84 Students Run In Election Race

Students will go to the polls tomorrow to elect class officers and fill Student Council vacancies in two schools.

A total of 84 candidates are running for class offices and ten students have entered the race for representatives from the Schools of Home Economics and Business Administration.

One vacancy in Home Economics and two in Business Administration need filling due to disqualification of representatives elected last spring. These students were disqualified either by low grades or by transferring.

New candidates were being disqualified late Monday for their failure to comply with campaign rules as set up by the Student Council Elections Committee, according to Sandra Allison, committee member. Students questioning their disqualification are urged to contact Janis Jones, Student Assn. secretary, or any member of the Elections Committee by 5 p.m. today.

Ballot boxes will be set up in the residence halls from 11 a.m. until 1 p.m. Off-campus students may vote from 8 a.m. until 5 p.m. at polls in Tech Union, Administration Bldg., C&O Bldg., East Engineering Bldg., and Agriculture Bldg.

Class officer candidates and the positions sought are:

Senior president—Bob McGough, Bobby Rogers, Don Zimmerman;

Senior vice president—Cam Cunningham, Bud Henderson, Don O'Neal, Leroy Plumlee;

Senior secretary—Pepper Connelly, Joanne Dorsey, Cindy Watson;

Senior AWS representative—Harriett Kittrell, Barbara Underwood;

Junior president—Jerry Avery, Johnny Grist;

Junior vice president—Judy Harper and Wes Coggins;

Junior secretary—Linda Jeane Anderson, Linda

Barnhill, Linda Lockett, Linda Wetzel;

Junior AWS representative—Pat Clover, Susan Craig, Vina Mayfield, Judy Martin, Gail Pfluger, Jeanine Whitehead;

Sophomore president—Kenny Abraham, Jerry Parsons;

Sophomore vice president—Bryan Adams, Judy Kinney, Julie Mingus, Ray Thompson;

Hutt, Anne Mason, Denise Rose, Mary Thompson, Ann

Sophomore secretary—Claudia Austin, Maridelle Weaver;

Sophomore AWS representative—Kay Edwards, Ginger Forrest, Marilyn Galloway, Lynn Gart, Glenda Link, Barbara McMurrey, Priscilla Nichols, Suzi Ward, Ann Wilson;

Freshman president—Wayne Davis, Glen Edwards, Dave Lindeman, Bobby Stanton, Bob Tate;

Freshman vice president—Jan Barton, Sandra Broxton, Dwayne Gray, Donna Joyner, Bill Kendrick, Mose Lindsay, Gary Milburne, Donnie Richards, Tommy Scott;

Freshman secretary—Carol Anderson, Karen Anderson, Suellen Barbee, Sally Bartlett, Jo Buschow, Jeanie Gratton, Carole Harmon, Wynette Johnson, Nancy Jones, Ann Orrick, Phoebe Pack, Kay Robinson, Nancy Thomas;

Freshman AWS representative—Nancy Barton, Ann Douglas, Sarah Gaston, Mary Alice Hill, Jan Justice, Bobby Richards, Kaye Smith, Alice Utterback, Suzi Ward, Margo Williams.

Vying for Student Council representative are:

Home Economics—Polly Dahl, Joyce Woody, Jane Sessums;

Business Administration—Ken Bailey, John Compere, Pat Coplin, Linda Erwin, Cliff Thompson, Bill Skeeters, Virgil Wilson.

A TIRED COED — An unidentified Tech coed grabs a bit of sleep on the way back from Austin Saturday night. Spirits were high on the way down, but the ride back was quiet indeed. The Raiders had lost and the hour was late.

DEAR TECH SOIL — That's what these two Tech coeds must have been thinking Sunday morning as they arrived back on campus after the bus trip. Most Techsans were tired, but they all seemed glad they went down to the game. Bleary-eyed students made their way to classes Monday morning as usual.

UN Wages War Of Words

UNITED NATIONS, N.Y. (AP)—King Hussein of Jordan accused the Soviet Union Monday of trying to wreck the United Nations and the United Arab Republic of seeking to destroy his Hashemite kingdom.

In a speech to the 98-nation General Assembly, the desert monarch said he sees a sinister parallel in the activities of Soviet Premier Nikita Khrushchev and U.A.R. President Gamal Abdel Nasser in the Arab world.

Hussein, 24, provided still another colorful touch to the proceedings of the 15th assembly.

The young king, his slight figure dressed in a conservatively tailored blue business suit, was accompanied to the rostrum by a towering military aide dressed in khaki uniform and pink Arab headdress.

Taking the assembly spotlight just after Khrushchev, the Jordanian leader declared, "I am here to reaffirm that we reject communism."

UNITED NATIONS, N.Y. (AP)—Soviet Premier Khrushchev said Monday night he will meet President Eisenhower provided that the United States admits that the flights of the U2 and the RB47 were "treacherous acts."

Khrushchev repeated his charges that the flights of the U2 and RB47 constituted "flagrant violations" of Soviet territorial sovereignty. He continued, "The U.S. government repeatedly reaffirmed the said treacherous policy although this policy represents an unprecedented violation of the very foundation of international law."

Then, stating his conditions for meeting Eisenhower, the Soviet premier said:

"A clear admission of what was the reason for the deterioration of relations is necessary.

"A clear admission is necessary that it has been occasioned by the unprecedented treacherous acts of the U.S. government which chose the way of carrying out provocative, aggressive acts against the Soviet Union."

Sigma Chi Members Honor New Initiates With Banquet

New initiates of Sigma Chi have been announced by the fraternity. The initiates are Jerry Avery, Walter Bradman, Gene Eaglebarger, Ben Faulkner, Hank Hunt, Ron Langford, Dick Perkins, Jim Petty, Steve Smith, Tom Tillotson, Robert Tully, Bill Wellborn, and Buddy Wimberly.

Following the recent initiation ceremony, a banquet and a dance were held at the Holiday Inn. The new initiates presented their pledge trainer, Bob Smith, with gifts.

Guest speaker for the occasion was Don Walker, a national officer of Sigma Chi.

ATO Initiates 7 At Lodge Sunday

The Tech chapter of Alpha Tau Omega initiated seven new members Sunday night at the chapter lodge.

The new initiates are Milz Bickley, Portales; Clint Castlebury, Lubbock; Tommy Ewens, Houston; J. D. Glenn, Odessa; Tommy Johnson, Pampa; Kenneth Morrison, Dumas; and Bill Wood, Morton.

Big Sisters Announced At Tri-Delt Breakfast

Thirty Delta Delta Delta pledges received sorority "big sisters" Sunday at a breakfast at the Johnson House Restaurant.

Pledges and their "sisters" are Jane Anthony and Suzanne Stafford; Mary Gaskin and Lynn Buckingham; Kay Armstrong and Rowena Williams; Barbara Belanz and Linda Erwin; Sally Bartlett and Judy Martin; Nancy Barton and Judy Leftwich; Barbara Black and Mimi O'Kelly; Judy Boney and Sue Nelson; Christie Brown and Judy Kay Jones.

Sandy Broxton and Suzann Davis; Jeanne Bryson and Lani Langford; Chris Clarke and Ann Baxter; Mary Beth Dorbandt and Melinda Harrison; Ann Douglas and Joy Keller; Ann Elliott and Ginger Forrest.

Sharon Kay Field and Linda Elmore; Jeanie Gratton and Margie Jones; Myla Henderson and Mar-

cia Vick; Ann Herring and Jane Crockett; Donna King and Ann Clark; Melinda McBride and Judy Harper; Sharon Nugent and Beverly Brown.

Donna Reed and Jo Beth Johnson; Ruthe Rix and Peggy Braselton; Janie Seifert and Linda Linkenhoger; Karen Shanan and Mar-Jo Holley; Sue Smith and Amy Lloyd; Sandra Stafford and Susan Webb; Gay Vanderburg and Lee Creson; Carolyn Wood and Linda Wetzel.

Miss Lani Langford was presented with an award for the most improved grades in the chapter and Miss Marie Dulaney received an award for the highest grades.

Pi Phi Names Pledge Officers

New Pi Beta Phi pledge officers include Dannes Hickey, president; Margo Williams, vice president; Kay Strickland, treasurer; Judy Wells, social chairman; Sandra Adams, scholarship chairman; Harriette Neill, secretary; June Bunger, activities chairman; Linda Harper, historian; Susan Collett, censor.

Initiation services for three pledges were held recently at the Pi Phi lodge. Initiated were Sandra Dickey, Fort Worth; Robin Fithian, El Paso, and Judy Robertson, Lubbock.

Sorority Chooses Pledge Officers

Officers of the Sigma Kappa 1960 pledge class were elected at a recent meeting.

The new officers include Ann Mosier, president; Ann Steinheimer, vice president; Linda Lucas, secretary; Sandra Cope, treasurer; Lou Miller, social chairman; Cynthia Aycock, scholarship chairman; K. K. Kinsey, song leader.

Judy Stradinger, communications; Nancy Webb, philanthropy; Judy Price, panhellenic representative; Jackie Carriher, skit chairman; and Bonnie Streidl, activities chairman.

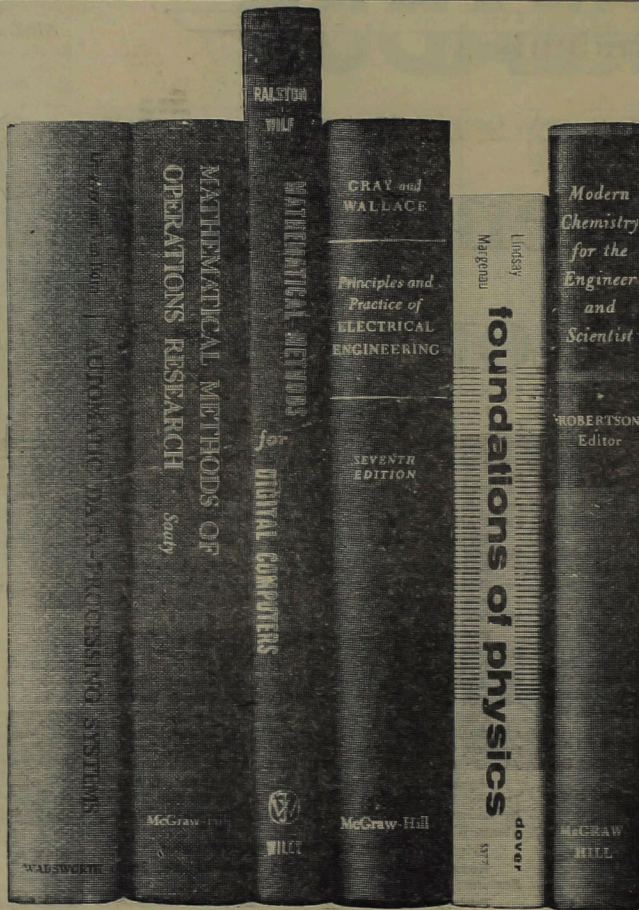

Wives Slate Club Meeting

The National Association of University Dames Club will hold its first meeting of the year at 7:30 p.m. Monday in the Aggie Auditorium.

Club members consist of the wives of Tech students. Any wife interested in joining the club should attend this meeting. Upon completion of the school year in May, each wife of a graduating student receives her "pushing hubby through degree."

Members of the club will model clothes by Martin's of Lubbock at the first meeting. A similar program will be presented at each meeting.

This year's club officers are Mrs. Gerald Thompson, president; Mrs. John Ikand, vice president; Mrs. Charles Griffin, corresponding secretary; Mrs. John Nicks, recording secretary; Mrs. Wesley Coleman, treasurer; Mrs. Harold Allums, historian; Mrs. John Cammack, publicity director; and Mrs. Bobby Lasswall, yearbook representative.

SYSTEMS ENGINEERING CAN START HERE... OR HERE... OR HERE... OR HERE... OR HERE... OR HERE

If you are completing studies in engineering, economics, math, science or business, have maintained high averages and are interested in a rewarding professional career leading to management, IBM Systems Engineering may be just the career for you.

What does an IBM Systems Engineer do? He studies problems in industry, science, business and government, and then organizes the most modern electronic data processing techniques and machine systems to solve them. He works at the source and with top executives in the organizations concerned. The problems are fascinating and exciting—and include automation of process control and manufacturing operations, inventory control document preparation, satellite tracking,

highway planning, weather forecasting, and complete business control systems for utilities, transportation, banking and insurance, to name but a few. New techniques of automatic data processing are making headline news almost daily.

Your present training, combined with one of the most comprehensive training programs conducted by any company, may put you in a position to join this fast-growing new profession with virtually an unlimited future. Openings will exist in all principal U.S. cities. See your Placement Director for additional information about IBM and to arrange for an interview. Or feel free to write or call me:

Mr. C. B. Hanson, Jr., Branch Manager, IBM Corp., 1412 Texas Avenue, Lubbock, Texas, PO 3-1981

You naturally have a better chance to grow with a growth company

IBM will interview Dec. 8 & 9

Tech Station Starts FM Broadcasting

KTXT, Tech's new FM radio station, will begin broadcasting at 91.9 megacycles Monday morning. The station will have a Class A range of five miles and a range of ten miles under favorable conditions.

An AM station until last year, KTXT will broadcast only in the FM band and will feature FM-type programming. Broadcasting will be from 8 a.m. to 12 p.m. Monday through Friday.

Originally the station was called KTTC and had a closed circuit in the dorms. FM broadcasting was made possible this year by the appropriation of more suitable equipment. The station is located in the Speech Bldg.

Anyone who would like to work on KTXT should go by the station, according to Charles Tigner, a staff member for the station.

Tentative schedule of special programs on the show next week is campus news, 8:15 a.m.; Greek news, 10:30 a.m.; campus news, 12 a.m.; national news, 12:15 p.m.; student council news, 12:30 p.m.; special KTXT program, 4 p.m.; campus news, 6:45 p.m.; special events, 8:05—8:30 p.m.; and campus news, 10 p.m.

The new call letters of KTXT were chosen to replace KTTC due to the educational television permit received by Tech for a station with the call letters, KTXT-TV.

Groups Begin Float Planning

All campus organizations interested in having a float in the homecoming parade Oct. 22 are urged to send a chairman to an organizational meeting at 5 p.m. Thursday in the Tech Union.

Rules and regulations for floats and the point system for judging will be discussed at the meeting. The parade is sponsored by the homecoming committee and the Ex-Students Assn.

The floats will be divided into three classes for judging: fraternity division, sorority division and an all-campus division. The first and second place winner in each division will be awarded a plaque before the homecoming game and a permanent trophy will go to the organization with the best float in all three divisions.

The theme of this year's parade is "Tech Through the Ages."

Defense Fund Offers Aid To Tech Students

Tech students in a financial bind are being offered loans by the National Defense Loan Fund, currently available through combined use of private and federal money.

"The Student Loan Fund Committee has already committed in excess of \$104,000 for the 1960-61 academic year," James B. Whitehead, assistant dean of student life, said.

A total of \$52,854.50 from the NDSLF and \$12,653 from other sources has been shared by 175 students this fall.

Students must apply for a NDSLF loan for the spring semester no later than Nov. 15. Applications for the summer semesters are due May 1. Deadline for fall semester applications is July 15.

Loans may be repaid over a ten-year period and carry an annual interest rate of three per cent. If a person teaches in a primary or high school, ten per cent of the loan is cancelled each year the person teaches. Up to 50 per cent of the loan may be cancelled

in this manner. The main purpose of the NDSLF is to assist capable high school graduates to attend college and present college students who have met financial problems.

An overall grade average of 1.50 (C+) and a 1.00 average during the semester are the qualifications for Tech undergraduate students. Graduate students must have a 2.00 (B) average and maintain a 2.50 overall average to receive the loan.

"ON LUBBOCK HIGHWAY"

FRENCH 1-2 Objectives of Adjectives Prof. Amour

A broad study of the adjective *bon* in syntax with *bon soir*, *bon ami* and *bon grooming*. Lecture on *bon grooming* with 'Vaseline' Hair Tonic illustrating the fact that 'Vaseline' Hair Tonic replaces oil that water removes. Examination of adverse effects on hair resulting from drying action of water compounded by hair creams and alcohol tonics. Exhibition of how bad grooming puts you out of context with the opposite sex. Special emphasis on how 'Vaseline' Hair Tonic keeps hair neater longer and attracts women as Paris does tourists. Homework drills on Saturday evenings stressing plurals rather than singulars. Course aims at getting along in any language . . . especially the language of love.

Jeune filles prefer hommes who use 'Vaseline' Hair Tonic for bon grooming!

Vaseline HAIR TONIC

In the bottle and on your hair the difference is clearly there!

with Bill Dean

Student Council Beat

Well, the school trip is over and a lot of people are glad—mainly Pete Baker and Larry Campbell who were in charge of operations. Pete handled all the arrangements and Larry was in charge of the financial end of the picture. Of course, they had lots of help but they deserve and should receive most of the credit for the success of the trip. And it was a success from every standpoint except the ball game. There are many pros and cons of a bus trip as opposed to a train trip. One thing is for certain. You will have difficulties and bright spots either way you go. Now is the time, while this thing is still fresh, for anyone who has any suggestions, complaints, praise, etc., to step forward and let us know what they are. This will go a long way towards improving next year's trip.

The deadline has passed for purchasing student insurance and the total should be in the neighborhood of 3,000 students. The identification cards should be in the student council office early next week for those who would like to pick them up. In addition, claim forms and claim form procedure sheets are available in the council office. They may be procured also from the Office of the Dean of Student Life or the Infirmary. The student may, in addition, write Student Insurance Plan, P. O. Box 4165, Tech Station to receive this information.

This year, unlike the past, most claims under \$50.00 will be settled as soon as they are presented. Some may require additional information before the check can be issued. All claims above \$50 require company approval; consequently, a slightly longer processing period is needed. Mr. William Nixon Holmes is in charge of the student insurance plan. His office is 1507 in the Great Plains Building and his phone is PC5-6624. If you have any complaints about the program in general and you would rather consult with the officers in the council office about them please feel free at anytime to come by and do so. We feel that you are going to be very pleased with the entire program.

Tomorrow will see another all-campus election as students select candidates for class officers, vacant student council position and the freshmen complete voting for the freshman council. Student elections can become a pain in the neck for everyone concerned, but mainly the people in charge of their operation. The Election Committee of the student council, headed by Student Body Secretary Janis Jones is in charge of all elections. They must first make the rules, coordinate these rules with the campus publicity regulations, interpret them and enforce them. Petitions must be issued along with expense forms and election rules. Records must be kept in regard to who has and who has not returned his petitions and expense forms. Eligibility must be checked. The ballots must be printed from these cards of information. People must be found to be responsible for keeping ballot boxes, counting votes and posting returns. And then there are runoffs!

Last spring the elections committee instituted a more uniform system of keeping track of candidates and also eliminated all excessive campaigning except in the case of cheerleaders. Once again, we are asking for the students to let us know if they like the current election procedure and, if not, what they would like to see done.

A special student council committee has been appointed to recommend amendments to the Constitution of the Student Association in an effort to bring our constitution up to date and in accordance to what we actually do. This involves a multiple of things including The Supreme Court, cheerleader elections, elections in general, student association officers, etc. If we are not doing what we say we should be doing we would either change what we are doing or change what we say we should be doing. Is that confusing enough? What it means is that we are going to change our constitution. There have been various proposals discussed by different organizations and individuals on the campus. If you would like to have your proposals aired and considered let us know.

The title of this column might be Let Us Hear from You.

LITTLE MAN ON CAMPUS

"WHY, FREDA, I DO BELIEVE YOU'RE WEARING YOUR GIRLDE TO-NITE!"

A Voice For A Growing Texas Tech

For Education

Communications Offer Challenge

A concrete step is being taken this week to expand the educational facilities of Texas Tech in a direction previously left largely unexplored on this campus.

The initiation of broadcasting Monday by the new FM radio station, KTKT, marks what appears to be the beginning of a serious effort toward developing an educational training program at Texas Tech in the rapidly-expanding fields of radio-television communications.

The FM station replaces KTTT, which became enmeshed in financial and staff problems and never approached realization of the possibilities which lie in this area.

More important, it is the forerunner of what may well be, if established, one of the most valuable developmental possibilities ever considered for Texas Tech—the operation of an educational television station.

Concerning such a station, one may say that the opportunities for an institution of higher education in this field offer a tremendous challenge to a school such as Texas Tech.

To delve into the background of the situation, Texas Tech has long had a permit to build such a station. However, as late as the summer of 1959 Tech officials had little hope for the operation of the station. There was at that time and still is a provision by the Texas Legislature

that state monies cannot be used for operation of educational television stations.

Late in the summer of 1959 Manuel DeBusk, Dallas member of the Tech Board of Directors, began an investigation into the possibilities for the station. On Feb. 13, 1960, DeBusk presented to the Board an exhaustive report on educational television—the result of research, correspondence, and discussions with leading stations and individuals in the field across the United States.

DeBusk suggested at that time a target date of summer or fall of 1961 be set for the beginning of operations. His suggestion that Tech begin collecting equipment for use in the future has been carried out, to some extent at least, with the use of television already begun in the new addition to the Textile Engineering Bldg.

The Toreador goes on record at this time strongly backing the establishment and operation of such a station, along with the FM station, provided both are used as educational mediums, are used in a way which will encourage the growth and development of Texas Tech as an institution of the first rank and are operated with the highest journalistic standards.

We firmly believe that both the educational FM radio station and television station offer Texas Tech a wonderful opportunity to establish this college as a leader in a field which sorely needs top-quality educational training.

PRESTON MAYNARD
Managing Editor

To Sway Opinion

Are We Losing Initiative?

In recent years many Americans, and others in the world of moderate or conservative attitudes, have bemoaned the idea that the so-called free world is losing the initiative in the race to sway men's minds.

Of course, much of this is purely politics. An example can be seen in the current struggle between Dick Nixon and Jack Kennedy for presidential votes. Kennedy, who is an outsider really—trying to get in—swears in his speeches that the United States is lagging behind Russia in almost everything. It is doubtful whether the U.S. is behind Russia in anything except possibly in the art of properly disseminating various types of propaganda. Anyway it makes for good campaign speeches.

Another thought on this real or imagined loss of initiative is that most people, except those that have a definite goal in mind, are just naturally pessimistic anyway. So goes the status quo!

But are we losing the initiative? Are men's minds being swayed into the Russian camp of a new world imperialism? If you take the United Nations as a sounding board, you will find that the Russians have taken a terrific beating on almost every issue.

The Russians were condemned for their actions in Hungary by a majority of the assembly.

The United States, by the same token, was not condemned for the U-2 spy incident because the assembly refused to vote for the Russian recommendation.

The most recent defeat the Russians have sustained at the hands of the assembly has been Soviet Premier Khrushchev's blatant suggestion that the Secretary General's job be done away with to be supplanted by a sort of tribunal consisting of a Westerner, a member of the Soviet bloc and a neutral.

This insolence even shocked Nehru of India who has in the past thought it best to "render unto Caesar" or "go to Canossa" or whatever else could be done to play foatsy with the Communists while negotiating a gift from the West.

But as things stand now, people cannot, or will not, use the United Nations as a sounding board. They pass it off as just another wild dream of the political theorists and the internationalists.

But whatever the effectiveness of this organization, Americans must realize the United States has used the UN to the best possible advantage. Within it assemble the nations of the world and it is apparent from its meetings that the Russians will not sway many minds by diplomacy. To be exact, the Russian brand of diplomacy has not yet attained the level of the most backward of the Black African nations.

The Toreador, official student newspaper of Texas Technological College, Lubbock, Texas, is regularly published each Tuesday, Thursday, and Saturday morning during the two long terms, excepting holidays, by students of the College as an expression of campus news and student opinion only.

The Toreador is financed by a student services fee, advertising, and subscriptions. Letters to the editor and columns represent the views of their writers and not necessarily those of the Toreador. Letters must be signed. The views of the Toreador are in no way to be construed as necessarily those of the administration.

Entered as second class matter at the Post Office in Lubbock, Texas, under the act of March 3, 1879.

Groups Elect Fall Officers

Election of officers for the fall term was the business of three Tech groups last week.

The Tech Accounting Society elected J. W. Hutcherson, president; Bob Patterson, vice president and Carol Farabee, secretary-treasurer.

On Sept. 28 the Men's Residence Council elected Ken Casper, president; Bill Sinsabaugh, vice president; Les Thompson, secretary; Jim Langley, treasurer and John Carey, reporter.

The Sneed Hall officers elected last week are Reeves Brown, president; Udo Specht, vice president; Bill England, secretary and Tom Nash, treasurer.

THESE TWO COEDS HAVE UNUSUAL VOCATION
with majors in veterinary science for Linda Dickens and Judy Pence

Veterinary Majors Shun Woman's Customary Role

Remember when the general answers to "what do you want to be when you grow up, little girl?" were mother, nurse, school teacher, or missionary? Well, times have changed if three Tech coeds are any indication. When asked this question, all replied, "A veterinarian!"

The young ladies, Helen Head, Fort Worth sophomore; Linda Dickens, Houston sophomore; and Judy Pence, Houston freshman are the only three coeds majoring in pre-vet at Texas Tech.

All plan to finish their pre-vet at Tech and then transfer to other schools for their final four years, since degrees in veterinary science are not offered here.

Miss Head, a member of the Aggie and Rodeo Club, worked in an animal clinic in Fort Worth the past summer, and plans to specialize in large animals when she transfers to Auburn.

Miss Dickens is specifically in-

terested in research in veterinary medicine. She hopes to complete her studies at Ohio State University and will do research in swine.

To increase her knowledge of animals, Miss Pence works for a veterinarian during the summers. Like Miss Head, she is especially interested in large animals. Cornell or Penn State is her destination after she finishes at Tech.

Hard-to-believe as it is, each of the girls insists that she has wanted to be a veterinarian ever since she can remember.

...It's great to have a good friends

Dear B. A. Student,

As you probably know, I am vying for a position as your B. A. Representative to the Student Council. How many times have you thought that something should be done on a certain matter, and just didn't know who to contact to get your idea before the school? Well, many times the student council is the place to present your idea.

I believe that the B. A. Representatives of the past have possibly failed to present the B. A. student body's wishes to the council. I think this is wrong, because the B. A. Representatives are only a voice, or mouthpiece, of the B. A. Student Body. I seek to correct this injustice. I will personally guarantee that I will bring any reasonable matter before the council, when you tell me about it.

So keep these things in mind when you go to the polls next Wednesday, Oct. 5, and if this is the type representative you need, and want, I will certainly appreciate your consideration, and vote.

Thanks,

Roger "Scotty" Flowers

VOTE FLOWERS For your B. A. Representative

QUICK - KICKS!

... and slow curves

by Billy Patton

Texas Tech looked bad Saturday night, and that includes much more than the Red Raider football team.

The Raiders were slow on pass defense, and their own aerial attack could scarcely get off the ground, literally, but at least they realized it and tried to do something about it.

Meanwhile, the Lubbock delegation of some 4000-plus fans fell beneath the onslaught of the Cotten-to-Collins pass that drew first scoring blood and died in the stands.

Normally we don't pay much attention to the fans' reactions, but Saturday's exhibition was so outstandingly pitiful that one couldn't help but notice. Especially with Memorial Stadium's open-air pressbox, directly above the Tech fans.

— OK —

If the Raiders habitually played lousy football, it would be a different matter, but one letdown against one good team, if not a great one, is not enough to yank the props out. It's a little hard to understand how a team can be great for two weeks and then be deserted.

We are well aware that nobody is going to take a copy of this article to Fort Worth this weekend and read it every time he feels like not yelling, but we also know something else. Texas Tech is exploring new territory in the Southwest Conference, playing the toughest schedule in the school's history, and whether they are ready or not the time is here and they need support, in the form of something more tangible than the presence of bodies in the stands.

— OK —

We are beginning to doubt the worth of one institution on this newspaper, that being the attempted prediction of football games. For the second week in a row, your sports editor has gone down in ignominious defeat and is becoming increasingly bothered by homicidal tendencies, making any further wins by editor Ralph Carpenter a dangerous matter indeed.

We made the mistake of picking Pittsburgh after the Oklahoma Sooners had become sincerely hungry for a win for the first time in eons, and we also placed unrewarded faith in a Houston Cougar team that came back from Portland, Ore., with their tails bobbed.

That gave Carpenter two games on us, and we both dropped Tulane and Wyoming from future predictions since they gave neither of us any support. That made it 80% to 60% for this week, and 75% to 65% over the season so far.

— OK —

We're looking forward to a big night of pro basketball tonight when Cincinnati and St. Louis limber up for the coming season with an exhibition game in Municipal Coliseum. Should be good basketball and a nice one to watch.

Silence Reigns In Tech Camp

by BILLY PATTON
Toreador Sports Editor

You could have cut the silence into portions and served it on platters in the Texas Tech dressing room after Saturday's loss to Texas University.

Players, coaches, a few writers and a mighty small handful of fans spoke in low tones about the defeat, and ventured a few guesses at what put the damper on the Raiders.

"Our pass defense was the big thing," said halfback Bake Turner. "It should have been three to nothing."

Most of the players were in agreement with Turner, and some felt the Texas score on their first play from scrimmage was the death-dealing blow.

"Both those passes hurt us bad," commented quarterback Johnny Lovelace, "and one of them was in my territory. I feel bad about that."

Tech's own passing attack bogged down under the lightning charges of the Longhorn line.

"I'd look at one receiver," said Lovelace, "and he'd be covered. Before I could look for another man, they were all over me."

Jay Dean Bryum, Tech's swift, twisting halfback, was asked what he thought about the Longhorn team.

"They didn't hit us any harder than A&M but they were a lot faster."

Bryum named Mike Cotten and Jack Collins as among the outstanding Longhorns, but added, "They were all pretty good."

Both Raider co-captains, E. J. Holub and Don Waygood, undressed slowly and appeared to be lost in thought as the writers made the rounds asking questions about the game.

"I don't know what was wrong," said Waygood, "but I know we can play better ball than that."

Holub sat quietly while trainers cut the tape from his ankles, then slowly peeled off the sweat-soaked uniform, favoring a hand and a knee that were injured during the game. The All-American looked back on the game and called the Longhorns "a good team" but didn't go so far as to call them conference champions.

Veterans Start Series Opener

PITTSBURGH [AP] - Pittsburgh's Vernon Law and New York's Art Ditmar, a pair of veteran right handers, were confirmed Monday as the starting pitchers in the first game of the 1960 World Series between the Pirates and Yankees, starting here Wednesday.

Both camps breathed optimism. Danny Murtaugh, serious-minded manager of the Pirates, predicted a Pittsburgh victory because "we beat the best in tougher league." Casey Stengel, wise old pilot of the Yankees, in his best brand of double talk, had this to say:

"My writers tell me we got the momentum, which is suppose to give us some kind of psychological edge. I dunno about that but if it means we can stretch our 15 straight to 19 straight then I say agree because that's what I told my players."

Tickets On Sale

Tickets are on sale in the Tech Union for the pro basketball game between the St. Louis Hawks and the Cincinnati Royals tonight in Municipal Coliseum.

Student tickets are \$1 if bought today before game time, at 8 p.m., or \$2 at the gate.

The Hawks and Royals are making their only Texas appearance on their current six-state tour, and will feature such stars as Oscar Robertson, Clyde Lovellette, Bob Pettit, Cliff Hagan, Jack Twyman, Dave Piontek and others.

Dressing Room . . .

(Continued from P. 6)

"I don't know yet," Holub commented, "we haven't played all of them yet."

Coach DeWitt Weaver was downcast about the showing the Raiders made, and suggested the team was not mentally ready for the game.

"We're lucky they didn't beat us more than they did," said Weaver, grimacing with a sore jaw. Weaver lost two aching teeth to an Austin dentist before the game.

Coach J. T. King attributed at least part of the loss to a bad week of practice.

Fred Weaver, senior guard, ended the talk with newsmen on an optimistic note.

"We're going down to TCU this weekend and try to redeem ourselves."

Wes Roberts can tell you:

"THERE'S NO CEILING FOR A SELF-STARTER IN THE TELEPHONE BUSINESS"

When Wes Roberts was nearing the end of his senior year at San Jose State College, he was looking for a job with a wide open future. He found it when he joined Pacific Telephone in San Francisco.

Here's how Wes tells it: "I remember one of my first jobs. The boss said, 'Wes, I want you to work out a plan showing where we'll need new field operating centers to keep up with Northern California's growth over the next 10 years.' I didn't know whether I was more happy or scared."

Wes didn't tell us (but his boss did) that he handled the report like a pro. And today, as a

division supervisor, he's holding down a key telephone job.

Wes Roberts' story is not unique in the Bell Telephone Companies. The telephone business is growing fast—and men are needed who can grow just as fast.

Wes can tell you: "We get good training. But no one nurses you along. We hire managers—not errand boys. So far as I can see, there's no ceiling for a self-starter in this business."

If you're a guy like Wes Roberts—if you like to bite off more than you can chew and then chew it—you'll want to visit your Placement Office for literature and additional information.

"Our number one aim is to have in all management jobs the most vital, intelligent, positive and imaginative men we can possibly find."

FREDERICK R. KAPPEL, President
American Telephone & Telegraph Co.
