

REGISTRATION TURMOIL — It was the same old story Wednesday as students went through the familiar tasks of registering for classes. Only it wasn't quite as hectic as fall and spring registration crowds as 4,200 students started the registration process and whisked through the shorter-than-usual lines. Today is the last day of registration for the first summer session.

Summer Registration Rises Toward Mark

Registration for Tech's first 1964 summer session will come to a halt today, with more than 5,000 students expected to sign up for classes.

In registration action yesterday, approximately 4,200 started the registration process, and officials termed the movement through lines "heavy and fast."

Expect Increase

No official estimation has been made of this session's enrollment, but "... we expect to surpass last summer's total of 5,141 for the first session," said Don Renner, assistant dean of admissions and registrar.

This total will come close to equaling Tech's fall registration total of 10 years ago—5,418. Last fall, 12,136 students registered at Tech.

More Students

From a nation-wide standpoint, the percentage of summer students in proportion to fall students has not increased significantly, the officials said. There are

just a lot more students going to college.

Today's registration flow was forecast to be moderately heavy in the morning hours and fairly light in the afternoon as students finished registration details.

Saturday No Holiday

Regular classes will start at 7:20 a.m. tomorrow, but Saturday will be no holiday, as students will have to meet classes then, also. According to the registrar's office, this will be the only Saturday school day for the first term.

For the remainder of the session, classes will meet Mondays through Fridays, except for the July 4 holiday. Final exams will be held July 9-10.

Second Term Begins

Second term registration will begin the afternoon of July 13, and continue all day July 14. Classes will then begin July 15, and the term will end with finals August 19-20.

Deadline for paying fees is 5 p.m. today, and there will be no late registration, according to the registrar's office.

Tech Board Okay's Budget, 'Growth' Program Approved

A preview look at Tech's future growth resulted in the Board of Directors at their meeting last weekend approving an eight-year program calling for academic advances and physical expansion on the Tech campus.

Action by the Board, headed by Manuel DeBusk, Dallas, also included the approval of a \$29,305,299 biennium budget request for Tech to be submitted to the Texas Legislature.

New Building

Expansion in mind by the Board in approving the program called for a new \$1.2 million classroom and office building to house the math and foreign languages departments. Proposed site for the new structure is southwest of the Library.

Plans for new parking lots at the West Engineering Bldg. and the new women's dorm were ap-

proved. The two lots, to cost approximately \$25,000 will provide parking facilities for more than 600 vehicles.

Install Lights

Directors also okayed plans for installing additional lighting near the Library, Tech Union, the Music Bldg. and the women's dorms on the southeast of the campus.

Academically, the Board expressed approval and gave support to plans for any Tech bids for a school of medicine, a school of library service and a school of nursing. These proposed additions to the Tech offerings follow requests already submitted to the Texas Commission of Higher Education for a school of pharmacy and a law school.

Budget Breakdown

Breakdown on the budget for 1966-67 includes a request for \$14,-

448,329 for the first half and \$14,-856,970 for the 1967 operating budget. Tech is presently operating under a budget of approximately \$22 million, covering the 1964-65 biennium.

Approximately 64 per cent of the budget is to be allotted to teaching funds.

'No Review'

Chairman DeBusk commented that no review is planned of the Board's proposed "Texas Tech University" as a new name for the school. The Board is scheduled to present the request for the name change at the next legislative session.

The Board also approved a resolution supporting the decision of Tech President R. C. Goodwin to cancel the speaking engagement of Socialist Peter Valdez on the Tech campus.

Peter Sellers and Sir Alec Guinness, will be aired June 26.

Jam sessions for the summer include "The Sparkles" in Union Snackbar, June 6; "The Raiders" will play in the Coronado Room July 13. The sessions are from 8-11 p.m. Admission is free.

There will be exhibits by the Applied Arts staff, including painting, sculpture and crafts throughout the month of June.

In July there will be selections for the West Texas Museum, showing scientific, historic and art objects.

Campus Prepares For Future

New Dorms, Buildings Brighten Tech Scene

Texas Tech will have room for 1,862 more students in its campus residence halls next fall.

Four new halls, among the most elegant in the nation, will open with the fall semester, September 14. Two will house 1,054 men, and the other two, 808 women. All four are air-conditioned.

The Texas Tech residence system then will have 19 halls housing 7,147.

Typical are the two new halls for women. Connected by a central lounge and a dining facility, the halls are designed in a Spanish modern motif.

Contains Fountains

The lounge includes quarry tile floors, marble columns, patterned stone, walnut paneling and two fountain and pool areas.

Each room has a telephone and two desk units, including book shelves, tackboard and reading light. In addition to ample storage space, furniture in the room is built into the construction to make housekeeping easier. Only movable objects are desk chairs and mattresses.

Loans Being Repaid

The new halls are made possible by government loans which are being repaid by hall residents.

Rooms are still available in the Texas Tech halls, but reservations should be made as soon as possible to assure a place in them, Hubert Burgess, supervisor of room reservations, said.

The new halls are just part of more than \$10 million in new construction being completed this

year at rapidly-growing Texas Tech.

Academic facilities completed this spring include a new Psychology Building and a new University Theater and Speech and Hearing Therapy Center. Combined cost is more than \$900,000.

Four Floors

Ground floor of the new Psychology Building contains a Testing and Guidance Center, Psychology Clinic and administrative offices. On the second and third floors are laboratories and computing facilities, classrooms and offices.

Animal laboratories are located on the fourth floor, while a workshop for creating and maintaining laboratory equipment is in the basement.

Other Lubbock campus facilities due for completion this year include a Central Food Facilities Building, Consolidated Dining Room for West, Sneed, Gordon and Bledsoe Halls, and an addition to the Texas Tech Bookstore.

A new Classroom and Office Building is planned for 1967 and an addition to the Student Health Service is scheduled for completion in 1965.

None Too Soon

None of these facilities will come too soon as Texas Tech is expecting more than 13,000 students next fall, 15,000 by 1965, and more than 20,000 by 1970.

Last fall it was the third largest state-supported college or university in Texas, with 12,036 students.

Union Schedules Variety Of Films, Dinner Meets

Tech Union entertainment offerings for the summer session range from luncheon discussions to movies.

Western Classics Film Festival (beginning June 14) will be a program featuring the world's greatest westerns.

Movies to be shown are "The Great Train Robbery," June 14, "Stagecoach," June 15, "Broken Arrow," June 16, "Shane," June 17, "High Noon," June 18 and "Duel in the Sun," June 19.

All showings will be at 4 p.m. and 8 p.m. in the Speech Theater. Admission is 25 cents per person.

Luncheon Meets

Luncheon discussions will include "Isma in the Contemporary Arts," given by Dr. Gene Hemmle, head of the music department, June 9.

"America's Quarrel with the 20th Century" will be given by Dr. Timothy P. Donovan, associate history professor, June 23.

A panel discussion, "Liberal Religion," will be presented by panel members Houston Hodges, Ralph Macy, Dr. Arthur Draper and Dr. Wingred Steglich on July 7.

Discussions are from 12:15-1:30 p.m. in the Union Blue Room. Anyone planning to attend should sign-up at the Union newsstand by 10 a.m. the day of the lecture. Admission is \$1 for a buffet style dinner.

Movies Shown

Movies to be shown are "Captain Lightfoot," starring Rock Hudson, Barbara Rush and Jeff Morrow on June 12.

"The Lady Killers," starring

Army ROTC Rifle Team Wins Intercollegiate Match

The Army ROTC rifle team rang up a significant "bull's eye" by taking first place in the Fourth Army Intercollegiate indoor match which was completed recently.

Tech's team bested representatives from major colleges and universities in Texas, Oklahoma, New Mexico, Arkansas and Louisiana, scoring 2,606 points out of a possible 3,000.

SSgt. Howard B. Alderman, team coach, said that the team

placed sixth nationally last year and first in the Fourth Army area. Team members include seniors Robert Taubert of Wichita Falls and David Pummill of Dallas; junior Charles Hamilton of Lubbock; and sophomores Bernard Funk of San Antonio, and William Salmon Jr., of Lubbock.

Also on the team are freshmen Autrey Bardin of Dallas, Billy Poote of Lubbock; William Sharp of Dallas; Edwin Cox of Muleshoe; and Robert Marberry of Lubbock.

Two Tech Graduates Receive Geodetic Survey Commissions

Walter S. Simmons

Ellis G. Campbell

Two recent Tech graduates — Walter S. Simmons and Ellis G. Campbell—were commissioned as ensigns last week in the Coast & Geodetic Survey, a branch of the Department of Commerce.

Simmons, a Floydada civil engineering major, received his B.S. degree earlier this year, while Campbell, from Dallas, graduated in 1963 with a B.S. in civil engineering.

Both men received their commissions at graduation ceremonies of the 14th Officers' Training Class at the Survey's Atlantic Ships Base in Norfolk, Va.

As his first assignment, Simmons will serve aboard the C&GS ship "Pathfinder." Campbell will be assigned to either the "Wainwright" or the "Hilgard," both wire drag ships.

Formed in 1807, the Coast and Geodetic Survey is the nation's oldest scientific body and the chief civilian oceanographic agency.

The Survey oversees the operation of a worldwide network of seismographs which, when completed, will include 125 stations in 63 countries. The agency also provides geodetic, geophysical, photogrammetric and cartographic data for charting and scientific purposes and for defense needs.

It also produces and distributes more than 28 million aeronautical and nautical charts each year and does extensive work in research and development.

Cadets Rated 'Outstanding'

Texas Tech's Army ROTC cadets were rated "outstanding" in their 1964 annual general inspection, according to Col. William M. Brown, professor of military science.

The rating is the highest the unit has received since 1962. In its report the three-man inspection team complimented the unit for a proposed counterterrorism course, which is scheduled to begin during the fall semester, and for the overall support received by the ROTC program at Tech.

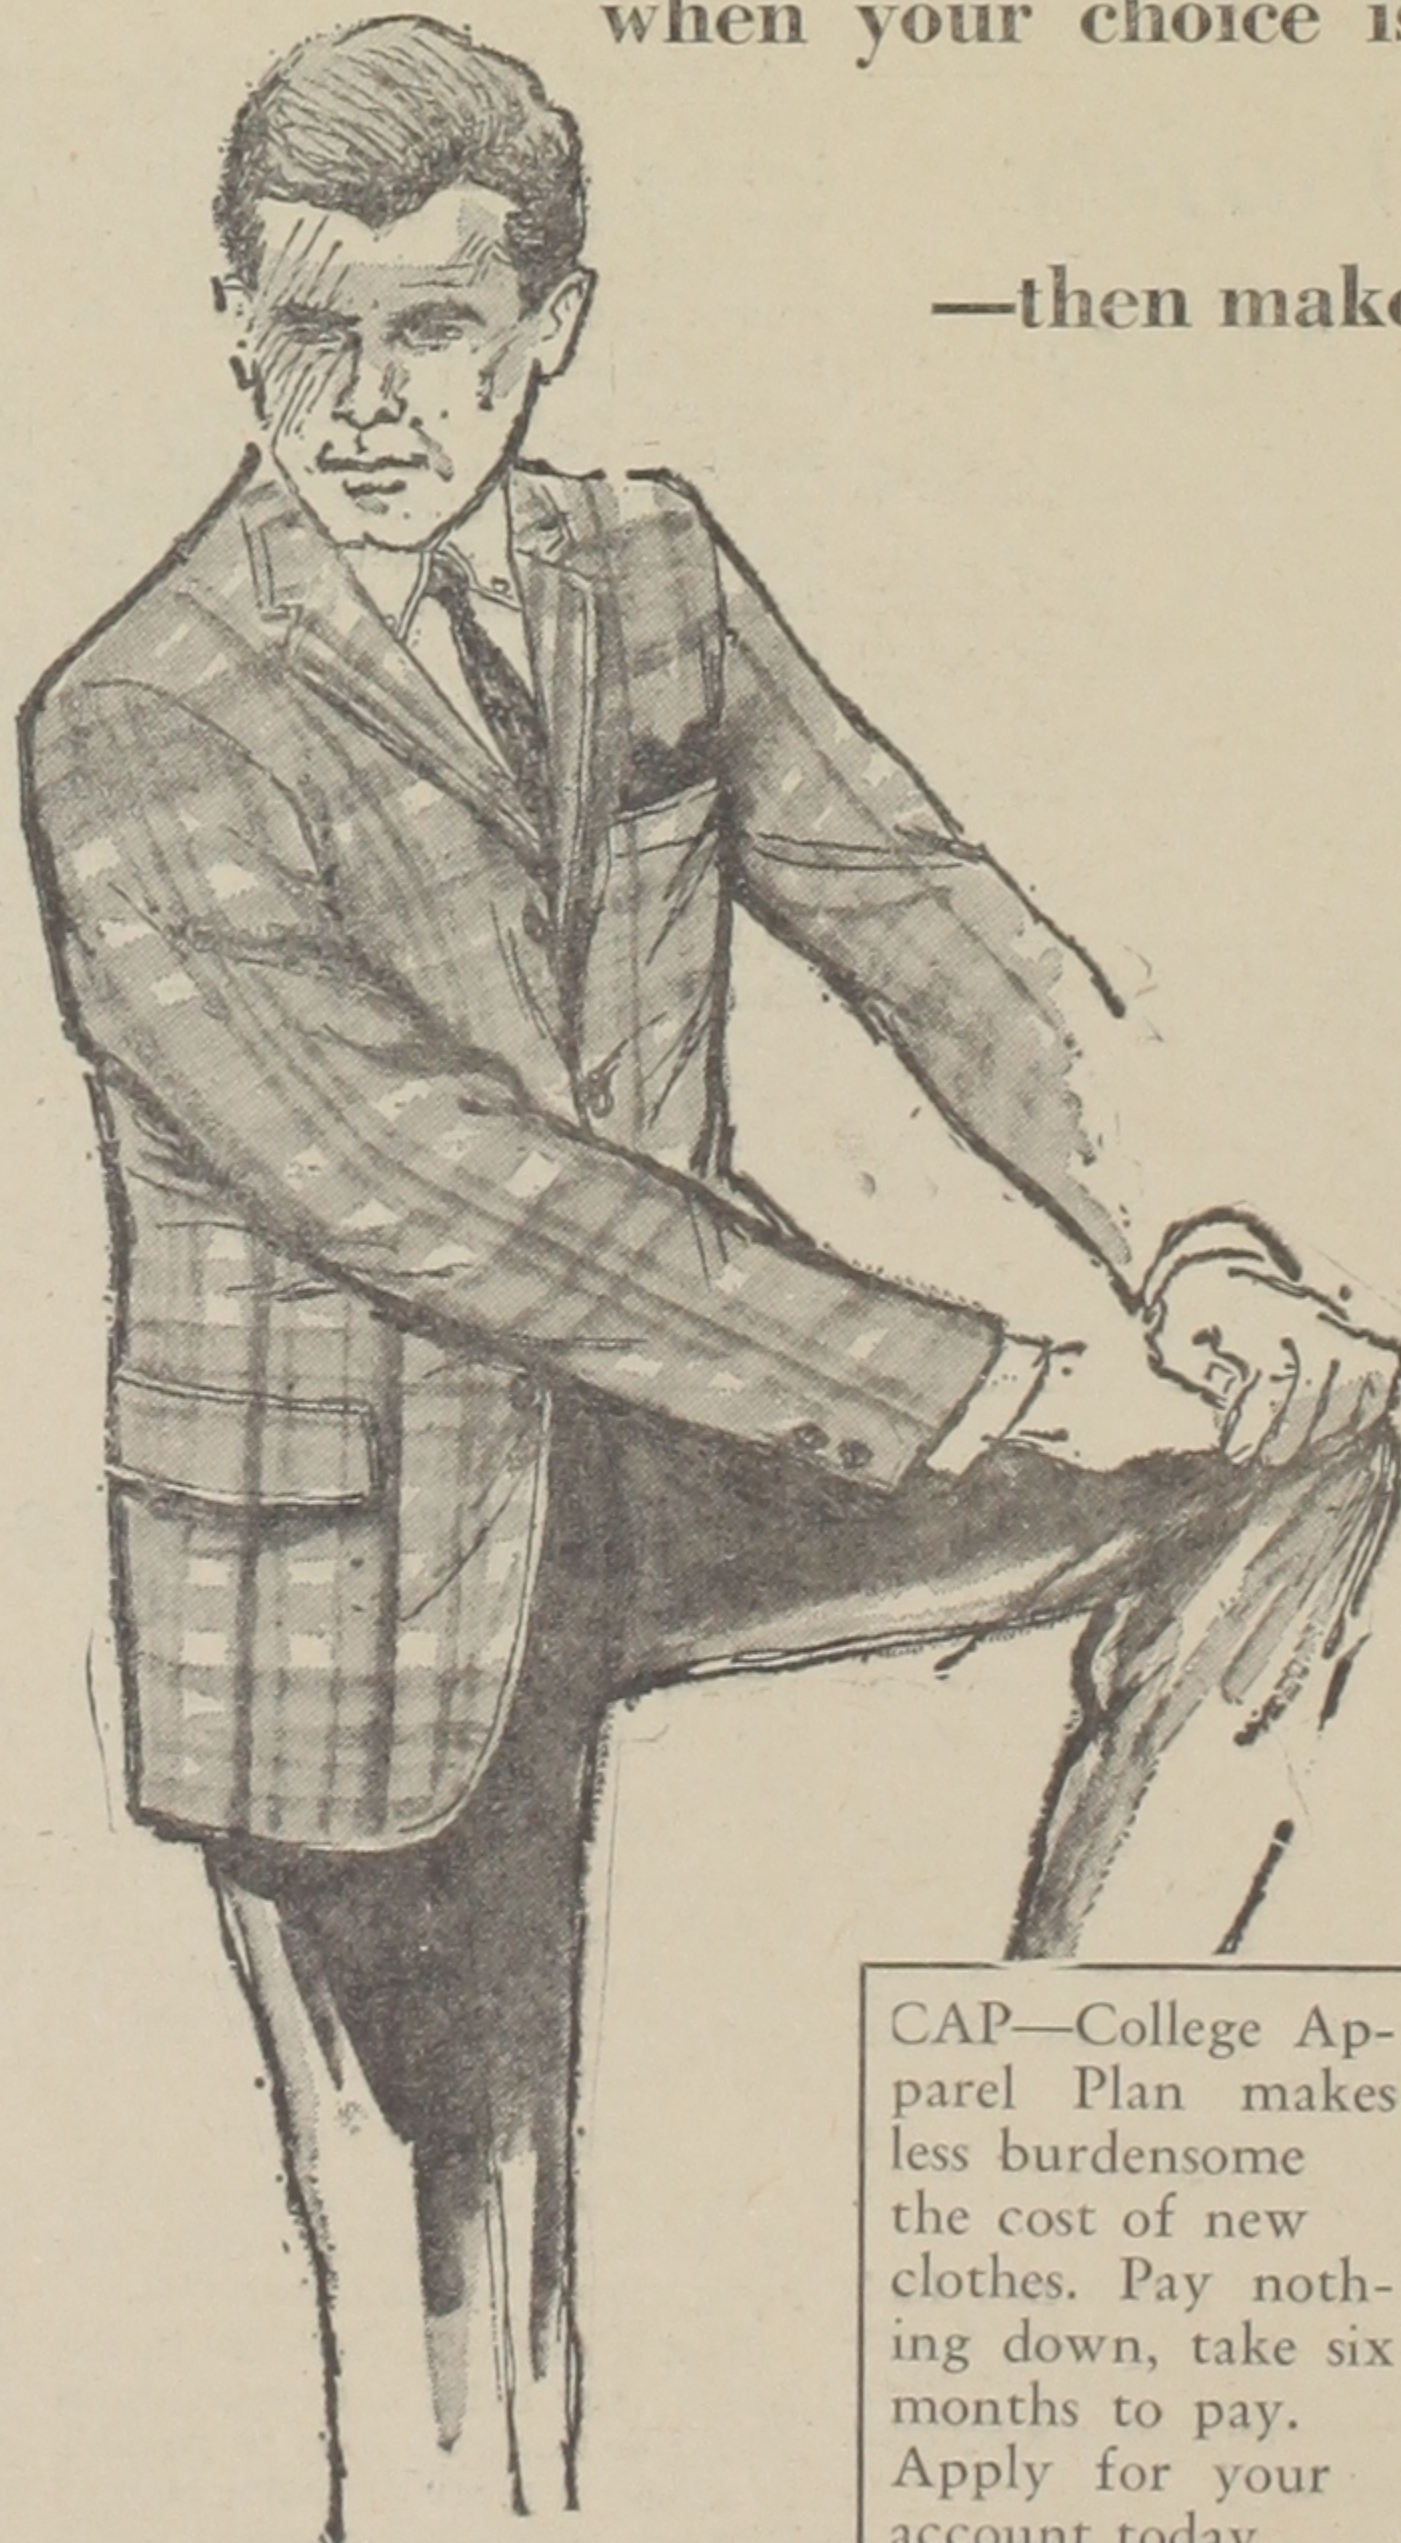

Welch Receives Wildlife Grant

Tommy Welch, an agronomy and range management major from Seagraves, has been named winner of a grant from the National Wildlife Federation.

The grant is to finance study toward a career in resource conservation. The Tech junior was one of five undergraduates from universities across the nation to be selected to receive this grant.

Tech Hosts Cheerleaders

More than 250 students have enrolled in Texas Tech's first annual Cheerleaders School with almost a month to go before the deadline for registration, according to Edsel Buchanan, Tech intramurals director.

Students from Oklahoma, New Mexico and throughout Texas have signed up for the school, scheduled August 2-7 on the Tech campus. Deadline for registration is July 1.

Program Listed

Open to junior high, high school and college students, the summer cheerleading school will include sessions in sportsmanship, novelty yells, boosting school spirit, crowd psychology, demonstration of yells, stunts and skits, footwork routines, tumbling and new yells, songs and chants, cheerleading techniques and planning pep rallies.

The participants will be housed in Tech residence halls, under the supervision of trained and experienced personnel at all times, Buchanan reported.

NCA Staff

The staff for the school will be supplied by the National Cheerleaders Assn.

Coed Wins Grant

A Texas Tech sophomore, Miss Linda Sue McSpadden, Tulsa, Okla., has been awarded the annual Mary W. Doak scholarship by Delta Kappa Gamma, professional teachers sorority.

Miss McSpadden is an English major at Tech, with a 3.83 overall grade point average out of a possible 4.0.

The scholarship to Tech is in the amount of \$100.

Total cost of the school is \$44.50, which includes five nights lodging; food service from the Monday morning breakfast through the Friday morning breakfast; medical care at the Tech Infirmary and the cost of instruction.

Deposit Required

A deposit of \$19.50 is required

of participants when they register. No deposits will be refunded after the July 1 enrollment deadline.

Applications or additional information may be obtained from Buchanan, Intramural Gym, Texas Tech.

Fullbright Grant Sends Graduate To Argentina

A Texas Tech graduate of 1954, Richard Strout, has been awarded a Fulbright grant to Argentina to do research for his doctoral dissertation in government.

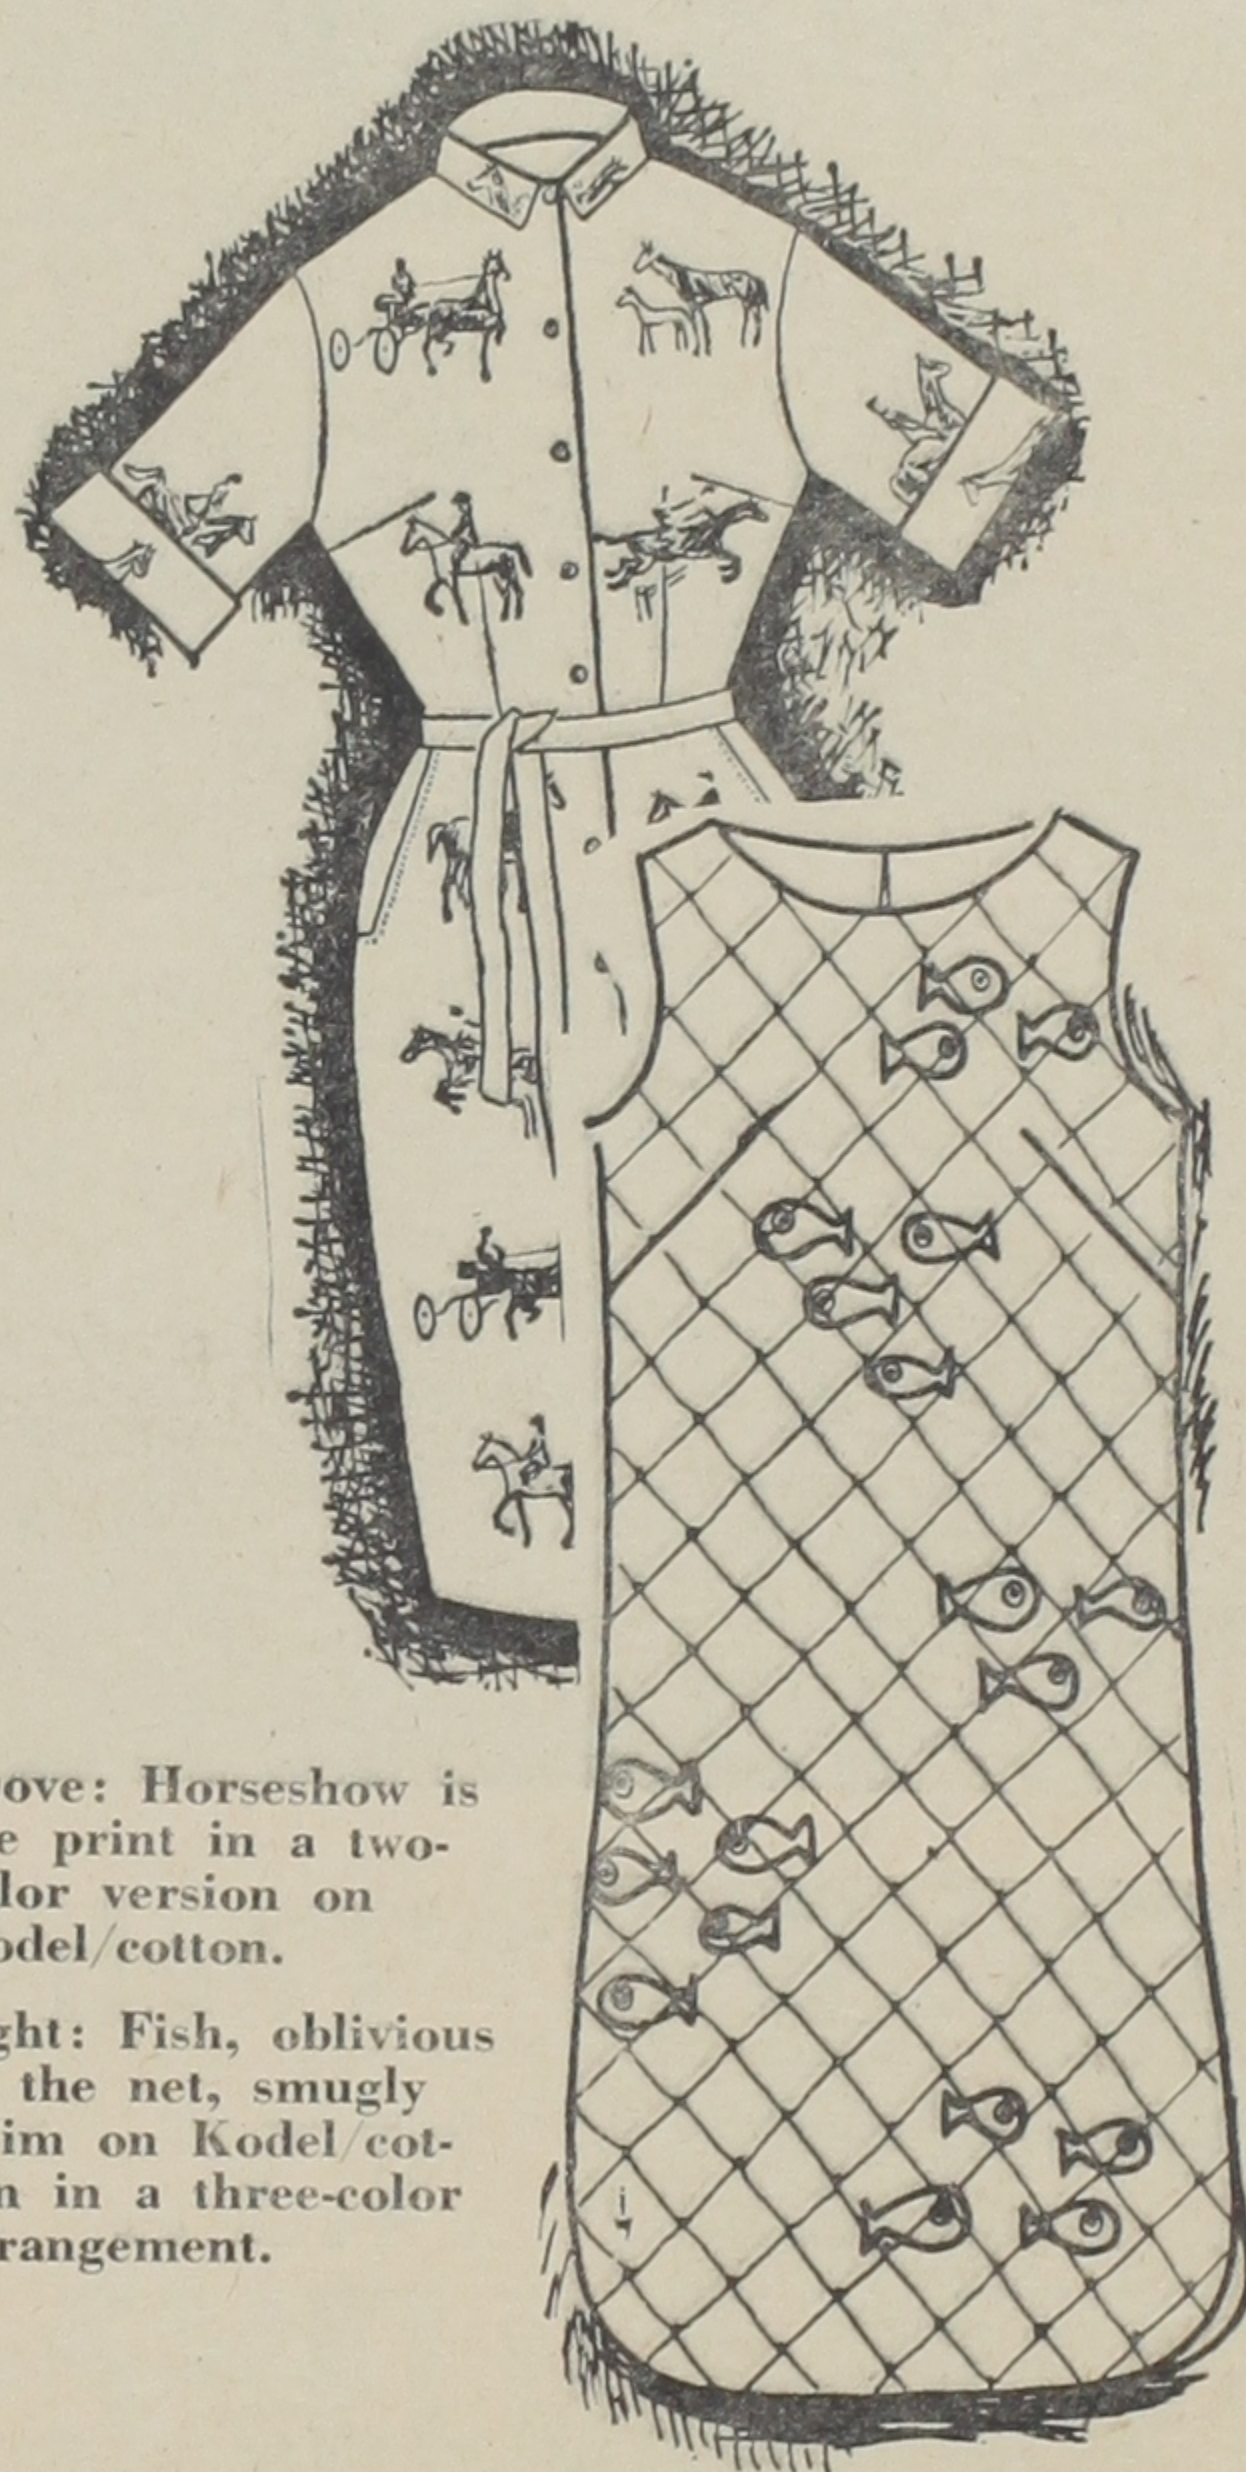

Strout, son of Tech faculty members Dr. Alan Strout and Mrs. Strout, will do work on studies of one of the Argentine political parties.

Strout received his B.A. degree in government from Tech, the M.A. degree in government from the University of Texas, and is now completing work on his Ph.D. degree at the University of North Carolina.

He is married to the former Lilia Dapaz, an Argentine native who has been studying in North Carolina on a Fulbright grant to this country. She is currently in Argentina, where she will be joined by Strout in July.

Tech Singers Tour N.Y., World's Fair

Gene Kenney . . .

The Texas Tech Choir gave a Fair performance. The above sentence is not a comment on quality; in response to an invitation choir director Gene Kenney received earlier this year, the choir gave concerts Sunday at the World's Fair in New York City.

The performances at the Fair climaxed a whirlwind tour through Washington D.C. and New York where the choir gave five concerts in six days.

Small but enthusiastic crowds marked each of the performances. A television announcer for the Radio Corporation of America who made a video tape of the program remarked to a bystander, "It's the most fantastic sound I've ever heard; it's unbelievable!"

The six days of singing and sightseeing began May 27 when the chartered plane left for Washington. The choir gave a concert there and at New York's Town Hall in addition to those at the Fair.

other things to remember . . .

Construction Begun On Dining Facilities

Construction has begun at Texas Tech on the new consolidated dining facilities for four Tech residence halls.

The consolidated dining hall, being annexed to Bledsoe and Gordon halls, will serve students from West, Sneed, Bledsoe and Gordon. Completion is scheduled this fall.

Cadets Donate Television Sets To Infirmary

Cadets of the 820th AFROTC Wing at Texas Tech have donated three new television sets to the Tech Infirmary. Donation of the sets grew out of a blood drive sponsored by the Arnold Air Society, an honorary society within Air Force ROTC.

Tech Air ROTC cadets donated almost 175 pints of blood for use by Tech students, their dependents and faculty members and their dependents in emergencies. The cadets decided to "cash in" a portion of the money the donated blood represented and present the Tech Infirmary with the television sets. Until this donation, the infirmary had only one television set available for use by hospitalized students.

Cadet Lt. Col. Robert S. Klinger of Lubbock, blood drive chairman, said that plenty of blood remains in the blood drive fund to assist any Tech student or faculty member or their dependents needing blood.

The consolidated facility will have 14,000 square feet of new space and 13,000 square feet remodeled. It will be air-conditioned, have a seating capacity of 550, and be able to serve 22 students a minute.

The present dining facilities of the four halls are currently serving 1,345 students three meals a day.

The new facility will serve next year's students from the four residence halls in about one hour at breakfast, an hour and 15 minutes in the evening and about two hours at lunch time.

According to Tech's director of residence halls, Guy Moore, the purpose of consolidating the facilities is to give a more economical food service, by feeding larger numbers.

To Cut Costs

He added that Sneed, West, Bledsoe and Gordon are among the oldest halls. Consolidating will enable the College to modernize the facilities and equipment and still cut costs to students.

Moore estimated the cost of the annex at approximately \$600,000. New cafeteria chairs and tables will be purchased in addition to the remodeling and construction.

Stair towers will be built on two ends of Sneed and West to give students ready access indoors to come to the food service area.

Construction began earlier in the year on the new Central Food Storage Building, designed to save thousands of dollars in food expenditures for Tech residence halls through economies in the purchase and preparation of food over a period of time.

Robert C. Moore

Tech Ex Gets AEC Law Job

A Texas Tech graduate has been named recently to the legal staff of the Chief Counsel for the Chicago Operations Office of the U.S. Atomic Energy Commission.

Robert C. Moore, who received a B.B.A. degree in marketing from Tech, has been licensed to practice law in the State of Texas and recently passed the Bar examination of the State of Illinois.

He also attended Texas University, Austin, from which he received an LL.B. degree.

Moore served as a lieutenant in the U.S. Navy from 1956 through 1959.

Moore, a resident of Naperville, Ill., is a member of Sigma Alpha Epsilon and Phi Delta Phi fraternities.

For June, July

Music Camp To Open

Texas Tech's Department of Music will sponsor the annual Summer Music Camp for high school, junior high and elementary students during weeks in June and July on the Tech campus.

The high school division, for band, chorus and orchestra, is set June 8-19. Junior high and elementary school divisions will be June 22-July 3 for band, and July 6-17 for chorus and orchestra. The keyboard division will be June 22-July 3.

Applications Available

Applications are now being accepted on a first-come, first-serve basis. A \$5 deposit is required on tuition and a \$20 deposit is required for students who will be living in Tech residence halls. Tuition for the high school and junior high di-

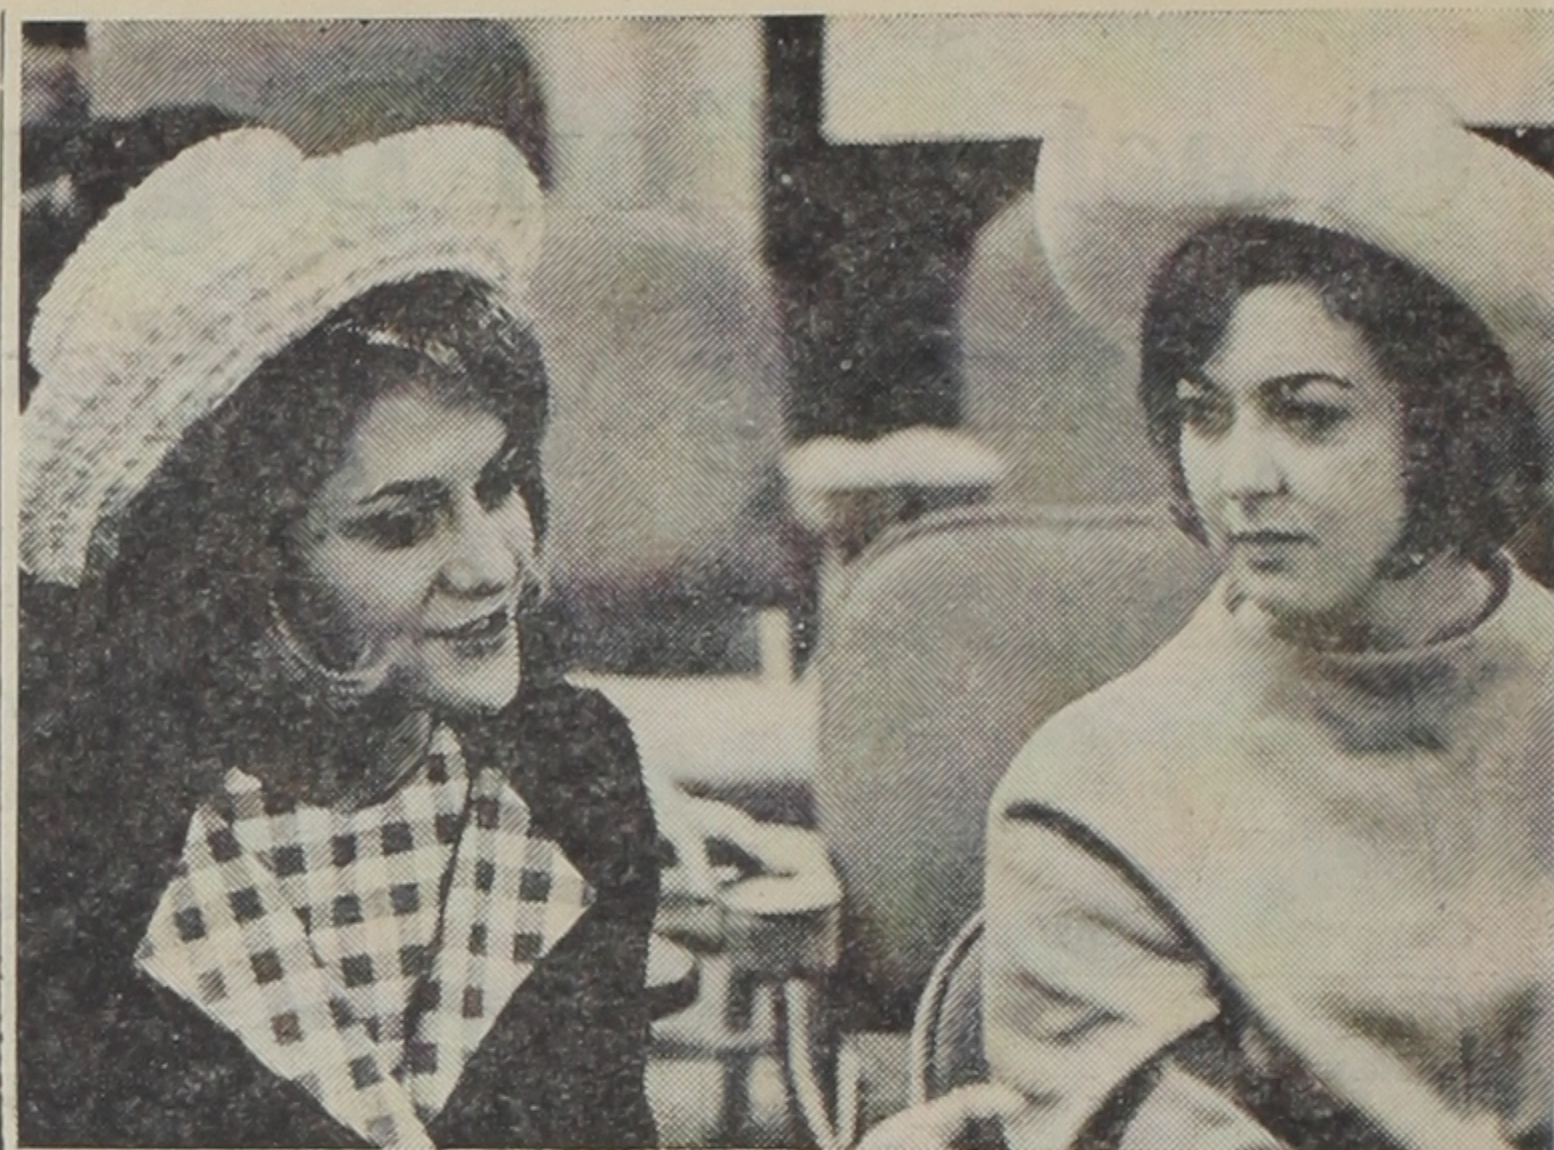

visions is \$20 a student, plus a \$1 health fee. Room and board in Tech residence halls is \$65 for men and \$70 for women.

Classes meet from 9 a.m. to 4 p.m. daily. Supervised recreation after classes will include swimming, recitals, picnics, movies and games.

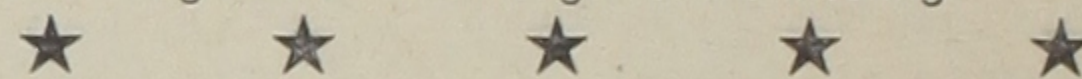

Tuition for the elementary string division, which meets only half day on weekdays July 6-17, is \$10, plus a \$1 health fee.

Killion, Kenney Direct

In the high school division, Dean Killion of the Tech music department will be director of band activities, with Gene Kenney of Tech, director of chorus, and Paul Ellsworth of Tech, director of orchestra.

COEDS IN CHICAGO — Texas Tech coed Lynn McElroy, Lubbock (right), listens intently as her colleague Becky Parker, Sabinal, makes a point during meeting of Sears College Fashion Board. The two collegians were well versed in the fashion interests and needs of college students and their comments impressed the many Sears executives gathered in Chicago for the meeting.

IN CHICAGO

Coeds Participate On Fashion Panel

Two Texas Tech coeds recently spent two days at the national headquarters of Sears, Roebuck and Co. in Chicago where they participated in a seminar on college fashion.

Becky Parker, Sabinal, and Lynn McElroy, Lubbock, along with two seniors from the University of Oklahoma, were members of a collegiate panel which met with Sears merchandising executives from all parts of the country.

During the meeting, the students expressed their views on style trends and preferences among college undergraduates in general and Southwestern collegians in particular.

While in Chicago the panelists were hosted by Robert H. Anderson, Sears assistant vice president for retail merchandising. They also met with the company's chairman of the board, Austin T. Cushman visited a number of fashion buying departments and inspected the Chicago Catalog Order Plant and local retail store facilities.

R. C. Arthur, manager of Sears Lubbock store, made arrangements for the two Texas Tech coeds' participation in the panel.

Baylor Drowning In SWC 'Drought'

Associated Press Sports Feature

A Baylor partisan, with tongue in cheek, said "We don't want to win a championship; if we did we would lose all that publicity."

What he meant was that Baylor's long drought in Southwest Conference football—it reaches 40 years next fall—had furnished the main topic of discussion and if the Bears should win a title that would stop.

Keep Chins Up

Of course, Baylor followers had rather the publicity cease on losing but they have to keep their chins up and make the best of the situation.

Texas A&M has gone six years now not only failing to win a championship but also not even winning half as many games as it lost. The record for the six years is 17-38-5.

Folks have started pointing to the Aggies as one of the losingest schools in conference history. But did you know that A&M has the top victory record of all the conference teams?

Win 19 Straight

Back in 1939-40 the Aggies won 19 straight games. They also have the second best winning record—18 in a row in 1919-20. Also, in 1956-57 they won 14 straight.

Texas, which has just finished winning the national championship cannot equal the Aggies' second best record. Texas has 15-0 as its top showing.

Texas Christian has a 14-game streak, Southern Methodist 13.

Optimistic View

Which all leads up to what can be expected at Texas A&M this fall. They're on the optimistic side. The reason is that there are 24 lettermen, 15 of them seniors; some speed finally has come to the A&M gridironers, and Coach Hank Foldberg believes he has come up with a good passer—something he has needed most of his two seasons at Aggieland.

The thrower is Dan McIlhany, who is due to be the starting quarterback next season.

But on the Aggie roster, with little being said about it, is a lad named Joe Weiss, a 6-4, 205-pound quarterback shifted to fullback.

Joe might not get to play much this fall, since there are three experienced men ahead of him and he might be red-shirted, but Foldberg is leaning more every day toward using Weiss now.

If a winning tradition means anything Weiss is the fellow to get the Aggies rolling.

Weiss quarterbacked the most famous high school football team in the nation. It was at little Pflugerville, a village of 400 near Austin. He was the spark of the team through much of a mighty surge to 55 straight victories. That is the national record and should stand a long time.

Looked Good

So Joe Weiss, who isn't accustomed to losing, went to Texas A&M. He looked good with the freshmen although he couldn't lead them to total victory as he had his high school team. But they were strangers to him at first; it was-

n't like playing with the kids you were raised up with.

It may be 1965 before Weiss tries his hand at putting over the Aggie varsity but it's a safe bet that Joe will either have them winning or know the reason why. Foldberg might like to find out sooner.

STEGLICH HEADS CLUB

Dr. W. G. Steglich was elected president of the Texas Tech Faculty Club last week. He succeeds Dr. Reginald Rushing.

Other new officers are Dr. Keith Marmion, vice president; Mildred Bettencourt, secretary; Raymond Green, treasurer and Dr. Paul Woods, publicity director.

New directors serving two-year terms are Clyde Prestwood, Dr. Richard Dudek, Dr. John Ryan, Lewis Eggenberger, and Dr. Harley Oberhelman.

Texas Threatens Conference?

By Harold V. Ratliff

Associated Press Sports Writer

There seem to be more people who know nothing about what the University of Texas has in mind than were ignorant of anything ever projected before.

This refers to the succinct statement that Texas would study its athletic policies and membership in the Southwest Conference.

The board of regents gave an explanation, but obviously enough leaked out that some conclusions might be drawn. These conclusions indicate:

- That the University is resentful that it was placed on probation for violating the recruiting rules.

- That it thinks its opponents are trying to take advantage of legislation that might hamper its athletic operation.

- That it may force a showdown with the threat of withdrawal from the conference and formation of a new, so-called "super conference" that apparently would encompass state schools.

Main Gripe

Attempts to limit the number of athletic scholarships seem to be the more likely bone of contention. One unnamed regent was

quoted as saying the university didn't like for the others to try to place it at a disadvantage.

Just how placing a limit on athletic scholarships would put the university at a disadvantage isn't explained. The limit would apply to all and the objective would seem to be to cut expenses—for all—and prevent the more opulent schools from signing more athletes than they need.

SWC Would Lose

If Texas is instituting a power play, as some hint — that is, trying to make the others come to terms — the Southwest Conference would stand to lose either way. If Texas left the conference it would be a blow but keeping Texas and letting it dictate what was to be done wouldn't be very desirable either.

Texas, of course, is the big draw — the school that puts the crowds into the stands. It has enough ex-students that it will have a crowd no matter where it plays, or even if it isn't winning. But Texas profits from the big crowds, too.

Smaller Scale

The conference could operate without Texas but of course on a smaller scale. If Texas, Texas

A&M and Arkansas went together in the formation of a new conference, there are some pretty good substitutes that appear available. North Texas State is ripe for membership. Houston certainly would be an excellent member. Then there are Texas Western, Arlington State, Lamar Tech and West Texas State.

Just who made the outline of the new conference isn't exactly known. But the names projected were Texas, Texas A&M, Arkansas, Texas Tech, Louisiana State, Oklahoma, Alabama and Houston. Strangely, none of these schools, except possibly Texas, seem to know about it.

Davis Comments

For instance, Dr. J. William Davis, Texas Tech's faculty representative, says no one has even mentioned it to his school and he wonders if there is any substance to the report. Moreover, Texas Tech wouldn't be interested anyway. Tech wanted in the Southwest Conference, worked 30 years to make it and, since it has what it went after, is quite satisfied.

Independent Houston, of course, would be interested — if somebody

told it — since it has been shunted by the Southwest Conference. Texas, incidentally, was one of the schools that voted against expansion of the conference, thus closing the door to Houston.

Texas Indignant

Texas, it seems, is indignant over being penalized for violating the recruiting rules — that is, by probation. It might have let it pass had there been nothing but a reprimand.

Texas was charged with violating more rules than Southern Methodist, which got a two-year sentence and was banned from post-season games. Texas was allowed to continue unrettered. Obviously, SMU was given a tougher penalty because its offenses were looked upon as more serious.

But imagine the howl that would have come had Texas, the national champion, not been penalized at all while Southern Methodist was given the works.

'Mural Program Opens Summer Competitions

With barely a pause from a busy spring schedule, Tech's Intramural Athletics program shifts into high gear next week for the summer sessions.

Under the direction of Edsel Buchanan, the intramural program will offer male students a variety of sports to compete in.

These sports include scratch bowling, trampoline, swimming, softball, table tennis, horseshoes,

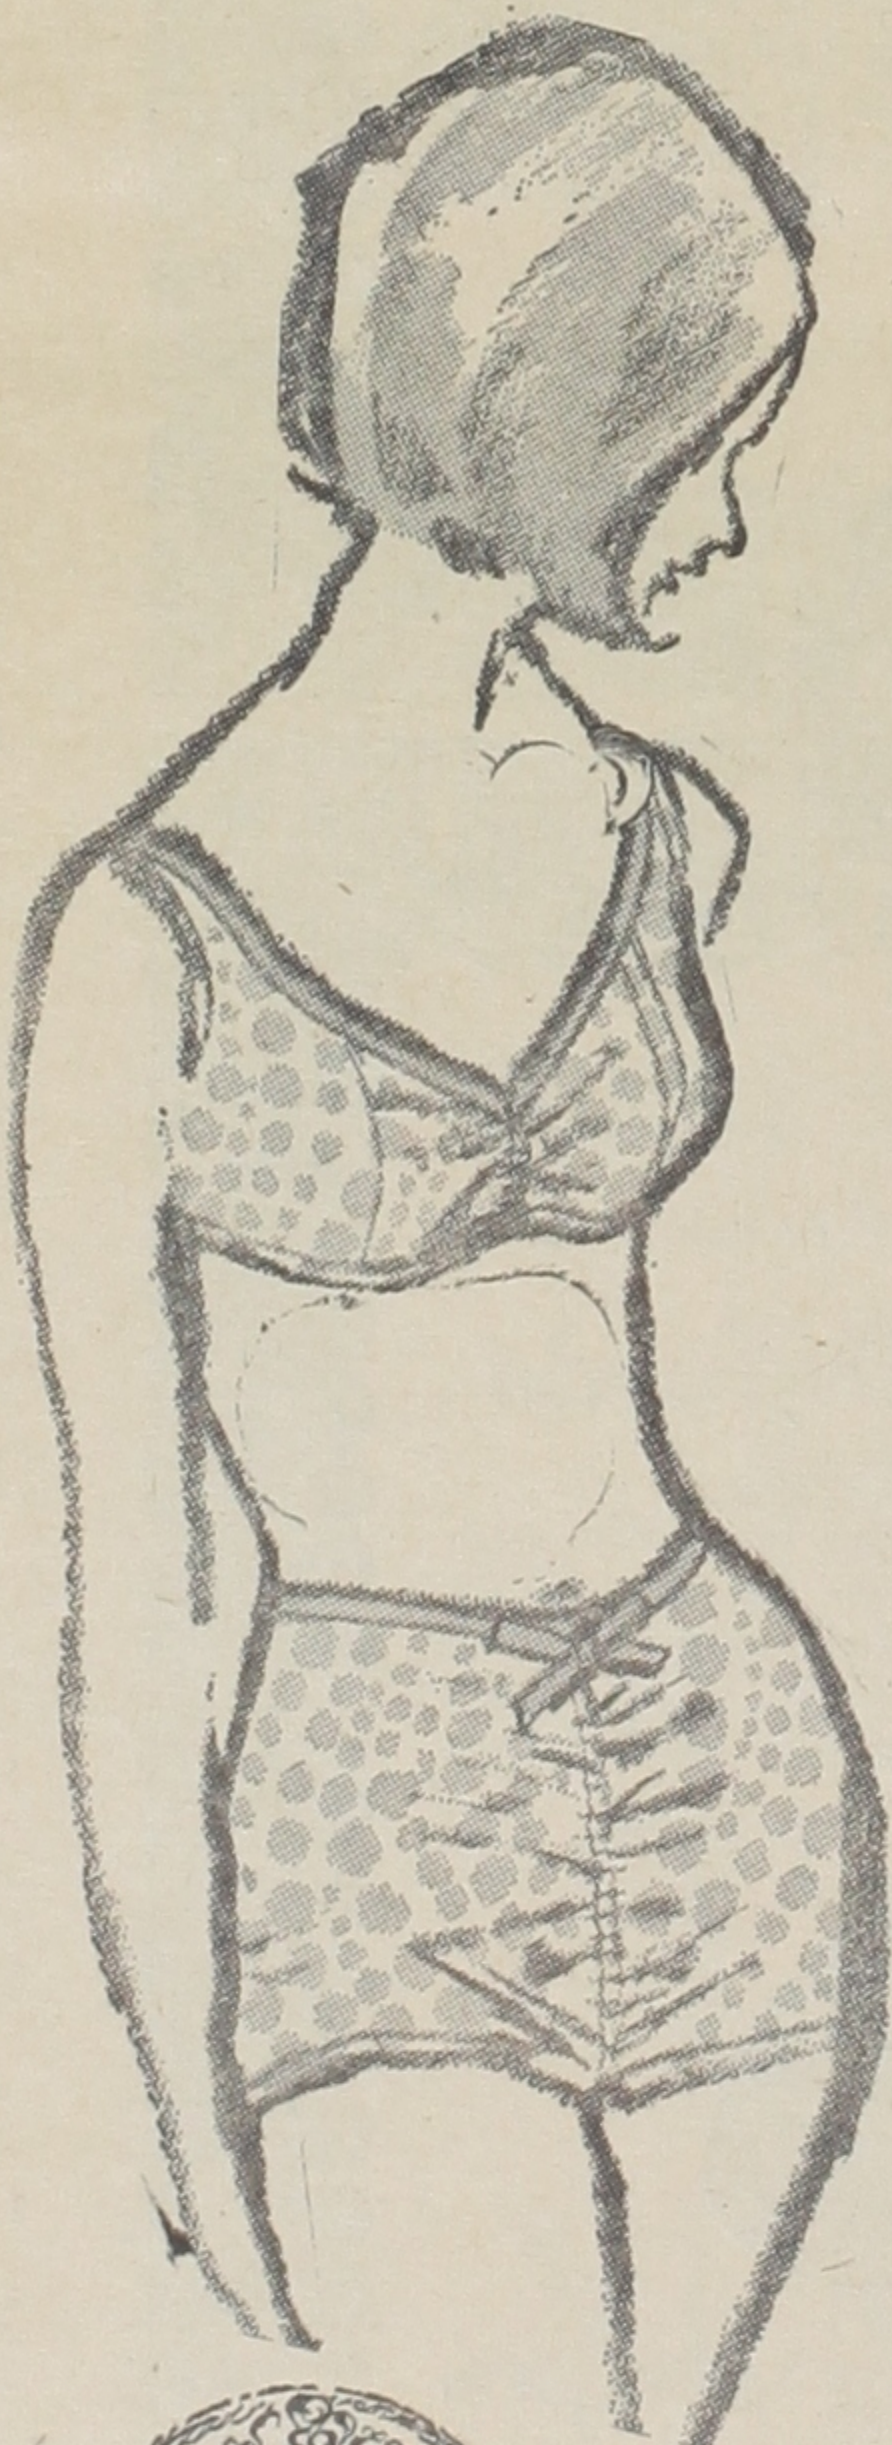

volleyball, badminton, golf, tennis, handball, slow-pitch softball and paddle ball.

Teams, composed of volunteers who sign up in the intramural offices, will play regular schedules and compete for championship titles.

Interested students may register until June 13 in the intramural offices in the southwest corner of the Intramural Bldg. (Old Gym).

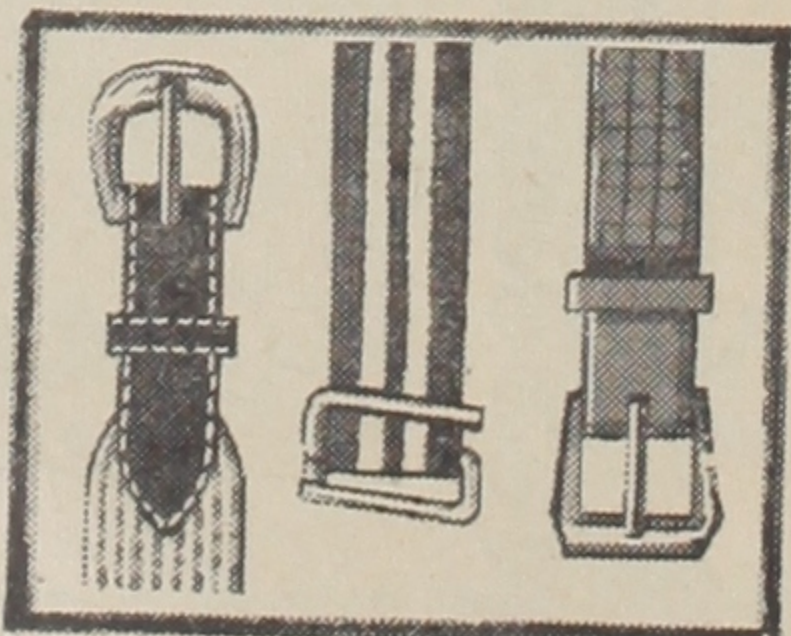

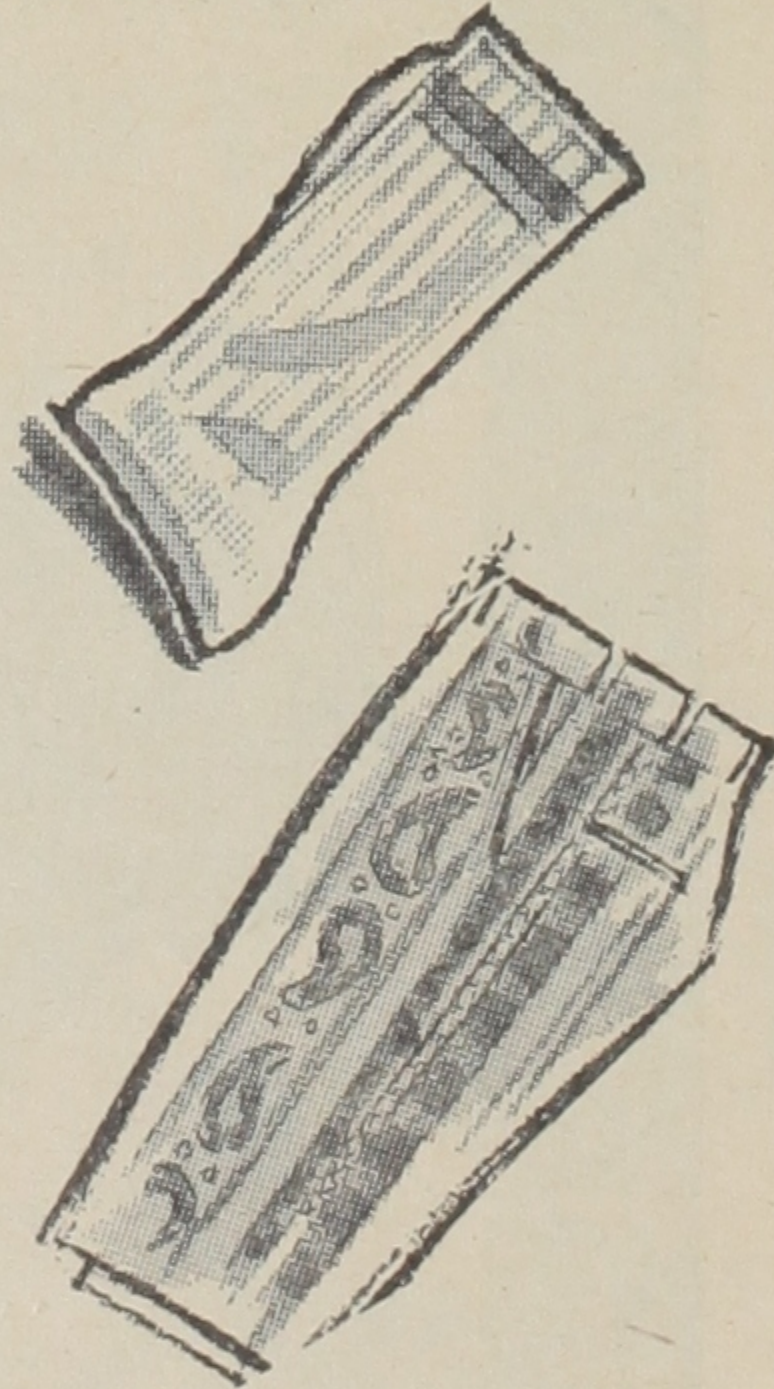

Darlene

THE FINEST FULLY FASHIONED SWIMWEAR

this two-piece suit is mostly you! "Water Bubble II" by Darlene gives you youth and slenderness with hand-screened print rising all over figure-shaping Ban-Lon top and maillot trunks. To glorify nature, there's the built-in bra and full fashioned shaping.

as seen in SEVENTEEN

WELCOME BACK . . .

Attend summer school in cool comfortable traditional wear from BROWN'S VARSITY SHOP.

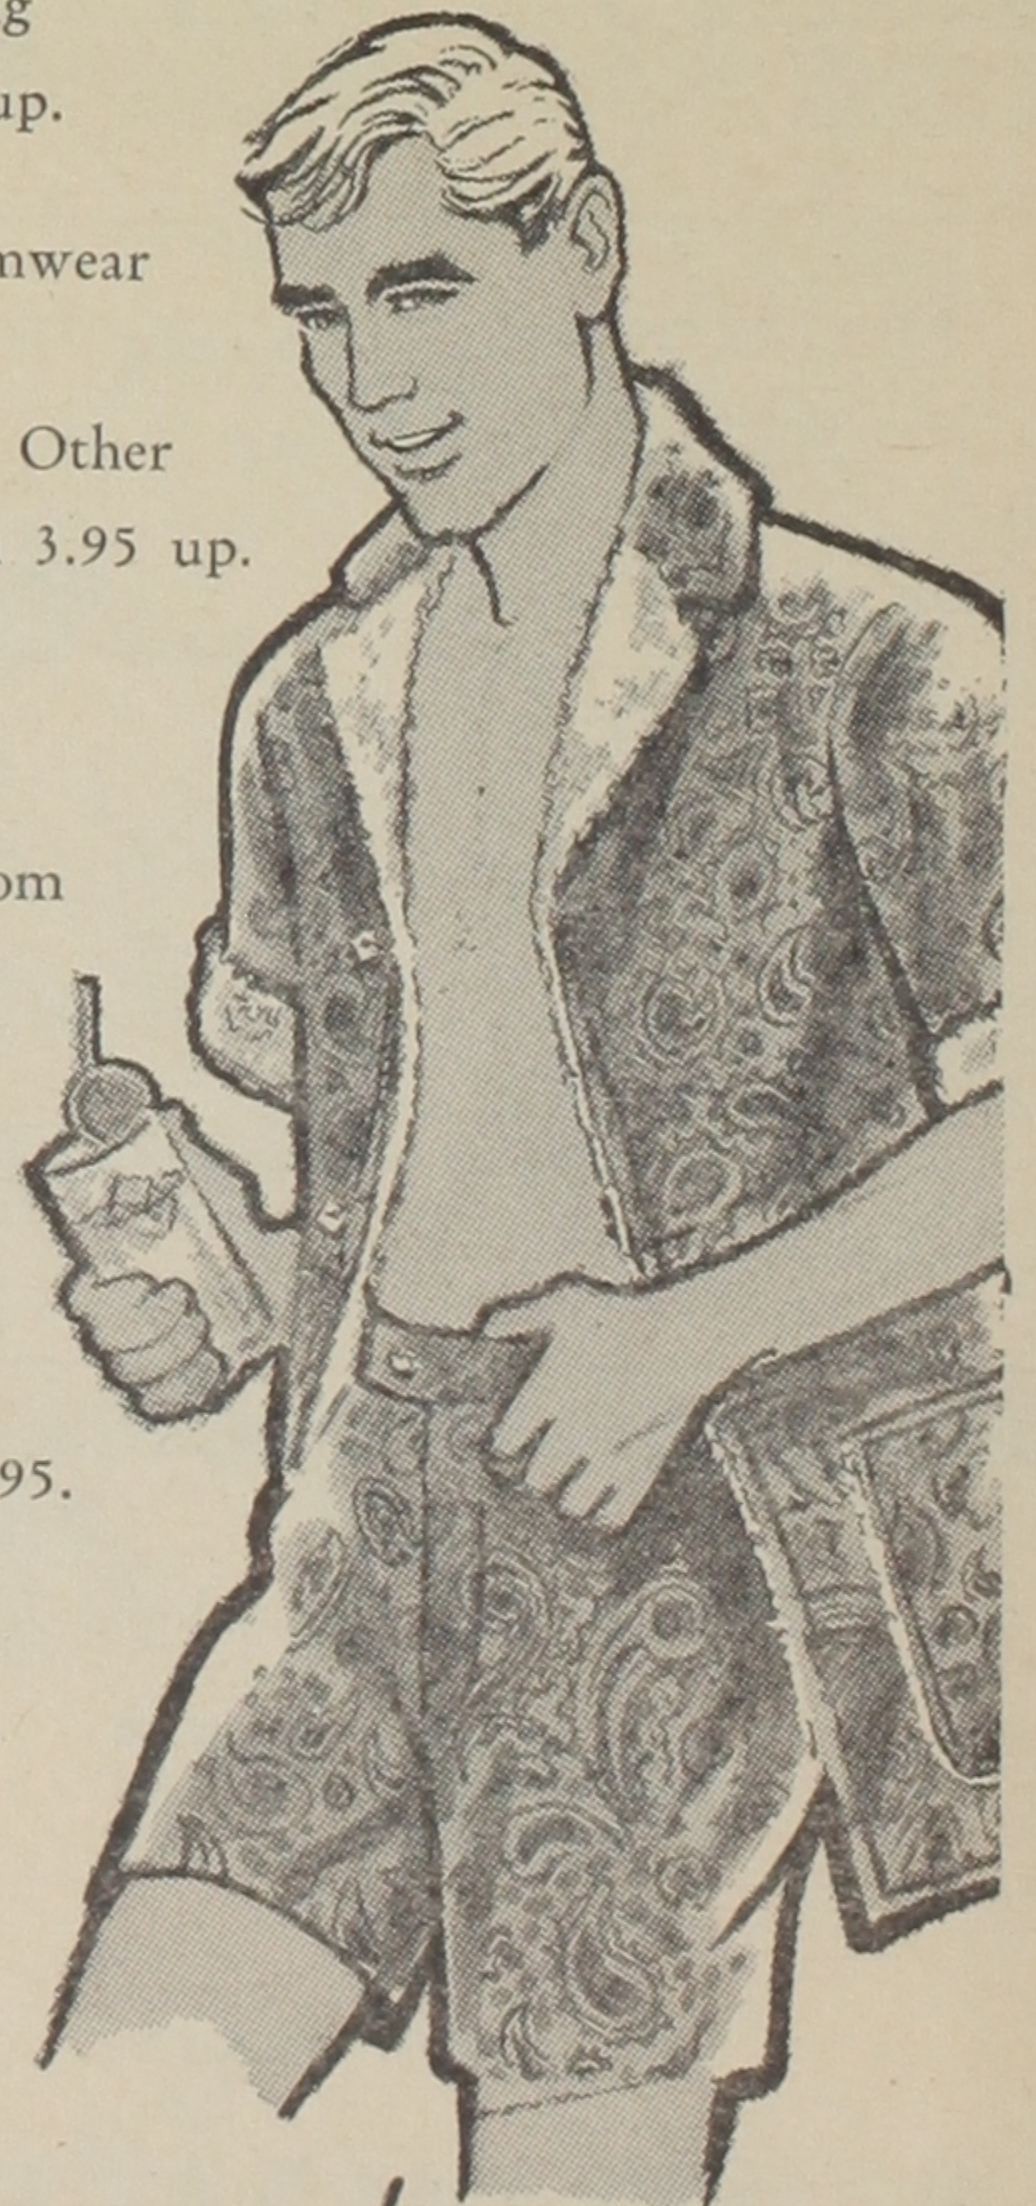

Left . . . See the new All-Purpose Sport Shirt. Choose from solid colors of blue, red, or white with contrasting trim . . . 4.25 up.

Right . . . Swimwear matching sets from 12.95 up. Other swimwear from 3.95 up.

SOCKS . . . from .59 to 1.50.

BERMUDA SHORTS from 3.95 to 7.95.

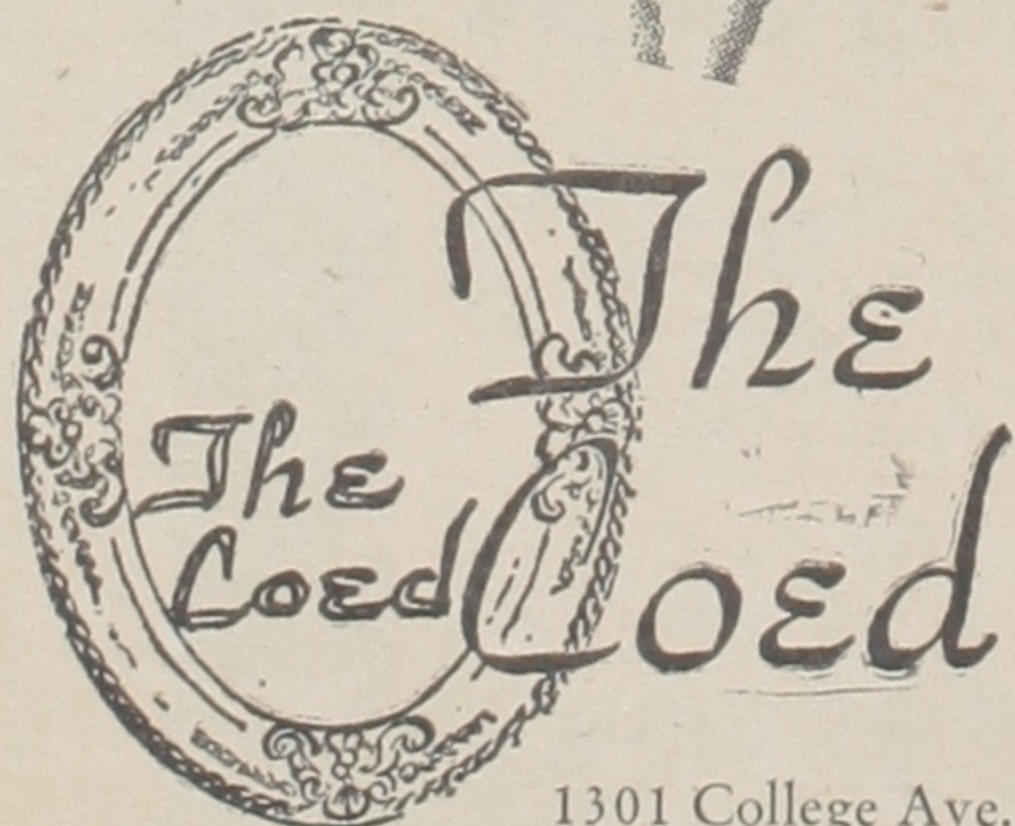

BELTS from 2.95 to 5.00.
