

# The TOREADOR

## CLASS OF '30 WILL HOLD SPRING COMMENCEMENT

### Elimination of Hazing Sought By College Men

WILL HOLD MASS MEETING IN GYMNASIUM FRIDAY MORNING

#### Coach Sends Word

STEP CONSIDERED OUTGROWTH OF DISTURBANCES ON CAMPUS

Seeking to guarantee the elimination of undesirable forms of hazing on the campus, all college men will meet at the gymnasium Friday morning at 11 o'clock with Hogue Williams, president of the student body, presiding. Following a short meeting of all the men together, they will divide into their respective classes with each class president in charge for the purpose of securing various angles of opinion on the matter.

The communication from Williams calling the meeting and setting forth its purpose is as follows:

Believing that hazing is at all times detrimental to the interests of all college activities and that in particular the practice has had most unfortunate consequences on the Tech campus within the last few weeks, the president of the student body and the presidents of the various classes are calling a mass meeting of all college men in the gymnasium Friday morning at 11 o'clock for the purpose of securing an adequate expression of student opinion concerning the merits and demerits of the practice of hazing.

A telegram concerning the situation referred to above has been

(Continued on page 5)

### Field Meet For Boy Scouts Held On Tech Campus

TROOP NO. 4 WINS WITH A TOTAL OF 69 OUT OF POSSIBLE 85

Tech was host to the South Plains area council field meet for Boy Scouts last Saturday. Troop No. 4 of Lubbock was awarded the Clapp trophy, a silver loving cup to be held by the troop permanently. This troop won the meet with a total of 69 points out of a possible 85.

Approximately 250 Scouts of the South Plains Area Council were entered in the meet, 150 of these being from out of the city.

Twenty-three adult visitors, Boy Scout workers and local citizens who attended the field meet were entertained with a luncheon Saturday at the Hotel Lubbock by the local Chamber of Commerce. At this luncheon T. A. White, D. T. Jennings and Harley D. Woods delivered the principle addresses.

### Registrar Calls For Grade Books

Final call for student record books is issued by E. L. Dohoney, registrar of the college, who states that students who fail to turn in their books before the end of the term will be charged \$1.00 for new ones.

Mr. Dohoney also requests that all students who are planning to be in summer school and who have not filled out a card indicating their prospective courses should call at the registrar's office and do so immediately. For the benefit of those students who are wondering what courses will be available, summer bulletins carrying complete announcements will be issued on call at the registrar's office.

### Dr. I. E. Gates To Deliver Sermon

Sunday morning at 11 o'clock in the gymnasium Dr. I. E. Gates of the First Baptist church of San Antonio will deliver the commencement sermon to the graduating class. Dr. Gates is known widely for his student addresses. He comes to Tech almost as a South Plains product. He was the founder and for six years the president of Wayland college at Plainview. Later he was the pastor at Plainview and at Amarillo. He has been pastor at San Antonio for ten years.

Dr. Gates received his B. A. degree from Baylor university in 1903. The Baylor Theological seminary later presented him the degree of Doctor of Divinity. He was ordained to the ministry in 1897 in his home town of Mart, Texas, near Waco. Soon after, he was employed by the Arkansas Baptist State board as educational secretary. At present Dr. Gates is a member of the board of directors of the Texas Baptist convention. He is also a trustee of the Baptist academy at San Marcos and is a member of the board of directors of the Baptist Standard, religious paper of South-wide circulation.

### College Women Continue Drive For Camp Site

ASK FOR SECOND-HAND BOOKS TO ADD TO FUNDS FOR FIRST PAYMENT

Continuation of the drive for an all-girls' camp site has been demonstrated on the campus this week by the members of the Association of Women Students and of the Woman's Athletic Association in a tag sale, a drive for second-hand books and a women's convocation held in the gymnasium yesterday morning.

Today and tomorrow boxes will be placed near the college bookstore so that each girl will have an opportunity before selling her books to give one of them to be sold for funds for the camp site.

Red Tags Sold  
During this week red camp tags are being sold among the women students for fifty cents each in another phase of the campaign for the camp site.

At the convocation yesterday at 11 o'clock held under the auspices of

(Continued on page 5)

### Stainbrook To Make Extensive Field Trip

Dr. M. A. Stainbrook, member of the geology department, will spend the summer in an extensive trip over the northern and eastern sections of the United States and a part of Canada. While on this trip he will collect fossils from the various formations he finds. He will also visit many noted museums and universities. Dr. Stainbrook will return in due time to resume his classes here next fall.

### Glascok And Eoff To Teach Spanish

Dr. C. C. Glascok of the University of Texas will teach a course in advanced Spanish grammar and composition the first six weeks of the summer session. This course is designed especially for teachers of Spanish. Dr. Sherman Eoff of Washington university, St. Louis, will teach the second term of the session.

### The New Student Administration

WAYNE CASTLEBERRY

LIZZIE BELLE CLEMENTS

JAMES HARLEY DALLAS

MOSE WITHERSPOON

The students whose pictures appear above will be the chief officials in the Student association and the Student council next year. Wayne Castleberry, of Eastland, newly-elected president, is a sophomore pre-law student. Lizzy Belle Clements, newly elected secretary-treasurer, is a junior in the School of Liberal Arts;

her home is in Lubbock. James Harley Dallas, of Brownfield, is a junior student in the department of business administration. He will be vice-president of the Student association. Mose Witherspoon, who will represent the students on the Athletic council of the college, is a junior in the School of Engineering.

### Registration For Summer School To Start Monday, May 2; Officials Of College Look For Large Enrollment

### Correspondence Work Is Offered College Students

MCDONALD URGES PERSONS BEHIND IN WORK TO ENROLL

Opportunity for doing special work with the college is offered by the department of extension, directed by J. F. McDonald. A communication from that department setting forth the possibilities and advantages of correspondence work in the summer reads as follows:

"At the close of the session some students will leave the college with fragments of courses incompleting, and some with F's on the records, and other some with an ambition to speed up, if they knew there was a chance. Through over two-hundred subjects in over twenty departments, in the extension service of the college offers a convenient means of evening up the first group, keeping the second group and speeding up the third group.

During the past ten months the college has carried 1472 courses to students. This service is available during the vacation period. Students who are interested would save time by making preliminary inquiries and plans before leaving for home. The Department of Extension invites conferences."

### Recreation Features For Students Planned

Registration for what is expected to be one of the most satisfactory summer schools ever conducted by the college will be Monday, June 2; regular classes will start the next day and continue through July 12, the end of the first term. The second term of summer school will extend from July 14 to August 22.

Dr. Paul W. Horn, president of the college, has stated that he is anticipating an excellent school this summer with every indication that there will be a large group attending. The size of the Tech summer schools has grown from 336 in 1926 to 1298 last year. E. L. Dohoney, registrar of the college, states that a large number of inquiries have been received by the college, and that many school teachers desiring to complete their undergraduate work or follow graduate study will be enrolled this summer.

Entertainment Planned  
Recreation plans for the summer session have been formulated by a special committee of the faculty, and provides for group singing, band concerts, dramatic productions, moving pictures, one or two trips to the Carlsbad Caverns, and the following number of the summer artist course, admittance to which entails a recreation fee of \$1.00 to be paid at the time

(Continued on page 2)

### Dean Williams To Deliver Address

Dean Walter Williams of the Journalism school of Missouri University will deliver the address to the graduating class at 10:30 o'clock next Monday morning in the gymnasium. The Regents of the university have chosen him to fill the office of president of Missouri university, which office he is soon to take. At present he is honorary president of the Press Congress of the World. He is a writer and traveler of wide repute.

The visitor was born in Boonville, Mo., the birthplace home of Dr. P. W. Horn. He attended Missouri schools and spent most of his early life in that state. Later he made several trips abroad, at one time circling the globe. In 1915 the International Press Congress met in San Francisco. Dean Williams was director of this convention and later was elected its first president. In addition to his newspaper work, Dean Williams has written many text books. His main endeavor in this respect has been in the field of history both in Missouri and in the South; books on the Holy Land and text books on journalism are other works of his. A history of Missouri since the Civil War is the latest book of Dean Williams. This book was published in 1927.

### Curtis Williams High Point Man In Stockjudging

WOLF, HOWELL, POTTS, MORGAN AND HONEYCUTT ALSO ON FRESHMAN TEAM

Curtis Williams of Lubbock was high point man of the freshman livestock judging contest held by the animal husbandry department at the college Saturday. As a reward a gold medal was presented him by the college book store. Two men, Ralph Wolf of Hereford and Harlan Howell each having a scoring total of 662 points, as contrasted with 686 points scored by Williams. Highest possible score was 750 points.

Six men were chosen for the freshman team. The other three named in the order of their standing are: James Potts, Lubbock, Carroll Morgan, Temple, and Alton Honeycutt, Temple.

Grimes In Charge  
Curtis Grimes, senior animal husbandry major, was in charge of the contest. He was assisted by Frank Main, and Curry Dalton, also seniors. Results were tabulated by junior students of animal husbandry, and were announced immediately following the last set of reasons by Dean A. H. Leidigh.

Outside judges were used because of the fact that all the animal husbandry faculty have at some time taught students of the contest. They were R. C. Tom, Tech graduate and a members of Tech's first international judging team, and R. B. Davis county agent of Terry county.

### Sarah Michie Heads College Press Club

At the last regular meeting of the Press club, held Wednesday evening in room 219, officers were elected for the coming year. Sarah Michie was chosen president, E. B. Fincher, vice-president, and Eva Rob Watkins, secretary-treasurer.

Plans for the breakfast to be given in honor of Dean Walter Williams on May 26 were made, and a paper on journalism was read by H. Y. Price.

### 109 Degrees Will Be Conferred In Coming Event

INCLUDES TWO MASTERS AND 107 BACHELORS FOR MAY PROGRAM

#### WILL PRESENT GIFT

GARDEN PARTY AND JUNIOR INVESTITURE ARE PART OF ACTIVITIES

Concluding their undergraduate activities, 107 May graduates with two candidates for master's degrees and 57 August graduates, will enter Saturday evening, Sunday and Monday into the final exercises for the year. It is expected that the August class will number 75 by the end of the summer school and that six or eight candidates will work for M. A. degrees at that time also. The total number of degrees granted in both May and August will therefore be approximately one hundred ninety-one.

The program for the fourth annual commencement will begin with a garden party given by President and Mrs. P. W. Horn Saturday at the president's residence from 5:30 to 6:30 o'clock. Thirty minutes later the presentation of the class gift and investiture of the junior class will be held on the lawn of the administration building. Charles Woodruff, president of the senior class, will preside at this ceremony. The junior and senior classes will probably assemble in front of the home economics building where the line of procession will be formed, the juniors escorting the seniors to their seats of honor. Warren Huff, who has initiated the student union movement, will present the class gift to the college, and President Horn will deliver the response. Holmes Webb will deliver the junior investiture and Orville Brothers, president of the junior class, will speak in re-

(Continued from page 2)

### Jason Gordon New Ag Club President

The election and installation of new officers for the coming year was made at the final meeting of the Ag club Wednesday night, May 14. New officers are: Jason Gordon, president; James P. Williams, vice president; James Dornin, secretary; and W. A. King, treasurer. Retiring officers who have held these positions during the present year are: Richard Senter, President; R. L. Burdett, vice president; and T. J. Harris, secretary and treasurer.

A new constitution for the club was also voted on and adopted; it will change the qualifications required of the officers of the club and provide for the election of officers semi-annually.

### Important Notice

ANNUALS WILL BE GIVEN OUT SATURDAY, MAY 24

(Notice from Ralph Brandenburg, business manager of La Ventana)

- (1) Those students who intend to take books for use outside the library between Saturday, May 24, and the close of school will have to leave deposit intact or make a temporary one.
- (2) Annuals will be distributed Saturday, May 24, from 8 to 12 o'clock and from 1 to 4 o'clock at the business office of the college. BRING AMOUNT OF FINES IN READY CASH.
- (3) Deposits not assigned to annual will be refunded only on Saturday morning, May 24, from 8 to 12 o'clock.

### 109 Degrees

(Continued from page 1)

sponse. The Tech band will then play for the recessional, the seniors leading the line of march and the audience remaining seated until the procession has disbanded. There will then be an informal reception held in the cloisters of the administration building for the seniors and their friends.

#### On Hand Promptly

All seniors have been notified to be on hand at 10:45 o'clock Sunday and 10:15 o'clock Monday for the forming of the procession in the vicinity of the Textile Engineering building. "Flop" Marshall, editor of the annual for 1930-31 has issued an urgent request that all seniors report at 10 o'clock Monday morning in order that a picture of the entire class might be made. Leon Havis, grand marshal of the day, states that the line will be formed promptly on time and that it is absolutely necessary that every senior report early and be on hand when his name is called if he expects to be in the procession. Mr. Havis gives the following statement concerning the time allowed:

"The instructions sent to all seniors state that the procession marches promptly at 10:55 o'clock Sunday and at 10:25 o'clock Monday. At least 15 minutes must be allowed for the placing of every person in his or her particular place in the line of march. Every senior and faculty member is therefore requested to be on hand before this time and to pay strict attention to the business of forming the line. The editor of La Ventana wants a picture of the class, which will be taken Monday. On that day all seniors are asked to report not later than 10 o'clock."

#### Dr. Gates To Speak

At 11 o'clock Sunday morning the baccalaureate sermon will be delivered in the college assembly hall.

The class will file into place and all standing, the doxology will be sung and Dr. John C. Granbery will give the invocation.

The order of the program will then be: Hymn, "Onward, Christian Soldiers," (congregation standing); Scripture lesson, Rev. R. C. Campbell; Anthem, Hallelujah chorus (The Messiah, (Händel) Lubbock Civic Choral club; Announcements; Sermon, Dr.

I. E. Gates, pastor of the First Baptist church, San Antonio, Texas; College Hymn; Benediction; Seniors leave, audience remaining standing until procession passes out.

#### Dean Williams Will Talk

The senior class, the entire faculty, and the board of directors will assemble in the East cloister of the Textile building Monday morning for forming the procession at 10:15 o'clock. The line will march at 10:25. Halving at the door of the assembly hall, the two files will face each other while those in the rear of the line march through, thus inverting the line. The program for the morning is as follows:

Processional, (audience standing); "Glory to Alma Mater"; College band; Invocation, Dean J. M. Gordon; A Pastoral Fantasy, Waghorne; (Fred Fairley, violin; Aileen Huston, clarinet; Lynn Grey Gordon, French horn; W. R. Waghorne, pianoforte.) Baccalaureate Address, President Walter Williams, University of Missouri; Chorals (O Alma Mater, Beethoven) Choral club; Award of Scholarships; Presentation of Diplomas; College Hymn; Recessional, (in silence, audience standing).

### Registration

(Continued from page 1)

of registration: the Fisk Jubilee Singers, week of June 16; "Grumoy," a play to be presented by the Bennett-Hall players of Chicago; and the Light Opera Mirror, which will include numbers from several popular productions given by the singers.

Mr. Dohoney announces that registration plans will be as follows:

#### SUMMER SCHOOL REGISTRATION June 2, 1930

For All Students of all Schools Time: 8-12 a. m. and 1:30-5:30 p. m.

To avoid delay, Liberal Arts and all Students Not Enrolled This Year will please report in alphabetical order according to the first letter of their family name as follows:

8-9 o'clock: V, W, X, Y, and Z. 9-10 o'clock: S, T, U. 10-11 o'clock: P, Q, R. 11-12 o'clock: M, N, O. 1:30-2:30 o'clock: I, J, K, L. 2:30-3:30 o'clock: E, F, G, H. 3:30-4:30 o'clock: C, D. 4:30-5:30 o'clock, A, B. Agriculture, Engineering, and Home

Economics students now enrolled in School may report to their respective buildings disregarding the alphabetical order.

#### PHYSICAL EXAMINATIONS

All students should have their examinations before the hour set for registration.

These examinations may be taken at the Lubbock Sanitarium before Registration Day.

During registration in Room P, basement of Chemistry building.

Students who have had physical examinations by the College physician since September 1, 1929, are not required to take the examination for this registration.

#### WHERE TO START

Main Entrance, of Administration Building.

(1) Men enter East Rotunda. (2) Women enter West Rotunda.

Register your Lubbock address and church affiliation.

Students living at home in Lubbock need NOT have Lubbock address approved.

NEW STUDENTS have entrance cards approved for registration by a representative of Registrar's office.

FORMER STUDENTS have student record books approved for registration by representative of Registrar's office.

(2) NEW students in Agriculture, Engineering, and Home Economics will then go to their respective buildings to complete registration. ONLY LIBERAL ARTS students will complete registration in Administration building. Plans for registration will be given out in school.

(3) ALL STUDENTS after receiving approved schedules will pay their fees at the business office, Room 104 or 105, Administration building.

Have class cards checked in Registrar's office.

### College Women

(Continued from page 1)

of the Association of Women Students, short talks were given on the proposed camp site and its possible future development and on methods of raising money for the first payment.

#### Calls For "Big Sisters"

A brief discussion of the "Little Sister" movement, what it has meant on the campus in the past, and what is planned for it in the future was given by Marjorie Ann Ainsworth. Cards were signed by girls who wanted to become "Big Sisters" next year in order that assignments might be made before school opens next fall.

Miss Lizzie Belle Clements, retiring president of the association, presented the following officers of the organization to the audience: Margaret Cooper, president; Elizabeth Crews, vice president; and Mary Beth Sheely, secretary and treasurer.

#### Will Send Group To Hollister Meeting

Tech is expected to be represented by a large delegation at the annual summer Y. M. and Y. W. C. A. conference at Hollister, Mo., according to Warren Huff, president of the men's group on the campus. The conference will be held from June 6 to 16 in the heart of the Ozarks—the section popularly known as the "Shepherd of the Hills" country.

Margaret Cooper, Warren Huff, Hal Lary, Cecil Kersey, Geraldine Clewell with some of four or five others will compose the Tech delega-

tion. In the past Tech has been accustomed to send the largest delegation from a remote section of the conference, having sent 12 last summer.

The conference will be made up of students from colleges in Oklahoma, Missouri, Arkansas, and Texas and adult leaders from these and other sections. Claud Nelson, Roy McCullough, Kirby Page, Dave Porter, Harry Bone, and Walter Harrison are among the leaders who will take part in the program.

The program of the conference will include platform and private talks

by and with the leaders, special interest groups, Bible study groups and worship services. The entire afternoon period will be left completely free for the many kinds of physical recreation offered in the Ozarks, including swimming, golfing, boating, fishing, tennis, hiking, sightseeing, and group competitions.

"Are you laughing at me?" demanded the irate professor of his class.

"No," came the answer in chorus.

"Well" insisted the irate professor, "What else is there in the room to laugh at?"

## *Dedicated To The Class of 1930*

*(The largest body ever to graduate at Texas Tech.)*

As the portals to West Texas' greatest institution of learning opens wide its doors to the class of two hundred and seventy-one men and women who constitute its graduating class of 1930, as they come in single file, to the invisible stage of life, to receive the fruits of their four years work, we cannot help expressing our high esteem and congratulations for the splendid attainment.

As you are picked up and scattered to the four winds of the earth to gain greater laurels for yourself and Alma Mater, it is well to remember that SERVICE to your fellowman will be the yard stick of your progress and the barometer of your success. Service . . . like that given you during your school days in Tech. Service . . . that has caused Tech's graduating class to increase 103 in twelve short months, 271 in 1930 against 168 in 1929. That's the service that we dedicate to the class of 1930.

*—and now, class of '30, Let's Tender  
The Classes of '31, '32 '33 and '34  
Our Best Wishes*

On they come, dozens of inspired young men and young women. Fired with ambition to stand "on the invisible stage of life" as you have done. Determined to mount the highest problems and obstacles of school life, and to leave inspired to give the SERVICE that has made the school and its graduating classes famous.. So now, Class of '30, let's give the Alumni of tomorrow our sincerest best wishes and cooperation as they aspire the goal attained by you.

*—and Congratulations To The Faculty!*

Lives dedicated to education are lives that have been instrumental in building great empires, great industrial giants, great churches, and great men and women. Lives of SERVICE and untiring effort. Especially are the Profs of Tech to be congratulated for the results they gained, for the laurels they have brought to Texas Tech since its doors were first opened 5 years ago. Hence, isn't it fitting, as you are congratulated by the staff of instructors, to say, "You haven't done so bad yourself, old fellow."

**CARTER-HOUSTON**  
A SUNSET  
DEPARTMENT STORE  
"The Best Place To Shop After All"

As this class of 1930 graduates of Texas Technological College receive their degrees, a fifth chapter is being turned in the history of the college. First there was its creation by the legislature of Texas; second, its establishment in Lubbock and its actual construction; next, its first enrollment, in the fall of '25; then four years of unprecedented growth—and now the greatest class in the history of the school numbering two hundred seventy one young men and women.

These young men and women go forth with a strong REALIZATION of the hardships of the tasks before them and with a directed ENERGY, which has been taught them in these four years, they shall render a SERVICE to mankind which shall be a reward for their expended ENERGY.

SERVICE to a community is indeed an accomplishment sought for by every industry—Our entire organization realizes the need for energy to be expended in order that our customers may derive a service valuable to them. Class of "1930" we congratulate you on your success.

(Continued From Page One.)

received from Coach Cawthon, which says in part: "Just received bad news Stop Am for my boys first and all times Stop Earnestly hoping for clemency in their cases Stop But can't interfere with college discipline Stop Please use your influence to solidify students opinion against infraction of rules that are wrecking our athletic teams. Coach Cawthon."

(Signed) Hogue Williams.

Students officials concerned with the proposed meeting consider that it is one of the most important and potentially progressive steps that the students of the campus have ever taken. They further regard that a good representation of all the men on the campus is essential to the success of any course of action that may be decided on. With this idea in mind, they have requested that all college men make a special effort to attend the meeting.

The proposed course of action is regarded as being a follow-up to recent disturbances on the campus, referred to in the communication from Williams, that have resulted in decisive action by college officials, which has in turn produced serious concern among members of the student body.

First Girl: And do you know she hasn't spoke to me since.

Second Girl: Is that so? Won't she even speak?

First Girl: I haven't seen her since it happened, but I just know she won't speak.

**How One Little Girl Broke Into Motion Pictures**

"I need a typical, unspoiled, gawky kid of a girl for that part in my next First National-Vitaphone picture "Hard to Get," Director William Beaudine told his wife one night at dinner. "The film kids are all too graceful and poised."

"The rest of the cast is great. Dorothy Mackaill, star. Charles Delaney, leading man. Louise Fazenda, Jack Oakie, Edmund Burns, James Finlayson, Clarissa Selwynne—isn't that a bunch of troupers for you?"

"But that kid sister of the heroine's worries me. She's got to be peppy but natural, and a lot of other things."

Margaret Beaudine, the director's twelve-year-old daughter, heard all this. The next day she approached her father.

"Daddy," she began circuitously, "don't you think I'm getting long-legged and clumsy? Kinda gawky looking and acting?"

"Why no, Mickey dear," he replied wonderingly. "I just think you're sweet."

"Daddy, I want that part!"

"Aha! So that's it—"

And thus began the argument that lasted a week, through tests of every film kiddie in the business. Mickey's tests won out. Reluctantly her father let her into the movies. But as Mickey says, "It's hard to get in when you have to convince your own daddy." The picture, by the way, comes to the Palace Theatre at Slaton Wednesday and Thursday of this week.

**Hosts To Seniors**

Dr. Paul W. Horn, president of the college, who with Mrs. Horn will entertain members of the graduating class with a garden party at their home Saturday from 5:30 to 6:30 o'clock.

**Miss Pirtle To Do Work In Columbia**

Miss Ruth Pirtle, head of the speech department of the college will spend the year 1930-31 in New York City, completing work on her Master of Arts degree at Columbia University. Miss Pirtle plans to do special work in stage design under Robert Edmond Jones, and will also take special courses in psychology of Speech.

It is probable that Miss Pirtle will tour Europe during the summer of 1931 before returning to resume her duties here. She will sail with a group of students from Columbia on a sup-

ervised tour under the social direction of Whittier Hall, dormitory for women of the university.

**NOTICE TO GRADUATES**

All graduates of the class of 1930 who had their pictures mad for La Ventana are requested to see Ralph Brandenburg before May 27 to get a refund of fifty cents.

Golf Bugs in Hades: Oh, boy, a perfect drive, right on the green. Where's the hole, caddy?  
Caddy: There isn't any hole, sir. That's the hell of it.

College Lad (arrested for speeding) But your honor, I am a college boy.  
Judge: Ignorance doesn't extuse anybody.

Detachments of American and British soldiers were cantoned near each other. A feeling of jealousy was running high. One Britisher assailed a hump-shouldered Yankee.

"Say, what's that hump on your back?"

Immediately the American answered: "Bunker Hill. Wanna climb it?"

Spearmint: I had a date with a college freshman last night, Mazie.

Second Steno: What'd ya do?

Spearmint: Honey, ain't you been out with a college boy?

Why does he call his girl's trunk his brief-case?  
Because it holds a lot of his old

## Now That We Have Come To This

With the publication of this, the thirty-fourth and volume V of the Toreador, the last issue, it is in order for the retiring staff to bring to completion its work and bid farewell to its readers.

To begin with, the staff recognizes that it has made its blunders and mistakes—perhaps some serious ones. There have been errors in the mechanics of publishing the paper as well as in formulating its policies. There have been errors of exclusion as well as of inclusion; there have been sins of omission as well as of commission. To say otherwise would be to claim an impossible state of perfection and to deny that one learns by experience. If the year were just beginning instead of drawing to a close, the staff believes that it could present a paper richer in contents, more representative in news, complete in illustrations, and wiser in policy.

On the other hand, the staff begs its readers to believe that its mistakes have been ones of the head rather than the heart. The staff has no apology for the attitude it has taken in preparing The Toreador each week. It had in every case tried to present a newspaper that would be interesting, complete, representative, illuminating, thought-provoking and constructive. In trying to follow this policy the staff contends that it has been vigorous and fearless, energetic, and untiring, eager and open-minded. The staff has even on occasion gone so far as to violate the codes of journalism by refusing to print what might be in all fairness regarded as news of the day, yet which was felt to be unnecessarily hurtful to the interests of the school or to certain individuals.

It may seem to some that the policies of the paper have been determined to too great extent by the individual ideas and, possibly, prejudices of the members of the staff. It should be remembered, however, that the only principles for which people can earnestly contend are those that they sincerely hold, that institutions founded on willy-nilly principles or none at all are lifeless and make no valuable contribution to society, and that persons cannot set forth the ideas which they believe to be necessary for the betterment of society without incurring strong opposition and, unfortunately, a certain amount of bitter resentment.

The staff has made a conscious effort to avoid catering to a particular group or groups. In so far as it has admittedly failed, but again it is suggested that such failures have been unconscious rather than conscious.

There have been delays and omissions in the presentation of the Toreador this year which the staff sincerely regrets, yet for which it does not feel responsible. Due to the expense and inconvenience of printing The Toreador in shops not connected with the college, there have been times when it has been necessary to give preference to advertising above news and other times when it has been necessary to delay the paper through complications not connected with the work of the staff. The staff begs that its readers regard these unfortunate circumstances as pointing to the need for a college printing plant rather than pointing to negligence in the performance of its duties.

Although the retiring staff does

not wish to finish its work with an air of boasting, in all fairness it should be pointed out that by beginning the year's work some ten days earlier than the rest of the student body and by doubling on its work at another time it has been possible to present its readers with two issues more of The Toreador than any preceding staff has done, that it has in several instances worked far overtime to prepare larger issues than usual, and that it has received high commendation from responsible sources for its product, culminating in the award of first place in the Texas Intercollegiate Press association in the general newspaper division, and in the editorial division, the former award bringing a silver loving cup for the permanent possession of the college.

Finally the staff expresses its sincerest appreciation for the many persons who have made this paper possible and who have given encouragement and helpful suggestions at times when they were sorely needed. Included in this group are the advertisers, members of the faculty and administration, students, and other readers in the town, alumni, and in other schools of the state.

The retiring staff regrets its errors, rejoices in its little triumphs, appreciates its opportunity for service, and gives thanks to its friends.

## Student Opinion

### "DEAD WEEK"

The word "dead" evidently has two meanings. When the administration set aside the last week of each term as "dead" week, they probably had the first meaning of very still or quiet in mind. Therefore, they decreed that during this week social activity should be nil and also (and here's the rub) that professors should assign no quizzes or extra work during this week. But to some professors the word seems to have an entirely different meaning. They have misconstrued the word to mean a wholesale slaughter of students by a process of mental torture. Quizzes are being assigned in many classes with total disregard for the decree of the administration. They probably are striving to make "dead week" a big success; no doubt they will because if this influx of work continues, we will certainly be dead by the close of the week. Why not a record for the professor having killed the most students during "dead" week?

—Contributed.

Every girl enrolled in Tech should be interested in the campaign sponsored by the A. W. S. throughout this week and next week for the purpose of raising funds for the purchase of a propose girls' camp site. The land which the organization intends to buy is located in the canyon northwest of town in walking distance of campus. After the land has been paid for, probably a matter of several years, a clubhouse will be erected on the site, and provisions will be made for tennis courts, golf links, and other facilities. This proposed system will then serve as a recreational center for all college girls and particularly for the different organizations on the campus.

The amount of the first payment on the land is \$400, and this amount must be raised by June 1. Approximately \$100 of this amount has already been raised. The W. A. A. has pledged \$50 to the fund. Las Leales has also pledged a definite sum. Monday and Tuesday of last week a candy sale was sponsored by the A. W. S. and proceeds from this sale, which amounted to about \$14, will go toward the fund.

Throughout this week and next week the A. W. S. is selling tickets for the purpose of helping to raise the money. The price of each ticket is fifty cents, and every student will be afforded the opportunity of having a part in this interesting project by buying one of these tickets. Thursday and Friday of this week the bookstore will buy second hand books. There will be a special table outside the store, and every student will be given a final chance to contribute by giving to the A. W. S. one of the second hand books he wishes to sell.

## The Problems Facing Student Government

Although the preoccupation with student affairs of an extra-curricular nature demonstrated on the campus during the last few weeks has a tendency to produce a revulsion in favor of a more cloistered life, it should not be overlooked that the student government in particular and the student body in general will be faced with some very definite and pressing prob-

lems next year. Some of these should have been solved long ago. Some of them may never be solved. But others will lend themselves to study and action.

It is not with the view of outlining the work that ought to be followed next year, but rather with the aim of clarifying for the sake of general information, that the following concerns of the student government are called to attention:

(1) What is to be done with the student funds? Who has charge of them?—Dr. Horn? The Student Council? The business manager? The Publications board? At present nobody knows, and the lack of understanding has given rise to another serious concern. Which is?

(2) What check-up can be made of student fund already expended? It is already known that there has been a misunderstanding or a lack of any understanding on the use of student money, running into several thousands of dollars.

(3) What can be done in the way of developing a student co-op for the purpose of handling books and supplies? Criticism of the present system of imposing a heavy and unjust tax on the students, who are not supposed to bear such expenses, has been common on the campus, and a thorough investigation of profits and comparative prices needs to be made.

(4) What can be done toward incorporating the student publications or following some other adequate plan of finance and control, bringing up the possibility of a college printing plant?

(5) How is the student union program to be put over? How can the student body, faculty, town, and state resources be so tapped as to raise the needed part of the goal of \$100,000?

(6) How can student responsibility for student action be brought about? This entails matters of drunkenness at dances, cheating on examinations, and violations of rules in general. Or need anything be done? Is the present method of doing anything that one can get by with the most desirable system?

(7) How can students themselves work toward the elevation of standards of scholarship on the campus—a work that needs to be done and one which many are convinced must proceed from the students themselves?

(8) How can extra-curricular activities be so controlled as to guarantee the maximum benefit from one's college experience?

(9) How can Tech be changed from a collection of schools, cliques, and self-centered clubs into an integrated institution where there will be real recognition of unity and wholeness, if not to the extent of producing a standard product, at least to the extent of doing away with the unnecessary friction and selfishness manifested between and in certain of these schaaals and groups?

All of the foregoing, which are only suggestive and not comprehensive, would be legitimate objects of study by the student government and associated organizations next year. It will be seen by the briefest analysis of the consequences of this work that needs to be done that the ones responsible for the carrying on of official duties on the campus hold no places of light responsibility.

## Scholarship—High Or Low?

High scholarship, the quest of the wise man and the disgust of the fool, is not the prevalent order on the average American college campus today regardless of the preponderance of classes and text books. In fact, so obvious at times does this condition become that one is inclined to wonder whether or not it would be wise to expell from our institutions of higher learning all except those who might, by some elusive, undiscovered test, qualify in the intellectually superior of the race.

With increasing enrollment in colleges and universities, it is apparent that either the standards of the educational system are lowering or the intelligent quotient of the race is being raised. Since the latter is obviously impossible, the former must be the case. Regardless of low standards, the majority of the students are helped by their training. Since the state pays for educational facilities, it would seem that all should be allowed to attend, regardless of their mentality. The application of such logic would tend to produce a homogeneously intellectual nation instead of an intellectual feudalism. It might be reasoned that the potential genius will achieve in spite of low standards.

On the other hand, a catering to the intellectually elite in the class room would develop to the maximum

the endowed individual. Such a status would set high goals for the mediocre individual, thus giving them the needed stimulus to develop to the maximum also. Then it must be said also that higher standards would purify our college population of the listless loafers who are a decided encumbrance.

Here at Tech there seems to be a tendency to favor the mediocre individual. This can be partially explained by the fact that the professors are assigned more work than they can possibly do well, some of them teaching whole departments.

The present system of grading, examinations, and the division of the year into terms allows of inequalities that are distinct handicaps to the intellectually capable. Final examinations and long registration periods require much of the students' time which does not foster development. There seems to be no definite intellectual emphasis among the students to any wide extent. Student initiative does not express itself in that manner here. Very heterogeneous groups are combined in one class, from which it is expected to issue a uniform product. In this manner a definite harm is done both to the endowed person and to the one who is under a hereditary handicap. This combination, regardless of ability, also tends to dilute the intellectual interest. Here it would seem that by allowing the listless, the intellectual inferior to stay in school a premium is placed on mediocrity rather than on mental acumen.

Some consolation might be derived from knowing that Tech is not very different in these respects from other colleges. On the other hand the indictment falls doubly heavy on this schaal where traditions are still in the molding and are favorable to the development of higher standards.

## Cultural vs. Technical Education

One is rather surprised to find an editorial in a recent issue of the daily newspaper of McGill university, that conservative Canadian institution, in which the writer warns prospective college students to profit by the example of hundreds of graduates of Arts faculties in Canadian schools who are unable to find a place for service in this thoroughly progressive and technical world. Yet this editorial is but one indication among others of a growing tendency to demand that the college student specialize quickly and thoroughly in some line of work that will make a needed contribution to an admittedly competitive and mechanical world of business and industry.

The need for a sense of direction in life and for training designed to render one highly capable of rendering service in a very complicated world is not denied. Indeed, one grows weary of young people in colleges where they are supposed to be fitting themselves for better lives, yet where they only fritter away their time, if not in meaningless activity, at best in poorly-directed and poorly coordinated study, preparing themselves for nothing in particular and leaving the already sadly abused teaching profession for their only possible life work. No matter how many courses they may have taken, such persons are not equipped with a sense of direction essential to the successful life—least of all are they fitted for the professions on which they usually cast themselves.

But if one grows tired of college students who have killed their time in mis-directed effort, one certainly grows no less weary of those highly self-conscious individuals who have taken up a very small field of life for their chosen work and think that all of life may be explained in terms of square feet, voltage, cows, molecules, dollars or cents. Such persons do not become educated—they become technicians. Their lack of culture is revealed in their speech, their narrowmindedness is demonstrated in their prejudices, their unfitness for life is shown in their restriction of interests.

Surely college men and women ought consciously to strive for balance as well as direction. The time ought to come when students entering special fields are required to take a year or two of really cultural study looking toward their technical field before actually entering it, as is now required to prospective doctors of medicine. And the time ought to come when college students pursuing more general courses of study are required to lay down at a certain point in their career a satisfactory plan for their life work, demonstrating how they hope for each particular study or activity to fit in with the whole scheme.

Modern life needs fewer uncultured technicians and fewer persons of general culture but without specific qualifications.

## In Charge of La Ventana Next Year

R. C. MARSHALL

F. M. COKER

Who will publish the college yearbook, La Ventana, for 1930-31, "Country" Coker, business manager, is an old student of Tech; he will be a senior in textile engineering next year.

"Flop" Marshall, who recently transferred to Tech from Hillsboro Junior college, is the author of the "Mata-dor" song recently adopted. He will be editor of the yearbook.

There are exceptions to all rules. What's the exception to the rule that we all must live, then die? That's the exception to the rule that all rules have their exceptions.

Hey, Dominique, what did you say when the dean saw you lying in the gutter? I said, "Shay, Dean, have you sheen Dominique around any place?"

## PROPOSED ATHLETIC LOOP STILL PENDING; TECH FACES NEED OF UNITING WITH SOME CONFERENCE

### School of Mines Said To Have Rejected Constitution

Tech is not yet a member of the proposed new West Texas athletic conference, nor is the conference as yet a reality. These facts, however do not clear up the situation that is confronting the institution at present, especially when some significant attendant circumstances are considered. A committee from the various proposed member schools has drafted a constitution, and this constitution has been submitted to the various schools, but none have ratified it so far. The prospective members are: Texas Tech, Canyon, Simmons, Howard Payne, A. C. C. and the School of Mines.

The School of Mines at El Paso claims that it could not enter the conference unless allowed to play freshman athletes on its varsity teams. The committee at its March meeting ruled to allow the playing of freshmen at that institution for the first three years of the conference, but the representatives from the El Paso institution apparently do not see fit to enter under this provision, according to recent press notices.

**Must Be in Conference**  
Another complication that strikes closer to Tech than any other is the fact that Tech was admitted to the Southern Association of Colleges with the understanding that the institution would get into some athletic conference. At that time efforts were being made to get into the Southwestern conference; and, since it is generally admitted that Tech is too far removed from the other universities to gain admission to the Southwestern loop, the local authorities are faced with the proposition of getting into a conference of some kind or eventually losing affiliation with the Southern Association of Colleges.

Now that the School of Mines has practically decided not to enter the new organization, and since none of the proposed members have ratified the constitution, the possibilities of a new athletic conference are almost as vague as ever.

**"New T. I. A. A." Proposed**  
Tech has another alternative, that of the "New T. I. A. A.", which was explained by Dr. W. A. Jackson in an article published last winter. It is proposed to divide the T. I. A. A. into two divisions, conduct a championship elimination in each, and then bring the two champions together in a title contest. This plan is favored by the Tech officials if the proposed new conference does not go into effect.

According to Tech officials W. L. Stangel and Dr. Jackson, who were members of the committee on the constitution, the possibilities of the new organization are not dark by any means. Several difficulties in the constitution can be ironed out during the summer, and a sufficient number of schools may ratify the constitution so that the play under the new conference can begin with the opening of the basket ball season next winter. Fall football, however, will not be affected by any action that might be taken.

### Pictures of Tech Athletes Will Be Placed in 'T' Club

#### CAWTHON PLANS ROOM FOR MEETING PLACE FOR MEMBERS

Pictures of all Tech athletic teams and individual letter men for the past five years with the trophies they have won will be placed in a "T" club room located in the gym next fall.

This room will be used as a meeting place for all "T" club men. They may meet there while off the athletic field to discuss plays and how to correct mistakes made in past games.

Coach Cawthon states that the room will be for the purpose of building up a fighting spirit among the players. The personal contact among the members is expected to result in better understanding and closer friendship.

#### LATIN COURSE OFFERED

Latin 101-2-3 will be offered during the first six weeks of the summer term. This course will absolve the two entrance credits which are required. Mrs. William Dingus will be the instructor.

### Raymond Pfluger Elected Captain '31 Tennis Squad

#### CANDIDATES URGED TO START COURT TRAINING NEXT FALL

Raymond Pfluger, ranking Tech tennis star of Tech this season, was elected to captain next year's squad by members of this year's tennis team in a meeting held Saturday, May 17.

Prospective members for the team will be urged to begin practice next fall, insuring a strong team for coming meets in the spring.

Next year's squad under the leadership of an able captain with plenty of good material is well assured of a successful season.

### Faculty Members Defeat Seniors In Volley Ball Game

#### SCORE 45 TO OPPONENTS' 3 IN CONTEST IN GYMNASIUM

Making good their boast to win the "Battle of the Century," the members of the faculty volley ball team soundly trounced the college seniors in a three-game tilt before an audience of 150 in the college gymnasium Friday afternoon.

In the first two games the seniors failed to count before their elders had run up the necessary 15 points, but the last game kept them from being completely white-washed, resulting in a 15-3 victory for the faculty.

The victorious faculty team was composed of Freeland, Schmidt, McKay, Shelton, Long and Russell. The senior class was represented by Moore, C. Woodriddle, Dalton, McLean, Watson and Hancock.

### Seniors Defeat Faculty In Ball Game At Picnic

#### COLLEGE ENGINEERS ENJOY ANNUAL OUTING AT CITY PARK

Members of the Engineering society and their guests enjoyed an evening of picnicking at the city park Thursday evening, May 15.

One of the most interesting events of the evening was a baseball game between the engineering faculty members and senior engineering students, Captain Miller and his rusty nine were far too husky and shifty for Charlie Woodriddle and his senior aggregation. Captain Miller slumped out on his first time to bat, but regained confidence and on the second time smacked the apple over the fence and made first base without difficulty. Shelton, the faculty's hefty pitcher, lifted one over right field and, despite yells and cries of his teammates, raced the wrong way around the field and was touched out by Woodriddle as he slid into home plate. It was none other than the godfather of Umpire Bill Fry which made no class a decision. Woodriddle claims that the faculty bullies are no match for his rookie nine. The game was called off on account of darkness with the seniors leading with 19 to the faculty 1.

Glover won the transit contest with Coker a close second. Country Coker won the stake driving contest with Burns at his heels. Murchough won the weenie eating contest with no opponents. It was a wet day for the freshmen in the tug-of-war between the upper classmen and freshmen.

There was plenty to eat, and rumors of indigestion were numerous.

#### HARRISON GRADUATES

Richard C. Harrison, son of the late Dr. R. C. Harrison, who was former head of the English department of the college, has graduated from the San Antonio high school.

A rut may be a great simplification in that it keeps one from being worn and fretted by unrestricted liberties. And it may be made a track which will guide one to success. It is the rut that one can not see out of that is to be avoided, the rut in which we try to hide.—Purdue Exponent.

## Tech Football Schedule

NOV. 19	HOWARD PAYNE	BROWNWOOD
NOV. 27	SIMMONS	LUBBOCK

### Heads Sophomores

TRUITT BROOKS

Truitt (Red) Brooks, who has been president of the freshman class this year, was re-elected to head his class for another year at the recent freshman excursion to Silver Falls. It has become customary to elect the president of the sophomore class on this occasion. Last year James Whitesides, who was president of his freshman class, was re-elected to head the sophomores for this year. An interesting fact about Truitt Brooks election is that next year will mark his sixth consecutive year as chief executive of his class, having presided over class activities for a four-year stretch in high school.

### Hijacker Robs Two Tech Boys

Two Tech students, Rankin Gammill and Owen Benn, were held up and robbed of \$9, at about 9:30 o'clock Wednesday night of last week between Ninth and Tenth Streets. The former of the two had \$2, and the latter had \$7. According to a description by Gammill, the bandits was nearly seven feet tall and had a very large gun. Each of the two students avers that he was only waiting for the other to get started before jumping on the highjacker and thrashing him soundly. Neither one got started, however.

### Detachment — A Goal For the Summer

For some students the end of the spring term will not mean a temporary or permanent halt in the educational process. For those graduates who really merit their degrees and the gaining of an education will continue with greater regularity and progress than they have known in college. And for those students who still have several terms of study in college ahead of them the coming vacation will not be an interval of three months in which the learning faculties are put on the shelf for the time being, but will be a time when the greatest contributions to personal education may be made.

The peculiar advantages of the summer for that much needed "detachment" may be better realized after reading the following article by Henry P. Van Dusan in the May issue of the Intercollegian.

"Of all the dilemmas with which life confronts us none is more puzzling than that between preoccupation and detachment.

"There is that in our life that is forever urging us to throw ourselves completely into the immediate situation. The attractive fellowship of friends; our own gregarious impulses; a growing fear of loneliness; the concrete challenge of immediate tasks—all call life to an intense and useful preoccupation. But there is that in our life also, something very deep which seems to flow from the fabled experience of the past, which warns against a too complete involvement and forever counsels detachment.

"I need detachment for my discovery of truth; for the great enemies of truth are false perspective and confusion. And the source of confusion is that my mind is beaten upon by a hundred and one influences, bits of ad-

vice—most of them different; many of them conflicting. Like the early disciples, I am tossed to and fro by every wind of opinion. What I need is not primarily more knowledge. I need to be able to utilize the knowledge I already possess. I need perspective. That can come only in one way—through the spirit and the fact of detachment.

"I need detachment even more in my personal relationships; in all the wide and rich veins of human friendship. Nothing is more difficult to maintain in maximum health and helpfulness than human friendship. The forces which pull us into too involved friendships, too much dependence, are only too powerful. If I really love folk enough, then I must seek and maintain detachment of spirit, in order that I may be of some value to them.

"I need detachment for the growth of my life with God. For it is characteristic of the mature Christian life that increasingly it is individual in its outlook and influence. The great values of fellowship, with its rich gifts, are never lost. But less and less does it look to others for guidance. More and more are its insights and its resources drawn from solitude. Increasingly the light of life's path is found in the inner spiritual experience, in personal meditation and prayer. In this fact there are grave dangers which are only too apparent. But it is the law of the developing spiritual life. And the other side of the matter is, that from solitude the mature religious spirit emerges with an ever-clearer vision for the life of the world. Insight increases, problems are discovered which were overlooked before. All of society is viewed with a wider perspective. Every aspect of life is seen standing in need of religion's standards and religion's power. People's true motivations, both worthy and unworthy, are recognized

Remember the man who defended his habit of talking to himself on two grounds: his enjoyment of hearing a sensible man talk, and his enjoyment of talking to a sensible man. A truly educated man loves to teach himself because he enjoys a good and eager pupil, and he loves to work because he enjoys studying under a good teacher.—President Moody, Middlebury College.

He: I think that our two-year-old boy is going to be a soloist for a jazz orchestra, darling.

She: Why, dearest ducky-love?

He: Because he's becoming so accomplished at saying wa, wa, wa.

—Kitty Kat

He: What did you do last night?

She: Well, I often wondered where the sun went at night, and stayed up and it finally dawned on me.

### Brenon Blazes Daring Trails In New Drama

HERBERT BRENON, daring adventurer of the films, has tossed precedent to the winds again and delivered another dramatic creation to thrill and startle the world's playgoers.

Brenon's new achievement is Radio Pictures' "The Case of Sergt. Grischka," an almost literal translation into film of Arnold Zweig's devastating novel of war. It will be presented for the first time here at the Palace Theatre Sunday, Monday and Tuesday, May 25.

With Chester Morris in the title role, Brenon builds his drama around this central figure of a common man caught in the relentless machinery of war. It is a story which moves swiftly, brings down its points with terrific effect yet never loses the hu-

man qualities which must motivate all great drama.

Knitted closely into the story of Grischka's clash with the war machine is his romance with the girl outlaw leader, Babka, played by Betty Compson. Jean Hersholt plays the radical officer, Posnanski; Alec B. Francis, the kindly general, Von Ly-chow; Gustav Von Seyffertitz, the iron-handed commandant of Eastern forces, Schieffenzahn.

Daring innovations in theme, treatment and mechanical technique are introduced by Brenon in the production, upsetting many of the oldest and most substantial prejudices of the screen. It is, viewed from any angle, a drama without single precedent.

### With Tech Studies IN THE GOOD OLD SUMMER TIME

Tech students will seek diversion and relaxation from the strain of college work in many different ways during the coming summer months. Some plan to visit in other states, a few are so fortunate as to be able to go abroad, while a great majority of the students will vacation in their home towns.

Johnnie Cook, of Henrietta, will leave June 15 for Los Angeles, where he will remain until August. He will visit points of interest en route, and plans to study piano with Paul Van Katwijk in Santa Monica while in California.

Irma D. Palmer, of O'Donnell, will leave early in June with her family on a three months tour of the United States. She will include New York city and other principal cities in her travels.

H. Y. Price and Bob Webb plan to sail on a tanker for Europe from Corpus Christi some time early in July.

Idabel and Lois Templeton will spend the summer in Winchester, Tennessee, as the guests of their grandmother.

Milbria Pirtle will pass the summer months with her sisters in Oklahoma City.

Annie Fannie Sewell, of Abilene, plans to visit with friends and relatives in Santa Barbara, California, during vacation.

Foster Davis, of Rule, will be a riding instructor at Natchalie, a girls' camp in Nashville, North Carolina.

Hal Lary and Spiv Huff will leave June 5 for Hollister, Missouri, to attend the annual summer conference of the W. M. C. A. Lary will sail from Galveston on July 20 for Europe.

Annie: How is it that Harwood never takes you to the theatre any more?  
Howe: Well, you see, one evening it rained, and we sat in the parlor.

### EXAMINATION SCHEDULE SPRING TERM, 1930

MONDAY, MAY 26  
1:30-3:30, all classes meeting from 12:00-1:00, M. W. F.  
4:00-6:00 all classes meeting from 9:00-10:00, T. T. S.

TUESDAY, MAY 27  
8:00-10:00 all classes meeting from 1:00-2:00 T. T. S., and 5:00-6:00 M. W. F.

10:30-12:30 all classes meeting from 9:00-10:00, M. W. F.  
2:00-4:00 all classes meeting from 11:00-12:00, M. W. F.

WEDNESDAY, MAY 28  
8:00-10:00 all classes meeting from 8:00-9:00, T. T. S.

10:30-12:30 all classes meeting from 12:00-1:00, T. T. S.  
2:00-4:00 all classes meeting from 2:00-3:00, M. W. F.

THURSDAY, MAY 29  
8:00-10:00, all classes meeting from 8:00-9:00, M. W. F.  
10:30-12:30, all classes meeting from 10:00-11:00, T. T. S.

2:00-4:00, all classes meeting from 2:00-3:00, M. W. F.

FRIDAY, MAY 30  
8:00-10:00, all classes meeting from 11:00-12:00, T. T. S.

10:30-12:30, all classes meeting from 3:00-4:00, M. W. F.  
2:00-4:00, all classes meeting from 1:00-2:00, M. W. F.

Note—Any classes not provided here-with scheduled may make their own arrangements provided the examination is held during the week beginning May 25. No classes may be exchanged except by consent of the Council of Deans.

Saturday classes will hold examinations at the regular class hour.

Alpha: And to think, after all these weeks, I only got his fraternity pin.

She: I heard that you said one of my kisses speaks volumes.  
He: Yes, but I'm afraid you're a circulating library.

Caller: Is the editor in?  
Office Boy: No.  
Caller: Well, just throw this poem in the wastebasket for him, will you?

A frosh was working in a library during his spare time. One day a new book, entitled, "How to Go Through College on \$500 a Year," arrived. He asked the librarian how to classify it for the shelf.

"Put it in the fiction department—under romance," the librarian answered.

Tired Sam (in search of work): Uh, boss, you don't need anyone for a job, do you? I wouldn't do, would I?

Like father, like son—but like daughter and you don't give a damn for the rest of the family.

How was her pantomime?  
Er,—I don't know much about girl's clothes.

## Vision Of Tech Fifty Years From Now Presented members of Class of 1930; Broad Courts, Spacious Lawns Planned

### Buildings To Center Around Hall Of Texas

As the seniors leave the college this year they can look back to the Tech of the four years ago with only a few buildings on a bare prairie, and it is small wonder they are proud of what Tech is today with its beautiful buildings and growing trees. It is these same seniors who, having witnessed Tech's growth in the last four years, can get a picture of the Tech 50 years from now.

Just what will Tech be in 1980? A big school with a unified spirit that only time can build—a campus covered with beautiful shrubs and trees, paved drives, buildings with ivy covered walls, all of which takes time.

Expect 6,000 Students  
It is reasonably expected by college officials that within a generation there will be 6,000 students in the college and it is for such an enrollment that plans have been made. The college will center about the Hall of Texas, which will be the auditorium and commencement hall. It will be built due west of Broadway and just north of the chemistry building. This auditorium, the chemistry building and another science building north of it will be connected in such manner as to form the court closing the western end of the great central court made on the south by the administration building. It will be to this beautiful Hall of Texas that students in the coming years will meet for chapel exercises and to listen to prominent speakers. This hall will embody in its architecture the splendid spirit of the state its decorative motifs showing the history of the early periods of Texas.

Spacious Lawns  
The administration building, as it now is, forms the south side of the great court, but when it is finished will also form three sides of a small garden patio which will be open on the south to beautiful lawns. On these lawns there will be, besides the home of the president, dormitories for girls, a library, and buildings of such student organizations as the Y. M. C. A. and Y. W. C. A.

On the entire northwestern part of the court there will be engineering buildings. On the eastern side of the great court just opposite the engineering buildings, there will be boys' dormitories.

Still another court will be developed, and that is the agricultural court, west of the academic lawn.

Spanish Style  
All buildings, like those now on the campus, will carry out the style of the early architecture of Texas, that of the old Spanish missions.  
It is to such a school that years from now graduates will return as members of the Alumni and, seeing young people hurrying to the gym, poring over Spanish grammars, or loitering and talking on the benches in the patio, will remember that they, too, many years ago did all these things. And the young people will know, and it will certainly be true, that as members of one of the early graduating classes, these men and women of 1930 had a great influence in forming the ideals of this greater Texas Technological college.

### Boggs Elected Head Of Dallas Tech Club

Don Boggs was elected president of the Dallas Tech club for the next year at a meeting of the organization last week a fairly good representation of members being present.

Other officers chosen include: John B. Rountree, vice president; Lauren Blades, secretary-treasurer. Election of a sponsor was postponed until next fall. The new president outlined a social program for the club for next year; a dance, picnic, and an informal party of some kind are among the things planned for. It was decided to make the fall picnic of the club an annual affair.

### IS RECOVERING

W. E. Angley, junior in the School of Liberal Arts, is recovering in the Lubbock sanitarium from a major operation performed Saturday, May 10. Angley expects to be able to leave the sanitarium by Wednesday, May 28.

One: He certainly is polite.  
Two: How Come?  
One: He took me for an auto ride and walked all the way home with me

## Produces Annual

HOLMES WEBB

Holmes Webb, senior pre-law student, who is editor of La Ventana, college yearbook, which will be distributed to students Saturday. Directions for securing these books are given on the first page of this issue. The 1930 issue of La Ventana is supposed to be unique in many respects, containing student art work and one of the largest feature sections of any annual in the United States.

## Drippings

FROM AN AGGIE PAIR

Ricard Center, former president of the Agricultural club and Senior agronomy student, will start experimentation work at Lawton, Oklahoma, in June.

Robert Burdette and Curtis Grimes and probably Frank Main will attend New Mexico A. & M. this summer in order to secure their Smith Hughes certificates and will probably teach Vocational Agriculture in some school in New Mexico next winter.

T. J. Harris, of Clifton, intends to go back home and offer his advice and labor on his father's farm. He expects to be paid on a percentage basis and says he will not ask for more than sixty percent of the profits on this year's crop, but that he should receive at least fifty percent.

Jason (J. O.) Gordon intends to spend the summer as gasoline dispenser at some filling station in his home town, Albany. Rumor hath it that it isn't the job, but a girl, that calls J. O. to his home town.

Iris Pribble is to be employed by Mandeville and King Seed co., of Rochester, N. Y. His territory will cover the Rio Grande Valley and the

Gulf Coast from Del Rio west to Louisiana east, and Austin north. Pribble is to be the first Texas boy to fill this position. Formerly the job has been held by a student of Syracuse university.

James Holsomb (Slime Jim from Snyder) received an S. O. S. the other day from the Sanitary Dairy of Plainview, and he will be there this summer to give advice on how to operate the plant. He may do a little work on the side.

J. E. (Pecos) Couch, who receives his degree this year from the school of Agriculture, will return to his farm near Pecos. Pecos has the rare opportunity of returning to the farm—a thing which most fellows cannot do; because of lack of finances. Here he will put in practice theories studied in school and no doubt he will serve a great need as an example to his fellow farmers.

Herbert Kirk of Spearman, will have his time taken this summer in harvesting his wheat crop and dropping a few suggestions to his dad and neighbors as to how Dr. Ellsworth thinks they should go about cutting down expenses.

Bill McKinney (Little Doc) will be employed this summer on the Krump farms at Shallowater, where he now works.

L. C. (Happy) Dalton is finally to receive his degree from the institution, will start his active career this summer on his father's farm helping harvest wheat. His job this summer will be to keep a combine in full operation.

James Dominy, of Paducah, will likely be employed by Shaw Brothers Ice Cream company of Fort Worth

this summer. Dominy is a sophomore dairy manufactures student and will receive some valuable experience there.

J. C. (Jake) Bourland will work for Mechams Department store of Fort Worth, possibly in the shoe department. Bourland is afraid to risk his knowledge of agriculture in practice on some farm, but it isn't very clear how it will help him sell shoes.

Cadet Colonel Earl Cain received a reply recently to his application for guide in Carlsbad Cavern for the summer. He is entering a field seems to be rather new in the line of vacation work for college students, and no doubt it will prove very interesting.

H. L. Hershey, senior this year, is to be employed by Hickman Price, a large scale wheat grower, near Kress. It is not known just what his work will be, but it is certain he will make a success.

Jim O. (J. O.) Hill will likely work with the Mistletoe Creameries in Amarillo again this summer. He was employed there last year. His work will be either as plant superintendent or as a general creamery worker with butter or ice cream. Most likely it will be general work.

J. J. Nelson, senior dairy manufactures student, is going to work with the Tennessee Dairies company in Dallas, one of the largest dairy products companies in the Southwest.

Heber Ellsworth is to spend the summer in Lubbock but not in school. He plans to sell bonds.

Colonel Sparkman, junior student

of agriculture, will likely spend the summer in Louisiana in the employment of the Trinity Construction company of Dallas.

She: Isn't the moon wonderful?  
He: It should be, it cost three bucks a pint.  
—Humbdr

Young Chrony aspirant: Why, I've been getting offers from all the big newspapers.  
Editor: Well, why don't you subscribe?  
—Humbdr

He: Don't you think you could grow to love me?  
She: I think not. I've stopped growing.  
—Humbdr

One of the major weaknesses in the enforcement of the dry law seems to be that the police so often try the cases before the courts do.  
—Judge

Some little Stoic, aren't ya; not yelling when you sat on a nail?  
Yeah, I felt it beneath me.  
—Purple Cow

Was Jane's diet successful?  
I'll say it was. She's so thin she can close one eye and pass for a needle.  
—Punch Bowl

Sweet Young Thing (After breaking glasses): I've broken my glasses; do I have to be examined all over again?  
Optometrist (sighing): No, just your eyes.

## **TEXAS TECH**

It is always a pleasure to congratulate Texas Tech folks on every accomplishment, but especially so in offering our best wishes to the Class of 1930—for with this years graduations Tech sends into the world its greatest number who have achieved their entire College Education at this comparatively new institution.

To you who are among this number we offer our most cordial good wishes. We have known many of you personally and intimately. We will miss you when you are gone and others take your place, but we feel sure that in your going you will reflect credit both to yourself and to this institution.

You of the Class of 1930 now join a small but ever increasing list of Alumni—a group that can be a most helpful influence in making Texas Tech still greater. May your thoughts and efforts turn back many times to this great institution which can be made greater and greater because of this continued loyalty.

Would it be worth while to those back home to suggest that Texas Tech, in West Texas, is a good place to educate all young Texans, especially West Texans.

**Hemphill-Wells Co.**

## IN TECH SOCIETY

### MISS MAGEE ENTERTAINS AMARILLO, DALLAS CLUBS

Officers of the Tech Amarillo and Dallas clubs were entertained Saturday afternoon with a tea by their sponsor, Miss Flora Magee, at her home, 1909 13th street. Plans for social activities of the coming year were discussed.

Sandwiches, cakes and tea were served to the following: Lauren Blaydes, E. B. Fincher, Langford Shaw, Don Boogs, Loy Delle Hill and Hollyce Sellers.

### LAS VIVARACHAS PRESENTED AT DANCE

In a setting made delightful by flower-covered arbors and nooks, Las Vivarachas climaxed college social activities for the year with a lovely semi-formal dance at the Country club Saturday evening. Under a moon-lit canopy of blue, the garden effect was accentuated by an old-fashioned swing covered with honeysuckle, scattered ferns and pot plants, and flower-covered trellises.

Dressed in modish organdie in rainbow colors, members of the club and their escorts were presented by the sponsor, Miss Ruth Pirtle. Their entrance into the ballroom was made through a vine-covered v-shaped arbor.

Members and their escorts, were as follows: Miss Patti Hopping, president, and Moody Smith; Miss Melba Mae Tatom, vice-president, and Homer Maxey; Miss Milbria Pirtle, secretary-treasurer, and Truett Brooks; Miss Evelyn Rutherford and Hiley Boyd, Miss Clara Mae Bishop and Lofton Baugh; Miss Ada Ruth May and Haskel Beard; Miss Loraine Gable and J. J. Thornton; Miss Sue Brown and J. C. Bourland; Miss Genevieve Deckert and Will Ed Watson; Miss Lorene Cassel and Walter Brown; Miss Lois Morrison and Jack Hanna; Miss Eileen Groves and Thomas Taylor; Miss Lesey Bullock and Del Lindsey; Miss Kathleen Conrad and John R. Johnson; Miss Barline Boynton and Bob Southeson. A grand march followed the introductions.

In addition to the above there were 115 guests present. Chaperones of the evening were Mr. and Mrs. L. B. Rice, Mr. and Mrs. Bryan Pirtle, and Mrs. P. F. Murray. Miss Pirtle is sponsor of the club.

### ATHLETIC AWARDS MADE AT W. A. A. BANQUET

W. A. A. members, sponsors, and their guests gathered in the last regular meeting of the organization for the year, at a banquet Saturday evening in the Chimayo room of the Hilton hotel.

Place cards for the affair were double "T's" in scarlet and black. Programs were hand-painted in the same colors.

Awards for points in athletics received during the year were made.

Margaret Baskin, president of the organization and toastmistress at the banquet, and Effie Lou Keaster received 1000 point T's. 500 point letters were awarded Dorothy Wilson, Mary Louise Baskin, Josephine Cow-sart, Elizabeth Crws, Ouida Davis, Hazel Lewis, Doris Ladd Johnson, Joyce Johnson, Martha Pfaff, and Mrs. Billie Pearl Eubanks.

Other members attending the affair were: Rawls Long, Mary Francis Gale, Velma Horne, Eunice Cone, Lula Cone, Rehm Richie, Blanche Howard, Rosa Lee Blackburn, Virginia Robertson, Leona Gelin and Elizabeth Adams.

Special guests were Mr. and Mrs. E. Y. Freeland, Mr. and Mrs. W. L. Stangle, Miss Margaret Weeks, and Mrs. Mary W. Doak.

Sponsors are Misses Johnnie Gilkerson and Zella Reigel. Other guests were Mrs. A. N. Justice of Marshall and Mrs. W. R. Lowell.

### LAS CHAPARRITAS ENTERTAINED AT BRIDGE

Garden flowers, score pads, and tables were employed to bring out the color motif of green and yellow in a prettily-appointed bridge function given members of the Las Chaparritas Saturday afternoon by Miss Charles Bacon and Miss Sylvia Wilson at the home of the former, 1916 1/2 Main Street. Prizes for high score and high cut were Godey prints.

After games of bridge an ice course was passed to Marjorie Ann Ainsworth, Virginia Murray, Frances Ford, Voncie Gilkerson, Sarah Michie, Gail Quinlan, Beth Wulfman, Glyds Grimsley, Mary Lois Gamel, Willette Waters, Elizabeth O'Connell, Inez Hensley, Louise St. Clair, Camille Stobaugh, Johnnye Gilkerson, Irene Frnka, Sue Bryan, Clarice Scott Idalou; Mesdames Howell Arnett, Clarence Rollo, J. M. Teague, jr.

### CADETS AND RIFLE CLUB MEMBERS HONOR KILLIN

Conferring a surprise honor upon their instructors and sponsor, the college cadets and members of the Rifle club tendered Lt. H. E. Killin a banquet at 8 o'clock Saturday night in the Aztec room of the Hilton Hotel. Twenty-five persons were present including Dr. E. F. George, Dr. W. L. Ray, Dr. W. M. Young, and Dr. E. L. Thompson of the faculty.

"The Three Musketeers," Ted Moody, Robert Rogers, and Joe Lange furnished a variety of musical entertainment for the occasion. "Toodles" Killin, 10-year old sister of Lt. Killin, gave a military dance. Amusing take-offs were given by Dr. George in his "Lieutenant on the Telephone" and L. W. Chapman, president-elect of the Rifle club, and E. F. Fisher, and Howard Hopkins in "A Rookie on the Line."

Humorous and serious recollections were called to mind by various ones during the evening. Of the latter

## They Will Put Out The Toreador

FRANK EMISON

BRYON CLAUNCH

Who were chosen in the recent student elections to have charge of the publication of the student newspaper for the year, 1930-31. Frank (Left) Emison will be the editor, and Bryon Claunch will be business manager. They announce that the customary mid-summer edition of The Toreador will be published, although the time has not yet been set for its appearance. Emison states that he would like to have volunteers to aid him in collecting news for this edition.

nature was the mention of the fact that Lt. Killin has helped make it possible for 33 boys and girls to stay in college since he has been here. He was also given credit for the unusual success of his freshman rifle team, which recently emerged in third place in the national rifle competition for freshman teams all over the United States, being excelled only by teams from the Naval Academy at Annapolis and the University of Iowa, both of which have a far greater group from which to make selections.

The persons at the banquet sent carnations to Mrs. Killin in recognition for her services throughout the past year.

### TECH JOURNALISTS TO HONOR DEAN WILLIAMS

Dean Walter Williams, of the University of Missouri, who will be a guest on the Tech campus during Commencement week, will be honored at a breakfast given by members of the Press club on Monday morning, May 26, at the Hilton Hotel.

H. Y. Price, president of the club, will be toastmaster for the occasion. The principle feature of the breakfast is to be a talk by Dean Williams on some phase of journalism in relation to the college student.

Tickets are on sale by E. B. Fincher, Martha Pfaff, and Solon Clements at seventy-five cents each. Only 30 tickets are available and are purchasable only by selected students.

### D. F. D. CLUB GIVES INITIAL SOCIAL EVENT

Giving one of the most outstanding and enjoyable affairs of the year, members of the D. F. D. club were presented in their initial social event Friday evening at the Country club. Guests gathered at 6:30 o'clock, and swimming, and bridge followed by a fried chicken supper, were enjoyed until dancing began. Lime ice cream and punch were served later in the evening.

The ballroom was attractively decorated in the club colors, maize and gold. A blue lighted sign over the mantel bore the initials D. F. D. and the other lights were shaded in blue.

Members of the organization are Ruth Sparks, Martha Knight, Fay Foote, Kathleen Harmon, Fanny Sue Dunn, Sarah Price, Rhoda Lou Clarke, Mary Beth Miller, Gladys Townes and Louise Sneed.

Guests included: Miss Alma Ralls, Edith Sanders, Evelyn Shaller, Mary Gamel, Elizabeth Pickett, Nancy Collier, Charlotte Elms of Ralls, Helen Coon, Zona Stiles, La Verne Yowell, Osre Matthews, Wilma Parks Mildred Price, Glyds Grimsley, Catherine Jameson, Marie Butler, Marjorie Ann Ainsworth, Margaret Puckett, Veta Stafford and Evelyn Shanklin; Messrs. ## THE COLLEGE WORLD

### BARRETT WINS OVER LELAND FOR STUDENT PREXY

A. T. Barrett won over Cy Leland for the student body president in the student election last Friday and Monday, according to Hugh Buck, student body president. James Dacus defeated Charles Ewell and Worth Leustrom for vice president and Curtis McHorse won over Jimmie Lebus for the position of yell leader.

Jay Williams, unopposed candidate was elected editor of the Skiff for next year. The run-off for secretary-treasurer of the student body will be held today and Monday. Misses Jane Jarvis and Helen Jenkins are the candidates, Miss Lillian Lundberg was the third candidate. Election judges were: Bill George, Miss Lillian Eylers, Bill Rogers, Victor McCrea, and Jack Ball.

### The Skiff (T. C. U.)

### T. C. U. STUDENT BODY CHANGES CONSTITUTION

The new constitution was passed by a large majority in the student poll held last Friday and Monday, according to Hugh Buck, student body president. An entirely new constitution was framed because most of the old one was entirely out of date and impossible.

The committee assisting Buck in framing the constitution included the presidents of the four classes, Stewart Hellman, Jimmie Miller, Wendel Schuler and Bill George, and Sam Frankrich, business manager of the Skiff. —The Skiff (T. C. U.)

### A. C. C. TRACK COACH SENDS 3 MEN TO N. C. A. A.

Allen (Tiny) Adams, Jesse Wood, and Elmer Gray are the three trackmen whom Coach Weems will take to the National Collegiate track and field meet to be held at Chicago University, June 6 and 7.

Dyle Vaughn would have been the other outstanding Wildcat performer who would have made the trip to Chicago as a fourth A. C. C. representative at the national meet, but due to the fact that this is his fourth year to place in the T. I. A. A. meet, he is not eligible for the meet at Chicago. Vaughn may go to the Southern A. A. U. meet to be held in New Orleans, or the National A. A. U. —The Optimist (A. C. C.)

### ELECTION OF VICE-PRESIDENT AT S. M. U. THROWN OUT

Election of a vice-president of the Student Association will not be held until next fall, members of the newly installed Student Council decided Tuesday evening at a call meeting, Gene Slater, president, said. The election of a vice-president will be necessary, due to the action of the old council last Saturday in throwing out

the election last week as a result of the charge of Gene Bailey that the election was biased.

The action of the new Council Tuesday night followed by three days the throwing out of the election in the vice-president's race by the old Council as one of its last official acts Saturday. The latter action came as a result of charges of irregularity in the election, brought by Gene Bailey, one of the candidates.

When the final count was announced after 6 p. m. Friday, the vote stood: Gilbert, 528; Bailey, 526.

Sentiment between supporters of the two contestants rose to fever pitch, and Friday night and Saturday morning were filled with charges and counter-charges on the part of all concerned.

The feeling came to a head when the Student Council met Saturday at 1 o'clock to swear in the newly-elected officers. Bailey was present and entered a protest, charging bias, prejudice and negligence on the part of Sessions as election judge.

Whereupon the following three motions were passed in rapid order:

1. That it was the sense of the Student Council that the election judges were biased in regard to the vice-president's race.
2. That the prejudice influenced the outcome of the election.
3. That the election of vice-president be declared null and void, and be thrown out.

Both Gilbert and Bailey said Monday that they would not seek the vice-presidency at the hands of the Student Council. Bailey was emphatic in his statement, saying that he was "willing to fight it out with Gilbert before the student body as a whole, but under no conditions will I accept the office other than by a majority vote of the Student's Association. —The Semi-weekly Campus, May 14, (S. M. U.)

### "WET OR DRY"

The Literary Digest's latest report on its prohibition poll shows that Texas is among the minority of states that still have a chance to go dry before the poll is over. If it were left to the college students of this state to decide whether Texas would be wet or dry, however the state would probably be wet, for in the Houston Gargoyle poll for Texas college students only, the wets on May 4 had a lead of 22 votes.

Out of the 1542 votes, the dries have marked up 760 for prohibition, while the combined wet voters number 782, divided into 446 who favor modification and 336 who advocate repeal. Texas A. & M., the University of

Texas, Rice Institute and St. Edwards University are the colleges that proved wet in the latest report of the Houston magazine, while Texas Tech, the Woman's college and all of the Protestant denominational schools are lending strength and encouragement to the Eighteenth amendment.

Eleven institutions are represented in the straw-vote: A. & M., with 132 drys and 180 wets; Baylor College, with 48 drys and 5 wets; Baylor University, with 101 drys and 47 wets; C. I. A., with 91 drys and 45 wets; Rice, with 43 drys and 122 wets; Simmons, with 20 drys and 2 wets; S. M. U., with 76 drys and 51 wets; St. Edwards, with 4 drys and 56 wets; T. C. U., with 47 drys and 32 wets; Texas Tech, with 31 drys and 17 wets, and the University of Texas, with 167 drys and 225 wets.

**T. C. U. HAS VOTED WET**

After the polls in the prohibition count closed 280 votes had been cast. The combined wet vote was 75 for modification and 70 for repeal. Students and faculty members cast 135 votes for enforcement.

**STATE BOARD APPROVES LIBRARY COURSES OF C. I. A.**

The State Board of Education has approved the Texas State College for Women and the University of Texas in offering library courses in accordance with the provisions of the Southern Association, according to E. V. White, dean of the college, who attended the meeting in Austin last Monday.

This ruling makes it necessary for all high schools belonging to this Southern Association to employ trained librarians from either of these two institutions.

and J. M. Teague; for secretary-treasurer, Mrs. William Dingus and Miss Mamie Wolfarth; for editor of the alumni-news letter, Miss Ruth Horn and Margaret Turner. These and others nominated from the floor will be elected in the early part of the evening. Following a tradition, the pennants of graduating classes will be on display at the banquet. Mr. H. B. Carroll will be in charge of the program.

**SANS SOUCI TO GIVE TEA-DANCE NEXT WEEK**

Sans Souci club members will give their final entertainment of the school year Friday, May 30th, with a tea dance at the Hotel Lubbock.

**Donor of Largest Student Loan Fund**

MR. E. H. ROBERTSON

Mr. E. H. Robertson, formerly of Roswell, but now residing in Lubbock has the generous honor of establishing Texas Tech's largest loan fund for the year just closing. The announcement came of this fund soon after she moved to Lubbock, purchasing a home here, and announcing that the Tech city would be his permanent place of residence.

Mr. Robertson is the active president of the Grissom-Robertson Stores of which Carter-Houston is a unit, and in whose name the loan fund was established. As a resident of Roswell, N. M., Mr. Robertson was active in the activities of New Mexico Military Institute, taking a great amount of interest in the athletic and educational progress made by the school.

**ROLLING PIN CLUB ENTERTAINED**

Members of the Rolling Pin club were entertained Saturday evening, May 10, at the Agriculture building by Mmes. W. G. Vinzant and W. F. King. This entertainment was the farewell dinner for the club. The table was beautifully decorated with cut flowers, red and green being the colors used.

Dinner was served to the following Messrs. and Mms. Robert Burdett, Hal Yoder, Coles, Bristol Chesser, Jim Williams, and H. L. Hershey, and Messrs. Ronald Tom, Joe Nelson, W. A. Kings, W. G. Vinzant and the hostesses.

**CENTAURS HOLD SPRING ELECTIONS**

The Centaur club held elections for next year at the last club meeting. Bill Sewell, present president, was re-elected for another term. Trent Campbell, a junior in the School of Engineering was selected as vice-president. Bill Collins was re-elected secretary, and Murrau Ballinger was chosen treasurer. Officers retiring are James Dallas, vice-presi-

dent, and Wayne Castleberry, treasurer.

The club planned to have its final meeting of the present school year Sunday. A smoker will be held at the Hotel Hilton.

Plans were discussed for the activities for next year, and all the members agreed to be present at a mid-summer meeting of the club to be held in Abilene July 4.

**LAS LEALES SENIORS AND HONOREES**

Senior members of the Las Leales club were honored at a delightful three-course breakfast given Sunday morning by Mrs. Mary W. Doak and Miss Margaret Weeks in the home of the hostesses, 2422 Broadway.

The rooms were made lovely by the use of cut flowers. Each honor guest was presented with a dainty corsage of sweet peas and roses. They include Nora Cocke, Lois Cooper, Hattie Mounts, Billye Pearl Eubanks and Eufala Wise. Other members present were Orene McClellan, Nell Goodloe, Martha Knight, Mary Gene Owen, Nina Gordon, Billie Jones, Hazel Gruver, Lizzie Belle Clements, Elizabeth Schott, Rosa Mae Burford, Pearl Harrison, Osre Matthews, and Margaret Davis.

**FACULTY CLUB HAS FAMILY PICNIC**

About fifty couples attended the family picnic given by the Faculty club Saturday afternoon at 5:30 o'clock at Professor Landwer's ranch in Yellow House canyon. Each faculty member took his own sandwiches and a plate. Ice cream and lemonade were served by the club. Mr. Edgar Shelton had charge of the entertainment, and Mrs. R. A. Mills and Mrs. Florian Kleinschmidt had charge of the refreshments.

**PACE-OWENS MARRIAGE IS ANNOUNCED**

Of interest to many friends of the couple on the Tech campus is the marriage of Annie Lee Owens and Alma Pace in Clovis, New Mexico, Sunday, May 4, the announcement of which has recently been made.

Mrs. Pace is the daughter of Mr. and Mrs. L. S. Owens, of Dodsonville, and is a junior in the school of Liberal

Arts. Mr. Pace is a prominent Tech athlete, having lettered for three years in basket ball and two years in track here.

The couple will teach together in Fiomot next year.

**MISS STYLES GIVES TREASURE HUNT**

Members and special guests of the Sans Souci club and their dates met at the home of Miss Zona Stiles, 3002 22nd street, Wednesday evening at 8 o'clock for a treasure hunt. After the treasure was found, the guests returned to the home of the hostess, where refreshments were served.

**HILTON ANNOUNCES HOME-GOING DANCE HERE**

"Swede" Kling, manager of the Hilton Hotel in this city, announces to Tech a home-going dance. "This will be the best dance of the season," stated Mr. Kling.

A special band from Hollywood will be here for this occasion, one of Vitaphone fame happens to be stopping in this city at this time.

The dance will be held after the exams are over, which will be Friday night, May 30. Let's end the school year up right and get together at this dance.

**TECH STUDENTS ENJOY GOOD GOLF BUSINESS**

"Hank" Morgan and "Percy" Walker, owners of the Pee Wee Golf course, report a very good business in spite of the fact that much competition has moved in since they began the first course in the Tech city.

Sand Greens, mental as well as physical hazards, the best to be had in equipment are very good reasons for their success.

Remodeling of the course to make it better in every detail will take place immediately according to the owners.

**THE TEACHER**

An old man going a lone highway  
Came at the evening, cold and gray,  
To a chasm, vast, and deep, and wide,  
The old man crossed in the twilight dim,  
The swollen stream had no fears for him;  
But he turned, when safe on the other side,  
And built a bridge to span the tide.

"Old Man," said a fellow pilgrim near,  
You are wasting your time in building here  
You never again will pass this way,  
Your journey will end with the closing day  
You have crossed the chasm deep and wide  
Why build you this bridge at even'-tide?"

The builder lifted his old gray head,  
"Good friend, in the way I've come," he said,

"There followeth after me today,  
A youth, whose feet must pass this way;  
This stream, that has been as naught to me,  
To the fair haired youth might a pit-fall be;  
He, too, must cross in the twilight dim;  
Good friend, I am building this bridge for him."
