

**BEST DRESSED STUDENTS** — Jess McIlvain, left, junior from Lubbock, and Charlene Williamson, senior from Ft. Worth, were named Tech's Best Dressed Man and Coed by a panel of Charm-Course judges. Miss Williamson will represent Tech in a national contest sponsored by Glamour Magazine to find the ten Best Dressed College Girls in America. (Staff Photos by Joe Spears)

## Best Dressed Picked At Tech Charm School

Charlene Williamson and Jess McIlvain have been named Best Dressed Coed and Best Dressed Man on campus, by a panel of judges made up of representatives from campus organizations. The naming of the two is in conjunction with the Charm School being sponsored at Tech Union.

As Best Dressed Coed, Miss Williamson will represent Tech in a national contest sponsored by Glamour Magazine in a search to find the 10 "Best Dressed College Girls in America." These 10 girls will be selected by editors of the magazine and will be featured in the August issue which is being devoted to college fashions.

Thursday night the Charm Course will be continued with Peg Murphy from Isbell Powell's pre-

senting the program for Charm Inc. She will talk on things of general interest in etiquette and situations that girls meet in everyday life. Charm Inc. will meet in the Union Ballroom Lounge at 7 p.m.

An extra meeting of Charm Inc. for women will be held on April 11 in the Ballroom Lounge at 7 p.m. This added week is to make up for the meeting on hair styling which was not held. Jessie Lee of Lubbock will present the program.

Esquires, Inc., will be meeting for the last time this week. They will meet in the Ballroom from 7 to 8:30 Thursday evening for a panel discussion on dating. Members of the panel will be Jack Beckner, Glen Cary, Edwina Schovajsa and Marianna Wilson.

## Fifth Speech Meet Scheduled Monday

The fifth intramural speech meet will be held Monday.

Scheduled events are Poetry Reading, Bible Reading, Radio Speaking, Extemporaneous Speaking, Declamation, Original Oratory, After-Dinner Speaking and Dramatic Interpretation. Contestants will be given 1 point for entering, 7 points for excellent and 10 points for superior ratings. Each organization may enter two people in each event.

After four of the six weeks, Phi Gamma Delta leads the tournament with 233 points. Westminster Fellowship is second with 231 points, Pre-Law Club is third with 217 and Sock 'N Buskin is fifth with 97 points.

Entries should be turned in by noon Friday accompanied by a 25-cent fee for each person entering.

Wick Alexander, Tech junior from Amarillo, was elected president of the Texas Intercollegiate Student Association at the TISA convention in Beaumont last weekend.

Other TISA officers are: Bob Wilkerson, West Texas, vice president; Roberta Stewart, SMU secretary; Steve Shepro, Rice, treasurer and David Burrow, McMurry, parliamentarian.

TISA, which represents 39 colleges and 100,000 students passed a resolution concerning the 14 state-supported school teachers' salaries. This action is in concurrence with a bill before the state

legislature. Seven students attended the convention as delegates from Tech.

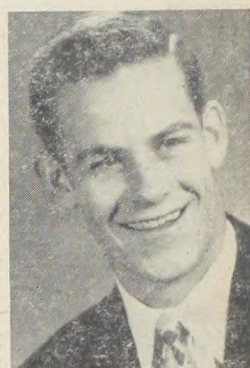

The association also passed resolutions telling delegates to contact state officials, urging the passing of the appropriation bill to raise teachers' salaries in Texas.

It was also resolved that as newly elected president, Alexander should try to get on the State Commission for higher education as a non-voting member. The commission is appointed by the Governor and deals with matters affecting higher education in Texas. TISA felt that much valuable advance information could be gained by having the president on the board.

Other duties of Alexander will include visiting other colleges to arouse interest in TISA and help plan the conference for next year.

The conference was divided into eight "buzz" groups and topics for discussion included integration, increasing enrollment, and legislative affairs.

The Tech delegates were in charge of two research surveys; student publications and financing student government.

WICK ALEXANDER

Delegates from Tech were: Wallace Wilson, Glynn McGee, Charlene Williamson, Eva Garza, Rex Aycock, Edwina Schovajsa, Alexander and Dr. Wayland Bennett, faculty sponsor. Miss Williamson was the TISA secretary last year.

## 91 Petitions Filed As Deadline Nears

As of yesterday, 91 persons had taken out petitions for Student Council and cheerleader positions to be filled in a campus election April 10.

All petitions must be signed and returned to the council office, Ad 161, by 5 p.m. Wednesday. No campaigning will be conducted before that time.

Candidates for president and vice president must have 90 or more semester hours. Business manager, secretary and cheerleader candidates must have 60 or more semester hours.

Student Council representatives must be enrolled in the school they are representing and have 30 or more semester hours.

All candidates must be regularly enrolled in 12 or more hours

Candidates entered in the coming campus election are requested to turn in a billfold-size picture to the Toreador by 1 p.m. Friday.

The picture should be accompanied by an information sheet giving candidates' name, major, classification and memberships held in campus organizations.

The picture and information will be used in The Toreador's special election edition on April 9.

and have a 1-point grade average overall, the semester preceding and the semester elected.

President and vice president candidates are David Thompson and Wick Alexander, respectively. Frank Jones and Don Ledwig are candidates for business manager.

Two coeds, Mickie Patterson and Pat Rainer, have announced candidacy for secretary.

Arts and Sciences candidates are: Chuck Strehli, Peggy Miller, Sandra Shields, Carolyn Porter, Kay Adkins, Billy Bob Park, Sandra Hemmle, Wayne Gibbons, Gail Peterson, Don Grimes, Marilyn Adrian, Judy Roberts, Linda Shile, John Roberts, Gerald Myers, Johanna Zornas, Caroline Wood, Judy Harris, Mary Etta McDuffie, David Steinman, John

see PETITIONS, p. 2

## 25th Annual Engineering Show Scheduled

Senior Tech engineering students will sponsor the 25th annual Engineering Show April 12 and 13, held concurrent with Region I Interscholastic Meet.

The show will be open to the public from 2 to 10 p.m., according to Lynn Elliott, assistant manager.

Purpose of the show is to acquaint the public with the type of work taught in different departments, allowing them to observe processes, equipment and machinery that is used, and to give visiting high school and junior college students an opportunity to investigate the various fields of work offered in engineering and science.

Prizes will be awarded to departments on the basis of presentation. No prizes for individual work will be awarded.

Guide service will be provided for large groups of students.

Officers are: Bill Bynum, general manager; Elliott, assistant manager; Ralph Cooper, publicity; Noel Rietman, traffic; James Vanderford, electrical engineering; Butch Lawrence, advertising; Tom Ashley, mechanical engineering; John Buswell, industrial engineering; Jeral Jackson, petroleum engineering; Bob Jester, civil engineering; Gerald Bradley, textile engineering; John G. Adams, agricultural engineering; Eugene McNeese, chemical engineering; Bill Blakely, physics; Billy Joe Reynolds, chemistry; Fred Gloyna, military science; Harold Sanders,

air science; Carl Preston, architecture and allied arts.

Electrical engineering will display a modulated car horn, parabolic sound pick up, Tesla Coil receiver, High-Fi demonstrations and strength tests.

Civil engineering will have displays of hydraulic equipment, construction of a highway, surveying equipment and a model water treatment plant.

Displays of mechanical engineering will be turbines, generators, pumps, cutaways of engines, compressors, light plants and refrigeration units.

A pumping unit in operation and service company displays will be projects of petroleum engineering.

Industrial engineering will show movies on industry in Lubbock, safety and phases of industrial engineering, and set up displays of safety devices and plant design.

Unit operating instrumentation, classification and fuel labs will be opened to the public by chemical engineering. Students will also have a project.

Architectural department of architecture and allied arts will present studies of architectural contributions throughout the ages, architectural design of various types of buildings and architectural studies in clay and other media.

Allied arts will have displays of freehand drawing, watercolor see ENGINEERING SHOW, p. 2

**ENGINEERING SHOW LEADERS** — Top staff members for Tech's 25th annual engineering show April 12-13 have been working for many months on show plans. Seated is R. L. Newell, assistant dean of engineering and show sponsor and advisor, and Patsy Pierce, show secretary. Standing, left to right, is Lynn Elliott, assistant general manager and advertising manager, Bill Bynum general manager; and Eldon Reynolds, business manager.

### ELECTION CLEANUP . . .

Election days are getting mighty close. At approximately 5:01 tomorrow afternoon, Tech will begin a transformation as campaign posters, handbills, and signs of all sorts are plastered across the campus. Student body election time usually proves to be one of the most interesting periods of the school year, and this season seems to be no exception. Electioneering is already under way, with 91 Techsians already signed up to run for one office or the other.

In the past candidates have simply plastered the campus with all sorts of signs and posters. Last year there were so many signs that students lost all interest in them and as a result many of them failed to be noticed.

This year the Student Council has taken definite steps to regulate the type, size, and the number of posters each candidate can have. In an effort to encourage more students to enter the elections the council has put a limit on campaign expenses.

The Toreador commends the council for adopting the election regulations and its efforts to keep our campus attractive during elections. However, in commending the council, we must also encourage it to take immediate steps to disqualify any candidate disobeying the regulations. —Wayne James

### SAD AWAKENING . . .

Everyday we are bombarded with stories about how desperately college graduates are needed. Magazine and newspapers run article after article on the astounding opportunities awaiting us. The lists of job interviews would appear to be endless.

Fabulous starting salaries are constantly stressed. It seems that all we have to do is sit back and let employers start bidding.

There's only one thing wrong with this "waiting" theory—it might not work. Some of those who sit back, waiting for that golden opportunity to present itself will face a cold day in May when they have a diploma and no job.

Publicity would make it seem that every college graduate is assured a good job upon graduation. Nothing could be further from the real situation.

The top students in the certain shorthanded fields can take their pick of offers. But the great majority of graduates will have to work at getting jobs. Not all students in our colleges and universities are in fields like engineering. Even the engineering students are not all of the caliber demanded by modern industry.

Too many college students are taking the "Here I am, come and get me you lucky people," attitude. There are a lot of them that are in for a sad awakening. —Arizona Wildcat

### Circle K Member Elected To Office

Talmadge Wright, junior economics student from Pampa, was elected regional lieutenant governor of Circle K at the organization's district convention at Baylor last weekend.

Tech was also selected at the site for the 1958 convention for Region I of the Texas-Oklahoma district. Dr. Howard E. Golden, associate professor of marketing, was selected as regional Kiwanis

advisor to Circle K.

Techsians who made the trip are Don Avery, Dave Burger, Jim Chiles, Judd Howlett, Don Ledwig, Joe Stephens, Howard Wallace and Wright. Dr. Golden and George Leusing, head of the Internal Revenue Department in Lubbock, and honorary member of Circle K, accompanied the group.

## THE TOREADOR

The Toreador, student newspaper of Texas Technological College is regularly published each Tuesday, Thursday and Friday on the campus at Lubbock by the associated students of the College, and is financed by student activity fees, advertising and subscriptions.

### Release of Grades Slated April 10

Mid-semester grades will be available around April 10, according to Warren P. Clement, registrar and director of admissions.

Grades may be picked up at the usual places—those being the West Engineering building for engineers, Ad building for business and arts and sciences majors, and Ag building for agriculture majors.

Home economics majors will receive their grades from their advisors in the Home Ec building.

### Parking Problems Discussed Tonight

The Oxford Debate, sponsored by the Union at 7 p.m. today will be a panel discussion concerning the parking situation on the campus. Moderator will be Jerry Fletcher.

The panel will try to present both sides of the problem. After the discussion there will be a period for the audience to ask questions.

### LITTLE MAN ON CAMPUS

by Dick Bibler

### TECHSANS TALK BACK

Dear Editor,  
Throughout the Fall semester and presently in the Spring semester there have been numerous contributory drives on the Tech campus to raise funds for needy causes; these drives are unmistakably worthwhile and necessary in view of the fact that the United States is looked upon as the most prosperous economy in the world today.

However, "here's the rub" — Tech students are getting rather leery toward the fact that at every corner there is a contributory container to deposit money. Repetitious drives are just not psychologically sound. Why not have one (1) campus drive per semester with a different agency represented each time? This way an agency that did not get to campaign on the campus during the current semester would have the opportunity the following semester.

I realize that some campaigns are instantaneous in nature and these should be accounted for as the situation arises, e.g. Hungarian Relief Drive. I do not propose the abolition of campus drives, only their curtailment.

As to the nature of student participation in these drives, I'd like to commend the residents of Gordon Hall for their contributions toward the World University Service Drive, and the help received from Drane Hall. Gordon Hall was able to contribute fifty dollars towards this worthy cause.

Sincerely,  
Don D. Gray  
President, Gordon Hall

Many thanks for your letter of March 26 with which you enclosed the 20-foot petition bearing some 2,500 signatures of Tech students requiring that the faculty salaries be increased at Texas Tech or adjusted to those now being paid at the University of Texas.

I want you to know that I appreciate your petition very, very much, and, certainly, I am delighted with the interest that the students have shown on legislation that would accomplish their purpose. It is through efforts like this that a solution can be found for our problem. Of course, this solution may not come about over

night, but with the students and others working with so much interest, it is bound to be accomplished before long.

Sincerely,  
Preston Smith  
Senator

The above letter was received by Circle "K," sponsors of the petition.

### Latin American Meet Scheduled

The fourth annual Rocky Mountain Council for Latin American Studies is scheduled Thursday through Saturday on the campus.

Representatives of at least 22 colleges and universities in an eight-state Rocky Mountain region already have made arrangements to attend the conference, which will have some of the western hemisphere's widely recognized authorities as speakers.

The Tech Union will be headquarters for the meeting. Registration will begin at 4 p.m. in the Anniversary Room and an informal reception will be held at 7:30 p.m. in the same room.

Highlights of the opening session Friday morning in the Ballroom will be an address and panel on the writing of Ibero (Latin) American history.

Principal speaker will be Lewis U. Hanke, director of the University of Texas' Institute of Latin American Studies. Panelists will include B. L. Gordon, New Mexico University; Thomas Herrick, Arizona State College; and Fred Crawford, Texas Tech.

Sen. Dario Cardoso, attorney general of Brazil's Institute of Immigration and Colonization, will address a 12:30 p.m. luncheon in the Union Building ballroom lounge.

Highlights of contemporary cultural life in Ibero America will be the subject of research papers and a panel discussion Friday afternoon session in the Ballroom.

### PETITIONS . . .

cont. from p. 1  
Green, Warren Dunn, Bill Didlake, Derry Harding, Dee Hillin.

Seven candidates have taken out petitions for Home Economics representatives. They are: Jean Elliott, Lynn Cundiff, Janet Vines, Cora Jean McMurry, Carolyn Williamson, Billie Sue Gregory, Sammie Fowler.

List of Agriculture candidates include: Bob Byrd, Teddy Carthel, Robert Key, Jack McAninch, Kent Shannon, Lee Ledrick, Jerry Katara, Dannel Echols.

Business Administration hopefuls are Ann Denny, Dub Heflington, Eva Garza, Anncey Gibbs, Jack Boggess, Boll Boyd, Paula Bell, Elizabeth Wilson, Odie Rippey, Bruce Lokey, Bernard Scott, Janice Green, Cary McAdams, Larry Merriman, Dan Howard.

Candidates for Engineering representatives are: Tom Shamburger, Milton (Rabbit) Vaughn, James R. Perkins, Claude Rogers, Gerald Robert Seaman, Phil Teeling, Johnny Cochran, Lewis L. Hungate, Don Spencer, Joe Gilliland, Jay Dunlap, Don Clough, David Pennington, Bob Dyer, Jim Leary, Dale Bippus, Lynn Elliott, Bob Cromwell.

Candidates for the five cheerleaders positions are: Kay Alexander, Jay Johnson, Joe Naylor, Dick Sewell, Morris Neil Stewart, Stan Powers, Susie Miller, Marilyn Morris, Karen Williams, Bill Bean, Jerri Lewis, Sharla Pepper, Jimmy Thrush, Monita Apple, Lewis Stone.

### ENGINEERING SHOW . . .

cont. from p. 1  
painting, ceramics, advanced paintings and theory of design.

Cotton yarn manufacturing, synthetic yarn manufacturing, yarn preparation and manufacture of cloth from yarn will be textile engineering displays.

Farm safety demonstrations, films, irrigation model, farm building model, electric hot bed model and farm equipment will be projects of agricultural engineering.

The chemistry department will present a magic show, commercial chemicals and water treating for its displays.

The physics department will have displays of radiation counting equipment, geiger counters, radioactive samples, darkrooms, atomic absorption and emission of light, photomicrographic equipment, wave nature of light and light refraction.

Displays of infantry, engineering and signal equipment will be presented by the department of military science.

The department of air science and tactics will round out the show with displays of training aids and description of material studied in the AFROTC program.

# Pioneer Aviator's Collection, Memoirs Given Tech Museum

By JACK CRUMPLER  
Toreador Staff Writer

The memoirs and collection of the late Clent Breedlove, pioneer South Plains aviator have been turned over to the Southwest Collection of The Museum by Mrs. Breedlove.

The collection includes many pictures, log books, correspondence, newspaper clippings and personal items of Breedlove. According to Roy Sylvan Dunn, associate archivist of the Southwest Collection, the collection has been catalogued and is suitable for a master's thesis on early aviation on the South Plains. The collection includes a tape recording of an interview with Mrs. Breedlove.

Breedlove began his aviation activities when he became manager of the Lubbock Municipal Airport in 1930. He served as the first fulltime airport manager in Lubbock 10 years. When Breedlove arrived in Lubbock, he found one wrecked plane in one corner of the only hangar at the airport. From this meager beginning, Breedlove stimulated interest in aviation on the South Plains and

put the Lubbock airport on the map. He negotiated with oil companies and other cross-country flights to stop at Lubbock instead of Amarillo, thereby making the Lubbock municipal airport self-supporting by selling gas, oil and hangar space to aviators who stopped there and kept planes on the field.

Breedlove became interested in aviation during World War I when he flew as a bomber pilot for the air force. After the war, he gave up aviation temporarily until he came to Lubbock as airport manager.

During the years immediately preceding World War II, Breedlove took over the Civilian Pilot Training program in the Lubbock area. The CPT's first airplane was a J-3 Piper Cub bought by all the members of the club. Breedlove was successful in stimulating interest in aviation through the CPT, even though the Depression was in full swing.

When World War II broke out, the government took over the municipal airport and Breedlove opened his own airport where the Paymaster Feed Mills are now

located on the Slaton highway. All of Breedlove's CPT operations were moved to Commercial Air-  
(See BREEDLOVE, Page 8)

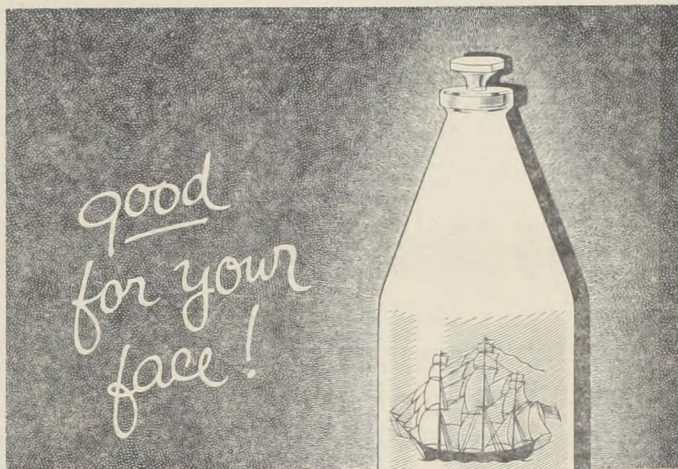

## Ice Capades Open At Coliseum Today

The international edition of "Ice Capades" of 1957 will start today at the Lubbock Coliseum at 8 p.m. featuring the ice version of "Peter Pan". Prices of admission are \$3.00, \$2.50 and \$2.

5:30 p.m. Sunday.

The show will give nightly performances starting tonight through Saturday with a matinee at 2:30 p.m. There will be two performances at 1:30 p.m. and

The Peter Pan story has been presented only in London, New York, Chicago, Philadelphia, Los Angeles, and San Francisco, because of the costly expense of installing the flying equipment as required in the story. Hadel Franklin, English actress, will act as Peter Pan.

### Meats Judging Team Attends Board Meet

Members of a beef cattle production class, under the direction of Stanley Anderson, an animal breeding class, taught by Dr. Casey Fine, and about six graduate students will go to Amarillo Thursday for a field day at Pan-Tech farms.

Feature of the meet will be inspection of beef bulls used in progeny tests there. Bulls of the same sire were placed in a lot and fed and their weight records recorded. Purpose is to see which sire produces the fastest growing offspring.

The cattle will be sold at an auction later the same afternoon.

Speakers at the field day will include L. A. Mattox Jr., animal husbandman of the Texas A&M Extension Service, whose topic will be "Beef Cattle Performance Testing in Texas."

"Performance Testing in America" will be discussed by C. H. Bell, national extension service beef cattle coordinator for the USDA.

George F. Ellis Jr., assistant animal husbandman for the Texas Agricultural Experiment Station will speak on "Proposed Beef Cattle Selection Projects at Pan-Tech Farms."

At noon a barbecue will be held.

The group will return Thursday night.

Tech's meats judging team will leave tomorrow to attend the National Livestock and Meats Board meet in Oklahoma, where the board will sponsor a live animal and carcass evaluation clinic.

Team members are Paul Dunks of Kerrville, Borden Reeder of Gail, James Ross of Floydada, Morgan Howard of Lubbock, Jim E. Evans of Lubbock, Calvin Schuman of Albert, John Schlittler of Loving, and Dudley Arnett of Lubbock.

Purpose of the clinic is to im-

prove the quality of meats and meats judging and discuss high meat-producing breeds of livestock.

Coleman O'Brien, assistant professor of animal husbandry, is team coach.

Traveling by the department's bus, the judges will return Sunday.

### Ann Adams To Be Soloist In Recital

Ann Adams, Fort Worth senior, will be featured as flute soloist at a Tech music department recital Friday at 8 p.m.

Miss Adams will share the stage with the Tech Woodwind Quintet under the direction of Robert Taylor.

Margot Rodriguez, junior music major, will accompany Miss Adams at the piano as she presents Handel's "Flute Sonata No. 7 in A Minor," "The Little Shepherd," and "Syrinx" by Debussy.

This is the quintet's introductory performance. Ann Adams, Kathy Veazy, Gary Joiner, Ronald Lemon, and Keith McCarty are members of the group. Taylor, the director, was a member of the New Art Quintet, a New York recording group.

The Quintet will present Miss Adams' arrangement of Milhaud's "Suite Francaise," and "Suite Opus 57" by Lefebvre.

### Donna Carter Honored

Donna Carter, freshman from Houston, was recently named Sigma Kappa's best pledge for

March.

A traveling best pledge bracelet was presented to Miss Carter at the pledge ceremony for the new spring pledges last Thursday.

### Society Initiates Five New Members

Pi Delta Phi, national French honor society, initiated five new members into Tech's Beta Xi chapter Sunday.

The new members include Janetta Beilue, Derry Don Harding, Joyce Dean Holland, Patricia Stansell and Mrs. Nell Wayne Bennett. Miss Violet Horvath, a French instructor at Tech, was initiated into honorary membership of the organization.

Initiation ceremonies were held in the home of Dr. Charles Qualla, professor of French and Spanish and sponsor of the society, at 4 p.m. with a general reception and tea for all members following the ceremonies.

Taking part in the ritual were president Manfred Larisch, vice president Ronald Wetherington, secretary-treasurer Martha Ann Kissingner, and Dr. Qualla.

### Eddie Henson Wins Aviation Contest

Eddie Henson, junior from Seagraves was recently named winner of the Republic Aviation Speaking Award Contest. Judges for the event were S. M. Kennedy, Assistant Dean of Arts and Sciences; W. M. Pearce, head of the History, Sociology, and Anthropology Department; and Capt. John E. Baumgardner.

The general topic for all speakers participating in the contest was Air Power. Henson's winning speech was titled "We Believe." In the speech, Henson stated the reasons and necessities for maintaining strong air power even during peace time.

**Baptist Student Union To Summer**

Dean Buske, sophomore from Friona, has been appointed missionary for the General Convention of the Baptist Student Union, which will hold its annual convention during the summer months. Primary duties will be to visit primary Bible schools and vacation Bible classes.

Miss Buske is one of the members selected by the BGCT to represent Baptist students on the national and university campuses.

The project is sponsored by the BGCT Student Department.

**Dorm Registration Continues To**

Registration for residence women's dormitories now in progress this week.

Girls who will be selected for dorm next year will be juniors registered and next year's sophomores registered Wednesday.

Two dormitories were served for freshmen work year. In addition to Du has been the freshman three years, Knapp was varied into a freshman dormitory.

Girls interested in becoming legislators in K year are being interviewed by Assistant Dean of Women, Carter this week.

Those wishing to join dorm next year will be juniors, and girls desiring to serve rooms in Horn will be in Horn.

**Doak Scholarship Given This**

Women students in the Mary W. Doak should contact Miss S. Publications Committee, according to Art chairman.

Letters should contain qualifications: recipient a sophomore or junior the award is given, pi teacher and have been resident for one year.

This is a \$40 scholarship each semester.

**Toreador, Ve Applications**

Positions on the Toreador will be filled by the Publications Committee, according to Art chairman.

Positions open on the Toreador are editor, managing editor, business manager, and copy editor. Applications are editor and business manager.

Applicants for Toreador must have passing grades in at least 90 semester hours credit in the job department and one semester experience on The Toreador.

La Ventana editor must have passing grades in at least 60 semester hours.

Business manager of Toreador should have passed in at least 60 semester hours.

Thus far, no applications have been received.

### Baptist Student Appointed To Summer Mission Program

Deann Buske, sophomore from Friona, has been appointed summer missionary for the Baptist General Convention of Texas.

Miss Buske, who is now serving as social chairman of the Baptist Student Union, will serve in vacation Bible schools in Hawaii during the summer months. Her primary duties will be to conduct vacation Bible schools and teach Bible classes.

Miss Buske is one of 17 students selected by the BGCT to represent Baptist students on Texas college and university campuses.

The project is sponsored by the BGCT Student Department, the

Home Mission Board, and the Foreign Mission Board of the Southern Baptist Convention.

### Missionary Union Named For Techsan

The Edwina Schovajsa is the new name of the Women's Missionary Union of the Parkview Baptist Church of Littlefield. This name has been chosen in honor of a Tech senior, Edwina Schovajsa, daughter of Mr. and Mrs. E. J. Schovajsa of Amherst.

Miss Schovajsa's name was chosen because of her outstanding work in the missionary fields.

Miss Schovajsa was a summer missionary to Jamaica in 1955 under the Foreign Missions Board of the Southern Baptist Convention, and she plans to be a missionary to Israel as soon as it is possible to enter that country.

Upon graduating from Tech, Edwina will enter nurses school in Houston and will then enroll in a seminary.

DEANN BUSKE

### ORDER DEADLINE SET FOR CAPS, GOWNS

Today is the last day for seniors and faculty members to order caps and gowns at the Tech Bookstore.

This is the last day to pay the \$5 graduation fee and present the cashier's receipt to the dean of your school. Refunds will not be made after today to candidates who will not graduate June 3.

### Mock Television Show Featuring Plays In German Slated By Der Liederkranz

Der Liederkranz, Tech German Club, will co-sponsor with the Tech Union a mock television show at 7:30 p.m., April 9 in the ballroom of the Tech Union.

The setting will be a TV studio featuring three individual plays in German with the latest hit songs imported from that country and German take-offs on TV singing commercials.

The first play by Wilhelm Schade features puppets as characters in "Kasper in Der Zwergenhoehle." Arthur Schmitzler's "Episode" is play number two, and the third play is Georg Kaiser's "Juana," featuring a Spanish setting with native costumes made by Mrs. John C. Dowling, wife of the foreign languages department head.

Students with parts in Schade's play are Lowell Gregg, Harold Rogers, and Bruce Simmacher. Actors of "Episode" are Nancy Nelson, John Taylor, Bill Mitchell, Virginia Mahaly, Gabriel Garcia, Rudy Brenn, Janet Jones, and Sam Shaw are included in the cast of "Juana."

The three plays in this project were produced by the third year German students as part of course 332, "Introduction to German Life, Literature and Science,"

under Theodor W. Alexander, assistant professor of foreign languages.

### Dorm Registration Continues Today

Registration for residence in the women's dormitories next year is in progress this week.

Girls who will be seniors next year registered Monday. Those who will be juniors register today, and next year's sophomores register Wednesday.

Two dormitories will be reserved for freshman women next year. In addition to Drane, which has been the freshman dorm for three years, Knapp will be converted into a freshman dormitory.

Girls interested in being freshmen legislators in Knapp next year are being interviewed by Assistant Dean of Women Dorothy Garner this week.

Those wishing to live in the new dorm next year will register in Drane, and girls desiring to reserve rooms in Horn will sign up in Horn.

### Doak Scholarship Given This Term

Women students interested in the Mary W. Doak scholarship should contact Miss Sue Rainey, Women's Physical Education Department by letter.

Letters should contain these qualifications: recipient must be a sophomore or junior at the time the award is given, plan to be a teacher and have been a Tech resident for one year.

This is a \$40 scholarship, given each semester.

### Toreador, Ventana Applications Due

Positions on the Toreador and La Ventana will be filled by election of student members of the Publications Committee on April 10, according to Arne Randall, chairman.

Positions open on the Toreador are editor, managing editor and business manager. La Ventana openings are editor and business manager.

Applicants for Toreador editor must have passing grades in at least 90 semester hours; nine hours credit in the journalism department and one semester's experience on The Toreador.

La Ventana editor aspirants must have passing grades in 90 semester hours.

Business manager of both publications should have passing grades in at least 60 semester hours work.

Thus far, no applications have been received.

# Sticklers!

**WHAT IS A LUCKY AT LUNCH TIME?**  
(SEE PARAGRAPH AT RIGHT)

**WHAT A MENU!** A dank frank, an ol' roll, a pallid salad, and a dry pie. Let's face it, friend—your lunch-time fare needs brightening! Recipe: light up a Lucky! It won't make a filet out of that frank, but it's a *Noon Boon* nevertheless. A Lucky, you see, is all cigarette—all great smoking, all the way through. It's made of fine tobacco—mild, good-tasting tobacco that's TOASTED to taste even better. But why wait till noon to try one? Right now, you'll say Luckies are the best-tasting cigarette you ever smoked!

**WHAT WAS HELEN OF TROY?**  
*Chic Greek*  
JACK FILES, U. OF ARKANSAS

**WHAT IS A GREENHOUSE?**

## Raider Nine Splits Weekend Play

Texas Tech's baseball team will take to the road this Saturday to face West Texas State at Canyon in an effort to bring its season record to an even .500 at 3-3.

The Raiders split weekend play in Abilene with Hardin-Simmons, winning the first game Friday night 8-1 behind the neat five-hit pitching of Leo Chase and losing to the Cowboys Saturday night 10-9.

### Hunt Leads Hitters

As a result of the two-game series catcher, Cullen Hunt, advanced to the top of the hit parade among the regulars with six hits in 19 appearances for a .316 average. Actually, B. A. Donelson has the best average, .333, but he has only been at bat nine times. Dave Allen leads in RBIs with six and Chase remains the leading pitcher with a 2-1 mark.

### Raiders Take Opener

In Friday's game Tech righthander, Chase, threw a five-hitter at the Cowboys while his mates provided him with a seven-hit barrage on H-SU pitchers. Five of the seven hits were for extra bases.

Chase was never in trouble with the exception of Cowboy shortstop, John Jones, who got three of his teams five hits and scored their only run. Hunt and Darrell Summers blasted two triples and Donelson, Norm Huggins and Dave Potter chipped in with doubles for the Raiders.

Seven Hardin-Simmons errors also aided the Tech cause. Carlos Berry was the loser.

### Saturday Was Different

Saturday night's game was a different story. H-SU pitcher, Dub Pierce, kept the Raiders under control while his mates built him a 10-3 lead going into the ninth. Then the roof caved in as the Raiders scored six times in that frame. But reliever, Jim Tyler, came in to put out the fire and hold the 10-9 victory for Pierce.

Leftfielder Huggins led off that inning with a single and Summers walked. Gehrig Garrison flew out but Monroe Henderson was safe on an error which scored Huggins. Walt Bingham was hit by a pitched ball to load the bases and an infield single by Potter scored Summers.

At this point Tyler relieved and forced in another run by walking Allen. Hunt then slammed a triple scoring the final three runs as Tyler bore down to strike out Buzz Bates and forced Huggins to ground out and end the game.

Houston Powell was the loser for Tech yielding 10 runs on 11 hits.

"I joined IBM for two clear-cut reasons," recalls Bob. "First, the tremendous company growth obviously offered every chance for advancement. Second, the work area was exactly what I was looking for—transistors and their application to computer systems."

Bob entered IBM's voluntary training program in June, 1955, where he studied the entire organization, its divisions and diversified products. He received technical training in computer logic, programming, and components such as transistors, cores and tapes. By September, half his day was being devoted to an actual project; by the following March, he was on this project full time. "Our job was

The "small-group" approach to research

to transistorize six servo-amplifiers for the MA-2 bombing-navigational system," he recalls, "and we completed the project in April."

In IBM Research (as in all IBM) Bob works in a small group. "Our team consists of three E.E.'s and a technician. We start with analysis and synthesis work involving math and systems logic. Then we use the 'black box' approach." His group splits up occasionally to research special phases of a project but reunites in frequent sessions to coordinate activities.

### Promoted to Associate Engineer

In August, 1956, Bob was made an Associate Engineer. From April of the same year, he had been working on a new Government project. This was "to design and develop a transistorized radar data presentation system for the MA-2 system." Basically, this was a research program in sample data theory and the develop-

## "What's it like to be A RESEARCH ENGINEER AT IBM?"

Two years ago, college senior Robert Thorpe asked himself this question as he worked toward his E.E. at the University of Toledo. Today, an Associate Engineer in the Applied Logic Group of IBM Research, Bob reviews his experiences and gives some pointers that may be helpful to you in taking the first, most important step in your career.

ment of a system containing both analog and digital components. Bob still works on this project—toward a completion date of April, 1957.

Shortly after this program started, Bob joined the Applied Logic Group.

Plotting transistor characteristics

Here, he was concerned with research in new areas of computer technology—for example, cryogenics and high-speed memories. Bob studies systems which operate on "real time," and his immediate problem is to analyze and synthesize closed-loop sample data systems for the control of complex data processing.

Asked what his most interesting assignment was, Bob replied, "My

New areas of computer technology

work on a digital-to-analog converter with a high degree of sensitivity and accuracy. This strictly electronic converter, with transistors, combines both digital and analog circuitry. It was a tough problem, and a fascinating one."

### What does the future hold?

At the present time, after two years in IBM Research, Bob is more than enthusiastic about his future. He plans to continue in systems study and to develop "a more sophisticated approach." Two lines of advancement are open to him: to Project Engineer,

the administrative side, or to Staff Engineer, the technical side of Research. "Either way, I'm sure I'll get ahead," Bob feels. "Electronics research is really on the move at IBM. We have about 600 people at Poughkeepsie now, as against 56 in 1950. We'll need some 1,700 before 1960 to help staff a new research laboratory at Yorktown Heights, Westchester County, N. Y."

What does he like best about IBM? Probably the fact that he's so much "on his own." "There's no 'over-the-shoulder' supervision," he says. "You schedule your own program and create your own 'pressure.' And, if you

Promoted in fourteen months

feel the need for more education, IBM provides every facility for continued study. Besides the voluntary training programs, there are excellent afterhours courses offered by the IBM Department of Education. And you have a chance to work toward advanced degrees—at IBM expense."

IBM hopes this message will give you some idea of what it's like to be an E.E. in Research at IBM. There are equal opportunities for E.E.'s, I.E.'s, M.E.'s, physicists, mathematicians, Liberal Arts majors, and Business Administration graduates in IBM's many divisions—Product Development, Manufacturing Engineering, Sales and Sales Assistance. Why not drop in and discuss IBM with your Placement Director? He can supply our brochure and tell you when IBM will next interview on your campus. Meanwhile, our Manager of Engineering Recruitment, R. A. Whitehorse, will be happy to answer your questions. Just write him at IBM Corp., Room "11804" 590 Madison Ave., New York 22, N. Y.

# Picadors Top Shorthorn Tracksters

Tech freshman tracksters won their second meet in as many tries Saturday — but this time it took an overtime to decide the victory. Originally declared tied with the University of Texas frosh with 52 points each, a re-tabulation by meet officials showed that the Picadors actually had 53 points, while the Shorthorns had 51½.

### Victoria J C Is Third

Third place went to Victoria Junior College, with 40½ points, and the Baylor freshman were fourth with 19. Tech swept to five first places in winning the quadrangular meet, while Texas had four. Victoria College and Baylor each had three blue ribbons.

### Picadors Take Five First

First place winners for Coach Delmer Brown's Picadors included: the 440-yard relay team, composed of Tommy Patterson, Don Holt, Scotty Turner and Tommy Davis. The foursome circled the oval in 42.8; and this time a dropped baton may have aided the Tech frosh. Texas fumbled the stick, and didn't finish the race.

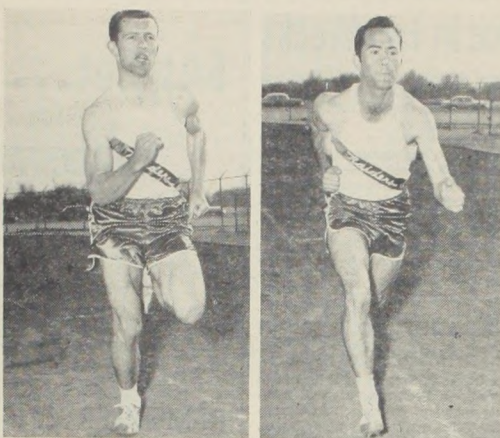

Davis took the 440-yard dash with a 49.7 clocking; Pete Dyson captured the mile in 4:31.3; W. L. Thornton leaped 6 feet 4 inches to take the high-jump crown, and James Leonard vaulted 12 feet to win the pole vault event.

The Picadors scored in every event except the 100-yard dash and the javelin throw. Coach Brown had no entry in the latter event, however. Besides the five first, Tech had six second places, three thirds and five fourths.

High-point man for the well-balanced Picador squad was Tommy Patterson of Waco. Patterson was second to Victoria's Bobby Singleton in both hurdles, ran the first leg of the winning 440-yard dash, he anchored both the winning 440-yard relay and second place mile relay teams, to account for a total of seven points.

Other Picadors who placed were Scotty Turner, fourth in the 220-yard dash and ran on 440-yard relay; Rodger Crawford, fourth in the 440-yard dash and ran on mile relay; Owen Christian, second in the 880-yard run, and ran on mile relay; Art Dodds, fourth in the mile; James Harvey, third in both hurdle races; Allen Norman tied for second in the pole vault; Bobby Cline, second in the shot put; Winston Boeker, fourth in the discus throw; Don Holt, ran on 440-yard relay; and Doyle Herring, ran on mile relay.

The Picadors will be in action again this week, as they will compete in the mammoth Texas Relays at Austin.

**TELL ME ABOUT YOURSELF GEORGE . . .**  
**YOUR PLANS, YOUR HOPES, YOUR INVESTMENT PROGRAM.**

Most girls are incurable romanticists. Give them a balmy night rich with the perfume of heliotrope, a keen-eyed, sensitive young man (such as George), a velvety black sky flecked with stars and they are perfectly happy . . . for the time-being.

Unfortunately, it takes something more to keep them happy for any greater length of time. This "something more" is an intangible known as security.

Oh, you can ply them with golden words, with fiery kisses about the head and shoulders . . . but if you fail to offer them security, you're dead, man.

Security comes in various forms, but one of the best is a NATIONAL COLLEGE LIFE savings and investment program. This plan is available *only* to college men and payments can be deferred until after you graduate and begin earning an income.

Get the details on *THE PROTECTED INVESTOR* from your NATIONAL COLLEGE LIFE representative today.

### Gamma Phi Beta Wins Silver Dish

Gamma Phi Beta sorority won the silver dish given for the best display in Alpha Chi Omega's Doll Festival last Saturday.

The theme for the festival was "Storybook Land." The winning display was "The Old Woman Who Lived in the Shoe."

Proceeds of the Doll Festival, which is sponsored by the Alpha Chi Omega alumnae, will go to the cerebral palsy center in Lubbock.

### BREEDLOVE . . .

cont. from p. 3  
port, Breedlove's field.

In 1929, when an aviation course was set up at Tech, Breedlove was named chief flight instructor. Student pilots were given 72 hours of ground instruction and 35-50 actual flying hours. The school was provided with one 1940 model Taylorcraft to use in flight instruction. The course offered two hours of lecture a week. Students studied meteorology, aircraft construction and theory of flight.

Breedlove was later granted authority to conduct an advanced flying school in Lubbock. More and bigger aircraft were placed at his disposal to use in this new exercise. Lubbock had become very aviation conscious and many Tech students participated in this program.

Soon after World War II began, the CPT was renamed the War Training Service. Breedlove was in charge of the WTS which was entered into by many Tech students. All WTS training took place at Commercial Airport. The airport maintained the primary well as an instructor's training course. Breedlove had his own maintenance department, parachute-packing service and bus service from Tech to the airport. Breedlove carried on one of the biggest wartime pilot training efforts in the United States, and for his efforts in the CPT and the War Training Service was given the Merit of Reward by the government.

During the war years, Breedlove was also engaged by special appointment of the government in pre-glider training at Plainview. There he trained Jackie Coogan, of movie fame, who led the first glider attack of the war.

Breedlove was forced to retire in 1947 as a result of severe heart attack. Although he was required to give up his aviation activities he closely followed the air progress until his death in 1953 at the age of 53.

During his aviation career, Breedlove was closely associated with such well-known figures as Jimmy Doolittle, Eddie Rickenbacker and Billy Mitchell. He flew in the demonstration bombing staged by Billy Mitchell to prove the practicability of the Air Force to government officials. Breedlove was one of the few men engaged in the CPT and War Training Service who never had a student pilot killed or seriously injured. He was engaged for some time as a Civil Aeronautics Authority inspector during World War II and won one of the four Civilian Aviation Governors in charge of the Southwest.

### WUS Drive Falls Short of \$500 Goal; Final Tabulations Due In Two Weeks

Although final figures have not yet been totaled, it appears that Tech's World University Service Drive has fallen far short of its goal of \$500, according to Mary Ellen Carr, drive chairman.

Miss Carr stated that approximately \$250 has been turned in from special projects and dorms. She added that only if the amount turned in by campus organizations is enough will the goal be met.

The total at noon Monday that had been counted from the Alpha Phi Omega's "Mile of Pennies" was \$30. Each of men's dorms have promised to contribute \$30. Final totals and breakdowns on contributions by organizations will not be available for about two weeks, Miss Carr said.

The World University Service is a world-wide organization which gives relief to universities and students all over the world, including the United States, where it is used for Student Loan Fund and Scholarship, a college program of education for international understanding, fund-raising in colleges, and foundations and administration.

In other parts of the world the money is put to such uses as stu-

dent health centers, TB sanitariums, libraries and laboratories, dormitories, books, medicine and aid to refugees.

Other activities which were sponsored on campus last week for WUS in an attempt to reach the goal were a faculty baby picture contest held in Tech Union and a fraternity-sorority car wash Saturday afternoon.

The WUS campaign for funds has been held on campus for the past five years.

### Sleeper To Explain Christian Science

David E. Sleeper of Dallas is to speak to Tech students and faculty members interested in Christian Science Thursday at 8:15 p.m. in Room A of the Tech Union.

Sleeper, chairman of the committee on publications for the state of Texas, will explain Christian Science and its basic and fundamental teachings. Following the talk, the speaker will answer audience questions.

The program is sponsored by the Texas Tech Christian Science Organization.
