Walesa saluted by standing ovation at joint session of Congress

By The Associated Press

WASHINGTON - Solidarity leader Lech Walesa, saluted on his historic visit to Congress with cheers, whistles and four standing ovations, told lawmakers Wednesday that U.S. aid to Poland "will not be wasted and will never be forgotten."

He asked for more investment to help pull a bankrupt Polish economy from "the verge of utter catastrophe" and said such assistance in peacetime is "better than tanks, warships and warplanes."

In an emotional speech recounting the nine-year struggle of his union to form the first non-communist government in the Soviet bloc, Walesa gave thanks to Congress and the American people for years of support and words of admiration.

"These are appreciated, but being a worker and a man of concrete work, I must tell you that the supply of words on the world market is plentiful, but the demand is falling. Let deeds follow words now," said the mustachioed 46-year-old former shipyard electrician.

Walesa's triumphant visit to the nation's capital continued Wednesday afternoon, when President Bush appeared with him at an AFL-CIO convention, hailed him as "America's special guest" and promised more aid for Poland.

"Clearly there are times when the need for progress demands that we put differences aside, and where Poland is concerned, now is such a time," Bush said.

"Today, I appeal to the unions and on the American labor movement, the business community, and govern-

ment to look for ways to support a partnership for progress in Poland for the sake of a nation and a people that need and deserve our help," he said.

Walesa, addressing a joint meeting of Congress, drew resounding applause when he said that "assistance extended to democracy and freedom in Poland and all of Eastern Europe is the best investment in the future of peace, better than tanks, warships and warplanes, an investment leading to greater security."

Walesa arrived in Washington on Monday for a fourday visit marked by numerous awards and a torrent of praise as Poland and other East European nations rapidly institute democratic and market reforms.

In more concrete action, the Senate voted Tuesday to authorize \$657 million in economic aid to Poland over three years and \$81 million for nearby Hungary, also dismantling its centrally controlled economy.

The House went further, approving an initial one-year installment of \$533 million for the two Soviet bloc

The steps to send economic aid to Poland have been accompanied by personal adulation for Walesa. He received the Presidential Medal of Freedom from President Bush on Monday, an AFL-CIO human rights award on Tuesday, and on Wednesday became the second foreign private citizen to address a joint meeting of Congress, the first since the Marquis de Lafayette in 1824.

Walesa began his remarks with the opening words of the preamble to the U.S. constitution, "We the People.

"I do not need to explain that I, an electrician from Gdansk, am also entitled to invoke them," said Walesa.

Joint parking proposal before Student Senate

Speakers want change in Mexican political system

By FRANCISCO RODRIGUEZ

The University Daily

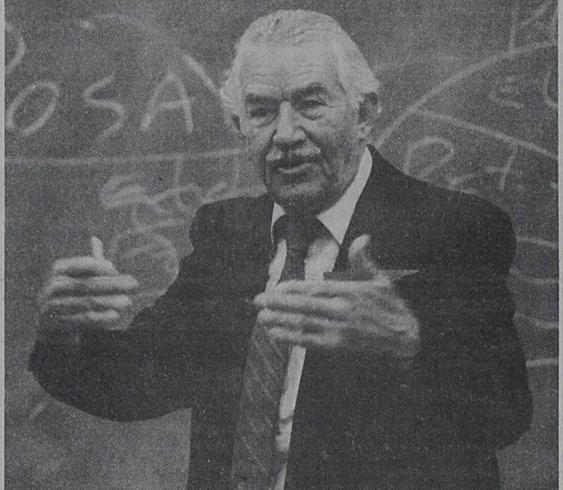

Mexico's problems will not be solved until its political system is changed, two Mexican politicians said Wednesday.

In a lecture sponsored by the Latin American Area Studies Program, Jose Posada Pompa and Alberto J. Torres, both unsuccessful candidates for the mayorship of Juarez, Mexico, with the National Action Party (PAN), said the current political system in Mexico, which is ruled by the Institutional Revolutionary Party (PRI), is a dictatorship disguised as a democracy.

"The Mexican revolution of 1910 was fought to rid the country of its dictator, Porfirio Diaz," Posada Pompa said. "About 1 million Mexicans died in the revolution, and now our government is no better than the dictatorship we overthrew."

Posada Pompa said the first political party formed in Mexico, the Partido Unico de Mexico (PUM), which translates to "Mexico's only but it was still the same party. The organizations.

"The PUM and its spin-offs were in-

Congress." Posada Pompa said the PAN tions will be fairer."

believes in the separation of church and state as well as the separation of PRI and government.

"The PRI should become a real party," Posada Pompa said. "I believe the only true party in Mexico is the PAN. Mexico's population is young, with the average age being 25 to 27 years. The average Mexican household has three or four professionals, but there are no jobs for them. The problems are many, but Mexicans have faith in Mexico."

Torres said the PAN, in its 50 years of existence, has helped prevent total control of the PRI in Mexico.

"There is no place in Mexico for another revolution," Torres said. "Our problems will be solved peacefully. An armed uprising would take us back to where we started from. The PAN has been supporting the Mexican political structure because we are patriots. For PAN supporters, Mexico comes first, PAN second."

Torres said PAN's national chairman, Luis Alvarez, has presented a letter of intent to change the electoral process system in Mexico.

"Alvarez reached a compromise "We won that state's governor race, with President Carlos Salinas de Gorand for the first time, the PRI has lost tari," Torres said. "It will take conchanges, but once it is passed, elec-

Education programs improve recidivism rate for prison inmates

Kimberly Farley Guest

In response to Erich Willenberg's Nov. 2 letter, "Take slime off the streets," where he attempts to denigrate "bleeding heart liberals," attitudes toward crime and punishment do little more than show that his own heart is made of stone. There is not one ounce of compassion evident in his letter, nor does he supply any hard facts just his own knee-jerk reactions. In particular, I refer to his statement regarding prisoner education: "I'll be damned if I want my tax dollars going to pay for crooks to earn an education when hard-working, law-abiding citizens can't even afford the expenses of college." I take this to mean that Willenberg would prefer to continue shelling out tax money for the \$30,000 or so a year that it costs to keep one prisoner incarcerated.

In 1986 and 1987, I had the opportunity to teach college courses in public policy and American government at a maximum security prison for men in Green Bay, Wis. The University of Green Bay-Wisconsin offers selected inmates the chance to attain an associate of arts degree, sending professors from various academic areas out to teach five or six different classes each semester.

In order to be admitted to the program, the inmate must have obtained a high school diploma (many had GEDs they had earned in prison) and passed admittance tests. Since inmate pay is not adequate to pay tuition, each inmate applies for a Pell Grant, which is

awarded to needy students nationwide and not just to those in prison. The grant also covers the cost of books and supplies.

When I was first informed by my department chairperson that I would be teaching there, I was not overjoyed. Like many, I looked upon prisoners as the scum of the earth and felt that they had no redeeming social value. If they had done the crime, then they deserve to do the time.

As I walked into the prison that first day, five iron doors slammed behind me - it was an extremely unnerving feeling. As a female instructor, I was required to keep the classroom door open so I could call for help if trouble broke out among my students. I walked into the classroom to face 30 men, mostly in their early 20s. Many of them looked too young to have done the type of crime which would place them in a maximum security prison. As the semester progressed, I learned that many were serving time for murder, rape, armed robbery and drug-related crimes, in particular. In time I learned to look at each man as an individual and as a student, not as a murderer or rapist.

"I learned a lot of things that summer - perhaps as much as my students did. I learned that they were human beings. They had many of the same fears and concerns as the rest of us have. I was amused to find that most of them had a rather conservative philosophy toward life and politics, an attitude certainly not in keeping with their present status! I discovered a group of the most conscientious and well-prepared students I ever had, as well as the most eager to participate in discussion. Our public policy discussions were wideranged, and I found many of them to be well-informed on current issues - much more informed than many of the students I have taught on the streets.

In order to enhance those discussions even more, I helped those who did not have a television to get one on loan from the prison so they could keep up with the news. In the second semester I taught there (this time I asked to go back), I was able to successfully lobby the UWGB Founder's Association to provide me with \$200 to get Newsweek subscriptions for my students at the prison. I never saw a group of students who were so excited about getting something to read!

I am not saying that prison should be a wonderful place. It operates for the purposes of punishment. I think that, to an inmate walking into the Green Bay prison for the first time, the sound of those five iron doors slamming behind him must be one of the most lonely and frightening sounds in the world - and it should be. But there must be some way to keep the same people from walking through those same doors again and again. In the past several years, a number of states have experimented with programs in higher education and have found the recidivism rate to be much lower among those inmates who worked to obtain college degrees while in prison. In some places, the rate was as low as 10 percent in comparison to a nationwide recidivism rate of nearly 80 percent for the general prison population.

As hard as Willenburg may find it to believe, there are those behind bars who have realized their mistakes and seek an opportunity to better themselves. Positive rehabilitation is much better and, in the long run, less costly than negative punishment. Some of the students in my classes were lifers and not likely to ever see life outside the prison walls again. And yet they still sought a chance to improve their minds. For those students who

were looking forward to their eventual release, getting a start on college by obtaining an A.A. degree provided them with a way to ease themselves back into society.

Willenburg proposes putting prisoners at hard labor while incarcerated. What good will that do them when they get out? Consider what an inmate faces on the day of his release. In Wisconsin, he is given an amount of money that the state has withheld from each of his paychecks (he might earn 25 cents an hour performing some prison job). If he is lucky, this might amount to a few hundred dollars. If he has no family or friends to support him in those early days after his release, where does he go on \$300? He tries to find a room and a job. What does he use for references? How does he explain a gap of four years since his last job? How long does \$300 last in today's society?

In conclusion, I wish to say that I consider myself to be liberal, although not of the bleeding heart variety. I do not feel particularly sorry for prisoners; in part, their own weaknesses have put them behind bars. In teaching them, I learned that showing sympathy for their plight would have been construed as a weakness on my part, thereby lessening my authority. I had an easy relationship with my students and I liked most of them as individuals, but I also knew where to draw the line. Additionally, I am a proponent of the death penalty - I believe there are some who are beyond rehabilitation. But I also believe there are many who can be helped and that taxpayers are throwing good money after bad when we continue to simply incarcerate and not rehabilitate. Maybe someday Mr. Willenburg will be able to open his mind and figure that out for himself.

Farley is a visiting assistant professor of political science.

Letters

Right to life inviolable

To the editor:

and sympathizers of Amnesty Inter- motivations behind its application. national, an independent movement which fights for the defense of fundamental human rights throughout the world, without regard to the sex, race, language, religion or political opinions of the individuals involved.

We are appealing to your school, asking you to publish this letter, because we think your colleges and universities are the institutions most themselves participants in our fight.

We would especially like to address ourselves to the American public regarding a problem which is of particular concern to us and upon which we have been concentrating our efforts within this last year: the use of the death penalty as a means of social defense in countries which include the its democratic allies have abolished At least two mentally ill prisoners

it. We are working for abolition of the death penalty because we believe the right to life is inviolable and inalienable and also because we do not We are writing to you as members share with those govenments the

First of all, it has never been proven — and indeed, results of studies indicate the contrary — that the death penalty is the most effective deterrent in the prevention of crime. In addition, the death penalty in the United States runs the risk of being used in an arbitrary and racially discriminatory manner since it is aplikely to understand the significance plied primarily to murderers of white of our efforts and thereby become victims and to black offenders who, in the majority of cases, receive inadequate legal defense. Moreover, we are horrified that, despite international standards setting a minimum age of 18, the death penalty in the United States is applied even to minors and to the mentally retarded.

Indeed, in the state of Texas the minimum age for the imposition of United States. Indeed, your country the death penalty is 17, and two shares with such nations as the Soviet juveniles have been executed since Union, China, Iraq, Iran and South 1985, making the United States one of Africa the retention of the death only six countries known to have expenalty, while the great majority of ecuted a juvenile in the last decade.

have been executed in Texas since 1976, and an unknown number of others are awaiting execution. We To the editor: also consider inhuman the psychological torture which results from waiting, often for years, for one's own execution.

But perhaps the most compelling reason for opposing the death penalty is that it can be, and indeed has been, mistakenly inflicted upon the innocent. A recent American study has concluded that, since 1900, 25 innocent people have been erroneously executed in the United States and an additional 19 people came within 72 hours of being executed when their innocence was discovered. The wellknown story of Randall Dale Adams is a case in point.

We feel it to be our duty to communicate our convictions and concerns to you, and though respecting your right to a different opinion, we are hopeful that you will lend our cause your moral support and participate actively in abolishing the death penalty in your state and in

Publication of announcements is subject to the judgment of the Student Association staff and the availability of space. Anyone who wants to place an announcement should come to the UD newsroom on the second floor of the journalism building and fill out a separate form for each Tuesday and Thursday the notice is to appear. ALL QUESTIONS SHOULD BE DIRECTED TO THE STUDENT ASSOCIATION OFFICE AT 742-3631.

IEEE will conduct a meeting with guest speaker Doug Atkins at 7 p.m. tonight in the Lankford Lab of the electrical engineering building annex. For more information call Steve Baker at 748-1411.

MECHANICAL ENGINEERING The department of mechanical engineering will sponsor a seminar "Design for Whom/ How do mechanical engineers do it/" at 3:30 p.m. today in room 132 mechanical engineering building. For more information call Dr. Aik-Siong Koh at 742-3563.

The Pre-Law Society will conduct a meeting with guest speakers from SMU and South Texas Law Schools at 7 p.m. Tuesday in room 105 Law School. For more information call Keith Anderson at 799-1991.

CAMPUS CRUSADE FOR CHRIST

The Campus Crusade for Christ will conduct a meeting at 7 p.m. tonight in room 214 agriculture building. For more information call Gwen Thomas at 742-6424.

PALS

The support group for students 25 and older will sponsor a brown bag luncheon beginning at 11 a.m. Tuesday upstairs in the UC. For more information call Carol Call at 793-9954.

Lambda Sigma will conduct a meeting at 9 p.m. Sunday in the UC Blue Room. For more information call Danny Canchola at 793-6456.

HANS

Hands Across Nations will host an international coffee hour at 4 p.m. Friday in the El Centro Room home economics building. For more information call Manisha Mahendra at 742-3667.

STUDENT COUNCIL FOR EXCEPTIONAL STUDENTS

The Student Council for Exceptional Students will conduct a meeting with guest speaker Donna Reavis at 3 p.m. Monday in room 353 administration building. For more information call Dena Bedrick at 796-2415.

The Navigators will sponsor a rally at 7 p.m. tonight in the UC Blue Room. For more information call Wanjin Lim at 797-4673.

Cardinal Key will conduct a meeting at 6 p.m. tonight in room 103 industrial engineering building. For more information call Caren McNelly at 792-1334.

AGRONOMY CLUB The Agronomy Club will conduct a meeting at 7 p.m. tonight in room 109 plant science building. For more information call Norma Ritz at 794-3507.

Collegiate 4-H will conduct a meeting at 7:30 p.m. tonight in room 101 meats lab. For more information call Nor-

OMICRON DELTA KAPPA Omicron Delta Kappa will conduct a new members meeting at 5:15 p.m. tonight in room 109 Holden Hall. For more information call Gary Bannister at 795-5959.

OMICRON DELTA EPISILON Omicron Delta Episilon will conduct a meetir more information call David Mirmelli at 765-9473.

TSEA will sponsor a workshop on interview skills and mock interviews at 6:30 p.m. in room 237 education building. For more information call Jill Nesbitt at 742-6295.

TSEA will sponsor their District I Convention from 8:30 p.m. to 3:30 p.m. Saturday at Lubbock Christian University. For more information call Jill Nesbitt at 742-6295.

TSEA will sponsor a bake sale from 10 a.m. to 2 p.m. Friday in the education building courtyard. For more information call Jill Nesbitt at 742-6295.

TEXAS TECH TOASTMASTERS The Texas Tech Toastmasters will conduct a meeting at 7:30 p.m. tonight in room 256 business administration building. For more information call George Medford at 762-2555.

The Latin American Student Association will sponsor an international coffee hour at 4 p.m. Friday in the El Centro Room home economics building. For more information call Eduardo Carbonel at 747-1103.

GAY AND LESBIAN STUDENT ASSOCIATION The Gay and Lesbian Student Association will conduct a meeting at 3:30 p.m. today in room 209 UC. For more information call F. Anderson at 765-5866.

STUDENT ASSOCIATION

Anyone interested in filling a position on the Student Senate in the College of Engineering may pick up an application between today and December 4 in room 230 UC. For more information call Kendra McKenzie at 742-3631.

"Thank God for Women" will be this week's theme for Friday Nite, with special guests Andra Jackson (Tech Homecoming Queen), hot music videos, comic relief, free refreshments and the first annual Manly Feud Match beginning at 8 p.m. Friday at 2420 19th Street on the corner of 19th and Avenue Y. For more information call Peter

SPORTS CAR CLUB The Sports Car Club will conduct an organizational meeting at 8 p.m. tonight in room 207 UC, For more information call Bill Capshaw at 794-7718.

Boy says police made him confess killing

24-year-old teacher stabbed 17 times outside Fort Worth elementary classroom

By The Associated Press

FORT WORTH — A 12-year-old boy charged with murdering an elementary school teacher testified Wednesday that a police investigator pressured him to say he committed the slaying.

The seventh-grader testified outside the jury's presence during his trial in the Aug. 28 stabbing death of 24-year-old Jana Simpson. Her body was found outside her Glen Park Elementary School classroom. She had been stabbed 17 times.

After the boy's testimony, State District Judge Scott Moore ruled that his statements to police, "I killed the teacher. I killed the teacher," were admissible. Police say the boy made the statement shortly after his arrest.

The judge had ruled before the trial that most other statements the

boy made to police could not be admitted because they were improperly obtained.

The boy's attorney Earl "Ernie" Bates had asked Moore to suppress all the boy's statements to police about Simpson's killing, including the "I killed the teacher" remark.

The boy testified that on Sept. 6 police picked him up at school without his parents' knowledge and questioned him for about two hours about the killing.

He said Detective J.D. Roberts told him witnesses saw the boy near the school before Simpson was found and that if police discovered his fingerprints near the portable classrooms he would be "in trouble."

"He told me that if I didn't go and tell the truth and they found out that I had done anything that I would never see my parents again," the boy testified.

The boy said he thought Roberts "was trying to put it on me, trying to accuse me of the killing ... He just started going over it again and again." He said Roberts forced him to look at photos of Simpson's body

"all cut up." "He put it close to my face," the boy said. He said he told Roberts three times that he didn't kill Simpson. "He told me that if I would go on and tell the truth that he would get me out of this and I could go home."

"I just made up something to get them off my back," and then retracted the statement when brought before a judge, the boy testified.

Roberts said during trial testimony that he didn't coerce the boy to confess and that police at first considered him only a possible witness to the stabbing.

"I asked him if he witnessed

anything in the area of the portable buildings ... if he had seen anyone or possibly witnessed the homicide," Roberts testified. "He said, 'I didn't kill the teacher.""

"He had not been asked if he had killed her or not killed her ... I have no idea why he responded that way," Roberts said.

The officer said he asked the boy a third time if he had seen anything related to the stabbing.

"He jumped up, crying, and he said, 'I killed the teacher. I killed the teacher," Roberts testified.

Tarrant County Medical Examiner Marc Krouse testified that Simpson bled to death within minutes of the attack. He said a 41/2-inch deep wound to the back of her neck had severed her spinal cord and penetrated her nasal cavity.

Danson performs well in 'Dad'

By LYNN GAUSE The University Daily

Comedy, love, family bonding and tears are the ingredients that make up the recently released movie, "Dad."

"Dad," released by Universal Pictures, is many things, but not boring. "Dad" is heartfelt and touching, bringing a family to the terms of reality concerning life and death.

Jack Lemmon plays Jake Tremont, the dad, a man in his late 70s who doesn't take care of himself, his wife does. When his wife, played by Olympia Dukakais, falls ill, their son John comes home to help him.

Ted Danson, everyone's favorite studly bartender on the television series "Cheers," plays the role of John. This is one of the first conservative roles Danson has played, and he plays it well. This is quite an unexnonetheless pleasing.

easily compared to "Terms of Endearment." "Dad" stresses the like to spend together. In essence, point of a father and son becoming they are finding out about each other

expectations. John wants his dad to really become close.

"Dad" is a good movie and involves role as Betty Tremont. the family. Family is the most important thing about this film. John has a

pected role for Danson, but son and rarely spends time with him. When his son does come around, the The plot is rather simple and can be two begin talking about their lives and how much more time they would

friends and living up to each other's just as John finds out about his father. Both Lemmon and Danson play do things for himself so he is not total- spectacular roles. This probably is ly dependent on his wife. There are the role of Lemmon's career and several cute scenes where the two maybe the highlight of Danson's. Dukakis plays a wonderful supporting

> The confusion between senility and old age is hard for John to differentiate. The scene after his father is diagnosed as having cancer probably is the most climactic.

"Dad" is not your typical fatherand-son movie where the son has to take care of his father, they become close and then something tragic happens.

"Dad" is directed by Gary Goldberg. Goldberg was the director of "Cocoon" and the creator of several television series, including "Family Ties." Goldberg has come under some criticism about "Dad" claiming that he wanted a little too much out of the movie and that he did not give the film enough space to develop and grow.

"Dad" is an excellent and rare film. It is playing at the Winchester

Comedy networks invade TV

By The Associated Press

NEW YORK - At 5 p.m. CST please." Wednesday, viewers in about four million of the nation's 51 million 24-hour The Comedy Channel.

It's the latest chapter in the video specialization in cable that has led to mostly sports ESPN, all-news CNN and let-us-rock MTV, said Dick Kostrya, executive vice president of Beahrs, president of TCC, which is owned by Home Box Office.

Wednesday night with "The Sweet Life," starring Rachel Sweet, said "comedy is the last bastion of network programming strength that hasn't been adequately exploited by cable."

He isn't alone in thinking that. On April Fool's Day, his network will get a 24-hour rival, "HAH! The Comedy Network," owned by Viacom's MTV Networks. Each newcomer will be on basic cable; viewers won't have to pay extra for either.

already have heard these two Manhattan-based rivals saying, "Take my comedy channel ...

The situation may be, as the song goes, "something for everyone, a homes with cable TV got the chance comedy tonight." But there is doubt to see ho-ho history — the start of the whether the tune can be sung in stereo, whether there is room in cable for two chuckles channels.

"We're skeptical about it in the current economy," said Richard J. the J. Walter Thompson advertising agency. "Unless the economy Beahrs, whose network started life changes, it's going to be tough for two to survive."

> The two channels differ markedly in format. TCC will have clips from comedy movies and sitcoms, comedy shorts and feature-length films and seven hosts doing their own thing, including Sweet, a former punk-rock singer whose thing on the Comedy Channel is described as her daily "video diary."

With the best-known of the hosts being "Saturday Night Live" graduate Advertisers and cable operators and "Sniglets" author Rich Hall.

Bolshoi dancers perform in Lubbock

By CRISSIE McMENNAMY and JEFF PARKER The University Daily

The "Superstars of the Bolshoi and two ballet companies in the world, "Russian Dance." graced the Lubbock Municipal Auditorium stage in front of an enthusiastic audience Tuesday night.

The crowd, though not capacity, seemingly was capivated by the performances of former Bolshoi ner Vladimir Vasiliev.

they were each 18 years old and have form. danced in many unforgettable Later in the program, Vasiliev acperformances.

talking about himself at home.

"You get a stage persona that's

bigger than life. You can't live with

anything that big. I could never br-

ing Alice Cooper offstage," said the

man who emerged as the leader of

shock rock two decades ago. Mar-

ried 13 years, he has a daughter, 8,

and a son, 4. They live in Scottsdale,

"Alice Cooper doesn't belong in

the real world. He belongs in that

surrealistic world of the rock 'n' roll

stage. This creature I created, if

you plug him into the street, he is

either going to be dead, insane or in

jail. He is too chaotic for normal

"I enjoy playing him. I go to

baseball games. I sign autographs.

They never see Alice. They only see

me. Alice Cooper always has

makeup. He is intense. I only allow

It hasn't always been this way.

"When I was drinking so heavily,

that's when I couldn't separate

Cooper emphasized, "My

previous two albums (on MCA

Records) have been my bloodiest,

but Alice has never been into the

satanic thing. I like to make that

very clear. There are bands that

are into that. I believe it is very

"Alice has been into the pure hor-

ror level of the roller coaster ride. I

think it has always been with a

sense of humor. If it's possible, I do

"My new album is Alice's look at

sex in the '90s. I took Alice through

the nightmare. Now I'm taking

him to be on stage."

them."

dangerous.

splatter with taste.

Alice through this sexual thing. 'Poison' is a song that's very sexy but I think doesn't say anything objectionable. It's surrealistic, Alice Cooper has legally been the mysterious." singer's name since 1971. But when he speaks of Alice Cooper, he's not

The album, "Trash," Cooper's first for Epic Records, was No. 21 in mid-October on Cashbox magazine's best-selling chart. The single "Poison" was No. 23 and climbing on Oct. 28. "I'm totally happy with the

Cooper keeps stage character

away from mainstream world

album," Cooper said. "We ran a risk when we called it 'Trash.' I wanted to call it 'The Glorious Diamond Album of Alice Cooper.' But the street way to say something is great is to say it's trash. I see a great car or a jacket in a store window, I say, 'That's trash."

When he started, Cooper recalled, critics said it was a dramatic show but the band couldn't play. "We had 10 Top 10 singles. Obviously, people liked the music. They said we'd last about three days. That was 1969."

Cooper has had a boa constrictor on stage - for a few minutes per show - since 1971. "I have a guy in Los Angeles who takes care of them. They're about as gentle as puppies. They just look ferocious. When you pick them up, they like to be held securely. If you're kind of timid, they'll wrap around your arm to hold on.

"The idea behind it was to take a boa constrictor on stage and get a reaction. Most people have got some sort of abhorrence to snakes. The idea is that Alice has a pet one.

"Somebody once had a boa constrictor backstage and let me see it. I reacted like everybody else. I thought, 'If I react like that to a 2-foot-long snake, what if I took one on stage 10 feet long? I can scare the entire audience.'

"I never bit the head off a chicken," he said, referring to

another stunt often attributed to him. He said he would open two feather pillows and that a wind machine would scatter the feathers.

"Once, somebody threw a chicken on stage in Detroit. I figured I'd throw it back and it'd fly away. The audience tore it to pieces. The next day, I read, 'Alice bites the head off a chicken and drinks blood.'

"Frank Zappa called. I was on his label then. 'What did you do?' 'I didn't do anything.' 'Keep doing it. We got national press on this thing."

Desmond Child produced "Trash" and co-wrote most of the songs. "I listened to what he had done with Joan Jett, Aerosmith and Bon Jovi," Cooper said. "He has a running kind of hook. I absolutely need this in my music.

"He has something I don't have. I admit it. There are a lot of big choruses on the album, kind of reminiscent of Bon Jovi. That's a radio formula also. Anything on the radio has a big chorus."

Cooper has done two world tours since 1986; he took four years off before that. "It's been seven years since I stopped drinking. I was throwing up blood in the morning from gastritis.

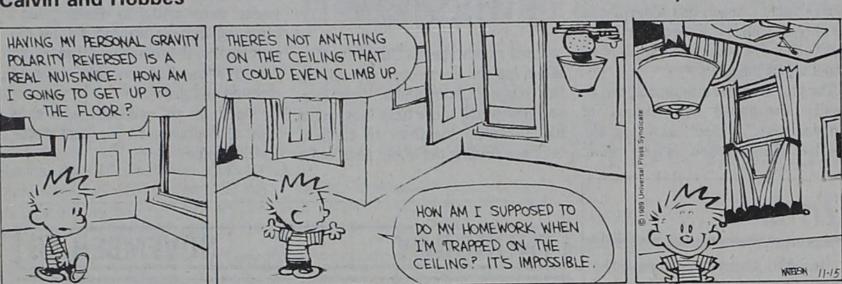

"It took about three years to get used to not drinking and get back in shape to tour. I'm 41 and better physically than I was at 26.

"When I came back, it was important for Alice to re-establish the fact that he was still Alice Cooper. For me, it was difficult. I drank so much during my career; my formula was always the makeup and alcohol. When I had to go back out with part of the formula not there, I didn't know how I was going to be able to play Alice.

"I ended up finding out that Alice was easier to play without alcohol."

By WAYNE BARRINGER The University Daily

If anyone had told Southwest Conference fans and media that SMU would score more than 100 points and win two games this season, he probably would have been sent to Jack Nicholson's old room in One Flew Over the Cuckoo's Nest.

If the same person had said the same thing to Mike Romo, the Mustang quarterback would have agreed.

Romo, one of the team's 73 freshmen, has led a charge on offense that virtually no one would have expected before the season.

Except Romo.

Nine games and 139 points later, Romo has his Ponies sitting with a 2-7 record and a passing game that cannot be ignored.

"We felt all along that we would be able to move the ball," Romo said.

Coach Forrest Gregg installed the run-and-shoot offense to help his team Mike Romo stay moving in hopes of keeping hungry defenses honest. The plan has don't think the passing game has been worked, but not as well as Romo said as effective, because teams can key years ago. it could have.

which Romo said actually has hurt his year of college football. He is second would," he said.

both the run and pass," he said. "I That total, with two games remain-feeling.

ing, is good for fourth on the SMU alltime list for a season and eighth on the career list.

He already owns the team record for passing yards in a game with 450 against North Texas. Ware is the only player in SWC history to pass for more yards in one game.

"The records make me feel good, but they are secondary," Romo said. "I would give up every record to be in a bowl game.

"I think that maybe later on in life, they (the records) will be good to remember. But now, I'm more concerned with winning football games."

Before SMU, Romo was on his way to being a blue chip quarterback in his junior year at San Antonio Roosevelt. But he tore a ligament in his knee his senior season, and conference scouts quit calling him.

"I was ready to give up football," he said. "I had already sent in my dorm deposit at (the University of) Texas when coach Gregg called."

In light of his successful recovery, Romo said he carries no bitterness toward scouts who ignored him two

"I think it will take some time (for The SMU running game has been In any case, Romo is having a SMU to recover), but definitely not 10 virtually non-existent this season, record-setting season in just his first years like some people thought it

If this season is any indication, in the conference in passing yardage "The run-and-shoot is designed for (2,225) behind Houston's Andre Ware. Romo may again have the right

Houston game, we will keep practicing,

because we will go somewhere.

By CAMERON MAUN The University Daily

The Texas Tech volleyball team will conclude its regular season with sole possession of second place in the Southwest Conference and a possible bid to a postseason tournament at stake.

Coach Mike Jones' Red Raiders will journey to Hofheinz Pavilion to tangle with Houston at 7:30 p.m. today in a match that will be televised by Home Sports Entertainment (pay cable channel 46). Tech (18-10, 7-2) can secure an undisputed second-place finish with a victory

keep practicing, because we will go somewhere."

The Raiders will have to contend with Houston's Latisha Charles, who has posted an impressive .340 hitting percentage during conference play from the middle blocker position.

The Cougars also have received

from setters Sheila Solomon and Rochelle Kaaiai.

-Mike Jones

Solomon compiled 98 assists and 42 digs in last week's two matches against Texas A&M and Southwest Texas, while Kaaiai chipped in with a career-high 31 digs against the Aggies.

over the Cougars (21-8, 6-3). The Raiders defeated Houston in the two teams' earlier meeting this season 15-9, 15-11, 15-12, but Jones said he does not expect an easy match the second time around. "Houston has three or four players who are phenomenal athletes," Jones said at a Monday press conference. "They weren't too happy about what happened last time, but this time it's at their

place. They'll be tough to beat. "They're capable of beating you out of the gym on most any night."

If the Raiders do manage to beat the Cougars, it will enhance their postseason chances. Both the NCAA

Royal pitcher runs away with AL Cy Young

NEW YORK (AP) - Bret Saberhagen of the Kansas City Royals won his second Cy Young Award in four years Wednesday, beating Oakland's Dave Stewart with Saberhagen, a 25-year-old right-

hander who went 23-6, garnered 27 of

28 first-place votes from a panel of the

Baseball Writers Association of America and one second for 138 points. Saberhagen joins the National League winner Mark Davis of the San

Diego Padres. Stewart, the Most Valuable Player of the World Series, got the other firstplace vote, 24 seconds and three

thirds for 80 points. Saberhagen, who won the Cy Young in 1985, led the majors in victories, earned-run average (2.16), winning percentage (.793), complete games (12) and innings (262 1-3). He threw four shutouts, three three-hitters and two four-hitters.

Minnesota prep star signs with Raiders

LUBBOCK (AP) — A 6-foot, 9-inch high school player from Minnesota has signed a letter of intent to play basketball for Texas Tech, coach Gerald Myers announced Wednesday.

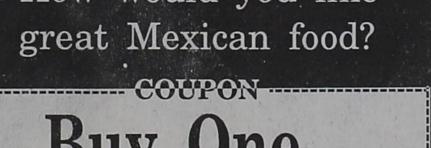

Jeremy Lane of Irondale High

School in Minneapolis is the second

player to sign with the Red Raiders. Mike Brewer, a forward from Clovis, N.M., signed previously in the NCAA's early signing period. "Jeremy is a big, strong inside player, and he is the type player we

felt like we needed to be able to sign

this year," Myers said.

Arkansas is the overwhelming "We want to be more aggressive on preseason Southwest Conference favorite, followed by Houston and Texas. The Raiders do not figure into the media's preseason playoff plans.

Raider women loaded for '89-90 campaign

By JEFF PARKER The University Daily

Coach Marsha Sharp's Texas Tech women's basketball team will have to deal with a familiar face when it battles perennial power Texas for this year's Southwest Conference crown.

After last year's 16-13 overall and 9-7 SWC season, Sharp has many reasons to be looking forward to the upcoming year.

"We're going to be more confident this season," she said. "Our depth is good, and I'm optimistic. It will be a challenge to play well and produce."

One of the biggest reasons the Raiders are picked to finish in one of the top two spots in the SWC is the return of all five starters and the rehabilitation of a sixth.

The three front-line starters, post Jennifer Buck (6-feet, 3-inches, sophomore), forward Reena Lynch (5-11, senior) and post Stacy Seibert (6-3, senior) give Sharp a trio that can match up with any in the SWC.

"We're going to use our strong in-

here." last year was the dropoff of the play of Lynch, who suffered through a (6-1, sophomore) and posts Hazel

return of Alexis Ware (5-8, junior). Ware injured her knee early in the year but is ready to resume her role as Tech's starting point guard.

"Ware's knee is probably stronger now than it was before the injury," Sharp said. "She's probably spent more time on the weights and on the court than anyone else."

Sharp's bench is nothing less than top-notch, and talk of a 13-woman rotation is not out of the question.

Guards Kelly Schilling (5-10, side game," Sharp said. "Siebert, senior), Kristin von Netzer (5-10, Lynch and Buck are among the sophomore) and Krista Kirkland three best that have ever been (5-10, freshman) give the Raiders

quality outside shooters. One of the few disappointments of Forwards Tiffany Hobbs (6-0, sophomore) and Teresa McMillan tough season in comparison to an Tull (6-1, sophomore) and Margo outstanding sophomore campaign. Graham (6-2 freshman) can step in However, Sharp feels that and do the job without a large
