

LEE SOUGHT IN HANGING

Roommate Discovers Turnbow's 'Body'

Bill Turnbow, 185-pound star center from Burkburnet, was found hanged from the light fixture in his dingy West Hall dormitory room at 11:15 p.m. Monday by his roommate, Rudy Dominguez.

But don't get excited. This is Texas Tech's annual Pre-Law Club mock crime.

Lubbock police today organized an area-wide search for Kenneth "Termite" Lee, Tech athletic trainer. Lee is being sought for questioning in connection with the hanging because of an argument with Turnbow in the Tech Union Monday.

Authorities said that Lee was in the Union drinking coffee with Susie Stone, a friend of Turnbow's, when the heavy-set Raider footballer entered and jerked Lee to his feet.

The pair exchanged words angrily and Lee was heard to mutter as Turnbow stalked from the Union:

"I'LL GET back at you, you big over-grown ape."

Lee's roommate reported to police that he last saw "Termite" leaving the West Hall lounge at approximately 10:05 p.m. Monday.

The roommate said, "Termite looked around nervously and left the lounge without saying a word."

ACCORDING to Tech Pre-Law Club District Attorney John Stokes, Lee is not yet under suspicion of murder but is wanted for questioning because of the Tech Union incident.

Monday evening Lubbock police had not found any clues as to Lee's whereabouts but they were reported to be "hot on the trail."

A FIGHT IN THE TECH UNION

... the result of the fight was Turnbow's death

Deadline For Festival Extended Until Friday

Deadline for entries in the Senior Festival has been extended to Friday.

The festival, slated for April 30, will begin at 1 p.m. on the west half of the Ad. Bldg. parking lot.

Organizations interested in having a booth are asked to contact Claude Rogers, Bledsoe Hall; San-

dy Hamilton, Weeks Hall; or the Student Council office, and give their first three choices of booths.

The senior festival is held annually for the purpose of making money to go toward the senior class gift to the college. A trophy will be awarded to the organization making the most money.

Yippee!! Post Precinct Votes Wet!

See Box, Page 8.

Grable-James Present Stage Show On Campus

When Betty Grable and Harry James open a three day engagement at the Lubbock Auditorium tomorrow night, Tech students will be admitted for \$2 with an I. D. card.

Tickets in the student section

Sharpe Sings On Basin St.

Popular singer Ray Sharpe will be featured at Sigma Alpha Epsilon's Basin Street Dance Friday night at the Fair Park Coliseum from 8 to 11 p.m.

Sharpe and his four-piece band are currently appearing at the Bird Club in Fort Worth. His latest hit recording is "Linda Lou," a million-seller. He recently appeared on the Dick Clark television program.

The dance, which is open to the school, will have the atmosphere of old New Orleans and the Mississippi bayou country.

would normally sell for \$4.00 each.

MISS GRABLE will bring her entire company. Hollywood dancing star Bobby Van will be her dancing partner as she recreates moments from her motion pictures. Harry James and his music makers will provide the background for the show.

Also appearing on the all-star show will be singing star Peter Palmer. Palmer rose to fame through his appearance in the Broadway musical "L'il Abner" and also starred in the motion picture version of the same hit.

TICKETS are on sale daily in the lobby of the Auditorium and information can be obtained by calling PO-2-4616.

Lubbock is the fourth city in the country to see Betty Grable and Harry James perform on the same stage show. Their appearance here is the only one they are making in the Southwest.

Groups Make Parade Plans

Representatives of all organizations desiring to enter a float in next year's homecoming parade will meet at 5 p.m. Thursday in Tech Union.

Homecoming festivities have been set for Oct. 22. This date was recommended by Tech's class officers because the weather should still be warm, it falls before mid-term exams the campus will still be green, and the scheduled game is with S. M. U.

Home Ec Prof Attends Meet

Mrs. Winnifred Gifford, Home Economics assistant professor, will represent Tech at the Eleventh Annual Conference of the Southern Assn. on Children Under Six, today through Saturday in Miami, Fla.

Mrs. Gifford will serve on a panel of seven members to report on implications of research being done in their respective states.

Approximately 400 members of the association from thirteen states are expected to attend the conference led by Dr. Ralph Witherspoon, Director of Human Development Institute at Florida State University.

UNION RATS, Inc.

by JEANNE HOOVER
Toreador Staff Writer

Now that everyone is back in school after a nine-day vacation "packed full of rest," we can all get back down to all of the studying that we've been used to. I'm sure that everyone took all of their books home, naturally to study, and that is probably the reason for late hours and burning of the midnight oil now. Anyway it's good to be back.

THE UNION had a good chance to take a breathing spell during the holidays, but we find that the smoke and chatter is filling the rooms again. I'm sure that a lot of the talk is about all of the extra time we got off for Easter. Most of our friends at the University, S.M.U., and the other schools around the country got out on Thursday to return on Tuesday. Only way we look at it is—more time to get behind.

Main event at the Union this week is the annual Awards Banquet to be in the Union Ballroom Thursday night. Climax of Student Union activities for the year, the committees are really going to town with all of the plans. Master of ceremonies is Robert Rodgers, and the main address will be given by Dr. D. Ray Lindley, president of Texas Christian University.

Invocation for the banquet is to be given by Dan Webster, and entertainment will be furnished by

the Madrigal singers. Recognition will be given by Robert Rodgers, and various awards will be presented by James G. Allen, dean of student life; Nelson Longley, union director; Dr. Dindley; Dr. W. C. Goodwin, president of Tech; and W. B. Rushing.

INTRODUCTION of the 1959-1960 Program Council and the singing of the Matador song will close the program.

Due to the banquet, there will be no Square Dance on Thursday night. The Tuesday Night dance will be in the Rec Hall from 7 to 8:30 p.m.

Dunbar Combo will play for the Friday Night Dance, set for 8:30-11:30 in the Union Ballroom.

4,000 Students Visit Campus For High School Competition

The Regional Interscholastic League contests and FFA judging contests for West Texas will be held on the Tech campus this week with more than 4,000 students participating from Texas schools.

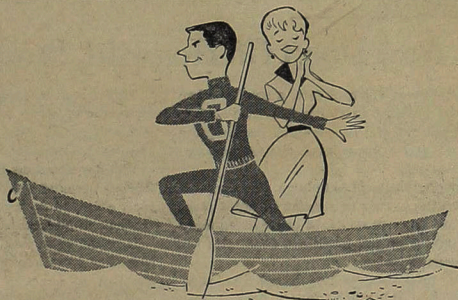

ABOUT 2,000 high school contestants will vie for Interscholastic League regional championships in literary, speech and athletic events this Friday and Saturday.

Around 1,600 boys from West Texas high schools will compete Saturday in FFA contests for judging livestock, dairy cattle, cotton and various other farm products.

The Interscholastic League contests will get underway Friday morning with tennis at 8:45 a.m. on the Tech courts and golf at 8:30 a.m. at Meadowbrook Golf Club.

TRACK and field events will start at 1 p.m. Friday on the Tech track. Conference B one-act plays will start at 7 p.m. Friday in W.B. Atkins Junior High.

Events to be held on campus Saturday include debate, declamation, poetry reading, extemporaneous speaking, ready writing, journalism, typewriting, shorthand, number sense, and slide rule.

Editor's Note

Fresh from the peace and quiet of the new and, we hope, annual spring vacation, Texas Tech students returned reluctantly to the campus Monday and many looked much like "burnt" pigs.

If teachers at this institution had any illusions about students preparing or catching up on lessons for the remainder of the year, they might as well forget them; it didn't happen.

When we say burnt pigs, we mean, of course, that many Techsans — mostly coeds — seem to have spent most of their time lounging about in the sun. We don't mean, however, to belittle coeds by comparing them to pigs; we're sure Attila would have preferred the latter.

Actually, some of the complexions have taken a turn for the better — the sun has done its job well. Many males on campus have been seen chatting anxiously with women in low cut dresses. You can almost hear them wondering just how far the tan does. But then, we guess this is the primary objective of suntans.

★ ★ ★

A lot of students got a chance to blow off steam during the vacation. We overheard a conversation of one student. He was telling of some of his recreational activities during the days off.

It seems that he and one of his cronies — henceforth to be referred to as crony — frequented a local tavern. On this occasion a lovely lass walked by their table and the crony swore he knew her. . . . he'd been in there for a few hours.

On her trip back, he decided to give her a slight friendly pinch — this is done on occasion among friends. But the girl didn't seem to recognize him; nor did her male companion at a nearby table nor any of the other males at said table. They were unhappy and made their presence known. The bartender suggested the two leave. They did.

★ ★ ★

But now we're all back; that is, except for those who decided to take Monday off and intend to buffalo their professors into believing that they didn't realize that Monday wasn't a holiday. This actually happened to one student who wandered in about noon.

We'd give anything to hear some of the excuses that will be given; classes looked quite deserted yesterday. Some will have missed rides — many who have their own cars.

Nevertheless, the vacation did just what it has been set up to do — break up the monotony and boredom that often results from the long, hot spring semester. It has already proved well worth the efforts.

A-Testing Ban Effects Highlight Major Debate

Interpreting The News

by J. M. ROBERTS
Associated Press News Analyst

The United States and Britain have been operating for a year and a half under a temporary nuclear testing ban covering the very same ground on which they are unable to reach permanent agreement with the Soviet Union at Geneva.

The temporary agreement can now be abrogated at will, since its original limit was one year. The United States has announced she is keeping it in effect only on a contingent basis, and has laid plans for at least one more test unless a treaty is arrived at soon.

The temporary ban prohibits the small underground explosions which the West insists cannot now be covered by treaty because there is no adequate means of checking against violations.

Against this background the Joint Congressional Committee on Atomic Energy is holding this week the first big debate in two years on the effects of an A-testing ban.

The committee, the Pentagon and the Atomic Energy com-

mission are all doubtful—to the point of some very fervent opposition—about the effect of such a ban on the national security.

The conflict is between the need for further developing the atomic program and the political pressure produced, with the aid of Communist propaganda, by international fear of fallout.

The public itself has had small means of judging between the two sides.

There is little or no information available on what problems of atomic development have arisen because of the temporary ban, which might offer a considerable guide for the future.

Scientific proponents and opponents of a test ban will give their views at this week's hearing. So far as the public is concerned, these things frequently boil down to expressions of opinion which cannot be adjudicated because so much of the basic evidence is classified.

Nevertheless the debate may throw a little light on the conflict between the administration and its scientific and military advisers.

A THOUGHT FOR TODAY—Upon the first goblet he read this inscriptions Monkey wine; upon the seconds lion wine; upon the thirds sheep wine; upon the fourths swine wine. These four inscriptions expressed the four descending degrees of drunkenness the first, that which enlivens; the second, that which irritates; the third, that which stupefies; finally the last, that which brutalizes.

—V. H.

What Is Our Supreme Court?

Just what kind of court the Texas Tech student body has in its Supreme Court is a question of many on campus.

In one day the Court, which is supposedly an appellate court, acquitted a defendant instead of reversing a decision of a lower court—in this case, the elections committee of the Student Council.

It found itself, on the day of the trial, inadequately staffed and was forced to call for a "volunteer" court reporter to serve during the trial.

And, after estimating the number of words spoken per minute at the trial, if this is possible, and then comparing the average with the shorthand ability of the reporter, the Court decided that the records of the proceedings could not be depended on and thereby denied The Toreador access to them.

Along with this decision came a statement from the Chief Justice that if Tech students were interested in a verbatim report of proceedings they would have attended the trial. Of course, the fact that The Toreador was not interested in a verbatim report but rather a more complete report had no influence in the matter.

The newspaper, consequently, was denied an opportunity to check its facts with the records and students were denied a full report of something they had a right to know.

This wasn't the first time this happened; the Council earlier had withheld Hill's name and merely said that a candidate in the school of engineering had been disqualified. The result was that no one — including Hill — knew who the person was.

It appears that, as it now stands, the Supreme Court acted more like a trial court than one with merely appellate authority. True, there was no jury, but a table of justices. And if Rodney Hill had not appealed the decision of the elections committee, there probably would have been no trial.

But, and this is not true in appellate proceedings, evidence was presented by both sides and witnesses took the stand and testified just as would happen in ordinary trial court proceedings. Rather than a decision to reverse prior ruling by the elections committee, the Court acquitted Hill — something an appellate court does not do.

To be sure, elections this year were not up to par. This probably is true because of a new Council policy of more strict enforcement of the election code. But it appears that the status of the Supreme Court is a comedy of contradictions. Something should be done to clarify its jurisdiction, power and proceedings.

Post Votes Wet

Now Don't Go Hogwild, Students

By some strange quirk of fate, a small, rather insignificant precinct in Garza County voted to have off premises and on premises consumption of beer and at the same time okayed package store sale of liquor.

For students who care to indulge, there will be certain hardships. Post is a scant 40 miles from Lubbock and this will no doubt cause much more traffic to and from wet areas. No doubt this will prove perilous for some.

However, this disadvantage is overshadowed by the fact that this will eliminate the necessity of much longer trips to Big Spring, Amarillo or Nazareth.

A formidable crack in the solid South Plains has been long in coming — but it is finally here. No doubt, there are many residents of Post who feel the world has just come to an end.

This is not a proper attitude; many leading communities of the nation are legally "wet." It's something that those who oppose wet communities have to learn to live with.

Wet-dry elections are becoming prominent in various areas of the South Plains. What is Lubbock going to do when the city in a few years finds itself encircled by "wet" towns?

It would seem that the only thing keeping the Hub City from becoming a major college city is the lack of an open-minded atmosphere. Texas Tech is the only Southwest Conference school in the state which operates from a dry city.

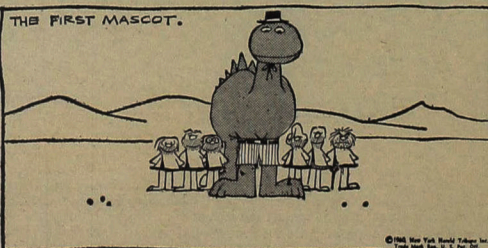

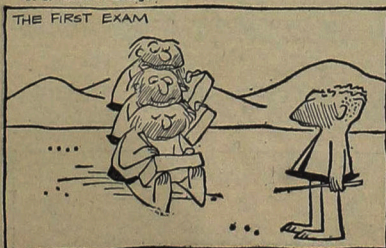

Hey B.C.

There's a caveman at large in the comic pages of many newspapers named "B.C." The caveman is named "B.C." not the newspapers. He has an I.Q. of 47, putting him in the freshman norm, and an aptitude for teaching, according to tests in the Registrar's Office.

Antedating Homer by some few years, B. C. is in a position to give vital first-hand information on the neolithic beginnings of civilization, culture and all that jazz, hitherto a blank page in history. Hence, "B. C. Goes to College!" which we publish in these hallowed pages for the first time. Study it all, students, there's a rumor on the campus that credit will be given.

"B. C." is the creation of one Johnny Hart who never went to college and, consequently, is an unbiased expert. The comic strip, now two years old, is featured in over 100 newspapers through the agency of the New York Herald Tribune Syndicate.

"B. C." Goes to College!

Texas Tech Rodeo Opens Thursday

by **CLAUDETTE MCINNIS**
Toreador Staff Writer

Plans are nearing completion for the Texas Tech National Intercollegiate Rodeo set to begin Thursday in the Lubbock Municipal Coliseum.

THE FIRST performance is scheduled for 8 p.m. Thursday, followed by performances Friday and Saturday at the same time.

The Ninth Annual Texas Tech Rodeo will show the public a fine example of the rodeo game and the participants. Many of the world's greatest rodeo performers have been members of college rodeo teams. At present the Tech team is second in the region. Members of the team are John Holt, Clyde Fort, Steve Cone,

Lum Turk, Tommy Riley and Dale Burnett.

FEATURED attractions of the three day event are the Rodeo Queen, Ruth Ann Cox; a parade; a quarter horse show; an interfraternity wild mare race; an interfraternity calf-dressing contest and a rodeo awards dance.

A parade Thursday afternoon at

four, under the direction of the Lubbock County Sheriff's Posse, will kick off the annual affair. The parade is open to anyone wishing to enter. Entries may be made by contacting Jerry Church at the Rodeo Office, Tech Union, Room B.

THERE WILL be an American Quarter Horse Association Approved Horse Show sponsored by

Joe Kirk Fulton Friday at 10 a.m. in the Coliseum.

The final attraction of the Rodeo will be the Awards Dance which will be Saturday night in the Rec Hall from 8:30-12:00. Jimmy Mackey and the Texas All Stars will play for the dance. Awards will be presented to the high team, All-Around Cowboy, All-Around Cowgirl, and buckles will be given to the winners of each event.

ANY TECH student may enter the rodeo regardless of grade point average. Entrance forms can be picked up in the Rodeo Office and must be filed before Wednesday at 5:00 p.m.

Tickets can be bought in the Tech Union and also at the door. Student tickets are on sale for \$1.00. The rodeo is sponsored by the Texas Tech Rodeo Club.

TEAMS FROM Hardin-Simmons University, Lubbock Christian College, West Texas State College, Sul Ross College, Lamar Junior College, New Mexico State University, Oklahoma State University, South Plains Junior College, and Howard County Junior College are entered.

The stock will be furnished by Walter Alspaugh, Alamoso, Colo. Some of his stock was picked for the National Finals Rodeo in Dallas this past December.

John Karney of Sweetwater will be the announcer for the event. The excitement of the rodeo will be enhanced by the rodeo clowns Ed (Snuffy) Gilligan of Cleburne and Wright Howling of Colleyville, Oklahoma. Rodeo judges will be Dick Barrett of Ryan, Okla., and Dave Harper, Hereford, Texas.

Lige Hasn't Seen Home For Years

There have been no trips home for the holidays for the past four years for Lige White Tech senior. Home for Lige is 7,500 miles away in Buenos Aires, Argentina.

Born in Buenos Aires of American parents, White holds dual citizenship in the United States and Argentina. His parents are shoe manufacturers and have lived in Argentina for 15 years.

A MAJOR IN international trade, White explained that the chief reason that he came to Tech was because it is one of the few schools in the United States that offer a degree in his major.

Also, he said, "There are no good business schools in Argentina, and the prestige of an American degree there is very great."

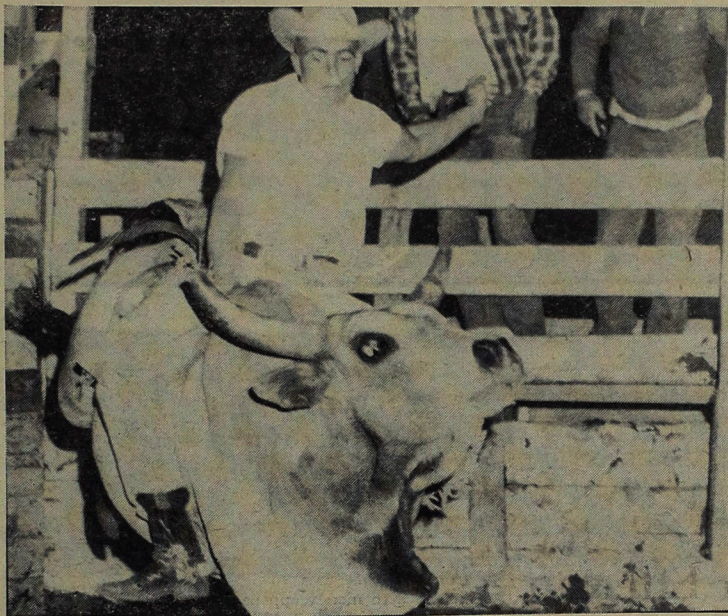

He said that he liked the climate of West Texas. Comparing the climate to that of his home, he said, "They are much alike except that we don't have the dust storms and tornadoes."

WHITE WILL graduate from Tech in August, after which he plans to attend the American Institute for Foreign Trade in Phoenix, Ariz., for one year. He then hopes to begin work with an American company in a South American country, preferably Argentina.

Argentina he described is very modern, cosmopolitan and economically sound. He called it a "land of opportunity."

"UNITED STATES citizens in South America are continually having to defend and explain their views on integration, government policies and positions for or against Latin American dictators."

White is a member of the Cosmopolitan Club at Tech. He works part time at the public library and names tennis as his chief athletic interest.

HERE IS A SAMPLE OF WHAT WILL BE IN STORE FOR INTERCOLLEGIATE RODEO RIDERS
... H. C. Zachary, Techsan from Henrietta, will ride in the three-day event

Deadline Near For Entries In 'Little 500' Bicycle Race

Deadline for entries in Tech's third annual "Little 500" Bicycle Race has been set for 6 p.m. Friday. All entries are to be turned into the Student Council office.

Convocation for the boys teams will be at 5:15 p. m. April 21 at the Rec Hall. Warm-up sessions and time trials are scheduled for 2 p.m. Saturday at Memorial Circle.

THE BICYCLE race, a part of the Spring Festival last year, is an independent event this year and will be staged Saturday, April 30,

around Memorial Circle and Soap-suds Pavilion.

Entry blanks may be obtained in the Student Council office. Carlyle Smith is chairman of the race, and Vic Henderson is co-chairman of the coordinating committee.

THE TEAMS, consisting of four riders and two pit men, will have numbers corresponding to their starting positions, which will be determined by the trial races.

Riders may take as many laps as they wish, changing only in the

pit. Exceptions are in case of an accident, then a new rider may start from the place of accident. All changes and repairs are to be made in the team's pit. Riders may use their own discretion as to clothing.

THE BICYCLE must be of standard type, 26 inch balloon tires, single gear, one set of standard rear-wheel brakes, sprockets between a ration of 2.5:1 and 2.6:1 and wheels either 26" x 1.75" or 26" x 2.125."

A rider must not move in front of another rider unless he is more than one bike length ahead of him. Any team guilty of unsportsman-like conduct will be penalized by the judges.

STUDENT COUNCIL executive officers will serve as flagmen. Various flags and their meanings are: green, meaning to start, clear course, resume speed; black, meaning stop for consultation; red, stop, race is halted; yellow, slow speed and maintain position; white, contestant is starting last lap; checkered black and white, contestant is finished, return to pit. Failure to observe signals will result in a penalty.

Persons entering the race do so at their own risk and cannot make claim for any personal injury.

PUBLICITY for the bicycle race is being handled by Sigma Delta Chi and the Student Council is backing the event financially.

Sponsors of the race are the Saddle Tramps, Circle K, and Alpha Phi Omega.

Lockhart Named Head Of Applied Arts Dept.

Dr. Bill Lockhart has been named head of the Texas Tech applied arts department in the School of Home Economics.

Lockhart succeeds Prof. Arne Randall who will be head of the art department at Alameda State College, Hayward, Calif. Randall is leaving to take his new position about July 15, after the first summer school semester.

Lockhart came to Tech in 1955 as associate professor and has held that position until the present.

The new department head spent two years as a graduate assistant at Pennsylvania State University where he conducted an experimental program in child art in one-room rural schools in Pennsylvania. He has also worked with Texas schools in developing elementary art programs.

Lockhart holds membership in Phi Delta Kappa, National Art

Education Association, Committee on Art Education, Western Arts Association, Penn State Graduate Club in Art Education, National Education Association and Texas Art Education Association. He is vice president of the Texas Art Education Association, is research chairman for Western Arts Association, and is listed in "Who's Who in American Education."

Honorary Initiates 6 New Members

Alpha Pi Mu, industrial engineering honor society, has initiated six new members.

They are James Tremble, Raymond Chedester, Kenneth Bright, James Brock, John Hovins and Richard Rees.

Tech Prof Presides At Convention

Tech's chemistry department will have three representatives at the 137th national meeting of the American Chemical Society in Cleveland, Ohio, April 5-14. They are Samuel H. Lee, W. J. Heilman and Wesley W. Wendlandt.

The meeting, which occurs twice annually, is to exchange the latest information and to interview applicants for jobs.

Lee, associate professor, is a member of the national committee in the chemical education division. At the meeting, Lee will preside over the general session of chemical education.

Heilman, a research fellow, will attend the meeting to lecture about his original research before the organic division. His lecture will soon be published in the "Journal of American Chemical Society."

Wendlandt, associate professor, will present a paper to the analytical chemical division.

Y'all Come To Rock-A-Stomp

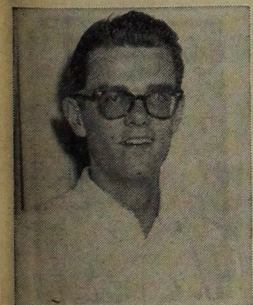

"Rock - A - Stomp," freshman-sponsored dance open to the campus, will be Friday, April 29, from 7:30 to 11 p.m.

The dance, which will be in the Rec Hall, is informal. Western wear or Bermuda shorts will be welcomed.

Playing at the dance will be a western group, the "Ra-Mar-As" and the Moon Discs, a rock and roll group.

Tickets are on sale at the Tech Union or will be sold at the dance for 75c.

This dance concludes freshman activity for the year. Chairman for this event is Steve Guynes, Freshman Council representative.

LIGE WHITE

Tech senior

Time to Nominate Woman of Year

All women's organizations are asked to turn in nominations for Woman of the Year to Judy Rutledge, Drane Hall, immediately.

Woman of the Year will be announced at the Women's Day Banquet, April 28.

Lane Pulls Shocker -- Trades Score

CLEVELAND (AP) — Herb Score, the former strikeout artist for whom the Boston Red Sox once offered the Cleveland Indians one million dollars, was traded Monday to the Chicago White Sox for right-hander Barry Latman in a straight player swap.

THE MILLION-DOLLAR offer was made by Joe Cronin, then general manager of the Red Sox, following the 1956 season in which Score, in his sophomore year in the majors, won 20 games against nine defeats and led the American League in strikeouts with 263.

It was turned down by Hank

Greenberg, who was general manager of the Indians at the time.

SCORE, a 26-year-old left-hander, won nine games and lost 11 for the Indians last year. Latman's record with the White Sox was 8-5. He is 23.

In making his second major trade in two days, Indians' General Manager Frank Lane said the Tribe was in need of pitchers who could see regular duty immediately in the 1960 campaign, which the Indians open Tuesday against the Detroit Tigers.

HE POINTED out that southpaw Jack Harshman is bothered

by back ailment and that Score would not be much help immediately because of a shoulder ailment that plagued him during most of the spring training season.

Lane Tuesday sent outfielder Rocky Colavito to the Tigers in exchange for outfielder Harvey Kuenn.

SCORE, AT ONE time considered the brightest pitching prospect in the major leagues, hasn't been able to make a complete come-back since an eye injury in 1957 nearly ended his baseball career.

HE WAS HIT in the right eye by a line drive off the bat of Gil McDougald of the New York Yankees in a game here the night of May 7, 1957, and was out of action the remainder of that season.

In Chicago, Sox manager Al Lopez, who was at the helm of the Indians when Score had his peak year in 1956, said:

"I AM VERY fond of Score and have wanted him on our side for some time. He pitched exceptionally well for me when I was in Cleveland.

"He was injured in 1957 after I had gone to the Sox."

Latman, a fast ball pitcher, had been with the White Sox organization since 1955, when he won 18 games and lost 5 with Waterloo.

THE FOLLOWING season he had a 14-14 record with Memphis and in 1957 he won 13 and lost 13 with Indianapolis and had a 1-2 mark with the White Sox in the last month of the season.

He won three games in a row with the Sox late in the 1958 season after posting a 9-11 mark with Indianapolis.

Pascual Fans 15; GOP Hurler Nats Blast Sox Opens Game

WASHINGTON (AP)—Camilo Pascual struck out 15 for a club record and his hit-happy Washington teammates smashed four home runs Monday in a 10-1 rout of the Boston Red Sox. President Eisenhower and a packed opening-day crowd watched at Griffith Stadium.

PASCUAL, THE brilliant Cuban right-hander, gave up only three hits in the most dazzling first-day performances in the capital in years.

Even one of the hits he allowed was a spectacle. Ted Williams landed on a 3-2 pitch in the second inning and blasted the ball over the fence in deep center. The home run went over the 3-foot wall 420 feet from the plate. It was the longest hit out of the park since Mickey Mantle of the Yankees belted two over the same spot on opening day in 1956.

JIM LEMON, Bob Allison, new comer Earl Battey and Billy Consoled laced homers for the Senators.

They and Pascual gave Eisenhower a relished going away pres-

ent. The Chief Executive flew up from his golfing vacation at Augusta, Ga., to throw out the first ball for his last opening day game. He now sports a winning 4-3 record, as far as the Senators are concerned, for season—starting pitches since he assumed office. Immediately after the game, he left for Augusta.

Today's Starters

AMERICAN LEAGUE

Kansas City (Daley) at Chicago (Wynn).

Detroit (Lary) at Cleveland (Bell).

New York (Coates) at Boston (Brewer).

Washington (Ramos) at Baltimore (Walker).

NATIONAL LEAGUE

Won-lost record in parentheses Chicago Morehead, (0-0) at St. Louis Mizell, (0-1)

Los Angeles Podres, (0-0) at San Francisco O'Dell, (0-1)

Philadelphia Owens, (0-0) at Pittsburgh Haddix, (0-0).

WASHINGTON (AP)—Dwight D. Eisenhower Monday got off his last presidential pitch of an illustrious opening-day career.

And foresightedly he brought along a promising rookie who he hopes will make good in the majors next year, a vice president named Richard M. Nixon.

Eisenhower threw two lobs, not much by baseball standards but real sizzlers as presidents throw.

The first trickled through a dozen hands before Washington outfielder Bob Allison caught it. Allison toted his prize to the President for an autograph, and a fine time was had by all. Allison, like the President, is from Kansas, too. It's a small world.

For good measure, Eisenhower threw a second time, and this was grabbed by Senator Pitcher Jack Krallick.

While this was going on, Nixon, seated on Eisenhower's right, smiled hopefully.

All in all, it was quite a day, and if the Democrats don't demand equal time, they don't understand this strange hold baseball has on U.S. politics.

POISED FOR THE HORNS—Jimmie Johnson, Texas Tech junior golfer from Levelland, rests and studies the green in anticipation of a Wednesday match with the University of Texas Longhorns at Austin.

New cigarette paper "air-softens" every puff!

Now even the paper adds to Salem's springtime freshness!

Salem's amazing new HIGH POROSITY paper "air-softens" every puff.

Invisible porous openings blend just the right amount of air with each puff to give you a softer, fresher, even more flavorful smoke.

Created by R. J. Reynolds Tobacco Company

An important break-through in Salem's research laboratories brings you this special new HIGH POROSITY paper which breathes new freshness into the flavor.

Each puff on a Salem draws just enough

fresh air in through the paper to make the smoke taste even softer, fresher, more *flavorful*. If you've enjoyed Salem's springtime freshness before, you'll be even more pleased now. Smoke refreshed, smoke Salem!

● menthol fresh ● rich tobacco taste ● modern filter, too

Salem refreshes your taste

NOW MORE THAN EVER

FROM THE SIDELINES

by CHARLES RICHARDS

The intramural softball play which has dominated the sports scene for several weeks is now nearing its end.

The Fraternity and Dormitory leagues will play their last games this week. The remaining games are just a formality however, as champions have been crowned already in both leagues.

Phi Delta Theta has cinched the number one spot in the Fraternity League and Dorm 8 has finished its schedule as the winner.

Both clubs went through their schedules undefeated, and most of the games were of the run-away fashion. Although the Independent League won't finish for another week, the two league champions will begin tournament play by clashing in a Sunday tilt that will furnish the opposition for the other league. The winner of the tournament will be recognized as all-college champion. The game will begin at 2 p.m. behind the women's gym.

An added feature this year will be the selection of an all-star team, and a special game between the all-stars and a city team which won top laurels in a state meet last year. More about this later.

★★★
The intramural "night" will also feature recognition of outstanding teams and individuals in addition to the various contests being slated.

Between events, the champions of the various sports throughout the year will be announced. An all-around champion will be named also, both individual and group. Basis for the decision will be on points compiled according to a chart kept in the intramural office. Points will be given a team for entering a

Cindermen Schedule Weekend

W. L. (Dub) Thornton defends his high jumping crown this weekend as Coach Don Sparks and members of the Texas Tech track team journey to Lawrence, Kansas, for the Kansas Relays.

Thornton is unbeaten this season in six meets having tied for the Border Olympics championship and won outright at the Southwestern Recreation Meet, the San Angelo Relays, the Lubbock Invitational, the Texas Relays and the North Texas Relays.

The six-footer hit his career high at the Drake Relays last year when he leaped 6-9. His best mark this season is 6'6 3/8" at San Angelo and Denton.

Bob Swafford, hampered by a leg injury, is scheduled to run the high hurdles and the 400-meter hurdles.

Coach Sparks will pick a starting quartet for the mile relay from Swafford, Jim Pettit, Curtis Hart, Roger Crawford and Charlie Draper. He will also decide on a starting foursome for the sprint medley from this group.

The meet, which precedes the Drake Relays in Des Moines, Iowa, will see cindermen from all over the Midwest competing for top honors. There are no team honors, although a team of sportswriters usually decides upon a top team.

sport, and additional points are given with each first place. A similar chart will determine the individual.

★★★
Keglers will have their day Saturday. The occasion is the meeting of the three league winners; the prize is the all-college championship.

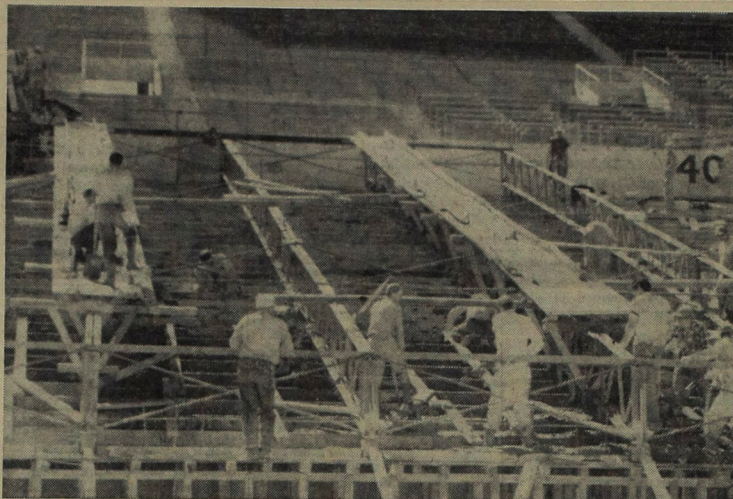

It could turn out that the winning team will be the one that wears the rabbit's foot to the contest. The top two teams are only two pins apart, the independent club having 2042 pins and the dormitory club, 2040. The fraternity representative is farther back with 1869 pins.

Several individuals will also vie for a singles championship. Twenty finalists will try for the honor with the top three-game series being 558 pins and the lowest qualifying score being an even 500 total.

★★★
Well, our Los Angeles Dodgers have made the showing we predicted. They and the Giants are sharing the lead presently. All the clubs are pretty well following preseason predictions with the exception of the St. Louis Cardinals. Their dismal start (0-5) could largely be due to the fact that they have met the top two clubs in all their games.

★★★
The Picadors will journey to San Angelo Wednesday to resume their action. They will carry a 6-1 mark into the game.

The freshmen, billed as one of the top freshmen clubs to represent Texas Tech, dropped their only decision in a 16-15 slugfest with Odessa College, whom the Picadors later beat at Lubbock.

READY FOR THE BUFFS? Workmen are shown preparing a new section of seats for Tech's Jones Stadium. The new seats will expand the seating capacity of the stadium to over 40,000 which will fulfill the Southwest Conference requirements. Contractors hope to have the entire project completed in time for the Raiders' 1960 opening game in September.

Spring Sports Nab Spotlight

Three different Texas Tech teams will be in action on as many fronts Wednesday.

Red Raider varsity baseballers will host Highlands University in a doubleheader beginning at 2 p.m. on the diamond south of the Coliseum. The Picador nine will meet San Angelo College there, and the golf team will engage the University of Texas linksmen in Austin.

Texas Tech will be host to the Interscholastic League Meet for Region One in Conferences 2A, A, and B in golf, tennis, and track Friday and Saturday.

English Geologist Plans Talks Here

Dr. Stephenson Buchan, Chief Geologist, Water Division, Geological Survey of Great Britain, will deliver a series of lectures on hydrogeology during the week of April 18-22.

Dr. Buchan is participating in the American Geological Institute Visiting International Scientist Program. This program is aided

by a grant from the National Science Foundation.

The objective of the program is to widen the range of geologic knowledge and research of those benefiting from the program. To do this, students and faculty members of graduate departments of geology-peophysics, are brought into intimate contact with internationally recognized scientists.

The subjects of the six lectures Dr. Buchan will deliver while at Tech are:

The role of climate and geology in the occurrence of ground water.

The effect of geological conditions on the amount and composition of ground water.

Geological factors influencing the recovery of surface and ground waters and their treatment.

Fundamental contributions of geology to the proper development of ground-water resources.

Ground Water Survey of Great Britain.

Artificial Replenishment of Aquifers.

The last lecture will be delivered at 7:30 p. m., April 20, in room 101 Chemistry. This lecture is open to the public. Nonegeology students are welcome to all lectures to the limit of the classrooms in which they are given.

Varsity Show Script Wanted

Selection of producer and script will launch preparations for the 1960 Varsity Show for Dec. 8-9.

THE PRODUCER'S position is open to all Tech students. Applications should include why the job is wanted, experience, major, grade point average and the applicant's expected academic schedule next semester.

Applications should be mailed to Jeff Ingham, student chairman, in care of the Student Life Office by April 28.

SCRIPTS, ranging from 15-minute acts to a full length show, should be submitted to Ingham by May 5. They must be original and may include aspects of campus life and adaptations of well known plays or novels.

Prizes totaling \$50 will be awarded for the script or scripts accepted by the Tech Varsity Show Board.

Bullen Retires As EE Head

Charles Victor Bullen, one of the Southwest's most respected educators in electrical engineering, will retire at Texas Tech, effective May 31.

Bullen has been head of Tech's electrical engineering department since 1932. He has been one of the main representatives in the Southwest for the Engineering Council for Professional Development, checking on the standards and counseling on the growth of electrical engineering departments and engineering education in general.

Tech's Board of Directors conferred emeritus rank on him in accepting his retirement.

Coed Seeks Clues To Missing Box

In the hustle and bustle of the Drane Hall lobby Saturday, April 9, a box of clothes belonging to Bonnie Wassell was misplaced or stolen.

The large cardboard box tied with twine contained a fur coat, two cashmere coats, a car coat, a comfort and two pairs of shoes, all valued at about \$500.

The box, left by Miss Wassell in the Drane switchboard room about 9 p.m. Friday, was supposed to have been picked up by Saturday morning. When he arrived, the box could not be found.

Information concerning the box should be given to Miss Wassell, room 247-B, Drane Hall.

Garza Vote Okays Liquor Sales - And Taverns, Yet!

Hang on to your rusty beer openers, Techsians, and throw away your gas bills—Garza County's Precinct 3, which includes northeast Post, has voted package store and tavern wet.

The April 9 vote gave the wets a 133 to 123 victory to put another oasis in the traditionally dry desert surrounding Texas Tech. The stores should be open about May 1.

The new wet precinct is 30 miles closer than Nazareth and is on a four-lane highway from Lubbock. It has been rumored that an enterprising Tech student made the run from his residence in southeast Lubbock to Post in exactly 16 and three-quarter minutes.

President Of Sigma Xi Installs Society Friday

Tech's chapter of Sigma Xi, national graduate research society, will be formally installed Friday.

Dr. Frank M. Carpenter of Harvard University, national president of Sigma Xi, will be installing officer. The principal address will be delivered by Dr. Harold G. Cassidy of Yale University.

Tech will have the fifth Sigma Xi chapter in Texas. At present, the society is composed of 133 chapters in the United States and territories.

An academic processional in full regalia from the south side of the Administration Building to the Union Building Ballroom at 2:30 will start the installation.

The installation banquet will be at 6 p.m. in the Ballroom annex. Dr. Cassidy will climax activities with an address at 8 p.m. in Chemistry Building 101 on "Fission of Fusion."

Present officers are Dr. A. W. Young, president; Dr. Wesley Wendlandt, president-elect; Dr. Mina W. Lamb, secretary; and Dr. Earl Gilmore, treasurer.

Dance Slated

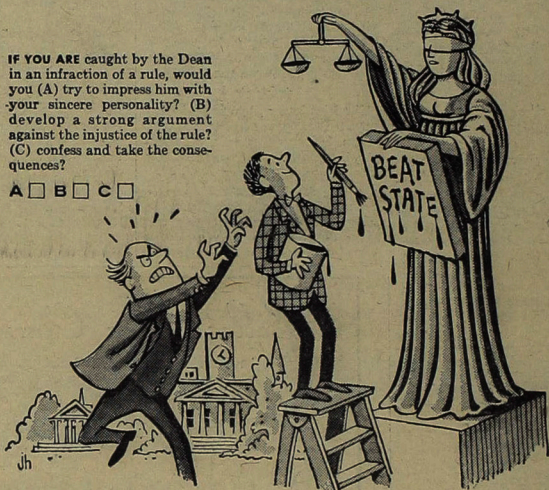

KSEL disc jockeys will spin records for the weekly Tuesday night dance at 7 tonight at the rec hall. Everyone is invited. Is invited.

Do You Think for Yourself?

(TAKE OFF ON THIS QUIZ AND SEE WHERE YOU LAND*)

IF YOU ARE caught by the Dean in an infraction of a rule, would you (A) try to impress him with your sincere personality? (B) develop a strong argument against the injustices of the rule? (C) confess and take the consequences?

A B C

"YOU'VE BUTTERED your bread—now eat it" implies (A) a veiled threat made by a margarine manufacturer; (B) you can't escape the results of what you do; (C) stop talking and eat!

A B C

IF YOU ACTUALLY found a pot of gold at the end of the rainbow, would you (A) run to see if there was another at the other end? (B) make an appointment with a psychiatrist? (C) hire a rain maker to make more rainbows?

A B C

YOU'RE THINKING of changing to a filter cigarette—but which one? Would you (A) depend on what your friends tell you? (B) figure out what you want in a filter cigarette—and pick the one that gives it to you? (C) go for the one with the strongest taste?

A B C

It's a wise smoker who depends on his own judgment, not opinions of others, in his choice of cigarettes. That's why men

and women who think for themselves usually smoke Viceroy. They know the Viceroy filter is scientifically designed to smooth the smoke the way a filter should. A thinking man's choice... has a smoking man's taste.

*If you checked (B) on three out of four of these questions—you think for yourself!

THE MAN WHO THINKS FOR HIMSELF USUALLY CHOOSES VICEROY
