SOVIETS CLOSE ON RIGA

Climax Success In Baltic Area; Move To Prussia

By DANIEL DE LUCE MOSCOW, Sept. 25 (AP)

The Red army closed in on the Latvian capital of Riga today in the climax to a successful Baltic offensive, while front dispatches telling of a local battle on the Lithuanian frontier of East Prussia heralded a possible large-scale invasion drive on the Junker province.

A narrow land corridor still offered a chance of escape to the German garrison in Riga, but Red columns approaching from the north and east made large gains. The mop-up of Estonia was nearly completed as a large part of Marshal Leonid A. Govorov's Leningrad army moved southward along the Gulf of Riga.

Soviet naval forces yesterday captured the Baltic seaport of Paldiski on the Estonian west coast. Gen. Ivan Cherniakhovsky, the only Soviet commander as yet to reach Prussian soil, has been held in static trench warfare over a month by the prolongation of enemy resistance in the Baltic at his flank and rear.

His combat patrols have made continual raids into East Prussia, but no permanent foothold has been won inside the reich. With his divisions rested and a large number of Red army air force squadrons concentrated in support of his sector, Cherniakhovsky is known to be ready for a powerful strike at an early moment.

(A Moscow broadcast said Russian troops crossing from southern Poland through Lupkow pass into Czechoslovakia had captured Humenne, 25 miles inside the republic. Bucharest communists said Russian and Romanian troops crossed the southeastern Hungarian frontier. They were believed to be less than 35 miles from Szeged, Hungary's second city.)

Permit Request Refused Here By City Directors

Approving a recommendation from its traffic committee, the chamber of commerce directors Monday declined, without prejudice, to grant a request by All American Bus lines that the organization adopt resolutions supporting the company's application for an intra-state passenger permit.

The committee concluded, and the directors affirmed, that since railroad commission hearings are open to any and all interested parties, there was insufficient reason to abandon the traditional hands-off policy in such matters. A public hearing in the cause was granted last week by the committee.

Allied Command Lifts Secrecy Of Underground

ROME, Sept. 25 (AP)—The Allied air command, lifting the veil of secrecy from one of its most carefully hidden operations, disclosed today that more than 5,000 tons of guns, ammunition and other supplies had been flown during the past two years to Yugoslav Partisans and to patriots in other central and southern European countries.

In addition to secret landing grounds in Yugoslavia, other fields have been laid out and used for quite some time in Greece, Albania and other countries, the command said, adding that the number of such airports "would astonish the Germans."

The Royal Airforce has been in charge of the gun-supply running, with large numbers of American transport pilots participating. "Tito's army," the command's report said, "owes much to the gun-supply runners" of the RAF who, under the enemy's nose, have taken thousands of tons of supplies by air to the Partisans, ranging from anti-tank guns and vehicles to needles and thread, from mules to paper clips.

New Party Name To Be Revealed Late Today By Anti-New Dealers

AUSTIN, Sept. 25 (AP)—Ed Clark of Austin, attorney for the state democratic executive committee, today protested to Secretary of State Sidney Latham the possible use of any variation of the term "democratic" in the filing of the names of presidential elector nominees in any other party than the democratic party.

He said Latham promised to give the committee a hearing if another party filed with him a slate of electors for certification in a general election ballot column labeled with a descriptive including the term "democrat" or "democratic."

Saturday a new party was formed here by a group of anti-Roosevelt democrats, who announced they would ask Latham today to certify presidential electors named in a closed convention held at a downtown hotel.

A spokesman for the party announced that its name, and the names of its electors, would not be announced until it filed. J. Hart Willis of Dallas, the spokesman, would not give any indication of what the party label would be.

There was considerable speculation, however, that some such name as "Jeffersonian Democrats" or "Regular Democrats" would be used. It was considered likely that if this course were followed, some sort of legal action to block it would be taken.

"Article 3166 says that any new party shall not take the name of any existing party, and that a new party's name shall not be longer than three words," Clark said.

"This statute has never been tested in Texas, but similar laws have been in other states, and they have stood up. We are not contesting the filing of another ticket, because we believe in the right of the people to vote. We have no doubt about the outcome of an election test. But we do claim the exclusive right to the use of the term democratic."

Leaders of the new party have indicated they would not submit their slate of electors to Latham until late this afternoon. Today is the last day for such filings with him.

Coal Men Take Case To Federal Court

WASHINGTON, Sept. 25 (AP)—A group of southern coal operators went into federal court today to attack the jurisdiction of the War Labor and National Labor Relations board over mine foremen and to accuse the two agencies of "sanctioning and encouraging" attempts to formen to make union contracts.

The eight companies, all of them members of the southern Coal Producers association, asked for injunctions to restrain the NLRB from taking any more strike votes on recognition of the foremen's union, and to restrain the War Labor Board from hearing a group of supervisory employment disputes now before it.

Finns Make Slow Progress Moving Nazis In North

By ROBERT N. STURDEVANT HELSINKI, Sept. 25 (AP)—Finnish troops, undertaking a task they once regarded as impossible, were reported making slow but steady progress today in their efforts to drive the Germans out of northern Finland and fulfill the terms of an armistice with Russia which this country has received with mingled hope and fear.

A Finnish communique yesterday declared the Finns had occupied part of Suomussalmi in northeastern Finland and were approaching Puolanka after overcoming mines, demolitions and road blocks set up by the retreating Nazis.

(A dispatch from Stockholm last night quoted a Swedish newspaper correspondent as saying the Finnish high command was hopeful of completing the job of ousting the Germans within four weeks without any help from the Russians.)

Meanwhile advance elements of the Soviet armistice commission already are quartered in Helsinki and the Finns are waiting to see what the armistice terms will mean in practice.

The reception tendered American correspondents arriving here—the first to reach Helsinki since the armistice—was very warm.

China's Newest Lifeline To Be Used In Future

(Approved By Office of Censorship)

SEATTLE, Sept. 24 (AP)—"Usability" of China's new lifeline, the Ledo road, was disclosed today by the Post-Intelligencer. The paper said the juncture of the vital overland link with existing arteries in China first was learned from a "visiting source close to the Chinese embassy."

It was confirmed officially by the U.S. army engineers in Washington, D. C. "Future usefulness of the route as a source of eleventh-hour supplies to beleaguered Chinese armies in contingent upon efforts to stave off mounting Japanese pressure on the Yunnan 'feeder' roads," the paper pointed out.

Extending from the Ledo railroad in eastern India, the road passes through the jungles of northern Burma and joins roadways of China's Yunnan province at Trungka, Burma. Describing the road as "an amazing feat of construction," the paper continued:

"Scores of bridges, some of concrete and steel, span innumerable rivers and streams in the hot swampland. Surfaced by gravel carried in the head-baskets of Indian women, the road is in part a two-lane highway, meandering in places to elevations up to 4,300 feet."

Built by army engineers under Brig. Gen. Lewis A. Pick, the road, known as "Pick's Pike," was begun in December, 1942, the paper said.

Rumely Declines Senate Inquiry

WASHINGTON, Sept. 25 (AP)—Edward A. Rumely, executive secretary of the committee for constitutional government, declined today to provide the house campaign expenditures committee with a record of the organization's financial contributions.

Disputing the right of the house group to inquire into contributions to the committee, Rumely said he was ready to defend his stand in court.

Nelson Prepares To Report China Survey WASHINGTON, Sept. 25 (AP)—Donald M. Nelson, chairman of the War Production Board, prepared today to report to President Roosevelt on a mission to China in which he surveyed the Chinese industrial contribution to the United Nations' war effort. Nelson returned from the Orient yesterday. He said he was enthusiastic about China's industrial progress, but declined to comment on his future in the WPB.

Defending Japs Flee Naval Bases

By LEONARD MILLAMAN Associated Press War Editor

Tokyo radio reported continuing air attacks on the Philippines by seaborne American planes while Admiral Chester W. Nimitz said he smashed Japan's Philippine-based air force and routed the defending fleet from its bases.

A vicious two-day raid centered around Manila, Admiral Nimitz announced last night, destroyed 357 Japanese planes, 40 ships and 6 small craft. Forty-six other ships, 11 small craft and two floating drydocks were probably sunk or damaged. Ground facilities were "extensively damaged."

"This daring and highly successful strike," last Thursday and Friday (Manila time), Nimitz said, cost Vice Adm. Marc A. Mitscher's forces 11 planes and 15 airmen. Tokyo reported the carrier planes were back Sunday (Manila time), hitting at Cebu, Legaspi and other cities in the central Philippines.

With the islands already under martial law, Lt. Gen. Masaharu Homma, former Japanese commander in the islands, called upon Filipinos "to rise as one to crush American aggressors." With the "decisive battle x x x coming closer and closer" the Tokyo weekly Economic Review urged Japanese to super-efforts in war production, pointing out "that the war situation requires more than we are producing now."

Land-based bombers lent weight to the magazine's fears by striking freely and repeatedly at islands lying in an arc south and southeast of Japan—Chichi and Haha, in the Bonins, Iwo in the Volcanos, and Marcus. Even the hard-pressed Chinese reported an unusual number of successes. Chungking announced the Japanese had abandoned Pingka, third major objective to fall in the Yunnan province campaign for the Burma road; been driven from a town 75 miles from Canton and stalled 40 miles from Kweilin, Allied base in southeast China. But a Nipponese column spearheading southward from Chuanhsien threatened to isolate Kweilin and endanger Luchow, another important traffic junction.

French-based U. S. Thunderbolts were called in to help break up a formation of 100 Nazi tanks. Jockeying Lt. Gen. George Patton's 3rd army in the Nancy area. Two low level attacks scattered the tanks into woods where they were strafed and bombed.

Heavies Batter Reich Defenses Along West Wall

LONDON, Sept. 25 (AP)—More than 1,200 American heavy bombers with strong fighter escort attacked railway yards and other targets today at Frankfurt, Coblenz and Ludwigshafen—all in the front line of the German western defenses.

Frankfurt, Germany's tenth largest city of 547,000, lies on the Main, a tributary of the Rhine, 115 miles east of the Luxembourg town of Diekirch where Americans are locked in heavy battle at the Siegfried line.

Coblenz, at the confluence of the Rhine and Moselle, lies a bare 50 miles from advanced Allied troops striking from Belgium through the frontier fortifications. Ludwigshafen, farther down the Rhine, is less than 100 miles from Metz where other Americans are engaged in battle. It is a chemical center and has been bombed frequently.

British heavies loosed more than 3,900 tons of bombs on the German industrial cities of Munster and Bochum Saturday night. American and British fighter bombers worked most of Sunday over a wide variety of ground targets in support of armies on the German frontier.

President Orders Seizure Of Mines

WASHINGTON, Sept. 25 (AP)—President Roosevelt ordered War Secretary Stimson today to take over and operate the plants of the Farrell Cheek Steel company at Sandusky, Ohio, where 600 employees have stopped work and interrupted production of war supplies. A letter to Mr. Roosevelt from Chairman William H. Davis of the War Labor Board said the company had refused to abide by terms of WLB orders governing relations with its employees and that this had "resulted in the actual interruption" of production. Davis said all production employees began a work stoppage September 11.

Norwegians Rounded Up By Nazi Troops

MONTREAL, Sept. 25 (AP)—Thousands of Norway's most prominent citizens are being rounded up by the German occupation army and shipped to Germany as hostages, the Norwegian ambassador, Wilhelm Morgenstern, told a press conference here today at the United Nations Relief conference.

Fifth Advances Toward Bologna Highway Route

ROME, Sept. 25 (AP)—Exploiting their success in smashing through the heart of the Germans' vaunted Gothic Line, American troops of the Fifth army have punched to within 12 miles of the Bologna-Rimini highway—the Via Aemilia of the Ancients, Allied headquarters announced today.

At the southeastern edge of the Po valley however, the Eighth army ran into heavy fighting with Nazi infantry, paratroopers and armored forces desperately holding a line across the entrance to the broad plains to the north. Although there have been unofficial reports that the Germans have begun evacuating some troops and supplies from the western part of northern Italy, Eighth army headquarters declared there were no indications that the Germans had started any withdrawing movements in the Adriatic sector.

Lt. Gen. Mark W. Clark's headquarters proclaimed that "in nine days the Fifth army has destroyed the line which it took the Germans nine months to build." "Doubrigos driving northeast from Firenzezuela seized four heights—Monte La Fine, Della Croce, Monte Cuca and Forarra—thus clearing air access to the Po valley," an official statement said.

These features are roughly 15 miles from Imola, which is on the Bologna-Rimini rail route. The rate of progress Fifth army units due north of Florence are making toward Bologna, a city of 270,000, at the edge of the Lombardy plain, remained obscure. Yesterday advance elements were within 15 miles of Bologna. Today the main forces were well across the Santerno river and had captured the Cortina hill mass around Futa pass.

The force which finally shoved across to the north bank in collapsible assault boats and improvised rafts was small, and the paratroopers were still not out of the woods. But their position was much brighter.

Dempey had waged a bitter week-long fight to force his way 50 miles north to accomplish the linkup. His troops traversed a German "shooting gallery" along raised roads across marshy land where every tank and truck was an elevated target for German 88 mm. guns concealed on either side of the narrow corridor.

Already Dempey's patrols had succeeded in ferrying an over medical supplies, food and ammunition, raising the morale and fighting power of the "lost division" for its eight day of battle.

London Area Hit Again By Robots

LONDON, Sept. 25 (AP)—The Germans struck at the London area and the southern counties with flying bombs twice during the night. The attacks came in two short bursts—just after dark and again early this morning—and caused some casualties. Eleven persons were injured when one bomb exploded on the grounds of a boys' school in the county.

The government remained frankly concerned over housing facilities for bombed out Londoners before winter sets in. An appeal has gone out to carpenters, bricklayers, plasterers and painters to volunteer for the job of repairing some 800,000 homes which have been damaged in the capital.

Chaos Spreads Among Germans

CAIRO, Sept. 25 (AP)—Chaos is spreading among the Germans in southern Greece, Albania and Yugoslavia, and military commentators said today the situation probably is a miniature of what the Allies will encounter in Germany itself. The Germans told in their communique of a fight with another of their erstwhile Allies, the Bulgarians, at Pilep in Macedonia where "a strong Bulgarian force was smashed with our own losses negligible."

"The Bulgarians left their entire equipment of guns and heavy weapons in our hands," the broadcast Berlin communique said. "Local fighting is going on at the Bulgarian border and at the iron gate," where the Danube cuts through the Carpathians.

Women Collect Used Clothes For Liberated Areas

Collection of serviceable new and used garments for distribution to destitute peoples in liberated areas in Europe is being sponsored here this week by the council of Church Women, it was announced Monday.

The council urged that all residents of Big Spring and Howard county to take garments which they can give to their respective churches, or if this is not convenient, to leave them at the First Methodist church. Importance of prompt action was stressed, for the collection must be completed this week. The clothes must be shipped to Fort Worth for inclusion with others collected in this region. All bales will bear tags telling that the clothes were given by the religious groups of America.

Any clothing for summer or winter is acceptable, and particularly needed are items of infant wear with —shirts on knit goods. The objective is to have a garment given for every member of a local family.

WOMEN SENT TO EL PASO

Every Office, Store and Factory in this City Should Have

A WASTE PAPER SPOTTER

SAVE A BUNDLE A WEEK

APPOINT YOURS NOW!

Tons of precious waste paper are being thrown away or burned here every week... just when that paper is needed most.

Right now 25 war plants are closed... 100 more are on short shifts... because they can't get enough waste paper to make essential Army and Navy equipment.

Here's a challenge thrown right at every local business man, store-keeper and shop superintendent!

Tell your employees that waste paper is literally guns, powder and bullets! Tell them that it takes 25 tons of paper for blue-prints to build a battleship.

Paper for ration boxes... blood plasma containers... parachutes... bomb rings... plane parts... helmet linings.

Paper to make or wrap every one of the 700,000 items now flowing to our men in action. Waste paper is a universal raw material of this war!

And remember! Just telling them isn't enough. Appoint somebody to do the job... to see to it personally that not a scrap of waste paper is thrown away or burned!

Give that person authority to clean out old files... to empty store-rooms... to round up those tons of dead records that are never referred to.

Get set on a regular paper-saving plan. Then stick to it... and we'll open those closed war plants... and see our boys marching back a lot sooner... victorious!

Newspapers: Fold them flat (the way the paper boy sells them) and tie them in bundles about 12 inches high.

Corrugated and Cardboard Boxes and Cartons: Flatten them out and tie them in bundles about 12 inches high.

Magazines and Books: Tie them in bundles about 18 inches high.

Wastebasket Paper (Wrappers, Envelopes, Etc.): Flatten them out and tie them in bundles, so that it can be carried.

Parts Supply Now Loosening Says Lester

New equipment has been added to the Harry Lester Auto Supply company's motor rebuilding shop, enhancing the efficiency and production of the already modern unit.
Included in the new equipment is a connecting rod and resizing machine, and with other equipment, makes the shop one of the most complete in this section of the state. Lester is now prepared to rebuild any motor brought to his shop.
The veteran parts distributor sees a slackening of the pinch on parts and added that "they are coming through better and seem easier to get." Right now the Lester parts supply "is the largest we've had since the beginning of the war," good news for those who must keep their cars and trucks running through the period of emergency.
Besides stocking a line of parts and accessories to meet the need of any individual automobile operator, Lester specializes in supplying dealers and garages in a wide area of mid-West Texas. "We can furnish almost any type of shop and service equipment now," he said.

A veteran in the auto supply business, Lester has developed his business through years of service and sale of quality merchandise and through maintaining connections with the leading automotive and parts manufacturers. Among lines he features are the Perfect Circle rings and Thompson equipment.

Mine Workers Saved By Volunteer Crews

GUANAJUATO, Mex., Sept. 25 (AP)—Fourteen workers trapped inside "El Carmen" silver mine near here for ten days were rescued by volunteer crews yesterday.
Most of the miners were so weak they had to be carried out. Some said they ate part of their belts and other clothing to remain alive. They had water to drink.
The workers were trapped when a boulder blocked their exit during heavy rains Sept. 14.

Seed Supply Prospects Good For Cotton Oil Mill

The Big Spring Cotton Oil Mill is prepared to handle the 1944 seed supply, Manager Bill Davis announced.
Seed movement will not begin in earnest until the first of October he said, but when movement does begin the supply promises to be ample for the mill's needs. If it is possible to obtain the men, this supply is adequate to run two crews or twenty-four hours a day. It is believed that it will not be necessary to import soy beans.
The products from the seed are numerous and varied, the most widely used in this section, being the meal and cake. This year due to extreme dryness and a scarcity of other feed and pasturage, this type of feed is in special demand. From one ton of cotton seed it is possible to obtain 900 pounds of cake or meal.
Each ton produces 290 pounds of cotton seed oil, 450 pounds of hulls, and 200 pounds of lint. The hulls are used for roughage for cattle and also in the manufacture of furfural by the government, which is used in the manufacture of lacquers, dyes, plastics, and so forth. Of the 200 pounds of lint, 80 per cent goes into the manufacture of munitions, and the remaining 20 percent is used for making mattresses and upholstery.
Davis urges all farmers to use all the meal and cake they need personally, but he asks that they leave the balance to be distributed by the oil mill. He promises that the remainder will be distributed among the dairymen and ranchmen in the Big Spring territory.

How much does it cost to move a pin?

On a war map of the South Pacific, the little red-white-and-blue pins march steadily westward. Tarawa... Makin... the Marshalls... Saipan... and each move brings the pins closer to Tokyo. Each move is mighty expensive business. The cost is high in dollars... the cost is high in men.

To plant the Stars and Stripes on Saipan cost the lives of more than 2000 American boys... plus some 12,000 wounded and missing.

Naturally, these losses cannot be summed up in dollars and cents... there is not enough money in the world to bring back 2000 dead Americans.

But in guns, ammunition, and other equipment, it is estimated that Saipan cost us many millions of dollars. Each of the many steppingstones remaining between our forces and Tokyo may cost as much or more.

Where is the money coming from?

It's coming from you, and millions of Americans like you... from the taxes you pay, and from the War Bonds you buy.

And while it may pinch a little, buying those Bonds is the smartest thing you ever did.

For the dollars you put in Bonds not only help win the war. They come back to you later—and bring more dollars with them.

In this postwar world we're going to build, they'll be the most valuable dollars anybody ever owned.

Get all you can of them—now!

Tigers Virtually Clinch Pennant But St. Louis Still Holds Chance

By JOE REICHLER
Associated Press Sports Writer

It is no longer a question of who will stop the Detroit Tigers—but how can they lose?

The American league leaders yesterday made it four straight over the Boston Red Sox, 9 to 5, to cling to their one-game edge over the St. Louis Browns with only seven games left to play against the second division Philadelphia Athletics and Washington Senators.

A rousing three-run ninth inning rally kept the Browns in the running with an uphill 3 to 2 triumph over the A's, but the New York Yankees were all but mathematically eliminated by falling before Mel Harder of Cleveland, 4 to 1.

As the campaign starts its final week everything thus favors the Tigers. They have won 24 and lost 15 to the A's and Senators while the Browns, who must battle the Yankees and Red Sox in their last seven games, have won only 18 and lost 19 to their first division foes.

"Hurricane" Harold Newhouser chalked up his 27th victory of the season as the Tigers humbled the Sox before 48,702 at Briggs stadium in their last ten starts and 22 of their last 27.

In coming from behind to nip the A's, the Browns chalked up their fifth in a row behind Jack Kramer's effective twirling for his 16th victory of the year. Mark Christian doubled home the tying runs in the ninth, then scored the winning tally on an error.

The Chicago White Sox extended their winning streak to six straight by sweeping a twin bill from the Senators, 9-3 and 2-0. Thornton Lee, pitching his first game since he fractured his wrist

July 9, won the opener. Ed Lopat blanked the Nats with six hits in the nightcap.

St. Louis' champion Cardinals became the first National league team to win over 100 games for three successive years when they took two from the Philadelphia Phillies, 4-3 in 16 innings and 1-0 in nine frames. Whitey Kurowski's homer gave Mort Cooper his 22nd triumph in the opener. Ted Wilks won his 17th against three defeats in the finale.

The Pittsburgh Pirates broke even with the New York Giants in 10 innings 3-2 after Bill Voiselle had beaten them 5-4 for his 21st victory in the opener. The Chicago Cubs and Brooklyn Dodgers also divided, the Cubs winning 4-3 on Bill Nicholson's 33rd homer, after Curt Davis raked up his tenth game for the Dodgers in the opener 10-3. Cincinnati took two close ones from Boston 2-1 and 1-0 on good pitching by Harry Gumbert and Arnold Carter.

NTAC Aqs Prep For SMU Clash

ARLINGTON, Sept. 25 (AP)—The North Texas Aggies will be training today in preparation for a game next Saturday with Southern Methodist University in Dallas.

The Aggies lost to Tulsa last Saturday 4 to 6. For all but two members of the Aggie squad it was the first game of college football.

The Aggies suffered no injuries in Saturday's game. J. R. Rogers of Austin, quarterback and F. D. Rogers, both passers, will spark the passing attack against SMU. Jesse (Red) Burdett, running back who transferred from Texas A&M college who didn't see action against Tulsa, will be in the lineup next Saturday.

McMacken Named All-Around Cowboy

LEWISTON, Idaho, Sept. 25 (AP)—Bill McMacken, Florence, Ariz., won the "all-around cowboy" title at the ninth annual Lewiston Roundup yesterday as the show closed after three days of competition by cowboys in national title races.

James McMeniston, roundup association president, said yesterday's attendance totaled more than 13,000.

Bob Burrows, Burly, Idaho, shared top bareback riding money with Bob Wilkinson, Throckmorton, Texas.

Dorrell Certain Of Win Tuesday Night From Zivic

AMARILLO, Sept. 25 (AP)—Private Artie Dorrell of Amarillo Army Air Field, a Texas welterweight who won fistic prominence in the east after he turned pro in 1939, is confident he will whip Fritz Zivic when they meet tomorrow night in a ten-round engagement at Galveston.

Dorrell lacks Zivic's experience, but he believes his punching power, speed and deception will give him the edge over the former welterweight king.

"Zivic is an old man, as far as fighting is concerned," Dorrell said. "He's colorful and he's still a dangerous puncher, but he'll have a hard time lasting ten rounds, I think."

Death Claims First Lady Of Tracks

NEW YORK, Sept. 25 (AP)—The First Lady of the American turf, fabulously wealthy Mrs. Payne Whitney, 68, died yesterday.

She was the daughter of John Hay, secretary of state in the cabinets of Presidents McKinley and Theodore Roosevelt. Her husband, financier Payne Whitney, left an estate valued at \$250,000,000 at his death in May, 1927.

As mistress of Greenree Stables she was the owner of two Kentucky Derby winners and a number of stake and steeplechase champions. Twenty Grand carried her cherry and black silks to victory in the Louisville classic in 1931 and Shoutout triumphed for her in the 1942 race.

Eight Paratroopers Die In C-47 Crash

CAMP MACKALL, N. C., Sept. 25 (AP)—Eight paratroopers and four crewmen were killed last night in the crash of a C-47 transport plane during a mass parachute jump as a part of troop-carrier airborne maneuvers in this area, the public relations office announced today.

Four paratroopers leaped to safety. Headquarters announced that 30 men required medical treatment in the mass jump, largest night jump ever held in this country.

A board of inquiry will investigate the accident. Names of the victims will be announced later.

Golden Sandstorm Plays Vernon In Area's Top Clash

By HAROLD V. RATLIFF
Associated Press Sports Editor

Conference warfare blazes in five of the sixteen districts of Texas schoolboy football this week but feature battles still are those that match sectional strength.

Vernon at Amarillo, Breckenridge at Wichita Falls, Denison at San Angelo, Sherman at North Side (Fort Worth), Marshall at Waco and Greenville at Tyler are the top games of the third week of the campaign.

There were plenty of upsets last week, the chief one being the downfall of San Angelo, defending state champion, at the hands of underrated Lubbock. The Westerners won 7-6 to become standouts in the ranking of West Texas teams.

Amarillo was impressive Saturday night in its 12-0 decision over Abilene, an outfit that gave heralded Breckenridge a mighty tussle. Vernon's strength is not definitely established although the Lions are unbeaten and last week trimmed what was supposed to be a good Altus, Okla., outfit 34-19.

Wichita Falls flung the danger sign to Breckenridge with its 32-0 decision over Amon Carter-Riverside (Fort Worth).

Sherman hurried over McKinney 58-0 and North Elde appears to have its work cut out for it if it stops the Bearcat powerhouse this week.

Marshall and Waco hook up in the feature tilt of Central Texas. Waco smashed Jeff Davis (Houston) 47-7 last week while Marshall was trampling Naacoches 52-7.

Greenville, which has shoved forward as the outfit to beat in District 5, Denison to the contrary, and the upsurging Lions of Tyler, will put on a game holding the attention of all East Texas.

The Denison-San Angelo game was billed weeks ago as a top battle of the year but it lost some of its glamor when San Angelo lost to Lubbock and Denison was beaten out by Waxahachie 14-13. It still should rate plenty of interest, however.

Rice Battles Randolph; SWC Champs Meet Pirates

By The Associated Press

Randolph Field has three teams and the coach isn't sure which is the best—and that's what Rice Institute faces Saturday night when the Owls get down to business in the Southwest conference football campaign.

It's the feature battle of the week-end and it will show what the conference can expect from its tests with the mighty Ramblers. Randolph Field, you know, plays Rice, Texas and Southern Methodist, the three outfits most

quarters think will make up the first division in the conference race.

Vying with the Randolph-Rice game for top rating will be the Texas - Southwestern struggle at Austin. Texas will be making its start and seeing if it will have a running game this season, something Coach D. X. Bile has been worrying about since the 1943 campaign ended.

Southwestern is not as strong as last fall when the Pirates handed Texas its only defeat but the

Pirates certainly are not to be taken lightly. Texas isn't as good either.

Other games this week send Arkansas to Oklahoma City Friday night to meet Oklahoma A&M, while Saturday finds Texas Christian entertaining South Plains Army Air Field, Southern Methodist engaging North Texas Agricultural College at Dallas and Texas A&M meeting Texas Tech under the lights at San Antonio.

Four of the six conference teams made suspicious starts last week. Arkansas and Texas Christian registered gratifying sectional triumphs, the Ramblers edging out a good Missouri team 7-6 and Texas Christian scoring in the final minutes to beat Kansas 7-0.

Yanks Capture Food But 'Cabbage Kids' Unhappy

By HAL BOYLE
WITH U. S. TROOPS IN FRANCE, Sept. 19 (Delayed AP)—Everybody in the American army is pleased with the supplies taken in captured German dumps except the "cabbage kids."

That is the name one detail gave themselves after being assigned to remove a couple of tons of cabbage left behind by the precipitate Nazi retreat from the Paris area.

It was a farm, sunshiny afternoon and the strong, overripe cabbage made its presence widely known as the soldiers shoveled it into a truck.

The driver of the "Red Ball Cabbage Special" said he had already carried away one truckload and was bemoaning the fact

that it was not a load of Luger pistols so he could have stocked up on souvenirs.

"But you can't mail your friends a boxful of German cabbage," he said, leaning against a tire and holding his nose.

"The next time the Jerris move out I hope they take their cabbage with them—or make sauerkraut out of it," said a private.

Pvt. Solon Gray, of Flint, Mich., just shoveled away in silence as two "cabbage removal" squad sergeants looked on from a safe distance.

"Well shovelling rotten cabbage may seem rough to you guys," said Beale, "but I had to spend more than 32 months in Iceland. I used to say I would shove anything—even German cabbage—rather than be in Iceland."

Another unusual job for soldiers was performed by Army engineers who built three ferries and operated a passenger service for troops and vehicles across the Loire.

All bridges had been knocked out by Allied planes or blown up by French Maquis to trap German forces in southern France.

Ferry vehicles were made by putting pieces of treadway bridging across six assault boats lashed together. They were powered by small outboard motors whose efficiency amazed French farmers. They couldn't see how such a little putt-putt gadget could work so well.

The ferries were promptly named the "42nd St.," "Brooklyn" and "Hoboken."

"We can take a ton and one-half ambulance across," said Corp Michael Suprock, of St. Clair, Pa.

Their most "distinguished" passenger was Maj. Gen. Erich Elster who surrendered the last 20,000 enemy troops south of the Loire. But his 20,000 troops walked across a bridge which had been repaired and put into service soon after.

Big Spring AAF Graduate Completes Thirty-one Missions Over Europe

"Joanne" was the Flying Fortress that carried Lt. Parke H. Tamplin of Troy, Ohio, graduate of the Big Spring Bombardier School class 43-9, through thirty-one hazardous missions over Germany, but none quite so miraculous as the Berlin raid of May 24.

Two Forts directly preceding his plane in the formation attacking Germany's capital that day exploded simultaneously just before they reached the bombing run and, through the sheet of flame left by the explosions, Joanne was forced to fly.

The wingman gave the ship up for lost, but a split second later she emerged from the red ball of flame with her rudder, one aileron and most of the elevators burned away, but still flying. The glass in the cockpit was covered with soot as well as all the rest of the plane.

For the next 15 minutes the pilot maneuvered the crippled bomber through countless enemy fighter attacks and black clouds of bursting anti-aircraft fire. Hours later he set her down in a perfect landing at his base.

The crew walked away from the ship, unharmed except for the tail gunner, who bailed out over the target, apparently driven out by the oven-like heat centering near his position.

A photograph of the rear of the bomber, taken after its return from the raid, shows Lt. Tamplin and other members of the crew standing with their heads and shoulders through the frame of one elevator, the fabric covering having been burned off.

Holder of the Distinguished Flying Cross and the Air Medal with three oak leaf clusters, Lt. Tamplin has to his credit 51 combat missions against such German cities as Schweinfurt, Berlin, Ludwigsfelde, Kiel, Hamburg and Brunswickhafen.

Todd Notes South's Anti-Roosevelt Trend

NEW ORLEANS, Sept. 25 (AP)—Republican National Treasurer Honest Ross Todd, Louisville, Ky., said here yesterday that he has noted a "tremendous anti-fourth term" sentiment in several southern states he has visited.

Todd said his trip here was to "raise money, not to get votes." He left for Texas last night.

Chicago Bears Left Behind By Packers

CHICAGO, Sept. 25 (AP)—The champion Chicago Bears have been left at the post in the 1944 National Football league race.

Their debut was spoiled yesterday at Green Bay, Wis., when the potent Packers of Curly Lambeau rallied for their second league victory with a routing 42-28 decision before 24,000 fans.

In the only other loop fray, the Cleveland Rams celebrated their return to competition after a year's hiatus with an eye-lash 20-28 triumph over the Pittsburgh-Chicago combine. The campaign opener for both was witnessed by 20,968 at Pittsburgh.

Navy Team Has Edge In Servicemen's Series

HONOLULU, T. H., Sept. 25 (AP)—The Navy goes into the third game of the "servicemen's world series" this afternoon with a two game edge over the Army's star-studded baseball team.

The Navy took the first two tilts of the seven game series 5-0 and 8-2.

Settled But Not Healed

The War Today

While the historic decision of the Texas supreme court Saturday, which upheld the right of the September democratic convention to replace 15 electors who said they would not support the Roosevelt-Truman ticket, clears up one big problem, it certainly will not restore serenity to the ranks of the party.

The decision is significant for it reasserts the previous position that a party is its own agent and has power over its internal affairs. This position is apt to stand, for though the court summarily closed the doors to further action due to the shortness of time before deadline for filing for places on the ballot, there is no practical way to challenge the legality of the denial, indeed, if there is question of it.

Thus it is that the anti-Roosevelt forces, victims of an unfavorable turn of events in the September convention and of an adverse court decision, are scheduled today to enter a slate of electors under a new party name. This surprises none. It is exactly what the pro-Roosevelt forces would have done should the court's ruling been the opposite.

Certainly, there should be no disposition to deter those who wish to list the new slate of electors. Several of the Roosevelt leaders have wisely agreed that the anti-Roosevelt faction is welcome to this procedure.

To us this seems the most practical solution of the problem at hand. Those who vote the straight ticket may still cast their ballots for national nominees without having to break the column to cast a positive vote. On the other hand, those who wish to vote the anti-Roosevelt ticket will have full opportunity to register their solemn right of voting for whom they will please. But since the term "anti" indicates protest or opposition, it is perhaps proper that this be listed under another column. It will be a certainty that every vote that goes into that column will be intended for it.

Clearing the way for insuring the counting of ballots as they will be intended does not presuppose peace and harmony in the party. The rift is deep. Not until the people speak at the polls will there be irrefutable proof of which group carried with it the weight of majority democratic opinion in Texas. Even this will not compose the difference.

This has been a party "civil war" and its bitterness will linger inevitably. It is not inconceivable that it could, within our generation, lead to the development of a two party system in the state. The fire is burning. Time will tell whether it smelts or merely damages. Without being a Pollyanna, we think that the meeting of minds on well defined issues ultimately weeds good although unpleasantness is the immediate fruit.

Combining business and pleasure is easy. But combining vacation and pleasure is next to impossible.

The man who marries to have someone to tell his troubles to soon has plenty to talk about.

Perhaps 't would have been better if the Plymouth Rock had landed on the Pilgrims.

Politicians are great felovos. They have to straddle the fence and keep both ears to the ground.

Hollywood—

How To Break The Caste System

By ROBBIN COONS
HOLLYWOOD — Jeffrey Bernerd, the producer, was wondering aloud how it would feel to sit in a producer's chair at a big studio and order big stars from a big contract list into one of his pictures.

"They don't know," he said, "what a struggle it is for an independent to get a cast."

Bernerd, who used to produce movies in England, could talk that way because, even though he's at little Monogram, he had a cast before him on the set that was a triumph over the snobbish or caste system which prevails in Hollywood and makes it tough for the indies to get big names even for big money. Why, Bernerd even had a venerable British knight, with a real title, in his cast, Sir Aubrey Smith. He also had Frank Craven, Conrad Nagel, Johnny Mack Brown, Mary Boland and Johnny Downs gathered around Gale Storm, the promising new heroine.

To get these people together for "They Shall Have Faith" Bernerd started out like the man who would have ham and eggs if he had some eggs and could get some ham. His quest began with his friend Herbert Marshall, with whom he had once worked in England. Marshall was willing, until his agent stepped in with that horrified expression denoting "Work for MONOGRAM? Never!" Bernerd raised the ante, but the answer was still no.

He tried Mary Boland, who was friendly but insisted that she never would work except for major studios. He tried Sir Aubrey, and that broke the spell. Sir Aubrey took the practical view that Monogram's money was as good as anybody's, and it was a good part for him besides.

"So now," Bernerd exulted, "I could talk, having Sir Aubrey, I could interest Frank Craven. Having Sir Aubrey and Frank Craven, I could go back to Miss Boland—and inviting her to play in such company was quite a different thing. She accepted."

For the role which Marshall had refused Bernerd called on Conrad Nagel, who had been in radio and on Broadway (in "To-

tomorrow the World") but Nagel was sure that his price would be too high.

"You write your own ticket, and come on out," said Bernerd.

Gale Storm, Bernerd's "discovery" in "Where Are Your Children?" shares her RKO contract with Monogram, or vice versa, hence was available. And for a hero, well—

"One day I saw Monogram's cowboy, Johnny Mack Brown, on the lot and I said to myself, 'That's it! The front office thought I was crazy—maybe they forgot that Johnny Mack was a leading man before he took to the saddle—but I made a test and that convinced them. He's doing a grand job.'"

"They Shall Have Faith," written by Hollywood reported Neil Rau and George Sayre, is a romance dealing with the new treatment for infantile paralysis called muscle reinnervation, developed at California Institute of Technology and now being tried by the U. S. Navy.

BOMBARDIER CHAMP ON STRICKEN BOMBER RAMMED BY JAP ZERO

With the same precision he used back in May 1943 to capture second place in the first All-American Bombing Olympics held at Chidress, Lt. Gustaf E. Johnson of Brockton, Mass., graduate of the Big Spring Bombardier School class 43-8, knelt over the bomb sight in his Liberator and coolly and skillfully made last-minute calculations.

A few seconds later the crew heard his familiar "Bombs Away" as the deadly cargo screamed down on Jap-held Rangoon in southern Burma, and the bomber turned and headed back to its base in India.

Lurking in the clouds along the route home, a swarm of Zeros jumped the returning planes, shooting out two motors on John-

The Timid Soul

Ernie Pyle: American Nurses On Battlefront Praised By Soldiers And Doctors

By ERNIE PYLE

WITH THE AMERICAN FORCES IN ALGERIA, January, 1943 — The American nurses over here—and there are lots of them—have turned out just as you would expect: wonderfully. Army doctors, and patients, too, are unanimous in their praise for them. Doctors tell me that in that first rush of casualties they were calmer than the men.

One hospital unit had a nurse who were afraid of. She had seemed neurotic and hysterical on the way down. The head doctor detailed another nurse just to watch her all through the hectic first hours of tending the wounded. But he needn't have. He admits now she was the calmest of the lot.

The head of one hospital, a colonel who was a soldier in the last war, worked in the improvised hospital set up at Arzew to tend the freshly wounded. He says they worked 36 hours without sleep, with wounded men lying around knee deep waiting for attention. He says not a soul in the outfit cracked up or got flustered.

"You're so busy you don't think about it being horrible," he says. "You aren't yourself. Actually you seem to become somebody else. And after it's over, you're thrilled by it. Gosh, I hope I'm not stuck in a base hospital. I want to get on to the front."

The Carolina nurses of the evacuation hospital about which I've been writing have taken it like soldiers. For the first 10 days they had to live like animals, even using open ditches for toilets, but they never complained.

At this tent hospital one nurse is always on duty in each tentful of 20 men. She has medical orders to help her. In bad weather the nurses wear Army overalls.

But Lieut. Col. Rollin Bauchspies, the hospital commandant, wants them to put on dresses once in a while, for he says the effect on the men is astounding.

The touch of femininity, the knowledge that a woman is around, gives a wounded man courage and confidence and a feeling of security. And the more feminine she looks, the better.

Only about 100 of the hospital's

700 patients are wounded men. The others are just sick with ordinary things, such as flu, appendicitis, sprains. They've got a whole tentful of mumps, and a few cases of malaria and dysentery.

At the far end of the hospital, behind an evil-looking barricade of barbed wire, is what Col. Bauchspies calls "Casanova Park." Back there are 150 soldiers with venereal disease.

What's the barbed wire for?" I asked. "They wouldn't try to get out anyhow."

"It's just to make them feel like heels," the colonel said.

The hospital already has handled more than 1000 patients and hasn't lost a one. The doctors run to the nearest stake and knock on wood when they say it. The surgeons have performed more than 125 operations.

There's no red tape about whether a patient is legally entitled to enter the hospital or not. They take anybody who comes—soldier, civilian, Arab, Frenchman, anybody.

The way they ignore formalities when emergency arises is one of the things that have made me feel so warmly toward this battlefront hospital. The other day we were looking at those round-bellied iron stoves half-buried in the ground in each tent.

"What do you burn in them?" I asked Lieutenant Colonel Bauchspies.

"Wood," he said.

"Where do you get the wood?" I asked.

"Steal it," he said.

When you're saving lives you don't requisition and wait; you forage and borrow and even steal if necessary. And nobody stands on rank. Recently Major General Fredendall made an inspection tour thru the hospital. Colonel Bauchspies croaked hoarsely like a frog.

"How did you lose your voice?" asked the General.

"I lost it driving tent pegs," said the Colonel.

"Your guard looks nice," said the General. "Where did they get those new rifles?"

"I daren't tell you, sir," said the Colonel. The General smiled. And nodded.

Washington—

Farm Price Problem To The Fore

By JACK STINNETT

WASHINGTON — There's one question that's going to get bigger in the months to come. It is: how are farm prices going to be maintained as surpluses are released and demand drops off? It's the same old story that plagued us after World War I and both Capitol Hill and the administrative branch are starting to hammer their heads in an effort to solve the problem.

Office of War Mobilization Director James F. Byrnes first stated the dilemma when he warned Congress that it would probably take two billion dollars to support farm prices in 1945 at present parity levels. Byrnes isn't a pessimist. He has been informed that about six million tons of food (unprocessed wheat excluded) will be released when the war in Europe is over. He estimates that at least two million tons of this will have to be dumped on local markets, which leaves a generous allowance for continued military consumption and disposals through UNRRA to blighted Europe.

There already is talk here that farm incomes are likely to decline four or five billion dollars next year. While that still will be several billions above the 1919 level and more than three times the depression low, it has farm state Congressmen and farm venerated government officials worried more than almost any other phase of the postwar program.

According to Department of Agriculture experts the problem is simply this: Congress has told the farmers that it will maintain prices at 90 per cent of parity through 1947 (parity is the selling price that will produce the buying power of the farm dollar in the

All's Not Quiet On Texas Demo Front Despite Elector Decision

By PAUL BOLTON

The fight between Texas Democrats over presidential electors is not the only one. Behind the scene is another raging battle between the incoming and outgoing party leaders — specifically, the state executive committee officials.

Charles E. Simons, the secretary of the committee, has refused to turn over the various lists held by him of county chairmen, precinct chairmen, etc., until the incoming group meets a \$3,000 deficit in the party treasury.

And, up to this writing, the incoming officials haven't decided to meet that deficit, on the theory that the money was spent in getting to the May and September conventions de-

rates who would vote with the then prevailing faction, i. e., the anti-Rooseveltians. Which Simons vehemently denies.

Some of the "middle of the road" or "moderate" Democrats have counseled that the deficit must be met, as a legitimate expenditure by the party. Simons' records show that none of it went for his very considerable services; it was spent on postage, telephone and telegraph tolls and for clerical help.

It's understood that National Committeeman Myron Blalock has offered to contribute a part of the deficit himself, to start the ball rolling.

And speaking of fund raising, there's an explicit understanding between Texas Democratic leaders and the national committee that funds raised for the national party will be expended on the toughest races for Congress.

Texas is more interested than any other state in the union in keeping a Democratic majority in congress which will result in Speaker Sam Rayburn being re-elected Speaker; in Tom Connally continuing as chairman of the Senate committee on foreign relations.

Hatton Sumners continuing as chairman of the House judiciary committee; J. J. Mansfield continuing as chairman of the House committee on Rivers and Harbors; Ewing Thomson remaining in his senior position on the military affairs committee; Luther Johnson continuing as second in command on House foreign affairs. Those are the more important committees on which Texans have seniority, but there are others where a loss of leadership would be a hard blow. If a Democratic majority is retained, however, Texans are going to have a big voice in post-war reconversion regarding how the national election comes out.

To revert to the state's party affairs, one of the things which ranked Governor Coke Stevenson was the fact that when the convention in Dallas elected Harry Seay of Dallas as chairman and Bill Kittrell of Dallas as secretary, it was a departure from longstanding precedent.

Usually the governor picks the chairman and secretary. He asked the convention, through its pro-Roosevelt leaders to continue that practice and whatever else it did, to re-elect

SEARCHERS RECOVER BODY

ABILENE, Sept. 25 (AP)—Searchers last night recovered the body of Cpl. Edward J. Peterson, 21, of Abilene army air base, killed Saturday when an army plane exploded and fell into Lake Brownwood. His mother lives at Los Angeles, Calif., and his wife at Hamilton. Injured in the crash and taken to Camp Bowie hospital was Lt. Ernest F. Boruski, Jr., of Des Moines, Iowa.

CUSTODIAN ELECTROCUTED

HENDERSON, Sept. 25 (AP)—Solon S. Smith, 66, custodian at Gaston schools, Joinerville, was killed yesterday when he came in contact with a live power line near the school property. He was a native of Jack county.

City Life Dangerous After Chute Invasion

LONDON—Lt. Herb Palmer, 46-year-old Stars and Stripes correspondent from Hawthorne, N. Y., vaulted into Holland a week ago with paratroopers. Safely back in London after his hazardous assignment, Palmer slipped off a curb while pulling a taxi and sprained an ankle.

Northwest Test Running Core

Northern Ordinance No. 1 Spaulding, northwest Howard wildcat in section 7-33-1n, T&P, logged an odor of gas Monday at 6,895 feet and prepared to run a jeep and test core. The test is nearing limits of the "Tig." Slickly Oil No. 1 W. L. & R. G. Wilson, in northern Howard county, is reported drilling below 4,360 feet in lime. It is located in section 16-27, H&TC.

In south central Borden county, the Northern Ordinance No. 1 Clayton & Johnson was at 9,438 feet in chert but the formation was believed softening and operators looked to pick up lime soon. Location is in section 32-31-4n, T&P.

Richfield No. 1 S. N. Woody in Glasscock county was drilling at 4,550 feet in lime, according to last reports, and the Phillips No. 1 L. S. McDowell, northern Glasscock deep wildcat set surface string at 348 feet. It is located in section 31-34-2s, T&P.

Texas Co. No. 1 Johnson, Borden county deep test, was reported at 2,470 feet in anhydrite. Mitchell county's Ordovician exploration, the Magnolia No. 22 Foster, was below 6,903 feet in shaly lime and sand.

Cotton Clothing To Be A Scarcity

NEW YORK, Sept. 25 (AP)—The buying public will have a harder time than ever getting cotton clothing, handkerchiefs, curtains and draperies, according to a Price Administration order necessitated by the Bankhead amendment. Textile Fabrics association spokesmen said today.

The Bankhead amendment to the price control act required the raising of cotton grey goods ceiling prices to reflect full parity returns to the cotton farmer. Under the OPA order, converters—distributors of finished cotton goods—must absorb the full increase.

Converters claim the absorption takes from 30 to 90 per cent of their gross profits, and in some instances amounts to more than gross profits.

Corsicana Site Of February Convention

LONGVIEW, Sept. 25 (AP)—Corsicana was selected as the site of the February meeting at the closing session of the region 3 junior chamber of commerce convention here yesterday.

Curtis Morris of the East Texas chamber of commerce declared in an address that inflation to pay the war debt brought Germany and Italy to dictatorship and that there were only two other means: repudiation and paying up with honest dollars, the latter being the hardest but best way.

Morris said the CIO now favors private enterprise to provide job opportunities and has the East Texas chamber of commerce on its mailing list as "friends outside organized labor." He said the CIO and the National Association of Manufacturers now sponsor the same post-war aim in this respect.

Injunction Stayed By Federal Court

NEW ORLEANS, Sept. 25 (AP)—The United States Fifth circuit court of appeals stayed today a preliminary injunction granted Sept. 21 by Federal District Judge William H. Atwell in the Northern district court against alleged government efforts to seize the Ingleside, Texas, refinery of the Humble Oil and Refining Co., in a labor controversy.

The circuit court's order, dated Sept. 23, was recorded today in the appellate court here, together with records of the case. The order was signed by Judge Edwin R. Holmes. The injunction granted by Judge Atwell was suspended pending disposition of the case in the circuit court of appeals.

Ickes Says Dewey Throws In Sponge

PITTSBURGH, Sept. 25 (AP)—Secretary of Interior Harold L. Ickes, addressing the second annual American Slav congress rally here, described republican presidential candidate Thomas E. Dewey as "one of the most ardent New Dealers of them all, if one is to believe his speeches."

In observing the New York governor's recent speech at Los Angeles, in which he upbraided "the New Deal for not being New Dealish enough," Ickes declared to a crowd of 7,000 yesterday: "Four years ago I observed that Mr. Dewey had thrown his diaper into the ring. At Los Angeles on Friday night he threw the sponge after his diaper."

Donor Record Topped At Randolph Field

RANDOLPH FIELD, Sept. 25 (AP)—Military and civilian blood donors at Randolph Field have chalked up a new national record in amount of blood contributed to public relations office said today.

Winding up a week of donations through a Red Cross mobile blood bank unit, 394 donors Thursday broke a one-day 359 pint national record held by Kelly Field. Then Friday donors swamped the unit to set a new all-time high with 442 pints, said the statement. It described the week's total of 1654 pints as the largest ever collected in a single week by the Red Cross unit.

Miss Grace Taylor, Noted Writer, Dies

HOUSTON, Sept. 25 (AP)—Funeral services for Miss Grace B. Taylor, widely known in literary circles for her poems and other writings, will be held here at 4 p. m. today. Burial will be in Forest Park cemetery. Miss Taylor died yesterday in St. Joseph's infirmary after a year's illness.

Daughter of the late Col. Nathaniel Alston Taylor, Miss Taylor was born in Houston. Col. Taylor was author of "Two Thousand Miles in Texas on Horseback," considered one of the foremost books on early Texas times.

Eisenhower Spokesman Tells German Foreign Workers The Time Has Come

SUPREME HEADQUARTERS ALLIED EXPEDITIONARY FORCE, Sept. 25 (AP)—A spokesman for Gen. Eisenhower told the 12,000,000 foreign workers in Germany today that "the hour for action has come" and gave them instructions for activities in the last round of the battle for Germany.

The workers were exhorted to beware of the gestapo and not to underestimate its powers.

The text of the message: "The hour for action has come! "Note carefully the following instruction: "The organized cells of foreign workers within the Reich will take immediate action to the pre-arranged plan. Members of organized cells will refrain from all unorganized resistance and useless provocation of the gestapo. They will obey the orders of their leaders precisely. "Foreign workers who are not members of organized cells and who have not already carried out my instructions to go into hiding in the town or — preferably — on the land, will do so at once. "I have already warned them that they are in gravest danger if they remain in the factories. Their safest course is to disappear from the towns and cities and to seek shelter and employment on the land. "In certain areas of Germany workers of the organized cells are today being provided with means

for active resistance. These instruments will not be effective if they are used thoughtlessly or without purpose. Those of you who find them should immediately read the instructions that are provided and memorize them. Then destroy the instructions. Hide the instruments in a safe place. Determine carefully where and how the instruments can be used most effectively. Work out your plan of action. After your plan is complete in every detail — and only then — put the instruments to the use for which they are designed. "Bear in mind, while deciding on your plans, that foodstuffs and crops in Germany will be needed after the defeat of Hitler. "Act wisely. Do not underestimate the power of the gestapo. However, remember that today the gestapo stands in fear of the 12,000,000 foreign workers who, by acting now, can seal the fate of the Third Reich."

Nazis Request Jewish Prayer Books In Prison

FORT CUSTER, Mich., Sept. 25 (AP)—A Jewish army chaplain told how Jewish members of Hitler's Wehrmacht — newly arrived at Fort Custer prisoner of war camp from the beach of Normandy — exercised their newly-found freedom by requesting Jewish prayer books, Jewish scriptures and Mezuzahs even before putting aside their German army uniforms for captive garb.

Chaplain Perley said he was "flabbergasted" when he received a call from director of the prisoner of war camp asking him to visit a group of Jewish captives who had just arrived from the battle fields of Normandy.

"Jews in the mighty Nazi army?" he exclaimed. "It sounded incredible." I found the men in a separate compound. There were about twenty in the group and they were still clad in the uniform of the German army. Some of them could speak a little English and I could understand a little German.

"Most of them, I found, were half-Jews, and only one of them was a full Jew. Some had apparently spent months in German concentration camps but when the manpower shortage in Germany became acute they were drafted into Nazi labor battalions. D-Day found them in Normandy working on fortifications."

According to camp officials, when the beachhead was established and the Allies started their advance along the Normandy peninsula, these men were given uniforms, arms and ammunition and absorbed into the German army. Some had been in the army only eight days before they were captured.

Body Of Guy Nabors Found In Dallas

DALLAS, Sept. 25 (AP)—The body of Guy Nabors, 31, who served a term in the penitentiary for the shooting of Eddie Roark, Dallas lawyer, was found in a street in South Dallas early today by Patrolman C. R. Hall.

There was a bullet hole in Nabors' head and another in his neck.

Hall said he was attracted by two automobiles speeding in the vicinity. The policeman gave chase but lost track of the cars and returned to make a cruise in the general area where he spotted Nabors' body sprawled in the street.

Detective Chief Will Fritz said Nabors had been a member of a party visiting Dallas night spots.

Survivors Are Urged To Make Application

Elliott W. Adams, manager of the San Angelo office of the Social Security Board, urged that survivors make application for insurance benefits provided by the Social Security Act. These applications must be presented before the end of the third month after the worker's death. Unless this application is made, the money is lost.

Although the number of cases in which benefits are lost is very small, the fact that they occur is indicative that there are still a number of people who are protected by the Social Security Act without their being aware of it, Adams said.
