

7 Elected, SC Runoff Set

Seven students from the Schools of Agriculture and Engineering were elected as Student Council representatives Tuesday. Twenty-six others from four schools will compete in a runoff election Friday.

RESULTS FROM the School of Arts and Sciences were not available by press time.

Elected to represent the School of Agriculture was Garland Weeks, with 163 votes. Competing for two positions will be Johnny Barnhart, 72 votes; Sherry Bingham, 79 votes; W. J. Hill, 71 votes; and Bob Whitson, 102 votes.

SIXTEEN STUDENTS will be vying for eight positions in the School of Business Administration. Those in the runoff are Diane Baker, 139 votes; David

Beckman, 160; John Burdette, 148; Sandra Cox, 115; Mike Farley, 211; Bob Gindorf, 237; Sheila Helbing, 143; Tommy Orndorff, 139; Becky Parker, 164; Cril Payne, 145; Jerry Peirce, 185; Clark Pfluger, 138; Sue Ring, 187; Bob Tate, 177; Bill Thornton, 140; Carolyn Wood, 220.

Six students elected from the School of Engineering were Jerry Brock with 243 votes; Pat Daniels, 185; Jack McClure, 244; Mike Moore, 200; Ken Patterson, 205; Mike Stinson, 214.

COMPETING IN the runoffs for one position will be Ron Davis, who received 165 votes, and Charles Webb, with 172 votes.

Four students competing in runoffs for two positions in the School of Home

Economics are Jo Beth Barnes, who received 79 votes; Jeanie Gratton, 48; DeLonn Homecomb, 40; and Lynn McElroy, 57.

A RECOUNT OF votes in Monday's cheerleader election will be completed Friday. The votes were recounted after Ginalu Holmes, Lubbock junior, filed a formal protest of the election in the Student Council office.

Karen Anderson, chairman of the election committee, reviewed the method of counting votes to inform the student body of the process.

"MEMBERS OF the Student Council, Junior Council, and Freshman Council count the votes. After the ballots are separated and put in order, teams of two or three count the votes. One of

the team members calls out the number of votes, while the other two mark. After five votes are called, the team calls 'check.' If there is a discrepancy, that set of votes is recounted.

"WHEN ALL votes are counted, the tally sheets are initialed and turned in. These are tabulated by a team working with an adding machine."

Miss Anderson said, "I hope that the Council will be cleared of any implications about 'fixing' elections. I have complete confidence in all vote counters. Dedicated people appear at each election to count from 10 a.m. until all votes are finished, even as late as 3 a.m."

"ALTHOUGH a small margin of error is possible as in any human endeavor, this is the only discrepancy I expect to detect after the recount."

RIDE 'EM COWBOY—John Ballard, Claude senior, is pictured aboard "Whitman" in a typical exciting moment from last year's Tech Rodeo. Tough bucking stock and excellent riders are

good reasons to expect this season's show, said by many to be the largest collegiate rodeo in the world, to be even bigger and more exciting.

—Staff Photo

Poet Speaks Here Today

Louis Untermeyer, widely known poet, critic and anthologist, will speak at 7:15 p.m. today in Tech Union on the topic, "Do Americans Speak English?"

English Consultant

In 1961 Untermeyer was appointed consultant in English poetry to the Library of Congress. When the encyclopedia was revised, he was chosen to write an article on "Modern American Poetry."

With some 50 volumes to his credit, Untermeyer is considered an authority on the English language. His thesis is that Americans do not speak correct English.

Writing Chief Interest

After graduation from De Witt Clinton High School, Untermeyer

entered commercial life, but soon discovered his chief interest was in writing.

He became associate editor of "The Masses" and editor of "Modern British Poetry," "Modern American Poetry" and "A Miscellany of American Poetry."

Edits Anthologies

He also edited "American Poetry from the Beginning to Whitman" (1931) and "A Treasury of the World's Greatest Poems" (1942). One of his most popular books of verse is entitled "Selected Poems and Parodies."

Untermeyer and his wife, Bryna Ivens, fiction editor of "Seventeen" magazine, live in Newton, Conn.

AWS Approves

OK, Girls, Drag Out Culottes For Class

AWS General Council voted 19-11 Wednesday in favor of allowing culottes that look like skirts to be worn in the academic buildings, Library and the Union, as an exception to the AWS "no pants rule."

THE DECISION is effective immediately, according to Carolyn Kelley, AWS president.

"Teachers still have the right to say what is worn in their classrooms. The students must abide with the teachers in each individual room," qualified Lynn McElroy, AWS treasurer.

EACH REPRESENTATIVE voted according to the majority's dictates in her organization. The residence halls, most of the sororities, and most of the mutual interest clubs voted in favor of the restriction-lifting.

Opposed to the regulation change were Mortar Board, Phi Upsilon Omicron, Pi Beta Phi, Town Girls and AWS executive officers.

EXPLAINING THE AWS executives' bloc vote, Hazel Hale, first vice president, said after the meeting, "We didn't want to lower the dress standards. You have to draw the line somewhere."

Absences caused the seven voting absentions. Some campus organizations have not installed next year's AWS representatives. This was the first meeting of the 1963-64 council.

At 4 p.m. Today

Parade Opens Rodeo

Tech cowboys begin their big weekend today when the annual Tech Rodeo opens at 8 p.m. in Municipal Auditorium.

Performances are also scheduled for 8 p.m. Friday and Saturday. There will be a children's matinee at 2 p.m. Saturday.

Festivities begin at 4 p.m. today with the rodeo parade. Rodeo guest star Rex Allen and his horse "Koko" will lead the parade with

Tech faculty members, riding clubs and area bands taking part.

Allen, cowboy singer and actor, and his band will appear at all rodeo performances along with Johnny Clark, rodeo clown, and 165 cowboys competing in bronc riding, bulldogging, calf roping and bareback events. A special "calf dressing" contest is open to girls.

The Rodeo Queen will be an-

nounced at today's performance and will receive a gold belt buckle. Students may vote on a "penalty a vote" basis until 5 p.m. today in Tech Union.

Nominees are Glenda Friend, West Hall; Sherry Beadle, Block and Bridle; Rebecca Ramsey, Chi Omega; Carol Ann Norman, Pi Beta Phi; Sharon Nugent, Delta Delta Delta and Dianne Gillard, Newman Club.

Study In 49 Lands Offered By Grants

—See Story Page 3

Peace Corps Tests Given At Lubbock Post Office

By VERNON SMITH
Toreador Staff Writer

The test will take approximately two hours.

The Peace Corps applicants will train this summer for projects in education, community development, agriculture, and other skilled and professional fields, Fuller said.

THE PEACE Corps program was two years old March 1. At that time there were 4008 volunteers in 41 countries.

More than half of the volunteers are in education fields.

Many others are in homemaking, construction, 4-H Club work, social work, agriculture, health and public works.

Other job skills used are geolog-

ists, veterinarians, nutritionists, nurses, fishermen and doctors.

WORK IS available both in rural and urban areas.

When their term of service is completed, volunteers may choose to travel before returning home, thus further broadening their education while they have the opportunity.

ALMOST 70 per cent of the volunteers who will return this year have indicated plans to continue their education.

The Peace Corps, made up primarily of young men and women in their twenties, has been readily accepted in most of the countries involved. Several countries are planning similar organizations of their own.

The Civil Service will administer a Peace Corps placement test at 8:30 a.m. Saturday in room 16A of the main Post Office, 800 Broadway, according to Dr. Sterling Fuller, Peace Corps liaison officer at Tech.

THIS IS the last testing available to those who wish to enter training in June or July. Those who want to take the test must fill out written applications before the time of the examination.

Applications or additional information may be obtained from Dr. Fuller in room 234 of the Social Science Bldg.

Ann Orrick Speaking of Tech...

By NANCY MILLER
Toreador Amusements Editor

"Look," I said, whipping out pencil and note pad in my best Lois Lane manner. "I'm supposed to do a story on you for 'Speaking of Tech.' Do you have any opinions?"

Pizza Pie

"Are you kidding?" Ann Orrick, junior secretarial administration major from Wichita Falls sat back and watched the people mill in and out of the room. "My mind is as deep as a pizza pan."

"Well, how about giving me a quick rundown on what you've done at Tech," I countered, with pencil poised.

Lists Positions, Honors

She thought for a moment. "When I was a freshman, I was a member of Alpha Lambda Delta and the Decorations Committee of the Tech Union. Also Phi Gamma Nu, the honorary business fraternity. Then when I was a sophomore, I was chairman of said Union committee, a Knapp legislator and a President's Hostess."

"Oh," I said, writing rapidly.

President's Hostess

"This year I was the chairman of President's Hostesses, Kappa Alpha Theta historian, and chairman of the Decorations Committee for the AWS Women's Day Banquet. Also I'm a member of Phi Kappa Phi, a national scholastic honorary; Beta Gamma Sigma, a national scholastic hon-

orary in the field of business; and Sigma Delta Pi, Spanish honorary. And I was in Junior Council."

"What's your grade point?" I asked curiously.

3.7 Overall Average

"I'm not sure, but I think it's around a 3.7," she answered.

"Well, what about next year?"

"Oh, well next year I'll be chairman of President's Hostess and a member of Mortar Board."

If this girl's mind is as deep as a pizza pan, I thought, then all the cookbooks are due for an overhaul.

Going To Europe

When asked about her plans for the future, she replied, "This summer I'm going to Europe."

"Really?" I said enviously. "How are you going?"

"On the Queen Mary."

"No, I mean are you going with your parents or what?"

"I'm going on a tour. I love to travel. I want to become a stewardess with American Airlines after I graduate. Then eventually I'd like to be a legal secretary."

Jazz Fan

"How about extracurricular activities? What do you really like?"

"Jazz," she replied without a moment's hesitation. "I love Brubeck, Previn, Kenton, Amahad Jamal. Also Peter Paul and Mary

ANN ORRICK

and Odetta. Also Johnathan Winters and Shelly Berman."

"Sports?"

Like Bridge, Reading

"I'm pretty unathletic. The only sport I enjoy is bridge. I read as an escape mechanism, so I'm big on fiction," she said.

"I also believe in the occult—mind reading, horoscopes, mental telepathy, and the Ouija board."

"Just out of curiosity, what do you think is the most important thing you've learned here at Tech?"

Big Lesson

"The most important thing I've learned at Tech," she replied thoughtfully, "is what I've gained as President's Hostess. I've learned how to handle myself around everyone from Explorer Scouts to the National Maid of Cotton."

UNION MOVIE

"Lili," a technicolor movie starring Mel Farrer and Zsa Zsa Gabor will be shown Friday at 4 and 8 p.m. and Sunday at 2:30 p.m. in the Coronado Room. The Special Events Committee is sponsor.

Tastes Great because the tobaccos are!

21 Great Tobaccos make 20 Wonderful Smokes!
CHESTERFIELD KING tastes great, smokes mild. You get 21 vintage tobaccos grown mild, aged mild and blended mild, and made to taste even milder through its longer length.

CHESTERFIELD KING
Tobaccos too mild to filter, pleasure too good to miss!

Longer length means milder taste

The smoke of a Chesterfield King mellows and softens as it flows through longer length... becomes smooth and gentle to your taste.

To Classroom

Audio-Visual Equipment Brings New Dimensions

Although note-taking and reading text books has been a process for learning course material for some time, the department of education has found that audio-visual materials bring a new dimension to the classroom.

Calling Tech's audio - visual course, "dynamic, realistic and effective," Dr. R. L. Davidson, associate professor of education, said that motion pictures, tape recorders and record players bring life to the learning situation.

Learning can motivate students

when subject matter is presented in picture form by filmstrips, slides and transparencies, he said.

Approximately \$10,000 worth of equipment and materials are maintained by the department of education and philosophy for use in this audio-visual course, as well as in other education courses.

Plans are being made for expansion in a teaching - learning laboratory with adequate facilities for demonstrations in the production and use of instruction materials.

Fulbright Grant Offers Foreign Study, Travel

By **JUDY FOWLER**
Toreador Staff Writer

Applications are now being considered for Fulbright graduate fellowships for 1964-65. Dr. David Vigness, Tech Fulbright program advisor, announced Wednesday.

800 Offered

More than 800 U.S. government awards to any 49 countries in any field of study or research will be available.

These scholarships, provided for under the Fulbright-Hays Act, are part of the educational and cultural exchange programs of the State Department. They were instituted to increase mutual understanding between the people of the U.S. and other countries through exchange of persons, knowledge and skill.

Three Main Types

There are three types of awards: U.S. government full grants, joint U.S. and other nations grants, and U.S. government travel - only grants.

The eligibility requirements are generally the same for all types of grants.

They are U.S. citizenship at the time of application, a bachelor's degree or its equivalent before the beginning date of the grant, language proficiency sufficient to carry out the proposed study project (language requirements for countries whose languages are not widely taught in American universities are generally waived), and good health.

Good Grades Necessary

Also necessary are a good overall academic record and demonstrated capacity for study. Applicants under 35 years of age who have not previously lived or studied abroad will be given preference.

The 49 countries to which grants may be received range from Argentina to Venezuela, with such smaller countries as Nepal, Haiti, and Ghana represented.

Qualifications Differ

Particular qualifications differ slightly in each country. In Germany, a good command of the language is a prerequisite. Lan-

guage exams are given prior to the beginning of regular studies. If the student is found deficient, he must defer plans and take further language training.

Recommended fields of study also differ from country to country. Germany offers exceptionally good courses in ancient and modern languages, art, economics, history, literature, philosophy, theology, music, and agriculture.

Deadline October

Applications must be submitted to Dr. Vigness by October 1. Applications will then be screened by a Fulbright Committee of faculty members headed by Dr. Vigness. The actual granting of the scholarship will be made by the U.S. Educational Committee in the particular country.

Since 1948, approximately 12,000 American graduate students have studied abroad under the programs now covered by the new Fulbright-Hays Act.

Interested Tech students may contact Dr. Vigness in Social Science Bldg., room 119 for further information and instructions for applying, as well as announcements of places available overseas.

Letters To The Editor

Amusements Policy Questioned

Dear Editor,

The policy of the amusements editor of the Toreador has appeared to be rather unfreined in a number of cases.

I BASE MY opinion and attacks not only on what has appeared this semester, but most of all, I base them on the outrages that I endured in silence last semester.

No artistic expression, whether it is a painting, musical arrangement, play or what have you is going to be perfect. There are infinite procedures that such an expression may be satisfactorily or poorly communicated. I am aware that as of this date, there isn't a "perfect method."

"You can please some of the people some of the time, but not all of the people all of the time."

THE WANDERINGS OF Mr. Sheridan, in the Avalanche-Journal are often nothing but mushy cliches, but they are worldly in nature. His praises and damnations are broad-minded and he doesn't grind an ax in the reader's ear.

Art cannot be "methodized." A law of physics can be interpreted only as a specific outcome. It is "methodized."

AT TIMES IT seems to me that the people writing reviews for the Toreador are trying, perhaps subconsciously, to methodize art in their perfect, untouchable fashion. There may be a God in heaven, but not in the Toreador!

Student Complains Of Prejudice

Dear Editor:

The excitement of elections is over. I feel that we as Tech students have made wise choices in electing the people we have. However, the fact that the Toreador and certain election officials showed prejudice in the presidential campaign, seems to bluish an otherwise successful election year.

THE FIRST POINT that I would like to mention concerns Karen Anderson, the chairman of the elections committee. A protest was raised regarding the distribution of election material through the college mail system by one of the presidential candidates, which is a violation of election rules. The candidate involved stated that this action occurred without his knowledge. His statement was further corroborated by the dorm supervisor who felt that the use of the college mail system by the candidate was by accident and without his knowledge. Despite these testimonies, Miss Anderson stated to the Toreador that according to testimony presented to her committee the rules infraction was "not entirely an accident."

This statement served to cast a bad light on the candidate in question. I was just wondering what source would be more reliable than the dorm supervisor who would have no reason to be anything other than neutral. By this derogatory statement Miss Anderson failed to fulfill her obligation of neutrality as elections committee chairman, thus affecting this all-important campaign.

THE SECOND POINT I would like to mention involves the Toreador and a letter which it published on the day of elections. In this letter a resident of Sneed Hall presented his objections to the above candidate in no uncertain terms and heartily endorsed his opponent. Everyone is entitled to his opinion, but in the interests of good judgment and equal representation, I feel that this letter should have been omitted from publication due to its opinionated content. The statements of the author of this letter cast more bad light upon the candidate involved. I feel that the Toreador, either knowingly or unknowingly, was guilty of prejudice.

The deed is done and the election is over. As I stated at the first, the candidates which have been elected were well chosen and the office of president of the student body is no exception. I would like to ask only this: that in future elections in future years elections officials strive to remain neutral regardless of personal feelings and that the Toreador choose wisely its material for publication so that each candidate may have an equal chance to obtain the office he is seeking. Thank you very much.

Sincerely,
 Wayne Hickman

(Editor's Note: The elections committee took some degree of disciplinary action toward the candidate involved. This alone tells us the committee felt the incident was "not entirely an accident." Since Miss Anderson is the spokesman for the group, I feel any of her remarks were given as reasons for the committee's ruling and not as an expression of her personal feelings. Whether the ruling was just or not, we cannot say. As journalists, however, it is our duty to print both sides, which we feel we did adequately in this particular story. Regarding your second point, just as this letter is "opinionated" and is being published, so was the letter you criticize. Had your letter been received last Thursday, it too would have been printed in Friday's election edition.)

A Good Decision . . .

Gov. John Connally's decision to let private enterprise sponsor the Texas exhibit at the New York World's Fair will offer more summer 1964 work opportunities to Texas college students. Some 600 will be employed as tour guides.

Connally, elected with tourism as a main plank in his platform, feels Texas should be properly represented at the fair. We do, too. But the Texas legislature is already overburdened with monetary demands deserving more consideration than an exhibit at a world's fair. While desirable, it is not necessary.

Another angle which Connally considered was the time element. If the appropriation of \$2.5 million had survived governmental red tape, it is doubtful that a noteworthy exhibit could have been prepared by the April, 1964 deadline.

So, Connally has chosen to follow the private enterprise route by allowing Angus Wynne Jr., Dallas financier, to back the exhibit.

In a press conference, Connally stated, "What it boils down to is we do it this way or Texas will not have an exhibit at all."

The fact that Wynne, owner of Six Flags Over Texas, is "in the whole operation for profit" does not shadow Connally's purpose. The exhibit will be seen by millions of tourists. If it enhances our state in their eyes, it is a worthwhile project for the state as well as for Wynne. It is regrettable that our exhibit must be put on a commercial basis, but it is better than having no exhibit at all.

In our opinion, Connally has made the right decision.

Celeste Hardy
 —Toreador Copy Editor

. . . Watch Your Words

"Censorship" is a much-maligned term with enough emotional impact to bring the dullest student out of his desk in a screaming rage. It is one of those words with enough explosive effect to always raise a furor on any campus.

It is a very much misused term. An editor in the process of choosing what to include in and exclude from his publication is not a censor. He exercises a prerogative given by his title to discard some material as less suitable than other.

Any editor who does not practice this is not worthy of the name.

Yet people who should know better are the first to scream "censorship" when some pearl of wisdom or gem of opinion of their own is cut out. They're misusing the term.

They'll scream "censorship" too when the publisher of a periodical exercises his right to make broad policy decisions. These may involve some changes. In some cases this extends even to firing staff members. But as financial or licensing authority for the publication, the publisher has every right to dictate—within the bounds of truth and expediency—the overall purpose of that publication.

Just try to find a commercial publication where these two—the editor and the publisher—do not exercise their respective authorities.

This is not censorship. With the possible exception of the recent Harbinger incident, there is no censorship at Tech.

Even this case—if it is really censorship—must be placed in a special category, for there was no systematic attempt to regulate overall coverage in the magazine.

Censorship is the organized and continual control and review of all matter to be published by

an authority higher than the editor-in-chief of that publication.

The Toreador is an uncensored newspaper. La Ventana is an uncensored annual. And, we suspect, the Harbinger is an uncensored quarterly.

Certain general rules are laid down by the publisher—Texas Technological College—for the publication of each of these student efforts, however. The college has every right to do this. The college—as licensing authority—has the duty to define the purpose of each.

It is then up to the respective editors to follow these generally reasonable rules. If they are not followed, the college, represented by a person or persons in authority, must take steps to see that they are adhered to. In some cases this requires cutting out—or "censoring" if you like—some material.

Even then, as far as the student newspaper is concerned, the person who did the cutting over the editor's objections must submit his reasons in writing to the Publications Committee.

Not by any stretch of meaning can this be called "censorship."

Whether this applies in the present Harbinger controversy cannot be determined due to conflicting stories of the editors and faculty members involved. Certainly if the material passed preliminary approval, it should not have been cut after it reached the press. On the other hand, if it was rejected earlier, the article should not have been submitted by the editors for printing.

Either way, "censorship" does not exist at Tech. Let's watch our words.

Bill McGee

Tech Faculty Members To Attend N.M. Meeting Of Philosophical Society

Three Tech faculty members—Dr. Ivan Little, Dr. J. T. McCullen, and Charles Hardwick — will attend a meeting of the New Mexico Philosophical Society in Albuquerque, N.M., this weekend.

Dr. Little, Tech philosophy professor and assistant dean of arts and sciences, is vice president of the New Mexico society. He will be chairman of one of the night sessions.

Dr. McCullen, English professor, will read his paper, "Tragedy: A Clash of Opinion and Knowledge."

Hardwick, also a Tech philosophy professor, will read "Doing Zen and Doing Philosophy."

Dr. R. C. Goodwin, Tech president, has invited the organization to meet at Tech next year. Tech is one of the few Texas schools in the group.

Ooops! Our Error

A story in Wednesday's DAILY TOREADOR failed to recognize Wendell McClendon as winner of the Roscoe Wilson Memorial Scholarship in foreign languages.

Recognition also went to William Clark for his NDEA graduate scholarship in German to Rice University, and to Curtis Bradford for his graduate teaching assistantship in French to the University of Wisconsin.

The awards were made at the Tech foreign language department's annual awards banquet in the Union Ballroom.

HOW TO SEE EUROPE FOR ONLY \$300 A DAY: NO. 1

Summer vacation is just around the corner, and naturally all of you are going to Europe. Perhaps I can offer a handy tip or two. (I must confess that I myself have never been to Europe, but I do have a French poodle and a German shepherd, so I am not entirely unqualified.)

First let me say that no trip to Europe is complete without a visit to England, Scotland, Wales, Ireland, France, Germany, Spain, Portugal, Italy, Liechtenstein, Holland, Belgium, Luxembourg, Switzerland, Denmark, Sweden, Norway, Finland, Poland, Czechoslovakia, Latvia, Lithuania, Estonia, Russia, Greece, Yugoslavia, Albania, Crete, Sardinia, Sicily, Hungary, Rumania, Bulgaria, Lapland, and Andorra.

Let us take up these countries in order. First, England.

The old ones are thrown away

The capital of England is London—or Liverpool, as it is sometimes called. There are many interesting things to see in London—chiefly the changing of the guards. The guards are changed daily. The old ones are thrown away.

Another "mist" while in London is a visit to the palace of the Duke of Marlborough. *Marlborough* is spelled *Marlborough*, but pronounced *Marlboro*. English spelling is very quaint, but terribly disorganized. The late George Bernard Shaw, author of *Little Women*, fought all his life to simplify English spelling. They tell a story about Shaw once asking a friend, "What does g-h-o-t-i spell?"

The friend pondered a bit and replied, "Gostee." Shaw sniggered. "Pshaw," said Shaw. "G-h-o-t-i does not spell gostee. It spells fish."

"How is that?" said the friend. Shaw answered, "Gh as in enough, o as in women, ti as in motion. Put them all together, you get fish."

This was very clever of Shaw when you consider that he was a vegetarian. And a good thing he was. As Disraeli once remarked to Guy Fawkes, "If Shaw were not a vegetarian, no lamb chop in London would be safe."

But I digress. We were speaking of the palace of the Duke of Marlborough—or Marlboro, as it is called in the United States. It is called Marlboro by every smoker who enjoys a fine, rich breed of tobacco, who appreciates a pure white filter, who likes a soft pack that is really soft, a Flip-Top box that really flips. Be sure you are well supplied with Marlboros when you make your trip abroad. After a long, tiring day of sightseeing there is nothing so welcome as a good flavorful Marlboro and a foot-bath with hot Epsom salts.

Epsom salts can be obtained in England at Epsom Downs. Kensington salts can be obtained at Kensington Gardens. Albert salts can be obtained at Albert Hall. Hyde salts can be obtained at Hyde Park, and the crown jewels can be obtained at the Tower of London.

The guards at the Tower of London are called Beefeaters because they are always beefing about what they get to eat. This is also known as "cricket" or "petrol."

Well, I guess that about covers England. In next week's column we will visit the Land of the Midnight Sun—France.

©1963 Max Stralman

Wherever you may roam in Europe and in all fifty states of the Union, you'll find Marlboro ever-present and ever-pleasant—filter, flavor, pack or box.

Swim Wear Features Soft, Two-Piece Look

By VIVIAN WOODSIDE and JAN STOCKTON
Toreador Staff Writers

Summer is coming on and the call of the water is in the air. Thus Tech coeds are beginning the annual quest for that certain look in swim wear that will knock the beachboys for a loop!

And so this year, coeds will find that feminine as a powder puff, or feminine in a streak of stripes, but always feminine is the most important feature of the new swim suits for '63. The look is soft, relaxed...

AND TWO-PIECED! Keynoting this summer's swim fashions are two-piece suits with regular tops or overblouses and belted styling. Highlighted by such exciting design details as high bib fronts and the still-popular daring low backs, a swim suit carries the two-piece effect, even if it isn't. For example, a softly belted suit with a fake overblouse or a one-piece suit with stripes at the hip level.

Hip Level Accented

Speaking of the hip level... hip-huggers have come into their own. According to Lubbock shops, major accent this season rests on the hip level. Most suits have a color split at this level or an eye-catching trim. Neatly fitting into this new trend is the shift-type

swim suit in a carryover from the dress fashion. Stylish maillot legs or little boy legs, add just the right touch to the swimsuit.

COLOR IS OF major importance this year, but not any particular color. As long as it's bright and bold, it will do nicely for the surfing season. Stripes and prints seem to be favored somewhat, but the solid color is always good.

Beach Accessories

Carrying out the gaiety of the modern swim fashions are floral swim caps and beach coats. The fancy and highly decorated caps are depicting a new trend, as the fun hats are definitely out! Each jacket naturally follows the shift line. Some could even pass for day time dresses except that they are shorter and slit higher up the sides. The matching beach coat is particularly sharp this year, but contrasting beach accessories are running a close second in the fashion race.

Sigma Kappa Hosts Mr. Pledge Dance

Mr. Pledge will be announced Friday at the annual Sigma Kappa Mr. Pledge Dance at the National Guard Armory from 8-11 p.m. The Caravans will provide music.

Mr. Pledge, who will receive a traveling trophy, is chosen from candidates nominated by each fraternity.

All Tech students are invited. The dress is casual.

Does a man really take unfair advantage of women when he uses Mennen Skin Bracer?

All depends on why he uses it.

Most men simply think Menthol-Iced Skin Bracer is the best after-shave lotion around. Because it cools rather than burns. Because it helps heal shaving nicks and scrapes. Because it helps prevent blemishes.

So who can blame them if Bracer's crisp, long-lasting aroma just happens to affect women so remarkably?

Of course, some men may use Mennen Skin Bracer because of this effect.

How intelligent!

Red Raider Relays Attract Top High School Cindermen

Saturday's Red Raider Relays have now attracted 40 schools and 77 entries, not including those on the two relays.

The pole vault and century seem to be the strongest events, as top athletes have entered in each of them.

Gary Hobson of Kermit paces the assault on David Jefferies' 13-10 pole vault mark, while Larry Moon of Dallas, Bryan Adams and Mark King of Midland have both also entered. Hobson has cleared 14 feet this year.

Jerry McCullough of Brownwood and A. J. Williams of San Angelo, both of whom have run the 100 in 9.6, will lead the attack on that record. Monte Stratton of Breckenridge, Robert Houlette of Dumas and Ken Deckard of Kermit, all of whom have broken 10.0 will also enter the event.

High Jump Top Event

The high jump may be one of the top events also, as Craig Fox of Denver City, Mike Toon of Henderson, Jerry Utrecht of O'Donnell, Robert Saugroves of Muleshoe, Jim Flowers of Miami, and Kenneth Coffey of Roosevelt

have entered. Each of them has cleared at least 6-2.

The Red Raider Relays lost a great drawing card in Randy Matson, the Pampa weight thrower, as he announced he will travel to the Corpus Christi Relays Saturday night.

Also going to Corpus is Gail Read of Snyder, whose 18.5 in the low hurdles is the best time in the state.

FROM THE BENCH by artie shaw

SNAGALPUSS, MAYBE?

At last Saturday's intrasquad Red-White battle, I sat in the comfortable press box high above Jones Stadium.

DAILY TOREADOR editor, Charles Richards, had taken former TOREADOR sports editor, Jim Richardson, and me to those lofty heights to view the skirmish on the field far below.

During our stay several comments of interest were overheard.

One of the most humorous and useful came after fullback Leo Lowery ripped off another of his bulldozing gains.

"Leo the Louse," someone said.

"No, Leo the Lion," said another voice, "That's a better name for him."

The Voice? That of obviously elated Polk Robison, Tech's director of athletics.

WHERE'S CHARLIE ATLAS?

SMU hurdler Bob Johnson has proven to be one of the funniest people in the Southwest Conference. When he finished a disappointing third in the highs in a recent meet, Johnson reported this reaction from Coach McAdoo Keaton: "Coach didn't say a word. He just handed me a cushion with a dagger on it."

And, after being teased about his bony build, Johnson admitted he is thinking of a weight program: "I've been trying to get on one since junior high, but I can't get the weights out of the trunk."

WE'RE NOT THE ONLY ONES

News from Forkerland has led me to believe there is hope yet.

The Forker baseball team has just returned home from a disastrous road trip. And, home ought to look mighty good to the bedraggled Razorbacks, as they lost their proverbial shirts on a recent road trip. Fortunes took a tumble as they lost five of six games on the road, traveling through Louisiana and Mississippi. They had left the U of A campus only a week before with a respectable 7-4 mark.

Last year, their 8-3 road trip highlighted an otherwise poor season. Now they've got to win at home to break even or better for the fourth straight year.

The correlation is somehow obvious. Tech's quickly improving Raider nine has won only one contest away from home, while dropping six. At home they have emerged victorious in six of eight.

And, even that lone victory was a close call. It came at the hands of ACC—a narrow 2-0 margin.

This weekend the Raiders travel to Highlands for a three-game series, hoping to up that road percentage from .143 to a better, yet still mediocre, .400.

Shaw Named Sports Editor

Artie Shaw, Olton sophomore, has been named by DAILY TOREADOR editor Charles Richards to succeed Ray Finer as sports editor.

Finer has taken a job on the advertising staff of the TOREADOR.

Shaw, who transferred to Texas Tech from the Munich Campus of the University of Maryland, was assistant editor and sports editor of the "Continental," a weekly publication of that branch of the U. of Md.

Intramural Corner

By JIM WESTBROOK
Toreador Sports Writer

Preliminaries in wrestling and weightlifting were held last week and finalists in each weight class were decided. The finals are to be held May 2, at Noche de Conquistadores.

Finalists and their weight classes in wrestling are as follows: Rodney Pace vs Richard Aldrich, the defending champion, 123 lbs.; Charles Greener will meet Buzz Roman for the championship in 130 lbs. class. In the 137 lbs. division Bill Engle won over James Marshall in 1:40 of the third period. This was the championship in this division. Finalists in the 147 lbs. class are Alan Fetzer and David Boyden. In the 157 lbs. division John Lee is the only finalist decided so far. His opponent will be decided from a semi-finals match between Lann Van Norman and Larry Lyde.

Eugene Holt defeated Larry Strickland and will meet Knox Pittard, who drew a bye, for the championship in the 167 lbs. class.

Edwin Meyer, who drew a bye, will wrestle Bill Lewis in a semi-finals match to determine who meets Bill Spahn for the championship of the 177 lbs. division. Spahn had earlier defeated John Pruitt. John Montgomery will wrestle Sam Weaver with the winner meeting Jimmy Lewis. Then the winner of the semi-final match will meet Rex Miller for the championship of the 191 lbs. class. Miller is already in the finals via his win over Terry Baylor.

In the unlimited class the winner of the match between Fred Alexander and Jack Sanford will meet Jake Glickman in a semi-finals match. The winner of this semi-finals match will then meet George Smith for the championship. Smith gained the finals by besting Mike Mady in an earlier match.

Finalists and their weight divisions are: Rodney Pace, 123 lbs.; Martin Cargalle and Johnny Brummett, 132 1/4 lbs.; Don Nagai and Noel Long, 148 lbs. In the 165 lbs. class are Lanny Beaty, who set a new record for clean and jerk of 285 lbs., and Ed Jackson. Tommy Porter, who set a new record of 200 lbs. in the snatch, and Dale Vick are in the 181 lbs. class. Finalists in the unlimited class are Ross Woodson and Conrad Mullin.

Two Years Ago This Week In Sports ...

Two years ago this week in sports the Raiders had just played their last home game of the 1961

POLK ROBISON
... Led Tech to title

baseball season, winning over Southwestern College of Oklahoma, 5-4, on Charlie Harrison's ninth inning, two-run homer. It was the sixth consecutive win for the Raiders, and the twelfth of sixteen for the season. It was come-from-behind effort, as Tech overcame three one-run Bulldog leads ... Tech's sprint medley team finished second to Oklahoma State in that event, clocking a 3:23.5 at the Kansas Relays ... The golf team downed Baylor at Meadowbrook, 4 1/2-1 1/2, as Raider ace Chris Blocker lead the Tech foursome by shooting a marvelous five-under par to down Baylor ace, Ray Stoker. Stoker had previously been undefeated in competition ... Phi Epsilon Kappa, men's physical education fraternity, grabbed 56 points to run away with the Intramural Track Meet on the Tech track. Ross Grief, a member of the winning team, was high individual man, as he gained 15 points. Grief won the low and high hurdles ... Texas Tech was just approaching the fifth anniversary of its entrance into the Southwest Conference. Tech was admitted on May 12, 1956, and had since won SWC trophies — the golf championship in 1959, the basketball championship in 1961 and the sportsmanship trophy in 1960.

Harding Is Expert At Aiding Students

"Down through the years, the interest of his students has always come first for John Harding."

These were the words spoken by J. C. Chambers, immediate past president of the Ex-Students Assn., in regard to Harding, an

JOHN HARDING

assistant professor of economics at Tech.

Chambers added that Harding has been an inspiration to the thousands of students he has worked with in both classes and organizations during his long association with the college.

Student body vice president Jer-

ry Parsons spoke highly of Harding's work in their fraternity, Phi Delta Theta. Harding is currently serving as province president of the organization. He was faculty sponsor for Silver Key and has continued to serve in that capacity since its affiliation with Phi Delta Theta. Parsons said, "He has helped us more than most people realize. He is always ready to help with any problem that might come up."

Jim Deen, Phi Delta Theta vice president, noted that Harding was always available to help out, whether it was fraternity or personal business.

Harding was instrumental in lining up the Community Service Day project for the chapter this year at a nearby boys ranch.

Until two years ago, Harding was freshman adviser for the School of Business Administration. At that time he left the post to become a full time instructor.

In addition to his college duties Harding is actively engaged in farming and ranching. He is married and the father of two children. Other college organizations to which he belongs are the Century Club and the Ex-Student's Assn.

Sigma Delta Chi is proud and honored to list the name of John Harding among its 1963 Awards winners.

For Union, MUN Work

Moeser Gains Recognition

Most people on the Tech campus have heard of John Moeser. However, many aren't quite sure if it's "Mow-ser" or "Me-ser."

Moeser has accomplished in two years — he is a sophomore — the work average student leaders

JOHN MOESER

take four years to do. A steady, dependable and imaginative worker in the Tech Union where he has found an opportunity to serve Tech, Moeser gained recognition from the student body this spring for his outstanding performance as chairman of the Union's International Interest Committee.

He was instrumental in initiating the first Model United Nations at Tech. His leadership as secretary - general of the Model U.N. has been cited by many Tech-sans as one of the main reasons why the program was such a great success. As chairman of the International Interest Committee, he spent many daytime and nighttime hours planning and directing the extensive program. His eloquent speaking during the event has marked him as one of the best orators on campus.

Presently Moeser is serving Tech as the Union's Public Relations Director — a job that requires time—and a member of the policy-making executive committee.

"John has done a tremendous job and has excellent grades. He has made the International Interest Committee a very important one in the Union," Mrs. Karen Moore, Union program director, said.

The Union has honored him several times with awards and achievement certificates. He was recognized at the All-College Recognition Service.

Moeser, a little, articulate guy who always seems to smile, gave a fine example of his character recently when student government and Union officers met to nomi-

nate people to the presidency of the Union. Upon being nominated, he withdrew his name. Later he told close friends that he felt he could do a better job for the Union and Tech as Public Relations Director.

A government major, Moeser is a member of Sigma Alpha Epsilon social fraternity, the Baptist Student Union and Phi Eta Sigma. He is mission chairman for the BSU this year, and he served as devotional chairman last year.

An enthusiastic person in the

classroom, Moeser can get deeply into political theory. Right now he is working on a research paper examining the pros and cons of political parties, especially their application to the university campus.

Because of John Moeser's contributions to building a greater Texas Tech, Sigma Delta Chi breaks with tradition to honor him. He is the first sophomore to be recognized by SDX.

By - the - way, it's pronounced "Me-ser."

*"Quality is Never an Accident
But the Result of Intensive
and Sincere Effort."*

With these words We Salute —
Royal Furgeson
James Cole
Ronnie Botkin

TEAM AND COACH—The Texas Tech Crops Judging Team scored remarkable victories for the college in two top national contests. —Staff Photo

At Kansas City, Chicago

Crops Team Is Winner

Sigma Delta Chi congratulates Frank Burkhart, Joe Dwyer, Lavall Verhalen and Royce Turner for their success in the National Collegiate Crops Contest in Kansas City and the International Collegiate Crops Contest in Chicago.

These men have brought distinction to the agronomy department at Tech. They were the winners of twin national championships in crop judging and dominated the national judging.

Coach Cecil Ayers, professor of

agriculture, said, "We certainly are proud of the accomplishments of the boys. Out of the last 15 years we have had teams to win both meets, but never by such a sweeping margin. This was the best of many good teams I have coached. They set a record to be proud of."

Burkhart, of Vernon, graduated last semester and is now employed at the Lubbock Lindsey Seed Granery. While a student, he was a member of the Agronomy Club and held the office of president last fall.

Turner, Muleshoe senior, is now working on the family farm at Muleshoe. While in college, he was a member of the Agronomy Club and held the office of vice president.

Verhalen, Knox City senior, was second place in the individuals of Kansas City's seed analysis competition and was top winner in commercial grading at Chicago. He is also the all-time high man in the Chicago's contest history.

On winning this honor, Verhalen said, "I'm absolutely speechless, it was quite an honor."

Verhalen is also a member of Phi Kappa Phi, scholastic honorary; the Newman Club and the Agronomy Club, where he has held the positions of vice president and corresponding secretary.

Dwyer, Lubbock junior, was an alternate at the crops judging contests. He is a member of the Agronomy Club and is president of Alpha Zeta agriculture fraternity.

These are the agronomy department's men of distinction.

SDX Strives To Raise Journalistic Standards

Sigma Delta Chi, professional journalistic society, is a professional society for men engaged in journalism, dedicated to the highest ideals in journalism, and is comparable to those professional organizations serving the fields of medicine and the law.

Raises Standards

In this unique role, Sigma Delta Chi constantly endeavors to raise the standards of competence of its members, to recognize outstanding achievement by journalists and to promote recognition of the fact that journalism is a true profession.

Founded In 1909

The fraternity was founded at DePauw University, Greencastle, Indiana, April 17, 1909, by ten undergraduate students. A non-profit, voluntary association, it now has a world-wide membership of men engaged in virtually every

field of journalism. Its membership extends horizontally to include men engaged in the communication of fact and opinion by all media, and it extends vertically to include in its purposes and fellowship all ranks of journalists.

—From "Toward a Better Understanding of Sigma Delta Chi."

Purpose Of Sigma Delta Chi

1. To associate journalists of talent, truth and energy into a more intimately organized unit of good fellowship;
2. To assist the members in acquiring the noblest principles of journalism and to cooperate with them in this field; and
3. To advance the standards of the press by fostering a higher ethical code, thus increasing its value as an uplifting social agency.

Drs. Gates, Last Of 1925 Faculty, Retire

With a combined record that totals more than 60 years of service to Tech, Dr. William Bryan Gates and his wife, Dr. Eunice Joiner Gates, will retire from the college faculty this spring.

What are the impressions they will leave behind on a busy campus of 12,000 students, faculty members and educators and general staff members? The absence of two figures who have become so instilled in this atmosphere of teaching and learning will certainly not go unnoticed.

"Their leaving will create a void that will be difficult to fill," said Dr. Robert C. Goodwin, Tech president. Dr. Goodwin has been a colleague of the Gates' in the School of Arts and Sciences.

Dr. and Mrs. Gates are the only two remaining members of the original faculty when the doors of this institution were first opened in 1925.

Their span of service at Tech may be colorfully illustrated by a statement made by Mrs. Gates during a recent Spanish class. She mentioned that, several years previously, she had taught the father of one of the students in the class.

"So, you see, I'm really a grandmother to her," she smilingly quipped, with tongue in cheek. "Just the other day a former student of mine called and said, 'You told me what to do 30 years ago — now (that you're retiring) I'm going to tell you what to do!'"

Dr. Gates is currently serving as professor of English and dean of the Graduate School. Mrs. Gates is professor of Spanish and Portuguese.

Due to a heavy enrollment in freshman English, Mrs. Gates taught in that area when she first came to Tech. After receiving her Master's and Ph.D. degrees in for-

eign languages she moved on to that department. In 1936-37 she was acting head of the department of foreign languages, and was made a full professor in 1945.

Besides his position as English professor, Dr. Gates has been assistant dean of Arts and Sciences

WILLIAM B. GATES

and English department head. He has been Graduate Dean since 1950.

"Throughout the years the department of English has profited immensely from the presence and leadership of a literary scholar of Dean Gates' achievement," said Dr. John C. Guilds, present English department head. "The department is indeed fortunate to have his continued service as professor of English after his retirement as Graduate Dean."

Even in retirement, the two professors will not be "retired." Dr.

Guilds here refers to Dr. Gates' plan to teach part-time during the 1963-64 school year. Mrs. Gates will write a textbook for Portuguese students.

"I have found Dr. Gates the easiest person to work for," said Mrs. Irene Temple, who has been employed in the Graduate School offices for almost ten years. "This is the most pleasant place I've ever worked and I've certainly enjoyed every minute of it."

"Dr. Gates has done a tremendous amount of work for Tech — especially in the academic sense," she continued. "There have been many changes in regulations governing the Graduate School under his administration. Standards have definitely been raised. Dr. Gates should have the entire credit for this. The Graduate Council has helped, of course, but the majority of the improvements have been due to his leadership."

"I think Mrs. Gates is a most

outstanding teacher," said one student, "so ladylike, thoughtful, conscientious and kindly."

EUNICE JOINER GATES

"Mrs. Gates is the fairest teacher I've ever had," another said simply.

Other random comments by students contacted included the statement, "She's such a scholar and student herself."

"Don't be satisfied with what you learned last year," she recently urged a class. "You don't make any progress that way." After all, when you consider your life expectancy, four years is really a very short time to be spent in securing an education."

Perhaps the secret of the success of Dr. Gates and Mrs. Gates as educators may be found in a story concerning them in the 1962 Homecoming edition of the *TOR-EADOR*. When the reporter asked them if they had any advice for contemporary students, their answer was an unhesitated, "Study."

Sigma Delta Chi salutes Dr. and Mrs. William B. Gates.

Congratulations Seniors

And wishing you . . .
a Successful Future

"ON THE CAMPUS"

Mrs. Allen 'Retires' To Other Endeavors

A woman of tremendous health, energy and vitality . . . a person who has packed a remarkable amount of achievement into a 30-year career at Texas Tech . . . who has been active in countless organizations . . . and perhaps most important of all, a teacher with personal interest in her students . . .

All these things are Mrs. Louise

LOUISE C. ALLEN

Allen, associate professor of journalism at Texas Tech.

JOURNALISM department head W. E. Garets says simply that "She's an amazing woman."

Other professional associates speak first of their immense respect for her — both as a journalist and as a woman with uncanny understanding of student needs and problems.

Legion of ex-students recall her many-faceted professional achievements, her concern for their ca-

reers after they leave school, and in the words of one, "a friend."

MRS. ALLEN announced she will "retire" this spring to devote her time to an intensified schedule of writing and research — a field in which she is already prominent.

A textbook on radio and television writing, numerous contributions to magazines and a regular community newspaper column already number among her achievements.

Her work in professional, civic and Tech organizations speak of years of devotion and activity.

SHE SPEARHEADED formation of the Women's Press Club at Tech in 1938 and guided this organization until it became a chapter of Theta Sigma Phi, honorary women's journalism fraternity, in 1941. She has served as sponsor of this group since that time, many times acting in the additional role of confidante and advisor. She has also sponsored Sigma Kappa social sorority.

Sandwiched in with this schedule of teaching and writing, Mrs. Allen served actively in Lubbock civic affairs.

SHE WAS president of the Lubbock branch of the American Association of University Women.

In 1956 she was Lubbock's "Woman of the Year." She has also been honored in "Who's Who of American Women" and in "Texas Women of Distinction."

But perhaps the people who have been personal associates with Mrs. Allen, and those who have been her friends picture her most accurately.

"**MRS. ALLEN** has one of a teacher's greatest qualities — a personal interest in students as individuals . . . I hope we always remember her example no matter how large Tech becomes," Adrain

Vaughan, Tech director of public information, said.

This quality was further explained by Phil Orman, director of student publications. "Whenever you run into an ex-journalism student anywhere, their first question is 'How is Mrs. Allen?' And the last thing they say is 'Give my love to Mrs. Allen.'"

RALPH SELLMAYER, instructor in the journalism department, painted the same picture. "She has been the prime force in the department for many years in keeping track of our graduates, helping them find or change jobs and in publishing a newspaper of ex-students journalism activities."

Freda McVay, a former student, described her as a woman "who has made a tremendous contribu-

tion to the women at Tech, as a leader, advisor . . . and most importantly, as a friend."

BUT GARETS, as head of the department, has a view of Mrs. Allen as a person whose energy won't let her hear these words.

"I think she'll do a great deal of writing," Garets said, "all of which will reflect favorably on this institution."

The same record that speaks for Mrs. Louise Allen now is still growing.

Press Freedom Is SDX Concern

Sigma Delta Chi long has been aware of the threats to freedom of information. It frequently has sounded the alarm to warn the profession and the public whenever it saw these freedoms endangered.

Since 1946 Sigma Delta Chi has maintained a standing committee instructed to take an active, aggressive leadership in this cause and to cooperate with existing groups working for advancement of freedom of information. Since 1942 the society has maintained a clearing house for freedom of information at its National Headquarters.

3 QUESTIONS

to ask before you buy any one single life insurance policy

1. Will it provide a cash payment large enough to cover heavy immediate expenses and enable your family to get a fresh start free of debt?
2. Will it guarantee a monthly income to help raise and educate your children?
3. Will it help take care of your retirement?

Equitable's new Planned Security Policy provides for your family, if you should die: 1. Lump sum cash payment to beneficiary. 2. Monthly income while children are growing up. For you, if you should live: 3. Cash for your own retirement. All at an unchanging, low premium. To find out more about the new Planned Security Policy, exclusive with The Equitable, call The Man from Equitable.

Industrial Engineers Win First

Industrial engineering department took its fifth straight first place in the recent Science and Engineering Show.

Industrial engineering exhibits demonstrated techniques in production control, plant design, materials handling, work measurement, statistical quality control, product design, manufacturing analysis and organizations research.

Displays in the 31st SE annual show were judged on appeal to the public, explanation of department curriculum and presentation of exhibits.

The industrial engineering display received 3,705 points of a possible 4,000.

Bud Lanham was chairman of the department's exhibit. American Institute of Industrial Engineers and Alpha Pi Mu set up the displays.

READY TO STOMP—Judy Richards, junior, and Bob Fouts, senior, are all decked out for the Phi Mu western dance 8-11:30 p.m. today. Jimmy Heap's Band will play for the open dance at Vann's Catering Service. —Staff Photo

Delegations Plan Trips

Delegates from Tech's history department will scatter to state and regional history meetings in Austin and Albuquerque this weekend and next.

Four faculty members will represent Tech at the Texas State Historical Assn. meeting this weekend. The Austin meet begins today and continues through Saturday. Dr. David Vigness, department head; Dr. Ernest Wallace, professor; Billy Mac Jones, instructor and Richard Marcum, teaching assistant, will attend.

Tech's chapter of Phi Alpha Theta, history honorary, will send five representatives to a regional meeting in Albuquerque, N.M., Friday and Saturday, May 3-4.

Attending will be Dr. Paul Woods, history professor, and Lt. Col. George R. Hull, professor of air science.

Ronald Benson, teaching assistant, will present a paper on the Hay-Pauncefote treaty.

Nancy Vincent, Alpha Theta president, and Sarah Gaston, Austin junior, are Tech's student representatives.

Why Do You Read So Slowly?

A noted publisher in Chicago reports there is a simple technique of rapid reading which should enable you to double your reading speed and yet retain much more. Most people do not realize how much they could increase their pleasure, success and income by reading faster and more accurately.

According to this publisher, anyone, regardless of his present reading skill, can use this simple technique to improve his reading ability to a remarkable degree. Whether reading stories, books, technical matter, it becomes possible to read sentences at a glance and entire pages in seconds with this method.

To acquaint the readers of this newspaper with the easy-to-follow rules for developing rapid reading skill, the company has printed full details of its interesting self-training method in a new book, "Adventures in Reading Improvement" mailed free to anyone who requests it. No obligation. Simply send your request to: Reading, 835 Diversey Parkway, Dept 9894, Chicago 14, Illinois. A postcard will do.

Zsa Zsa Stars In Union Show

Mel Ferrer and Zsa Zsa Gabor star in "Lili," a technicolor movie, at 4 p.m. and 8 p.m. today and 2:30 p.m. Sunday in Tech Union Coronado Room. The Special Events Committee is sponsor.

Grads Discuss Negro Novelist

Grover Lewis and Nolan Porterfield, graduate English students, will lead the discussion at today's Noon Forum in the Tech Union Blue Room.

Discussion topic is contemporary Negro novelist, James Baldwin. Baldwin is author of "Another Country."

Purdue Prof Lectures On European Market

Competition from the European Common Market will force the U.S. to move rapidly if it is to hold onto its world markets or consider expanding them, according to Dr. James Greene, industrial engineer and visiting lecturer at Tech.

His ideas may carry some special weight since he has recently been a consultant to the European Production Agency, a division of the Common Market's organization.

"The U.S. must find ways to produce goods with more efficiency," he declared. "This presents a challenge to our industrial engineers."

Dr. Greene, a Purdue University professor, is spending three days, Monday through Wednesday, at Tech. He is conducting seminars in general industrial engineering research, production control and operations research.

Positions Open For L-V Staff

Applications are now being accepted for associate editor, copy editor and staff artist for next year's La Ventana.

Students interested in these positions should write a letter giving their qualifications, past experience on an annual or newspaper, why they want the job and any new ideas they may have for next year's La Ventana.

Past experience is not necessary, but preferable. Applications should be turned in to the La Ventana office or to either Johnnie Lu Raborn or Travis Peterson by May 1.

These are paid positions, and applicants should be willing to put in a great deal of time.

HONORARY MEETS

Psi Chi, psychology honorary, will meet at noon today in Tech Union, Elmer's Lounge. The group will initiate members and present a slate of officers. Those attending must sign up in the psychology office, X-31.

SURROUNDED—Carol McCormick, Ennis sophomore, was surrounded by cadets from England's Royal Air Force after their captain said, "If I were you blokes, I wouldn't let these ladies sit alone."

As I see it . . .

by johnnie lu raborn

"You think we speak the same language, but we don't," said one cadet from Cranwell, the Royal Air Force Academy in England. I had to agree with him.

Tech's Angel Flight was visiting the Air Force Academy in Colorado Springs. Some were dated with English cadets, who were also visiting. It was a real education.

For years, I've heard the English stereotype came out with "jolly good," "old chap" and "ra-ther." They are all true with the addition of an occasional "quite" and "Oh, my yes."

In England, you are not "out to lunch" but "around the corner." When we have a lousy date he is called "cull" or "bad head," but Cranwell calls them "grimmies."

'MAKING OUT'

It is a mystery how they got it but "cupeake" is said for "making out." Tennis shoes are called "blimp shoes," and a resounding "dash it" means darn or damn.

We Americans take much for granted. These cadets had never seen a drive-in movie or drive-in restaurant. Motels were also new, for they don't exist in England. Some of the guys got their first taste of pizza, Mexican food and pretzels. They didn't like it.

'STATUS SYMBOL'

It is a status at our Air Force Academy for the "firsties" or seniors to have Sting Ray Corvettes. That vast parking lot is full of them. I didn't see five cars under two years of age. The Cranwell "chaps" find it "marvelous" to get to ride bicycles when seniors. They do have cars, but generally these are somewhere in the 30's models. A car 10 years old is relatively new.

I did notice one thing about the cadets as a group. They abounded with national pride. One said, "There will always be an England." To which some of the U.S. cadets sort of laughed. A Cranwell "troop" recounted with a "Don't scoff at it, national pride is a wonderful thing." Their pride was so emphasized that it made me wonder if we "came over" the same way about our country.

On Saturday night, a formal ball was given for our flight, Cranwell and first classmen (seniors) at the academy.

The British boys taught us one way to live up a rather stiff dance. During one of the songs, one Cranwell "troop" yelled "Ants." The cadets immediately fell down on the floor, rolled over on their backs and kicked their feet and arms into the air. At the sound "dead ants," the legs and arms went stiff. Rather quaint, I'd say, but still effective enough to break everyone up.

GHOUL POOL

The Angels with U.S. Academy dates were wondering that night if they were included in the "ghoul pool." It goes like this. The academy hosts arrangements for blind dates for the formals. Cadets within each squadron enter a "pool" for 25 cents. At the dance, squadron officers act as judges and dance with the dates of each cadet entered in the pool. Afterwards, these officers decide which had the worst date and he wins the money. If we did it here, I would be rich.

AS I SEE IT

Sigma Kappa will choose a "Mr. Pledge" at 8 p.m. today in the National Guard Armory. Mr. Pledge will be chosen from fraternity pledges. The Caravans will play for the all-school dance.

Phi Mu will have a western stomp, 8-11:30 p.m. at Vann's Catering Service. The open dance will feature Jimmy Heap's band. Tech Union also is having a western dance from 8-11:30 p.m. in the Ballroom. Jimmy Mackey is playing.

KAPPA KAPPA GAMMA

An informal "German Beer Garden" will be the setting for the Kappa Kappa Gamma dinner dance at 6:30-11:30 p.m. today.

Delta Sigma Pi will have its Rose Dance from 7:30-12 p.m. Saturday at the Pioneer Hotel.

Newman Club will go on a picnic Sunday to Palo Duro Canyon.

Red-White Skirmish Ends Spring Training

Scarborough, Ben Elledge Opposing QBs

By ARTIE SHAW
Toreador Sports Editor

A pair of shining freshman quarterback prospects will be opposing each other at 4 p.m. in Saturday's final spring training scrimmage.

Featured will be Danny Scarborough of Quanah and Ben Elledge of Brownwood.

The annual contest is the rubber game of the series, as the Reds jumped to a quick two-game advantage, only to have it taken away from them in the last two outings by the underdog Whites.

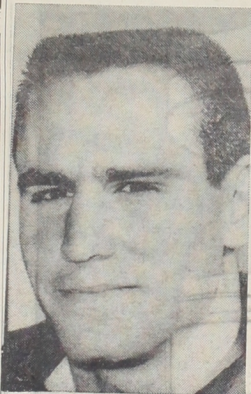

Two upperclassmen quarterbacks, Bill Worley of Midland and James Ellis of Lubbock, underwent knee surgery in December and will probably not see action, although they will be suited.

Statisticians Overworked

With both the Reds and the Whites threatening to "loosen-up" their previously tight offenses, the stress could be worse on the statisticians than on any one else.

Last week the Reds gathered 364 yards of total offense in a losing cause, while the Whites haled and threw for 277 in their 20-12 victory.

Long gainers have been the word of the day thus far, and any

BILL WORLEY

. . . Will not see action

more would be just icing for the cake.

Jim Zanios, Albuquerque fullback, for example, took a handoff from Red quarterback Ben Elledge and raced 52 yards off tackle in a spectacular gainer.

Elledge connected on two long passes, one to all-Southwest Conference end, David Parks, for 44 yards and another to Stimmert halfback, Donny Anderson, for 41 yards.

For the rubber game, each having won two contests, lineups will be exactly the same as last week. There may be a trade at halfback between David Baugh of Rotan, a Red last week and Jimmy Edwards of Roysie City, who played for the White squad last week.

Admission is \$1 for adults, 50 cents for students and Tech students will be admitted by showing their identification cards.

Traffic and Security

The staff is comprised of a chief, 10 commissioned officers, one night sergeant, two radio operators, one secretary, one clerk and two part-time employees. There are three radio-controlled patrol cars. In October, 1962, there were 6,240 cars registered to park on campus.

Tech Linksmen Meet UT At Meadowbrook

Texas Tech, in an effort to get back into the Southwest Conference golf race, engages the University of Texas here on Lubbock's Meadowbrook golf course today.

Tee-off time at Meadowbrook is 12:30 p.m.

Coach Jay McClure's linksmen, 4½-1½ losers to Texas Christian University here Monday, will also be motivated by a desire for revenge. Texas sports five lettermen from the squad that downed the Red Raiders 5-1 in Austin last year.

Texas Tech currently has a 14½-9½ standard. The Raiders lost to Texas A&M, knocked off Rice 6-0 and defeated Baylor 5-1 before dropping the match to TCU.

Texas' players will probably be Bill Munn of Midland, Randy Geiselman of Houston, Oscar Goode of Austin and Pat Thompson of Mission.

Texas Tech golfers for the match will probably be Bruce Dobie of Worcester, Mass., Richard Yates of Corpus Christi, Housty Brewer of Andrews and Jim Davidson of San Angelo.

Yates is Texas amateur champ, and lost his first-SWC match of the year to Jack Montgomery of TCU last week.

Tech Netters Challenge Rice, Texas In Important Matches

Texas Tech tennis players, in their next two matches, have a chance to influence the outcome of the Southwest Conference championship campaign.

In successive matches—against Rice University here Saturday and against University of Texas in Austin Monday—the Red Raiders tackle the teams currently sharing the lead.

Coach George Philbrick's netters, besides playing the role of potential spoilers will be out to guarantee or better their own third place position. Tech is 14-4 following wins over Baylor University 5-1 and Texas Christian University 6-0 and a split with Southern Methodist University 3-3.

Raiders' netters will be Daryl Allison of Lubbock, Greer Kothmann of Junction, Beau Sutherland of Kerville and Robert Peterson of Wichita Falls.

Rice University is led by the 1962 Southwest Conference finalist in both singles and doubles, Fritz Schunck. The Owls, coached by Sammy Giamalva, are defending Southwest Conference team champions.

Last year Rice downed Tech 6-0, and the Longhorns battled the Raiders to a 3-3 draw.

A re-match of last year's SWC finals doubles match, won by Allison and Sutherland over Schunck and DeEdward Greer, has been virtually ruled out by re-pairings on both teams.

Matches, on the Varsity Courts, will start at 1:30 p.m. The public is invited free of charge, Coach Philbrick pointed out.

GEORGE PHILBRICK
... Tech tennis coach

Pics Down AFB, 20-12

Texas Tech's Picadors picked up their eighth win of the season Wednesday as they ran away from Reese Air Force Base, 20-12.

The game, which took three hours and twenty minutes to play, was called at the top of the ninth inning due to darkness. Tech slammed out 17 hits, as converted basketballer Dadid Schmidly picked up his first mound victory of the season. Schmidly pitched the first four innings and left the game with a 15-5 lead. In his four innings stint, Schmidly allowed only four hits, while striking out six and walking three.

The Picadors were led at the plate by second-baseman Buzz Henderson, who collected four hits out of five at bats. Jim Murrell and Ronnie Holly drove in the most runs with five RBI's apiece.

"FLORA-SCENT" makes The Perfect MOTHER'S DAY Gift

Raiders Visit Highlands Nine

Two improved baseball teams—Texas Tech and Highlands University—clash in a doubleheader at Las Vegas today.

Since Texas Tech posted a pair of wins, 5-2 and 3-0, here earlier this month, the Cowboys have won six straight and now are 10-10 for the season.

The Red Raiders have a three-game streak, and five of the six, going for them. Their only loss came at the hands of the Abilene Christian College nine. Other wins are the twin-killing of Highlands and a double victory over ENMU.
