing students who help in campus functions, though." A junior music major said, "There should be more columns dealing with Tech life and student opinion." Another junior business major said, "It seems to me an expensive bulletin board, with only coverage of news and lack of interest."

A senior government major said, "Ralph's column is quite interesting and, considering the financial status, coverage is good." The engineering senior quoted above also said, "I feel that the paper should be published more frequently and that there is a need for broader news coverage." An animal husbandry major said, "My only criticisms are that there is not enough emphasis placed upon intramural sports and sometimes there is not complete news variety."

Some of the other comments received were:

"There is almost no way of improving the paper. There is an adequate coverage and students are represented well in the news."

"The problems that exist are and I see no room for improvement under the present set-up. It's a fine paper."

"As far as my personal interest is concerned, it has done a fine job. It would do a better job if the Student Council would give it more money."

RODEO—

saddle bronc riding, bull riding, bulldogging, calf roping, ribbon roping and wild horse races. Women's events are goat tying and barrel race. Only women's teams entered are from Sul-Ross, TCU and Tech.

Sheriff Fred Willis and his deputies are keeping law and order among the spectators at each performance of the rodeo. Deputies for Western Days are: Jim Nickell, Carroll Barnett, Robert Jacobson, Spencer Norwood, Charles Browning, Gene Harral, Duvan Harral, Carl Menzies, Buzzy Thorp, Lewis Blau, Wayne Arroll, Ed Fouts, Calvin Meissner, Joe Lackey, Jack Harris, James Ross, Johnny Leonard, Jim Thornton, Bill Hanson, Bobby Henley, David Baumgardner, Sandy Welton, Jim

my Martin, Bobby Joe Browning, Harold Fox, Herb Young, L. T. Harvey, Kup Gattin, Nolan Payne, Wayne Schultz, Richard Johnson, Brian Boyett and Vic Spooner.

Each performance of the rodeo will feature entertainment by the Luyckle Cawey troop (a trio of women trick riders), and Gene Newnam (famous collegiate clown).

Finale for the rodeo will be the awards dance in the gym Saturday night after the final performance. Prizes to winning contestants will be given at the dance. Among the awards to be made are a silver around cowboy and luggage for the best-all-around cowgirl. Winners in each event will receive a championship belt buckle. These and other awards have been donated by Lubbock business firms.

Tech In We

Tech's fencing team is a favorite to take the sectional Finals of the American Fencing League of America Saturday and Sunday. Hoop teams from Texas and Galveston are expected to give the Raider Crew a run for the money.

Texas A&M is the defending Southwest Conference champion and the Galveston Buccaneers A&M team, has long been a favorite in AFLA competition in AFLA competition.

Eleven Teams Entering

Eleven teams have entered today meet, whose purpose is to qualify participants in men's and women's division for the national AFLA meet in Austin in June.

Tech will be represented by three fencers who qualified in the North Texas divisional meet. They are: Zoe Merritt, Lubbock; Iva Crowley of Tech; and Jack Cornell of Lubbock.

Members of Mineral Wells, Strakeville of Lubbock, Ed S. McWhorter and Ben Douglas of Tech Favored

The Raider fencers are regarded as favorites largely because of their experience.

Intramural Track Big Field Of Events

Tech's intramural program is to have its annual track meet this year after rain played with the events twice last year.

The meet is slated for the May 9 with any team composed of students eligible. Varsity athletes are not eligible.

The meet will begin at 10 a.m. with the following events: 500 yard dash, 1000 yard dash, 1500 yard dash, 2000 yard dash, 3000 yard dash, 4000 yard dash, 5000 yard dash, 6000 yard dash, 7000 yard dash, 8000 yard dash, 9000 yard dash, 10000 yard dash, 11000 yard dash, 12000 yard dash, 13000 yard dash, 14000 yard dash, 15000 yard dash, 16000 yard dash, 17000 yard dash, 18000 yard dash, 19000 yard dash, 20000 yard dash, 21000 yard dash, 22000 yard dash, 23000 yard dash, 24000 yard dash, 25000 yard dash, 26000 yard dash, 27000 yard dash, 28000 yard dash, 29000 yard dash, 30000 yard dash, 31000 yard dash, 32000 yard dash, 33000 yard dash, 34000 yard dash, 35000 yard dash, 36000 yard dash, 37000 yard dash, 38000 yard dash, 39000 yard dash, 40000 yard dash, 41000 yard dash, 42000 yard dash, 43000 yard dash, 44000 yard dash, 45000 yard dash, 46000 yard dash, 47000 yard dash, 48000 yard dash, 49000 yard dash, 50000 yard dash, 51000 yard dash, 52000 yard dash, 53000 yard dash, 54000 yard dash, 55000 yard dash, 56000 yard dash, 57000 yard dash, 58000 yard dash, 59000 yard dash, 60000 yard dash, 61000 yard dash, 62000 yard dash, 63000 yard dash, 64000 yard dash, 65000 yard dash, 66000 yard dash, 67000 yard dash, 68000 yard dash, 69000 yard dash, 70000 yard dash, 71000 yard dash, 72000 yard dash, 73000 yard dash, 74000 yard dash, 75000 yard dash, 76000 yard dash, 77000 yard dash, 78000 yard dash, 79000 yard dash, 80000 yard dash, 81000 yard dash, 82000 yard dash, 83000 yard dash, 84000 yard dash, 85000 yard dash, 86000 yard dash, 87000 yard dash, 88000 yard dash, 89000 yard dash, 90000 yard dash, 91000 yard dash, 92000 yard dash, 93000 yard dash, 94000 yard dash, 95000 yard dash, 96000 yard dash, 97000 yard dash, 98000 yard dash, 99000 yard dash, 100000 yard dash.

Tech Fencers Favored In Weekend Meet Here

Tech's fencing team is a heavy favorite to take the Southwest Section Finals for the Amateur Fencing League of America here Saturday and Sunday. However, flashy teams from Texas A&M and Galveston are expected to give the Raider Crew a run for its money.

Texas A&M is the defending Southwest Conference champion, and the Galveston Buccaneers, a YMCA team, has long been a standout in AFLA competition.

Eleven Teams Entered
Eleven teams have entered the two-day meet, whose purpose is to qualify participants in both men's and women's divisions for the national AFLA meet in Washington in June.

Tech will be represented by seven fencers who qualified earlier in North Texas divisional competition. They are: Zoe Merriman of Lubbock, Iva Crowley of Slaton, Jack Carnell of Lubbock, Roddy Holson of Mineral Wells, Cecil Bradshaw of Lubbock, Ed Sims of Mobeetie, and Ben Dougherty of Midland.

Tech Favored
The Raider fencers are regarded as favorites largely because of

their impressive showing in the Grand Tournament of the Americas in El Paso last Saturday and Sunday. The Tech crew racked up 24 victories to sweep to first place in the two day meet. The National Federation team of Mexico, with 14 wins, was a distant second. Texas A&M scored 10 wins to take third place.

A first in team foil; a second in team epee, team sabre, and three weapon events; and a first place in the gentlemen sword tourney accounted for most of the Raider tallies.

Other fencing teams who will participate in the week-end meet are from the University of Arizona, Rice Institute, Fort Bliss, Texas State College for Women, Tarleton College, Dallas, Fort Worth, and Tucson YMCA's.

Women's Softball To Begin Monday

The women get a chance to prove their skills, as the Panelenic-sponsored softball tournament begins Monday afternoon on the diamonds behind Tech Gym.

Swimming Letters To Be Awarded

Tech swimming lettermen have been announced for this spring by Dr. Ramon Kerellis, coach.

The Raiders won five matches against only two losses in their third year of competition.

Winning letters are: Bob Shackelford, 51 points; Brooks Alkin, 39; Bob Kain, 35; Bill LaShier, 26; Norman Hemphill, 23; Don Davis, 14; Fred Jobe, 11; Jim Brasch, 11; and Malcolm Daniel, 10.

Four Border Conference champs come from the Raider team. Arizona and Tech are the only two Border teams competing in the sport. Therefore, the league champs were decided in the two matches last weekend between the Techs and Wildcets at the Boys Club Pool.

Hemphill is the conference diving champ while Shackelford is the 200-yard breast stroke winner, LaShier, Shackelford, and Alkin took the league title in the 300-yard medley relay.

The five sororities of the campus will compete in the annual spring tourney, with a cup being awarded to the winning team. The females will be trying for a new cup this year, as the Pi Phi's won the tournament for the third consecutive time last spring to take permanent possession of the old cup.

Competing are: Pi Phi, Theta, Kappa, Tri-Delta, and Zeta. Games start at 5 p.m. sharp, with the tourney ending Friday afternoon.

SPORTS

In the hands of the Tech president is a proposal protested by the Student Council to move students out of Section O at Raider football games in the future.

The proposal, originally presented to the Council by Coach DeWitt Weaver, would move the students from the section and divide it into approximately 150 boxes, for which option would be sold. The action has created quite a stir on the campus.

But wait a minute! . . . Who are the people that howled about

wanting good football teams? Who are the people that howled about wanting a baseball team? Who are the people that howled about wanting better teams to represent the school in the so-called minor sports?

These are the same people howling about moving out of Section O. Sure, it takes money to have all these winners students want.

Some sports may be getting commercialized, but Texas Tech certainly wasn't anywhere near the first school to put some added emphasis on athletics. Taking a look at things after the 1950 season, some emphasis was needed.

See SPORTS, Page 8

Tech Net Team Battles WT Here

The Raider tennis team does battle with West Texas State at 1 this afternoon at the Lubbock High School Courts.

The Tech racketeers will be seeking to duplicate their 4-1 victory over the Buffaloes earlier this season.

So far the Tech crew has won three, lost five, and tied one. Wins over Abilene Christian, West Texas State, and Texas Western account for the three Tech victories.

The Raiders have lost to Arizona, SMU, TCU, Colorado, and Hardin-Simmons. The tie match was a 3-3 split with Abilene Christian College on April 16.

The match with West Texas State is Tech's last contest before the Border Conference meet in Abilene May 8 and 9.

Raider Golfers Blank McMurry

Tech's golf team blasted McMurry, 6-0, in a match in the wind and sand Monday afternoon at the Lubbock Country Club.

Joe Stoltz captured medalist honors with a 78. He was followed by Jerry Thornton, who shot a 79, and Dub Warden and David Moorhouse, each with 80s.

In the single matches, Warden of Tech downed Bob Pritchett, Stoltz took McMurry's Sonny Ehrle, Thornton and Moorhouse of Tech topped Bob Cooper and Jerry English.

The McMurry contest is the last match for the Raider linksmen until the Border Conference meet in Abilene May 8 and 9.

Intramural Track Meet Slated Again; Big Field Of Events To Be Entered

Tech's intramural program will try to have its annual track meet this year after rain played havoc with the events twice last spring.

The meet is slated for the field May 9, with any team composed of college students eligible to enter. Varsity athletes are not eligible.

The meet will begin at 1 p.m. with the following events slated: pole vault, shot, high jump, softball throw, high hurdles, broad jump, 880-yard dash, 440-yard dash, 220-yard dash, 200-yard low hurdles, football throw, 100-yard dash, 60-yard dash, 440-yard relay, and the mile relay.

Officials for the meet will be taken from physical education majors who have had officiating.

The intramural meet was begun in 1949 and continued until last year.

Kemas Fraternity took the title in 1951 with 32 2/3 points. Following close behind were Los Camaradas, 25 1/3 points; Centaur, 20 2/3 points; and College Club and BBU with 19 1/3 tallies.

Other teams enter in the meet were the Whirlwinds, Wesley Wildcets, Doak Hall, Dorm III, and Silver Keys.

Jim Daniels led the individual scopers with 16. Second was George Hotchoomas, 10; Third,

John Ochsenr, College Club, 8 1/2 points; Fourth, Dub Kuykendall, Centaur, 18 1/2 points.

Entries should be turned in to George Philbrick's office in the Gym not later than Tuesday, May 5.

May 21 Date Set For Draft Exams

May 21 is the date of the last Selective Service college qualification test to be given this year, announces the office of the state director. Applications for the test must be postmarked no later than midnight, May 11.

Applications for the test, which is to aid draft boards in selecting students to be deferred, may be obtained from any draft board. Applications for the last test which was held on April 23, will not admit a student to the test of May 21.

To be eligible to take the test, an application (1) must be a draft registrant who intends to request student deferment, (2) must be satisfactorily pursuing full-time college work leading to a degree, and (3) must not previously have taken the test.

Present criteria for student deferment are either a score of at least 70 on the test, or class standing among male members in upper half of the freshman class, upper two-thirds of the sophomore class, or upper three-fourths of the junior class.

Club To Hold Last Meeting; Eugene Folsom Will Speak

Eugene Folsom, Tech ex, will speak at the semester's last meeting of the Geology Club to be held Monday.

Folsom, now employed by the Stanolind Oil Company in Lubbock, will speak on "Economic Evaluation of Seismic Records."

SPORTS—

Everyone wanted a winner. Now that we're trying to produce a winner, and in more than one sport, no one wants to give up the necessary sacrifices to have one.

The option on proposed boxes in the section would bring in a great deal more money than that of student tickets. This money is what would go for those athletic needs, such as a baseball team.

Section O is the center section on the east side of Jones Stadium from one 40-yard line to the other. Suppose the section is taken away from the students. What's wrong with the section they would have? The students are allotted three sections. They would still have N and P, which extend to between the 15 and 20-yard line. Then they would have M or Q to take the place of O. We can't see that they have any reason to complain about these seats. Sure, there are plenty of colleges with the students sitting on the 50, but there are just about as many that aren't so fortunate.

The students that would be so disappointed about losing Section O should stop and think. Do they still want a baseball team, or an improved team in other sports? If they do, it shouldn't hurt them to give up the center section...

PROM—

until the tickets are gone. Prices are \$3, couple, and \$5, stag; only 350 will be sold.

Artie Shaw and his orchestra will play for the dance, which will be held from 8 to 12 p.m. May 15 in the Student Union Ballroom. The dress will be formal without corsages.

Tickets will be sold only to juniors and seniors and on a "first come, first serve" basis, says Moody Alexander, publicity committee chairman. Members of the two classes may take non-class members to the dance, however, he says. Girls living in the dormitories will be given one o'clock privileges.

Kemas Receives Scholarship Award Wednesday in Annual MICC Smoker

Kemas was awarded the Men's Inter-Club Council Scholarship plaque at the tenth annual smoker for members and pledges of Tech's eight men's social clubs held Wednesday night in the ballroom of the Student Union Building. The winning club's grade-point average was 1.67 for the past two semesters.

Runner-up was Adelphi with 1.65. Other clubs and their averages were: Centaur 1.53, Silver Key 1.51, College Club 1.44, Socii 1.40, Los Camaradas 1.38, and Wranglers 1.29.

Speaker for the event was Dr. R. R. Oglesby, dean of students at Oklahoma A&M. He was introduced by James G. Allen, Tech's dean of student life. Earlier in the evening, Dr. Oglesby addressed officers of the social clubs at a banquet in the Caprock Hotel.

In his talk, Dean Oglesby listed a series of commandments for fraternity life.

Trophies for the past year's softball and basketball titles won in MICC competition went to Wranglers. Los Cams received the football trophy.

Club presidents presented certificates to the members and

pledges of their respective clubs who had the highest grade-point averages for the spring and fall semesters of 1952.

Awards were made to the following:

Nothing-no, nothing-beats better taste
and **LUCKIES**
TASTE BETTER!
Cleaner, Fresher, Smoother!

Ask yourself this question: **Why do I smoke?**
You know, yourself, you smoke for enjoyment. And you get enjoyment only from the taste of a cigarette.

Luckies taste better—cleaner, fresher, smoother! Why? Luckies are made better to taste better. And, what's more, Luckies are made of fine tobacco. L.S./M.F.T.—Lucky Strike Means Fine Tobacco.

So, for the thing you want most in a cigarette... for better taste—for the cleaner, fresher, smoother taste of Lucky Strike...

Be Happy—GO LUCKY!

COLLEGE STUDENTS PREFER LUCKIES IN NATION-WIDE SURVEY!
Nation-wide survey based on actual student interviews in 80 leading colleges reveals more smokers prefer Luckies than any other cigarette by a wide margin. No. 1 reason—Luckies' better taste. Survey also shows Lucky Strike gained far more smokers in these colleges than the nation's two other principal brands combined.

Help put out the daily news—
with paper, pen and paste—
And when I'm done, I always run
for Luckies' finer taste!
