

115 Techsans Enter Race

By BRONSON HAVARD
Toreador Staff Writer

Campaigning for Student Assn. executive offices and Tech cheerleader positions intensifies today with the Wednesday election date just four days away.

All four Student Assn. executive positions are open but only for two—president and secretary—is there any competition. The Council Office released the names of the candidates late Friday afternoon. Charlie Aycock and Dick Perkins have filed petitions for the office of president.

Jerry Parsons was the only person to file for vice president. Kenny Abraham is the lone candidate for business manager.

For the secretary position, Karen Anderson and Ginger Butler are campaigning.

Ten Tech coeds and eight men have filed for the six cheerleader positions, three women and three men.

The coeds were Jimmie Bibb, Christie Brown, Carolyn Buxton, Polly Dahl, Susie Halsey, Diane Harbert, Judy Jackson, Marianne McCarthy, Dottie Mize and Carolyn Wood.

Jim Vick, Mark Taylor, Larry Pelt, Wendell Newman, Mark Murdoch, Lee Pfluger, Larry Gill and Johnny Appleby have filed for the men's positions.

The Spring Election Rally will climax the campaigning Tuesday night. Introductions and nominating speeches highlight the rally which begins at 6:45 p.m. Peggy Maloy, Student Assn. secretary, will give the welcoming address and Gerald Hodges, business manager, will be master of ceremonies.

Cheerleader candidates are asked to send one representative from their group to the Student Council Office in the Ad Bldg. Monday at 2 p.m. to draw positions for the order they will appear at the rally.

The election of Council representatives will be held April 18. A total of 91 candidates have filed for the 32 representative positions.

In the School of Arts & Sciences, where there are 13 positions, 43 candidates were reported by the Council Office to have filed positions.

They are Beverly Brown, Carolyn Davis, Jeffrey Morrow, Linda Hill, Mary Helen Hatton, Joe Torsman, Rubbin Sears, Peggy Bradley, Barbara Bescher, Carole Gibson, Lana Schultzy and Gay Gillispie.

Others are Sydney Gibbs, Jane Batson, Forrest Reynolds, Robert M. Legg, Nancy Shoemaker, Harriett Maxey, Judy Price, Mickey Morse, Jimmy Foster, Jeff Baynham, Billy Gayle Wilson, Leo Brown, Susan Ziegler, Lee McElroy, Mike Ludeman and Guy Haught.

Also Cecile Camp, Jeri Oliver, Ann Dennison, Andy Wilson, Royal Furguson, Guy Seibert, Norman Coleman, Jan Mayo, James Max Moudy, Carolyn Oldham, Danny Gardner, Barbara Sperberg, Judy Richerson, Charles Steinman and Jay Vars.

Fifteen Techsans are candidates for the seven positions in the School of Business Administration. They are Mable Ann Crossett, Rent Hance, Pris Totten, Linda Montgomery, Jeannette Bell, Vernon Walker, Jim Nelson and Jommy Morris.

Others are Larry Gibbs, Kay Armstrong, Clifford Loyd Shive, Martha Jackson, Ruth Rush, Bob Touts and Mark Taylor.

In the School of Home Economics, Jan Barton, Sandra Edwards, Anne Dale, Emily Hejl, Carol Dennison, Nickie Woefel, Dottie Whigham, Lynda Emmert, Pat O'Neal, Pat Hamilton and Carol Fursman are campaigning for two positions.

From the School of Agriculture, eight candidates filed for three positions. They are James Cole, M. A. "Bill" Snell, Betsey Anderson, Don Allford, Duke Lyons, Don Rucker, Jack Shipley and Burns Hamilton.

Fourteen candidates are trying for the seven positions in the School of Engineering. They are Pam White, Ken Patterson, David Wight, Ellis G. Campbell, Gary Strickland, Donald Compton, John Farrell, Joe Milton, Kenneth Lokey, John Ward, David E. Gattis, Bill Williams, Jerry Brock and Jim Tobdell.

The Election Committee Chairman, Peggy Maloy, asks candidates to notify her if they want their name to appear on the ballot in a form different from the way announced to the Toreador.

BEING TAPPED FOR MORTAR BOARD

Mortar Board Picks Members In Tapping Ceremonies Friday

By SANDRA JORDAN
Toreador Staff Writer

A procession of girls dressed in academic black robes and wearing mortar boards begins to move slowly down the hall singing. Each girl walks with her arm on her friend's shoulder. A class is interrupted as the procession enters. There is silence as a black collar is slipped over the head of a junior girl. She has been tapped. She is now a member of Mortar Board.

Many students witnessed Mortar Board's tapping ceremonies or heard their singing echoing down the halls Friday as junior girls were selected for the highest women's honorary on campus—Mortar Board.

The following women were tapped Friday, will attend a Mortar Board Retreat Sunday and will be initiated April 15.

Betsy Baker—English major from Dallas, 1.9, Freshman Council, Drane Hall legislator and secretary, Pi Beta Phi president.

Ginger Butler—geology major from Dallas, 2.6, Alpha Lambda Delta, Junior Council, Weeks Hall president, President's Hostesses.

Jo Ann Caldwell—English major from Dallas, 2.2, Junior Council historian, Weeks Hall legislator, Latin Club president, Sigma Kappa president.

Judy Cowger—clothing and textiles major from Stamford, 2.8, Chi Omega president, Alpha Lambda Delta, Tech Choir, Home Economics Club.

Carol Jean Francis—Spanish major from El Paso, 2.4, Angel Flight, Alpha Lambda Delta, Kappa Alpha Theta president, AWS Council.

Thompson Plays At Union Dance

The identity of Tech's Rodeo Queen will be revealed at the Western stomp featuring Hank Thompson at 8 p.m. today in the Tech Union's downstairs Ballroom.

Rodeo Queen finalists are Judy Pence, Nancy Friend, Diana Harbert, Jimmie Bibb, Wanda Boatler and Connie Mitchell. Final selection of the queen on a penny-a-vote basis ended Friday.

The coed named Rodeo Queen will reign over the National Intercollegiate Rodeo Assn. Rodeo, which will be April 19-21.

Kay Kagay—art education major from Dallas, 2.4, Knapp Hall president, Junior Council, La Ventana, Kappa Alpha Theta pledge president.

Arminata Kemp—home economics education major from Roby, 2.4, Horn Hall president, Phi Upsilon Omicron librarian, Alpha Lambda Delta, Junior Council treasurer.

Karolyn Kirby—chemistry major from College Station, 2.8, Alpha Lambda Delta, Army ROTC sweetheart, Der Liederkrantz, Tech Union Program Council.

Kristi Martin—elementary education major from Houston, 2.5, Knapp Hall legislator, AWS president.

Judy McKinnon—psychology major from Amarillo, 2.1, AWS Council, BSO secretary, Junior Council, Psi Chi secretary.

Rosalind Ramsey—mathematics major from Monahans, 1.9, Junior Council, AWS treasurer, Tech Choir, Kappa Alpha Theta song leader.

Judy Stewart—mathematics major from Lubbock, 2.5, Alpha Lambda Delta president, AWS vice president, President's Hostesses, Tech Union Program Council.

Beverly Trutt—foreign languages major from Dallas, 2.1, Junior Council, Drane Hall legislator, Gamma Phi Beta scholarship chairman, AWS secretary.

Reesa Vaughter—English major from Lubbock, 2.0, Tech band and orchestra, Campus Religious Council, Pi Beta Phi chaplain, Junior Council vice president.

Dixie Ward—chemistry major from Lubbock, 2.9, American Chemical Society, Alpha Lambda Delta, Tau Beta Sigma, Tech band.

Anne Weaver—elementary education major from Houston, 2.2, Freshman Council, Alpha Lambda Delta secretary, Drane Hall president, AWS Judiciary Council chairman.

Rowena Williams—chemistry major from Lubbock, 2.1, Junior Council president, AWS secretary, Town Girls' Club president, Delta Delta Delta president.

Nickie Woelfel—clothing and textiles major from Bovina, 1.8, Knapp Hall treasurer, Who's Who 1961, Phi Upsilon Omicron, Home Economics Club president.

Evangeline Young—mathematics major from Lubbock, 2.8, Tech Union Program Council secretary-treasurer, AWS representative, Junior Council, Kappa Kappa Gamma president.

Susan Ziegler—elementary education major from Fort Worth, 2.3, Junior Council secretary, Student Council, AWS Council, President's Hostesses.

Concert, Varsity Bands Give Annual Program

Texas Tech's concert and varsity bands, directed by Dean Killion, will present their annual spring concert at 3 p.m. Sunday in the Lubbock Auditorium.

The 150-member varsity band will open the program with the "Coat of Arms" by Kenny. Other selections will include "Russian Sailor's Dance," "Victory at Sea," a selection from South Pacific" and "Block M March."

Tech's concert band, consisting of 98 members will play "Semper Fidelis," Overture from "Rienzi," "La Bamba De Vera Cruz," "Overture to 'Candide' and 'Jubilee March.'"

The concert band will also play "Psalm for Band," a selection from "My Fair Lady," "American Salute," "Valdres March" and "Rose Variations." Featured with the concert band will be Keith McCarty, professor of woodwinds, and Richard Tolley, brass instructor. McCarty will play "Adagio-Tarantella" and Tolley will present "Rose Variations."

Sigma Tau Delta Announces 3 Spring Harbinger Winners

Winners of the poetry, fiction and essay contests in the spring Harbinger competition have been announced by Sigma Tau Delta, sponsor of the publication.

First place in poetry went to Donald Cotten for his "In Defense of His Precipitation." Nolan Porterfeld took first place in the fiction field for "Home from a War."

"The Quick and the Dead: A Natural History of the Abraham Lincoln Battalion," written by Robert L. Littlefield, won first place in essays.

The spring Harbinger, which features a new format and a five-page gallery of photographs, will go on sale late in April.

Air Force Presents 1962 Military Ball

The annual Air Force ROTC Ball will be at 8 p.m. April 14 in the downstairs Ballroom of the Tech Union.

Ted Weems, renowned among music lovers, and his orchestra will be the main attraction of this major social event. Also featured with Weems will be Jean Carter, Louisiana belle who may soon follow in the footsteps of other famous Weems' discoveries such as Marilyn Maxwell and Perry Como.

All cadets, Angel members and their dates are invited. Dress for the ball will be formal.

Women's Dorms Elect Next Year's Officers

Dorm officers for the 1962-1963 school year have been elected by popular vote in all the women's dormitories.

President of Doak Hall will be Pat Wade, junior from Galveston. Sunny Palmore and Mary Beth Dorbandt will assist as vice president and AWS representative.

Nelda McQueen, freshman from Plainview, is the new president of Drane Hall. Cecile Camp will serve as vice president and Judy Faye Dorsey will assume AWS representative duties.

Horn Hall officers are Marcia Meyers, president; Dorothy Hickman, vice president; and Carol Bray, AWS representative.

Ann Mallan, Midland freshman, is Knapp Hall president. Donna Aigner is vice president and Mary Behrends, AWS representative.

Ginger Butler, junior from Dallas, will serve as Weeks Hall president. Vice president is Sue Lott and AWS representative is Bettye Jane Aston.

Vernon freshman Susan Wood

is the newly-elected president of West Hall. Kay Mansell will serve as vice president and Becky Gregg as AWS representative.

The main duty of the dorm president is to coordinate student government in the dorm. She presides at legislature meetings, general association meetings and executive council meetings. She has the power to appoint all committee chairmen except those elected by the legislature, and she acts as an ex officio member of all dorm committees.

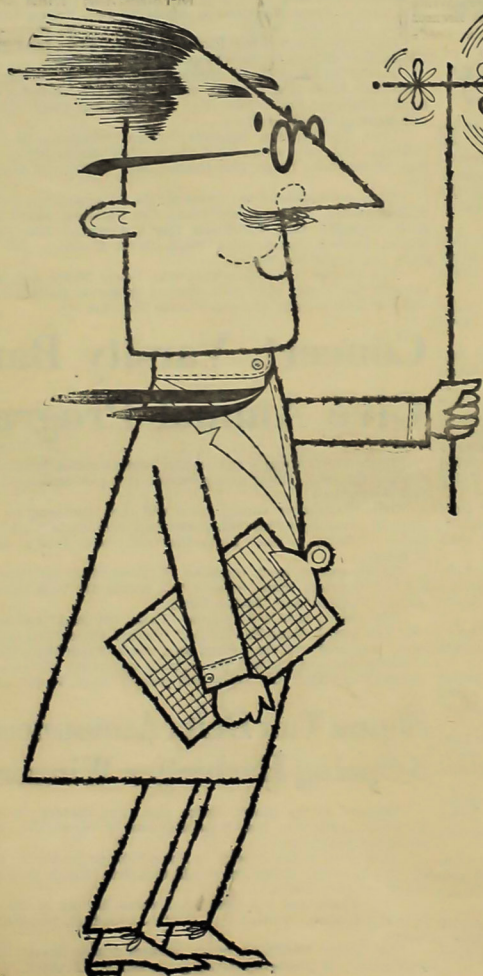

The vice president acts in the absence of the president and assists the president and the AWS representative. She also represents the dorm in Women's Interdorm Council meetings and acts in other capacities as determined by the legislature.

It is the duty of the AWS representative to represent the dorm at all AWS meetings and report on their activities to the legislature. She is also a member of the Advisory Council and representative to the Women's Interdorm Council. Any other duties are determined by the legislature.

HAWAIIAN ATMOSPHERE—Marjan Stone and Ann Morrow stand in an Hawaiian paradise at the Alpha Chi Omega Luau Dinner Dance held Friday night at the Palm Room.

*we've been blowing up a
storm!*

The reason: to find the shape of the future—future cars, that is. By creating man-made monsoons in laboratory wind tunnels, Ford Motor Company scientists and engineers are able to test the effects of aerodynamic design on the fuel economy, passing ability and stability of passenger cars.

They use ¼-scale model cars and blow gales past them up to 267 mph—to simulate 100-mph car speeds. In addition to analyzing shapes with an eye to reducing air drag, our scientists and engineers are studying means of improving vehicle control through proper aerodynamic design.

Experimental projects like this are helping pave the way for major advances in tomorrow's cars . . . advances which could bring even better fuel economy, better performance with less engine effort and safer driving at higher cruising speeds. This is just one more example of how Ford is gaining leadership through scientific research and engineering.

Music Club Gives Sing-Song, April 13

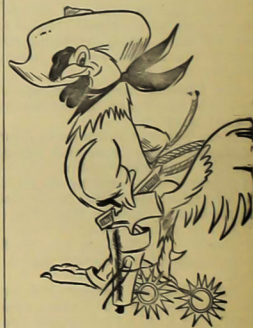

The inter-fraternity Sing Song, sponsored by Phi Mu Alpha, music fraternity, will be in the Lubbock Municipal Auditorium, at 8 p.m. Friday.

Five fraternities and twelve sororities have entered the competition and each will sing two selections of their own choice.

Three trophies will be given to the two winners. Individual trophies will go to one sorority and one fraternity and a traveling trophy will be given to the organization with the best performance.

Last year's winners were Phi Beta Phi and Kappa Sigma.

NEW OFFICERS

... of the honorary journalism organizations, Theta Sigma Phi for women and Sigma Delta Chi for men, are Connie Clearman, Ann Balzar, Travis Peterson, Charles Richards, Alayne Kornbleuh, Jamie Anderson, Jeannie Bookout, Julian Rodriguez and Bill McGee, seated.

Journalism Groups Elect New Officers For '62-'63

Theta Sigma Phi, women's national journalism society, and Sigma Delta Chi, men's national journalism society, have elected new officers for 1962-63.

New officers to be installed in Theta Sigma Phi are Alayne Kornbleuh, president; Jeannie Bookout, vice president; Ann Balzar, secretary; and Connie Clearman, treasurer. Marjie Sanders will also be initiated with the officers.

The Theta Sigma Phi Matrix Banquet will be at 7 p.m. Monday in the Tech Union. It is open to the public and will be highlighted by the presentation of the outstanding woman in journalism.

Jay Milner, author of "Incident at Ashton," will be the guest speaker. Miller is a graduate of Lubbock High School and a former Texas Tech student. His second novel, "Yonder Mountain," will be published in the fall.

The all women's edition of the Toreador will be put out by Theta Sigma on May 1.

New Sigma Delta Chi officers were elected at a noon luncheon Friday. They are Julian Rodriguez, president; Travis Peterson, vice president; Bill McGee, secretary; Charles Richards, treasurer; and Jamie Anderson, Quill correspondent.

Installation of the new officers will take place Sunday, as will the initiation of pledges Lane Crockett, Bill Heard and Jim Richardson.

Although no date has been announced, Sigma Delta Chi will put out a special Awards Issue later this spring. This issue will be an independent publication of Sigma Delta Chi, but it will be included in the corresponding issue of the Toreador.

LCC Official Presents Talk

C. L. Kay, vice president of public services and industrial relations at Lubbock Christian College, spoke on "The Challenge of Ideas" Thursday night in the Union's upstairs Ballroom.

Kay discussed the communistic theory, welfare state, demoralization and crime of the Communists.

A graduate of Eastern New Mexico University, Kay has done graduate work at Texas Tech and the University of Colorado. He was appointed as LCC dean of student life while teaching at West Texas State College. He served as professor of history and government at LCC until his present appointment.

Haley Protests White's Action

DALLAS (AP)—Charging Agriculture Commissioner John White with "pure political stunting" in the Billy Sol Estes case, J. Evetts Haley, Jr. stepped up his campaign in Dallas to land the commissioner's job.

The farmer-rancher voiced strong protests against Texas and federal agricultural restrictions. He held a news conference before heading into the rural areas in East Texas.

"Where have the Texas agriculture commissioner and his Department of Agriculture been all these years?" he asked. "West Texas farmers knew what was going on in the Estes financial empire."

"And now that the lid has been blown off, Commissioner White steps in and revokes the licenses of the Estes grain elevators. That's purely a political stunt on his part."

Girl Watching Becomes New Campus Pastime

Girl Watching, a rich new field of scientific sport for boys, is sweeping the nation.

Patterned after the century old sport of bird watching, this new variation is definitely similar but the chicks being spied upon don't have feathers and don't chirp.

Actually Girl Watching is not a new sport and its beginning can be traced to the arrival of Eve. However, only recently has the male specie banded together to form such organizations as the American Society of Girl Watchers complete with its "Girl Watchers Guide."

Girl Watching is the close observation and classification of the various species of human females.

Girl Watchers must generally conduct themselves so discreetly that the subject never suspects she is being watched. A suspicious subject is a nervous subject and unreliable for scientific study.

When a poll was taken among the Girl Watchers on campus, the following girls were found to be most predominant in this region:

THE PONY-TAILED SCHUSS-BOOMER—This specie can best be identified by her long strands of hair which are arranged to resemble the posterior of a racing equine.

LATE-RISING PUBTHRUSH—This chick will never be observed before noon except on rare occasion; however, she stays up late into the night and is predominantly nocturnal.

CLOCK-WATCHING BOSS-DUCKER—The classroom is the best grounds to watch this girl for she seems to be there to study the passing of time because she continually gazes at the clock.

SELF-ESTEEMING PEACOCK

—This strutting peacock is one of the favorites of Girl Watchers and one of the most beautiful. However, her priceless beauty is sometimes marred by a swelled head, a sign of her vanity, but then who cares?

EVER-GOSSIPING PARROT—The outstanding characteristic of this birdie is her ability to talk and there is nothing she enjoys better. She loves to repeat every bit of news that she has heard all day, often adding her own spicy details.

SPASMODIC DO-DO BIRD—This type is characterized by emotional outbursts and excitability. You can always count on her to do the unexpected. She is often nicknamed "spastic."

EVER-SAGACIOUS OWL—Don't let the drabness of her dress or her intelligence lead you astray, for this girl is keenly perceptive and shrewd. Her usual habitat is the library.

A new type of chick, similar to a chameleon, is yet to be named and is difficult to classify. She changes the color of her hair at will—champaigne beige to auburn in one afternoon.

Still another group of chicks can be identified by the way they comb their hair, or rather "rat" it, back-brush it, French-whip it or—as it looks—uncomb it. Their bubbles or bouffant hair styles give them an electrified look. They may be easily spotted by their bright colored bows.

Though girls may fuss about the rise of Girl Watchers and this invasion of their privacy, take it from me—what girl doesn't enjoy a friendly wolf whistle every now and then.

Committee Presents Traffic Suggestions

By CAROLINE ENGLISH
Toreador Staff Writer

Recommendations of the special student committee on campus traffic and the suggestion that a traffic appeals board be set up will go before the Traffic Committee at their next meeting at 4 p.m. Wednesday.

This special committee, headed by Richard Sharpe, student representative to the Traffic Commission, was organized last October in an effort to compile student opinion on the campus traffic problem.

If the recommendations submitted by the group are approved, then the suggestions will be subject to approval of the President and Board of Directors before going into effect.

Though it will probably be several years before these recommendations could be put into full effect, these ideas represent a sampling of the student solution to the problem of traffic and security on the campus, according to Sharpe.

To review the submission of the special committee will be five voting and four "ex officio" Commissioners. Voting commissioners are Lew Jones, chairman and dean of men; Richard Heineman, faculty representative; E. J. Urbanovsky, college landscape architect; Sharpe; and M. L. Pennington, vice president and comptroller. "Ex-officio" members are Briggs Irvin, college attorney; L. D. Blakely, assistant chief of police in Lubbock; Marcus Goodin, superintendent of grounds; and Bill Daniels, chief security officer.

On the student committee which met every Thursday are representatives of dorm groups and off-campus students.

The members and the areas of representation are Sandra Edwards, Knapp, Drane and Horn; Nancy Jo Mankins, Weeks and Desk; Terry de la Moriniere, Sneed and West; Darvin Breeding, Gordon and Bledsoe; Bill McCullough, Carpenter and Wells; and Ellen Warren, Cyril May and James Boggs, off-campus.

Bill Daniels and Lew Jones served as "ex officio" members of the committee.

The recommendations report to be submitted by the student committee follows:

This special committee, composed of the Student Council Traffic representative acting as chairman and of student representatives from areas concerned with traffic problems, was organized at the request of the Traffic Commission (1960-61) because of the realization of and concern for campus traffic problems that are now evident and need to be corrected.

The committee has based its recommendations on these assumptions:

That the campus traffic problem is increasing and needs a solution that will be adequate now as well as in future years;

That parking on the campus is a privilege—not a right. Although a college finds it necessary to provide some conveniences for its students and staff in order to obtain its main goal of education, the providing of parking places should not be considered obligatory;

That the pedestrian should have the right-of-way on campus;

That there is definitely a need to relieve the congestion near the center of the campus.

That gated parking areas should be provided for off-campus students and staff;

And that in order to facilitate

this program, it was found advisable to provide separate parking areas for students and staff."

Keeping all these assumptions in mind and considering the problems and solutions as they would affect everyone, the committee on campus traffic makes the following recommendations:

If the mechanics can be worked out, it would be desirable to stop traffic on the circle during class changes to provide safety for the pedestrian.

If it is possible, pedestrians crossing at the corner of the bookstore and the extension of 15th St. should be protected.

Residence hall parking should remain as it is, but it should be kept in mind that the off-campus lot east of the new men's gym could be expanded for additional spaces for the North Dorm Area.

Permission for freshmen to park in residence hall lots will be a yearly decision. When necessary, freshman men will be required to park in the dirt lot east of Jones Stadium.

Suggestions for the parking lots included that the Ad Bldg, parking lot and the lot in front of the Chemistry, Science and Old Library buildings will be converted to gated staff lots.

The dirt lot west of the new library and the C&O Bldg, parking lot shall be paved, gated off campus.

The lot presently reserved behind the Science Bldg, shall be enlarged as a paved, gated off-campus lot and the lot behind the Bookstore and beside Doak Hall shall be a service area only.

The present lot north of the Infirmary shall be reduced in size and limited to infirmary use. Off-campus freshmen shall be permitted to park in the dirt lot east of Jones Stadium.

The magnetic gate cards shall be issued to the staff for the particular lot in which they are to park. Cards for off-campus students will be made available at registration. To obtain a card, the student must present his fee slip marked paid and his registration packet.

Provisions shall be made for adequate spaces for Post Office patrons and loading and unloading zones.

Along with these recommendations, the committee is submitting these suggestions regarding traffic and security to be considered and given immediate attention.

Adequate lighting on campus especially on parking lots would not only discourage any vandalism that does take place, but would also provide security for people crossing the campus after dark.

Coin operated gates should be considered to reduce the cost of parking for the student with a light academic load and to reduce the cost of parking for the student financially unable to park in a reserve-space area. The coin operated gates would also provide better utilization of parking areas.

The cost of gated lots should be reduced as soon as is economically feasible.

The committee also advises that an adequate system be devised to provide adequate parking for visitors and visiting groups on campus.

Also to be presented to the Commission Wednesday is the suggestion that a student-faculty Appeals Board be organized to take care of student infractions of traffic regulations.

The Appeals Board is needed, the committee feels, because the agency which enforces traffic regulations

should not have the sole responsibility to evaluate infractions. Also the committee feels that student representation should be utilized in the enforcement of traffic regulations on campus.

The Appeals Board shall be composed of two student members, appointed by the President of the Student Council, and one faculty member, appointed by the Traffic Commission. The student appointments shall be made in consultation with the Dean of Men and subject to approval by the Student Council.

The term of office for the student members shall be a minimum period of one year and the term of the faculty member shall be a minimum of two years.

A student member shall be appointed or reappointed one at the beginning of every fall semester and one at the beginning of every Spring semester. The faculty member shall be appointed or reappointed every two years.

The chairman of the Appeals Board shall be elected each semester by members of the board. The duty of the chairman, aside from being a regular board member, shall be to decide which appeals are justified for a hearing before the board. Any decision made by the chairman is subject to approval by the Board. This decision shall be based on the written appeal submitted by the student and a written statement of facts from the Chief of Traffic Security.

The chairman shall summarize the decision made on each case heard and place it in a space provided on the appeal form and file for future reference.

The function of the Appeals Board shall be to render a decision on all appeals, based on prescribed traffic regulations. The Board shall alone interpret the traffic regulations applying to an appeal which is heard.

The Board shall not rule on cases involving appeal of a traffic violation incurred following restriction from campus parking. These violations shall be considered the basis for disciplinary action and not included in the scope of the Board.

Procedure for appeals was also outlined by the committee.

The student shall report to the Chief of Traffic Security for a hearing of the violation within 48 hours after the violation was committed.

When the student feels that an appeal should be made he should fill out an appeal form and submit it to the Chairman of the Appeals Board, accompanied by a written statement of fact from the Chief of Traffic Security. The appeal must be submitted not later than 48 hours after the violation was committed.

When the submitted appeal is deemed justified for a hearing before the Board, the chairman shall notify the student of time and date to appear. If the chairman decides that an appeal is not justified for a hearing, the student shall be notified of this decision.

The Appeals Board shall have established dates on which cases may be heard. The Board may hear a case only when all members and the defendant are present.

The form of the appeal shall have spaces provided for the name and residence of the defendant, the reason for appeal (written by the defendant), a statement of fact concerning the violation (filled in by the Chief of Traffic Security) and the decision on the appeal (whether or not it is heard by the Board).

Engineers Schedule Show For Weekend

B JEFF BEARDEN
Toreador Staff Writer
"Engineer Bill," senior at Lectric High, will visit Texas Tech Friday and Saturday to attend the 30th Annual Texas Tech Science and Engineering Show.

"Bill" will be shown the various exhibits on campus representing the engineering, physics, chemistry and geology departments.

"Sam Cork" of the chemistry department will introduce him to modern developments in chemistry. He will be shown and explained how detergents work and will see a display of ultra-micro size glassware used for micro chemical experiments.

The physics department will display man-made lightning, ultraviolet sodium light and other electro-magnetic devices.

"Leo Atom" of this department will show him how the measuring of fallout radiation in the atmosphere is conducted. Approximately 20 exhibits will be in store for the visitor in this department alone.

Next on the agenda will be a visit to the West Texas Museum to view the 26 foot tall Mercury capsule. "Tom Enos" will be there to explain the various features of the 750 pound space ship which is capable of circling the globe at a speed of several times faster than that of light.

Behind the Museum a 70,000-pound Minuteman missile will be displayed along with many weapons supplied by the Air Force.

Bill is quite interested in geology for he has a friend who teaches in the Tech geology department. His friend, "Rock Crystal," will be on hand to show him displays in mineralogy and rock formations.

The electrical engineering department is honoring "E. B." with a private showing of a 250,000 volt van-de graaff generator. This is a small version of an electrostatic generator used to smash atoms.

"Tiny Fusion," senior electrical

engineering major, will introduce Bill to the other displays in this department.

He will view an electronic light-seeking device, electronic robot, heat detector and many other educational and interesting student projects.

Other departments welcoming Engineer Bill's visit are chemical, civil, petroleum, textile and agricultural engineering, air science and military science.

Students of high schools and colleges from throughout the Southwest area have received invitations to attend the show.

The show will be from 2 to 10 p.m. Friday and 10 a.m. to 10 p.m. Saturday. There is no admission charge.

Guided tours such as the one for "Bill" can be arranged by those in charge of the show if interested organizations and parties notify them in advance of the show's opening.

"Engineer Bill" has expressed great concern for this show for he realizes its significance in our modern and complex world.

"So often the achievements made by our scientists, chemists and engineers are overlooked. For this reason, a show such as the one next week-end at Tech is offered to students and adults interested in seeing the United States maintain its position of leadership in the forth-coming years."

He further added that increasing demands for technical jobs and "know-how" has aided in development of more skillful engineers and productive scientists.

Tech's engineering department's purpose in sponsoring such a show is to display to the public some of the most technological developments. Through these exhibits a preview of greater scientific and engineering advances yet to come are seen.

This year's show is directed by Kenny Abraham, junior industrial engineering major and general manager of the show.

Young Democrats Announce Candidates' Appearances Here

The Lubbock County Young Democrats have announced that two of the candidates for the Democratic nomination for governor will appear on a panel at the club's regular meeting here Tuesday.

Former Navy Sec. John Connally and Don Yarborough will attend the meeting at 8 p.m. in the downstairs Ballroom of the Tech Union.

Van McVay, president of the organization, reported that all of the Democratic candidates were invited, but previous commitments

prevented the others from accepting.

The club will hold a brief business session at 7 p.m. for the purpose of electing a new vice president.

Connally and Yarborough will face questions from a three-man panel of newsmen, then will make closing statements. Both men also have scheduled a full day of campaigning here Tuesday.

The general public is invited to attend the panel, and a large turnout is expected, McVay announced.

Gubernatorial Candidates Begin Last Month Of Campaigning

(AP)—Candidates are stepping up their campaigns as they go into the last month campaigning before the May 5 primaries.

John Connally issued a statement, tossing back charges of Washington influence at Gov. Price Daniel and Atty. Gen. Will Wilson.

Connally said that his opponents have been whispering that President Kennedy and Vice President Lyndon Johnson sent him to Texas to get into the race.

He asserted this was untrue but that he was not going to disavow his friendship with Kennedy and Johnson.

Republican candidate Jack Cox of Breckenridge took notice of the Will Wilson-Price Daniel feud in a letter to 500 local GOP officials in Texas.

He said the attorney general's comments are only part of the story, adding:

"Were the situation not so serious, and the revelations so shocking, the spectacle would be amusing and downright comical."

Wilson said Daniel had not answered his "conflict of interest" charge made in a televised speech last week. He said Daniel's answer fell far short of full disclosure of the governor's property and income records.

Daniel has said that Wilson's figures are incorrect and that some of the property Wilson cited was inherited.

Two other Democratic candidates for governor, Marshall Formby and Don Yarborough, spent time in Dallas campaigning.

SCARLET Scatterings...

By CHARLES RICHARDS
Toreador Sports Editor

It's still five and a half months before the football season starts on the collegiate level, but Texas Tech sports enthusiasts will get a little pigskin preview today when the Red Raiders square off at each other in their first big scrimmage session.

And the fever is high as quite a few Texas Tech students are expected to make the short trek across campus to get their glimpse and fix in their minds their opinion of the 1962-63 edition of the Red Raider football team.

The teams have been separated into "Red" and "White" teams by the coaches, and play will begin at 2 p.m. today with game-like conditions and complete with referees.

Well, the Dodgers have been picked to win the National League this year. That makes my choice this year seem more logical. I've picked Duke Snider & Co. for the past three years now and I'm anxious to be on the winning side.

The Yankees are the choice in the American again. If the Bombers keep winning it, they may have to change it to the Yankee League.

It's no secret that the Dodgers and Yankees have the two most developed farm systems in the major. And the results show from year to year. Both clubs have pitchers sitting on the bench who would earn starting-day assignments on some other teams.

Charlie Harrison, shortstop for Texas Tech's baseball team, had a streak of home runs in five consecutive games before it was finally broken in his home town by Abilene Christian College. He had a bad day, getting only a double and a pair of singles.

Bill Holmes, Tech athletic publicist, had the following to say about Tech's basketball recruiting: "Regardless of how the basketball recruiting goes from here one thing is certain. No college will get more members off the Conference 4A all-state first team than Texas Tech, which signed Odessa's Dub Malaise and Arlington Height's Norman Reuther the first day. One all-state selection, Darrell Hardy of

Houston Jeff Davis, is just a junior."

Texas Tech athletes have several of the state's best times, according to a recent bulletin our office received. Four events listed Red Raiders in the top ten marks.

Ronny Biffle showed up best for Tech. He trails only Ray Cunningham of Texas in the 220 low hurdles time. Biffle's best time is 24.1, just behind Cunningham's 23.5. A Tech freshman has recorded a wind-aided 23.8.

Biffle and Bob Swafford are tied for the fourth best time in the high hurdles with 14.6 timings, although Biffle has done 14.4 with the wind at his back. Cunningham leads here with a 13.7 time.

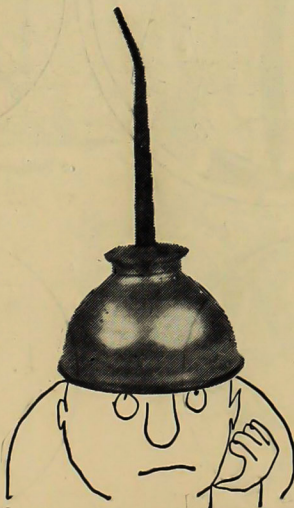

In the Texas Relays, which were partially completed yesterday, Swafford and Rex Wilson each won their 54.4 for the best time in this.

Franklin Wood and Walker Cunningham are fifth and sixth respectively in the 100-yard dash with 9.4 and 9.5 clockings, and Tech's mile relay foursome has chalked up the sixth best time in the state.

After last year's unfortunate episode in which the Red Raider Relays, the Little 500 bicycle race, the Frantic Funfare and Noche de Conquistadores all were crammed into one day, Edsel Buchanan has taken some steps to diminish the dilemma. He's sent a letter to several parties in an attempt to avoid conflicts.

This year Noche—the night the intramural department sets aside for activities to determine various all-college champions—has been set for May 3 in Municipal Coliseum. Plans aren't complete yet, but efforts are made to bring for the "night of champions" a prominent figure in national sports.

It's the same old story on the golf scene. Arnold Palmer, famed for his come-from-behind wins on the links, fought from a three-stroke deficit to go ahead by two Friday. It sets the stage for a man-to-man battle between Palmer and the first-round leader, Gary Player.

LET VITALIS® KEEP YOUR HAIR NEAT ALL DAY WITHOUT GREASE! Keep the oil in the can. In your hair, use Vitalis with V-7®, the greaseless grooming discovery. Fights embarrassing dandruff, prevents dryness—keeps your hair neat all day without grease.

Rain Stops Austin Meet

AUSTIN, Tex. (AP) — Rain and cold forced the postponement of the Texas Relays night session and all events will be held Saturday.

Preliminaries, in which Texas Southern set a record in the college division 880-yard relay, were run off Friday but a steady rain started in mid-afternoon, thus causing postponement of 17 final events scheduled Friday night.

Texas Southern, first all-Negro college to enter the Texas Relays, did the 880-yard relay in 1:23.7 Friday morning when the track was comparatively dry and the weather warm. This time was within 1.1 seconds of the world's record set here last year by Abilene Christian College.

Nothing else approaching a record was hung up in the preliminaries.

The athletes were forced to operate in ankle-deep water around the turns.

Finals in 22 events will start at 8:30 a.m. Saturday with the same schedule of Friday night to be followed. It is the first time in the 35-year history of the relays that a schedule has had to be postponed.

The open 400-meter preliminaries were led by Rex Wilson of Texas and Bob Swafford of Texas Tech, each with a time of 54.4. Oklahoma led the 880-yard relay trials in the University division in 1:25.8.

Pete Whitehouse of Notre Dame topped the 120-yard high hurdles in 14.5.

Donald Smith of Missouri led the shot putters with 57 feet, 10 inches and Jerry Dyes of Abilene Christian the javelin throwers with 222 feet, 4½ inches.

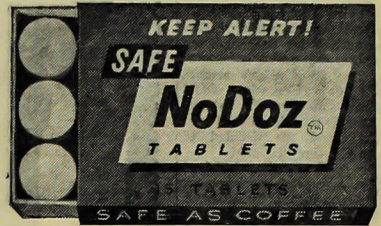

AP Picks Dodgers, Yanks As Favorites

The New York Yankees are overwhelming choices to repeat as American League champions this season and the Los Angeles Dodgers are favored in the National League race in the annual pre-season Associated Press baseball poll.

Of the 130 members of the Baseball Writers Association voting, 106 picked the Yankees to capture their 27th A.L. pennant. Twenty-two chose the Detroit Tigers and the remaining two named the Baltimore Orioles.

The forecasts is for a tighter race in the NL, where the Dodgers beat out the San Francisco Giants for the poll's top spot. Foregers are favored in the National League race in the annual pre-season Associated Press baseball poll.

St. Louis' surprising Cardinals were named first on 28 ballots but on a point basis finished fourth, behind the Milwaukee Braves. And the Cincinnati Reds, last year's NL kings, received only six first-place votes and wound up fifth in points.

THE SAFE WAY to stay alert without harmful stimulants

Never take chances with dangerous "pep pills." Instead, take proven safe NoDoz®. Keeps you mentally alert with the same safe refresher found in coffee. Yes! NoDoz is faster, handier, more reliable. Absolu-

tely not habit-forming. Next time monotony makes you feel drowsy while driving, working or studying, do as millions do... perk up with safe, effective NoDoz. Another fine product of Grove Laboratories.

Kingstons Will Play At Tech

By **BILL MCGEE**
Toreador Amusements Editor

The Kingston Trio will appear in a program presented by Tech students for Tech students at the Municipal Coliseum, May 4.

Four enterprising Thompson Hall students have worked for three months to bring about the Trio's appearance here. Dick and Don Perkins (not related), Jerry Avery and David Black are hoping for a 10,000 ticket sell-out for the Friday night performance.

"We just got to talking," Don Perkins said, "and decided Tech needed some big-name entertainment." The four asked around campus to determine what would be the most popular act to present. "Everyone said 'The Kingston Trio' and we decided to shoot for the top," he said.

A letter to International Talent Associates—the Trio's management—brought the disappointing news that the popular folk-singers would be tied-up in a television series, scheduled to be released this fall.

"But about three weeks ago we got a long-distance phone call and learned that they'd be available on May 4 if we still wanted them," Perkins said.

The four students had to rake up \$2300 to reserve the Coliseum and to guarantee the Trio's appearance.

"We've never tried anything like this before," admitted Perkins, "but we'll do it again if it's a success."

He said the purpose of the presentation is to liven up the campus, present some top name talent, "and of course we hope to make a little money."

Judging from the popularity of the Kingston Trio, the four students have a sure thing going. First heard at the "hungry I" in San Francisco, the threesome received national attention with their recording "Tom Dooley," a baleful folksong of mountain-top murder.

Since that time they have cut a long list of best-selling disks in both the folk-song and ballad idiom. Their latest release is "College Concert" and is now selling off local record racks.

No seats will be reserved for the Trio's performance. Ticket sales at \$2 for bleachers and \$3 for floor seats will begin April 20 at the Bookstore. Door prices will be 25 cents higher.

Fraternity Elects New '62 Officers

Delta Sigma Pi, national business fraternity, has elected 1962 officers.

Jim Gardner was chosen president of the chapter and assisting him as senior vice president and junior vice president will be Ken Reoh and Rod Blackwell.

Other officers include Hayden Routh, treasurer; Larry Akin, comptroller; Jim Braoey, secretary; Ray Lubke, chancellor; Charlie Giddens, social chairman; Tom Crea-ger, professional chairman; Daniel Ringo, historian; and Ed Stonder-fer, ritual chairman.

SADDLE TRAMP SMOKER

The Saddle Tramps are having a smoker in the Old Rec Hall at 7 p.m. Wednesday. All male Tech students with a minimum of 30 semester hours are invited to attend. They are asked to wear coats and ties.

TECH ACCOUNTING SOCIETY

Tech Accounting Society will have their Spring Banquet at the Palm Room at 7 p.m. Friday. Members may purchase tickets from Bill Crowson, Bill Hunsucker, Gary Cunningham and Mary Cole before Wednesday noon, April 11. Guest tickets will be \$1.70 each.

ALL SCHOOL SOAP FIGHT

An all school soap fight, sponsored by Sigma Chi and Zeta Tau Alpha, will be in McKenzie Park at 4 p.m. Sunday.

NEWMAN CLUB SPAGHETTI SUPPER

The annual Newman Club Italian Spaghetti Supper will be held Sunday in the Newman Hall at 2305 Main. Serving time is from 5 to 8 p.m. Tickets may be obtained from club members or at the door.

Club Picks New Staff

Installation of Inez Jenkins as president of Sigma Alpha Eta, speech and hearing fraternity, will be at 6:30 p.m. Sunday at a banquet in the Hickory Inn.

Kay Porter, out-going president, will also install Durward Porter, vice president; Maridelle Hutt, secretary; Ginger Rabjohn, corresponding secretary; Jo Ella Tweedy, treasurer; and Marilee Dale, historian. Helen Lindell, assistant professor of speech, is faculty advisor.

Speech department professors will be special guests at the banquet.

Initiation of six associate members into the rank of key members will be Ruth Burchett, Anne Gillespie, Jean Malloy, Dorothy Pirkle, Miss Tweedy and Porter.

Affiliate members who will become associate members are Carol Heizer, Norma Harter, Shirley McCutchin, Melissa Scott, Sue Lightner, LaVerne Davis and Gayle Branch.

The club project for April will be an Easter egg hunt for the children who attend the speech clinic. Committee members working on the project are Hinda Kahn, Mrs. Pirkle, Carol Burden, Nell Anne Walter and Carol Youngblood.

Tryouts Continue For 'The Intruder'

Auditions continue from 2-5 p.m. today in the Speech Auditorium for the play "The Intruder" by Maunce Maderlinck.

All interested Tech students are eligible to try out for the parts, open to three men and four women.

TECH**

With 2 p.m. Scrimmage

Pigskin Battles Start

It'll be the "Reds" against the "Whites" at 2 p.m. today in Jones Stadium when Texas Tech Coach J T King runs his gridders through

their first major scrimmage of the year. The game is open to the public, and no admission price is being charged.

The Red squad is comprised of the first and fourth units, and the White team is made up of the second and third squads.

Several starters are being kept out of action because of minor injuries, but the two lineups still include a lot of potential, according to King.

Larry Jones, an expected starter at right end, injured a leg in workouts this week and will miss the remainder of spring training. He's the only permanent loss, however, as the other injured are being kept out only to prevent the injuries from being aggravated.

Jerry Garrison, Johnny Lovelace and Roger Gill, three other probable starters, are those out with minor injuries.

For the Red team, David Parks, Ken Milliken and Richard Willis will hold down the end, tackle and guard positions on the left side of

the line, while Charles Gladson, Sonny Armstrong and Larry Carlisle hold down the same spots on the right side. Jerry Elbert is the starting center.

Calling signals for the Reds will be quarterback Richard Mahan, a redshirt last year. Sharing backfield duties with Mahan are Bill Worley and C. W. Williams with Coolidge Hunt at fullback. End Jim Hacker, tackle Bill Malone and guard Kelly Mitchell are the mainstays on the left side of the White line. C. C. Willis will start at center and Don Burd, tackle John McDaniels and guard Glen Koch are the men in the right side of the line.

In the White backfield are James Ellis, quarterback; Charles McEntire, left halfback; David Rankin, right halfback; and H. L. Daniels, fullback.

"We'll play 'em all," King said Friday. "They've looked real well so far, but we'd like to see them play under actual game conditions. Everyone who's eligible will see action before the afternoon ends."

Picadors Seek 5th Win In Game Here Monday

With Joe Fox making his first start on the mound, the Texas Tech Picadors will seek their fifth victory without a loss Monday. Amarillo College will move in for a one-game match at Mackenzie Park beginning at 2:30 p.m.

The two teams were originally slated to meet today in Amarillo, but inclement weather forced a postponement. To make up the

game, the Picadors will play Amarillo May 2.

All of the Texas Tech wins have come at the hands of South Plains College of Levelland, and all scores were by lopsided margins. Tech scores were 16-4, 13-0, 11-3 and 14-2.

Billy Monk of Abilene will lead off for the Tech freshmen a play shortstop, followed by F. Williams of Lubbock in the second spot and playing second base Johnny Mack King, left fielder from Lubbock, will bat third.

Catcher Steve Reed of Dallas is the cleanup hitter and Able's first baseman Bob Felder will bat fifth. Batting sixth is Richard Perry, Hobbs, N.M., third baseman; Jerry Guthrie, Jal. N.I. center fielder, bats seventh; a batting eighth and playing right field will be either Ronny Simpson of Levelland or Pat Kelly of Dallas. Fox will complete the batting order.

Cage Stars Visit

A junior college cager and seven high school basketball stars, including four who have signed pre-enrollment letters at Texas Tech, are visiting the Tech campus this weekend.

The athletes are Norman Reuther, Fort Worth; Dub Malaise, Odessa; Bobby Measles, Seminole; Russ Wilkinson, Lubbock; Dave Olsen and Charles Cleek, Las Cruces, N.M.; James Adams, Midland; and Bill Murren, Decatur Junior College.

Reuther, Malaise, Measles and Wilkinson have already signed to go to Tech.

NBA Releases Playoff Data

NEW YORK (AP) — The National Basketball Association announced Friday the full schedule for its championship playoffs between the Boston Celtics and Los Angeles Lakers.

The first two games of the best-of-7 title series will be afternoon contests in Boston today and Sunday, with Saturdays game nationally televised NBC. The next two will be in Los Angeles Tuesday and Wednesday nights.

Game 5 (if necessary) will be in Boston Saturday night April 13, game 6 (if necessary) in Los Angeles Monday night April 16, and game 7 (if necessary) in Boston Wednesday night April 18.

Tech Sponsors Meeting Of Electrical Engineers

Representatives of 13 colleges and universities from three states will attend the southwest district meeting of the American Institute of Electrical Engineers-Institute of Radio Engineers Wednesday and Thursday at Texas Tech.

Each school will have one student representing them in the annual district AIEE student papers contest Wednesday at 8:45 a.m. in the downstairs Ballroom of the Tech Union.

Each entrant will have 15 minutes for an oral presentation of his technical paper, with five minutes for questions and five minutes for discussion and demonstration.

Texas Tech's representative in the paper contest will be David K. Ferry of San Antonio. He will demonstrate "A Three-way Single-Circuit Multivibrator."

Students and counselors will attend a banquet following the contest Wednesday. Dr. Henry C. Thomas, Tech physics department head, will be the speaker.

The schedule for Thursday morning includes inspection trips of the Textile Engineering Building, Data Processing Center and other campus points. There will also be a trip to a cotton oil mill and an electric power plant in Lubbock.

Winners of the contest will be announced Thursday at the awards banquet. Dean John R. Bradford of Tech's School of Engineering

will be the featured speaker.

Schools represented at the meeting will include University of New Mexico, Arlington State College, Southern Methodist University, New Mexico State University, Texas Western College, University of Texas, Lamar State College of Technology, University of Houston, Rice University, Texas A&M, Louisiana Polytechnic Institute, Texas A&I and Texas Tech.

Ferry Speaks At IRE Meet

David K. Ferry, Tech senior engineering major, will submit his contest speech, "A Three-way Single Circuit Multivibrator," at a Southwestern conference of the Institute of Radio Engineers in Houston, April 11.

Texas Tech's IRE representative, Charles E. Houston, professor of electrical engineering, will accompany Ferry to the meeting.

Ferry will compete with engineering students from 22 schools in Texas, Oklahoma, Missouri, Kansas, Louisiana and Arkansas.

Space Science Director Talks To Engineering Professors

Dr. Homer E. Newell, Office of Space Sciences director of the National Aeronautics and Space Administration, was the featured speaker at the American Society of Engineering Education meeting.

Newell spoke on "Why Space?" to more than 150 engineering professors from New Mexico, Oklahoma and Texas at a banquet Friday night.

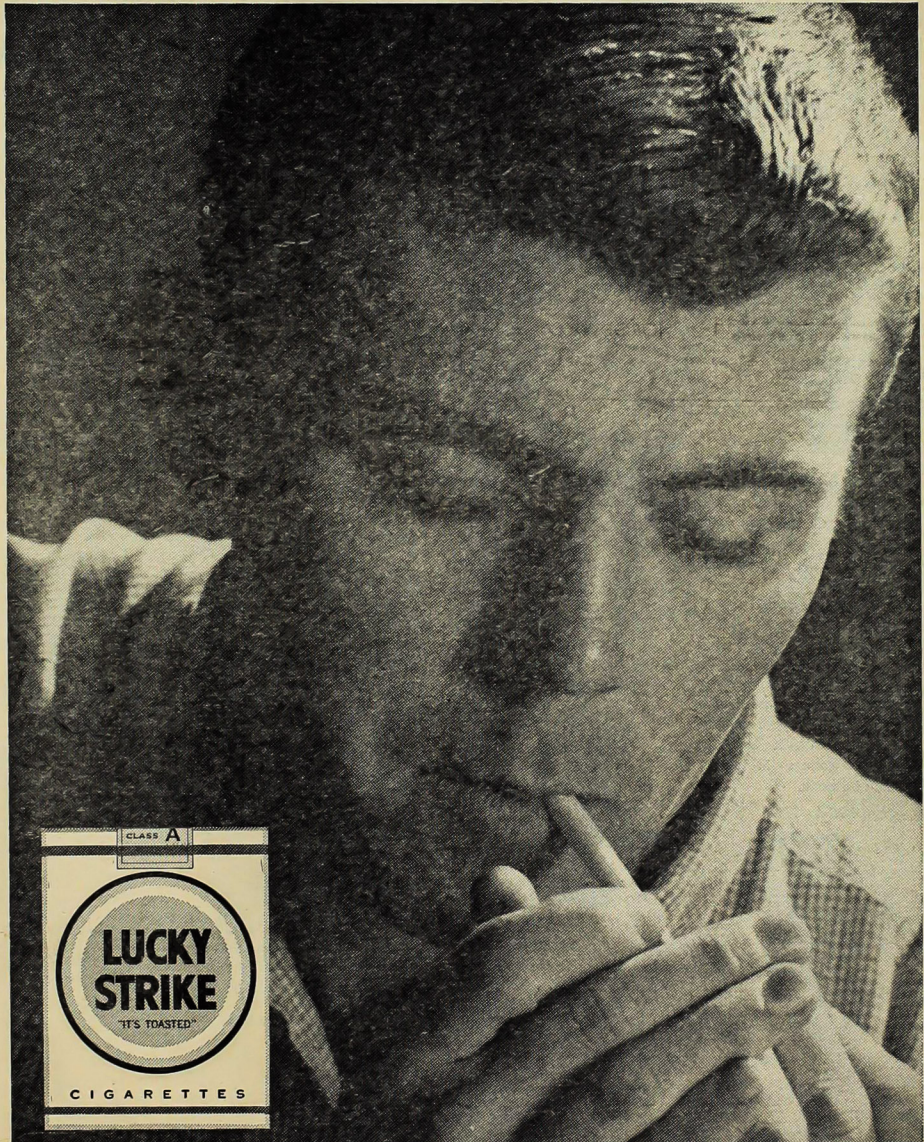

One of the nation's top men in NASA, Newell was named assistant director of space sciences in Octo-

ber of 1958. He was appointed director in November, 1961.

Other principal speakers for the two-day meeting are Dr. L. E. Grinter, graduate school dean at the University of Florida; Dr. Monroe Kriegel, Technical Placement director for Jersey Production Research Co. in Tulsa; Robert W. Olson, research and engineering vice president for Texas Instruments, Inc., in Dallas; and Dr. LeVan Griffith, engineering dean at Rice University.

PLANNING FOR PANTHELLENIC FORUM

... to be held in the Union Sunday, are (seated) Mrs. Turner Kimmel, Mrs. Leslie Ainsley, city Panhellenic rush chairman; (standing) Linda Ryna, outgoing president of Tech's Panhellenic Council; and Shelley White, Tech's Panhellenic rush chairman.

Panhellenic Hosts Forum

What is rush? What benefit would you receive from sorority affiliation in College? Why must you maintain silence during rush week?

Answers to these questions and many more will be given graduating high school senior girls at the Panhellenic Forum at 2:30 Sunday in the downstairs Ballroom of the

Tech Union. The forum, held to acquaint Lubbock-area girls with sorority life and customs at Tech, is sponsored each year by Texas Tech Panhellenic Council and Lubbock City Panhellenic Council.

A panel of six college women will give the girls and their mothers a brief description of rush week and sorority life. Panelists are

Nancy Jones, incoming president; Linda Ryna, outgoing president; Sue Boles, vice president; Pat Pcell, secretary; Mary Kaye Pearl, treasurer; and Shelley White, rush chairman.

Fashions suitable for rush week activities will be shown to guests. Panhellenic delegates meeting will be Susan Manning, nettie Immon, Judy McKinzie, Lynn Gast, Betsy Kaiser, Beverly Boes, Kay Kagay, Mollie Fulton, Joy Wright, Gay Vanderburg, Barbara Teal and Joan Grinnell. Kay's awards is commentator.

"We feel that this forum is an excellent means of acquainting girls from outlying towns with sorority life," Mrs. Leslie Ainsley, city Panhellenic rush chairman said Wednesday. She continues, "many girls from the smaller towns know nothing of sororities."

Three hundred girls and their mothers are expected to attend the forum.

Coeds, 'Women Of Year' Receive Honors On May 1

Campus coeds, attired in white, will be honored by Tech May 1 during the 30th annual "Women's Day."

Selection of the two "Women of the Year," a tea and banquet highlight the day. During the banquet, awards and scholarships will be given to organizations and individuals.

The "women" awards will go to an outstanding coed and a faculty member. They will be chosen by a campus-wide vote of the women on that day. The honorees will be selected from a list of nominees from the women's organizations on campus. The names of either coeds or faculty members may be submitted to Ann Weaver, newly elected AWS president.

The officers of AWS, Women's Residence Council and Panhellenic or next year will act as deans for the day. They will be present at a tea for all women students in Dean Florence Phillips' office from 1:30 to 4 p.m.

The day will be climaxed by a banquet in the downstairs Union Ballroom at 6 p.m. that evening. Mrs. Grady Gammage, Arizona State University public relations staff member, will be the speaker.

The awards for the best scholarship in the dorms and in sororities will also be given at the banquet. Academic scholarships such as those given by Mortar Board and Delta

Delta Delta will be announced.

Concluding the program will be the installation of AWS officers and recognition of Junior Council and Mortar Board members. Also being recognized are legislators of women's dormitories.

The first Day of Honors for women came in the spring of 1932. Each coed, dressed in white, walked across an elevated platform and received a sheaf of roses and larkspur. In 1934 a banquet was added to the festivities.

Women outstanding in Home Economics Club, Girl's Pep Squad, Women's Athletic Assn., YWCA, Forum and the Las Leales were recognized. Only two of these organizations are left, the Forum — now Mortar Board — and Home Economics Club.

'Operation' Films Run On Sunday

Two controversial films, "Operation Abolition" and "Operation Correction," will be shown at 7 p.m. Sunday in the upstairs Ballroom of the Tech Union.

The films, sponsored by the Channing Club, are being shown at Tech in an attempt to present both sides of the subject of un-American activities.

John G. Little, president of the Channing Club, said, "We realize that both films might be biased, but we do believe that everyone should see both films."

Council Unanimously Approves Traffic Committee Reports

A report from the Student Traffic Committee was presented and evaluated in the Student Council meeting Wednesday.

Student representatives from every area involving parking on campus form the committee headed by Richard Sharpe. The committee spent most of the fall semester in orientation since, according to Carlyle Smith, "the magnitude of the traffic problem at Tech isn't one that can be learned overnight."

The remainder of the time the

committee formulated their report and recommendations.

After a question and answer session of about an hour, the Council unanimously accepted and approved the report. This report, in complete form is presented in today's Toreador. See page four.

"People who served on this committee weren't members of the Council, but were students who have been asked by Sharpe to assist him. These people spent at least five to six hours every week of the school year on this problem. The Council is very appreciative of their effort," Smith said.

It's your tapered shape and your hopsacking look that get me...

Mother always told me to look for the blue label!

Keds "Court King" for tennis and all casual wear

Keds taper-toe Champion® in new, breezy hopsacking

Nobody's really suggesting romance will be yours if you wear U.S. Keds. But it is true that Keds are the best-fitting, the most comfortable, good-looking and long-wearing fabric casuals you can buy. Because Keds are made with costlier fabrics. With an exclusive shockproofed arch cushion and cushioned innersole. In short, with all those "extras" that make them your best buy in the long run. Head for your nearest Keds dealer. Get that Keds look, that Keds fit... GET THAT GREAT KEDS FEELING!

Random Standard Time Causes Chaos at Tech

By NANCY MILLER
Toreador Staff Writer

Harken, students of Texas Tech! A new time zone is about to take effect.

In response to numerous requests, the number of time zones has been expanded from four to five. In addition to Central Standard, Mountain, Eastern and Pacific time, we now have Texas Tech time.

One of the peculiarities of this new time zone is that it can be divided into two categories—College Building Time and Dorm Time. We have here a choice of being either too late or too early.

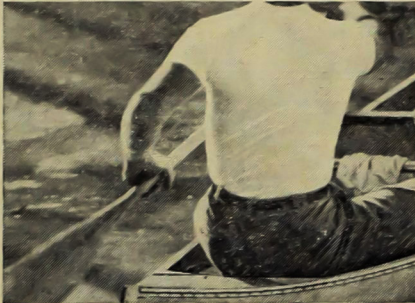

Just think, students! A whole new area of entertainment has been opened to us. When everyone else in the world says it's 10 til

8, we can bare our fangs in glee, knowing that everyone else is wrong. Girls can have the extra thrill of finding out that their boy-friends who go by Central Standard Time tried fruitlessly to call on a switchboard that closed ten minutes early. Boys can snow their dates in Lubbock by being ten minutes late. Lubbock students haven't a prayer of getting to class on time, heh heh.

This may start a revolution in time-telling. Watches will not only have to be set as one enters the Tech campus, they must also be set as one goes from building to building. Tech will be anywhere from five to ten minutes ahead of the rest of the world for busses, trains and planes. We'll never miss a thing.

By the way—Anyone know what time it is?

POWER-KNIT T.M.

Only Jockey T-shirts are Power-Knit to keep their fit

The Jockey Power-Knit T-shirt is *man-tailored* . . . from the exclusive nylon reinforced Seamfree® collar that stays snug and smooth . . . to the extra-long tail that stays tucked in. It's Power-Knit with extra top-grade combed cotton yarn to take the roughest kind of wear a man can give it . . . and still not bag, sag or stretch out of shape. It's a Jockey . . . the *man's* T-shirt . . . Power-Knit to \$1.50 keep its fit.

ITS OURS, TOO

... say Peggy Malay (left) and Gail Pfluger as they make use of the Tech Union's new game room. Girls are welcome at any time to enjoy ping-pong, cards or a game of pool.

Coeds Enjoy Pool, Cards In Union's Game Room

Now that Texas Tech has a new game room in the basement of the Tech Union, Jack Shisler, program council chairman, has extended a welcome to all girls to come to the room and make use of its facilities at any time.

The new game room has an atmosphere that will help make girls feel welcome. According to Shisler, "When the game room was in the old rec hall, girls were hesitant to make use of it, but now girls are able to come at any time to play pool, ping-pong or cards with other girls or with their boy friends."

Shisler also noted that across the nation, billiards is becoming more and more a girl's game.

The game room is located in the basement of the Union and is open 8 a.m. to 10 p.m. every day.

Knapp Begins New Tradition

Residents of Knapp Hall established a tradition of tapping new legislators and officers last night, according to Peggy Barrington, president of Knapp.

Each representative and officer wore a glittered letter signifying her officer and each carried a lighted candle. The group began on the first floor of Knapp and wound its way through the darkened dormitory, stopping at the door of each new officer.
