

Special Election Scheduled Wednesday

WHOSE WILL IT BE? — That seems to be the question pondered by (left to right) Dr. P. Merville Larson, speech department head, Jack Gibson, president of intra-mural speech association and Dr. E. N. Jones, Tech president, as they gaze at the trophy to be presented to the champion of the speech association. The award will be a traveling trophy unless won twice by an organization, in which case it will become permanent. Two tournays have been held and a third is scheduled Feb. 25. It will be set up in such a way that an organization not previously having participated could still come out leading the association.

Sunday Observed As Prayer Day For Tech, Nation

The Rev. Mr. Jack Washington, Episcopal rector, will be the speaker for the Universal Day of Prayer observance Sunday at 7 p.m. in St. Paul's Episcopal Church at 16th Street and Ave. X.

Christians on Tech campus and campuses in 57 countries will have a special worship service on this day emphasizing the theme, "When you pray say 'Our Father'." World's Student Christian Federation sponsors the occasion. For the service Gayland Pool will be the Student leader, Jan Higginbotham, organist and Don Elliott will conduct the call to prayer.

All Tech students and faculty interested in joining together in the prayer movement are invited and encouraged to attend since it is Tech students' first time to participate in the Universal Day of Prayer. A fellowship period will follow the formal worship. Aims of the observance are that students of many nations will be praying for each other with informed understanding of mutual questions concerning the physical universe, national freedom and peace, personal ambition, family life and character as well as culture and life as well as thought. The committee for the local movement is Layton Raun of Wesley Foundation, Kim Milling and Lem Miller of Westminster Fellowship, Jané Davis and Karin Smith of the Episcopal Student Center, and Don Elliott and Julia Fifer of the Christian Student Center.

I. D. CARDS ARE AVAILABLE

Identification cards for the Spring Semester are now available in the foyer of the Administration Building. Fee receipts must be presented in order to obtain I. D. cards.

Candidates Seek 4 Council Posts; Mr., Miss Texas Tech Vote Slated

Four vacant Student Council posts will be filled, class favorites will be chosen and Mr. and Miss Texas Tech will be selected in Wednesday's campus election.

At last Wednesday's 5 p.m. deadline, six persons had filed petitions in the engineering representative race while five petitions had been approved for the arts and sciences election.

Three had filed in the Miss Tech contest and two in the Mr. Tech race. Nominations for class favorites were approved previously.

Class favorite candidates and Mr. and Miss Tech aspirants may do no campaigning. Seekers to Student Council positions may expend only \$15 for campaign purposes and may post only 50 placards.

Candidates for Student Council positions and Mr. and Miss Tech: Engineering representatives: Walter Schuler; Bob Dyer; Lynn Elliott; Milton Vaughn; Neil McMullen; Louis Hungate.

Arts and Science representative: Richard Riojas; Dick Sewell; Sandra Shields; Marilyn Adrian; Doug Hudson.

Miss Texas Tech: Shirley Dupriest; Edwina Schovajsa; Charlene Williamson.

Mr. Texas Tech: Glynn McGee; Wallace Wilson.

Candidates for class favorites: Freshman Boy: Kenneth Talkington; Roy Poage; Gordon Deering; Bob Kinney; Mack Robertson; Joe Gilliland; Dewey Bryant; Bill Dean; Bob Sewell; Dub Hefington.

Freshman Girl: Patty Stephenson; Rita Tatom; Mary Lou Peterson; Susie Bybee; Gail Peterson; Beth Davidson; Johannanna Zournas; Joyce Streidl; Mary Lou Morris; Mary Sue Wilson.

Sophomore Boy: Dan Howard; Wayne Gibbens; Donnell Echols; Richard Estes.

Sophomore Girl: Mary Catherine Birkelbach; Roma Caviness; Janet Vines; Marlys Harris; Marilyn Adrian; Mary Baker; Carolyn Tapp; Pat Rainer; Karen Wil-

See ELECTION Page 2

State House Group Okays Tuition Bill

Controversial HB-265, a bill to double tuition for all state colleges and universities, has passed the House State Affairs Committee. The bill must be passed on by the legislature.

The committee voted to raise resident student tuition to \$50 per term from the present \$25 fee and hike non-resident charges to \$200 a semester.

The bill would amend the original one adopted in 1933. Texas' tuition rate for state-supported schools is the lowest in the union. The fees have not been changed since the original bill was passed.

Committee recommendations were for colleges and universities to set aside a part of the money collected from tuition and offer it as scholarships to deserving and needy students.

Personnel Sheets Due For Graduates

All students planning to graduate in 1957, June or August, must turn their Personnel Information Forms and photographs in to the Placement Service from Feb. 18 to 20.

This form is a graduation requirement from each dean's office; it is not a job placement form, according to Mrs. Jean Jenkins, Director of the Placement Service. The college must have a personal file on every graduate.

High Building Costs Increase Dorm Rates

(Editors Note: Texas Tech dorm rates are being raised. The Foreador published the first of a series of articles Thursday on the increase in room and board in college dormitories. Due to space limitations the article could not be published in its entirety in the Thursday issue of the paper. This is the second article in the series.)

"All dormitories must be operated as a system because they are financially interdependent," Vice President Marshall Pennington pointed out in explaining the new increase in room and board in the dormitories. He also stated that the completed dorms must be "pledged" in support of any loan for a new dorm or the college can't get the loan.

The new rates going into effect next September will be \$72.25 monthly or \$590.25 in the existing dorms and \$80.25 monthly or \$655.65 in the dorms now under construction.

Dr. E. N. Jones, Tech President, said, "We've done everything we know to keep the rates at a minimum." He also stated, "We've just got to raise rates to keep from operating at a deficit caused primarily by construction of new dormitories."

The administration has pointed out that rates in all dorms must be raised to help pay for the higher construction costs of the new dorms, otherwise should the new dorms be paid for entirely by their residents, the price would be much higher than the new rates.

Tech's first dormitories, West and Doak, were built in 1934 at a cost of approximately \$1,040 per occupant. In 1946 rates were increased 40 per cent due to the increase of construction costs of the four newest dorms. These

dorms were built immediately following World War II, when the price of construction was much higher. The dorms were built at a cost of \$2,677 per occupant compared to \$1,040 per occupant in West and Doak.

The new men's dorm will cost \$4,180 per occupant.

In order to keep its credit rating the college is forced to pledge the existing dorms, when selling bonds for the building of new dorms. The college is forced to build the new dorms to provide living facilities for students, because Lubbock has not been able to provide sufficient amount of housing to meet Tech's rapid increase in enrollment.

The vice president stressed the fact that the college can't afford to jeopardize its credit rating. "Not only is that a personal obligation to the people of Texas but it means lower interest rates on loans," he added.

Pennington pointed out that the current dorms were among the best to be found of their type, and they are being renovated and maintained to keep them in the best possible condition.

During the hour-long session it was pointed out that the administration faces the problem of a relatively new and fast-growing institution, in a relatively new and fast-growing city.

"Other older institutions have comparatively large dormitory systems which were built many years ago and now are paid off. Naturally new dorms and maintenance of old ones don't put a strain on their financial systems like Tech is having to undergo," Pennington stated.

Major-Minor Club Sets Campout

More than half of the members of the Major-Minor Club, women's physical education group, are making plans to attend a campout Saturday and Sunday at Buffalo Lakes near Lubbock.

The campout will be held at Las Leonitas, a rustic Girl Scout camp, at Buffalo on invitation issued to the club members by the Girl Scouts in this area.

Purpose of the camping trip is to acquaint the girls with camping life and perhaps interest them in becoming councilors for area camps this summer.

The women physical education majors will leave for Buffalo on Saturday about noon and return to the campus Sunday morning. They will be accompanied by their sponsor, Miss Ethel Rollo, physical education instructor.

The girls will be treated to the real side of camping life with all the cooking done by themselves on a campfire. Plans call for a steak dinner Saturday night and a special campfire service.

While at the camp, the girls will especially concentrate on planning activities that might be included in the program for a girl's camp. They will discuss the best ways of organizing in order to be of most benefit to campers.

OFF WE GO — These Major-Minor club members load equipment they will need for their overnight stay at Las Leonitas Camp at Buffalo Lakes. Standing, left to right, Misses Bobbie Blocker; Ethel Rollo, club sponsor; and Elaine Wilson. Kneeling is Miss Kay Hamby.

EDUCATION COSTS RAISE

The University of Texas has adopted a plan of limiting its enrollment by giving entering freshman exams and permitting only those with sufficient aptitude to register.

In the past Texas Tech has not been forced to limit its enrollment by the use of aptitude tests or by any other means. The administration has clearly pointed out that it does not want to limit the enrollment, but it wants to give all youngsters an opportunity to a college education if he or she wants it.

However, the *Toreador* believes that Tech may be in the process of adopting a measure to hold its enrollment down that is more harmful than at the University. We believe that Tech will, in effect, be limiting its enrollment according to a student's financial status.

Announcement was made Tuesday by the college administration that room and board in the dormitories would be increased by 12.04 per cent next year in the existing dorms and even higher in those dorms now under construction. In explaining this announcement they pointed out that the higher rates are due to the high cost of building the new dorms.

A bill to raise tuition \$25 a semester almost certain to pass the State Legislature. This will cause additional strains on the finances of the majority of Tech students, who already are operating on a very limited income.

Tech students are required to pay a Student Union Fee of \$5 a semester and if they have a car an additional \$3.50 a semester.

Yes, we must agree that there are some sound reasons for raising the costs of a college education. But does this increase student wages and allowances?

—Wayne James

SAME SONG, ANOTHER VERSE . .

As you are already aware, there has been a bill introduced in the State Legislature providing for the doubling of the tuition fee in all state colleges of Texas. We would like to encourage you to seriously consider this bill, and to provide the leadership necessary to inform the Legislature of the attitude expressed by your student body.

The students here at Sam Houston State feel that the passage of this bill would not be to our benefit. Although it would provide some four million dollars more for the college, we have no assurance that we as students would derive additional benefits from this bill. It appears to us that this bill is, in the main, an attempt to save the state four million dollars in tax money. This, of course, is a noble gesture; however, we feel that there are more appropriate means by which the money can be saved.

The whole situation is more basic than has been stated. We think that this is a fundamental issue concerning free public education, and an opportunity for the proponents of federal aid to education to make inroads into public higher education in Texas. Certainly it is an immediate problem for those of us who are students paying our own tuition, and is of notable concern to the budget of the veterans.

Robert G. Clarke
President Student Council
Sam Houston State College

Editor's Note: The above letter was received by the Tech Student Council. The Council permitted the *Toreador* to print this letter so that every student may have an opportunity to read the opinion of Mr. Clarke.

Benny Bedford Elected IFC President

The Inter-Fraternity Council elected officers for the coming semester Tuesday night, according to Scott Hickman, former president of the council.

Benny Bedford, president of Phi Gamma Delta, was elected president of the council; Larry Byrd, president of Phi Delta Theta was elected secretary; and Jackie McAninch, president of Pi Kappa Alpha, was elected treasurer.

Presidency of an individual fraternity is required for eligibility for office on the IFC. The officers are elected at a meeting of presi-

dents and delegates from all the fraternities, each fraternity having one vote.

The IFC is the central governing body of all the social fraternities at Tech. Among other accomplishments, it has abolished all hazing in the fraternities, changing the name of "Hell Week" to "Help Week." It also played an important role in the Hungarian aid program, contributing, with the sororities, more than half of Tech's total contribution.

Scaling Appointed To Supreme Court

Harry Scaling has been appointed to the Tech Supreme Court by Student Council President Wallace Wilson.

Scaling, senior Business Administration student from Fort Worth, replaces Don Brice, who graduated in January.

The new member of the Court is president of the "Double T" Association, is a member of the Tech basketball team and Kappa Sigma.

DIARY OF A COED

MONDAY: Prof Pomfritt sprang quiz in English lit this morning. If Shakespeare didn't write *Canterbury Tales*, I'm back in the steam laundry. . . Lunch at the house — turkey hash. Question: how can we have turkey hash when we never had turkey? . . . Smoked a good, natural Philip Morris after lunch. Yum, yum! . . . Played bridge in the afternoon. When game was over, Mildred Olliphant stabbed me several times with hatpin. Must learn weak club bid. . . Dinner at house — lamb hash. Question: how can we have lamb hash when we never had lamb? . . . Smoked a Philip Morris after dinner. Good-O! — no filter, no foolin'! . . . Chapter meeting at night. Motion made to abolish capital punishment for pledges. Motion defeated. . . Smoked some more Philip Morris. Natural! Dreamy! . . . And so to bed.

TUESDAY: Faculty tea. Spilled pot of oolong on Dean of Women. She very snappish. Offered her a Philip Morris. Still snappish. Offered skin graft. No help. . . Dinner at Kozy Kampus Kafe — 14 hamburgers. But no dessert. Have to watch waistline. . . And so to bed.

WEDNESDAY: Got our marks in English lit quiz. Lucky for me Shakespeare wrote *Canterbury Tales*. . . Date with Ralph Feldspar. Purely platonic. Ralph wanted to talk about love trouble he's been having with Mady Vanderklung. I said things were bound to improve. Ralph said he hopes so because the last four times he called on Mady she dumped vacuum cleaner bag on him. Smoked Philip Morris. Yummm! Dinner at house — bread. That's all; just bread. . . And so to bed.

THURSDAY: Three packages from home — laundry, cookies, records. So hungry I ate all three. . . Quiz in American history. If James K. Polk didn't invent cotton gin, I'm in big trouble. . . Had afternoon date with Erwin Trull, pre-med. Nice boy but no loot. Took me to see another appendectomy. Ho-hum! . . . But we had Philip Morris afterwards. Goody, goody, gumdrops! . . . Dinner at house. Big excitement — Vanessa Strength announced her engagement. While girls flocked around to congratulate Vanessa, I ate everybody's mackerel. . . Then smoked a good, natural Philip Morris. Divoon! . . . And so to bed.

took me to see another appendectomy

FRIDAY: Got our marks in American history quiz. Was dismayed to learn that James K. Polk did not invent cotton gin. He wrote *Canterbury Tales*. . . Odd! . . . Lunch at the house — bread hash. . . Philip Morris after lunch. Grandy-dandy! . . . Spent afternoon getting dressed for date tonight with Norman Twonkey. Norman is tall, dark, loaded — a perfect doll! Only thing wrong is he never tells girl where he is going to take her. So I put on a bathing suit, on top of that an evening gown, and on top of that a snowsuit. Thus I was ready for a splash party, dance, or toboggan slide. . . So what do you think happened? He entered me in a steeplechase, that's what!

SATURDAY AND SUNDAY: Days of rest, play, quiet, meditation, and — aaaa! — Philip Morris! . . . And so to bed.

HERALDS OFFICIAL RUSHING

Convocation To Open Rush Week

All male students interested in pledging a social fraternity will gather Thursday, Feb. 21, in the Aggie Auditorium for rush convocation. The official rush period begins Friday, Feb. 22, and extends through Thursday, March 7.

James B. Whitehead, Assistant Dean of Student Life, stated that rush rules and rush week in general will be explained at this meeting.

tend during this time. Men's rush is under the direction of the Interfraternity Council.

To be eligible to pledge Whitehead said, a rushee must have attended Texas Tech the semester preceding the current one and must not be on scholastic probation.

A pledge convocation is slated March 8, the day after official rush closes. At this assembly, each rushee will indicate on a bid card the fraternity which he wishes to pledge. The office of the Dean of Men matches these cards with lists of desired pledges made out by the fraternities.

Within the legal rushing period, each of the ten social fraternities on campus will entertain rushees with one party. The fraternities may hold no other function at which more than three rushees at-

RAIDER REVIEWS SET TO BEGIN SUNDAY

First performance of "Raider Reviews," a series of talent shows, is scheduled from 5:30 to 7 p.m. Sunday in the Union Snack Bar.

A regular Sunday night Union feature, the initial program will include Pat Cassidy, accordionist and comic pantomimists Gail Peterson and Karen Williams. A Lubbock High School Band called the Ad Libz and the Rock Rollin Phi Psi's, with Kay Adkins, will round out the show.

"Raider Reviews" are planned by the Union special events committee to provide entertainment for students who wish to eat Sunday supper in the Union. There will be no admission charged.

Juniors Plan Stunt Night

Amateur entertainers will compete for honors in the annual Junior Stunt Night competition, beginning at 7 p.m. Wednesday in the Union Ballroom.

Awards are planned in three divisions: fraternities, sororities and all campus entries. Skits may be entered by any organization.

Purpose of the yearly event, sponsored by the Junior Class, is to raise money to finance the Junior-Senior Prom. Success of the affair last year made it possible to have the Four Freshmen entertain at the prom.

Judges will grade the stunts on quality and audience reaction.

AWS To Nominate Officers In Open Meeting Monday

An open meeting of Associated Administration Building. The women students is slated for 5 p.m. Monday in Room 219 of the Administration Building. The women will approve a slate of officers for the 1957-58 year.

HERE'S YOUR CHANCE

to get the full story of
engineering opportunities
in America's most
dynamic industry...
aviation!

Temco Aircraft Corporation — one of the fastest-growing organizations in the industry — is sending an engineering representative to your campus to discuss with you personally the exciting Temco story of outstanding opportunities for young engineers.

WHAT'S YOUR SPECIAL INTEREST?

Right now, Temco offers immediate opportunities to creative young engineers in a wide range of design and development activities including trainer, utility and reconnaissance-type aircraft; high speed drones; guided missiles; and airborne electronic systems. Research and development programs are continuously being conducted both under contract to the armed services and as private ventures financed entirely by Temco.

Temco's TT-1, selected last June by the Navy, was the first primary jet trainer to be purchased by any U. S. military service. The Navy recently awarded Temco another contract for the high speed rocket-powered XKDT-1 target drone system. Other aircraft, missiles and complete weapon systems are now in the works at Temco but can't yet be described for security reasons.

These are typical of the kind of Temco projects that can move you to the top fast. Temco's unique position as one of the fastest-growing companies in the industry opens up exciting starting opportunities for graduate engineers. Make your appointment today!

AIRCRAFT CORPORATION
DALLAS

Raiders Host Miners Tomorrow Night

Texas Western, currently the No. 2 team in the Border conference, will bring an 11-7 record into Saturday night's game with the Red Raiders in Lubbock Coliseum.

Tech, with an 8-9 record, will again have the opportunity to reach the .500 mark for the year. In their last outing the Raiders dumped nationally-ranked SMU for a 68-67 upset.

The series record reveals that Tech sports a 20-game bulge over the Miners—30-10. However, in their last four outings, the two schools have split even, with Tech winning at home while dropping the El Paso contests.

Last season, on Feb. 27, the Raiders set a new team scoring record against the Miners by racking up a 117-90 count in the "Barn."

Featuring strong defensive play, Coach George McCarty's Miners have allowed opponents an average of 64-points per game while scoring an average of 68.7.

Charles Brown, a Negro sophomore transfer from Amarillo Junior College, is the leading scorer for the Miners and the Border conference with a 20-point per game average.

Brown is also the second leading rebounder in conference play.

The heart of the Miner defense is built around Ned Moore, senior from Dexter, N.M. Moore is described by Coach McCarty as perhaps "the most overlooked player on the Miner team." At 6-3, Moore is smaller than the average center, however, he was pressed into service at the post when graduation wiped away the Miner pivotmen.

Despite his handicap, Moore has

done an outstanding job in guarding the "big men," as H-SU's Bob Tremaine will attest. Tremaine had been averaging over 21 points a game until he ran into the stingy Moore who held him to 10.

In the preliminary contest, the Ince Oilers will meet the Anton Acrobats at 6 p.m. The Oiler lineup includes ex-Raiders Carl Ince and John Pittman, as well as Sherman Norton, Oklahoma; Max Hooper, Illinois; Gerald Rogers, Texas Western; Tom S. Lubbock, Lubbock assistant coach James Cobb, formerly of ACC.

Ex-Raider Du-Wayne Blackshear, now Spade basketball coach heads the Anton squad.

Tech Swimming Fraternity Initiates Five

The Dolphins, a national honorary swimming fraternity, initiated new members earlier this week in a meeting at the Lubbock Boy's Club.

Harry Van Horn, Charles Brown, Jack Lawrence, C. L. Newsome and Mehdi Vossoughi. Installation ceremonies were conducted by president Bill Pittman, secretary Bill Lewis and treasurer Chuck Strehli.

New members installed were:
