

Conference Begins Today

TeaSips Challenge Red Men

By BILL DEAN

Down, but not out following Saturday night's 66-59 loss to league-leading Texas Christian in Fort Worth, Texas Tech attempts to get back to their winning ways tonight entertaining the Texas Longhorns at 8 p.m. in the Lubbock Municipal Coliseum.

THE TECH freshmen will meet the Ince Oilers in the preliminary game at 6 p.m. The Oilers are composed of such stars as former little All-American at Raiderland, Carl Ince, Sherm Norton, E. C. Leslie, Gerald Rogers and other cage stars.

TECH'S LOSS to TCU dropped the Raiders two full games behind the Frogs. They remained in second place tie with Baylor however, as the Bears lost to Texas A&M 65-52. Both clubs have a 5-3 record.

TEXAS IS also in a tie — with Rice for last place, both with 1-6 records. The Steers latest outing was an overtime loss to Arkansas Saturday afternoon on regional TV, 77-74.

Both these teams have met before with the Raiders taking both games. The first meeting was in the SWC Tournament in Houston, Tech winning 77-75. Later the Raiders won a 64-47 decision at Austin.

THE MEETING at Austin was the rise of the "new" Raiders. After a dismal early season Tech started to play ball with Texas, **RAIDERS, Page 8 . . .**

Chemicals Is Topic Of Meet

"The Place of Chemicals in West Texas Agriculture" is the theme of the sixth annual Agriculture Chemicals Conference at Texas Tech today through Thursday.

THE CONFERENCE, which is being sponsored by Tech, Texas Agricultural Extension System, Lubbock Chamber of Commerce and the West Texas Chamber of Commerce, will emphasize profitable use of farm chemicals in 1959.

The program is being directed at agricultural chemical dealers, distributors, processors, and manufacturers, but is open to anyone interested in these chemicals and their distribution and use.

REGISTRATION begins at 5 p.m. today on the mezzanine floor of the Caprock Hotel and all sessions will be held in the Tech Union ballroom.

A panel discussion over such topics as insecticides, fertilizers, oil seed crops and gibberellic acid, led by Dr. R. L. Beacher, southern regional director of the National Plant Food Institute of Fayetteville, Ark., will conclude the conference.

SPEAKERS INCLUDE: Dick Balsler, of the Spencer Chemical Co., Kansas City, Mo.; J. Wayland Bennett, head of Tech's department of agricultural economics, W. L. Broadhurst, chief hydrologist for the High Plains Underground Water Conservation District of Lubbock.

George O. Elle, assistant dean of agriculture and professor of horticulture at Tech; Lavon L. Ray, cotton breeder for the Texas Agricultural Experiment Station of Lubbock; R. L. Horst, chief of the Denver district of Food and Drug Administration, Denver, Colo.

JOHN E. KEY, vice president of Lubbock National Bank; Thomas C. Longnecker, head of the High Plains Station of the Texas Research Foundation, Plainview; John G. McHaney, extension agronomist, Texas Extension Service, College Station; Bill Mitchellson, Spencer Chemical Co. agronomist, Tyler.

Harvey J. Walker, assistant agronomist in charge of fertilizer studies at the Texas Agricultural Experiment Station, Lubbock; F. E. Hartzler, assistant professor of business at Kansas State Teachers College, Emporia, Kan.; Ray Joe Riley, farmer and plant breeder of Dimmitt; and Alex Pope, associate agronomist, Texas Agricultural Experiment Station, Bushland.

Cuban To Tell Of Revolution

What happened in Havana? This will be the topic of discussion tonight at 7 p.m. in a joint meeting of Capa y Espada, Spanish Club, and Sigma Delta Pi, honorary Spanish fraternity, in Ad. 217.

FIRST HAND information will be given as a panel interviews Antonio Montoto, Tech freshman animal husbandry major who spent Christmas at his home in Cuba. Montoto, in Havana when the revolutionary army entered the city, heard the shots from a dentist's chair.

MEMBERS OF THE panel are Alicia Abren from San Pedro Zula, Honduras, sister of a Honduras newspaper editor; Ruth Brezalea, president of both Capa y Espada and Sigma Delta Pi; Stephany Stephens, vice president of both clubs.

If the discussion is not finished by 7:50, there will be a short recess for those wishing to leave for the basketball game.

FOR CHICAGO INTERNATIONAL

Anderson Selected

Stanley E. Anderson, associate professor of animal husbandry, has been selected to judge all individual steer classes at the 1959-60 Chicago International Livestock Expositions.

PROFESSOR ANDERSON, a native of Villisca, Iowa, is the second American to serve in this capacity since the Exposition was founded in 1900.

With the exception of Dr. A. D. Weber of Kansas State College, all steer judges at the Exposition have been from Great Britain, Canada or South America.

ANDERSON has already been recognized as one of the outstanding cattle and hog judges in the Southwest and has previously served at the Iowa State Fair and the American Royal Livestock Show. He is the Coach of Tech's student teams of livestock judges.

Judges for the Chicago Exposition are chosen by the Exposition's Board of Directors with the approval of the three major cattle breeding associations.

THE IMPORTANCE and honor

ID CARDS AT HERALD PHOTO

Students who have not picked up I.D. cards may get them at Herald Photo, 1405 College Ave., any time this week.

Registration receipts must be presented and no student may pick up another student's card.

Bernard Borie Will Lecture

Dr. Bernard Borie Jr., an authority in the field of solid-state physics, will lecture on the study of imperfections by X-ray diffraction techniques tonight at 7:30 in Chemistry 101.

DR. BORIE is with the Oak Ridge National Laboratories concerned with solid-state physics research. This involves the study of electrical, mechanical, and other properties of solid materials such as crystals. Transistors and solar batteries are two recent developments in this field.

At 4 p.m. tomorrow, Dr. Borie will be honored with a reception in the tower room of the Chemistry building. All area scientists and students are invited to meet him.

of this position are recognized because judgments at the Chicago show influence beef production patterns in this country.

Prof. Anderson attended the Chicago International eleven years ago in a different capacity. At that time he was a member of Iowa State College judging team which took first place honors at the show.

PROF. KOY NEELEY, head of Tech animal husbandry department, commented, "In my opinion, this honor makes Mr. Anderson the outstanding cattle judge in the nation. We feel that it is not only a honor to him personally, but a credit to the entire department."

KTTC TO MEET

Anyone interested in working on Texas Tech radio station KTTC is asked to meet in the Speech Building at 6:30 p.m. Wednesday, and to contact Don Denton, program director.

There will also be an announcements' meeting at 3 p.m. Wednesday in the Speech Building.

Rodeo Association Plans Spring Show

Highlighting the semester activities of the Tech Rodeo Assn. will be its National Intercollegiate Rodeo to be held during the second weekend in May.

PLANS FOR the spring activities of the association got underway Thursday, during its first meeting of the semester. There were 125 members present at the meeting.

Varsity Show Members Meet

There will be a meeting of the dancing and singing chorus and the coeds of the Varsity Show at 5 p.m. today in the Recreation Hall.

GIRLS IN the dancing and singing chorus who should attend are Linda Cates, Rebecca Bennett, Marlee Kochis, Peggy O'Neil, Mary Herrington, Sara Ince, Marydinth George.

Martha Kenley, Linda Osborne, Leta Merle Roberts, Donna Jean Smith, Gail Galbraith, and Judy Gray.

THE COEDS group will include Margaret Snider, Barbara Wood, Susan M. Dixon, Ellen Fuller, Joan Derris and Sharon Brown.

FOR ANGEL FLIGHT

Trials Are Today

The Angel Flight Drill Team will hold tryouts at 5 p.m. today on the green south of the Music building.

ANGEL FLIGHT, Women's Auxiliary of the Tech Air Force Reserve Officers Training Corps, is a national organization. Angel Flight sponsors a precision drill team and girl rifle team. The Angel Flight Drill and Rifle Teams compete with other schools and among themselves in drill and rifle ability.

To be eligible, girls must have a one point grade average and be free at 4 p.m., Thursday and 5 p.m. Tuesday. Girls must wear straight skirts and will be tested only on regular drill instructions. Alternates must also tryout.

OLD MEMBERS must be there or they will not be included in this semester's Angel Flight.

"In case of bad weather plans will be posted in dorms or the Union," said Barbara Wood, vice president of the Angel Flight.

Tech Hosts Initiation Of West Texas Sigma Nu

Tech was the site of the formal initiation of 20 new members of the West Texas State chapter of the Sigma Nu Fraternity Sunday.

THE LOCAL chapter served as host for the ceremony at 4 p.m. in the Sigma Nu Lodge, 2405 1st.

The Tech chapter was chosen from four Texas chapters to present the initiation.

PARTICIPATING were Bobby Scott, president; Lewis Stone, immediate past president; Jerry

Atkins, Frank Nichols and Ray Perry.

IMMEDIATELY following the initiation Richard R. Fletcher, national executive secretary of Sigma Nu, delivered an address preceding a buffet supper at 5:30.

OTHER GUESTS were Grand Councilman Dick Vaughan, Division Commander Sam H. Fields and alumni groups from Lubbock, Canyon and Amarillo.

ROSA RIOJAS
Mardi Gras Queen

Riojas Named Newman Queen

Rosa Elia Riojas, junior home economics major from Ropesville, was crowned Queen of the Mardi Gras Saturday night at the Newman Club dance. She was escorted by Ronnie Cordell.

MISS RIOJAS is active in Tech Union work, Newman Club and affiliated with Sigma Kappa sorority. Ronnie Kershen, vice president of the club, was master of ceremonies.

Irma Galindo and Mary Ann Clifton, both of Lubbock, were princesses.

SUNDAY NIGHT Bernard Knezek was elected president of Newman Club and Bill Frawley vice president.

Miss Clifton is recording secretary; Miss Riojas, corresponding secretary; Jack Gist, treasurer; and Merum Jackson, reporter.

Committee Urges Study On Union Possibilities

A drive to stimulate research in the student union field is now being conducted, says Nelson Longley, director of Tech Union.

IN AN ANNOUNCEMENT published by the Association of College Unions, the need for "immediate exploratory rather than experimental or diagnostic research" was expressed.

Ten significant areas were suggested by the Association's research committee.

"One suggestion deals with topics relating to the responsibility of the Union to students who are not affiliated with a campus social organization. This would include married students, and those who do not participate on Union committees," Longley states.

ANOTHER TOPIC which needs immediate research is a comparison of the Union's objectives, operational methods, and programs to those of municipal community centers, viewing carefully means of sharing reciprocal learning.

The Union, a means of informal education, also seemed to be a possibility to the members of the research board. They noted that many individual personality and social changes occur as a result of

French Club Takes 'Ventana Pictures

La Ventana pictures for Le Cercle Francais, French club, will be taken today at 5 p.m. in Ad 217.

A charge of 50 cents must be paid at that time by members.

Le Cercle Francais will meet Tuesday, Feb. 17, at 7:30 p.m. in Tech Union workroom.

Dr. Clarice Wills, associate professor of education, who has spent several years in rural France will be in charge of the program.

Union leadership, and thus a form of learning takes place.

OTHER POSSIBLE areas of study might include Union executive, business management and personnel.

A study of the changing trends in student recreational interests for the planning of effective Union programs offers yet another possibility for research project.

RESEARCH ON further Union activities is open to any person, but with special emphasis on the graduate student.

Those persons interested in further information should secure a copy of the newly revised research policy and contact Dr. Floyd I. Brewer, chairman, Research Committee, Association of College Unions, University of Cincinnati, Cincinnati 21, Ohio.

Odessan Added To Tech Staff

Taking the place of Mrs. Floy Sides as associate professor of home and family life is Mrs. Stelle Wallace. Mrs. Wallace taught at Odessa College and Odessa High School before coming to Tech.

BESIDES teaching in Odessa, Mrs. Wallace has been the director of home and family life in San Angelo, an associate professor at Texas Education Agency and Baylor, a former area supervisor has done nursery work for the federal government in connection with public housing.

She received her B.S. at North Texas State and her M.S. at Iowa State in Ames, Iowa.

Masters of the indirect approach find out what they want to know without asking.

A box top plus a few words may bring you what your heart desires.

Mumps Hit Alpha Chis

If there is a shortage of mump shots in Lubbock, it can probably be traced to Carolyn Symes, La Ventana beauty, and her Alpha Chi Omega sorority sisters.

MISS SYMES complained of a sore-jaw in a recent chapter meeting. This was quickly diagnosed as an abscessed tooth by her Alpha Chi sisters.

However, the next day Miss Symes revealed the "good news". She had exposed the whole chapter to the mumps and suggested that everyone get mump shots.

APPROXIMATELY 15 Alpha Chi's swarmed to the doctor's office to receive shots which resulted in several stiff left arms.

MISS SYMES is expected to return to school in about a week.

Accounting Society Installs Officers

Officers for Tech's new accounting fraternity, Beta Alpha Psi, were elected and installed Friday in the Union ballroom, at 4:30 p.m.

BETA DELTA, local chapter of the national accounting fraternity, will be headed this semester by Glen Reynolds, president. Buddy McCree will serve as vice president, Pearl Camp as secretary, and Norman Dreyer as treasurer. The fraternity will also be assisted by Dr. Fred Norwood, serv-

ing as faculty vice president. Besides the installation of these officers, five other faculty members and 18 students were initiated as charter members following the presentation of the charter to George G. Heather.

Weaver Elected President Of Tech Vet Association

David Weaver, senior from Midland, was introduced as the new Commander of Tech Vets Association with five other new officers Thursday night.

SERVING as vice commander is

Phil Allen, Lubbock junior. Others are Tony Balios, treasurer; Bill Everheart, secretary; Stan Kingery, sergeant-at-arms and Pogo James, reporter.

James G. Allen, dean of student life, addressed the vets informally at their smoker in Tech Union. In his talk, "What Tech Expects of Veterans," Dean Allan spoke of the responsibilities of the Veterans' Club to Tech and the obligations of the school to the veterans.

A BRIEF question-and-answer period followed with several items dealing with student-administration relationships being discussed.

The next meeting of Tech Vets Association will be Thursday at 8 p.m. in C116. All vets are invited to attend.

New York Features 'Sonata for Organ'

"Sonata for Organ," a composition by Miss Mary Jeanne Van Appledorn, assistant professor of music, has been chosen for performance at Riverside Church in New York City.

The first performance of the work was given in Lubbock Friday by Gerre Hancock, music instructor at Texas Tech. Hancock played the composition for Frederick Swann, Riverside Church organist and guest organist for the local First Methodist Church.

Ryan Featured At ADS Meet

A smoker in the Union Workroom, sponsored by members of Alpha Delta Sigmas, men's honorary advertising fraternity, will be from 7:30 to 9 p.m. Thursday.

SPEAKER FOR the evening will be Dr. John A. Ryan, head of the marketing department. Refreshments will be served following the program.

All men students interested in advertising or advertising art are invited to attend this function.

A Campus-to-Career Case History

Telephone engineer Stu Black—and the booming Southern California region he serves.

"The telephone company helps you blueprint your future"

Stuart C. Black had job offers from seven companies before he got his B.S. degree in Engineering from U.C.L.A. in 1954. His choice: the Pacific Telephone and Telegraph Company in Los Angeles.

"They told me exactly what to expect," he says. "Every phase of my training, covering two years of rotational job assignments, was outlined. They made it easy for me to see where I could go."

Since Stu was hired, he's climbed poles, installed telephones and worked with architects and contractors. He's designed ventilating systems and studied labor-management relations. He's handled million-dollar-a-month settlements

with connecting telephone companies for mutual use of Long Distance lines. And he's learned how complex bookkeeping is reduced to punches on IBM cards.

Today, Stu is a Staff Engineer in San Diego. He programs equipment and money for engineering projects as far ahead as 2½ years in one of the fastest growing areas in the United States.

"The telephone company is a 'look-ahead' kind of business," says Stu. "It can predict future telephone needs and the need for more and more management people. So there's a whale of an opportunity for the young fellow who really wants to get ahead."

Many young men like Stu Black are finding interesting and rewarding careers in the Bell Telephone Companies. Find out about career opportunities for you. Talk with the Bell interviewer when he visits your campus. And read the Bell Telephone booklet on file in your Placement Office.

"ON THE CAMPUS"

SDX Will Work to Help Campus

TECH'S JOURNALISM department reached a milestone when the student chapter of Sigma Delta Chi, Men's professional journalism society, was installed Saturday afternoon.

A total of 17 men journalism students with at least a second semester sophomore standing, were installed as charter members of the Tech group of Sigma Delta Chi, which boasts a world wide membership of some 23,000 journalists.

Purpose of the organization is to promote the highest journalistic standards and ethics. Members benefit by contact with the top men in the field of journalism.

The Tech group, formerly known as the Men's Press Club, will work closely with the TOREADOR and LA VENTANA, striving to promote for the campus publications the standards advocated by Sigma Delta Chi. SDX will also work with Theta Sigma

Phi, women's journalism fraternity, in these and other areas.

Projects planned by the Tech group includes sponsoring the La Ventana beauty contest and publishing the April Fool issue of the TOREADOR.

Members will work closely with the West Texas chapter of Sigma Delta Chi, composed of area journalists, in promoting high journalism standards for the area. Members of the West Texas chapter will speak regularly at meetings of the Tech group, and the two groups will use joint meetings for the purpose of exchanging ideas.

The Tech group will work with the West Texas High School Press Association to promote higher standards in high school journalism. Teams of speakers from the Tech and West Texas chapters will give talks at area high schools.

Tech's chapter of Sigma Delta Chi will work to erase misunderstanding and misconceptions between the campus publications and other segments of the student body. The chapter will strive to increase the flow of information to Tech students concerning the college, its direction and its functioning.

We believe that the Tech chapter of Sigma Delta Chi fulfills a definite need for Tech journalism students and the journalism department. We sincerely hope that the chapter will help the entire student body and college, as well as the journalism department.

two party

Sand Storm

mccarty

The weather is simply beautiful today (Monday), and it's been quite a long time since we've had our nostrils, ears, eyes and hair so filled with grit from the dust filled skies.

I believe it is about the worst one we've had so far this year, and it's almost certain that the people from different areas other than West Texas are grateful for the opportunity to witness a genuine sandstorm first hand.

We'll venture to say, however, that this is only a baby compared to what you will see if you stay at Tech for four years. You may have heard some wild tales about how dark and windy sandstorms can get, and from our experience we would say everyone of those tales has some merit, if not being completely true.

Sunday night it sprinkled a bit, as it did Monday morning, and then the sand came. Better watch out in the morning, it's liable to be snowing. About the worst mixture we've had, however, is a sandstorm and rain at the same time. Mudballs splatter everything.

THE TEXAS TECHNOLOGICAL COLLEGE

Editorial Page

Collegiate Press

Gov't. Changed At Southern Cal

Student government on the campus of the University of Southern California is being completely revised, according to a report by President Scott Fitz Randolph.

THE REPORT also revealed that the "Freedom of the Student Press" resolution split USC's five-man delegation to the 11th National Congress of the United States National Student Association.

The main complaint of the bill was in the unlimited freedom which would be afforded to the press; the minority feeling that something more than a conscience and a set of morals was needed to guide the student editor and his staff.

ICP

An "across-the-board" increase of \$1,000 a year in the salary rate of professors on regular appointment at Princeton University and \$500 a year for associate professors on regular appointment has been authorized by the University's Board of Trustees.

THE BOARD also has approved a minimum salary scale of \$11,000 for professors and \$8,000 for associate professors. The present minimum salaries for these faculty ranks are professor, \$10,000; associate professor, \$7,500.

A report submitted by Temple's Student Council Committee on cheating calls for student representation on the University's Academic Discipline Committee and second, urges University officials to make the necessary arrangements for the institution of a system whereby all students may have access to old final examinations. Other conclusions in the report include:

- (1). "Cheating is an almost totally accepted practice at the University.
- (2). "Since it is apparent that any exam which is re-used will be accessible, no examinations should ever be re-used. Exams should be varied distinctly every semester.
- (3). "IT SEEMS that in some cases new examinations leak out to students. This may call for tighter supervision in the makeup and duplicating of exams.
- (4). "All to often proctoring is a farce. More attentive and alert proctors should be utilized to discourage any cheating that may take place during the examination itself.
- (5). "THE ACTION taken by the Academic Discipline Committee should be publicized to make students aware of the penalties incurred through cheating."

Visit the Museum

LOCATED ON the Tech campus is the West Texas Museum, and about the only students one sees entering the edifice are grade-schoolers from the area towns.

Where are the Techsians? Ohh, they walk right by it day after day and don't even have the inquisitiveness to go in and see what is offered from the annals of history.

The too popular opinion is that all the Museum has to offer is a "bunch of old dead things." If this person would only visit the Museum he would find that it almost comes to life, especially the mural by Peter Hurd which depicts some scenes and people of the early South Plains era.

Too many Techsians are affected by the "space age" and don't take time to slow down and enjoy some of the finer things that are offered. If these "space birds" would only land for a moment, they could find many things in the Museum that would be of great interest to them.

The next time you pass the Museum (located on the north side of the circle for those of you who don't know), don't just wonder what is inside—go in and see.

Out of The Past

TECH (1940)— Just one big happy family— this group of boys who reside at the Dickens country cooperative house located at 1611 Ave. Y.

In this house from 18 to 24 boys pool their money, combine their ideas and suggestions and run the house on a cooperative plan which enables each of them to attend college at nominal cost.

THIS HOUSE is designed to enable Dickens county boys to "get by" for approximately \$16 per month.

It is the first of its kind for Tech and is still in the experimental stage. Records show that the highest cost a month per student was during the month of January when it soared to \$22.

THIS BOOST was attributed to the extremely cold weather necessitating more fuel consumption. The lowest cost per month has been \$18.

The house keeps up a \$20 deposit per student which will be returned at the close of school.

BSO Plans Retreat

The Board of Student Organizations Retreat Committee has started mapping out plans for the annual BSO leadership retreat. **JIM THOMPSON**, chairman, announced that the retreat will be March 6-8 at Clouderoft, New Mexico. Every organization in BSO may send one delegate for \$25.

This delegate will attend discussion groups on different facets of leadership and will hear Dr. Harry Walker, guest speaker. Dr. Walker is a faculty member of the economics department at Tech.

RECREATION is being planned by Sharla Pepper with Hollis Swafford and Billy McIlvain handling the treasury and arrangements.

OTHER MEMBERS of the committee who are setting up discussion topics and other activities are Cathie Conklin, Ginger Meyers, Dee Dorsett, Martha Kenley, Jean Elliott, Libby Balzer and Bob Hontz.

BSO Workshop Nears; Tickets Still On Sale

Reservations for the BSO Workshop must be made by Thursday afternoon in the office of Dean James G. Allen or the BSO office.

EACH DELEGATE may attend two of the five discussion groups:

The workshop will be Saturday, Feb. 14 from 12 noon till 5 p.m. Reservations are \$1.50 and include lunch.

(1) motivation; (2) parliamentary procedure; (3) how to choose leaders; (4) campus administration; (5) problems of campus leaders.

TRANSISTOR THEORY

Series Begin Today

A lecture series on transistor theory and application sponsored by Texas Instruments, Inc., of Dallas will begin today at Tech.

duate students in electrical engineering. Fourteen Tuesday afternoon lectures will be presented in the East Engineering Auditorium.

THE LECTURES, designed to supplement electronics and instrumentation courses at Tech, will be presented to 100 senior and graduate students in electrical engineering.

MORTON JONES of Texas Instruments central research division will lecture on "The physics of semi-conductors" today.

S. C. Requests Are Lagging

Petition requests are going slowly for the Mr. and Miss Texas Tech contest, Gail Petersen, Student Council representative announced.

PETITIONS for the Arts and Science representative to the Student Council and Freshman Council members may also be picked up in the Student Council office. Openings on these Freshman Council include representatives from Knapp and Horn Halls and several members at large.

Mr. and Miss Texas Tech must be seniors and obtain 250 signatures on petitions. There will be no campaigning.

FRESHMAN COUNCIL representatives must be enrolled for at least 12 semester hours and must have a 1.0 the previous semester. They are required to have 75 signatures on petitions.

The SC representative candidates must be an upperclassman, have a 1.0 overall and also have a 1.0 for the preceding semester.

TECH SKI CLUB MEETS TODAY

Texas Tech's Ski Club will meet at 5 p.m. today in the Tech Union Workroom, according to Mack Robertson, president.

Purpose of the meeting will be to elect spring semester officers.

To say pretty words to some women is an effort, even though the words are deserved and long overdue.

Placement Service Announces Interviews

The placement service has announced employment interviews for next week with 15 firms. Appointments should be made after 1:15 p.m. today.

THE FIRMS giving interviews on Monday February 16, 1959, are: International Business Machines Corp. is seeking 1959 graduates with Bachelors' and advanced Degrees in Business Administration, (all major fields) electrical engineering, mechanical engineering, industrial engineering, mathematics, and physics.

Montgomery Ward is seeking 1959 graduates in accounting, marketing, management, finance, economics and others interested in merchandising.

TEXAS EASTMAN COMPANY is seeking 1959 Graduates (all degree levels) in chemical engineering, electrical engineering, mechanical engineering, and chemistry (MS and PhD. only).

Next Monday and Tuesday the following firms will hold interviews. Foley's is seeking 1959 Graduates in accounting, economics, finance, office management, personnel management, marketing, retailing, home economics (all majors).

SHELL OIL COMPANY is seeking 1959 Graduates in chemical engineering for oil and gas field reservoir analysis, fluid mechanics, plant process design and operations. Shell has a formal training

program, including courses in geology and reservoir engineering, electrical and mechanical engineering, for oil field design and development engineering relating to drilling, producing and processing methods and operations, including automatic facilities.

Interviews for Tuesday, February 17, 1959 are: the Western Union Telegraph Company is seeking 1959 graduates in electrical, industrial, and mechanical engineering and business administration.

JEFFERSON COUNTY Public Schools is seeking 1959 Graduates of elementary, junior high school and senior high school teaching. Openings are also available for

administration work as principals and supervisors.

Firms holding interviews for Wednesday, February 18, 1959, are: Corps of Engineers, U.S. Army is seeking 1959 graduates in architecture, civil engineering, electrical engineering, and mechanical engineering.

ASTRODYNE INC. is seeking 1959 graduates in chemistry, chemical engineering and mechanical engineering (all degree levels).

U.S. Naval Laboratories in California are seeking 1959 graduates in electrical engineering, industrial engineering, mechanical engineering and physics.

FIRMS WHO ARE holding in-

terviews for Thursday and Friday, February 19-20, 1959, are: The Atlantic Refining Company is seeking 1959 graduates with bachelors' and masters' degrees, in accounting, two men for Venezuelan Nationals in mechanical or civil engineering for engineering and construction in Venezuela.

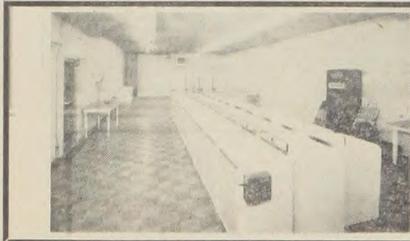

There is also summer employment for juniors, sophomores, and freshman students who are in the upper 25 percent of their class with majors: chemical, mechanical, and petroleum engineering.

New Mexico Electric Service Co. is seeking 1959 graduates in electrical engineering, industrial engineering and home economics.

FIRMS GIVING interviews Friday, Feb. 20, are: Hughes Aircraft Company, seeking graduates in electrical engineering and physics.

Bell Aircraft Corporation, seeking graduates in mechanical engineering, electrical engineering and physics.

TINKER AIR FORCE BASE, graduates in electrical engineering and mechanical engineering.

BSO Votes On Amendment

Students who have not signed up for the BSO luncheon scheduled at noon today in Tech Union may go anyway, as there will be a few extra places, according to Gayland Pool, BSO chairman. Students may sign up until 10 a.m. at the Union newsstand.

A VOTE WILL be taken on the proposed amendment to make it possible for students without a 1.5 grade average the previous semester to run for the BSO executive committee in the Feb. 23 election.

Detailed information on the BSO Workshop and retreat planning progress will also be presented.

It is probably impossible to cook a meal for two without coming up with twice as much as two can eat, unless one is a glutton.

When you feel tired and useless, it gives you a grand feeling to have somebody on your pay roll who is young, willing, ambitious, and fearless.

1205 College

Outlook

by BILL DEAN

It might be that Texas Christian will not lose another basketball game in the Southwest Conference race.

TCU has games in Dallas and Fayetteville against SMU and Arkansas. If they get by those it's very doubtful that anyone will trim them at home.

So, it looks very much like the SWC race was settled last Saturday night when the Frogs dumped the Raiders 66-59.

The All-American boy, Ronnie Stevenson, was held to four points, although he grabbed off 11 rebounds. His poor point production can possibly be attributed to the fact that he was too busy helping the TCU official scorer mark up the game that he just didn't have enough time to do much point-making.

When all the honors and awards are passed out you can add one more to Stevenson's list — "Crybaby of the Year." Stevenson ought to make an excellent statistician when he graduates. He's so good at figures.

But let's go back to the game — an exciting one all the way before a capacity crowd of 4,000 in TCU's match box gym.

After even-stein play through the first minutes of the game the Christians began to pull away and held on to their halftime lead. Then the Raiders came back and tied it up — only to fall behind again.

Even though they lost you have to respect this Tech team. They had a lot going against them and they still stayed close and fought back.

There's a lot to be gained the rest of the season. You never can tell. Something could happen to TCU. Whether it does or not the Raiders will stay in there "pitching".

Much "to-do" was made out of the "Red Stewart incident" by

the Fort Worth papers before the game. Now they can all say, "Ah yes, we told you so. Cheaters never win." That phrase is a childhood expression used by those who have not reached maturity. The same can apply here. Only the reporters are "grown-up children" now.

Oh well, you have to write something.

Musial Signs For \$100,000

ST. LOUIS (AP)—Stan (the Man) Musial, relaxed and confident but making concessions to his advanced baseball age of 38, signed his second straight \$100,000 contract with the St. Louis Cardinals Monday.

MUSIAL, who signed his first baseball contract 21 years ago for \$65 a month, is the highest-paid player in National League history.

His salary is second in the game's annals only to the \$125,000-plus paid to Boston's Ted Williams.

STAN SAID he was fully recovered from a lame left leg which hampered him through the last half of last year and ruined his bid for an eighth National League batting crown.

Cardinal owner August A. Busch Jr. said "I'm sure Stan won't mind when I say that his salary is the same as last year."

"HE IS GOING to have another great year and I think the Cardinals will too."

Musial, 38, said he was "more than pleased with his wonderful contract." He expressed his willingness to return to the outfield from first base, a move which Manager Solly Hemus says is in the offing.

THE GREAT lefthanded hitter with the corkscrew crouch stance hit .337 last year, third best in the league behind champion Richie Ashburn of Philadelphia and runner-up Willie Mays of San Francisco.

Football Drills Open For Raiders

The Texas Tech football team started spring training yesterday with 62 candidates reporting for drills. From this group Coach DeWitt Weaver will form his squad for next year. These will be aided by new men reporting in.

COACH WEAVER said that, weather permitting, the drills will continue through Feb. 28, when an inter-squad game is planned. This game is open to the public and in past years has been an interesting event.

Tech will have the services of two lettermen from previous years, Don Waygood of Sundown and Bobby Cline of Belton.

Last year's returning lettermen are Jerry Selfridge of Borger, Jim Brock of Fort Worth, Bob Witucki of Tulsa, tackle Don Rose of Texarkana; guards Jere Mohon of Panhandle, Fred Weaver of Cooper, and Dale Robinson of Stamford; centers E. J. Holub of Lubbock and Bill Turnbow of Burkburnett; quarterback Ken Talkington of Tyler; halves Ronnie Rice of Lefors, and Dan Gurley of Fort Worth; and fullback Glen Amerson of Munday.

SIX STARTERS are among the 15 lettermen lost by graduation this spring. All of Tech's varsity gridmen survived mid-term examinations, although 12 freshmen players were ruled scholastically ineligible.

There will be 11 returning squadmen from the 1958 season and they have the blunt of the load for filling up these gaps left by graduating players. These squadmen include ends Kike Sey of Andrews and Tommy Turner of Garland; tackles Robert Myer of San Antonio and Mike Nichols of Lefors; guards Jackie Wiles of Levelland, David McKinney of Irving, Jim Temple, and Howard Bradfield of Lefors; Halfbacks Jimmy Williams of Sudan, Johnnie Janak of Big Springs, and Mokie Bayron of Childress. All of these except McKinney and Barron are Juniors. These two are seniors.

THE SQUAD will be strengthened. Page 8, DRILLS . . .

JOHN

LINEUP

LEWIS

Tonight you will see a tall man and believe me 6-11 is tall. Wayne Clark, sophomore from San Antonio, is the pivot man for Texas University and could be a little difficult if he has a good day.

He has a five inch height advantage over Podd Hill, but if we play our brand of basketball there will be no doubt as to the outcome.

THIS WEEK will see two very important games played in intramural basketball. The Dwarfs and the Gunners play Thursday to determine first place in Independent League No. 2.

These teams have perfect records. Up to now neither of these teams has played the same foes so it would be hard to try to predict a winner.

BOB STAFFORD is the manager of the Gunners, while Phil Summers leads the Dwarfs. I would like to have more information on these teams. How about it, teams?

The other important game played Thursday is the game between the Pikes and the Fijis for the undisputed lead in the Fraternity League.

THE PIKES have a pretty tough week in front of them, because they not only play the Fijis Thursday, but then they have to meet the Phi Deltas in a make-up game Sunday.

This might tend to keep people awake at night. The Pike team has ability, but they will be up against one of the best teams that the league has to offer.

THERE HAVE been many complaints about the officiating at the intramural basketball games. I am sure that there is some basis for these complaints, but it would seem that no one is thinking of the problems facing these referees.

Many of these referees used in games are just learning the job and are not professionals. I would hate to referee one of the recent games even if I were a professional.

THE PICADORS looked good in their last few games and seemed to be working as a real team.

All five of the starting team—Roger Hennig, Vance Moxom, Mac Percival, Bill Spitzer, and Billy Wilbanks—have shown a great deal of improvement.

THEY WILL tackle the Ince Oilers tonight at 6 p.m. preceding the game between Tech and Texas.

Two Top Games Feature 'Mural Play This Week

By JOHN LEWIS

This week will see a lot of action in the intramural basketball leagues, with two first place positions will be on the line.

INDEPENDENT LEAGUE No. 2 action gets underway Thursday night. The Church of Christ meets Delta Sigma Pi, the Slim Jims meet the Court Jesters, Alpha Delta Sigma will try the Generals, and the Dwarfs take on the Gunners.

The latter will decide the first place lead in this league. These games are in the men's gym.

THE FRATERNITY League will pit Delta Tau Delta against Sigma Alpha Epsilon and Sigma Nu tackles Phi Kappa Psi at the Smiley Wilson gym, 4400-31st Street.

Pi Kappa Alpha will challenge Phi Gamma Delta to determine the first place lead, while Kappa Sigma takes on Alpha Tau Omega

Page 8, 'MURALS' . . .

Raiders Seek New Streak Tonight

(Continued from Page 1)
 then beat TCU, A&M and Rice, before losing Saturday night. Tonight Polk Robison will be hoping to start that same process moving again. He will probably start his usual line-up of Gerald Myers (5-10) and Charley Lynch (6-2) at guards, Gene Arrington (6-4) and James Wiley (6-5) at forwards and Leon "Podd" Hill (6-6) at center.

THERE IS a strong possibility that Wade Wolfe, 6-5 forward, might start. Wolfe turned in an

outstanding performance against Texas Christian.

For Texas, retiring Coach Marshall Hughes will start Bobby Puryear (6-0) and Billy Daven-

port (5-11) at guards, Albert Almanza (6-8) and Jay Arnette (6-2) at forwards and Wayne Clark (6-11) at center.

HUGHES HAS announced that

he is resigning as Longhorn head mentor at the end of this season to enter the teaching profession.

The Raiders, in order to stay in any kind of title contention, must win tonight. A loss would all but kill any chances they might entertain.

ELSEWHERE IN the conference tonight SMU journeys to Waco to meet the Baylor Bears.

Last night Arkansas met Rice in Houston. Tomorrow night A&M battles TCU in Fort Worth.

CONFERENCE STANDINGS

Team	W	L	GB
TCU	7	1	-
Texas Tech	5	3	2

Texas	1	6	5½

... Drills

ed considerably with the addition of this year's freshmen to the squad. A few of these men will be called on to fill starting berths.

The freshmen include, ends Archie Englis of Seminole, Bob Sanders of Muleshoe, Tom Nash of Electra, Jerry Elbert of Wellington, Bill Black of Muleshoe, and Blake Adams of Monahans; tackles Pat Holmes of Del Rio, James Elliott of Decatur, Gary Gwyn of Fort Worth, Larry Mullins of Snyder, Richard Stafford of Matador, and Don Walkup of Quanah; guards Teddy Ratcliffe of Graham, Charles Rice of Amarillo, Curtis Hamilton of Lubbock, John Harst of Loekney, Kelly Mitchell of Hobart, Oklahoma, and Jack Dokken of Wilson; quarterbacks Billy Ryan of Seymour, John Sudsbury of Amarillo, Pat Riddell of Burnett, and Harvey Klinkerman of Iowa Park; halfbacks Blake Turner of Alpine, Carlos Ortiz of Brady, Carey Tidwell of Meridian, Dickie Polson of Amarillo, Jim Taum of Tulsa, Virgil Wilson of Hamlin, and Larry Arnhart of Hobart, Oklahoma; fullbacks George Frazer of Llano, Don Jester of Austin, Carl Gatlin of Waco and Herbert Pearce of Monahans.

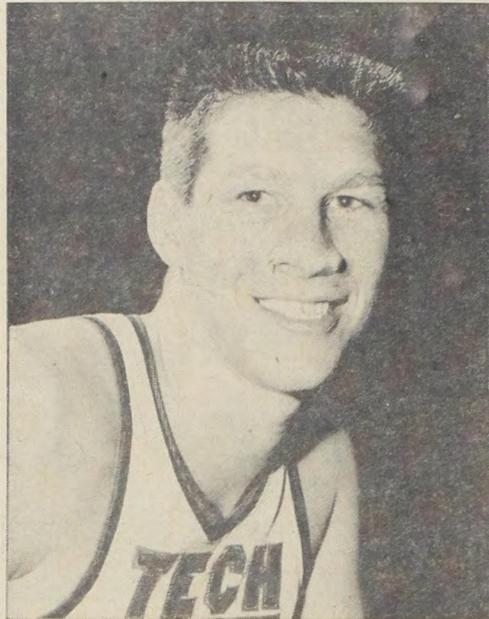

SPRING TRAINING has already begun at a few of the other Southwestern Conference schools and will be in full swing at the others in the near future. There is a lot of work ahead for all of these athletes.

These day, when a woman of thirty smiles at me, I suspect that pity is involved.

at the Carrol Thompson gym, 14th and Ave. T.

THE GAMES WILL begin at 7 p.m. in the Independent League and at 7:15 in the Fraternity League.

In Independent League No. 3 there is one game scheduled this week—Sports Club vs. Tuxedos. The game will be played in the men's gym at 9 p.m.

IN DORMITORY League B, Dorm 5 meets Dorm 8 and Bledsoe Hall meets Sneed Hall in a game to be played Wednesday night in the men's gym at 9 p.m.

Rice Defeats Arkansas 68-62

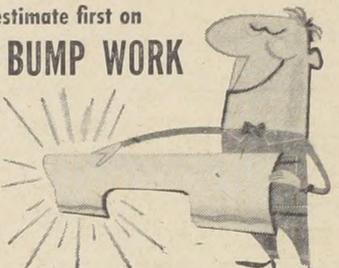

HOUSTON (AP)—Senior Dale Ball scored 29 points Monday night to lead Rice to a 68-62 victory over Arkansas in a Southwest Conference basketball game.

THE VICTORY, Rice's second of the season in conference play, lifted the Owls out of a cellar tie with Texas. Rice now has a 2-6 record and Arkansas 3-5.

Ball's 29 points marked his highest scoring effort of his career but it was Owl superiority at the foul line, 16-10, that provided the final difference. The two teams ended tied from the field with 26 goals each.
