TEXAS TECHNOLOGICAL COLLEGE, LUBBOCK, TEXAS, FRIDAY, AUGUST 16, 1946

Number 5-9

Dorothy Carmack, Techsan, Flies To State Contest

MISS LUBBOCK, fall Tech student, boarded an airliner here early Saturday to go to Port Arthur where she entered the contest to determine who would become "Miss Texas" in the nationwide "Miss America" contest, sponsored by the National Junior Chamber of Commerce. Dorothy Carmack of 2010 Seventeenth attended Tech last summer and will return in the fall. At Port Arthur, Dorothy was eliminated in the finals for "Miss Texas," but she was among the top five selected by the judges for the finals. Dorothy Brown, another Tech student placed in the Lubbock contest last week.

Vets Get Advice On Pay Problem

"If a veteran does not wish to have the period between terms counted against his eligibility, he should request that his training be interrupted at the close of the present semester," the training officer said. "If the veteran does not plan to re-enroll for the fall semester, he should request that his training be interrupted at the end of the present semester so that he will not be overpaid."

"However, if a veteran has plenty of eligibility and wishes to stay on the payroll and thus avoid the usual delay in getting back on the payroll, he can draw subsistence money during the vacation period between terms and this remain in training."

Mr. Gammill, who is in room 109 Ad building, urged all veterans with any questions on whether to remain on the payroll to drop in and counsel with him.

Rainey, Jester To Share Techs' Vote

In a student poll conducted on the campus this week, 56 per cent of the students questioned stated that they would vote for Homer P. Rainey in the August 24 election. Forty-three per cent were for Beauford Jester and one per cent was undecided.

Like the Eelden poll, the student poll only shows the trend. The poll was conducted for two days and at the end of the first day, totals showed Beauford Jester favored by 53 per cent. The second day, Rainey was ahead, but a third day may have reversed the situation. The governor's race as far as Tech is concerned will be a close one.

Miss Gaines County Is Freshman Tech Beauty

Beverly Beasnon of Seminole, freshman arts and sciences student last year, was chosen as "Miss Gaines County" and will compete in a contest Aug. 20 for the title of Miss South Plains.

Beverly was selected by Nino Martin, Metropolitan opera star, as one of the Tech beauties last year.

Tech Board Okays Faculty Expansion

Because of increased enrollment, expected to reach 4,500 to 5,000 students this fall, Tech's board of directors has authorized employment of an additional 25 faculty members. Dr. W. M. Whyburn, president, said after returning from a meeting of the board in Ft. Worth.

Salaries are to be paid from the expected reimbursement from the Veterans administration. Contract has been executed covering various services rendered since September, 1945, and the college is in process of preparing applications for reimbursements allowable under provisions of the contract since that date.

The staff already has been expanded to a maximum allowable by state funds, it was announced. Including those already employed to join the faculty this year, the increase in faculty members will be at least 50. Appointment of 28 faculty members had been announced Saturday but two appointed were unable to come to Tech.

The expected enrollment for the

Advanced Air Corps Unit Will Be Established In September

Board Members Discuss Co-op Housing Plan

Possibility of installing prefabricated housing units for 110 veterans attending Tech were discussed at a meeting of a committee from the college board of directors, several Lubbock business men and veterans Thursday morning in the president's office.

Charles C. Thompson of Colorado City is chairman of the committee from the board of directors, appointed to investigate the plan. John B. Collier, Jr., of Fort Worth, and O. B. Ratliff of Lubbock are other members and Kyle Spiller of Jacksboro and Mark McGee of Fort Worth are ex-officio members.

The cooperative plan for veterans' housing was presented to the board Saturday in Fort Worth by a three-member committee from the Tech War Veterans association, of which John Wright is president.

According to the plan proposed by the veterans, the pre-fabs would be located between the agricultural building and Nineteenth street. They would be financed through a co-operative plan under which students would purchase a certain amount of stock in the project. The college is being asked to furnish ground and utilities connections.

Prediction of an estimated enrollment of 1,000 married veterans this fall and 1,320 next spring is made in material prepared by the veterans in interest of the project. The estimates are for a drop to 1,166 married veterans in the 1947-48, 879 in 1948-49, and 60- in 1949-50. The end of the war has been followed by the largest enrollment of married students in Tech's history.

There are approximately 150 married veterans in the Veterans Cooperative association, which would deal for the group in initial stages of the project and probably later would be disbanded, said a

(Continued on Page 3)

Acute Housing Shortage Looks Worse For Fall

Acuteness of the housing situation for students of Tech for the approaching fall semester is becoming constantly more apparent, according to Paul White from the dean of men's office.

Prospective students inquiring at the college for rooms or apartments are being turned away every day because all housing facilities listed with the college have already been taken.

An estimated 500 apartments for married students and 1,000 rooms are needed to take care of the influx of students this fall, according to reports.

The only recourse of the college is at present to refer students to the housing unit at LAAF, where a limited number of rooms only is available for single veterans or married veterans who leave their families elsewhere.

The number of students to be registered at the college this fall hinges directly on how many can be housed, according to the dean of men's office, renewing its appeal to citizens of Lubbock with spare bed rooms to make those rooms available to students.

Housing Group To Confer With Grover Sellers

Tech Board of directors will send a committee to Austin today to confer with Attorney General Grover Sellers on the legal aspects of the housing project proposed by Tech's married veterans.

The committee will include a representative of the board, Trent C. Root, assistant to the president; a representative of the Tech Veteran Housing Co-op, John F. Wright president of the Co-op; and a representative from Lubbock, a business man. The trip was planned in Thursday's meeting and the group will fly to Austin today.

Vets To Help OPA Curb Living Costs

Tech veterans have been asked by the Lubbock Price Control board to take an active part in making monthly surveys which are conducted to check the adherence of local businesses to OPA regulations. The executive committee of the Tech War Veterans Association met last week with Ray Grimes of the Price Control board. Grimes asked the TWVA to participate in the local board's proceedings by serving on its various panels.

"The veterans at Tech realize that this is a chance they have to take part in their government's attempt to hold down the already high cost of living," said Burton Crossen, TWVA commander. According to Crossen, the TWVA is very much in favor of complying with the requests made by Grimes. Preparations are being made to place as many men as possible on the list of volunteers who wish to cooperate with the OPA officials.

Any veteran or veteran's wife interested in working with the OPA should contact Burton Crossen or any member of the executive council of the TWVA.

The War Department has selected Texas Tech as one of the nation's colleges where an advanced unit of the air corps will be established in September. President W. M. Whyburn was notified this week.

Dr. Whyburn made application for the unit last March and was assured by Congressman George Mahon at commencement time the approval would be forthcoming. All necessary papers for the unit were hurried to Washington Monday.

The War Department has indicated it will assign three air force officers to Tech, each with at least 12 months overseas service and a Texan or ex-student of Tech, if possible. Notices of intent to commission of lieutenant or higher than a colonel. Each will have a superior rating.

Details of just what the Tech program will include are expected early next week. Until these arrive it will not be known what phases of aviation will be taught, what the students will receive in the way of pay and uniforms, or other details. As soon as further information is available it will be made public, officials say.

The War Department has said it will start advanced air corps units on 99 campuses next month and expects an enrollment of 16,200 prospective officers. About 100 are expected at Tech. Texas A M has been assigned a unit, along with Tech, and Baylor, Rice, SMU and Texas are slated for units in 1947.

In view of the officer shortage, it has been announced, no new ground units of the ROTC will be established this year. Tech has made application for an infantry unit, also. With addition of the air corps setup, Tech will offer advanced work in air, signal corps and corps of engineers, as well as basic ROTC.

The War Department has approved a request of Lt. Col. Ludlow C. Adams, professor of military science and tactics here, for inclusion of students majoring in textile and petroleum engineering among those eligible for advanced engineering ROTC. Previously these men were exempted from eligibles. Colonel Adams in June asked the regulations be changed.

Fish Handbook Has All The Answers

A freshman handbook similar to "Tech Dips" for freshmen girls, will be given to all students registering at the college for the first time this fall.

Prepared under the supervision of Paul White in the Dean of Men's office, the handbook will contain letters of greeting from President Whyburn and Troy Davidson, president of the student body, identification of the Dean of Men and the Dean of Women, questions freshmen should be able to answer, and the names and classifications of all organizations on the campus.

Members of the student committee working on the handbook are Panze Butler, Robert Pardue, Bea Green, Jim Humphreys, and Troy Davidson.

NOTICE TO VETERANS

All veterans enrolled in Tech under Public Law No. 346 are to report to the Veterans office before the end of this semester in order that they may fill out form No. 7-1908, which will establish the training category of veterans.

Hey Fish! Ring Those Bells!

Long about this time every summer, Techsians sit around in the tired heat and keep themselves alive with dreams of fall and football. Cold weather, bonfires, pep rallies, red shirts, fish caps, victory bells, and homecoming—memories of all these things make people forget that perspiration is dripping from their aching foreheads to their last class notes.

Football season promises to be the greatest one yet; every game a homecoming. There should be more spirit floating around this old campus than there has been for many a moon. With the war won, we've nothing to worry about but inflation, the atom bomb, Stalin, housing, and a new stadium; one homecoming won't take care of the whole celebration.

There is some disappointment over the absence of our new stadium, but not enough to show. We'll all pay up our accident policies and get along fine with the old one. Sections are being marked off for the saddle tramps, a place for the Fish directly below them, and for the band below the Fish. The freshmen, who have practically had the upper hand around this place for the last four years, will be easily kept in line. During the war, the Fish got clear out of control. They took advantage of the upper classmen shortage—sat down when they wanted to, got up when they wanted to, and had no manners whatsoever. This fall, though, with all the returning Saddle Tramps breathing on their necks, the Fish will ask permission to blink their eyes.

The Saddle Tramps plan to sponsor a dance in the gym after every game. The old dancing-on-the-avenue tradition seems to be forgotten, so these all-college dances will be very welcome. May every one be a victory dance.

One more thing and the whole fall outlook will be perfect. Every Techsan should learn the beautiful Fred Waring Fight Song and the Matador Song. Too many of us in years gone by have wandered out of the stadium humming the Matador Song. This year, in honor of this great big homecoming, learn every word of our song before the first game and don't forget to stand still and sing loud. Let's welcome back our old Red Raider Spirit right!

Stay Off that APO Grass

The library is a shining example of what all of Tech Campus could and will look like some day. After much extra work on the part of the library janitor, the library looks like part of a college with its setting of lawns and flowers.

The Aggies, too, should be right proud. Some one is constantly working on the lawn in front of the Aggie building and all that work is beginning to pay off.

When the water tower comes across with some water, George Long will win his battle with the weeds on the circle and this place will begin to resemble a campus instead of a vacant lot. And what wouldn't a lily pond (hint to future seniors) and a few well trimmed hedges do for the circle?

Only through the vigilance of the library janitor did the lawn there get its start. He guarded it with his life until it had a chance to grow. One of these days, all of Tech will look like the library, and the sooner we start keeping our big feet off what grass there is, the sooner that day will come.

Tech To Sponsor Canning At LAAF

Texas Tech and the City Housing authority will sponsor a canning center, which will be opened this week at Lakewood Village. The equipment to be used has been moved to the field from Tech.

Anyone interested in canning at the center may make reservations by calling Mrs. Mary Anne Duke here at Tech.

Women are to furnish their own fruits and vegetables and do their own work under supervision of a trained worker. Cans may be bought at the center. Four mornings a week will be devoted to the work.

It took a world war to make us Americans eat sensibly.

SADDLE SOAP

That ain't no house key BEA Green's wearing; it's a silver one and it's JOHN CULVERS... BILLY THURMAN was at the picnic (a lot of Kemas were there) with FUTURE FULTON. Once, her name was WANDA, BILL. Engaged for a day was MARY TROY. All the way from Oregon came a purty diamond in the mail, and all the way to Oregon, the purty diamond started back the same day... PAT OWEN'S club brothers keep NAN BRADBURY from being lonesome while he's away.

PAT MARQUIS stole the show in the "Miss Lubbock" contest when she jittersbugged with LEM TITTS-WORTH. She was just a bit worried about the "off" part of her off-shoulder dress, but other than that she was all charms and poise.

WARREN WHITE and JACKIE WILKINSON have bought that \$2 slip of paper and signed it on the dotted line... MARSHALL PULLEN wrote a card from the Mint Bar in Ruidoso and said he was having a fine time on the field.

JOE FORBES and OLIN MONK are thah-roon... Double trouble, JACK WALKER was sweating it out in the book-store. The DALMASSO-CAMMACK kind of trouble... RICHARD TAYLOR came down to breakfast with lip-stick on his shirt, he's obably laundry trouble.

The new Silver Keys are CHARLES A. GUY, JR. and JOE KING JONES... DUNCAN ELLISON goes places with MARY ANN DYKES, but it's only another friendship founded on bridge, we hear.

FRED "Snaggle-Tooth" POTTASt, he was known as in them days... HEWITT ALLISON and JANE LAWSON are always together, it's just that they don't go steady—Or do they again? ... People are saying that VERNON RAY looks like a Greek God. Yeh, he sure does.

CLARK BONDURANT dates BETTY JIM YORK, a cute gal whose coming to Tech this fall... Must be a delayed spring fever these Keys have. ELMER REED'S pinned his on a high school babe...

BENOY GATTIS was out with JOHNNIE SUE HAMILTON, an old flame... Orchids to DOROTHY BROWN for placing second in the Miss Lubbock contest. That made two beautiful Dorothys from Tech get the honors...

Letters to Editor

The Toreador will publish any letter that is of interest to the students or faculty of Texas Tech. According to the rules of the Publications Committee, any letter printed should be signed by the person writing and kept on file in The Toreador office for the school year.

Dear Editor:

Here's a little problem I have wondered about for four years, so I figure I had better find out now or else I may never have another chance to.

On the front of the Administration building there are ten plaques—I presume they are famous men. On the back of the building in approximately the same position are twelve names. I have tried to fit some of the names to some of the depicted gentlemen, but never having known them personally or, in any other way, I am at a loss. Can you tell me why there are twelve names and only ten gentlemen and what the relationship between the two might be?

Incidentally, the vines have spanned one of the dear old fellow's noses. Don't you know its a relief to be out of the sun after twenty-five years?

An Inquisitive Senior.
Editors Note: Have lost my whip but when it's found, one of the staff will obligingly fetch a ladder over to the Ad building and have a closer look at the old gentlemen. The answer is forthcoming at any rate.

The marriage of Faye Foster, Littlefield to Richard Clay Collins, both of Lamesa, was performed Aug 9 in Lamesa. Both attended Tech where Richard was a member of the Centaur club.

Gal Tawk

"A coed is a sweater with an I. Q.," according to Bob Hope and, at Tech, this is certainly true. Until this year, the sloppy-joe was a must on every smart freshman's list. Until now, the big sweater and a small skirt, were the most comfortable and least expensive of all coed clothing. But today, there is a conspiracy against the good old sloppy-joe.

A student poll conducted on the campus last spring found all the men agin' 'em. "We like tailored clothes," they said. The coeds also like tailored clothes but don't want to forsake their faithful, favorite sweater altogether. Every coed would like to go around looking as if she fell off a page from Vogue, but her penny bank won't allow it.

The other party to the conspiracy is a group of women who have a wonderful clothing plan for the coed. It doesn't have a place for the sloppy sweater. The clothes chosen by these career women who finished college quite a spell ago are very, very smart—and very, very expensive. Fine for a woman with an income, but for a coed with an allowance, well, that's another story.

The girls will probably come back to school this fall looking a lot smoother than ever before. The men around this place have influence; there's no doubt about it, but the bets are still 2 to 1 in favor of the sloppy-joes return to school. An I.Q. without a sweater just wouldn't be a coed.

Original Radio Show Is Final Artist Course

Alice and Harold Allen presented an original program based on their radio and motion picture experiences to a large crowd on the Ad Building Green last night, as the last number of the summer recreation program.

The stage was set to represent a radio studio, and a demonstration of radio sound effects were given, featuring the realistic imitations of galloping horses, motor boats, thunderstorms, dive bombers, and many other sound effects of the air.

Also featured on the program were dramatized dialogue, bird mimicry, musical artistry, and humor. Allen has doubled for many famous motion picture stars in Hollywood, including Melynn Douglas, Frederick March, Nino Martini, and has done sequences, imitating sounds of birds, animals and insects for animated cartoons and radio broadcasts.

Dell Morgan At Football School

Dell Morgan, head football coach, is attending the annual coaching school of the Arizona State Teachers college at Flagstaff, Ariz., this week. Jeff Cravath, head coach of Southern California, is the featured instructor.

Rob Key, Gene Skinner Are Air line Hostesses

"Flying the range" from Amarillo to Houston in the giant new 24 passenger Douglas planes for Pioneer Air lines are two June graduates, Rob Key and Gene Skinner, both of Lubbock. They are part of the all-Texas crew of hostesses for the Pioneer lines.

Rob and Gene were in Lubbock Tuesday when the air lines played flight host to Lubbock men and women in one of the new planes.

Trent C. Root Speaks

Trent C. Root, assistant to President W. M. Whyburn, will speak at Plains Gingers association, Saturday, August 17, at 10 a. m. The meeting will be held in Hotel Lubbock.

Former Tech Prof Goes To University of Illinois

Eugene F. Hebrank, former member of Tech faculty, has been appointed assistant professor of mechanical engineering in the University of Illinois.

Hebrank did graduate work at Tech and taught from 1940 to 1942 before entering the navy, where he was an instructor in the U. S. Naval academy at Annapolis, Md. His specialty is industrial engineering.

Co-op Housing—

(Continued from Page 1)

veteran. The proposal for the project is based on estimates for 100 houses, but many more could be used.

Members of the veterans committee are Alex Cook, chairman of the finance committee of the Tech Veterans Cooperative association; A. G. Adams, chairman of the mediation committee, and John F. Wright, president of the association. The three appeared before the Tech board in Fort Worth Saturday, at a meeting at which the board appointed its committee to further investigate the plan.

The basic factors of the proposal are that the married veteran would buy and pay for the house he and his family would live in; the school would provide land and utilities, and the cooperative would act as the agent in securing the houses, with school and individuals agreeing on the arrangement to be made.

The tentative estimate of cost to the individual veteran is \$1,307.35, including \$753.40 for the pre-fabricated single unit including bathroom, kitchen and bedroom, and costs for building blocks, freight, bath and kitchen fixtures, tie-in charges and wiring to school layout, insulation, paint, fixtures, and administrative costs. Approximately \$500 would be added to cost for a double unit.

The total combined estimated cost to individuals would be \$130,795.

The cost to the college for utilities connections, on basis of estimates for 150 units, was given as \$16,468 in material for the proposal.

The proposed minimum length of time for the houses to remain on the location is three years. The individuals owning the houses would sell them, should they leave prior to expiration of the set time.

Prefabricated housing projects have been opened at the University of Texas and North Texas State Teachers college.

Life With the Exes

J. Rex Johnston, 1936 agronomy graduate, completed his MS and PhD degrees at Iowa State College with research work on classification of soils and soils fertility studies. He was in charge of the soils investigation for the Soil Conservation Service erosion station at Clarinda, Iowa, and is now in charge of all soils investigations for the Soil Conservation Experiment station at Temple, Texas.

Charles Weddle, 1936 horticulture grad, completed his MS at Michigan State college and has since been carrying on plant breeding experiments for the Burpee Seed company in Philadelphia where he has been responsible for several new vegetable and flower varieties.

Perry Bowser, 1937 horticulture graduate, completed his MS and the major portion of his PhD at Michigan State college. He is now in charge of the vegetable crops investigation for the Michigan State Agricultural Experiment station.

W. D. Holley, 1938 graduate in horticulture, received his MS at Michigan State college and is now instructor in floriculture and doing research in flower breeding at the University of New Hampshire.

D. E. Morsey, who graduated with a BS from Kansas State, received his MS from Tech in 1938 and formerly carried on research at the Tech college farm with the Maltling Barley investigations. He is now employed by the Iowa Agricultural Experiment station in small grain breeding work.

FFA Sponsors Barbecue

The FFA is sponsoring a chicken barbecue in Aggie Grove tomorrow night at 6 o'clock, and will be attended by honorary members and guests as well as regular members. W. C. Brewer and Ed Robinett will be the barbecuers.

Three Ex-Techs Bid On Paving Construction

Tech reunion took place at a bid opening on paving construction in Morton, Texas Wednesday, as three of four bidders were graduates of Tech. The grads were Stephen Luce of Lubbock and Vernon, Jim Fanning of Lubbock and Jimmy Kerr of Lubbock. Luce's bid was his first on a project. Also present was a fourth graduate, Jimmy Roberts of Lubbock, representing an engineering firm.

Recent Marriages

OF FORMER TECH STUDENTS

Announcement has been made of the recent marriage of Virginia Sue Cocke, former Tech student and member of DFD and Epsilon Sigma Alpha, to Homer Roberson of Petersburg.

Joyce Herring and Freddy L. Childers, both of Archer City, were married recently in that community. The bride was a student of Tech two years.

Announcement has been made of the marriage of Dolores Snodgrass of Brownfield, Tech graduate, and James L. Hays of Muleshoe, and Earline Whitaker, former student of Tech, was married recently to David Rich. Both are residents of Sweetwater.

Recent marriages include that of Winona Pipkin of Dallas, former Techsan, to Stanley C. Goad of Elkhart, Ind.

Announcement has been made of the marriage of Mary Hervey and John C. LyBrand, both of Greenville. The bridegroom attended Tech and is a Wrangler. He recently was discharged from the Navy.

Announcement has been made of the marriage of Elna Layon Ostrom of Phillips, former Techsan, to Buster L. Caviness of Portales, N. M.

Ann Cox of Dallas, Tech graduate and member of Ko Shari, was married recently to Frank E. McGonigill of Fort Worth, three-year air corps veteran.

Gene Carolyn Harvey of Lubbock was married Aug. 10 to John Hollis Reeves, also of Lubbock. Both are former Tech students and John, who spent two years in the navy, will return to Tech this fall.

Murnelle Fore of Mineral Wells, former Tech student, was married July 20 to Walter (Bill) Clark of Idalou. Bill served four years with the army air corps, three of which were in the Pacific.

Keep no more cats than will catch mice is a good thought to apply to a salesman.

Faculty, Employees Should Buy Grid Tickets Now

Tech faculty members and employees are being urged by Morley Jennings, athletic director, to make reservations for fall football tickets at once.

Mr. Jennings points out a special price has been arranged for faculty members and employees and if they wish good seats they should not delay.

"We have sought to make the price almost that charged the students for athletic events through the activities fund," he said, "Because of the federal tax setup we are not able to put the price at the student level, but it is much below that charged the general public."

Faculty and employees may buy reserved seats for the five home games at \$8.20, or box seats for \$160. A season's ticket to all basketball games also is included.

The five home games will include West Texas State on Sept. 21; Baylor on Homecoming, Oct. 19; Denver, Oct. 26; New Mexico, Nov. 9; and Oklahoma A&M, Nov. 16.

Season tickets will be on sale Aug. 15 to Sept. 20 in the men's gymnasium office.

"Faculty members who will leave the campus at the close of summer school should make arrangements for their seats at football games before they leave," Mr. Jennings counseled. "They need not pay for them at once, but if they desire good seats they should reserve them at once. Indications are crowds will tax seating capacity and advance sales will take the bulk of choice seats."

Faculty Expansion—

(Continued from Page 1)

fessor of general business, economics, and management, resigned to accept a position on the faculty of Texas State College for Women.

T. L. Leach, teacher trainer and associate professor of agricultural education, resigned to accept a position as agricultural training program director with the Lubbock regional office of the Veterans administration.

Baby Peace Adopted One Year Ago by the World

The veteran pictured above was adopted one year ago by the world. Yes, he is a veteran, and today walking the floor to help him gain weight is—well for one, Harry S. Truman. This brat isn't particular who he is walking the floor. Just like any ordinary baby he cries a great deal. Again he isn't a bit particular where he cries. He yells loud on the homeland of any nation that he chooses, and he isn't doing bad at the recent peace conferences. Of course it isn't bad for a baby to cry—if the nurse-maids know what to do for him. Now, we've already said that he belongs to the whole world . . . and that

means that he belongs just as much to Texas Tech as any one else.

The arrival of Baby Peace cost the world. No one has the right to say that he belongs to any one nation. So it is our duty as parents of this Baby to see that he has the best of care. We, as ordinary parents, have had luck with our family. We lost one Peace by just plain carelessness. We were so busy with our own selfishness and greed that we let a Nazi and Nipponese kidnapper take him away. That must never happen to our Baby Peace. So, let us all see to it that our nation stands ready to defend him against any enemy with an unjust cause.

How long can we keep him? How long he can he live? What

is the average life of Peace? Up to now Peace has had a very low life-rate. The pioneers that have owned Peace have had bad luck. We as the parents of this Child Peace have scientific aid to help us keep him healthy and he'll live just as long as we want him to. He is not limited to just our normal lifetime but he can live in the future with our great grandchildren and be just as much alive as he is now—if we as parents pave the way for him. Oh, he is little and has every reason for stumbling over any obstacle that we don't take out of his way. We have kept him to the age of One Year And Two Days now. So, to the Memory of the White Crosses on foreign Battlefields . . . let us—Members of Tech—dedicate our lives to helping Baby Peace live to a ripe old age.

Robert Michie, Fiance Reunite After 4 Years

Lt. Robert E. L. Michie, son of Prof. James N. Michie, head of the department of mathematics, was enroute here Monday with his fiance, Inge Raupp of Java, according to an Associated Press report from Boston.

Lt. Michie, a regular Army Bomber pilot, met his Dutch-English fiance at Boston Saturday when the SS Silver Teak docked from Batavia.

They met in Java in January, 1942, and were separated four years by the war. Michie was captured by the Japanese, and Miss Raupp's father, a Dutch official, died in a Jap prison camp.

Dr. Haldeen Braddy, former Tech faculty member, has been named associate professor of English at the Texas College of Mines.

Centaur Club Plans Ft. Worth Reunion

The Centaur club will have its annual reunion in Fort Worth at the end of this semester.

Those who will attend are: Ted Hackney, Bob Meacham, Benoy Gattis, Pug Hammond, Lee Ray Swim, Hoyle Moss, Fred Martin, Jason Allen, Oscar Allen, Buddy Williams, John Huckabey, Jack Sams, Nick Nicholson, Marshal Pullen, Tudor Clark, Jack Cashmere, Troy Lemley, and Doug Reed.

The reunion will last three days beginning Aug. 30. All alumni have been invited to attend.

You'll be reminded of the good deeds you've done, by doing new ones.

Huffman, Jennings Speak To Jaycees

A picture of the 1946 football team at Tech was painted by Berl Huffman, assistant grid coach, at this week's luncheon meeting of the Lubbock Junior Chamber of Commerce in the Hilton hotel.

It was a bright picture, too, though Huffman didn't go out of the way to make it that way. In fact, the most optimistic statement that Huffman made was when he said: "We won't be too much outclassed by any of the teams on our schedule."

But his listeners caught on fast that things were looking up for the Raiders when Huffman reeled off names of returning lettermen, former Tech "greats" returning to the fold and of outstanding high school players on the verge of their first year.

Morley Jennings, director of athletics, also spoke, urging early ticket purchases and discussing seating arrangements for this fall and in the new stadium for next year.

Tech Voice Student Sings Soprano Solo

Ann Smith, a Tech Sophomore voice student, of Wichita Falls will sing the mezzo soprano solo in chorus presentation of "Seraphic Song" by Rubinstein at the memorial service for Wichita County and "Lost Battalion" war dead in Wichita Falls tonight.

Former Techsan Named Head Of Tyler School

John H. Cox, who holds a Master's degree from Tech has been named principal of the Gerry Elementary school in Tyler. Cox taught three years in Olney, eight in Lubbock, served as high school principal at Olton a year and held the same job in Perryton last year.

Seldom does the one who really needs advice ask for it.
