Federal Action Due On 'Filly Mignon'

By The Associated Press
Thousands of pounds of horse meat sold to Texans as choice beef steaks have federal authorities threatening serious action against the horse butchers who palmed off the "filly mignons."

More than 11,000 pounds of camouflaged horse meat have been seized this week in Dallas, Fort Worth and Houston. Investigators say there are indications that several times that much was shipped to Texas since November.

Some restaurant owners paid as high as \$1.50 a pound for the "choice tenderloins."

Dr. Edward Himself, federal meat inspector for the Department of Agriculture in Kansas City, said last night that the meat, shipped from Chicago to Dallas via Kansas City, was not federally inspected.

Yesterday, U. S. Dist. Atty. Frank B. Potter of Dallas ordered a sweeping investigation of horse meat sales in his 11-county North Texas district "to clear up this scandal."

Potter said the violation for shipping meat which had not been fed-

New Television Wire Announced

FORT MONMOUTH, N. J., March 9. (AP) — The Army Signal Corps has announced development of a single-strand wire that can carry a hundred different television transmissions instead of the one image now carried by coaxial cable.

The new wire could bring about major changes in the present television setup, the signal corps said, criss-crossing the country and carrying television far beyond its present limit of major urban areas.

The inventor of the wire is a 43-year-old German refugee, Dr. Georg Goubal. Naturally, the Army men nicknamed the wire the "G-String," after its inventor.

The engineers said the "G-string" also could make possible a videophone system, whereby telephone users could see as well as hear whom they are talking to.

Cancer Victim Is Shot To Death By Brother

ALLENTOWN, Pa., March 9. (AP) — "He asked me to shoot him. I pondered it. He often had asked me to do the same thing. I finally decided to do it."

With those words, Harold Mohr, 36, of nearby Coplay, was quoted by Dist. Atty. Kenneth H. Koch as saying he shot and killed his 35-year-old brother, Walter, last night because "he was incurably ill of cancer and was blind."

Harold Mohr was charged with murder after making his verbal statement to Koch and a third brother, Coplay Police Chief Ralph Mohr.

Dr. George S. Boyer, county coroner, said Walter was killed instantly by a .30 calibre rifle bullet fired into his back. Walter had been receiving treatment for cancer from a Coplay physician for the last six years, Dr. Boyer said.

Parachute Jumps At 60,000-Foot Altitudes Planned

EL CENTRO, Calif., March 9. (AP) Parachute jumps at altitudes up to 60,000 feet just under the height where blood boils in your veins—will be attempted this summer at White Sands, N. M., proving grounds.

The leaps will be made from F-40 jets by Navy and Air Force aviators, says Lt. Com. J. A. Morrison, Morrison's parachute experimental unit demonstrated new types of chute-releasing equipment at low altitudes here yesterday.

Morrison said fliers could survive above 60,000 feet only in pressurized, insulated capsules such as those recently developed by the Navy. These cockpit capsules can be ejected from the plane in emergencies and are lowered to earth by large parachutes.

RUGS IMPORTANT IN LADY'S LIFE

History Researcher Does Bulk Of Work Lying On Her Stomac

NEW YORK, March 9 (AP)—Maxine Allen Schoyer has already worn out one rug.

Attractive Mrs. Schoyer is unusual. She's the only known history researcher who does most of her work lying on her stomach.

"I went shopping for a new rug recently," she said, "and the saleswoman was considerably upset when I told her I wanted a comfortable rug to lie on."

Discovering anniversary dates started out as a hobby with her. Always a bear for history, as a former newspaper reporter, advertising copy writer, radio commentator and publicist she understands the importance of keeping track of the dates of past events.

The hobby is threatening to become a profitable business. Mrs. Schoyer and her husband, William, now publish an annual digest of important anniversaries. Orders come from newspapers, radio stations, ad agencies, publicity firms, librarians, free lance writers, publishing firms, music publishers and from people who like to read about anniversaries the way other like to read almanacs.

Maxine does the anniversary hunting, with occasional spare-time assists from her three teen-age sons and husband who edits the volume.

There's nothing that gives Mrs. Schoyer more pleasure than getting on the trail of a new anniversary. Anniversary fanciers consider a first-rate anniversary to be a first, fifth, tenth, 25th, 50th, 100th, 500th or 1000th.

She claims she lives constantly in the past — finding anniversaries—or in the future — compiling next year's edition. Never the present.

"I have just about forgotten the anniversaries in this year's edition," she confesses. "But there was one that was fun hunting down. It's the 125th anniversary of an experiment disproving the old superstition that toads will live for ages in solid rock."

"Some people say their life is an open book. Mine is spent pouring over an open book. Right now I've about 2,000 anniversary possibilities for next year."

Mrs. Schoyer is a native of Columbia, Mo. and showed an unusual interest in books at a tender age. "When I was two I had a book

that I took to bed with me the way most children take their dolls to bed," she said. "I think it was Ruskin's 'Sesame and the Lilies.' Of course, I couldn't read."

The Schoyers do much of their research at home in Pittsburgh. They have a huge collection of old books, almanacs and magazines. The American books alone total more than 2,000. Anniversary hunting consists of reading just about everything you can get your hands on, particularly if it's old. On vacations, the five Schoyers spend an appalling amount of time crawling around dusty attics and cellars looking for material.

The three boys take great joy in finding anniversaries, and have a knowledge of history and odd facts which is almost frightening. The whole family can scarcely stand to listen to quiz shows.

"I was on one once in Pittsburgh," Maxine said sadly, "and instead of asking me straight questions, they gave me trick ones like 'What month do women talk least?' After I got around to saying 'February' they paid off in 12 silver dollars — which I had to split four ways with the kids."

SHOVEL and HOE

If you want to plant by the moon sign, determine your horoscope or know your birthstone, consult an almanac. This little gem of literature might prove interesting in many ways. The last time we looked at one we found that we had forgotten that there are special flowers for each month, so, having refreshed our own memory, we pass along to you the Flower of the Month—the Violet. (Some almanacs say it is the Jonquil.)

THE VIOLET

We assume that the almanac means the hardy Sweet Violet that blooms in winter and early spring, sometimes throughout the year. That would be *Viola odorata*.

This type has been improved through the years and is offered in double and single varieties. One of the largest and prettiest of the singles is called "White Wonder", and there are several good varieties of the double Russian Violet. The English Violets are deep rich purple and grow about eight-inches high. They are very fragrant.

Viola means Violet, but there is a form that is commonly called "Viola." This is the *Viola Cornuta* or Hardy Pansy. The Pansy (*Viola tricolor hortensis*) and the Johnny-jump-up are members of this family also. This sounds confusing, but when you see each kind it is not so complicated.

The Sweet Violets enjoy shade and moisture. Give Pansies and "Violets" more sunshine. They do not like hot, dry situations. Pansies hardly survive a long, dry summer. They're best treated as annuals or bi-annuals. Most of the "Violets" are classed as hardy perennials.

New varieties of "Violets" are Yellow Vixen, and Purple Heart. Can be transplanted in bud and bloom as all other types mentioned.

MAKE WAY FOR CHRYSANTHEMUMS

Early planting of Chrysanthemums is very desirable, however, they can be held over until late spring, if necessary. It is a good idea to be ready for the plants before you get them. Rooted cuttings are supposed to produce better plants than divisions, but, frankly, we find little if any difference between them.

A slightly acid soil is well suited for Chrysanthemums. This kind of soil can be made by working in humus, leafmold or peatmoss. This also provides a fibrous texture that is highly desirable.

Chrysanthemums should not be allowed to dry out during summer. Some of the garden types can stand quite a bit of neglect, if the soil is good. But why punish them? Space plants from eighteen to twenty four inches apart in mass planting. Recommended newer varieties are "Fortune", "Life", and "Ashes of Roses."

Four Children Burn In Beds

NEWARK, Del., March 9. (AP)—Four children were burned to death in their beds Tuesday night as flames destroyed a small frame house that a short time earlier had been the scene of a gay birthday party.

The Negro children, ranging in age from one to four, had been put to bed by their mother, Mrs. Sarah Coursey, 25, following the party for their eight-year-old brother, Henry, at the home of their grandmother, Mrs. Sarah Johnson.

Henry and another brother, David, 4, were outside playing when the fire started.

The four children burned to death were identified as Bernard, 1; Robert, 2; Warren, 3, and Marie, 4. Firemen said the blaze apparently was touched off by an exploding oil stove and that a ladder provided the only means of reaching the children's second floor sleeping quarters.

Johnson Critic Is Transfer Victim

WASHINGTON, March 9. (U)—Disclosure that a navy critic of Secretary of Defense Johnson is being transferred out of his high medical post raised some blood pressures in Congress Wednesday.

The officer involved is Rear Adm. Joel T. Boone, who has called Johnson's economy cutback of military hospitals a "shortsighted" policy.

He has been the senior medical officer in Johnson's office, and during his career has served as White House physician to Presidents Harding, Coolidge and Hoover, besides winning the Congressional Medal of Honor in World War I.

Congressional ire was centered in a House armed services subcommittee which has been hearing repeated testimony that without consulting Army, Navy and Air Force medical authorities, Johnson ordered several military hospitals closed in an attempt to save from \$25 million to \$3 million. Boone was a witness yesterday.

Military headquarters at the Pentagon confirmed that nine days ago, Boone was told he was being removed from his post as chief of the joint plans and acting division of the defense department's office of medical services. The department supplied no reasons.

Boone had been in disagreement during the last month with the proposed cutbacks planned by Johnson and Dr. Richard Melling, director of the Defense Department's military medical services.

What happens now to the outspoken naval officer, a Defense Department representative said, "is up to the Navy."

Dec. 1, Admiral Forrest Sherman, chief of naval operations, made Boone available to Johnson's office.

It was Sherman who succeeded Adm. Louis Denfeld as the top naval officer, following what has become known as the "admiral's revolt" against Defense Department policies.

Just last week, the full House Armed Services Committee labeled the removal of Denfeld as a reprisal for "his frank and honest testimony" on Navy dissatisfaction.

YOKOHAMA, March 9. (U)—A U. S. Eight Army military commission Wednesday sentenced 11 of 12 Chinese and Japanese to prison and fined them \$40,000 for implication in an attempt to smuggle contraband plastics, textiles and medicine into Japan.

Smugglers Sentenced

YOKOHAMA, March 9. (U)—A U. S. Eight Army military commission Wednesday sentenced 11 of 12 Chinese and Japanese to prison and fined them \$40,000 for implication in an attempt to smuggle contraband plastics, textiles and medicine into Japan.

Austrian Demands

VIENNA, Austria, March 9. (U)—Austria has asked the four occupying powers to reduce their forces here, pay their own occupation costs and give up most of their rights in this country, Foreign Minister Karl Gruber told parliament Wednesday.

Arthur MacArthur Never Has Seen Own Country

By TOM LAMBERT
TOKYO, March 9. — Arthur MacArthur is an American boy who never has seen his own country.

The 12-year-old son of Gen. Douglas MacArthur was born in the Philippines. During the dark war days of 1942 he escaped from the Japanese invaders with his famous father and mother and went to Australia. Japan has been home during the postwar years. He observed his 12th birthday here Feb. 21.

Being the only son of the Allied Occupation commander has its advantages—and disadvantages—for this slender boy with the quiet smile. The pros and cons make a popular subject for discussion among mothers in the occupation group, especially those who have children about Arthur's age.

The boy is tutored at his home in the American Embassy by an English woman, Phyllis Gibbons. Necessarily, this limits the number of American youngsters with whom he comes in contact.

This is known to be a worry for his father. The General has told friends he wants to send Arthur home and put him in an American school.

Although the General has a ban on publicity on the boy's private life, Arthur is not a recluse. He goes to kid parties around town and seems to have as much fun and to mix as well as any of them.

He mixes well at home, too—with the statesmen, soldiers and politicians who are guests of his parents.

Arthur lives mostly in an adult

world that centers around his father. Those who have seen them together say father and son have deep mutual affection. There are hints also that the "old man" is not too severe as a parent.

Music is one of the lad's major interests. For his 12th birthday his parents gave him a Japanese organ to add to his collection of instruments.

He plays the piano and the accordion. He can sit down before the makeshift set of drums he has accumulated and whack out a pretty good imitation of a jazz drummer.

He has fashioned objects from wood as presents for his father. He did a watercolor for his dad's birthday and the General said it was as good as any Rembrandt—a remark that put MacArthur on common ground with any other proud father.

Arthur also has other interests—a typical boy's interest in dogs, guns, sports and comic books.

He plays good tennis and is an excellent swimmer. He recently has developed a deep interest in yachting. He skates and rides a bicycle.

While ice skating once, he suffered a broken arm.

Arthur seldom sees Japanese. He gets a glimpse of them from time to time at a ball game or while riding in a car with his mother to a post exchange or when going to a party.

The Japanese rarely mention—at least publicly—the son of the man who rules their nation in defeat.

Sometimes Japanese matrons see him as he walks into a post exchange. They have been seen to whisper and smile—just as mothers anywhere would do.

Russia Denies Any Knowledge Of Fuchs

MOSCOW, March 9. (U)—The Soviet News Agency Tass said Wednesday British charges that German-born Scientist Dr. Klaus Fuchs gave atomic secrets to Russian agents was a "frank invention."

In the first public mention in Moscow of the case in which Dr. Fuchs was sentenced in London last week to 14 years for espionage, Tass said Fuchs was unknown to the Soviet government.

Miss Burgess Is Named Girl Scout Area Executive

Virginia Burgess has been appointed as Girl Scout area executive, thus enlarging district professional services.

Local delegates to the area meeting in Sweetwater Tuesday evening approved the appointment of Miss Burgess. She will be stationed in Abilene. This will mean that Mary Nell Cates, executive, will headquarter in Colorado City and be able to give more service to the western division of the area.

More than a score representatives were on hand for the board parley. Attending from here were Mr. and Mrs. Larson Lloyd and Dan Conley.

LETTUCE IS NOVEL KIND

AUSTIN, March 9. (U)—That lettuce Mrs. Marvin Thorp brought home from the grocery wasn't just salad.

The green stuff in one sack, she found, was the long, folding kind—\$50 worth. Mrs. Thorp hustled it back to the grocery.

Store Owner H. S. Gullett said the money had been begged for a trip to the bank and mis-routed to Mrs. Thorp's grocery sack.

FRANKFURT, March 9. (U)—A mild earthquake shook western Germany Wednesday but no damage was reported.

Scouts Urged To Make Reservations For Ranch Bivouac

Explorer Scouts who plan to attend the bivouac at the Buffalo Trail Council Ranch should make their reservations immediately, Boy Scout leaders reminded today.

The bivouac is scheduled for March 17-19 and reservations will close on March 15. Scouts should contact their respective unit leaders to arrange for reservations. The bivouac fee is \$5 per Scout.

All Explorer Scouts, including those affiliated with regular troops, as well as those in regular senior posts, are eligible to attend the bivouac.

Netherlands Hits Czechoslovakia

THE HAGUE, March 9. (U)—The Netherlands moved in reprisal against Czechoslovakia Wednesday

by ordering the expulsion of two members of the Czech legation here.

Tuesday three Dutch diplomats were ordered by Czechoslovakia to leave Prague within eight days on charges of anti-state activities.

Flat Or Fluffy, Omelets Are Good For Any Meal On Any Day Of Week

SHRIMP AND MUSHROOM OMELET FIT FOR A GOURMET... puffy omelet base with pungent Creole sauce

Now, let's take the omelet! If you've thought of omelets as strictly Sunday morning fare, revise your estimate and get out your smoothest skillet. The dish is just as good for luncheon or supper as it is for a hearty breakfast.

There are all kinds of schools of omelet-making and all of them have their points. But for the main dish variety, tried and true, and filled to the brim with hearty goodness, a fluffy one is preferred.

Flat omelets, fluffy omelets, whichever you like — the ingredients are the same: one or two eggs for each person, 1 tablespoon of milk for each egg and salt and pepper to taste. To make omelets fluffy, beat the egg yolks and whites separately. For a flat omelet, beat all ingredients together.

If it's Lenten planning that has you edging your brains, the omelet is the answer, of course.

If you appreciate good food you'll be intrigued by the thought of a shrimp and mushroom omelet. The golden fluffy omelet served with the flavorful shrimp and mushroom sauce for a Sunday brunch is quite reminiscent of the buffet-style breakfasts served in England for a chafing dish on the sideboard, following a hunt. The British probably preferred kidneys rather than our shrimp, however.

The shrimp-mushroom omelet is equally as tasty for a Sunday night supper or a late snack.

Shrimp and Mushroom Omelet
1 pound shrimp
1 cup sliced or button mushrooms, 3 or 4 tablespoons butter or margarine.

Wash shrimp and remove shell by splitting it from front to back; carefully remove meat in one piece. Wash again. Using a sharp knife, remove the dark vein which runs along the center back of the shrimp. Shrimp may be shelled after cooking if preferred, but color of the shrimp during cooking is much less strong if they are shelled before cooking. Boil with favorite seasonings or use combination of celery, onion, black peppers, bay leaf, salt and lemon slices. When shrimp turns pink and is tender, add Creole Sauce and pour over puffy omelet.

Creole Sauce
3 tablespoons fat
¼ cup chopped green pepper
¼ cup finely chopped onion
1 clove garlic, finely chopped
2½ cups tomatoes, stewed or canned
1 teaspoon chili powder
1 teaspoon sugar
Small piece bay leaf
¼ teaspoon ground cloves
1 teaspoon salt
Heat fat in a heavy skillet; add green pepper, onion and garlic. Simmer about 5 minutes or until soft but not browned. Add remaining ingredients and continue

cooking over low heat 40 to 50 minutes or until thick.
Add shrimp and mushrooms that have been sautéed in butter to Creole Sauce and puffy omelet.

Puffy Omelet
6 eggs, separated
6 tablespoons hot water
½ teaspoon salt, dash pepper
1½ teaspoons butter or other fat

Beat the egg whites until stiff. Beat the yolks until thick and lemon colored, beat into them the hot water and add salt and pepper. Cut and fold together the yolks and stiffly-beaten whites. Melt butter in an omelet pan, grease the bottom and sides of the pan. Turn the egg mixture into the pan and cook over slow heat until it is puffy and a light brown underneath, then place in a moderate oven (350 degrees) for 10 to 15 minutes or until top is dry. Touch the top of the omelet lightly with the finger and if the egg does not stick to the finger the omelet is done. Do not overcook it or it will shrink and be tough. Loosen the edges of the omelet, cut through the center, slip a spatula or flexible knife under the side next to the handle of the pan, fold ¼ over the other and press slightly to make it stay in place, slip onto a hot plate and serve at once.

French Omelet
6 eggs
¼ teaspoon salt
Few grains pepper
4 to 5 tablespoons milk or water (optional)
3 tablespoons butter or drippings
Beat eggs until yolks and whites are combined; add seasonings and milk or water. (Omelet may be made without added liquid if preferred.) Heat butter or drippings in skillet until moderately hot; add beaten eggs. Cook over low heat, lifting the mixture very gently with a spatula as it cooks on the bottom and tipping skillet so that the uncooked mixture runs under. Do not cut through the mixture, but cook it so that it remains in one large cake.

Cheese Omelet: Prepare French omelet. Just before folding sprinkle with ¼ cup grated cheese.

Crunchy Omelet: Sauté ¼ cup soft bread cubes in the butter or drippings until crisp and golden brown; add egg mixture and proceed as directed.

Ham or Bacon Omelet: Add ¼ to ½ cup chopped cooked ham or diced crisp cooked bacon.

Luncheon Omelet: Omit butter or drippings; cook ¼ cup diced bacon in the skillet until almost crisp; add 1 tablespoon finely chopped onion and 1 cup diced cooked potatoes; continue cooking until potatoes and onion are slightly browned. Add egg mixture and proceed as directed.

Omelet aux Fines Herbes: To egg mixture add 3 tablespoons finely chopped chives and 3 tablespoons finely chopped parsley.

Other available herbs may be used such as chervil, basil, thyme, tarragon, sweet marjoram and fennel, in any desired combination.

Rum Omelet: Decrease water to 2 tablespoons; add 2 tablespoons rum and 1 tablespoon sugar. Turn omelet onto a hot platter and pour 2 to 3 tablespoons rum around it; ignite and serve. Sprinkle with additional sugar if desired.

Spanish Omelet: Serve with Creole sauce or Spanish sauce.

Spanish Sauce
2 tablespoons bacon fat or butter
2-3 cup finely chopped onion
2 tablespoons chopped green pepper
¼ clove garlic
2½ cups stewed or canned tomatoes

Small piece bay leaf
¼ teaspoon celery seed
1 tablespoon sugar
1½ teaspoons salt
¼ teaspoon pepper
Melt fat in a heavy skillet, add onion, green pepper and garlic. Simmer 5 minutes and remove garlic. Add remaining ingredients and simmer over low heat with cover ajar for 30 minutes. Remove cover and continue cooking about 15 minutes or until thick. Makes about 2 cups. With boiled link sausage, it is delectable.

Potato or Rice Omelet: Add 1½ cups mashed potatoes or cooked rice to the egg mixture before cooking. Be sure to heat the potatoes until they are light and smooth before adding them. For fluffy omelet add the potatoes or rice to egg-yolk mixture before folding in beaten egg whites.

Apricot Omelet
2 tablespoons quick-cooking tapioca
¼ teaspoon salt
¼ teaspoon pepper
¼ cup milk
1 tablespoon butter
4 egg yolks, beaten until thick and lemon-colored
4 egg whites, stiffly beaten
Apricot jam.

Combine quick cooking tapioca, salt, pepper and milk in saucepan. Place over medium heat and cook until mixture comes to a full boil, stirring constantly. Add butter. Remove from heat and allow to cool slightly while beating eggs. Add egg yolks and mix well. Fold into egg whites. Turn into hot, buttered, 10-inch skillet. Cook over low heat 3 minutes. Then bake in moderate oven 15 minutes. Omelet is sufficiently cooked when a knife inserted comes out clean. Cut across at right angles to handle of pan, being careful not to cut all the way through. Spread with apricot jam. Fold carefully from handle to opposite side and serve on hot platter. Dust with confectioners' sugar. Makes 4 to 6 servings.

Cheese Omelet
Use above recipe, adding ¼ cup grated American cheese with the butter; stir until cheese is melted. Omit apricot jam and confectioners' sugar.

Fish Flake Omelet
2 cups flaked fish
2 tablespoons lemon juice
4 eggs, separated
¼ cup milk
2 tablespoons minced onion
1 tablespoon minced parsley
¼ teaspoon salt
¼ teaspoon pepper
2 tablespoons butter

Add lemon juice to fish. Beat egg yolks thoroughly; stir in milk, onion, parsley, salt and pepper. Add fish; mix well. Fold stiffly beaten egg whites into mixture. Melt butter in smooth heavy frying pan and when hot, pour in egg mixture. Cook over low heat until delicate brown on bottom (about 10 minutes). Place in slow oven 300 degrees F. about 10 minutes or until top is firm and dry to the touch. Cut part way through omelet at center, fold in half and slip onto heated platter with pancake turner or spatula.

Cheese Souffle Makes Tasty Dish For Late Winter

Frankfurter rolls, stuffed with a Cheese Souffle and other hot cheese dishes make a tasty main dish for late winter and early spring days. Cheese is rich in high quality protein, and is also a good source of vitamin A, riboflavin and calcium. Serve cheese souffle with tomato sauce or Spanish sauce. Grated cheese, chili sauce, and crisply fried bacon make a good spread to toast on bread slices or crackers for a quick snack.

4 tablespoons butter or margarine
4 tablespoons flour
1½ cups milk
1 teaspoon salt
Dash of cayenne
¼ lb. Old English cheese, or American, sliced

6 eggs
Make a sauce with the butter or margarine, flour, milk and seasonings. When thickened and smooth move from the heat and add the sliced cheese. Stir until the cheese is melted. Add the beaten yolks of the eggs, and mix well. Slightly cool the mixture, then pour it slowly onto the stiffly beaten whites of the eggs, cutting and folding the mixture thoroughly together. Pour into a 2-quart casserole and bake 1½ hours in a slow oven, 300 F. Serve at once.

Note: It is important to use a 2-quart casserole for this souffle. This amount of mixture requires that size casserole for proper expansion.

Fruit From Banana Land Makes Dessert

Bananas are the one fruit brought to the United States in such quantities that we rarely think of them as imported. They are taken for granted as much as corn, our real American grain. Bananas are a symmetrical fruit with "hands" going "round and round the heavy stem. On the tree, or stalk, the fruit is an emerald green. This contrasts with the blue green of the huge leaves. The blue tint is caused by a spray used to keep the plantation in good health. Before being loaded into freight cars, each bunch of bananas is dunked in a neutralizing bath, then in clear water. It is a picturesque sight to see the burros arriving by jungle path carrying a bunch on each side in a canvas cradle.

Corn flakes and bananas appear on breakfast tables every morning throughout the land. These two good foods are also used together in many recipes.

Banana Whipped Cream Pie
4 cups corn flakes
¼ cup sugar
1-3 cup melted butter or margarine
2 tablespoons sugar
½ teaspoon vanilla flavoring

18 marshmallows, sliced
2-3 fully ripe bananas
Crush corn flakes into fine crumbs; combine with sugar and melted butter. Mix thoroughly. Press evenly around sides and bottom of 9-inch pie pan. Chill. Whip cream until stiff; beat in sugar and vanilla. Fold in marshmallows and sliced bananas. Spread in crumb crust. May be chilled or served at once. Yield: 1 9-inch pie.

Banana Cream Cake
2 cups corn flakes
1½ cups sifted flour
2 teaspoons baking powder
¼ teaspoon salt
1 cup sugar
1 teaspoon vanilla flavoring
2-3 cup milk
Crush corn flakes. Add to flour, baking powder, salt and sugar which have been sifted together. Add shortening, flavoring and milk. Beat 2 minutes. Add eggs; beat 2 minutes. Divide batter into 2 8" wax lined and greased square cake pans. Bake in moderate oven (350 F.) 20 to 25 minutes. When cool put together with custard filling and sliced bananas. Sprinkle top of cake with powdered sugar. Yield 1 2-layer cake (8 x 8-inch pan).

Girl In Siegel Case Remains In Background

CHICAGO, March 9. (U)—Virginia Hill, identified by Chicago newspapers as the international playgirl, remained in the background last night when reporters sought interviews from her and her new husband.

Hermann Johann (Hans) Hauser, a ski instructor at Sun Valley, Idaho, and Aspen, Colo., met the reporters and photographers at the Ambassador East Hotel where the couple has been for a week. The Sun-Times and Herald-American said they were found at the hotel yesterday.

"Virginia has gone shopping," Hauser told reporters last night. "For dresses, I think."

Hauser identified his bride as from Beverly Hills, Calif. But he did not say she was the Virginia Hill who was a friend of Benjamin (Bugsy) Siegel, who was slain in Miss Hill's Beverly Hills home in 1947.

Reporters asked Hauser if he knew his wife was "internationally famous," and he replied: "Oh, yes, lots publicity she has had."

"We met at Sun Valley eight weeks ago," the Sun-Times quoted Hauser. "I was her ski instructor."

The Sun-Times quoted Hauser as saying he and Miss Hill obtained a marriage license Feb. 19 in Elko, Nev., and were married there five days later.

Pennsylvania Police Alerted In Disorders

POTTSVILLE, Pa., March 9. (U)—Pennsylvania state police were alerted today to prevent any further disorders at free-lance hard coal mines—six of which have been set afire in the last three days.

State police road patrols were put in operation in the trouble area 20 miles west of Pottsville yesterday after Sheriff Bruce Fellows of Schuylkill County, appealed for help.

Holding rigs of two independent mines were set ablaze by marauding pickets Tuesday night. Four other fires were reported the day before.

The pickets—all free-lance miners—are protesting demands by land owners for an increase in royalty payments on coal mined from their properties. H. Wilson Lark, Shamokin, has demanded that the miners pay a royalty of 60 cents a ton for coal mined on his land. The royalty previously was 37 1/2 cents a ton.

Clyde Machamer, of Tower City, Pa., president of the Independent Miners Assn., has announced "peaceful picketing" had been ordered at all mines "where higher royalty payments were made."

Machamer said the Tuesday night fires apparently were in retaliation for the previous damage.

Miss America Is Divorced From Unusual Husband

LOS ANGELES, March 9. (U)—Joe Carroll Dennison, Miss America of 1942, has divorced Comedian Phil Silvers, the man who went home to his mother-in-law.

When the beauty and Silvers separated recently, the comedian said his mother-in-law "understands me better." He and the mother-in-law stayed in the family home and the wife moved out.

Miss Dennison, in getting a divorce yesterday, said that she will get her mother back in the process. Silvers is moving out of the house and Miss Dennison in. She charged cruelty.

Texas Officials Will Testify On Proposed Canadian River Plan

WASHINGTON, March 9. (U)—Officials of a dozen cities and towns in the Panhandle and High Plains areas of Texas have been invited to testify at a hearing on the proposed Canadian River development program April 18.

Sen. Lyndon B. Johnson (D-Tex.), who announced the hearing date, told a news conference yesterday that Secretary of the Interior Oscar L. Chapman will be the first witness.

The two-day hearing on the \$85 million program in West Texas will be held before a Senate Interior and Insular Affairs subcommittee.

The House-passed bill under consideration would authorize the project, which contemplates construction of a \$27 million dam and a \$4 million conduit to deliver water to cities in the river's watershed.

Johnson said "amendments probably will be offered" to take out of the bill all non-reimbursable features, including fish and wildlife conservation provisions which probably involve about \$2 million.

The Canadian River bill passed the House last year under the guidance of Reps. Worley and Mahon, Texas Democrats, but has been held up in the Senate by Sen. Watkins (R-Utah).

ORDER HIT BY WINNIE African Chief Will Fight Exile Action

LONDON, March 9. (U)—Seretse Khama, Oxford-educated Negro chief of the African tribe of Bechuanaland, has vowed to fight Britain's action to exile him and his white British wife from his homeland.

The government's decision depriving the 27-year-old chief of the throne, given to him by a vote of the tribe, has threatened repercussions throughout the polyglot British Commonwealth and even in the United Nations.

Commonwealth Relations Secretary Patrick Gordon-Walker announced in the house of commons yesterday that Seretse was ordered not to return to his homeland in the British protectorate of Bechuanaland. This brought severe criticism from several members of the house of commons, including Winston Churchill, and in most of London's press.

Seretse earlier had charged that he had been tricked into coming to London.

Seretse told newsmen last night he intended to fight the decision. He declared he would challenge it in court or possibly in the United Nations.

He also said he would go home soon in defiance of the exile order. He ordered his wife to stay in Serowe.

C-46 Makes Safe Belly Landing

NEWARK, N. J., March 9. (U)—A twin-engine C-46 transport plane with 54 persons aboard slid 300 feet in a safe belly landing last night in rain and darkness at Newark airport.

Airport authorities said the landing gear of the ship bound from Miami, Fla., to Newark, collapsed as the plane touched the runway. Most of the 50 passengers thought it was merely a rough landing.

Streams of gasoline from punctured tanks spewed onto the rain-swept runway as the passengers and crew climbed down a ladder to safety. No one was injured, but a pregnant woman was taken to a hospital for a routine checkup.

A port of New York authority police emergency crew brought a ladder to the plane door, about six feet off the ground. Passengers were told not to smoke because of the pools of high-octane aviation gasoline.

Passenger Trains To Be Discontinued

AUSTIN, March 9. (U)—The Wichita Valley Railway Co. was authorized by the railroad commission yesterday to discontinue its passenger service on its mixed trains between Stamford and Spur.

A public hearing on the company's application to discontinue the service was held in Spur Feb. 14.

Texas Blue Baby To Undergo Operation

CHICAGO, March 9. (U)—A nine-year old Tulsa boy was in Children's Memorial Hospital today undergoing tests preliminary to a blue baby operation to correct a heart condition.

The operation was to have been performed on Donnie Phillips yesterday but a hospital spokesman said it has been postponed indefinitely pending completion of tests to determine if the operation would help in his case.

Rabies Treatment

TEMPLE, March 9. (U)—Ten children are under treatment here after diagnosis of a dog as rabid. Four were bitten by the dog. The others had played with it.

City High Band To Host Seven Visiting Bands Saturday

Seven visiting bands will be entertained here Saturday by the Big Spring high school band at a spring clinic.

Joe L. Haddon, assistant director of the Texas Tech band, is to direct the clinic. Haddon is a former director of the Big Spring band and is well known in this area.

The clinic band will be made up of students from the high schools of Lamesa, Sweetwater, Big Spring, Coahoma, Lorraine, Stanton and Spur.

This 100-piece group will play and study under Haddon's direction. Music will be that to be used in inter-scholastic league band contests later in the spring.

Members of the local high school band will form the nucleus of the clinic band and each visiting unit will have from 10 to 15 players in the clinic band.

All sessions will be held in the municipal auditorium, said J. W. King, director of the host band.

AIR COMMAND TO REGIONALIZE ITS FORCES TO MAKE EACH INDEPENDENT

WASHINGTON, March 9. (U)—The strategic air command will regionalize its three Air Forces April 1 to make each an independent striking unit with its own reconnaissance planes.

Gen. Curtis E. Lemay, strategic air commander, announced that the 15th Air Force, with headquarters at March Field, Riverside, Calif., will control all air bases in the western United States.

He assigned all bases in the central states to the Eighth Air Force, with headquarters at Carswell Field, Fort Worth and all eastern which operates from Barksdale Field, Shreveport, La.

Reinforce Troops

BRUNSWICK, Germany, March 9. (U)—British troops returned in increased numbers Wednesday to the former Hermann Goering steel works—scene of recent violent worker demonstrations against dismantling.

New Midland Radio Station Approved

WASHINGTON, March 9. (U)—The Communications Commission has granted Lamar County Broadcasting Co., Paris, Tex., authority to operate a new station, 1250 kilocycles, 500 watts, daytime only.

Also Jack Cecil, Midland, Tex., new station, 1150 kilocycles, one kilowatt, daytime only.

BOB POAGE PLANT—This is a general view of the new 11,500-kilowatt electricity generating plant on the Leon River, between Temple and Belton, Tex., which was christened the "Bob Poage Plant" in honor of Waco's congressman. This plant is a part of the federal rural electrification program. It eventually will be expanded to three times its present size. (AP Photo).

Record Price Paid At Amarillo Show

AMARILLO, March 9. (AP)—Tomie M. Potts of Memphis, Tex., paid a record price of \$2,600 yesterday for DRS Grace 2nd in the Panhandle Hereford Breeders sale at the Amarillo Fat Stock Show.

The female was consigned by J. L. Hess and Sons, McLean. Ninety-nine cattle averaged \$687 a head for a total of \$66,055, compared with about \$50,000 for 79 a year ago.

Participating in a special week of emphasis upon democracy, high school students named a slate of city and county officers for the day. Junior Dorn was made mayor. Other council members were Rebecca Coles, Darrell Hulme, Marion Kelley, Marilyn McEntire, Ann Handie, and Smokey Swann. City manager was Adele Hutchinson, Judge, Clarence Clark and attorney Paul Grenshaw. Co-eds did well, copping six of 17 elective places and a generous portion of appointive ones.

Others named to city posts were Joah Terry, finance director; Russell Reed, utilities; Jack Barnfield, public service; John Chapman, recreation; Verdell Rice, police; Doyle Smith, fire.

Except for Sara Norman, treasurer, and Mary Lou Patton, all county posts went to boys. Red Thompson was elected judge; Alton Sparks, sheriff; Charles Currie, attorney; Jasper Hart, tax collector-assessor (a post his father holds); Rex Howell, county superintendent; Merrill Cobb, justice of peace. Bryan Wilkerson, Steve Scott, Richard Thomas, Jimmy Rogers, county commissioners.

All youth officials were guests of the Jaycees at a luncheon Wednesday. Harold Bennett, representing the Jaycees, supervised the securing of poll taxes, filing for office campaigns and election of youth officials.

Local Recruiter Will Attend Army School
Sgt. Willis P. Carlton, canvasser for the Army and Air Force Main Recruiting station here, is to attend an adjutant general's school at Camp Lee, Va., late this month.

Sgt. Carlton will receive a complete course in recruiting during the four-week school, Col. John F. Taylor, station commander, said. He will leave for Camp Lee on March 23.

Henson Quits At Weslaco

M. N. (Buck) Henson, former Stanton high school athlete and a brother to Ocie Henson, Big Spring grocer, has resigned his position as head football coach at Weslaco high school to work for his master's degree.

Ocie said this morning Buck would probably return to Texas university to complete his college work. Buck was in school at Austin last summer.

Buck has been head coach at Weslaco for the past two years, having succeeded Grady Hester there after the 1947 season. He was assistant at the school before and immediately after World War II. During the war, he served in the US Air Corps as a first lieutenant.

Lt. Binder Serving Aboard Navy Oiler
Lt. Martin Binder, USN, husband of Mrs. Martin Binder of 1119 Johnson St., visited Augusta, Sicily, Naples, Italy and the island of Cyprus during February while serving aboard the oiler, USS Waccamaw.

Attached to the Sixth Fleet, the Waccamaw recently participated in maneuvers in the Mediterranean and put in the above ports to afford all hands an opportunity for liberty and recreation.

Mr. and Mrs. Herman Taylor and David Lawrence have returned from a plane trip to Houston, where they visited Mr. and Mrs. Odell Wood and Mr. and Mrs. Buck Tyree and Cliff.

Excise Tax Slash Prospects Darken

WASHINGTON, March 9. (AP)—Any prospect for an early slash in excise taxes all but vanished today. It may not come until July 1 or later.

Chairman Doughton (D-NC) of the tax-framing House Ways and Means Committee voiced doubt that a bill will be ready for House action before Easter, April 9. Once the House acts, and that will take some time, the Senate probably will take a couple of months on the bill.

But when the cutting starts it probably will be deeper than what President Truman wants.

There were growing indications the administration may be unable to keep the excise slashing from breaking out of the \$655 million bounds set by the President.

Some lawmakers guessed the cut will be nearer \$1 billion—with movie tickets added to the list of items getting tax relief.

Johnson Suggests Hiked Rubber Output
WASHINGTON, March 9. (AP)—A suggestion that production of synthetic rubber be stepped up in government-owned plants to increase stock piles of the commodity was made by Sen. Lyndon B. Johnson (D-Tex.).

Johnson told a news conference yesterday he had asked various government agencies involved to "consider the idea of reopening" some of the closed plants.

Mr. and Mrs. Herman Taylor and David Lawrence have returned from a plane trip to Houston, where they visited Mr. and Mrs. Odell Wood and Mr. and Mrs. Buck Tyree and Cliff.

Leatrice Ross Joins School Paper Staff

AUSTIN, (AP)—Leatrice Ross, Big Spring, was made a night society editor on the staff of The Daily Texan at the University of Texas recently.

Miss Ross, a junior student in the School of Journalism, received an appointment as advertising salesman on the Texas staff last fall in addition.

She is a member of Curtin Club, Radio Guild, and Newman Club.

She is the daughter of Mrs. Leatrice White.

Houston Cab Strike Ended By Agreement

HOUSTON, March 9. (AP)—A two-day strike of 300 yellow and checker taxi drivers here ended early today with an almost unanimous back-to-work vote.

Only yellow and checker drivers were on strike, but union rules made necessary a vote of the entire membership on the back-to-work move.

The drivers went back under their old contract terms for a 30-day period in which negotiations will continue.

A Bible Thought For Today -

But they became wise and mighty and noble and remain so as long as they walk in the way of Infinite Wisdom. "Not many wise, men after the flesh, not many mighty, not many noble, are called." -1 Cor. 1:26.

Time To Take Up The Slack And Complete Red Cross Obligation

At this stage, the current Red Cross call is lagging. This is not a fault of planning or a falling of response; as usual it is a weakness in making and reporting contacts. Unfortunately, the wave of sickness, including perhaps the most concerted epidemic of flu since 1918, has intervened to make the roll call all the more difficult. At least, it has served to take the minds of the public off the Red Cross for the moment.

Wave Of Crime Calls For Utmost In Enforcement Agency Teamwork

A recent wave of crime, which has been by no means a localized condition, serves to emphasize the importance of coordinated law enforcement efforts. The lawbreaker has the inside track. He hits and he runs. Frequently he is far, far away by the time a crime has been discovered, let alone unraveled on any solid basis.

Chiang Making Fresh Bid To Deliver China From Commies

AS THE SIGNS READ, GENERALissimo Chiang Kai-shek's dramatic resumption of the Chinese Nationalist presidency marks the real beginning of his fresh bid to reclaim his country from the Communists. "WHATEVER THE EXPLANATION, the situation daily grows more intolerable for the Communists and, what counts heavily in China, the Reds are losing face at a terrific rate."

America's Only Alternative To Dropping Bomb Now Is To Work At Peace 25 Years

WASHINGTON - Some people around Washington think I've been nagging government officials by last week's letters on winning the peace. Maybe so. However, peace is something which about 15 million American men thought they were fighting for, and which an entire nation still devoutly hopes for, so I'm going to keep on nagging. "However, since it's not quite fair to put others on the spot without giving your own views, here are my own gropings toward that most precious and elusive of all goals - permanent peace."

Fifth Annual Volley Ball Meet Begins Here Tonight

Two Contests Carded Here

Big Spring's fifth annual invitational girls' volleyball tournament gets underway on two fronts tonight and continues through Saturday night.

While two games are being played in Steer gymnasium here, San Angelo and Water Valley will be meeting in a first round engagement in the San Angelo gymnasium. Coaches of the two teams elected to play there to save traveling expenses.

At 7 p. m. here, Garden City and Lamesa clash while Big Spring and Fortan meet at 8 o'clock. First round activity will continue through Saturday morning, although two second round games will be completed by Friday night. Heavily favored Ringgold and the Big Spring B team will square away at 2 p. m. Friday. The winner there plays the survivor in the Water Valley-San Angelo go at 5 p. m. Friday.

At 7 p. m. tomorrow, Byers meets Denver City and the winner takes on the Lamesa-Garden City survivor at 8 p. m.

Fl. Davis crosses swords with Abilene at 4 p. m. tomorrow. Two consolation rounds are booked for Friday night.

On Saturday morning, Seminole and Sweetwater have at it at 9 o'clock, followed by a Lubbock-Andrews engagement at 10 a. m. The Seminole-Sweetwater winner takes on the Big Spring-Fortan winner at 11 a. m. Saturday. The Fort Davis-Abilene and Lubbock-Andrews winners clash at 1 p. m. Saturday to complete second round activity.

Semi-final games are booked for 2 p. m. and 4 p. m. on that day while the championship goes on the line at 6 p. m. Consolation finals are booked for 3 p. m. Ringgold, Byers and Denver City all bring splendid records to the meet.

The Ringgold club has won 22 of 24 starts this season. The team is led by Betty Blackman, the most outstanding player in the tournament last year. Coach C. B. Greenshaw has opined he thinks this year's team is stronger than the one that swept to the crown last year.

Byers has been even more active than Ringgold. The club has won 32 of 40 assignments, losing its four games to Ringgold. The Byers team holds one win over Ringgold.

Denver City, masterminded by Mrs. S. F. Shaw, Jr., has been defeated by Kermit only. The sextet was runnerup in the recent Seminole invitational tournament.

Mrs. Shaw has been coach at Denver City for nine years, during which time the club has won five district championships. Six of the squad is Jo Botiger, an all-tournament selection in the Seminole meet.

Big Spring is also due to make its most serious challenge for the crown. The Steerettes have won ten of 12 starts and have improved by leaps and bounds in recent games.

Five Jayhawks To Laredo Meet

Coach J. A. Jolley and five members of the Howard County Junior college track and field team are due to leave early Friday for Laredo where the athletes will compete in the annual Border Olympics.

Making the trip with Jolley will be Charley Seydler, 440-yard runner and member of the mile relay team; Cleon Russell, 880-yard star; Harold Baker and James Fannin, miler; and Jimmy Jennings, member of the mile relay team and 440-yard runner.

Russell and either Baker or Fannin will compete with the relay team.

Two Texas Teams In Region Meet

LAKE CHARLES, La., March 9. (AP) — The seventh region play-offs of the National Junior College Basketball Tournament begins here today.

Lepard To Run In Laredo Meet

ABILENE, March 9 (SpI)—Leon Lepard, former Big Spring high school ace trackster, will run in the Border Olympics at Laredo this weekend as one of the outstanding cinder shoes from Abilene Christian College.

Leon, a sophomore, was one of the Southwest's top quartermilers last spring and set a new Texas Conference record of 49.2 in the 440 at the annual conference meet in Brownwood. He also anchored the crack mile relay team to first in the Border Olympics, several triangular meets, and the annual conference meet.

As a freshman, he turned in a 1:52.8 half-mile which brought the Gals a first place in the two-mile relay at the annual Kansas Relays in Lawrence, Kansas.

Coach Oliver Jackson thinks ACC has one of its best track squads in the history of the school, and will be depending on Lepard for important points in the 440, 880 and relay events.

Button Again Wins Crown

LONDON, March 9. (AP) — Europe, which always has had at least one world figure skating champion, will continue its unbroken string another year thanks to graceful Aja Vranova.

The beautiful 19-year-old Czech girl won the women's title last night to thwart a clean sweep by the United States in the three-day world championships.

The American team fell one short. Masterful Dick Button of Englewood, N. J., and Harvard lived up to his reputation as the world's greatest male skater by winning the men's title for the third straight year.

Seattle's Kennedy Kids, Kerol and Peter, won the pairs championship, the other title in competition. Button and the Seattle duo triumphed during the first two days.

Smooth-skating Mile Vranova repelled a four-pronged American threat with an ease not indicated by her slender winning margin. The European beauty finished 24 points ahead of Jeannette Altwegg, the British champion, and 29 in front of Yvonne Sherman of New York.

Sonja Klopfer of Brooklyn placed fifth. Virginia Baxter of Detroit eighth and Andra McLaughlin of Colorado Springs 11th.

All three showed better form in free skating than in compulsory figures.

The lively, dark-haired Miss Sherman was always close but never in front of the poised Czech champion. Mile Vranova gave a graceful display of free skating.

Mile Vranova scored 1,220.16 points, Miss Altwegg 1,248.71 and Miss Sherman 1,220.58.

East Texas Hosts Buffs Tomorrow

COMMERCE, March 9. (AP)—East Texas State, co-champion of the Lone Star Conference, and West Texas State, Border Conference member, clash here tomorrow night for a spot in the National Association of Intercollegiate Basketball Tournament at Kansas City. The NAIB Tournament opens Monday.

East Texas and West Texas survived an elimination to determine Texas' representative at Kansas City.

LOOKING 'EM OVER

With Tommy Hart

Harold Davis, basketball coach at HCJC, says the foul rule adopted for the State JC tournament at College Station last weekend, would contribute to the game's interest if the players themselves didn't try to beat the spirit of the statute.

That is the regulation wherein a player committing five or more personal fouls goes to a penalty box for a certain length of time rather than into permanent retirement.

Several of the teams there used it to their own advantage, Davis says. One of them was Blinn, second round foe of HCJC in consolation play. The result was disastrous—for HCJC, for the Hawks wouldn't resort to the same strategy.

In their three games, only two Big Springers—Delmer Turner and Harold Berry—had to spend any time in the penalty arena. No other team present got off as light.

Davis has high respect for O'Neal Weaver, the great freshman center at Tyler J.C., who hails from Martin's Mills, Texas. However, he thought Royce Ray, Weaver's team mate, was the better all-around player. Harold opines neither is as good as Tommy Hancock, another Tyler player, however. Hancock, by the way, played for a time with Texas Western last year but was dismissed from the squad for an infraction of rules.

Texas A & M probably has hosted its last State tournament. In the future, it will probably be called an invitational meet and scheduled for some time in December. Entry list will probably be limited to eight teams, half as many as the tourney had this year.

APPROACH TO STEER PARK IS IMPROVED

Baseball patrons who drive automobiles to Steer park for games this season probably won't recognize the south entrance to the parking area around the plant.

The approach has been leveled with bull-dozer and grader. Motorists last season could not afford to drive over the road at any but the slowest speed because of the uneven terrain.

Wayne Ingram, who performed for the Vernon Dittiers a couple of seasons ago, will probably play baseball with a sandlot nine in Durant, Okla., again this year. He was with the Durant club in 1948.

COLOR LINE HAS NOT BEEN ENTIRELY LIFTED

Much comment has been made in recent years about the lifting of the color line in Organized baseball.

That is not wholly true, else there would be even more Negroes in the game. Members of the colored race, if they are athletically inclined, more than hold their own in all types of athletics because of their stamina, their physical condition and their nervous systems, generally excellent.

Just how far the game is going to relax the ban is going to be important in future years.

The sports loving public has shown it will not lend too much support to the fight game, if the Negro lads tend to dominate the game. Quite possibly, in the future, you're going to see more and more Negro boys making good in the national pastime but the Magates will probably see to it that a ratio is maintained.

Blondy Cross, the Angelo cracker, notes that Buddy Goods, San Angelo high school trackster, recently ran 75 yards in 7.9 seconds.

If he continues to improve, Buddy will provide an excellent challenge to Dean Smith, the Graham speedster, in the Big Spring Relays April 1. Records in the 100 and 200 yard dash events are almost sure to fall here.

All starters on the Sweetwater high school basketball team, which won fourth place in the recent state meet, are seniors.

Seagoville Six Cops Opener

WACO, March 9. (AP)—Seagoville took the first step toward defending its state high school girls basketball league title last night and tonight tries to take another.

The Dallas County team whammed Lockney, 46-15, as Stadge Sorrels racked up 13 points in the one-sided victory.

Dimmitt, Avery, Rogers, Denton Valley (Clyde), East Chambers, Dalhart and Cotton Center also gained the quarter-finals yesterday and last night.

Rogers edged Meridian, 32-26, despite the 19 points of Joyce Niven of Meridian.

East Chambers whipped Meadow, 48-26, and Dalhart downed Sweeney, 38-14.

Cotton Center came from behind to beat Aledo, 45-33; Denton Valley rallied to jump Bullard, 41-33; Dimmitt upset Bynum, 35-29, and Avery downed Lewis, 43-21.

In consolation play today, Bullard met Aledo at noon; Bynum played Lawn at 1 p. m.; Meridian tackled Lockney at 2 p. m. and Sweeney and Meadow were to tangle at 3 p. m.

Cotton Center plays Denton Valley tonight at 6 p. m. in the first quarter-final game. Dimmitt takes on Avery at 7 m.; Seagoville runs into Rogers at 8 p. m., and Dalhart and East Chamber clash at 9 p. m.

Crusader Star Tops All-Star Cage Balloting

BY TED MEIRA

NEW YORK, March 9. — Bob Cousy, Holy Cross; Paul Arizin, Villanova; Dick Schmitzner, Ohio State; Paul Unruh, Bradley, and Kevin O'Shea, Notre Dame, were named today to the 1950 Associated Press All-America collegiate basketball team.

This all-star team from five different schools was picked by a vote of 428 sports writers and broadcasters.

Cousy, whose wizard ball-handling and shooting sparked Holy Cross, topped the voting.

On the basis of five points for each first team vote and two points for a second team vote the 8 foot 1 inch Cousy polled 1,484 points on 270 firsts and 37 seconds. This compares to a perfect count of 2,145.

Villanova's Arizin, the top scorer in the country for major schools, received 1,094 points on 170 firsts and 77 seconds. Schmitzner, who sparked Ohio State to the Big Ten championship, was third with 987 points on 171 firsts and 68 seconds.

Unruh, star of Bradley's No. 1 ranked team, got 135 firsts and 91 seconds for 957 points. Notre Dame's O'Shea, who made the 1949 All-America as a sophomore, then slipped to the third team last year, regained a top spot with 716 points on 102 firsts and 100 seconds.

Riley Squares Off With Betty Rawls

ST. AUGUSTINE, Fla., March 9. (AP) — Defending Champion Polly Riley of Fort Worth faced another Texas, Betty Rawls of Austin, in the quarter finals of the Florida East Coast Women's Golf Tournament today.

Miss Riley advanced by defeating Bob McWane of Birmingham 3 and 1. Miss Rawls beat Helen Hampton of Chattanooga, Tenn., 6 and 5.

In their first round matches, Betty MacKinnon of Mt. Pleasant, Texas, defeated Pat Devany of Detroit 3 and 1.

NEW FORMATIONS ARE TRIED IN TCU, ARKANSAS CAMPS

By HAROLD V. RATLIFF
Associated Press Sports Editor

Inauguration of the winged T at Texas Christian and of the split T with the pro defense at Arkansas are the most notable developments in Southwest Conference football for the 1950 campaign.

Spring training already has been finished at Rice while four other schools—Southern Methodist, Texas A&M, Texas and Texas Christian—wind up drills Saturday. Baylor has entered the last three weeks of its spring football. The Bears divide their drill period each year. Arkansas also still is in the midst of spring training.

Coach Dutch Meyer of Texas Christian was optimistic over his squad's work and over use of the winged T which he says his quicker and is more explosive than the double and triple wings he has been using. It is a combination of the double wing and T formations.

Meyer said the showing of Gilbert Bartosh at fullback highlighted his practice. Bartosh, a talented youngster, was held out of football last year because there were so many other good men.

Otis Douglas, the former professional coach, is bringing pro methods into the Southwest Conference. He will have a wide open offense with a tight defense which will find the safety man only five or six yards back of the line. Douglas also is quite pass-minded and will have the assistance of Tommy Thompson, the Philadelphia Eagle passing star, part of the spring session.

Southern Methodist has looked very good in spring training with the showing of Benton Musslewhite as a passer highlighting the work. Musslewhite was held out last year to permit a collar bone injury suffered in high school football to mend properly. He now is in top shape and heads an imposing array of passers at Southern Methodist. Kyle Rote, the great halfback who will be the backbone of the Methodist offense next season, isn't in spring football. He's a baseball player.

Texas, already the people's choice for the championship next season, did not lower itself in general opinion in its spring work. Coach Blair Cherry says he needs

Holy Cross Is Upset Victim; Dukes Bouted

NEW YORK, March 9. (AP)—Holy Cross, Duquesne and Syracuse, all tournament-bound, took on the chin last night in college basketball.

Holy Cross, District One's representative in the NCAA play-offs, was upset by Yale, 65-62.

Duquesne and Syracuse both in the National Invitation Tourney, were beaten by Villanova, 65-52, and Cincinnati, 66-64, respectively.

It was the second straight defeat for Holy Cross after 23 straight victories, including a carryover of three from last year.

In other games, Pennsylvania drubbed Duke, of the Southern Conference, 69-50, and Columbia whipped Harvard, 71-60, in an Eastern " Ivy" League tilt.

Rutgers salvaged something from a poor season by beating Colgate, 67-57. In other Eastern games Rhode Island State trounced Brown, 67-53, and Stens took Williams, 64-44.

Local Tennis In Odessa Meet

Senior and junior girls' tennis teams will represent Big Spring in the Odessa invitational tourney Friday. Coach Larry McCulloch said this morning.

Final selection of girls to make up the Big Spring entries is to be made this afternoon. They will leave early Friday for Odessa.

a quarterback of proven ability but it appears Ben Tompkins, who got into five games last fall and looked good, will fill the bill. Cherry also has T. Jones, up from the freshmen, to do the passing along with Tompkins and Dan Page, a junior college transfer. Texas is expected to have one of the top lines of the country. Cherry has indicated he will use the split T some but that basically, it still will be the straight T.

Texas A&M has found that its passing will be much improved over last year and the line should be greatly strengthened. The best new prospects are Chuck O'Neal, a big tackle, and Dick Frey, talented guard from Pasadena, Calif., Junior College.

Baylor hasn't progressed sufficiently for an evaluation. The new coach, George Sauer, has little more than become acquainted with his prospects. But he always says he's going to have trouble replacing the great Baylor quarterback of last fall, Adrian Burk. Sauer will use the straight T formation.

Rice wound up training last week with indications of offensive strength to match last season's conference champions. However, the line was swept pretty bare by graduations.

Vealmoor Pool Extender Makes 1,247 Barrels

Thomas Dowell, et al No. 1 W. J. McDanna, half mile eastern extender for the Vealmoor pool on the north side, has been completed for 1,247 barrels. The stepout flowed this amount on a 24-hour test through half-inch choke from 7,514-45 feet. Oil was flowing, gas-oil ratio 800-1; gravity casing pressure 400 pounds, tubing pressure 600 pounds. Top of the Canyon lime was pegged at 7,513 feet. Location is 600 feet from the south and west lines of the south half of the northeast quarter of section 27-32-3n, T & P. In southeast Borden, C. W. Guthrie of Big Spring plugged his No. 1 V. H. Wolf, a four-mile northwest 1/4 section pool outcrop seeking the Clear Fork. Depth was 4,237 feet in line. Location was 1,980 feet from the south and west lines of section 40-25, H&C. This puts it two miles northeast of the recently abandoned Standard No. 1-4 Griffin, an Ellenburger failure. Standoff No. 1 Hutto, eight miles east of Big Spring, was reported to have recovered 200 feet of slightly gas-out mud on a one-hour drillstem test in the Mississippi from 9,060-220. There was a fair blow for 20 minutes, but it died. The test drilled past 9,221. It is in the southeast corner of section 4-31-1a, T&P. In the Good pool of southwest Borden, Cador No. 3-38 spudded and was at 725 feet. Conductor No. 2-38 Good, in the southeast quarter of section 38-33-4n, T&P, cleaned up preparatory to testing. Conductor No. 1-38 Good cemented surface pipe at 833 feet. Seaboard No. 13 Good, in the northeast quarter of section 48-33-4n, T&P, drilled below 6,540 feet.

Clergy Ignorant Of New Marriage Law Violations

HOUSTON, March 9. (U) — An investigation of possible violations of the new marriage law by clergymen was set in motion today by Dist. Atty. A. C. Winborn. Winborn said he has instructed an assistant to consult with County Clerk W. D. Miller to obtain "all facts" in connection with recent marriages performed by clergymen of various denominations apparently ignorant of new laws governing such procedures. Miller yesterday disclosed that 19 couples married since Oct. 5, 1948, have had ceremonies performed "after the 15-day period allowed following medical examinations" rendering their marriages "null and void." According to Miller, the law places the burden of observing the law on members of the clergy performing the ceremonies, and provides for fines for violations.

Market Is Normal At Stock Sale Here

A normal market, described by Owner A. L. Cooper as "not too good, not too bad," resulted at the Big Spring Livestock Auction company's sale here Wednesday. Fat bulls sold for 19.00, fat cows 17.50, butcher cows from 14.00 to 15.00 and fat calves from 23.00 to 25.00. Stocker steer calves inspired bids of 24.00 to 25.50, better calves from 24.00 to 25.00 and hogs 17.00. The handle amounted to about 600 cattle and 50 hogs.

DOGS LIKE HIS SMELL

LOS ANGELES, March 9. (U) —Harold Martin smells too doggone good. That's why he and Carl Lancaster, a friend, were acquitted yesterday of stealing a great dane and a collie dog, each valued at \$10,000. Martin told a superior court jury that the dogs forced themselves into the defendants' car last Dec. 3 and wouldn't leave. The reason: Martin is a salesman and his clothes smell of the product he sells—dog food.

150 KP Members Attend Bible Class In High School Gym

Approximately 150 Knights of Pythias from 10 West Texas cities attended the Rathbone Bible class held at the high school gymnasium here last night. Twenty-eight new members of the lodges received initiatory obligations during the ceremony. Mel M. Ewen, Minneapolis, Minn., was in charge of the obligatory rites. He is supreme secretary of the national organization. Assisting Ewen in administering the obligation were Theo Yarborough, Texas grand vice chancellor for the organization, and Clarence McCaugh, Longview, and Royal G. Phillips, Austin, both past grand chancellors for Texas K of P lodges. Russell Hardin, Lubbock, grand master at arms, was also present. Addressing the delegations of Knights briefly following the service, Ewen called for a revival of faith in God, and in "our fellow man." Friendship is our best weapon against Communism and all other threats to the American way of life, he said. Paul Darrow, chancellor commander of the Big Spring lodge, presided at the meeting. Lodges in San Angelo, Lubbock, Abilene, Eastland, Brownwood, Odessa, Lamesa, Midland, Tahoka, and Big Spring were represented.

Funeral Rites For Longtime Resident Of City Set Today

Rites were to be said at 4 p.m. today at Sacred Heart Catholic church for Lorenzo Garcia, 72, longtime resident. He came to Big Spring in 1900 and had resided here since that time. For several years he operated a chili stand on lower Main and more recently had been employed on the Watson ranch. In failing health for two years, he died in a hospital Tuesday after a week's critical illness. Surviving are his wife, two sons, two daughters, a brother, two sisters, and two half-brothers and two half-sisters. Burial was to be in the Catholic cemetery.

City Man Injured In Auto Mishap

Luther O. Johnston, 65, hospitalized following an automobile crash which occurred some three miles east of here at approximately 9:30 o'clock last night, was reported resting well this morning by his attending physician. The local man was involved in a wreck with R. D. Pilkington of Snyder, who escaped with minor injuries. Charges of driving while under the influence of intoxicants were filed against Pilkington in county court this morning.

HCJC Construction Plans Strike Snag

Completion of plans and advertising for bids for the Howard County Junior college plant is snagged on grade levels. As soon as these levels are furnished by the city and county, the small amount of work remaining on plans will be completed. Then bids will be advertised. The HCJC board has indicated that a meeting will be called for formal plan approval immediately so bids can be asked.

Million-Dollar Meat Fraud Seen

By The Associated Press
A Texas state meat inspector said today he believes sale of horse meat as beef is a million-dollar racket. Ten-cent horse meat is palmed off as fancy beef steak by a clique operating in several states, said G. F. Reed. "This is my personal opinion, from facts gathered in the horse meat investigation in Houston during 1948 and 1949," Reed told newsmen in Dallas. Reed indicated the state may file charges "in the next day or two" against Dallas persons. Federal investigation already is underway following seizure of thousands of pounds of horse meat at Dallas, Houston and Fort Worth. All of it had been tagged as choice beef steaks. After the "big clique" he believes is involved now is the same group which distributed horse meat as hamburger in Houston schools two years ago, Reed said. "It may not be composed of the same identical individual. But the details fit in pretty close. These people are liable to be anywhere, and every one of them knows the other."

Local 4-H Clubbers Win Calf And Lamb Honors At Odessa

Howard county 4-H club members won premiums in both the calf and lamb divisions of the Odessa Livestock show Wednesday. The Howard county delegation placed first in competition for groups of five steers, in addition to several individual prizes. Darrell Robinson's lightweight milk-fed steer topped first place in its class. Other Howard county entries in that class included Perry Walker, third; Pat Lamb, fourth and Perry Walker, fifth; Delbert Davidson, seventh; and Wayne White, 10th. Perry Walker exhibited the second place animal in the heavy-weight dry-lot class, while Wayne White and Walker placed second and third, respectively, in the lightweight dry-lot class. Loris Overton held the second place heavyweight fine wool lamb, and Jess Overton's entry took fourth place in the same class. The Odessa show completes the out-of-town itinerary for the Howard county clubbers. They will conclude their showing season at the annual Howard county show which opens here next Tuesday.

Employer Shoots Ex-School Athlete

GREENVILLE, March 9. (U) — Johnny Patella, 21-year-old former high school athlete here, was shot four times early today at the Gilmer milk plant where he was employed. Q. M. Gilmer, owner of the concern, surrendered voluntarily to Chief of Police Leonard Petty. Petty said Gilmer declined to make any statement except to say "I shot him." Patella, father of two small children, is a son of John D. Patella, Greenville business man who recently ran for mayor. One shot was said to have lodged in his spine, paralyzing him from the hips down.

Mrs. Craig died at her home in Captain, N.M., where funeral services were scheduled probably for Thursday afternoon. Among survivors are a son, Conway Craig of Corpus Christi, publisher of the Caller-Times in that city. Approximately 30 years ago the Craig family resided in Big Spring.

Cat Survives 36-Hour Fire

MINERVA, O., March 9. (U) — An ordinary cat which emerged singed, thirty but alive after 36 hours in a fiery kiln was an object of scientific interest today. Dr. William Orr, the veterinarian in this village, exclaimed, "It's a strange case that wouldn't happen again in 100 years. The animal's (foot) pads were burned off. The top of its skull was scorched, the end of its nose was charred and its body was burned as dry as a cracker when it was brought to me." Dr. Orr pumped food into the baked puss's veins after putting the cat under sedatives. Today it was jumping into his lap to be fed. The cat was sealed accidentally in a kiln at a brick plant here reached up to 900 degrees Fahrenheit. Experts said no part of the oven was less than 400 degrees. When the kiln was opened Sunday, the durable feline tottered about before the astonished eyes of workers.

Cadillac

presents

FOUR NEW SERIES OF CARS...

..All Dramatically Restyled...and Powered by Cadillac's Sensational New Engine!

TODAY, we are presenting, for your consideration, the finest, most beautiful motor cars we have ever been privileged to announce. They are the new Cadillacs for 1950—and we want you to come and see them. We not only want you to see them—but we think you should see them. For to see and inspect these wonderful creations will make you a sharper judge of all cars—and increase your motor-car wisdom in every respect. There are four entirely new series of cars—all with wholly new bodies, and all completely restyled. We think you'll agree that nothing so sleek and dynamic and beautiful has ever been seen on the world's streets and highways. They are arrestingly and breath-takingly gorgeous—and all are *distinctively* Cadillac. And not only are they advanced in beauty—but their performance is finer in every way. Cadillac's great new high-compression engine is even smoother; it is actually quicker in acceleration; and it runs so quietly that only the indicators reveal when it is in action. It is simply wonderful to drive. And—difficult as this will be for owners of 1949 Cadillacs to believe—the 1950 cars are *even more economical to operate*. Gasoline mileage really approaches that of the smaller, lowest-priced cars. It is no less than amazing that cars so big and luxurious should run so far on a gallon of gasoline. Comfort and handling ease are also remarkably advanced. There is far finer road balance and over-all steadiness at all driving speeds. Steering is softer and more positive. Brakes are more efficient and longer-lived. The over-all satisfaction of driving—from every standpoint—is simply "out of this world." Truly, here are cars so fine and beautiful that they deserve your personal consideration. Make your plans now to come in and see them. You will be cordially welcome at any time.

Take Advantage Of Special Week

Ever want to get better acquainted with some of the newer members and yes, even some of the older members of the organization to which you belong? Did you ever wonder just how your club or church was founded and something of its accomplishments?

A good time to catch up on some of this neglected information would be during "Get Acquainted Week," which starts on March 19 with the Herald's special edition being issued on that day.

Club officers are requested to call the Herald with any special plans for programs or parties which they may have for that week. If you are planning participation in "Get Acquainted Week" in any way, please notify Mildred Young, Society Editor of The Herald.

Child Study Club Meets Wednesday Afternoon In J. C. Morgan Home

Mrs. Matt Harrington and Mrs. W. D. McNair were program speakers when the Child Study club met in the home of Mrs. J. C. Morgan, 1505 Main, Mrs. R. C. Thomas was co-hostess.

Taking as her subject "Discipline For The Older Child," Mrs. Harrington used Dr. Leslie B. Hohman's book, "As The Tree Is Bent." She stated that human material is easy to shape at birth and throughout young childhood.

She said that the author seemed confident that "if we can control training until the twelfth year, we can change radically the behavior patterns and personality of any child." She stated that the adult who talks to children without concession gets the best results, commands are seldom effective.

Mrs. Harrington emphasized the idea that older boys and girls are more likely to do what they are asked to do if they are given reason. Asking why, she stated, is a part of growing up. She also said that some children will accept punishment rather than give up what their group is doing. She declared, "We must try to find out what our children's friends are doing, so that we will better understand some of our children's ways which are puzzling and disturbing. Punishment which humiliates, rules which make a child seem young and different, make discipline problems instead of helping."

If punishment is to benefit older children, said Mrs. Harrington, it must be accepted by them as fair and reasonable. She stated that parents need to be equipped with shock absorbers so that they can take confidence and questions calmly. She said that religion is very important and that without it, morality has nothing on which to be based.

She closed by saying that "the solution to discipline problems is understanding. It is essential that we understand our children and that they understand us."

Beginning with a dictionary definition of the word, "Manners," Mrs. McNair, discussed "Manners." She stated that manners are a customary way of acting and that though they have gone through a great deal of streamlining that many fundamental manners have remained the same. She said that manners are not only helpful in the home, but that they make a better impression outside the home. Manners include all our relations with people, said Mrs. McNair, and their primary purpose for children is to so instill them with what is the easy and gracious thing to do that they become so skilled that they have no feeling of awkwardness. Good manners, declared the speaker, should become such an integral part of a child that he will know what to do and how to do it.

In teaching good manners, Mrs. McNair said that parents should first see that their children are happy. She said that a happy child learns easily and wants to please—because he feels right toward the person, he will do right by him.

The next step, stated Mrs. McNair, is to set a pattern of manners. She said that most authorities agree that manners should be taught in a formal direct way rather than by friendly reminders or nagging. She stated that such things as books, records, radio and even advertisements teach manners today. She closed by saying that manners should help the child to develop a feeling of being worthwhile and to be considerate of others.

Attending were Mrs. Roes Hopkins, Mrs. John Coffey, Mrs. Matt Harrington, Mrs. Charles Hildebrand, Mrs. J. D. Jones, Mrs. Harry King, Mrs. Cecil McDonald, Mrs. W. D. McNair, Mrs. W. R. Moad, Mrs. J. C. Morgan, Mrs. Joe Pickle, Mrs. R. C. Thomas, Mrs. R. W. Thompson, Mrs. Graham Purcell, Jr. and Mrs. Rhea Anderson.

David Guion's Works Are Program Theme

"The Works of David Guion, Native Texas Composer," were discussed at the meeting of the Music Study club in the home of Roberta Gay, 600 E. 15th, Wednesday afternoon.

Mrs. R. V. Middleton served as program leader. Program theme for the afternoon was "The Creative Period of Music in Texas."

Mrs. Middleton gave a discussion on Guion's life and background and of the music that he wrote.

A musical selection was presented by the sextette, composed of Mrs. Joe Fowler Brooks, Mrs. J. F. Neel, Mrs. C. C. Jones, Mrs. Bill Griese, Mrs. H. G. Keaton and Mrs. Homer Willoughby, accompanied by Mrs. Omar Pitman, Sr.

Mrs. J. M. McKinney and Mrs. Chester Barnes played a two-piano arrangement of "The Harmonics Player," Mrs. J. F. Neel sang "The Yellow Rose of Texas," and Mrs. J. A. Jolley played the piano solo, "Turkey in the Straw." Mary Jane Hamilton sang two numbers, "White Clouds," and "One Day."

Other musical presentations included two Southern tunes, "To the Sun," and "Mamelle Marie," both sung by Edith Gay, Mrs. H. M. Jarratt and Mrs. Bill Griese played the negro ballad, "Shingend." The concluding number on the program was a two-piano selection, "Ships and Gosta," by Mrs. Everett Ellis and Roberta Gay.

Those attending the meeting were Mrs. Chester Barnes, Mrs.

Fred Beckham, Mrs. Everett Ellis, Mrs. Bill Griese, Mrs. J. E. Hardesty, Edith Gay, Mary Jane Hamilton, Mrs. H. M. Jarratt, Mrs. J. A. Jolley, Mrs. C. C. Jones, Mrs. H. G. Keaton, Mrs. B. M. Keese, Mrs. R. V. Middleton, Mrs. J. M. McKinney, Mrs. J. F. Neel, Mrs. Omar Pitman, Sr., Mrs. Ed Swift, Mrs. Harold Talbot, Mrs. Homer Willoughby and the hostess, Roberta Gay.

FLYING SAUCER IS SIGHTED IN MIST

VAN NUYS, Calif., March 8. (AP)—Here comes those flying saucers again. Police here early today reported that they had received numerous calls from citizens who said they saw a flying saucer skip through the foggy San Fernando Valley sky.

Composer Eddie Coffman said he first spotted the bright object while driving. He said it appeared to be about 400 feet in the air and traveling at extreme speed.

Coffman said he sped back to his home, woke his next door neighbor, Actor Reed Hadley and Mrs. Hadley.

The three of them were discussing the saucer when he said it appeared again. They looked at it with a 20-power telescope and estimated it to be 50 feet in diameter and black on top.

Reminded that the moon was in about the same position in the sky, Coffman said:

"I've seen a lot of moons, being past 21. If that was the moon, it looked most peculiar."

The police reported that several other citizens reported seeing the object. Newspapers in nearby Los Angeles also received a number of calls from persons who reported seeing the same object.

'Missed Drill' Term To Be Reviewed

LOND BEACH, Calif., March 9. (AP)—Can a superior officer jail a national guardman for missing drills?

Superior Judge Fred Miller today will review the nine-day sentence of Pvt. Glenn M. Roberts, 19, who has been in jail since Monday. The sentence was imposed by Lt. Col. Willis T. Lyman, executive officer of the National Guard 294th Aircraft Group, who sat as trial judge advocate at Roberts' court martial.

Roberts was freed yesterday without bail on a writ of habeas corpus.

FIGURES IN HEARING ROW—Sen. Joseph R. McCarthy (R-Wis.) (right) smiles but Sen. Millard Tydings (D-Md.) doesn't as they face each other across a table in Washington at the start of an unceremonious Senate foreign relations subcommittee hearing on McCarthy's charges that a Communist spy ring is operating in the state department. Tydings, chairman of the group, told McCarthy: "You are going to get one of the most complete investigations in the history of this country." (AP Wirephoto).

Wild Judo Battle Pops In Home Of Film Star Cagney

HOLLYWOOD, March 9. (AP)—There was a wild judo battle early today in the home of Jimmy Cagney.

The movie tough guy, though quite handy at the sport, did not take part.

Police said Kenneth Kuniyuki, 39, former butler at the Cagney home, called to see his estranged wife, Elizabeth, 29, a domestic for the actor. She expressed fears for her safety and sought aid of Jack Sergei, Cagney's bodyguard.

The wife told police that Kuniyuki, a judo instructor, struck her and then Sergei went into action. He is a former police department judo instructor and soon restrained Kuniyuki.

Police booked the ex-butler on battery charges.

VA Regional Office At Lubbock Will Reduce Personnel

The Veterans Administration regional office, Lubbock, received detailed instructions today for making reductions in personnel called for by Carl R. Gray, Jr., administrator of veterans affairs.

Some 65 positions in the regional and other VA offices in West Texas will be affected by the change, according to Robert Sison, regional manager. No changes in personnel at the Big Spring office are anticipated.

Loss of the 65 positions will affect approximately 25 persons now working for the VA as there were a number of vacant positions when orders for reduction were received. Personnel adjustments must be accomplished within 30 days, and no curtailment of service to veterans or their beneficiaries is expected.

Father Gets Life On Murder Count

WAXAHACHE, March 9. (AP)—Jerome Brock, 37, was found guilty of murder with malice by a jury here last night and sentenced to life in prison.

The jury deliberated two hours and 51 minutes before announcing the verdict.

Brock was charged in the death of his three-year-old son, Denny, at Ennis Jan. 17.

Testimony by County Health Officer B. C. Wallace showed the child died of internal injuries received when it was dropped, struck or stomped.

DE Club Of City High School Will Hold Banquet Today

Members of the Distributive Education club of the Big Spring High school will hold their first annual banquet tonight at 7:30 in the Settles hotel.

Guests for the occasion will be employers of the club members.

Both student and guest speakers will participate in the program. W. E. Greenlees, Big Spring city judge, will give the principal address. His topic will be "Values of Yesterday, Today and Tomorrow."

Phillips' Bid On Oil Lease Wins

WASHINGTON, March 9. (AP)—High bidder for a lease on 1,300 acres of federal oil and gas lands in Moore County, Tex., is Phillips Petroleum Co., Bartlesville, Okla.

The firm yesterday offered a bonus of \$106.66 an acre for a five-year lease on all six parcels of the former cactus ordinance works military reservation at Etter.

FAIR SAILING AHEAD

Business Outlook For Nation Clears Up After Coal Strike

WASHINGTON, March 9. (AP)—The barometer of 1950 business, badly clouded by the coal strike, was reported clearing nicely today to a forecast of sunny and generally prosperous.

President Truman's Council of Economic Advisors, while not issuing any statements, reportedly felt that the mine shutdown brought a bad fright but no lasting damage.

Hearings Scheduled On Military Housing

WASHINGTON, March 9. (AP)—An armed services subcommittee will open a hearing Monday to determine housing needs around military and naval centers.

Lyndon B. Johnson (D-Tex.), chairman of the group, said yesterday he had reports that housing is needed at several air force installations in Texas, including Biggs Field, El Paso; Sheppard Field, Wichita Falls; Connally Base, Waco; Carlisle Field, Fort Worth; Kelly, Randolph and Brooks Fields, San Antonio; and Bergstrom Field, Austin.

Some federal economists feel the pent-up production which now is released may give an extra fillip to business, sales and employment, in the process of catching up on deferred orders.

Others, who had feared a slump after midyear, now believe a let-down may be postponed—possibly even until next spring—when the usual seasonal upturn might cancel it entirely.

Grain Elevator Is Destroyed By Fire

LITTLEFIELD, March 9. (AP)—The T. W. Walker grain and seed elevator here was destroyed by fire last night. Damages were estimated at \$115,000.

From 60,000 to 75,000 bushels of mile and wheat spilled on the ground as the building fell apart.

ally prosperous.

The council, informed officials said, is again standing on its official January appraisal that for 1950 "the economic outlook is good."

The economy does not expand when men are idle, Clark said. If the strike should continue until April or after, he predicted, it would bring serious unemployment and a "terrible demoralization" of industry.

Some federal economists feel the pent-up production which now is released may give an extra fillip to business, sales and employment, in the process of catching up on deferred orders.

Others, who had feared a slump after midyear, now believe a let-down may be postponed—possibly even until next spring—when the usual seasonal upturn might cancel it entirely.

Emphasizing that it is too early to gauge the force of industry's rebound, one top-ranking economist noted the ambitious schedules set for restoring output in the steel, auto and metal-working industries. He commented:

"I can't see anything except a very favorable prospect in the coming months."

This could be upset by more big strikes. The impressive gains won by John L. Lewis' miners—which broke an almost solid front of employer resistance to sizeable "fourth round" wage boosts—is ex-

pected to inspire other unions to more aggressive demands.

The dangers involved were pictured by John D. Clark, a member of the President's Economic Council, on Feb. 15 when the coal strike was beginning to choke railroad, steel and public utilities.

British Labor Regime Facing Life-Death Test

Criticism Of Steel Nationalization By Tories Is Issue

LONDON, March 9. (AP) — The British Labor government faces the first life-or-death test of its narrow parliamentary majority today in a Tory-inspired vote of criticism on the steel nationalization law.

Political observers on all sides agree that should the Laborites, with a bare edge of only seven seats in the house of commons, lose the vote the government of Prime Minister Attlee would be forced to resign, giving way to new national elections.

The independent London Times said today the defeat of the government on the vote, which was proposed by Conservative Leader Winston Churchill, "must lead to their resignation."

The Liberal Party — with only nine members in the Commons — could swing the voting either way. If a few Laborites fail to show up for the voting set for 10 o'clock tonight (5 p.m. EST).

The Liberals came out flatly in their election campaign against nationalization of industry. But some observers felt that they might not want to bring on new elections by going against labor at this time, preferring to wait until they could muster more political strength.

14 Prisoners Die In Blazing Guardhouse

ALBUQUERQUE, N. M., March 9. (AP)—Oil-fed flames, leaping lightning fast through a Sandia base guardhouse, snuffed out the lives of 14 military prisoners last night.

Trapped with them in the tindery dry wood structure, the prison's other two inmates were injured critically. It was the first major disaster in the history of the war-

built installation — now a semi-secret assembly point for the atomic bomb. Two guards, alerted by prisoners' cries, vainly tried to rescue them from behind bars and meshed wire windows. They were overcome along with six others fighting the blaze. Twenty additional officers and men also were treated for

Senate Red-Hunters Following New Trail

WASHINGTON, March 9. — Sen. McCarthy (R-Wis) pointed the Senate's wrangling Communist hunters toward fresh targets today among State Department employees after his first charge was hotly denied by a woman former judge.

McCarthy, who has said that Communists are now—or have been—working for the department, was ready at today's hearing to enlarge and document his charges that Miss Dorothy Kenyon has been listed as a member of 28 subversive organizations.

The senator also brought into his testimony the name of Dr. Philip C. Jessup, the State Department's ambassador-at-large, who he said was listed as a sponsor of a subversive organization.

Chairman Tydings (D-Md) of a Senate foreign relations subcommittee hearing McCarthy's charges, said any persons accused by the Wisconsin senator will get a chance to testify later in their own behalf.

Miss Kenyon, former New York municipal judge who served a three-year term ending last December as U. S. delegate to the UN Commission on the Status of Women, called McCarthy a liar for his charges that she belonged to Communist front groups.

She said she never heard of most of them, although she may have

City VA Hospital Employees Give 100 Pct. To Red Cross

The employe group at the new Veterans Hospital is among the first to be reported as 100 percent donors to the current Red Cross campaign.

It will be the hospital, Red Cross officials point out, that will require considerable assistance from the organization, when it goes into operation this year, as service men and their families needing it will be given Red Cross aid.

The Big Spring Herald employes also were reported as 100 percent contributors Thursday. Meanwhile, the general campaign fund had gone up to \$3,188.50. This is less than a third of the goal of \$11,000.

Solicitation continued on several fronts, in the business area, the residential sections and in the rural communities. Reports have been slow coming in, however, and Campaign Chairman Champ Rainwater issued a new appeal for workers to turn in their reports as promptly as possible.

Drive headquarters are in the lobby of the Douglas hotel, where volunteer contributions are being received.

Bank Robbers Take \$63,933

NEW YORK, March 9. (AP)—Five bank robbers forced employees of the Sunnyside, Queens, Branch of the Manufacturers Trust Co., into the basement today and escaped with \$63,933.

The robbery was one of the most thoroughly planned that Queens police have encountered in years. As James Weston, bank robber, inserted his key in the lock to enter, a robber shoved a pistol against his back, warned him to remain quiet. The robber followed Weston in the building. In a matter of seconds he was joined by two fellow robbers.

The three chained Weston to a radiator in the vestibule and instructed him to let the bank employees in as they arrived and not to give warning.

Chiang's Planes Hit Red Invaders

TAIPEI, Formosa, March 9. (AP)—Nationalist warplanes rained bombs incessantly today on the Communist invaders of strategic Weichow Island, off the South China coast.

Radio contact with the Nationalist defenders has been lost. It was not clear whether that meant all resistance on Weichow had ceased.

Weichow is not a large island. But it may become a Red airfield for attacks on Hainan island or serve as a lookout post for any Nationalist attempt to invade the mainland from Hainan.

Two Texans Die In Air Base Blaze

ALBUQUERQUE, N. M., March 9. (AP)—Two Texans were among those who died in the military prison fire at Sandia Air Base last night.

They were Pvt. Jose V. Torres, 21, whose wife, Micaela Luna Torres, lives in San Antonio, and Wallace Wakeland, age and grade unavailable, whose mother, Mrs. W. M. Wakeland, lives on Rt. One, Godley.

Judy Gets 15 Years For Spy Conspiracy

Red Deported To Avoid Danger To U. S. Nationals

WASHINGTON, March 9. (AP)—Deportation to Russia rather than a prison term was decided upon for Valentin A. Gubitchev, convicted spy plotter, to avoid endangering Americans in Soviet-dominated eastern Europe.

The State Department noted today that the United States and Russia have been at odds over whether Gubitchev should have been granted diplomatic immunity.

Concerning this and the reason for the decision to deport him the department said in a statement: "It is considered important that any misunderstanding by the Soviet government in regard to the Gubitchev case should not have the consequence of prejudicing the situation of American citizens in eastern Europe including diplomatic officers and other officials."

The statement said the State and Justice Departments decided it would "best serve the public interest" to deport the Russian United Nations official.

In ordering the deportation of third secretary in the Russian foreign ministry. Gubitchev identified himself as the Russian, Judge Sylvester Ryan said in New York that he acted on recommendations of the State and Justice Departments.

Deportation Of Gubitchev To Russia Ordered

Immediate Appeal For Miss Coplon Is To Be Filed

NEW YORK, March 9. (AP)—Judith Coplon was sentenced to 15 years in prison today for plotting to spy for Russia. Her ex-love, Russian Engineer Valentin A. Gubitchev received a 15 years suspended sentence and was ordered deported to the Soviet Union within two weeks.

The deportation order for the 33-year-old, short, dark-faced Russian was recommended by the government as a result of conference between the State Department and the attorney general's office.

Federal Judge Sylvester J. Ryan sentenced brunette little Miss Coplon to five years on an espionage charge and 15 years on a count of attempted espionage, the sentences to run concurrently.

He specified that the term imposed might not be served concurrently with a sentence of 40 months to 10 years she received in Washington, D. C., in kindred charges. The judges refused an application to release her in bail.

Samuel A. Neuberger, attorney for the 28-year-old Miss Coplon, said he would file notice of appeal immediately.

Miss Coplon could have received 25 years in prison and a \$10,000 fine. Gubitchev faced a maximum of 15 years in jail and \$20,000 fines. U. S. Atty. Irving H. Saypol told the court of the government's recommendation for Gubitchev before sentence was imposed. He said it was the personal recommendation of the secretary of state and the attorney general.

Bond Election To Be Canvassed By City School Board Today

Canvass of Tuesday's bond election, in which voters gave overwhelming approval to a \$950,000 high school bond issue, will be accomplished at the meeting of trustees of the Big Spring Independent school district today.

The meeting, set for the administrative offices, will begin at 7:30 p.m. Steps will be taken for advertising bids on the issue. Other matters on the agenda will include reports from various departmental heads, a review of progress on the current scholastic census, and calling the trustee election for April 1.

Worley Receives Senate Confirmation

WASHINGTON, March 9. (AP)—Rep. Eugene Worley (D-Tex) has received Senate confirmation as associate judge of the U. S. Court of Customs and Patent Appeals.

Sen. Connally (D-Tex) told the Senate before the voice vote yesterday that Worley is "very capable" and that he "unhesitatingly recommended" him for the post.

EUTHANASIA IS ISSUE

Final Arguments In Sander Trial Begin

MANCHESTER, N. H., March 9. (AP)—A jury trying Dr. Herman N. Sander for murder today heard a prosecutor demand his conviction for "taking the law into his own hands" in the death of a cancer ridden patient while the defense counsel declared the woman died of her illness.

Closing arguments brought the issue of euthanasia into the forefront of the trial with Chief Defense Counsel Louis E. Wyman insisting "that is not the defense in the case" even though the prosecution raised the question.

Dr. Sander is on trial for first degree murder on charges he killed an incurable cancer patient "with malice aforethought" by injecting 40 cubic centimeters of air into her veins.

The patient was Mrs. Abbie C. Borroto, 59, Manchester housewife and a close personal friend of the defendant.

Prosecutor William L. Phinney, in his 35-minute summation, again failed to ask the death penalty for Dr. Sander but he did ask for a verdict of guilty of first degree murder.

Defense Chief Wyman had claimed that the state failed to prove that Mrs. Borroto was not dead when Dr. Sander injected air into her arm in an "irrational act."

While the prosecution did not demand the death penalty, it is still within the province of the jury to recommend death by hanging if it returns a conviction for first degree murder. Without such a recommendation life imprisonment is the maximum possible penalty.

Judge Harold E. Wescott's charge to the jury was to be made after the noon recess which followed the conclusion of Phinney's summation. Then the jury will retire to reach a verdict.

Officials Explain Procedure Of Cotton Acreage Allotment

Some 75 Production and Marketing Administration officials from 25 West Texas counties were in Big Spring today for explanation of cotton acreage allotment measurement procedure for 1950.

Roy Veal, College Station, state PMA leader, led discussions on the allotment program. He was assisted by A. H. Jefferies, District PMA field man from Abilene, and Howard Kingsbery, state committee man from Santa Anna.

Gabe Hammack, Howard county officer, and the local PMA organization were hosts for the all-day meeting. Representatives of counties extending from the New Mexico border to Fisher county on the north east and Kimble county on the south east were present for the discussions.

Big Boston Fire

BOSTON, March 9. (AP)—A million dollar fire whipped through two commercial buildings, jumped to a third, and threatened a rich downtown business district before it was controlled early today.

Fire Chief John McDonough estimated the damage.

Draft Keeping Fires Of France Burning

PARIS, March 9. (AP)—Thousands of utility workers struck throughout France today out a government draft of key personnel kept the lights and gas burning.

The only immediate noticeable effect of the stoppage was a lowering of gas pressure. Householders found it took a long time to cook breakfast.

Industry did not appear to be hit by the walkout which had been scheduled to begin at midnight last night.

At least 10 per cent of the 100,000 workers in the nationalized utilities were at their posts, drafted under the war powers act of 1938. Though all utility workers were subject to the "requisition," which provides jail terms for violators police yesterday delivered the draft notices only to 10,000 key men, a government spokesman said.

A spokesman at the ministry of commerce and industry said no worker had rebelled at the draft. The ministry said it had no immediate information on how many of the other 90,000 utility workers had struck.

Reports from outside Paris indicated the strike was having small success in other major French centers. Gas and electricity services were reported normal in Dijon.

Tests For Census Enumerators Set For Friday Here

Interviews and tests will be held at 10 a. m. Friday at the chamber of commerce for all applicants for positions as enumerators in the Howard county census, Sam Goldman, county supervisor, announced this morning from Lubbock.

Howard county and Big Spring has been allotted a quota of 20 enumerators for the 1950 census. Goldman said. He was in Lubbock Thursday working out details with the regional Bureau of Census office for initiating the population count here April 1.

Persons applying for enumerator positions must not be more than 65 years of age and have a high school education, Goldman indicated. Representatives of rural communities and towns surrounding Big Spring who are interested in making the count of their areas have been requested to appear for the interview.

Tests will also be given at 2 p. m. Friday and at 10 a. m. Saturday for those who have already submitted applications and appeared for interviews, Goldman said.

Civil Service Exams For Local VA Hospital Posts Announced

Civil Service examinations, affecting approximately 150 positions at the Veterans Administration hospital here, were announced today.

Twenty-seven job classifications are involved in places that will pay from \$2,120 to \$3,400 per annum. Most of the places are due to be filled by Big Spring residents. Deadline for applying for examinations is March 30.

Although there have been numerous inquiries locally, no information concerning the big block of jobs, for which Big Spring people would have prime consideration, was available until today.

Information on these places and concerning examinations may be had from W. H. Bacus, executive secretary of the board of U. S. civil service examiners at the Veterans Administration hospital, or from the civil service secretary at the U. S. postoffice here. An alternate source of information is the regional director of the 14th U. S. civil service region, 210 E. Harwood, Dallas 1, Texas.

BAN ON CANADA IMPORTS IS ASKED

WASHINGTON, March 9. (AP)—New demands for a "safety valve" to shut off imports of Canadian potatoes, apples and grains and other foreign farm products came today from Senator Magnuson (D-Wash).

Magnuson asked changes in the administration's tariff-cutting reciprocal trade agreements program as part of a \$2 billion increase in the government's price support funds.

Chairman Elmer Thomas (D-Okla) said a Magnuson amendment said through the Senate agriculture committee yesterday "without objection."

At the same time the Senate group gave unanimous approval for increasing the price support au-

thority of the Commodity Credit Corp. to \$6,750,000,000, a \$2 billion hike.

This is the agency that maintains farm prices at levels ordered by Congress through loans and purchases of price-depressing surpluses.
