'Club' Reveals Male Finalists For Contest

With checkered table cloths and candles providing a night club atmosphere, the annual Club Scarlet will give Techsans a chance to choose the campus' most handsome man out of a field of seven finalists Saturday night.

The Rec Hall will be turned into Club Scarlet, the mock night club, for the festivities, sponsored by Theta Sigma Phi, national professional fraternity for women in journalism. The club will be open from 8-11:30 p.m. Tickets will be on sale through Friday, 10 a.m. to 3 p.m. in the Tech Union lobby. Tickets are \$1 per person and will be exchanged for ballots at the door.

The seven finalists and their sponsors are Tex Cowart, Freshman Council; Ben Faulkner, Sigma Chi; John Grist, Phi Mu; John Stokes, Delta Gamma; Jim Stowe, Drane Hall; and Jim Williams, Kappa Alpha Theta.

Other entries were Bryan Adams, Alpha Chi Omega; Tommy Atkins, Sigma Nu; Wendell Barnett, Kappa Kappa Gamma; Brownie Higgs, Delta Delta Delta; Ronald Hyatt, Carpenter Hall; Kent Rabon, Kappa Sigma; and Vernon Walker, Gamma Phi Beta.

The winner will be decided by popular vote of those present. Nine Scarlet skits are to be presented to the audience. Judging will be on originality and showmanship by a panel composed of Mrs. W. E. Garets, wife of Professor W. E. Garets; Mrs. Allen Strout, English teacher; and Dean Killion, Tech band director.

Listed in order of appearance, these organizations are presenting skits: Zeta Tau Alpha, "Officer Krumpke;" Phi Mu, "Are They or Aren't They;" Pi Beta Phi, "Wild Bill Hickup;" Kappa Alpha Theta, "Lullaby of Birdland;" Sigma Kappa, "Ooo-La-La;" Phi Delta Theta, "Folk Music, USA;" Gamma Phi Beta, "The Wind Is Gone;" Alpha Phi, "In a Little Gypsy Tea Room;" and Delta Tau Delta, "A First Date."

Skit members should buy tickets now in order to participate in their skits.

Pete Baker, Student Assn. vice president, will emcee the program. A trophy will be presented the winner of most handsome man award and the organization with the winning skit will receive a plaque. The traveling plaque will be inherited from Phi Mu, last year's skit winner.

Unique Play Opens Week Run Monday

What is termed the most elaborate non-professional production staged in Lubbock will open Monday night as the Texas Tech speech department's version of "Ondine" begins its week-long run.

Tickets for the show are on sale this week at the Speech Bldg. from 8 a.m. to 5 p.m. for \$1 per person. Tech students will be admitted free with their ID cards.

Set in medieval Germany, the play tells a fantasy of a water sprite who falls in love with a mortal. Miss Shirley Cadle, technical director of the play, has designed 40 costumes for use in the three act production.

Included in the scenes are a fisherman's cottage in the first, a king's palace in the second and a castle in the final act.

Director of the play is Ronald Schulz, Tech speech professor. Tickets will be on sale until curtain time each night.

Miss Cadle this week termed the production the most elaborate show of its kind attempted in Lubbock.

Kennedy Calls For 'Supreme Effort'

(Compiled from Associated Press Bureaus in Washington and Hyannis Port, Mass.)

President Eisenhower and President-elect John F. Kennedy laid the basis Wednesday for easing the shock of transition from the old to the new administration in a period of continuing world crisis.

Moving swiftly once Kennedy's election victory was certain, Eisenhower sent a message to his Democratic successor stating he would shortly suggest "certain measures that may commend themselves to you as you prepare to take over next January the responsibilities of the presidency."

In immediate reply Kennedy told Eisenhower, "I am grateful for your wire and look forward to working with you."

The president-elect also declared at Hyannis Port, Mass., that he would announce within 24 hours "the appointment of a liaison with the administration on the problems of the transition."

At the same time Kennedy said he expects to say nothing about new appointments for his administration, which will begin Jan. 20, until after Thanksgiving.

He is expected to give priority to the designation of his secretary of state in view of the importance attached to early preparation for dealing with a broad range of foreign issues immediately after he takes office.

President-elect Kennedy, alternately smiling and serious, formally acknowledged his election victory with the promise to devote himself to "the long range interests of the United States and the cause of freedom around the world."

His wife, Jacqueline, stood beside him on the platform as he spoke.

This was about an hour after he received Vice President Nixon's telegram, conceding the election and extending congratulations.

Looking straight into the hedge of television cameras and obviously addressing himself to the whole nation, Kennedy said, "may I say to all the citizens of this country, Democrats, Republicans, and regardless of how you voted, that this is a satisfying moment to me."

"The next four years will be difficult and chal-

lenging. There is general agreement by all our citizens that a supreme national effort is needed to move this country to safety through the 1960's.

"We need your help. All our energies will be devoted to the interests of the United States and the cause of freedom around the world."

He closed on a lighter note—"My wife and I now prepare for a new administration—and for a new baby."

His wife is expecting a child in about three weeks. Kennedy has yet to give any public indication of his choice for secretary of state. Speculation among those close to him has included Sen. J. William Fulbright, D-Ark., chairman of the Foreign Relations Committee; W. Averell Harriman, former governor of New York, former ambassador to Moscow, and Truman administration Cabinet member; Rep. Chester Bowles, D-Conn., former ambassador to India and a Kennedy foreign policy advisor; David Bruce, former undersecretary of state and former ambassador to Germany; and Adlai E. Stevenson, the Democratic presidential candidate in 1952 and 1956.

Sorority Schedules Founder's Day Fete

The Tech chapter of Gamma Phi Beta will celebrate its founding with a banquet at the Lubbock Women's Club at 6 p.m. Friday.

The first chapter of Gamma Phi Beta was founded at Syracuse University Nov. 11, 1874 by Helen M. Dodge, Frances E. Haven, E. Adeline Curtis, and Mary A. Bingham.

campus character:

BLACKSTONE TORT

Pride of the law school, Blackstone has never lost a moot trial. But there's nothing moot about his preferences in dress. He finds that when he's comfortable, he can trap a witness and sway a jury like Clarence Darrow.

So he always wears Jockey brand briefs while preparing his briefs. Exclusive Jockey tailoring gives him a bonus of comfort he gets in no other underwear. Fine Jockey combed cotton is more absorbent, smoother fitting, too.

To look your best, feel your best, take a tip from Tort. Always insist on Jockey brand briefs, \$1.25. Your campus store has them now!

Tech Seeks A&M Delegates

Students wishing to represent Tech at Texas A&M's Sixth Annual Student Conference on National Affairs next month are urged to apply in Ad 161 immediately.

The general topic for this year's conference, scheduled for Dec. 7-10, is "The Task of the Free World; Problems and Opportunities in the 60's." Purpose of the

conference is to produce a series of informative and stimulating discussions on the proposed topic and to provide an appreciation of the complexities of the foreign policy of the United States.

A committee will interview all applicants and select two students as Tech's representatives.

Twirlers Warm Raider Fans With New Costume Debut

Temperatures rose at least ten degrees Saturday at the halftime of the Tech-Tulane game when the Tech band majorettes flung off their coats to reveal their new costumes. This was the debut for the tight-fitting, silver-sequined uniforms.

One Fort Worth Star-Telegram article stated that "No stimulant was needed at halftime to combat the chilly weather," and comments describing the outfits ranged from "spangled bikinis" to "skin-tight briefs."

The new uniforms will be used for the two remaining games of the season and next year's games,

along with the old uniforms. The costumes are white satin and muslin tights covered with a stretchy silver sequined material, which actually is stitched on after the uniforms are donned.

The twirlers are Jacquetta Cox, Bowie; Carolyn Davis, Lubbock; Pamela White, Richardson; Billy King, Loop; Suzanne Harris, Mineral Wells and Jo Chandler, Iraan. All are sophomores with the exception of Miss King, who is a junior.

The uniforms will next be viewed during the pregame and halftime performances of the Texas Tech band in the Tech-Wyoming game this Saturday.

Social Score

by Lynn Buckingham

PHI GAMMA DELTA'S annual Purple Garter Dance, ATO's Roundup Dance, two sorority pledge presentations, and Theta Sigma Phi's Club Scarlet combine to push the score on the campus social scoreboard to a record-breaking high.

Invitations to the Fiji dance feature a picture of a familiar female in a famous pose tagged with the name "Venus de Fiji."

The semi-formal dance will be from 8:30 to midnight Saturday in the Caprock Hotel for Phi Gamma members, pledges, rushees and their dates.

ALPHA TAU OMEGA has issued invitations to "all bullshippers" to attend their annual open dance called the ATO Roundup at 8 p.m. Saturday in the Fair Park Coliseum.

Providing music for the dancers, who will be attired in western clothes, will be The Classics, from Odessa.

THE ALPHA CHI OMEGA pledge presentation will begin at 7 p.m. Saturday in the Tech Union Ballroom for sorority members, and friends, families and dates of the pledges.

Following the presentation of the 28 A Chi O pledges there will be a dance in the Ballroom featuring music by the Sultans of Swing.

Elliot Taylor, a graduate of Oklahoma University where he was a member of Pi Kappa Alpha, will be Master of Ceremonies. Helen Gray and Joyce Hervey are in charge of plans for the presentation.

THE THEME will be "Gold and White" Friday night when 33 Kappa Alpha Theta pledges are presented at a formal presentation at the Lubbock Country Club.

Decorations for the occasion will feature arrangements of white mums on a stage centered with a large gold bird cage, through which the pledges will walk when they are presented.

The Sultans of Swing will play for the program dance following the presentation. Ellen Warren is in charge of arrangements for the event and Marion Key, Lubbock attorney, will serve as Master of Ceremonies.

Club Scarlet, a mock nightclub, will begin at 8 p.m. Saturday in the Rec Hall. Tech's most handsome man will be selected at this annual event, sponsored by Theta Sigma Phi.

TWO SORORITY-FRATERNITY mixers are scheduled for today: Kappa Alpha Theta and Sigma Nu in the Sigma Nu lodge; Delta Delta Delta and Sigma Alpha Epsilon at the SAE lodge. Delta Tau Delta has scheduled a smoker at 7:30 p.m. today in their lodge.

THE WESTERN DANCE Committee of the Tech Union will sponsor a western dance Friday from 8:30 to 11:30 p.m. in the Rec Hall. There will be no admission charge.

DELTA DELTA DELTA celebrated the 72nd anniversary of its founding with a banquet at 6 p.m. Monday in the Lubbock Women's Club.

Following a formal welcome by Marcia Vick, Tri-Delta president, the speaker for the event, Dorothea Gingrich, was introduced.

Mrs. Gingrich, an active alumni member of Delta Delta Delta and columnist for the Seguin Enterprise, spoke on the sorority: its advancements, traditions and outstanding members.

Tri-Delta was founded in 1888 at Boston University by Sarah Ida Shaw. It has 105 collegiate chapters.

SIGMA KAPPA celebrated its Founder's Day Wednesday at 6:30 p.m. in the Lubbock Women's Club. The sorority was founded in 1874 at Colby College, Waterville, Maine.

Pris Totten was announced as October's Sigma Standout and Pat Crozier was named Best Pledge.

Beta Alpha Psi Initiates 11 New Members In Ceremonies

Beta Alpha Psi, national honorary and professional accounting fraternity, initiated 11 new members Tuesday night in the Tech Union.

The initiates are Eldon Akin, Germain Boer, Monty Bray, Russell Briner, Jeannie N. Gravitt, Steve Homer, Harold Johnson,

son, Gregory Tomlinson, and E. D. Walters.

To qualify for membership in Beta Alpha Psi, pledges must have completed at least six hours of advanced accounting courses and maintained at least a 1.6 overall grade average with a 2.0 grade average in accounting courses.

WUS Drive Exceeds Goal In Record-Setting Efforts

Fund-raising activities for money to exceed the set goal of World University Service drive on \$800. campus last week netted enough The national drive was sparked

WUS DRIVE ENDS WITH LOADS OF MONEY
... from left to right, Robert Sandidge, Patty Peck, Wayne Underwood and Cindy Richards count funds

on the Tech campus by organizations competing for awards to be presented to the highest contributors.

"I AM WELL pleased with the complete success of the WUS drive, due to the great help and hard work of the committees and to the general enthusiasm of the Tech students. The WUS drive goal of \$800 was exceeded by \$73.26, a considerable gain over the \$365 attained in last year's drive," according to Wayne Underwood, chairman of the WUS drive.

Trophies were awarded to Drane Hall and Bledsoe Hall for dorms earning the largest amounts of money for the drive. They won with \$284.02 and \$20.00, respectively. Drane received the all-college trophy.

SPECIAL recognition for the red tape work is given to Tech Union for its arrangements and publicity, to the Student Assn. for correspondence and awards, and to the Junior Council for posters.

Special group recognition is given to the Panhellenic Car Wash, IFC Shoeshine and the Town Girls. The WUS Mile of Pennies and the Circle K netted \$213.14.

FUNDS were raised in the girls' dorms by selling doughnuts and coffee, nickle-a-buzz, selling cut-T-rights for the cafeteria. "I dare you" contests and auctioning of three breakfasts in bed by the dorm councillors. Men's dorms had movies, talent shows and football pools.

Two Centers Schedule Events

Two of Texas Tech's off-campus religious centers have arranged special events this week while another is moving into a new building.

The Baptist Student Center is holding "freshman week" this week. Tonight the freshmen are challenging upperclassmen in an attendance record.

There will be a dinner for the Baptist Co-Weds, an organization of Tech married students, Friday at 7:30 p.m. Members are asked to bring a covered dish.

A series of meetings from 6:40-

7:20 p.m. each night entitled "Dedication To Christ," are being presented by Joe Barnett, minister of the Cactus Drive Church of Christ, Levelland, at the Church of Christ Student Center this week.

Tech's Presbyterian Student Center Association is in the process of moving into their ultra-modern quarters at the Presbyterian University Bldg.

The building, costing more than \$50,000, is designed to get away from the standard student center or union idea.

Student Council Beat

The Sixth Student Conference on National Affairs (SCONA VI) will be held on the campus of Texas A&M in their Memorial Student Center from Dec. 7-10, inclusive. This presents a rare opportunity for two students from Texas Tech.

We have been invited to send two student delegates to this conference as we have done in the past. The invitation carries with it an offer to assume a substantial portion of the expenses involved.

The purposes of this conference are to conduct a series of informative and stimulating discussions on "The Task For The Free World: Problems and Opportunities in the 60's." It is designed to provide an appreciation of the complexities of the foreign policy of the United States to an increasingly large representation of college students of the South and Southwest.

By the serious exchange of ideas among students over a period of years, it is hoped to promote a generation of responsible leaders in national and international affairs. The conference has obtained distinguished men and women for this event to make the keynote speeches, to be panelists and to serve as round-table chairmen.

This conference will bring together in December outstanding student leaders from universities and colleges in the United States, Canada and Mexico. It is an informal seminar to survey the impact of world problems on the nation that has emerged the leader of the Free World. It is an attempt to grasp the complexity of these problems rather than to solve them.

Three outstanding leaders in domestic and foreign affairs will deliver keynote speeches during the Conference. On the second, third and last days of the Conference, seven round-table groups will meet. The round-table will be guided by a discussion agenda designed to cover the current important issues.

Any interested Tech student should come by the Council office to file an application. This must be done before Nov. 18, on which day the applicants will be interviewed. This is an opportunity for you, whether or not you hold a position of leadership on the campus, to express a desire in student leadership.

It is a sincere pleasure to announce that preliminary estimates indicate that Tech's World University Service drive will go over the \$800 figure. This is more than double last year's total. Not only should thanks go to Wayne Underwood, who did such a wonderful job of organizing and co-ordinating, but to you, the students of Tech, who dug in to help others dig out.

Campaign Analysis

Returns Are Eyed

By J. M. ROBERTS
Associated Press News Analyst

Some thoughts after scanning the election returns:

It's going to be hard for John F. Kennedy to find any mandate powers in Tuesday's vote.

We heard a lot during the campaign about undecided voters, and a lot more Wednesday morning about an undecided nation. The counting period is reminiscent of 1888, when Grover Cleveland had a thin popular majority and lost by electoral votes to William Henry Harrison. Kennedy got the electoral votes, all right, but in many states just barely.

The evidence is not available for a definitive assessment of the effect of the religious issue. But the 32 years of mass education and better communication between groups of people since Alfred E. Smith do seem to have had some effect.

The Southern states which went Republican have done so before on different issues. If Richard M. Nixon was elected in traditionally Republican farm territory where he faced tough economic issues, it cannot be proven.

The Toreador, official student newspaper of Texas Technological College, Lubbock, Texas, is regularly published each Tuesday, Thursday, and Saturday morning during the two long terms, excepting holidays, by students of the College as an expression of campus news and student opinion only.
The Toreador is financed by a student services fee, advertising, and subscriptions. Letters to the editor and columns represent the views of their writers and not necessarily those of the Toreador. Letters must be signed. The views of the Toreador are in no way to be construed as necessarily those of the administration.
Entered as second class matter at the Post Office in Lubbock, Texas, under the act of March 3, 1879.

All Over Now

Election Draws Speculation

With the 100,000-mile presidential campaign now only a memory and a new occupant chosen for the White House, the political prognosticators are settling back for the inevitable outpour of words about the causes, effects, ramifications, trends, philosophies, oddities—and on infinitum—the thousand and one aspects of the greatest political show on earth—the choice of a leader by the American people.

No doubt every possible conclusion will be drawn somewhere somehow by someone—informed or otherwise—about why the outcome was such and what will be the effects of the nation's choice over the next four years.

Probably there will be speculation for months and even years to come concerning the why's and how come's of the election. The effect of the religious issue—did it hurt or hinder President-elect Kennedy? Did Lyndon Johnson actually swing the South back into the Democratic fold for good? Are the farmers of the Midwest who voted traditionally Republican not dissatisfied with the GOP's farm policies?

Speculation will doubtless also center on some of the more unusual aspects of the campaign. Among these are the loss of Congressional seats by the more liberal Congressmen moved into office in the last Senate elections—this while the Democratic ticket for president was elected on probably the most liberal platform of the party's history.

The election probably came close to setting several records of some sort. Besides one of the longest and most strenuous campaigns in history, the election proved to be one of the closest in this century.

All in all, it will be interesting to watch the nation's course under a liberal, youthful and Boston-born president whose election could by no means be considered any overwhelming choice; a moderate, veteran Texas political master as vice president, holding sway over the Senate; and the conservative, Southern Democrat coalition probably still dominating the Congress.

That such a political compromise could be drawn as the nation faces more trying years of the Cold War is tribute to the genius of the American political system.

PRESTON MAYNARD
Managing Editor

The Toreador Mail Call . . .

Dear Editor:

Subject: MOCK ELECTION EDITORIAL, Saturday, November 5, 1960, Toreador—2,434 students turned out to vote in the mock presidential election Wednesday—6,500 students did not bother to vote! Granted, this is a larger turnout than usual, but it doesn't rate the praise given it. The same people who elect the "socially popular duds" can still do it if less than one-third of the student body votes.

Bill Miller

By the way, why wasn't a ballot box placed in the Agriculture Building for this election?

Editor's Note: As to the conclusions to be drawn from the election, you are certainly entitled to your opinions. We appreciate your forthright statement. We will have more to say concerning student interest in student government later this year. As for the ballot boxes, it was decided by Alpha Phi Omega and The Toreador that the election should be aimed at getting students to go and vote, not to place ballot boxes throughout the campus. Thus, four strategic locations were chosen for the ballot boxes.

Mr. Ralph Carpenter
Editor of The Toreador

As a former president of the Ex-Students Association of Texas Technological College, I want to express to you and the student body at Texas Tech my personal appreciation and the appreciation of thousands of other Tech alumni for the effort you expend each year in presenting the Homecoming parade. There is no other single feature of Homecoming which so adds to the

spirit and color of Homecoming as does the annual parade and the many beautiful floats displayed therein.

Although you may not be able to realize the truth and sincerity of my remarks until you have become an alumnus, I can assure you that the many hours of work expended by the students in preparing these floats are well rewarded by the appreciation and goodwill which it brings for the College both from ex-students and from townspeople. I sincerely hope that the organizations at the College will continue to see fit to take part in what I believe to be the most important single event of Homecoming.

Warlick Carr

Dear Editor:

During Tech's recent home games, I have noticed the widespread practice of saving seats. While saving seats in small numbers has become the accepted custom, the saving of large blocks of seats by fraternal organizations has not.

I have been at Tech for five years and to my knowledge there is no rule governing "seat-saving" one way or the other (except for the band and the Saddle Tramps). Should there be any rule that states that blocks of seats may be saved, I would like to hear about it.

In my opinion, it is rather inconsiderate on the part of the organizations concerned to save large blocks of seats in the best part of the student section. There is cause for embarrassment when one sits down and then is asked to move because, "these seats are saved." I would like to hear some other comments on this situation both pro and con.

Roy Bell

Student Insurance Proposes Plan For Married Students

Student insurance may soon be available to married students and their families, according to Bill Holmes, administrator of student insurance.

At a meeting of Tech Dames Tuesday night, Holmes presented a proposed insurance plan that would provide the student, the student's spouse and dependent children with accidental injury benefits and allocated sickness benefits.

COVERAGE would become effective on Jan. 23, 1961 and continue until Sept. 12, 1961 and would be in effect during all interim vacation periods.

The present student insurance plan with North American Company for Life, Accident and Health Insurance is in effect for this year with an option for the same plan next year.

This does not allow a combined policy plan until September, 1962, at which time the company would include the married students plan in the regular student insurance plan.

PROTECTION includes participation in all athletic activities other than inter-collegiate sports. The accidental injury benefits provides up to \$500 blanket medical expense reimbursement for each accident. Payment will be made for treatment and hospital confinement incurred in 12 months following the accident, if treatment begins within 30 days after the accident.

This blanket coverage will include: medical and surgical treatment by a physician or surgeon; hospital confinement and special

nurses; miscellaneous hospital expenses such as operating room, anesthetics, medicines, drugs and laboratory tests; services rendered by the College Infirmary or Health Service for which the student is normally charged; and dental treatment made necessary by injury to sound, natural teeth.

SICKNESS benefits include: hospital (not infirmary) room and board, maximum of 30 days per sickness, each day up to \$10; miscellaneous expenses while confined in hospital (not infirmary) maximum of 30 days per sickness, including operating room, anesthetics, drugs, medicines and laboratory tests up to \$100.

Also included are: surgeon's fees for operations due to sickness, from \$10 to \$200 per operation; and doctors' visits for non-surgical cases, \$3 per day for visits to patients confined in a hospital to a limit of each illness of \$90.

BENEFITS are payable in addition to any other coverage the student, or family unit, may have.

Any student taking at least six semester hours will be eligible for this insurance.

MEMOS. ASME

Members of the American Society of Mechanical Engineers will hear a discussion on "The Role of the Mechanical Engineer in Machinery Sales" at 7 p.m. Thursday, Roger Clark, an engineering representative of an Amarillo firm, will speak to the group in Rm. 1 of East Engineering.

NEWCOMERS CLUB

The Tech Newcomers Club will have its first regular meeting at 8 p.m. Monday in the home of Mrs. Floyd Boze, 2121 55th.

The club is comprised of Tech's women faculty members, wives, mothers and sisters of Tech administrative personnel.

RECORD PARTY

New LP's with the accent on progressive jazz, will be discussed and analyzed by Jim Sudduth at a record party in the Tech Union.

The junior music major will direct the party that will start at 4 p.m. Friday.

All students are invited to attend.

RUSSIAN FILMS

Three short Russian films will be shown free to Tech students at 11 a.m. Friday in the film room at the east end of the library basement.

The films are "Christmas Slippers," an operetta by Tchaikovsky, "Bayaderka Ballet," featuring Natalia Dudinskaya, and "Dance Festival," featuring Russian folk dances.

The films will have English subtitles.

CIRCLE K

Plans are being made for the "Toys for Tots" annual Christmas drive. The project will get underway on Nov. 28 and is sponsored on campus by the Circle K.

Pep Rally Features Red Riding Hood

Red Riding Hood, "way out" style, is to be presented by the Tech Band at the pep rally 7:30 p.m. Friday at the Saddle Tramp Circle.

The skit will be a musical take-off on the folk story, Red Riding Hood. Also featured will be a yell designed for the stop time in "Alabama Jubilee" and a cornet jazz yell written by Richard Tolley, brass instructor.

Students Begin Speech Meet

Speech Intramurals began here last night with 108 entries from ten organizations.

The organizations entering are Phi Mu, Alpha Chi Omega, Phi Gamma Delta, Kappa Kappa Gamma, Gamma Phi Beta, Pre-Law, Delta Delta Delta and Alpha Tau Omega.

Sweepstakes, divisional and monthly trophies will be awarded.

On Campus with Max Shulman

(Author of "I Was a Teen-Age Dwarf", "The Many Loves of Dobie Gillis", etc.)

A MODEST PROPOSAL

A movement is afoot—a shocking, startling movement—to solve the problem of overcrowded colleges by the simple expedient of refusing admission to women at coeducational schools!

It is argued by proponents of this plan that in today's world a college education is absolutely essential for a man, while for a woman it is merely a pleasant interlude between adolescence and housewifery. There is simply not room enough for both men and women in our overburdened colleges; therefore, in all fairness, women who have far less need of a degree than men, must yield their places.

Well sir, when I heard this drastic proposal, I was so shocked that I sat right down and lit a Marlboro. I always sit right down and light a Marlboro when I am shocked. I also always sit right down and light a Marlboro when I am *not* shocked. There is no time, no condition, no mood, no estate when it isn't a source of soul-deep gratification to settle back and have a full-flavored smoke—Marlboro, the filtered cigarette with the unfiltered taste—Marlboro, the jewel of cigarettes—Marlboro, the pinnacle of the tobaccoist's art—Marlboro, my comfort, haven, and snug harbor.

Well sir, I sat smoking my Marlboro and thinking over the shocking proposal to keep women out of coed schools, and hoping fervently that another solution can be found. If the calamitous day ever comes when women are banned from coed colleges, I will gnash my teeth and rend my garments and take to my bed without supper. Like any other Marlboro man, I love women. I love the sight and sound of them, the cut of their jibs, their beauty and grace, their cunning little spiteurs, their sleek dimples, their middy blouses, their aura and effluvia. Moreover, I freely admit that when it comes to brainpower, they can give the average man cards and spades and big casino too. It would be a shame, a disgrace and a catastrophe to keep these beautiful, intelligent creatures out of college.

However, it is always wise in time of fair weather to prepare for foul. What if the advocates of keeping women out of college begin to gather strength? We who abhor this finnish plan must be ready with a substitute . . . and it just so happens I have one—and a mighty ingenious little plan it is, if I say so myself.

Granted that classroom seats are in short supply, and granted that men need degrees more than women, it is still not necessary to bar women from college. Let them go to college but—here is the beauty part of my plan—*don't let them go to class!*

Tech Faces Acid Test Against Top Defense

Texas Tech, fresh from an upset victory over Tulane, will pit its colorful, wide-open brand of football against the nation's top-ranked defense when the Wyoming Cowboys invade Jones Stadium Saturday at 2 p.m. for an inter-sectional clash. It will be the first meeting with SWC opposition in eleven years for the Cowboys.

The tough Wyoming defense, first in the nation last week, has allowed an average of only 149.3 yards rushing and passing in

eight games this season and has limited opposing backs to a scant 81.1 yard average on the ground.

Offensively the Cowboys sport a pair of fine runners in Jerry Hill, left half, with 480 yards in 110 carries, and quarterback Chuck Darnson with 409 yards on 78 carries. Also the fine toe of Joe Dempsey has added 14 PAT's and two field goals. Dick Behning, the Cowboys' fleet right half, presents a definite scoring threat with five TD's already this year.

Last Saturday, the Cowboys dropped their first Skyline Conference game in two years to undefeated Utah State 17-17 to give them a 5-1 conference mark and a 6-2 mark for the season.

The Raiders will field the top-ranked offensive threat in the SWC in the form of Coolidge Hunt who has gained 429 yards in 102 carries. An aerial touch will be supplied by Glen Amerson who has compiled an impressive 373 yards in the air.

The last time the two schools met was in the 1956 Sun Bowl when Wyoming stopped the Red 21-14 on a touchdown in the final four minutes. Wyoming lost its only other meeting with Tech in 1938 when the Raiders' Cotton Bowl team won 39-0.

Following Tech, the Cowboys close out the season against Brigham Young at Provo, Wyoming could clinch at least a tie for the Skyline title with a win.

TO RED RAIDERS

Turner Giant Asset

A rolling punt gathers touchdowns, reasons Texas Tech's Bake Turner.

Twice in recent games Turner's ability to make his punts roll over and play dead has resulted in Texas Tech touchdowns.

TAKE THE TULANE game (which Tech did, 35-21). The Raiders were trailing 14-13 as the fourth quarter opened. The second play was a Turner punt for 38 yards into the north wind, a kick that came to a halt on the Tulane 3-yard line. The Raiders held and went ahead for keeps, 19-14, just three plays after the Green Wave's return kick.

Southern Methodist could have warned Tulane. Tech, trailing 7-0, scored its first touchdown just after a towering punt of Turner's rolled from a Mustang's hands into the arms of Tech end Jerry Garrison on the SMU 13. The Raiders' fourth touchdown in the 28-7 victory came following Turner's punt that rolled out 18 inches from the SMU goal.

TURNER, NATURALLY, is Tech's leading punter, with a 39-yard average. That's fourth best in the Southwest Conference, but Turner won't mind sacrificing distance for placement in the Raiders' next game, with University of Wyoming here Saturday. The Cowboys last season led the nation in punt returns.

Keep 'em from rolling—opponents' punts, that is—is another Turner-ism. His 19-yard runback of a Tulane quick-kick started the Raiders toward their second touchdown of the afternoon.

BESIDES PACING the Raiders in punting, Turner is first, also, in punt returns—15 for a 6.7 average.

The Alpine Antelope ranks second to a "nextdoor neighbor," Ysleta's little Dean Byrum, when

it comes to running back kickoff. Byrum is averaging 21.1 yards to Turner's 20.8.

Turner works both ways with forward passes, too. He ranks third among the Raiders—behind Dick Polson of Amarillo (12) and Don Waygood of Sundown (9)—with seven catches. He shares with three apiece, the pass interception leadership, with Glen Amerson and Waygood.

A BIG SMILE FOR THE CAMERA
... Bake Turner (20) and Tommy Turner strike a pose.

Frosh Meet Calves In Season Finale

Texas Tech's Picadors, freshman football team, put their undefeated season on the line against the West Texas State "B" tonight at 7:30 in Plainview. The Picadors boast a season record of three wins against no defeats, while West Texas State's Calves have defeated two other B elevens, Hardin-Simmons 25-7 and McMurry 22-6.

"WE ARE EXPECTING a very hard-fought ball game Thursday night," Beattie Feathers, freshman coach, declared.

Doug Cannon, the quarterback from Levelland, who has been in command of the frosh eleven throughout this season will be at the man-under slot in Thursday night's action.

WITH CANNON in the Tech backfield will be split-back Charles Lipsey, a fleet-footed high school star from Cisco. At half-back will be David Rankin from Midland.

Completing the back field will be H. L. Daniels of Marshall who is the Picadors' leading ball car-

rier. He is also Tech's leading freshman kicker and punter.

DANIELS HAS racked-up 207 yards on 40 carries for an average of 5 yards per trip.

Cannon is pacing the team in passing. He has completed 15 of 26 passes for 250 yards.

THE LINE should remain the same as it was against the North Texas Eagles last Friday, according to Feathers.

This would place David Parks of Abilene and Don Burch of Levelland at the end positions. Parks is an all-stater from Abilene and has been outstanding on the frosh team for his defensive work. Burch, a high school team mate of Cannon's at Levelland is an outstanding pass receiver.

AT THE TACKLE slots will probably be Dennis Watkins of McCamey and Jimmy Webster of Wichita Falls. Watkins is a highly regarded defensive player and has been outstanding all season for the Picadors. Webster was a member of the 4-AAAA state finalist Wichita Falls Coyotes and an outstanding lineman.

"Donuts of Distinction"

E. J. Dumps Tradition, Enemy Players

Texas Tech's center, E. J. (The Seal) Holub, in waging his All-American campaign, dumps tradition like he spills opposing ball carriers.

For a footballer to be considered an All-American "candidate," he generally must:

Be a highly-sought-after high school player,

Make all-conference,

Be a member of a winning team.

Not many colleges were interested in Holub because he missed his senior season following a knee operation. Those scouts who did

recall his play as a tackle his junior season did woo him, however, and Tech's DeWitt Weaver, whose son had been a Lubbock High School teammate, signed Holub to the first Southwest Conference letter of intent ever given a prospective Tech player.

HOLUB CAN'T make all-conference until this, his senior, season. This is the first year for Tech to compete for the Southwest Conference championship, and, therefore, the Raiders have not been considered for all-conference honors previously.

As for playing on a winning

team, Holub will have to wait for a professional career (pro scouts are extremely high on him), as Tech would have to upset Wyoming and Arkansas to produce a winning record (of 5-4-1) this year. Tech, making its conference debut, just hasn't attracted enough outstanding players for its rugged schedule. In Holub's sophomore season the Raiders won only three games. Last year it was 4-6.

WITH THESE THREE traditional strikes against him, Holub still gained a fair share of honors last season. With Northwestern's Jim Andreotti, he was a member of the Football Writers' All-America at center. Holub was the first team choice of NEA Service and a second team selection of the Associated Press behind Georgia Tech's Maxie Baughan. Besides polling a large number of votes for the United Press International All-America, Holub was picked on the Football News and Williamson squads.

Armed with a near unanimous vote on the pre-season All-Americans as well as additional endorsements from coaches and players of opposing teams this year, Holub looms as a consensus All-America this season. He'll be the first in the 36-season history of the school.

ALTHOUGH HOLUB played tackle in high school, Coach Weaver, to capitalize on his speed and

play diagnosis, moved him to a linebacker position. The 6-4, 217-pounder soon acquired an excellent reputation.

Among those attesting to his linebacking ability are Preacher Franklin, the former Vanderbilt player now assisting at Southern Methodist ("... the best linebacker I ever saw"), Cotton Davidson, then a Baylor coach, now with the Dallas Texans ("... the greatest linebacker I've seen in college... a vicious tackler, a real nose for the ball"), and Oregon State coach Dick Twenge, who compar-

ed him with Don Moomaw and Les Richter.

BUT LINEBACKING is just half of Holub's job. Whenever the Tech first unit is on offense, Holub is the center. He does such a job there that Tech coaches have frequently graded him higher on offense than defense. Holub averages about 45 minutes a game.

Speaking of offense, at Tech there's mild agitation to move Holub to the backfield. Fans at Tech's 35-21 win over Tulane liked the way Holub raced down the sideline and shook off a tackler on a 28-yard pass interception runback for a touchdown.

... goes and goes

RALPH'S RAMBLINGS

by
Ralph W. Carpenter

Sports Editor Billy Patton was called out of town on business Wednesday and asked yours truly to mind the store in his absence. Don't worry, he'll be back at his old stand Friday, predictions and all.

The big talk around the campus has been the national election, but that's all over and thoughts turn to Saturday afternoon when the Big Red collides with the highly successful eleven from Wyoming. Some observers are predicting that the Cowboys will take the Raiders as easy as Marilyn Monroe is to look at. True, the Wyoming boys are good, nobody can argue that point—but can they waltz through the Raiders? I say no. It's up to the Raiders to prove it.

—RWC—

The freshmen team plays in Plainview tonight against the B team from West Texas State. It will probably be a game worth watching. The Picadors haven't been beaten yet and it wouldn't surprise me a bit if Joe Kerbel, head coach at West Texas, didn't play everybody—including the waterboy—against Coach Beattie Feathers and his squad. If I know Joe like I think I do, he will certainly try to send the Tech youngsters home with a loss. Here's hoping the Picadors make it four in a row.

—RWC—

Coach Polk Robison and his cagers have been working out since early October in an effort to be ready for the tough schedule that faces them this year. Robison, always a man to get the best out of available material, hasn't had a lot to say about the team so far. However, you can bet that the Tech cagers will present an exciting team for Tech students to get behind this season. Basketball season is fast becoming one of the real highlights of the Tech school year. The addition of the big coliseum plus exciting play has put basketball high on the sports menu at Tech.

—RWC—

Wasn't that a sick turnout of fans for Dads Day? Some 15,000 souls turned out for the game—one of the best for the Raiders this year. Well, I've said it before and I'll say it again, these Lubbockites are the poorest football fans in the nation—bar none. They don't turn out for any team that is losing and I'm beginning to wonder if they would even get behind a winner.

—RWC—

Have you been noticing the college football telecasts lately? The men of that media have taken it upon themselves to get in on the act early and introduce—in person—the team members and their coaches one by one. Personally, this seems like a big bother to the men. They should be preparing themselves for the game—not facing the all-seeing eye before they go into battle. I've actually been expecting, during the heat of the game, the TV people to call the starting quarterback off the field and have him do a commercial, adjust his makeup and storm back onto the field. Ho hum, guess it's just one of the things we're going to have to endure if we want to see college football on TV, but it sure does take a lot away from the game.

—RWC—

I wonder how long the Dallas Cowboys think that they can compete in the powerful NFL? If this is a professional football team they sure don't act like it. Sure, it takes time to build. But surely they could field a more representative eleven. The defeats they have received lately have been so one-sided it hurts.

They ought to combine the Cowboys, Texans and SMU into one team and make a traveling unit out of them. This would eliminate so many coaches and assistants and they would probably do a little better. I think?

Trampoline Finals Unreel Tonight

Finals in the Men's Intramural Trampoline Tournament will be held tonight at 9 p.m. in the Men's Gym.

Edsel Buchanan, Director of Intramurals, emphasized the fact that few entries have been posted in Intramural Bowling, Swimming, Basketball, and Basketball Freethrows.

This airplane is actually a flying classroom. The course taught in it is Air Navigation, under real conditions. The students are young men who have been selected as possible future leaders of the Aerospace Team. Graduation after 32 weeks of training will win each of the students the honored silver wings of an Air Force Navigator and an Officer's Commission.

For certain young men, this training can open the way to a bright career of executive potential. Right now the Air Force is scoring impressive technological advances in the fields of navigation, guidance and tracking, electronics and radar. And here is where its highly trained and experienced Navigators will be expected to take over command positions of increasing responsibility.

To qualify for Navigator training as an Aviation Cadet, you must be between 19 and 26½—single, healthy and intelligent. And you must want to build an exciting, interesting career in the Aerospace Age. If you think you measure up, we'd like to talk to you at the nearest Air Force Recruiting Office. Or clip and mail this coupon.

There's a place for tomorrow's leaders on the **U.S. Air Force**
