

## Reagan responds to Soviet overtures

WASHINGTON (AP) — President Reagan served notice Tuesday that his response to the "very interesting" overtures of Soviet President Leonid I. Brezhnev could hinge upon the Kremlin's role in arming El Salvador insurgents.

At the same time, the chief executive said the United States has "no intention" of entangling itself in a Vietnam-like

conflict in El Salvador, even as Pentagon officials disclosed that more American military advisers may be sent there.

Reagan, in his first public comment following Brezhnev's call Monday for a summit and new arms talks, declared that Moscow's alliance with Central American revolutionaries "would be one of the things that should be straightened out"

before any such meetings are set.

Asked whether he risked appearing reluctant to seize an opportunity by delaying the U.S. response, the president said:

"I don't think it's a case that we will be obviously or intentionally dragging our feet."

"We have to put this up to our allies,"

he said. And besides, he added, "They've had experience dragging their feet."

Reagan said he had no way of determining Brezhnev's sincerity. "I wouldn't try to guess what's in his inner thinking," he said.

At an impromptu news conference, the president, who has repeatedly linked the future of U.S.-Soviet relations to Russia's

conduct around the globe, pointed to the State Department's detailed allegations that Moscow and other Communist nations have been supplying the guerrillas.

Meanwhile, a Defense Department spokesman, Col. Jerry Grohowski, disclosed that the dispatching of additional military advisers to El Salvador to train government troops was under active

consideration. But he said there were no plans for any Americans to participate in field exercises or combat.

There are about 20 U.S. military advisers stationed in the strife-torn nation. The Washington Star reported Tuesday that the United States may send up to 50 Army specialists to El Salvador, but Grohowski said no numbers had been set.

Some people choose to soak up the sun on their backs, but these students are taking advantage of Lubbock's spring-like weather in a more constructive way. James White, seated, helps Rodney Franklin repair Franklin's Kawasaki. (Photo by Mark Rogers)

## Cavazos advocates merit raises

By KIPP HOPPER  
UD Staff Writer

Increasing faculty pay across the board would be continuing mediocrity, Tech President Lauro Cavazos told *The University Daily* Tuesday after he met with the American Association of University Professors (AAUP).

"How can we make this university any better by saying everyone is the same?" Cavazos said. "Unless we make hard decisions about merit pay increases, we cannot become a better university."

During the AAUP meeting Tuesday, Cavazos talked about current legislation for faculty pay increases.

The state Legislative Budget Board has recommended an across the board increase of 18.6 percent in 1982 and 8.6 percent in 1983 to non-tenured faculty and to people who earn less than \$15,000. Those faculty members with tenure would receive pay increases only under a merit system.

The current recommendations being considered in both the Texas House of Representatives and the Senate suggest that employees of the state, excluding faculty members, shall receive salary increases of 14.3 percent in 1982 and 8.3 percent in 1983, Cavazos said.

The recent 5.1 overall increase to state employees will be subtracted from next year's 18.6 percent increase for faculty and the 14.3 percent for employees, Cavazos said.

The amount of funds allocated from the state depends on the number of semester credit hours taken by students, Cavazos said.

He said the number of semester credit hours increased during the summer and the fall, but slightly decreased during the current semester from the same period last year.

One reason Tech is low in statewide faculty salary rates is that the state formula does not take into account the individual institution's staffing patterns, Cavazos said.

"The state sends the money, but the state does not determine how the university allocates the money," Cavazos said. "The Tech faculty is perhaps top heavy."

Overall, Tech has too many tenured faculty members, he said.

For example, Tech's faculty consists of 25 percent full professors and 30 percent associate professors, he said.

"There is no way one can turn around a pattern of that kind overnight," Cavazos said.

In determining how to allocate the money, the major interaction must occur between the faculty and the department chairpersons, he said.

"The easy way out is to say we'll raise salaries across the board. People must make tough decisions on salary and tenure," Cavazos said.

Cavazos said two alternatives to the current legislation are that faculty members receive merit pay increases or all faculty members receive a base pay increase.

While Cavazos is concerned about merit or base raises, Neale Pearson, AAUP member and associate professor in political science, said the Texas Association of College Teachers and the AAUP are seeking more than the 18.6 percent because inflation has increased in the past 12-14 years. The two groups are planning to lobby legislators on their position for Tech as well as for other state institutions, he said.

Pearson presented legislators and Cavazos with figures that show faculty salaries at Tech are less than salaries at other schools.

Data that appeared in *Academe*, Bulletin of the AAUP, Sept. 1980, shows Tech is ranked relatively low among 96 public and private universities in New Mexico, Oklahoma and Texas.

Tech ranks 22nd in full professor salary rates. In associate professor salary rankings, Tech is 34th. In assistant professor salary rankings, Tech is ranked 43rd.

Tech salaries have increased 91 percent since 1967-68 from \$10,335 to \$19,787 for all ranks in 1980-81, Pearson said.

The cost of living in urban areas, according to the consumer price index, has increased 258.4 percent since 1967, he said.

Tech was ranked fifth in state salary levels in 1967-68. Currently, Tech is ranked 13th.

The average salary for all Texas institutions in 1967-68 was \$10,333; it is now \$19,881.

If the Tech salary rate had followed the 258.4 percent inflation increase, the salary rate would be \$26,706, Pearson said. Therefore, a \$6,919 gap exists, he said.

Cavazos said he is fairly optimistic about the budgets prepared in Austin by the Legislature and the governor.

"I'd like to see some things added to the budgets; however, they have treated Tech very well," Cavazos said.

"The mood in Austin, as I read it as a newcomer on the scene, is one of conservatism," Cavazos said.

Texas legislators are concerned with the quality of programs at Tech and across the state and with educational costs being given back to the citizens of the state, he said.

The Impact of Inflation on 1967-1968 Salaries of West Texas and Selected Other Texas Universities and the Impact of an 18.6% Pay Raise for 1981-82 With Zero Inflation and 5% Inflation.

## Congress vows to reshape Reagan's tax-cut plans

WASHINGTON (AP) — House Democrats on Tuesday rejected as "jelly-bean talk" President Reagan's claims for his economic program, and vowed his tax-cut plans will be reshaped by Congress.

"The legislation we fashion will be our product," Rep. Dan Rostenkowski, D-Ill., chairman of the House Ways and Means Committee, told Treasury Secretary Donald T. Regan. "The way certain tax cuts (proposed by the president) are structured are sure to be changed."

Regan listened calmly to Rostenkowski's statement and to a

characterization by Rep. J.J. Pickle, D-Texas, of the administration's economic forecasts as "jelly-bean talk."

But he bristled when Rep. Tom Downey, D-N.Y., charged that the program is supported only by "hallucinogenic" and "threadbare evidence."

"I resent that," Regan retorted.

The president predicts his economic program would cut inflation in half and create 10 million jobs by 1986. Many private economists consider that forecast overly optimistic.

Reagan's plan for a 30 percent reduction in individual tax rates over three years is under attack because few of the benefits would go directly to low-income Americans, and for fear that a commitment now to a long-term tax cut would worsen inflation.

In the Senate, meanwhile, work began on Reagan's plans to slash federal spending. Leaders of the Budget Committee introduced a resolution calling for \$125.9 billion in spending cuts — Reagan's target — over the next three years.

Reagan's economic program won an endorsement in principle from the nation's

governors, so long as it is accompanied by reduced federal red tape and does not deprive the poor or shift the cost of essential programs to state and local governments.

In other economic developments:

—Three senators introduced — with Reagan's support, they said — a bill that would allow eventually an income-tax reduction of up to \$500 for each student in college, vocational school or private school. This is the same tuition tax credit that was opposed by the Carter ad-

ministration and previously rejected by Congress.

A Senate aide estimated the cost of the credit at \$6 billion a year when fully in effect.

—Lyle Gramley, a member of the Federal Reserve Board, said Americans should be prepared for the possibility that the Reagan program won't produce results as quickly as the president's aides predict.

However, in a speech to the National Savings and Loan League, Gramley added that "the administration's views (on

the need to restrain growth of the money supply) are very similar to ours." Such a course is absolutely essential to fighting inflation, Gramley added, but will mean high interest rates for some time.

—Jack Carlson, chief economist for the National Association of Realtors, told the House Budget Committee that the in-

dividual tax cut recommended by Reagan could worsen inflation by overstimulating consumer spending and causing greater government deficits.

## American Airlines to begin Lubbock-DFW service

By LYN MCKINLEY  
UD Staff Writer

American Airlines representatives announced Tuesday American Airlines will begin service from Lubbock to Dallas on June 11.

"Our initial pattern will be three flights daily to Dallas-Fort Worth (DFW) Airport, with connections to our other on-line flights," Chuck Griffith, vice-president of American Airlines, said at a news conference.

"American wants to become a major Texas carrier," Griffith said.

The added service will provide Lubbock passengers access to dozens of U.S. cities, Mexico, Hawaii, Canada and islands of the Atlantic and Caribbean.

Lubbock Mayor Bill McAlister said he was pleased with the airline's decision to add

service to Lubbock and said the addition "will make Lubbock the air capital of West Texas."

Lee Stafford, president of the Lubbock Chamber of Commerce, echoed McAlister's statement.

"The decision of American Airlines to come to Lubbock is one of the most significant things to happen here," Stafford said.

Griffith denied the rumor that American Airlines is adding Lubbock service because of economic problems within the company.

"The decision (to add Lubbock service) was made to build up DFW and come to the Southwest because this area is economically strong," Griffith said.

American Airlines moved its operation to Dallas from New York approximately one

year ago, Griffith said. He also said the company plans to make DFW the hub of the airline system.

Griffith said American Airlines service will not be in direct competition with Southwest Airlines for the Lubbock to Dallas passengers.

"American will offer a different kind of traffic than Southwest," Griffith said.

He explained that American is more interested in the Lubbock to Dallas, to New York, to Washington, service than the short Lubbock to Dallas service Southwest offers.

Although Griffith did not mention rates for the flights, he said the rates would be on a competitive level.

## Reagan's tax cut depends on change in American work habits

WASHINGTON (AP) — What would you do with the bounty from a 10 percent reduction in federal tax rates?

Spend it? Invest it? Line the birdcage with it?

The administration doesn't particularly care, so long as taxpayers are motivated by three years' worth of tax reductions to work longer and harder and save more of their overall earnings.

The success of President Reagan's economic strategy depends on a dramatic shift in work and investment habits, particularly for higher income Americans.

Reagan has proposed a 30 percent reduction in tax rates, over three years beginning July 1, to effect this shift. It would be worth about \$1,500 over that period for a family of four with an annual income of about \$20,000.

Many private economists believe taxpayers will simply spend the tax savings, maintain current levels of productivity, and the result will be more inflation.

Currently, an average American family saves just over a nickel out of every dollar of after-tax income. The administration believes this savings rate will reach 7 cents to 9 cents by 1984 under Reagan's tax plan.

"The savings rate will begin to change the minute tax-rate cuts go into effect," predicts Paul Craig Roberts, Reagan's choice as assistant Treasury secretary for economic policy. "It's

not out of the question," he said, noting that people saved that much from 1965 to 1975.

Of course, that was before double-digit inflation began to eat up the interest Americans earned on their savings. Today, people are more inclined to buy items, from gold to appliances, because they expect prices only to go higher. Reagan's economic program is designed in part to break this "buy now" inflation psychology, and in part to increase the well of savings available for business to invest in expansion and new equipment.

The Gallup Organization, in a December survey, found that taxpayers expect to save about 25 percent of their tax reduction.

This may be overly optimistic, but Roberts says a family's use of its actual tax savings is almost irrelevant. "They can burn it, or spend it," he says, so long as it provides the motivation to make — and then save — more money.

"This policy is focused on how people respond to changed incentives," he emphasizes.

Today, Roberts says, many workers choose an hour of leisure instead of an hour of overtime because each extra dollar earned yields less after-tax income. This is because the worker is pushed into a higher tax bracket.

"I'm not saying that people will run out and save huge chunks of their income," adds Roberts.

## News Briefs

### Prince Charles to marry

LONDON (AP) — Prince Charles, heir to Britain's throne, will end his bachelorhood this summer, marrying "girl next door" Lady Diana Spencer — 12 years his junior and whose older sister was one of his girlfriends.

The Buckingham Palace announcement of the couple's engagement was issued through the Press Association, Britain's domestic news agency, Tuesday.

It ended months of speculation that the discreet and demure 19-year-old kindergarten teacher — his 16th cousin once removed and herself of royal descent — had captured the 32-year-old prince's heart and would eventually become the Princess of Wales.

The couple made their first appearance after the announcement in the palace gardens, laughing, strolling arm-in-arm. Prince Charles hugged Lady Diana as she showed off her engagement ring to photographers.

### Veteran receives award

WASHINGTON (AP) — President Reagan presented the nation's highest award for valor to a retired Vietnam veteran from Texas on Tuesday and declared that he and all the Americans who fought that war "were denied permission to win."

Reagan presided over a Pentagon ceremony that amounted to a tribute to all of the more than 3 million U.S. soldiers who

served in the Southeast Asian conflict over 12 years.

"They were greeted by no parades, no bands, no waving of the flag they had so nobly served," the president complained.

"There's been no 'thank you' for their sacrifice..."

### Louisiana coast disappearing

NEW ORLEANS (AP) — The relentless sea, helped along by offshore oil digging and channelling, is eating up coastal Louisiana at the "frightening rate" of 40 square miles a year.

In addition to the vanishing raggedy shoreline, much of southern Louisiana is slowly sinking. Areas that used to be high and dry are now at or below sea level.

"We have accelerated that sinking process by the withdrawal of oil and natural gas," Sherwood M. Gagliano, a Baton Rouge geologist, told the Louisiana Department of Wildlife and Fisheries Tuesday.

### Stocks

NEW YORK (AP) — The stock market recorded its second straight gain Tuesday, apparently drawing some further support from declining interest rates.

But some individual issues came under selling pressure as a result of earnings disappointments.

The Dow Jones average of 30 industrials, up 9.14 on Monday, added another .87 to 946.10.

## UD coverage of minorities poor, unfair

Dennis Garza

Garza is a sophomore political science major from Corpus Christi.

For a long time now, I have been waiting patiently for the attitudes of The UD Editor to change so that I wouldn't have to write this letter or seek rectification for what I believe is a very serious deficiency in the campus newspaper. It's high time The UD started giving equal attention to the activities and achievements of minority groups at Tech.

It is a rare occasion that a story or picture of a minority event or achiever is printed in The UD. Several weeks ago, I was surprised to see pictures of several minorities on campus on successive days. It seems that Mark Rogers took pictures of construction workers across the campus. Through these pictures, I learned that the only blacks and Mexican Americans worth covering were brick layers, truck drivers and ditch diggers. Believe it or not, there are minorities that have reached higher plateaus than this. It is this type of careless coverage that reinforces the negative stereotypes against minorities and furthermore leaves me wondering what The UD considers newsworthy.

On the other side of the coin, The UD Editor, Chino Chapa, would have me believe that if a minority event or accomplishment is newsworthy it will be printed. It seems minorities are having a hard time competing for coverage with construction workers, guys listening to radios and lifting weights, pictorial scenery and the countless array of trivial pictures to be found on the front page of The UD. There is something to be said for graphic pictures, and light stories, but not when they necessarily exclude more important coverage.

The entire month of February has been designated as Black Awareness Month, which is the brainchild of the black organizations SOBU and Zeta Tau Zeta. During the month, there will be lectures, art exhibits, dance classes, soul food cooking classes, gospel concerts, jazz music, drama exhibitions, business seminars and many other activities that will stimulate the awareness of Tech students to the achievements of Black Americans through history.

This is a month in which the NAACP was founded, Frederick Douglass, Abraham Lincoln and Langston Hughes were all born. The theme of Black

Awareness Month is "Only the strong survive," which is a tribute to the other black people who have struggled and to the younger black people who are still struggling. This highly commendable effort by the few black students on this campus is something grossly needed in this area and more importantly, highly newsworthy.

While only about one percent of Tech students are black, almost four percent are Mexican American. The Mexican Americans on this campus don't fare any better as far as sensitivity and recognition by The UD. Several weekends ago, a delegation of 11 members from the United Mexican American Students (UMAS) of Tech attended a state convention of Mexican American campus organizations in Texas. A dozen schools were represented at the San Antonio meeting.

The Texas Tech UMAS members managed two major feats. One, we got one of our members elected to a state office. Two, we were successful in getting the national convention site at Tech next year. For a school from West Texas, this was an impressive showing in a state organization dominated by South

Texas schools. The UD did not see it fit to cover this event. Maybe if all the UMAS and SOBU members' land jobs as construction workers, they will merit more newsworthiness and recognition in The UD.

At a school that has the dubious honor of being third best in Texas in the non-enrollment of minorities, I think it's only fitting that a climate conducive to minorities be created at Tech. Furthermore, I believe it would be a good thing for Texas Tech to start taking it upon its own to alleviate these problems without the intervention of Federal government authorities through lawsuits. The discrimination lawsuits and the constant investigations of Tech by the Department of Education would be unnecessary if we would solve our own problems.

Until The UD shows more sensitivity towards minorities by recognizing achievement, I suspect Texas Tech will remain a school minorities shy away from. I don't want or expect special consideration for minority groups. That would be just as unfair as ignoring minorities. I would gladly settle for fair and equal treatment of newsworthy events for all groups.

## Palestinian refutes Arab propaganda

Name withheld

Editor's note: The name of the author of the following column has been withheld.

Being a "Palestinian Jew," I followed with interest Ms. Saucier's editorial (The UD, 2/4/81) and Mr. Zeyad's reply (The UD, 2/18/81).

The former article is as truthful and accurate as the space limitation of an editorial page permits. Regarding the latter, it seems beneficial that Mr. Zeyad should use himself, what he prescribed for Ms. Saucier, namely: "more education, knowledge of Middle East history, ...integrity and honesty, ...check...facts with the history and political science professors," and, may I add, read some of the many books (not propaganda) on the history of the Land of Israel.

A first step in that direction should be rereading Ms. Saucier's editorial. However, since Mr. Zeyad's arguments are used regularly by the Arab Propaganda Drive, it seems appropriate to refute them and put the facts in the right perspective.

It was claimed that peace has never been a goal for Israel. The primary goal of Israel is to maintain a free and democratic Jewish state in the Land of Israel, which will coexist peacefully with its neighbors. Let us look at the sacrifices Israel made in order to achieve peace with Egypt: She withdrew from the Sinai Desert, which gave her much needed operational depth, and relinquished the oil fields which supplied her oil needs, for which she now pays a price exceeding the annual American aid she gets. So where is "the dream of Great Israel"?

Mr. Zeyad then grossly distorts the facts concerning the American aid to Israel, accusing the Jewish Lobby of masterminding the entire legislative and governing systems of America. This accusation is not original and was used repeatedly by antisemitic propaganda. A conspiracy by the Jewish people to control the world was the theme of "The Elders of Zion," a pamphlet created by Russian Czars in the 19th century in order to justify their Programs (mass killing of Jews).

Then it was used by Hitler to suggest that the allies, specifically

ly America, were dragged to the Second World War by the Jews (by the way, the then religious and national leader of the Palestinian Arabs, Haj Amin El-Husseini, conferred with Hitler and helped organize a Moslem Legion to support the Nazi war machine). Now the Arab Propaganda uses this same rusty weapon to try and drive a wedge in the American society.

The most recent examples of the use of this tactic are those of Khomeini releasing promptly the black American Hostages, and his ally, the PLO, using separatist Black and Indian extremists to the same effect. To conclude this point, the American people support Israel because it is the only free democratic nation in the Middle East, committed to the same ideals stated in the American Constitution. They do not support neither those Arab nations who are an apparatus in the hands of the Soviets, nor those who, using oil as a weapon, try to master the free world.

Another ridiculous statement is that "every Israeli is living in a Palestinian home, business and farm." Sure, we know from the Bible that the Land of Israel is the Land of Milk and Honey. It was, until the Arab occupation in the 7th century. Then, within a century, the Arabs succeeded in destroying the land, turning it into a "wasteland of swamps and rocks," and in driving away its citizens. Since then, the land did not recuperate until, of course, the arrival of the Zionist settlers in the 19th century. Historians estimate the population of the Land of Israel at the beginning of that century at a quarter of a million, a mere shadow of the several millions it supported in the Biblical times. By the way, Mr. Zeyad, the Bible also states that the Land of Israel belongs to the Jews forever, and that they would come back from the Diaspora and recreate their own free national state. Or did you forget this?

Another myth used by you is that the PLO will create "a secular democratic state where Moslems, Christians and Jews live side by side in a peaceful way." This concept adequately describes the only such nation in

the Middle East, namely Lebanon, until the PLO gained the strength to occupy it. Is it just a coincidence that the Christians there had to create their self-ruled and self-defended enclave in order to survive? Then it is stated that it is not the intention of the PLO to "wipe Israel off the map." Here Mr. Zeyad is at odds both with what he wrote in his two preceding sentences, and with Article 15 of the Palestinian National Covenant, the basic platform of the PLO, which clearly states: "The liberation of Palestine...aims at the elimination of Zionism."

As to the question of who are the terrorists, let me just point to the recent statements by the President of the United States that the PLO is the kingpin of international terror, being supplied and trained by the Soviet Union to serve its aim of weakening the free democratic world. Or is Mr. Reagan too masterminded by those awesome, mighty, Zionist Jews? Let me also remind you: the question of Palestinian refugees was created by the Arab Leaders (as stated by the Syrian Premier in 1948), urging the Palestinian Arabs to quit their homes in order to facilitate speedy annihilation of the Jewish population.

Israel has given home to Jewish refugees who had to flee the Arab countries, whose number is equal to that of the Palestinian refugees. However, the Arabs elected to keep their brothers in refugee camps in order to exploit their plight as a weapon against Israel. And, contrary to what you said, assistance to those refugees comes from the United States through the UN, not from their oil rich fellow Arabs.

In conclusion, as stated by Ms. Saucier, the Arabs had twice rejected a solution which would have allowed them their own independent state, comprising four-fifths of the Land of Israel. Currently, not a single Arab country agrees to the establishment of a free Palestinian state. The Camp David Accords allow the Arabs in Israeli-controlled territories to create their own autonomy. Will they take advantage of this opportunity, or will they insist upon eliminating the State of Israel, and lose again?

## Letters to the Editor

### Christian remarks

To the editor and people of Texas Tech I submit:

The Bible is not false doctrine written for mere entertainment, but is the words of God, creator of the cosmos.

Secular humanism's doctrine is the belief in complete evolution. In place of traditional theism's worship of God, the secular humanist finds his religion expressed by the self-gratification of his or her own life.

On secular humanism: "The word

"secular" by definition refers to the temporal rather than spiritual. Secularism is based solely in regard to the exclusion of all belief in God. Humanism is a doctrine centered solely on human interests and values." John W. Whitehead

John Colan  
Texas Tech Law Review

On Christianity: "We have beheld and bear witness that the Father has sent the Son, Jesus Christ, to be the savior of the world." John 4:14

"We must obey God rather than men." Acts 5:29

"God created man in His own image, in the image of God He created him." Genesis 1:27

"God, blessed controller of all things, the King of Kings and the Master of Masters." Phillips, I Timothy 6:15

To debate secular humanism as opposed to Christianity is not the purpose of this letter. Yet a more simple reason is the basis: to contrast the two and to offer an objective view.

Respectfully, Mark E. Marfisi

## Op-Ed page guidelines set

The Opposite-Editorial page will appear Wednesdays when items submitted by the Tech community necessitate a page. All items that appear on the Op-Ed page are by non-University Daily staff.

Columns and editorials should be no longer than 750 words or five typed

pages. The articles must include the author's name, classification, hometown and telephone number.

Cartoons must be etched on white paper with a heavy black pen.

All items must be typed, triple-spaced on a 65-

character line.

- be submitted by 5 p.m. Monday of the week the item is to appear.

- include the signature of the author.

- be delivered to Room 210, Journalism Building or addressed to The University Daily, Texas Tech, P.O. Box 4080, Lubbock, 79109.

## THE UNIVERSITY DAILY

The University Daily, a student newspaper at Texas Tech University in Lubbock, Texas, is published by Student Publications, Journalism Building, Texas Tech University, Lubbock, Texas 79409. The University Daily is published daily except Saturdays and Sundays, September through May, and bi-weekly June through August, except during review, examination and vacation periods. The University Daily is a member of the Associated Press, Southwestern Journalism Congress, Rocky Mountain Collegiate Press Association and National Council of College Publications Advisers. Second class postage paid at Lubbock, Texas 79409. Publication No. 766480. Subscription rate is \$20 per year, single copies are 15 cents. Opinions expressed in The University Daily are those of the editor or of the writer of the article and are not necessarily those of the university administration or of the Board of Regents.

# Survey questions reasons for cigarette smoking

By LIZ ROOT  
UD Staff Writer

If you're a cigarette smoker, your chances of being a member of the campus "in crowd" may be diminishing.

A scientific survey of Tech students conducted last semester indicates fewer students are smoking, and those who do smoke are reducing their consumption of tar and nicotine.

Advertising graduate student, Jim Murry, surveyed 60 Tech undergraduate mass communications students in November 1980 to study their smoking habits and attitudes toward smoking.

The survey, which Murry hopes to publish in a scientific journal, attempted to answer an age old question: Why do people smoke in the face of all the evidence that says smoking is dangerous?

The answer, Murry theorized, lies in the scientific theory of cognitive dissonance. Simply stated, cognitive dissonance is every human's drive to reduce personal insecurity.

For example, if you know cigarette smoking is harmful and you smoke, you experience the psychological discomfort of dissonance, which is something like coming home late from a high school date and knowing your date's father is waiting on the front porch.

Research from the 1950s, when dissonance theory was in its early stages, indicated that people smoke for a variety of reasons. Some of the reasons cited were a desire to show maturity, to display social poise, to reward effort, to be daring, to be social, to relax and to show sophistication.

Murry theorized that attitudes toward smoking have undergone some dramatic changes since the 1950s because of scientific studies into the dangers of cigarette smoking. Since 1965, all cigarette packages have carried the U.S. Surgeon General's warning that cigarette smoking can be dangerous to your health. Another danger signal came in 1971, when cigarette advertising was barred from television.

Murry said he believed these warnings from the scientific community were responsible for an increase in feelings of insecurity among smokers.

According to dissonance theory, smokers justified their habits by ignoring the dangers of smoking or downplaying warnings about health hazards, but these warnings were becoming harder to ignore during the 1970s.

According to one industry survey, only 33 percent of the American population smokes today, the lowest percentage since the 1950s when women had not taken up the habit in large numbers.

The drop-off in smoking gained strength during the 1970s. As recently as 1974, 37 percent of all Americans smoked. That figure has dropped by 4 percent during the past six years.

A second trend is found in the growing popularity of low tar cigarettes. The percentage of smokers who are changing from regular to low tar or ultra-low tar cigarettes is increasing, and this indicates another area of concern among smokers about the dangers of cancer.

These figures might indicate a trend toward a general decrease in smoking, but Murry says he is not so optimistic.

"In fact there is just about the same number of people smoking cigarettes," Murry said. "But there is a tendency for people who have smoked regular cigarettes to switch to low tar and nicotine cigarettes. When these smokers do switch, however, they tend to smoke greater numbers of cigarettes in order to satisfy their nicotine habits."

With this in mind, Murry concludes that people may be tuning out the anti-smoking messages the American Cancer Society shows on television because of the psychological discomfort of dissonance.

Murry's study tested a smoker's drive to reduce dissonance caused by anti-smoking messages and the corresponding willingness of non-smokers to accept bad news about smoking.

Murry arranged for Tech advertising lecturer Jim Marra to deliver a five-minute videotaped message about smoking in which Marra introduced himself as Tech sociologist, "Dr. Bloom."

"Dr. Bloom" delivered, during the videotape, a stinging discussion on the dangers of smoking. The message included several false claims. For example, one of the false claims said "if you smoke 16 cigarettes per day for two years, your lung capacity will decrease by 23 percent."

The purpose of "Dr. Bloom's" claims was to determine how much false information non-smokers would believe and how smokers would deal with such damaging information.

The results of the videotaped presentation seem to indicate a tendency to believe or disbelieve information about smoking according to smoking habits, Murry said. Students who saw the

videotape believed "Dr. Bloom's" false claims if they were non-smokers, while smokers tended to reject the false claims.

After the students viewed the videotape, Murry gave them a questionnaire to determine if either the smokers or non-smokers had changed their views about smoking.

"Non-smokers didn't change their minds about smoking, but smokers did have a slight change if they smoked regular cigarettes," Murry said. "Low tar smokers were more likely, after seeing the anti-smoking videotape, to defend cigarette smoking than the smokers of regular cigarettes."

Murry showed another group of students a second videotape in which "Dr. Bloom" downplayed the dangers of smoking and emphasized its social acceptability. Murry said students who viewed the pro-smoking videotape presentation tended to reinforce positive beliefs about smoking, whether they were regular or low-tar smokers.

Based on the experiment results, Murry said he believes that the more a smoker reduces his tar and nicotine intake, the more he feels he is helping himself, and the stronger he defends his smoking behavior.

"The American Cancer Society's advertising campaigns are now probably less effective overall although their campaigns are still effective, according to my conclusions, on the regular cigarette smoker."

## Moments Notice

To place a Moment's Notice, fill out a form in the newsroom on the second floor of the Journalism Building. Deadline is 2:30 p.m. the day before the notice is to appear in the paper.

**LA VENTANA**  
La Ventana will sponsor a photo contest during February open to Tech faculty, staff and students. Pictures of the campus and people will be judged by Sandy Mitchell and Ronny Hutchison, co-editors, and Darrel Thomas, director of photography. Winners will be published in 1981 La Ventana with credits.

**FIGHT NIGHT**  
Any club, dorm or individual interested in fighting in this year's Fight Night should contact Ted Mellinger or Bruce Williams at 765-5032.

**UNIVERSITY DAY**  
Friday, Feb. 27, Tech will welcome prospective freshmen from around the state to the campus. All student organizations are invited to reserve a table in the UC Ballroom to display information about their activities and to recruit new members. Make reservations by today at the Dean of Students Office, 250 West Hall, 742-2192.

**PHI ALPHA THETA**  
Phi Alpha Theta, international history honorary, is accepting applications for membership. Applications are in Room 131 of Holden Hall.

**SOFTBALL**  
Any men's slowpitch softball teams interested in playing scrimmage games may telephone Dick Farrelly at 742-5757 or Dave Mann at 742-4586.

**JR. COUNCIL**  
Junior Council is accepting applications for membership. Applicants must have junior standing and a 3.0 GPA. Applications are available in Room 250 of West Hall. Deadline is March 11.

**FRESHMEN**  
Attention all Freshman Sweethearts: the date to turn in Freshman Sweetheart applications has been extended to Feb. 27. Applications may be picked up in the SA office.

**ALD**  
Alpha Lambda Delta T-shirts and pens may be picked up during office hours in Room 110 of the Administration Building.

**TIMETTES**  
Timettes will meet at 5 p.m. today in the Men's Gym to discuss the regional swim meet. This is a mandatory meeting.

**40-LOVES**  
40-Loves will meet at 7 p.m. today in Room 164 of the Business Administration Building for elections. Attendance is mandatory.

**RHA**  
A general residents assistants meeting will be at 8 p.m. today and Thursday in the Dining Hall of Carpenter-Wells to inform interested applicants of employment oppor-

unities and selection process.  
**MEXICO FIELD COURSE**  
Two orientation sessions for students wishing to participate in the Mexico Field Course will be at 4 p.m. Thursday in Room 2 of the Foreign Language Building. Further information and application forms will be available.

**ASCE**  
American Society of Civil Engineers will meet at 5:45 p.m. today in Room 75 of Holden Hall for a regular business meeting and program. Refreshments will be served.

**FASHION BOARD**  
Fashion Board Publicity Committee will meet at 6:45 p.m. today at #232 Gaston Apartments to vote on "big show" theme design.

**RAIDER RECRUITERS**  
Raider Recruiters will meet at 7 p.m. today in the athletic offices. Coordinators meet at 6 p.m.

**PRE-MED-DENT**  
Premedical and Pre dental students who are applying for the entering class of 1982 will meet at 7 p.m. today in Room 101 of the Biology Building to obtain information on test and applications.

**ZTZ**  
Zeta Tau Zeta will meet at 7 p.m. Thursday

in Room 127 of the UC to discuss the spring calendar and University Day. Semester dues also will be collected.

**ORIENTEERS**  
Orienteering Club will meet at 6 p.m. Thursday in Room 7 of the Math Building to sign up for Las Cruces meet. Price is \$15.

**RHA**  
Residence Halls Association will meet at 7 p.m. today in Room LH07 of the Business Administration Building for a mandatory

meeting.

**AAS**  
Applications for Arts and Sciences scholarships are available in Room 125 of Holden Hall. Qualifications are a 3.25 grade point average and at least 64 hours by Fall 1981. Two \$200 scholarships will be awarded. Deadline is March 13.

**AnF EXEC**  
Angel Flight Exec. will meet at 5 p.m. today in the Detachment Room of Holden

Hall to discuss February and Nation.

**ACCT. SOCIETY**  
Tech Accounting Society will meet at 7 p.m. Thursday in the UC Ballroom for a cost and tie affair. Speaker will be from IRS.

**TSEA**  
TSEA will meet at 7 p.m. Thursday in Room 169 of the Home Ec Building for elections.

**CAMPUS HOTLINE**

Do you need information? Are you homesick? Caught in a bind? Feeling hassled? Frustrated? Lonely? Depressed? Do you feel like talking? Are you experiencing difficulties? Telephone Interchange at 742-3671 from 6 p.m. to 1 a.m. daily. We listen.

**Spirit needs unfunded**

# Jog-Rama to raise money

By LYN MCKINLEY  
UD Staff Writer

If the chance to walk, crawl or jog to win a trip to Mexico and, at the same time, support Tech brings out the budding athlete in you, then bring a pair of tennis shoes and a lot of gusto to the Tech Jog-Rama March 28 at Jones Stadium.

Sponsored by the Saddle Tramps Spirit Organization, this fund-raising walk/crawl/jog-rama is attempting to raise \$300,000 to underwrite mascot cost and other unfunded spirit needs. The money also will be used for scholarships to qualifying academic departments and clubs to be awarded to deserving students, Saddle Tramp David Counts said.

Unlike most events, where pledges are made by sponsors and collected by contestants, a computer will handle collection by sending a bill and a thank you letter to all sponsors in the Tech Jog-Rama.

"A company that sponsors jog-a-thons takes care of billing. They handle everything," said Mark Ramirez, president of the Saddle Tramps.

Counts explained the company makes money by charging the Saddle Tramps for the hours used on the computer. This fee will be deducted from the money raised at the jog-rama.

"If we make \$300,000, we at least hope to break even for mascot costs," Counts said.

With music piped into the stadium, each contestant will walk, crawl or jog for one hour; the object is to cover as many laps as possible. Sponsors pay their pledged amount multiplied by the number of laps completed.

"We found it takes three minutes to walk one lap, so it should take 60 minutes to walk 20 laps," Counts said.

A dinner for two will be awarded to each contestant completing 20 laps in one hour.

## Campus Briefs

### Advertising major given award

Murray "Mack" Owen, senior advertising major, has been awarded the Dallas Advertising League Award, recognizing him as the outstanding advertising intern in the 1980 summer intern program of the Texas Daily Newspaper Association.

### Advertising workshop set

Tech and the Lubbock Advertising Club will offer a one-day session "Writing and Producing Effective Print Ads" March 26. The session is scheduled from 1:30-4:30 p.m. in Room 223 of the Mass Communications Building. Fee for the session will be \$4 for students and \$30 for non-students.

### Beginning ballet class offered

A beginning ballet course for anyone nine years old or older will be offered at Tech this spring. Tech Dance Division Coordinator Peggy Willis will instruct the program 5:30-7 p.m. Tuesdays and Thursdays March 10-April 7 in the Dance Studio of the Women's Gym. The ballet program, sponsored by the Dance Division and the Division of Continuing Education, was written by V. S. Kostrovitskaya of Leningrad and translated by John Barker of New York City.

### Wind specialist to speak

The "Windstorm Effect" will be the topic of the UC Programs' World at Large Forum at 7:30 p.m. Tuesday, March 10. Kishor C. Mehta of the Tech Civil Engineering Department will be the featured speaker. Mehta is a specialist on wind effects and the dangers of Texas windstorms and tornadoes. His discussion will be followed by a question and answer session.

### Residence Halls recruiting

The Office of Residence Halls will present two recruitment sessions for resident assistant positions at 8 p.m., today and Thursday, in the Wells-Carpenter Dining Room. The sessions are designed to acquaint applicants with the selection process, qualifications, job expectations and related information. James Burkhalter, director of residence halls and food service, and experienced staff members will discuss aspects of being an RA and answer questions.

### American West film course

A course study of the American West in western films will be offered from March 2-April 17 by the Tech Division of Continuing Education. The course, "From 'Bronco Billy' Anderson to 'Bronco Billy' Eastwood," will be taught by Les Adams, editor and publisher of Yesterday's Saturdays, a reference magazine for western film buffs. Excerpts from western movies and interviews with western film actors, directors, producers and musicians will be part of the course.

## Reagan's stand worries allies

LONDON (AP) — President Reagan's indications of a tough response to global challenges from the Soviet Union are worrying some NATO allies, according to diplomats of six NATO countries and senior British officials interviewed here Monday.

The officials are mainly in agreement on the principle of a more vigorous response to a Soviet military buildup, but they expressed disagreement over some signals coming from the month-old Republican administration in Washington, including a NATO "rapid deployment force" and deployment of neutron weaponry on their soils.

Many of the proposals that appear to be taking form, as the new administration's foreign policy would transform the role of the 32-year-old Atlantic alliance and are being viewed by the European allies in that context. Others are being discussed in government-to-government consultations.

Belgium, West Germany, Belgium, Holland and Norway, all with active anti-nuclear lobbies, have withheld endorsement of deploying the neutron weapon.

Belgian, Dutch and Norwegian diplomats predicted the neutron weapon would spur the arms race at a time when proposals are being made to limit tactical nuclear weapons in Europe.

All these West European officials favored new efforts by the superpowers to negotiate arms control accords, including the second-phase strategic arms limitation treaty. Soviet President Leonid I. Brezhnev indicated his willingness to renegotiate the treaty but "only on the basis of equality and equal security," in his opening speech to Moscow at the 26th Soviet Party Congress.

The suggested formation of a NATO rapid deployment force, based outside the alliance area, was opposed by the French, Norwegian, British and West German officials, who do not want to tamper with the alliance's treaty, even by minor extensions of its limits.

# Short shorts

The rating system for Lifestyles' Short Shorts is the same as Tech's GPA grading system with 4.0 being excellent and 0.0 deserving no credit whatsoever. The movies are rated by members of the UD staff. Initials of the reviewer appear following the short. PB/Pat Barton; MCM/L.M. Clark; MJ—Mindy Jackson; LML/Laurie Massingill; RM/Ronnie McKee; SS—Sandy Stone; CW/Clay Wright.

**ALTERED STATES** (Fox 4) Don't go to see Ken Russell's film, *Altered States*—go to experience *Altered States*. Taken from the novel of the same name by Paddy Chayefsky, the incredible ideas on genetic memory, psychedelic drugs and sensory deprivation as set forth by Russell may be a little hard to swallow. Be warned, *Altered States* is not for everyone. The technical effects are superb. The performances, particularly that of William Hurt, are formidable. *Altered States* is a give and take relationship between the audience and director Russell...bring Russell an open mind and he'll fill it with new ideas and experiences, an amazing cinematic display. **Lifestyles GPA 3.85 LM.**

**CHARLIE CHAN AND THE CURSE OF THE DRAGON QUEEN** (Mann 4) Remake of the comedy/mystery classics with Peter Ustinov as the oriental investigator and Angie Dickinson as the cursed Dragon Lady. A passable spoof of early Chan films with plenty of clever gags. The PG rating stands for pretty good. **Lifestyles GPA 2.7 LM.**

**THE COMPETITION** (Showplace 6) Though Richard Dreyfuss' character is a little hard to believe at times, this romantic story hardly suffers. Amy Irving is great as Dreyfuss' competition in a prestigious piano competition. If you're a fan of either player, by all means, go to see *The Competition*. If not, you may find the film a little slow. Plenty of fantastic classical music though. Lee Remick is the idiomaker of classical music as Irving's coach, but not at her acting best. **Lifestyles GPA 3.1 LM.**

**THE DEVIL AND MAX DEVLIN** (Showplace 6) Disney presents William Bill Cosby and actor Elliot Gould making a "hot" deal. Unreviewed at this time.

**ELEPHANT MAN** (Mann 4) David Lynch's *Elephant Man* is a moving cinematic experience. The subject of one man's fight to rise above bodily disfigurement is a stirring statement on exploitation. John Hurt is John Joseph Merrick, the Elephant Man. Hurt's portrayal is sensitive and seemingly heartfelt. At times, *Elephant Man* is devastating. **Lifestyles GPA 3.0 LM.**

**FLASH GORDON** (Showplace 6) Flash, an innocent New York Jets' quarterback and Dale Arden, an innocent reporter, are reluctantly forced to accompany a scientist in his long-shot chance of saving the earth from the evil Emperor Ming. This movie is not your typical modern science fiction. It rather follows the 1936-based comic strip. Its effects are less realistic than those of *Star Wars* and *Alien*, but are no less fun. The provocative colors and backgrounds add a great dimension to the film. The dialogue is often silly, if not just plain dumb. This movie must not be taken seriously to be enjoyed. *Flash Gordon* is highly recommended for children and acid-heads. **Lifestyles GPA 2.5 MC.**

**FORT APACHE, THE BRONX** (UA Cinema 4) *Fort Apache, The Bronx* is a movie that starts off like a flaming arrow. It's swift, blazing and lethal. The film ends in the same way, but what happens in between these two bullseye arrows leaves *Fort Apache* whizzing by, far off-target. Problems lie with an inconsistent plotline. But still, director Daniel Petrie is able to show us the man inside the cop with a very good showing by Paul Newman as an aging New York cop. Ed Asner also turns in a fine supporting performance as the tough-by-the-book captain in the film. **Lifestyles GPA 2.9 PB.**

**THE INCREDIBLE SHRINKING WOMAN** (UA Cinema 4) Lily Tomlin is super as a normal housewife in Suburbia U.S.A.—normal, until she starts to shrink from 5'7" to next to nothing. The film is hardened by a ridiculous plotline like a Disney movie gone bad. A powerful management organization wants to take over the world by shrinking its enemies, but can do so only with a serum made from the shrinking woman's blood. Silly. The initial idea, a woman shrinking and the problems involved, is fine, but the performances of the excellent cast shouldn't have to carry the weight of the silly subplot.

That's a big load to put on the shoulders of a woman no taller than *The Incredible Shrinking Woman*. **Lifestyles GPA 2.7 LM.**

**THE JAZZ SINGER** (UA Cinema 4) Neil Diamond tried; he really tried hard. But that's the problem. His anxious and intense concentration to do a good acting job showed on screen. He was calculating each word said, analyzing each movement made. But the moment he opens his mouth to sing, everything is forgiven. He relaxes in his natural environment of songs and gives one great performance after another. The soundtrack is the success of *The Jazz Singer*. Never before (and maybe never again) have pop, soft rock and jazz been so beautifully combined on screen. This credit belongs to Diamond who composed all the music himself. The lyrics of Diamond's songs tell half the story themselves and Love on the Rocks each deserve best-song nominations from the Academy. As for the film's co-stars, Laurence Olivier, hailed the world's greatest actor, is not worth mentioning for his role as Diamond's father. Lucy Arnaz once again displays her acting and comedic talents by giving a very likable and believable portrayal of Diamond's agent/lover. **Lifestyles GPA 3.2 MJ.**

**MELVIN AND HOWARD** (UA Cinema 4) Melvin and Howard, the American Film Critics Society's choice for best picture of the year, lives up to the almost universal high praise it has received. The film, which chronicles the life and loves of Melvin Dummar, is a delight in every way. Paul LeMat is superb as Melvin, the Utah man who claims to have found Howard Hughes' "Mormon Will." The very idea of the movie is novel and quite a refreshing change from

the steady diet of fluff and message movies the market has been saturated with in recent years. Melvin and Howard will be remembered as one of the liveliest, entertaining movies of 1980. **Lifestyles GPA 3.5 PB.**

**9 TO 5** (Winchester) Kudos to everyone involved with this picture. 9 to 5 may not be the kind of Serious Dramatic Achievement that invariably pulls off all the Oscars, but look at the box office totals this year, and this film will be at the top of the heap. If you need a laugh, Dolly Parton, Lily Tomlin and Jane Fonda should be able to provide one in this comedy on office life. At first glance, Fonda seems out of her element (no controversy in the secretarial pool, certainly), but she manages to suit

herself to the role and, in fact, give a strong statement against sexual discrimination. Parton is excellent in her first movie role. She is also responsible for the title cut "9 to 5," played ad nauseum on local radio stations, but that's certainly not her fault. Tomlin's sarcastic humor is also admirable. One of the better comedy offerings from the holiday avalanche of releases. **Lifestyles GPA 3.8 LM.**

**POPEYE** (Showplace 6) This film joins the ranks of *Flash Gordon* and *Superman* as yet another comic book-turned-Hollywood. This one, however, doesn't translate quite as well as the others. It does provide some nice entertainment, though, if you can put up with a musical score that creeps in at

the most awkward and unwarranted times. Why Robin Williams as Popeye was so severely chastised by the critics for his role as Popeye, I'll never know. Probably no other actor in Hollywood could do such a perfect rendition. Shelly Duval as Olive Oyl was almost perfect. For the first time this film translates more from the comic books than from the old Saturday morning cartoons, in case you see some things you didn't expect or expect some things you didn't see. Not a disappointing film. **Lifestyles GPA 3.3 SS.**

**STIR CRAZY** (Fox 4) Gene Wilder and Richard Pryor are back again, in good form. Wilder steals the show in this film as a gentle spirit who, along with Pryor, is ac-

cused of staging a bank heist. Writer Bruce Jay Friedman has some really clever dialogue here between the two characters, and the film seems to have more plot than previous Wilder-Pryor films, though, at times, the character development is sketchy. Credit should be given also to actor-turned-director Sidney Poitier. Language might be offensive to some. **Lifestyles GPA 3.0 LM.**

**TESS** (Mann 4) It's dangerous, very dangerous, to make absolute statements in the field of film reviews, but... *Tess* could well be the BEST film of the year. This film has the potential to be another *Gone with*

the Wind, with theater patrons returning to see *Tess* year after year as the film is revived periodically by popular demand. The cinematography is exquisite. The costumes are lavish. The acting is sensitive, perhaps brilliant: 19-year-old Natasha Kinski is perfect as the young Tess—beautiful, sensual, innocent. Peter Firth and Leigh Lawson are well-cast as her husband and master, respectively. Not enough can be said about the scenery and photography of Geoffrey Unsworth and Ghislain Cloquet. But the film belongs to director Roman Polanski. Polanski proves that a riveting, lyrical motion picture can be produced without the sex and violence

that typifies films of the recent past. In fact, the director almost goes overboard keeping his adaptation of Thomas Hardy's novel far rarer than the film on an even keel. Polanski has made a masterpiece, one that will surely be recognized by the

Academy members come Oscar time. (*Tess* has been nominated for six awards.) OK, I said it was dangerous, but I'm going to climb out on a limb anyway and say *Tess* is the best film of the year. If anyone makes a better film than *Tess*, I'll just take a flying leap off that limb. Any film better than *Tess* would be showing in Heaven anyway. **Lifestyles GPA 3.99 LM.**

# Moore did good job with recruiting despite delay

For the last few weeks we all have heard about the great gains the University of Texas, the University of Houston and Southern Methodist University made in recruiting for the 1980-81 season. But what about the job new Tech head football coach Jerry Moore and his staff did, with a three-week handicap?

Tech's new football boss was at a disadvantage considering he took the job three weeks after the recruiting wars began, but thanks to hard work and knowledge of the talent around the state, Moore was able to recruit 22 top football players that will bolster the Tech program.

Moore is no stranger to Texas high school football talent. During his six years at the University of Nebraska, you know the team Oklahoma beats every year to go to the Orange Bowl, he was responsible for recruiting Junior Miller from Midland, Rich Berns from Wichita Falls, Kelvin Clark from Odessa and other Texas schoolboys from the Lone Star state to wear the red and white of Nebraska.

All Miller did at Nebraska was become an All-American his senior season while leading the Cornhuskers to the Cotton Bowl. Last year he was the Atlanta Falcons' first-round draft choice and became a

Mike Keeney

starter for the Falcons who won the NFC's Western Division.

Clark was also an All-American at Nebraska as an offensive tackle. He is currently a member of the Denver Broncos. Berns was a three-year letterman for Nebraska. He is now playing for the Tampa Bay Buc-

caners.

With the time Moore and his staff had to work with, the haul they pulled in for the upcoming football season is really remarkable when you think about it.

Moore was offered the Tech job on a Sunday, Jan. 2. Looking at it from a chronological stand point, the former North Texas State coach and his staff had 39 days to convince high school football talent to enroll at Tech, while all of the other eight conference schools began hitting the recruiting trails as soon as their seasons ended.

The short time-table didn't seem to bother Moore or his staff because the 22 football

players that signed with Tech, two weeks ago, are all top-rated athletes. And without a doubt, the six running backs that signed with Tech are the fastest group of freshmen the school has ever recruited.

Speed is just what the doctor ordered for the Raiders' running attack.

Last year the Tech rushing attack accounted for 1,662 yards. Friends you ain't going to win in this conference if that's all the yardage one's running game can rush for an entire season. Without a solid rushing game, as Tech found out last year, your passing game is going to hurt.

The simple reason the

Raiders' running game slumped last year was because of the absence of a break-away threat. Maybe that's why Moore recruited the six running backs he did this year.

Of the six backs who signed with Tech, five run a 4.6 40-yard dash or better — that's mighty fast.

Gerald Bean of Houston Yates and Ansel Cole of San Antonio Jay are the fastest of the Tech recruits. Both run a 4.5 forty. Robert Lewis of Greenville, Ronnie Thomas of Victoria Stroman and Jerry Zachery of Midland High each run a 4.6 in the forty that gives Tech quite a bit of speed in the backfield to work with this coming fall.

Lewis, who rushed for 1,276 yards as a senior and 1,100 yards as a junior, was being wooed by Oklahoma and Barry Switzer, but decided to come to Tech. Zachery had verbally committed to Texas A&M but at the last minute signed with Tech. He also took a trip to California to visit UCLA, but not even the glitter and gold of sunny Southern California could lure Zachery away from Tech.

Zachery was called by one UCLA scout as one of the best back prospects in the country. That's nice to know. It's also pleasing to know that Moore was able to get Zachery away from the Aggies, one of Tech's most bitter rivals.

So this year's recruiting went well for Tech. In his first month and a half of work for the school, Moore was able to sign players with a lot of potential and talent. He helped the sagging running attack by signing those six running backs.

Moore and his staff should be commended for the fine job they did in recruiting, so before you go criticizing Tech's new football coach, just remember things could be a whole lot worse.

### CANARIES

If canaries are fed red pepper in successive moults they will change from yellow to intense orange.

## Hogs rout Raiders

By MIKE McALLISTER  
UD Staff Writer

It's been a long time since the Tech tennis team has posted a match win in the Arkansas-Tech men's tennis rivalry. Tuesday afternoon, the Razorbacks' win streak was made even longer as the Hogs downed the Raiders 9-0 at the Lubbock Racquet Club.

Tech has only one lone match win since the series with Arkansas began in 1976. That win was in 1977 and the Raiders have now lost 36 straight matches to the Hogs.

And with the Razorbacks coming into Lubbock as the seventh-ranked tennis team in the nation and the defending Southwest Conference champions, things didn't look too hot for Tech to begin with.

"These guys here," said Tech coach Ron Dameron, pointing to the Hog team, "will probably be the best team we will play all year."

The Razorbacks certainly showed that, as the Raider squad could manage only two set wins in the meet.

Both those set wins involved the Raiders' freshman player, Fred Viancos, who is currently playing in the No. 4 position.

Viancos, from Houston Strake-Jesuit, won his first singles set over the Hogs' Jean Van Rensberg by a 6-2 count. But a close call by Van Rensberg on a Viancos serve in the second set threw the Raider's game off-balance.

"That was the reason I lost that set," Viancos said about the call. "But when a guy makes a bad call, well, you just can't let that bother you, I thought I played really well but he started serving a lot better in the second and third sets."

Viancos, along with partner Zahid Maniya, took the team of Van Rensberg and Jose Lambert to three sets before losing. The Tech team had a 4-1 lead in the first set but lost 7-6. The Raiders took the second set 6-4 but the Arkansas duo closed out the match by the same 6-4 score.

The other matches include: No.1 singles-Arkansas' Peter Doohan downed Tech's Jeff Bramlett 6-1, 6-2; No.2-Arkansas' Pat Serret beat Tech's David Earhart 6-3, 6-0; No.3-Lambert beat Maniya 6-2, 6-2; No.5-Arkansas' Clark Diehl downed Tech's Mark Thompson 6-3, 6-1; and No.6-Tech's Lane Carroll lost to Arkansas' Mark Kane 6-2, 6-3.

Doubles results include: Bramlett-Carroll losing to Doohan-Serret 6-0, 6-2 and Thompson-Earhart losing to Kane-Diehl 6-3, 6-1.

"This was our first big test of the year," Dameron said about his team, now 3-2 for the young season. "You've got to give Arkansas credit. You just try to play your game but sometimes the competition won't permit you to play your game."

## Beavers take no. 1 Hogs back in poll

By the Associated Press

Oregon State regained the top position in the Associated Press college basketball poll Tuesday as Virginia, No. 1 last week but the latest in a long line of teams to have a major winning streak snapped by Notre Dame, slipped to No. 3 behind runnerup Louisiana State.

Oregon State, 23-0 and the only major unbeaten college team, collected 54 of 60 first-place votes and 1,193 of a possible 1,200 points in the nationwide balloting by a panel of sports writers and broadcasters. The Beavers, No. 2 last week, were

replaced in the No. 1 slot by Virginia three weeks ago after holding the top spot for two weeks and sharing it with the Cavaliers another week.

LSU, which now holds the nation's longest major winning streak at 25, jumped two notches in taking over the No. 2 position. The Tigers, 26-1, garnered four first place votes and 1,087 points in edging both Virginia and DePaul, which dropped a notch to fourth.

Virginia, which saw its 28-game winning streak shattered by Notre Dame, 57-56 last Sunday, was tabbed No. 1 by one voter and picked up 1,079 points. DePaul, which raised its record to 24-1 with an 89-64 victory over Butler Monday night, was five points farther back and had the final first-place vote.

1. Oregon State 23-0
2. LSU 26-1
3. Virginia 23-1
4. DePaul 24-1
5. Arizona St. 20-3

# Raiders lose to Horns on road, 65-54

By JON MARK BEILUE  
UD Sports Editor

AUSTIN — Texas broke its slump in the Southwest Conference race in a "big" way against Tech last night.

How big? Try 6-10, 240 pounds — that's how big.

Longhorn center LaSalle Thompson scored 18 points and grabbed 15 rebounds and Texas got solid guard play from Ray Harper and Fred Carson as the Longhorns defeated Tech 65-54 in Austin's Special Events Center.

Texas was like Columbus discovering the New World as Thompson had almost been a forgotten figure in the Longhorns last two losses. But to Gerald Myers' chagrin it was land ahoy for the Longhorns.

"Our defense was not good at all," said Tech Coach Gerald Myers. "We did not stop the big boy, (Thompson) at all."

Thompson's inside play pushed Texas' SWC slate to 6-9. Meanwhile, the Raiders, who had won three straight, saw their record drop to 8-7. The loss also put a cramp in Tech's chances to finish second or third

in the league.

Thompson had nearly half of Texas' points in the first stanza as he scored 12 points and grabbed 10 rebounds. Texas led at intermission, 29-25.

The big center ran into foul trouble in the second half, but Texas became more versatile offensively to hold off Tech.

Texas broke open a tight game by outscoring Tech 12-4 in a little over four minutes in the second half. When the 5-10 Harper scored on a lay-in, Texas led 41-31 with 15:42 left.

"We missed some shots right after the half and those were real crucial because Texas got 10 or 12 points ahead right after that. That was the ball game," Myers said.

Although Texas increased its lead to 49-38 on a Harper 28-foot bomb with 9:38 left, the Raiders began to slowly climb back. Jeff Taylor, who had 23 points to lead the Tech attack, led the Tech charge.

Taylor hit two jump shots and Ben Hill had a layup and suddenly the Raiders were behind by only five, 49-44, with 6:52 left.

Then with 3:21 remaining Taylor drove the length of the court, switched the ball to his left hand, and scored on a lay-in and Tech trailed by only three, 51-48.

But after a timeout, Texas said "That's enough."

Harper and Carson controlled the ball offensively as the pair ran off nearly a minute and a half of the clock. Harper was then fouled and sank both free shots to up Texas' lead to 53-48 with 1:58 left.

Mike Wacker then converted a three-point play with 1:39 left and Tech trailed 56-48.

Taylor countered with a jumper from the corner. But Thompson scored on a follow shot and Tech was whistled with a technical foul for six men on the court. Harper sank the technical and Texas held an insurmountable 59-50 lead with 1:15 left.

For Tech it was then a deficit too big to overcome.

Tech led six different times early in the first half but Thompson's dominating inside play kept Texas in the thick of it.

He scored Texas' last seven points of the half, including a three-point play with :04 left, to give the Horns a four point cushion going into the locker room. It was a lead they never lost.

Harper tallied 15 points and Wacker added 11 more to follow Thompson in the scoring column. Aside from Taylor's scoring binge, Clarence Swanegan added 12 points and Ben Hill scored 11 to pace the Raiders.

Tech, assured of fourth place because of Houston's win over Rice, will end the regular season by hosting league champ Arkansas Saturday in the Bubble.

# Too Tall begins singing career

DALLAS (AP) — First it was Ed "Too Tall" Jones the football player, then it was Ed "Too Tall" Jones the boxer. Now it's Ed "Too Tall" Jones the singer.

Jones launched his latest career, one he says won't interfere with his football career with the Dallas Cowboys, Monday night before an enthusiastic crowd at The Yellow Rose of Texas, a country and western club.

The songs he sang were "Do The Dip" and "Funkin' On The Radio," two disco songs. The record was cut last October and recently released on the Fun City label.

"This is a lot more fun than having your first professional fight," Jones said following his singing debut here.

Jones said he had been planning his venture into singing for

about eight years.

The music business is not exactly new to Jones, who owns TTC Booking Agency, operated at Memphis by his brother, Cliff Jones. The booking agency has been in business for about eight years.

"We book a lot of the name rhythm and blues groups which have made it big at one time but have cooled off for whatever reason," Jones said.

Now that the single is out, Jones plans to produce an album. He says disco is not what he's really interested in doing.

"Disco isn't my kind of music, really. The two songs in this single will be the only disco numbers in the album," Jones said, "It will be basically a rhythm and blues thing."

Jones says the album will be

finished in plenty of time for him to report to Cowboy training camp this summer. That should make Cowboys officials happy since Jones missed a season during a brief and less-than-outstanding venture into boxing.

"I'll be ready when it's time to report to camp," Jones said.

Last year with Jones back in the Cowboy fold the Pokes finished 14-5 winning their first two playoff games and then lost to the Philadelphia Eagles in the NFC Championship game by the score of 20-7.

## IM Briefs

### Slowpitch softball entries due

Entries for men's, women's, co-rec, and campus community slowpitch softball teams are due by 5 p.m. Thursday. A \$15 forfeit fee is required for each team entered.

There will be a rules clarification meeting for participants at 5 p.m. March 4 in the SRC classroom. The co-rec participants rules meeting will be at 5 p.m. Tuesday in the SRC classroom. All teams are urged to have representatives at the meetings to secure a knowledge of the rules.

Teams attending these clinics will have the opportunity to sign up for practice scrimmage games, which will be held March 8. For more information call 742-3351.

### Basketball tourney scheduled

A new two on two co-rec basketball tournament will be Saturday morning in the Women's Gym; entries are due by 5 p.m. Thursday.

Each game will be played to 40 points with female baskets counting 3 points and male baskets 2 points. Either player is allowed to work in the key area.

### Students needed for positions

Rec Sports is in need of students to act as softball umpires and volleyball officials. The beginning pay for umpires is \$5.25 per game, with the beginning pay for volleyball officials \$3.50 per game.

The first clinic for umpires is at 6 p.m. Monday in the SRC classroom. The first clinic for volleyball officials is at 7:30 p.m. Tuesday in the SRC classroom.

All interested persons should contact Rec Sports at 742-3351.

### Athletic injury clinic offered

Robert Yost, Tech Medical School orthopedic surgeon and member of the university committee, putting together the new Sports Medicine Program, will hold a free injury clinic at 7:30 p.m. March 4 in the Rec Center.

This clinic is for any student who has had an athletic type injury and is concerned about it or wants advice regarding proper therapy and rehabilitation. It is free to any student eligible to enter the Rec Center. For further information contact the Rec Sports office at 742-3351.

### Volleyball entry forms due

Thursday is the last day entries will be accepted for men's and women's volleyball teams. A \$15 forfeit fee is required for each team entered.

There will be a participants rule clarification meeting at 5 p.m. Monday in the SRC classroom. Teams attending this clinic will have the opportunity to sign up for practice scrimmage games, which will be held March 4. For additional information, call 742-3351.

## Running ends poor fitness

By VINCE PARSONS  
Graduate Assistant

Recently I have become painfully aware of a rather devastating fact. My physical fitness level has surreptitiously crept to a precarious new low.

Or as my female co-workers tactfully informed me, "you're fat and out of shape. You need to take up some kind of aerobic activity."

For you laymen, aerobic training does not include playing poker, popping tops off beer cans, nor lying in a semi-cationic state watching a football game. Despite my initial disdain towards their inane suggestions, I decided to do some research. A quick survey of the literature revealed three possible options: bicycling, swimming, or running. I don't own a bike and my swimming skills are in such a state of disrepair that my mere presence at the Aquatic Center sends the lifeguards into a virtual panic. Unfortunately, that still left running as a viable alternative.

While my boisterous colleagues are constantly singing hymns of praise about running, I have not remained ignorant of the insidious effects that running can have on one's life.

For example, we have one woman in our office who is utterly convinced that she has to run 10 miles a day. If she doesn't, she is irritable, sullen, cold and distant. To be perfectly fair, she often acts the same way even after she runs.

However, the point remains that running can create a dangerous psychological dependency. First one mile, then two, and before you know it you're a regular running junkie.

And just what can this unnatural obsession with ritualized pain provide in the way of benefits? Besides helping one to live longer, lose weight, drink and smoke less, lower tension levels, increase self esteem, and improve one's running, next to nothing. While my running is probably beyond help, it would be nice to walk up a flight of stairs without gasping for air.

## Coming Soon

ACTIVITY	ENTRY DATES
Men's and Women's Intramurals	
Chess	Feb. 25-26
Slow-pitch	Feb. 25-26
Volleyball	Feb. 25-26

Slow-pitch Softball	Feb. 25-26

## Playoffs on Thursday

Intramural basketball playoffs begin Thursday for four of the top 46 male teams.

The best 16 female teams will begin action Sunday as do most of the other playoff games. The week long playoffs will culminate with the all-university finals at 3 p.m. and 4:30 p.m. March 8 in the Rec Center.

Teams that finish either first or second in their league qualify for the playoffs. Initially, all teams play in their own division, either Residence Hall, Club, Greek, or Open, before entering the semi-finals against the other teams.

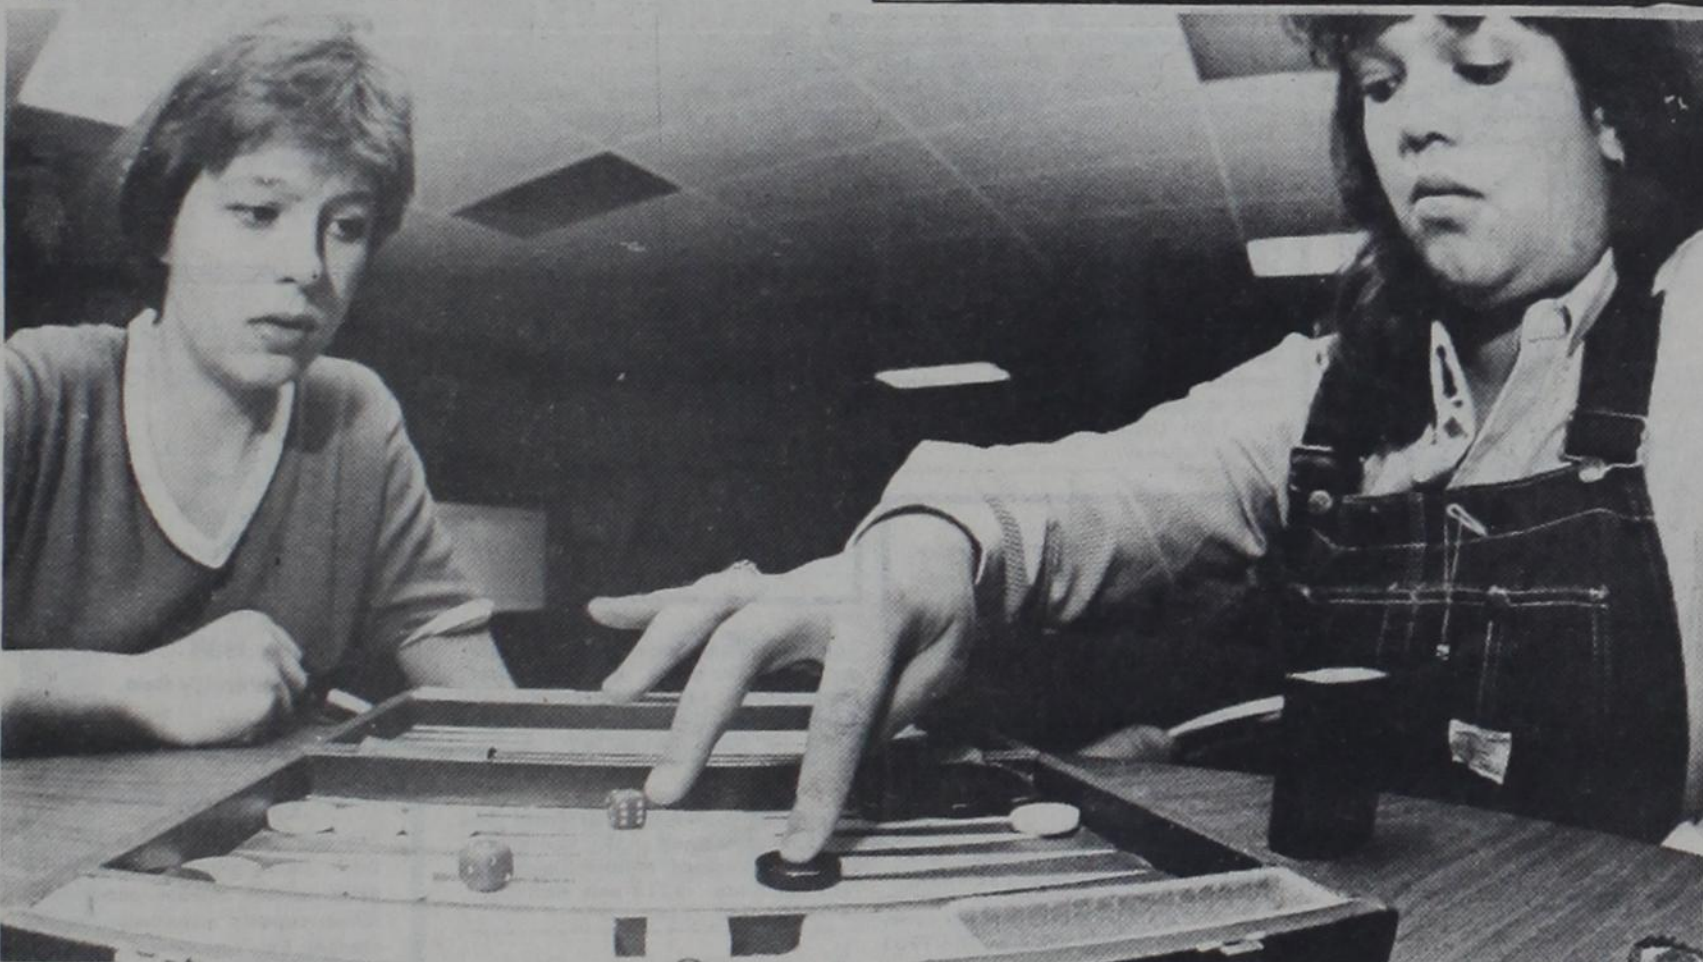

All playoff games are scheduled in the Rec Center and spectators are urged to bring proper identification for admittance.

## Meeting set for water polo

A rules clarification meeting for all men's water polo and inner tube water polo participants will be held at 5 p.m. Thursday in the SRC classroom. All teams are encouraged to have at least one representative present to secure a knowledge of the rules.
