Science-Engineering Show Set April 19-20

Tech's 1963 Science and Engineering Show is set for April 19 and 20.

Exhibits will be shown on the campus from 2-9 p.m. Friday and from 9 a.m. to 9 p.m. Saturday.

Outside exhibits will include the Thor-Able, an intermediate range ballistic missile which was used to launch the Discoverer satellites, and a replica of Telstar, the Bell System's communications satellite. The Thor-Able is being shown courtesy of Congressman George Mahon and the Air Force ROTC.

Departments Participating

Departments taking part in the show are agricultural engineering, air science, architecture, chemical engineering, chemistry and civil engineering. Others are electrical engineering, geology, industrial engineering, mechanical engineering, military science, petroleum engineering, textile engineering, psychology and physics.

High school students from surrounding cities have been invited to attend the show. The Academic Recruiting Committee's project of visiting high schools during spring vacation will include an invitation to students to visit Tech the weekend of the show, according to Wayne Hillin, general manager of the show.

Demonstrate Advances

The purpose of this year's show is "to demonstrate the latest technological advances in the fields of science and engineering to the public and to stimulate interest in these fields among visiting high school students," said Hillin.

Engineering show staff members are Hillin, Jim Scott, assistant general manager; James Culp, business manager; Lee Pfluger, advertising manager; Walt Frazier, traffic manager; John Schertz, concessions manager; Ronnie Vance, publicity manager; Charles Muery, lighting manager; and Carol Burden, secretary.

There is no admission charge.

(Compiled From AP Wire Service)

MOSCOW — In terms suggesting a piggy-back launching, the Soviet Union announced it shot the fourth and biggest of the Lunik research vehicles toward the moon Tuesday and that it was flying well.

EITHER A LANDING for robot monitoring of lunar conditions or an orbit that would permit detailed photographs of the surface could give the Russians a significant boost in their race with the United States to land men on the moon.

Tass, the Soviet news agency, announced the instrument-loaded rocket, officially described as an "automatic moon station," weighs 3,130 pounds.

THAT IS FIVE times heavier than its predecessors, all of which were launched in 1959.

Lunik I missed the mark by 4,700 miles and went into orbit around the sun. Lunik II was reported to have landed on the moon.

THE SOVIETS may have used a technique—launching a moon vehicle from a mother-ship in earth orbit—which could in part be a dress rehearsal of the method they'll use to aim a man for the moon.

The rocket shot came less than 18 hours after a U.S. Air Force expert told a House subcommittee that the Russians could send a man on a flyby of the moon right now, if they put the effort to it.

Norman V. Petersen, technical director of the Air Force Flight Test Center, also testified:

"IF MAJOR emphasis were given by the Russians to a single lunar position using earth-orbital rendezvous, they would have the ability to accomplish this at the present time."

The Soviet shot also came at a critical time for the U.S. space program, facing an economy-minded Congress. President Kennedy has pledged the United States to beating the Soviets to the moon by the end of the 1960's.

EVEN WITHOUT its significance as a prelude for moon-bound Soviet cosmonauts, the new moon rocket could have a great scientific significance of its own.

The flight of camera-packing Lunik II was followed by release of pictures purporting to show

the hidden back side of the moon, confirming belief that it was largely mountainous.

The United States has affected one lunar landing, but instrument failure limited the worth of that feat. Ranger 4, a complex 730-pound spacecraft, had brain failure before it came down on the back side April 26, 1962.

TASS SAID ITS latest shot "will reach the area of the moon in 3½ days." That could mean Saturday. It was not disclosed whether a landing or an orbit was planned.

Tass carried commentaries, however, by Soviet scientists which indicated a photographic mission, plus a hint that the rocket or its successors might place a robot observatory on the moon to radio information about the nature of its surface and other aspects.

KARKOV'S OBSERVATORY chief, Nikolai Barabashov wrote of both a need for better pictures of the moon and the value of a robot observatory.

The latter would parallel a surveyor project being promoted by the U.S. National Aeronautics and Space Administration to scout the terrain mechanically in advance of any manned landing.

—Bulletin—

Bidding opened Tuesday at First State Bank in Amarillo for the Kilgore Beef Cattle Center at Tech Research Farm at Pantex.

Doyle Construction Co. of Amarillo made the lowest base bid of \$387,547 for general construction. The next lowest bidder with \$390,839 was Wirtz Construction Co., Amarillo.

Tech Board of Directors is expected to consider alternate deductions at its meeting Saturday in determining which of these is the low bid.

Money for the center is provided through a \$500,000 gift from Kilgore Foundation at Amarillo.

Tech Women Honored At Annual Banquet

By **ROBANNA SUMRELL**
Treasurer Staff Writer

Standing ovations underscored last night's revealing of Anne Weaver, Houston senior, and Dr. Mary Louise Brewer, English professor, as Tech's Woman of the Year and Faculty Woman of the year, respectively.

Miss Weaver accepted the highest honor bestowed by Tech women students with, "I know from past experience in counting ballots that it was a very close race. I've had the privilege of being in a class of girls where so many have deserved this honor." Smiling through tears, she sat down amid thunderous applause.

Dean of Women Florence Phillips precluded the Woman of the Year presentation by describing Miss Weaver as "one who will never have to sit at the gate of the temple taking alms of those who work with joy."

The announcements climaxed the annual Women's Day banquet. Women students voted on the honors Tuesday.

The banquet is given to recognize the outstanding achievements of women students in the fields of scholarship, service and honoraries.

Members of Mortar Board, Alpha Lambda Delta and Junior Council, Tech's three honoraries for women, were recognized,

along with Techsians with high scholarship, campus service organizations and dormitory officers and legislators.

Mrs. Hiram Cole Houghton, past deputy director of the International Co-operation of Administration, spoke to the filled Union ballroom. She told students that "Women are the ones who transmit the high ideals we want our children to have

MRS. H. C. HOUGHTON
... Banquet Speaker

... no children are born with prejudices; we give them to children."

"The key word to education today is understanding," she continued. Reminding women of their place in the world, she said, "I saw Greek women walk 20 miles to vote. Eighty per cent of them voted in that election. Never in our national elections have more than one-third of the women voted. We could elect whoever we wanted if we would all vote."

In scholarship, Knapp and Weeks Halls were highest. Pi Beta Phi was the sorority with the highest average. Individual honors were recognized in these organizations. Delta Gamma received the Lubbock Panhellenic award for scholarship improvement.

Rowena McKinzie, former AWS president and mistress of ceremonies, initiated 1963-64 AWS officers, charging them with "an opportunity to serve those you represent," to hold "watchful care over the good interests of this association," and to "discharge duties with honor and dignity."

Arminia Kemp was chairman of the Women's Day committee that included Barbara Bradshaw, Charlotte Dorsey, Ann Dennison, Jan Justice, Mary Alice Hill and Ann Orrick.

Sandstorm Shenanigans

GETTING WIND OF THINGS—Elaine Crawley, Wellington freshman, has been orientated quite thoroughly this year to Tech life. But as spring begins she discovers something new to which she must become accustomed—West Texas sandstorms. Winds gusted up to 46 mph in Lubbock Tuesday.
—Staff Photo by Cal Moore

Haught, Gibson Enter Lubbock's Community Ambassador Contest

Two more Tech students, Gay Nelle Haught and Jerry Gibson, submitted applications today for Lubbock's Community Ambassador for 1962.

Today is the last day to apply

for ambassador. The person chosen will spend eight weeks in Spain this summer on an all-expense-paid trip.

Miss Haught, Tech sophomore, is majoring in Spanish and Eng-

lish. She was a member of Freshman Council, president of Alpha Lambda Delta and member of Board of Student Organizations and Phi Beta Phi social sorority. Miss Haught has visited Mexico and attended summer school in Mexico City and a Spanish workshop in Monterey.

Gibson, Tech junior, is a member of Phi Delta Theta fraternity and was treasurer of his pledge class. Member of the Man and the World Class, Gibson has spent a summer in Mexico living with a family and attending Mexico City College.

David Hester, chairman of the Community Ambassador Program, urged all interested persons to submit applications. Any Lubbock citizen between the ages of 19 and 30 may apply.

The program is sponsored by Lubbock Chamber of Commerce. Information and application blanks may be obtained from Rex Vermillion at Chamber offices, 902 Texas Avenue.

Other Techsans making application are Rebecca Hord, Jerry Tonroy, James Perry and Lynn McElroy.

JERRY GIBSON

GAY NELLE HAUGHT

Engineer Wins Honor At Meet

Tech senior Vaughn Walraven won an honorable mention at the fourth annual American Institute of Industrial Engineers Student Conference last weekend. The \$10 award was for a technical paper entitled "Multiple Regression for Work Standards Application."

Walraven's paper was one of 12 presented by students from Oklahoma State, Arkansas, University of Houston, Lamar Tech, A&M, SMU and Tech.

Other Tech students attending the conference were Sam Williams, president; Jack Shisler, vice president; Leo Waltz, corresponding secretary; Don Owen, treasurer; J. O. Sides, Robert Bell, Bill Gray, Edward Whiteacre and Tom Shamburger.

Morris Schneider, faculty sponsor, and Dr. R. A. Dudek, department head, also attended.

ETA KAPPA NU

The Gamma Nu chapter of Eta Kappa Nu has accepted five new pledges for the spring semester. The pledges are Jim Guthrie, Fred Holderman, Leon Redenbacher, Wayne Kanouse and Jim Naylor.

News Briefs

Tech Students Win Race With Grades

Now is the time for all good Techsans to appreciate the administration.

Spring vacation is scheduled so that students will beat their grades home. Thus they may assure anxious parents that mid-semester grades "really don't mean anything, honest, folks!"

Grades will be mailed to students' homes early next week.

KXTX-FM will sign off at midnight Friday and remain off the air during the holidays. It will resume its regular broadcasting schedule at 2 p.m. April 16.

Ex-Raider All-American E. J. Holub plans to sell his cattle and ranch south of Paris. He made the decision after he learned the Texans were moving to Kansas City.

Persons wishing to apply for Board of Student Organizations offices may obtain application blanks in the Ad Bldg. student life office, according to Ken Snider, BSO president. Offices open are program chairman, retreat

chairman and workshop chairman.

Application blanks must be completed and returned to the student life office by 5 p.m. Friday. Applicants should have a 2.0 grade point average.

KLBK radio has begun broadcasting a special program called "Tech Time" at 10 p.m. Monday-Friday. The program features interviews with Tech students and faculty members and discussions of current Tech problems. The program is usually hosted by Lenore White, former Tech student.

Any student desiring to apply for a Toreador-La Ventana photographer position may do so in the Journalism Bldg., room 102. The position is salaried. Any student who applies should have most of his afternoons free, according to Cal Wayne Moore, head photographer.

KTXX-FM will sponsor a D-J hop from 8-12 p.m. April 20 in the Coronado Room. Guest disc jockeys will be from KSEL and KLBK.

Argentine Uprising Hits At Government

BUENOS AIRES (AP) — A military revolt split Argentina Tuesday. Navy warships were reported steaming toward Buenos Aires in an effort to oust President Jose Maria Guido.

Loyal military leaders charged that rebel air force jets bombed and strafed government tanks south of Buenos Aires.

The military commanders ordered an all-out offensive against the rebel forces, chiefly in the navy, traditional enemy of the political forces of ex-dictator Juan D. Peron. The revolt was launched, however, by two retired generals.

Marines answering rebel calls surrounded Guido's palace in downtown Buenos Aires twice during the day and both times withdrew without explanation.

The rebels claimed control of two key cities, Bahia Blanca and

La Plata. They ignored an order from Guido to surrender by 3 p.m. —1 p.m. EST.

There was no word on whether there were any casualties.

The revolution was launched with the announced aim of blocking national elections June 23. Anti-Peronist military chiefs fear the Peronist political forces could gain control of the country and pave the way for a Communist takeover of Argentina.

In a confusing round of developments, marines surrounded the executive palace Tuesday morning after the generals proclaimed their revolt. They withdrew at noon after Guido announced the revolt was crushed. They returned Tuesday afternoon as reports reached Buenos Aires that powerful navy units had gone into rebellion.

Rodeo Group Seeks Entries For Contest

The Tech Rodeo Association has launched a search for a queen to rule over its April 25-27 rodeo.

Campus organizations wishing to enter a candidate may obtain entry blanks at the rodeo office in Bldg. X-6. The contest closes at 5 p.m. April 16. A panel will select six finalists for riding ability and beauty. Students will then vote on these six April 20-25 in the Union on a penny-a-vote basis.

The rodeo in Lubbock Municipal Coliseum is the largest college rodeo in the country and the only indoor college rodeo. Performances will be at 8 p.m., with a Saturday matinee at 2 p.m.

Baylor Editor Resigns Post

Mrs. Frances Provence, editor of Baylor's Ex-Student Association magazine, resigned Monday over events arising from the censorship of Eugene O'Neill's play, "Long Day's Journey Into Night."

Mrs. Provence charged the ex-students association with "censorship in its crudest form." She said that she had been ordered to omit reports of the resignations of members of the university's drama department protesting the closing of the play by the president of Baylor, Abner McCall.

Dr. Jones Unique - Only Male In AWS

By CAROL BORCHARDT
Toreador Staff Writer

"Good evening, ladies and gentlemen."

Sounds like a strange welcome to an annual banquet honoring Tech's female students, doesn't it?

It may be strange, but it's entirely fitting.

Every year Tech's president emeritus, Clifford B. Jones, joins with the women of Tech to honor the accomplishments of the "fairer sex" at the Women's Day Banquet.

Why? Several years ago officers of AWS decided to make Dr. Jones an honorary member because of his efforts to raise Tech to a position of prestige, his service to the college and the role he has played in community activities.

At the Women's Day Banquet in 1956, Dr. Jones was given his

certificate of membership in AWS.

Since then he has missed only one banquet. He joins 3567 undergraduate women in the collegiate association.

He served as a member of the original board of directors, was president of Tech 1938-44, and has been president emeritus since his retirement in 1944.

President Jones has several "firsts" to his credit. He presented the first diploma from Tech in 1927. From the first commencement until 1944, he has signed every diploma either as president or as a member of the board of directors.

Beginning as a member of the West Texas Chamber of Commerce, Jones crusaded for the establishment of a college in Lubbock. He has been connected with Tech longer than any other person on the faculty or board of directors.

Jones also presented the first

books to the Tech library, established the Texas Tech Foundation

and presented it with a \$100,000 "living trust." Using this endowment to finance a football stadium, the college dedicated the stadium to Jones and his wife, naming it the Clifford B. and Audrey Jones Stadium.

In October, 1950, he delivered the dedicatory address for the West Texas Museum. Jones described the museum as "not merely a repository for old bones" but a living monument to the history of the South Plains.

President Jones initiated Student Religious Week in the spring of 1941 and set up a student convocation to emphasize the Easter season on campus.

Recognizing these accomplishments and appreciating his efforts, the women of Tech salute President emeritus Clifford B. Jones — one male among more than 3,500

female students.

'Recruiters' Meet Today

The final academic recruiting program meeting will be at 7 p.m. today in the Aggie Auditorium.

"It is very important that representatives for the program be there if at all possible," said Ronnie Botkin, student council chairman for the program.

The recruiting program is made up of approximately 140 Tech students who will speak to high school students during spring vacation about Tech and advantages it offers.

Styled for Easter...

... and year around wear. Stay ever cool but so correct in this handsome sportcoat. Tailored in the traditional soft shoulder construction. The colors and patterns are styled to blend with your yearly wardrobe.

We invite you to browse at your leisure.

Is Tropic Star for you?

College girls seem to know what they want. We get a lot of ideas about ring styling from American campuses. If there is such a thing as a consensus, it would sound like this: conservative styling, with a difference.

That's what we've designed into Tropic Star...the newest of the beautiful Artcarved diamond engagement rings. Like all Artcarved rings, it's styled for lasting beauty...guaranteed in writing for permanent value. Is Artcarved's beautiful new Tropic Star for you? See for yourself.

TAPS FOR CHICKEN LITTLE

By EDWARD SNOW
Guest Columnist

One day Chicken Little went to the Testing and Counseling Center and paid \$12.50 to explain his problems of a personal nature. "I've got a problem," he said. "I think Texas Tech is the best place in the world."

"What's worse," he continued, "the only other students who believe that Texas Tech is the best place in the world are either class officers, class favorites or Mr. and Miss Texas Tech. Me, I'm nothing."

The Testing and Counseling Center told C.L. that he had an overwhelming desire to succeed. They said he should begin his climb to fame by sharing his school spirit with others.

So C.L. started out by going to the night club dance. "It's fun to play grown-up," he said. Nobody listened.

C.L. wore RED to 54 consecutive athletic events. All RED did was stain his sheets when he did his laundry.

He finally even tattooed the Double-T on his forehead. Nobody saw it.

Dejected, C.L. was sitting alone in the Union one day, playing auto-bridge. A stranger suddenly appeared mystically before him. The stranger was tall and thin with a craggy face and had a big scar across one cheek and wore a patch over one eye.

"I'm the spirit of college past, and of universities future," the stranger said. "I have visited an innumerable amount of colleges of all sorts on your state."

C.L. was astonished.

"I have been watching you, Chicken Little," the stranger said. "You flounder in the dust and grime of the South Plains like a stray prairie dog, seeking its burrow, is berated by the flailing furiousness of the sandstorm, as seen daily on our local T.V. Radar Weather Report."

"I shall grant you three wishes, Chicken Little. Thou who must have; have now; and be done with it."

"Give us the name-change," C.L. gulped, "do something about the tuition hike and lemme have a terrific personality."

The stranger withdrew the golden key of knowledge from his cloak and rapped it firmly against C.L.'s immense class ring.

(Zap, Shazam, etc.)

"Rise, Chicken Little," the stranger said. "Rise, citizen-student of Raider High. Rise onward and upward, seeking what you have always called 'Birds of the feather, flocking together.'"

The stranger disappeared with a cackle through the Union loudspeaker system.

C.L. was suddenly five years younger. Everyone in the Union was suddenly five years younger. C.L. looked around and saw that everyone suddenly loved him. C.L. loved them too.

"Chicken Little saved us," they chanted. "Oh we love our Raider High." They gathered about the table, lifted C.L. to their shoulders, and carried him away.

By the way . . . has the stranger been to your table lately?

Tech - - A Neutral Site?

In the first of several moves designed to promote better school spirit for minor sports, the Saddle Tramps are out "stirring the bushes" to urge attendance at the Friday baseball doubleheader between the Red Raiders and Highlands University.

They'll even be wearing their red shirts throughout the day as a reminder to others.

The twin-bill is slated for the Hodges Park diamond at 41st Street and College Avenue. It will be in progress much of the afternoon, thereby giving almost every student plenty of time to go to afternoon classes and still see a lot of the action.

Texas Tech prowess in baseball has been growing year by year. The last two campaigns have been the best yet.

Because of spring training, footballers are occupying the Tech diamond at the present time. Later in the year, games will be played there, just south of the Coliseum.

Baseball is one of the few sports left in which Tech does not compete in Southwest Competition, but several outstanding opponents have been brought to Lubbock in recent years. Against Highland here last year, the Raiders won two of three.

Several former high school standouts are members of the Raider squad, and in addition to them Coach Berl Huffman would undoubtedly appreciate a little support from the stands. As it stands now, opposing teams consider Lubbock a "neutral" site, because there are no vigorous supporters for either team.

Give baseball a turnout Friday . . . for once in the school's history.

Charles Richards
—Daily Toreador Editor

LETTERS TO THE EDITOR

Editor:

The Traffic Committee's recommendation to stop traffic for a ten-minute period during class changes is, in my opinion, a mistake that would cause more problems than it would solve. There is a traffic problem on campus during class changes, but stopping traffic altogether is a rather poor way to solve the problem.

If the committee is so interested in useful suggestions, why can't they first think of the more obvious solution of having a campus policeman stationed at each of the traffic lights during class changes and see to it that the lights are observed by pedestrians. The council said that pedestrians are in danger, but they apparently overlooked the fact that the main cause of this is the fact that pedestrians show no respect for the rules that are now in existence.

If lights were observed, traffic could flow quite smoothly around campus, and the people who are walking could get where they are going with no danger to themselves.

Blocking traffic during class changes would cause far more problems than it could possibly be worth as a solution to the existing one. Off-campus students and teachers would have a problem getting to classes on time, and the time between classes would be shortened, but even this is not the main fallacy. If traffic were stopped on campus for ten minutes, it would probably take fifteen minutes for the jam to be relieved enough for normal flow after the barricades were removed.

I believe that if the Traffic Committee will look a little deeper into the problem they will find that their suggestion is one of the more impractical schemes that they could have offered. There is no point in using a system that would complicate matters when a simple effort to enforce existing rules would be far more efficient.

Vernon Smith

Hits Greedy Drinkers

Editor,

Many residents of the men's dormitories are probably aware of the fuss being raised about taking more than one glass for use in the cafeterias. Contrary to many beliefs, there is a reason for your being asked to use only one glass. The dish-washers cannot effectively handle all the glasses that subsequently need washing. When you pick up your two glasses, do you ever gripe because they are too hot to handle? It is because the glasses simply cannot be given time to cool.

IN AN EFFORT to control this, the Food Service has issued what amounts to a threat; an ultimatum — Either stop taking more than one glass, or we will limit you to only one beverage, with no refills, per meal. Now, many of us have limited ourselves to only one glass and accepted the hike back for refills, but a great many still take two or three glasses when they can get away with it. For the thoughtlessness of these gentlemen, we are all being threatened, and I don't like it.

I explained my feelings to the food service director, and she replied that something had to be done. True, some action must be taken, but when it gets to the point where the innocents are to be punished along with the guilty, then I get my good-'ol' anti - americanistic dander up.

No matter how costly, difficult, or time-consuming it has been, the Law has never had to resort to punishing the innocent in order to get the guilty. Now is no time to start.

THIS IS NO time for that much harped-on "apathy" because this could affect all men's dormitory residents. If we don't feel that we should get overly reactionary and attempt to get this rather dictatorial "group

threat" removed for more democratic action, then we should at least put the good-'ol' "social pressure" on those who must still take more than one glass. (The whole thing reminds me of the story about the old schoolmarm who achieved excellent discipline in her classroom by declaring, "For any of you children who give me any trouble, I'm going to whip your nearest neighbor.")

Robert L. Dawes

'S Not A Crackpot!

Editor,

Contrary to popular belief on the Toreador staff, mostly the pretty chick who took the information down "for a story," Ken Phillips is NOT a nut, NOT a crackpot and really DOES intend to attempt a 100-150 mile hike.

HE IS hugged because, only needing a small story on it, nothing has been printed as yet. Also his 40 mile training hike was canceled . . . because no one knew of it and came along. Why? Even the Shadow doesn't know. No room yet? Perhaps too much advertising or all the very important news items from the world that don't even concern JFK, NBK, MacMillen or De Gaulle (heaven forbid).

Perhaps he wasn't known to be more than one Baptist. (They make good time too!) On any event, he is hugged **BEING THOUGHT A NUT.** (Size of story incidental, though the wish is that it appears and if possible as fully as possible.)

YOU WON'T be alone. To be included are Dallas News, A-Journal and Texas Ranger staff, at least.

Sincerely,
Him (Ken Phillips)

P.S. I embark (sic) this day on a 52 miler. Place that in your Greek News and endeavor (sic) to smoke it.

SNOWING IN APRIL?—No, most Tech coeds just wore white on Women's Day Tuesday. The campus turned nearly all white as Tech women wore the traditional attire for the day. Some coeds indicated they would have worn white if the special day had been after spring vacation and a trip home for spring wardrobes.
—Staff Photo.

Engagements...

Barbara Boswell, Houston junior, and Harry Moore, Coleman junior, announce their engagement. Barbara, a WSO member, is a home economics major and Harry is majoring in electrical engineering. He is a member of Alpha Phi Omega, service fraternity. The wedding is set for April 13 in Houston.

Another spring wedding! Ferrelene Peterson, sophomore from Lorenzo, is engaged to Phil Suitt, junior from Lubbock. A Zeta Tau Alpha pledge, Ferrelene is majoring in secondary education, with a teaching major in English. Phil is majoring in civil engineering. He is a member of Kappa Alpha Order. The wedding will be May 30.

Ginger Vinson and Tony Sutton announce their engagement. Ginger is a freshman from Dallas majoring in elementary education, and Tony, Lubbock sophomore, is an industrial management major. The wedding date has not been set.

On Grizzly Bears

Tech Grad Publishes New Children's Book

Mrs. Gustave Ivan, Tech graduate, has had a book published entitled "Track The Grizzly Down."

The authoress, now chairman of the English department at Kilgore Junior College, obtained her B.A. and M.A. degrees from Tech.

The book was written in collaboration with her husband, Gustave Ivan, under the pseudonym of Gus Tavo.

"Track The Grizzly Down" is an authentic, colorful and vivid story of a Texas family who set up a homestead in Wyoming in the 1880's, according to Alfred-A-Knopf, Inc. publishers. The book is for 17-year-olds and up.

The couple met and married in Kilgore, where Ivan was a member of the faculty. The authors have had two previous books published entitled "Hunt The Mountain Lion" and "The Buffalo Are Running."

Both books were selected in 1960 by the Austin Chapter of Theta Sigma Phi, national fraternity of journalism for women, as two of the five outstanding juvenile books by Texas authors.

Get Lucky Play "Crazy Questions"

(Based on the hilarious book "The Question Man.")

50 CASH AWARDS A MONTH. ENTER NOW. HERE'S HOW: First, think of an answer. Any answer. Then come up with a nutty, surprising question for it, and you've done a "Crazy Question." It's the easy new way for students to make loot. Study the examples below; then do your own. Send them, with your name, address, college and class, to **GET LUCKY**, Box 64F, Mt. Vernon 10, N. Y. Winning entries will be awarded \$25.00. Winning entries submitted on the inside of a Lucky Strike wrapper will get a \$25.00 bonus. Enter as often as you like. Start right now!

RULES: The Reuben H. Donnelley Corp. will judge entries on the basis of humor (up to 1/2), clarity and freshness (up to 1/2), and appropriateness (up to 1/2), and their decisions will be final. Duplicate prizes will be awarded in the event of ties. Entries must be the original works of the entrants and must be submitted in the entrant's own name. There will be 50 awards every month, October through April. Entries received during each month will be considered for that month's awards. Any entry received after April 30, 1963, will not be eligible, and all become the property of The American Tobacco Company. Any college student may enter the contest, except employees of The American Tobacco Company, its advertising agencies and Reuben H. Donnelley, and relatives of the said employees. Winners will be notified by mail. Contest subject to all federal, state, and local regulations.

Adapted From Novel

Southern Childhood Life Revealed In 'Mockingbird'

By NANCY MILLER
Toreador Amusements Editor

Summertime, with its long days and heavy sweet nights, is a time of childhood. The pace slows almost to a halt, life takes on a ripe quality, and through it all runs a thread of half-remembered days and half-forgotten dreams.

And so it is in "To Kill a Mockingbird." Set in the deep Southern town of Maycomb, Alabama, during a dreamy mid-summer, the movie deals with rape and race relations in a manner not of violence but of timelessness.

"To Kill a Mockingbird" has two outstanding qualities: its story and its overall mood. Adapted from Harper Lee's Pulitzer Prize-winning novel, it is the story of a trial, in which a Negro is accused of assaulting and raping a white woman. Atticus Finch, adequately played by Gregory Peck, is chosen to defend the Negro. And his two children, Jem and Scout, find their lives tangled in the case because their father's life is tangled in it.

The Finch family is not alone. Jem and Scout have long been puzzled by Boo Radley, near-legendary person who lives in a shuttered house on the corner of their street, and who is rumored to have committed crimes so unspeakable that he never ventures outside. Their curiosity is such that it leads them to dare each other to run up and touch the house and to sneak up at night to try to get a look at Boo. And when the rape case so involves them that their lives are threatened, they find that they have, in Boo Radley, a friend.

Gregory Peck, as Atticus Finch,

is good insofar as his rather limited acting ability goes. As the quiet lawyer trying to rear his two motherless children and uphold what he believes is right, he does his best job to date in the courtroom scene.

Mary Badham, as his six-year-old daughter Scout, also does a good job, although at times her acting seems to be nothing so much as a series of carefully arranged expressions.

The show is worth seeing, especially if you've read the book. The dreamy quality is a rarity in movies and the story is excellent. And if you've ever climbed trees, been afraid of ghosts, or spent the

summer in a tree house, you'll remember and smile, because the children are all the children that have ever lived.

Dorms Show Peyton Place

The movie "Peyton Place" will be shown at 7:30 p.m. Wednesday and Thursday in the Carpenter - Wells cafeteria. Admission to the Cinemascope film will be 25 cents.

"BEST VOCAL GROUP" — The Four Freshmen will appear at 7:30 p.m. Thursday in the Municipal Auditorium. Admission is 75 cents for Tech students, \$1 for faculty and other students, and \$2 general admission. The group is sponsored by the Special Events Committee of Tech Union.

ROOM FOR 2 MORE!

The summer tour to Europe was filled last week. Saturday Mrs. Strout received notice that ship space for two more had been allotted to her. This must be signed for promptly or it will be reassigned to some other group. If interested, check at once with Mrs. Strout, C&O 115.

real stopper

Mennen Spray delivers 3 times the anti-perspirant power of any other leading men's deodorant. The fine spray mist gets through to the skin where perspiration starts. Deodorizes. Effectively. And works all day. Is it any wonder more men use Mennen Spray in the handy squeeze bottle than any other deodorant?

SPORTS X-RAY

by Ray Finfer

Texas Tech's athletic teams will be making good use of the spring holidays beginning Saturday to get in a lot of competition without missing classes.

Don Spark's team will cover the most miles of any squad as they trek off to Mexico for two, two-day meets. The Raiders will compete in the Monterey Invitational Monday and Tuesday and in a similar meet in Mexico City Friday and Saturday.

Coach George Philbrick takes his tennis team to Abilene for a return match with Hardin-Simmons, whom they beat Monday, and then on to Abilene Christian and Beaumont Wednesday and Thursday to meet Lamar Tech.

Tech golfers, victorious over Rice Monday, will take time out from their busy conference schedule to tackle the All-America Intercollegiate at Houston Thursday through Saturday.

Coach Berl Huffman will pack his baseballers off to Alpine for three games with baseball-minded Sul Ross. The Raiders play a single game Tuesday and a doubleheader Wednesday.

Footballers, now in the middle of spring training, will go home, which I would imagine is a welcome place for them. They will resume workouts April 16 with an eye toward the spring training wind-up game April 27.

And speaking of Tech's spring training games, the scrimmage Saturday was a fine head-knocker. From my vantage-point high in the pressbox (out of the rain), I could hear the sound of leather popping, which is a grand sound to coaches.

Danny Scarborough, Donny Anderson and David Parks looked great — the whole team looked great. Tech is going to be giving some opposing teams headaches come September.

Tech signed a fine basketball player in Lubbock High's Danny Davis. Davis will be of aid to the basketball squad and to the baseball team. Right now he is knocking the stuffings out of balls in district play.

Some of the state's finest will show their wares Friday and Saturday at the Texas Relays. Abilene Christian will be out trying to grab off its sixth meet of the season. Tech will send a squad of varsity and freshmen to the meet. The Tech Picadors seem to be chomping at the bit to prove to everyone that their defeat of ACC's freshmen was not a fluke.

Golf, Tennis Teams Crush Rice, H-S U

Texas amateur champ, Richard Yates, led the Red Raider golfers to a sweeping 6-0 victory over Rice at Houston Monday.

Yates shot a 74 to defeat Rice's top linksman, Jack Creel, 5 and 3. Housty Brewer, with a 78, toppled Jim Crownover, 5 and 4. Yates and Brewer combined to win the best ball, 3 and 2, over Creel and Crownover.

Bruce Dobie defeated Vic Anderson in a close match, 1-up. Jim Davidson stomped Don Fizer, 5 and 7. Dobie and Davidson won their best ball competition handily at 6 and 5.

The Raiders now stand 1-1 in conference play and will take on Baylor in a loop duel Friday at the Meadowbrook Country Club in Mackinzie Park.

After rain postponed a tennis match with Abilene Christian Saturday, the Texas Tech netters met another Abilene school, Hardin-Simmons University, Monday and defeated them, 6-0.

The Raiders lost only one set in whitewashing the Pokes. Tech's number one player, Daryl Allison, lost his first set to Johnny Paylor, 4-6, but came back to win 6-3 and 6-1.

Other Tech victories included: Beau Sutherland defeated Larry Bates, 6-0, 6-0.

Greer Kothmann defeated Jim Birdwell, 6-0, 6-3.

Robert Peterson defeated Gary McBrayer, 6-0, 6-0.

Allison - Sutherland defeated Paylor - Birdwell, 6-1, 11-9.

Peterson - Kothmann defeated Bates - McBrayer, 6-0, 6-1.

Tech is now 1-2 for the season.

Texas Tech's track team, in one of its finest showings of the year, ran fifth in the San Angelo Relays. Favorite Abilene Christian outdistanced the field to win its fifth straight meet of the year.

Tech scored 19½ points in a loaded field including Texas A&M, Southern Methodist and Texas.

Tech's quartermile relay ran third, but turned in its fastest time of the year with a 42.1. ACC won in 41.3. Tech's mile relay led for most of the final event until A&M's fabulous Ted Nelson anchored home the winners in 46.9. A&M was timed in 3:14.9; Tech clocked 3:15.9. Tech's anchor man Noel Carter ran a 48.3.

Tech's sprint relay ran fourth with a 3:27.7. Rex Wilson of Texas had to outrun Tech's Ronny Biffle twice to take both titles in the hurdles. Wilson won the 330 intermediate hurdles in 38.6, with Biffle right behind at 38.9. Biffle set a new school record in the high hurdles with a time of 14.1. Wilson won the event in 14.1, in what was termed the finest and closest race of the day. Wilson and Biffle both lunged for the tape and were given the same time.

Jeffrey Brock ran a 4:20.4 in the mile to take a tie for third. Twink Terry jumped 6-0 to take a tie for fourth place.

The next meet for the Raiders will be Saturday at the Texas Relays. The Tech freshmen will also be at the meet. They haven't been in action since they upset the ACC freshmen March 23.

Executive Platforms Voiced

Furgeson Seeks One-Day Break

In many conversations with Tech students across the campus, I have found a desire for strong programs and for new ideas from the Student Council. With this in mind, I have tried to develop a platform to meet the desired needs of the student body.

Presently Tech is accelerating its academic growth just as fast as its physical growth. In this realm I feel the Student Council can promote activities.

The speaker convocation should be greatly intensified in order that Tech students can get a first hand report on national and international activities. These convocations could help us coordinate our in-class instruction with practical, on-the-spot information.

Since I have mentioned the classroom, let me explain another idea I have in relation to academics. At Tech and at other universities in this nation, grades are of chief importance. Since the pressure to make high grades is so great and since final examinations usually determine a grade to a large extent, I feel that we, as students, should have longer to prepare for our tests.

With this explanation I propose to work for a one-school-day break between dead week and final exam week.

I feel that Tech is definitely a university, and next year, I will work to bring university status to our name. These above four programs are the ones I plan to stress in the realm of academics.

Another realm of the Student Council which has not been examined closely in the past is the area of communications between the Council and the student body. I would like to remedy this problem by printing a column in THE DAILY TOREADOR from the Council.

I also feel that we need to have the executive officers before the students for criticisms and suggestions. This could be accomplished by having monthly meetings in the Union composed of the officers and all students who wish to attend. We would also have these mass meetings in the dorms.

Another area where I feel communications need to be improved is between Tech and other Southwest Conference schools.

With these other programs I have mentioned, I would like to emphasize some of the established programs of the Student Council. The Traffic Program is one that needs continual work and supervision. Our Athletic Recruiting Program is also one which can add strength to our athletic system in future years.

All these programs are the ones that I feel Tech needs to enable it to continue to keep pace with the changing times. Since they are important, I have made them the basic points in my platform.

NOT EVEN WIND CAN STOP 'EM—A strong West Texas wind seemingly proved no obstacle to this couple attending Thursday's campaign rally. Perhaps the girl received a lift to obtain a better view of campaign proceedings or merely to provide a balance against the winds. —Staff Photo

Strickland Sees Small Minority

Will we ever have another chance? If so, when? Do you really care if we have another chance? If so, read on.

Will we let a small minority of students set the policies and procedures of this campus for another term of office? I hope not. Will we continue to permit the leaders to blame the lack of voting on students' indifference? Again I hope not.

The main question is, will we face the following true fact?—We have never had a real reason to vote, mainly because of the self-centered policies and practices of this small minority.

As you read you will be able to understand how my platform isn't constructed to make me sound popular — because frankly, I'm not for everything that is "popular." I stand for the issues that back the rights of every Tech student.

First, I will inform students with a President's Column in THE DAILY TOREADOR, giving factual information of Student Council and administrative decisions and viewpoints.

Secondly, I will earnestly seek possible solutions to the growing parking problem.

Thirdly, I am not completely against a tuition hike if scholarships and other benefits are provided to balance the extra expense, but I will personally lead a campaign against any action that does not enhance the Tech student.

Fourthly, I will use any influence I have to obtain student rates at local theaters.

Other areas of my platform are: further stressing of honors program, hush discontentment about dorm food, reconstruct girls' restriction codes and eliminate out-of-date restrictions, ballot boxes in each dorm, something done about the name change, obtain athletic intergration if Techsians want it and continue study of purposes of class officers.

My platform also includes: unifying Tech organizations to work for advancement of Tech, obtain big - name speakers, raise money for name marker at campus entrance, make Model UN an annual event and work with IFC and Panhellenic to promote TB fund drive.

Let me ask you to study each candidate's platform and make a decision on your own. Then vote.

Prexy Candidates List Qualifications

Royal Furgeson QUALIFICATIONS

- ✓ Two-year member of the Student Council, serving on Publications Committee and Athletic Recruiting Committee
- ✓ Saddle Tramps
- ✓ Who's Who in American Colleges and Universities
- ✓ Varsity Basketball Letterman
- ✓ Interfraternity Council
- ✓ Honors Program in English
- ✓ Leadership Recognition in All-College Service
- ✓ High School Senior Class President
- ✓ Sports Editor of High School Annual
- ✓ National Honor Society
- ✓ High School Varsity Basketball

Gary Strickland QUALIFICATIONS

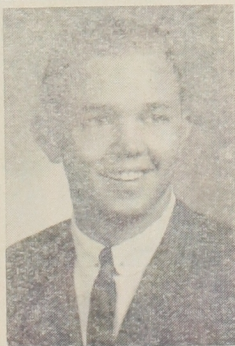

- ✓ Engineering Representative on Student Council
- ✓ Chairman of Class Committee Student Council
- ✓ Co-Chairman of WUS
- ✓ President of Sophomore Class (61-62)
- ✓ Vice President of social Fraternity
- ✓ Activities Chairman of social Fraternity
- ✓ Member of IFC
- ✓ Member of BSO
- ✓ Member of Alpha Phi Omega (service fraternity)
- ✓ On Committees at BSU
- ✓ Participation in advance ROTC
- ✓ Cheerleader in High School
- ✓ Student Council in High School

President's Duties

- Preside over meetings of the Student Association.
- Serve as presiding officer for the Student Council.
- Be chairman of the Executive Committee.
- See that rules and regulations are executed.
- Appoint all committee personnel not otherwise provided for in the Constitution.

STRICKLAND

ROYAL FURGESON FOR

PRESIDENT COMPARE AND VOTE

VP Hopefuls Give Platforms

James Cole

I propose to work for a compulsory evaluation of the faculty in the hope that such evaluations, if required, will make department heads more aware of teacher deficiencies. I also propose to work for increased student voice in the area of determining, to some degree, academic policy.

I propose to do this by working for joint student-faculty committees on which student opinion is voiced as to departmental policies. I propose to work for ad-

ministrative convocations at which the administration explains its policies and then subjects itself to question and answer periods about administrative matters.

I propose to work this summer on the feasibility and value of a book swap and then incorporate it next year if it is a good proposal for Tech students. I propose a very active name change program to the point of student referendum votes.

I propose to study our freshman orientation program and try to come up with a better orienta-

tion into the areas of campus activity, student life, and school spirit.

My qualifications are as follows:

President of Wells Hall in 1961-62, vice president of Men's Residence Council in 1961-62, member of Saddle Tramps, president of BSO in 1962-63, student council in 1962-63, chairman of the traffic committee, member of the elections committee, Who's Who in American Colleges and Universities, 1962-63, College Awards Board member, Tech Union Board member, committee on student organizations member.

Doug Gibbins

I would like to decrease student apathy through more student participation in Student Council and student government.

I propose to do pioneer work toward athletic integration. I also propose to continue and improve upon the athletic academic recruiting program.

I propose to study fraternity and sorority lodging plans and formulate some ideas and plans that would be workable in the future. Also, I would like to find more definite and satisfactory reasons for the tuition hike before we let it be put into effect.

My qualifications are as follows:

Chairman of the special events committee, in charge of the Freshman Dance and Freshman Convocation during freshman year; Games and Tournaments Committee at Tech Union; Wells Hall Social chairman in 1960; Campus Religious Council in 1961; secretary of the Double T Assn.; president of junior class in 1962-63; member of Phi Delta Theta; member of the Saddle Tramps; member of Phi Epsilon Kappa.

Botkin, Cornell Compete

Ronnie Botkin

The position of Business Manager of the Student Association is usually greatly underrated by the average student. Only at election time is anything really heard about the office. The position requires a great deal of work, and only with prior experience on the Student Council and a working knowledge of the duties of the office would anyone be able to do the job correctly and efficiently.

I feel that by being a member of the Student Council and working on the Allocations Committee I have gained the needed experience and knowledge. The responsibilities of the position are great and I think that I will be able to deal with any situation that might arise with the best interest of the students and Texas Tech in mind.

If you choose to select me as Business Manager of the Student Association, I will serve you and this 'university' to the best of my ability.

Jess Cornell is also a candidate for Student Council business manager. His platform does not appear as he failed to submit it to the Toreador by Thursday's deadline.

VP Duties

- Perform the duties of the President in the event of his absence or inability;
- Succeed to the Presidency in the event that the office should become vacant;
- Perform such duties as designated by the President or the Council;
- Be in charge of the annual school trip.
- Keep a complete and accurate record of all financial transactions of the Student Association.
- Serve as chairman of the Allocations Committee of the Student Council.
- Direct the financial activities of the varsity yell leaders.
- Educate all yell leader candidates in regard to the responsibilities and limitations of their positions.
- Be responsible for the approval of all money-making activities of the four undergraduate classes.
- Write an article to be printed in the TOREADOR during the month of December of each year to inform all students graduating at the end of the first semester of the deadline for submitting requests to the office of room reservations for the return of their room deposits.

REMEMBER...
TO VOTE!

Pat Hamilton
Secretarial Candidate

In both leadership and service capacities, I have served and am serving Texas Tech:

Through school — I have worked in the Home Economics Club,

and am past CANDLE Editor and incoming President of Phi Upsilon Omicron.

Through organizations — I am a member of President's Hostesses, will be a legislator of Doak Hall, and have recently been selected to membership in Mortar Board.

Through Student Council — I have served on the Elections, Current Events, and Allocations committees.

If elected your Secretary, I would like to accomplish the following things during my term of office.

- Continue the present secretary's program of opening up the campaigns and putting the candidates in front of the voters.
- Make arrangements so that all counting of votes can be done by IBM computer. This would insure fast and accurate tabulation of votes.
- Hold Freshman Council elections as early as possible in the fall so they may work on a more united freshman class; they could reserve a section of the football stadium for the freshmen whose enthusiasm might boost our school spirit.

Cecile Camp
Secretarial Candidate

My qualifications for Student Council secretary are: EXTENSIVE secretarial training, GOVERNMENT minor, EIGHT consecutive year's service on student councils.

My platform is:
 Ready to serve YOU in:

1. Better communications for a better Tech—
 - Council members should report back to their organizations
 - Minutes of meetings should be printed in the TOREADOR

2. Fairer elections for a better Tech—
 - Re-evaluation of officer qualifications
 - Filling cheerleader and class officer vacancies

3. More special events for a better Tech—
 - Another all-school program such as the Model U.N.
 - Top national speakers
4. Safer traffic for a better Tech—
 - Let the students decide

Judy Price
Secretarial Candidate

Qualifications:
 Student Council 62-63, Elections Committee 62-63, Recognized by Student Council for leadership.

Freshman Council 60-61, Junior Council, Sigma Kappa, Phi Gamma Nu, Pi Delta Phi, President's Hostesses.

As Secretary of the Association, improved communications would be one of my goals. As a member of the election committee this year, lack of student interest in campus elections has been painfully evident. Campus positions are often filled by a very small percentage of voters. Integration of students into Tech's student government could be achieved through a coordinated program with the TOREADOR.

I would also work this summer with IBM in the Engineering Department to set up a program for elections. All elections then would be held on IBM cards and counting would be done electronically.

Office Duties

The secretary's duties are:
 KEEP the minutes of meetings of the Student Association and of the Student Council; BE responsible for the maintenance and preservation of the official version of the Student Association constitution and all rules and regulations of the Student Association; SEE that a copy of the official version of the constitution and all rules and regulations of the Student Association remain on file in the office of the president of the college; SEND a copy of the minutes of each meeting to the following: President of the College, Dean of Student Life, Dean of Men, Dean of Women, Student Council sponsor, Vice President and Comptroller, Academic Vice President.

AT all times maintain and preserve the official copies of the Student Association constitution and bylaws in the Student Council office.

PRICE IS RIGHT for SEC.

And Duties

Candidates for cheerleader are Carolyn Buxton, Linda Edie, Carol Fursman, Gay Gillespie, Jeannine Jones, Nelda McQuien, Camella Moore, Kathy Osthoff, Sandy Sample and Jami Steinhoff.

head cheerleader who shall be a male student and shall serve as their chairman.

Other candidates are Myrna Stephenson, Lynn Wallace, Dennis Ashmore, Mike Bohn, Smiley Irvin, James Perry, John Ward and Bobby King.

Those persons elected will:

- Be responsible for all Texas Tech pep rallies
- Coordinate the generation of enthusiasm at all recognized college athletic events
- Be responsible for furnishing a representative to the Southwest Conference Sportsmanship Committee
- Encourage good sportsmanship on the campus
- Be responsible to the business manager for the management of their finances
- Elect, from their number, a

PRICE IS RIGHT for SEC.

It Takes More Than Yelling To Be A Tech Cheerleader

Lots of people can yell and cheer with gusto when the Red Raiders go over for a touchdown. Quite a few can turn flips, inspire enthusiasm and attend all athletic events.

But there are a few special qualities, perhaps best classified under the term, gung-ho, that sets a good cheerleader apart from the football crowd.

Special qualities don't include regular cheerleader duties such as coordinating pep rallies and being on hand at ballgames.

One Tech cheerleader called it a year-round job. "A cheerleader must attend teas for visiting athletes, entertain visiting yell leaders and when away, attend all planned functions at other schools," she said.

High on her list on what makes a cheerleader really go is being able to perform yells well, en-

thusiasm, and devotion.

"A good cheerleader above all to develop sportsmanship and his enjoys cheerleading," she reflects. "He should at all times strive to develop sportsmanship and his own potential to its fullest."

Industrial Engineers Win First

Industrial engineering department took its fifth straight first place in the recent Science and Engineering Show.

Industrial engineering exhibits demonstrated techniques in production control, plant design, materials handling, work measurement, statistical quality control, product design, manufacturing analysis and organizations research.

Displays in the 31st SE annual show were judged on appeal to the public, explanation of department curriculum and presentation of exhibits.

The industrial engineering display received 3,705 points of a possible 4,000.

Bud Lanham was chairman of the department's exhibit. American Institute of Industrial Engineers and Alpha Pi Mu set up the displays.

READY TO STOMP—Judy Richards, junior, and Bob Fouts, senior, are all decked out for the Phi Mu western dance 8-11:30 p.m. today. Jimmy Heap's Band will play for the open dance at Vann's Catering Service. —Staff Photo

Delegations Plan Trips

Delegates from Tech's history department will scatter to state and regional history meetings in Austin and Albuquerque this weekend and next.

Four faculty members will represent Tech at the Texas State Historical Assn. meeting this weekend. The Austin meet begins today and continues through Saturday. Dr. David Vigness, department head; Dr. Ernest Wallace, professor; Billy Mac Jones, instructor and Richard Marcum, teaching assistant, will attend.

Tech's chapter of Phi Alpha Theta, history honorary, will send five representatives to a regional meeting in Albuquerque, N.M., Friday and Saturday, May 3-4.

Attending will be Dr. Paul Woods, history professor, and Lt. Col. George R. Hull, professor of air science.

Ronald Benson, teaching assistant, will present a paper on the Hay-Pauncefote treaty.

Nancy Vincent, Alpha Theta president, and Sarah Gaston, Austin junior, are Tech's student representatives.

Why Do You Read So Slowly?

A noted publisher in Chicago reports there is a simple technique of rapid reading which should enable you to double your reading speed and yet retain much more. Most people do not realize how much they could increase their pleasure, success and income by reading faster and more accurately.

According to this publisher, anyone, regardless of his present reading skill, can use this simple technique to improve his reading ability to a remarkable degree. Whether reading stories, books, technical matter, it becomes possible to read sentences at a glance and entire pages in seconds with this method.

To acquaint the readers of this newspaper with the easy-to-follow rules for developing rapid reading skill, the company has printed full details of its interesting self-training method in a new book, "Adventures in Reading Improvement" mailed free to anyone who requests it. No obligation. Simply send your request to: Reading, 835 Diversey Parkway, Dept 9894, Chicago 14, Illinois. A postcard will do.

Zsa Zsa Stars In Union Show

Mel Ferrer and Zsa Zsa Gabor star in "Lili," a technicolor movie, at 4 p.m. and 8 p.m. today and 2:30 p.m. Sunday in Tech Union Coronado Room. The Special Events Committee is sponsor.

Grads Discuss Negro Novelist

Grover Lewis and Nolan Porterfield, graduate English students, will lead the discussion at today's Noon Forum in the Tech Union Blue Room.

Discussion topic is contemporary Negro novelist, James Baldwin. Baldwin is author of "Another Country."

Purdue Prof Lectures On European Market

Competition from the European Common Market will force the U.S. to move rapidly if it is to hold onto its world markets or consider expanding them, according to Dr. James Greene, industrial engineer and visiting lecturer at Tech.

His ideas may carry some special weight since he has recently been a consultant to the European Production Agency, a division of the Common Market's organization.

"The U.S. must find ways to produce goods with more efficiency," he declared. "This presents a challenge to our industrial engineers."

Dr. Greene, a Purdue University professor, is spending three days, Monday through Wednesday, at Tech. He is conducting seminars in general industrial engineering research, production control and operations research.

Positions Open For L-V Staff

Applications are now being accepted for associate editor, copy editor and staff artist for next year's La Ventana.

Students interested in these positions should write a letter giving their qualifications, past experience on an annual or newspaper, why they want the job and any new ideas they may have for next year's La Ventana.

Past experience is not necessary, but preferable. Applications should be turned in to the La Ventana office or to either Johnnie Lu Raborn or Travis Peterson by May 1.

These are paid positions, and applicants should be willing to put in a great deal of time.

HONORARY MEETS

Psi Chi, psychology honorary, will meet at noon today in Tech Union, Elmer's Lounge. The group will initiate members and present a slate of officers. Those attending must sign up in the psychology office, X-31.

SURROUNDED—Carol McCormick, Ennis sophomore, was surrounded by cadets from England's Royal Air Force after their captain said, "If I were you blokes, I wouldn't let these ladies sit alone."

As I see it . . .

by johnnie lu raborn

"You think we speak the same language, but we don't," said one cadet from Cranwell, the Royal Air Force Academy in England. I had to agree with him.

Tech's Angel Flight was visiting the Air Force Academy in Colorado Springs. Some were dated with English cadets, who were also visiting. It was a real education.

For years, I've heard the English stereotype came out with "jolly good," "old chap" and "ra-ther." They are all true with the addition of an occasional "quite" and "Oh, my yes."

In England, you are not "out to lunch" but "around the corner." When we have a lousy date he is called "cull" or "bad head," but Cranwell calls them "grimmies."

'MAKING OUT'

It is a mystery how they got it but "cupeake" is said for "making out." Tennis shoes are called "blimp shoes," and a resounding "dash it" means darn or damn.

We Americans take much for granted. These cadets had never seen a drive-in movie or drive-in restaurant. Motels were also new, for they don't exist in England. Some of the guys got their first taste of pizza, Mexican food and pretzels. They didn't like it.

'STATUS SYMBOL'

It is a status at our Air Force Academy for the "firsties" or seniors to have Sting Ray Corvettes. That vast parking lot is full of them. I didn't see five cars under two years of age. The Cranwell "chaps" find it "marvelous" to get to ride bicycles when seniors. They do have cars, but generally these are somewhere in the 30's models. A car 10 years old is relatively new.

I did notice one thing about the cadets as a group. They abounded with national pride. One said, "There will always be an England." To which some of the U.S. cadets sort of laughed. A Cranwell "troop" recounted with a "Don't scoff at it, national pride is a wonderful thing." Their pride was so emphasized that it made me wonder if we "came over" the same way about our country.

On Saturday night, a formal ball was given for our flight, Cranwell and first classmen (seniors) at the academy.

The British boys taught us one way to live up a rather stiff dance. During one of the songs, one Cranwell "troop" yelled "Ants." The cadets immediately fell down on the floor, rolled over on their backs and kicked their feet and arms into the air. At the sound "dead ants," the legs and arms went stiff. Rather quaint, I'd say, but still effective enough to break everyone up.

GHOUL POOL

The Angels with U.S. Academy dates were wondering that night if they were included in the "ghoul pool." It goes like this. The academy hosts arrangements for blind dates for the formals. Cadets within each squadron enter a "pool" for 25 cents. At the dance, squadron officers act as judges and dance with the dates of each cadet entered in the pool. Afterwards, these officers decide which had the worst date and he wins the money. If we did it here, I would be rich.

AS I SEE IT

Sigma Kappa will choose a "Mr. Pledge" at 8 p.m. today in the National Guard Armory. Mr. Pledge will be chosen from fraternity pledges. The Caravans will play for the all-school dance.

Phi Mu will have a western stomp, 8-11:30 p.m. at Vann's Catering Service. The open dance will feature Jimmy Heap's band. Tech Union also is having a western dance from 8-11:30 p.m. in the Ballroom. Jimmy Mackey is playing.

KAPPA KAPPA GAMMA

An informal "German Beer Garden" will be the setting for the Kappa Kappa Gamma dinner dance at 6:30-11:30 p.m. today.

Delta Sigma Pi will have its Rose Dance from 7:30-12 p.m. Saturday at the Pioneer Hotel.

Newman Club will go on a picnic Sunday to Palo Duro Canyon.

Red-White Skirmish Ends Spring Training

Scarborough, Ben Elledge Opposing QBs

By ARTIE SHAW
Toreador Sports Editor

A pair of shining freshman quarterback prospects will be opposing each other at 4 p.m. in Saturday's final spring training scrimmage.

Featured will be Danny Scarborough of Quanah and Ben Elledge of Brownwood.

The annual contest is the rubber game of the series, as the Reds jumped to a quick two-game advantage, only to have it taken away from them in the last two outings by the underdog Whites.

Two upperclassmen quarterbacks, Bill Worley of Midland and James Ellis of Lubbock, underwent knee surgery in December and will probably not see action, although they will be suited.

Statisticians Overworked

With both the Reds and the Whites threatening to "loosen-up" their previously tight offenses, the stress could be worse on the statisticians than on any one else.

Last week the Reds gathered 364 yards of total offense in a losing cause, while the Whites haled and threw for 277 in their 20-12 victory.

Long gainers have been the word of the day thus far, and any

Tech Linksmen Meet UT At Meadowbrook

Texas Tech, in an effort to get back into the Southwest Conference golf race, engages the University of Texas here on Lubbock's Meadowbrook golf course today.

Tee-off time at Meadowbrook is 12:30 p.m.

Coach Jay McClure's linksmen, 4½-1½ losers to Texas Christian University here Monday, will also be motivated by a desire for revenge. Texas sports five lettermen from the squad that downed the Red Raiders 5-1 in Austin last year.

Texas Tech currently has a 14½-9½ standard. The Raiders lost to Texas A&M, knocked off Rice 6-0 and defeated Baylor 5-1 before dropping the match to TCU.

Texas' players will probably be Bill Munn of Midland, Randy Geiselman of Houston, Oscar Goode of Austin and Pat Thompson of Mission.

Texas Tech golfers for the match will probably be Bruce Dobie of Worcester, Mass., Richard Yates of Corpus Christi, Housty Brewer of Andrews and Jim Davidson of San Angelo.

Yates is Texas amateur champ, and lost his first-SWC match of the year to Jack Montgomery of TCU last week.

BILL WORLEY
. . . Will not see action

more would be just icing for the cake.

Jim Zanios, Albuquerque full-back, for example, took a handoff from Red quarterback Ben Elledge and raced 52 yards off tackle in a spectacular gainer.

Elledge connected on two long passes, one to all-Southwest Conference end, David Parks, for 44 yards and another to Stimmert half-back, Donny Anderson, for 41 yards.

For the rubber game, each having won two contests, lineups will be exactly the same as last week. There may be a trade at half-back between David Baugh of Rotan, a Red last week and Jimmy Edwards of Roysie City, who played for the White squad last week.

Admission is \$1 for adults, 50 cents for students and Tech students will be admitted by showing their identification cards.

Traffic and Security

The staff is comprised of a chief, 10 commissioned officers, one night sergeant, two radio operators, one secretary, one clerk and two part-time employees. There are three radio-controlled patrol cars. In October, 1962, there were 6,240 cars registered to park on campus.

Tech Netters Challenge Rice, Texas In Important Matches

Texas Tech tennis players, in their next two matches, have a chance to influence the outcome of the Southwest Conference championship campaign.

In successive matches—against Rice University here Saturday and against University of Texas in Austin Monday—the Red Raiders tackle the teams currently sharing the lead.

Coach George Philbrick's netters, besides playing the role of potential spoilers will be out to guarantee or better their own third place position. Tech is 14-4 following wins over Baylor University 5-1 and Texas Christian University 6-0 and a split with Southern Methodist University 3-3.

Raiders' netters will be Daryl Allison of Lubbock, Greer Kothmann of Junction, Beau Sutherland of Kerville and Robert Peterson of Wichita Falls.

Rice University is led by the 1962 Southwest Conference finalist in both singles and doubles, Fritz Schunck. The Owls, coached by Sammy Giamalva, are defending Southwest Conference team champions.

Last year Rice downed Tech 6-0, and the Longhorns battled the Raiders to a 3-3 draw.

A re-match of last year's SWC finals doubles match, won by Allison and Sutherland over Schunck and DeEdward Greer, has been virtually ruled out by re-pairings on both teams.

Matches, on the Varsity Courts, will start at 1:30 p.m. The public is invited free of charge, Coach Philbrick pointed out.

GEORGE PHILBRICK
... Tech tennis coach

Pics Down AFB, 20-12

Texas Tech's Picadors picked up their eighth win of the season Wednesday as they ran away from Reese Air Force Base, 20-12.

The game, which took three hours and twenty minutes to play, was called at the top of the ninth inning due to darkness. Tech slammed out 17 hits, as converted basketballer Dadid Schmidly picked up his first mound victory of the season. Schmidly pitched the first four innings and left the game with a 15-5 lead. In his four innings stint, Schmidly allowed only four hits, while striking out six and walking three.

The Picadors were led at the plate by second-baseman Buzz Henderson, who collected four hits out of five at bats. Jim Murrell and Ronnie Holly drove in the most runs with five RBI's apiece.

"FLORA-SCENT" makes The Perfect MOTHER'S DAY Gift

Raiders Visit Highlands Nine

Two improved baseball teams—Texas Tech and Highlands University—clash in a doubleheader at Las Vegas today.

Since Texas Tech posted a pair of wins, 5-2 and 3-0, here earlier this month, the Cowboys have won six straight and now are 10-10 for the season.

The Red Raiders have a three-game streak, and five of the six, going for them. Their only loss came at the hands of the Abilene Christian College nine. Other wins are the twin-killing of Highlands and a double victory over ENMU.

★ Sports Shorts ★

If a sports fan wants to stay busy here this weekend, he won't have much difficulty.

Touching off the crowded schedule was an NRA Rodeo, which begins at 8 p.m. Thursday. Other night sessions are carded for tonight and Saturday night. One is also slated for 2 p.m. Saturday afternoon.

★ ★ ★

A football clinic gets underway at 2 p.m. today and continues through Saturday. It is being hosted in conjunction with the annual Red-White scrimmage and will include a barbecue tonight and sessions Saturday morning. Head Coach J T King and his staff are holding this clinic for high school coaches.

★ ★ ★

Starting at 1 p.m. Saturday will be finals in the Red Raider Relays, open to state track and field meet qualifiers. The strongest events prior to the start of the Relays appear to be the 100-yard dash, pole vault and high jump.
