

Raiders Clash with A&M in Cotton Bowl

Grad Program Endangered

Vol. 34

Lubbock, Texas Saturday, September 20, 1958

No. 11

"SURE IS HOT," he might be thinking as he slips another sticker on a Techson's windshield. As of 3 p.m., yesterday 2,944 cars had been registered. Car registration will continue until 5

p.m. today. This fall there are 1,900 more paved parking space than last spring. This figure brings the total paved spaces to approximately 5,200. (Staff Photo)

Tech Enrolment Rises 7,288 Students Sign Up

A total of 7,288 students had completed registration Friday, and many more are expected when the doors open again today.

The final wrap-up of registration will be Wednesday for students registering late, those taking night classes and those taking Saturday-only classes.

THE REGISTRATION process moved at a slower pace yesterday since more freshmen students who

are unfamiliar with the tedious task were in the lines. However, it went smoothly, bringing the total up to the final figure for Friday as given above.

Many Tech students who finished registration yesterday took advantage of the few days off and took trips home, or to Dallas to see the Tech-A&M football game in the Cotton Bowl.

OTHER ACTIVITIES participated in this week by students in-

clude the "Meet Texas Tech Personalities" and the All Church-Night parties.

The "Meet Texas Tech Personalities" program was Wednesday evening in the Lubbock Municipal Auditorium. It was the last special meeting of the entering freshmen.

THE "FISH" joined the rest of the student body in attending the All Church-Night parties Thursday night at the various church student centers.

Yesterday opened in a lively way, with an early morning pep rally in front of West Hall to send the Red Raiders on the road to victory when they meet the Aggies tonight.

The rally had no official sponsor, but from all reports it was a success—a matter to be determined tonight. All the boy's dorms were represented by freshmen cheering groups, as were the sororities with their "yelling gals."

TOREADOR MEETING

Persons enrolled in the Journalism courses of reporting and editing, and others interested in working on the TOREADOR in any editorial or writing capacity are urged to attend a staff meeting at 12:30 p.m. Monday in Journalism 206. The room is on the second floor, to your right after the stairs.

Hurry Up! Parking Spaces Going Fast

With 2,944 cars registered as of 3 p.m. yesterday and with approximately 5,200 paved parking spaces, this leaves about 2,256 cars which will be able to park on paved lots this fall.

E. B. McKnight, chief security officer, said they would continue issuing parking stickers until 5 p.m. today.

STUDENTS REGISTERING cars need their driver's license and the parking permit card which must be stamped "paid."

If during the semester any student wishes to register a car, he should go to the registrar's office and pay the required fee. Then take the receipt acknowledging payment and go by the

traffic office where the sticker will be issued.

IN CASE of a lost sticker, there is a 50 cent replacement fee. If a student trades cars during the semester, he should bring the remnants of the sticker to the office in order to show that the sticker has been destroyed. Replacement fee is required under the circumstance also.

This fall there are 1,900 more paved parking spaces than last year. All the spaces are paved except for the areas around the Speech Bldg., greenhouses and east of Jones Stadium.

The paved parking area of Lubbock Auditorium-Coliseum is not included in any of these figures.

Commission Votes On Report Soon

by JAMES HAMM

A staff report, which would freeze the Tech graduate school at its present status, will be voted on by the Texas Commission on Higher Education in the near future, possibly Oct. 13.

The report sets up a plan which, if carried out, would vest all of the state graduate level expansion in the University of Texas and Texas A&M, while allowing other Texas colleges to keep their present graduate programs, but not to expand.

"TEXAS TECH has a great responsibility in the field of higher education in Texas and I am confident that we shall be given the opportunity to discharge it without undue handicap," Pres. E. N. Jones said.

The report, following two years of study, was made public by Ralph Green, commission director, Thursday.

"This report recognizes the University and A&M as 'the' graduate institutions in the state," Green said. "They would have full-range offerings at all levels."

THREE MASTERS plans, which Tech had requested permission to offer, would be cut out if the report is approved by the commission. The three are in the petroleum, mechanical and civil engineering fields. Tech already offers masters degrees in electrical and chemical engineering.

SEVERAL commission members felt that Tech should be allowed to continue expanding its graduate school, because of its location in the large West Texas area, and its student load.

Tech could, under state law, appeal its case to the legislature—in the event that the commission passed the report, Preston Smith, state senator from Lubbock, told the TOREADOR Friday.

"IF THIS REPORT takes effect, it's a step backward," Smith declared. "I don't believe the state legislature will ever accept stagnation and retrenchment in the state educational system," he added.

Smith said that persons opposing the report were willing to fight it every step of the way. A willingness to fight the report also was shown by others.

"ALL LEGITIMATE means will be used to get full information concerning the merits of our case before the commission before it meets," President Jones said.

Tech officials and Lubbock citizens expressed confidence that the commission would not pass favorably on the report.

THE REPORT is designed to outline a coordinated higher education program report for the state, according to Green.

"Colleges and universities have been working in a freeze since 1950, when the legislature tacked a rider to the appropriations bill to stop any additional degree offerings and new programs," he said. "We are attempting to thaw out that freeze and to allow growth, change and expansion of higher education in an orderly fashion."

THE REPORT, which will be Page 5, GRADUATE . . .

GITTUP D'AH, DOBBIN, Bill Teague, Calvary Baptist Church member who is driving the team, seems to be saying. The "chuck-wagon" was on campus Thursday, advertising a chuckwagon supper sponsored by Calvary Baptist. Bill Fowler, Tech senior, is also riding on the wagon.

Committees Sign Up

Applications for Tech Union committees will be available until Wednesday.

All Tech students are invited to sign up.

Eleven committees that may be signed for are Music and Exhibits, which supervises the record lending library, Building Decorations, Dance Decorations, Friday Night Dance, Games and Tournaments, which features ping-pong, chess, bridge and other various games, Hospitality, which will sponsor special showings of the World Series on television and Movies and Lectures.

Other committees are Tuesday Night Dance, Special Events, which will sponsor two concerts by the Four Freshmen and Stan Kenton, Western Dance and World Traveler.

Tomorrow the Tech Union will sponsor its first jam session of the year at 3 p.m.

The sight of a woman with her needle and thread is not unpleasant, in these days of sophistication.

Applications Taken

Applications for membership in the Saddle Tramps are now being taken. Qualified to apply for membership in this organization are male students who have acquired 30 semester hours.

The Saddle Tramps, which were organized to promote school spirit, can be seen at all football and basketball games and helping with campus events such as the bicycle race. The members of this group are also responsible for the Saddle Tramp Circle which is now being

built on the campus.

ANYONE INTERESTED in becoming a Saddle Tramp should write a letter of application to James Goggan, 335 Sneed; or Bob Dyer, 227 Dorm 8. The members will be chosen on the basis of these letters at the second Saddle Tramp meeting.

The applicants who are chosen for membership will then be notified.

The deadline for letters of application will be Sept. 29.

Animal Husbandry Team In Dairy Judging Meet

The Senior Dairy Cattle Judging team will leave Lubbock today for a two week judging trip which will end in Waterloo, Iowa, with the National Dairy Cattle Congress.

Consisting of four Tech senior Animal Husbandry majors, the team will do practice judging along the way as well as compete in the Southern Intercollegiate

Dairy Judging Contest at the Mid-South Fair in Memphis, Tenn. Many southern and eastern colleges will have entrants in the Memphis contest.

TECH WILL be represented by Charles Cobb from Claude, Jim Mezies, who hails from Menard, Jim Knowlton from San Antonio, and Robert Young from Odessa. These boys will drive to Dallas for the Tech vs. A&M game, after which they will be joined by the A&M judging team. The two teams will then travel together working out for the Memphis contest along the way.

After the judging at the Mid-South Fair in Memphis all the judging teams will travel and work-out together in preparation for the Waterloo contest.

MEMBERS of the Tech judging team are picked by their success in the course in Dairy Cattle Judging.

Many awards and trophies will be the prizes of winning teams in the contests. However, as Coy Neely stated "The biggest prize is winning."

Neely expressed "high hopes" in his team.

Jam Meet Today at 3

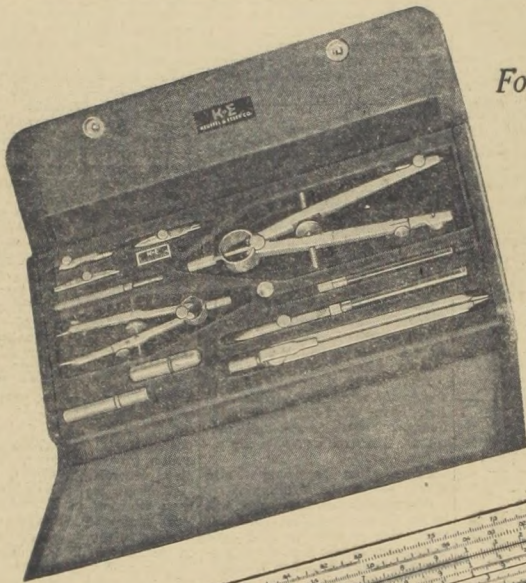

Attention all jivers, hepcats and smooth rhythm fans!

The Tech Union had you in mind when they arranged for a Jam Session this afternoon, at 3 p.m. in the Snack Bar area of the Union.

Music both hot and cool will be played by the Sultans of Swing and there'll be tunes to fit nearly everyone's taste.

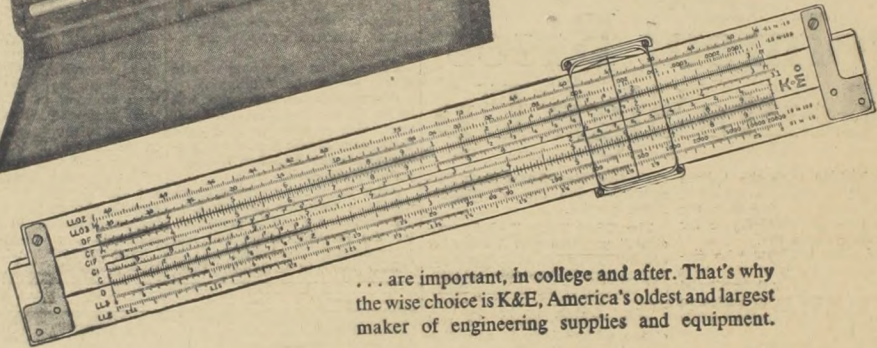

Arrangements for the Jam Session are being made by Dale Fowlkes and the music and exhibits Committee of the Student Union.

No admission will be charged and "everyone is invited to come and have a good time," stated Larke Harrington, Program Director of the Union.

For engineering freshmen...

drawing instruments and slide rules

... are important, in college and after. That's why the wise choice is K&E, America's oldest and largest maker of engineering supplies and equipment.

When it comes to Slide Rules... take the K&E Decitrig®:

Its versatile scales team up to give faster solutions of complex problems. A dual purpose D scale and three LL scales cover a log log range of 1.00... to 22,000. And the A-B scales make quick, non-stop work of square root derivations. Sharp, engine-divided graduations permit accurate readings in a hurry.

"Your K&E College Buying Guide"—

will give you useful information on the materials you'll need for your engineering courses... 36 pages, with plenty of pictures, and handy check-list. Get it at your college store.

KEUFFEL & ESSER CO.

New York • Hoboken, N. J. • Detroit • Chicago • St. Louis • Dallas • San Francisco • Los Angeles • Seattle • Montreal

And... look at K&E Drawing Instruments.

But remember, there's more to drawing instruments than the way they look. It's the important "extras," such as accuracy, materials, workmanship, manufacturer's reputation, that determine genuine value. Every K&E set—and they come in a wide price range—offers you the "extra" features that mean extra value.

Tickets on Sale For Out-of-Town Trip

Tickets for the out-of-town football game against TCU are now on sale.

They can be bought from any student council member or vice presidents of the girls' dorms.

TICKETS COST \$14.25 including both the game and train tickets.

The train will leave Lubbock at 10 p.m. on Oct. 10 and will arrive in Ft. Worth and Dallas at 6:30 a.m. and 8:30 a.m. respectively.

In Dallas the State Fair of Texas will be in progress.

TECH STUDENTS may see "The Music Man," current Broadway hit, and the Ice Capades featuring "Madam Butterfly" and Walt Disney's "Fantasia." Home economic students may be interested in the fashion shows and the home and family displays. Art exhibits will also be held in the Museum of Fine Arts displaying paintings and sculptures done by Texas college students.

Students interested in agriculture may enjoy the horse shows, livestock shows, and the agricultural displays.

THE MIDWAY with a multitude of exciting rides, concessions stands and other amusement activities will also be open during the fair.

The train will leave Dallas at 6:15 p.m. on Oct. 11 and will arrive in Ft. Worth about 7:15 so that all Tech students can attend the Tech-TCU game that night.

A dance on TCU campus may follow the game before Tech students board the train for Lubbock at 1 a.m.

"HOW WILL I make it to class?" asks Judy Grafius, as she rests on the bookstore steps after a book purchasing track. Judy, a freshman from Houston and an Alpha Phi pledge, is in the predicament of many Techsians buying their books. Their pocketbooks are too light and their books too heavy.

TOREADOR

THE TEXAS TECHNOLOGICAL COLLEGE

Editorial Page

Report Would Hurt Tech's Development

A report, which will be considered by the Texas Commission on Higher Education, outlines a long stride in higher education — an about-face to the rear that would take the state's system of higher education years from which to recover.

The report, ignoring the educational needs of the West Texas region of which Tech is the only major college, would set up a plan that would allow only Texas University and Texas A&M to expand its graduate level programs.

Texas University and Texas A&M serve approximately the same area of Texas, while Tech is the only major college in the vast West Texas area.

★ ★ ★ ★

It is unfair to ask a student to go outside of the area he is familiar with, and in which he finds it far easier to meet part of his college expenses by working.

Too, this move would vest virtually all of the state's graduate programs in engineering and agriculture, and a large part of its science programs in A&M — a school which yet is still not co-educational.

Although few coeds major in these fields, the number that do so is increasing. In the future, this need will be much greater.

The three-man staff, that "blew" two years in making out the report, ignored the fact that Tech has one of the best all-around programs of any college in the state—perhaps the best.

★ ★ ★ ★

Tech offers one of the best engineering programs not only in the state, but in the whole country as well. It is the only school in the state that offers textile engineering and physics engineering. Tech's chemical and electrical engineering programs compare very favorably with those at Texas A&M, and a serious drive is underway to bring the other engineering departments up to the level of those two.

If this report is accepted by the commission, a recent request by Tech to set up masters programs in mechanical, petroleum and civil engineering would be voided.

Under the guidance of W. L. Stangel, who recently retired, and other staff members, the agricultural department has been experiencing a great growth, while A&M's agricultural department has taken a nosedive.

★ ★ ★ ★

The report also ignores the rights of the people in the area. Just as the people of West Texas deserve to be equally represented in the state government, so they deserve to be represented by a first-class institution of higher learning.

As long as the people of West Texas believe they deserve an institution of higher learning, they will have such an institution. The members of the Commission on Higher Education are appointed by the governor, who is elected, and approved by the senate, all of whom are popularly elected.

★ ★ ★ ★

For the above reason, the commission is very sensitive to public opinion. West Texans and Tech students, by making themselves heard through letters, cards and their state representatives and senators, can thus influence the decision of the commission. Action should be taken in a dignified, but firm and determined manner.

The TOREADOR firmly believes that West Texas deserves a first-class institution of higher learning, and that Tech should be that institution. We will resist any efforts to curtail Tech's development.

What A Mess

mccarty

What a mess registration was this time. I don't suppose everyone was as stupid as I, but the first time I got into the final checker I didn't even have my form 'C,' and the next time I even had my fees paid, and they told me I had to go through the Dean's office, then come back.

Then I started to get in the line to the Dean's office and discovered it was about two miles long. It seems that they tried to register everyone in Arts & Sciences from 2:30 to 3:30 p.m. Wednesday.

At this point I gave up for the day, quietly saying things under my breath that other people shouldn't hear, and decided to come back the next morning.

I noticed many other students had the same idea as I, because when I got in the Dean's line Thursday morning, I was located about half-way down the East Hallway.

To top it off, we had to wait until about twenty after eight to start moving, and when we did move, it was simply in another direction, and I ended up outside. I finally made it though, but it would have been much easier if I had read the information sheet.

"Now daughter, the room I had in college was very nice. We had new tile floors, a lavatory and . . ."

"Yes mother, I know, I have the same room you had, except it isn't quite as new now."

This is the case of Carol Thompson, senior from Georgetown, who has the same room, 130 in Doak, that her mother had when she attended Tech in 1934.

Doak was first a woman's dorm, then was changed to a boys dorm, and again it underwent a change, this year being filled with a bunch of females.

It has seen both sides of the story, and I'm almost sure it liked boys better than girls. It didn't have to wear so much make-up when the boys were around.

The new boys dorms, numbering 5 through 8, are quite nice, except for a few small faults.

In the first place, most boys didn't bring the right kind of bed covers for the beds since they didn't know they would be used as couches in the daytime. Also, the cotton-picking beds are too hard to suit me, and the mattress fits on the support so that the middle part, which rests on the so-called springs, goes down more than the outside of the mattress because the outside is resting on solid wood, which is as hard as the dickens.

At the end of the bed where most people have their head is a handy corner of hard wood on which to bump ones head, and I have taken advantage of it once or twice.

Living in the new dorms has been a pleasant experience, but can get to be much better. The big problem now is getting chow.

Residents of 7 and 8 have to go to other dorms on the campus, some of them all the way to Doak Hall. I know this is terrible, because eating in 5 and 6 is bad enough. Since standing in line so long in registration, I have given up hope of eating in the dorm until the new chow halls are finished.

Techsans Talk Back

Editor,

A bit o' praise and a lot o' gripe about "priority registration." My one bit of praise is this: I was one of the lucky ones (I am a junior) that registered on Wednesday and I did get the classes I wanted and when I wanted them. But after watching freshman athletes register alongside me, I began to wonder about this "priority registration." I thought I remembered reading in the Toreador earlier that students would register by number of hours passed (which would allow the seniors to register first) and by grade-point average.

Even Webster defines priority as being "precedence; superiority in rank, position and privilege." And it just made me wonder how a freshman athlete (who didn't go to summer school) could suddenly come up with 90 hours and about a 2.0 grade average in order to have "priority" and register with other students whom it took three years or more to pass 90 hours.

Why should I worry about passing courses and making a high grade-point when I could go out for the football team and register early and even have a Double T

member take me through registration if I were a freshman.

And those lines, oh my aching feet! Everyone in Arts and Sciences must have registered at the same time and it certainly should be the largest school if the line to the Dean of Arts and Sciences' office is any indication of size!

Registration is always confusing, but this year tops the record since I have been here. If I were a freshman I could understand the confusion, but I'm not!

The general consensus of opinion is that priority registration is better than the system used last year, but . . . there needs to be more strict priority according to hours passed and grade-point averages. The system is not perfect and it needs a lot of changes.

M. A.
Doak Hall

The truth may come out between the lines but is seldom written and rarely uttered.

You could like some men a lot better if they broke away often from the supervision of the little woman.

The TOREADOR is financed by a student matriculation fee, advertising and subscriptions. Letters to the editor represent the views of their writers and not necessarily those of the TOREADOR. Letter must be signed, but may be published without signatures in justifiable instances. The views of the TOREADOR are in no way to be construed as necessarily those of the administration.

Entered as second class matter at the Post Office in Lubbock, Texas, under the act of March 3, 1959.

Okays Bond Sale

The building outlook at Tech brightened this week as the Board of Directors Tuesday approved sale of \$2,970,000 in building bonds to mature in eight years, bearing 3 per cent interest.

Tech joined with 11 other colleges in an effort to sell about \$17 million in bonds. Dr. E. N.

Jones, Tech president, told a representative of the college that the money from the bonds would be used to construct academic structures at Tech.

COLLEGES REPRESENTED other than Tech at the meeting were Sam Houston State, East Texas State, Southwest Texas State, and West Texas State.

'Host Program' Set For Foreign Students

Sponsored by the Lubbock Community Committee for International Students, Tech's foreign students will be given a reception at the home of Mrs. A. J. Foster, 4708 17th, Sept 28.

This is part of a program involving 30 host families in Lubbock, and 30 foreign students, designed to better understanding between local people and foreign students.

THE PROGRAM was organized by the Institute of International Education, a private non-profit agency which administers exchange programs for governmental agencies, foundations, private organizations, colleges and universities in the United States and abroad.

Mrs. Alice Reynolds Pratt,

Marilyn Gardner Gets New Position

Miss Marilyn Gardner, Tech student from Dallas, has been named a student assistant in the Texas Tech Public Information Department.

A sophomore advertising major, Miss Gardner is a reporter for The Toreador, Tech student newspaper. She is a member of the Student Union's public relations and is co-chairman of the Union's special events committee.

She also is secretary for Drane Hall, women's dormitory, and is efficiency chairman for Pi Beta Phi social sorority.

La Ventana Staff

La Ventana editor Billy Ellis announces a staff meeting of all desiring to help with the 1959 yearbook at 4 p.m. Monday in the Reading Room of the Journalism Building.

Ellis urges everyone interested in working with La Ventana in any way to attend this first meeting or call him at extension 422. Preliminary plans for the annual will be talked over, and a La Ventana social for next week will be discussed.

Reception Given Exes

A reception for Texas Tech Exes is being held this afternoon from 2 until 5 in the Mustang Room of the Statler-Hilton Hotel in Dallas.

The reception is being given courtesy of the Statler-Hilton Hotel and the Dallas Chapter of the Ex-Students Assn. will be hosts.

Reception is prior to the football game with Texas A&M tonight.

Bad, especially discreditable news, travels faster than radio waves.

Graduate Program

forwarded to all institutions for comment, was presented to the commission at a "closed door" session in Austin. It was prepared by a three-man staff.

The report outlines this plan: **ENGINEERING:** A joint responsibility between Texas and A&M, with A&M providing the leadership. Those graduate plans in operation at Tech and A&M will continue to function.

Science: Texas will take the lead in all science fields except programs related to agriculture, engineering and veterinary medicine. Programs at Tech, North Texas and TWU will remain in effect.

COLLEGE OFFICIALS were most concerned by the engineering education recommendation in the report. Other fears were loss of topflight faculty members, loss

of attractiveness to students, curtailment of plans in research and eventual loss of necessary financing for expansion.

Tech, with its excellent engineering programs, especially feared the loss of good faculty members and the curtailment of research. Tech is one of the few schools in the nation with offering degrees in textile and physics engineering.

THE COMMISSION on Higher Education was set up by a legislative act in 1956.

It was set up to provide more efficient handling of college and university matters.

Raiders Tackle Texas A&M

By BILL DEAN
 Dallas, Sept. 20 — Texas Tech and Texas A&M lift the lid on the 1958 grid campaign tonight at 8 p.m. in the Cotton Bowl with the accent on new look.

A&M has changed coaches with ex-Marine Jim Myers coming from Iowa State to take the post left by Paul "Bear" Bryant's departure to Alabama last January. With him Myers has brought a new formation, the single wing, to replace Bryant's Split-T.

Although the Ags were indoctrinated to the single wing during spring practice this will be the first test to see just how well they have mastered it.

TECH ALSO has made a few changes. There are two new assistants on the scene — Joe Kerbel, who came down from Amarillo High School last spring, and J. T. King, who was lured away

from Aggieland also in the spring. King replaced Bud Sherrod who in turn got the top assistant's job at A&M.

This will be the 17th meeting in the history of the two schools. A&M has won 13 times; Tech 3. Last year the Aggies blasted out a 21-0 win in Lubbock. The last Raider victory was in 1954, 41-9, ruining Bryant's debut as Ag head man. Tech is hoping history will repeat tonight.

This year's Aggie eleven is called the thinnest in four years. They lack the depth and speed of last year's team but should be stronger in the passing and kicking department.

LOST FROM LAST year's team that won eight, lost three and was rated the No. 1 team in the nation for three weeks are Heisman trophy winner and everybody's All-American John Crow, Loyd

Taylor, Bobby Conrad, Roddy Osborne, and Jim Wright from the backfield and All-Conference end Bob Marks, All-American tackle Charley Krueger and center John Gilbert from the line.

Even so the Ags return 16 lettermen and also are strengthened by the return of two "castoffs," halfbacks Ed Dudley and Luther Hall. Both missed the 1957 season but played during 1956.

Included in these lettermen are ends Don Smith and John Tracey; tackles Ken Beck and Bill Dar-

win; guards Bill Godwin, Allen Goehring, Tom Howard, Carl Luna, Joe Munson and Buddy Payne; centers Ray Doucet and Gale Oliver; quarterback Charles Milstead; halfback Robert Sanders; and fullbacks Gordon LeBoeuf and Richard Gay. Dudley also lettered in 1956.

TRACEY, BECK, Goehring, Howard and Oliver are all proven performers in the line while Milstead, LeBoeuf, Gay and Dudley have plenty of experience in the backfield.

How well the Aggies have adapted to the single wing remains to be seen. At the conclusion of the spring training the change-over was termed successful by Myers. He admitted that he had to "cram" a lot of offense into his players in a very short time however.

On the Tech side of the ledger things aren't quite as bright. There is plenty of hope however because the Raiders return 20

Another sent center Bill Turnbow from guard to center. Also Floyd Dellinger has made the change from quarterback to half.

A RASH of virus that hit the Raider camp about two weeks ago has hurt the team for this opener. Ronnie Rice, hardest hit, probably will not get to play at all against the Aggies. Rice was last year's leading ground gainer.

Others that were slowed by the virus include center E. J. Holub, Turnbow and halfback John Roberts.

Otherwise Tech is in good physical shape for the contest.

The starting lineup for the Aggies include Smith (200) and Tracey (215) at ends; Garner (200) and Beck (219) at tackles; Goehring (185) and Howard (194) at guards; Oliver (193) at center; Gay (190) at blocking back; Few (189) at wing back; LeBoeuf (185) at full and Milstead (187) at tailback.

THE RAIDERS WILL line up with Seaman (195) and Selfridge (210) at ends; Henderson (220) and Williams (215) at tackles; Stockton (226) and Bentley (240) at guards; Holub (225) at center; Bell (192) at quarterback; Vaughn (155) and Dellinger (185) at halfbacks and Amerson (180) at full.

This gives Tech a weight advantage in the line of 218 to 201 per man.

GAME AT A GLANCE

WHO: Texas Tech vs. Texas A&M
 WHEN: 8 p.m.
 WHERE: Cotton Bowl, Dallas

Probable Starting Line-ups

Texas Tech	Pos	Texas A&M
Seaman	LE	Smith
Henderson	LT	Garner
Stockton	LG	Goehring
Holub	C	Oliver
Bentley	RG	Howard
Williams	RT	Beck
Selfridge	RE	Tracey
Bell	QB-BB	Gay
Vaughn	LI-WB	Few
Dellinger	RI-FB	LeBoeuf
Amerson	FB-TB	Milstead

E. J. HOLUB

lettermen, including nine starters from a team that won two and lost eight.

BACK ARE ENDS Gerald Seaman, Bob Stafford, and Jerry Selfridge; tackles Jim Henderson and Phil Williams, guards Gene Bentley, Jerry Don Stockton and Roger Nesbitt; center Bill Turnbow; quarterbacks Jerry Bell and John Riddle; halfbacks Ronnie Rice, Mack Pogue, Milton Vaughn, John Roberts, Floyd Dellinger, Mickie Barron and Jimmy Knox; and fullbacks Doug Duncan and Floyd Cole.

All of these players saw considerable action in 1957.

Several personnel changes are the keys to the Raider success. One found big 240 pound Gene Bentley from fullback to guard.

JOHN TRACEY

To indicate the degree of her femininity, Lockheed said of Florence Chadwick, the channel swimmer and user of their aircraft, that she owns eighty pairs of shoes. Which proves Miss Chadwick is a girl all right; proud of her feet, and still searching for the perfect footwear.

A combination hard to beat: low humidity, slight breeze, and bright sunshine.

Outlook

By BILL DEAN

Tonight's the night. Opening night is a magic word. It excites the imagination of all football fans. It causes a swarm of butterflies to arise within the young players and the veterans. It even causes a few anxious moments in the minds of a few coaches.

DEWITT WEAVER is probably experiencing a few mixed emotions today. He is extremely concerned about how the Raiders will defend against the Aggie single wing. Another worry is whether the team members who were layed out for a week with the virus will be able to play at full strength.

The Raiders are not being given much of a chance to beat the Aggies with some oddsmakers quoting as high as 28 points.

The boys, of course, feel differently about it and are openly predicting a win. As alternate captain Mack Pogue put it, "It's a long way home when you lose."

THE GAME SHOULD be a good one. I look for plenty of offense and only occasional flashes of defensive brilliance.

Just how much of this offense and defensive the Raiders can muster remains to be seen. It's a cinch that the Aggies will muster their share.

Funny things happen on opening night.

THIS SECTION might be called Lookout rather than Outlook. Every week I will attempt something that takes considerable forethought and tremendous skill, but mostly luck — picking the winners. **ARKANSAS AT BAYLOR:** This is the earliest conference game in history. Neither team is figured to be real tough in the race. A nod to the Hogs.

TCU AT KANSAS: The Froggies are the choice of many to take it all this year. I have to agree in this one.

TEXAS TECH VS. TEXAS A&M

at Dallas: The Aggies are the most underrated team in the SWC. The Raiders, though underrated, have been slowed by injuries and probably won't be able to cope with the single wing completely. **A&M.**

GEORGIA AT TEXAS: The Steers are going to be rough this year. Darrell's Dandies should

TWO FIGURES OF principal interest tonight when Texas Tech meets Texas A&M will be Aggie tailback Charles Milstead (above) and Raider guard Gene Bentley (to the right). Milstead will be running from the spot

figured to be the heart of A&M's single wing attack while Bentley will be playing his first game at guard after moving from full-back.

Tribe Nips Tigers

DETROIT AP — The Cleveland Indians got only four singles off Detroit right-hander Paul Foytack Friday, but made them good for a 2-1 victory as the Tigers stranded 16 runners.

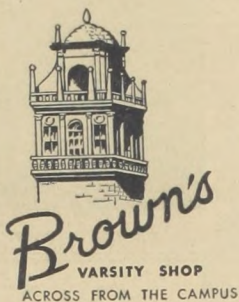

Cal McLish gave up nine hits over the first seven innings but Jim "Mudcat" Grant turned in a brilliant relief job to secure McLish's 16th pitching triumph.

Bums Rap Chicago

CHICAGO AP — Two Dodger rookies hit homers and Ralph Mauniello won his first National League victory Friday as Los Angeles defeated the Chicago Cubs, 5-1, to take sole possession of sixth place.

Big College Football Opens

By JACK CLARY

Associated Press Sports Writer
The 1958 college football season, a topic of hot controversy, officially opened last night with new rules, new coaches and the same-old upset potential.

The big games pits Oregon State, ranked No. 12 in the Associated Press preseason poll, against Southern California in the Pacific Coast Conference. It marks the beginning of the final year for the PCC.

TOMORROW, things begin to hop in the South and Southwest. There also will be a smattering of activity in the East, Midwest, Rockies and Far West.

This will produce the first test of new rules making an extra point worth two points by a run or pass, allowing a player to enter the game twice within the same quarter, forcing an offensive blocker to use one arm instead of two and allowing downfield blocking before the reception of a forward pass.

Mississippi, No. 6, the highest ranked team to see action, goes out of the Southeast Conference to play Memphis State, while the eighth-ranked Texas Christian meets the Big Eight's Kansas, under new coach Jack Mitchell.

NORTH CAROLINA, ranked No. 10, plays rival North Carolina State in an Atlantic Coast Conference tilt.

In the second 10, Texas (no. 11), plays Georgia at night, while 18th-ranked Clemson faces Virginia, where Dick Voris makes his debut for the Cavaliers.

On the Pacific Coast, Eastern Independent Pitt (No. 19) faces UCLA, with George Dickerson taking over for the Uclans' late Red Sanders. Texas A&M, No. 20, under Jim Myers for the first time, plays Texas Tech, a non-football member of the Southwest Conference until 1960.

Weaver Begins 8th Year

Guiding the 1958 football fortunes of the Texas Tech Red Raiders is Head Coach DeWitt Weaver and nine assistants.

This is Weaver's eighth year as athletic director and head football coach, having come here from an associate coaching job at Tulsa in February, 1951.

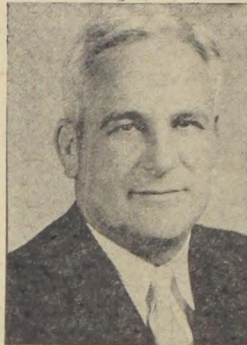

With an over-all mark of 39 wins, 32 losses and 4 ties Weaver has won four of five Border Conference campaigns and finished second once. His 1953 team won the national scoring title with a 10-1 record, and defeated Auburn 35-13 in the Gator Bowl.

WEAVER played his football under Gen. Bob Neyland at the University of Tennessee. He was born in Nashville May 11, 1912. His senior year he captained the Vols, making All-Southeastern Conference guard.

After helping coach the Tennessee freshmen in 1937 he coached the Centre line three years.

IN 1941 WEAVER went into the Navy and served until 1945. He became line coach at Mississippi State in 1945, transferring to a similar post at Tulsa in 1949.

He and Mrs. Weaver, the former Mary Sheffield of Jacksonville, are the parents of a daughter Kitty, 16, and a son DeWitt Jr., 18, who is now attending SMU on an athletic scholarship.

DEWITT WEAVER

"It's a new model . . . all chrome with a little trim"

RED RAIDER BARBER SHOP

When it comes to cars, some like 'em fancy, some like 'em plain . . . some like 'em large, some like 'em small. It's all a matter of taste! But when it comes to good hair grooming, it's a matter of good judgement to come here . . . where you're always sure of a friendly welcome and heads-up attention to your needs.

SO - You're Going To Be An ENGINEER

Texas Tech has long been noted for the quality and quantity of engineers it annually produces. Today a degree in Engineering from Texas Tech College is virtually a pass-port to a good beginning position with an up and coming firm. From there on in—of course — it is up to the individual to produce. During the 1957-58 long session 2850 of the total enrollment of 8400 students in Texas Tech were majoring in some phase of engineering.

In the present highly mechanized, automated, atomically energized and nuclear fissioned age in which we find ourselves living, ENGINEERS are of PRIME IMPORTANCE. For students entering the study of engineering, it is also of PRIME IMPORTANCE that they equip themselves with the very best TOOLS OF THE TRADE. Something 'just as good and a lot cheaper' often times will not suffice.

Your friendly college bookstore has made a sincere effort to provide you with the very best TOOLS available, at a price you can well afford.

We would be the first to admit that you can go elsewhere and BUY IT CHEAPER. But we would be the last to admit you can find better quality and service elsewhere. Someone has said you get out of life what you put into it and we say you get what you pay for in ENGINEERING SUPPLIES.

Shop where you will — Compare values and prices to your hearts content — in the final analysis you will find the best values and service at your college bookstore.
