

HERE THEY ARE: Tech's 1956 class favorites. Left to right, top to bottom, are Norma Chapman and Mary Alice Braselton, senior girl co-favorites; Johnny Jones, senior boy favorite; junior favorites Shirley DuPriest and Clay Cummins; Richard (Wick) Alexander and Mary Sue (Susie) Miller, sophomore favorites; and freshman favorites Jimmy McLaughlin and Pat Rainer. More than 1,500 people — almost twice the number that voted last year — went to the polls yesterday to select their favorites and pick Mr. and Miss Texas Tech for the year. Pictures of the group will appear in the 1956 issue of La Ventana, Tech annual.

Hudson, Carr Win; 2 Favorites Named In Senior Girl Race

By JOAN ABEL

Bill Hudson and Virginia Carr are Mr. and Miss Texas Tech, 1956. The announcement was made today by Tollie Hutchins, election chairman, following a campuswide election yesterday that drew more than 1,500 Techsians to the polls to choose school favorites.

As a result of a tie, Norma Chapman and Mary Alice Braselton have been named co-senior girl favorites. The unprecedented decision was made by Student Body President Glen Cary, who was contacted by phone and told by Hutchins of the tie. Cary was not informed, before making the decision, which girls were involved. A run-off is impossible, due to a recent Tech Supreme Court ruling.

Johnny Jones was elected senior boy favorite. Junior favorites chosen were Shirley DuPriest and Clay Cummins. Susie Miller and Wick Alexander were named sophomore class favorites.

Pat Rainer and Jimmy McLaughlin won freshman favorite honors.

In the Mr. and Miss Texas Tech race, Hudson edged Cary, and Miss Carr defeated Huda Hassen, Ann Collins, Shirley Chapman, Jimmy Faye Maxwell, Gale Hays and Annita Powers.

Hudson, who was student body vice-president last year, is a mechanical engineering major from Port Arthur. He is president of Kappa Sigma social fraternity, and will be general manager of the 1956 Engineering Show. He was Doak Hall president last year.

Miss Carr is vice-president of Pi Beta Phi social sorority, president of Forum, Student Union Hospitality chairman, student council representative, and homecoming chairman. Last year she was junior favorite, Alpha Lambda Delta president, and head girl cheerleader. She was recently among nominees for 1956 Who's Who in American Universities and Colleges. Miss Carr is a speech major from Lubbock.

Miss Chapman, an advertising major from Austin, is Association of Women Students president, a member of Pi Beta Phi Social sorority, and senior class secretary. Miss Braselton, Tri-Delta

After Today: Quiet Presses

This is the last issue of the Foreador this semester. As most of the staff works on a voluntary basis, publishing the paper is considered an extra-curricular activity and, therefore, is suspended during Dead Week and final examination periods, Editor Bob Rooker explained.

The next scheduled issue is January 27.

HAPPILY INSPECTING TECH'S BLARNEY STONE outside the West Engineering building are Mr. and Miss Texas Tech, 1956 — Bill Hudson and Virginia Carr. The pair was chosen in a campus-wide election yesterday.

March Retreat Plans Underway By BSO

Plans for the third annual leadership retreat sponsored by the Board of Student Organizations are underway, Dean James G. Allen has announced.

The retreat will be held at Clouderoft Lodge in New Mexico March 2-4. Letters to all recognized student organizations have been sent requesting names of first and second delegates to the retreat.

Deadline for reservation is Feb. 3, according to Richard Ridgway, retreat chairman. If the quota has not been filled by Feb. 24, organizations will be allowed to send two delegates instead of one, he added.

Purpose of the retreat is to solve any organizational problems the delegates may present. A systematic analysis of a variety of student organization problems compiled from the confidential records of deans of student life in leading colleges throughout the United States will be studied by delegates. Skiing and other winter sports are also on the agenda.

Entire cost for the retreat will be \$22 per delegate. This expense is handled in various ways according to the size of the organization and its budget, said Ridgway.

Sunday Last Day For Show Scripts

All student scripts for the 1956 Varsity Show must be turned in to Show Director Jack Pruitt no later than Sunday it was announced today. None have been submitted to date.

Pruitt has made staff assignments as follows: dance director, Virginia Carr; choral director, Bill Cormack; scenery, Gene Hamby; costumes, Averill Brinkman; ticket sales, Benny Bedford; publicity, Bob Huff; programs, Fred West; secretary, Shirley Chapman; and house manager, Grey Lewis.

Tryouts have been scheduled tentatively for the middle of February, with performances set April 9-11.

A Healthy Step . . .

Congratulations are the order of the day. They go first to Bill Hudson and Gina Carr, brand new Mr. and Miss Texas Tech, whose records of college activities make a person wonder if there really are just 24 hours in each day.

Secondly, hand shakes are in order for nine fine class favorites, and for Tollie Hutchins and his hard-working election committee.

But the real heroes of the day are the 1,507 loyal Techsians who thought enough of their school and their classmates to get out yesterday and vote. With over 7,000 students eligible to cast ballots for their particular favorites, the percentage is still deplorably low. But compared with the 825 who participated in a similar election last year, things are certainly looking better. We've taken a big, healthy step in the right direction.

A very healthy step!

—Alton Slagle

Two Departments Offer Photo Courses

Two departments will offer photography courses during the spring semester. Techniques in Photography will be taught by Preston Gott of the physics department, and Press Photography will be instructed by Miss Marjorie Wightman of the journalism Department.

The new Techniques course has been designed to meet the needs of the departments of advertising art and design, architecture, biology, geology, physics and speech. Weekly exercises will include darkroom and basic camera techniques as well as pictorial techni-

graphy, correction of architectural perspective, toning and reducing, photomicrography, stereophotography, and color processing. New darkroom space for 20 students has been constructed in the Science Building.

Press Photography — essentially a study of photojournalism — will include basic press camera, darkroom and lighting techniques along with a continuing analysis of pictures used in current newspapers and magazines. Assignments in news, action, public relations and picture story techniques will set the pace for the semester's work.

Fee Refund Requires Application

Fall students who paid the activity fee and do not enroll for the spring semester 1956 are eligible to receive a refund of \$6, Techsians were reminded today.

To secure a refund, the student must make application during the first five weeks of the spring semester. He must return his activity book with the application and all spring semester event entries should be intact, said John G.

Taylor, acting auditor.

Students who wish to retain their activity books and do not re-enroll for the spring semester are eligible to attend all events to which the student activity fee entitles the holder, Taylor added.

This ruling of the Board of Directors was approved Dec. 10, on the recommendation of the committee on student activity fee allocation.

TOREADOR

The Toreador, student newspaper of Texas Technological College, is published each Tuesday and Friday on The campus at Lubbock by the associated students of the College, and financed by student activity fees, advertising, and subscriptions.

PAT DORSEY

Pat Dorsey Named December Princess

Sigma Nu Social Fraternity elected Pat Dorsey, freshman from Lubbock, as its December White Rose Princess.

Pat, who will be a candidate for the White Rose Queen, was presented with a dozen red roses and one white rose at the Sigma Nu annual Christmas party.

Other White Rose Princesses are LuAnn McNeil, October, and Mrs. Sylvia White, November.

Avery Heads Vets

Don Avery, agriculture sophomore, will head Tech Vets next semester. Other officers named at last Thursday's meeting of the campus veteran's organization are Walter Johnson, vice commander; John Johnson, secretary; Don Brown, treasurer; Alton Slagle, reporter; and E. M. Smith, sergeant-at-arms.

The club, one of the largest on the campus, is open to any veteran enrolled at Tech. Meetings are held at 8 p.m. each Thursday in C101.

SORORITY PLEDGES HAVE ANNUAL PARTY

The Kappa Kappa Gamma pledge class held its annual "Peppermint Party" Saturday at the home of Mrs. George C. Miller.

Pledge classes from all other sororities on the campus came at half hour intervals from 1 to 6 p.m.

Kappas carried out the theme of the party by wearing red skirts and white sweaters. Red punch and cookies, and peppermint sticks were served.

Sigma Chi Chapter Installs Officers For Spring, '56

The Epsilon Nu Chapter of Sigma Chi fraternity installed officers on Jan. 3 for the spring semester.

New officers are Jim Ortiz, president; Joe Jefferson, recording secretary; Bobby Anderson, treasurer; Mel Lemos, corresponding secretary; Charles Kirkland, historian; Warren Shropshire, associate editor; and Richard Ridgway, pledge trainer.

ADVENTURES IN SOCIAL SCIENCE: NO. 2

Doff your caps and bells; there will be no fun and games this day. Today, with earnestness and sobriety, we make the second of our forays into social science. Today we take up the most basic of all the social sciences—sociology itself.

Sociology teaches us that man is a social animal. It is not his instincts or his heredity that determine his conduct; it is his environment. This fact is vividly borne out when one considers any of the several cases of children who were raised by wild animals. Take, for example, the dossier on Julio Sigafoos.

Julio, abandoned as an infant in a dark wood near Cleveland, was adopted by a pack of wild dogs and reared as one of their own. When Julio was found by a hunter at the age of twelve, the poor child was more canine than human. He ran on all fours, barked and growled, ate raw meat, lapped water with his tongue, and could neither speak nor understand one single word. In short, he was a complete product of his environment.

... He was a complete product of his environment...

(Julio, incidentally, was more fortunate than most wild children. They never become truly humanized, but Julio was exceptional. Bit by bit, he began to talk and walk and eat and drink as people do. His long dormant mental processes, when awakened at last, turned out to be remarkably acute. In fact, he was so bright that he learned to read and write in a month, got through grammar school in five years and high school in two. And last June, as thousands of spectators, knowing Julio's tragic background, stood and cheered, he was graduated valedictorian from Cal Tech with a degree in astrophysics!)

(Who can say to what towering heights this incredible boy would have risen had he not been killed the day after commencement while chasing a car?)

But I digress. To return to sociology, people tend to gather in groups—a tendency that began, as we all know, with the introduction of Philip Morris Cigarettes. What an aid to sociability they are! How benignly one looks upon his fellows after a puff of Philip Morris's gentle, pleasant, flavorful tobacco! How eager it makes one to share, to communicate, to extend the hand of friendship! How grateful we all are to Philip Morris for making possible this togetherness! How good not to live in the bleak pre-Philip Morris world, with every man a stranger!

The groups that people live in today (thanks to Philip Morris) vary widely in their customs. What is perfectly acceptable in one society may be outlandish in another. Take, for instance, the case of Ug Poopoomoogoo.

Ug, a Polynesian lad, grew up in an idyllic South Sea isle where the leading social event of the year was the feast of Max, the sun god. A quaint all-day ceremony was held, with tribal dancing, war chants, fat lady races, pie eating contests, and, for the grand finale, the sacrifice of two dozen maidens.

According to Ug's folkways, sacrificing maidens was quite acceptable, but when in his eighteenth year he was sent as an exchange student to the University of Wisconsin, he soon learned that Americans take a dim view of this practice—in Wisconsin, at any rate. The first twelve or thirteen maidens Ug sacrificed, he was let off with a warning. When, however, he persisted, drastic measures were taken—he was de-pledged by his fraternity. A broken man, Ug quit school and moved to Milwaukee where today he earns a meagre living as a stein.

This column is brought to you by the makers of Philip Morris Cigarettes, who are otherwise rational men. Ask for new Philip Morris in the smart new red, white and gold package.

Phi Kappa Psi Has Election, Dance

Thomas Holeman has been named president of Phi Kappa Psi, men's social fraternity, for the spring semester.

Other officers elected by the fraternity are John Bennett, vice president; Bill Trammell, correspondent; Jerry Gibner, recording secretary; Howard Thomas, treasurer; David Jones, historian; Bob Verette, sergeant-at-arms; Jay Thomas, messenger; Teddy Trippe, chaplain.

Elected chairman of the entertainment and membership committees were Johnny Cochran and Bob Laughlin, respectively.

Tau Beta Sigma Initiates 4 Pledges Into Sorority

Tau Beta Sigma, national honorary band sorority, initiated four pledges on Jan. 3.

Initiated were Amanda Freeman, Woodrow; Don Evelyn Joines, Slaton; Betty Alice Lovelace, Abernathy; and Barbara Mullins, Haskell.

McKenzie Terrace was the site of a record dance given by Phi Psi Friday night.

Decorations carried out the theme of "Hernando's Hideaway," with all windows and doors covered except the front door which had a small peep hole where the guests gave the "password."

The program included a combo and "The Four Phis and a Sigh," with Ted Trippe, Chuck Strehli, Jimmy Whitacre, Bill Pittman, and Cecil Trainor.

Sunday morning the fraternity had a Big Brother-Little Brother breakfast at the Skyline Dining Room of Municipal Airport.

Pledges presented their Big Brothers with the paddles they had made for them. Following the breakfast, members and pledges attended church together.

A Campus-to-Career Case History

"One open door after another"

"That's how I feel about the telephone company," says Walter D. Walker, B.E.E., University of Minnesota, '51. "When I joined the company I felt that I could go in any direction. And that's the way it's been."

"For the first six months I was given on-the-job training in the fundamentals of the telephone business—how lines are put up and equipment installed. Learning those fundamentals has really paid off for me."

"Then I had the opportunity to go to the Bell Laboratories in New Jersey. I worked on memory crystals—ferroelectric crystals—for use in digital computers. I learned how important research is to the telephone business."

"After two years I came back to Minnesota, to St. Cloud, to work in the District Plant Engineer's Office. There I made field studies of proposed construction projects and drew up plans to guide the construction crews. This combination of inside and outside work gave me invaluable experience."

"In July, 1955, I came to Minneapolis as an Engineer in the Exchange Plant Extension Engineer's Office. We do forecasting—not of the weather, but of future service needs. Using estimates of growth and economic studies, we make our plans for the years ahead. We figure out where and when new facilities will be needed to meet future growth."

"All this has been preparing me for a real future. You see, the telephone company is expanding by leaps and bounds. That's why it offers a young man so many open doors."

Wally Walker's career is with Northwestern Bell Telephone Company. Similar career opportunities exist in other Bell Telephone Companies, and in Bell Telephone Laboratories, Western Electric and Sandia Corporation. Your placement officer has more information regarding Bell System companies.

Favorites Chosen By Heavy Vote

(Continued From Page One)

social sorority president, is an elementary education major from Plainview, and has been a La Ventana beauty for the past two years. The girl co-favorites defeated Pat Davenport, Tommie Wynn and Dot Jones.

Johnny Jones, an animal husbandry major from Mercury, is a member of the student council, Phi Delta Theta social fraternity, and Block and Bridge. He edged Alan Conley, Ivan Sorenson and Roy Smith.

Miss DuPriest, head girl cheerleader, is an education major from Waco. She serves as Horn Hall Legislator, Kappa Alpha Theta Pledge Trainer, and was a runner-up for 1955 Homecoming Queen. Last year she was sophomore favorite. Other junior girl favorite nominees were Charlene Williamson, Mary Alice Jones, Gladys Crandall, and Patsy Harris. Cummins, a cheerleader and Kappa Sigma member, is an electrical engineering major from Fort Worth. He was named over Dane Grant.

Miss Miller, who was elected sophomore favorite over Mary Alice Richardson and Joan Roff, is a member of Delta Gamma and Sock 'n Buskin. Last year she was a freshman cheerleader. Alexander was a member of the freshman council and was a freshman favorite last year. A pre-dental major from Amarillo, he is a member of Phi Delta Theta social fraternity. He defeated Boone Brackett, Bill Waddle, Doug Hudson, Presley Shephard, Eddie Henson and Phil Kranz.

Miss Rainer, of Lubbock, is secretary of the freshman class, a member of the freshman council and a Pi Beta Phi social sorority pledge. Other girls in the race for freshman favorite were Mary Catherine Birkelbach, Sandra Shields, Sharla Pepper, Ann Humphries, Diana Smith and Marlys Harris.

McLaughlin, a petroleum engineering major from Lubbock, is president of the freshman class. Other boys nominated for freshman favorite include Jackie Henry, David Stienman, Dan Howard, Dan Grimes, Richard Estes and Hollis Swafford.

Raiders Play First-Place Tempe Tonight

By FLOYD WOOD
Toreador Sports Editor

Texas Tech's Red Raiders, holding down a tie for second place in the Border Conference race, take on the league's leaders, the Arizona State Sun Devils, tonight at Tempe.

Tomorrow night they will travel to Tucson to tangle with another second place quintet, the Arizona University Wildcats.

Following the short road trip the Techsians will return to Lubbock and will not see action again until January 27 when they go to Portales, N.M. to clash with Eastern New Mexico University Greyhounds.

If the Raiders can take both of the games from the Arizona teams they will be in a good position to take command of the conference race. Should they lose both games their chances for conference championship will be dimmed considerably.

Saturday night the Tech quintet broke into the conference winning column and smashed a nine-game losing streak by bumping the Hardin-Simmons University Cowboys 91-59.

The Cowboys, previously, had been favored over the Tech defending conference co-champions. However, the game was as much a Tech victory as the score indicates. The score was tied only a

single time during the game — 2-2 in the opening minutes.

Big guns for the Raiders were Gene Carpenter, Du-Wayne Blackshear and Jim Reed who all

hit in the 20-point range.

Coach Polk Robinson attempted to keep the score closer by playing his reserves a considerable portion of the final half.

Boeing engineers are insiders on top-secret work

Engineers are doing vital work on significant new developments at Boeing. For example, the Boeing BOMARC IM-99 pilotless interceptor. Its predecessor, the Boeing GAPA, is shown here, because photographs of BOMARC are highly classified. BOMARC is a supersonic long-range missile that spearheads an entirely new weapons system. It is a key weapon in America's defense planning.

BOMARC, as well as other "years ahead" Boeing projects, which cannot be discussed here, are complex challenges to all kinds of engineers. These men find real creative interest in the problems of very high speed flight: heat, compressibility, vibration, rocket, jet

and nuclear power, miniaturization, electronic control, and others. Their goal is to design structures and components that will "weigh nothing and take no space," yet withstand extreme velocities and altitudes.

The prestige of Boeing engineers is second to none. They have created such recent aviation milestones as the B-52 global jet bomber, the 707 jet transport, and the B-47. There are superb facilities at Boeing: the multi-million-dollar new Flight Test Center, the world's most versatile privately-owned wind tunnel, the latest electronic computers, and much more.

Boeing engineers enjoy exceptional opportunities for career stability and

growth. There are more than twice as many engineers with the firm now than at the peak of World War II. Living is pleasant in the progressive, comfortable-size communities of Seattle and Wichita.

There is room for top engineering talent on Boeing research, design and production teams. If you feel that you belong with aviation's leader, it will pay you to investigate the advantages of a career with Boeing.

For further Boeing career information, consult your Placement Office or write to either:

JOHN C. SANDERS, Staff Engineer—Personnel
