First Semester Honor Roll Has 375 Students; New Point System Used

Old Cast Off Hose Woven Into Rugs

Coods, here is a new use for those cast off silk hoses with runners in them.

The textile department has taken old silk hose, dyed them gay bright colors and hand woven them into bright rugs for use in the bedroom, living room or bath room.

These rugs are woven on the hand loom, and any pattern may be made. One is now on exhibition in the textile department. It is 36 inches wide, and six feet long.

Six Grade Points Given For Each Hour Of "A" Grades Received

GRADE averages for the first semester of 1934-35 have been determined by a new system and the names of 375 students appear on the honor roll. Only students carrying 12 or more semester hours of work are listed. The honor roll represents almost one-seventh of the entire student body.

Under the new system, 6 grade points were given for each hour of "A" grades; 4 for each hour of "B"; 2 for each hour of "C" and none for each hour of "D" and "E." The total grade points were divided by the number of hours carried to obtain the grade point average.

213 On Honor Roll Last Year
A total of 213 students were in the honor roll of the first semester last year. Under the old system, students were required to carry 15 hours of work before they could be listed on the honor roll. Averages were determined entirely by grades without the use of grade points.

All "A" Grades
Anna Mary Baucum, Lubbock; LaVada Baze, Colorado; Albert Coneway, Friena; Claude Cravens, Slaton; Jack Fox, Childress; Ruth Furmenes, Lubbock; Marlon James, Lubbock; Wayne Kelly, Morse; Frank Standhardt, Roswell, N. M.; James Toothaker, Lubbock; Mrs. Edith Wherry, Lubbock; Paul Wilhelm, Lamesa.

5-Point Average
James Atcheson, Lubbock; John S. Ball, Lubbock; Mary Etta Bean, Lubbock; Betty Bizzell, Lubbock; Ruth Black, Lubbock; Perry Brown, Lubbock; Fannie Bratcher, Lubbock; Ralph Brock, Lubbock; Pauline Bue, Lubbock; Nellie Bussey, Lubbock; Joe Caldwell, Jr., Abilene; Ralph Cantrell, Mexia; Mildred Chappell, Dallas; Curtis Cheaney, Electra; Dorothy Frank Clements, El Paso; Pulton Eugene Clements, Childress; Frances Cleveland, Lubbock; Ruth Coleman, Lubbock; Larue Cooper, eMadaw; Martha Enna Cox, Vealmore; Roy Leon Crutcher, Lorraine; Charlene Davis, Big Spring; Emily Davis, Lubbock.

(Continued on page six)

Stock Judges To Be Honored

Roscoe Wilson Is To Award Medals To Team And Coach

The Tech senior livestock judging team and Coach Ray C. Mowery will receive the official recognition of the college at a regular meeting of the Aggie club in the Pavilion Tuesday night. Roscoe Wilson, member of the Tech Board of Directors, will award medals to members of the livestock judging team that won first place at Chicago last December.

Members of the junior livestock judging team who are to leave March 15 for the Southwestern Fat Stock show at Fort Worth will be presented at this meeting. This will be their first appearance before the club.

Members of the senior team are Homer Brunley, Casey Fine, Herbert Davis, Lawrence Shipman, J. P. Smith, and Henry Elder. Professor Ray C. Mowery of the animal husbandry department is the coach of the team.

Juniors are Arvie Elliott, J. T. Henry, Lee McElroy, Howard Preston, and W. B. Rogers.

Debate Features Monday Meeting

James Toothaker and George Long will take the affirmative of the question, "Resolved, that the economic policy of the United States is too nationalistic" at the regular meeting of the IRC Monday night.

Ernest Griffith and James Howell will present the negative side of the question. Further plans for the trip to Alpine will be made when Tech's International Relations students attend the seventh annual West Texas and New Mexico International Relations club conference, March 22 and 23 at Sul Ross State Teacher's college.

Professor M. E. Ogdon, instructor in the government department and sponsor of the Tech Tech IRC, will appoint one of the following to present a paper on Internationalism versus Nationalism: James Toothaker, James Howell, George Long, and James Gammill.

Chemistry Department Elects Show Manager

H. Clifton Crawford was elected manager of the chemistry department at a meeting of the Chemical Engineering society Monday night. Short talks were made by Nelson English and J. R. Earnest concerning the engineering show in April. Plans were discussed.

According to Howard Hurnence, president, each junior will be in charge of a number of sophomores and freshmen who will work on exhibits from the chemistry building.

Sigma Gamma Epsilon To Initiate New Pledges

Ceremony will be held for eight pledges of Sigma Gamma Epsilon, geology fraternity, the next week. Pledges were voted on in a meeting of the fraternity Tuesday evening in the home of the president, Edward Redmon.

At the meeting a chapter letter was written to the national magazine, "The Campus." Plans for the annual banquet were discussed and committees were named.

Five members attended. **SPEECH NOTICE**
Miss Ruth Pirtle, head of department of speech, has called a meeting of all speech majors in administration building, room 202, Tuesday at 5 p. m. Mrs. Bradford Knapp will discuss plays that she saw in Europe last summer.

Young Demos Protest Plan For Fee Hike

Tech Organization Mails List Of Petitions To State Legislature

THE Texas Tech Young Democrats club voted Wednesday night at their regular meeting to send telegrams to J. Doyle Settle, representative from this district, and to the House Committee on Education, opposing House Bill No. 627, designed to increase the tuition of state supported schools.

Oppose Bill
Tech Young Democrats passed a unanimous resolution opposing the bill, and all other legislation introduced to raise registration fees in any state school in Texas. The resolution pointed out that high fees would place education out of the reach of the majority of Texas students, thereby limiting educational advantages to a few students from the richer classes.

A petition was presented to the student body of Texas Tech yesterday, March 29. The meeting, beginning in the afternoon and lasting through the evening, will feature the annual art exhibit. Prizes will be awarded for successful entries.

Museum Society To Feature Art At Annual Meet

The sixth annual meeting of the Plains Museum society will be held March 29. The meeting, beginning in the afternoon and evening, will feature the annual art exhibit. Prizes will be awarded for successful entries.

The Lubbock membership will be host to out-of-town members at a supper in the women's dormitory between the afternoon and evening sessions. Guests are expected from Big Spring, Snyder, Tulla, Plainview, Lamesa, Brownfield, Post, Littlefield and other towns in this district.

The student body is invited to the coming meeting. Letters of invitation are being sent to Tech alumni within the district.

Plans Submitted For Rock Garden

Five plans were submitted at a meeting of the Botany club Monday evening for a rock garden to be built west of the chemistry building as a part of the botanical garden.

Elizabeth Montfort, member of the club, will develop the plan, approved by the club, into a landscape scheme. The garden will consist of native vegetation only. Plans were made for a party March 15, probably at the home of Dr. R. A. Studhalter.

John Marr is president of the club, which meets the first and third Monday evenings of each month. There are 16 members.

Plans Submitted For Rock Garden

At the next meeting, Doctor Studhalter will read a paper.

MRS. TEAGUE DIES

Mrs. John L. Teague, mother of Miss Gussie Teague, professor of English, died of pneumonia at her home in Howe early Monday. Miss Teague has been in Howe several days.

Guy Carter, Tech Graduate, Is Now Associated With Hubert W. Smith In The Law Firm of Smith and Carter at Dallas.

Guy Carter, Tech graduate, is now associated with Hubert W. Smith in the law firm of Smith and Carter at Dallas.

Will Edit Annual

BRUCE ZORNS

Zorns Elected Annual Editor

Reeves Loses Yearbook Race By Less Than Sixty Votes

With a majority of 57 votes, Bruce Zorns of Meadow defeated Winston Reeves of Plainview for editorship of La Ventana in a run-off election held last Friday.

Zorns, a senior in the engineering division and editor of the 1934 annual, totaled 499 votes to Reeves' 442. The election was a result of the primary held February 22 and 23 when other publication officers were elected. He will assume office at the beginning of the fall semester and continue until June, 1936, the same as other winning candidates: Jim Lindsey of Lubbock as editor of The Toreador, Dixie Anderson of Lufkin as business manager of the paper, and Leonard "Bear" Curfman of Electra as the yearbook manager.

Zorns was first elected May 4 and 5, 1933, by popular vote, defeating Byron Terrell and Max Wagborne, both of Lubbock. Zorns has had almost four years of experience in editing and financing college and high school annuals. In 1933 he was assistant business manager of La Ventana. He is majoring in architectural designing.

Votes cast in the four divisions of the college Friday morning, afternoon, were counted in the presence of members of the student council holding the ballot boxes, and faculty representatives.

Knapp To Ask For State Aid

Tech President Appears Before Committee In Austin Next Week

President Knapp and W. T. Gaston, business manager, will go to Austin Saturday or Sunday to appear before the House Committee, concerning Tech appropriations for the next two years, 1935-36 and 1936-37.

The State Board of Control has cut out Dr. Knapp's request for several new buildings, general campus improvements, and restoration of the old buildings. The request was for four new buildings, home economics, agriculture, library, and a combined auditorium and gymnasium. It also included \$4,000 to close the sallyport.

Of the original request there remains the appropriations for the entire support of the college. The appropriation that has just expired, covering the three-year period from 1932 to 1935, was for \$308,907.65.

Pre-Law Pledges Given Initiation

Freshman Pre-Law members were given a partial initiation last Monday night at a regular meeting of the club.

Each freshman made an extemporaneous speech on any subject, chosen from a group, ranging from, "The Size of the Pre-Law Prexy's Car," to the "Length of Bread Lines in New York City."

A definite date was set for the Pre-Law trial to be held on the third Monday night in April. It will be a murder trial with a grand jury hearing two weeks before the trial on April 15.

TRYOUTS MONDAY

Final tryouts for membership in Sock and Buskin will be held Monday, March 11, instead of last Monday, as formerly announced. Those who are interested should go by the speech office and fill out applications. Tryouts will be held before a committee.

The annual Aggie club dance was scheduled for April 5 at the Hilton hotel, at a meeting of the club Tuesday.

Debate Team Advances To Semi-Finals

Tech Boys' Teams Are Eliminated In Early Rounds Of Tourney

TEXAS Tech girl's debate team, composed of Jane Woodruff and La Vada Baze, reached the semi-finals at the Intra-State debate tournament, sponsored by Southeastern Oklahoma Teacher's college, Durant, Oklahoma, last Friday and Saturday.

Tech boy's debate team, composed of Fred Barron and Junius Carter, defeated San Marcos State Teacher's college and Arkansas Teacher's college to win their first round, but lost in the next series.

Tech Eliminated
Alton Hankins and Clay Thompson, another Tech team, were eliminated by Stephen F. Austin State Teacher's college.

Six states, Arkansas, Kansas, Missouri, Texas, Louisiana and Oklahoma were represented at the tournament. One hundred and fourteen colleges competed in the contest, with 46 men in the senior college division, and 28 women in the senior women's college division. Forty junior college teams competed.

Baylor university, Waco, won first and second place in the senior boys' division.

Record Given
The Tech girl's team defeated Louisiana State Normal twice, both in the negative and the affirmative, Conway Arkansas State Teachers college, SMU, and were defeated by Northwestern Teachers college, Alva, Oklahoma, which won the senior girls division. Tech girls also defeated Louisiana State college and Louisiana State Normal, again.

Tech debaters, together with their sponsor, Miss Anna J. Pendleton, left here Thursday morning, spending the night at the home of Fred Barron in Wichita Falls, both going and returning. The Tech team began debating Friday morning at 10 o'clock and left Durant Saturday afternoon.

They were entertained with a dance by one of the campus fraternities Friday night.

Marr Named Head Of Dramatic Club

John Marr was elected president of Sock and Buskin, Tech dramatic club, at a regular meeting Tuesday night. Other officers elected were Melvin Schumpert, vice-president; Emma Smith, secretary; Jimmy Gannell, sergeant-at-arms; Pauline Cox, reporter.

The dramatic club was host to the members of the Home Economics club. Mrs. E. R. Heineman and Charles Maedgen presented the comedy, "Power of Suggestion," directed by Ruth Pirtle, head of the speech department.

Students who wish to try out for membership in the club may get application blanks at the speech office. Try-outs will begin Monday.

WAA Members Will Have Progressive Game Party

A progressive game party will be given at 7:30 Tuesday evening for members of the W. A. A. at the gym. Members who plan to attend are asked to leave a dime in the girl's gym office by noon Tuesday. Gym suits are to be worn to the party.

Due to a conflict in activities, soccer will be played at 5 o'clock Thursday afternoon instead of 4 to 5 on Friday. Tennis and skating will be held on Friday at 5.

Initiation of new members has been postponed indefinitely.

Bob Harding, Bruce Bryan, and Dick Browning were appointed as a committee to make arrangements for the A. S. C. E. banquet, at a meeting last Monday in the engineering building.

College Campus Has Language Of Its Own; Tech Has Distinctive Phrases

ENGLISH courses teach the student to use only Webster words in his conversation, and the Bible tells him to say only "Yea" and "Nay," but Tech students have their own way of getting things said. Slang and colloquialisms are perhaps more common on the college campus today than anywhere else.

"Howdy!" has been the manner of greeting at Tech for so long that an annual Howdy Day is sponsored by the Association of Women Students. For variety, "Hiya!" and "Hi!" and "Whaddya know?" are used. "Whaddya know?" is especially popular as a salutation, because it leaves the person addressed without a comeback.

Tony Sarg's Marionette Theater Features Third Artist Course Program

Sock And Buskin Members Will Go To Dramatic Meet

Two members of Sock and Buskin, Charles Maedgen and Mrs. E. R. Heineman, and their sponsor, Miss Ruth Pirtle, will leave next Thursday for Waasaheche, where they will attend the meeting and tournament of Alpha Psi Omega, national dramatic fraternity, at Trinity university.

The tournament is not competitive, as each group will present a play merely for entertainment. The Tech group will present "The Power of Suggestion," by Stokes. At Friday's meeting, Mrs. Heineman will talk on "Producing Without an Auditorium," and Miss Pirtle will talk Saturday on "The County Speech Clinic," and "Marionette Construction." Saturday afternoon the delegates are to be guests of the Dallas Little Theatre production and will be entertained with a formal banquet and dance at the Baker hotel that evening.

Tech Group To Attend Meeting

Ten Engineers Will Go To ASME Conference, April 12 and 13

Ten mechanical engineering students of Tech will attend the South-Central college conference of the A. S. M. E. which meets in Dallas April 12 and 13 at Southern Methodist university.

Colleges sending representatives to the two-day meeting are: Oklahoma university, Oklahoma Agricultural and Mechanical college, Texas university, Rice, Institute of Texas A. and M., Texas Tech and Southern Methodist, the host school.

Prepare Papers
Two Tech students will present papers before the assembly at the convention. At present five Tech students are preparing papers. Leon Ince is writing on "Steam Jet Refrigeration;" Truman Green on "Synthetic Molding Sands;" Charles Howell on "Cost of Transatlantic Flying;" Troy Mitcham on "Development of the Internal Combustion Engine," and Dyche Kelly, "Air Conditioning."

At a meeting of the A. S. M. E. Tuesday night plans concerning papers were discussed. Professors V. L. Doughtie, associate professor of mechanical engineering, and H. F. Godeke, head professor of mechanical engineering, presided. It was decided that the two best papers from the Tech branch would be submitted to the Dallas meeting.

Students from Tech who will attend the Dallas convention are: Leon Ince, Cleburne; Truman Green, Portales, New Mexico; Troy Mitcham, Dallas; Charles Howell, Lubbock; Dyche Kelly, Lubbock; Jack Guindy, Quitaque; Benjamin Priest, Rusk; Fred Jackson, Lubbock; Raymond Conaway, Hereford; Robert Houston, Plainview; and Ross Watson of Mineral Wells.

Goodwin Will Speak To Cadet Officers Club

Doctor R. C. Goodwin, chemistry department head, will discuss the uses of gas and chemicals in war at a meeting of the Cadet Officers club Thursday night in room 202 of the administration building.

Dr. Goodwin served in the United States navy during the World War and is now first lieutenant in the chemical department of the reserves.

The public is invited to hear the talk.

Is Dietitian

A June graduate of 1934, Christine Berrier, is now student dietitian at the Lincoln General hospital, Lincoln, Nebraska.

Thalia Parker, 1931 graduate, has received an appointment as case supervisor for Floyd and Hale counties under the FERA. Since her graduation she has done advance work at Texas university and at Tulane university, and has taught home economics two years at Hereford, Texas.

'Uncle Remus' And 'Faust The Wicked Magician' Are Presentations

"UNCLE REMUS" stories and "Faust, the Wicked Magician" will be featured in the two performances of Tony Sarg's marionette theater, at the high school auditorium tomorrow afternoon and evening as the third number on the Tech artist course for the spring semester.

A special matinee, featuring the "Uncle Remus" stories will be held at 2:30 p. m. The evening performance begins at 8 featuring "Faust, the Wicked Magician."

Done Through Many Stages
Puppetry, which began centuries ago, has gone through many stages of development, and is now a popular form of the theater. Special stages, operators, and plays are made solely for them. Marionettes are much more elaborately constructed than puppets, being operated entirely by wires and strings from above, while puppets are operated by hand and sticks from within the doll itself.

In Faust, which is in three acts and nine scenes, there are 16 star characters portrayed by the marionettes. There are also gnomes, citizens, soldiers, e. v. j. ghosts, skeletons, bats, owls and other weird animals. They are presented by the operations of five young men, who manipulate the 150 odd strings controlling the natural movements of the actors, and speak and sing the various roles.

Real Smoke
Based on the opera, the play is a sixteenth century tale of magic including scenes from Doctor Faust's study in Germany, a street scene in Venice, Marguerite's home and garden in Venice, a stone bridge, a witches' kitchen in Germany, a Venetian prison on top of the Brocken mountain. Real smoke coming out of the witches' cauldrons, fireworks, green smoke, thunder and lightning, a duel, and a dance make the acting as real as possible.

Sarg designs his marionettes, which are developments of the original designs.

(Continued on page six)

Students Get Appointments

Four Home Ec Graduates Accept Positions As Dietitians

Four home economics graduates and one student who will receive her degree in foods and nutrition in June recently have accepted positions as student dietitians and home demonstration agents.

Hazel Price, Lubbock, a 1933 graduate, has been appointed home demonstration agent in Montague county. Since her graduation she has been vocational home economics teacher at Keroville, Texas.

Vannoy Gets Position
The position of home demonstration agent in Martin county has been accepted by Joellene Vannoy, of McLain. She was graduated in 1931.

Gertrude Samson, who will receive her degree in June, beginning September 1 will fill a position as student dietitian in the Barnes hospital, St. Louis, Missouri. She is the third Tech graduate to receive this appointment and the first of the home economics June graduates to accept a position.

Is Dietitian
A June graduate of 1934, Christine Berrier, is now student dietitian at the Lincoln General hospital, Lincoln, Nebraska.

Thalia Parker, 1931 graduate, has received an appointment as case supervisor for Floyd and Hale counties under the FERA. Since her graduation she has done advance work at Texas university and at Tulane university, and has taught home economics two years at Hereford, Texas.

Pollard Is Chosen As Tech Director

Thomas G. Pollard of Tyler, a former state senator, was nominated Thursday by Governor James V. Alfred as director of Texas Technological college.

Pollard will succeed John W. Carpenter of Dallas. Friends of Texas Tech, Alfred said, urged selection of the East Texan. Alfred will soon make a formal appointment to the nine-member board.

Monthly Convocations

MOST college students know the purpose of the convocation. For the benefit of those who do not know, it is well to state its true meaning. Convocation is an act of summoning together, in the form of an assembly. The term as it is used in college means the assembling of all students in an effort to encourage fellowship and to make all the important announcements concerning them.

Under existing conditions convocations have proved themselves unpopular. This point is illustrated by the fact that 450 students out of 2,173 and 30 faculty members out of some 200 were in attendance at the recent convocation.

It is true that many reasons are offered for the lack of interest on the part of faculty and students. Some of the excuses are plausible and some may be logically corrected, but there is one great improvement that can be made that would insure better attendance. That is compulsory convocations.

Certain conditions in Tech make convocations more difficult, perhaps than it is in other schools. We have no auditorium and the gymnasium which is used as a substitute is distant and uncomfortable. But if Tech hopes for an auditorium, one of the first moves should be to create school spirit and to arouse interest. The state of Texas will not readily assist students who are indifferent.

If convocation hour were changed to 10 o'clock many of the students working in boarding houses at 11 or 11:30 o'clock, could attend. Convocation at 10 o'clock would mean that many of the students would have to remain on the campus to attend 11 o'clock classes. This would stimulate attendance, whereas, under the present plan, many will cut convocation because they have no more classes that morning.

It may be hoped, of course, that the programs would be improved and that the college would some day have an auditorium. The programs for each meeting could be sponsored by various organizations and departments; they could be advertised and in that way interest would be stimulated. Furthermore, if students feel that they are walking across the campus to hear a good program that they have been told about, their attitude will be much better.

Taking these facts into consideration, The Toreador believes that the students on the campus would be willing to attend a monthly convocation hour.

Congratulations

THE TOREADOR offers hearty congratulations to the new editors and business managers of The Toreador and La Ventana. You are indeed fortunate and you should feel proud that from a large student body you have been chosen to guide its major activities.

Receiving the good wishes from your friends and fellow students now, you feel that the path ahead is an easy one with fame and money as the rewards.

But fame and money are only the small things to be considered. You have a service to render to the student body of Texas Tech and your success will be measured in the amount of service rendered and that only.

Your editorial careers will be filled with many hard knocks and setbacks and the going will be tough all the way. You'll have to weather a storm of criticism each week. You'll have to lose many hours of sleep, postpone a few meals, cut many classes and flunk a few courses. You'll have to do some things against your better judgment. There will be times when you think the best thing to do will be to quit. Criticism and complaints will increase but don't quit. Just remember that you can't please everybody, no matter how hard you try.

There is a certain amount of fascination about the work of a college newspaper editor. Just when things become the darkest the attraction of his work always keeps him going. You are taking part in an activity offered only to a few. You are indeed in an enviable position.

And to you candidates who lost. But did you really lose? At least, you'll not have to undergo all the hardships of the victors. So, maybe you won after all.

Congratulations!

The Technological College

APPOINTMENT of ten Aggie graduates to the soil erosion service recently should stimulate every Tech student to prepare himself for a vocation.

This is a technological college, a college which proposes to educate men and women to take their places wisely and efficiently in a dynamic, economic world. In other words this is a college which undertakes to give men and women vocational training.

Technical training in schools and colleges has long been a subject for bitter contention in the ranks of educators. On the one hand, the old school proclaims that cultural subjects are the only legitimate basis of education; on the other, the new school has made vocational training its principal topic of discussion.

Which is correct? Doubtless something can be said for each kind. As a matter of fact one type of education need not demand the sacrifice of the other. Culture or a broad comprehension of it, is not incompatible with vocational training. The two conflict only when the sole aim of vocational courses is to prepare the student to do certain specific things. Such an aim misinterprets the world as static, and gives the individual no equipment for growth.

With a shift of emphasis, such technical training takes on new aspects. Specific features of a vocation receive less attention than the broad aspects of that vocation. A student not only acquires the minimum amount of knowledge required of man in his business or profession, but also sees this specialized knowledge in perspective and in its significant relation to the social, economic and political world. In this way an architect not only would be taught the rudiments of design, but would be guided to a realization of the significance of beauty and harmony, and the relation of architecture to civilization and culture.

The point is that vocational training may have one of two goals: efficiency and production or appreciation. The first goal conceives of the individual as a machine and measures him by the size of his job. The second regards the individual as a human being who ought to be trained to cultivate experiences that bring cultural progress and a full life. We believe this to be the goal at Texas Tech, just as we believe it to be the goal of every progressive technological college.

Exams For Profs

STUDENTS go to a movie—spend 25 cents to get in—movie is terrible—they come out disgusted—tell friends about it—results: No one goes from his particular circle of acquaintances. Fortunately for the movie it is out of town before everyone learns of its quality.

Another familiar picture:

Students go to a class ninety-three times a year—spend \$30 for the course—professor is terrible—they finally finish course disgusted—tell friends about it—result: Other students have to take course whether they like prof or not.

The law of supply and demand isn't given a chance to work in college. The prof, though the students are, in effect, his employers, has the upper hand over them. It is difficult for the administration to check up on him, thus leaving him to ramble through the years without really putting his course across to the students.

In Europe students walk out on lectures when they don't like them. Even here, in our own law college and philosophy department, the students have been given the opportunity to express their opinion of their instructors via ballot.

If students had a chance to grade their courses and their instructors the University would investigate each one voted "poor." Where the fault of the instructor is merely carelessness, the fact that such a judgment is regularly made would put a taut rein upon the professor himself. —SYRACUSE DAILY ORANGE.

The Role Of An Economist

AN ECONOMIST recently said, "Where ethics ends, economics begins." He elaborated that right or wrong is of no concern to one who studies the economic forces at work in modern society; that competition, in the long run, discriminates between the most competent and the least competent, and therefore equitably—from an economic viewpoint—portions the wealth, and consequently the happiness of mankind.

Such a philosophy, we contend, is not that of the true economist, who would contribute to the betterment and advancement of human society. Social sciences must change along with the civilizations they attempt to evaluate; to cry for the past is to set no direction for the future. The economist must not blind his judgments to those actions which indicate unrest on the part of the people. He is naive to the point of becoming a dangerous menace when he advocates an economic dog fight as the solution to dissatisfaction. The economist who would honor his profession by accomplishment, and contribute something to society by assuming leadership, cannot merely cry against poor or unsound reforms—he must be willing to devote his talents to creating better and sounder reforms. It will be of no avail to recommend a return to a bygone era of competition when people associate that era with a human tragedy and suffering; the economist must place his shoulder to the wheel of reform and change. It cannot benefit anyone to say "This cannot be," when the citizens are organizing to say "It shall be." —MINNESOTA DAILY.

There is something wrong with a nation that is always quarreling with its leaders.—Rev. Robert Norwood.

Youth must not be afraid to face the fact that it has to change politics, it has to change business ethics, it has to change the theories of economics and above everything else, it has to change its own weaknesses.—Mrs. Franklin D. Roosevelt

CAMPUS ECHOES

By JIM LINDSEY

Guns and pistols taken from Boston gangsters over a period of years were given to members of the Harvard university expedition into India.

A professor at Denver says that the average college man is too honest to steal, too proud to beg, too lazy to work and too poor to pay cash.

The following advice is given in the Tulane Hullahaloo to students who find it difficult to stay awake in class:

1. Sit by a co-ed who drops books.
2. Hold a pencil tightly in your hand; when you start to relax, you drop the pencil.
3. Give the co-eds on each side of you a stick of gum.
4. Sleep nights.

Purdue university has an organization known as "The Stray Greeks." The club is made up of men and women transfers to Purdue who belong to Greek-letter organizations not found on the campus.

Missouri School of Mines is planning to adopt silver diplomas in place of the original "sheepskins." It is believed that the silver diplomas are much more appropriate for graduates of an institution which has principally to do with metals.

When a professor kisses a co-ed outside of school, it's scandal. But when they do it in class... well... In a psychology class at Syracuse, the professor suddenly bent over and kissed a girl sitting in a front seat. This was done as an experiment to prove that a sudden emotion can be measured by the perspiration on the hands. Despite the fact that the girl was blindfolded, luckily for her the instrument did not record whether or not the emotions were pleasant or unpleasant.

There are over 400 bicycles at Smith college. The student government is formulating special traffic rules because they have become such a road menace.

Politics is the only game where there is no honor among thieves.

Only Yesterday

By F. S. W.

ONLY yesterday I WAS listening to the radio. AND A comedian. AND HIS stoges. WERE ENTERTAINING. AND IT struck me. THAT THERE are lots. OF PEOPLE who are only STOOGES for the ones. THAT ARE making hits. ON THE stage of life. AND I pitied. THE RADIO stoges. AND THE real life stoges. BUT AGAIN I admired them. THEY STRUGGLE along. WITH SMALL pay. IN ORDER that their. IDOL MAY succeed. THEY PROBABLY never think. OF anything except. SOMETHING THAT will help. THE FEATURED actor. TO BECOME popular. THAT IS their life.

GINS floated about MILO'S PARTY.

A suggested theme song for one of our "MEN-ABOUT-THE-CAMPUS," "I'M IN THE JAIL HOUSE NOW."

Things that run SALLY NUTS: THE SANDSTORMS, NISSLEY'S LECTURES, PERSONAL PRONOUNS, GUYS THAT CAN'T TAKE IT, "TWO CIGARETTES IN THE DARK," and FISH SELLERS' IMPOSSIBLE EGOTISM. BOB TRACY just stepped into the SALLYPORT and the view is obscured, so we bid you a fond cheerio.

ONE-MINUTE INTERVIEWS

Question: What do you think of the present Toreador delivery plan?
Sarah Louise Cook: They might have more people delivering them.
Malcolm Martin: They might hand them out like circulars.
Charlene Abell: The paper would not be appreciated if it were considered in the same class with a circular.

Katherine Leidigh: After about five minutes of shuffling the sheets of names around like a deck of cards I get my Toreador.

Madeline Neves: They might improve their filing system.

Dorothy Rylander: I think they could be distributed in the engineering school, which would save time for the engineers and reduce the complaints.

Jess Rogers: I'm not bothered. I'm so tall I just reach over the heads of the crowd.

Roger Clapp, former instructor in mechanical engineering, and a Tech graduate, has gone to Houston to work for a tool company.

We're still trying to solve the problem of the machine and power age with the thinking that did very well in the age of the horse and buggy but does not do so well in this age.

Los Camaradas Will Entertain With Dance This Evening

Las Vivarachas Patronesses Honor Members And Pledges

Luncheon To Be Given Saturday Afternoon At Hilton Hotel

SOCIAL activities this week-end center around a formal dance, a luncheon and a marionette show. Los Camaradas members are entertaining this evening with their fifth annual formal dance at the Hilton hotel in honor of new members and pledges. Ned Bradley and his orchestra will play.

The club name will be written below the orchestra pit with the club flowers and greenery. It will also be placed in lights above the orchestra.

Alumni Return

Among the alumni returning for the affair are Jason Gordon, Lubbock; Curtis Williams, San Angelo; George Pendley, Abilene; Odie Forbis, Morton and Marshall Formby, who, enroute to California from Florida, will visit in Lubbock during the week-end.

Miss Pattie Hanks and her mother of Abilene; Miss Ruby Lee Stuart, Edith Mae Collins, Lloyd Morrison and Stanley Wilkes, all of Lamesa, will be special guests.

Ell McAngus, president of the club is general chairman of arrangements and is assisted by "Dunk" Richards, O. B. Haught, Jack Bradley and Raleigh Upshaw.

Patronesses of Las Vivarachas are entertaining for members and pledges of the club with a one o'clock luncheon Saturday afternoon in the Chimayo room of the Hilton hotel.

Members Are Honorees

The club colors of purple and silver and the club flower, violets, are to be used in table appointments and favors.

Honorees are the following members: Misses Idell Bacon, Ruth Hurmence, Louise Conner, Emily Davis, Frances McKee, Lois Houston, Madeline Neves, Ocoola Scott, Lola Maye Grundy and Genevieve Stovall; and pledges: Misses Marian Hurmence, Emma Dean Bingham, Virginia Newton, Mary Etta Bean, Othella Daniel, Mary Frances Standefer, Lois Allen, Lena Mae Boyd, Billie Boyd, Mildred Blanton and Maxine Reese.

Hostesses are Mesdames J. S. Johnson, E. M. Chitwood, Roscoe Wilson, Maple Wilson, J. E. Vickers, J. B. Edwards and W. L. Bradshaw, Harry N. Roberts, Clifton Lindsey, M. C. Butler, Misses Margaret W. Weeks and Mabel D. Erwin.

Woman Editor Advises Club

New Fields Are Opening For Modern Women Journalists

"Many newspaper women today make as good reporters as men," asserted Miss Margaret Turner, Avalanche woman's editor, in a talk, "Women in Journalism," before the Tech Press association at its meeting Monday night. She added that women reporters wrote some of the best stories of the Hauptman trial.

"Journalism has a place for women," Miss Turner said, "not only as society writers, but as reporters, fashion editors, club editors, promotion managers, women's page experts, homemaker's page editors, publicity agents and solicitors." The sob-sister is fast disappearing," she stated. Miss Turner used personal experiences to illustrate her points.

Plans were discussed in a short business meeting for the trip which a Tech delegation will make to the Southwestern Journalism congress at Baton Rouge April 12 and 13. The trip will be made by bus. Those wishing to go are asked to notify Josephine Powell, Harvey Bond or Pauline Coe, member of the arrangements committee.

The congress was held at Tech last spring.

Las Leales Club Is Entertained

Members of Las Leales club entertained with a buffet supper and scavenger hunt last Friday evening at the home of Miss Katherine Leigh, 2101 Seventeenth street.

Miss Pauline Coe and Robert Koger won first prize in the hunt. Booby prize went to Miss Ruth Douglas and Finis Heidel.

Guests were Misses Agnes Abernathy, Allie Eason, Pauline Hooser, Eleanor Jungman, Ruth Lewis, Margaret Green, Mary Howell, Douglas, Coe, Hermona Shadle, Roberta Hunt, and Leidigh, Messrs. Ell Street, R. D. Harper, Burnice Walker, Koger, Braxton Gilmore, J. D. Donaldson, Pat Marse, Forrest Weimhold, Ross Hanna, Jack Parikhill, Heidel and Earle Stalnsker.

Asserting that women use cosmetics chiefly for decorative effects and not to make themselves look youthful, Prof. Curt J. Ducas of Brown university suggests that they ought to use other colors than red or pink, especially for their finger nails.

D. F. D. Members Celebrate Fifth Club Anniversary

In celebration of the fifth anniversary of D. F. D. club, members attended a Founders Day dinner Saturday evening in the Chimayo room of the Hilton hotel.

Annual club awards were presented. Miss Helen Lehmburg, old member, and Miss Linda Treadwell, new member.

Miss Fay Foote of Sudan, first president of the club, presided as toastmistress.

Alumnae Attend

Alumnae attending were Miss Foote, Miss Sarah Tom Jones of Morton, Mrs. Paul Whitfield of Littlefield, and Mrs. Garland E. Davis, Miss Martha Alice Penney, Mrs. Welborn Hudson, and Miss Betty Irby, all of Lubbock.

Members present were Misses Josephine Powell, Janet Hambricht, Eloise Smith, Lehmburg, Treadwell, Beatrice Seltz, Laura Bell Underwood, Mary Cammack, Mildred Houston, Dorothy Fortenberry, Mary Elizabeth Stanford, Geraldine Wicker, Lorena Carter and Mrs. Lonnie Langston, one of the sponsors, and Miss Dorothy Abernathy, a pledge.

The way to fight communism is to make the world more prosperous.

College Calendar

Friday, March 8
Los Camarados Formal Dance, 9-12 o'clock, Hilton hotel.
Seaman Hall Dance, 9-12 o'clock.

PFA, 8 o'clock, Pavilion, 102.

A college newspaper is a great invention. The college gets all the fame; The printer gets all the money; And the staff gets all the blame.

—Lehigh Burr.

Engineers Give Annual Dinner

Member Of Education Board Is Principal Program Speaker

Tom Garrard, member of the State Board of Education and former local attorney, was principal speaker at the ninth annual engineer's banquet, held last evening at Hotel Lubbock.

W. F. Helwig, associate professor of electrical engineering, was toastmaster. Talks were made by George Dupree, freshman; William J. Davis, sophomore; J. P. Minter Jr., junior; and Thomas Young, senior.

A mechanical "razz" machine, developed by scientists of the engineering school, was used at intervals during "bore-some" speeches. Five felt emblems, copies of the blue and gold emblems of the engineering society, were presented to those holding lucky numbers. All engineers are eligible to wear the emblem, which is about three inches square.

Lyle Donaldson and an orchestra made up of students furnished the musical program. Novelty hats, horns, and souvenirs were given the guests. About 200 attended.

Ko Shari Members Give Breakfast At Hilton Hotel

St. Patrick's motif was used Sunday morning at a breakfast in the Chimayo room of the Hilton hotel given by Ko Shari members, sponsors, and pledges in honor of the club patronesses.

Honorees were Mesdames V. L. Doughtie, H. F. Godeke, Robert Allen, J. L. Nisbet, R. C. Harvey, M. C. Overton, Clark M. Mullican, Frank Winn, A. B. Strehl, Bradford Knapp, W. A. Jackson, O. V. Adams, J. H. Murdough, Robert Brittain, E. A. Conley, A. J. Humphreys, H. M. Crain, Julian Paul Blitz, O. A. St. Clair, George Woodbury and Misses Agnes True and Ruth Horn.

Hostesses were Mrs. W. C. Holden and Miss Dorothy Rylander, sponsors, and the following members and pledges: Misses Lorena Owens, Sophie Alice Hardgrave, Pauline Phillips, Frances Moore, Rachel Lindsey, Inez Earl, Mary Frances Senter, Evelyn Sloan, Mary Frances Johnston, Katherine Johnston, Mary Bender, Helen Hollingsworth, Kyle Glenn Abbott, Elise Tucker, Elizabeth Prince, Dorothy Walker, Ruby Doris Johnson, Neil Walker, Frances Brown, Mildred Francis, Martha Vernon Smith, Doris Jobe, Nathalie Crosby, Betty Gilbert, Margaret Mayhugh and Annie Lauri Rosenquist.

Miss Lorene Childers Is To Teach In Sanderson

Miss Lorene Childers, society editor of The Toreador for the last four years, has accepted a position in the Sanderson High school where she will teach three commercial classes and act as secretary to the superintendent of schools.

The daughter of Mr. and Mrs. D. A. Childers, 2005 Tenth street, Miss Childers will receive her B. A. degree in August instead of June. She is majoring in journalism. She has been president of Ko Shari club for the past two years, is a member of the Forum, Tech Press association, La Ventana staff, and has been employed in the office of Cecil Horne for two years.

'Marriage And The Home' Is To Feature Discussion

"Marriage and the Home" will be discussed at a meeting of the Fireside Forum in the women's dormitory, Sunday at 2 p. m.

Agnes Abernathy and Emily Davis, members of the Forum, are working on the program committee.

Student Council Meets Tonight

To hear committee reports and discuss other business a meeting of the Student Council has been called for this evening at 7 o'clock in room 210 administration building, according to Leon Inse, student president.

"Duke" Anderson and Leonard "Bear" Curfman, members of the committee to see the Retail Merchants association and Chamber of Commerce concerning advertising for the college publications, will report. Billy Murray will report on the prospective new ballot boxes for student elections.

A student activity ticket, which will include athletics, artist course, and The Toreador subscription will be an important consideration.

with Miss Mable Erwin, Mrs. W. C. Holden, and Miss Mayme Twyford.

Senior hostesses are: Mrs. Grace Evans, Nena Mae Frazier, Leta Mae Garrett, Roma Gause, Bird L. Gias, Beatrice Gildewell, Dorothy Griffith, Lillie Gentry, Ethel Green and Velda Beth Gullege.

SPORTS

Matadors Close Basketball Season Against Hardin-Simmons

By JIM LINDSEY
Toreador Sports Editor

CHAMPIONS versus champions. That's the final basketball bill for local fandom. Texas Tech's Matadors, rulers of the Border conference, take on Grand Old Hardin-Simmons Cowboys, kinspins of the Texas loop, tonight at the gym in the first of a two-game series. Tomorrow night's conflict drops the curtain on the casaba chase for the Mats.

Against the Arizona Wildcats, Coach Ballard's basketballers looked like champions that you read about in story books. Regulars and subs poured shots through the bucket from all angles of the court and the Scarlet defense was tighter than a hangman's knot. With Leroy Crews pivoting under the circle and curly Wilkinson roving in front of the board, Tech cagers made pointers "with the greatest of ease" and broke away from the goals in a manner becoming only champions.

SIDEGLIMPS of the wildest series: the presence of the Kiwanis Knochle band . . . its concert at the midpoint of the last contest . . . President Knapp with the athletes and wearing the red-lined cap . . . Polk Robinson, co-captain of the Mat cagers last year, and present coach at Burk Burnett High was a spectator . . . Durwe's rough tactics . . . leadership and playing of Co-Captain Schlotzhauer of the visitors.

With the conclusion of another Border conference race and the Good Ship Championship safely anchored in the Tech harbor, we doff our respective sombreros to members of the Matador squad and highly praise Coach Virgil Ballard on his success as coach during his first year with us.

AS WE ARE speaking of champions, let's lift our hat again to the first South Plains Checker king—Vinson Stanphill. The North Texan won over a player who had years of experience behind him to take the spotted-board tournament held here last week.

Don't let March 18 slip your memory. Scribble it on your sleeve cuffs for on this date the Double T association will unveil "The Double T On Parade" at the gymnasium. Trenton Davis and Brax Gilmore inform us "that they'll be fun aplenty" and from the looks of the program "they ain't just joking."

COACH Lonnie Langston urges all students interested in golf to join his ranks immediately. The math instructor has lined up some neat items for welders of the iron, climaxed by a barbecue following the tournament. Female golfers are invited to use the Meadowbrook links free of charge on second and fourth Tuesdays of each month.

Although the varsity cage campaign ends this week, Coach Ballard and Elva Baker are arranging a tournament between occupants of the boys' dormitory. This gives students not on the Matador and Pica-dora squads a chance to strut their stuff and get an invitation to join the higher ranks.

I wish to take this opportunity to thank the student body for its support in the recent publication elections.

Plans Formulated For Dorm Basketball Race

Plans for an intramural basketball race between quintets from the boys dormitory were formulated at a meeting in the lounge Tuesday night. Elva Baker presided.

Six teams, one from each floor wing, will play a double round robin following the varsity season. Baker stated that the representatives would start practicing next week and begin the schedule to be prepared by Coach Ballard after two weeks of workouts.

Leaders selected to head the different squads are: C. N. Wilson, Alvin Crews, and John Vernon, west wings, and Oscar Moseberg, Hugh McCullough and Houston Wester, east wings.

A new scoreboard has been placed above the south goal in the gymnasium. It was used for the first time during the Arizona university series.

Pennsylvania and Columbia have a "mad" on, and with the student papers attacking out their tongues at each other, there's a chance the two schools may break athletic relations.

Cowboys Meet Border Conference Champions At Gymnasium Tonight

Ranchers Annex Texas Circuit Title With Eleven Triumphs

INTERCOLLEGIATE basketball warfare on the campus ends when Coach Ballard's sharpshooters, champions of the Border conference, tangle with the Hardin-Simmons Cowboys, Texas conference title-holders, in a two-game series. The first contest starts tonight in the gym at 8 o'clock with the final affair scheduled for Saturday night.

Beat Yellowjackets

The Cowboys swamped Howard Payne in Abilene last week for their eleventh straight conference victory to annex the Texas conference basketball championship for 1935. The Ranchers went through circuit competition minus a single setback.

For the third straight year, the high-flying Matadors took the Border conference basket race with nine wins in ten engagements. Their only loss was to the University of New Mexico at Albuquerque.

CONFERENCE CALENDAR	GP	W	L
TEXAS TECH	10	9	1
Flagstaff	12	8	4
New Mexico U.	14	6	8
Arizona U.	12	5	7
New Mexico Aggies	8	3	5
Tempe	14	5	9

Coach Leslie Crantill brings a tall crew into town today to start against the Matadors. Both Benson and Harris, goal-shooting specialists, are over six feet. Scoggins, six feet five, will start at center with Hall and Glover taking the guard posts.

Star Goal-Shooters

Prior to the Howard Payne skirmish, Benson tallied 83 points and Harris tossed 80 markers through the circle in seven games. Benson led the scoring of the Yellowjacket contest with six field goals and four gratis throws for 16 points.

A standout in recent games for the Cowboys is Sam McCollum who divides time with Hall at guard. The fourth in the long line of McCollums who have stood out on Cowboy quintets registered 13 points against Howard Payne.

PROBABLE STARTING LINE-UP

TEXAS TECH	POS.	SIMMONS
Gilmore	F	Benson
Crews	F	Harris
Wilkinson	C	Scoggins
Priddy	G	Hall
Weaver	G	Glover

Above is Billy Harris, Cowboy goal-shooting specialist, who will start against the Matadors tonight. He registered 80 points in seven conference games this season.

Raiders Take Two Contests From Arizona

Ballard's Scarlet Cagers Win Loop Championship Third Straight Time

Texas Tech's court artists went on a scoring spree in the gymnasium Friday and Saturday nights to topple the Arizona university basketballers by the heavy scores of 63 to 25 and 53 to 38 and annex their third consecutive Border conference cage championship.

Exhibiting a tight defense in both contests, the league winners found no difficulty in ringing up points from all sections of the rectangle. Curly Wilkinson, former Lubbock high standout, found the basket for 16 points to lead the scoring in the opening engagement. Following close behind was Lem Weaver, hustling guard, who sank 15 markers. Crews and Garrett, sub forward, did their part by tallying 10 points. Palm took scoring honors for the visitors with three field shots and the same number of gratis throws.

Schlotzhauer Stars

Although the presence of Co-Captain Walter Schlotzhauer in the invading lineup made the Enkener stronger the second night the Matadors continued to have their eyes on the circle, sinking goals with accuracy and frequency. The scoring of the last encounter was more equal than in the previous struggle with Co-Captain Will Gilmore pacing the tallying with 14 points. Wilkinson, Weaver and Priddy registered 11 tallies for runner-up position among the victors. Despite his leg injuries, Schlotzhauer was a high scorer for the affair with seven field goals and a single throw from the toe-line.

Golf Candidates Make Plans For Spring Contests

"Tech will play several Southwestern conference golf teams and take part in the Border conference meet if sufficient interest is shown by the students," Coach Lonnie Langston told golf candidates at a meeting in the lounge of the boys dormitory Monday night. The athletic council must recognize golf as a campus sport also, Langston added.

Fifteen prospects heard W. G. McMillan, owner of Meadowbrook course, promise his support and cooperation in formulating a Matador team.

Credit Given

Coach Langston announced that physical training credit would be given to those playing golf two afternoons each week. He urged all students interested in golf to see him immediately.

In 1932 the Tech golf team won the Border conference tournament and last year the Techsters made creditable showing against Texas Christian and Southern Methodist university.

Prospects attending the meeting were: Panny Farmer, Al Ray Cooper and John Bell, returning varsity players from last year's squad; Edgar Doherty, winner of South Plains tournaments; Harold Bailey, John Vernon, Shelby Yowell, Paul Conway, Travis Westmoreland, E. C. Aston, Austin Klous, L. G. Raney, Henry Roberts and Junius Carter.

Four Georgis Tech athletes were dropped from the university student rolls because of low grades. They were Perrin Walker, Olympic prospect in the sprints; "Pee Wee" Williams, football tackle; Oswald Smith, first string sophomore tackle and Bill McKay, track and football star.

Guthrie's Boxers Lose Aggie Bouts

Harry Guthrie's Tech boxers lost an intercollegiate ring meet to the North Texas Agricultural college Aggies, 3 bouts to 5, in Arlington Monday night.

Bert Williams, heavyweight, D. M. McElroy, middleweight, and R. C. Mitchell were the Matador scrappers to gain decisions over the Farmers.

Coffee, Aggies, defeated Phil Cannon, welterweight division; Shaw, Aggies, won over Eugene Palmer, 115 pound division; Mitchell took Pope Aggies, 165 pound class; D. M. McElroy whipped Williams, 155 pound class; McNeese, Aggies, outboxed Gibbs, 125 pound class; Bert Williams defeated Karl, Aggie, heavyweight division; Ellder, Aggies, defeated Otis Cannon, 145 pound class and Red Nichols lost to Ellder, Aggies.

Boxers And Wrestlers Leave This Morning For Return Match

Led by Coaches Harry Guthrie and James May, the Matador wrestlers and boxers leave this morning by bus for Canyon and their return matches with the West Texas Teachers tonight. The Scarlet matmen won over the Bison in their first encounter here.

Both coaches reported their charges to be in good shape for the meet tonight with one exception. Eugene Palmer came out of his Aggie bout with a broken nose. The 118 pounder may be able to wrestle. Guthrie stated Erashear will handle the gloves in this division.

Work Indoors

The Techsters have been working indoors this week because of weather conditions. Limbering up exercises, glove work and bouts between members of the squads have dominated the workouts.

Boxers making the trip, with their weights, are: Gibbs, 118; Nichols, 135; Otis Cannon, 148; Phil Cannon, 155; McElroy, 165; Mitchell, 175 and Bert Williams, heavyweight.

Necktwisters who will be matched against the Buff wrestlers include: Eubanks, 128; W. Watkins, 138; White, 148; Dysart Holcomb, 158; May, 165; Gamble, 175 and Bill Holcomb, heavyweight.

Consolation match victors will also receive awards. Down-town merchants are donating prizes to the winners.

The tournament winner will be crowned golf champion at a barbecue Saturday given for the participants by Coach Langston.

Tourney Starts At Meadowbrook

Qualifying rounds for Tech's annual golf tournament start today and continue through tomorrow on the Meadowbrook course under the direction of Coach Lonnie Langston.

The tournament proper gets underway Monday with the semi-finals coming Wednesday and Thursday. Finalists meet Friday with the champion being crowned Saturday.

All Students Eligible

All students are eligible for the tourney. There will be three or four flights to determine the ability of the players and the contestant ranked according to his showing. A championship cup has been secured for the winner with flight prizes consisting of golf equipment such as sweaters, balls and clubs.

MONTGOMERY WARD

Judging Team Is Announced

Five Members Are Named For Livestock Show In Fort Worth

Ray C. Mowery, coach of the Tech Junior Livestock judging team, has announced selection of members, who will enter the contests at the Southwestern Livestock exposition in Fort Worth Saturday, March 16.

Members of the team are Arvie Elliot of Lubbock, junior; J. T. Henry of Sterling City, sophomore; Lee McElroy of Eldorado, junior; Howard Preston of Sudan, junior; and W. B. Rogers of Lubbock, junior.

Nine Teams Entered

The contest at the exposition will be the third largest in the United States this year. Nine other colleges will take part: Oklahoma A. & M., Texas A. & M., Louisiana State, Kansas State Agricultural college, the University of Wyoming, University of Nebraska, University of Missouri and Panhandle Oklahoma A. & M.

Other students who tried out for the judging team were Ray Dunlap, Spur, Douglas Marshall, Graham, John Manning, Fort Worth, Cleveland Littlepage, Tahoka, Clarence Young, Rails and Fred Elliot, Lubbock.

Placed Second In '34

This is Tech's ninth year to compete in the contests. Last year, the junior judging team placed second, with Kansas State Agricultural college first. Before that, Tech had placed first once, second five times, and third twice.

Members of the team last year were Herbert Davis, Henry Elder, Casey Fine, L. M. Hargrave and Billy Murray. Davis, Fine and Elder are members of this year's Senior Livestock judging team, which won first place at the International Livestock exposition at Chicago in December.

Seventeen Aggies Teach Next Week

Seventeen vocational agriculture students begin observation this week, and will do practice teaching next week, in high schools of this section.

After the week of observation, trainees will report on the work. They will be supervised in the practice teaching by teachers of vocational agriculture at Abernathy, Lorenzo and Meadow.

Students who are doing this work are Herbert Davis, J. P. Smith, Lawrence Shipman, Elton Cook, Bill Stubbs, Marshall Howard, Henry Elder, Obie Morton, L. M. Hargrave, Bill Zirkle, Lem Weaver, M. C. Brandon, Walter Emmons, W. A. Kintz, G. L. Beene, W. R. Swanzey and Walter Labay.

C. Luker is instructor of the class.

Mighty Mouse!

Wee Mite Is Victor Over Constrictor

(By Associated Collegiate Press) Burlington, Vt., March 7.—The boa constrictor at the University of Vermont, which arrived here by way of a banana stalk several weeks ago, has been done in, surviving the rigors of sub-zero weather and forced feeding only to fall victim to a mouse.

The mouse ate his tail, and evidently a boa constrictor can survive almost anything but a skinned tail. The mouse had been placed in the boa's cage for the boa to eat, but the boa wouldn't eat him. It wasn't exactly fair of the mouse to go and skin the boa's tail but he did. There was nothing particularly malicious about the act, according to the zoological authorities at the university, or particularly appetizing about the tail. It was just one of those coincidences that occasionally happen, but very rarely in the life of a boa constrictor.

In fact the case books are said to reveal no report of a similar occurrence. The mouse, which happened to have been raised in an experimental atmosphere, was of a scientific turn of mind. Inspired by a spirit of research, he began to investigate the boa's tail. Those in charge rushed to the boa's assistance and beat off the mouse, but the damage had been done. Disease germs, which seldom in these latitudes have an opportunity to feed on boa constrictors, swarmed to the injured member, and, despite all efforts of the veterinary, medical and zoological departments of the university, completed the work of the mouse. Rigor mortis has now set in.

Williams College Will Reduce Size Of Faculty

Williamstown, Mass.—Instead of cutting salaries of faculty members to meet a reduced budget, Williams college is going to have fewer members on its faculty, it was announced by President Tyler Dennett.

"We are going to balance our budget and are not going to solicit funds," he said, "until we have shown that we can live within our considerable income."

In the future, contracts for instructors will run for one year only and those for assistant professors for three years only.

Speaks At Tech

Martin Speaks At Hall Sunday

Episcopalian Missionary Minister Will Make Three Addresses

Rev. William H. Martin, missionary minister in charge of the Episcopal churches at Stamford, Albany and Spur, will make three addresses to Episcopal students and faculty members Sunday at St. Paul's church and Seaman hall.

The Reverend Martin, who was ordained as a priest in 1930, will speak on "Transitions" at 8 o'clock Sunday morning at corporate communion and breakfast for Episcopal faculty and students at Seaman hall. His morning service at 11 o'clock will be a sermon entitled "Assistant Saviors of Society."

"Mob Psychology" is his subject for the college group which meets at Seaman hall at 7 o'clock in the evening.

The Reverend Martin entered the ministry in Big Spring in 1928, started the mission churches of Midland, McCombs, and improved the church at Big Spring. He has a mission field of 11 counties, 20 towns. He is consistently working for "The Forward Movement" for 1935.

Increase Shown In Girl's Department

More girls are enrolled in physical education classes than ever before in the history of Tech. Six hundred and sixty girls are enrolled in 15 classes.

The increase in the enrollment is partly due to the new requirement of the State Board of Education. All teachers who will have any playground supervision work are required to have some credit work in physical education.

Three types of physical education courses are being offered this semester. The work for those who are majoring or minoring in physical education, the physical education required by the state, and the two years of physical education required by the college for graduation are offered.

Sports Show Taking Form

Lettermen Sponsor "The Double T On Parade," Date, March 8

The Double T is on parade! Stickers appearing on the campus this week announce "The Double T On Parade" program under the auspices of the Double T association in the Tech gymnasium March 18. The curtain rises at 7:30.

As the name indicates, the program will present Tech athletes of all sports. Three wrestling matches under the direction of "Jake" May, Tech wrestling coach, and four boxing matches to be arranged by Coach Harry Guthrie are carded on the program. The participants in these engagements will be members of the Matador boxing and wrestling squads.

Wrestling Novelty

Special wrestling novelties headed by a match between "Double Ug" Curfman and "Moon" Martin have been arranged by the program committee. A battle royal between six negroes will climax the wrestling and boxing sessions. O. H. Brittan will referee the mat engagements.

Tap dances by girls taking physical education are on the program. Mrs. George Langford and Zella Reigel have charge of the dances. Burl Huffman, Lubbock High school coach, will act as master of ceremonies.

Succeeds Sports Revue

Funds derived from the performance will be used by the Double T association for the furtherance of athletic activities on the campus. The "Double T On Parade" succeeds the Sports Revue of last year. This year's program is under the direction of a committee selected at the last meeting of the organization.

The Double T association is an organization of Texas Tech athletes who have lettered in some phase of sports. Braxton Gilmore is president of the club, which has its clubroom in the gymnasium.

In human affairs there is always, somehow, a slight majority on the side of reason.

Monkeys can speak quite well if they want to; the chief difficulty is that they are far too clever for our slow brains.

Moon Does Not Rate In Earth's Social Register Of The Astronomically Elite

(Editor's Note: This is the third of a series of articles on astronomy written by Dr. R. S. Underwood, professor of mathematics.)

IN the social register of the astronomically elite, our little old moon simply does not rate. Compared with one of the lesser stars it would show up rather badly, like a minor cinder in a burning palace. It is too small to be impressive like Jupiter, too cloudless and easily studied to be mysterious like Venus, and too surely lifeless to be intriguing like Mars.

Merits Study

Yet for all its insignificance it is so conveniently near that it merits and gets a great deal of study and comment from scientists as well as romantic story writers. Even now a committee is at work whose sole task is to investigate exhaustively every wrinkle and crack in the moon's visible surface. The light coming from each small area is analyzed and compared with that emanating from different kinds of rock surfaces on the earth, so that not only the surface features familiar in photographs are known, but even something of the probable nature of the rock itself. Both the reflecting attributes and the quick-cooling nature of the moon's surface indicate that it is made up of lightweight, porous, volcanic material somewhat like pumice-stone.

Moon Described

Besides the large marking visible to the naked eye, and due to relatively smooth, dark-bottomed plains originally named "seas" through mistaken identity, the most conspicuous lunar objects are the circular craters, ranging up to 150 miles in diameter. The larger ones are easily visible through a small telescope, particularly when the moon is half full, with coal-black

planning shadows bringing into relief all the bolder surface features. Then there are mountain ranges, valleys, gorges, cliffs, and isolated, sharply-peaked monarchs of rock. Most of the lower face of the moon (as we view it when it is due south) is a welter of craters within craters, those believed to be older being in general darker in color.

Streaks May Be Seen

When the moon is full, white "rays" or streaks may be seen diverging in all directions from several of the craters. They seem to be due to volcanic material which, in the most recent eruptions, shot out from the craters and spread for hundreds of miles over mountains and plains alike. This far-spreading is consistent with the low-gravity pull of the moon, and the light color of the rays accords with the shade of their central craters.

While some of the smaller depressions may have been caused by the impact of meteors, the conclusion becomes almost inescapable when one views a large, detailed photograph, that the bigger craters at least are volcanic in origin. Furthermore the "seas" appear to be the final product of a vast and geologically late submergence, which covered the older markings but did not quite obliterate them. Indeed, a detailed photograph of any part of the moon's surface is an intriguing study; the observer feels impelled to do some private (even if not absolutely reliable) theorizing of his own.

Home Ec Grad Is Named Dietitian At Hospital

Christine Berrier, a 1934 graduate of the division of home economics, has been appointed student dietitian at Lincoln General hospital, Lincoln, Nebraska.

The course includes six months at the Lincoln hospital followed by three months affiliate work at Michael Reese hospital in Chicago. Miss Berrier is the first student from the South to be selected as student dietitian in the Lincoln General hospital.

Dr. W. C. Holden Elected President Of Texas Exes

Dr. W. C. Holden, professor of history and anthropology and director of archaeological research, was elected president of the Lubbock Texas Exes association at an annual banquet Saturday night.

Dr. Holden holds his B. A., M. A., and Ph. D. from Texas university. He succeeds William H. Evans to the office.

Edgar Shelton, associate professor of architecture, who holds a B. S. in Architecture from Texas, was elected vice-president.

Health is a man's normal condition; he must do something foolish to lose it.

Insufficient industries cannot shield themselves behind tariffs.

There is considerable virtue in the closed mind, for an ever open mind is apt to be the receptacle of much rubbish.

Tech Professor Is Author Of Article

In the new volume of the "Dictionary of American Biography," which is just off the press, is an account of the life and services of John H. Reagan, written by Dr. S. S. McKay, professor of history.

Dr. McKay shows that Reagan was in the public service of Texas and the nation for almost 60 years. Reagan, considered one of the ablest men Texas has produced after the Civil War, was a judge and congressman, Postmaster-General in the Confederate cabinet, and the first chairman of the Texas Railroad commission. As United States senator he was joint author of the Interstate Commerce Commission act. Reagan's home is in Palestine, Texas.

Decency varies according to time and place, to conditions and social strata.

Now that I have nothing I am free and happy as I never was before.

WHEN YOU FACE A TOUGH ASSIGNMENT GET A LIFT WITH A CAMEL! "THERE'S SO MUCH GOING ON in college today," says James Casey, '37, "that an undergraduate can hardly find time to work everything in. I'm studying a business course; am mixed up in several outside activities; and, in my spare time, I'm doing tutoring. So naturally I feel rather weary and 'fed up' at times. To head off fatigue, I always turn to Camels. Smoking a Camel does 'wake up' my energy. It's a delightful experience! And what a great taste Camels have—mild, yet full and rich. I never get tired of Camels. I guess that's why I smoke so many. But steady smoking doesn't bother me—Camels never get on my nerves!" OUR TOBACCOS COST MILLIONS MORE Camels are made from finer, MORE EXPENSIVE TOBACCOS—Turkish and Domestic—than any other popular brand. TURN YOUR DIAL TO the WABC-Columbia Coast-to-Coast Network for these famous Camel Caravan stars WALTER O'KEEFE • ANNETTE HANSHAW GLEN GRAY'S INIMITABLE CASA LOMA ORCHESTRA!

"SPEED SKATING takes an abundant supply of stamina and energy. Camels restore my 'pep' when I've used up my energy. And they taste so good, too. For sheer pleasure, there's nothing like a Camel." JACK SHEA, Olympic Champion Speed Skater "CHAMPIONSHIP GOLF puts a tremendous tax upon your energy. But I never mind. I know I can always restore my energy quickly with a Camel. For you get a delightful 'lift' with a Camel." HELEN HICKS Former Women's National Golf Champion

CAMEL'S COSTLIER TOBACCOS NEVER GET ON YOUR NERVES!

Youthful Harvard President Proposes To Make School "National University"

Cambridge, Mass., March 7.—In a recent address, Dr. James B. Conant, youthful president of Harvard university, indicated that he intends to make the ancient institution a truly "national university."

"The privately endowed university in the United States," he said, "have a common duty to the country at large which differs in no significant way from the duty of the state universities."

"It is our task to provide the best possible higher education for the youths of the land who are anxious to obtain the training which a university affords. This opportunity should be open to all of promise without regard to the financial status of their parents."

"A "National University" anyone who looks at the geographical distribution of our students will agree that we are a national university."

"It is my desire to increase further the number of students who come from outside New England, and in particular, to make available to us from a distance but have little or no ready cash. To do this I have revised our scholarship policy and established for a period of years the Harvard College Price Fellowship in the states of Ohio, Illinois, Indiana, Michigan, Minnesota and Wisconsin."

Dr. Conant said he hoped to expand the plan to include all of the west as soon as funds became available.

Tests Convince Prof That Mental Telegraphy Exists

Durham, N. C., March 7.—More than 200,000 tests made at Duke university have convinced Dr. Hervey Carrington, director of the American Psychological Research Institute that mental telepathy or thought transference exists, he said last week.

"Probably one person in every ten," he said, "has had an experience of thought transference, usually in connection with the illness or death of a loved one. We get hundreds and thousands of letters about such cases. If it is true, as we believe, that thought exists outside of the physical brain, then the whole theory of psychology will have to be revised."

"Most of us are psychic wooden fences. The ability of the medium in this direction has no relation to his or her intellectual endowments; in some cases the medium is unwilling or skeptical."

Marionettes

(Continued from page one)

Initial European puppets. Marionettes can perform an almost unlimited number of gyrations and movements, since as many as nine strings are used to manipulate each "doll." Heads, eyes, arms, hands, feet and bodies can be manipulated on a perfectly natural basis.

Operations Described

As a diversion from his art work in England, Sarg became interested in puppets nearly 20 years ago. He created a scene from Dickens' "Doll" in a Curiosity Shop, featuring Little Nell, and played it for a small group of friends.

Through an opening 10 feet wide and 4½ feet deep, with a background designed so that the illusion of full size is maintained, the audience sees the actors. Puppets, one to one of the strings, look down into a pit-like stage 27 inches by 10 feet. In front and back of the pit, hidden from the audience are "bridges" or platforms, the widths of the stage, on which the puppeteers bend to operate the marionettes and throw their voices into the audience. One puppeteer may take as many as nine parts in one performance.

Students may use Artist course tickets for either one of the two performances.

League For Promotion Of War Organized At Iowa

Iowa City, Ia., March 7.—A "League for the Promotion of War" has been organized at the University of Iowa.

Founded by a group of students who believe that dictatorship is the only solution for the complex problems of modern civilization, the new club is opposed to another group here which is advocating world peace.

Compulsory military training for all male citizens in the United States was one of the resolutions passed at the first meeting of the organization. In addition, if this club has its way, all college students, both men and women, would be required to take four years of military study.

The group leaders plan to invite Huey P. Long to become its honorary leader.

College Campus

(Continued from page one)

either "sweet" or "horsey." No matter if it's a boy; if the girl likes him, he's "sweet." Boy friends, kittens, puppies, professors, movies, flowers, all are "sweet." The "girl" friend is either "sugar" or "the wife." If she belongs to the elite, she is "high-cotton."

Yesterday everyone was saying, "So's your old man!"; "You and who else?"; "Well, if you don't like it, ya know what ya can do"; "You ain't so much!"; and "Oh, you kid!" Today these comebacks are musty and ancient. And tomorrow the remarks today's generation thinks are screamingly funny will be about as humorous as a funeral in the late afternoon of a drizzly day.

William J. Miller, former dean of engineering, has been visiting Prof. and Mrs. C. V. Bullen and other friends here. Mr. Miller is now dean of engineering at Chapel Hill, N. C.

Textile Students Seek Best Method Of Cotton Picking

Two years is a long time, but the textile department is persevering! In the fall of 1933, Dr. Knapp bought three bales of cotton, one hand picked, one machine picked, and the other picked by holes, to test which type of cotton picking made the most lasting and serviceable material.

The department has taken these bales of cotton through the entire process of pickers, carding, drawing, roving, spinning, twisting, and now the hand picked bale is on the loom ready to be woven into cloth, and the other two are ready for the loom.

After these three are woven into cloth, they will be made into shirts, trousers, and all kinds of wearing apparel and worn by the textile students to test each type of material for resistency, service, and superior wear to determine the best type of cotton picking.

This experiment will be finished next fall, according to Professor Carl D. Brandt, head of the textile engineering department.

Major Offenses Listed For Girls

A list of the major offenses in the girls' dormitory was given Tuesday night at a house meeting, by Jean Ayres, president. Any girl guilty of three major offenses is called before the house committee for punishment, usually room confinement for one to seven nights.

The list includes: three "calls" in the hall for making unnecessary noise, talking, running, and tap-dancing; failure to sign out for dinner; returning late at night; standing in the hall with a date; keeping a dirty room, continually; failure to attend house meetings.

Plans for a dormitory dance to be given soon was an important consideration. The social committee made up of Crystelle Scudder, Lena Belle Brown, Fern Judson, and Helen Francis Eiland, will submit definite plans at the next house meeting.

CLAPP ACCEPTS POSITION

Roger Clapp, Tech '33 graduate with a B. S. in M. E., and instructor in mechanical engineering, has resigned to accept a position with the W. F. Curles Manufacturing company of Houston, Texas.

Clapp took his new position March 1. Elton Smith, engineering graduate of Tech, is employed by the same company.

Take a cigarette like CHESTERFIELD

You know I like that cigarette...

I like the way it tastes... there's plenty of taste there.

Chesterfield is mild, not strong... and that's another thing I like in a cigarette.

What's more, They Satisfy... and that's what I like a cigarette to do.

I get a lot of pleasure out of Chesterfield... you know I like that cigarette.
