

Council Votes On New Constitution

JULIAN F. RODRIGUEZ
Toreador Staff Writer

The Student Council will convene tonight to vote on the new Student Assn. constitution prepared by the Council constitutional committee.

The meeting is scheduled to get underway at 7:30 p.m. at Ad. 228.

Also on the agenda for the night will be the approval or disapproval of the 1961-62 allocations.

Early in the year a committee was asked to revise the present constitution. Council members have said it was discovered after study that the constitution was not serving its main purpose, but was prohibiting many objectives of the Student Assn. and its government.

A decision was reached that a new charter was needed as a replacement. Part of the fall semester was spent in the construction of the new constitution and work was continued into the spring session.

Aiding the committee in the reconstruction was Ruth Cowart, Tech government professor and a sponsor of the Council, and members of the Supreme Court.

Recently the committee submitted to the Council its finished work for further study.

Should the Council okay the charter tonight, it will be given to the newly-elected Council.

A committee set up by President R. C. Goodwin must submit its approval before the Student Assn. votes in an all-college election next fall for final adoption.

Indications were given by two Council executive officers that the 1961-62 budget might be met with some difficulties before being approved tonight.

Previously allocations have been prepared in the fall semester. However a state ruling requires now that it be done in the spring session of the year.

'61 La Ventana

Pennington Receives Dedication

By **JEANNIE BOOKOUT**
Toreador Staff Writer

"It is our pleasure to name Marshall Pennington as Texas Tech's Man of the Year. The 1961 La Ventana is dedicated to you."

This is part of the speech heard by a hall-way full of students, faculty members and administrators during the Monday afternoon ceremonies dedicating the '61 La Ventana to Marshall Pennington, vice president and comptroller of Texas Tech.

The tall, athletically-built Pennington was obviously surprised at the unexpected honor. "I'm speechless" he said, as Pat Porter and Ellen Venable, co-editors of the yearbook, handed him a reproduction of the cover which will appear on the Tyne section of the La Ventana.

"I think this is the nicest thing that has happened to me in my 25 to 26 years in the field of higher education," Pennington said to the group.

Pennington was chosen for the honor by the unanimous vote of the entire La Ventana staff on the first ballot.

"We feel that Mr. Pennington has been a credit to Texas Tech for many years and we were only too happy to honor him this year for those many years of service," Miss Porter said.

Often called "the right hand man" of the president and the board of directors, Pennington is responsible for directing the operation and development of the \$40 million plant of Tech. He is also the person who sees that the biennial budget of \$10 million is expended properly.

This man, who is known for the personal touch which he keeps with the various aspects of the college, came to Tech in 1949.

"I knew then," said Pennington, "that Texas Tech had a splendid future and it certainly has been borne out through the years."

Pennington played football and basketball at the University of Texas where he was graduated with a bachelor of business administration degree in 1935. Before coming to Tech he coached a Border Conference Championship basketball team at Texas Western College and was business manager and assistant to the President there. He also served two years wartime duty with the Navy.

Twin Open House

Two Schools Plan Shows For Weekend

A twin open house will take place on the Texas Tech campus next weekend when the annual Engineering Show and the Home Economics Open House are staged.

Fifteen departments will participate in the engineering program, planned from 2 to 9 p.m. Friday through Sunday.

The Home Economics show will be held from 1 to 10 p.m. on Friday and 9 to 5 p.m. Saturday.

The engineering exhibits are designed to display the output of the departments and the work achieved by the students before graduating.

Among the exhibits is one entitled, "Murderers Beware—Chemistry Tells All," demonstrating the use of chemistry in crime detection.

Another will consist of a generator which produces from ¼ to ½ million volts. An "unbeatable" tic-tac-toe game, a Nike-Hercules missile, a landscaping exhibit and a lie detector demonstration will also be presented.

Four judges will decide on best departmental and individual exhibits.

Highlighting the School of Home Economics' two days of demonstrations and displays will be the annual style show, "New Directions in Fashions," which is in keeping with the theme, "New Directions in Home Economics."

The style show will be divided into six shows with coeds modeling clothes they made. Three shows will be Friday afternoon at 2, 4 and 7:30 p.m. Saturday the last three shows will be at 10:30 a.m., 2 p.m. and 3:30 p.m.

Each department in Home Economics will add to the color and activities of the Open House by having special demonstrations and displays in the various rooms of the building.

The applied arts department will demonstrate interior decorating, plus the use of art in developing and understanding children. The food and nutrition department has plans to demonstrate the necessity of healthful and useful diets, while the department of home economics education will give various methods of teaching home economics along with a number of displays on Civil Defense and First Aid.

In rooms 159 and 160 home management will give displays on guidance to students in the management of personal and family problems.

Plus the style shows, the clothing and textiles department will have demonstrations and displays on new laboratory equipment and selection, use and care of fabrics.

See Page 3

Assailant Unidentified

Acid Attack Hospitalizes Editor

An unidentified person threw acid in the face of the editor of the Toreador, Ralph W. Carpenter, shortly after 8 p.m. Monday on the steps of the Journalism Bldg.

Carpenter was taken to West Texas Hospital and doctors reported his condition late Monday night as serious.

The acid-throwing occurred when Carpenter stepped outside the front entrance to the Journalism Bldg. to drink a Coke. He told investigating officers he did not recognize the assailant, but "had a pretty good idea who the skunk was."

When the editor started screaming after being hit by the acid, Joe Wilson, custodian for the Journalism Bldg., rushed to his aid and began wiping the acid from his face with a towel.

Doctors said late Monday that Carpenter's face was "maimed" and that he might possibly lose sight in his eye.

The Tech Security Patrol was reported making an extensive investigation into the attack.

Officers had not made public late Monday night the

type of acid involved, although laboratory tests were expected to be made this week on the acid.

A fist fight broke out about 1 p.m. Monday in the Tech Union between Carpenter, Toreador editor, and James Wagner, senior government major from Palestine.

The fight was the second in about a week's time between the pair.

Eyewitnesses in the Union said Wagner was drinking coffee when Carpenter came in and the two "had words." Then they "squared off and started swinging hard and fast." Several nearby Aggies broke up the impromptu fight rather quickly and Wagner left the Union.

The Toreador staff contacted Monty Bray, local district attorney, who said a "thorough investigation is now underway concerning the fist fight."

Bray, when contacted late Monday night, said Wagner was now a "rather strong suspect" concerning the acid-throwing.

(The above, in case our readers have not already guessed it by now, is all a part of the annual campus hoax, the mock crime and trial.)

Smith Speaks To Aggie Club At Spring Meeting Today

Wilmer Smith, member of the Tech Board of Directors, will be guest speaker for the Aggie Club spring meeting at 7:30 p.m. today in the Aggie Auditorium.

Smith will speak on the "National Outlook of Agriculture" with special emphasis on Tech and the West Texas area.

Smith, Lynn County cooperative gin official and farmer at New Home, was recently elected vice president of the Texas Cotton Ginners' Association.

His other activities in local,

state, and national agriculture include president of Plains Co-op Oil Mills and the New Home Cooperative Gin, vice president of Plains Cotton Growers Association, a member of Kennedy's National Agriculture Advisory Committee and the Democratic Cotton Advisory Committee.

A graduate of Tech, he received his degree in government in 1937. From 1937-1941 he served as principal of the Cotton Center School in Hale County. He was selected as 1960 Man of the Year in Texas Agriculture by Progressive Farmer Magazine.

Pi Phi's, K Sigs Win In Interfraternity Sing

Three sororities and three fraternities were chosen winners of the Interfraternity Sing Saturday night in the Lubbock Municipal Auditorium.

Dressed in white formals, Pi Beta Phi sang "Song of the Seasons" to win first place among sororities.

Alpha Chi Omega received the second place trophy. Pajamas of pastel colors set the background for selections from the "Pajama Game."

Zeta Tau Alpha was named third place winner. The Zeta's appeared in tailored dress of black skirts and sweaters.

Among the fraternity groups, Kappa Sigma was chosen first place winner. The Kappa Sig's sang a "Medley of Show Tunes," and "Mister, He Kissed Her". Kappa Sigma was also awarded the traveling trophy.

Phi Gamma Delta offered considerable variety in the program as blackened Fiji faces sang a "Medley of Southern Songs". Vaudeville-type jokes brought laughter from a previously quiet audience as judges chose the second place winner.

Sigma Alpha Epsilon was named third place winner. The SAE's sang "Stout-Hearted Men" and the "SAE Medley."

Gamma Phi Beta and Phi Kappa Psi, Sing Song winners for the past three years, combined to sing selections from "Carousel" under the direction of Ray Moore, Tascosa High School, Amarillo.

Tech-Style Olympics Saturday

This year's version of the annual Fiji Olympics will begin at 2 p.m. Saturday in front of Drane and Horn Halls. The event is sponsored by Phi Gamma Delta, social fraternity.

The Olympics will include the following events:

THREELEGGED RACE—two girls with legs tied together will race a distance of 25 yards, then turn and return to the starting line. Each organization is allowed two teams.

BASEBALL THROW—an individual event with longest throw winning. Each organization may enter three girls, getting two throws each.

WHEELBARROW RACE—each team consists of two girls, one pushing the other in a wheelbarrow for a distance of 25 yards.

EGG TOSS—two girls to a team. An egg is tossed back and forth between two persons as each person moves backward. The team making the longest successful toss wins. Tossing continues until the egg is broken.

SACK RACE—a relay race consisting of four girls to a team. Only one team to an organization may enter.

TUG-OF-WAR—Five girls to a team, with one team per organization.

Preliminaries will be held in the three-legged race, tug of war, and wheelbarrow races. The winner of the preliminaries will advance to the finals, which will be held after all preliminary races in that event have concluded.

Points will be awarded in the following order: First place, six points; second place, four points; third place, two points. In the tug of war and sack race, first place is ten points, second place, six points, and third is four points.

A traveling trophy will be awarded the sorority with the most points. Winner last year was Pi Beta Phi. The trophy is retired after it has been won by a group three years in succession.

EVERY COLLEGE STUDENT needs this book

to increase his ability to learn

An understanding of the truth contained in Science and Health with Key to the Scriptures by Mary Baker Eddy can remove the pressure which concerns today's college student upon whom increasing demands are being made for academic excellence.

Christian Science calms fear and gives to the student the full assurance he needs in order to learn easily and to evaluate what he has learned. It teaches that God is man's Mind—his only Mind—from which emanates all the intelligence he needs, when and as he needs it.

Science and Health, the textbook of Christian Science, may be read or examined, together with the Bible, in an atmosphere of quiet and peace, at any Christian Science Reading Room. Information about Science and Health may also be obtained on campus through the

Christian Science Organization at

Students Voice Opinions

Should United States Give Aid To Anti-Castro Forces?

By SARGE KLINGER
Toreador Staff Writer

Should the United States aid anti-Castro forces now fighting in Cuba?

Texas Tech students gave their opinions on this and other related questions concerning the pro-communist regime of Fidel Castro Monday afternoon, a scant 12 hours after fighting erupted for control of the island stronghold.

Freshman pre-med major Walter Bond from Lubbock viewed Castro's accusations against the United States as masterminded by the Kremlin.

"The recent declaration by Castro naming the United States as part of the counter-revolution was definitely engineered by the Kremlin to stir up anti-American feelings around the world," Bond said.

"We should aid the counter-revolutionaries indirectly by supplying arms supplies and training to their forces," he went on to say. Bond gave this reason for his statement: "There are a lot of American

interests represented in Cuba and we should try to regain them."

Cecil Bradford, sophomore liberal arts major from McCamey, wanted the United States to stay in the background in Cuba "until the situation develops a little more. We should give aid to the anti-Castro forces in the form of arms and supplies, but not in men," he said.

Ronnie Horn, sophomore English major from Andrews, wanted to aid the anti-Castro forces with supplies. "I don't believe we should help them with fighting troops, but rather with supplies and training. I think we are already helping the anti-Castro forces or they wouldn't be able to make such a large scale attack so soon after Castro's revolution."

Horn went on to say, "While I do support the anti-Castro forces, I don't think the fighting will last much longer because Castro has a better-trained and better-equipped army than they do."

Senior civil engineering major Roy Anderson from Aspermont thought the United States should not become directly involved in the anti-Castro fight. "We know Cas-

tro is a communist and we don't want him in this hemisphere. We don't want to enter the fight directly because this would give us a bad name with other countries, especially those influenced by the communists," he stated.

"If the counter-revolutionary forces in Cuba win, they will likely want United States aid," Anderson added. "I think we should give it to them."

COSMOPOLITAN CLUB

Student Council Beat

Student government at Tech made itself heard in many ways during the past year. Several new programs were initiated and an attempt was made to improve upon the old ones. You the students can decide whether this council did a good job or a bad one. I would simply like to review some of the happenings and give credit where credit is due.

Student allocations, one of the primary jobs of the council, reached an all-time high as Business Manager Larry Campbell and his committee interviewed all student organizations requesting funds in the fall and again this spring before making their recommendations to the council.

The council initiated two new programs in the past year—athletic recruiting and a speaker's bureau. The recruiting program, headed by Wayne Underwood, welcomed high school athletes coming on the campus and outlined a program for them which included an official welcome, academic instruction, a tour of the campus, dates, and invitations to campus social activities. The speaker's bureau, developed by Mack Robertson late in the spring, was set up to send Tech students from various departments to speak at civic clubs and high schools regarding Tech and its activities.

Two outstanding national figures—Secretary of the Air Force Dudley Sharp and famous space scientist Dr. Wernher von Braun—were brought on the campus to speak at All-College Conventions during the year. The project was headed by Woodie Wood.

During the New Year's weekend in Dallas, Tech was awarded the Southwest Conference Sportsmanship Trophy by the SWC Sportsmanship Committee recognizing Tech's fine spirit and sportsmanship at basketball and football games. Bobby Hutto was in charge of Tech's sportsmanship committee.

A completely new elections procedure was worked out by Janis Jones and her Elections Committee during the spring. The trend was to try and make Tech elections more constructive and intelligent. The new program eliminated extensive obnoxious campaigning and initiated orientation programs for the candidates, a special election edition of the Toreador and an elections rally at the Lubbock Municipal Auditorium the night before elections. On elections day all ballot boxes were taken out of the dorms and put in centrally located spots in all major campus buildings and in the Union where a voting machine was in use.

The special Projects Committee under Joan Dorris handled the Teacher Evaluation program which far surpassed last year's response. Miss Dorris had to order an additional 5,000 forms to meet the demand of instructors.

Underwood also was in charge of the World University Service Drive which raised over \$1,000—the largest total ever assumed at Tech.

Under Pete Baker and Campbell, Tech's Out-of-Town-Trip to Austin was a success in every detail except the football game which the Raiders lost to Texas. Approximately 450 students made the bus trip and another 500 went in cars. Baker is also in charge of the Spring Festival in late April.

Reconstructing an outdated student constitution became the job of Miss Jones and a special committee early in the year. The task was completed late in the spring with the help of the Tech Supreme Court and council sponsor Miss Ruth Cowart of the Government Department. This will be voted upon by the council tonight and probably will be presented to the students for their approval or rejection in the Fall of 1961.

The council also was represented on student-faculty committees such as Disciplinary, Athletic, Committee on Student Organizations, Traffic, Publications, College Awards Board, Homecoming, Intramural and Rodeo.

We haven't been without our critics this year. But I think this year's council has done an outstanding job. There are many individuals who have devoted much time and effort to make this a better school for you to attend. These people deserve the credit and the thanks and as they prepare to leave office I would like to see that they get both.

LITTLE MAN ON CAMPUS

"THIS CONVERTIBLE MIDLAND TECH. OFFERED YOU, TOO— WAS IT FULLY EQUIPPED?"

Revolution Attempt

Is End Near For Castro?

Is the end finally near for the long-winded dictator of Cuba?

Long-awaited and much-predicted, the resurgence against Fidel Castro finally came about this week. It has been no secret that plots to overthrow the bearded loudmouth have been in process for some time.

As usual and as expected, Castro has again heaped Cuba's troubles on the United States. And also as expected, he has the backing of the Kremlin. Izvestia in Moscow lambasted the invasion attempts Monday.

The situation in Cuba, as is always the case where revolution is in the making, has been confused by censorship and lack of reliable information. Adding to the confusion has been conflicting and opposite statements from different sides—the U. S. and Russia included.

The United States has taken a cautious stand on the attempted overthrow. Dean Rusk said Monday that "there is no secret about the sympathy of the American people for those who wish to be free, whether in distant parts of the world or in our own neighborhood." The Secretary went on to say there would be no intervention by U. S. forces in Cuba.

Speculation has often centered in this country on just how much back-door aid to rebels the U. S. could give to Cuban revolutionaries without violating its nonintervention policy. Rusk Monday avoided any final statement on

whether this nation is giving such aid to Castro's opponents.

Sentiment in this country has pretty much been of the Castro-is-an-immature-loudmouth-who-ought-to-have-his-hands-spanked variety. Yet most Americans would probably prefer to let the spanking be done indirectly. Certainly any attempt to send U. S. troops into Cuba would get violent opposition from many segments of American life.

Yet we wonder: isn't it time for Castro to be recognized fully as a malignant growth on the security of the North American continent? And isn't it time the U. S. realized it may have to get its hands dirty in order to keep its national life free from such a threat?

Any decision to fight Castro would probably bring immediate intervention from the Kremlin. Yet back-door aid and moral support for the Cuban revolutionaries can be practiced without leaving the door too wide open for Khrushchev to stick his foot in and bellow "Aggressors!" with any actual basis.

With the Laos situation still critical and Cuba still a big question mark, we recall a remark earlier this year by a Texas Tech professor:

"I guess when the communists get to the Alamo we'll decide we're in a fight."

Could be.

PRESTON MAYNARD

Comments And News

From Other Colleges...

By THE ASSOCIATED COLLEGIATE PRESS

Edmond, Okla.—Some Oklahoma institution of higher learning will probably serve as a pilot institution for the trimester plan beginning next September. The Oklahoma State Regents for Higher Education will be authorized by the Senate and House of the 28th Legislature to direct and finance such a plan.

The proposed trimester plan would consist of three 16-week terms, instead of the present two 18-week and one 8-week summer term.

Tempe, Ariz.—A bill to tighten qualifications for student government officials was introduced recently in the student senate on the campus of Arizona State University. Bill 153, setting new

scholastic requirements for Associated Students positions, was introduced by the Activities Control Committee.

The bill would require "that a 2.00 cumulated scholastic index be maintained by all students in elected or appointed ASASU positions." Currently, only elected officers must have a 2.00 index, and it is a requirement only for election, not for continuation in office.

Lynchburg, Va.—Fourteen students at Randolph-Macon Woman's College may soon be experts on the expertless political hotbox in the world. They're members of the college's recently launched course on Africa South of the Sahara—one of the first classes of its kind at any woman's college.

The Toreador Mail Call...

Editor:

This poem is applicable to Gibson's column:
Grag is the word for columns,
And to your column, it's grag.
Gnash is the word for columnists,
And it's gnash to you, you frag.
Grink is the word for inanity,
And for you the word is Grink.
Brosh is the word for Gibson,
And it's brosh to you, you stink.

If you think this is not constructive, read your own crud. Dean doesn't rate a poem. His column should be perforated around its edges, for easy tearing.

I don't know who Perry Thompson is and never expect to. Anyone that has the nerve to

write a nine inch filler of unmitigated trash shouldn't be expected to sign their right name to it. I think you're just like a cat. You'll probably bury this letter where nine-tenths of the copy were ditched up every day deserves to rest. If you do, you're even worse than I suspected.

Thanks For Nothing,
Signed: Eight Tech Students

Editor,

I enjoyed reading Ron Calhoun's timely editorial in last Saturday's issue. He called our attention to two points that can certainly stand quite a bit of thought.

Good work Ron.

Judges Select Finalists For Tech Rodeo Queen

Ten coeds will compete for the five finalist positions in the Tech Rodeo Queen Contest.

The contestants, who have already been judged on horsemanship abilities, will be judged on personality and dress in western attire at 5:30 p.m. Wednesday in the Rec Hall.

Entrants and their sponsors are Betsy Anderson, the new fraternity; Nancy Bacon, Delta Tau Delta; Stevelyn Brooks, Angel

Flight; Jo Beth Chandler, Phi Gamma Delta; Jeanie Cleveland, the Tech Rodeo Assn.; Sandra Cope, Sigma Kappa; Diana Harbert, Kappa Kappa Gamma; Ruth Latch, Phi Mu; Nancy Nelms, Sigma Kappa and Frances Sayles, Zeta Tau Alpha.

Judges for the contest are Miss Opal Jones, Bill Price and Joe Kirk Fulton. The five finalists will be announced Thursday and voting cans will be placed in the Tech Union. Voting on a penny-a-vote basis will continue through 5 p.m., April 28.

The 1961 Rodeo Queen will be announced at the Coronation Ball scheduled for 8:30-11:30 p.m. April 28 in the Rec Hall. Ronald Mansfield and his western band will play for the dance. Admission is \$1.50 stag or drag.

ENTRIES IN TECH'S NIRA RODEO-QUEEN CONTEST

... are Diana Harbert, Frances Sayles, Nancy Nelms, Sandra Cope, Stevelyn Brooks, Betsy Anderson and Nancy Bacon. Not pictured are Jo Beth Chandler, Jeanie Cleveland and Ruth Latch. The top finalists will be chosen Wednesday, with penny-a-vote balloting on the queen starting in the Union Thursday.

Juniors Set 'Skit Row' Rehearsals

"Skit Row," the talent show sponsored by the junior class scheduled for April 28, needs more entries, according to Johnny Grist, junior class president.

No entry blank is required, and preliminary tryouts will begin at 7:30 p.m. tonight in the Aggie Auditorium. Not only Greek letter organizations but all independent groups including individuals, cheerleaders, dorm associations and faculty members have been asked to enter.

Dress rehearsal will be at 7:30 p.m. April 25 in the Tech Union Ballroom and the show will be April 28.

Final judging will be done the night of the show, and first, second, and third place trophies will be presented on stage. The acts will be judged on the basis of music, choreography, showmanship, polish, originality and audience appeal.

ARAB-AMERICAN STUDENTS

Slides will be shown of the Holy Land in the Tech Union workroom at 7:30 Wednesday at a regular meeting of the Arab-American Student Association.

Council Taps New Members

Junior Council, junior women's honorary service organization, "tapped" 20 sophomores Thursday morning and honored the tappees at breakfast.

Council members are chosen on scholastic achievement (2.00 overall grade average), leadership and dependability.

New members include Judy Mc-

Kinnon, Susan Jones, Ginger Butler, Jo Anne Caldwell, Kay Kagay, Susan Ziegler, Jessica Ledbetter, Ann Mason, Anne Weaver and Kaye Edwards.

Others chosen were Janis Richardson, Judy Stewart, Reesa Vaughtner, Rowena Williams, Evangeline Young, Robbie Ramsey, Armintha Kemp, Barbara Sudduth, Judy Cowger, and Cindy Richards.

Have a ball in Europe this Summer

(and get college credits, too!)

Imagine the fun you can have on a summer vacation in Europe that includes everything from touring the Continent and studying courses for credit at the famous Sorbonne in Paris to living it up on a three-week co-educational romp at a fabulous Mediterranean island beach-club resort! Interested? Check the tour descriptions below.

FRENCH STUDY TOUR, \$12.33 per day plus air fare. Two weeks touring France and Switzerland, sightseeing in Rouen, Tours, Bordeaux, Avignon, Lyon, Geneva, with visits to Mont-Saint-Michel and Lourdes. Then in Paris, stay six weeks studying at La Sorbonne. Courses include French Language, History, Drama, Art, Literature, for 2 to 6 credits. Spend your last week touring Luxembourg and Belgium. All-expense, 70-day tour includes sightseeing, hotels, meals, tuition for \$12.33 per day, plus Air France Jet Economy round-trip fare.

STUDENT HOLIDAYS TOUR OF EUROPE, \$15.72 per day plus air fare. Escorted 42-day tour includes visits to cultural centers, sightseeing in France, Switzerland, Italy, Austria, Germany, Luxembourg, Denmark, Sweden, Norway, Scotland, England, Holland and Belgium. Plenty of free time, entertainment. Hotel, meals, everything included for \$15.72 per day, plus Air France Jet Economy round-trip fare.

CLUB MEDITERRANEE, \$13.26 per day plus air fare. Here's a 21-day tour that features 3 days on your own in Paris, a week's sightseeing in Rome, Capri, Naples and Pompeii, plus 9 fun-filled, sun-filled, fabulous days and cool, exciting nights at the Polynesian-style Club Méditerranée on the romantic island of Sicily. Spend your days basking on the beach, swimming, sailing - your nights partying, singing, dancing. Accommodations, meals, everything only \$13.26 per day complete, plus Air France Jet Economy round-trip fare.

Frosh Win 17-3, 3-1 Over Amarillo Here

By TOM DREW
Toreador Sports Writer

Texas Tech's Picadors took both games of a doubleheader with Amarillo Junior College here Monday afternoon.

Moose Dudley hurled a five hit-ter in the opener. The converted first baseman struck out 15 Badgers and drove in four runs in a 17-3 assault.

The freshment won the second game 3-1.

The Pics touched Badger starter Britt Terry for six runs in the first and seven in the sixth. Terry issued 14 walks before being relieved in the sixth.

Johnny Boatner continued his uncanny swing with three hits and three runs batted in while Doug

Cannon blasted a solo homer to lead off the fourth.

The Pics played flawless ball in the field while the Badgers were charged with six bobbles.

In the second contest, Ron Arrington dazzled the Badgers with a crafty three hitter. Arrington recorded 16 whiffs with a repertoire of fast balls, sinkers, and curves that kept the Badgers off balance throughout the game.

Bob White drove in the winning run in the bottom of the seventh with a sharp single to left field which scored Jim Harris and Cannon, who had doubled ahead of him.

White scored the final run on Schessler's fielders choice.

PEP RALLY

Any organization interested in sponsoring a pep rally next year should contact Beth O'Quinn, 236 Weeks.

PhiEK Takes Title In 'Mural Softball

Phi Epsilon Kappa won the Independent Division championship of intramural softball Monday with a 10-6 win over Church of Christ.

PhiEK will meet Sneed Hall, the Dormitory League champ, next Monday or Tuesday, according to Edsel Buchanan, men's intramurals director.

"The fraternity league champion will meet the winner of this game for the all-college championship la-

ter as their season is not over yet, Buchanan said.

Dormitory league standings are as follows:

Sneed	5-0
Carpenter	4-1
Thompson	4-1
Gaston	3-2
Bledsoe	1-4
Wells	1-5
Gordon	0-5

In fraternity action last week leader SAE slapped the Fijis, 18-1 the Delts eked out a victory over the Kappa Sigs 8-7, Phi Delts beat the Phi Psis 24-7 and Sigma Nu took a close one from Sigma Chi 7-6.

Fraternity league standings are as follows:

SAE	6-0
Phi Delts	6-0
Pikes	5-1
Sigma Nu	4-2
Sigma Chi	3-3
ATO	2-3
Kappa Sigma	2-4
Delts	1-4
Fijis	0-6
Phi Psis	0-6

Buchanan also announced that today is the deadline for tug-of-war team entries. He said that matches would be held Wednesday and Friday on the field east of the Men's Gym.

All track entries are also due today according to the intramurals director. The track meet is scheduled for 12:30 p.m. Sunday on the Tech track.

ACC Record Tied

TEMPE, Ariz. (AP) — Abilene Christian College's national collegiate mile relay record, set at the Texas relays has been equalled.

Southern California did it here the past weekend in a meet with Arizona State University. The Trojans ran the distance in 3:07.9 with a team of Bobby Staten, Dean Balzaret, Kevin Hogan and Rex Cawley.

Techsans Optimistic At Athlete Move

By RALPH W. CARPENTER
Toreador Editor

For the first time in the history of Texas Technological College female students will invade the north side of Broadway Avenue. In the fall of 1961 Techsians will see the coeds move across this imaginary line to take up residence in West Hall, for years the traditional home of Red Raider athletes.

All of this recent moving about came as a result of action taken by the Tech Board of Directors in a February meeting in which it was decided that Tech athletes would be interspersed among Sneed, Bledsoe and Gordon Halls.

IT HAS ONLY been recently that the girls have come as far north as the new Weeks Hall and the older Doak Hall — another male abode abandoned to the feminine influx.

In the interest of those concerned the Toreador has interviewed several parties involved with the athletes and their change.

Polk Robison, athletic director and head basketball coach said:

"WE BELIEVE that the spirit of unity which is so vital to the success of any college program, whether it be in athletics or any other activity, can be fostered by the athletes using the same dormitories as other students. We have been pleased by the coopera-

tion shown our athletic endeavors and believe this move to be consistent with our philosophy of athletics being a part of the over-all college program."

FROM THE office of the Dean of Men, Lew Jones said:

"Another forward step in the recognition of Texas Tech's purposeful plan for a well balanced program of athletics will become a reality next fall when separate living quarters for athletes will no longer exist. The concept of expecting an athlete to be a student first and an athlete second has long been practiced among the most of the better known athletic programs.

"Director of Athletics Polk Robison and his staff have made this possible by eliminating an athletic residence hall and distributing the athletes among three men's residence halls. For the first time in the history of Texas Tech all students will be united in one common purpose—to secure an education first and to lend support to athletics second. The results of part of this program have been evidenced already by the students' participation in the recruiting of athletes for next year. The results bear witness to the fine results by this effort on the part of the student body.

"ON BEHALF of the residence halls we welcome the opportunity to have the athletes as one and

to have all segments of the residence hall program directed toward the furtherance of the educational challenge that is ever increasing in importance."

J. T. King, head Raider football coach who will be in his first year at the team's helm next season, said:

"The dispersment of the student athletes into Sneed, Bledsoe and Gordon Halls is another step to promote better and closer relations among the students, faculty, and extra-curricular activities. The Texas Tech athletic teams belong to the students, faculty and administrative people; therefore, we feel this move will make for better relations for all concerned."

NEXT YEAR'S Students Assn. President Carlyle Smith said:

"On one side I feel that in the past, the athletes have been denied the benefits that come from living with people who have varied interests; on the other hand, I think that the majority of the students have been cheated in being unable to form the close associa-

tion resulting from dormitory living with the men whom they support in all of Tech's athletic events.

"Having moved from a non-athletic dorm to West Hall after my first year at Tech, having then moved from West to a non-athletic dorm after two years, and having experienced both forms, I believe that it will be only a very short time after the outset of next fall that each group of students involved will gain a deeper understanding and greater respect for each other."

Larry Mullins, Raider tackle from Snyder and senior-to-be, said:

"Personally, I feel that the new dorm setup will give me an opportunity to make many new friends. I am looking forward to my association with the dorm residents. It should be a rewarding experience for all concerned."

Terry de la Moriniere, wing advisor at Sneed Hall, said:

"THE NEW dormitory arrangements for the athletes next year will give the students of Sneed, Gordon and Bledsoe as well as the athletes an opportunity to know and associate with one another. In the past, there have been certain misconceptions of the students toward athletes and vice-versa which I think arose from the two groups not associating.

"To erase these misconceptions will mean a decided effort on the part of the students and athletes. This effort will constitute nothing more than there just being a friendly attitude on everyone's behalf. I am sure Sneed Hall will offer a cordial greeting to the athletes next fall."

Durocher Draws Suspension For Kicking Umpire's Shins

LOS ANGELES (AP) Leo Durocher, co-star in a shin kicking exchange with an umpire Sunday night, drew a three-day suspension Monday. He said he couldn't care less.

His bosses seemed a lot more upset.

The other half of the shin-to-shin fest, Umpire Jocko Conlan, left down. He wasn't talking, any way. All he told reporters Sunday night was: "I got kicked twice and so did he."

National League President Warren Giles wired Durocher: "I am sure you understand that any kind of intentional bodily contact with an umpire during an argu-

ment is cause for suspension. For such an offense during your argument with Umpire Conlan in your game in Los Angeles April 16, you are suspended three days, April 17-19."

The affair made it plain that Leo after five years out of baseball has quickly regained—if not surpassed—his old form as one of the game's premier rhubarbarb artist.

He was waiting for the questions when reached by telephone Monday. What did he think about the suspension? "Not a thing." Did he expect it? "I never assume or expect anything. It's there and that's it"

SUMMER JOBS

Plan now. At the last minute, the best jobs will be taken. This southwestern corporation needs several college men to work part time now as training for a full time summer job. Work 3 nights weekly and some Saturday. Each man can earn enough money to finish the semester and some will qualify for top paying positions by summer. We offer a scholarship program, valuable training for the future and a permanent position opportunity; however, we need high caliber personnel. Interested men should call for an interview appointment. Ask for MR. PAUL BYRD at PO5-9331 between 10 a. m. and 12 noon or 4 p. m. and 6 p. m. on Tuesday.
