Number 33

20 Surplus Buildings Now On Tech Campus

Twenty of the 32 army surplus structures which are to be made into temporary college buildings have arrived on the campus from Camp Barkley at Abilene, W. T. Gaston, business manager, announced.

The buildings, which are expected to add approximately 50 percent to Tech's classroom space, are scheduled to be ready for use by the fall term, Gaston said. J. B. Leftwich is contractor. Two former Techsians, Raymond Phillips and B. A. Smith, project engineers, are working on the project.

These temporary buildings are being placed so as not to interfere with planned expansion of permanent buildings, and are being located as near as possible to the department which they will serve, Gaston said.

Announces Plans

Gaston announced the following

ROTC Personnel, Students Attend Camp Activities

Most of the ROTC personnel and advanced students from the Military Science department are attending or will attend summer camp this year.

Col. L. C. Adams, engineering officer, is at present attending summer camp for engineers at Camp Hood, Texas; Maj. J. M. Goodman, signal corps officer, is at Ft. Sill, Oklahoma and Capt. Ralph L. Smith, air corps officer, is at San Antonio attending summer camp, according to Lt. Thurston Mallard who is acting head of the department.

Enlisted personnel now attending camp are: M-Sgt. L. E. Brechens and J. Y. Neely, air corps, and M-Sgt. W. J. Roper, signal corp.

Lieutenant Mallard and M-Sgt. M. L. Fisher will leave sometime in July to attend an indoctrination school for advanced air corps instructors in preparation for beginning second year advanced courses this fall.

The biggest part of last year's advanced ROTC students will attend a six-week summer camp later this year. Included in the group will be about 15 signal corp., 15 engineer and 50 air corps students. This will mark the first year since the war that advanced students have made summer camp. Some of the advanced students going to camp will receive reserve officer commissions upon graduation next year.

Friday, June 27

Artist Course, Wright and Sprecher, Ad bids green, 8:30 p. m.

Saturday, June 28

Socli dance, Meadowbrook, 8:30-12:00 p. m.

Tuesday, July 1

Cornucopia society, Ad 320, 7:15 p. m.

Wednesday, July 2

Dance, Tennis Courts, 8:30 p. m.

plans for the buildings:

An auditorium will be constructed south of the Administration building by combining three of the structures. Directly in back of the auditorium will be a cafeteria.

The veteran's guidance center will be located beside the Aggie building. The five structures south of the Chemistry building will be used for physics and chemistry laboratories. Infirmaries are to be located in the two buildings north of the EE annex. Six buildings will have the use of five buildings south of the Military Science building.

Classrooms for the band will be in the structure north of the tennis courts. The Home Economics department will have one building north of the EE annex. Six buildings to be placed north of the Museum on the boulevard will be used for classrooms.

Ceramics laboratory for the Commercial Art department will be located in a structure near the Engineering building. Two buildings to be placed north of the Engineering building will be used by the Mechanical Engineering department. The three other structures will be used for storage purposes.

Band Concert Features Twelve-Year-Old Soloist

Twelve-year-old Don Shelton, youngest person ever to play in Tech Concert band, will play Weber's "Concerto" as featured artist on the band program Tuesday, July 2 at 8 p. m. on the Administration building ground. The young soloist, a Hobbs, N. M., junior high student, won first place for clarinet solo in the New Mexico Music Educators association contest for high school students.

Don, whose father was formerly a professional musician, is attending Tech band school this summer. Concert numbers on the program Tuesday will include Shelton's solo; "The Silken Ladder Overture," by Rossini; Boris Godunov's "Love Scene," and "Lovely Landscape," by Robert McBride.

MOWERY TO ATTEND MEET

Prof. R. C. Mowery, assistant head of the Animal Husbandry department, will attend the Tenth Annual Wool and Mohair show in Sonora June 25-26 to obtain fleece samples for testing in the wool research laboratories. Herman Henson and Frederick Beck, senior students, will accompany him.

Contract Let On New Floors For Doak, West, Sneed Halls

New dormitory dining room floors head the list of various campus improvements now under way, W. T. Gaston, business manager stated this week. He said that a contract has already been closed to replace wooden floors in Doak hall, West hall and Sneed hall with terrazzo.

Work has also begun on 2000 feet of sewer lines extending from in front of the Textile building, down to College avenue and the new boys' dormitory. The additional lines will be connected to the surplus buildings which have been placed on the campus to provide better sewage facilities, Gas-

Tenor, Baritone Appear Tonight On Concert Bill

William Wright, bass-baritone, and Robert Sprecher, tenor, will appear in an all-request program tonight at 8:30 on the Administration building ground under the auspices of the Tech Artist Course.

Wright, born in Columbia, Mo., began his vocal training at the age of 14 under John Parish, once head of the Voice department at one of the Columbia colleges. He later won three state high school competitions and was awarded two scholarships to the University of Missouri. He studied under the late Oscar Seagle for eight years. In 1934 Wright was trained in Paris in the knowledge of French operatic traditions. His operatic experiences include performances in New York and Philadelphia, in such roles as Mephistopheles in Faust, and Friar Lawrence in Romeo and Juliet.

Wright's Selections

Tonight, Wright will sing "Sollouky" from Rodgers and Hammerstein's "Carousel" and four folk songs, two of which are "Deep River" as arranged by Burleigh, and "Big Rock Candy Mountain," arranged by Price.

Robert Sprecher, native of New Mexico, has attended the New Mexico Military school, the universities of New Mexico, Southern California, and California. He has also studied music in New York.

"Caruso Of The Navy"

During his three years as an officer aboard the U.S.S. Copahue, Sprecher gained the nickname "Caruso of the Navy" because of his active part in the entertainment of crews and officers. He resumed his musical career in New York last year when he was released from active duty. This is Sprecher's first western concert tour.

He will sing Mendelssohn's "On Wings of Song," "I'm Falling in Love with Someone," by Herbert, a medley from "It's a Grand Night for Singing" by Rodgers.

Duets to be presented by Wright and Sprecher are "Au Clair de Lune" by Lully, Gatt's "Calm as the Night," "We're Called Ganderli" by Gilbert and Sullivan and Verdi's "Solenne in Quest'Ora."

Nathan Price will furnish the piano accompaniment.

Nursery Rhyme In Math

Said Simple Simon to the pieman "What kind of pie you fix?" "I've apple, cherry, boston cream And 3.1416."

La Ventana Delayed, Expected By Noon

All Mailing Charges Eliminated For Students Here During Spring

By JOHN ANDERSON
Toreador Staff Writer

La Ventana had not arrived last night but Faculty Sponsor R. A. Mills said that he was promised delivery before noon today.

Placards will be posted on the campus immediately upon arrival of the annuals in the basement of the Press building, and distribution will begin within an hour after their arrival, Mills said. Two lines, one for veterans and the other for non-veterans, will lead to the storage room in the Press building. Students must show identification, preferably a library card, before they can secure copies, Mills said.

Mills stated that the receipt for La Ventana would not be needed and that persons handing out the annuals have a master list of buyers which was prepared by the Business office. Copies will be given only to the original purchasers.

Meetings Of Vets Set Next Week

All students training under the G. I. Bill, except disabled veterans, are expected to attend one of the three meetings to be held Monday through Wednesday next week at 7:30 p. m. in the Aggie auditorium, James R. Gammill, training officer for the Veterans Administration, has announced.

The meetings are being held for general discussion of veteran's rights under the bill and attendance will be checked against college enrollment and reports will be submitted to the VA Regional office, Gammill said. Grades for last spring's term and "C" numbers should be brought to the meetings, he said.

Someone May Be Watching You Too

Has someone been following you lately? Watching you furtively from dark corners? Whispering behind your back?

Don't worry. It's only the student talent scouts, on the lookout for performers to appear on the third annual Amateur Night, Tuesday, July 8.

The time to shine is not far off, so report yourself—or your friend—to the office of Dean J. G. Allen, head of the summer recreation program, or to any of the scouts. The widest possible variety of talent is being sought, and you too may be a prize winner! Three prizes of \$10, \$7.50 and \$5.00 will be given for the best performances.

The student committee is composed of Bob Click, Wes Hamilton, Mary King, Bill Nugent, Floyd Read, Mert Starnes and Jamie Trainer. Plans for Amateur Night will shift into high gear this afternoon at 5 o'clock, when this group meets with Dean Allen to set the date for preliminary try-outs to be held in the Aggie auditorium.

So dust off your talent for Amateur Night!

Extra Copies

No money is needed to secure the annual unless the student spent more than \$7.50 of his breakage deposit in paying lab expenses and library dues. A few extra copies are available for \$5.00, Mills said. All payments to La Ventana, whether for new books or because of overdrawn breakage deposits, must be in cash.

Annuals will be distributed from 9 a. m. until at least 5 p. m. and later if there is a demand to keep the storage room open.

As the largest annual in Tech's history is being given to students on the campus, a pleasing note has been sounded for the buyers of La Ventana who are not in Lubbock this summer.

No Mailing Cost

Mills announced Tuesday that contrary to a previous announcement by La Ventana Business Manager Robert Pardue, students who were in Tech during final exam week will not be charged postage for mailing the annuals to their home towns. La Ventana will bear mailing expenses for students who were here until May 29.

Only non-students living outside the Lubbock area and students who withdrew before dead week of the spring semester will be billed at a flat rate for wrapping, addressing, and mailing of the annuals.

Announcement Made

Mills' announcement came within an hour after La Ventana was notified that The Toreador was preparing an editorial asking why out of town students should have to pay postage amounting to 30 cents per copy. The editorial was to say that La Ventana had an unwritten agreement with each student to deliver the annual at no cost above the original price of \$5.00.

In previous similar occasions when La Ventana has not been issued before the end of the spring semester, only those students not here during the week of final tests have been charged mailing costs, See ANNUALS, Page 4

Bulldozer Needed To Get Dinosaur

Bones of a saurpoid dinosaur of the Lower Cretaceous age, first large collection of such remains to be found in North America, could be added to the Museum—if officials could get to them.

Wann Langston, geology instructor, has recently returned from inspecting the bones embedded in a hard sandstone ledge located about 300 miles southeast of Lubbock. Although part of the skeleton is exposed in the sandstone ledge, extending about 150 yards along the side of a hill, it would take heavy expenditure of time and money to remove the crest of the hill covering the deposit, Langston said.

Only a single bone of this dinosaur from the Lower Cretaceous age, which ended some 100 million years ago, has been unearthed in North America. It is now at the museum at the University of Oklahoma.

Entre Nous

We have been criticized, and justly so, for running this column anonymously. Toreador policy has always been that uninitiated editorials and columns such as this, are those of the editor. Nevertheless, the neck that is stuck out shall henceforth be identified as that of the editor.

To move on to the more vociferous criticisms: Our first column was devoted to the proposed constitutional amendment to provide a \$50,000,000 building fund for state supported colleges and universities for the next 30 years. We favored it.

The criticism: that only one side of the story was presented. Albeit that a newspaper has a right to adhere to its views as long as it restricts opinion to editorial columns and sticks to facts in news stories, once again the critics of this column are in the right.

There is much about this proposal that should be asked, discussed, and answered if possible. We can't answer the questions, but we can ask some of them.

We can present some of the arguments against the amendment. Here they are:

Why are the University of Texas and Texas A and M so solidly behind this amendment?

They want to get their 15 million, but also to tie up the other state schools for 30 years—away from the University permanent fund.

Taking out UT's and A&M's portion from the 60 million total, on what basis was the 45 million figure reached for Tech and the other schools?

A definite answer to that one: all the taxable property in the state. Homesteads are not exempt, according to Rep. Preston Smith.

Will the ad valorem tax provide that much money?

The only answer is another question, and a vital one. One-fourth of the property included in the state-wide evaluation is in 43 counties, such as Harris, Bexar, Tarrant, Dallas, etc.—the rich counties of central, south and southeast Texas. These 43 are tax

remission counties; the people pay the tax, but the state doesn't get it for keeps. The state pays it back to the county to meet obligations to the federal government for bonds on flood control, water conservation, and similar projects. So the "answer" is this:

Will the tax remission counties pay into the building fund?

No one knows. A ruling from the attorney general will be necessary.

If these counties don't have to kick in, then subtract one-fourth of the 45 million. Which also means, subtract one-fourth of Tech's \$7,425,000—and don't ever expect to see it, except on paper. And look to West Texas to foot most of the bill.

It is true that this building fund would not raise taxes?

True, no new taxes will be assessed. But some taxes that are authorized already have not been collected in full for some years. For instance, only 2 cents of the authorized 7 cents per \$100 property valuation for the confederate veterans pension fund has been levied recently. The amendment proposal is that the other 5 cents will be levied and allocated for the building fund.

Will this be equalized by lowering the ad valorem tax which goes into the general revenue fund, as provided in the amendment?

This provision lowers the maximum which can be levied. It is now 35 cents per \$100 property valuation; the amendment would set the maximum at 30 cents. It appears that if you add a nickel one place and subtract a nickel somewhere else, the score is even.

However, none of the 35 cents was collected last year. The amount levied varies according to the state's needs, and the so-called reduction is largely on optical illusion.

We doubt if anyone is qualified

to say how much taxes will be increased if the amendment passes. But the public should not be hoodwinked into thinking that the Utopia of "something for nothing" has finally come to pass.

In spite of favoring the amendment, we admit that it would provide a paltry sum compared with the income from the University permanent fund—not to mention what that income could be if all the oil land were leased.

The situation is ironic. Tech and the 13 other orphans of the State of Texas are subsisting on the equivalent of starvation wages, while UT and A&M let a nice fat sum lie within reach and don't grasp it, nor allow anyone else to get a hand on it.

There is much to be said on the matter of the permanent fund. So let's talk that one over next week.

—THE EDITOR.

Editorial . . .

With the approach of August, numerous seniors who expect to finish here at that time are raising their voices in protest against the discontinuance of summer graduation exercises, which practice goes into effect this year. The murmur of protest began when the announcement was made last year and has become louder and stronger as these seniors approach the finish mark. Several students, wishing to reinstate August ceremonies, are inquiring as to methods of attaining such action.

We feel that this interest in renewing summer graduation services is timely and not entirely improbable. Tech is large enough for two services each year. Were there a mere handful of August graduates, we feel that cancellation of their graduation ceremony would be justified. There are, however, well over a hundred students who plan to graduate in August, and who don't favor waiting until next June to receive their diplomas.

Tech is growing rapidly. August grads of future years would raise a protest, just as we raise a protest now.—M.M.H.

Tech Golfers Beaten Early In Club Meet

Jennings Is First Round Winner In Championship Flight Friday

Tech students and faculty participating in the Lubbock Country Club Invitational tournament over the weekend were early casualties in most all flights.

Morley Jennings, Tech athletic director, was the only member of the Tech delegation to win first round matches in the championship flight. Jennings won over Bill Mehan, Amarillo, 2 up. Morris Norton eliminated Jennings 4 and 3 in the second round Friday.

Other Techsians to qualify for the championship flight were Joe Horne, and Jack Walker, members of last season's golf team. Horne lost his first round match to Hal Hackett, Lubbock, 2 and 1, and Raymond Marshall downed Jack Walker 5 and 4.

R. A. Jennings, Dallas, son of Morley Jennings, survived first and second round play, defeating Truman Hutson 5 and 4 and Ray Biggers 3 and 2. Chick Trout, Sr., eliminated Jennings in the third round championship play 2 and 1. Jack Walker made the best showing in the championship con-

solation flight, reaching the semifinal round before falling to Al Holton, 1 up. Holton defeated Bob Maxwell, Abilene, 1 up in 19 holes to win the championship consolation.

Other results of the championship consolation play involving Techsians included Joe Horne over Murrell Tripp, 2 up, and Jack Walker over Frank Day, Plainview, 3 and 2 in first round consolation flight. Walker bested Horne 2 and 1, then fell to Holton.

Results in other flights: Bill Baxter, Tech, defaulted to T. N. Russell in the finals of the fourth flight.

Other Tech students and faculty members participating in the tournament were:

Prof. Cecil Horne and Prof. F. L. McRee; and Bill Carpenter, Amos Howard, Hooper Stiles,

Allens Visit Son In Exeter, N. H.

Dean and Mrs. J. G. Allen returned this week from Exeter, N. H., where they visited their son, James C. Allen, who graduated June 15 from Phillips Exeter Academy.

James Allen was among three students at the academy who were recently awarded freshman scholarships to Harvard University for 1947-48. Only six awards were given throughout the United States. James was selected from 900 applicants representing all 48 states.

James will enter Harvard next fall as a pre-medical student, and his scholarship may be renewed for the duration of the four-year college course on maintenance of honor grades. He was cited for honors during the first term last year and for high honors the second term.

Friendship is oft so sweet and steady and loyal and enduring a nature that it will last through a whole lifetime, if not asked to lend money.

Chick Trout, Jr., Oran Wilson, Gene Conley, Johnny Trout, Ted Forsythe, and Randy Williams.

TESTS CONDUCTED

Research to provide more information on desirable fertilizers for growing crops under irrigation is being conducted by Earl Burnett, Tech graduate student.

Burnett will study fertilizer efficiency on plots of selected popular crops and will also run a series of tests to determine variations of organic matter content in soils of different fertility levels. He is working under the supervision of Dr. A. W. Young, Plant Industry department head.

Annuals---

Continued from Page 1
and La Ventana will continue to follow that policy, Mills said.
No annuals will be wrapped or mailed until the last student has received his copy here, so Mills stressed that buyers living around Lubbock will receive quicker delivery by calling for their copies.

Increases Size

The 412 pages of this year's La Ventana make it the largest in history, and one-third larger than that of last year. The 4,000 copies contain about 1,750,000 pages.

Profits from the twenty-second edition of La Ventana will be used to retire bonds on the Press building, which is being paid for by the annual and Tech press, Mills said.

RODEO ASSOCIATION MEETS

Texas Tech Rodeo association held its first meeting of the summer in the Aggie pavillion Monday night. Charlie Hudson, chairman, presided at a discussion on the association's constitution. Meetings will be held twice monthly, and will be announced, according to A. J. Bishop, reporter.

MARRIAGE ANNOUNCED

The wedding of Lt. (j.g.) Rilla Catherine Payne, daughter of Mr. and Mrs. J. L. Payne of Comanche and a Tech honor graduate, and Homer C. Lovell, Los Angeles, was solemnized June 22 at the First Methodist church in San Diego, Calif.

Amateur Night, Tuesday, July 8.

Tickets Available In Dean's Office For Court Dances

The fourth of the starlight dances on the tennis court will be held Wednesday, July 2, from 8:30-10:45 p. m., with Ted Crager's orchestra providing the music. Summer recreation tickets provide admission to all the dances, and may be bought for \$1.20 in Dean J. G. Allen's office or at the gate.

The dances will be moved into the gym in case of rain. Approximately 500 persons attended last week's dance, Student Body President Bob Click said.
Veterans' wives not attending school are admitted free.

Here's a date to remember: Amateur Night, Tuesday, July 8, on the Ad building green.

Alderson Revises Plans For Added Parking Lots

Campus Safety council's plans for additional parking lots and hard-surfacing of roads and parking lots are being revised to be presented to the Board of Directors, according to Orville Alderson, engineering graduate who is working on the plans.

Arnold Maeker, engineering graduate, drew up the original plans last fall. Placing of the surplus army buildings on the campus made revision necessary. Parking area for 1597 vehicles is provided by these plans. Hard-surfacing of the lots and of roads coming into the campus is also included.

The next regular meeting of the board will be in October, after fall registration, W. T. Gaston, secretary of the board, said.

The height of conceit is the person who works crossword puzzles with a fountain pen.

Centaur's Elect Cathey President For Summer

Stanley Cathey, junior engineering student from O'Donnell has been elected summer president of Centaur, men's social club. Other new officers are Wayne Smith, vice-president; John Ratliff, secretary; Clinton DeWolfe, treasurer; Tom LeMond, corresponding secretary; Grif Neumeyer, rush captain; and Johnny Rasor, reporter.

Plans are being made for the Centaur reunion, which is to be held at the Texas Hotel in Fort Worth, September 12-14.

Country Club Dance Held By Socii Tomorrow Night

Socii, men's social club, will hold a dance tomorrow night at 8:30 p. m. at Meadowbrook Country club. This will be the first dance to be given by a social club during this summer session.

In addition to members and dates attending, guests will be Prof. and Mrs. Cecil Ayers, Prof. and Mrs. H. A. Anderson, and Prof. R. L. Mason.

Placards will be posted on the campus immediately upon arrival of the La Ventanas.
