Six Survive Council Elections

Vacant Positions Filled On Tech Supreme Court

Stanley B. Dendy, senior pre-law student from Amarillo, and Claud E. Helweg, senior business student from Haskell, have been appointed members of the Tech Supreme court, Clint Formby, president of the Student Council, has announced.

Dendy is a pre-law representative and fills the post left vacant by Jerrold D. Wilson who was elected chief justice of the court. Wilson filled the chief justice's position left vacant when James Bowman of Lubbock graduated at the end of the fall semester.

Helweg represents the business administration division and replaces Francis Brockman, president of the senior class. Brockman was ruled ineligible to hold the office by reason of being president of the class.

These latest appointments bring the Tech Supreme court up to its normal strength and no more appointments are scheduled to be made this semester, Formby said.

Men's Dorms May Lose Pop Machines

Coca Cola machines will be taken out of three boys' dormitories unless a definite improvement is made as to the care of the bottles, stated Miss Mozelle Craddock, supervisor of the dormitory systems. Bottles have been broken, taken to rooms and not returned and scattered around the campus, making it impossible for the personnel employed to collect the bottles to continue with the jobs.

Miss Craddock said that it might be possible for the machines to be placed in the dining halls and be available only during the meal time periods.

Tech Is Host To Annual High School Judging Meet

Annual high school judging contest of the agriculture division of Tech will be held Saturday, April 23, announced Ray L. Chappelle, professor and head of agricultural education.

Chappelle estimated that 700 high school students from 80 different schools are to be present.

The animal husbandry department will be in charge of the judging contests in livestock, dairy cattle, poultry, crops, cotton dressing, and meats. The dairy manufacturing department will be in charge of judging dairy products. Chappelle is general supervisor of the contests.

Veteran Enrollment Shows Drop From Fall Semester

A total of 2,672 veterans are enrolled in Tech this semester, H. A. Anderson, coordinator of veteran affairs, said Monday. This is a drop of 93 from last semester.

Figures show that 2,637 veterans are attending Tech under the G.I. bill and 35 under provisions of the Hazlewood act, Anderson said. This act provides only tuition fees for veterans who have exhausted their educational and training benefits as provided by the federal government.

RED CROSS MEETS THURS.

The college branch of Red Cross meets 7:30 p. m. Thursday at the county Red Cross office, 1513 Avenue K. Mary Nell Cates, chairman, has invited persons interested in this phase of work or those who wish to become members of the organization to attend.

College Building Committee Will Schedule Construction

Added impetus will be given to Tech's \$4,000,000 long-range building and improvement program when the College Building committee meets on the campus, possibly within the next two or three weeks, to arrange a priority schedule for approximately \$1,500,000 in new construction.

Frank Junell, assistant to the president said Monday that designation of a date for the meeting is at the discretion of the committee chairman, Chanslor E. Weymouth of Amarillo, but he indicated that the group may convene perhaps within two or three weeks.

The committee, composed of three members of the Board of Directors, is expected to consider allocation of space for classrooms and offices according to needs of the various departments.

During its meeting Feb. 11-12 on

the campus, the board earmarked approximately \$1,000,000 for expansion of the buildings of the college divisions. Included in the board's allocations was an estimated \$500,000 for addition of two three-story wings to the Administration building.

A committee report on construction priorities and definite allocation of funds is expected at the April 11 board meeting in Austin. The long-range plan is designed to lead to more than \$4,000,000 in construction during the next 10 years. Major portion of the work will be financed by Tech's share of the revenue to be obtained from the college building amendment funds.

Over a 30-year period, Tech is to receive about \$7,425,000 of the amendment tax money, almost twice the \$4,004,784 total investment of present buildings.

Sale of bonds for financing the state-wide college construction program will yield \$10,000,000 to the University of Texas and \$5,000,000 to Texas A&M. The 14 other state-supported colleges and universities will receive \$45,000,000 to be divided among them on a basis of enrollment.

An advisory committee composed of one member from each of the 16 schools will plan the issuance and sale of the bonds.

Members of Tech's Building committee include: Weymouth, Leon Ince of Houston and Robert E. Price of El Paso.

Aggie Students Plan Trip To Amarillo Livestock Show

Fourteen aggie students are expected to leave for Amarillo Saturday for the Junior Livestock show to be held Monday in preparation for the Intercollegiate Livestock show in Oklahoma City, Stanley E. Anderson, assistant professor of animal husbandry, said Monday.

The practice workout in Amarillo will have all classes of livestock represented which include hogs, beef cattle, sheep, and quarter horses. Future farmers and 4-H club members will present the livestock at the show.

Dr. E. N. Jones, vice president, is to address a noon meeting of the Levelland Lions club tomorrow. He will be introduced by Dr. Doyle D. Jackson, professor of education and psychology.

Dr. D. M. Wiggins, president, is to speak at a banquet meeting of the McKinney Chapter of Commerce tomorrow night.

Improvement Program Speeds Up; Bids For Campus Paving To Be Let

Bids are to be asked for paving the parking area south of the Administration building as soon as

Continental Oil Co. To Interview Grads Friday

Mr. E. L. Mount, Geophysical supervisor with Continental Oil Co., Midland District, will be on the campus Friday and Saturday to interview June and August graduates according to Mrs. Jean Jenkins, head of the Placement office.

Mount will interview graduates in the following departments: Geology, petroleum engineering, physics, and electrical engineering. Students interested in positions of these types may schedule an appointment for interview at the Placement Service office in the Administration building.

Gettys, Trice, Gillespie Lead Field; Run-Offs Scheduled For Tomorrow

Of the twelve candidates who took out petitions last week to fill three vacancies which exist in the Student Council, not one managed to win a clear-cut majority in Monday's special elections in which only 812 students voted.

"This necessitates an election run-off for the three divisions seeking to elect a representative to the Student Council," Margaret Clark, chairman of the Student Council election committee, said Monday evening. The run-off election will be held tomorrow.

In the engineering division, Marshall Gettys, junior from Amarillo and Edward D. Campbell, senior from Center, will be in the run-offs Thursday. Gettys received 170 votes and Campbell 136.

Rehearsals Begun For Varsity Show; Casting Continues

Dramatic parts in the Varsity show "Milstones in Melody" have all been cast and rehearsals started, Bill Parsley, director of the show, announced Monday.

Dancing and singing tryouts are still continuing, but these parts are expected to be cast by tomorrow. The try-outs are being held in Ad-220.

Students winning dramatic roles in the show are Bill Wright, Gordon Hilton, Dave Fawcett, Joy Gentry, Paul Green, Jo Ann Williams, J. Simmons, Bo Harvey, Marilyn Stelle and Virginia Jones.

A meeting of all persons helping with stage props, costumes, make-up and lights will be held at 5 p. m. tomorrow in Ad-210.

New members of the stage crew are Frank Burton, lights; Dave White, head of stage crew; Roy Grimes, sound; and Ruth Cook, charge of costuming.

Starting this week the show will be rehearsed in J-206 and J-208 at 7:15 p. m. as follows:

Act I will rehearse on Mondays and Wednesdays under the direction of Bill Parsley.

Act II will rehearse on Mondays and Wednesdays with Alice Barron in charge.

Act III will be under the direction of Sunny Reed and will rehearse on Mondays, Wednesdays and Thursdays, stated Parsley.

A total of 365 votes were cast in the engineering division, making this the greatest number of votes cast in any division. Richard Gibson was also a candidate for the position.

Bill McCasland, junior from Lamesa, and Bill Gillespie, junior from Lubbock, won out over Guin E. Byars, Earl Lockhart and Margaret Klaus, in the business administration division. McCasland polled 51 votes and Gillespie 65. The number of people voting in this division totaled 182.

Seeking election from the division of arts and sciences tomorrow will be Levora Manning, sophomore from Amarillo and Roy Trice, junior from Mount Pleasant. They nosed out Joan Booth and Corine Thomas. Miss Manning received 71 votes and Trice 96. Votes in the arts and sciences division totaled 265.

The run-off election will be held in the same place as the election held Monday. Ballot boxes will be placed in the rotunda of the Administration building and in the Engineering building.

Students from the division of arts and sciences and business administration will vote in the Administration building and those from engineering will vote in the Engineering building. Voting time is from 8 to 12 a. m. and 1 to 5 p. m., Miss Clark said.

Election winners will be released for the Saturday issue of the Toreador, Miss Clark said. New members will take their oath of office at the next meeting of the Student Council at 7:30 p. m. Monday in Ad-220.

"The Student Council was rather disappointed in the small number of people who voted Monday," Clint Formby, president of the Council, stated. "We hope the student body will show more interest in the run-offs Thursday and that it will be a preview of the general elections to be held in April," he concluded.

Chapter Asks To Join American Mining Institute

Texas Tech has applied for admission to the American Institute of Mining and Metallurgy, a national honorary society of petroleum engineers and geologists, according to W. L. Ducker, head of the petroleum engineering department.

Tech's application to the national fraternity had approximately 125 names. Ducker said that this number of names, if accepted, would put Texas Tech between 12th and 13th in the national student societies.

Ducker is the society's member sponsor for the Tech chapter. Faculty sponsors are Dr. R. G. Sidwell, chairman of the geology department; Charles A. Renfro, and John P. Brand, lecturers in geology.

BA SORORITY WILL MEET

Lambda chapter of Phi Gamma Nu, national business administration sorority, will hold a meeting 5 p. m. Thursday in Ad-316, announced Mrs. Ethel Terrell, associate professor of marketing and secretary of administration.

Preparation for rush week and selection of pledges will be made at the Thursday meeting, said Mrs. Terrell. Women students with six hours of business administration may pledge the sorority. Miss Virginia Trenfield, president, stated.

SPANISH FRATERNITY TO PRESENT MOVIE MARCH 3

Sigma Delta Pi, national Spanish honorary fraternity, will present a Spanish movie, "Enamorada," at 7:30 p. m. March 3, in the Llano theatre. Miss Dorothy Golden, secretary of the foreign language department, announced.

Students and townspeople are invited, Miss Golden said. Tickets may be obtained in Ad-223, the foreign language office.

Plans For Ban On Masquerade Dances Denied By Dean Walker

By MARY FAYE BONDS
Toreador Staff Writer

Mrs. Margarette W. Walker, dean of women, Monday spiked rumors to the effect that her office would not sanction future masquerade dances and parties sponsored by different organizations on the campus.

Rumors had been circulating

Warner Peticoles To Speak At A.C.S. Meeting Tonight

Warner Peticoles, senior chemical engineering major, will lecture to the American Chemical society at 7:00 o'clock tonight. The subject of his lecture is "Accreditation of Chemistry at Texas Tech" and the purposes of the A. C. S.

Discussion of the Engineers' show will be continued, and assignments of different projects will be made. Plans are to be outlined for a week-end trip to a nearby project and a picnic.

Each old member is urged to bring one new member to the meeting.

PHI U HOLDS MEET

Alumni and active members of Phi Upsilon Omicron, national honorary Home Economics organization, held a panel discussion with the Home Economics club Tuesday night in Annex G, to accompany the club with Phi U.

Phi U members taking part in the discussion were—Misses Geraldine Clewell, Rosalyn Schreier, Sue Lynn Guthrie, Messers, Modelle May and Fred Tunnel. Mrs. Billie Caskey, instructor in child development, is faculty sponsor for the Home Economics club.

DUNLAP APPOINTED

Dean Dunlap, former Tech student from Hereford, has been appointed assistant district attorney for Potter county. Dunlap completed his pre-law work at Tech in 1942 and served in the army three years. He received his degree in law from Southern Methodist university last June.

around the campus for the past few months that Dean Walker disapproves of the masquerade dances and that she has planned to restrict activities of this type.

The dean of women said that she was "amazed" when she learned that such a rumor and similar ones were being circulated with her name attached. She stated that her rumored restrictions of masquerade dances had not been brought to her attention until lately and that "if there have been some events of this sort on the campus which have not been acceptable, as this rumor might indicate, I have not been so advised."

She further stated that she had only seen one activity of the masquerade type on the campus and that she thought it "delightful and showed much ingenuity, as well as being very acceptable and most interesting."

"If such a restrictive step became necessary to affect any social activities on this campus, the problem would be discussed first with a representative group of students and carried through the

proper committee and administrative channels", said Dean Walker.

"I believe that those students who are most interested and concerned should be given the courtesy of such a conference. Any time that restrictive decision is reached, students will be officially notified through the Toreador," Mrs. Walker added.

DORM IV HOLDS SERVICES

Vesper services were held Sunday night in the lounge of Women's Dorm IV, Miss Catherine Burkstresser, dorm counselor, said Monday.

Mary Caudle gave an introduction to the program, explaining that a number of dorm residents had suggested that services be held. They will be continued if enough women desire the program, Miss Burkstresser said.

Ellen Keffer led the singing and Janice Berry gave a devotional on "Happiness."

DORM ELECTS OFFICERS

West hall has elected officers for the spring semester and scheduled a sport dance.

New president is Scott McDonnold. Other officers include: Wilson Wells, vice president; A. J. Bishop, secretary; Arthur Thibodeaux, treasurer.

The dance is to be held from 9 to 12 p. m. March 12 in the dormitory lounge. Selection of an orchestra has not been made, Bishop said.

Newly Organized Marine Corps Unit Seeks Members

Next meeting of the newly organized Lubbock Marine Corps Reserve unit, to be held at 7:30 p. m. tomorrow in the Naval Armory on the campus, will feature the movie "West of Waikiki", officials of the unit have announced.

Under the supervision of Captain J. B. Joiner, an informal discussion was held at the unit's second meeting last Thursday night on means of increasing the membership of the organization. A committee of three including Leete Jackson, Miss Marie Miles and Billie Cragg, was appointed by Joiner to make arrangements for advertising.

Four new men were sworn into the unit at the meeting. They are Joseph J. Smith, junior business administration student, Lloyd D. Hampton, junior engineer, D. Edwin Hampton, junior engineering student and Joe F. Gaylor.

A two weeks paid training program held annually in California, the reserve retirement plan and free Marine corps correspondence courses were also discussed at the meet.

Members of the organization attending this meeting included Leete Jackson, a Tech grad; Miss Marie Miles, instructor in English; three Tech students, Riley Carlton, J. E. Joiner, Billie Cragg, and Charles Beeson; Dick Simpson, Floyd Allen, and Murray Jones.

All interested men are invited to attend the meeting tomorrow, officials of the unit said.

Eloise Fambro, 1947 Tech graduate from Breckenridge, is visiting Pat Keffer this week. Eloise works for Neiman-Marcus in Dallas.

Rush Parties Highlight Social Activities

CONVOCAION

Approximately 225 men wishing to be pledged by men's campus social clubs attended compulsory convocation Sunday afternoon in C-101, James G. Allen, dean of men, announced Monday.

At the meeting Dean Allen explained rush rules and rush captains announced dates of rush parties of the clubs.

Rush parties began with College club sponsoring a party Monday night at the Hilton hotel, followed by Silver Key club entertaining Tuesday night at the Hilton hotel. Centaur will be host to a party from 7 to 9 p.m. tonight at the Hilton hotel. Rush parties will continue through March 3 with the remaining clubs entertaining from 7 to 9 p.m. at the Hilton hotel on the following dates: Wrangler, Thursday; Los Camaradas, Tuesday; Soeli, March 2; and Kemas, March 3.

Preferential cards will be signed at a pledge convocation scheduled from 4:45 to 6:15 p.m. March 4 in C-101.

CLUB REPORTS

All campus organizations are asked to report to the office of the dean of women any changes of officers, membership, or meeting schedules for this semester, Miss June Hanson, assistant to the dean of women, stated Monday.

This information should be turned in as soon as possible, Miss Hanson said.

AWS MEET

AWS representatives are to attend the national convention April 13-17 at Albuquerque, N. M., according to Lois Cone, president of AWS. It will be decided at the next meeting who will attend. Miss Cone stated that they planned to send more than two girls to the convention if accommodations permit.

ROTC DANCE

LAAP officer's club will be the scene of the ROTC ground crew formal dance from 9 to 12 p.m. Friday, Capt. W. C. Neubauer, associate professor of Military Science, stated Monday.

Attending the dance will be the Air Force personnel, ROTC faculty, deans of the divisions, Pres. and Mrs. D. M. Wiggins, Vice

Pres. and Mrs. E. N. Jones, and Jay Flynt, military property custodian. Decorative designs are to be based on the arms and services of the three companies in the school, Engineering, Signals and Infantry. Dance music will be furnished by Earl Hubbard and his orchestra.

VISITOR

Miss Joan Conley, a Tech student last semester, was visiting friends here last week-end. Miss Conley plans to return to school next fall.

ART WORKSHOP

A meeting of the applied arts workshop has been called for tomorrow night at 7:30 o'clock in X-26 A. The meeting will be open

to anyone having a basic art course or its equivalent.

PRE-MED SOCIETY

Pre-medical society will meet March 1, in C-101, Wayne V. Ramsey, president said Monday. Plans for a spring dance will be made and a vice president will be elected.

Ramsey urges all members to be present. He also states that pre-meds who are not members are invited to attend. Refreshments will be served.

FLYING T'S

Flying T club meeting will be held at 5 p. m. Thursday, in Ad-206, Wayne Ramsey said Monday. Officers will be elected for the

spring semester and the club will make final plans for a dinner dance. Openings for ten new members are now available. Anyone interested in joining the club is invited to attend the meeting, Ramsey said.

CHURCH SCHOOL

Registration in the tenth annual cooperative leadership training school sponsored by 13 Lubbock churches will be from 3 to 5 p.m. Sunday at the First Christian church. Ralph Buey, president of the Student Religious council, said Monday. Classes will be held from 7:30 to 9:30 p.m. Monday through Friday at the church.

A course, on the world church,

is suggested for college students, and is taught by Rev. Travis White, minister of the First Christian church.

Other courses offered include: the life of Jesus, the prophets, religious home, and teaching of Sunday schools under various levels.

NEW SECRETARY

Mrs. Maryetta Ward has been employed as secretary to W. P. Clement, registrar, replacing Mrs. Fae Smith, who has resigned. Clement said Thursday Mrs. Ward is a former Tech student and previously worked in the registrar's office.

CIRCLE 8

Circle 8, square dance club, will not meet tonight due to the West Texas State-Tech basketball game, Jerry Sides, president, said Monday.

The next meeting will be at 7:15 p. m., March 10, in the gym, Sides said.

SOCL. DANCE

Displaying an orchid theme, the Sochl social club presented its annual Orchid dance Saturday night at the Lubbock hotel.

Members, pledges and their dates danced to the music of Earl Hubbard and his orchestra.

Major William Curik, club sponsor, was present as chaperon.

DORM MIXER

New residents of Doak Hall and women in Women's Dorm IV held a mixer in the lounge of the latter dorm last night, Jack Givens, president of Doak hall, said.

Guida Miller was chairman from Women's Dorm IV.

TYLER ELECTED

Truett Tyler was elected president of Sneed hall in an election held last week. T. W. Charwood, dorm supervisor, said Tuesday. Paul Knight was elected vice-president and Emery Goodin, secretary-treasurer.

Tentative plans were made for spring semester activities including intramural football and a dance, Charwood said.

SATURDAY DANCE

A semi-formal dance will be held from 9 to 11:30 p.m. Saturday, in Doak hall, Jack Givens, dorm president, said Monday.

TECHSAN WEDDINGS

WIGGINS-DUGONE

Miss Elaine Dugone and Earl L. Wiggins, both of Lubbock, were married Sunday afternoon in the First Methodist Church of Phillips.

Son of Mr. and Mrs. J. R. Wiggins of Linden, the bridegroom is a student at Texas Tech. The bride is a graduate of the University of Texas and is employed at West Texas hospital. She is the daughter of Mr. and Mrs. J. D. Dugone of Phillips.

The couple will be at home at 1077 Avenue S following a wedding trip to Carlsbad, N. M.

BRAGG-BATES

Miss Anita Joy Bates, daughter of Mr. and Mrs. Ernest L. Bates of Paducah, and Pvt. Charles G. Bragg, so of Mr. and Mrs. Cody Bragg of Tahoka, were married recently in a double ring ceremony at Alton, S. C.

The bride is a 1947 graduate of Paducah High school and attended Texas Tech, where she was a member of Las Vivas. The bride is a 1946 graduate of Tahoka High school and also attended Tech, where she pledged Soeli.

TREAT-MILLER

A double ring ceremony read Friday night in the Church of Christ, Lamesa, united in marriage Miss Billie Carrol Miller, daughter

of Mr. and Mrs. E. E. Miller of Lamesa, and Charles Gordon Treat, son of Mr. and Mrs. F. G. Treat, 1507 Arnett.

After a wedding trip to New Orleans, the couple will be at home at 1108 Twenty-third.

The bride is a graduate of Union High school, Lamesa, and is a former employee of the Lubbock City Light and Water department.

The bridegroom is a graduate of Lubbock High school and attended Texas Tech. He is now a draftsman in the office of the city engineer here.

JARRETT-REYNOLDS

James G. Jarrett and Miss Jacquelyn Reynolds were married recently at St. John's Methodist church.

Miss D'Ruth Hopping attended the bride as maid of honor. Jack Bookman of Olden served as best man.

The bride, who completed requirements for her BA degree in speech from Tech in January, is the daughter of Mr. and Mrs. C. J. Reynolds. The bridegroom also completed requirements for a degree in business administration in January at Tech. He is the son of Mrs. Stella Jarrett of Olden.

McFAYDEN-WHITEHEAD

Miss Kathryn Whitehead, daughter

of Mr. and Mrs. Alfred E. Whitehead of Slaton, became the bride of John Frank McFayden recently in a double ring ceremony at the home of the bride's parents.

The bride is a graduate of Slaton High school, attended TSCW and graduated from Tech. She is a member of Alpha Chi and Alpha Lambda Delta, national honorary societies.

The bridegroom is a graduate of NTSTC and is a member of Alpha Chi, Kappa and Delta and Pi Phi Psi.

The couple will be at home in Monahans, where McFayden is supervisor of elementary schools, following a wedding trip to New Orleans.

STILES-HENDERSON

The marriage of Miss Elizabeth Sue Henderson of Hattiesburg, Miss., to James Hooper Stiles, jr., son of Dr. and Mrs. J. H. Stiles of 3002 Twenty-second, has been announced by the bride's parents, Mr. and Mrs. Nathan Coleman Henderson.

The couple is at home at 1312 Marengo, New Orleans, Stiles, who attended Texas Tech, is a sophomore student in the Tulane university School of Medicine. Mrs. Stiles will receive her BA degree from Sophie Newcomb college in June.

How 'torchy' can a song be?

Hear Fran Warren singing—
"What's My Name?", a new RCA Victor disc
... and you'll know!

Titian-haired Fran Warren, with tears in her voice, sings a tuneful lament about love. The title of Fran's new disc, "What's My Name?", leads to another question, "What's Your Cigarette?" Fran answers, "Camel!" As Fran sings it, "Ever since I made the 30-day mildness test, Camels are my cigarette."

How MILD can a cigarette be?

**SMOKE CAMELS FOR 30 DAYS
—AND YOU'LL KNOW!**

In a recent, coast-to-coast test of hundreds of men and women who smoked only Camels for 30 days—an average of one to two packs a day—noted throat specialists, after making weekly examinations, reported

**NOT ONE SINGLE CASE OF THROAT
IRRITATION DUE TO SMOKING**

CAMELS

Money-Back Guarantee! Test Camel mildness for yourself in your own "T-Zone." T for taste, T for throat. If, at any time, you are not convinced that Camels are the mildest cigarette you've ever smoked, return the package with the unused Camels and you will receive its full purchase price, plus postage. (Signed) R. J. Reynolds Tobacco Company, Winston-Salem, North Carolina.

Disposition Of The Negro; A Problem We Must Face

What to do with the American Negro is a question few of us figure on settling until a solution is forced upon us sometime in the future.

Students at the University of Missouri last week decided of their own accord to face the problem squarely and be counted on a proposal to permit Negro students to enroll in the university with white students. The result was a 4,156 to 1,847 vote for a change in Missouri state laws regulating admission of Negro students to white schools.

A resolution was passed by the university student council after the vote. Presented to Missouri Gov. Forest Smith by three student leaders, the resolution said:

"We, the student council, propose to the state legislature that the laws of the state of Missouri be changed so as to allow qualified Negro students to enroll at the University of Missouri and other state colleges."

The resolution was qualified, however, proposing admission of Negroes only for courses where "equivalent instruction is not offered at Lincoln university." Lincoln is a Negro university located at Jefferson City, Mo.

We are not saying that the move made by these students was the proper one, or that now is the time to admit the Negro to the state-supported "white" institutions of learning either in Texas, Oklahoma or Missouri. It indicates a willingness, however, to face facts that the parents of these students and our own parents have sidestepped.

It was a typical student action, taken on the basis of theory and ideology, with perhaps less attention to the practical application of the problem. How to receive or treat the Negro once he is enrolled in the school was probably less considered than the basic idea that this nation has constantly preached equal rights and opportunity for all of us regardless of race, then failed to deliver the goods.

Whether the parents of the 4,156 students favoring admission of Negro students would have cast similar ballots is a matter of speculation. It makes little difference. It is for their children to decide the final status of the Negro.

That these children should decide to accept the Negro and live with him, rather than postpone for another generation an inevitable decision, probably shocked Missouri parents. But they and their fellow countrymen have talked the theory of freedom and equality so long they should not be surprised when the younger generation gives some indication of putting these broad principles into practice.

Building Funds Again . . .

An indication that someone besides Lubbock businessmen has doubts as to the adequacy of the controversial college building amendment is the news that Rep. James L. Norton of Nacogdoches, Saturday proposed that all State-supported institutions of higher learning be allowed to share in the permanent Texas university fund.

Norton asked that \$40,000,000 of the fund be used by 17 colleges and universities for buildings and permanent improvements. The move again gives voice to the oft repeated question: Why should the University of Texas and Texas A&M continue into the indefinite future to retain exclusive rights to the funds from land set aside for the development of a state educational system while Texas was still a young republic?

The legislator already has introduced a proposed constitutional amendment which would authorize issuance of \$40,000,000 worth of bonds, half of which would go to the University and A&M; the remainder to 14 other state supported institutions. He has announced intention of offering an amendment to divide the money proportionately on the basis of average scholastic enrollment when the resolution comes before the committee on constitutional amendments for public hearings.

We, in our naivete, have little faith in the future of the freshman congressman's amendment. The state has so freshly and emphatically taken care of 14 of her charges by means of the \$60,000,000 building amendment that other action seems unlikely.

Whatever the outcome of Norton's recent amendment, or the intention of the legislator who proposed it, the measure marks another step toward the time when an informed voting public will decide it is time to quit the antiquated practice of giving the entire inheritance to the eldest child.

THEY 'SKYLARKED' IN RANKS

Letters To The Editor

Feb. 21, 1949

Dear Editor:

During my freshman year, I was enrolled in a night class which was notable for the high quality of the instruction and the lack of interest which many of the students had for the course. Some 30 persons were in the class. Most of them had been graduated from high school the previous spring, and they had brought their adolescent antics with them to college. The other members of the class were veterans, presumably matured by their war experiences.

The conduct of a great part of the class might have been thought customary for grammar school, but in college, it was inexcusable. Some students wrote letters during the lectures. Others passed notes with clock-like regularity. One did homework for another course. Several squirmed and moved constantly, giving every indication of boredom and writing far more doodles than class notes.

When time came for the final, the patient teacher generously limited the questions to work covered during the last four weeks of the semester.

Since I took that course, I have been in a class in which I felt embarrassment because of stinging comments hurled at the teacher, who has had more educational advantages and experience than I can ever know. I have been in a class in which students in the back of the room uttered caustic remarks in voices just loud enough to be heard at the teacher's desk. And I

have been in classes in which students scribbled in their notebooks the entire hour, rarely raising their heads to look up and apparently never caring what was being said.

Because of what I have seen in classes, I feel that your recent editorial suggestion — that Tech's teachers might take a personal survey to determine how they rate with students — can well apply to us students ourselves.

We are not above reproach. Our conduct is at times infantile. Some of us throw erasers at clocks so that the hands will jump ahead and deprive the teacher of five minutes time while permitting us to be let out earlier. Others of us have descended to chalk fights which disrupted classes next to ours.

We become angry if we are given what we consider too much homework. If the teacher assigns little or no outside work, we come to think of the course as a "snap" and say there is nothing to it but going to class three times a week.

We dislike essay examinations. We want our finals cut short. If some assignments are handed in late, we offer many excuses and ask for more time, more time, more time. We enjoy starting class late. But if we are kept longer than five minutes before the hour, we are indignant.

We students need to take a survey of ourselves. We are not flawless. In asking teachers to improve, we must not forget that we can do better also.

Sincerely,
F. S.

Potpourri

Dear Pot,

"You know, old boy, I call everybody 'darling'."
"No kiddin'! And does everybody call you darling, too?"
"Why . . . yes, they do! But it's just a game I'm playing. I don't know what I'm saying, you know."
"But isn't it likely that you'll find someone else who can play the game as well as you . . . if not better?"
"Nah . . . no chance, I look at it this way: If I call everybody darling then love's gonna come a-knockin' at my door."
"Oh hell no! You got it figured out all wrong. And what's worse . . . as the years go by, you're gonna sit and wonder why nobody calls you darling any more!"
"My Gad! I never thought of that."

The Masquerader

Baby ear of corn—Mamma where did I come from?
Mamma ear of corn—Hush, dear; the stalk brought you. Some corn huh . . .

She was the type who softly murmured sweet nothing doings in your ear. . . .

Dear Pot,
ANSWER TO THE WOLF
If she pops her little quiver
In the front seat of your liver,

And says "It's pleasant by the river"
Brother, she's a wolf!
If the get-up that she's wearing
Turns your head and keeps you staring,
Cause the lengths a little daring,
Brother, she's a wolf!
If she really is bewitching,
If she kisses with a twitching,
As if her rosy lips are itching,
Brother, she's a wolf.
If she really lets you pet her,
Lets you snuggle in her sweater,
And you really think you'd better,
Brother, EE A WOLF—
E. S.

Did you hear about the illegitimate rice crispies? Snap, and crackle but no pop. . . .

Dear Pot,
Her lipstick is too bright, they say;
They heartily despise it.
And if she is all innocence
Her costume quite belies it.
They loathe the lacquer on her toes
And wonder where she buys it.
S. P.

A funny bird is the pelican
He can hold more in his beak
Than his belly can.
He can hold enough in his beak
To last him a week
I don't see how the hell he can.
GAS

Lets have some more contributions . . . POT.

By ORLIN BREWER

El Toro Grande

One brave Tech faculty member, according to latest reports, accepted the challenge thrown down by The Toreador, suggesting that teachers might profit by a personal survey on their standing with the students. This particular teacher asked the members of at least one of his classes to rate him. We have no information as to the results of the experiment, but we trust he has profited by whatever knowledge he may have garnered.

That someone is thinking about the problems of student-teacher relationships and seeking to better the "teaching," as well as the "learning" record of the coming semester, is an encouragement and a small indication of success.

It has not been our policy or intention to shift the responsibility for the great number of failures last semester from the shoulders of the students to those of the teachers. Nothing could be further from the truth. Too often the student, in his high school preparation for college work, has been able to take home to receptive ears, stories of the unfair teacher. It does our heart good to get even the slightest indication, however, that a teacher is searching for a way to improve his classroom procedure.

The idea that "liquid is gold" apparently, as many have believed, did not originate with Lubbock bootleggers. Many years ago, according to the Miami Hurricane, money was liquid. Siliphium, a rare plant of many uses, had its juices squeezed to be used by men of Italy and Greece as money. The plant was non-transplantable and harvesting was controlled by the government. When the government changed hands, the plant became extinct through neglect.

No such luck for the WCTU, however, for modern day liquid traffickers simply take their "money" underground when the government eyes them with disfavor.

At least someone is on our side in our efforts to get the jump on the building and grounds department. A brief note received after last Wednesday's column said:

"Dear Editor,
"You can get the drop on Mr. Long (George Long, superintendent of buildings and grounds) by suggesting that parking space stripes be painted on curbs in the area between the Chemistry building and the Library."

Okay friend, it's a good idea. Let's see if you fare any better than the rest of us. Personally, we're afraid to look out the window for fear we'll see a man with a bucket of paint and a brush headed for the parking lot.

A geology prof was speaking to a group of weary students as they plodded along a dangerously narrow path in a mountainous area.

"Be careful here," he warned. "It's dangerous. But if you fall, remember to look to the left. You get a wonderful view."

Tech Math Professor Typifies Versatility

Dr. R. S. Underwood—author, educator, inventor, mathematician astronomer, chess expert—is the personification of the word versatile.

It is probably the mathematics portion of Dr. Underwood's life that occupies the greatest time, if only because he is professor of that subject at Tech. But it's astronomy which rates in popularity.

The small platform located on the second floor of the Underwood home, 2220 Broadway, looks lonely without its intended telescopic equipment. The balcony was built with the explicit purpose of forming a base for Dr. Underwood's telescope, but the installation of a street light nearby made it impossible to use the instrument. So the astronomer was compelled to revert to information gained indirectly. This resulted in no decrease in interest, a fact which becomes obvious when one reads the book and numerous articles written by Underwood on the subject, not to mention that he is the only professor of astronomy at Tech.

First Book

It was in 1935 when his first such book, *Jaunts Into Space*, was published. Readable and written in a style that does not baffle the inexperienced non-technical reader, it is now used as a reference.

An 11-page article in the July, 1948, issue of *The Scientific Monthly*, with a cover photograph of Dr. Underwood, is further proof of his technical knowledge of the subject. The caption on the article, which dealt with the telescope being installed on Mount Palomar, California, read as follows:

"Professor Underwood (Ph. D., Chicago, 1930) is professor of mathematics at Texas Technological College, where he also teaches some elementary astronomy, the field of his original interest. He writes about astronomy only as an observer—with more than the usual amount of technical knowledge."

Dr. Underwood is perhaps better known as a mathematics professor and in the main, his writing has been in that field. *Living Mathematics and Analytical Geometry* were written in 1940 and 1947, respectively, in collaboration with Dr. Fred Sparks, another Tech math professor. In 1947, another mathematics volume, *Intermediate Algebra*, was written by Underwood with the aid of Dr. S. Selby and T. R. Nelson. At present, *Analytical Geometry* is in use as a text book here at Tech.

Math Articles

Many of Dr. Underwood's articles on mathematics have appeared in leading math magazines, some of

which are *America Math Monthly* and *Transactions of the A.M.S.*

But his chief professional accomplishment, even in his judgment, is the invention of the field of mathematics called "analytical geometry." The pioneer article on the subject appeared in the May, 1945, issue of the *American Mathematical Monthly* and dealt with the applications of the numbers theory.

Dr. Underwood received his B.A. at the University of Minnesota in 1916 and while working on his master's there, he was student assistant in astronomy. In 1917 he received his M.A. and went to the Yerkes observatory where he was

employed until joining the army in 1918. Discharged in 1919, he accepted a position with Purdue University as an instructor of math until Alabama Poly offered him an assistant professorship of math in 1922.

In 1926, Tech tried to draw him from Alabama, but being a man who places ethics and consideration for others before all things, he declined. The head of the Alabama math department was bedridden and would have had no one to replace Dr. Underwood. Tech repeated the offer in 1927, and he accepted. He hasn't regretted the action. He likes Lubbock because of "its

metropolitan atmosphere." But Professor Underwood's time is not altogether occupied by writing and teaching. On Saturday afternoons, one can always find the chandelier on the first floor of the Underwood home slowly swinging back and forth.

The cause? If you will take time to go upstairs, you will find Dr. A. L. Strout, Tech professor of English, and Dr. Underwood engaged in a quiet game of chess, and Dr. Strout's right foot will be softly and slowly tapping the floor. Because Dr. Strout can not refrain from tapping his foot, Underwood has been compelled to place a small

rug under it for the protection of the carpet.

This matter of chess games between Underwood and Strout has been going on for a number of years. They play their games by sets of 1,000. The one winning the most games out of each thousand is the victor. They meet approximately 30 Saturdays each year and play 15 games at one sitting, usually completing their thousand games in about two and one-half years. At present, they are on their fifth set of 1,000 games.

Boring, you say, playing 1,000 games of chess? Maybe, but then you probably are not author, educator, inventor, mathematician, astronomer, chess expert, and very little is boring to a man that versatile.

DORM PROGRAM

Prof. R. S. Underwood of the mathematics department spoke last night to the residents of Men's Dorm III on the subject of astronomy. Hilary Fry, dorm counselor, said, Underwood used slides to illustrate his talk.

Other plans for the dorm this week include a "Club 20" dance from 8:30 to 11:30 p.m. Friday in the lounge of the dormitory. Fry said, "Club 20" is the name given to the weekly small informal dances.

Children, Adults Learn Correct Speech Through Campus Clinic

By RICKEY ARCHER
Treador Staff Writer

Thirteen speech majors are now getting their first practical experience in helping students with faulty speech to talk correctly.

The clinic, conducted by faculty members and observed by students the first semester, is open for children with defective speech from Lubbock and the surrounding area. Students from four to nine years are in the majority and the range is up to thirteen. About 25 cases come from a 100-mile area.

The clinic has two parts. Thursday afternoons are devoted to young children. College students and adults with speech difficulties are helped by appointment.

Thirteen articulatory, or delayed speech, cases are being treated according to the cause and history of each case, to stimulate sound or correct faulty sounds. Social consciousness and the need for speech is developed.

Stuttering cases are taught to relax and practice stuttering with ease. They gain an objective and relaxed attitude toward the problem.

Students with hearing defects are tested for hearing and are taught lip reading if the test indicates it. Training in inflexions and more force in speech usually is needed also.

Two cleft palate cases have been given post-operative attention. Need for lessons after the operation is due to wrong habits caused by the cleft palate condition and a nasal tone developed before removal of the difficulty.

Personality is an important factor in many cases. Children subject-

ed to much teasing and who are normally shy often can make all the sounds, but refuse, or are unable, to put them into words. Confusion in handedness, resulting from being taught to do things with one hand when the other hand is natural, often accompanies stuttering and articulation cases.

College students with lisps, faulty placement of the tongue, and faulty articulation are having consultations by appointment. Any student realizing a speech defect or any faculty member knowing of such a defect are welcome to come to the speech building to discuss the problem with Miss Helen Lindell, speech lecturer who manages the clinic.

Dusters Drop ASCE, 13-12, Lead Independent League

Dusters held their place as leaders in the Independent Intramural basketball league when they defeated the ASCE 13-12 Wednesday night. Horacio Banis paced the Dusters with seven points, and Charles Woods was high-point man for the ASCE team with four points. The Duster victory was their fifth.

Pelicans downed the Anonymous Quintuplets 26-14. Jerry Thrush and Phillip Bennett tied for high place on the Pelican team with six points each. B. McCarty was top scorer on the Quintuplet team with eight points.

Thomas T Totlers rambled over the Fifth Street Ramblers 43-10. Don Cowan and Glen Lucas scored 14 points each for the T Totlers, and Ike Iverson scored six points for the Ramblers.

PE and GS edged past the Elks 19-18. H. Geidy was high-point man for PE and GS with eight markers. Top Elk scorers were E. L. Darbe and J. Smith. Each made four points.

In the Dorm league, Dorm IV Rebels edged past the Filthy Five by a score of 26-25. George Hotch-co was top Rebel with eight points. Joe Norris and Louis Rinn made six points each on the Filthy team.

Roland Drake, A. Foster, A. Kin-slow, and G. Freeman officiated in the games.

Schedule of remaining games is as follows:

THURSDAY

Pelicans vs Thomas T Totlers, 9-15 p. m.
Wesleyan Wildcats vs Anonymous Quints, 9-50 p. m.

SUNDAY

ASCE vs Anonymous Quints, 3 p. m.
Wesleyan Wildcats vs Dusters, 2 p. m.
Rebels vs Termites, 4 p. m.
Filthy Five vs Hawks, 5 p. m.

MONDAY

Pelicans vs Dusters, 7 p. m.
Anonymous Quintuplets vs PE and GS, 8 p. m.
ASCE vs Thomas T Totlers, 9 p. m.

TALENT SHOW

A get-acquainted party and talent show was held Thursday night in the lounge of Drane hall, Mrs. Norman Davis, dorm counselor, said Monday.

The program included a mock wedding given by Mr. and Mrs. Joe Buck, Mr. and Mrs. J. W. French, Mr. and Mrs. Gerald Kerbow, and Mrs. Leon Lewis. It was directed by Mrs. Robert Reynolds.

Other numbers on the program were a song and dance routine by Lara Mae Barkley and Pat Thompson, accompanied by Roberta Reynolds; a humorous reading by Jamie Reagan; "Far Away Places" sung by Betty Joan James, Neva Wise, Juanita Clepper, Gloria Nell Watson, Dorothy Elliott, and Jane Stovall, with Neta Wise as director; and a vocal solo by Billie Lollar. Leon Lewis assisted as master of ceremonies.

A George Washington theme was used in the decorations; approximately 175 persons attended the party, Mrs. Davis said.

Statistics Rate Basketeers High In Team Defense

Tech's Red Raider basketball team is ranked high in three phases of the game according to the latest release of "Official Basketball Statistics".

Ranking 30th in team defense, the Raiders have had 1,017 points scored against the team with an average of 48.4 points per game.

The team ranks 13th in the nation in free throws. Out of 323 free tries committed, 209 have been made for a per centage of 64.7. The Raiders rank fourth in the "fewest fouls committed" line. Out of the 21 games played, 313 fouls were committed, averaging 14.9 per game.

The only other Border conference team that scored was West Texas State. The Buffaloes rated fifth place in field goal per centage. The Buffs attempted 1,045 field goals, sinking 419 for a 38.1 per centage.

Fish, Odessa Tilt Slated Tomorrow Night In Gym

The Texas Tech freshman basketball team will play Odessa Junior college in Tech gym Thursday night as it winds up its season. Saturday night, the Tech fish take on the Hardin-Simmons freshmen in Abilene as a curtain-raiser to the main game. Wayland college of Plainview will invade Tech March 2.

METHODIST FORUM

Grady Singletary will lead forum, "Available Summer Activities for Students" at 7:15 tonight at the Methodist student center, Rev. Cecil Matthews, director of the center, said.

Students will meet at 7 p. m. Friday at the center for a skating party sponsored by the First Methodist church group.

Banquet Tomorrow Will Honor Gridders

President D. M. Wiggins will be the principal speaker at tomorrow night's grid banquet honoring Tech's varsity and frosh football players. The banquet, an intended annual event sponsored by the association of Former Double-T men, will be held in the Hilton hotel.

Head Coach Dell Morgan will introduce the players and present awards for the various grid achievements this season. An award will go to the man who has returned the greatest number of passes and punts for touchdowns, and to the man intercepting the most passes for the season. Similar awards will be presented the men who have made the greatest number of punt blocks and recoveries. The surprise element of the program will be the awards given to outstanding stars for the various games during this season.

Among the old-timers expected to be here for the banquet are James Harley Dallas, an outstanding track star who lettered in the 20's; Ralph Balfanz, a backfield star in the late 30's; Moon Martin, an ex-Tech end in 1932-35; Don Austin, an ex-grid man in 1941-42; and "Handsome" Ransom Walker, probably one of the most outstanding backfield men Tech has ever produced.

Any and all members of the Double-T association are expected to participate in the meeting. D. M. McElroy, secretary of the alumni and ex-students association and a former grid star for the Raiders, is to serve as master of ceremonies for the banquet program.

Guests will include the coaching staff, administrative representatives, board of directors, athletic council, men yell leaders, men of the student reception committee and their delegations.

Working with the Double-T exes as hosts will be a number of Lubbock businessmen who are staunch supporters of Texas Tech athletics.

Future Teachers Name Delegates To State Meet

Delegates to the state Future Teachers of America convention have been chosen from the TFTA club.

They are: Raymond Brigham, Anna V. Moren, Norma De Richardson, Lamonte Leddy, H. Cook, Bob Burks, Sue Blackb and Garland Bridges. First alternate is Josephine Verden; second alternate is Joy Williams. Virg Sue Smith is third alternate, Martha Lou Smith, fourth alternate.

The state convention is slated for March 19 in Abilene on the campus of Hardin-Simmons university.

New Tech members for spring semester, who will be pleased until the beginning of next semester, will be introduced at next meeting of the club, March in the Extension building.

They are: Darrel Webb, jr., Glenn L. Pat Keffer, Clint House, Mrs. Barbara Coleman, Lee Ola Hall, M. red Wilson, Mary Joyce F. Mrs. Joyce C. Stevens, Lillian Gilbert, Betty Sue Malone, John Hudson, Mrs. Mary Katherine lone.

Barbara Crosslin, Jackie Lancaster, Bill Vardeman, Joseph Whitley, Imogene Schrank, Ann Rattan, Ann Davis, Ronald R. Annie Ruth Paschal, Twila W. Peggy Strickland and Zoe Colties.

Raiders Play Final Home Tilt Tonight

Tonight's contest between the Raiders and the West Texas Buffaloes will be the final home game in uniform for six Tech lettermen. This is Don Grove's fifth and last year to letter. He is pushing for conference scoring honors with 53 points in 14 games, an average of 3.8 per game. For the season he has 300 points in 23 games and has made 34.2 per cent of his shots. From the free throw line he has 2 in 95 for a 53.3 average.

William Banks, also a leading Raider scorer with 176 points let-

tered in 42-43, 46-47, 47-48; Wayne Bowles, who has won acclaim with his free throws, trails Grove with a 65 per cent average. He lettered in 47-48. This is Ardis Barton's fourth straight year to letter. He is also a leading scorer with 148 points this season. C. W. Dukes lettered last year, and this year is James Hill's third straight year to letter. Hill lettered at Leland Stanford university in 45-46 as a naval assignee.

Tech will close its basketball season this week with an outside

chance of becoming the Border conference champion for the first time since 1934.

Saturday night the Raiders will go to Abilene for the season's final game with the Hardin Simmons Cowboys. Tech has defeated both the Buffaloes and the Cowboys previously.

Tech is trailing Arizona for the Border title, with the leading Wildcats on the road for encounters with Texas Mines, New Mexico A&M and New Mexico university early this week. If Arizona has an unsuccessful road trip, the Raiders, trailing a single game, might slip into the championship.

The Raiders edged the New Mexico Lobos 53-51 last Friday night, but the game was in doubt up to the final whistle. Despite New Mexico's loss of two men, both in the final minute and forty seconds of the game, the Lobos made it too hot for comfort.

After more than eight minutes of play, the Raiders were trailing 40-35 until Wimpy Hill went in for a crisp shot, and Ardis Barton fol-

lowed with a long set shot to make it 40-39 for New Mexico. Hill then put the game in the Raider's favor by sinking two free throws.

Don Grove followed with a hook shot and Barton sank another one-hand set shot to run the score to 45-40 with 12 minutes gone.

Ned Wallace tipped in a follow to make it 45-42 and Pablo White converted from the foul line to make it 45-43. Grove countered with a hook shot for a 47-43 lead, but Bill Weger sank a charity toss and White dumped in a long one-handed push shot that narrowed the count to 47-46.

Gibson sank a free throw and Grove followed with another after which Jiggs Jackson flipped a long set shot to make it 51-46.

Lobo Larry Hess sank a running one-hander to make it 51-48 and a minute later, Brown went out of the game for popping off to the referee, Jackson sinking the technical foul. Weger sank a foul on Jackson who broke up a crisp shot effort and a foul was called on a New Mexico substitute

who allegedly swore at the referee, Jackson sank it to run the count to 53-49.

Tech attempted to stall, but Wallace stole the ball and hooked a crisp shot with a minute left. The Raiders successfully stalled 20 seconds later and held the ball, despite the numerous fouls.

Grove had scoring honors for the night with 17 points on five goals and seven free throws, but was pressed by Weger with 15 and Wallace with 14.

Bettye Hart, June graduate of Tech, is teaching school in Anton, Texas.

Regional Basketball Playoffs Set Friday, Saturday In Gym

The best basketball teams in the 2 Class B districts of Region I, Texas Interscholastic League, will compete for the regional crown this weekend in games Friday and Saturday in Tech gym.

Back to defend its crown will be Carey, representing District 4. Last February the Carey team, not rated highly at the start of local play, scored an upset in winning after going into fourth place in the state Class B tournament in Austin.

Stratford, District 1, three times state champion, also will be on hand, sparked by another Malone, Roy. In previous years, J. W. and Sammy Malone, current stars of the West Texas State Buffaloes, led Stratford teams to state titles. The younger brother is said to be the best of the three.

Morley Jennings, tournament director, has notified district winners that seven games will be played Friday, listed at 1:15, 2:30, 3:45, 5:00, 7:15, 8:30 and 9:45 p.m., with semi-finals and finals set for Saturday.

Determination also will be made at a Friday morning session on the time for semi-final play and whether a third and fourth-place winner will be named through a consolation game Saturday night.

Jennings said admission for each session will be 50 cents for adults and 30 cents for school children. Although the tournament is being staged at Tech, student activity cards will not be honored.

Dawson county fans have said they believe the Dawson school, near Welch, will be a strong contender for the regional title. The team, known as the Dragons, won 28 games and lost one during the year for opponents.

Flower Grove, which later gave the only defeat to Dawson, was held to 8 points on Dec. 15, while Brownfield also was held to 8 on Jan. 29 and Loop got only 9 against Dawson on Nov. 30.

Dawson, coached by J. B. Williams, graduate of East Texas State Teachers college, is co-captained by Darrell Hooker, 6 foot,

3 inch center, and Bobby Miller, 6-foot guard. Teaming with these lads as starters are: Tommy Hickman, 6-5 junior, and Grady Teague, 5-8 junior, at forwards; and Sonny Weeks, 5-10 senior, at guard. All are 16 years old.

*Smoke a LUCKY
to feel your LEVEL best!*

Luckies' fine tobacco picks you up when you're low . . . calms you down when you're tense!

Luckies' fine tobacco puts you on the right level—the Lucky level—to feel your level best, do your level best.

That's why it's important to remember that LUCKY STRIKE MEANS FINE TOBACCO—mild, ripe, light tobacco that makes a thoroughly enjoyable smoke. No wonder more independent tobacco experts—auctioneers, buyers and warehousemen—smoke Lucky Strike regularly than smoke the next two leading brands combined.

Light up a Lucky! Luckies' fine tobacco picks you up when you're low, calms you down when you're tense. So get on the Lucky level where it's fun to be alive. Get a carton and get started today!

Reporter Betrays Bearded Men

By CHARLES H. SCHAEFER
Toreador Copy Editor

Swift, sure and terrible justice has been meted out to two bearded Techsians, all because this reporter betrayed them in a recent feature published in the Toreador.

The men, "Crash" Hovey and "Van" Vanderhoof, have been convicted of being "sooners," whatever that amounts to. A "sooner," as it was explained to us seems to be one who "fudges" and starts growing a beard before a given day.

These men, quoted by this writer as having cultivated beards since the first of December, have been growing whiskers in order that

Sterilizer Has Arrived In Infirmary, Says Dr. Rose

A long wished for sterilizer arrived in the infirmary this week, Dr. Embree Rose has announced. The electrically heated pressure sterilizer is a middle-sized one which requires 220 volts for operation. Dr. Rose said installation of the electric and hot water connections will probably be finished by Monday. This equipment will be used to keep sterile such things as dressings, minor surgery trays, sterile solutions, gloves and towels.

Rim, Rigor And Ritality In New Freshman's Vocabulary

Two Tech freshmen were taking a vocabulary test. One of the young ladies was very dependent upon the other for her grades. They were to use the word "rigor" in a sentence.

The first coed wrote: "With rigor and determination they set out for Alaska." She wasn't quite sure this was right but let the second coed read her paper anyway.

The second coed had written: "The boys rigor was entirely un-called for."

they might participate in the Charro Days Fiesta, to be held Feb. 24-27 at Brownsville.

Now the catch is that the rules, as laid down by the Grand Court of the Brush at Brownsville, specifically state that all citizenry not honored by special dispensation of this court must begin beard growth promptly at midnight, Dec. 31, 1948."

New Campus Power Plant In Operation Since Dec. 1

The new power plant which has been in operation since December, should partly eliminate troubles with clocks on the campus, Ray Downing, chief engineer of the power plant, said Monday. He stated that the new plant gives four times the capacity of the old one.

The new mechanism has 4,420 horse power boilers and the latest designs and equipment. The old system has 3,250 horse power boilers.

The plant also has a new substation in operation. It increases the power coming to the college from 2,300 to 12,000 volts. The electricity comes from the city to the switch gear at Tech and then goes out to the college, Downing said. The new power plant is located behind the old building.

PIERCE TO INTERVIEW

J. R. Pierce of the physical science laboratory at New Mexico A&M is to be on the campus Friday to interview graduating seniors in electrical engineering and physics for work on rocket-firing projects and developments at White Sands, N. M., Mrs. Jean Jenkins, head of the Placement office, said yesterday.

Students interested in such research, which is primarily concerned with the upper atmosphere, may come by the Placement office, Ad-205, to schedule appointments, Mrs. Jenkins said.

Two alert members of the court, Tech students John Darrel Lee and Walter Charles Crossley, read the story in the Toreador and promptly wrote to the Chief Justice of the court, C. H. Harden, Jr., asking for his advice in the proper methods of punishing the culprits. He wrote back instructing them to do their duty as loyal members of the Brownsville Brush Court and that a full report was expected.

Part of the report is quoted as follows: "Crash Hovey was warned of our approach and fled the campus, but the other, Van Vanderhoof, was apprehended easily."

"Whereupon, by the authority invested in us by you, we immediately held an informal court session and tried the villain in the proper disprocedure. In the long established custom he was found guilty on the following counts:

1. Being a "sooner."
2. Contempt of the Court of the Brush.
3. Aiding the escape of another "sooner."
4. Pleading "not guilty."
5. Overparking."

The letter went on to state that D. A. Crossley, Tech student, has been appointed the official representative to the Court of the Brush from Texas Tech.

Crash and Van could not be reached for comment.

Division Of University Funds Proposed By Representative

Under terms of a proposal to divide the \$40,000,000 permanent university fund proportionately among state-supported institutions of higher learning, Tech would receive a substantial increase in money for buildings and improvements.

Plan to split the millions among 17 colleges and universities has been introduced by Rep. James L. Norton, jr., of Nacogdoches.

According to the freshman legislator's proposal, the money would be obtained from sale of bonds backed by the fund. Half the \$40,000,000 would go to the University of Texas and Texas A&M, half to the other state schools, including Texas State College for Negroes, on a basis of average scholastic enrollment.

Norton has previously introduced a proposed constitutional amendment which would authorize issuance of bonds totaling \$40,000,000. This measure provides for the Negro college to receive building funds only by legislative appropriation.

An Associated Press dispatch from Austin quoted Norton as saying that he will present an amendment to divide the money proportionately when his resolution comes before the House committee on constitutional amendments for public hearing.

Dance School Set To Begin March 14

The annual square dance school sponsored by the women's physical education department is to begin March 14 and continue one week, Mrs. Margaret Richards, assistant professor of women's physical education, said yesterday.

Returning as instructor and caller is Jimmy Clossin of El Paso, who conducted similar classes at Tech last year.

The school will be conducted for students and townspeople, with the morning session open to everyone and the night classes scheduled for beginners and advanced students, Mrs. Richards said.

Charge for the week-long school will be \$2 and tickets are to be placed on sale March 7 at the women's physical education office in the gym, said Mrs. Richards.

NEW OFFICE STAFF

Mrs. Knight assumed secretarial duties in the Dean of Men's office Monday. She graduated from Tech in 1947 and is replacing Mrs. Argie Graves.

Bob Willis, junior B.B.A. student from Corpus Christi, replaced Newell Reed on Dean Allen's staff Feb. 1.
