Pre-Laws Vote To Try Coker; Incompetence Is Basis Of The Charges

Flirting With Tech Co-Eds Is One Main Charge

BY GEORGIA SPELVIN
The Pre Law club by a two thirds majority voted that their president Glynn E. Coker was by the evidence indicated, guilty of the following impeachment charges: 1, incompetence; 2, official misconduct; 3, flirtation; 4, embezzlement; 5, bribery in gaining office; 6, use of office for personal gain and glory; 7, unsound mind; 8, habitual disturbance of the peace; 10, issuing a challenge for a duel. Therefore the case will go to the Texas Tech Pre-Law Supreme court. The jury for this trial is to be selected from the Pre-Law club provided that opinion is not biased.

The state prosecutors are Smith, Settle Clements, and Settle. The president of the Pre-Law club has selected for his council, the firm of O'Neal and Barron.

Flirting Is Charged
The state is using the charge of flirting as one of the main charges against Coker, and they have evidence to show that Coker acted very unbecomingly in courting the Co-eds of Texas Tech.

Incompetence is another charge which will be stressed by the state, as it is quite apparent that the Pre-Law club, once the best club on the campus has degenerated sadly under his regime.

Gives Rubber Check
His embezzlements while in office has inflicted considerable embarrassment on the club and given it a shady reputation. Profligating on the banquet money led to unusually poor food at the banquet, once the best affair of the entire campus. He also, gave the business manager of La Ventana a rubber check to pay for the Pre-Law page in the annual.

The state is absolutely sure of a conviction, but will not ask for suspension of his duties and thus save the club the embarrassment of impeaching the president. They are asking that he be sentenced to hard road labor or possibly to the C. O. Chain Gang. The defense looks doubtful at the thoughts of acquittal.

Is Notorious
This promises to be the most notorious trial that the Pre Law club has ever had.

Glynn E. Coker made a statement to the press that he is confident of acquittal as he proved that Charles Cobb was sane in the recent Cobb Murder Trial, which was considered an impossible task.

This is the second annual spring trial of the Pre Law club and it will be held in room 302 of the administration building on April 10.

Officials Are Selected For Annual Event

Seventeen Plains Counties To Take Part In Inter-Scholastic League Meet; Winners To Go To State Meeting

Students and teachers from seventeen Plains counties will gather at Texas Technological college April 14 and 15, for the district Inter-Scholastic League meet according to Dr. A. W. Evans, Tech head of education, who is Director-General.

The following counties will participate: Borden, Bailey, Cochran, Crosby, Dawson, Dickens, Floyd, Gaines, Garza, Hale, Hockley, Lamb, Lubbock, Lynn, Martin, Terry, and Yoakum.

List Given
The directors are: debate, J. W. Jackson, one-act play, Annah Jo Pendleton; senior declamation, J. T. Shaver; junior declamation, W. P. Clement; extemporaneous speech, Ruth Pirtle; essay writing, E. A. Mills; music memory, W. R. C. G. Hays; typing tournament, Mamie Wolfarth; art, F. A. Klein-schmidt; track and field, "Dutchy" Smith.

The winners of events in this meet will be eligible to enter the state Inter-Scholastic meet at Austin during the latter part of April.

MASONS GUILD MEETS
Members of the Tech Masonic Guild met at a dinner at the Glorietta Monday at 6 o'clock, and continued with the meeting in room 106 of the engineering building to hear a talk by Doctor F. G. Harbaugh.

Seniors Work To Get Examinations Set Up One Week

The senior class is now working on a plan to have their examinations moved up so that they may have commencement before the students go home at the end of the spring term.

Eugene Edwards, president of the senior class, appointed a committee composed of Al Jensen, Samuel Hopper, Jack Flowers, Noel Elliott, and Voncie Gilkerson to work on this plan so that it may be presented to the Administrative Council at their next meeting.

All examinations for seniors are to be moved up in the plan, and those seniors who have a B average or better should be exempt from examinations.

New Election Date Made At Council Meet

Fourth Week In February Made Date Of Student Elections; Graduates Secure Recognition; Sweaters Ordered

"Publication office elections are to be held the fourth week in February," was voted as an amendment to the student constitution by the Student Council Thursday night, March 30. "This will add the incoming editors and business managers of our publications to learn their positions better before they take office," stated Basil Hill, president of the council, "as they will act as associate-editors the rest of the year after they are elected."

Graduate representation on the council was also granted. The graduate association will have one representative.

President Hill announced that the sweaters for the yell leaders had been ordered. The varsity sweater will have a six by seven inch letter, and the freshman sweater, the numerals of his year.

Student Press Publications, the student owned printing office, was discussed.

AIEE Members Sponsor Trip

Saturday To Inspect Plant
Members of the AIEE sponsored a trip to the Texas Utilities power plant near Tucco Saturday from 1:30 to 7 o'clock, inspecting the plant from the point of intake of the water to the generation of electricity.

Mr. H. L. Allen, Lubbock manager of the Texas Utilities company, spoke on the general design and layout of the plant.

Officers of the AIEE are: Preston Conner, chairman; Walter Cox, vice-chairman; Evans Riley, secretary; and Professor C. V. Bullen, faculty member.

Faculty members accompanying the students were: Dean O. V. Adams, Professors H. F. Godeke, J. H. Murchough, C. V. Bullen, E. W. Parkhill, W. F. Helwig, and V. L. Doughty. Sixty-three students attended.

Tumlinson Talks To Aggies

Lubbock County Agent Tells How Work Is Demonstrated; Aggie Dance Plans Made; To Be Held April 29

O. G. Tumlinson, Lubbock County agent, talked on "County Agent Work and How Work is Demonstrated," at the Aggie club meeting held last Tuesday evening at 7 o'clock in the Pavilion. R. C. Mowery, assistant professor in the animal husbandry department, gave a short pep-talk to the club.

Plans for the Aggie Dance, to be held April 29, at the Hilton hotel, were made and arrangement committees were appointed.

Members of the arrangements committee are Berry Duff, chairman, Homer Brumley, and Ben Jenkins. Bid committee members are Odus Holly, chairman, Jessie Young, and Clayton Fuller. The decoration committee is Elizabeth Montfort, chairman, Billy Mitchell, Frank Roberts, and Albert McGlinchey.

Eight Students To Seek Offices Of Publications

Elections Will Be Held During First Week In May; Petition Of Each Candidate Must Be Signed By Fifty Students

Must Be Juniors

Candidates Must File Their Intentions With Secretary Of Students Association; Must Be Carrying 12 Hours

Eight students have announced their intentions of running for the student publication offices. The elections will be held during the first week in May.

The candidates for editor of the Tormentor are Bob Tracy, junior journalism student, and Calvin Hazlewood, also a junior journalism student. Prospective Tormentor business-managers are Joe Harter, junior aggie student, and Malouf Abraham, junior liberal arts student.

La Ventana Candidates
Those running for editor of La Ventana are Bruce Zornis, junior architectural engineer, and Byron Terrell, junior liberal arts student. Candidates for business manager of La Ventana are Marvin Messersmith, junior liberal arts student, and George Long, sophomore liberal arts.

The candidates for editor of the Tormentor must have junior standing and must have been in Tech six terms, at the time of taking office. He must have a C average in English; also he must have had some journalistic experience.

Qualifications Listed

The Editor of La Ventana must be a senior at the time of taking office; must have nine term hours at Tech; must have a C average on grades for the last three terms; and must have had previous experience on either the Tormentor or La Ventana.

The business managers of the two publications must have completed 65 term hours and must have spent six terms in Tech. Each of them must make bond.

All candidates for these four offices must file with the secretary of the students association at least ten days and not more than thirty days prior to the date of election, a petition announcing the intention to run for the office desired, stating that the candidate is a bona-fide student of the college. This petition must be signed personally by at least fifty students of the college.

All students running for salaried offices must secure an announcement from the Registrar's office stating that the candidate is registered for 12 term hours of scholastic work and that he or she, during the preceding term, passed at least nine hours of scholastic work.

CAPA Y ESPADA MEETS

Professor A. B. Strehl was the principal speaker at the meeting of El Capa y Espada last week. He gave two talks, one on "Bullfighting" and the other on "The Sports of Spain." The program was completed by a sing-song, led by Lois Freeman.

Refreshments were served afterward. The meetings of El Capa y Espada have been changed from one hour twice a month to two hours once a month. According to the president, Margaret Lindsey, the next gathering will be on Tuesday night.

Doctor Key Speaks At Pre-Med Meet

Dr. Olan Key of the Lubbock Sanitarium and Clinic was the principal speaker at the regular Pre-Med club meeting Tuesday night. His subject was "Medical Fraternities." The advantages to be derived from medical fraternates was explained. Emphasis was placed on the benefits to be gained from libraries and laboratory apparatus such as anatomy charts and microscopes maintained in the fraternal houses. Dr. Key stated, "Taking all expenses into consideration the fraternity man gets through medical school the most economically."

An article on Cooke County hospital was read by John Meak. Correspondence from Eaylor Medical school at Dallas was read by Warren Poole, president of the club.

Raw Cotton Is Woven Into Linen By Textile Engineers; Processes Take Place In Tech Laboratories

Different Processes Are Described In Detail From First To Last As Bale Enters Laboratory And Is Started Through The Mill; Weaving Is Explained

BY ELIZABETH DRYDEN
From a bale of cotton to a roll of handkerchief linen! This process all takes place in the textile engineering school. Does it sound complicated? Well, here is how they do it. First a bale of cotton is poured into a machine, called the vertical opener, to remove the dirt and burrs that are on the cotton. After this is done, a fan blows the cotton through a pipe into a condenser.

From the condenser, the cotton falls into the breaker picker, which removes more dirt. From this machine the cotton comes out in lap form, light and fluffy. The lap looks like a soft white sheet of cotton. Four laps of cotton are then run together through a finishing picker to even the lap and make it come out an even weight. These laps are put on cards, comb like machines, that straighten the fibre.

The cotton comes out of these cards in silver form into cans. When it is silver form, it is like a soft cotton rope, clean and snowy white. These cans of silver are placed behind drawing machines and give uniformity of strand to the cotton and straighten the fibre. Six silvers are run through the machine together and make one thread. This thread is the same weight as one of the six was before it was run through the machine.

From the drawing machine, the strands are taken to the slubber, which draws the fibre out of the cans to make it finer. This process places the cotton on bobbins and puts a twist in the cotton so that the cotton will hold and not break. If it were not possible to put the twist in cotton, it could not be worked.

The cotton is now called roving and put on the intermediate roving machine. The roving that was originally on two bobbins now comes out on one bobbin in the form of yarn. To make the yarn smoother, the cotton is run through a fine roving machine with two strands now rolled into one.

The once bulky dirty cotton is now fine white yarn and ready to be spun into thread. To the spinning frames the cotton goes and again two threads are run through a machine and come out one. The next step is to make the warp, and this is done by taking the yarn from the bobbins and winding them on the spinning machine, which is called the spider. If the spider is to have a color stripe in the warp, the yarn must be dyed. Before the warp is made up, a sufficient amount of yarn is wound on spiral spring and taken to the dyeing laboratory to be dyed the proper shade. The thread is then rewound on the spools, and placed on the machines.

Casa Linda Is Unique Place Tech Co-Eds Organized First Cooperative Boarding House In History Of College; Each Girl Works

BY RUTH HURMENCE
Casa Linda, "the pretty house," is the name of a girls' co-operative house at 2211 Main founded this term by the Quarterly club with a purpose of providing better housing conditions for women on the campus. The Quarterly club is a group of faculty women which undertakes a project every year.

Financially, Casa Linda is uniquely operated. Besides the \$15 a month which she pays for room, board and laundry, each girl is responsible for certain assigned duties. For instance, two girls cook the breakfasts and lunches for a week, two cook the dinners, and another two wash the dinner dishes. Of the two hostesses, one cleans upstairs, the other downstairs. Another girl does the odd jobs, and yet another has a permanent job of checking the laundry.

These tasks circulate among the girls each week. The money paid in each month pays for light, heat, rent, food, etc. Any amount remaining is used to buy necessary household furnishings. "Under this plan," Miss Potter says, "the house cannot fail financially."

The spools are hung on the beam warper and the thread is threaded through minute wires and come out on a beam. The average number of threads threaded through the wires is about two thousand, but there can be as many as nine-thousand threads. Now the beams are run through the slasher to put the starch in the thread. It is run through starch vats and the roll is squeezed out the excess starch.

It is rewound on the beam after it comes through the slasher. Now the thread is made, and it is ready to be spun into cloth. These loom beams are placed on drawing frames and the warp drawn through wires, called drop wires and harness, which lift half of the strands up and half of them down, allowing the shuttle to pull the thread between them and thus make the weave in the cloth.

If they want a colored filling, let a shuttle of one thread run through and then a shuttle of another color of thread run through. An apparatus, called the reed, forces the thread together and the cloth is woven. Work is being continued with other engineering show officials. "This will be open to everyone of high school age or over. Tickets will be given to every visitor starting through the engineering buildings, and will be taken up at the mechanical engineering shops to be drawn from the lot Saturday night."

Tech Delegates To WAA Meet

Jimmie Hash Will Represent Tech At National Meet In Austin April 17-21; Ten Local Delegates To Attend

Jimmie Hash, president of W A A will represent Tech at the National Amateur Athletic Association of College Women in Austin April 17-21, according to selections made at a club meeting Monday night. Miss Zella Reigel was chosen as official sponsor of the club. A group of ten including the two delegates plan to attend this meeting. This group will attend the Texas convention of this association at the same time in Austin.

Lectures from various women who are nationally interested in girl's athletics will be features of the program. Plans for the ensuing year's sports will be made. Social functions will be conducted during the evenings.

After the meetings, the entire convention plans to go to San Antonio where it will attend "The Battle of Flowers."

Dam Is Modeled

A concrete model of the Hoover dam two feet high, will be shown by the civil engineers. Archie King, superintendent of this department, plans to show also models of a concrete deck girder railroad bridge, a concrete highway bridge, a grade

Engineers To Award Prizes During Show

Tickets To Be Given Away To All Visitors As They Enter The Exhibition And Are To Be Taken Up As They Leave

Work Continues

Students In Charge Of Departments Are To Show Latest Inventions; Hoover Dam Will Be Shown In Miniature

BY CAVIN HAZELWOOD
Prizes to the general public, consisting of a pair of bronze bookends and two aluminum footplates, will be given by the mechanical engineering department to the holders of the lucky tickets at the annual engineering show which meets April 14 and 15. Don Wellman announced after consulting with other engineering show officials. "This will be open to everyone of high school age or over. Tickets will be given to every visitor starting through the engineering buildings, and will be taken up at the mechanical engineering shops to be drawn from the lot Saturday night."

This follows a similar statement made by Preston Conner, general manager, last week when he stated that the freshman engineer who contributed most to the show would receive an award.

To Show "Serpents"
The chemical engineers plan to show Pharaoh serpents and huge crystals of copper sulphate and chrome alum. There will be a device for the testing of alcohol on the breath of the visitors who permit. There has been some rumor as to the exhibition of a prehistoric dragon who breathes fire and can talk. "Look out for the dragon," B. L. Manire, chemical engineering superintendent, warned.

"The Liberty airplane motor now in the mechanical engineering laboratory will be on exhibition but for the show," Alton Miller, mechanical engineering superintendent, states. "It is impossible for us to have it in running shape in such a short time for it needs new parts which are not now on hand."

Work is being continued with the ice machine exhibit which includes, among other things, using steam radiators in the basement for expansion coils of a cooling unit. The radiators, then, would make the surrounding atmosphere cooler rather than raise its temperature.

To Show Testa Coil

Newest developments along electrical lines will be explained by Arthur Waghorne, superintendent of electrical engineering, including the talking radio beam which travels in a given direction, the photo-electrical cell, the oscillating, and the Testa coil.

The engineering drawing department, directed by Malcolm Eurlitt, to exhibit drawings of a vertical steam engine, and test-tool illustrations used in laboratory exercises.

Pictures in the engineering halls are being removed for rearrangement by the architectural engineers, supervised by Carl McAdams. They will be replaced and will contain several new ones in time for the exhibit. A part of the Carnegie corporation gift will be exhibited along with the student drawings.

Work on "Eye in the Garden" will not be completed in time for the show, but will be far enough along to show the working details of a mural painting during its competition.

Dam Is Modeled

Members of the ASCE met in room 109 of the engineering building Tuesday night at 7 o'clock for the election of officers. New officials are: Bill Luce, president; Ray Waits, vice president; Paul Hall secretary and treasurer; and Professor F. L. McRee sponsor.

Retiring officers are: Travis Parler, president; Arch King, vice president; Jim Frank Potts, secretary and treasurer; and Professor J. H. Murchough, sponsor.

Vesper Services Will Be Held On Good Friday Here

Under the auspices of the YWCA and the YMCA Good Friday Vesper services will be held at Seaman hall, April 14. Ruth Reed is to be in charge of the program.

The theme of the service is to be Universal Implication of Sacrifice. The feature of the service is to be "The Cross." Through songs and tableau the meaning of Good Friday is to be given.

At the close of the services, sacrament is to be administered to all of those who wish to partake. Reverend Barnet will officiate at the services. Students and friends are invited.

Sunrise Vesper Services To Be Held On Easter

Tech Christian Groups To Be In Charge Of Annual Event Of Spring Term; Services To Honor Dr. Horn

In keeping with the usual Easter custom, the YWCA and the YWCA will be in charge of a sunrise service Easter morning, beginning at 6:30 with Easter carols from the east (some of the administrative building). The services will be south of the Sally-port of the administration building.

Preston Conner, president of the YWCA and May Tom Howell, president of the YWCA, will be in charge of the program.

Songs and readings will commemorate the Easter time. The service is to be dedicated to the memory of Dr. P. W. Horn, deceased President of Texas Technological college. The main feature of the program will be a reading from some of his writings, according to Miss DeBardleben, sponsor of the YWCA.

"Dr. Horn loved this service and wished it to be an established tradition of Texas Tech," said Miss DeBardleben, "and it is peculiarly fitting that this service be dedicated to his memory this year."

The offering from this service will go to the unemployed of Lubbock.

KoShari Club Wins Scholastic Awards

The KoShari club is winner of the trophy awarded each term to the social club making the highest scholastic average by the Inter-collegiate council. The trophy is in the form of a plaque.

The averages of the social clubs are: KoShari 85; Las Chaparrillas, 83.67; D. F. D., 83.51; Las Vivar-chas, 82.72; Los Camaradas, 78.9; Sans Souci, 77.43; Silver Key, 78.01; College club, 77.4; Kemas, 78.38; Centaur, 76.04 and Wranglers, 75.04.

Zorns Elected Architect Head

Gargoyle Club To Be New Name Of Organization; Annual Picnic Date Is Set For May 5; Book To Be Given

Bruce Zornis, junior architectural engineer, was elected president of the Architectural society at a meeting held in the Engineering building last Tuesday night at 7 o'clock.

It was decided by the members of the society to change the name of the organization to the Gargoyle club. This club will admit all students who are taking architectural courses. The constitution is being revised to suit the needs of the new club. The revision committee is composed of Carl McAdams, William Worley, and Professor F. A. Klein-schmidt, head of the architectural department. The annual social picnic will be held May 5. Definite plans have not been made for a place. The arrangement committee is Carl McAdams, R. V. Davis, and Atmar Atkinson.

Junior Stock Judges Will Be Officials

Members Of Team To Act As Judges Of 4-H Contests; Renner Is To Judge Dairy Displays

Is Sixth Event

Pederson Is To Demonstrate Methods Of Making Cheese On American Farms; Team Is Listed

For six consecutive years Texas Tech has had exhibits at the Texas Panhandle Plains Dairy show, held in Plainview, Texas. Monday, April 17 finds Tech again presenting exhibits in the sixth annual dairy cattle show.

Saturday afternoon, 19 dairy cows are being sent to Plainview in the charge of R. C. Middleton, Tech dairy herdsman and graduate of the class of '29. Seven Jerseys, seven Holstein Friesian, and five Guernseys constitute the dairy cattle representing the college.

To Judge 4-H Work
Ray C. Mowery, assistant professor of animal husbandry, and the junior livestock judging team are to conduct the 4-H club for students of vocational agriculture. Members of this team are Jack Downs, Odus Holly, T. L. Leach, Wm. Gregory, E. E. Steen, and Ernest Barton.

K. M. Renner, head of the dairy manufacturing is to be a judge of dairy products at the Plainview dairy cattle exposition. In connection with this department, Tech is to have a booth exhibiting cheese. On Tuesday M. G. Pederson, instructor of dairy manufacturing, is to give demonstrations on making American cheese on the farm. Further demonstrations on cottage cheese and on practice judging of dairy products are to take place Wednesday.

Installation For Blue Key Will Be Held

Banquet To Be Given Before End Of Term; Committees Are Named For Dinner And Other Details

"It is our desire to install a chapter of the Blue Key national honorary fraternity before the spring term is over," stated Jay Moore, president of the Tech Chamber of Commerce, at a meeting held Monday night in room 220 of the administration building. The membership of the Blue Key will be composed of the active Chamber of Commerce members, the alumni of the organization, and the honorary members, which are elected each year from the faculty.

Plans for the installation banquet were discussed, and three committees were appointed to take care of the arrangements. They are: membership, Parker Taulman, Malouf Abraham, Lou Edwards, and Leon Ince; constitution and by-law, H. C. Fender, associate professor of government; B. F. Conroy, head of the economics and business administration departments; Fred Fabry, Carl McAdams, and Clayton Fuller; banquet, Don Maddox, Basil Hill, Roger Knapp, and Ray Moore.

The constitution and by-laws of the Chamber of Commerce will be revised to fit those of the Blue Key fraternity, which is non-social and non-political and whose membership is based on leadership. Home Ec Club Meets Tuesday Night; Farris, Hitt Speak

GOOD TEAMWORK

The higher educational institutions of Texas have been on the firing line for the last few months, bombarded with requests that they prove to the public their right to exist at all and, if so, to show what budgetary improvements can be effected and how the quality of education may be bettered through reforms in the curriculum.

Texas Technological College in its defense easily takes the palm by presenting "facts not given in official report," submitted in a lengthy typewritten brief, prepared by the educational committee of the Lubbock Chamber of Commerce.

Incidentally, the presentation made in Part II is a strong argument for the serious consideration of the organization of Texas into regions, but federated, so as to make a united State.

Completed last week, the shift of books, catalogues, and magazines to new shelves in the library, by student assistants, has given more stacking space for newly catalogued material.

Incidentally, the presentation made in Part II is a strong argument for the serious consideration of the organization of Texas into regions, but federated, so as to make a united State.

DOES YOUR CANDIDATE QUALIFY?

The Toreador is not interested in promoting the candidacy of any aspirant to its editorship. But in order that you may act as a calm, impersonal judge of qualifications and potentialities, the qualifications of a good editor are hereby placed before you.

Your editor should have a working knowledge of grammar, spelling, and typing. This simple requirement should eliminate most of the candidates that offer for the office.

This is necessary to success in any endeavor: Character. Don't vote for a man you know to be vacillating and timid. He'll always be afraid to give you straight news because "somebody might not like it" or "we won't get any more stories from them if we print that."

If your candidate has the foregoing qualities, he will probably have the remainder of the qualifications: intelligence, background, and personality.

You May Be An Honor Student But Can You Pass This Quiz?

- Question 1—What should a cleansing cream do for my skin? (The perfect answer: It should mold the tissues; cleanse thoroughly; clear the skin. Helena Rubinstein's Pasteurized Face Cream is the super-cleanser to use. 1.00; 2.00) Question 2—What shall I do for blemishes? (The perfect answer: Banish them with Acne Cream, a soothing, medicated Helena Rubinstein preparation that heals pimples, blotches and occasional skin disturbances. 1.00; 2.00) Question 3—What cosmetics shall I use? (The perfect answer: Helena Rubinstein's flattering cosmetics are beneficial, too. The smart, collegiate Red Coral Rouge and Lipstick is especially becoming to blond and medium types; the glowing, but not theatrical Red Geranium is becoming to brunettes. Natural powder for Blondes; Rachel for Mediums; Maresque for Brunettes. From 1.00)

Mark Halsey Drug Lubbock's Original Cut Rate Drug Store

ment, be willing to listen to advice—then be able to make up his mind for himself. His background should give him some understanding of his work, the life about him, and college aims. And, lastly, he should have a personality that attracts friendships and secures cooperation from his staff and news sources.

These are high standards. No candidate will satisfy all these demands. But judge your candidates, personal sentiment aside, in the light of these qualifications.

THE HONORS SYSTEM, AND WHY

In order to give students of special aptitude a chance to do harder and more independent work than that given to the average student, Swarthmore college, near Philadelphia, uses the Honors system.

Here in Tech, this same plan, with variations, might be successfully followed. Students with high averages, who have shown unusual ability during the first two years of college, should do more than merely meet the requirements of their courses. He should gain experience in dealing with first-hand knowledge and original material by intensive reading and under special tutorage of professors specially qualified in particular fields.

Library Move Is Completed

Work Begun During Fall Term Is Finished; More Space Given For New Material; Circular Is Revised

Completed last week, the shift of books, catalogues, and magazines to new shelves in the library, by student assistants, has given more stacking space for newly catalogued material.

The Human Fort STOPS CANNON BALL!

ILLUSION: A "strong man" once gave public performances in which he stopped a 9 lb. cannon ball shot from a fully charged cannon. The audience gasped when the gun flashed and the human Gibraltar stepped forward out of the smoke uninjured, with the 9 lb. shot in his hands. EXPLANATION: The trick lay in the way an assistant prepared the cannon for the performance. He used the regulation amount of powder and wadding, but placed the greater part of the charge of powder ahead of the shot. The cannon ball was propelled only by the small charge behind it which was just sufficient to lob the 9 lb. ball over to the strong man.

It's fun to be fooled — ...it's more fun to KNOW

A performance sometimes staged in cigarette advertising is the illusion that cigarettes are made easy on the throat by some special process of manufacture. EXPLANATION: All cigarettes are made in almost exactly the same way. Manufacturing methods are standard and used by all. A cigarette is only as good as the tobacco it contains. It is a fact, well known by leaf tobacco experts, that Camels are made from finer, MORE EXPENSIVE tobaccos than any other popular brand.

In costly tobaccos you will find mildness, good taste, throat-ease. Smoke Camels critically, and give your taste a chance to appreciate the greater pleasure and satisfaction offered by the more expensive tobaccos. Other cigarettes, we believe, will taste flat and insipid to you forever after.

NO TRICKS ..JUST COSTLIER TOBACCOS IN A MATCHLESS BLEND

Luncheons And Dinners Mark Campus Social Activities Over Week End

Eight Organizations Entertain Members, Guests With Parties

Kemas Entertain With First Dance Of Spring Term; Sans Souci Give Luncheon; Las Chaparritas Attend Supper

An annual dance accompanied by a series of luncheons and dinners marked the social activities of the past week end for the various club members and their special guests on the campus.

Kemas Club Has First Dance Of Spring Term

Kemas club members entertained guests with the first dance of the spring term last Friday evening at the Hilton hotel.

Approximately 150 guests attended. The single decoration was the club emblem which hung over the orchestra stand and Ned Bradley's orchestra furnished the music.

Hosts were Roscoe Clark, Bryan Harper, Neil Brown, George McDonald, Morrison Lison, Walter N. Hicks, Harold Elliott, Edward Watson, Sam Black, Chancy Watson, Craig McNeese, Eugene Watkins, and A. C. Sanders.

Their guests were Misses Eleanor Halbert, Tommy Echols, Florence Moore, Bernice Anderson, Ruth Heard, Vera Tate, Alene Arnett, Royce Blackwell, Mary Evelyn Gordon, Elizabeth Conner, and Elsie Marie Hudson.

Special guests were Mr. and Mrs. James G. Allen, Dr. and Mrs. A. B. Cunningham, Lonnie Langston, and Mrs. Mary W. Doak. M. G. Pederson is club sponsor.

Sans Souci Has Luncheon For Guests Saturday

Spring decorations were used in appointments when Sans Souci club members entertained Saturday with a one o'clock luncheon at Hotel Lubbock, honoring their sponsors and patronesses.

Guests were Mrs. Lorenz Ellis and Miss Jennie McCrery, sponsors, and Misses E. J. Parsons, Roscoe Wilson, J. E. Vickers, John B. Chrysler, Earl Hunt, O. E. Maedgen, W. O. Stevens, of Plainview, D. K. Bondurant, of Beech, and Miss Della Wilkinson, patronesses.

Club members attending were Misses John Anna Boyd, Wanda Butler, Evelyn Price, Mary Lee Bardwell, Frances Snyder, Rosemary Leaverton, Roberta Myrick, and Vera Logan.

Hostesses were Misses Dorothy Schults, Dorothy Rushing, Cole Baker, Mary Eubanks, Effie Smith, Ann Lou Bennett, Melba Watson, Sue Delafosse, Lois Pitts, Christine Bundy, Audrey Parris, Lois Wilson, Dorothy Dobbins, Mary Geniece Hardberger, Lena Grace Sanderson, Nancy Ruth Leaverton, Helen Barstow, Fay Brown, and Mrs. D'Aun Hunter.

Las Chaparritas Has Supper And Picnic Over Week-End

Misses Ann Dohoney, Sue Michie, Eugenia Smith, and Ruth Rutledge were hostesses Sunday evening with a six o'clock buffet supper for special guests and members of Las Chaparritas club members in the home of Mr. and Mrs. F. R. Friend, 2005 Broadway.

Special guests were Misses Linda Caldwell, Gene Dabberly, Pete Hawkins, Ruth Thompson, Lucille McCrummen, Janet Hambricht, and Jean Ayers.

Club members in attendance were Misses Kate Mahaffey, Sally Russell, Voncile Gilkerson, Jean Shelley, Jennings, Ruth Hutchinson, Glyde Grimsley, Mary Earle Lofland, Florence Moses, Lyall Pickett, Ethel Murray, Pauline Yeager, Geraldine Durham, Ann Caldwell, Sarah Lou Stevens, Sue Barton, Camille Stobaugh, Maxine Clark, June Lawrence, Jean Daly, Gall Quinlan, Harriette Roach, Johnny Gilkerson, Zella Rinkel, Sylvia Wilson, Poly Barrow, Cecile Home and Mary Lois Gamel.

Attend Picnic
Misses Ann Caldwell, Glyde Grimsley, and Sarah Lou Stevens were hostesses with a picnic at Buffalo Springs Tuesday night.

The club members including three new ones, Misses Gene Dabberly, Linda Caldwell, and Pete Hawkins,

WEEK-END ACTIVITIES

Dances, teas, and bridge parties are among the plans for the week-end activity among the social clubs at Tech.

THURSDAY
Mrs. W. C. Pryor will entertain Koshari club members and guests this afternoon at 3:30 o'clock in her home, 2423 20th street, with a bridge party and chili supper.

FRIDAY
The Pre-Med club will entertain guests with its sixth annual dance at the Uptown Dance Palace. Ned Bradley's orchestra will furnish the music.

SATURDAY
The Military ball will be held in the ball room of the Hilton hotel with Johnny McFall's orchestra furnishing music. The crests of the national guard regiment and the cadet corps will be the decorations used in the ball room. These crests are carrying out the colors of red, gold, and silver.

Misses Fay Brown and Christine Bundy will entertain special guests and members of Sans Souci club with a bridge party at the home of Mr. and Mrs. F. R. Friend, 2005 10th street.

SUNDAY
The Forum members will be hostesses at Silver tea given in Seaman hall from 4 until six o'clock. Hobbies or avocations of all Tech professors will be displayed as the feature of the afternoon. The money taken in will go to the fund for sending the A.W.S. president to New York.

The Press club will attend a picnic at Buffalo Springs in the afternoon. Jasper Hubbard and Ruth Humence are the committee of arrangements.

D.F.D. Entertains With Candy Pull Saturday

D. F. D. club entertained guests with an old fashioned candy pull at their club house, 2321 thirteenth street, Saturday evening.

Those in attendance were Misses Louise Sneed, Martha Alice Penney, Evelyn Parish, Lillian Parish, Marjorie St. John, Sara Tom Jones, Louise Wardlaw, Betty Ross, and Messrs. Bill McKelvie, Ed Weiss, Tracy Watson, Wilson Holden, Conrad Guslin, Louis Jackman, Rob O'Hair, and Charlie Smith.

On March 29 the club held its annual elections. The officers chosen were: Marjorie St. John, president; Lorena Carter, vice-president; Louise Wardlaw, secretary and treasurer; Evelyn Parish, rush captain; and Lillian Parish reporter.

Las Leales Have Chop Suey Supper And Bridge Party

Las Leales club members entertained guests with a chop suey supper and bridge party Tuesday, March 28, in the home of Miss Pearl Harrison, 1916-A Main street. Hostesses were Misses Harrison, Emma Jean and Ruth Douglas, and Mrs. Alfred M. Babcock.

Hawaiian and Chinese favors were used in appointments. High score in the games was made by Mrs. Emmett Burford and Miss Lucille McCrummen.

Special guests were Misses Florence Rogers, Flossie Burkholder, Mary Louise Douglas, Martha Belle Logan, and Vera Lowe.

Club members attending were Misses Ruth Thompson, Eunice Cone, Ena Armstrong, Lizzie Bell Clements, Ruby Rae Williamson, Louise Lawson, Mary Leidigh, Mary Evelyn Gordon, Christova Seyver, Geraldine Clewell, Pauline Garrigue, Margaret Green, Lois McKenzie, Eufaula Wise, Juanita Price, McCrummen, and Mmes. Wilbur Pearson, Howard Scoggin, and Burford.

Drown Elected President Of College Club

College club elected new officers for the spring term and the first semester next year last Wednesday night.

The officers are: Jack Drown, president; Drew Dickson, vice-president; Ward Garrison, secretary; and Worth Gamel, treasurer.

Old officers of the organization were Walton Nixon, president; Jack Flowers, vice-president; and Frank Maddox, secretary-treasurer.

Centaur Pledges Are At Home To Guests Sunday

Pledges of Centaur club were at home to pledges of the other clubs

Boxes To Be Placed In Rotunda Of Ad Building To Receive AWS Funds

In only one line of endeavor are the women students of Texas Tech falling short of the goal they have set for themselves. Four years ago the Association of Women Students was organized on the campus as a part of the larger national association.

Every woman who enrolls in Tech becomes, automatically, a member of the association, with full power to take part in its deliberations and to make recommendations regarding the questions affecting women students. To be effective the association should keep in touch with the national body.

Twice Tech has sent representatives to the national meetings. This year the biennial conference is to be held at Cornell university. A. W. S. has raised half the amount required to send a representative. Will the women students of Tech make it possible for AWS to be represented again?

If every woman student of Tech knickers or similar sport outfits and the ladies sports dresses. The Dance Palace is to be decorated in black and white, the clubs colors, and the skull and cross bones, the club insignia. The Sacred Skull, which is used in the club initiation, will adorn the orchestra stage.

Ned Bradley and his dance band will play for the affair. The tax is twenty-five cents for club members and one dollar for non-club members.

Silver Tea Is Sponsored By Forum Club Sunday

A silver tea will be sponsored by the Forum club April 9, from 4 to 6 o'clock at Seaman hall. Proceeds will be used to help send the AWS delegate, Miss Kathleen Jennings, to the AWS national conference at Ithaca, New York, April 15.

Articles representing the hobbies of Tech professors will be on display. Among these are Dr. A. B. Cunningham's antique furniture and gun collection; collections of glassware, vases, and antique books belonging to Dr. A. L. Carter, music written by Professor W. R. Wagborne and souvenirs which he brought from Scotland, manuscripts contributed by Miss Elizabeth West, and original cattle brands made by Dr. W. C. Holden.

Display from the geology and other departments will be shown also.

Corley Replaces Bobo As Los Camaradas Club Officer

Howard Corley has been elected secretary-treasurer of Los Camaradas club in the place of Clarence Bobo who will not be in school this term.

ASME Is To Be Guests Of V. L. Doughties

Professor and Mrs. V. L. Doughtie will entertain members of the ASME at their home, 2912 Twentieth street, at 8 o'clock Saturday night with a bridge and forty-two party.

Pre-Med Club Dance Is Tomorrow Night

The PreMed club will hold its sixth annual dance at the Uptown Dance Palace tomorrow night. The affair is to be the first sport dance of the season. The men are to wear

Slaton Wins First Place

Randle And Eads Are Judged Best In Event; Witharral, Lamesa Place In Order; To Hold Regional Play Soon

With the presentation "The First Dress Suit," Slaton won first place in the one act play contest of this district held Friday and Saturday, March 30 and April 1, in room 202 of the administration building.

Mrs. Allan A. Strout was the sole judge of the contest.

Witharral won second place with the presentation "Pink and Patches," and Lamesa placed third with "The Valiant."

Atress Randle from Slaton won first place as the best actress in the part of "The Girl" in the play, "The First Dress Suit." Billy Eads, also from Slaton, was adjudged the best actor.

The plays were unusually good this year according to Miss Annah Jo Pendleton.

The regional one act play contest will be held at Simmons university, Abilene, Texas.

FIRST CARNEGIE SHIPMENT ARRIVES

Formal notification of the Carnegie corporation gift was received March 29 by Professor F. A. Klein-schmidt, head of the department of architecture. The first shipment of the \$3,000 gift has already been received and is to be exhibited at the engineering show April 14 and 15.

Members of the ASME met in the engineering auditorium Tuesday night at 7 o'clock to see a show, "Leather, From Hide to Finished Belt." Following this, discussion of the work on the engineering show was carried on, and Robert Drake was put in charge of the mechanical engineering laboratory in the engineering building.

Press Club Picnic To Be Held At Buffalo Sunday Afternoon

A picnic will be held Sunday afternoon, April 9, by the Press club at Buffalo Springs. All of the members will meet in front of the administration building at 4:30 o'clock," announced Robert Tracy, president of the club.

A refreshment committee composed of Jasper Hubbard and Ruth Humence has been appointed.

Engineers To

(Continued from Page One)

crossing, and a model of a suspension bridge. The Tinius-Olsen testing machine will be explained and operated in testing the compressive and tensile strengths of various materials.

Geological engineers, J. O. Sanders in charge, will show a mineral display, fossils, and wax forms of the earth's strata. A miniature oil well will be shown in operation, and a miniature cave with its stalagmites and stalactites will be on hand for observation.

Textiles To Demonstrate
Ford Benham is completing plans for the textile engineering branch of the show. Work by machine and by hand in the manufacture of cloth will be explained in detail from the raw material to the finished product.

The casting of gears and other solid metal products will be explained by the students working in the mechanical engineering shops, directed by John Jacobsen. Each step from the making of the mould to the pouring of the molten metal will be pointed out by this department.

Assistant manager Jim Frank Potts extends the invitation to the public at large, and urges that all who can do so be on hand for the event. Admission is free.

Hensley Is Elected Prexy Of YW In Annual Election

Inez Hensley was elected president of YMCA Tuesday at the organizations annual election. Other officers are Maurine Havis, vice-president; Artelle Appaling, secretary; and Elizabeth Conner, treasurer.

Retiring officers are May Tom Howell, president, and Mary Spring, treasurer. Miss Havis was re-elected secretary, and Miss Howell was vice-president acting in the office of president this year.

An annual retreat is being planned where old and new officers may make plans for the coming year.

KOREAN MEAL SERVED

A Korean dinner was served at the practice house Monday night to special guests, who were Dean Margaret W. Weeks and her mother, Mrs. Weeks, and Miss Mabel Erwin.

Miss Laura Song, a native of Korea, who is a senior in the home economics school and a resident of the practice house this term, cooked the meal. During the dinner, she wore her Korean costume.

Hemphill-Wells Co.

Under The Double "T"

BY BOB TRACY
Toreador Sports Editor

Don't forget the scheduled football game that the Matadors have near at hand. On the Twenty-eighth of this month the West Texas State Teachers college of Canyon will be on hand with "Sad Sam" Burton directing the Buffs. This game should be worth anyone's time and money for the Matador team of next year is now in the making. It is a case of dog eat dog for those boys out there right at present, because they all want to be wearing one of those scarlet uniforms next season when old King football blows the lid off.

Also don't forget the track possibilities that Tech has for this season. There has been two meets tentatively arranged with the Canyon Buffs; one to be held here and the other at Canyon. So far there has been aspirants for the various positions on the team and the outlook is bright. In the hurdles Hershel Tadlock of Amarillo will probably see action on the Matador thimble clads' team. Johnny Beauchamp of Greenville will also do his part in this department of the game. For the dashes Bud Fisher and "Mule" Dowell will be in the line up for the starting gun.

It is proper to say right here and now that Tech has been given a track and field team this year by virtue of the Athletic Council passing on the matter. The constant cry became so great for track that the Council installed this sport with a special coach. Still the Athletic department does not have the necessary funds to carry on the track and field events, and the means of getting money must come from the dual meets with Canyon. Now, this almost a challenge for the student body to stick and do their part by supporting the team. The current editorials that poured in from unnamed authors, created quite a bit of comment. Now it will be these people that will get behind the team and push it along.

True to all advance predictions, the intramural baseball games being staged by the Athletic Department has created renewed enthusiasm among the students in the way of sports. It seems that the current tonic for "bull sessions" is nothing but baseball after visiting some of the College avenue hang-outs.

To date there has been played one over-time contest. The College club of the social club league, behind the superb twirling of Walton "Fast Ball" Nixon, lost to the "Tarnished Key" club when they staged a seventh inning rally and scored six runs. The game between these clubs was a much improved contest as compared to the brand of ball played by both clubs in their games last week.

In the "outlaw" or class A league, there seems to be two teams that will fight it out for the gonfalon in their circuit. These are Martin drug, boasting such players as Tracy Watson, who last season turned in several one hit games while doing mound duty, and Jack Davis' shoe shop boys. Davis has collected a formidable group of ball players that will give anybody's nine a bit of trouble.

At the present rating, the Wranglers look like championship material in their league. Billy Bush, better known as "King" has baffled the social climbers with his fast ball and it is said that he has not really shown mid-season form. The Nineteenth street boys have a powerful batting attack that is supplemented by an alright infield.

A new safety fuel for automobiles and airplanes has been developed by means of a new process of hydrogenation. Its flash point is so low that a lighted match can be tossed into it without starting a fire.

and a philosophy by George Bernard Shaw.

Second Week Of Baseball Gets Under Way With Much Interest

Wranglers And Silver Keys Are Tied For First Place With No Defeats; Los Camaradas, Centaurs Tie For Second

Swinging into the second week of competition, Texas Tech's intramural baseball season promises to be one of the most successful athletic events ever attempted by the student body and Athletic department.

The Wranglers and Silver Keys of the social club league are tied for first place with two victories and no defeats, while the Centaurs and Los Camaradas are running neck and neck for second place with one win and two defeats each. The College club has yet to win one of their contests.

In the Class A league, two teams loom as probable pennant winners. Martin Drug and Jack Davis' Shoe Shop boys are about evenly matched for the rest of the current season. Games scheduled for next week in this league will be the Army vs Shoe Shop and Main Street vs. Martin. In the social club league and Wranglers play the College club while the Los Camaradas play the Silver Keys.

Girl Champs To Receive Medals

Doak And Weeks Will Give Prizes To Winners In Tennis Tournament; Contest To Be Held On April 8-14

Medals will be presented at the Double-T banquet the last of the term by Dean Mary W. Doak and Dean Margaret W. Weeks, to winners of the girls' "round robin" tennis tournament which will begin Saturday, April 8, and continue through April 14. All girls of the college whether members of W.A.A. or students in the physical education department, are eligible to enter.

They will be divided according to ability, into beginner, intermediate, and advanced groups. Girls who have not participated in tennis at

Baseball

SILVER KEY VS. CENTAURS

Behind the stellar pitching of Tracy and Schultz, the Silver Key club took their initial game last Friday afternoon on No. 2 diamond. The Centaurs were allowed only two bingles.

The lone tally of the Centaurs came in the initial frame on an error followed by a single and a sacrifice by Mickle, stellar little catcher for the losers. The Key boys scored two runs in the same frame on two singles by Kenemer and Schultz and a line drive double by Sams. Hoffman of the Centaurs turned in a neat game as did O'Hair who relieved Newsome in the last half of the fifth.

Kenemer of the Keys played bang-up ball at third and first. Out of six chances, he did not make a single bobbie.

Score by innings:
Silver Key 2 0 1 1-4
Centaurs 1 0 0 0-1
Summary: Doubles: Sams. Strike outs: Newsome 5, O'Hair 2, Tracy 3, Schultz 1. Double plays: Tracy to Kenemer. Sacrifices: Mickle, Grimes. Left on bases: Centaurs 5, Silver Key 7. Losing pitcher Newsome. Winning pitcher, Tracy. Base on balls, Tracy 3, Newsome 3, O'Hair 1, Schultz 1. Time of game 1:20. Umpire, Batchell.

Main Street vs. Army

A typical West Texas sandstorm blew the championship hopes of the Army to the four winds last Tuesday afternoon when the Main Street baseballers took the long end of a 13-3 score in the regularly scheduled intramural game on No. 1 diamond.

Smith, Guthrie, and Cantrell allowed the Army one official hit, but walks on their part and errors by their team mates allowed the Army eight scores. The Main street aggregation collected nine hits together with the five errors and five

of the gym in the past will not be disqualified.

Those who enter the tennis tournament will have a better chance in May of winning the tennis contests which will be conducted on "Play Day" according to the heads of the P. E. department.

Tech Extension Work Ranks High

According to Dr. Wellington Patrick, director of the extension department of the University of Kentucky who has made a recent investigation of college extension work, Texas Technological college falls into a class of 14 members of the National Universities Extension association which allows 25 per cent of the work leading to a bachelor's degree to be non-resident. There are four divisions of this classification of study made within the association.

Five leading educational centers, Iowa State, Nashville Y., St. Louis U., the University of Minnesota, and the University of Oregon, permit practically all the courses to be taken through the extension departments. There are 13 colleges that allow 50 per cent of the work done in the same way, 10 give 33 1-3 per cent, and then the 14 with which Tech coincides.

walks managing 13 runs. Dalton did the pitching for the Army.

Score by innings:
Main Street 3 5 2 1 2-13
Army 2 5 0 1 0-8
Summary: Triples, Smith, Doubles, Hubbard, Cantrell. Double plays, Smith to Nunn. Lead to Nunn to Rann Strikeouts, Dalton, 6, Smith 3, Guthrie 2, Cantrell 2. Base on balls, Dalton 5, Smith 3, Guthrie 2. Umpires, LaMaster and Ayers. Time of game 1:30.

Los Cama Beat College Club

Hitting in the pinches, the Los Camarados took a 3 to 2 victory from the College club Friday afternoon on No. 1 diamond. Vickers drove out a timely double for Los Camarados in the last half of the fifth inning to send in two runs to overcome a one run lead held by their opponents.

Tight pitching was exhibited by both teams. Jones allowed three hits in the fourth inning, with the bases loaded, Nixon retired the side by whiffing the next three men in order.

Score by innings:
College Club 100 01-2
Los Camarados 001 02-3
Summary—Doubles, Corley, McGinty. Vickers Runs batted in, Moffet, Nixon, McGinty, Vickers 2. Left on base, College club 6, Los Camarados 5. Winning pitcher, Jones. Losing pitcher, Nixon. Base on balls, Nixon 1, Jones 3. Strikeouts, Nixon 4, Jones 3. Double plays, Dixon to Pierce. Time of game 1:05. Umpire, Tracy Watson.

Track Team Is To Be Revived On Tech Field

First Track Squad In Three Years Is Organized; Tech Athletic Department Heeds Student Demands

BY ED McKEEVER

For the first time in three years Texas Tech will have a track team to compete with other schools. Two of the meet, will be dual contests with West Texas Teachers College, on the tentative dates of April 22, and May 6, one to be held in Lubbock, the other in Canyon. The track team will end the season when they compete for the Border Conference Championship, to be held at Albuquerque, New Mexico, on May 12 and 13.

The athletic council has succeeded in obtaining the services of Pinky Lowrey to take charge of the track team. Coach Lowrey has a fine array of track and field men which include: Bud Fisher, Harold

Crites, Milton Moffett, Adrian Clark, D. M. McElroy, Yancy Price, Brown, and Austin for the dashes; Spaulding, Pete Smith, and Henry Loter, field events; Hershel Tadlock, Bud Fisher, Surratt, Bob O'Hair, and Sallis, hurdles; Matt Hitchcock, D. M. McElroy, 440 dash; Basil Hill, 880 and mile run, and Larry Priddy, miler; Aud Darr, and Kuhn for high jump and pole vault. Besides these men there are numerous other athletes who will win a place on the team. Varsity monograms will be awarded to those men who meet the requirements in the meets.

TEXAS TECH COLLEGE

Judging Teams Are Presented Prize Awards

McLean Wins Sweepstake Prize; Post gets Second With Dublin And Toby Tying At 3rd Place Monday Afternoon

The eighth annual Texas Technological college vocational agriculture judging contest held here March 27 featured competitive judging between 25 schools represented by 83 boys divided into 61 teams. Sweepstake honors were awarded to McLean high school. Post placed second with Dublin and Toby tying for third place.

Loving cup awards were presented to the high teams judging poultry, dairy cattle, farm shop, livestock, plant production, grain, and cotton classing. McLean was awarded a cup for raffier cutting and the one presented by George P. Groat, of Panhandle.

Banner Is Presented

Dr. I. E. Barr, president of the Board of City Development, made the presentations of the cups. Paul G. Haines, director of vocational agriculture, presented the sweepstake banner.

The Lubbock Chamber of Commerce served a dinner to over 350 contestants in the livestock pavilion at 6 o'clock. An informal program conducted by Dean A. H. Leigh followed the dinner.

BOOKS ARE CATALOGUED

In March 447 books were catalogued in the library, bringing the total number up to 36,619. Among the books newly catalogued are:

Collection Of Well Cuttings Are Inspected

Miss Spencer To Visit Geologists Soon; Tech Collection Oil Well Cuttings To Be Studied; Will Speak To Club

Miss Spencer, sedimentary petrologist of the mid-continent division of the Superior Oil company from laboratories at Amarillo, with her assistants are to visit the Tech geology department in a few days and examine oil well cuttings filed here. C. I. Gordon, Tulsa, Okla., chief geologist of the mid-continent division spent March 27 examining the Tech department and arranging for Miss Spencer to come here.

From 50,000 to 60,000 oil well cuttings are on file here. They were left by the Marlin Oil company several years ago. These cuttings were obtained by taking samples of material from wells at a depth of every five feet. These samples were washed and examined under a binocular microscope in order to be classified. Information to be had from these files of the earth's strata is of great value to petrologists as well as to geologists.

Miss Spencer will probably spend several days with the department here. She may speak to the geology society or to other geology groups if it can be arranged.

"Life Begins At Forty" by Walter S. Pitkin; a primer of money by Donald B. Woodward, a political hand-book of the world, discussing parliaments, parties, and press; and "Man and Superman", a comedy

A MIRACLE...

You sit at home in easy chairs, behind closed doors, while from a sound-proof room... perhaps thousands of miles away... comes the music that you listen to on the Chesterfield program.

That sealed room in the Columbia Broadcasting Headquarters sends out good music and good songs 6 nights a week to 50 million people from coast to coast... with the voice of Norman Brookshire... just about the best announcer in this country... to tell you "Chesterfields are milder and taste better."

Why is the Chesterfield Program broadcast 6 nights a week over a coast-to-coast network reaching 50 million people?

Because we want every smoker in this country to know that Chesterfield cigarettes are milder.

We want to tell every smoker from coast to coast that Chesterfield cigarettes taste better...

We want everyone to know that they can depend on a LIGGETT & MYERS product.

Chesterfield
