

# 619 Refuse To Pay Activity Fee

## the Treader

Vol. XXVIII Texas Technological College, Lubbock, Wednesday, Feb. 11, 1953 No. 28

### Activity Fee Now Voluntary; Enrollment Drops To 4,192

619 students of the 4192 who had registered for the spring semester by 3 p.m. Tuesday refused to pay the \$15 health and activity fee, according to statistics released from the Student Council office.

Veterans and students living off campus were in the majority, an incomplete poll indicated. The poll was taken by Council members wishing to pay the fee, voluntary this semester for the first time.

### Show to Offer Music From Old to Modern

"Sing, Whirl, 'n Play," a two-night large-scale musical review, will open at 8:15 p.m. tomorrow in Lubbock High School Auditorium. The production, to be presented by Tech's music department, will feature a cast of more than 105 musicians and dancers in a program comprised of music ranging from the Baroque and Romantic periods to the modern and popular idioms.

The show, sponsored by Tech Music Fraternity, Tech Choir, and Allegro Music Club, is being presented in an effort to raise funds allowing Tech Music Fraternity to become affiliated with the national fraternity of Phi Mu Alpha. Proceeds will also be used to help pay traveling expenses for the Tech Choir to make an appearance over a network cancer crusade show from the offices of Gov. Allan Shivers in Austin.

**Popular, Classical Music**

The Tech Choir, directed by Dr. Gene Hemmle, music department head, will present five show numbers: "Holiday for Strings," "Summertime," "Fools Rush In," "Moon Glow," and "Dream." These numbers, especially arranged by Walter Shumann of Hollywood, will be accompanied by a combo of percussion, winds, and strings.

Interpretations of Bach's "In Thee Is Joy," and Rachmaninoff's "Rhapsody on a Theme of Paganini, opus 43," played on eight pianos will open the review. These numbers were arranged by Miss Mary Jeanne Van Appledorn of the music faculty.

**Dancers Featured**

Music for four pianos and dance will begin with the rousing "Scar-amouche" by the French composer Darius Milhaud. Taking the See SING, page 8

**RHAPSODY IN BLUE** — Dancers in one of the production numbers of "Sing, Whirl, 'n Play" are left to right in the foreground: Nancy Herrington, Lonnie Mason, Marilyn Steele, Don Andress, Warren Forsythe, Frances Gibbs, Janice Blake. Posing behind them is Tommy Allison.

### Varsity Show Tryouts To Be Held This Week

"Summer Festival" by Dick Shockley has been chosen as the script for the 1953 Varsity Show, Phil Thompson, show committee chairman, announced yesterday.

Thompson announces that dates for the annual all-student production have been changed to March 16, 17, and 18, due to conflict with Lubbock Symphony Orchestra dates; and that tryouts for the show will be held from 1 to 5 p.m. Friday and Saturday in Aggie Auditorium.

Schockley's script was chosen over others submitted by Roy Smith, Harry Parker, and Lavoy Berry and Lorraine Popkin. Dialogue from Smith's script will be combined with Shockley's story.

Scripts were judged by Odie Echols, Varsity Show director; Miss Berry, assistant director; and members of the committee.

The setting of "Summer Festival" is a resort for college students. The plot concerns a life-guard and two girls, composing the classic "triangle."

Thompson also announced the appointment of M. D. Stevens, Lubbock graduate student, as publicity director for the show.

### Club Scarlet Will Choose 'Most Handsome' Tech Man

Tech's most handsome man will be elected Saturday night at Club Scarlet, mock night club, to be held in the Green Room from 8:30-11.

Club Scarlet is an annual presentation of Theta Sigma Phi, national fraternity for women in journalism. Representatives of campus organizations will present programs, and men's clubs may enter a candidate in the handsome man contest.

Candidates entered at publication time are Tim Russell, College Club, and Paul Griffith, Los Camaradas.

Organizations scheduled at this time to present programs are Los Camaradas and Ko Shari. The Three Feathers will also appear on the program.

Tickets are \$1.50, stag, and \$2.00, date. They will be on sale in the Ad Building Rotunda today, through Saturday and may be obtained from Theta Sigma Phi members. Persons on the program will receive complimentary tickets which do not carry the right to vote in the handsome man contest.

### Council Reviews Recognition Case

Recognition for the departments of physics, chemistry and geology in the annual Engineers Show was discussed with the Student Council Monday night by student representatives of those departments.

A proposal to include "science" in the name of the show was defeated Jan. 15 by the Engineers Show organization, which is composed of delegates from all engineering and science departments which participate in the show.

**Science Show Suggested**

As an alternative, the science representatives asked the Council about the possibility of allocating money for a science show.

The Council ruled that it could take no action on this request since money has already been allotted to the Engineers Show. If the science departments wish to produce a separate show in 1954, they may apply this spring to the Council for necessary funds, it was decided.

Science representatives at the meeting were Kenneth Gilbert

See SC, page 8

### NOTICE

Owing to situations over which the Publications Committee, the staff, and the sponsor have no control, The Treader will be issued once a week for at least a month, probably two months, and possibly longer.

These situations, in brief, result from a lack of adequate funds from student subscriptions to publish a paper twice a week.

The paper will be published on Wednesday. Deadline for stories will be 5 p.m. Tuesday.

### GRADES OUT MONDAY

Grades for the fall semester will be released Monday, announces Miss Evelyn Clewell, assistant registrar.

### Faculty to Discuss Absence Rules

New absence regulations, scheduled to go into effect September, 1953, will be discussed at a general faculty meeting next Wednesday at 8 p.m. in Aggie Auditorium.

A joint committee composed of members from the faculty, Council of Deans, and Student Association has been appointed to compose a handbook explaining the regulations, says President E. N. Jones. The book will be distributed at the beginning of the semester next fall.

The new rulings were prepared by the Faculty Advisory Committee and approved by the Council of Deans and read:

"Instructors will send absence notices to the dean of the student's division according to the following outline:

- a. For a student whose class work is satisfactory:
    - a. When the number of consecutive absences in the course equals the equivalent of one week of classes, laboratories or other meetings. (In classes meeting only once per week the equivalent shall be two weeks instead of one.)
    - b. When the total number of absences accumulated becomes sufficient, in the opinion of the instructor, to jeopardize the student's standing in the course.
  - For a student whose class work is not satisfactory:
    - a. When the total number of absences in the course, consecutive or otherwise, equals the equivalent of one week of classes, laboratories or other meetings. (In classes meeting only once per week the equivalent shall be two weeks instead of one.)
    - b. When the total number of absences in the course equals the equivalent of two weeks of classes, laboratories or other meetings. (In classes meeting only once per week the equivalent shall be four weeks instead of two.) Unless an explanation satisfactory to the instructor and the dean can be made by the student, he will be dropped from the course with a grade of WF (Withdrawal, failing)."
- For further explanation and comment see Page 4.

### Year's Fourth Artists Course Program Will Present Varied 'Festival of Song'

"Festival of Song," a diversified program of singing, dancing, and instrumentation, will be presented at 8:15 p.m., Wednesday, Feb. 18 at Lubbock High School Auditorium. It will be the fourth Artists Course program of the college year.

Lara Hoggard, choral director for Fred Waring productions, will direct the group of 33 in the production of music ranging from works of Palestrina, Debussy, Brahms, Mozart, and Mendelssohn to the contemporary works of Norman Lockwood and Benjamin Britten. Sacred music, novelty songs, folk songs, and arrangements of all-time popular favorites will also be presented.

Highlights of the program will be a moving dance pantomime, "The Juggler," featuring Felisa Conde, and a collection of musically-adapted Negro sermons, "God's Trombone," sung by the chorus and read by Craig Timberlake.

Lara Hoggard

### Six Companies To Interview Juniors And Seniors Here Thursday, Friday

Six companies will conduct job interviews at Tech Thursday and Friday. These opportunities are for graduates and juniors who desire summer employment.

Wexley Jet Services can use graduates with marketing degrees and electrical, industrial, mechanical, and petroleum engineering. These interviews will be conducted tomorrow and Friday by Jack H. Smith.

E. McMannis will represent the Goodyear Tire and Rubber Company with interviews Friday for positions in plant engineering, product development, process development, research, machine design, factory management, and technical sales. These openings are to be filled with graduates with degrees in chemistry, chemical, civil, mechanical, electrical, and industrial engineering.

Goodyear Aircraft Corporation has openings for graduates with degrees in civil, industrial, electrical, and mechanical engineering and physics.

Juniors majoring in chemical,

mechanical, and petroleum engineering will be interviewed Thursday by R. M. Parks of the Atlantic Refining Company.

A. W. Shemely of the Southern California Gas Company will interview May Graduates with degrees in civil, electrical, industrial, mechanical, and petroleum engineering.

Vitro Corporation of America has openings for graduates with degrees in electrical, mechanical, and chemical engineering and physics. Interested persons will be interviewed Friday by Dr. G. R. Tatum and F. C. Schwarz.

Further information may be obtained in Ad150, placement office, says Mrs. Jean Jenkins, director.

### Tech Writers Aid 'Texas Handbook'

Several members of the Tech faculty and staff have contributed articles to the "Handbook of Texas," a collection of facts about Texas and Texas history. The work, which is in two volumes, took more than 12 years to compile and contains little-known facts about Texas which have heretofore been available only in widely scattered places.

The number of articles by Tech staffers ranges from about 50 by Dr. S. S. McKay, down to one or two by writer. The list of contributors from Tech includes: Dr. W. C. Holden, Dr. Clifford B. Jones, Dr. C. C. Rister, Dr. Ernest Wallace, Dr. C. D. Eaves, Mrs. Louise Allen, and Dr. McKay.

The managing editor of the book, H. Bailey Carroll, is a Tech graduate.

### Work Offered On Master's Degrees

Deadline for requesting application forms on the cooperative plan for master of science degrees offered June, 1953, graduates by Hughes Research and Development Laboratories of Culver City, Calif., will be Feb. 15.

Approximately 100 cooperative awards are now available for June, 1953, college graduates and members of the armed services being honorably discharged prior to September, 1953, and holding degrees in electrical engineering, physics or mechanical engineering. Persons interested should write immediately for application forms to Committee for Graduate Study, Hughes Research and Development Laboratories, Culver City, Los Angeles County, Calif. Final date for submitting applications is Feb. 28.

Candidates will spend half of their time in advanced study to complete their master's degrees either at the University of California at Los Angeles or the University of Southern California, in the same city. The remaining half time will be spent working in the Hughes Research and Development Laboratories in Southern California. Summers will be spent in full-time employment in the laboratories, according to details of the Hughes plan.

### TO TEACH AT DUKE.

Dr. R. W. Strandtmann, professor of biology has been invited to teach an acrology course at Duke University, Durham, N. C. June 10-29.

His course, medical and veterinary acrology, treats the recognition, collection, culture, and control of acarina (mites and ticks) important to public health and animal husbandry with special emphasis on transmission of diseases.

### No La Ventanas After Saturday

Saturday is the deadline for purchasing a 1953 La Ventana yearbook, announces Bert Goodyear, editor. The \$6 cost of the annual can be paid in 1209. Only a limited number of books will be put on sale when they arrive for distribution in the first week of May.

All but 19 pages of the yearbook layouts have been completed. Eighty-five per cent of the copy and dummies will be sent to the printers by the end of the week.

Any graduating senior or other student desiring his annual mailed to him should bring the address to the La Ventana office. Goodyear estimates that postage on the yearbook will be 65 or 75 cents C. O. D.

### Bledsoe Wants a TV Set

Bledsoe Hall is in the midst of a campaign to buy a television set, according to Jim Decker, dormitory supervisor. The campaign is headed by Bill Philpott and J. Mack Noble. Contributions are being taken to pay for the set.

### What's the Greatest Game You Ever Saw?

SPORT Magazine is offering

**\$2,000**

in Cash Prizes!

Here's your chance to be a sportswriter! If you are not a polished writer, don't worry. SPORT is chiefly interested in exciting sports moments told in detail.

### Chess Tourney Starts at Sneed

The first round of play in Sneed Hall's chess tournament began at 7 p.m. Monday. The tournament is an all-dorm, all-college, all-city affair, with a title to be given in each division of the contest.

The Swiss system will be used in the tournament to eliminate the possibility of a person off the campus winning all three divisions. But, according to this system, a contestant who lives on the campus may win the college and city divisions, and a person in a dorm may win all three titles.

### Collegians Head-Over-Heels About Comfortable Arrow Shorts

"Any way you look at it, Arrow shorts are tops for comfort," collegians say. Special tailoring features (such as no chafing center seam) assure free and easy comfort in any position. Wide selection of styles, fabrics and colors now available at all Arrow dealers.

## AN OPPORTUNITY FOR GRADUATE ENGINEERS WITH GOODYEAR

Representatives of the Goodyear Tire & Rubber Company and the Goodyear Atomic Energy Corporation will be on your campus to interview Seniors with B. S. and advanced degrees in the following fields of technical study:

- CHEMICAL ENGINEERING
- INDUSTRIAL ENGINEERING
- MECHANICAL ENGINEERING
- CIVIL ENGINEERING
- ELECTRICAL ENGINEERING
- CHEMISTRY

Opportunities for graduates with the above degrees now exist in the following fields:

- PLANT ENGINEERING
- MACHINE DESIGN
- PRODUCTION DEVELOPMENT
- FACTORY MANAGEMENT
- PROCESS DEVELOPMENT
- TECHNICAL SALES
- RESEARCH

Contact your student placement office now for your interview with the Goodyear representative on February 13.

## Chaps, Vivis Will Present Pledges Friday, Saturday Nights in Caprock

### Chaps Will Use Valentine Theme

Las Chaparritas social club will present its pledges Saturday night at 7:45 in the Caprock Hotel. Burl Hubbard's orchestra will play for the dance following the presentation. A valentine theme will be followed.

New members to be presented are: Betty Hudson, Adelin Stokes, Jean Gesin, Connie Davis, Gladys Edwards, and Lynnne Jenkins.

Pledges to be presented are: Ann Cordell, Jeanna Rose, Diane Crawford, Sylvia High, Paty Byron, Joan Southern, Rita Elliott, Jeannine Stearns, Sue Barton, Re-

vis Gilbert, Joy Weiland, Ann Simmons, Virginia Webb, Barbara Smith, Tommie Brown, Tommie Wynn, Carolyn Pope, Ramona Davidson, Bettye Hancock, Jo Jackson, Carolyn Larson, and Dorothy Kraus.

Mr. and Mrs. Harmon Jenkins, club sponsors, and Dr. and Mrs. Horace Hartsell will chaperone the dance.

### Vivis To Present Incoming Members

Las Vivarachas will have its annual presentation dance at the Caprock Hotel at 8 p.m. Friday. Incoming members to be presented are Nancy Hudson, Pat Davenport, Kay Jones, and Johnelle McKenzie. All of the members of the club will be recognized as Zeta Tau Alpha pledges.

## Students Discuss Mexican Trip at Club Meet Here

A group of students who went to Mexico last summer to take a six-hour course offered by the Tech foreign languages department presented a panel discussion on their trip at last night's monthly meeting of Capa y Espada, Spanish club. Dr. Thomas E. Hamilton, associate professor of Spanish, teaches the course.

The panel consisted of Juanita Casas, Glenn Rainer, Jean Shelley Smith, Donald Graves, Sammie Dunn, and Bobbye Jean Mobley. Evelyn Sue Burks acted as moderator.

They traveled via the Pan-American highway in private cars and stayed in Mexico City. Side trips were made to Taxco, Cuernavaca, Huejotzingo, Cholula, Puebla, Teotihuacan, the pyramids, and Amecameca. The students also climbed the snow fields of the famous volcano, Popocatepetl.

The course, which will be offered again this summer, is designed for teachers or potential teachers; those who are preparing for positions in government, international organizations, or private business; those who intend to apply for scholarships; and those who want to improve their Spanish and acquire an intimate knowledge of Mexican culture.

## Baptist Council Installed Sunday

Official installation of the Baptist Student Union council for 1953-54 was held Sunday in Ford Memorial Chapel. Mrs. Clark Estes conducted the installation and Bailey Stone, youth evangelist from Southwestern Seminary, delivered the message.

New officers are: Richard Allen, president; Powell Hinson, enlistment chairman; Novella Crump and Blaine Whaley, Sunday school representatives; Mary Ann Wilson and Max Preston, training union representatives; Ann Edwards, social chairman; Dale Booher, devotional chairman; Kenneth Taylor, statistician; Anita Pope, publicity chairman; Bodie Keith, editor of the B. S. U. paper; Suzy Ely, editor of the B. S. U. annual; Hardy Clemons, music chairman; J. J. Jenkins, missions chairman; Joella Harrell, library representative; Mary Holloway, Y. W. A. president; Bob Hazlett, brotherhood president; Dr. J. Ralph Grant, pastor advisor; and Miss Margaret Stuart, faculty advisor.

### PARTY IS PLANNED

A "Sweetheart" party will be given in the Methodist Student Center at 7:30 p.m. Saturday. It will be sponsored by the College Group of the First Methodist Church for all Methodist college students.

## Next Speech Play To Be Cast Soon

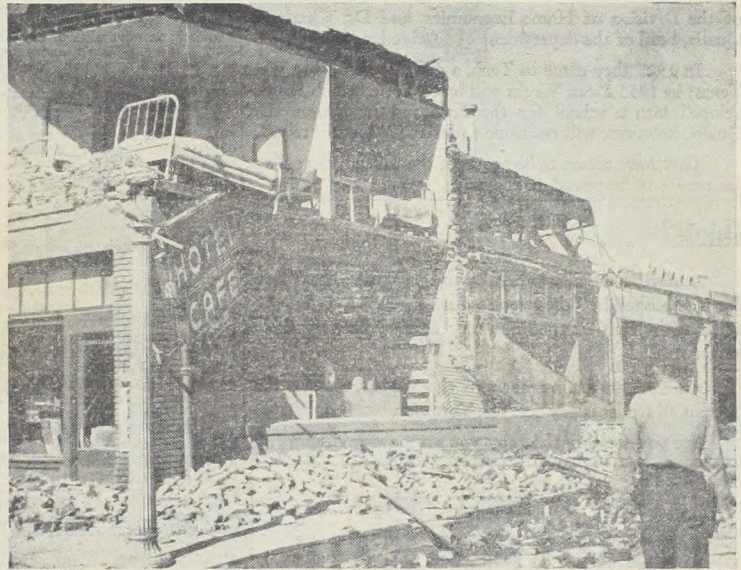

Tryouts for the speech department production of "Light Up The Sky" will end today. The cast will be announced later this week.

Ronald E. Schulz, assistant professor of speech, asks that anyone interested in working with scenery, lighting, make-up, or publicity, see him in the Speech Building or phone extension 358.

## New Tech Future Teachers To Be Accepted Thursday

New members of Future Teachers of America will be accepted at a meeting at 7 p.m. Thursday in L11, announces Helen Slagle, club reporter.

Anyone interested in education as a profession is eligible for membership, according to Miss Slagle. The meeting will feature a program by the Lubbock High School FTA group.

Street scene in Tehachapi after last July's earthquake.

# ...EARTHQUAKE...

In the predawn of last July 21, the most severe California earthquake since 1906 struck the small town of Tehachapi.

Walls were collapsing, buildings were folding. The town's telephone office shook to its foundation. But the night operator remained at her switchboard until it went dead. Main cables to the office were pulled to the ground when a nearby wall caved in.

This was at 4:50 A.M.

By 8:30 A.M. telephones were set up on the edge of town for use by the Red Cross and other emergency workers.

By late afternoon, the telephone switchboard was working. Tehachapi residents were able to contact friends and relatives concerned about their safety.

By 9 P.M. two TV stations were sending live telecasts of the damage. Telephone men had established a radio-relay system in less than 12 hours.

It was a typical disaster—brutal and unannounced. But telephone men were prepared. They quickly restored communication when it was needed most. They demonstrated the resourcefulness and technical skill typical of telephone people.

These are some of the qualities we seek in the college graduates we hire. Your Placement Officer can give you details about opportunities for employment in the Bell System. Or write to American Telephone and Telegraph Company, College Relations Section, 195 Broadway, New York 7, New York, for the booklet, "Looking Ahead."

### 'High Pressure' . . .

It is not the desire of The Toreador to question the motives of students in consenting or refusing to pay the \$15 health and activity fee at registration.

Those registrants who declined to pay heard enough discussion from the officials who had to approve the non-payments. Others have debated the question thoroughly enough over coffee cups and in dorm rooms.

The only issue for us to take is the charge, made by many students in recent days, that those who did not wish to pay were high-pressured and confused by the procedure they were required to follow: being interviewed by a Student Council committee, the dean of student life, and finally by the vice president in charge of finance.

The system was carefully planned. It was felt that the continuance of such phases of college life as athletic programs, recreation hall events, and all the clubs and activities sponsored by the Council rated action—even drastic action.

Those of you who agree do not need to be convinced; those who disagree would object to any system.

We think it is a case of the end justifying the means.

### 1925-1953 . . .

Recently announced are the retirements of two of Tech's original faculty members: Margaret W. Weeks, dean of the Division of Home Economics, and Dr. Charles B. Qualia, head of the department of foreign languages.

In 1925 they came to Tech, a school created for West Texas; in 1953 Dean Weeks will leave Tech, which has developed into a school for the state and the nation. Dr. Qualia, however, will continue to instruct "indefinitely."

They have reason to be proud of the college; the college has reason to be proud of them.

### Thief!? . . .

It may be noted elsewhere on this page that The Toreador is published by "the associated students of the College." With the advent of the voluntary activity fee, this is no longer true.

All students are members of the Student Association, but not all students pay for The Toreador.

Are you stealing the copy you are now reading?

## BACKTALK

EDITOR OF THE TOREADOR: "New Budget to Include Salary for Tech Truant-Officer."

Will we someday be reading this headline in The Toreador? We will, if many more such asinine rulings (yes, I said asinine) are handed down by the Council of Deans as their latest little proclamation mentioned by Ann Bryan in the Dec. 12 issue of The Toreador. It seems that Tech students are acquiring a great capacity for being considered juveniles and treated as such, even to the extent that "his instructor shall report him as delinquent," if I may quote. Reminds me of high school when we got little pink tardy slips, and if we were absent, we had to bring a note from mother giving some air-tight excuse.

When is the Tech faculty going to wake up to the fact that colleges are presumably for adults? Many Tech students are married and carry family responsibilities. Others are mature enough to do the same. Most Tech boys are laboring under the black cloud known as the draft board. Many Techs voted in the last election. Juveniles?

The leading colleges of the nation and of the world successfully employ the honor system. Why aren't instructors' names placed beside their courses in the class schedules issued during registration? The absence of their names is an admission to the fact that some of Tech's instructors are not quite up to par. We students know who can teach and who can't. This system is also used in other colleges and universities. I repeat, why not Tech? We students are paying for our education and we have a definite right to have a voice in the selection.

Before I finish, I must mention another evil here at Tech. Why aren't instructors' names placed beside their courses in the class schedules issued during registration? The absence of their names is an admission to the fact that some of Tech's instructors are not quite up to par. We students know who can teach and who can't. This system is also used in other colleges and universities. I repeat, why not Tech? We students are paying for our education and we have a definite right to have a voice in the selection.

## Under the Breezeway

by shirley johnson, toreador editor

Late Tuesday afternoon 619 students had either refused to pay the \$15 activity fee or had demanded a refund of their money. Some students are still arriving in the Student Council office asking about a refund. From this non-payment, athletic programs, the artists course, some clubs and other activities will suffer.

We do not deny the students' legal right to refuse payment; nor do we proclaim them unpatriotic and non-school-minded. We do offer this suggestion, however: before any student complains of the lack of news in The Toreador or the absence of an editorial page, let him first remember whether he paid his activity fee.

## Seen Through The Sand

BY ANN BRYAN

Toreador Associate Editor

A story on page one of this paper quotes a system of absence regulations which will become effective in September, 1953.

At a luncheon meeting of the Board of Student organization held in the Green Room Jan. 16, President E. N. Jones explained the reasons for their adoption.

Point two of a list of explanations handed the students attending the meeting stated that: "The process of education should provide practical and everyday opportunities for self-management. Responsibility for class attendance is one of the most important and regularly recurring of such opportunities."

The rulings were set up to separate students who are capable of self-management from those who are not, Dr. Jones said. He added that they are "basically geared at the idea of finding out the students' problems" in time for the administration to "get at the problem before it is too late." The school must take care of students who can't take care of themselves, he added.

On the question of the honors plan, Dr. Jones stated that Tech is not ready to release students from the obligation of attending class but added that he hoped this would someday happen here.

Other points on the explanation list included the statement

that absences will be counted from the first day of class meeting creating the necessity of avoiding late registration; the double cut and negative hours systems will be abolished; a statement to the effect that students will be held responsible for class work whether absent or not; and a statement that all students absent on official off-campus trips will be required to secure "Record of Eligibility for Out-of-Town-Trip" cards at the office of academic deans.

We feel that these reasons are valid, but cannot completely agree with them. We believe that the percentage of students incapable of self-management is small and that it is not the responsibility of the college administration to act as a nursemaid to these few.

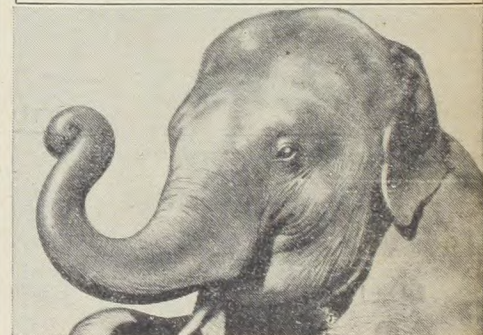

It is still our belief that these regulations are not a step toward the honors plan which we, as well as Dr. Jones, hope that Tech will someday have.

## J. Paul Sheedy\* Switched to Wildroot Cream-Oil Because He Flunked The Finger-Nail Test

"HURRRMPH!" trumpeted Sheedy, "What a elephant time to have my hair act up. Might as well break my date and get trunk!" Luckily he was overheard by a Pachydermitologist who said, "Tusk, tusk! You've got a messy big top from pouncing those buckets of water on your head. Get out of your ivory tower and visit any toilet goods counter for a bottle or tube of Wildroot Cream-Oil, 'Your Hair's Best Friend'. Non-alcoholic. Contains soothing Lanolin. Relieves dryness. Removes loose, ugly dandruff. Helps you pass the Finger-Nail Test." Paul got Wildroot Cream-Oil, and now all the gals tent to him more than ever. So why don't you try Wildroot Cream-Oil? It only costs peanuts—29¢. And once you try it, you'll really have a circus.

\*of 131 So. Harris Hill Rd., Williamsville, N. Y.

# Tech Colle

Some 20 years ago, known as the Tech Students Association in its early days, Tech's structural growth.

The young organization, capped by lack of money for many years prior to the present state. Then, in 1925, the strength of the organization began to blossom into membership from 5,000 in 1947 to 1953. Ex-students throughout the United States, and foreign countries began an impressive network of chapters which have made beneficial contributions.

In addition to United States chapters, 19 of which are local clubs have also been established in Alaska, Arab, Brazil, and other countries.

This rejuvenating project just happened, however, of 122 Ex-Techians from One Hundred Club in giving \$100 each for the purpose of the organization to finance the Association's membership drive. The Association it needed to stimulate the Association's membership drive. The Association now financed by the Tech Fund, which draws from local chapters.

After the money problem was solved, the Ex-Student organization made rapid strides in prosperity, and made many contributions to Tech. This has helped in the establishment of several scholarships. It is a public spirit in a public-spirited man and Tech.

L. C. Walker, executive secretary, says an ex-student organization acts as a public relation between the Tech and its respective community.

## Two Accounting Tech To Get CPA Certificate

Dr. Fred Norwood, professor of accounting, and L. C. Walker, professor of education, have been notified that they will receive Certified Accountant certificates from the American Institute of Accountants. Dr. Norwood and Mr. Walker's examinations in 1952.

Four full-time teaching Business Administration who will hold CPA certificates. Dr. Norwood, Mr. Taylor, Gibson, assistant professor of accounting, and Dr. Reginald, professor and head of finance.

## HOMECOMING N

Tech's 1953 Homecoming will be Nov. 7, when the Raiders play the University of Arizona gridder, coached by L. C. Walker, director. Plans will be completed later.

# Tech Exes Help College Growth

Some 20 years ago an organization known as the Texas Tech Ex-Students Association made an inconspicuous entry into the realm of Tech's structural growth.

The young organization, handicapped by lack of money, remained in a dormant state. Then, in 1947, the latent strength of the Association began to blossom into a potent organization. Membership bounded from 5,000 in 1947 to 13,000 in 1953. Ex-students throughout the entire United States, and even in foreign countries began to mold an impressive network of local chapters which have made many beneficial contributions to Tech.

In addition to United States chapters, 19 of which are in Texas, local clubs have also been established in Alaska, Arabia, Mexico, Brazil, and other countries.

This rejuvenating process did not just happen, however. A group of 132 Ex-Techians formed the One Hundred Club in 1947. By giving \$100 each for three years to finance the organization, club members gave the Association the stimulant it needed to arouse it from latency. The Association is now financed by the Tech Loyalty Fund, which draws its money from local chapters.

After the money problem was solved, the Ex-Students Association made rapid strides toward prosperity, and made more contributions to Tech. The Association has helped in the establishment of several scholarships. It serves as a publicity agent in interesting public-spirited men and women in Tech.

L. C. Walker, executive secretary, says an ex-students association acts as a public relations organization between the college and its respective communities. He

pointed out that by acquiring a better understanding of the college's aims and ideals, local communities are more likely to back the college in their fulfillment.

D. M. McElroy, first secretary, pointed out that ex-students associations serve as media for mobilizing the students into a supporting body when assistance is needed in securing the passage of legislation essential to institutions of higher learning. He says ex-students, functioning through the media of local chapters, can give valuable assistance in satisfying the needs of their college. They can point out to the college ways in which it may further serve former students and the state.

Texas Chapters include: Abilene, Amarillo, Borger, Brownfield, Cleburn, Corpus Christi, Dallas, El Paso, Fort Worth, Gladewater, Hereford, Hillsboro, Houston, Jones County, Lamesa, Lubbock, Midland, San Angelo, San Antonio, Sweetwater, and Spearman.

Out-of-State chapters include: New York City, Oklahoma City, Roswell, N. M., and Washington, D. C.

## Fifteen Complete Course in Radio; Eligible For Tests

Fifteen men recently completed a course in radio fundamentals, code practice and amateur radio regulations on Tech campus. The course was offered and instructed by two members of the ROTC Signal Corps, Lt. Calvin Findley and Lt. Sterling Rodgers, Tech students who hold Signal Corps commissions.

The 15 students attended classes Tuesday and Thursday nights for five weeks, during which time they studied radio theory and practiced code procedure. They are now eligible to take the tests necessary for a novice (Class C) radio amateur license.

The Signal Corps will sponsor another session of the radio class to begin soon. Maj. Victor Penuel, senior signal corps instructor, has emphasized that the course is not restricted to ROTC students. Any Tech student may apply for the class. Students interested should contact either Maj. Penuel or M/Sgt. Harold Purvine at X10.

## Sick List

This week's Infirmary sick list includes Ann Lee Turner, Horn Hall; and Richard N. Merington, Doak Hall.

## Two Accounting Teachers To Get CPA Certificates

Dr. Fred Norwood, associate professor of accounting, and Haskell Taylor, professor of business education, have been notified they will receive Certified Public Accountant certificates from the American Institute of Accounting. Dr. Norwood and Mr. Taylor took their examinations in November, 1952.

Four full-time teachers in the Business Administration Division who will hold CPA certificates are Dr. Norwood, Mr. Taylor, Ernest Gibson, assistant professor of accounting, and Dr. Reginald Rushing, professor and head of accounting and finance.

## HOMECOMING NOV. 7

Tech's 1953 Homecoming will be Nov. 7, when the Red Raiders play the University of Arizona gridlers, announces L. C. Walker, ex-student director. Plans will be released later.

## Campus To Have Annual Workshop

Fifth annual Work - Conference on Supervision held in Texas as a part of the preparation for instruction supervisors will be held at Tech from July 20 to Aug. 7. This work-conference is a cooperative venture participated in by 14 state institutions of Texas and the state education agency, says Miss Katherine Evans, associate professor of education.

Resident credit may be earned in any of the cooperating institutions and accepted by the agency for approval for supervision. The conference will be sponsored by the Texas Council on Teacher Education through the Committee on Preparation for Supervision.

## Psychology Club To Hear Texas University Teacher

Dr. Karl N. Dallenbach, head of Texas University's department of psychology, will speak to a meeting of the Psychology Club at 7 p.m. in HE105, Feb. 19.

Dr. Dallenbach will discuss "Current Trends in Psychology," according to Fred McMurry, club president. The talk will be preceded by a business session and a reception for the speaker will follow the meeting.

## Four Students Represent Tech In Debate Tournament At Waco

Four Techians represented the college at a debate tournament held at Baylor University in Waco Thursday and Friday.

They were: Glen Rainer, E. J. Tarbox, Thelmaeane Hutchins, and Gail Littleton. They participated in debating, extemporaneous speaking, and oratory.

## Dr. Tate Attends Chicago Meeting

Dr. Donald Tate, head of business education and secretarial administration, will represent Tech at the annual convention of the National Association of Business Teachers Training Institutions in Chicago Thursday through Saturday.

The general theme of the convention is based on proposed policies for business teachers certification. Discussion group topics will be on tests and standards in business education, economic education, research in business education, and general education.

## Campus capers call for Coke

### Peter Hurd To Begin Museum Mural; Mrs. Hurd Shows Portrait Collection

Peter Hurd, famous painter and muralist, will begin the final steps Sunday on the pioneer frescos which he will apply to the walls of the Rotunda in the Museum.

The enormous mural, to cover approximately 1,300 square feet, is one of the largest projects of its kind in the country. Mr. Hurd rates the job as "a challenge" because of the tremendous size, the fresco technique to be used, and the artistic concept and design of the mural.

Mr. Hurd's ability to capture the play of light and shadow on the expansive sweep of the southwestern landscape has placed his paintings in many private collections and many famous galleries. He has done previous murals. He says that observers do not bother him and students are invited to visit the Museum and view the progress.

Henrietta Wyeth Hurd, wife of the noted muralist, Peter Hurd, will show her children's pictures and well-known portraits in the Rotunda of the Museum.

The portrait show is entitled "Children's Portraits." It includes paintings of children done during her travels. An art lecture by Mrs. Hurd was presented at 8 p.m. Feb. 5, in the Museum auditorium. The lecture was in the form of a panel discussion centering around technique principles of portrait painting. The Museum's co-sponsor in this presentation is the Lubbock Junior Welfare League.

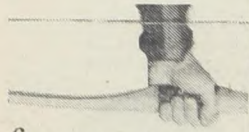

Mrs. Hurd, who is famous for her portraits of children, recently painted a grandchild of Mrs. John D. Rockefeller, III.

#### Dental Testing March 6-7

The next dental aptitude tests session will be held March 6-7. Tests will be given at the Tech testing and counseling center at 8 a.m. March 7.

#### PRINTS AT MUSEUM

Two prints by a Lubbock artist, Mrs. Bess Hubbard, are included in an exhibit of the Printmaker's Guild now on display in the Art Gallery of the Museum. The exhibit is sponsored by the Art Institute and consists of about 20 prints.

### Speech Students To Abilene Meet

Texas Tech's speech department will be represented at the annual Abilene Christian College Speech Tournament Feb. 13-14 on the ACC campus.

Preliminaries in the individual events will begin at 9 a.m. Friday. The first rounds of debate are set for 3:30 p.m. "National and International Problems of Current Interest" will be the topic for each division.

Tech students entering the events will include: E. J. Tarbox, Glenn Rainer, Norma Hancock, and Jackie Bateman, extemporaneous speaking; Dale Clark, radio speaking; Donnie Dean, Dale Clark, Joan Clifford, Norma Hancock, E. J. Tarbox, Glenn Rainer, Barbara Smith, and Jackie Bateman, debate; Sharlene Wall and June Ann Morton, poetry; Sharlene Wall and Jackie Bateman, oratory; E. J. Tarbox and Barbara Smith, after-dinner speaking; Glenn Rainer, Sharlene Wall, and June Ann Morton, Bible.

### Jerry Raun Named Geology Club Head

Jerry Raun, Harlingen senior, was elected president of the Geology Club for the spring semester at a call meeting Monday night.

Other officers elected were: Bob Hosman, Fort Worth senior, vice president; Charles Forstner, Hillsboro junior, secretary; Bob Williamson, Lubbock junior, treasurer; Mark Killgore, Roscoe sophomore, reporter; Cary Geron, Paris senior, sergeant at arms; and O. D. Hart, Miama Springs, Fla., senior, editor of the news letter.

### Stanlind Will Interview Civil Engineers Monday

Civil engineering students may schedule appointments through the Placement Office to see a representative of Stanlind Oil and Gas Company, who will visit the campus Monday.

The company is interested in candidates for jobs with the title survey section of its land department, says Mrs. Jean A. Jenkins, placement director.

### Raiders On In Border

Tech opened its four games successfully last night with a 74-59 victory over West Texas.

The Raiders were not able to catch up to Tech in the contest, as they made some sort of a comeback through the first quarter, but a control ball game solved this style in the second half to take a commanding lead.

Paul Nolan took scoring for the Raiders with 24 points, though missing over 12 minutes in the second half. Nolan was close behind Nolan in the parade with 19 total points, being the only other player to score in double figures, with 14 points.

Bill Brewer of the Raiders was the night's top scorer, however, with 18 points. Brewer kept the Raiders from being a complete team in the floor game and in the victory.

The Raiders had quite an average in the first half, scoring 46 per cent of their shots. In the second half, however, they hit for 33 and 30 per cent in the respective halves. The Raiders hit 22 of the 81 shots attempted in the victory.

Tech had an unusual number of free throw attempts, making only 10 points via the throw route. Although Tech had many more charity shots, none of the Raiders touched the contest.

The Raider triumph was in second place in the race with a 5-2 margin. Coach Philbrick, who is coaching the varsity team for the first time. The first game with the University of Tech will be held here on Feb. 17, play starting at 2:30 p.m.

Tech meets New Mexico here Friday night following the contest with West Texas in Tech gym.

### Varsity Tennis Enthusiasts See Philbrick Tomorrow

Boys interested in playing tennis who have not seen Coach Philbrick in the past few days should see him tomorrow.

This does not apply to lettermen or boys who have already contacted Mr. Philbrick. Coach Philbrick, who is coaching the varsity tennis team for the first time, will be at the University of Tech on Feb. 17, play starting at 2:30 p.m.

### Gray, Spooner—Raiders

Don Gray, Breckenridge and Vic Spooner, Colangelo, have been named as the Raider football team's next fall. Both will be lettermen.

HEY BOY! Why don't you drag your Valentine down to CLOVERLAKE for a filling or refreshing drink. Make this Valentine's special one for her.

Cloverlake 1720 Ave. Q Ph.

# Raiders Outclass Texas Western In Border Loop Game, 74-59

Tech opened its four game home stand successfully last night with an easy 74-59 victory over the weak Texas Western Miners.

The Raiders were never in trouble in the contest, as the Miners could never catch up. Texas Western made some sort of a contest of it through the first quarter by playing a control ball style, but Tech solved this style in the second canto to take a commanding lead.

Paul Nolen took scoring honors for the Raiders with 24 points, although missing over 12 minutes of action in the second half. Carl Ince was close behind Nolen in the scoring parade with 19 tallies. Jim Reed was the only other Techsman to score in double figures, as he caught 14 points.

Bill Brewer of the Miners was the night's top scorer, however, the hot Oredigger center making 25 points. Brewer kept the contest from being a complete rout with his fine floor game and consistency.

The Raiders had quite a shooting average in the first half, making 45 per cent of their shots. The average dropped to 34 per cent in the second half, however. The Miners hit for 33 and 30 per cent in the respective halves. The Raiders hit 32 of the 81 shots they tried in the victory.

Tech had an unusually small number of free throw chances, making only 10 points via the free throw route. Although the Miners had many more charity chances, none of the Raiders fouled out of the contest.

The Raider triumph kept the squad in second place in the Border race with a 5-2 mark, only a jump ahead of Tempe State and Hardin-Simmons. The Sun Devils and Cowboys won their games Monday night to keep the pressure on the Raiders.

Tech meets New Mexico A & M here Friday night followed by a contest with West Texas Tuesday night in Tech gym.

## Varsity Tennis Enthusiasts See Philbrick Tomorrow

Boys interested in playing varsity tennis, who have not made previous arrangements, should see George Philbrick in the Gym between 3 and 4 Thursday.

This does not apply to returning lettermen or boys who have already contacted Mr. Philbrick.

Coach Philbrick, who is director of intramural sports, will be coaching the varsity tennis team for the first time. The first match is with the University of Arizona, and will be held here on February 17, play starting at 2:30.

## Gray, Spooner—Raider Captains

Don Gray, Breckenridge guard, and Vic Spooner, Colquitt, Ala. end, have been named captains of the Raider football squad for next fall. Both will be senior lettermen.

## League Races Hot As Stretch Drives Begin For Intramural Basketball Titles

Championships are still far from being decided in the intramural basketball races, as action picks up again after the holidays.

In the Dorm League the Gordon Tigers lead with a 4-1 record, closely followed by Sneed East and Sneed Trotters, who have 3-1 records.

Doak Owls and Gordon Hall won games played January 16. Doak took a 25-21 thriller from Bledsoe. Glover led the Doak scoring, amassing 11 points.

Gordon Hall knocked Gordon Tigers from the undefeated ranks with a close 34-30 triumph. Powers and Carnes scored 16 and 12 points respectively to lead the Gordon Hall attack.

In Independent League action February 6, AU handed the Dukes a last-minute 30-29 defeat. Blukes was high for AU with 11 points, and Hatfield totaled 10 for the Dukes. Rangers scored a 22-16 decision over the Boomerangs in another Independent contest. Lust of the Rangers and Coleman of the Boomerangs tallied 10 points for their respective teams. BSU won over Luby's by the forfeit route.

Keys, Adelphi, and College Club won January 15 games in the M-CC circuit. Keys trampled Socii, 37-21, as Cary scoring 12 points. Adelphi handed Centaur a 25-12 pasting. Wehling tallied 10 points

## Tech Has Busy Conference Slate

The Red Raider basketball squad has played three conference games since the end of the fall semester, winning two and losing one.

The first stop for the Raiders was Canyon, January 31, where the Techsman upended the West Texas five 79-68. The Raiders had several injuries, but fought back gamely to overtake the Buffs in the last half.

Rangy Paul Nolen led the Raiders with 20 points, all in 21 minutes, followed by Virgil Johnson's 15, Jim Reed's 12, and Carl Ince's 11 tallies.

Last Friday the Raiders moved to Las Cruces, and sank before the New Mexico Aggies, 66-58. The fighting Aggies overcame an early Tech lead to take the triumph. Durward Bolding hit for 17 tallies, but Johnson wasn't far behind with 13. Nolen was bottled up well by the Aggies, and scored only four points.

Saturday night the Raiders moved to El Paso and battered the helpless Texas Western Miners, 94-68. The hot Techsman hit their offensive peak in this one-sided contest. This game gave the Raiders a 4-2 conference record. Ince had an excellent night, garnering 24 points, while Bolding tallied 19.

for Adelphi. College Club took an exciting 24-19 decision from Los Cams. Echols led the College Club with 9 points.

In last Sunday's contests, Wranglers, Kemas and Los Cams were victorious. Wilson's 11 points led the Wranglers past Socii, 26-17. Kemas blasted the Keys, 56-21. Meyers and Clemons were high for Kemas with 15 and 12 points. Los Cams won by forfeit over Centaur.

Tonight's action takes place in the Independent Loop. At 7 BSU meets DSF, Dukes tangle with Wesley Wildcats at 8, and the Steers play Wesley Whirlwinds in the nightcap. Tomorrow night M-CC will have three contests: Centaur vs. Socii at 7, Kemas vs. Wranglers at 8, and Keys vs. College Club at 9.

Friday will find a single game in the Independent League. AU meets Luby's following the Tech varsity game. Tuesday's action will also be limited to one game. It will slate the Keys against Los Cams in the M-CC League.

## Nolen Leads Pack In Scoring Race

Tall Paul Nolen leads Raider scorers through the first 16 games this season with a 16.3 average. Closely following the Tech center are Virgil Johnson with 14.3 and Carl Ince, 14.0. Ince has played in only three contests, however. Freshman sensation Jim Reed has a 10.2 percentage.

The team average is a whopping 69.2, but this isn't so good when the opponents' average is seen at over 68.

Nolen has a 261 point total for the 16 games played, and Johnson is second with 229 tallies.

The field goal average of the team stands at 25.0 per game. The Techsman have been averaging 19.1 free throws a game and have a personal foul average of 20.1 per contest.

The Raiders hit their peak in scoring with 94 points against Texas Western, and they made only 41 tallies against Oklahoma A & M for the season low.

## Sherrod, Kellogg New Coaching Aides; Philbrick Named Varsity Tennis Mentor

Three appointments and one resignation in the Tech athletic staff ranks have been made in the past few days.

Bud Sherrod, All-American end at Tennessee in 1950, has been added to the staff as end coach of the Raiders. He was voted the outstanding lineman in Tennessee's victory over the University of Texas in the 1951 Cotton Bowl. From there he played for the Carswell Air Force Base Bombers and the New York Giants. In his senior year, Sherrod was considered by many the best defensive end in college football and was selected to nine all-opponent teams.

Robert (Jitterbug) Kellogg has been signed as an assistant coach and will fill the vacancy on the coaching staff caused by the resignation of Jack Mitchell, who was named head coach at Wichita University.

Kellogg was formerly a backfield coach at Tulane and Wake Forest. He was a tailback on Tulane's Sugar Bowl team, and has been taking graduate work at Tulane since he left Wake Forest in 1950.

He coached at Wake Forest for

## Life-Saving Course Offered At Lubbock Boys Club Pool

A life-saving course is to be offered at the Lubbock Boys Club pool from 6-9 p.m. starting Monday and continuing through Friday, announces Dr. Mary B. Dabney, professor of physical education.

four years after as many years in the navy.

George Philbrick, Tech's intramural program director, has been appointed varsity tennis coach. He succeeds Dr. Roy Male.

Bobby Goad, Tech assistant coach for the past two seasons, resigned effective February 15, to enter private business in Tulsa. Goad was an All-Conference end while playing for the University of Oklahoma and coached at Chickasha, Okla. High School before coming to Tech in 1951.

## IF YOU ARE INTERESTED... In a Career in Petroleum

Plan to see T. A. McIver, division title surveying supervisor of Stanolind Oil and Gas Company, who will be on the Texas Technological College campus next Monday, February 16. McIver will interview students majoring in civil engineering for jobs with the title survey section of Stanolind's land department.

Those accepted are employed in civil engineering capacities, receiving diversified training in all phases of land surveying, both in field and office work. After proper training, and experience, these men are promoted to more responsible positions in the division offices.

Stanolind is one of the five leading producers of crude oil, natural gas and natural gas liquids in the U. S. The company has exploration operations throughout Texas, New Mexico, and the entire Gulf Coast, Mid-Continent, Rocky Mountain, and Canadian areas, providing excellent opportunities for capable, qualified applicants. You should investigate Stanolind before making any job decision.

For an appointment to see McIver, contact Mrs. Jean A. Jenkins, Director of College Placement.

# Dr. Qualia Resigns Post in Languages Department; Dean Weeks Announces Successor for HE Office

Dr. Charles B. Qualia

Texas Tech recently lost one of its original department heads when ill health forced Dr. Charles B. Qualia to step down as head of the foreign languages department. He plans to continue teaching indefinitely, however.

Twenty-seven years ago last fall, Dr. Qualia resigned as Spanish instructor at the University of Texas to become head of Tech's Spanish department. Tech then had three foreign language departments—Spanish, French, and Latin. They were fused in 1932, and Dr. Qualia was named department head.

### Awed by Dusters

To move from a well-populated region with a reasonably attractive climate to a sparsely inhabited area plagued by winds and dust was a frightening step, says Dr. Qualia.

He vividly recalls his first sandstorm—dust came boiling out of the northwest. The spectacle of a "black duster", enveloping everything in its path was enough to terrify anyone unaccustomed to West Texas weather.

### Watched Lubbock Develop

The professor labeled the first Tech faculty members "pioneers." Innumerable housecleanings were required to keep the sand under control.

Dr. Qualia has seen Lubbock's population mushroom from 14,000 in 1925 to about 100,000 today. Housing facilities were as scarce then as they are today, however.

### Field Offers Opportunities

To his regret, Dr. Qualia has witnessed an enrollment decline in foreign language courses. He believes the field offers as many opportunities as before, but points

out that the development of more diversified training has lured many students to other fields.

Dr. Qualia received his B. A., M. A. and Ph.D. degrees from the University of Texas. He also attended the universities of Lyons and Paris. He has done research work in Spain and Mexico.

Prof. A. B. Strehli is temporary acting head of the foreign languages department.

### Dean Margaret W. Weeks

Miss Margaret W. Weeks has resigned her position as dean of the Home Economics Division, effective Sept. 1. She will be succeeded by Dr. Willa V. Tinsley, dean of home economics at Southwest Texas State Teachers College at San Marcos.

Miss Weeks came to Tech in 1925 after receiving her B.S. and M.S. degrees at Columbia University and teaching in Louisiana and Houston schools. A member of the original faculty, she has participated in many changes at Tech in the past 27 years.

According to Miss Weeks, the enrollment in the Home Economics Division for the first year was 78 girls. The group was crowded into four rooms on the second floor in the main unit of the Home Economics Building. The Bookstore, Agriculture Divi-

### SC—

and Cecil Dillard. Engineering representatives on the Council are Joe Hastings, Emmett Adair and Bill Burton.

### "Fills No Purpose"

The Council recommended that next year's Student Council discontinue the contest for Mr. & Miss Texas Tech. The recommendation was made after the report by a committee that the honor fills no purpose and that no real qualifications are necessary to enter the contest. The possibility that division favorites might be substituted was discussed, and it was decided that the Council's decision will be subject to student opinion.

Odus Echols, director of the Varsity Show, introduced M. D. Stevens, who has been selected publicity director of the show. Stevens told the council that try-outs for the show will take place from 1 to 5 p.m. Friday and Saturday in Aggie Auditorium.

Sponsorship of the Howdy Dance was given to Kappa Kappa Psi, band fraternity. Date for the dance is Feb. 20.

J. C. Chambers gave a report on the executive sessions of the Texas Intercollegiate Student's Association which he and Harold Branman attended as delegates from Tech's Student Council.

### Largest Enrollment 492

Under the guidance of Miss Weeks and the faculty, the division has grown to an approximate spring enrollment of 210 for 1953. The largest enrollment in its history was 492 in 1944-46.

The Home Economics Club was organized during the first year of the college with the aid of Miss Weeks and Mrs. Jonnie Michie of the Home Economics staff. Miss Weeks and the late Mrs. Mary Doak also laid the foundation for Casa Linda, the cooperative house.

In her office the dean has bound copies of all of Tech's

catalogues, including one published in 1924 concerning "the college that is to be." One of the memories that these books bring back to Miss Weeks is the Arbor Day when students planted 20,000 trees and shrubs on the Tech campus, and the foods and nutrition classes served coffee and doughnuts to all the workers.

"Resignation, yes; retirement, no!" are the sentiments of this energetic woman. Miss Weeks plans to travel for awhile, but her home will remain in Lubbock.

### SING—

part of the French buffoon will be Warren Forsythe, and Zoe Merriman, originator of the choreography, dances the part of Clémence.

Climaxing the musicale will be Gershwin's "Rhapsody in Blue," complete with exhibition dancers, corps de ballet, and four pianists. The choreography was created by

Sharron Lund, formerly of the San Francisco Opera Ballet Company.

Tickets may be obtained from members of themusicdepartment. Members of the music department. They are \$1.25 for adults and 75 cents for students. There are no reserved seats.
