## Double-alarm blaze guts dorm room

By PAT GRAVES  
AND RICHARD GRIFFING  
UD Reporters

A two - alarm fire Thursday night on the sixth floor of Wall Hall gutted one room and left the entire dorm with heavy smoke, fire and water damage.

It took eight fire trucks, 25 men and 40 minutes to bring the fire under control. ACCORDING TO FIREMEN, the call was received at about 8:25 p.m. Within 10 minutes of that call the first of the fire equipment arrived on campus. Smoke and flames were visible as far away as the intersection of 19th Street and University Avenue.

The first firemen on the scene reported to the radio dispatcher, "She's blowing and going. Get me some more equipment out here."

Fire officials so far are not certain what exactly caused the fire. They are looking into the possibility that the blaze resulted from an electrical short in a popcorn popper.

The fire apparently began in room 611 and spread rapidly to an adjoining room. Fire damage was confined to the sixth floor of that building.

Smoke and water damage were reported on every floor. No injuries were reported, but according to firemen at the scene the damage will probably run into the thousands of dollars.

**THE FIRE WAS** discovered by Tisa Calhoun, a resident in room 606.

She said she came up to room 611 about 8:15 to pick up residents Elaine Elmendorf and Marsha Mahoney to go out. After putting her books into her own room, she said she opened the door and found one of the beds on fire. Both residents were out of the room at the time.

Calhoun said she then found Elmendorf and Mahoney in one of the end rooms in the hall. By the time the three returned, the room was in flames, Calhoun said.

They tried to use a fire extinguisher to put out the fire, but were unable to operate it, Calhoun said. Wall resident assistants said the extinguishers had been recharged a few days ago and were functional, but that the girls did not know how to operate them.

**CALHOUN SAID NO** one panicked. The three began with sixth floor and went down each floor of the wing, telling residents to evacuate the building.

When the girls reached the lobby about 8:20 they told office assistant of the fire.

Calhoun said she did not know the cause of the fire, but thought it might have resulted from an electrical short.

About 10:15 p.m. fire officials began to let Wall residents go back to their rooms to pick up belongings. The residents of floors one, two and three were allowed to remain in the dorm if they wished — other residents were relocated in other dorms.

**WITNESSES AT THE** scene said that smoke damage throughout the dorm was heavy and that water running down through ventilator shafts had at one point put the first floor "just about underwater."

Both Wall and Gates Halls were evacuated during the fire and streets around campus were blocked off by city and campus police units.

### Dormitory fire

A Lubbock fireman perched high atop an aerial ladder fights a two-alarm fire in Wall Hall late Thursday night. After the fire was tapped out, fire marshals sift through charred rubble trying to pinpoint the cause of the blaze which gutted one room and caused extensive smoke and water

damage to the South wing. A charred robe and a melted light switch pose a very unpretty picture in the room across from room 611, where the fire originated. (Photos by Larry Jayroe and Larry Smith)

## Questions arise on water contaminations

By CLIFFORD CAIN  
UD Reporter

About three weeks ago the water fountains and drinking water of the University Center, Library and Park Administration Building were contaminated by a chromate (chemical rust inhibitor) seepage.

Though no problem exists now, many questions have arisen about the contamination and the possibilities of future problems.

According to Environmental Health and Safety director Jim Northcutt, there have been several instances in the past of mild contamination, but life-threatening contamination would have to be caused by intentional tampering of the water supply.

**"THE CONTAMINATION** would have to occur by directly breaking into the pipes," Northcutt said, "but that would be almost impossible because of the pressure behind the water."

In a Sept. 30 University Daily article, Fred Wehmeyer, vice president for administrative services, said chilled water (for the air conditioning and cooling systems) surged into the fresh water system.

"There was a surge in pressure of about 120 pounds, and the water pressure coming into campus is not anywhere near that. It's closer to 40 pounds, and the system couldn't hold the surge," Wehmeyer said.

**WEHMEYER SAID** the problem was caused by back pressure breaking a valve that allowed the chromates to flow into the drinking system. The problem is now corrected.

In departments using chemicals in experiments, safe disposal of the chemicals is a big concern, said Dr.

Jerry Mills, assistant chemistry professor.

The chemistry department dilutes all safe chemicals before dumping them down the drain Mills said. Any toxic or dangerous chemicals are sealed in steel barrels and buried outside of the Lubbock city limits, Mills said.

**ACCORDING TO** Dr. R. C. Jackson, chairman of biological sciences, most of the chemicals used in that department are diluted before being poured down the drain, but any radioactive or carcinogenic (cancer-causing compounds) substances are also placed in steel barrels and buried.

The chairman of the chemical - using departments on campus said there is no possibility of the chemicals backing up

into the water system unless there was some sudden loss of pressure or back pressure, (more pressure from another system).

Besides the chromate contamination, some of the dorms have a problem of brown - colored water and warm water in the drinking fountains.

**"SOME OF** the residents complain of the water coming out of the water fountains as being hot, but that's because the chilling system has been out of operation," according to Steve Mark, head resident of Carpenter Hall.

Though most housing officials or resident dorm counselors will not say the dorms were affected by the chromate contamination, a resident of Gates Hall said, "The water tasted

funny and smelled bad."

"We were told not to drink from the water fountain, brush our teeth or take a shower," said the resident. "The next day we were told to run the fountain water for 15 minutes before drinking."

**"LATER, WE** were told that an inspector was to come out and look at the water," the resident said, "but I don't know if the man came."

"The brown water is caused by rust getting in the system from the pipes," Northcutt said.

"There is no problem now, but I wouldn't rule out any possibility of contamination happening again because it happened before," Northcutt said.

## Special tenure panel members picked

By CHARLES HICKMOTT  
UD Reporter

Two faculty members were selected to serve on a special hearing panel for tenure and privilege by the Executive Committee of the Faculty Council in a called meeting Wednesday, The University Daily has learned.

The two faculty members were selected for the hearing panel in accordance with the Texas Tech University Tenure Policy Article VI dealing with procedures for the termination of a continuing appointment (the appointment of a faculty member tenure).

The two panel members were chosen from a yearly-elected panel of senior faculty members which made up the Special Hearing Panel for Tenure and Privilege Committee (SHPTPC).

The selection was made at a meeting at which no one other than Executive Committee members were present. No press representatives were notified of the meeting.

In accordance with Article VI of the Tenure Policy, two more faculty members are expected to be appointed to the special hearing panel by Tech President Grover Murray. Then the four panel members together will select a fifth member for the SHPTPC.

The hearing panel's appointment apparently stems from a charge by a non-tenured faculty member that a decision not to reappoint him was caused by reasons which violate his academic freedom. Article IV, Section 8 of the Tenure Policy states:

--If a faculty member on

probationary appointment alleges that a decision not to reappoint him is caused by considerations violative of academic freedom, his allegations shall be given preliminary consideration by a faculty committee. If the committee concludes that there is probable cause for the faculty member's allegation, the matter shall be heard in accordance with the procedures outlined in Article VI...

No specifics of the case were divulged at the meeting. A hearing on the matter will be conducted at a future date.

Also at the Executive Committee meeting, Dr. Tom Trost, assistant professor of electrical engineering, was designated as a replacement for Phil Johnson, professor of petroleum engineering, on the Grievance Committee.

### Referendum series

## UC-Music addition first in the nation

**EDITOR'S NOTE:** This is the second in a five-part series dealing with the student referendum on raising the University Center fee.

By GEORGE JOHNSTON  
UD Reporter

When the new University Center-Music addition is complete, the Tech UC will be the only UC in the nation connected to a music building, according to Nelson Longley, UC director.

Longley said the new addition will house a 1,000-seat auditorium, a 600-seat recital hall, several meeting rooms of different sizes and a covered patio.

Longley said the music department will be allowed to use the auditorium 60 times a year with the UC using it the rest of the time.

**THE STAGE OF** the auditorium, he said, is large enough to hold the complete Tech Marching Band and is larger than the stage of the Lubbock Municipal Auditorium.

The offices of the UC Programs, Student Association, Cultural Events, the Theater and Building Services Coordinator, UC administrative staff and the student legal counsel will all be housed in the new addition.

The new addition will also have a large lecture type room in which the Tech Student Senate will meet, he said.

**THERE WILL** also be a 200-seat addition to the snack bar, additional seating area in the cafeteria and a new area in the basement level for table games, he said.

"The table game area was originally intended to house the pub if it was approved," Longley said.

The new addition will put the UC and Music Building under one roof and the whole complex will cover about one city block, Longley said.

**WHEN THE** new addition is completed in May, Longley said, the

existing snack bar newsstand will be remodeled to house an automatic post office and the cafeteria newsstand will be converted into additional seating space for the cafeteria.

Longley also said a new enlarged newsstand will be located at the main entrance to the UC where the UC administrative offices are now located.

**THE NEWSSTAND** will provide such services as ticket sales, information, check cashing and lost and found, he added.

Longley said the new structure will have 110,000 square feet and cost approximately \$5.6 million.

Part of the addition that will be used by the music department will be paid for out of state funds, he added.

The UC will operate 64,000 square feet of the addition with the music department operating 46,000 square feet, he said.

### Pony backfield

These beaming four faces will comprise the starting offensive backfield when SMU lines up against the Red Raiders Saturday night at 7:30 p.m. in Jones Stadium. Wayne Morris (upper left) is the star of the SMU ground game and is nearing a school record in rushing. David Bostick (upper right) is the power behind the Pony wishbone. Arthur Whittington (lower left) compliments Morris with speed on the option. Ricky Wesson (lower right) is the leader of the pack at quarterback. Wesson made his debut against the Raiders two years ago in Lubbock and has yet to defeat Tech as a varsity player. He is known for his rushing ability but has also had an impressive year passing. The Mustangs stand 3-3 on the season and 1-1 in conference play.

### Pokes like two WFL stars

DALLAS (AP) — Dallas Cowboy officials reportedly are interested in two players from the now defunct World Football League — quarterback punter Danny White of Memphis and tight end John Kelsey of Hawaii. White was a third round pick from Arizona State and Kelsey, then an offensive lineman from Missouri, was a fifth round choice in the 1974 draft.

National Football League. I honestly don't believe there are that many good quality players in the WFL. Nor do I think there are players who could come in after five NFL games, who have not been to training camp and don't know the system, who could help a team."

Cowboy president general manager Tex Schramm said Thursday, "I don't know about White until I learn the status of his contact with the Memphis team. Kelsey is in Hawaii and we have not heard from him nor have been able to reach him. "However, they are two players we regard very highly," he said.

Gil Brandt, Cowboy vice president and head of the scouting division, said he believes there will be no more "than eight or 10 guys who will come back and play in the

# Alpha Chi Omega takes championship

by MOLLIE GROOTERS  
UD Sportswriter

Playing under the lights in Jones Stadium, the Alpha Chi Omega "B" shone brighter than the stadium lights, as they over-powered the Outsiders 12-0 for All-University honors in Women's Flag Football Thursday night.

Earlier in the week the Alpha Chi Omega battled the defending champions SOBU to a 0-0 tie but won the game on the basis of 6 first downs to SOBU's 2.

In the first quarter, the Outsiders received the kick-off and moved the ball to the A Chi O 7. A strong defense pushed the Outsiders back 7 yards where A Chi O took possession on downs.

On first down A Chi O moved the ball to their own 39 yard line on a statue of Liberty play. On fourth and 5 the A Chi O's completed a pass to the Outsider 25. A penalty against the Outsiders moved the ball to the 12. Alpha Chi Omega then ran up the middle for 4 yards.

A pass interference call on the next play put the ball on the 2. Alpha Chi Omega hit paydirt on the following play on a quarterback hand-off from Jody Nicholas to half-back Minnette Jones who passed to Nikki Ware for the TD. The extra point failed and at the end of the first quarter Alpha Chi Omega led 6-0.

The Outsiders then received the kick-off on their 33 yard line. On third and long yardage a Karen Chisum's pass was intercepted by Jody Nickolas on the A Chi O 31 yard line. Unable to move the ball A Chi O punted to the

Outsiders 29. A 15-yard penalty for illegal contact put the ball on the 14. A Chi O then pushed the Outsiders back to the 9.

The Outsiders were unable to get the needed first down and punted from the 12 to the 38. A Nickolas Ware pass was complete for 10 yards to end the half.

In the second half the Outsiders' kick-off was taken on the A Chi O 25 where Nikki Ware ran it back to the Outsiders 39. A Jody Nickolas pass was completed to Karen Evans on the 28 for another first down. A penalty called against the Outsiders moved the ball to the 13. Four plays later the Outsiders took over on downs.

On first down, a run from quarterback Jan Massey was good for 10 yards to end the third quarter.

A Massey pass was intercepted on the Outsiders' 28

yard line by Suzanne Dover on the next play. A determined Outsider defense led by Brenda Mayfield and Gina Merit pushed A Chi O back to the Outsiders 38. A Chi O then punted to the 16. A penalty put the ball on the 31. A Chi O defense held again and took over on the 26. On second down and 8 Lynne Tippen ran right up the middle to score with two minutes left in the game. During this play Outsiders quarterback Massey was thrown out due to unsportsmanlike conduct.

The conversion attempt failed and A Chi O led 12-0. With a few seconds left in the game, Minnette Jones intercepted an Outsiders pass on the A Chi O 32 to end the game.

Outsider coach Karl Heinrich said of the game. "They (A Chi O) deserved to win. My team just wasn't up for the game."

Winning coach John Nicholas, husband of the quarterback, said, "Of all of the games we played this year, Outsiders were most intimidating. All Alpha Chi Omega is excited over our win."

## Fems in weekend action

By ANGELA SHEPHERD  
UD Sportswriter

Tech's women's cross country team is the only group competing at home this weekend, while the tennis team heads down to Kerrville for the Schreiner Fall Collegiate and volleyball team heads east to Denton for the North Texas State Invitational Volleyball Tournament.

The cross country team will host a two-mile run through MacKenzie Park Saturday in conjunction with the Men's Invitational Cross Country Meet. Competitors from Abilene Christian, Wayland Baptist College, San Angelo State and WTSU are expected for the event.

The tennis team, in Kerrville today for singles and doubles competition in the Schreiner tournament is led by No. 1 player, Joneen Cummings. She is followed by Carla Weathersby, Mame Bevers, Sally Meyers, Stephanie Ketter and Phylis Breegle.

"Our main competition will come from Schreiner, UT-

Austin, Odessa College and UT-Permian Basin," said tennis coach Emilie Foster. Foster listed new doubles pairings as Cummings-Meyers, Bevers-Breegle and Weathersby-Ketter.

The volleyball team, competing in its last tournament before the big Zone Tournament at North Texas. The Raiders meet Tarleton State at 2 p.m. today, followed by powerful Houston at 4 p.m. and Dallas Baptist College at 9 p.m. Saturday, the girls meet Texas Wesleyan at 10 a.m. In previous play, Tech defeated Tarleton and lost to Houston.

The team's record is 15-9 for the season and 8-5 is the record for zone play.

Other powerful teams entered in the NTSU tournament are UT-Austin, TWU, UT-Arlington, Texas A&M, Baylor and Oklahoma.

Tech and Houston should be top contenders in their pool and, on the basis of past tournament play, should be joining TWU and UT-Arlington as favorites.

# Texas-Rice top SWC weekend action

By RANDY HICKS  
UD Asst. Sports Editor

Three teams undefeated in Southwest Conference play will try to keep their winning strings alive Saturday as six of the eight teams meet in conference play.

Texas, unbeaten in conference action at 2-0, hosts also unbeaten at 1-0 Rice in a night game. It is the first time since 1963 both teams have gone into the game undefeated in SWC play. The Longhorns have beaten the Owls for the last nine years and have taken the last 38 games from them in Austin. Texas leads the nation in scoring, is seventh in total offense and third in the nation in rushing. Earl Campbell

(15th in the nation) and quarterback Marty Akins (31st) will lead the Horn running attack while Rice's Tommy Kramer will bring the second best passing offense in the conference into the game.

Defending SWC Champions Baylor will travel to College Station to take on the other undefeated conference team Texas A&M. The Aggies handed the Bears their only conference defeat of the year last season and lead the overall series 43-21-7. The Aggies will go into the game with the number one defense in the country giving up only 169 yards per outing. The Bears have the third best defense in the conference and

are fifth nationally in pass defense. The Aggies will feature the running of Bubba Bean (8.5 yards per carry) and tenth best rushing offense in the country. The Bears will counter with runners Cleveland Franklin (112.4 yards per game) and Pat McNeil (85.5 yards per game).

In the other afternoon game Saturday, TCU will travel east to meet the Alabama Tide at Birmingham. The Frogs hold the overall series lead winning three of four. TCU has now lost 16 in a row and threatens to challenge the school and conference record of 19. Alabama is ranked fifth in the UPI poll and sixth in the AP

poll. The Tide is a ground-oriented team averaging 306 yards per game while the Frogs rely on the pass. TCU has both the leading receiver and the leading passer in the conference. Quarterback Lee Cook leads the passing attack averaging 180.5 yards per game while Mike Renfro is the premier receiver having caught 26 passes for 423 yards.

Arkansas game with Utah State will feature two of the top runners in the country as the Razorback's Jerry Eckwood and the Aggies Louie

Giammona meet in a head to head confrontation. Eckwood is the top runner in the SWC with 130 yards per game while Giammona is averaging 120 yards per outing. The Aggies have a two-game winning streak going for them while the Razorbacks had their three-game streak broken by Texas last week. The Aggies also have one of the top passers in the nation in Greg Van Nesa averaging 11 completions per game. On the other hand, the Razorbacks rank sixth in the SWC in pass defense.

### Rough going

Fullback Billy Taylor and quarterback Tommy Duniven find rough going into the middle of the Arizona defensive line. Taylor is brought down after a three yard scamper but

Duniven wasn't quite as lucky. He fumbled on the one-yard line and was also knocked out in the process. (Photo by Darrel Thomas)

### Ready defense

Tech's defensive line surrounds end Teapolis "T" Bell as the Arizona fleet foot is brought down after a short pass from quarterback Bruce Hill. (Photo by Darrel Thomas)

### Benson breakthrough

Mike Benson, Tech's aggressive center forward breaks past the Midwestern defensive line in the Raider's 7-5 victory earlier this season. Tech travels to Canyon, Texas this Saturday to battle West Texas State for it's final conference game. (Photo by Karen Thom)

## First time sweetest — John Bench

CINCINNATI (AP) — "No matter what happens after this, I don't know if anything can top winning the Series," Johnny Bench said to the more than 25,000 people who were drawn to the city center Thursday to celebrate the Cincinnati Reds' World Series triumph in the warm Indian Summer sunshine.

"Even if we win it again, they say the first time is always the sweetest."

Bench, like most of those on Fountain Square, a traditional spot for such gatherings,

had only read about the last World Series celebration 35 years ago in the city which has drawn over two million fans to Riverfront Stadium for the past three years.

THE REDS captured the Series the hard way, beating the Boston Red Sox in seven games after they had breezed through the regular season and National League playoff competition.

The fans, like many of the veterans, had been frustrated in the past by their failure to win the big one — the World Series.

# Dad's Day to attract 2,500 fathers

Dad's Day will host approximately 2,500 fathers of Tech students today and Saturday in an effort to familiarize them with university life and its administrators, according to James G. Allen, founder and executive director of the Dad's Association.

Allen said he was inspired to organize the group because of the multitudes of concerned parents who came to him with questions when he was the dean of student life.

Allen organized the group in 1956, with the assistance of Dr. Bill Gordon, a Lubbock heart specialist and Mrs. Dorothy Garner, former assistant dean of women, now a residence hall supervisor.

"This is an opportunity for parents to meet, know and discuss anything that's bothering them and to have personal contact with the institution," Allen said.

Several campus groups work with the Dad's Association for Dad's Day activities. Groups helping with Dad's Day are Angel Flight, Arnold Air Society,

Collegiate Secretaries, Alpha Pi Omega, Army Corpsdettes, House of Hospitality Committee, Saddle Tramps and WSO (Women's Service Organization).

Luncheons, bus tours, open houses and the Tech-Southern Methodist University game will be activities for Dad's Day weekend.

Prior to the 7:30 p.m. game in Jones Stadium, appointed members of WSO will present a plaque to the dad who has traveled the most miles to attend the game and to the dad who has the most children enrolled in Tech, said Donna Dotson, WSO president.

According to Dotson, the dad who traveled the longest distance last year came from Nigeria, and one dad had four children enrolled in Tech.

Dad's Day events start from 7:30 - 9:30 p.m. today in the North Ballroom of the University Center. The House of Hospitality of the Program Council will host parents interested in meeting administrators and department heads. Fourteen ad-

ministrative offices will be represented.

Parents and their families may attend the WSO-sponsored registration-coffee in the Coronado Room of the University Center, 9-11 a.m. Saturday.

Mom's luncheon will be served at noon in Wall-Gates cafeteria, Dotson said. Hemphill-Wells will host a style show at the Mom's luncheon and provide favors for both luncheons, Georgene Fox, WSO chairman, said.

Members of Dad's Association will be hosted by SWO and served lunch by the Arnold Air Society at 12:15 p.m. in the University Ballroom.

Tours of the Ranching Heritage Center, sponsored by Dad's Association and Saddle Tramps, will begin at 2 p.m. and 3:30 p.m. Trips include touring the Food Processing Center, Tech Museum and Tech Library.

"Although the tours might sound boring to most students, the parents love the tours. They love to know what the

campus is like and about the school in which their sons and daughters are attending," Allen said.

"This helps close the generation gap between the parent and child. When parents know more about

their child and university he attends, they naturally have more to talk about," Allen added.

All tickets for the 16 bus tours have been taken, and 25 standby tickets are reserved in the event of cancellations.

Open houses and tours from 2-5 p.m. are planned. Open houses include Health Services at Thompson Hall, Physical Plant, heating and cooling system, the library and the Home Economics Building, El Centro room.

## MOMENT'S NOTICE

**SOBU**  
SOBU plans a car wash Saturday from 11 a.m. to 6 p.m. at the Gulf Station, 4th Street and University Avenue.

**PRSSA**  
PRSSA members planning on going to the convention in New York City should contact Steve Youngblood today after 10 p.m. at 744-2080.

**FNTC**  
Friday Night Tape Class will meet at 7:30 p.m. today in the Pi Phi Lodge on Greek Circle.

**MECHA**  
MECHA will meet Saturday at 1 p.m. in the Annex Building.

### Unorthodox teaching

Jon Voight stars in this week's UC Movie, the film version of Pat Conroy's teaching exploits titled "Conrack" (the name by which his students call him). In the scene above, Voight is escorting his underprivileged students on their first trip off the island they call home. Movie Critic William Kerns calls Voight's performance "a heartwarming impressive

one" ... "a performance which in itself makes the film worth seeing" — but adds that "the film on the whole, however, is much too syrupy and strained, the director forced to treat Voight's character as a super hero." The film will play tonight and Sunday at the U.C. Coronado Room. Further details may be obtained by calling 742-6200.
