

Pre-freshman orientation proposed for fall, spring

High school seniors will get an early view of Tech in an effort to boost enrollment if a proposed fall and spring orientation program is approved. The orientation sessions, scheduled as weekend visits to Tech, will supplement the summer preregistration conferences.

The idea, started by the Freshman Council, will be considered and completed by the 1968-69 Student Senate pending approval by the Freshman Council Sunday, said Mike Riddle, student body president-elect.

Ronnie Rummel, chairman of the Freshman Council committee in charge, said his committee scheduled the program to begin Oct. 1, 1968, the earliest acceptance date for applications. Students would be invited to stay in the dormitory with volunteer freshmen to act as hosts and show them the campus.

Hispanic Week ends in poetic climax

Hispanic Week, a series of activities which began Sunday, climaxed its program Thursday with a poetry reading contest sponsored by Sigma Delta Pi, Spanish honorary fraternity, and Capa y Espada, Tech Spanish club.

The program of activities known as Hispanic Week is jointly sponsored by the classical and romance language department and Sigma Delta Pi, and is designed to promote interest and appreciation of the Hispanic heritage.

The activities began Sunday with a reception honoring Spanish-speaking foreign students at Tech. This was followed Monday by a luncheon and address

by Dr. David Vigness of the history department. Vigness spoke on future United States and Latin American relations. New members were initiated into Sigma Delta Pi Tuesday. The initiation was followed by a banquet and an address by Dr. T. Earle Hamilton, professor of classical and romance languages, and national president of Sigma Delta Pi.

Dr. Robert Collmer of the Tech English department gave an address Wednesday on Latin America writer and essayist Luis Borges and English poet John Donne. The address was followed that evening by a slide presentation on Spanish architecture by Dr. Elizabeth Sasser, professor of architecture.

Raider Roundup

A.I.E.E.
The American Institute of Industrial Engineers will have their annual spring awards banquet today at 7 p.m. in the Toreador Room of Furr's Cafeteria, Town & Country shopping center. Roy Hunt of General Dynamics is guest speaker for the bash.

Dolphin Water Show
The annual Dolphin Water Show will be Friday and Saturday nights at 8 p.m. in the Men's Gym. Tickets are 85 cents.

Disciple Student Fellowship
Lew Davis of Britte Divinity School at TCU will speak to the college class at 9:00 a.m. Sunday at First Christian Church, Broadway and X. He will talk about his service as a missionary to India.

AWS to donate \$150 in profits to Girls' Town

The Association of Women Students is planning to donate \$150 to Girls' Town, a foster home for girls at Whiteface.

The donation will be taken from the profits received from AWS members on "Penny-a-minute" night. On this night official curfew is waived, and girls may stay out one hour later. Each girl gave the association a penny for each minute she stayed out past curfew.

The AWS has been corresponding regularly with Girls' Town officials since the project was initiated.

Puccini in English - Two one-act operas, "The Cloak" and "Gianni Schicchi" (pictured here), will be presented today and Saturday at 8 p.m. in Municipal Auditorium. The Puccini productions are presented by the Tech Music Theater.

Music Theater to present one-act Puccini operas

Tech Music Theater will present "The Cloak" and "Gianni Schicchi," English translations of Puccini one-act operas, today and Saturday at 8 p.m. in the Municipal Auditorium.

"The Cloak," featuring Lynda Sudduth, Bob Collette and Charlie Helmer, is a suspense-

filled melodrama depicting a violent eternal triangle. "Gianni Schicchi" is a fast-moving musical situation comedy combining slapstick and sophistication. It includes Dick Phillips, Ellen Fuller, Dana Gibson and Pablo Pedraza.

These operas were chosen because the Music Theater had long wanted to do a romantic, lush opera. In addition, many people outside the department had requested such classical offerings after the production of Mozart's "Così fan Tutte"

a year ago. Music professor Charles Lawrie, head of the Music Theater, will conduct the Tech Chamber Orchestra for "Gianni," and Conductor Paul Ellsworth will lead "The Cloak."

The costumes and setting will reflect the Florentine Renaissance period, continuing the idea of romantic opera.

Tickets for unreserved seats are available at the Tech Union and cost \$1 for Tech students and faculty.

AF cadets will fly Saturday

Freshman and sophomore cadets of Tech Air Force ROTC will be treated to an orientation flight Saturday at Shallowater airport.

The flight, sponsored by Arnold Air Society, is being offered mainly to promote interest in an Air Force flying career. The students will be flown for about 30 minutes in a Cherokee 140.

The flights will take place during various times of the day and three persons will be taken up at a time. The planes will be piloted by members of the Junior Officer Council at Reese Air Force Base.

The Junior Officer Council recently adopted the detachment at Tech and the two organizations work together on various projects. The council helps in showing the cadets what life in the Air Force is.

UD staff jobs open

Applications for University Daily staff positions are available in room 102 of the Journalism Building. The only requirement is a 2.0 overall grade average.

Deadline is Tuesday. Students interested in becoming advertising salesmen for the University Daily should submit applications to Jerry Reese in room 203 of the Journalism Building. Deadline is set for May 3.

Applicants must be of sophomore standing next fall and have a 2.00 overall grade average.

the student room

Each student living-learning suite has its own comfort control unit to regulate heating and air conditioning. There is ample drawer and closet space and a well-lighted area. Daily maid service is also provided.

A LITTLE BACK UP PLAY — Rod Buckner finds the back an easy target after the intended pass receiver loses the ball during the Red Raiders spring practice session Thursday. The footballers will round out their drills with a full scrimmage set for Jones Stadium Saturday. (Photo by Kyle Morse)

Tech batsmen host ACC today

Tech's Red Raiders will catch a breather from Southwest Conference baseball action this weekend, facing Abilene Christian College in a two-game home stand today and Saturday.

Coach Kal Segrist plans to send pitcher Buddy Hampton to the mound today at 2:30 p.m. and will follow with Pat McKean in the series finale. Hampton has one win and no losses in

conference play, while McKean is 0-3. The Raiders are hitting at a .243 pace in SWC competition with second baseman Jerry Haggard leading the way with a sizzling .417. The team has seven wins and 15 losses for the season and stands 2-10 in conference action.

TECH HAS COLLECTED a total of 92 SWC hits to account for 51 runs, nine of which have

been scored by shortstop Jim Montgomery, currently leading the club in that department. Third baseman Bobby Kuehle owns the Raiders' second highest batting average with .304 in 23 times at bat. Lee Watts is third at .286 with 42 trips to the plate. John McIntyre was recently moved to the lead-off spot by Segrist to take advantage of the 170 pounder's speed and his ability to reach base. Batt-

ing .279 in 61 times at the plate, McIntyre is leading the team in walks.

THE VISITORS from Abilene have recorded eight wins in 17 outings this season for a .471 percentage. Tech holds a .318 mark.

Player is leader in Nelson tourney

DALLAS, Tex. (AP) — South Africa's Gary Player battled high winds for a 4-under-par 66 Thursday to take the early lead in the \$100,000 Byron Nelson Golf Classic.

Calling it the "best round I've played this year," Player said he was putting fantastically and that made up for any trouble he may have encountered from the winds, gusting up to 21 miles per hour over the 7,086-yard Preston Trull Course.

the field of 156 having posted scores, Player held a one-stroke lead over his South African buddy, Harold Henning, Miller Barber and Jack Montgomery.

Barber was among the first to finish, and he reported a round devoid of bogeys. He sank putts of 18, 35, and 30 feet for his birdies.

Henning also had a great round of putting, using only 28 to get around. He had eight one-putt greens.

With more than a third of

Daniels picked as top rookie

MINNEAPOLIS (AP) — Minnesota Muskies center Mel Daniels was named Thursday as American Basketball Association rookie of the year.

Results of the balloting by selection committees in each of the league's 11 cities was not made public by ABA headquarters here, except to say that Daniels was a "runaway winner."

Joining him on the ABA's first all-rookie team were forwards Tom Washington of Pittsburgh and Bob Netolicky of Indiana and guards Louie Dampier of Kentucky and James Jones of New Orleans.

THE SECOND ROOKIE team was composed of forwards Randy Mahaffey of Kentucky and Ron Franz of Oakland, center Byron Beck of Denver and guards Bob Varga of Dallas and Ron Perry of Minnesota.

Daniels, 6-foot-9 product of the University of New Mexico, was the No. 1 draft choice of the Cincinnati Royals of the National Basketball Association last year but signed with Minnesota instead.

He led the ABA in rebounding with 1,213 for a 15.6 average and was Minnesota's leading scorer with 1,729 points for a 22.2 average.

Today's Sports

Tech golfers host Arkansas linkers

Coach Danny Mason's Arkansas Razorbacks bring a 5-7 record and a 4-2 victory over TCU to the Lubbock Country Club today to meet the high-ranked Texas Tech golfers.

Mason, the former Red Raider mentor who was succeeded here by the present coach, Gene Mitchell, is hoping to score well against Tech and enable them to possibly climb into fourth place in the jumbled SWC golf race.

A first division finish would enable Mason to send two Razorbacks to the SWC individual tournament at Fort Worth, May 2-3.

Arkansas' foursome will be junior Sammy Brown, Morrilton, Ark., freshman Charles Brownfield, Stamford, Thomas McNair, a Fayetteville sophomore, and Camden sophomore Wayne Meeks.

Robert McKinney

Top field highlights Drake Relays start

DES MOINES, Iowa (AP) — An anchoring effort by recovered Kansas' Jim Ryun, a first-time showdown between two of the country's top distance men, and a lightning fast special 440-yard dash field highlight Friday's opening session of the 59th Drake Relays.

The phenomenal Ryun tested an injured leg for the first time in a month during last weekend's Kansas Relays, and his meet record 3:42.8 in the 1,500 meters quickly dispelled fears the pulled hamstring muscle he suffered late in March would

jeopardize his Olympic chances.

JIM, WHO CELEBRATES his 21st birthday Monday, isn't slated for any solo activity here. Instead, he'll be used exclusively for relays, competing both days in at least three events.

However, Coach Bob Timmons, who likes to keep Ryun's itinerary a secret until the last minute, wasn't saying whether he would compete in the spring medley, two-mile, four-mile or distance medley.

Air Force Lt. Jim Murphy,

voted the outstanding performer in the Kansas Relays after winning both the 5,000 and 10,000 meters, will try to prevent St. Cloud, Minn., State's durable Dan Nelson from scoring a triple double here.

Nelson, the Pan-American 5,000- and 10,000-meter champ, has won both the three and six-mile runs at Drake the last two years, setting records in both last year. They run the three-mile Friday and the six mile Saturday.

AL, NL play ball on '69 schedules

CHICAGO (AP) — The American League decided for the sake of harmony Thursday to play ball with the National League on mapping 1968 schedules. It delayed action on setting up a planned two-divisional slate for its 12-team expansion program.

"We set today's meeting as long ago as last February in order to possibly adopt a divisional, six-club scheduling plan for 1969," said Joe Cronin, American League president, "but last week the National League decided to expand to 12 teams in 1969 if it were feasible. We now must wait for the National's firming up of its 1969 expansion program before we can decide on our playing schedule. It would be difficult if we went ahead with a divisional setup not knowing what, or even if, two new teams the National will add."

Cronin said that Carroll thought the National would expand at a feasible date, and, in the interest of harmony, they would like for the American League to delay its scheduling plans.

Carroll said the National will meet probably in mid-May, at which time the two new franchises for 1969 may be voted on. At last Friday's NL meeting in Chicago, franchise applications came from San Diego, Milwaukee, Montreal, Buffalo and Dallas-Fort Worth.

CRONIN SAID "we are cognizant of the problems between the two leagues and we will meet with the National League before May to discuss them."

Here's more about

Ph.D. emphasis needed

(Continued from page 2)
 of the fact that the primary objective of a university is to inculcate within the student the intellectual tools with which he may earn a living in our extremely complex society. The university enjoys a unique role as not only the guardian of knowledge, but the only broad and encompassing channel through which it is purveyed from generation to generation.
 THERE IS CONCLUSIVE evidence that the truly great industrial developments in America have occurred in and around universities. There is direct evidence now, moreover, that in such industrial development the major impetus is felt at those universities where large numbers of Ph.D.'s in Engineering are available for direct entry into industry.

It would appear totally pointless to so struggle to achieve an ideal only to have it fade away from lack of our own support after its authorization. How this must puzzle the Coordinating Board, the Legislature and the rest of our fellow citizens. Why we ever made the initial effort must mystify them.

Considering the subject very carefully, it becomes painfully evident that if we accept the fact that we are going to be operating upon a subminimal basis, then we must also accept the parallel fact that we cannot continue the graduate program in engineering at all.

We all wish leadership and distinction for Tech. We have put too much of our lives into this blossoming university to enjoy nipping its progress in the bud. Yet these truths remain:
 During the last four years, not one dollar has been allocated to the development of the Ph.D. in engineering, for which we struggled, and which was authorized by the Coordinating Board.

Here is another unvarnished truth to which we must face up: Texas Tech cannot be all things to all people.
 Yours is the privilege and, I am sure, the heavy responsibility, of choosing in what sectors Tech shall distinguish itself, if indeed the wherewithal for distinguishing itself at all, is forthcoming.

I NEED NOT TELL you that the reputations of the distinguished universities of America rest upon the distinguished reputations of their faculty members. And that their reputations rest upon the out-

standing research which they do.

Any truly significant reputation which Tech may earn will be achieved by research pursued in the agricultural sciences, the physical sciences, and engineering. This is not to depreciate the need for good programs in all other academic provinces of the campus; or to imply these other provinces do not make a cogent contribution to the university's standing as a whole - as a balanced, well-rounded educational institution. It is merely to state a patent fact; that the real measure of Texas Tech must be taken in the three sectors just mentioned.

This is our opportunity to pull ourselves up out of the undergraduate college category. This is our chance to pull ourselves up to that eminence upon which, perhaps, some less deserving citadels of higher learning rest, drawing in the lucrative contracts; attracting the nation's best brains; gaining the greatest academic plaudits.

Our choice is simple: either we take advantage of our opportunities, or we resign ourselves to present mediocrity and later deterioration, for a university cannot, any more than can any other living entity, stand still. Its movement must be forward or back, up or down. This dead center upon which we rest, cannot be maintained.

A "KNACK" FOR SCENERY - Or, would you believe scenery for "The Knack"? At any rate, Jeff Johnson, Cindy Goode and Troy West are erecting scenery for "The Knack," a sex comedy about modern morals by Ann Jelli-

coe, to be presented by the University Theatre May 10-13. Reservations may be made by calling the University Theatre box office. (Staff photo by Richard Mays.)

Dorm life at Tech features radio, scholarships, sports

Intramurals, dorm government and mixers make up most of dorm life, but Gaston Hall has had something new this year - a radio station.

Alan Nell, El Paso electrical engineering major, started Radio Free Tech, an AM station broadcasting to Gaston and other nearby dormitories. The station went off the air, however, because Nell could not spare the hours needed to keep the station in operation.

Gordon Hall's scholarship

committee instituted two new traditions this year in the dorm. It decided to award \$50 to a selected resident who has given outstanding service to the dorm in the last semester and to engrave the names of those residents making a 4.0 gpa or the highest grade point in the dorm on a plaque.

Gordon also set up special committees to analyze and suggest improvements for dorm life.

Bledsoe Hall's trophies in-

clude those for highest grade point average for 1966-67, the dorm league soccer championship for 1967-68, intramural swim meet runnerup, best men's dorm decorations for homecoming 1967 and dorm league skeet shooting championship.

Bledsoe also sponsored the first annual William H. Bledsoe Intramural swim meet this spring. Bledsoe won the meet.

Wells Hall sponsored a spring dance March 30 at the Pioneer Hotel. The Derby Hatville Band furnished the music.

Men from Thompson Hall won the triple crown of intramural sports last year and have won all-college in football and tug-of-war this year.

Women recognition slated for Monday

Election of Tech's Woman of the Year and Faculty Woman of the Year Monday will begin the 36th annual Woman's Day activities.

Annual recognition of Tech women is sponsored by the Association of Women Students.

Tuesday all women are asked to wear white. The 1968 Women's Day banquet at 6:30 p.m. in the Tech Union Ball Room will close the day with the announcement of Tech's most outstanding women.

THE DORM receiving the scholarship trophy for the highest grade point during the fall term, the 1968-69 dorm legislators and officers and the best pledge from each social sorority will also be announced at the banquet.

Miss Chloe Gifford, director of special activities at the University of Kentucky, will speak at the banquet.

Women students and faculty members are invited to a tea in the dean of women's office at 1:30 p.m. Tuesday, following a noon luncheon at the Wiggins Complex. The tea is to give Tech's women a chance to meet Miss Gifford.

The following women have been nominated by various organizations for Woman of the Year:

Lu Ann Aday, Doak Hall and Phi Mu; Mary Lou Clements, Kappa Kappa Gamma and Kappa Hall; Merry Coleman, Kappa Alpha Theta; Susan Esterak, Gamma Phi Beta; Judy Gordon, WSO; Janie Harris, Mortar Board.
 Kathy Harrison, Chi Omega; Toni Knight, Alpha Delta Pi; Betsy McGraw, Delta Delta Delta; Katie O'Neill, Theta Sigma Phi; Elaine Spilaw, Army Corps; Wanda Aulich, Baptist Student Union; Ginger Vets, Hulen Hall; Susy Crain, Town Girls; Lynn Bourland, Phi Upsilon Omicron; Linda Henderson, Weeks Hall; Judy Rostand, Sigma Kappa and Pat Ramsey, Chitwood Hall.

Faculty Woman of the Year nominees are:

Mrs. Mary Ann Cobb, assistant professor, women's PE, Town Girls; Mrs. Suzanne Aker, assistant professor, women's PE, Kappa Kappa Gamma, Doak Hall and Weeks Hall; Mrs. Wildring Edwards, assistant professor, home and family life, Kappa Hall, Delta Delta Delta.

Dr. Panze Kimmel, assistant professor, secondary education, Kappa Alpha Theta, Chi Omega, and Hulen Hall; Dr. Evelyn Montgomery, associate professor, sociology and anthropology, WSO and Phi Mu; Dr. Olive Wheeler, associate professor, elementary education, Alpha Delta Pi, and Miss Mary Gerlach, assistant professor, clothing and textiles, Phi Upsilon Omicron.

Dr. Mina Lamb, professor, food and nutrition, Drane Hall and Pi Beta Phi;

Miss Mary Jo Campbell, instructor, clothing and textiles, Pi Beta Phi; Mrs. Jan Greenwald, assistant professor, home and family life, Army Corpsettes and Miss Katie Varnell, assistant professor, clothing and textiles, Sigma Kappa.

All women must present an ID to vote. The polls in the residence halls will be open only during the lunch and dinner hours, while the polls in the Tech Union, Ad Building, Home Economics Building, and the Library will be open 8 a.m.-4:30 p.m.

Banquet tickets will be sold in the Tech Union lobby and women's dorms from 11:30 a.m.-1 p.m. through Monday at \$2 each.

Phi Deltas plan service day projects

About 125 members of Tech's chapter of Phi Delta Theta fraternity will work at Post Memorial Scout Camp and Rio Blanco Girl Scout Camp Saturday and Sunday in their 14th Annual Community Service Day.

Saturday the Phi Deltas will work in Post at the C.W. Post Memorial Scout Camp where they built the Chapel in the Sky several years ago. This year they will repair the chapel, reset the large cross on the hill overlooking the chapel and rebuild foot bridges.

The fraternity will also construct three conversion dams to stop erosion and will work on a two-inch pipe line under construction.

The chapter will be in Crosbyton Sunday working at the Rio Blanco Girl Scout Camp. There they will have a church service led by Chaplain Fred Bryant.

They plan to clean the camp and get it ready for summer. Last year Phi Delta Theta was awarded Tech's Interfraternity Community Service Award and the national award for the best service project among all Phi Delta Theta chapters in the nation.
