

'Levi Friday' To End With Vet-Sponsored Pep Rally

By **BILL MORROW**
 "Levi-Friday" is to be celebrated this week.
 This was the announcement of the Tech Vets who are sponsoring an "all-levi" pep rally climaxing

Friday's activities. The rally, preparing for the game with College of the Pacific, will be held at 7 p.m. behind the Administration Building.
 All students and faculty are

encouraged to wear levis or western dress that day, stressed Bill Coffee, co-chairman of the planning committee. Congressman George H. Mahon, in western dress, will be the principal speak-

er at the rally, which will feature Rex Webster, public relations man and former-Lubbock man of the Year, as Master of Ceremonies.

Entertainment at the show is to be highlighted by a "levi-clad" quartet composed of Academic Vice-President G. Ernst Giesecke, Dean of Men Lewis N. Jones, Buddy Barron, field secretary of the Ex-Students Association, and Burl Hubbard, assistant professor of management.

The Tech Band, with Majorette Bennie Dunn on hand to give a fire-baton exhibition, will furnish music for the show. An added attraction will be the introduction

of a "real live fruit-picker."
 Letters have been sent to dormitories and all fraternities and sororities asking for participation in the activities, said Coffee. A plaque will be presented to the fraternity or sorority with the most members present in levis or western dress and showing the greatest participation in the rally. Another award will be made to the dormitory showing the greatest enthusiasm and dress participation.

Coffee emphasized that the purpose of the day's events is to "promote group co-ordination in working together toward a united Texas Tech."

JIM BLACKWOOD, MRS. MARY ANN WALTER . . . Handsome Man is honored

Blackwood Named Tech's Most Handsome

Jim Blackwood is Tech's Most Handsome Man.

The Dallas sophomore was elected by popular ballot Saturday night over six other contestants for the honor at Club Scarlet, Theta Sigma Phi sponsored mock night club.

A 1954 graduate of Dallas' Sunset High School, the 5'10", 180-pound blond is a petroleum engineering major at Tech.

"I like athletics," he said when asked his college activities, and pointed to active participation in

Tech's intramural program. In high school, he was active on Sunset's football team.

Blackwood was born in Crosbyton, about 45 miles east of Lubbock, and moved to Dallas when he was a high school freshman.

He is a member of Kappa Sigma fraternity, which he represented in the Saturday contest.

Delta Delta Delta sorority took top honors in Club Scarlet's skit

"We interrupt this show to bring you an important announcement," said an announcer in the middle of Kappa Sigma's skit at Saturday's Club Scarlet show.

A breathless hush spread over the hall, and thoughts of wars and heart attacks rushed through the crowd.

"We have just been informed," continued the announcer, "that Russia has just taken Sal Hepatica."

A momentary silence gave a funeral hall atmosphere to the dance. Then, just as suddenly, relieved laughter filled the room.

"Due to the combined efforts of the allies, however," the announcer droned on before the convulsed audience, "they aren't expected to hold it long."

contest. Tri-Delt members, dressed as calendar girls, depicted the months of the year. They were selected by audience applause.

Another audience favorite was a Latin American combo made up of Kappa Sigma pledges. Others entering skits were Pi Beta Phi, Major-Minor Club, Alpha Chi Omega, Kappa Kappa Gamma, Sigma Kappa, and Kappa Alpha Theta.

Chuck Strehl was master of ceremonies.

A capacity Rec Hall crowd concluded the evening with dancing. Club Scarlet is an annual affair at Tech, the highlight of the year

'Everyone Is Religious' -Ferre

"Every person is inescapably religious, fundamentally," said Dr. Nels F. S. Ferre yesterday to an estimated 1,700 Techsians at the first talk of the 1955 Willson Lecture series.

"Religion is man's necessary response as a whole being to what is most important and most real," he continued.

Dr. Ferre was speaking on "Faith and Reason." The remaining lectures, "Science and Religion," "The Authority of the Bible," and "Prayer and Scientific Thinking," will be held at 7:30 nightly, today through Thursday, in the Union ballroom.

"True reason," the Vanderbilt theologian defined, "is the whole man thinking. It is not reason that thinks, but the man."

Reason, he illustrated, is like a miner's head lamp. As long as he looks straight ahead, the light stays on the path, but if he turns

his head, the beam strays and the path is dark.

What is true faith? the Swedish-born educator asked his audience in a Scandinavian accent.

"It is the use of man's best reason in his belief," he said, answering his own question. "True faith is based on truth."

"Faith is reason illumined by the revelation of God and His own eternal love of Jesus Christ," the speaker added.

That science and religion do work together was pointed out by Dr. Ferre when he stated that science shows by analysis and confirmation the unity of the universe, which gives us more confidence in the Supreme Being.

Scientific history of cosmic and human developments, he added, shows organic changes inexplicable by any standard but God's power.

"Human history is explained only in terms of He who is Creator and Master," Dr. Ferre declared.

"The Cross of Christ and the resurrection," he added, "is like a blazing arrow against a dark background of mystery."

Yet, he pointed out, so often the human eye does not want to open and see the arrow, which exemplifies the love of God for

DR. NELS FERRE . . . "a blazing arrow"

man. He further asserted that the answer to life is visible only to those who have opened their eyes to the love of God.

"Christ is the answer to the meaning of existence," the theologian declared.

"This," he said solemnly, con-

Revis Jordan Is 1956 Area Cotton Maid

By **MARGUERITE WINDER**

Revis Jordan, radiant 19-year-old Tech sophomore from Lubbock, will represent the South Plains in the national Maid of Cotton judging at Memphis, Tenn., Dec. 27-28.

Brown haired, hazel eyed Miss Jordan became the 1955-56 South Plains Maid of Cotton last night at Fair Park Coliseum where she was chosen from a field of 26 South Plains "lovelies." First and second alternates for the title are Charlene Williamson, Ft. Worth junior and Mary Jo Cappelman,

LaMarque sophomore. Both are Tech coeds.

Candidates were judges on background, personality, and appearance as well as beauty.

"I just don't see how I won it with so many other wonderful girls in the contest," says Miss Jordan concerning her new title.

The 5 foot, 5 inch, 105 pound daughter of Mr. and Mrs. Doyle Jordan of Lubbock will receive a cotton wardrobe and an all-expense paid trip to the national competition in Memphis.

Contest requirements asked that

candidates be at least 5 feet, 5 inches, unmarried, between the ages of 19 and 25, and have been born in a cotton state.

The South Plains Maid and her runners-up were presented bouquets of red roses by Mrs. Anne McMurtry, the former Ann Perkins. Mrs. McMurtry, an ex-Techsian, was 1953-54 South Plains Maid of Cotton. The 1954-55 title also went to a Tech coed, Miss Virginia Mitchell of Ft. Worth.

Judges for the event were Miss Catharine Graves of the National

Second 'Fantasy' Musical Tonight

"Autumn Fantasy" will stage its second performance at 8:15 tonight in Tom S. Lubbock High School Auditorium.

The five act musical extravaganza opens with Bach's "Tocatta and Fugue in d minor," featuring eight pianists. Another group of eight pianists and brass, percussion and organ, will perform Moussorgsky's "Pictures at an Exhibition." Fred Griffin, Plainview art major, will give a watercolor exhibit.

A forty-voice chorus and combo will perform six numbers from the popular Ray Charles Singers Album. "The Esquires," a jazz group, will present "Fascinatin' Rhythm," "Imagination," "The Continental," "Little Girl," and others.

The final number is a complete ballet to the music of George Gershwin's "Concerto in F," first movement.

Tickets, priced at \$1 are on sale at Jenkins Music Co., Adair Music Co., Delahunty's Horn Shop, and at Hemphill Wells and Dunlaps Department Stores.

"Autumn Fantasy" is sponsored by Phi Mu Alpha and Mu Phi Epsilon, music fraternities.

Cold Weather Brings Out Letters

With the coming of cold weather, a long-standing Tech tradition is being violated.

Former high school athletes are sporting a colorful array of jackets emblazoned with large high school letters.

No doubt these sportsmen are proud of their school, and proud of their part in making its athletic program a good one. Nevertheless, Dwayne West, Double T Association president, reminds us of an old tradition here at Tech that none but Double T letters are worn on campus.

Without any intent to take away well-earned glory for high school endeavors, we agree with West that the letters should go.

High school is past and allegiance should be directed now toward college and its activities.

As Student Life Dean James G. Allen puts it, "Removing the letters is a good thing in helping a person psychologically turn loose of his high school identification and become a part of the college family."

"Their removal turns attention into 'Texas Tech,'" he added.

Several years ago, the Student Council forwarded a concept that other school letters should not be worn here, and began asking freshmen to either reverse their jackets or remove old letters.

Since then, the Double T Association has taken up the job of enforcement among its own members, and has requested that the rest of the school comply with the removal.

"If they want to wear their letters at home, that's their business," said West. "We're asking that they not wear them here."

—Alton Slagle

Letters To The Toreador

Dear Bob,

"One Nancy Kaisner" would like to attempt to smooth a few obviously ruffled feathers. The student husband feature in a now not-so-recent Toreador was written in what I thought was an obvious tongue-in-cheek manner.

The last paragraph of the story as I wrote it said in effect "This is all a great big joke—husbands and fathers who have the ambition to return to school are an extraordinarily wonderful bunch." That paragraph was omitted in print; the editors, at least, evidently considered the point clear enough without it.

At any rate, I would like to know Mrs. Fry's secret for keeping the children quiet while Daddy studies. If all our brood (2 children, a grandmother, a cat and a dog) got quiet at the same time, the silence would be so appalling that neither Daddy nor Mother, both of whom work and carry full school loads, would be able to concentrate.

Nancy (Mrs. John U.) Kaisner

LITTLE MAN ON CAMPUS by Dick Bibler

"HOW'S ABOUT ONE OF YOU OTHER GUYS HOLDING TH' BALL FOR A CHANGE?"

FACULTY FOLLOW-UPS

Research By Tech Professor Results In Award Of Merit

By LADROYCE LAMBERT

Congratulations are certainly in order to one of Tech's newest faculty members. Dr. Seymour Vaughan Connor has been nationally recognized for his research work on a segment of Texas history.

His work, titled, "Texas History Papers: Letters Received In Treasury Department of the Republic of Texas, 1836-1846," was given the annual award of merit from the American Association of State and Local History.

His extensive research put a new light on the activities of the short-lived Republic of Texas government.

Dr. Connor is a former Texas State archivist and joined the Tech faculty this fall as associate professor of history and archivist for Tech's Southwest collection.

After a year's leave of absence for study in England, Prof. Joseph T. McCullen is back with his duties here in the English department.

Prof. McCullen had the distinction of being awarded a Ford Foundation grant in the spring of 1954. He was the third Tech professor in succession to receive the grant which is used to continue study in a chosen field.

He and his wife and daughter left the following September for England where he attended the Shakespeare Institute at Stratford-on-Avon and Cambridge University. There he obtained advanced study of the Bard and Elizabethan literature.

Several faculty members were bitten by the travel bug this summer and some of them are getting the opportunity to tell about their experiences publicly.

Mrs. Alan B. Strout appeared on the World Travelers program at Tech Union last week to describe the European tour that she and Dr. Strout were on this summer.

From the foreign language department, Dr. and Mrs. C. B. Qualia passed the summer months in the splendor of Paris. Dr. John C. Dowling, foreign language department head, spent a month in Mexico before traveling to Havana as a member of a Navy cruise. He has also appeared on a World Travelers program to relate interesting points of his trip.

Another new faculty member, also in the foreign language department, is Dr. Loyal N. Gould who is making headlines with his low-budget trip abroad during the summer.

Dr. and Mrs. Gould journeyed to France, Spain, Austria and Germany. They also visited Bern, Switzerland, where Mrs. Gould's parents live.

COLLEGE GRAPEVINE...

English Professor Dangles Participle

By CLAYNELLE ROOKER

There's a red face in the University of Arizona's English department.

As the department has grown to such proportions that many of the members do not know one another, an enthusiastic newcomer decided to remedy the situation. He carefully composed a letter embodying a suggestion for getting acquainted, and a copy of the letter was sent to each member of the English faculty.

His letter appeared on the English office bulletin board the next morning. A seasoned veteran of the department had marked one of the sentences with a large "44," obscure code of the English department signifying "dangling participle."

Students at the Colorado School of Mines received questionnaires asking what facilities they would like to see incorporated in their proposed Student Union. Among the suggestions was a game room, bowling alley, book store, music room, hobby shops, and rifle range.

Definition — A committee is a group of the unfit chosen by the unwilling to do the unnecessary.

At Wellesley College, after much debate, the 11 o'clock class on Saturdays has been abolished. Seems there was too much cutting of it by students getting ready for an afternoon of fun. And at Whitman College university officials are trying to do away with Saturday classes altogether.

Are you listening, Tech officials?

With the appearance of a puppy on the Midwestern University campus, both students and instructors reacted strongly.

Some were surprised, others were sympathetic, gushy, or just plain tolerant. No one was indifferent.

The only strange thing about the puppy was that he was a seven weeks old White French toy poodle.

One student squatted down and demanded gruffly, "So you're French, huh? All right prove it. Bark to me in French."

And at the University of Texas they have initiated a new queen contest. The winner of the contest will cop the title of "Miss Campus Chest."

But... it's all for charity. The event will help boost the University in its goal for a successful Community Chest campaign.

The University of Missouri released this sports story.

"Harry Smith, Tiger line coach, always makes it a point to secure attractive coeds, majoring in education, as tutors for any Missouri football players who need extra help with their studies.

"Good looking gals, Harry reasons, stimulate attendance at tutoring sessions—even though there's a certain amount of distraction involved.

"At their first briefing the other night, Smitty gave the players and two coed tutors — both cuties — his orientation talk. Finishing up, he said, 'Okay, that's it. There's the whistle, and we're ready for the kickoff.'

"Quick-like and grinning broadly, one of the MU's veteran guards spoke up, 'Coach, I may get a 15-yard penalty for holding.'"

THE BEST ON WAX...

Carl Smith 'Does It Again' With New Western Discing

By GLORIA WALLER

Attention, western music fans! Carl Smith has done it again.

With "You're Free to Go" and "I Feel Like Crying" out on Columbia, Carl is almost certainly in line for a hit in the country and western field.

Both releases are tear-jerkers with an effective, tearful vocal sound. On the latter record, a weepy guitar sound adds even more to the mood.

Gale Storm's "I Hear You Knocking" on the Dot recording label is one we hope will continue up the ladder to the top ten. We hear it quite often around here. Maybe it will keep climbing.

Her Nibs, Georgia Gibbs' rocking beat goes over good in her newest waxing for Mercury, "24

Hours a Day." On the flip side is an impressive Italian ballad, "Goodbye to Rome."

Have you noticed the really good numbers on the "other" side of records? One we would like to hear more often is Stan Freberg's "Rock Around Stephen Foster." The selling side of this waxing is Stan's interpretation of "The Yellow Rose of Texas."

Roy Hamilton has a new release on Epic. On one side is "Without a Song" and on the flip side is "Cuban Love Song." Are these destined for the same popularity as "Unchained Melody"?

Pat Kirby, the new singing star on Steve Allen's "Tonight" TV show, has come out on Decca with "Don't Tell Me Not to Love You," and "Happiness Is a Thing Called Joe."

HOW TO BE A BWOC

A few weeks ago in this space I passed on some hints to college men who wished to become BWOCs. I would be remiss not to do the same for college women who wish to become BWOCs.

The first and most basic step on the road to being a BWOC is to attract attention. Get yourself noticed. But be very, very careful not to do it the wrong way. I mean, any old girl is bound to be noticed if she goes around with a placard that says, "HEY! LOOKIT ME!" Don't you make such a horrid gaffe. On your placard put: "ZUT! REGARDEZ-MOI!" This, as you can see, lends a whole new dimension of tone and dignity.

Once you have been noticed, it is no longer necessary to carry the placard. It will suffice if, from time to time, you make distinctive noises. If, for instance, every three or four minutes you cry, "Whip-poor-will!" you cannot but stay fresh in the minds of onlookers.

We come now to clothes, a vital accessory to the BWOC—indeed, to any girl who wishes to remain out of jail. But to the BWOC clothes are more than just a decent cover; they are, it is not too much to say, a way of life.

This year the "little boy look" is all the rage on campus. Every coed, in a mad effort to look like a little boy, is wearing short pants, knee sox, and boy-shirts. But the BWOC is doing more. She has gone the whole hog in achieving little boyhood. She has frogs in her pockets, scabs on her knees, down on her upper lip, and is followed everywhere by a dog named Spot.

All this, of course, is only by day. When evening falls and her date comes calling, the BWOC is the very picture of chic femininity. She dresses in severe, simple basic black, relieved only by a fourteen pound charm bracelet. Her hair is exquisitely coiffed, with a fresh rubber band around the pony tail. Her daytime scuffs have been replaced by fashionable high heeled pumps, and she does not remove them until she gets to the movies.

After the movies at the campus cafe, the BWOC undergoes her severest test. The true BWOC will never, never, never, order the severest menu. This is gluttony and can only cause one's date to blench. The true BWOC will pick six or seven good entrees and then have nothing more till dessert. This is class and is the hallmark of the true BWOC.

Finally, the BWOC, upon being asked by the cigarette vendor which is the brand of her choice, will always reply, "Philip Morris, of course!" For any girl knows that a Philip Morris in one's hand stamps one instantly as a person of taste and discernment, as the possessor of an educated palate, as a connoisseur of the finer, gentler, higher pleasures. This Philip Morris, this badge of *savoir faire*, now comes to you in a smart new pack of red, white and gold, in king-size or regular, at popular prices, wherever cigarettes are sold. ©Max Schulman, 1955

To all our campus, big or small, men or women, the makers of Philip Morris, who bring you this column, extend a cordial invitation to try today's gentle Philip Morris, made gentle to smoke gentle.

Tech Aggies Begin Practice Teaching

Seventeen Tech vocational agriculture students this week began six weeks of practice teaching in Texas high schools.

The students will take over actual teaching duties at the high schools after counseling with the regular teachers and observing classroom procedures.

The practice teaching is a requirement for a Bachelor of Science degree in education here. The high school assignments, students and their hometowns include:

Odessa, T. A. Attkisson of Childress; Big Spring, Eugene Barkowsky of Lamesa and Gene Stewart of Lorraine; Brownfield, Henry C. Zorns of Lubbock; Electra, Charles Barron of Graham; Monterey (Lubbock), Hilton Roy of San Angelo and George Christian of Haskell; Brownfield, Don R. Everett of Snyder;

Idalou, James F. Smathers of Valley Springs and Henry J. Reedy of Mineral Wells; Cooper, Roy S. Conner of Izoro and Buddy Logsdon of Levelland; Arlington, Lloyd G. Simpson of Blooming Grove; Tom S. Lubbock (Lubbock), Joe D. Bennett of Mineral Wells and Weatherford and Charles D. Knott of Lubbock; Morton, Leon Jones of Bula; and Electra, John W. McSpadden of Quanah.

IRE Prexy Visits Tech Engineers

Dr. J. D. Ryder, Michigan State University engineering dean, visited Tech last week.

Dr. Ryder, national president of the Institute of Radio Engineers, was accompanied by D. J. Tucker of Dallas, IRE regional director and manager of Radio Station WRR.

Dr. Ryder and Tucker were honor guests at a luncheon in the Student Union Building with Dr. John R. Bradford, engineering dean; Dr. G. E. Giesecke, Tech academic vice-president; Assoc. Prof. Harold A. Spuhler, local IRE chapter sponsor; and engineering department heads.

They toured Tech engineering facilities.

Placement Service Saves Students Time And Travel

By NANCY KAISNER

Students who have had contact with Tech's Placement Service in finding part-time employment probably would be surprised to discover that getting Techsians jobs is only a sideline for that busy office.

Actually, Placement spends most of its time arranging schedules for the approximately 150 companies which send representatives to the campus each year to recruit new talent. Many hours go into making plans for their interviews with senior students.

"These visits provide an unusually fine opportunity for students to see and talk to company representatives," says Mrs. Jean A. Jenkins, director of the Placement Service established here "to make personal contact with all of the firms; otherwise students would have to cover the entire United States."

For example, on the campus during one week recently were agents for businesses in LaCrosse, Wis.; Dallas; New York City; Moffett Field, Calif.; Port Arthur; Midland; Fort Worth, and Burbank, Calif.

They were offering job opportunities in such fields as industrial, mechanical, civil, electrical, petroleum, and chemical engineering, math, physics, petroleum geology, chemistry, accounting, economics, finance, management, and marketing.

Also here was a federal representative who talked with business administration and arts and sciences students interested in a government career. Jobs are open in fields such as counseling, agriculture, management, inspection, social science, personnel, statistics, and physics.

"A new program has been set up to simplify the procedures for taking civil service examinations requisite to government employment," Mrs. Jenkins says.

Formerly, applicants were required to take a different test for each of the various positions in which they are interested. Now, however, in all fields except engineering, the physical sciences and accounting, one comprehensive exam will qualify a person for

several different jobs. Applications for this test should be in the Placement Office by Friday, as the initial exam will be given the following month.

The Placement Service was originally set up as a central agency to direct the task of finding employment for graduating seniors, which until 1947 was being carried on by the various departments. The responsibility of arranging part-time employment for students was added in the fall of 1951, and then only because there seemed no more logical place to delegate it.

But that's still not all the office does. Somewhere back along the line, someone noted that wives of students were often pretty well educated themselves, and qualified for many job openings. So today, files are kept on them as well as their husbands, and they, too receive Placement assistance.

Graduates and exes also receive consideration. In recent months, 641 companies representing about 1,700 positions in business and industry, have made inquiry about alumni. Especially desirable to these companies are ex-Techsians just completing their military service. The Placement Service has responded by sending out a call to all interested graduates asking that they contact the office.

"We never emphasize the fact that we 'place' people, or how many of them there are," points out Mrs. Jenkins, "because we maintain that is a cooperative thing. In the final analysis, it is the student who gets himself the job. We just serve as a liaison between him and the prospective employer."

Mrs. Jenkins has three assistants, Mrs. Billy Hoover, Mrs. Harold J. McMinn, and Mrs. Rayburn Robinson.

Texas Tech boasts the only textile school west of the Mississippi, one of the ten which exist in the United States. The school is housed in the Textile building at the north end of the Engineering Boulevard.

Delta Gams Have Retreat Saturday

Active members and pledges of Delta Gamma left Saturday afternoon for an overnight retreat at Bennett's Ranch on the Brownfield Highway.

Sunday morning a worship service was held. During the stay at the ranch pledges and actives each presented a program for the entertainment of the group.

Alumnae who attended are Mrs. R. O. Bennett, owner of the ranch; Mrs. Hugh Anderson, Mrs. J. O. Denton, and Mrs. R. L. Lawrence.

Suzie Miller was in charge of arrangements; Sara Sheveland, active program; Mary Sue Flowers, pledge program; and Sondra Stone and Nita Wood, Sunday devotional.

The group left by car Saturday and returned Sunday afternoon.

Press Club Tours KDUB-TV Tonight

Press Club members will tour KDUB-TV station tonight. Janet Moore, program chairman, asks members to meet at the Journalism Building at 6:30 p.m. today.

Club Members See Pictures On Brazil

Members of the Cosmopolitan Club watched motion pictures on the life, agriculture, and the recreation spots of Brazil at the meeting held Thursday night in the Student Union Building.

Aloar Altafin and Frances Henry, students from Brazil, were in charge of the program.

The Cosmopolitan Club is composed of students from foreign countries and students interested in foreign relations.

APPLIED ARTS CLUB BEGINS FALL PROJECT

The Applied Arts Club has begun its fall money-making project, according to club president Minnie Lee Thompson. Members are making Christmas cards and notes to sell.

The club is open to all art majors and other interested students who have an overall average of 1.0.

MUSEUM ITEMS UNUSUAL

The Tech museum houses many unusual items of Southwestern history, plus educational and historical exhibits. In its rotunda is the famed "South Plains Mural," completed in November, 1954, by world-renowned artist, Peter Hurd.

Panhellenic Council Sets Spring Rush

Women's formal sorority rushing will be held next spring, it was decided by the Tech Panhellenic Council in a meeting Tuesday.

Spring rush last year was unsatisfactory and met the disapproval of Tech sororities, so the council is working on a new system to be used this year, said Gale Hays, Panhellenic president.

All sororities will not be able to take pledges, since some will have their quota of sixty-five members, she added. A committee composed of the rush chairmen from each sorority will present suggestions to the council for changing spring rush.

On this committee are Mrs. Dorothy Ware, Kappa Kappa

Gamma; Ann Bondurant, Kappa Alpha Theta; Ruth Ann Cummings, Zeta Tau Alpha; Shirley DeShazo, Sigma Kappa; Joyce Sharp, Delta Delta Delta; Annita Powers, Alpha Chi Omega and Mrs. Sally Sproggins, Alpha Phi.

The annual Panhellenic Luncheon, to be held Dec. 3 in the Union ballroom, was also discussed by the council. Pledges from each sorority will present a skit, and a trophy is given to the winning group each year. Last year the trophy was won by the Kappa pledges.

The Panhellenic Council is also planning an installation-reception for Gamma Phi Beta Sorority, which recently colonized on the campus.

Movies Held Over At Two Theaters

By HELENE EDWARDS

"Rebel Without a Cause" is being held over at the State through Wednesday. Starring James Dean and Natalie Wood, this movie tells the story of a restless teenager who gets unwillingly involved in gang violence. The influence of parents in such problems is shown.

The Lindsey feature, "Trial," also plays through Wednesday. The plot tells of a Mexican boy on trial for murder, and shows how a Communist organization could take over a "good cause" and twist it to its own use. Arthur Kennedy and Glenn Ford portray the attorneys defending Angel, the Mexican boy, and Dorothy McGuire plays the secretary who tries to tell them the consequences. Rafael Campos stars as Angel.

"Desert Sands" is showing at the Arnett-Benson, with Marla English and Ralph Meeker in the leading roles.

Chess Instruction Starts Here Nov. 22

Chess enthusiasts are invited by John Doughtie to join chess instruction classes which will begin Nov. 22, in the Student Union building.

"We want to build up an interest in chess among Tech students," said Doughtie. "We hope eventually to be able to form a chess association on the campus."

Doughtie, Ronnie Morris, and Tommy Reagor will be at the meetings to give players instructions, and help develop playing techniques.

Leap Year Brings Girls Dim Hopes

By MARY GRISTY

With the coming of January, leap year and TWIRP season will be upon us. For those of the female gender who have been saving up a nifty bag of tricks especially for this year there's bad news today.

According to Dr. Paul Popenoe, columnist for the N.O. Times-Picayune, a careful study of marriage rates in this country in the last half century showed no increase in marriage during leap years. Dr. Popenoe states that "If you're smart you'll not lose another day but start your campaign at once. Otherwise leap year may set you back."

Statistics show that marriage rates are closely related to economic conditions. In boom times people marry. In times of depression they wait. (Some people consider their college years a time of depression! Boom time comes after the diploma—if you're lucky.)

If you do go husband hunting this year, remember to be subtle. When deer-hunting season begins in California, the old bucks seem to know it, and they immediately retire to the inaccessible fastnesses of high mountains where nobody can find them. Old bachelors behave the same way.

Gentlemen may prefer blondes but Paris designers don't. In fact if you're the Brunette, "Asian type, you're IT. One of the top Paris hair stylists, Antonio, is up in arms against blondes.

"I'm against blonde hair, except when a woman has brown or gray eyes," the vivacious, Italian born Paris hair-dresser said. "The new fashions are for brunettes and by becoming dark haired and Oriental, women will look completely new and fascinating."

Antonio has imported this feminine beauty idea directly from Japan. Impressed by the Oriental way of educating women to make men happy, he said women on other continents could "Take a lesson" and start by looking Oriental and Japanese in Antonio's style. He has created three new hairdos called "Kijoto," "Osaka," and "Fujiyama" achievable with hair of any length. They are inspired by Japanese period hair styles.

CLUB OF THE WEEK

Tramp Members Have Varied Jobs

Assisting cheerleaders with pep rallies is only one of many activities of Tech's 59-member Saddle Tramp organization.

Probably the year's biggest job is gathering wood for the homecoming bonfire. This year the group had to do double duty as some early birds set fire to the huge lumber pile one night too soon.

Serving as a reception committee, the group welcomes visiting sports personnel, such as football teams and coaches. Goal post decorating is another duty, as is helping with campus elections.

As a help to promoting school spirit, the service club has its own section at football games. Freshmen men are urged by the Tramps to learn traditions and school customs at an early date.

"We try to demonstrate school spirit individually so that we can pass it on to everyone at Tech," Ronald Crouch, president, explained.

The 21 regular members are easily recognized by their red corduroy shirts with black letters and white arm bands. The 38 pledges can be distinguished by black arm bands.

Activities for the year include a fall smoker and a spring banquet.

As a member of the National Intercollegiate Pep Association, Tech's Saddle Tramps will be host for the annual meeting to be held here this spring. Tech is the westernmost school in the 3-year

RONALD CROUCH, President

old organization. Tramps hope west coast schools will join the association this year.

The organization is open to male students who have completed 30 semester hours and have spent the last semester at Tech. Freshmen men may be members of the Red-shirts before becoming Saddle Tramps. Red-shirts assist upperclassmen in many of their activities.

Leading the Tramps are Crouch, Ken Smith, of Canadian, vice-president; Bill Trammel of Denver City, secretary; and James Schoeld, Carlsbad, N.M., treasurer.

Ex-Techsan Speaks To ASME Group

Jimmy C. Hill, a Bell Aircraft Corp. engineer from Ft. Worth, spoke to the American Society of Mechanical Engineers recently.

Hill, a 1952 Tech graduate, discussed the Bell Aircraft divisions, and showed two movies on their latest developments in helicopters.

"Any engineer can belong to the Tech chapter of ASME," said Clarence Crecy, publicity chairman for the group.

President is Dick Lowery; vice-president, Warren Stockton; secretary, Bill Price; and treasurer, Frank Swinburn.

D. J. Helmers, professor of mechanical engineering, sponsors the group, which meets on the first and third Monday each month.

New-Type Discing Brings Good Results

"Is that my band?" questioned Prof. D. O. Wiley, director of Tech band, when he heard a hi-fi recording of the band after a daily practice session.

The recording, made on binaural tape, sounded better than any other previous recording, Prof. Wiley said.

The binaural recording is a system of two mikes, two amplifiers and two sides of recording tape. It is built to reproduce sounds so as to make listeners feel as if they were actually attending the performance.

According to Prof. Wiley, even the bandmen were amazed about the result of the recording.

Gamma Phi Beta Introduces 28

Twenty-eight pledges were formally introduced Sunday at a Gamma Phi Beta tea in the Student Union. Faculty and members of other sororities were guests.

Heading the receiving line were Joan Knight, pledge director, Mrs. S. N. Robinson, colony supervisor, Carol Ann Vlcheck, national traveling secretary, Mrs. R. G. Horston, alumnae advisor, and Pat Johnson, pledge president.

Officers of Gamma Phi Beta are Pat Johnson, president; Nancy Lawlis, vice-president and social chairman; Nita Haseloff, treasurer; Patsy Hayden, recording secretary; Genevieve McGuire, corresponding secretary; and Betty Scarborough, standards chairman.

A private Founders Day Service followed the meeting.

Tech's 16 Points Puts Team In 2nd Place at Tournament

Texas Tech placed second in the Border Conference practice tennis meet Friday and Saturday.

Defending champions, Arizona, won the meet with 19 points. Tech had 16. Other teams included Hardin-Simmons, Texas Western, and West Texas.

Billy Edd Gowan, playing no. two singles won all four of his matches. He defeated Earnest Schoop, Arizona, 6-3, 5-7, 6-3; Donnie Cammel, Hardin-Simmons, 6-3, 4-6, 6-2; Henry Masterson, Texas Western, 6-2, 7-5; and Phil Nichol, West Texas, 6-2, 6-0.

David Kent, playing no. one singles, won two and lost two. He won over Ronnie Smith, West Texas, 6-3, 6-2 and Bill Haring, Hardin-Simmons, 8-6, 9-7. Kent lost to Gary Peterson, Arizona, 6-2, 6-3 and Bobby Jimenez, Texas Western, 1-6, 6-3, 6-3. Peterson was undefeated in the singles matches.

No. three singles player, Dick Spiers, won three while losing only one. Spiers' lone defeat was to Fred Kniffin of Hardin-Simmons, 6-3, 6-3.

Spiers won over Del Schoenthaler, Arizona, 6-2, 6-3; Sechero Garcia, Texas Western, 6-2, 6-3; and Raymond Ramirez, West Texas, 6-4, 6-0.

Representing Tech in the no. four singles spot was Johnny Kniffin who won two and lost two. He beat Arthur Naples, Texas Western, 6-1, 6-2 and Joe Dickerson, West Texas, 6-2, 6-2.

Steve Clarkson of Arizona and Jerry Goad of Hardin-Simmons defeated Kniffin. Clarkson won 6-2, 1-6, 6-4 and Goad won 6-2, 6-2.

In doubles matches Kent and Gowan teamed up to form Tech's no. one team. No. two team was Kniffin and Spiers.

Kent and Gowan won over Peterson-Schoenthaler, Arizona, 6-2, 7-5 and Smith-Nichol, West Texas, 6-2, 8-6. They were beaten by Hardin-Simmons' team of Haring-Cammel, 2-6, 6-4, 6-2 and Texas Western's Masterson-Jimenez 6-4, 7-5, 6-4.

Johnny Kniffin and Spiers lost only to Fred Kniffin and Goad of Hardin-Simmons 6-3, 6-1. They defeated Schoop and Clarkson of Arizona 6-2, 6-4; Ramirez and Dickerson of West Texas 6-2, 6-4; and Garcia and Naples of Texas Western 6-0, 6-1.

The Border Conference Meet will be held at Tech in May. This is the first time the meet will be held in Lubbock.

Phi Gam To Tackle Sigma Chi Tuesday

Fraternity league leader Phi Gam will meet Sigma Chi Tuesday in the lone game this week.

Sunday, Nov. 13, three games were played in the fraternity league. Second place SAE defeated Sigma Nu 27-0. Kappa Sig won over Phi Psi 21-7 and ATO lost to PiKA 6-0.

A meeting was cancelled last Thursday to determine the team in the independent league which would draw a bye. A meeting was planned for Monday to draw the bye and set a date for playoffs. Nameless Wonders, BSU, and Subs are tied for the title.

Brown Wins Fencing Tournery at Dallas

Gene Brown of Texas Tech won the Dallas Invitational Fencing Tournament Saturday. Brown was declared winner of the overall tournament by virtue of his first place in Sabre and second place in Epee.

He received a 12-inch trophy for his combined victories and a gold cup for first place in Sabre.

Eugene Miles, Frank French, and Frank Griffin, also represented Tech in the meet.

Griffin placed second in Sabre; Miles was fifth in Epee and sixth in Sabre.

Next Saturday Tech will host the Abilene Fencing club for team competition and two individual meets.

December 10 the team will journey to Dallas for matches with Dallas and Ft. Worth "Y" Teams.

Arizona State Blasts TW 20-13

Arizona State of Tempe last week moved another step closer to a possible Border Conference championship by disposing of the Texas Western Miners 20-13.

The Sun Devils have only to do away with New Mexico A&M and Arizona to win the championship. They are heavily favored to do both since neither of their future foes have won a conference game in 1955.

While Arizona State was rampaging onward, other BC teams stepped out of the conference to garner a 100 per cent weekend against opposition.

Texas Tech blasted Tulsa, H-SU defeated Cincinnati, New Mexico A&M defeated San Diego State,

Junior Class Planning 'Name Band' Dance

"The junior class is hampered by small attendance and lack of cooperation," Class President Larry Byrd said following a recent meeting.

"Only 10 people showed up," John W. Kelly, Jr., English instructor, is the new junior class sponsor, Byrd announced.

Also discussed at the small gathering were plans for bringing a "name band" to Tech for the Junior-Senior Prom.

Arizona ripped Montana and West Texas was idle.

Tech's 34-7 victory over the Tulsa Golden Hurricanes Saturday afternoon at Tulsa was termed by many as their greatest offensive effort of the season.

A fine passing attack was built around the throwing of Buddy Hill and Jack Kirkpatrick with the bull-dozing runs of Don Schmidt thrown in for good measure.

End Ken Vakey scored first for Tech on a 22-yard pass play which started with a throw by Hill. Schmidt plunged over from the six for the second score. Bobby Young took the second TD pass for a 38-yard scoring romp. Herr

closed out the scoring with a 22-yard pass connection.

Hill kicked four conversions and Kirkpatrick one.

End Sam Rutigliano took a pass from Charley Wynes for the only Tulsa score in the fourth quarter. Coach DeWitt Weaver used a host of players in the game to wear down the man power of the young Hurricanes.

The raiders piled up 18 first downs to 11 for Tulsa. Tech had 430 yards total offense compared with 202 for the Hurricanes.

Tech will return to Jones Stadium to close out their season with games against College of the Pacific and Hardin-Simmons.

 OPPOSITE POST OFFICE ON BROADWAY

Dave Johnson asks:

What's involved in production work at Du Pont?

JAMES L. HAMILTON is one of the many young engineers who have been employed by Du Pont since the end of the war. After service in the Navy, Jim got his B.S.Ch.E. from the University of West Virginia in June 1948, and immediately joined Du Pont's Repauno Plant at Gibbstown, N. J. Today, he is Assistant Superintendent of the dimethyl terephthalate area at this plant.

DAVID L. JOHNSON, JR., expects to receive his B.S.Ch.E. from the University of Kansas in 1956. He is very active in campus affairs, president of Alpha Chi Sigma and a member of several honorary engineering fraternities. Dave is interested in learning more about production work in the chemical industry.

Jim Hamilton answers:

Well, Dave, I've been doing production work at Du Pont for about seven years now, and I'm still getting involved in new things. That's what makes the work so interesting—new and challenging problems arise all the time.

To generalize, though, the duties are largely administrative. That's why effectiveness in working with others is one of the prime requirements. Teamwork is important in research and development work, for sure. But it's even more important in production, because you work each day with people having widely different skills and backgrounds.

A production supervisor needs a good understanding of engineering and scientific principles, too. He has to have that to get the best results from complicated equipment—but he doesn't necessarily need the specialized training that goes with research and development work. A real interest in engineering economics and administration is usually more helpful to him here than advanced technical training. The dollar sign's especially important in production work.

It all adds up to this, Dave. If you enjoy teamwork, and have a flair for large-scale, technical equipment, then you'll find production work mighty rewarding.

A MORE COMPLETE ANSWER to Dave Johnson's question about production work is given in "The Du Pont Company and the College Graduate." This booklet describes in detail the training, opportunities and responsibilities of engineers who take up this kind of work at Du Pont. Write for your free copy to E. I. du Pont de Nemours & Co. (Inc.), 2521 Nemours Building, Wilmington, Delaware.

COP To Be Next Opposition

Pageantry will vie with hard-hitting football as a principal attraction at the Texas Tech-College of the Pacific game here Saturday afternoon.

Glamour aplenty is assured through the presence of the famed Kilgore College Rangerettes, who, accompanied by their band, will go through routines similar to those they have presented at the Cotton, Rose, and Sugar bowls.

Also, Beattie Feathers, Texas Tech assistant coach, will be officially inducted into Football's Hall of Fame by James Stewart, general manager of the State Fair of Texas, himself a vice-president of the National Football Foundation.

Kickoff at 2 p.m. will pit the upsurging Red Raiders against College of the Pacific, a school playing football of Pacific Coast Conference caliber. Indeed, the Tigers' record against PCC teams is 3-2—wins over Idaho, Oregon State, and Washington State, losses to Stanford and UCLA.

For the season, the Tigers have a 5-3 mark, just about the same as Tech's 5-2-1. Tech has won its last three games, over West Texas, Arizona, and Tulsa. Tech's newly developed aerial attack clicked for 185 yards in the 34-7 victory at Tulsa.

Sides Puts Unusual Record Up Each Time He Totes Pigskin

Texas Tech fullback Jim Sides will be seeking his 91st successive carry without being thrown for a loss when he makes his first try from scrimmage against College of the Pacific in Lubbock Saturday afternoon.

JAMES SIDES

Not since the Red Raider's victory over Hardin-Simmons in the 1953 finale has Tech's co-captain lost yardage. Sides gained on his last two tries against the Cowboys, escaped being thrown in the Gator Bowl win over Auburn, then managed 55 rushes with a loss during the '54 season.

Sides missed four games this year with a cracked wrist but has now managed 31 tries for 170 yards. Incidentally, although Tech's record is 5-2-1, the Raiders have won every game he has been in.

As an upperclassman Sides only twice has taken a loss. Besides the Hardin-Simmons game of '53, there was that season's opener against West Texas State. Sides got 62 yards on four carries but once lacked a yard reaching the line of scrimmage against the Buffaloes.

Consequently, Sides has a record for nearly three seasons of 156 carries, 994 yards grossed, 2 lost, 992 netted. That averages out to nearly 6.4 yards a carry.

Probably Sides' better performances include 100 yards on 12 carries against Mississippi State in '53, 43 on 5 against Louisiana State last year, and 69 on 9 just last week against Tulsa. Sides is also valuable as a key blocker in Tech's split-T offense, and as a defensive player.

Speech Activities Program Set Here

Tech's Speech Department will serve as host to approximately 200 high school students Saturday during a Speech Activities Day program.

Five activities are scheduled. They include debate, junior declamation, senior declamation, poetry reading, and extemporaneous speech.

Musicians Display Talent In 'Autumn Fantasy' Opener

By JOAN ABEL

Miss Mary Jeanne van Appledorn, assistant professor of music at Tech, exhibited outstanding leadership as well as excellent musicianship in her direction of two eight piano groups last night in the opening numbers of "Autumn Fantasy".

Although the timing was not always perfect, it was obvious that the eight girls who rendered Bach's Toccata and Fugue in d minor were superior piano students.

Besides Miss van Appledorn, the first group was composed of Sandra Hemme, Carole Tollin, Roberta Elliott, Sarabeth Simpson,

Celia Pember, Margaret Schindler, and Carol Schultz.

Somewhat unusual but highly effective was the staging of Mousorgsky's "Pictures At An Exhibition." Best depicted from the group were "Tulleries," "The Market Place of Limoges," and "Sepulchrum Romanum." Catacombs," fittingly climaxed with the majestic "Great Gate of Kiev."

Again under the capable guidance of Miss van Appledorn, Fred Griffin's watercolor slides seemed to come to life. Pianists were Jan Higinbotham, Annita Powers, Joy Sue Downing, Ray Shook, Glenn Finney, Gilbert Finnell, and Albert Malacara.

Outstanding brass soloists for "Pictures at an Exhibition" were Jerry Pickens, balcony trumpet; Don Shelton, alto sax; Robert Taylor, french horn; and Jimmy Edmondson, trumpet.

The 1,000 Techsans and Lubbockites who two-thirds filled the auditorium at Monday's performance seemed to enjoy most the Autumn Fantasy Chorus.

Exceptional lighting and an ideal backdrop, plus orange, gold, green and brown forms, added a decided autumnal setting to the numbers of the forty-voice chorus. Hardy Ballou contributed invaluable atmosphere with his distinctive lighting.

Pat Cassidy and Don Armstrong turned out superior instrumental accompaniment for the chorus on accordion and piano. Also adding a unique note was the celeste, played by Nell Oldham.

"Autumn Leaves," by a girls chorus, was well received by the audience, as was "September Song," done by a male chorus.

Trumpeteer Ted Crager and drummer Paul Lovett gave striking performances during the Esquires' progressive jazz program, as did trombonist Mark Anthony and pianist Bill Woods.

Dallas F. Haslam, in his first Lubbock appearance, along with Carole Jean Delaney and Joanne Dean on the second piano, provided skillful piano accompaniment with Gershwin's Concerto in F for a mediocre ballet.

However, ballet soloist Elaine Frisbie made a first-class showing. Bernie Howell of KCBT-TV furnished notable entertainment as interlude organist.

"Autumn Fantasy" continues tonight in the Lubbock High School Auditorium. Curtain time is 8:15 and tickets may be obtained at the door.

Job Interviews Set

Interviews for '56 graduates will be held Nov. 16, 17, and 18 by 10 companies.

They include Babcock & Wilcox Co., for civil, electrical, industrial, and mechanical engineering majors; Standard Oil & Gas Co., for electrical, petroleum engineering, petroleum geology, mathematics, and physics majors; Ralston Purina Co., for agricultural, industrial, and mechanical engineering majors.

Texas Employers' Insurance Association, for all majors in chemistry, biology, mathematics, and physics (with 24 hours of chemistry); Employers' Casualty Co., for Business Administration majors; Radio Corporation of America, for electrical and mechanical engineering, and physics majors; Monsanto Chemical Co., for chemical, electrical, industrial, mechanical, and textile engineering majors.

Colorado Interstate Gas Co., for petroleum engineering majors; Humble Oil and Refining Co., for business education, secretarial administration, applied arts, accounting, business administration, chemistry, physics, petroleum geology, mathematics (with a science minor), and Price Warehouse and Co., for accounting majors.

Interested persons may sign up for interviews in the Placement office.

In a string of six consecutive kickoffs this season, Texas Tech's Dave Lloyd made the tackle four times and booted the ball out of the end zone the other two kicks.

Aggies Roast Pigs Tonight

This year's judging teams and winners of agriculture scholarships will be honored tonight at the 28th Annual Pig Roast. The event, sponsored by the Aggie Club, will be from 5:30 to 7:30 in the Livestock Judging Pavilion.

Attending the barbecue will be prominent men of agricultural industries and Aggie Club members, said Dr. Wayland Bennett, faculty sponsor of the club. Also the "Aggie of the Month" will be

announced by Club President Jimmy Smith.

Highlighting this year's awards will be the Fribourg scholarships of \$500 to an outstanding junior and senior of the Agriculture Division.

Smith stressed that club membership cards will be checked at the door. He added that any aggie not belonging to the club may attend by paying dues at a booth to be set up outside the pavilion.

Versatile Newspaperwoman To Be Top J-Day Speaker

MISS LOUISE EVANS . . . a varied background

Miss Louise Evans, one of Texas' best known newspaperwomen, will give addresses before high school and college journalism students at Tech this weekend.

The veteran Amarillo Globe-News feature writer will begin her speaking tour at 11 a.m. Friday with an address to Tech journalism majors on the rewards of a newspaper career. Her speech will be given in J208.

That afternoon she will be guest of honor from 3-5 at a tea sponsored by Theta Sigma Phi, national journalism honorary fraternity for women. The tea will be held at the home of Mrs. Louise Allen, Tech journalism faculty member, 3110 21st St. Guests will include Lubbock women journalists.

Miss Evans is also scheduled to deliver a major address on "Interviewing and the Feature Article" at Tech's annual Journalism Activities Day for high school students Saturday.

This talk, to begin at 10:45, will also be given in J208.

A University of Missouri journal by Wilburn Luna in the Union Workroom, Nov. 22. Color slides will be shown. According to Leah Lewis of the World Travelers Committee, the purpose of the talk and slides is "to acquaint people with Hawaii and the surrounding territory."

An Oxford-style debate will be held November 22 at the Union. The subject of the debate will be: "Resolved: The United States Should Give Arms to Israel."

Union Displays Top Photographs

Tom Brown, Lubbock, took first and second place honors in the all black and white division in the Photography contest and exhibit which is being held this week in the lobby of the Student Union, Alice Wells, Chairman of the committee on Arts and Exhibits announced.

First and second in colored slides went to Laddie Brosta and third place to J. D. Sitters. In the scenic division Dwight Pounds copped first place, while Laddie Brosta took second and Wayne Lambert, third.

The photographs and slides will be on exhibit until Sunday in the Union Lobby.

A talk on Hawaii will be given

Ferre . . .

(Continued From Page One) cluding a 25-minute address, "is my witness!"

Dr. Ferre, who had condensed a 50-minute prepared text into half the time, smiled, "A public speaker has to be kind of an accordion."

The invocation and benediction were given by the Rev. David M. H. Richmond, director of Westminster Student Center. Dr. Ferre was introduced by Dr. E. N. Jones, Tech president. The Tech Civic Chorus and concert band provided music.

Maid . . .

(Continued From Page One) Cotton Council of America, Memphis, Tenn., Dean James G. Allen, Tech; Frederic deVries, Slaton, fashion photographer, and Mr. and Mrs. R. L. Dixon of Dallas.

The purpose of the sixth annual South Plains Maid of Cotton contest was "to glamorize cotton, the most important fabric that can be worn," said Raymond King, chairman of the Maid committee, in his welcoming address.

VENTANA CLUB PAGE DEADLINE RESET

Deadline on club pages in La Ventana has been extended according to Pat Boles, editor. The deadline was originally set for today.

All clubs can buy pages in this section.

La Ventana Editor Plans Detroit Trip

Pat Boles, 1956 La Ventana Editor, is leaving tomorrow for Detroit, Mich., and the annual convention of Associated Collegiate Press editors.

Miss Boles will represent the Tech yearbook at the meeting, which begins Thursday at Detroit's Statler Hotel.

Delegates will be guests of Ford Motor Co. The opening convocation Thursday evening at the Statler will feature a buffet supper with the Chrysler Motor Corp. as host, and Max Shulman speaking on "So You Want to be a Writer—You Fool You!"

The convention will last through Saturday, featuring talks and workshops conducted by leading journalists. Miss Boles will return to Lubbock Sunday.

TRAMPS TO DRAFT PLANS AT MEETING

Final plans for the meeting of the College of Pacific football team and the Kilgore Rangerettes will be discussed by the Saddle Tramps Thursday afternoon.

The Tramps, men's service organization, will hold a regular meeting at 5 p.m. Thursday in Ad 218.

The organization is re-establishing a policy this year of meeting visiting football teams when they arrive in Lubbock. Bill Hudson is reception committee chairman.
