

## No hat, black in 'Red Day'

The Student Senate risked by almost a two to one margin Thursday being labeled as a racist body when it refused to name Saturday "All I See is Red and Black Day."

The bill, introduced by Sens. Chuck Phillips (Grad) and Wesley Wallace (A&S) met its first opposition when Wallace named the date Jan. 11, 1969 A.D.

Jewish Sen. Allan Soffar (Grad) objected, Wallace suggested the date be Jan. 11, 1969 Year of Most of Our Lords. When the bill called for "All I See is Red and Black Day," Sen. Jim Gilbreath (BA) objected.

Gilbreath suggested a friendly amendment to drop the word "Black" from the bill. Phillips said, "We accept." "What do you mean 'we'?" Wallace said. They did not accept.

Sen. David Sanders (A&S) suggested the day be called "All I See is Red, Black and Cowboy Hat Day." His motion died for lack of a second.

Then Gilbreath moved, and the Senate voted 25-13, to take the "Black" out of "All I See is Red and Black Day." The Senate then voted to make Saturday "All I See is Red Day."

The issue is not dead, however. Sen. Robert Mansker (Grad) suggested the customary governmental way of handling things — referring the question to a committee.

# Senate plans to meet in Ad Building

TAKES OATH—Student Senate President Hank McCreight swears in David McDougal as chief justice of the Tech Supreme Court in a Senate meeting Thursday night.

Other justices sworn into office at that time were Chris Todd, Alan Brown, Nancy Hicks, Alan Murray, Rick Hamm and Calvin Brints. (Staff photo by Richard Mays).

## Expects Board to take action on name-change

The Tech Student Senate, in a last-minute surprise action, voted to adjourn its Thursday night meeting until 9 a.m. Jan. 18 in front of the board room in the Administration Building.

The motion was passed in response to the announcement of a called meeting of the Tech Board of Directors on a date that hints at name-change action.

The terms of adjournment call for the Student Senate to gather in a room or hallway not designed to accommodate an additional body as large as the Senate. Thirty-five members were present at Thursday's meeting.

Student Sen. David Sanders, A&S who also is president of the Student Action Organization, said all SAO members also would be asked to attend the Board meeting.

A combination of vague signs indicate Jan. 18 could be a name-change day. The Board of Directors is on record as favoring a name-change at the earliest possible date, it has said a good time would be a time when the Legislature is in session.

The Legislature will be four days into its business session Jan. 18. This is also a period during which The University Daily does not publish and students will be in their second day of final exams. Important decisions affecting students, as illustrated during last year's housing controversy, have often been timed for release during periods in which students cannot respond to them.

In addition, the meeting was not one of the Board's regularly-scheduled meetings. The University Daily learned only this week of its scheduling.

The adjournment came as a dramatic climax to an entertaining meeting called primarily to perform the routine duties of swearing in the Tech Supreme Court and giving advice and consent to executive appointments.

Senate President Hank McCreight swore in Chief Justice David McDougal, then McDougal swore in Associate Justices Chris Todd (A&S), Alan Brown (BA), Nancy Hicks (Home Ec), Rick Hamm (Engineering) and Calvin Brints (Ag).

Alan Murray (Law) is a second year justice and was sworn in last year. Justices for the Graduate School and the School of Education have not yet been appointed. Justice Pat Taylor, a holdover justice, will continue to serve as Graduate Justice and the Education seat will be vacant.

Sen. Gary Justice (BA) said applicants for the Graduate and Education seats could turn in their applications (name, address and phone number) in his box in the student government

office, 161 Administration Building by next Friday.

The Senate gave advice and consent to the executive appointments, with one exception, Beryl Hall was referred back to the Judiciary Committee for further consideration. Miss Hall had been appointed to the College Awards Committee.

Meanwhile, the College Awards Committee has already met and Miss Hall is serving as secretary of the committee.

Some changes were made by Student Association President Mike Riddle and announced at the Senate meeting. Paul Smith was removed from the position of cabinet secretary of campus facilities and the position was left open. Smith was removed from the Parking, Traffic and Safety Committee and replaced by Robert Mansker.

Riddle removed himself from two committees after the Judiciary Committee expressed the thought committee seats should be more widely distributed in order to allow members to devote more attention to duties on their specific committees.

Riddle was replaced by Bill Pittman on the Student Appeals Board and by Don Guest on the Committee on Student Organizations.

The Senate engaged in lengthy debate over the situation created by Gov.-elect Preston Smith's inauguration during final exams.

## Today

By The Associated Press

### Brutality probe continues

WICHITA FALLS — The head of the House committee investigating alleged beatings at Gatesville School for Boys said Thursday he has asked three members of the Texas Youth Council to meet with the committee today.

Rep. Vernon Stewart, chairman of the House Committee on Juvenile Delinquency, said he wanted to talk to council members before making a final report to the legislature next Tuesday.

Meanwhile, two other legislators criticized the committee for what the two call "utter disregard for the truth."

Lt. Gov.-elect Ben Barnes, who led a second investigation team to Gatesville last Sunday after Stewart's committee visited the school, said he would have no statement until after the committee reports.

Stewart said he had had asked members of the Texas Youth Council to meet with him in Austin today at 10 a.m. but had not heard from any of the council board.

### Seeks new electoral law

AUSTIN — State Rep. Maurice Angly Jr. called for a state law Thursday night requiring presidential electors to cast their votes in accord with the popular vote.

"The last election spotlighted the problems posed by the Electoral College system of electing the President of the United States," Angly told the University of Texas Young Republican Club.

"This problem is no longer merely theoretical," Angly said.

"When the Congress let stand the vote of one North Carolina elector who voted contrary to the vote of the people of his state, a dangerous precedent was established."

Angly said he would introduce a bill to the next legislature requiring presidential electors to cast their Electoral College vote according to the will of the people as expressed by their vote at the polls.

### McCarthy gives up seat

WASHINGTON — In a surprise move, Sen. Eugene J. McCarthy, D-Minn., surrendered Thursday the Senate Foreign Relations Committee seat that had given added drive to his all-out assault on the administration's Vietnam policies.

And he turned it over to one of the Senate's foremost hawks—Sen. Gale McGee, D-Wyo.

McCarthy's official explanation, read by his office, was that he wanted to facilitate a reduction in the committee size and allow Senate Democratic leaders to keep a pledge to restore McGee.

The statement did not cover why McCarthy, in view of his strongly held views on the war, would give up the highly prestigious forum on international affairs to a successor who has solidly backed the Vietnam military effort.

McCarthy, a Minnesota Democrat, made a long, hard-fought battle for the Democratic presidential nomination on an anti-war platform.

### Borman given new job

SPACE CENTER, Houston — Astronaut Frank Borman, commander of the Apollo 8 moon flight, was named deputy director Thursday of the Manned Spacecraft Center here.

The announcement came shortly after Borman and his two Apollo 8 crewmates received medals from President Johnson and addressed a joint meeting of Congress in Washington.

The National Aeronautics and Space Administration NASA announcement said Borman would assume responsibilities in the astronaut office, the flight crew support division, and the aircraft operations office under Donald K. Slayton, the director of flight crew operations.

The announcement confirmed an Associated Press story of Wednesday which said Borman was to assume increased responsibilities. A source also told the AP that Borman's new job would exclude him from future space flight.

A NASA spokesman, however, said Borman would retain his flight status.

# Texas Stater's ready if name action taken

The Joint Name Change Committee is girding itself for a possible battle with the Tech Board of Directors in case the Board attempts to submit any name to the state legislature this year other than Texas State University.

"We will attempt to block passage of any bill in this legislative session with any other name than Texas State University," Tom Burtis, secretary of the committee, said Thursday.

The Board meets Jan. 18 and the

possibility exists that some action on the name change issue may be taken.

RUSSELL BEAN, chairman of the Joint Name Change Committee said he doubted the Board would take any action at this time, but admitted that possibility did exist.

"If they do take action it would be a miracle if they came over to our side," Bean said.

In a name change meeting Thursday

Bean appealed to those present for their support in Austin if some action is taken by the Board of Directors at this time.

Burtis had a list of persons willing to go to Austin to attend committee hearings if any name change legislation were introduced.

"IN PREVIOUS dealings with the Board of Directors we have found they dislike anything controversial until after the appropriations bill is settled," Burtis said.

If this is the case according to Burtis the Board may take no action until May, near the end of the legislative session.

Bean said the Board is being pushed from many angles "and they may go in a direction in opposition to our desires."

According to Burtis, legislative hearings on the name change bill can be expected if there is any controversy over the bill.

"WE HOPE to influence these meetings with the evidence that the majority of all three groups - exes, students, and faculty - support the name Texas State," Burtis said.

An independent opinion survey conducted last year from a publicly drawn representative survey showed 60 per cent of the ex-students, 71 per cent of the students, and 71 per cent of the faculty in favor of Texas State.

### Inauguration may cause change in exam schedule

A change in the exam week schedule may be necessary because of the attendance of more than 500 Tech students at inauguration ceremonies Jan. 21, in Austin, Dr. S.M. Kennedy, vice president for academic affairs, said Thursday.

Governor-elect Preston Smith has asked the Goin' Band from Raiderland to act as the official inaugural band and invited ROTC units to participate in activities.

Kennedy said various possible solutions were being considered and any change in the exam schedule would be announced as soon as possible. (See current exam schedule, p. 10.)

# Body of UT coed found in lake north of Austin

AUSTIN (AP) — The body of a woman found in a Central Texas lake Thursday has been identified as that of Keitha Morris, 20, a University of Texas co-ed missing since Wednesday, the Department of Public Safety said.

She had been on a date with John Albert White, 21, another University of Texas student, whose body was found lying face down in Bull Creek near the northwest Austin city limits Wednesday.

A Department of Public Safety officer said the body of Miss Morris was found floating in Inks Lake, about 75 miles northwest of Austin, about 1:30 p.m. Thursday.

THE OFFICER said the body was

found by Mr. and Mrs. George Harvey found by Mr. and Mrs. George Harvey of Fullmore, Utah, who were fishing in the lake.

DPS officers said a preliminary examination showed the girl's neck was broken and there was an indentation in her skull.

The body was removed to Austin for a complete autopsy. The officer said Miss Morris' body was nude when found and there were no clothes nearby.

Hundreds of searchers, including federal, state and local officers with the help of large groups of volunteer students, combed the cedar covered hills northwest of Austin Wednesday night and Thursday looking for clues to Miss Morris' disappearance and the mystery slaying of White.

MISS MORRIS, daughter of the high school principal at White Deer, about 50 miles northeast of Amarillo, was the picnic date of White, a quiet, former Peace Corpsman, son of a prominent Corpus Christi attorney.

Two other university students, David Bond and Dawn Horak, both of Corpus Christi, accompanied White and Miss Morris to the scenic picnic site Wednesday afternoon, a popular outing spot for university students. They said White and Miss Morris were alive and well when they saw them as they drove away about 5:30 p.m.

White's body was found about 6 p.m. by two other university students, Charles Gremminger, 19, Houston, and B.J. Smith, 20, Hattisburg, Miss., who were looking for a good picnic site for a weekend party.

White had been shot "at close range" in the left shoulder and the .38 caliber pistol bullet penetrated his chest causing death, said Justice of Peace Robert Kuhn who rules homicide. Kuhn said several gashes on the back of his

(See COED, page 7)

### Spring registration material available beginning Monday

Registration material will be distributed next week according to the following schedule, arranged alphabetically by students' last names:

A-C, Monday; D-H Tuesday; I-M, Wednesday; N-R, Thursday; S-Z, Friday.

THE MATERIAL can be picked up in the Coronado Room of the Tech Union 8:30-11:30 a.m. and 1-4:30 p.m. Students must present an ID or social security card.

Spring registration will begin 1:40 p.m. Jan. 29 and continue through noon Feb. 1. Registration was originally scheduled to begin Jan. 27, but was set back to Jan. 29 because of a Jan. 28 basketball game scheduled for the coliseum.

# Newsmen give testimony in Sirhan murder trial

LOS ANGELES (AP) — Radio newsmen testified secretly in the trial of Sirhan Bishara Sirhan Thursday as his defenders tried to show his case was damaged because of publicity. His attorneys also sought evidence to support quashing his indictment.

Sirhan and his lawyers, and attorneys prosecuting him on a charge he murdered Robert F. Kennedy, spent only nine minutes in open court before Judge Herbert V. Walker adjourned the trial until Monday for the start of jury selection.

One defense attorney, Emile Zola Berman, said evidence of a "saturation of publicity" surrounding Sirhan and lawyers in the case would be used to try again to postpone proceedings for 30 days. The judge has denied two defense requests for such a continuance.

ASKED WHETHER the publicity might be used to request a change of venue, Berman's co-counsel, Russell B. Parsons, pointed out as he has before that there are few places in the world the case hasn't been publicized.

He was asked if a motion for a mistrial would be more likely?

"I would say so," Parsons replied. Sirhan's lawyers told the judge they would spend the weekend reading the recent defense of a teacher indicted during a high school walkout. Lawyers for the teacher tried to show that Los Angeles County grand juries don't represent a cross-section of the community.

THIS WOULD support a motion filed Monday to quash Sirhan's grand jury indictment, his lawyers said. The judge

has postponed a ruling on the motion.

Sirhan, a 24-year-old Jordanian accused of shooting Kennedy last June 5 as the New York senator claimed victory in California's Democratic presidential primary, appeared in court in a new blue-grey suit and blue tie.

He walked in with a trace of a smile and tugged at his nose as he sat down with his attorneys. The smile faded into seriousness as he noticed his mother, Mary, and two brothers absent for the first time since his trial began.

Sirhan turned in his chair as attorneys and the judge discussed the high school teacher's transcript. Then all principals, including Sirhan, retired into the judge's chambers.

THERE THEY heard testimony from several radio newsmen and accepted copies of station logs from some of them. News reporters covering the trial were barred from the chambers.

Herb Humphries, news editor of Los Angeles radio station KFWB, spent 10 minutes inside and came back out saying, "Guys, I've been given the warning, so hello and goodbye!"

He and others of the 10 broadcast reporters subpoenaed by the defense for the closed-door testimony said they were ordered not to discuss publicly anything that happened in chambers.

ONE NEWSMAN, Jon Goodman of CBS affiliate KNX in Los Angeles, said a CBS attorney advised him not to supply station logs unless they are formally subpoenaed.

Defense aide Mike McGowan said he didn't know whether subpoenas would be issued for the log.

## Chicago U. selects ombudsman

Chicago, Ill. — (I.P.) — A fourth-year student in the College of The University of Chicago, John W. Moscow, has been named student ombudsman. The term of the appointment runs through the end of the summer quarter, 1969.

Announced by Edward H. Levi, Provost of the university,

the student ombudsman will receive student grievances and, at his discretion, bring them to appropriate people or institute investigations into those cases where a review by his office seems warranted. He will issue quarterly public reports describing in general what his activities have been.

According to Levi, "The appointment of Mr. Moscow is meant to improve the regular remedial processes of the university. The student ombudsman is not a representative, but an independent officer."

"We expect him to call attention to abuses of discretion wherever he finds them, and to suggest changes in rules, procedures, or policies wherever he sees fit. Basically the influence of the ombudsman will depend on his ability to suggest and persuade. It will be a difficult job. But I think this has a chance to be an important experiment."

In accepting the appointment, Moscow said: "I welcome the opportunity to serve as student ombudsman of The University of Chicago. I hope that with the help of students and faculty across the university, we can together make this a better and more open community."

## Speakers series asks suggestions

The University Speakers Committee has issued an invitation for the submission of names of possible speakers for the 1969-70 academic year.

Dr. D. M. Vigness, chairman, said the names, with some explanation of their activities should be submitted to his office, room 119 in the Social Science Building by Feb. 28. He also said the criteria the committee uses in selecting speakers are:

- the speaker should be either nationally or internationally known;
- the speaker should be very well respected in his specialty;

— the speaker should be of interest to a broad cross-section of the campus community;

— the entire slate of speakers must represent various currents of interest.

"If anyone has any questions regarding the Speakers Series or submitting names, he might contact any member of the committee," Vigness said.

Student members of the University Speakers Committee are Mike Riddle, Mary Lynn Anderson, Lana Davis and Jim Collie. Faculty members are Col. Haynes Baumgardner, Dr. Henry Shine, Dr. Justin C. Smith and Dr. Idris Traylor.

## Editorial

### Request your speakers

The University Speakers Committee has issued its customary appeal for names to be considered for next year's speaker series.

The committee did this last year, only to be accused by a certain conservative element this fall of bringing flaming liberals to campus without proper administration supervision.

The University Speakers have been a valuable educational addition to the

Tech community for the last few years. Al Capp, Dr. Wernher von Braun, Gen. Maxwell Taylor and other speakers of equal authority have spoken at Tech as University Speakers.

This is the time for students and faculty to make requests. The committee seeks speaker suggestions and it can do a more representative job of selection if the campus community responds.

Opinions expressed in The University Daily are those of the editor or of the writer of the article and are not necessarily those of the college administration or of the Board of Directors.

The University Daily, a student newspaper at Texas Technological College at Lubbock, Texas is published by Student Publications, Journalism Building, Texas Technological College, Lubbock, Texas 79409. The University Daily is published daily except Monday and Sunday during the long terms, September through May, and weekly (every Friday) during the summer session, June through August, except during review and examination periods and school vacations. Subscription rate is \$10 per year. Second-class postage paid at Lubbock, Texas 79409.

## Letters

### Questions anarchism course

A recent issue of the UD states that Tech is to have a Free University or so called Experimental University.

Furthermore, one of the courses is entitled "anarchism."

Just what will this course be like? Will it teach what anarchism really is or how to practice it? Just what is the purpose of teaching a course like this anyhow? Will it influence students to try to practice it here at Lubbock, Texas?

Perhaps this group of students ought to reconsider before starting this project.

C. G. Connell  
 2213 38th St.  
 (Editor's note: In reply to this letter, Randy Holmes, in charge of registration for the Experimental College, said, the anarchism course "will be oriented historically and philosophically to anarchism in hopes of approaching and un-

derstanding anarchist tendencies today."

About its purpose, Holmes said, "We are in a state of political redefinition. There is a movement in the United States

in the anarchist tradition and it is worth looking at."

Dr. Benjamin H. Newcomb, one of the voluntary professors of the course said, "It is not a lab course.")

### Pleas for punishment

There was a fire drill in Chitwood Hall tonight. There was, however, no fire, as is often the case in this dormitory.

While we realize that it would be very difficult to discover the source of this ridiculous episode, we of 12th floor Chitwood (who have a slight aversion to such sick jokes, anyway) would just like to make a plea that such incidents be punished if necessary, by the use of fingerprinting.

We would also be interested in knowing how many old cases of flu become pneumonia, and how many new ones occur be-

cause of wet hair and less-than-substantial clothing.

The really sad part, however is that our parents are paying \$108 per month to ensure, they think, a hallowed hall for college study for their daughters. That is not the atmosphere in Chitwood Hall.

Also, the hour we just lost could have proven very beneficial to many, be it in the form of sleep or study.

Chitwood Hall  
 12th Floor East

### Name game back

It would appear that 1969 will offer nothing more than the return of old propaganda in the continuing name-game struggle.

The UD has delivered the first blow with its tried and tired line concerning the many other schools and their names; we now await the return lambast of the "Tech" proponents.

The TSU fans (that's State, not Southern) are hurriedly trying to come up with a new bumper-sticker for '69; however, they are having a little trouble trying to rhyme "Texas State" with "sixty-nine."

There was one brief ray of hope when the new "editor" took over this year, but it now appears he is nothing more than an old David Snyder with a new name.

Until the two warring parties can come together to rationally and logically discuss the problem, there can be no new developments. One suggestion has been made that the two opponents have a confrontation; but this would not work because they probably could not agree on the shape of the conference table.

Edward Bartoo

Supreme Court denys appeal

Widow awarded verdict in suit for late husband

AUSTIN (AP) — The Texas Supreme Court refused Wednesday to hear the appeal of a suit in which the widow of a Pasadena doctor accused his former partners of malicious prosecution.

Houston denied Mrs. Pendleton recovery of damages and she appealed. The 1st Court of Civil Appeals in Houston at first affirmed the trial court decision, and then on a motion for rehearing reversed the district court decision as it applied to Burkhalter and remanded the suit for another trial.

Drownings increase

AUSTIN (AP) — Texas had 489 drownings in 1968 compared with 317 in 1967, the Texas Parks and Wildlife Department said Thursday.

R. G. Mauermann, deputy director of the department, said most drownings could have been prevented if the victims had taken one or two simple precautions.

Deposit refund deadline today

Any student living in the Tech dorms who does not plan to re-enroll in Tech for the spring semester must come to the Room Reservations Office and sign a written request for the refund of their room deposit by 5 p.m. today.

Mauermann said the drowning rate could be cut drastically if, for example, "Everyone who went boating slipped into a life preserver before going out." He said another common cause for drowning is that people don't know their own limits.

"Case histories show repeated instances where persons who were poor swimmers somehow found their way to deep water and drowned," he said.

A MUSICAL QUIXOTE COMES TO TOWN—The Tech Artists Course will present the award-winning musical drama "Man of La Mancha," the adaptation of the legends of Don Quixote that captured all the major awards that New York could bestow upon it. Members of the Broadway cast will be seen in the production, scheduled for 8:15 p.m. Tuesday in Municipal Auditorium. This performance is restricted to Tech students, who, with IDs, may obtain free tickets, and Tech faculty and staff, who may attend the play for \$1.50 each. A ticket booth has been set up in the Union. At right are pictured Ian Sullivan, Ronn Carroll and David Atkinson in a tense moment during the trial of Cervantes. Left, Louis Criscuolo approaches Patricia Marand as she relates the story of the life. These five performers are part of a nationwide touring company which the Artists Course has secured to open its spring special events season.

ROTC test set

Two year plan offered by AF

Air Force officer qualifying tests will be administered during the weekend of Feb. 1 and 2, officials of the aerospace studies department at Tech announced Wednesday.

"Therefore, entry into the two-year program at Tech during the academic year of 1969-70 will be limited to qualified pilot and navigator applicants," Capt. Warsinske said.

The tests will be given to applicants for the Air Force ROTC two-year program.

James A. Warsinske, aerospace studies administrative officer, said the program is designed to accommodate students who have been able to attend the first two years of the ROTC curriculum, either in two-year colleges or in the senior colleges.

"STUDENTS WHO qualify and are selected," he said, "will attend a six-week field training session at an Air Force base this summer as a prerequisite for enrollment in the junior year of ROTC during the academic year of 1969-70."

The restricted number of non-flying spaces in the Air Force ROTC program at Texas Tech has been committed to scholarship applicants from the four-year AFROTC program.

Gardner to judge art competition

Paul Gardner of the Smithsonian Institution will judge the first ICASALS Juried Competition in sculpture, pottery, jewelry and blown glass in Lubbock this spring. The announcement was made by Tech's International Center for Arid and Semi Arid Land Studies.

Gardner is the supervisor and curator of the Division of Ceramics and Glass at the U.S. national museum.

The competition is open to any artist west of the Mississippi River, and slides of entries are due Feb. 1. Acceptance notices will be mailed by March 1.

Liberal journalist to speak on past political writing

Greg Olds, editor of the liberal Texas weekly, The Texas Observer, will be guest speaker 11 a.m. Sunday at the First Unitarian-Universalist Church.

Faculty quintet presents recital

Tech's music department will present the Faculty Brass Quintet in a recital at 8:15 p.m. today in the Croslin Room of the Tech Library.

The program will include works by composers J. H. Scheim, Malcom Arnold, William Schmidt, Johann Pezel and Morley Calvert.

Members of the quintet include Richard Tolley and Dean Killion, trumpets; Robert Deahl, trombone; David Payne, tuba, and Anthony Brittin, French horn.

Raider Roundup

Tech Dames All members and prospective members are invited to tea Sunday Jan. 12, in the home of Mrs. Glenn Barnett, 4608 17th from 3-5 p.m. The tea will take the place of the regular monthly meeting and will be an installation service for 11 officers. Jan. 1969 graduates will be honored.

Phi Gamma Nu Phi Gamma Nu will have an initiation ceremony at the Ming Tree Sunday at 6 p.m. All pledges must wear white.

# Reporters go on strike; AP executives write copy

NEW YORK (AP)—The Wire Service Guild struck The Associated Press Thursday morning, but the news agency continued its basic report to thousands of newspapers and radio and television stations throughout the world.

Associated Press and Guild negotiators and a federal mediator met Thursday afternoon. An AP spokesman said there was no progress, but another meeting will be held today.

The Guild said it had no comment on the day's developments.

THE NEWS REPORT is being written and edited by executives, exempt employees, non-Guildsmen and by some Guild members who chose not to join the strike.

Associated Press General

Manager Wes Gallagher said the central issue was the Guild's demand for a modified union shop.

The Guild declared there were nine key issues not resolved, and said the AP had rejected them all. The amount of pay increases over a proposed three-year contract was a central point.

THE AP is a cooperative, non-profit news agency serving some 8,500 newspapers, radio and television stations throughout the world, including about 1,250 newspapers and more than 3,000 broadcast stations in this country. Its overseas operations were not affected.

The Wire Service Guild represents 1,313 AP editorial, photographic, clerical and other employees throughout the country. It is a nationwide unit of the American Newspaper Guild, AFL-CIO.

The AP report is distributed

via teleprinter circuits staffed by members of the United Telegraph Workers Union. Some remained on duty when the strike was called at 8 a.m.; others left.

Whether UTW members would cross picket lines for later shifts was unclear.

GALLAGHER SAID at a mid-morning news conference "we are operating in all state bureaus. In one office, every staff man is working except the Guild chairman. I see no reason why we cannot continue to maintain basic services indefinitely."

"I am tremendously proud of the loyalty being shown by AP staff men across the country," Gallagher said, while expressing great regret over the strike.

"I have received calls from publishers and others offering help. At the present time, we do not need outside assistance. We are doing it all with our own staff," he said.

QUEEN'S AWARD—Tech's Army ROTC conducted awards ceremonies Thursday in the Coronado Room of the Tech Union. The ceremony included a special award presented to Barbara Specht, National Centennial Football Queen and a member of the Tech CorpsDettes, women's organization affiliated with the Army ROTC.

## Air Force, Army ROTC hold awards ceremonies

Awards for honors earned during the fall semester by Air Force and Army ROTC students were presented in ceremonies held Thursday.

Receiving Cadet of the Month awards in the Army ceremony were Randall B. Brown, Thomas V. Head and Garion D. Brunson.

BARBARA SPECHT, a member of the Corpsdettes and National Centennial Football Queen, received a special award from the Army ROTC unit.

At the Air Force recognition service, awards were given to John R. Valusek, Outstanding Commander ribbon; David

O. Henneke, Outstanding Staff Officer ribbon; Henneke, Michael W. Starch, John Turquette, Bruce R. Goodman, John K. Graham, John E. Harris, Emanuel M. Honig, John B. Mills Jr. and Valusek, AFROTC First Honors ribbons.

Also Hubert P. Hall, Roy F. Leslie, William A. Maxwell Jr., Erle N. Mote, Stephen L. Stanley, Steven J. Knight and Laurence H. Lancaster, AFROTC Second Honors Ribbons; John F. Duffy III, Sabre Drill Instructor award; James R. Snowden, Outstanding Sabre Flight member; Marilyn E. Davies, Angel Flight Drill Instructor award; Randal R. Drennan, Outstanding General Military Course cadet; Donna K. Johnstone, Outstanding Angel, and Richard M. Bowen III, Professor of Aerospace Studies Leadership award, and Honors Flights were also recognized.

DR. S. M. KENNEDY, vice president for academic affairs, addressed the Army ROTC cadets and Dean of Arts and Sciences Lorrin Kenamer and Lubbock American Legion Commander Louis J. Murfee participated in the awards presentations.

Special platform guests at the Air Force ROTC ceremony included Dean Kenamer, Dean of Agricultural Sciences Gerald W. Thomas, Miss Billie Williamson of the School of Home Economics, the Rev. Arthur Priesinger, Lutheran campus minister; and Chamber of Commerce Armed Services Committee members L. E. (Jack) Davis, George E. Morris and W. G. McMillan Jr.

IN ADDITION, official awards given by the Department of Military Science include Counterguerrilla awards, presented by Capt. John D. Simus; Rifle Team awards and Cadet of the Month awards, presented by Maj. John Wilkes III; Scabbard and Blade awards, presented by Maj. Gilbert Schumpert; Good Conduct ribbons, presented by Cadet Col. James S. Kay; Professor of Military Science commendation ribbons, presented by Col. Maxwell C. Murphy Jr.; the Academic Achievement ribbon, presented by Dr. Lorrin G. Kenamer, and the Tyrian Rifle award, presented by Maj. Kenneth W. Schreiber.

## World Affairs Conference

# Leading figures to air ideas here

Authorities on international affairs, statesmen, distinguished editors and educators are slated to come to Tech in March to address sessions of the 1969 World Affairs Conference on "Latin America: Past, Present and Future."

Here to analyze Latin American issues at conference events March 6-8 will be such noted political figures as the current ambassador from Peru, Fernando Berckemeyer Pazos, and the former Peruvian ambassador, Celso Pastor.

## Rich man charged with theft

SAN ANTONIO, Tex. (AP)—Cecil Yancey Evans, who told police he never made less than \$200,000 a year, was charged Thursday with the theft of the stunning McFarlin diamond, which by now may be somewhere in Canada.

The \$365,000 prize was sold for just \$6,000 to an unidentified buyer near Phoenix, Ariz., after it was stolen from the White Museum here last June, police quoted Evans as saying.

Kingsville, Tex., Police Chief Paul Hulsey said Evans had signed statements in connection with the diamond case and also concerning a lengthy list of robberies and burglaries in widespread areas of Texas.

Evans, said to be 48 and from Galveston but also listed as 45 or 50 and from several other Texas towns, was charged in the diamond case by Bexar County Dist. Atty. James Barlow.

A former Texas A&I football player, Evans was held in Kingsville on charges of taking a valuable coin collection at gunpoint from R. C. Bennett, 69, of Kingsville. Also charged in the case only was J. B. Wright, 47, of Galveston.

Evans and Wright were held in Kingsville without bond. Chief Hulsey said both men had made statements concerning the robbery of the coin collection, valued as high as \$300,000.

Museum officials say the McFarlin stone is the world's largest emerald-cut canary diamond.

Two reliable sources here said the buyer of the diamond had indicated he might take it to Canada. The buyer felt certain it must not remain in the United States, one of the sources said.

A law officer here, however, commented: "For that matter, it could be in Canada, Mexico, Europe, anywhere." Museum officials also have theorized that the pale yellow, 49.73 carat stone has left the country by now.

Kingsville police said they were pursuing a lead in the coin case.

Other lecturers will include Edward Marcus, national president of the Partners of the Alliance for Progress; Dr. James Boren of the U.S. Department of State; Dr. John L. Brown of the U.S. Embassy, Mexico City; Carlos Marquez Sterling, leader of the Cuban Exile government, and William L. Cody of Pan American Airways.

Among those leading seminar sessions will be Dr. Guerrilero Ramos of the University of Southern California, Dr. J. Lloyd Mecham of the University of Texas at Austin, Guillermo Medina de los Santos, rector of the University of San Luis Potosi, Mexico, and Fernando Medellin, director of that university's Institute of Desert Zones Studies, Dr. Evelyn Montgomery and Dr. Elizabeth Sasser, both of Tech.

Students from approximately 100 area and regional colleges and universities are expected to participate in the conference sponsored by Tech Union and Tech's International Center for Arid and Semi-Arid Land Studies.

Twenty topics from which participants may select five seminars cover economic, social, political, cultural and religious aspects of Latin American civilization.

Running concurrently will be a series of exhibitions — part of the International Center's Focus on the Arts — featuring pre-Columbian artifacts and art objects, Latin American fine art and folk art and photographic displays. Several of these exhibitions will be loaned by the Smithsonian Institution.

Registration deadline is Feb. 10. A fee of \$15 per person covers costs of the conference, including a March 6 banquet and a March 7 fiesta. Housing for delegates is available at a residential complex adjacent to the campus. Additional information may be obtained by writing World Affairs Conference, Tech Union, Box 4310, Texas Tech, Lubbock, Texas 79409.

## Policemen begin search

HOUSTON (AP) — Homicide detectives began an investigation Thursday after the small foreign auto of a woman who disappeared just before Christmas was found on a parking lot in southeast Houston.

Police said the automobile belonging to Miss Germaine Gomez, 40, showed no signs of violence. An empty spray can which officers said contained a chemical to subdue attackers was found in an ashtray.

Miss Gomez, a 15-year employee of the Harris County Pollution Control office, left her job Dec. 23. She told two other workers she intended to eat lunch early and then to a library.

Detectives said Miss Gomez, whose mother lives in Jeanerette, La., was last seen about noon Dec. 23 as she walked her dachshund near her apartment.

Notified by co-workers four days later, police checked the apartment and found the dog was starving.

Officers said Miss Gomez had taken none of her luggage from her apartment. A purse, sweater, large brief case and a number of other papers were found inside the locked automobile.

## Lazy bums sought for Louisiana posts

MONROE, La. (AP) — Applications are mounting steadily in Mayor Jack Howard's office for two new jobs he says are reserved for fully qualified lazy, unprincipled bums.

"I feel I can meet these standards," wrote a 20-year-old college student.

"I can't think of anyone more qualified than I am," wrote Houston insurance agent Sam M. Daus.

MAYOR HOWARD had announced the unusual job qualifications after the Louisiana Legislature decreed two more district fire chiefs were needed in Monroe.

Incensed over the action, which he said was nothing but featherbedding, Howard laid down the law Monday in these terms:

"All applicants must indicate the fact that they are lazy, have no ambition and are looking for a handout. They must be willing to state a desire to take the taxpayer's money as salary but not be willing to work for it."

SEVEN LETTERS reached the Mayor by Wednesday, and an aide said dozens more were on his honor's desk Thursday.

"I want to be a fine upstanding but lazy 'deadhead,'" wrote Bobby Grant, a student at Louisiana Tech. He said he had a friend who was interested but unfortunately was "too lazy to apply."

F. B. Sessions of Baton Rouge, saying he expected acceptance of his application by return mail, asked the letter be sent registered "so it will be delivered to me at my house, saving me a trip to the city."

SESSIONS ADDED these conditions of his own:

"I want my check mailed to me, I want a city car and driver for my transportation needs, I want a soundproof room at the central fire station so I won't be disturbed by those silly sirens and I would like to contact the legislators who passed this bill to see about better working conditions."

## Renegades play for Union dance

Tech Union is sponsoring a dance Saturday night from 8 to midnight in the Union Ballroom, Flower Pring, chairman of the Dance Committee, said.

There is no admission charge.

The Renegades will play. The five member band has played in Oklahoma, New Mexico and in several Texas cities.

Versatile Raider stars in basketball, baseball

# Jerry Haggard gains praise of past, present coaches

By DAVE AMMONS  
Sports Editor

Tech's Jerry Haggard is a man for all seasons—especially two of them.

A hustling playmaker on the Red Raider basketball team, Haggard serves double-duty as second baseman for Tech's diamondmen. The mere fact that he performs in two sports ranks the 5-10 speedster among a select roster of versatile athletes whose membership includes such current double-threat stars as the University of Texas' James Street, Texas A&M's Bob Long and the University of Houston's Paul Gipson.

But Haggard not only plays, he excels.

AWARDED All-Southwest Conference honorable mention last winter for his basketball skills, Haggard was selected to the all-conference baseball team during the spring, a thrill he counts as one of his biggest in that sport.

The personable senior's interest in basketball, baseball and football began, he says, in the fourth grade. In junior high, he added track to his repertoire. After lettering three years in both basketball and baseball, as well as earning all-district honors two seasons at

Lubbock's Monterey High School, he enrolled at Tech on a baseball scholarship.

"Jerry was about as dedicated a young man as I've had in 10 years," said Monterey baseball coach Bobby Moegle. "He gave me 100 per cent every minute."

HAGGARD WAS equally complimentary of his former instructor, saying, "He had a real influence on all of us. He was a great baseball coach, probably one of the best high school coaches in Texas. He taught us how to play, plus a little character."

As a college freshman, Haggard played basketball with the Picadors and performed so well that he's been a leading varsity cager ever since. Currently he is on a half-and-half scholarship—half basketball and half baseball.

"I like one about as well as the other," says Haggard regarding his specialties, "but I probably have more of a future in baseball."

NEITHER HE nor Tech basketball coach Gene Gibson, however, seems too worried about the distant future. Most of their attention is currently focused on the SWC cage race, a title chase in which Haggard figures prominently if Tech is to be a con-

tender.

"Jerry's an inspiration to the team," says Gibson. "Off the court he's an ideal young man, the kind you want all your sons to be like. And on the court, he's one of the fiercest competitors you'd ever want to see."

After 10 games, Haggard, the team's captain, is also the squad's scoring leader with 132 points. His 28 or 33 free throws gives him an 84.8 per cent in a category in which the senior guard has always performed well. Last season he hit 86.7 per cent of his charity shots, but it was his 27 point output against Texas A&M one year ago that affords fondest memories.

Haggard expressed his hopes for a successful cage season, saying, "There's nothing better than winning the conference championship. The way we've been playing, we might just fool around and do it."

IF HAGGARD excels in basketball, he's near-perfect in baseball. Tech's baseball coach Kal Segrist calls him "mentally and attitudewise, a complete athlete."

"Jerry's quickness, speed and good attitude have been his greatest assets," says Segrist, "and he makes the most of his physical abilities. Any-

body with these qualities has to be a very valuable member of any team."

Aside from his selection as the conference's foremost second baseman, Haggard has won other baseball honors including being named most valuable player in the National Baseball Congress semi-pro state tournament.

AFTER GRADUATION, if the chance arises, the 160 pounder would like to try his hand in the professional ranks. Tech's baseball mentor, an ex-major leaguer himself, thinks the prospects are promising.

"If Jerry can overcome one or two of his few faults, then with his desire he should definitely get an opportunity to play pro ball," Segrist said. "If he has another good year, I don't see how he could be ignored."

Segrist pointed out Haggard's lack of size as a probable handicap, but added, "Jerry's the type who, when he really wants something, usually gets it."

HAGGARD IS optimistic of his chances, saying, "If I have a good year, maybe some offers will follow."

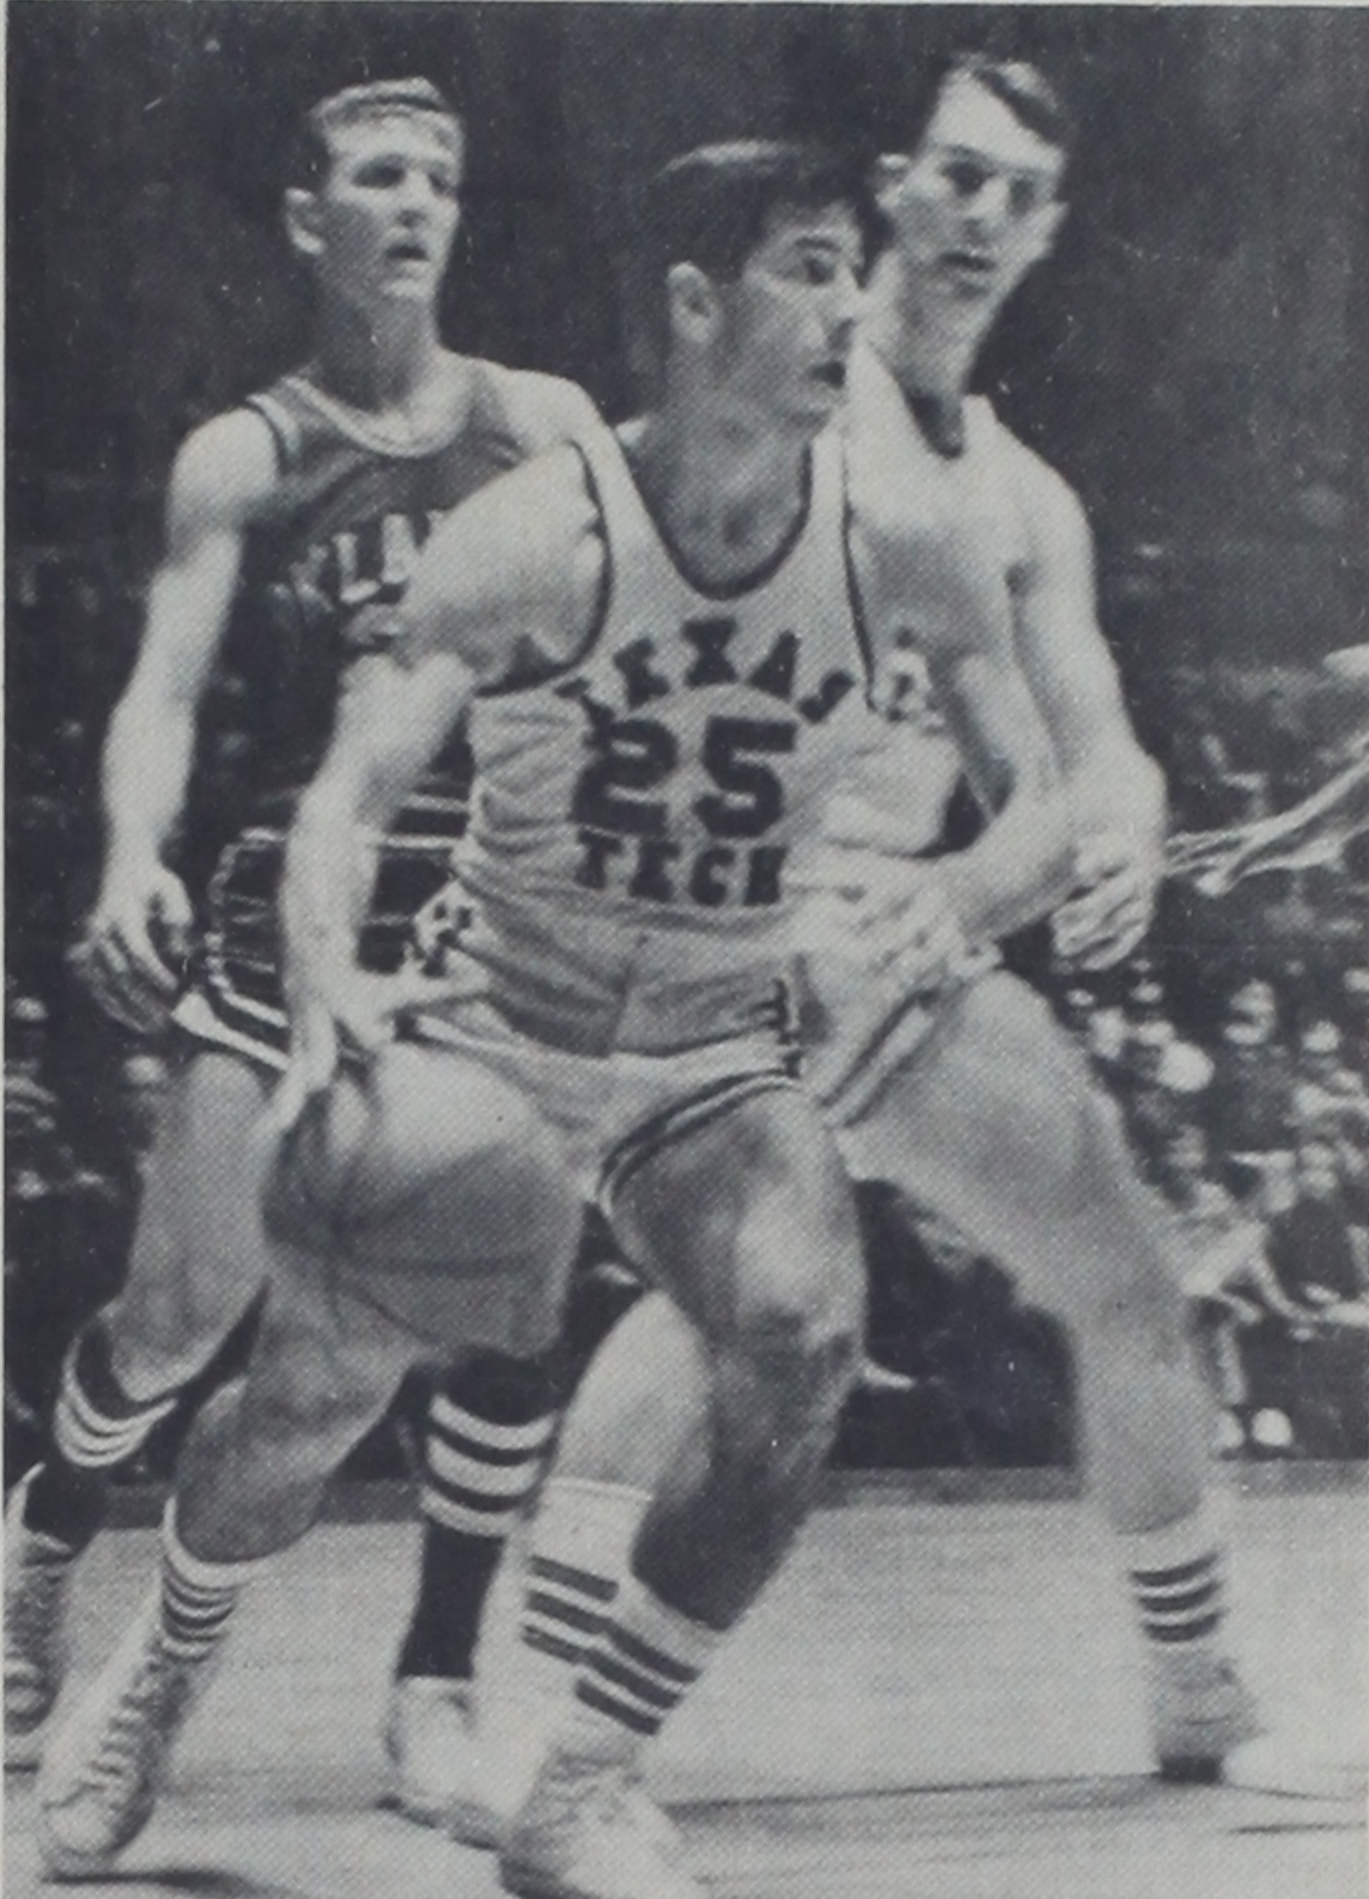

Another year like his last one should do it.

In 66 trips to the plate in 1968, the Raiders' initial Southwest Conference campaign, Haggard compiled a batting average of .333, tenth among the circuit's hitters. Included in his 22 hits were four doubles, a homerun and seven runs batted in.

HIS PERSONAL goals? Haggard said, "I'd like to make all-conference in both sports." He thought about it a moment, then added, "Yes, that'd be pretty nice."

TOUGH RUNNER—Haggard, last year's first against Abilene Christian College. He compiled team all-conference second baseman, slides into a .333 batting average in 1967 SWC play. third base ahead of the tag in a 1967 game

AGGRESSIVE BALL-HANDLER—Team captain Jerry Haggard was honorable mention all-conference last year as a junior. This year, as the lone healthy senior on the squad, he leads all Tech scorers with 132 points for a 13.2 average in ten games.

## Penn State's grid boss named coach of the year

LOS ANGELES (AP) — Joe Paterno of Penn State was named College Football Coach of the Year today in the University division and Jim Root of New Hampshire was awarded the honor in the College division.

The selections were announced at the convention of the college coaches held in conjunction with the annual NCAA meeting.

PATERNO who only Wednesday rejected an offer to become coach of the Pittsburgh Steelers

in the National Football League, guided his Penn State Lions through an unbeaten season of 10 games climaxed the campaign by defeating Kansas in the final seconds of the Jan. 1 Orange Bowl game, 15-14.

He has been coach at Penn State for the past two seasons but had been assistant under Rip Engle there for more than a decade.

ROOT directed New Hampshire to a 6-2 season in his first year at the New England college. He previously had

served as backfield coach at Tulane, Miami of Florida, Dartmouth and Yale. He is a graduate of Miami of Ohio, often called the cradle of coaches.

Paterno led Penn State to the No. 2 national ranking, without a great passing quarterback although he is known as a magician who has nurtured undistinguished sophomores into winning quarterbacks.

Penn State quarterbacks are not always great passers or great runners, but they do one thing well—they win.

# Walker, Dill lead first round of Los Angeles golf tourney

LOS ANGELES (AP) — Unheralded Jimmy Walker, Jr., and Terry Dill registered four-under par 67s Thursday to share an early lead in first round play in the \$100,000 Los Angeles Open Golf Tournament.

Walker, 30, from Los Angeles, an early finisher, carded 32-35-67 and Dill, 29, from Austin, Tex., had 34-33-67 over the par 36-35-71 Rancho Park Municipal Golf Course.

BILLY CASPER, the defending champion, playing what he called a "Scroungy round," had 34-35-69 and was deadlocked with several other pros.

Palmer, playing his first competitive golf since the Hawaiian Open in November, took a 37-35-72 and said, "I thought I'd do better, especially after yesterday."

Palmer had a 69 individual score in Wednesday's pro-am round.

BRUCE Crampton shot 33-35-68 while the 70 division was crammed with players, including Ken Still, 37-33, and a former winner of the tournament, Phil Rodgers, also with 37-33.

Dill had four birdies and nary a bogey. He had a pair of six-foot birdie putts on the first

nine, and a 15-footer and two putts from 60 feet on the back side.

WALKER playing what he said was his finest tournament round since he turned professional in 1962, banged out five birdies on the front nine. He had a bogey six on No. 8 when he landed in a trap, blasted out over the green and chipped back 20 feet from the cup.

Casper said he missed several short putts "but I was lucky and some long ones," one birdie putt traveled 40 feet and others dropped in from 30, 15 and 12 feet.

GERALD COPPEDGE

# Coppedge molds freshmen into varsity performers

By STEVE EAMES Sports Staff

up a great part of his daily routine.

Coaching is life to Gerald Coppedge, head of the Tech freshman basketball squad, "I don't know what I would do but coach," says the veteran of four successful Picador teams in as many years.

Dealing with people supplies his challenge. Breaking the habits of inexperienced players and teaching them to think as he thinks and play as a team makes

Every year Coppedge faces a new group with little idea of what their strengths and weaknesses might be. He must mold a team from players who have never been together.

IN EACH DAILY two hour workout, Coppedge coaxes and pushes his team to learn the basics of the game. Though he is naturally concerned with winning, the main purpose of

his program is to teach the various offenses and defenses, and to have his players learn them well. "Everything they learn is new," according to Coppedge.

Another problem of coaching the freshman squad stems from not knowing what to expect of opponents. "Usually we see a team for the first time the night we play them, sometimes we know a little from newspaper accounts," says Coppedge.

Yet Coppedge worries about the academics of the team. "I try not to tire them out so badly that they won't be able to study when they get back to the dorms. Freshmen need to develop study habits," Coppedge said.

PLAYERS RARELY are forced to miss classes more than two or three times a year. With only twelve games a season, a conference limit, the freshman has time to adjust to campus life, says Coppedge.

This year, the Picadors sport a close working team. As the players are fairly equally matched, competition for starting places is high.

Mike Rogers, Jack Pierce, and Lance Morse are the three Pics on scholarship. Danny Powell and Leslie Hansen have both started and could develop nicely according to Coppedge.

IN THE THREE YEARS under Coppedge's tutelage, the Picadors have compiled a 29-5 mark. In 1965 the group took seven wins to five losses. The following year the Pics lost only two of their twelve games and went undefeated last season.

Coppedge, who does limited recruiting for Red Raider basketball, was an assistant coach under Ralph Tasker at Hobbs, New Mexico for four years during which period the team played in the state finals three times.

Coppedge played football and basketball at Western New Mexico. He received his M. Ed. at Tech in the spring of 1957 and is now a fulltime physical education teacher at Tech.

## 'Pistol Pete' Maravich holds scoring leadership

NEW YORK (AP) — Pete Maravich of Louisiana State, who again leads the nation's big colleges in scoring, is shooting less often than last year but hitting more often and so may smash his 1967-68 basketball scoring record.

In nine games so far he has averaged 46.3 points a game, compared to 43.8 the previous season, which set a major college mark.

However, the 6-5 junior, at 180, ten pounds heavier than a year ago, has averaged only 37.1 field goal attempts a game as compared to 39.3 last season. His total points of 417 put him well ahead of Calvin Murphy of Niagara, who has 342 also in nine games for an 38.0 average.

RICH MOUNT of Purdue, who has 350 in 11 games for a 31.8 average, is tied for third with Spencer Haywood of Detroit, the sensation of the victorious United States basketball team at the recent Mexico City Olympics. Haywood has 318 points in 10 games for a 31.8 average.

Following the leaders come Bob Tallent, George Washington, with an average of 29.1; Marvin Roberts, Utah State, 28.0; Rich Travis, Oklahoma

City, 28.0; Ed Studut, Holy Cross, 27.6; Bob Portman, Creighton, 27.5; and Edward Webster, St. Peter's, 27.5. Lew Alcindor of UCLA is 11th with 240 points and an average of 26.7.

Al Krobth of Citadel leads in field goal percentages with .705; Dan Davis of Northwestern tops the free throw leaders with a perfect 1,000-31 made in 31 attempts; and Haywood of Detroit leads in rebounds with an average of 23 a game.

## Simpson hires financial liason as draft nears

LOS ANGELES (AP) — O. J. Simpson, the University of Southern California's flashy running back and 1968 Heisman Trophy winner, has acquired a business manager.

Simpson announced Thursday he has signed with Sports Headliners, Inc., of Indianapolis, Ind. to handle contract negotiations, investments, taxes, endorsements and personal appearances.

He is expected to be the No. 1 choice in the pro football draft.

## Baseball team inks USC star

LOS ANGELES (AP) — Steve Sogge, star quarterback of the Southern California Trojans, has signed a baseball contract with the Los Angeles Dodgers and has been assigned to the Spokane Indians of the Pacific Coast League.

A Dodger spokesman said Thursday that Sogge, 21, received a bonus. No amount was disclosed.

SPORTS Headliners got the total management contract, Simpson said, because "Chuck Barnes, president, has been a friend of mine for some time."

Simpson said the firm handles the affairs of his close friend and former teammate, Earl McCullough. McCullough is the National Football League's 1968 rookie of the year and plays for the Detroit Lions.

Barnes is a 1953 USC graduate.

## Abernathy sent back to Cubs

CHICAGO (AP) — Relief pitcher Ted Abernathy returned to the Chicago Cubs Thursday in a deal that sent three players to the Cincinnati Reds.

Going to the Reds are a pair of rookies, catcher Bill Plummer and Pitcher Ken Myett plus infielder-outfielder Clarence Jones.

Abernathy, with the Cubs in 1965, had a 10-7 record for the Reds last season.

# Girl recuperates after kidnapping

MIAMI, Fla. (AP)—Barbara Jane Mackle has fully recovered from the harrowing 80 hours she was buried in a kidnaper's coffin, but she won't return to school until spring. A spokesman for the family of the pretty brunette-abducted and ransomed for \$500,000 last month—said Thursday Barbara had regained most of the 10 pounds she lost in the ordeal.

"SHE'S RECOVERED fully now and is in good spirits," said John Bonner, an executive in the Florida land company headed by Barbara's multi-millionaire father, Robert, and his two brothers.

Barbara, 20, was preparing to come home to Miami for the Christmas holidays from Emory College in Atlanta, when she was kidnaped by an armed man and woman.

At Emory, where Barbara was a junior majoring in economics, a spokesman for the re-

## Tanzania witch roundup urged

DAR ES SALAAM, Tanzania (AP)—V. S. Kihyo member of Parliament speaking in debate on resettlement centers for offenders, urged a roundup and confinement of witches and wizards. He contended they menace Tanzanian development by driving people from their villages with threatening incantations.

## Club enters fair

The National Collegiate Association for Secretaries voted Wednesday to enter the Organization Fair to be held January 29-31. Janelda Hays was chosen to represent the club at the meeting for International student Affairs.

It was also announced that the Executive Council will meet Jan. 29 at 5 p.m.

# End to weevil problem predicted

NEW ORLEANS (AP)—Complete eradication of the boll weevil was predicted for the near future here Thursday by a Mississippi entomologist.

"I'm convinced that we can expect research findings in the near future that will provide the means for complete eradication of the boll weevil," Mississippi Extension Entomologist David F. Young told the Beltwide Cotton Production-Mechanization Conference.

He described a fall reproduction-diapause control program carried out by farmers in Monroe County in East Mississippi and in Sharkey County in the southern part of the Mississippi Delta. It resulted in a marked reduction in boll weevils surviving the winter and in the number of insecticide applications needed the following season.

THE SHARKEY County demonstration involved 4,000 acres and that in Monroe County included 4,000 acres and 79 farmers.

Serious thought is being given to involving the entire state of Mississippi in a boll weevil reproduction - diapause control program in 1969, the entomologist said. The program was stepped up to 51,200 acres in the fall of 1968, with increases in Sharkey and Monroe Counties and addition of acreage in Issaquena, Clay, DeSoto, and Tunica counties.

Another speaker said the "reproduction - diapause" approach will permit cotton farmers to cut boll weevil costs from 30-50 per cent.

DR. EDWIN P. Lloyd stressed, however, that collective action is essential to the program which involves fall application defoliation and stalk destruction.

Dr. Lloyd is with the Agricultural Research Service, U.S. Department of Agriculture and is headquartered at the Boll

TROPHY WINNER—Margie Cope receives the trophy which Zeta Tau Alpha Sorority won in a food collection drive sponsored by Phi Kappa Psi fraternity. Tech sororities participating in the contest collected 4,000 pounds of food to be distributed by the Salvation Army, with the Zetas bringing in 1,300 pounds. Presenting the award is Fred Wilkerson of the sponsoring group. (Tech Photo)

# Education expected to boom in next 12 years, survey says

AUSTIN (AP)—Higher education is already the largest industry in Texas and it promises to double in the next 12 years, the Coordinating Board for the Texas College and University System reported Thursday night.

The board, of 18 members, completing a three-year survey of Texas education, presented its report to legislative and executive leaders of Texas.

"The average citizen has no idea of the magnitude of higher education," Board Chairman John Gray of Beaumont said. "Although higher education is already the largest industry in Texas, it promises to double in the next 12 years. Enrollment in public colleges and universities will increase by 102 per cent, and private institutions will grow by 34 per cent."

Gray said enrollment in higher education facilities will increase from 375,000 in 1969 to 707,800 in 1980.

To care for this growing mass of student population, Gray said, will take by 1975, a total of \$401,400,000 in federal, state and local funds for additional public facilities, and about \$404 million in state funds annually for educational programs.

The blueprint for progress outlined by the board used three basic points in its plan. It is designed to care for the rapidly increasing growth in enrollment, while providing a rising level of excellence in higher education, in the most efficient and effective methods possible.

The blueprint divides the higher education system in three component groups—community junior colleges, senior colleges with program expansion possibilities through first-level graduate offerings, and complex universities with program jurisdiction over doctoral-level graduate work and post-baccalaureate education for the professions.

The board recommended creation of 53 community junior college regions, each an area where most of the community junior college students will come and where at least one junior college district is feasible during the next 20 years.

The board also recommends creation of six new senior colleges—in San Antonio and Houston and upper-division colleges in Midland-Odessa, Corpus Christi, Dallas, and Houston.

Other senior college recommendations call for stabilization of enrollments in existing institutions and acceptance by the University of Texas System board of regents of the Southwest Center for Advanced Studies in Dallas.

The coordinating board recommends establishment of new medical schools in Houston and Lubbock, and increased enrollments at existing facilities.

Establishment of a new dental school at San Antonio was recommended along with state help in expansion of Baylor University College of Dentistry to ease the problem of too few dentists.

Weevil Research Laboratory, Starkville, Miss.

Objective of the reproduction-diapause approach, according to Dr. Lloyd, is to reduce the weevil population low enough so the progeny of survivors will not reach damaging numbers until the second or third generation in the subsequent crop season.

THE PROGRAM offers other benefits in addition to substantial savings in insecticides. By reducing overwintered populations so damaging numbers of weevils do not develop until August, a long insecticide-free period is permitted. This facilitates natural control of boll-worms and spider mites since their predators and parasites otherwise would be killed. Fewer applications also lessen the likelihood of a buildup in resistance to insecticides.

"Often little or no insecticide need be used when proper cultural control is practiced by everyone in a community," a leading authority on the control of the pink bollworm emphasized at the conference.

The group is made up of a producer chairman from each cotton state, producer officers of the council, and producer members of the council's board of directors.

# Vast knowhow to follow first moon landing crew

SPACE CENTER, HOUSTON (AP)—The astronauts who will make the United States' first landing on the moon are a pair of hard-luck guys and a Ph.D. who backed up his scholarship with action.

Neil Armstrong, a civilian who will command the moon flight later this year, Air Force Lt. Col. Michael Collins, command module pilot, and Air Force Col. Edwin E. Aldrin Jr., lunar module pilot, are space-flight veterans. Each flew missions during the Gemini program and each is 38 years old.

only hours after launch.

THE PILOT'S reflexes saved him from a sure death only last year when a lunar landing training aircraft lost power and fell during a routine flight at Ellington Air Force Base here. Armstrong ejected, and was slightly injured when his parachute dragged him over the ground.

Collins was assigned as command module pilot on the Apollo 8 flight, man's first around the moon, but doctor's last June discovered a growth on his spine. He was dropped from the crew, underwent surgery and wore a neck brace for three months. He was spacecraft communicator for the Apollo 8 mission.

Aldrin, who will be 39 this month, graduated third in a class of 475 at the U.S. Military Academy in 1951. He later attended the Massachusetts Institute of Technology and received a doctor of science degree in astronautics in 1963.

HIS THESES was on rendezvous of spacecraft in orbit. Aldrin put his theories to work on Gemini 12 in 1966 when a radar device went out and the rendezvous was accomplished using on-board computations.

Aldrin also set a record for "space walking" on the Gemini 12 flight. He spent more than five hours outside the spacecraft during the four-day mission.

Collins is also a space-walk veteran. He was pilot on the three-day flight of Gemini 10 in 1966 and twice left the spacecraft to walk in space.

ARMSTRONG WAS the first civilian to fly in space and is one of the few non-military pilots in the space program. The blond, blue-eyed Wapakoneta, Ohio native flew 78 combat missions in Korea as a Navy aviator, but left the military in 1952. He joined a government flight research program in 1955 as a research pilot and flew the X-15 rocket plane to over 200,000 feet.

Collins, a graduate from West Point in 1952, was born in Rome, Italy, the son of an Army major general.

He chose the Air Force after graduating and became a test pilot.

Aldrin, a Montclair, N.J. native, received his jet pilot's wings in 1952 during the Korean war. He flew 66 combat missions and was credited with destroying two enemy Mig 15 aircraft.

ALDRIN, WHO has blue eyes and thinning blond hair, was assigned to the Air Force field office at the Manned Spacecraft Center and later was accepted as an astronaut.

Collins and Aldrin were selected with the third group of astronauts in 1963. Armstrong was named with the second group, announced in 1962.

Armstrong's wife is the former Janet Shearon of Evans-ton, Ill. They have two sons, Eric, 11, and Mark, 5.

Aldrin is married to the former Joan A. Archer of Ho-Ho-Kus, N.J. and has three children, J. Michael, 13; Janice, 11, and Andrew, 10.

Collins married Patricia M. Finnegan of Boston. They have two daughters and a son, Kathleen, 9; Ann, 7, and Michael L., 5.

All three live in Houston suburbs near the Manned Spacecraft Center.

THE TRIO WAS named Thursday by the National Aeronautics and Space Administration as the crew of Apollo 11 mission, scheduled to land on the moon about mid-summer.

Armstrong narrowly escaped tragedy on his only spaceflight. He was commander of Gemini 8, the 1966 spaceflight which ended only a few hours after it began with one of the most harrowing experiences of any of the U.S. space flights.

The spacecraft successfully linked up with a rocket in orbit but then suddenly went out of control, spinning wildly through space as a rocket thruster locked open.

Armstrong fought the spacecraft back into control and landed it safely in the Pacific Ocean.

## More about Newsmen testifying

Some radio newsmen indicated before they entered the chamber that the defense was concerned about publicity on Sirhan lawyer Grant B. Cooper's recent defense of a client accused in a card cheating case.

Cooper was questioned by a federal grand jury as Sirhan's trial opened about how he obtained secret transcripts in the card cheating case.

THE DEFENSE apparently was concerned that publicity about the federal grand jury questions adversely influenced prospective Sirhan jurors.

Two of the persons who were subpoenaed to testify secretly weren't newsmen. One was attractive blonde Diana Smith, secretary for a broadcast audience rating service.

The other was Dean West who operates a private radio and television monitoring service at his Hollywood home.

Although Miss Smith waited about an hour, she was not called into the chamber to testify. She said she was finally excused, and added: "I'm very happy about that."

ARMSTRONG WAS the first civilian to fly in space and is one of the few non-military pilots in the space program.

THE PILOT'S reflexes saved him from a sure death only last year when a lunar landing training aircraft lost power and fell during a routine flight at Ellington Air Force Base here. Armstrong ejected, and was slightly injured when his parachute dragged him over the ground.

Collins was assigned as command module pilot on the Apollo 8 flight, man's first around the moon, but doctor's last June discovered a growth on his spine. He was dropped from the crew, underwent surgery and wore a neck brace for three months. He was spacecraft communicator for the Apollo 8 mission.

Aldrin, who will be 39 this month, graduated third in a class of 475 at the U.S. Military Academy in 1951. He later attended the Massachusetts Institute of Technology and received a doctor of science degree in astronautics in 1963.

HIS THESES was on rendezvous of spacecraft in orbit. Aldrin put his theories to work on Gemini 12 in 1966 when a radar device went out and the rendezvous was accomplished using on-board computations.

Aldrin also set a record for "space walking" on the Gemini 12 flight. He spent more than five hours outside the spacecraft during the four-day mission.

Collins is also a space-walk veteran. He was pilot on the three-day flight of Gemini 10 in 1966 and twice left the spacecraft to walk in space.

ARMSTRONG WAS the first civilian to fly in space and is one of the few non-military pilots in the space program.

## Here's more about

# Coed's body found

WHITE WAS the son of Mr. and Mrs. Jack White. The father is a law partner of Corpus Christi Mayor Jack Blackmon. He was valedictorian of his graduating class at Corpus Christi Ray High School. He volunteered for a year in Micronesia in the Peace Corps.

He loved water sports and was an avid beach surfer. A camera found near the body was an underwater camera given him by his parents at Christmas.

White, a junior psychology major who wanted to be a lawyer, and five other students operated a cooperative dormitory in an old two story house near the campus.

White's body was taken to Corpus Christi Thursday where funeral services are planned today at 3 p.m.

# Astronauts receive service medal

WASHINGTON (AP)— President Johnson, leading the capital's tribute to the Apollo 8 astronauts, said Thursday they "represented all mankind" in their historic voyage around the moon.

The space trio received medals from the President in a White House ceremony and standing ovations from a joint

meeting of Congress where Air Force Col. Frank Borman described the Apollo mission as a "triumph of mankind."

TODAY the astronauts go to New York for a traditional ticker tape parade reserved for the nation's heroes.

Johnson decorated Borman, Navy Capt. James A. Lovell,

Jr., and Air Force Lt. Col. William A. Anders with the Distinguished Service Medal of the National Aeronautics and Space Administration.

He called them "history's boldest explorers" and said they had "blazed a new trail for mankind out into the vastness of extraterrestrial space."

FROM THE White House, the astronauts motored to the House of Representatives where members of the Senate and House, the Cabinet and the Supreme Court cheered the smiling astronauts who were dressed in civilian clothes.

Borman, Lovell and Anders shook hands with Vice President Hubert H. Humphrey and Speaker of the House Rep. John W. McCormack, D-Mass., who introduced them to Congress as "three brave men who have made a notable contribution to our understanding of the exploration of space."

"You are looking at three very grateful and three very humble Americans," he said.

Borman said they had often been asked what was the most unforgettable impression of their flight.

"I THINK the one overwhelming emotion that we had," he said, "was when we saw the earth rising in the distance over the lunar landscape. It makes us realize that we all do exist on one small globe. For from 230,000 miles away it really is a small planet."

Borman paid tribute to Congress for having provided the funds that made the space program possible and said the astronauts "look to you" for the future.

He said that within months man will land on the moon "and within a few years we may have international laboratories there."

IN A JOKING mood, Borman said one of the little noted achievements of the Apollo flight was that "we got good

# Casualties decline since peace talks

SAIGON (AP)—The latest weekly casualty toll disclosed Thursday that 7,693 American servicemen have been killed in action since the United States and North Vietnam opened preliminary peace talks in Paris May 13.

The U.S. Command announced 101 Americans were killed and 599 wounded last week, the lowest casualty figure since the week of Oct. 13, 19, when 100 were killed and 589 wounded.

U.S. and South Vietnamese figures showed that 9,020 South Vietnamese servicemen and 83,280 enemy soldiers were killed since the Paris talks began.

THE SWEET through the 250 square miles of swamp and timber near the southern tip of South Vietnam killed 467 enemy soldiers but mostly contact was light, a spokesman said. The drive opened Dec. 22. Ninety Viet Cong were captured.

The government claimed it lost a total of 24 killed and 82 wounded in the operation.

The army said it destroyed an information center, a 100-bed military hospital, a training center, 11 prisons, a theater, three medical dispensaries, 16 plants where weapons and ammunition were made or repaired and 180 barracks.

SINCE SOUTH Vietnam's delegation left for Paris Dec. 7 and while negotiations have been stalled by wrangling over procedure, 587 American and 821 South Vietnamese have been killed in action.

South Vietnamese headquarters reported 150 government troops were killed and 602 wounded last week, a sharp drop from the 279 killed and 901 wounded the previous week. The allied commands said 1,846 enemy troops were killed last week, compared with 2,135 the week before.

MILITARY officials said the type of equipment seized indicated that the army had come across the main supply center for the Viet Cong in the forest.

In Paris, a spokesman for the North Vietnamese delegation said a statement by President Nguyen Van Thieu of South Vietnam showed Saigon wanted the war prolonged.

He referred to Thieu's remark that as long as the Viet Cong's National Liberation Front demanded a four-sided conference the South Vietnamese would refuse to participate.

THE DECLINE in casualties reflected the recent battlefield lull that has persisted despite more than 100 allied sweep operations designed to force the enemy to fight.

North Vietnamese and Viet Cong troops are reported re-equipping in sanctuaries in Cambodia or nearby in South Vietnam. Allied sweeps also are designed to upset the Com-

The latest casualty figures brought the U.S. toll since Jan. 1, 1961, to 30,644 killed, 192,926 wounded and 1,238 missing or captured.

# SAO circulates petition for inauguration 'study-in'

Members of the Student Action Organization are circulating a petition requesting a library "study in" Jan. 20 in conjunction with the inauguration of president elect Richard Nixon.

The purpose of the demonstration, according to SAO president David Sanders, is twofold: first, to create awareness and involvement, and

second, to provide relaxation from finals.

"Demonstrations of this type all over the United States, with an especially large one in Washington, D.C.," Sanders said.

"Actually, it's more of a 'be in,' allowing students to express their opinions."

Issues to be attacked at the study-in include ending the Vietnam war, the poverty problem

and the racial situation. Another petition containing demands on these issues will be drawn up and probably sent to Nixon.

When the original petition has around 200 names, it will be sent to Ray C. Janeway, Tech librarian. With Janeway's permission, the group hopes to hold the demonstration in the library foyer. Local folk singers will provide entertainment,

MCCORMACK also presented the families of the astronauts to the joint meeting of Congress. They rose from their seats in the gallery and the astronauts joined the Congressmen in applauding them.

Borman introduced his fellow Apollo 8 crew members, and then, speaking for the, said nothing they experienced on their flight was "as awe-inspiring as the events of this moment."

He said that within months man will land on the moon "and within a few years we may have international laboratories there."

# Members of SOUL talk with Caskey

Officers and representatives of SOUL (Students Organization for Unity and Leadership) met Wednesday with Dr. Owen L. Caskey in the first of several informational meetings.

Dr. Caskey, vice-president for student affairs, said the purpose of the meetings is to acquaint students with the activities of the institution regarding some of the points presented to him in December.

Dr. Caskey reported actions by the school on some of the points and made arrangements to look further into others.

He explained that some of the points are not solely up to Tech. An example of this is the request to recruit more African students.

Officials of the college have been in contact with an international organization which places African students in American universities. The organization replied that there are no African students available at this time for Tech.

Dr. Caskey stressed a willingness to work with SOUL representatives and a desire for suggestions from the group.

# Recipient dies as transplant fails to take

HOUSTON (AP)—A Nebraska lathe operator who received a new heart on a transplant performed July 23 died Thursday.

A St. Luke's Episcopal Hospital spokesman said Henry W. Jurgens, 57, of Beatrice, Neb., "died of apparent rejection."

"The exact cause, however, will not be known for another 24 hours," the spokesman said.

Jurgens received the heart of a 16 year old Houston youth who had received severe brain damage in an automobile collision. He was the seventh recipient among the 17 transplants performed since May 3 by a St. Luke's team headed by Dr. Denton A. Cooley. Three recipients survive.

A Methodist hospital team headed by Dr. Michael E. De Bakey has performed 10 transplants since Aug. 31.

**Teachers demand negotiated contract**

**Strikes continue at San Francisco State**

SAN FRANCISCO (AP) — The factions which have rent the once peaceful campus of San Francisco State are locked in a struggle for influence and power, and few observers here are willing to predict the outcome.

**UFO's no threat Scientists conclude**

WASHINGTON (AP) — After a two-year study that cost \$500,000, a group of scientists concludes that "further extensive study of UFO's probably cannot be justified" scientifically. It finds "no direct evidence whatever of a convincing nature for the claim that any UFO's represent spacecraft visiting earth from another civilization."

The formal report of the study of Unidentified Flying Objects by University of Colorado scientists, commissioned by Air Force, was released Thursday. It runs 1,485 pages, in three volumes.

THE REPORT was approved unanimously by a panel of National Academy of Sciences specialists appointed at Air Force request to review it in a "further independent check."

The Colorado group, headed by Dr. Edward U. Condon, made no pretense its reports would kill off the controversy over "flying saucers." It acknowledged there are scientists and others who wish to keep an open mind about the matter.

On the other hand, it said some school children are being "educationally harmed by absorbing unsound and erroneous accounts" about UFO's, and recommended that teachers quit giving credit to students for reading books and articles about the subject. The Air Force released the report without comment.

SINCE 1947, the Air Force's Project Blue Book has been investigating UFO reports,

will have to be shut down for two years to phase out all the protesting parties," says a member of the American Federation of Teachers, which went on strike this week.

MEANTIME police daily stand nose to nose with scream-

ing strikers. At the center of the uproar of the 18,000-student campus is the Black Students Union. The BSU calls the shots. It is the most vocal. It is dead certain it knows what it wants.

The Third World Liberation Front of non-white non-black minorities has clearly tied its star to the black group.

The striking teachers are demanding a negotiated contract, plus implementation of the striking students' 15 demands. The union claims 400 members, the school administration says 229.

THESE organizations embrace all the 12 groups supporting the strike. They feel they are locked in a kind of war against what they regard as a racist institution and an estab-

lishment bureaucracy that frustrates the aspirations of minority persons. They demand "relevant education to meet the needs of the minorities."

"Close it down!" they cry over and over.

They equate the "establishment" with Republican Gov. Ronald Reagan, who has vowed to keep SF State open even "at the point of a bayonet."

They call the celebrated semanticist, S.I. Hayakawa state's acting president, a "puppet" of Reagan and daily heap on him the most obscene abuse.

THE BSU, WHICH claims an enrollment of all 836 Negro students on campus, currently is being led by hardliners Jerry Varnardo, Leroy Goodwin and Benny Stewart. Regarded as the leading moderates are Jack Alexis and Nesbit Crutchfield.

A struggle for power among them surfaced during the last days of the school's former president, Robert Smith, when student-faculty convocations were held in fruitless attempt to solve the campus crisis.

During one session, Alexis and Crutchfield spoke for the BSU, trading theories with Smith and other faculty leaders in an auditorium crowded with 800 students and teachers.

THE NEXT DAY, Alexis and Crutchfield were displaced by hardliners. Smith was called

**Ethiopian statue taken years ago returned home**

ROME (AP) — The Lion of Judah statue seized from outside the palace of Ethiopia's Emperor Haile Selassie by Mussolini's Fascist legions a generation ago is being returned in a freighter bound around Africa to be erected once more in Addis Ababa.

When brought to Rome, the big crowned bronze was displayed as a prize of war but after World War II was hidden away from any diehard Fascists seized with ideas. It was retrieved from a municipal storehouse after Selassie, the reigning "Lion of Judah" since 1930, asked for its return.

**Pueblo crew faces extension of duty**

SAN DIEGO, Calif. (AP) — The Navy says it is considering extending the enlistments of 22 Pueblo crewmen to keep them in the service until a court of inquiry completes its investigation of the ship's seizure by North Korea.

The enlistments expired while the men were in captivity. Their enlistments already have been extended 30 days—dating from their arrival in the United States on Dec. 23 after 11 months' captivity—but this is the maximum extension permitted for "administrative and medical purposes."

To be kept past Jan. 23, the 22 crewmen—who represent more than a quarter of the intelligence vessel's 82-man crew—either must reenlist or be made parties to the court of inquiry.

At present only one person

has been named a party to the court—the Pueblo's skipper, Cmdr. Lloyd M. Bucher. But a Navy spokesman said Thursday that all 22 may be named.

The court of inquiry, expected to convene in two to three weeks, may subpoena anyone to testify, military or civilian.

The Navy has not said whether it actually will take testimony from all 82 crewmen, but presumably wants them available.

While under extension, crewmen receive 25 per cent higher pay.

All the crewmen continue to undergo debriefings at the naval hospital here.

Originally expected to last about two weeks, the debriefings apparently have been prolonged by Cmdr. Bucher's weak condition.

# Karami assails Israeli attacks

BEIRUT, Lebanon (AP) — Premier-designate Rashid Karami said Thursday he will give Israel no excuse for attacking Lebanon. But Israeli Defense Minister Moshe Dayan warned in Jerusalem that Arab guerrilla bases on Lebanese soil are open to assault.

Karami told a news conference Israel was using guerrilla activities as a pretext for attacking its neighbors and added: "we will give them no pretext."

But he defended what he cal-

led the right of Palestinian guerrillas to defend their own land. "I do not think anyone can say that that is not their right," he said.

ASKED WHETHER Lebanon would permit Arab guerrillas to operate from its soil he said Beirut will not provide Israel an excuse for mounting an attack, but declared no one can expect Lebanon to act as policemen for the Israelis.

In Jerusalem, Dayan said Israel "cannot tolerate a situation

whereby we are forbidden to hit the sabotage organizations across the border while they are permitted to operate against us."

"We regard each Arab government as responsible for the acts of these organizations, and we have the right to deal them blows in their own territory," he said.

PRESIDENT CHARLES Helou of Lebanon asked the 47-year-old Karami to form a government to succeed that of Ab-

dullah Yafi which resigned Tuesday as a result of unchallenged command against Beirut International Airport Dec. 28.

"I THINK it is wrong to say Lebanon is neutral in the Arab-Israeli conflict because the threat is against us as against all Arab states. Israel's policy is one of expansion and aggression."

Karami, who led an Arab Nationalist uprising there in 1958 which led to the landing of U.S. Marines to keep the peace, has

been regarded as more a hawk than a Yafi.

His latest statement, however, suggested that while Lebanon would continue to give Arab guerrillas moral support it would be unwilling to court reprisal raids by permitting them to use this country as a base.

Newspapers in Tel Aviv said Prime Minister Levi Eshkol urged President Helou asking him to clamp down on Arab guerrillas, but the letter was rejected as improperly sent.

# Ill or not, Norther swallows area cost too high in nippy weather, clouds

GRAND JUNCTION, Colo. (AP) — The Grand Junction rescue squad answered a call just outside the city limits from a woman who had become ill.

When the squad arrived and informed her there would be a \$20 charge for a trip to the hospital, she told the crew to forget it; she wasn't that ill.

When she called a taxi which took her to the hospital for 90 cents. Her diagnosis apparently was correct; she was not admitted.

A cold front continues to spread over the Lubbock vicinity and the remainder of Texas with cloudy skies and brisk winds.

The forecast for Lubbock and the surrounding area includes cloudy skies with a high today of 40 degrees and winds from 5-15 miles per hour.

Norther spread a chill over Texas Thursday. Brisk north winds fanned Central and East

Texas from the Red River to the Gulf.

The cold front dropped temperatures to drop near 20 degrees in the Panhandle, about 40 for the central plains and 50 along the coast.

FORECASTS called for colder weather Thursday night, but a warming today to the 50s in the north and the upper 60s in the south.
