Appeals court ruling has possible loophole

By GILBERT DUNKLEY University Daily Reporter

The 5th U.S. Circuit Court of Appeals on Monday wrote to U.S. Attorney General William French Smith, advising him of possible grounds for ordering a rehearing of the city of Lubbock's appeal against a single-member district election plan ordered by a federal judge.

The court's letter was written the same day that the same court denied the city's appeal.

Federal statute requires that the attorney general be informed of any challenge to the constitutionality of an act of Congress.

In its appeal to the March 1983 ruling by federal Judge Halbert O. Woodward Jr., the city challenged the constitu-

tionality of the Voting Rights Act, which was created by Congress.

But the 5th Circuit Court did not alert the attorney general to the constitutional challenge while the court was considering the appeal.

Dan Benson, one of the attorneys for the minority plaintiffs in the singlemember districting suit, said the appeals court may have taken the late action in an attempt to head off any challenge of its decision to the U.S. Supreme Court.

None of the city's attorneys could be contacted Wednesday afternoon to comment on a possible appeal. Council member M.J. "Bud" Aderton said Wednesday the city's attorneys, as far as he knew, had not received copies of the court's opinion.

"When they receive it they will study it

and tell us what our options are according to their interpretation of it," Ader-

Benson said the issue was clouded by one additional factor. During the original trial of the case

before Woodward, the city did not raise the constitutional challenge, although the Voting Rights Act was the basis of the minorities' class action suit.

The appeals court is not bound to consider any aspect of an appeal that has not been introduced to the trial court, said Benson, a Texas Tech law professor.

Because the city did not raise the issue of constitutionality until it had initiated an appeal, the appeals court was not bound to rule on that constitutional challenge, Benson said Wednesday.

But the court did rule on the issue, af-

firming Woodward's order.

Woodward ruled on March 4, 1983, that Lubbock must adopt a single-member districting plan for electing its city

Woodward found that the at-large election plan, established in 1917, was in violation of a provision of the Voting Rights Act.

His order also created a new districting plan by which a six-member council would be created.

The provision that Woodward said was violated — Section 2 of the Voting Rights Act - was added only two years ago when the act was amended by Congress.

quired plaintiffs to show intent to discriminate in the creation of any election plan, before that plan could be overturned by the courts.

gress practically sidestepped that provision by altering the act.

The altered version states that an election plan that has the practical effect of diluting minority vote is in violation of the Voting Rights Act.

The revision was necessary, Benson said, because minorities throughout the United States were finding it difficult to win election cases based on the original version of the act.

On the basis of the amended version of the act, the 5th Circuit Court of Appeals on Monday upheld Woodward's finding ding, saying that when the plan was The original Voting Rights Act re- of a violation.

Writing on the behalf of the threemember panel of appeals judges, Judge Randall wrote, "Lubbock's electoral

system incorporates every feature that In the 1982 amendment to the act, Concourts have identified as aggravating the impact of an at-large system.

"Indirectly, these features 'inescapably' act as formal obstacles to effective minority participation."

When he ruled in 1983, Woodward also found that Lubbock's at-large election plan violated 15th Amendment guarantees.

The at-large plan had been created with an intent to discriminate against minorities, he said then.

The appeals court reversed that fincreated in 1917, it was unlikely that the plan's drafters took into account the 66 blacks who then made up Lubbock's minority population.

O'Neill warns Mondale of Hart's power

By The Associated Press

House Speaker Thomas P. "Tip" O'Neill said Wednesday that Walter Mondale, his personal choice for the Democratic presidential nod, underrated Gary Hart and will be in "real serious trouble" if he doesn't win half the primaries next week.

O'Neill said Mondale will have to "change his image" if he wants to overtake Hart, whom he called the front-

If Mondale does poorly in the 11 "Super Tuesday" primaries and caucuses next week, "then he's in real serious trouble," O'Neill said. "He'll have to win, I'd say, at least half of those primaries next week or he looks pretty sad then."

Mondale, meanwhile, said Hart is weak on civil rights. Hart, acting like a front-runner, turned his aim away from Democratic rivals and accused President Reagan of trying to distract attention from huge budget deficits and "catastrophic failure" in foreign policy.

"That is what is behind the school prayer debate," Hart said of an administration push for a measure allowing prayer in public schools.

"We are going to be treated, if you can call it that, for the remainder of this year to a concerted effort by Ronald Reagan and this administration of the politics of distraction," said Hart, who won the nonbinding Vermont presidential primary on Tuesday for his third New England election triumph in eight days.

Both Hart and Mondale campaigned in the South on Wednesday, as did Sen. John Glenn of Ohio.

Former Sen. George McGovern was in Massachusetts, where he says he needs a first or second-place finish in next Tuesday's primary to stay in the race. The Rev. Jesse Jackson was in Illinois.

Vice President George Bush campaigned for Reagan in Macon, Ga., where he derided Democratic "prophets of doom."

"America is better off today than it was four years ago," he said in what is emerging as one of the central themes of Reagan's re-election campaign.

Bush and the Democrats toured the South because Georgia, Alabama and Florida account for three of the primaries and caucuses on March 13, "Super Tuesday," in the campaign calendar.

The Democrats' rhetoric pointed up the reversal of roles in the campaign during the last 10 days, which O'Neill discussed with reporters.

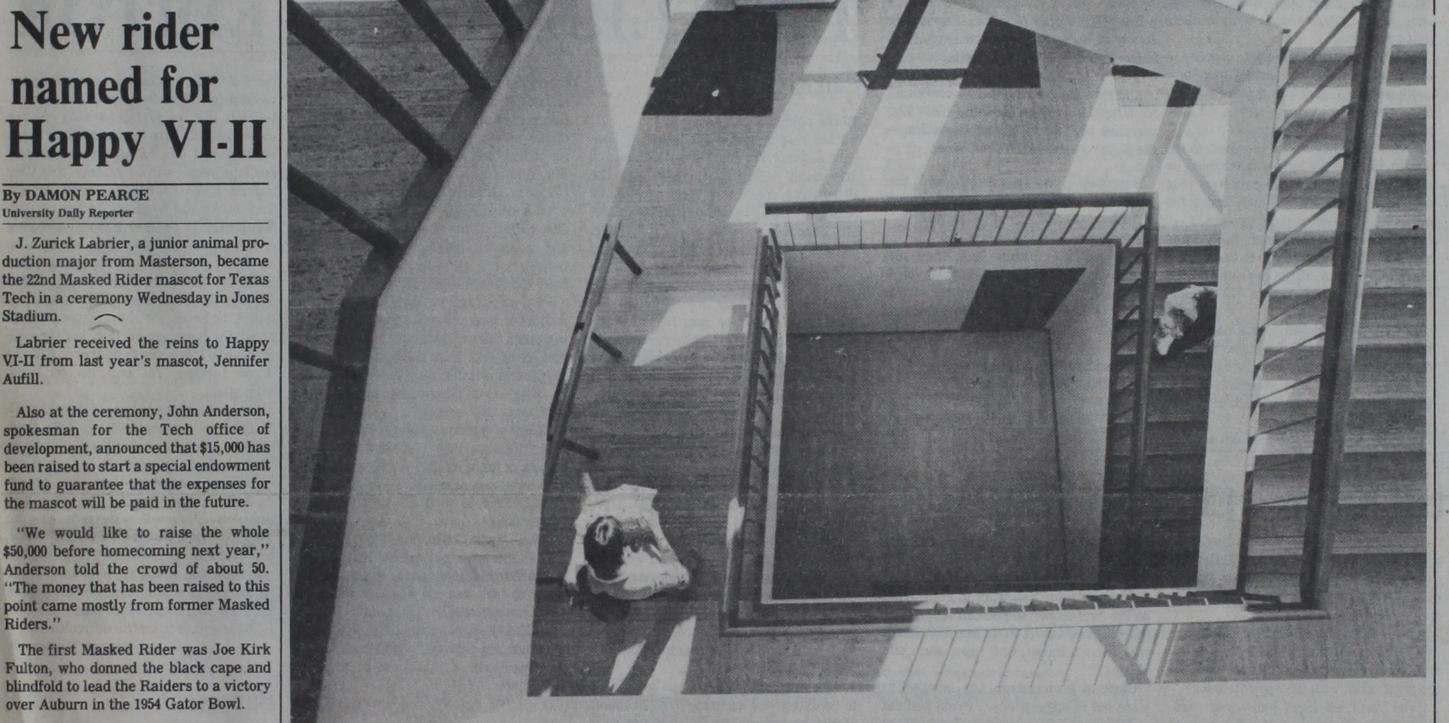

Although Hart does not claim to be the "front-runner," O'Neill said he is and added that Mondale had to "change his image" to reverse his disastrous slide.

Until recently, Mondale was the unchallenged front-runner, confidently ignoring his Democratic rivals and campaigning against Reagan. Hart was one of several dark horses, spending his days criticizing Mondale.

But that was before Hart won the New Hampshire primary and Maine caucuses in five days' time, sending Mondale

"I come here today really needing ya" Mondale said in Huntsville, Ala. "I got clobbered in New Hampshire, Maine and now Vermont."

Mondale won endorsements from members of the late Martin Luther King's family, and said Hart wrote a 180-page book and "never even mentioned the words 'civil rights.'"

High Anxiety

University Daily photographer R.J. Hinkle captured the illusion of a spiral looking down from the second floor of Holden Hall to the basement. Students descending the staircase add to the almost dizzying effect of the photograph.

members of a committee representing At the most recent council meeting representatives of Cox expressed dissatisfaction with several aspects of Labrier will make many appearances the ordinance. Cox objected to the docurepresenting the university, including ment's "vagueness" and its leniency toward people who obtain the cable system's services illegally.

The city maintained that the ordinance needs to be flexible and that theft of services of more than \$5 is out of the city's

At the most recent meeting the council instructed the city staff to negotiate a new franchise ordinance with Cox Cable. That is the ordinance that will be up for approval today after a public hearing on the subject.

The ordinance states that the franchise will be a 15-year agreement with the franchise holder and the city. The fran-

chise fee will be set at 3 percent, with the stipulation that the city may increase the fee to 5 percent if it determines such a raise is necessary.

The ordinance also outlines the services, equipment and facilities the franchise holder should provide. Those items include providing equipment for local access programming needs and installing an emergency alert system capable of interrupting all channels in the **Emergency Operations Center.**

Cox is proposing that an entertainment tier consisting of stations such as WOR,

WTBS and WGN and an information tier consisting of networks such as ESPN and Cable News Network be combined for a fee of \$3.

Premium services such as HBO, Disney and Cinemax would be available for an \$11 fee. In other business, the council will hear

a presentation from Bob Nash, chairman of the Lubbock committee for park improvements. Nash is appearing on behalf of the committee to present a resolution supporting development of mineral resources below city parklands.

Research vice presidency may be eliminated (as with the Health Sciences policy). the Board of Regents rejecting the fice of research services will be combin-research.

By LAURA TETREAULT University Daily Reporter

Discussion of the possible elimination of the office of vice president for research and graduate studies, after the resignation of J. Knox Jones from that position, highlighted the Texas Tech Faculty Senate meeting Wednesday.

The Senate approved a resolution presented by Sen. Jerry Berling supporting retention of the office of vice president for research.

The resolution was written in response to petitions to the Senate from 65 to 75 Tech faculty members. Tech President Lauro Cavazos will be sent a copy of the resolution.

The resolution was passed in the fear that possible elimination of the vice presidency "may have the effect of diluting and diminishing the commitment of the university to research." If the vice presidency is eliminated, the ofed with another department.

The Senate also passed another resolution dealing with the research issue under the possibility that Cavazos was considering abolishing the vice presidenmeeting in April to discuss the research

issue with faculty senators. Senators who conduct research said they had not engaged in any type of meeting with Cavazos concerning the research issue, and that to their knowledge, no other faculty members who conduct research have met with

Vice President for Academic Affairs John Darling attended the Senate meeting and explained that although Cavazos is considering the possibility of terminating the office of vice president for research, the president is not planning to diminish his commitment to

Search for democracy not over yet, but the bold close in on the dream

GILBERT DUNKLEY

TO THOSE WHO HAVE NOT DESPAIRED

And it came to pass in olden days that men wearied of oppression in their own land. And they didst set out on a long journ to find a new land of freedom.

And braving stormy seas, these men, Fathers-of-Pilgrims, did sail the course once taken by the prodigal Christopherof-Columbus.

Yea, did these brave and troubled men sail until they found Plymouth-upon-Rock, and America, the promised land on which they built 13 camps.

Now, in those days men had great and lofty inspirations of a concept called Democracy, and they didst dream - I assure you they dreamed - of a more perfect unification of their 13 factions.

But before the newcomers could establish their union, they had to dispense with the small matter of original peoples.

For upon this land lived those who had come before, yea, long before. They were hunters-of-bison and went by exotic names such as Arapaho and Comanche and Apache, and they were at peace in their isolation.

Yea, they were at peace.

But these men-of-America waxed angry at the trespasses of the Fathers-of-Pilgrims and the 13 factions they spawned. And with blood in their eyes they didst rise up in arms to drive the infidels off their lands.

Yea, didst they rise up in numbers. And the land was stained with blood as great battles were fought. And Custers were broken and Knees were Wounded and the land was troubled by division and

And in the end, the native peoples were and each lost its distinctive plumage. vanquished by the newcomers and their sticks-of-thunder-that-killed-swiftly.

there was Democracy and a more perfect union.

And it came to pass that in this new lived in Democracy should have things land there was much work to be done, called rights. Yea, there was a great toand the wiley newcomers turned to the do about freedom of religion and freedom Continent-of-many-peoples for their of speech and freedom of association.

Yea, in the great Continent they found And so American democracy was born, many peoples, a celebration of nature's and men looked at it and saw that in its skillful way with colors. Yea, in this land perfection, it was good only for some. there were multitudes of beautiful men and women called Africans.

And they were beautiful to behold in their traditions and in their stateliness And there was a weeping and wailing and their firmness of limb.

LETTERS TO THE EDITOR

Christianity

To the editor:

I am responding to the letter by Sanjeev Saxena and his concerned friends that dealt with Christianity and the statements made by those "religious fanatics" (the Koinonia spokesman and Mr. Bradley). I wish to commend Mr. Saxena for his sincere desire to see the achievement of love and peace in the world. For I desire this goal as well. Also, I am for unity with diversity, but the truth must never be sacrificed for the sake of unity. For if I unite myself with others for the sake of unity, what will I have accomplished? It would not be true unity, but only a false form of it that would soon fall apart. I feel it is allimportant to have a firm foundation of the understanding of the truth. For if we base our deductions and beliefs on anything less than this, we have left ourselves wide open for deception.

To understand biblical Christianity and true Christians one must understand Jesus Christ (who He was and what He did). Without this proper understanding, Christians, like Mr. Bradley, can appear intolerant, radical and unloving. So, let's take a brief look at a few of the historical facts and biblical teachings concerning Jesus Christ.

To begin with, the Bible has been found to be extremely accurate in its accounts of history concerning the time period in which it was written. No archeological evidence has ever contradicted the Bible. In fact, the more that is dug up, the more the Bible is proven to be true.

If we are to accept the history that has been written down about such people as Napoleon, Abraham Lincoln, and Ghandi, then we must accept the history surrounding the life of Jesus Christ. The historical facts reveal that Jesus claimed to be the son of God and proved it with His sinless life, the awesome miracles He performed, and most importantly His PHYSICAL resurrection from the dead three days after He was crucified. It is a fact that no other historical figure has ever come close to the life of Jesus Christ.

Now understanding this, let's look at a few things Jesus said and claimed:

o"I am the Way, and the Truth, and the Life; no one comes to the Father (God) but through Me." (John 14:6) • "I and the Father are One." (John

• "Enter by the narrow gate; for the gate is wide, and the way is broad that leads to destruction, and many are those who enter by it. For the gate is small, and the way is narrow that leads to life, and few are those who find it." (Matthew 7:13-14)

You see, Mr. Saxena, it is not so much what we choose to believe in that matters, but the validity of what we are actually placing our trust and faith in. For I can believe in a wooden statue or a carved rock or even a man and all the legend that comes with them, but what can they do for me when I die? What do they profit me if they are powerless against death? Would I not have believed in vain? Jesus Christ is the only One who has the power over death and hell. In Revelation 1:17-18 Jesus said, "I am the first and the last. and the living One; and I was dead, and behold, I am alive forevermore, and I have the keys of death and Hades." I am sure I will be labeled a fanatical

radical or something like that for disclosing these things. But I want to say to all who read this that the issue is Jesus Christ and what He said, and whether we as individuals, responsible for our own decisions, will accept or reject Him as the Lord of our lives and the Lord of all. Mr. Saxena, I have studied the basic beliefs of most of the world's religions

and have not discovered anything that even compares with the personal love relationship I have with the Lord and Saviour Jesus Christ. So, I do not speak out of ignorance, but rather experience. I wish to challenge those who read this

letter to look into the facts surrounding what you personally believe in, as well as what I have shared with you. I would ask only that you do it openly and honestly, so that your search would not be in vain. Thank you.

Terry Johnson

To the editor:

A lot has been said about foreign TAs in the last 3½ years that I have spent here. As a foreign student, and an exinstructor, I feel that I can contribute to the debate.

All foreign TAs are required to pass an oral communication test which is administered by an expert in the English department. All candidates for faculty positions (foreign or otherwise) are required to give an oral presentation as a part of the job interview. Without a good performance on both technical and communications skills, I doubt that they would be offered the positions.

All this has been said before; it has appeared in The UD several times. I felt the need to reiterate this because of Jim Brown's letter which recently appeared in this column. Even with all the testing procedures, some difficulties in communications would remain, and are even understandable because it takes some time and effort to adjust to another accent, particularly a foreign one. For that, one can sympathize with the students to some extent. What bothers me is the derogatory humor in Mr. Brown's letter, and a tone of disrespect for an expert in a field. I do not know the professor, and so I cannot say anything about his English,

but I do believe that he deserves better respect for his knowledge of the subject. Later in life, the profession may require some students here to present their ideas on a subject in a foreign language, and perhaps people will be grateful that they shared their knowledge, even though they spoke the language rather poorly. Some may go to other English-speaking countries and discover that others have as much difficulty understanding them as they did with their foreign TAs. Despite the difficulties, both sides may find it to be an enriching experience to break the language barrier, but the willingness to learn has to be there. Without it, a foreign TA can be an easy

I urge the students here to treat the difficulties in communications with their foreign TAs as a part of their education, not something in addition to it, and not something senseless. They have an excellent opportunity to prepare themselves before they move out into the world. It does involve additional work, but that has its rewards. Those who do not want the rewards, and who would rather live in a small cell, certainly have the right to. I must admit that I have enjoyed learning from the difficulties.

Vasanti Deshpande

Baby seals

To the editor:

Jan Dilley's article on the baby seal hunt reminded me how pure emotion can obstruct sound reason.

The killing of baby harp seals cannot be classified as "murder" or "genocide." Check Webster for a proper rendering of these terms. Jan, if you place baby seals on equal status with human beings (and I believe you do) then you must include all members of the animal kingdom as well. This means that millions of cows, pigs and chickens are murdered in American slaughterhouses

One distinguishing factor involved here separates harp seals from other creatures. Baby harp seals are cute and furry (notice the influential picture accompanying last Wednesday's article) and therefore should be exempt from hunting. This is not a valid argument in favor of their preservation. If baby seals were hideous and ugly, I am sure the issue would never have been brought up.

For those of you opposed to seal hunting, I challenge you to be consistent in your reasoning. I would expect you to abstain from all luxury items that involve the slaughter of cute and helpless animals. The next time you stuff a piece of veal parmigiana in your mouth, remember, an innocent calf was knocked in the head and had its throat slit for your good pleasure.

Puzzled writer can't please women

REAGAN WHITE

I couldn't help but wonder about the strident pink and khaki button that read "GLADD" on the lapel of the guy standing ahead of me in line, and so I asked the obvious question: "What are you GLADD about?" "About being gay, of course - oh, you

mean my button. It stands for Gay Libbers Against Drunk Driving. Isn't it CUTE?"

"Very nice. But what do gays care about drunk driving? I thought you were still fighting bigger issues, like working up a little resistance to AIDS," I said. "Oh, sure. Actually, that's what this

button is all about. Can you keep a secret?" "Believe me, I won't tell a soul," I

"Well, we've needed a powerful in-

terest group to back up our cause for quite a while. If we can help get legislation against drunk drivers passed, thousands of MADD mothers could be on OUR side, for a change." I asked, "Do you think they could real-

ly give your group a lift?"

He said, "Have you ever tried to argue with an angry woman?"

I had to laugh. In the past few weeks, I have had more chances to argue with angry women than I ever could have hoped for, had I not come out of the closet with my "sexism."

After that suicidal opinion was published, I suddenly started getting dates; or so I thought. Actually, girls began telling me they would go out with me so they could stand me up.

A few nights ago, a couple of guys from The UD were sitting with me in a local nightspot, trying to help me get back on the right track with the opposite sex.

"You can't let them know you care about looks. That's sexism. Try to say something that makes it perfectly clear you aren't concerned about outward appearances," one of my co-workers

I thought about this for a while, then walked over to an attractive young woman and said, "Hey, Fido, can I buy you a bowl of water?" She must have been thinking of buying

her own drink at just that moment, because she tried to give me hers, and I would have got it right in my face if I hadn't ducked.

Back at my table, I was given a new strategy. "Try letting them know you like the way they look while, at the same time, being unconcerned about looks in general," the other said.

I approached an attractive young lady, and in my best Gary Cooper, said, "Baby, you've got a face that could stop a clock," and then fumbling, trying to get it right, "I mean, make time stand still." But my correction came too late, and I staggered back to my table with a whole new appreciation for women weight-

"That's it, guys," I gasped. "I just don't have a way with words. I guess." "True enough," one said, "but what's

the alternative?' A khaki and pink "GLADD" button flounced by, and I scanned the crowd of women with new resolve. Verbal and physical abuse, after all, aren't the worst that could happen.

Slightly out of breath at a table full of

why there's incest, and rape, and child

on the dance floor so you can leer at me, DON'T you? And I'll bet you WONDER Back at ground zero, my compadres

were out of suggestions. "Beats hell out of ME what YOU should do. I get all the dates I want," one said.

"You go out very often?"

dance?"

"Never, and that's plenty for me. Who wants all the hassle of a date for the privilege of spending my money on someone else?" he said. "I've been looking for one of those

liberated women who believe in paying their own way," I said. A waitress who happened to be walking

by overheard me and said, "I believe in paying my own way." "Really? Want to prove it tomorrow night? You can pay my way while you're

at it," I suggested.

"Take off. No gentleman would ever ask a lady that," she said contemptuously.

"You mean, you can volunteer to pay when you feel like it, and I'm expected to pay the rest of the time? What if I volunteered to pay MY way once we got to the door of some fancy restaurant?

"I'd think you were a jerk not to assume you were paying MY way, too," 10:30) she said and started to walk away. So much for liberation.

"Wait," I said. "I know what I want from women. What is it women want from men?"

"Have you ever read a Harlequin

I thought about this for a while, and said, "Could you get me a double rum and Coke? Make it two, while you're at

faces March execution date

By The Associated Press

HUNTSVILLE - Ronald Clark O'Bryan, scheduled for execution late this month, vigorously contends he is innocent of killing his son with poison Halloween candy but says his case may serve society by helping parents be more cautious with their children.

O'Bryan, facing a March 31 execution date, said Wednesday the notoriety surrounding the death of his 8-year-old son in 1974 has made parents realize how fragile their children's safety is.

"This is good," he said in an interview from the Texas Department of Corrections Ellis Unit, home of the state's Death Row. "Parents should always inspect their children's candy" and be careful with loot from trick-ortreat outings.

O'Bryan, 39, a Deer Park optician, was convicted of capital murder in the Halloween night death of his son in 1974. The boy, Timmy, died after eating cyanide-laced candy that O'Bryan contends was given by a man during a trick-or-treat outing in Pasadena, another Houston suburb. The nature of the case prompted other Texas prison inmates to dub him "The Candy Man."

"I've said from the very beginning that I was innocent and I had nothing whatsoever to do with the death of my son and I say that now," he said emphatically.

People were outraged at his son's death and that he himself felt like finding the killer and "going after him with a shotgun," O'Bryan said. "But we don't do things like that in this society.

"Timmy's death was like someone reached in and ripped out my heart," O'Bryan said. "I got him his first bike. I put him on his first horse. I taught him how to fish."

Asked if he expected to see Timmy again in the hereafter, O'Bryan said he did, describing it would be "a very fond reunion and a very loving scene."

Prosecutors claim O'Bryan bought cyanide and put it into five pieces of candy - a powdered confection packaged in plastic straws. The prosecutors claimed O'Bryan distributed the candy to his two children and to three others during a trick-or-treat outing.

Only Timmy ate the candy. He died within a short period. The prosecution claimed that O'Bryan killed his son to collect \$30,000 in insurance.

Hart backers see gains in Texas

AUSTIN (AP) - After three straight victories over Walter Mondale, Sen. Gary Hart stands a chance of winning a majority of the 200 Texas delegates to the Democratic National Convention, Hart's Texas chairman said Wednesday. But Mondale backers weren't so sure.

"People in Texas are responding to Hart the way they are in the rest of the country. I think we'll win a significant number of delegates — perhaps the majority," said Rep. Martin Frost, (D-Texas), Hart's state chairman.

"I really don't think Texas is going to let Vermont, New Hampshire and Maine dictate our politics to us," countered Bob Slagle, Texas Democratic Party chairman and a leading Mondale supporter.

Mondale won the first-in-the-nation Iowa caucuses on Feb. 20, but Hart swamped the former vice president on Tuesday in the Vermont primary. It was Hart's third victory in a week, having also bested Mondale in the New Hampshire primary and Maine's caucuses.

Frost, of Dallas, said in a telephone interview from Washington that Hart's string of victories has shaken the grip Mondale seemed to have on Democrats.

"We're getting tremendous response from all over Texas. A lot of people figure that Walter Mondale can't beat Ronald Reagan," Frost said.

Tennessee prison escapees caught

MARION, N.C. (AP) - Police captured a dangerous escaped convict from Tennessee Wednesday, hours after officers killed his partner, a double murderer who had eluded police in a shootout at a blind couple's home.

The fugitive, James Clegg, "is in custody," said North Carolina Highway Patrol Sgt. Jeter Wilds. Details of the arrest were not immediately released.

Fellow escapee Ronald Lee Freeman, 41, was killed earlier Wednesday in a gunbattle with police in an abandoned house here. Police trailed him with bloodhounds from the blind couple's home, where Freeman had broken in early in the morning. The woman had a heart attack and one of the people who came to help her called police.

While Clegg was still at large, residents of a Marion neighborhood voluntarily left their homes so police could search every house.

The two men, both "armed and dangerous," escaped from a Tennessee prison last month and had vowed not to be captured alive.

Oil merger steams Senate

By The Associated Press

WASHINGTON - Standard Oil Co. of California's proposed \$13.2 billion takeover of Gulf Corp. is building a head of steam behind congressional efforts to stop oil company mergers.

The deal, announced Monday, "is fanning the fire" for Congress to declare a temporary moratorium on oil company acquisitions, Sen. Don Nickles, (R-Okla.), said Wednesday.

Nickles, a member of the Senate Energy Committee and consistent supporter of the oil industry, led the opposition last week on the Senate floor in voting down a pair of attempts to attach an oil merger moratorium to a trade

But sponsors of the measures, who

acknowledge they still lack the necessary

votes for passage, have been told by the Senate leadership they can try again in two weeks as soon as the debate on school prayer is over.

The moratorium effort in the Senate is being led by Sen. Bennett Johnston of Louisiana, the ranking Democrat on the Energy Committee and traditionally a supporter of the oil industry.

He complained that the mergers are "using up billions and billions of dollars" that otherwise might go toward new exploration and drilling, only because "Wall Street cowboys are out to lasso themselves a filly at a cheap cost."

Johnston's legislation, defeated 52-42 last Thursday, would place an effective six-month ban on mergers involving any of the 150 largest oil companies by denying them any future government oil leases or pipeline rights-of-way.

A call by Sen. Howard Metzenbaum, (D-Ohio), for a five-year moratorium limited to the top 20 oil companies was defeated on a Rep. John Seiberling, (D-Ohio), introduced

a bill similar to Metzenbaum's in the House "If the (Reagan) administration approves

the Socal-Gulf merger, other major oil companies will surely see it as a signal that the government will approve oil mergers of virtually any size," Seiberling said.

Accounting team wins competition

The Texas Tech accounting honorary, Beta Alpha Psi, recently returned from a regional convention with a first place award in regional case competition.

A three-member team of Tech graduate students beat Louisiana Tech and Wichita State teams in the regional competition March 2-3 in San Antonio. The competition involved foreign currency translation and use of financial statements on foreign currency.

Members of the team are Ken Dickinson, Jim Normand and Donald Trippeer.

Memorial scheduled for Cleary

A service of prayer and meditation for Texas Tech student Kevin Cleary, 21, of 4901 Fourth St., is scheduled for 4 p.m. Thursday in St. Elizabeth's Catholic Church with the Rev. William Hanly, pastor, officiating. Burial was Tuesday in

Cleary died Saturday in Lubbock General Hospital as the result of injuries suffered in a motorcycle accident.

Cleary was a junior advertising major. He was a member of Delta Tau Delta fraternity and played intramural

Memorials can be made to the Kevin Cleary Memorial Scholarship Fund through Delta Tau Delta fraternity.

Tests to be moved to HSC facility

Due to a shutdown of the heating and cooling systems of the main campus of Texas Tech, the following testing scheduled for March 10 will be moved to the Health Sciences Center. The test of English as a foreign language will be in room 5B248B of the Health Sciences Center rather than in the Biology Building.

The credit-by-exam testing will be in room 4A100 HSC rather than in the Biology Building.

The National Board for Respiratory Care exam will be in room 5B201 HSC rather than in West Hall.

All candidates need to enter from the north side of the HSC. For more information, telephone 742-3671.

that question in a debate just Americans answered with a strong negative.

Reagan has had three years in past. the White House and another presidential campaign is getting under way, polls show that a majority of Americans feel they are better off than has been sliced by more than half. Unemployment has' fallen sharply. Productivity and disposable personal income both are rising at a healthy clip.

But if the current economic recovery is clearly making Americans feel better, what is less obvious is what brought about the upturn and who should get the credit - a crucial question in this election year. Barring an international catastrophe, the state of the economy will be one of the most important issues, if not the No. 1 issue, in November.

For many American voters, President Reagan is the hero of the tale. According to a mid-January New York Timesthose polled said they think the economy is better today group, 49 percent considered stop." the president most responsi- More importantly, despite ble, another 10 percent the strong fiscal stimulus of credited the government, and the tax cuts, the effect was 7 percent credited the overwhelmed by the even Republicans.

'The Dresser'

'Harry and Son' offers strong emotions

By The Associated Press

Harry and Son explores family relationships with the same serious intent of "Ordinary People and Terms of Endearment. While the result is not as successful, the new film offers strong performances and moments of intense humanity.

Paul Newman is a Florida demolition worker, a widower still mourning two years later. Robby Benson is his aimless son, polishing cars and riding the Atlantic surf while trying to become a writer. Harry's failing eyesight gets him laid off, and he falls into a bitter decline, alienating his loving son and further embittering an estranged daughter. Harry also spurns the compassion of an old friend (Joanne Woodward).

Newman, who also directed, co-wrote and

co-produced (with Ronald L. Buck) the film, takes a hard look at fatherhood. He declines to sentimentalize Harry, even showing his unreasoned cruelty toward his children. When Harry finally relents toward the end, the emotional impact is profound. The role approaches The Hustler and The Verdict as one of Newman's best character portrayals.

Harry and Son is uneven, rambling into irrelevant subplots. But the strength of Newman's character holds the film together. Understandably, he is an actor's director, and he draws moving performances from Robby Benson, Ellen Barkin and especially from his wife, Miss Woodward.

Rated R because of a sexual scene.

ABC revives critically acclaimed 'Two Marriages'

Raiders open tourney play

Tech women to battle Arkansas

By LYN McKINLEY University Daily Sports Writer

play better than any in the Post-Season Tournament this Raiders' repertoire last weekend. The Tech coach probably won't want to accept it. the string. They just wanted to Yet she has no choice. Lucky beat TCU last Saturday and for the Raiders.

While the Tech players were nation.

week in Houston, the Texas Longhorns were playing out Hofheinz Pavilion.

weekend in preparation for change of plans for the Fate gave Marsha Sharp a the Southwest Conference Raiders, who begin tourney play at 8 p.m. today against tion marks as to next year. the Arkansas Razorbacks at

> and the number one scorer in remain the No. 1 team in the the SWC when center Annette Smith felt her knee twist and seven players available with

> So much for the best of plans collapse and fail her. Smith planning strategy last for the 'Horns. And, oh, what a left the game and underwent knee surgery, quickly ending her season and leaving ques-

Of course, Sharp and the Raiders hope to face Texas on Texas lost its starting center Saturday for the championship of the conference. The Longhorns will have only

Smith only watching. Tech will be ready. If the Raiders can get by Arkansas tonight. Something strange happen-

ed to the Razorbacks, also. Bettye Fiscus, a 5-11 forward who was the key to the Arkansas attack, injured her knee and will be out for the rest of the season.

Could it be that the Raiders, who have won 21 of their past 24 games, might receive the boost they need to win the conference from strange happenings with their opponents? Tech is healthy going into tonight's game. Could that be the Raiders' edge?

"You hate to see that happen to any player, particularly to someone with the talent of an Annette Smith," Sharp said. "It is going to hurt Texas, but you can't count them out for a second. The rest of those players are going to gut up, and I expect to see full court, man-to-man pressure like I've never seen."

Arkansas' losing Fiscus also will make a difference in the game today. The Razorbacks can't replace Fiscus, just as Texas will suffer without Smith. Could the Raiders replace a Carolyn Thompson?

The Raiders lost to the Hogs 64-61 in their first encounter this season on Jan. 19, then beat Arkansas 71-62 at the Coliseum. Fiscus was the key for the Hogs in their Fayetteville win, a fact the Raiders will remember tonight in Houston. Even without Fiscus on the court.

The Raiders will face the 20-8, 12-5 Hogs with post players Carolyn Thompson and Melinda Denham, guard Janet Mears and wing players Kellye Richardson and Camille Franklin. Tech is shooting 50 percent from the field, with Thompson averaging 23 points a game.

Will the Raiders be ready for the SWC tournament challenge? Can they handle the pressure they couldn't take last year? Will they respond after a wait of 10 days since their last game?

Sharp believes the three starting seniors and the mental toughness of a stiff nonconference schedule could be just the things the Raiders need to answer the questions they left unanswered in the first-round loss last year.

And this year, it seems Tech may even have fate on its side.

Raiders pound seven homers but fall to Chaps

By COLIN E. KILLIAN University Daily Sports Writer

Someone once said the best offense is a good defense. Texas Tech had the offense Wednesday, but poor defense and even poorer Raider pitching lifted Lubbock Christian to a 14-10 win over Tech at Chaparral Stadium.

The win was the Chaparrals' second in three games with the Raiders this season. LCC improves to 11-6.

The two teams combined for 10 home runs in the game, seven coming from Tech batters. John Grimes had two

homer off Chap pitcher Travis 4-2 after two innings. Walden to give the Raiders a

Tech's record falls to 10-5, and Decker held LCC scoreless in 20th career home run, his scored on an LCC error. Then, walked Steve Coleman to load the bottom of the inning.

Dobyns blasted Walden's third the center field wall to expand tom of the third, allowing one four-baggers for Tech, and Tech's lead to 4-0. But Fannin LCC run. Fannin followed with Bob Fannin smacked two for doubled in the last of the inn- a three-run shot over the fence Tech drew first blood when him home with a two-run advantage. Grimes lined a three-run homer to cut the Tech lead to

3-0 lead. Tech starter Darryl Raiders in the third with his Dobyns belted a double and drive in a run and Hollock inning to go up 12-8.

sixth of the year, to make the Raider shortstop Tommy score 5-2. Raider centerfielder Mark Michna mishandled a pitch of the second inning over Steve Coleman hit in the boting and Eric Leger brought to give the Chaps a 6-5

Grimes led off for the runs in the fourth when

Walden threw the ball away on the bases. a pick-off attempt at first base, allowing Kenny Albrit-Tech a 7-6 lead.

Decker walked the first LCC after four innings. batter in the bottom of the fourth and gave up a single before being relieved by Clay Tech came back with two Hollock. The Chaps' Randy Velarde rapped a double to

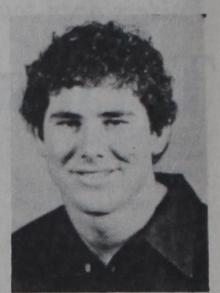

plate and smashed a 3-2 pitch ton to score from third giving high over the left centerfield wall for a grand slam home run and an 11-7 Chap lead

> Tech came within 11-8 when Howey hit his ninth homer of the season in the sixth, but the Chaps also added a run in the

Raider pinch-hitter Bob Gross connected on a solo Fannin stepped up to the homer in the eighth, but LCC

MAJOR LEAGUE BASEBALL

Oliver finds new home with Giants

By The Associated Press

began asking for advice.

"I love to talk about hitting. But it probably wasn't until about 1977 that players approached me. They thought I was mean," cisco Giants, his new team.

"Like Ty Cobb, I guess. But I understand Cobb really was mean," Oliver added.

If Oliver, 37, plays with a scowl it's a look of concentration, especially when he's crowding the plate against pitchers. He has a .305 lifetime batting average and will be shooting for his ninth like to know how they think when they're out there on the consecutive .300 season in 1984.

Oliver was the Montreal Expos' first baseman the past two seasons. He led the National League in batting with a .331 with a ball in his hand. Some deserve more respect than others.'

average in 1982 and hit exactly .300 last season.

He was traded to the Giants Feb. 27 for pitcher Fred Breining and another player, partly because first base was the most sen-SCOTTSDALE, Ariz. - Al Oliver was well established as one sible spot for the Expos to place newly acquired Pete Rose. The of baseball's most consistent hitters before young teammates Giants sought help at first after losing Darrell Evans, who became a free agent and signed with the Detroit Tigers.

Oliver, who knew a trade was possible and also lived with the same situation late last season, was happy when the uncertainty Oliver said with a laugh in the training camp of the San Fran- ended three days into his spring training workouts with the Expos in Florida.

He reported to the Giants quickly and was talking hitting with his new teammates, including pitchers, soon after reaching

"I'm always interested to hear what pitchers have to say. I mound," Oliver said.

"My attitude toward pitchers is that you must respect anyone

Reds' Soto keeps mind on baseball

By The Associated Press

TAMPA - Mario Soto, the 1983 National League Cy Young Award runner-up from the Cincinnati Reds, doesn't care for Phillies) ended up in first place (in the NL East). much of anything except baseball.

"I don't like to fish. I don't like to play other games. I don't second." like to do anything but baseball," Soto said Tuesday.

bored. If you want to play this game, you have to love it, you year, it was not getting enough work during spring training. have to enjoy it."

Soto has had a lot to enjoy during his major league career. The 26-year-old native of the Dominican Republic has not had a losing season in five years in the major leagues. After posting a 17-13 record with an NL-leading 18 complete games in 1983, he finished second to Philadelphia's John Denny in the Cy Young

Soto was second in the league with 242 strikeouts and fourth of his pitches and good command of himself."

with a 2.70 earned run average. He also had three shutouts.

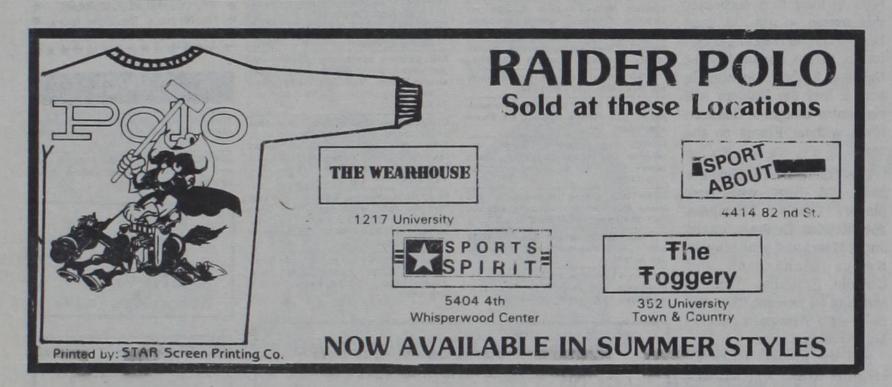

"John Denny had a great year (19-6, 2.37 ERA)," Soto said at the Reds training camp. "I knew he would win the Cy Young. He was coming off a bad year the year before, and they (the

"He deserved it, but I knew if he won, I'd have to be at least

The Reds' new manager, Vern Rapp, called Soto "one of the "All year, I try to keep my mind into baseball, and I'm never top pitchers in the league," and said if he had any problem last

> This year, Soto had his first spring training start Tuesday, "and he was on the mound six or seven times preparing for it (in simulated games), Rapp said.

> "Every year, you get a little bit older, and you have to prepare yourself a little bit more. A pitcher who has enough innings in spring training will be prepared," Rapp said. "I don't see any reason why he can't duplicate last year. He has good command
