

# Reds Shout 'Kill Him' At Ex-Techsan

A former Texas Tech professor, Capt. William C. Lyons, engaged in a fist fight with Communist North Korean guards in the "truce" village of Panmunjom Wednesday, United Press International reported.

During the 30-minute fight, cries of "kill him, kill him" by Communist newspapermen punctuated the action.

Lyons returned the guards' punches and, except for blows on the head and face and the loss of his helmet, he escaped without injury.

Captain Lyons was an assistant professor of military science at Tech from 1957 to September, 1960, when he left for overseas duty. While at Tech he sponsored the Sam Houston Rifles and Military Radio Station. Before coming to Tech he served as chief of the

circuit section of NATO's European Long Lines Agency in Paris.

Moments before the Communists jumped Lyons, the UPI said an American military policeman was hit in the face by a Communist guard. Sp-4 Cleveland L. Campbell, reporting it to Lyons, said the attack was unprovoked. The Communist guard, UPI reported, said Campbell stepped on his toe.

Encircled by guards when he returned with Campbell, Lyons, according to UPI, pointed to the Korean soldier and asked, "Is this the guy?"

Several Communist guards then attacked Lyons and when he defended himself, the Communist newsmen began shouting, "kill him, kill him."

The fight was stopped by Cmdr. Richard T. Manning, chief U.N. security officer, and a Communist officer on the joint security team that protects the village.

The fight will be investigated by a conference of officers charged with keeping order in the compound.

The 38th parallel, separating North and South Korea, runs through the town of Panmunjom. On either side of the line and surrounding the village are demilitarized areas.

Each month, representatives from the Communists and United Nations come to Panmunjom to discuss ways to ease the tension on the border. It was during one of these discussions that the fight took place.

## In Annual Contest

### Suzanne Alderson Wins Top Award As 'Best-Dressed'

by BETSY GILMORE  
Toreador Staff Writer

Chosen from a field of 16 candidates, Suzanne Anderson reigns as Tech's Best Dressed Coed.

Miss Alderson, a freshman history major, was sponsored by Kappa Alpha Theta. First alternate is Betsy Kaiser, Pi Beta Phi entry, and second alternate position was taken by Barbara Kullenberg.

The contest is sponsored annually by Theta Sigma Phi, women's professional journalism fraternity, in conjunction with Glamour Magazine.

As winner, Miss Alderson will be featured on a full page in the 1961 edition of the La Ventana and will be submitted to Glamour for the national contest. Top 10 in the national contest will be flown to New York for two weeks and will be photographed for Glamour's August issue.

Each contestant appeared before a panel of judges from Margarets, Godwins, and the Nancy Taylor School of Charm, in a sports outfit, a campus ensemble and a cocktail dress.

Miss Alderson's on-campus ensemble consisted of a white pleated skirt with a red, white and blue knit blouse and a matching sweater. She said that since she and her mother wear the same size clothes, they combine their budget. "I plan, she wears," she said.

Her sports outfit was white sharkskin, capri pants and top with orange, brown and black strip.

For parties Miss Alderson chose a heavy fall black dress with a bouffant skirt, thin straps, a v-neck, and a small bow at the waist.

"I like to wear red to boost my ego," Miss Kaiser said, evidenced by a red silk shirtwaist with matching shoes for cocktail wear and long red pants with flowered print for sport.

Miss Kaiser, a sophomore clothing and textiles major from Houston, said that she and her mother make most of her clothes and she has many changeable separates.

Her on-campus outfit was a brown, black and white pleated skirt with a short black jacket with long sleeves. She wore a white blouse under the jacket.

Appearing in a gray-black plaid pleated skirt with black jersey sweater, Miss Kullenberg commented that her "basic color is off-white. It goes with everything," she said.

Miss Kullenberg, a junior clothing and textiles major sponsored by Weeks Hall, showed a blue chiffon sheath for after five wear and olive green bermudas for her sports outfit.

Candidates were judged on points including posture and figure, well-groomed hair, imagination in planning a clothes budget, overall good grooming, the "campus look," individuality, workable wardrobe and makeup.

Other candidates were Lynda Elmore, Ann Jaroszewski, Judy Jackson, Janis Newsom, Shelley Davis, Carolyn Horschler, Alyce Anne Martin, Sally Stuart, Dorothy Dodsworth, Geraldine Lokey, Sandy Assiter and Linda Jones.

### Minister Speaks At Forum

The Rev. Robert M. Platt of the Christian Student Center will speak on "The Existentialist Mood" at the Tech Union Forum at 7 p.m. today in the Union Ballroom.

This philosophy, becoming evident in the early part of the twentieth century, will be discussed in lieu of its expressions in modern day society.

The Reverend Platt will present the existentialist's views of knowledge and their concept of religion from the "existentialist approach rather than the philosophical," he said.

"Anyone who ever questions the validity of religion in today's world would profit by this discussion," Robert Rodgers, past president of the Union, said.

A teacher for the past three years in the United Bible Chair, the Reverend Platt will be taking a year's residence at Tech next year to work on his doctorate in philosophy and higher education.

He received his Bachelor of Arts from Milligan College in Tennessee and his divinity degree from the College of the Bible, Lexington, Ky.

A question and answer session led by Platt with students directing questions from the floor will follow the talk. The Union Hospitality Committee will serve refreshments.

No. 42

BEST-DRESSED COEDS CHOSEN LAST NIGHT

... chosen to represent Tech in Glamour Magazine's best-dressed coed contest is Suzanne Alderson, right. First alternate is Betsy Kaiser, center, and Barbara Kullenberg. Miss Alderson was named winner in a field of 16 entries.

### Recovery Is Near For Liz

LONDON (AP)—Film actress Elizabeth Taylor was on the road to recovery Wednesday from a nearly fatal bout of double pneumonia, her doctors said.

Dr. Victor Ratner, one of a team of seven medical men who have been treating the brunette star since she was stricken Friday, told a reporter:

"Miss Taylor is definitely improving. She is still, of course, on the danger list but I would not describe her condition right now as critical."

Ratner said Miss Taylor's temperature, which reached 103 degrees, "is now near normal — in fact, only slightly over 99." Normal temperature is 98.6.

Ratner said the 29-year-old Hollywood star still is using an artificial breathing apparatus and is being fed intravenously through an ankle.

"We are all much encouraged. She is a very brave girl," he said.

Twice she was pronounced at the point of death.

Her husband, singer Eddie Fisher, emerged from London Clinic—where he has been constantly at her bedside—and said "She is getting on pretty well."

With him was the star's mother, U.S.-born Sara Sothorn Taylor. She also looked relieved but made no statement.

### Solons Plan A & M Bill On Name

A bill was being readied this week by four state senators for introduction to the Texas Legislature to change the name of Texas A&M to Texas State University.

The proposed name is, in full, "Texas State University and Agricultural and Mechanical College."

Sponsoring the bill are four senators, all former aggies, including Sen. Bill Moore, Bryan, Sen. Andy Rogers of Childress, Sen. George Moffett of Chillicothe and Sen. A. R. Schwartz of Galveston.

A name change has been discussed for A&M for several months. The announcement by the senators that they were preparing a bill has been the first official action to be made public.

### Toreador Readies Election Issue

Plans are well underway for The Toreador's special election issue, to be distributed on Wednesday, March 15.

All candidates for executive officer positions must bring a billfold-size glossy picture to The Toreador editors by 5 p.m. Friday. The candidates must bring the pictures in person to The Toreador editors.

Candidates wishing to place advertisements in the election issue must do so by 5 p.m. today. Cost will be \$1 per column inch and advertising must be arranged through Larry Bridges, Toreador advertising manager, or Phil Orman, publications director.

The issue will include information on candidates and special news and picture coverage of the pre-election rally on Tuesday.

## Alpha Phi's 'Wear Grades' To Annual Scholarship Fete

Members of Alpha Phi "wore their grades" to a banquet at 7 p. m. last Wednesday at the Picadilly Cafeteria.

Girls having grades for the fall semester below a 1.2 wore formal attire; those with a 1.2 to 1.9 wore casual school clothes and those with a 2.0 or above wore sports clothes.

Following the banquet Susan Ziegler, scholarship chairman, pre-

sented chapter awards. Gloria Wakefield won the award for highest grades; Linda Anderson, for the most improved grades.

Annette Innon had the highest grades in the pledge class and Camille Hefley had the most improved grades in the pledge class.

Alpha Phi pledges sponsored a kidnap breakfast Thursday morning at the sorority lodge. Little sisters presented paddles to their big sisters.

## Soph Coeds Apply For Council Spots

Sophomore girls who have a 2.0 overall and who have shown leadership and character in serving Texas Tech are eligible for membership in Junior Council, service honorary organization.

The deadline for applications is next Thursday. Girls who are interested in membership and who have not received letters, should contact Marilyn Mays, Weeks Hall for further information.

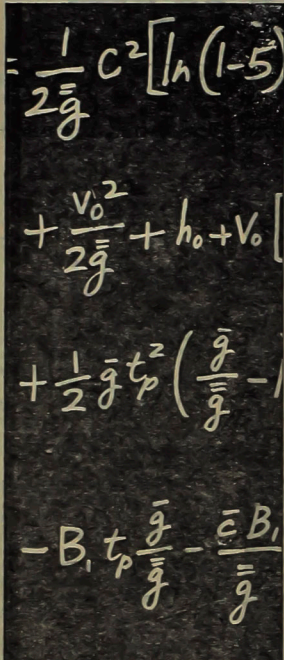

Junior Council is an organization for further friendships, to encourage scholarship and to stimulate interest in campus activities. It is composed of not more than 20 women.

## The TOP name in Missile Inertial Guidance—AC SPARK PLUG seeks top talent!

### AC SPARK PLUG, THE ELECTRONICS DIVISION OF GENERAL MOTORS,

has immediate, permanent positions in Milwaukee, Los Angeles, Boston and Flint. If you have a BS, MS or PhD degree in EE, Physics, Math or ME, you may qualify . . .

You can find a challenge and opportunity for advancement at AC. You will be working on such projects as MACE, THOR, POLARIS, the ultra-sophisticated TITAN system and complex Bombing Navigation Systems.

AC and GM will assist your career progress through graduate study at universities in nearby locations. In addition, you will have the opportunity to take exclusive on-the-job course work on the advanced state of the art.

These training programs are now available in Milwaukee:

**ENGINEERING PROGRAM**—For men whose career aim is design and development of inertial guidance equipment. All recent college graduates will enter this one year career acceleration training program with formalized classroom instruction. This instruction will be in conjunction with rotating job assignments. These assignments, in Manufacturing, Reliability and Engineering areas, will provide a smooth transition from academic learning to career development.

**FIELD SERVICE PROGRAM**—formalized two-to-four-month classroom and laboratory training on missile inertial systems and bombing navigation systems. After completion of training program, assignments are to both domestic and foreign sites.

SEE YOUR PLACEMENT OFFICER TO SCHEDULE GENERAL MOTORS INTERVIEW MARCH 15, 1961.

## MEMOS

### PHI KAPPA PHI

The Tech chapter of Phi Kappa Phi, national scholastic honor society, will meet at 5 p.m. today in the Aggie Aud.

Faculty members and students who have not joined the local chapter may attend the meeting. Consideration of new members for this year will be the main business.

### SIGMA TAU DELTA

There will be a meeting of Sigma Tau Delta at 7 p.m. today in C&O Bldg. 120. William B. Gates, dean of the graduate school will be the speaker.

### BOOK REVIEWERS CLUB

The Book Reviewers Club, sponsored by Mortar Board, will meet at 5 p.m. today in the Anniversary Room of the Tech Union.

Karen O'Brien will review "The Trapp Family Singers", a former Broadway hit under the name "The Sound of Music."

### PSI CHI

Psi Chi, honorary psychology society, will have a meeting at noon today in the Psy. lounge.

Plans for the club's exhibit in the Engineering Show will be discussed.

### CAPS AND GOWNS

Deadline for reserving caps and gowns for commencement and for ordering senior invitations is March 24. Manager W. C. Cole of the Tech Bookstore reminds seniors that invitations, unlike caps and gowns are not essential but are traditionally ordered for seniors and their families.

## Sigma Pi Initiates Members

Sigma Pi Sigma, national physics honor society, initiated 12 new members and three associates recently.

Following the initiation ceremonies, the group of initiates were honored with a dinner at the Palm Room. Prof. Hugh Anderson of the physics department was the guest speaker.

To be eligible for membership, a student must be interested in physics, have taken at least one junior level course in the physics department, and have scholastic standing in the upper one-third of his class.

The members initiated were James D. Adams Jr., Arnold E. Anderson, Richard D. Catero, David M. Cooper, Earle C. Davis Jr., Mary Anne Fowler, Dr. Gerald Gardner, Gerald K. Lambert, Robert J. McCaffery, Jay H. Norman, Thomas W. Cigmon, and John David Walker.

Chapter associates are Thomas E. Gindorf, Arlon Groves, and Robert C. Linder.

### SPECIAL OFFER...

## For 2-Headed Pipe Collectors

Genuine imported hand-carved cherrywood pipe... that really smokes!

Only \$1.00

This unique two-headed pipe is a real conversation piece... a must for your collection! Hand-carved in the Italian Alps and finished in gay colors. Stands alone on its own tiny legs. Ideal for your desk, mantel, or bookshelf... mighty good smoking, too! This is a wonderful value! Send for your two-headed pipe today!

# Social Score

by Lynn Buckingham

The Tech social calendar has a great big circle around March 11 reminding Techsans of the annual Coronation Dance at 8 p.m. in the Lubbock Fair Park Coliseum.

The Norman Petty Trio of Houston will play for the semi-formal dance, which is sponsored by the freshman, sophomore and junior classes. The decorations, provided by the freshman class, will follow a springtime theme.

Tickets are on sale today at \$1 per person in the Tech Union and will also be sold at the door Saturday night.

But I forgot to mention the most important thing about this very special dance: the names of Mr. and Miss Texas Tech and the class favorites will be revealed between 9:30 and 10 p.m. by Johnny Grist, junior class president.

Other activities on the social scene include a Tech Union square dance at 7 p.m. today in the Rec Hall. Sigma Chi and Delta Delta Delta will have a mixer at 6:30 p.m. today in the Sigma Chi lodge, while Thompson Hall and Drane

Hall have scheduled a mixer for 7 p.m. today in the Drane cafeteria.

On Friday night there will be a dance in the Tech Union at 8:30 p.m. and a slumber party for members and pledges of Pi Beta Phi in the Pi Phi lodge.

Members, pledges and dates of Pi Kappa Alpha will dance in the Pike lodge at the Levi-Toreador dance, which will begin at 8 p.m. Friday.

Kappa Kappa Gamma will have initiation services in their lodge at 6 p.m. Friday, and a dinner Saturday night at Moore's Restaurant.

The Cactus Inn will be the scene of the Pi Kappa Alpha Founder's Day dinner at 5:30 p.m. Saturday.

With a note about the Kappa Sigma retreat on Sunday, I end my review of the weekend's activities, but I may as well throw in one little item for all Bo Diddley fans; I hear that he is to be featured in one of the largest dances ever to be staged at Oklahoma State University in Stillwater Saturday night.

I wonder if we could ever get him to come here?

## ROTC Cadets Attend Dance

Approximately 500 Army ROTC cadets and their dates will attend the annual Military Ball in the Tech Union ballroom on March 17.

The receiving line will form at 7:45 and the dance will begin at 8 p.m. Bob Lamont and his orchestra will furnish the music.

There will be no admission charge and full dress uniforms must be worn. The dance is financed by the Army ROTC Association Fund.

## UNION EVENTS

Thursday: A square dance at 7 p.m. in the Recreation Hall.

The Forum will present Rev. Robert M. Platt, who will discuss existentialism.

Friday: "Shamrock Swing", a dance at 8:30 p.m. in the Recreation Hall featuring the music of Bob Lamont.

"Don't Go Near the Water" to be shown in the Ballroom at 4 and 6:30 p.m. today and at 2:30 Sunday.

## Sigma Kappa Initiates Pledges

Newly elected officers of Sigma Kappa include Kay Lane, president; Sandy Sellers, first vice president; June Smith, second vice president and pledge trainer; Jo Anne Caldwell, treasurer; Patty Wilder, recording secretary.

Pat Rudy, corresponding secretary; Dane Lee, registrar; Sue Shewmake, efficiency chairman; Judy Price, Panhellenic represen-

tative; Carolyn Key, Triangle correspondent; Jo McCook, AWS representative; Barbara Rose, scholarship chairman.

Rose Leftwich, activities chairman; Susan Taylor, social chairman; Pris Totten, philanthropy; Janice Porter, communications; Wylde Thomas, rush chairman; Sandra Wheeler, sports; Val Gardner, BSO delegate; and Cissy Crowder, historian.

## JOES 'Tomaine' GRILL

WELCOMES ALL TECH STUDENTS TO TRY THE TECH BREAKFAST SPECIAL

## ATO's Name New Pledge Officers

Officers of the Alpha Tau Omega spring pledge class were elected at a meeting Monday night.

Elected were Clifton Martin, Plainview, president; Pen Rocap, Houston, vice president; Lynn Baker, Houston, social chairman; Charles Richards, Jayton, rush chairman; James Parks, Jayton, pledge cut chairman; Bob Hartman, Lubbock, cheerleader; and Pat Faris, Lubbock, sergeant-at-arms.

## Honorary Initiates 12 New Members

Pi Delta Phi, national French honorary society will formally initiate 12 new members Sunday at 3:30 p.m. in the Tech Union anniversary room.

Initiates are Curtis Bradford, Robert Clyde Hall, Jane Merritt, Jane Ann Henry, Lynda McIntosh, Beverly Truett, Shirley Sitz, Ray Reed Vinson Jr., Don Mitchusson, Camuel Franklin, Linda Price, and Bobby Lee Horton.

## Club Chooses Meyer Prexy

Luis Fernando Meyer was elected president of the Tech Cosmopolitan Club at its last regular meeting.

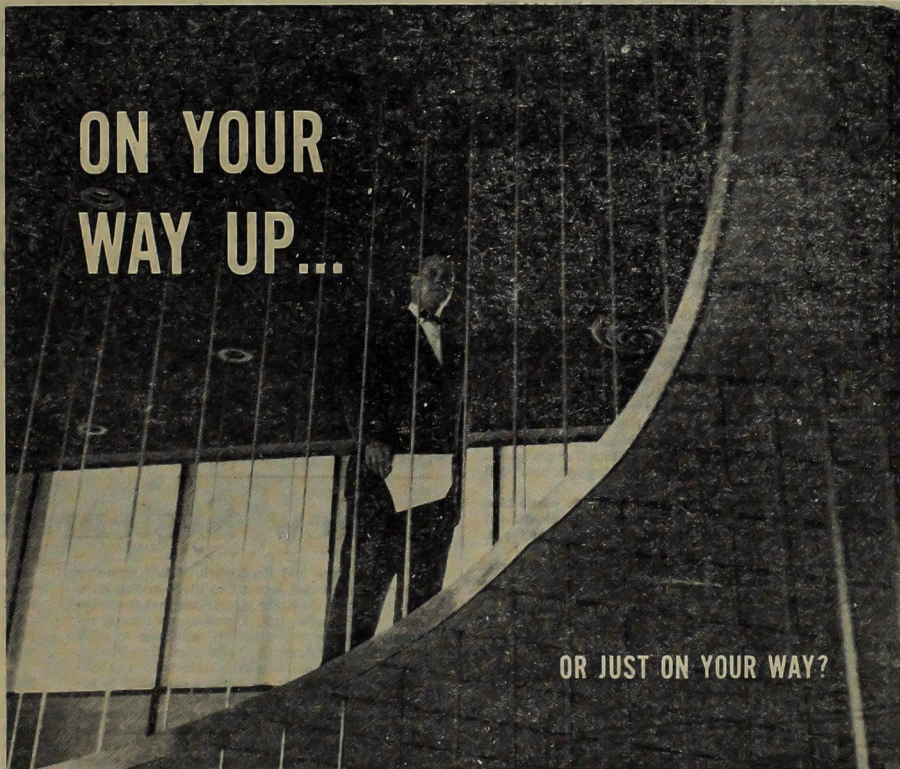

Other officers elected were Conrado Marion Landais, vice president; Pat Smith, secretary; Jesus Salas, treasurer; Graciela Riojas, reporter; and Siana Abbot, social chairman.

## Library Acquires History Collection

A Latin American history collection valued at \$2,500 is now in the Tech Library. The collection obtained from the widow of the Dr. Carlos Castaneda contains records and a number of prints.

Castaneda, a native of Matamoros, Mexico, earned his Ph. D. at the University of Texas. While at the University, he wrote his doctoral dissertation on "The Mexican Side of the Texas Revolution."

Solution Needed

# Coliseum May Be Too Small

**LET'S CHANGE TO "UNIVERSITY OF THE SOUTH-WEST!"**

A year ago last Homecoming the present furor of a name change for this school was first in the headlines, the columns and letters to the Editor. It was at this approximate time that the Faculty Advisory Committee had come out for said change to "Texas State University."

At this same time, this column carried a "why change?"—type of comment, including a questionnaire for "Exes" as to their feelings regarding said change and whether or not they had been hindered by the Tech "stigma" in securing a job in non-tech type fields.

Answers were of the negative variety, but only from a very few "Exes"—hence, not conclusive, one way or another. And judging from the recent Alumni suggestion of Texas Tech University, at least some attitudes have changed.

Since I wrote that column, my attitudes have changed, too, in this regard. Whereas, I then considered Texas Tech (i.e., the current appellation) sufficiently a propos, I have now concluded that this is not a proper "nomer."

Even since the present hassle about the name erupted, I have been thinking that, frankly, neither name is very good. Not that anything is wrong with either of them, but rather that . . . well, you know!

As I recall Ron Calhoun of the Toreador staff expounded a far better choice at about the same time the FAC and I were considering the problem. Ron made the suggestion then, and I am sure still holds with it, that we should be called "The University of the Southwest."

His reasoning called for a great cultural center in this city, centered around an equally great cultural institution—which, of course, Tech is aiming toward and moving toward every day.

Along with this thought, I recall a statement of a year or so ago, made by Lloyds' of London. The firm—through some sort of ability to foresee the future—predicted that in 50 years Lubbock would be THE HUB of international air travel . . . I mean for the entire world (assuming, I'm sure, that the world is still here in 50 years).

No one can be sure, of course, but it stands to reason that climate-wise we're a lot better off than most cities on the Great Circle (or whatever) Route. The winds will always help save gas and cut flying-time West to East.

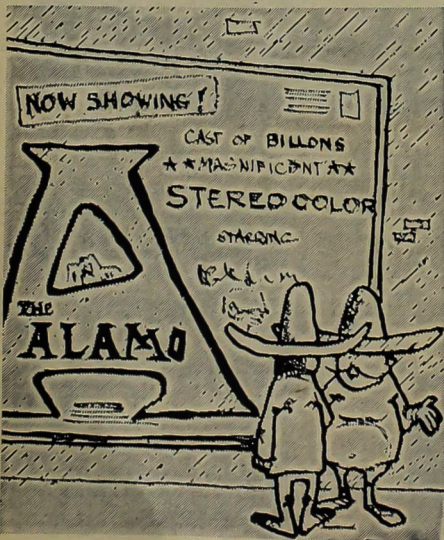

Now, if Lloyds' be right, then Ron's University of the Southwest is an even more brilliant idea. Not only will our school be renowned—internationally—but Lubbock will have one of the most profitable and super-elegant industries ever devised: Cultural host to the world! (City-fathers, please take note.)

Add to these statements the event of last Tuesday: While Tech was "fiddling" around with double "T's" and "TSU's" and "TTU's," State Senator William Moore of Bryan burned down the whole shack by submitting a bill in the legislature asking for a name change of Texas A&M to "Texas State University and Agricultural and Mechanical College." (Symbol-watchers will have fun with that one: TSUAMC!)

So, I suggest that Ron re-write—in detail—his whole idea of instituting the name change to University of the Southwest and the wondrous benefits to be derived therefrom. I'm for it, 100%!

Besides, one more name in the hopper can't do any harm. We still have room for 68 more suggestions in order to keep up with the U. S. Senatorial candidates!

Wherle's World . . .

Si Manuel — Eet Ees Like I Told You, The Good Guys Always Win!

Before the home basketball season fades away in the minds of students and Tech officials, it might be wise to discuss a problem that seems to be getting worse each year. The problem of seating for students in the Coliseum.

As most of us know, it becomes quite difficult to find a seat when a major game is being played, such as the one against Texas University recently. At this game there simply weren't enough seats to go around—students were sitting just about anywhere possible.

It stands to reason that as basketball interest picks up at Tech and school spirit and loyalty continues to grow there simply won't be enough student seats in the Coliseum to go around. The students have shown that they stand behind Polk Robison and his teams whether they win the conference or finish low in the standings. They always have and we bet they always will.

On top of all this, Tech returns all five starters and subs next year and it stands to reason that the team will get as much if not more student support next year. Then there is the matter of increased enrollment to look at. The enrollment has been gaining right along and will probably continue to grow.

The students have a right to have a place to sit when they go to the games. This right comes out of money paid by the students for the Student Services Fee. It's not unfair at all to simply want what you have paid good money to get. Especially since the costs of gaining an education are sky-high. It leaves a pretty bad taste in the students' mouths when they can't find a seat—especially one they have paid for in advance.

Maybe the Coliseum is not large enough? But it seems rather unlikely that it will be enlarged—at least not in the near future. So the matter presents a big problem for all concerned.

We must maintain that the lack of seating space encourages seat saving — a practice that seemed to get worse this year. This situation tends to create bad feelings among the students and lower their morale. Seat saving is frowned upon by the athletic department but it happens just the same.

Now, what's the solution to the problem? Charge students for each game they attend? Make the student section reserved and furnish tickets for each seat? We can't offer a concrete answer to the matter. We feel that the proper authorities at Texas Tech can solve this problem to the betterment of all concerned. After all, they have more cold facts to go on than we do. We have confidence that they will act on this situation.

But, we hope they will do it soon. The time for action is now—not next January.

RALPH W. CARPENTER  
Toreador Editor

Student Regulations

# New System In Effect

Dead week and final week of last semester have already faded into a dim blur—and so have all those new semester resolutions that undoubtedly we all made. But, Techsians, the spring semester, this semester, is THE semester to stick to those study resolutions like glue. Here's why:

In the fall of 1959, Tech initiated a new system for determining a student's eligibility to remain in school, with grades being tabulated at the end of the spring semester only. Previously, a student's scholastic eligibility was based on the Scholastic Probation System.

Under that system, a student could be placed on scholastic probation after any semester in which he failed to meet scholastic requirements. The deficiency could then be made up the following semester. While on probation, the student's academic load, social life and extra-curricular activities were carefully limited by his academic dean.

The new system, called simply Scholastic Regulations in the General Information Bulletin, entails an almost complete about-face in procedure. Grades and the number of hours passed by the student are tabulated at the end of the spring semester. Fall grades and hours passed are not taken into account until then. This places the responsibility of making up a deficient fall semester entirely upon the student.

However, if the scholastic requirements are not satisfied by the end of the spring semester, the student is placed on scholastic suspension. These requirements are specifically stated in the general bulletin as follows:

1. a full-time student who has concluded one semester must have earned at least six semester hours of credit;
2. a full-time student, who has concluded two, three, four, or five semesters must have earned at least nine semester hours of credit during his last semester;
3. a full-time student who has concluded

six or more semesters must have earned at least twelve semester hours of credit in his last semester; and

4. a part-time student must have earned credit for at least half of the semester hours for which he is registered.

The scholastic probation system set forth a grade-point requirement under which the student enrolled for nine or more semester hours was required to make at least three grade points during the semester. However, the scholastic regulations that govern Techsians now make no mention of any such requirement.

Perhaps the student that derives the greatest advantage from the present system in the freshman. Previously, he was allowed only one semester to adjust to the changes from high school to college—and he was still expected to make his grades. Now, he is given ample time to become firmly established in the college environment before his eligibility is determined.

However, the freshmen are not the only students to benefit from this new system. It is a step forward toward inducing more individual responsibility on the part of all students.

No longer does the dean of admissions issue the student a semester-by-semester report of his progress and make elementary threats to take away privileges and liberties if he doesn't knuckle down and study the next semester. This is good. After all, who knows the progress, capacity, intellectual sincerity and past successes and failures of the student better than the student himself?

A college education is not a legal requirement. It is offered to those that want it, and those who want it badly enough will be willing to accept the responsibility of meeting the minimum scholastic requirements of their own volition.

KATY HUNTER  
Toreador Staff

—For Tech Convocations

# Council Continues Efforts On Hosting Top Speakers

By JAMIE MYERS  
Toreador Staff Writer

Recognizing the need to stimulate interest of Texas Tech students in world affairs and problems, the current events committee of the Student Council is responsible for obtaining well-known speakers for student convocations.

In an interview Wednesday, Woodie Wood, chairman of the committee, said, "The need has always been apparent, but now we are beginning to set up a program which we feel will really fulfill

the students' need in every phase of campus life."

**OTHER COLLEGES** in the state have well established programs of this nature. Lubbock's being located in an area not centrally located has presented Tech with several problems in the organization of the program.

"One of the more difficult problems to overcome has been that when a speaker comes to the campus to speak this is the only speaking engagement he will probably be called upon to make," Wood said.

**ANOTHER IS** the lack of interest of people in Lubbock and the fact that the city has only of late tended to become more culturally inclined.

This year the committee has sponsored the visit of Air Force Secretary Sharp and will sponsor the coming speech of Werner von Braun.

**WOOD CREDITED** Congressman George Mahon with much of the work done in securing von Braun. "Mahon is one of ten men in the nation who could have gotten von Braun", said Wood.

Secretary Sharp was obtained chiefly through correspondence between state and national committee chairmen, Wood, Bill Dean, president of the Student Council, and other members of the committee.

**NEXT YEAR** the committee hopes to form a more well-rounded program involving the Tech Union, Student Council and municipal Lubbock.

When asked about the committee's general purpose, Wood replied, "We want the students to become more informed in the fields of science, literature, music, engineering and in general, in world affairs and problems."

**COMMITTEE** members are appointed by the executive committee of the Council. Members at present are: Bill Skeeters, Dallas; Joan Dorris, San Antonio; Kay Woody, Lubbock; Charlie Crocker, Amarillo; Susan Ziegler, Fort Worth and Mike Lundy, Lubbock. Committee members are responsible for correspondence, publicity, and speaking arrangements.

Von Braun will speak at the Lubbock Municipal Auditorium March 22 at an All-College Convocation. Von Braun was obtained through this engagement through the efforts of Mahon and committee members.

**IN A SUMMARIZATION**, Wood said "The success of the proposed addresses and convocations rests on the students' realization of being informed on national affairs and on their taking full advantage of the opportunities of information that the convocations afford. When this is done, the Student Council will be in a position to sponsor more forums, lectures, and addresses concerning every aspect of learning."

Von Braun, director of the George C. Marshall Space Agency, center of the U.S. guided missile development at the U.S. Army's Redstone Arsenal in Huntsville, Ala.

## Drane Displays Baby Pictures

"You must have been a beautiful baby" has been the theme song of Drane Hall for the past three days.

Forty-three Drane girls' baby pictures have been on display in the office. This contest is for residents of Drane Hall only.

The winner, Marilyn Galloway, received a certificate entitling her to a steak dinner for two.

To win she had to identify all forty-three pictures correctly.

## WSO Picks 12 Pledges

Twelve pledges of the Women's Service Organization were announced this week by Brenda Brister, president.

The girls will pledge for a four-week period. During this time they will be required to do ten hours of service work on the campus.

A major project for the organization is the handling of the upcoming elections in conjunction with Alpha Phi Omega, men's service group.

Girls wearing the maroon and white pledge ribbons are Pat Tracy, Mary Pat Speed, Beth Casey, Ann Dyess, Jane Miller, Jan Sanders, Jodie Ruhe, Dorothy Richardson, Dorothy Hickman, Janell Garrett, Ruanne Musser, and Cathy Michels. Annette Sims is pledge trainer.

## AIA Plans Landscape

The students of the architecture department will begin operations in late spring or early summer to landscape the plot of ground between the Architecture and West Engineering Bldgs., announced Bobby Abernathy, president of the student chapter of the American Institute of Architecture.

This project is the result of the student contest sponsored by the AIA last semester.

The students were required to submit a ten-hour competition problem which was to develop a court landscape for the 90 square ft. plot of ground between the two buildings.

The entry submitted by Craig Protz was selected by the jury comprised of two faculty members and two students as being the first place entry. The other winners were as follows: Paul Taylor, second place; Bobby Abernathy, third place; and Sonny Price, fourth place.

The project is to be financed by a Beaux Arts Ball.

The court landscaping will consist of a small pool, grass, two existing trees, cast concrete stepping stones and an exhibit area for projects and sculpture.

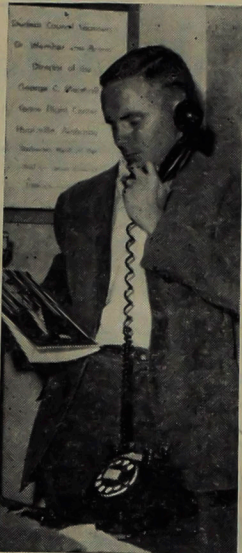

Students from the architecture department will provide most of the labor for the project.

## Council Plans Transportation

A proposed bus trip to Lawrence may be in the making at the Student Council office.

This trip is planned to enable students to attend the Tech and Cincinnati basketball game. Any student who wishes to go may sign up in the Student Council office.

Lawrence is 663 miles and will take about 13 hours driving time. The cost of the ticket will be approximately \$22.

WOODIE WOOD heads special committee

## KTXT Requests Speech Makers

Candidates for Wednesday's election will have an opportunity to make campaign speeches over KTXT, Tech's FM radio station.

Arrangements should be made with Marilyn Caplinger or Don Freidkin at the speech department after 3 p.m.

## SENIORS

NOW is the time to —

- Order Senior Invitations and
  - Reserve Cap and Gown
- FOR COMMENCEMENT

There are many likely reasons. Perhaps the *best* one is the sum total of them all:

At DuPont, there are no dead-end streets for able, ambitious people.

For example, DuPont is growing constantly, and growth means more jobs. Every year we spend \$90 million in research alone, to develop new products that create challenging new opportunities.

In addition, DuPont invests an average of \$33,000 in each employee to provide the most modern equipment, the finest facilities, the best supporting services—factors of special significance to the technical man.

WHY  
DO  
DU PONT  
MEN  
STAY  
DU PONT  
MEN  
?

Whatever the reasons, a recent survey of ten large companies showed that DuPont's turnover rate among technical personnel is within a fraction of one per cent of being the absolute lowest! Moreover, after five years of service, the majority of DuPont engineers and scientists remain for the rest of their careers.

We think there's food for serious thought in these facts for new engineers, chemists, mathematicians and physicists who are determined to succeed. For more information about opportunities here, ask your Placement Officer for literature. Or write: E. I. du Pont de Nemours & Co. (Inc.), 2419-3 Nemours Building, Wilmington 98, Delaware.

Better Things for Better Living  
...through Chemistry

University of Cincinnati basketball Coach Ed Jucker apparently isn't even worried over the possibility of an upset of his nationally-ranked Bearcats by Texas Tech's Red Raiders when the two schools meet in Lawrence, Kan., March 17.

Cincinnati last week won the Missouri Valley Conference basketball title for the fourth consecutive year, while Tech was in the process of taking its first Southwest Conference crown.

The Bearcats currently have an 18-game win string going, second only to Ohio State's skein of 23. Jucker's main concern seems to be dethroning the No. 1 Buckeyes from their championship throne.

The surprising Bearcats are hoping basketball history is repeated during the coming NCAA tournament. But that doesn't mean they want Ohio State to repeat as champ.

Last year the final Associated Press poll showed Cincinnati as the No. 1 team in the nation with Ohio State No. 3. When the NCAA Tournament was completed, that situation was reversed. Ohio State was the champ and Cincinnati had finished third—for a second straight year.

This year's final poll had Ohio State as No. 1 and Cincinnati, No. 2.

Under the tournament setup, the Bucks and Bearcats can't possibly meet before the final game and U. C. Coach Ed Jucker says: "We'd sure like to reverse that standing just as they did last year."

Actually, no one, except possibly Jucker himself, expected the Bearcats to attain such a lofty rating this year. Graduation took Oscar Robertson, three-time All-America and the nation's leading scorer,

along with Ralph Davis and Larry Willey.

Those three provided 64 per cent of Cincinnati's scoring last year. Coach George Smith resigned to become athletic director and Jucker took over.

By Christmas time the Bearcats had only a 5-3 record and two of the defeats were in the Missouri Valley Conference. Then the team "jelled," to use Jucker's expression. Cincinnati finished with its 18 victories and took the title.

"I don't know just how well we'd do on a won and lost basis," Jucker said, "but I always insisted the quality of basketball would be as high as ever."

The Raiders of Coach Polk Robison began practice again Tuesday after a 4-day layoff following their conference-winning victory over Texas University last Thursday.

The Red Raiders, like Cincinnati, developed as the season progressed. With only a 3-6 record in non-conference play, the Techs gained steam with the beginning of league action and by midway in the conference race gained a lead over the other members that was never seriously challenged until the final game of the season.

Virtually every scoring mark of 1960 was exceeded as the Red Raiders scored a record number of points, 1,102, enroute to their first conference cage crown. Two other top contenders—Texas A&M and Arkansas—also eclipsed the old mark of 1,042, set by Arkansas last season.

The match between Tech and Cincinnati will be played at 7:30 p.m. March 17 in Lawrence followed at 9 p.m. by another NCAA playoff contest, matching Kansas State against the winner of Marquette-Houston, a game being played this week.

Tournament officials sent Texas Tech athletic offices 500 tickets for the playoff action, and between 100 and 200 tickets have already been sold.

The tickets will continue to go on sale at the ticket offices south of Jones Stadium.

## Baylor Coach Calls It Quits

WACO, Tex. (AP)—R. E. (Bill) Henderson, for 18 years head basketball coach of Baylor and currently president of the American Basketball Coaches Assn., resigned Wednesday.

B. M. (Bill) Menefee, his assistant for 14 seasons and former star at North Texas State, succeeds Henderson.

Henderson remains as assistant director of athletics, ticket manager and athletic business manager. He had hinted several weeks ago that he would likely drop the basketball assignment.

He won 200 games during his 18 years as coach. In one five-year period he won or shared four Southwest Conference championships. His 1948 team went to the NCAA finals, the only Southwest Conference team ever to advance that far.

# Red-White Tilt Closes Spring Drills

By JAMIE ANDERSON

Toreador Sports Writer

Memories of the Civil War will return Saturday afternoon in Jones Stadium as the Red and White training squads declare war on each other.

The laurels were claimed by the freshman gridders in last spring's game, and there's a good chance that the first-year men may get their share of glory again this year.

Last season when two games were held—one in Odessa and one in Lubbock—the Red team, sparked by Coolidge Hunt, than a freshman, won the first game 35-15. The Whites, led by Tech's first All-America E. J. Holub, managed to tie the Reds 20-20 in the second match, but Hunt was the leading ground-gainer in the game.

The Red team has only one freshman on its starting team this time, but the White eleven has no fewer than six recruits from the Peadors on its squad.

Speaking on the current spring

program, Head Coach J. T. King had the following to say:

"I think that we have made real progress in the fundamentals of football which we have been trying to develop. The boys in general have responded to our coaching very well. We are developing the type players capable of playing a season in the Southwest Conference."

Several position changes have taken place with the drills this spring. Guard Charles Edgeman of Wichita Falls and end Dennis Grimes of Seagraves have been switched to center to aid in filling the gap left by the graduation of Holub.

Moving to guard is center Dan Hennig of Whitewright, and transferring from fullback to halfback is H. L. Daniels of Marshall.

Co-captains for the Whites are tackle Richard Stafford and center Tommy Turner. Larry Mullins and Pat Holmes, both tackles, have been selected to lead the Red team.

Starting linemen for the Whites are ends David Parks of Abilene and Jerry Garrison of Levelland; tackles Richard Stafford of Matarador and Roy Blair of Midland; guards Jimmy Rex Little of Rankin and Randy Weyle of Fort Worth; and center Tommy Turner of Garland.

The Whites' backfield will have Doug Cannon of Levelland at quarterback, Bill Worley of Midland and Daniels at halfbacks and Coolidge Hunt of Lubbock at fullback.

Starters in the Red line include

ends Larry Jones of Lubbock and Jerry Elbert of Wellington; tackles Larry Mullins of Snyder and Pat Holmes of Del Rio; guards Jackie Nichols of Lubbock and Kelly Mitchel of Hobart, Okla.; and center Ken Milliken of San Angelo.

Heading the backfield for the Reds will be quarterback Johnny Lovelace of Farswell, with support from Charles McEntire of McKinney and David Rankin of Midland at the halfback posts. George Fraser of Llano fills the fullback slot.

Willie Zapalac is head mentor for the Whites, aided by John Conley and senior Jere Don Mohon.

The opposing Red coaching staff will be directed by Merrill Green, with assistance from Matt Lair and senior Jackie Wiles.

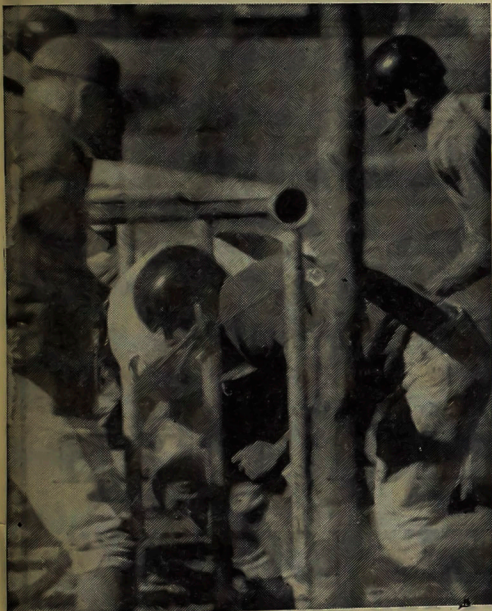

Coach King and freshman coach Berl Huffman will view the game from the pressbox.

The annual encounter will begin at 3 p.m., with game conditions prevailing.

Admission is \$1 for adults and 50 cents for children.

## What's it take to make the right connection?

Plenty! Consider the problem. Western Electric manufactures the switching systems which connect some 60-million Bell telephones throughout the U. S. The average call over today's electromechanical system requires 420 relay operations. All together, this interconnecting equipment makes up the heart of what is, in effect, the world's largest machine.

That's where Western Electric and you come in. The switching equipment for this "machine" involves an enormous manufacturing job carried on by our plants throughout the country. Because of the size and service requirements involved, we require quality standards far exceeding those of ordinary manufacturing. The size of this job presents an unusual challenge to the engineer who may save the Bell System many thousands of dollars by even a small cost-reduction step.

While today's switching calls for a priority on engineering, tomorrow's will be even more exciting. For even now the revolutionary Electronic Central Office is under field trial and promises to remake the world of telephony. Future Western Electric engineers, working closely with their counterparts at Bell Tele-

phone Laboratories, will concentrate heavily on developing manufacturing methods for this ECO equipment.

Your Western Electric assignments may cover many of our other responsibilities as the world's leading communications manufacturer. Perhaps you'll work on advances in microwave transmission, or even on satellite communications.

Joining Western Electric may well be your right connection.

Opportunities exist for electrical, mechanical, industrial, civil and chemical engineers, as well as physical science, liberal arts, and business majors. For more information, get your copy of "Western Electric and Your Career" from your Placement Officer. Or write College Relations, Room 6106, Western Electric Company, 195 Broadway, New York 7, N. Y. And be sure to arrange for a Western Electric interview when the Bell System recruiting team visits your campus.

Principal manufacturing locations at Chicago, Ill.; Kearny, N. J.; Baltimore, Md.; Indianapolis, Ind.; Allentown and Laureldale, Pa.; Winston-Salem, N. C.; Buffalo, N. Y.; North Andover, Mass.; Omaha, Neb.; Kansas City, Mo.; Columbus, Ohio; Oklahoma City, Okla.; Engineering Research Center, Princeton, N. J. Teletype Corporation, Skokie, Ill., and Little Rock, Ark. Also Western Electric distribution centers in 33 cities and installation headquarters in 16 cities. General headquarters: 195 Broadway, New York 7, N. Y.

**BRIDGE WINNERS**

# Top Teams Advance

Tech's top bridge players were determined by 16 hands played in the National Intercollegiate Bridge Tournament at the Union Sunday.

Winners are: Stuart Convers and Bob Rippy, East-West; and Don Cunningham and Jim Hedgecoke, North-South. Their wins qualify them for competition in regional play at A&M, April 8-9.

Phil Allen and Jim Hughes, edged out of play by Cunningham and Rippy in a tie-breaking hand, also qualified for regional competition. All six players received trophies.

Raymond Flége, head of textile engineering, conducted the play Sunday.

Scores of all 44 entries will be entered in national competition, where they will be judged by Edward Oswald, contract bridge authority. He will determine campus, regional and national winners. Contestants must qualify scholastically to win.

In 1960, 2400 students representing more than 140 colleges in 48 states participated in the tourney. Rollie Taylor and Don Wilson

won second place for Tech in last year's regional competition. This contest in duplicate contract level.

WINNERS OF THE TECH UNION'S BRIDGE TOURNEY are, seated, Robert Rippy, Jim Hedgecoke, Stuart Convers and Cam Cunningham. Standing are Jim Hughes and Phil Allen.

# Tech Coeds Attend National 4-H Meet

Miss Kay Botard and Miss Jan Barton, Tech freshmen, were two of the four 4-H members named today to represent Texas at the National Club Conference, April 22-28, in Washington, D. C., the state's most coveted award.

Jan, representing Motley county, and Kay, representing Jim Wells county, will be accompanied by Garland Weeks, Wichita county; and Orlan Ihms, Williamson county; for the all-expense trip to Washington. While in Washington, delegates from the 50 states and Puerto Rico, will attend and participate in the formal conference program, and visit the White House, Congress, and other centers of history and cultural interest in and around the nation's capital city. The girls and their leaders will stay at the National 4-H Club Center.
