

## Feeders Meet Here April 25

### Exhibition Of 50 Steers Feature Of Aggie Event

ONE OF THE features of the third annual feeders day program to be held here April 25 will be the exhibition of 50 Grade Hereford steers. These animals have been divided into pens of ten each and fed experimentally on varying rations.

J. Russell Reed, Tech graduate student has been in charge of the feeding of these steers. He holds the Texas Cottonseed Crushers association fellowship and one of the points in this experiment is the relative values of cottonseed products as feed for livestock.

This showing marks the end of a 140 day feeding period. At the end of the first 56 days of this period the steers were gaining an average of two pounds daily at a cost of \$6.15 per hundredweight. The object of the experiment is not to ascertain the average but the difference in weight gained and the cost of the added beef of each pen.

Excepting for the cottonseed products all animals in each lot were fed a regular ration of milo head chop and silage.

James R. Gill, chairman of the college relations committee of the Texas Cottonseed Crushers association will answer the welcoming address of the meeting which will be given by Dr. H. L. Kent, administrative executive of Tech.

## Griffin Relates Use Of English In Journalism

Fred Griffin pointed out the "Relation of English and Journalism" at a meeting of the Women's press club Wednesday. He said actually the difference in the two is less pronounced than is generally conceded.

Pointing out the value of English to journalists, Griffin said that it teaches the students use of figures of speech which enlivens writing. The literary courses are also helpful in that they show the ideals of former times as well as of the present.

"Freshmen taking English are taught to write simply, concisely and tersely. This is the same trend of thought taught in the school journalism," Griffin said.

He pointed out two phases of journalism which might prove harmful, they were, headlines and coinage of words. "Headlines," he said, "are written too loosely. They should be informative and often they evade this idea." "The coinage of words, if continued might prove to be serious in the journalism field," Griffin asserted.

He is instructor in English and teaches two freshman English courses for journalism majors. Formerly, Griffin was an editor of THE TOREADOR.

## Block And Bridle Rides Hay Today

Members of the Block and Bridle club are giving a hay ride today at McKenzie park. Forty-five members, 24 pledges and their dates will meet at the Aggie pavilion at 5:30 p.m., and will be transported to the park by wagons.

A program consisting of baseball, singing, and square dancing has been planned.

## Gardening Course Scheduled By Horticulture Department

By LOUIE JOHNSTON  
Toreador Staff Writer

THE Texas Tech department of Horticulture will sponsor a two day gardening short course April 24 and 25 on the campus. This is the second gardening instruction course offered by the college.

All persons interested in either vegetable or ornamental gardening are invited to attend. For a fee of \$1 per person two day of lecture and demonstration will be provided by the Tech horticulture faculty, local florists and experiment station personnel.

Registration will begin Wednesday morning at 8:30 in room 123 of the agriculture building. Garden equipment will be displayed by local hardware merchants after a lecture on pruning by C. D. McGehee, superintendent of Lubbock parks and a discussion of small fruits by Dr. W. W. Youcum, Texas Tech authority on pome fruits. Also preceding the implement show will be instruction on transplanting and balling by Don King, range inspector of the six dis-

## Scientists Meet On Tech Campus April 28-May 1

### Presentation of 130 Papers Scheduled At 21st Conclave

By JUNE CROSLY  
Toreador Staff Writer

DELEGATES from 26 colleges universities and research institutions of the Southwest will attend the 21st annual meeting of the American Association for the Advancement of Science which meets on Tech campus April 28-May 1.

More than 130 papers, on various scientific subjects of physical, social, mathematical and biological sciences will be presented, according to Dr. W. M. Craig, professor of chemistry and vice-president of the division.

Aside from Texas Tech, the larger delegations will come from the Universities of Oklahoma, Texas, Arizona, New Mexico, Colorado, Denver and New Mexico State college.

Several men nationally recognized as authorities in their particular fields will speak at the meeting. Dr. Bernadotte E. Schmitt, MacLeish Distinguished Service Professor in the University of Chicago and Pulitzer prize winner, will deliver the John Wesley Powell Memorial lecture on Tuesday, April 29 at 8:15 p.m. His subject will be "United States and the War."

Dr. Ernst Antevs, research associate of the Carnegie Institute of Washington will deliver the annual Sigma Xi address on Monday night, April 28 at 8:30 o'clock in the Hilton hotel ballroom. Dr. Antevs is internationally recognized as a climatology authority. Subject of his speech will be "Climatic Variations in the Southwest During the Past 75,000 Years."

Dr. E. T. Bell, professor of mathematics at California Institute of Technology, Pasadena, will speak before the mathematics section at 11:00 a.m. Tuesday, April 29 in room G of the Chemistry building. Dr. Bell will be a special representative of the Mathematical Society of America. His topic will be "Diofantine Analysis."

All meetings are free and open to the public.

**GRAD RETURNS**  
Earl Braly, 1939 journalism graduate has returned to Tech to complete the work on his master's degree in English. He has been employed in the advertising department on Breckenridge American.

strict of the soil conservation service.

Feature of the Wednesday afternoon program will be a talk on vitamin B-1 and water culture by O. B. Howell, professor of horticulture; Gardening short cuts by Mrs. W. B. Irvin, representative of the Lubbock Garden club; and the fertilization of lawns and gardens by Professor A. W. Young, head of the Tech department of plant industry.

Thursday's program will begin with a lesson in hedge culture by Dr. Youcum, George Elle, instructor in scotchmaier crops, will give information regarding the frame gardens that produced successfully in 200 Texas counties.

Prof. O. B. Howell will outline the construction and maintenance of an "Outdoor Living Room" and design school. With tables and flowers, local florists and artists will construct various flower designs as Professor Howell explains the ornamental use of flowers.

The last part of the short course will be a quiz review during which all instructors and speakers will collaborate in answering any questions that the audience may ask.

OLLIE SUE ARMSTRONG  
Phil Harris Says She's Most Beautiful On Tech Campus

## Vivacious Ollie Sue Armstrong Named Cotton Show Duchess

OLLIE SUE ARMSTRONG, Number One LA VENTANA beauty, has been selected as Tech's Duchess to the Tenth Annual Cotton Style Show pageant and Cotton Ball at Texas A & M May 2. Band Leader Phil Harris placed the comely brunette co-ed first among 16 other LA VENTANA beauties, and the Student Council designated Harris' first choice as Texas Tech's representative to the Aggie Fiesta.

James Snyder, student president, said that the Council had agreed Harris' formerly un-announced selection would represent Texas Tech.

Screen tests by two major picture studios have been offered the vivacious brunette who was a dancer in movies when she was four years old.

She will go to Hollywood in June to be given tests at Twentieth-Century-Fox and Warner Brothers. Talent scouts attending the drama festival in March signed Ollie Sue for the tests.

From the age of four to seven, Ollie Sue danced in short features appearing in six, for Hal Roach and Twentieth-Century-Fox. While dancing she fell and injured her back so that she was forced to leave the movies. She did no more professional work after she started to school.

Ollie Sue graduated from Odessa high school in 1938. That year she represented the city as Sun Princess in the El Paso New Year's Sun Bowl.

In 1939, Ollie Sue was selected as "Miss Lubbock" in a beauty contest and represented the city at Fort Worth's Casa Manana. Last year she was runner-up in the contest.

Costume jewelry, clothes and sports excite Ollie Sue more than anything else. Like all co-eds, she has a heart bracelet.

Prize of her collection of costume jewelry is a bracelet filled with small cowboys boots made of horn. Charm bracelets comprise most of her collection.

Because she likes sports of all kinds, Ollie Sue has more sports clothes than anything else and always looks for striking and new styles. She also wears unusual dress clothes, but dislikes hats and rarely wears them.

She is a junior history major but her real ambition is to return to the movies and act, as well as dance.

Entering Tech in the fall of 1938, she was nominated as a beauty that year and again this year. She is a member of Sans Souci social club.

Text students selected Ollie Sue as band sweetheart and honorary cadet colonel of the ROTC this year. She was presented by the band at the Homecoming football game, November 16.

Costume jewelry, clothes and sports excite Ollie Sue more than anything else. Like all co-eds, she has a heart bracelet.

Prize of her collection of costume jewelry is a bracelet filled with small cowboys boots made of horn. Charm bracelets comprise most of her collection.

Because she likes sports of all kinds, Ollie Sue has more sports clothes than anything else and always looks for striking and new styles. She also wears unusual dress clothes, but dislikes hats and rarely wears them.

She is a junior history major but her real ambition is to return to the movies and act, as well as dance.

Rumor has it that I was in Amarillo yesterday, ingratiating myself and friends, who too, are doubtless of sterling quality, with the lovely townspeople of that thriving city.

Rumor has it we drank a toast to every individual citizen and a collect telegram to the more trusted of our acquaintances, including the editor who incidentally isn't speaking to me this day.

Anyway when our little party concluded to have eluded the reviewers we commenced to return to Lubbock. Our progress was somewhat impeded in that we had to pull off the road and let such things pass as bridges, viaducts, and those which have a ponderous head, are used for work animals in India, have two tails, and are slightly pink in color.

Even then I could have made better time, but all that while I thought that John was driving. Mind you I'm not insinuating See ON TAP Page 4

BA Department Holds Program

Cpt. A. A. Nicholson, personnel director of the Texas company in New York City, will speak on "America's Future Depends Upon Education" at Texas Tech Saturday, April 26. He will address commercial teachers and students of West Texas, industrialists, and others attending the West Texas section of the commercial division of National Education association at its fourth annual meeting.

The 7:30 o'clock banquet and address follow a show of modern business equipment in the Administration building from 1 to 6 o'clock. Dr. J. O. Ellsworth, head professor of economics and business administration, is in charge of the event.

Phi Beta Phi has the largest membership of any college sorority.

## Students Name New Officers

### Nomination Convocation Scheduled For April 29

By MELBA SUITER  
Toreador Staff Writer

NOMINATION of student association officers for next year will be made at the annual spring convocation Tuesday, April 29 from 10 until 11 a.m.

Candidates will be nominated from the floor of the gymnasium for offices of president, vice-president, secretary, student representatives to the athletic council, and both boy and girl head yell leaders. Yell leaders will be nominated by the Double T association.

## Maritime Board Points To More Jobs For Grads

### Opportunities Grow In Merchant Marine For Engineers

EMPLOYMENT opportunities for graduates of engineering schools are opening up rapidly in the maritime industry according to Dean O. V. Adams. Dean Adams has recently received this information from the United States Maritime commission in Washington along with the fact that these positions may be obtained through the Civil Service commission by competitive examinations.

These maritime positions fall into two categories: ship operation and ship design, and a national competitive examination will be held early in June for qualified men who apply to the Maritime commission before May 10, 1941.

Appointments will be made from this list as engineer cadets in the merchant marine. After three months' service, the cadet may take an examination for Third Assistant Engineer. With his license obtained the engineer can be appointed as a cadet officer. Many cadet officers are then promoted to licensed officer positions after one voyage.

Graduates from approved engineering schools are now needed in the ship design field due to the launching of the shipbuilding programs by the Maritime commission and the expansion of Navy shipbuilding. The commission has initiated a training program which will afford a limited number of recent graduates of these schools the opportunity of receiving a one-year training in Maritime engineering or Naval architecture. Candidates are selected from Civil Service registers and appointed on probation as trainees at an annual salary of \$2,000.

Six months is spent in the design and plan approval sections of the Technical Division at Washington, D. C., and six months as junior inspector in the shipbuilding yards. At the successful termination of one-year training, permanent assignment in the Technical Division or in the field service is made according to the aptitude of the individual.

Training for engineering graduates as marine engineers is also offered by the commission. Three months' service as an engineer cadet at sea aboard a steam vessel qualifies the graduates to take examinations before the Bureau of Marine Inspection and Navigation

See MARITIME Page 4

## Ideal Man Alliance Between Barbarism And Mechanism

Today's ideal man threatens to become a savage and terrible alliance between barbarism and mechanism. Vincent Holland Ogburn of Eastern New Mexico college predicts in a paper he will read at the American Association for the Advancement of Science, southwestern division, meeting here April 28 to May 1.

Speaking before the social science division Wednesday morning, April 26, Ogburn will trace the concept of the ideal man in English history and literature, discussing sources of the pattern and modifying influence.

"Five great tidal waves of social significance have swept over England," he explains. "First and basic came the Anglo-Saxons with their Germanic tribal ideals—the primitive virtue of physical strength, courage and loyalty.

"In the seventh century, Christianity began slowly to reshape the pattern, adding the humanitarian virtues of gentleness, mercy, and brotherly love, together with a definite thread of the intel-

Requirements of candidates for all offices are an average of C in all college work and the students must have passed a minimum of nine semester hours with a C average during the semester preceding the election.

Nominees for president and vice-president must have 90 semester hours at the time of assuming office. Candidates for offices of secretary, business manager, student representative to the athletic council and yell leaders must have at least 60 semester hours before assuming office.

Election of officers will be held one week following the nomination by secret preferential ballot. Elected students will assume office next September.

All classes and laboratory sections will be dismissed during the convocation, according to Dean James G. Allen, chairman of the convocation committee.

## 45 Techsans Get Scholarship Aid On Tuition Fees

Forty-five Texas Tech students are receiving aid on college expenses this year from scholarships and fellowships, a recent check by Dr. H. L. Kent, administrative assistant, shows. Twenty-two of the scholarships amount to \$50 each, 21 to \$100, one to \$270. The one graduate fellowship is for \$500.

Open to all enrollees who are children of ex-service men are the 20 LaVerne Noyes scholarships for tuition, amounting to \$50 each. Twenty \$100 scholarships were awarded to agricultural freshmen this year by Sears, Roebuck company, also donors of a \$200 award for high ranking agricultural sophomore.

The \$270 Roscoe Wilson Memorial scholarship is given a junior or senior in foreign languages annually. The Mrs. J. T. Hutchinson award of \$100 goes to the highest ranking sophomore or junior journalism major each year. Two other \$50 awards made to journalism majors each year on the basis of excellence in reporting are given by the Lubbock Avalanche Journal and Amarillo News-Globe publications. The latter is called the Wilbur C. Hawk memorial scholarship.

Graduate fellowship of \$500 awarded by the Texas Cotton Seed Crushers association is given a graduate in animal husbandry for research in that field.

## Langston Talks On 'Insurance'

Lonnie Langston, insurance man and former faculty member, will speak on Personal Finance Tuesday night in the Engineering auditorium. The lecture will be open to members of the Engineering society and Aggie club and is sponsored by the Home Ec club and Phi U.

lectual. Four hundred years later there burst upon the nation the profoundly modifying power of the Norman conquest, with its introduction of the new man—the knight, the courtier, the gentleman."

He describes the golden age of the consciously well-rounded man as the "spacious days of Queen Elizabeth," with the glorification of man as an intellectual being.

"The last great tide, before 1940, brought the age of the machine, in which the ideal man is the one who can produce material things swiftly and efficiently. Today we are threatened by a savage and terrible alliance of the first and last of these forces—barbarism and mechanism. Surely the ideal man must then be literally the robot, a being that can neither feel nor think."

This is one of the 132 papers to be read in one of four sections at the four-day session, second largest in 21 years of organization, said Dr. W. M. Craig, vice-president.

# THE TOREADOR

THE TOREADOR, student newspaper of Texas Technological college, is published every Wednesday and Saturday on the campus of Texas Technological college at Lubbock by students of the journalism department.

Entered as second class matter, October 31, 1925, at the postoffice in Lubbock, Texas, under the act of March 3, 1879.

Editorial offices, Engineering building, 3, 4, 5. Telephones: college switchboard; Night Editor, 1286.

## We Fail The Trust Of A Great Tradition

A ROTUND little editor once went to bat for students of Texas Tech. He battled many times for his school, but in one campaign was he particularly persistent. He was classified in the school of "advance thinkers." He believed there existed no problem peculiar to the human race which should not be dragged into the light, analyzed and solved in an efficient, forceful manner.

He was criticized by many because he made no secret of racial degeneration brought about by syphilis. But truth-seeking students upheld his cause.

Reeves Henly didn't live to see his dream come true. Social disease tests were not permitted students under their regular medical fee while the Great Torch Bearer lived. Those tests were inaugurated last semester, and the fiery little editor had won his cause.

But, it had been three years since he launched those campaigns. The student body that loved and supported him in 1938 was scattered last fall. A few remained who were classmates of Reeves Henly's. Mostly, the students of 1940-41 had just "heard several people speak of him."

Today's TOREADOR editor knew Reeves Henly. He knew the cause for which Henly devoted his collegiate editorial efforts, and he knew the gratitude with which that student body received the round little man's assistance.

But, today, the objectives of that 1938-39 student body are tottering on the brink of dissolution. Since inauguration of the social disease tests, less than one-third of the student body have taken the examination. Only 66 have submitted to the optional examinations this semester. Nine hundred, twenty-eight took the tests last semester.

Texas Tech's administration will approve or reject tests for future student bodies in this school unless a greater percentage of students avail themselves of the opportunity before this semester ends.

THE TOREADOR of today, in sympathy with its predecessors and the causes to which they devoted their undying efforts, regrets the possibility of a worthy project's demise. We feel that our student body as well as we, ourselves, owe more to traditions of this school than a single glance or momentary consideration.

Further, we feel today's student body is as liberalistic in thought as was the one of 1938-39; we believe they welcome facts even more readily now than three years ago.

In view of Texas Tech's student solidarity, THE TOREADOR earnestly appeals for an immediate wholesale advance upon the college medical office. You have paid for the tests. The physicians are waiting. We appeal in the name of Texas Tech tradition, and the physical welfare of your posterity. Henly was right: Syphilis must go!

## This Collegiate World

(By Associated Collegiate Press)

The board of Ottawa Collegiate institute is trying to solve a mystery of 1913, revealed in a letter from an honor student of that year. Miss Sybil Stewart complained that the "gold" medal presented to her in recognition of her scholastic standing has turned out to be nothing but gilded bronze.

## Latin Seminar Date Set For Latter June

DATE FOR THE Latin-American Seminar, to be conducted by the college in cooperation with the seventh district federated women's clubs, has been set for June 23-25, according to an announcement made this week by Dean James M. Gordon, director of the summer session.

Enrollment of the program has been given by approximately 1400 members of federated women's clubs, according to Mrs. H. F. Godeke, president of the seventh district of the Texas Federation of women's clubs. Mrs. Godeke has just completed a tour of North Texas towns on which she contacted members of more than 225 federated clubs.

These clubs are planning to send delegates to the seminar, which will be conducted as an extensive study course, the aim of which will be to better understanding between the United and Pan-American countries. The Lubbock federated women's clubs will act as host for the convales.

Lectures, forums, and panel discussions will be conducted by college faculty members.

In connection with the seminar courses in principles of community recreation will be offered by the women's physical education department of the college.

## Engineers Want Defense Course

Application for permission to offer a course in engineering defense training in department of industrial engineering has been forwarded to Washington for approval by Prof. O. A. St. Clair, head of the department.

If approved, the course will begin May 26 and continue for 12 consecutive weeks. Prerequisites are high school graduate with at least two years of mathematics, including one year of plane geometry.

Applications will be received in office of Professor St. Clair.

## ★ Designed For Those ★ Campus Review With 8-9 Classes ★

NEWLY ELECTED officers of Kemas club include Johnny Phillips, president; Winn Lehman, vice-president; Hugh English, secretary; Claude Jarrott, treasurer; Reuben Jackson, athletic director; and Bobby Johnson, pledge trainer.

Dr. Leroy T. Patton recently attended a meeting of the American Association of Petroleum Geologists at Houston. Among the Tech graduates present at this meeting were Dr. Robert Spivey, head geologist of the Shell Co. at Abilene; Ruford Madera of Shell Co. in Houston; G. C. Clark of Standard Oil Co. of Fort Worth; Jesse Rogers, district geologist of the Panhandle for the Texas Co. and Dr. Elliot Powers, district geologist for the Panhandle district of the Gulf Co.

Joe Burson has received a \$300 fellowship to the Teacher's College at Columbia University at New York City which will run from September, 1941, to June, 1942.

Mr. and Mrs. O. A. St. Clair gave a dinner Thursday night at 2005 Broadway in honor of Mr. and Mrs. Eugene F. Hebrank who were married in New York during the Easter holidays. Special guests included Dean and Mrs. O. V. Adams, members of the industrial engineering faculty and their wives.

David Bergin, instructor in journalism, is attending a photographic short course held at the University of Oklahoma Friday and Saturday.

Delmar Criswell, 1930 Tech graduate and consulting geologist at Olney has discovered a new oil pool near Olney, Wichita Shelton, Tech graduate, recently has made a survey and location for a new pool in the North Texas area.

15000 summer school picture bulletins were sent out last week from the registrar's office to teachers, high school seniors, and junior college graduates in this vicinity.

James Gunter, freshman aggie student and vice-president of the national FFA, spoke at the annual FFA father-and-son banquet held at Meadow Thursday night.

Zack Jagers, vocational agricultural student who will graduate in June, has received a position as teacher in vocational agriculture as Miami replacing Hood Wills, 1937 graduate who will be transferred to Tampa.

Miss Anna J. Pendleton, professor of speech, judged the regional interscholastic league one act plays at Canyon yesterday.

University of Toledo's defense program is the largest of its kind in Ohio.

### Around The Table

BY  
FANIBETH  
HARRIS

PAUL REVERE has forsaken his horse for the slightly more modern radio. At least from the latest reports we are led to believe that this historic patriot will broadcast from some German radio station in the United States. Comparable to the English Lord Haw-Haw, Paul Revere should divulge some interesting facts.

Recently many organizations have taken up the "Bundles for Britain" campaign, but as one collegiate paper in Ohio points out we seemingly have forgotten the need for medical attention in the various countries. It isn't, they pointed out, as if aid was not needed in Britain, but other needs must not be neglected.

One organization, composed of about 280 physicians and surgeons has shipped overseas more than \$157,000 worth of medical supplies.

THE UNIVERSITY of Miami is staging a five-week "brick" sale toward the construction of a Music building and Auditorium. The sale is being conducted on a much larger scale than was Tech's "give a brick" campaign. Miniature bricks were sold at \$1.00 each and each person buying a brick is asked to sell five more, and then each of those persons buying a brick is asked to sell one. By this method the University expects to raise \$20,000. We hope they realize their hopes, and do as well as Tech did in gathering in the bricks.

It has been suggested that the men's social clubs stage a Fraternity Sing. By way of explanation, a Fraternity Sing, is a get-together in which glee clubs from all men's clubs on the campus compete for prizes. Most of the larger colleges and universities sponsor such a program and to win one of the prizes is quite an honor.

CAMPUS POLITICS was one of the discussion topics at the LAWS convention and one of the most interesting. The girls from the visiting colleges were quite free in expressing their opinions and describing politics as they existed on their campuses.

Northwestern university has quite an interesting situation on the campus according to the delegate who gave the report. She said that very democratic elections were held, but votes were traded back and forth by two organizations which control all voting on the campus.

## Yes, It Is Quiet Now; But, This Is 1961

(By Associated Collegiate Press)

It is quite now, this early in the morning. A few brazen little birds are piping thinly. Those old bricks? Yes, they were probably a building once. University buildings? Most probably. There's no one now who quite remembers.

The quiet grey moss inches its way through the mortar and plans gradually to engulf the area. Nearby stands the shattered stump of an old fir tree. The atmosphere is eating away its fibers.

Were there lots of buildings then? Were there lawns and walks and roses in the sunshine? See, here is a bit of an old cement pathway. It crumbles if you step on it.

There is a certain softness about the day yet. The mists are lifting, the air is cooling to the cheek. But everywhere it is so quiet.

Were there many people here then? Didn't they laugh and talk to one another? Didn't they care about the lovely old buildings?

The water in the mill stream chortles as you slap it with a little stone. It is muddy green and flows passively on its way. It is used to being left alone. There are no boats floating on its back.

Why aren't there any boats? What happened to all the people and buildings? Why did they simply leave? Didn't they have any air raid shelters at all?

The sun is coming out now. Listen the little birds are singing louder.—P. E. in the Oregon Daily Emerald.

## Quotable Quotes

By Associated Collegiate Press

"A democratic education is an education which helps human persons to shape themselves judge by themselves, discipline themselves, to love and to prize the high truths which are the very root and safeguard of their dignity, to respect in themselves and in others human nature which helps human persons to shape themselves, in order to win their liberty." Dr. Jacques Maritain, noted French educator, visiting professor of philosophy at Columbia university, emphasizes discipline in defining democratic education.

"We no longer speak a common language as we no longer have a common intellectual background. Putting it another way, our modern education suffers from intellectual malnutrition. The scientists have been the greatest specialists, and there is probably no other group quite so narrow in its interests. Our system is out of balance, and if we would restore it to equilibrium we must give more attention to the social and the human problems which we face." President John W. Nash of Swarthmore college calls for correct-measures in the education system.

## Swain Finds He Gets Results By Terrorizing

By BETTY SHRYOCK  
Toreador Staff Writer

SPRING IS definitely here and with no doubt will come proposals for marriage for Tech's lucky co-eds.

But in case you're wondering when and where the boy friend is most likely to pop the question, there's not much telling. Judging from the results of a recent questioning of 20 engaged co-eds, no two boys are apt to choose the same spot. Proposals have been made everywhere from the cemetery to the baseball park.

Naturally, the girls desired that their answers remain anonymous. Some of them say they are never asked but are taken for granted. Others, however, remember the exact spot where the proposal was made.

Park benches seem to be most popular while parked cars are second.

Apparently the avenue is conducive to romance. One girl received her proposal in the College Avenue drug.

Apparently not all girls come to college to catch a man. Some of them say they are never asked to school. Two Doak Hall residents became engaged while still in high school, one at a junior-senior banquet and another on the night of graduation in front of the Amarillo high school auditorium.

Others say they caught their man in front of a grocery store, in the living room, over the telephone, in a crowded elevator, at the bookstore, and on a special train coming back from a football game.

Another who couldn't swim was proposed to in a sail-boat and had to accept so he'd bring her to shore.

Probably the oddest answer of all came from the girl who refused her suitor in the park and then accepted when he popped the question in the cemetery.

## Museum Display Paintings Rated

Miss Neeley's Work Given First Place

Paintings winning first and second place in the exhibit of paintings of South Plains artists in the West Texas museum were "Landscape" an oil painting by Miss Claudia Neeley of 2812 Twenty-first street and "Creek and Canyon" also an oil painting, by Mrs. Cecile Foster of Sudan.

The paintings were representative of the talent of the entire South Plains. Some Tech faculty members placed works on exhibit but did not enter in competition. Judges of the exhibit were Robert I. Lockard, Mrs. Fredda Hunt, and Ramond Hendry Williams.

Besides winning first and second respectively Miss Neeley and Mrs. Foster won honorable mentions. Also winners of honorable mention were the works of Mrs. Vernetta Hutto of 1908 Thirteenth street, Mrs. Avery Fix of 1613 Twenty-first street, Mrs. C. A. Hubbard of 1815 Avenue K, Mrs. Elizabeth Mason of 2201 Sixteenth street and Mrs. Hugh Johnson of Sudan.

The paintings will remain on exhibit until April 29.

## Prof. Wile Judging Bands In Tri-State Competition

Prof. D. O. Wile is attending the tri-state band festival in Enid, Oklahoma this week, where he will judge high school bands from three states, Texas, Oklahoma, and Kansas.

Yale university has set up a plan of group insurance for students which provides reimbursement of medical and hospital bills up to \$500 for any one accident each year.

## They're Just Small Rocks, But Museum's Minerals In Demand

By ERNEST CURRY  
Toreador Staff Writer

IN THE EAST WING of the museum stands a glass case in which is exhibited those minerals needed for national defense. Those minerals are in the form of rock—small rocks.

The mineral samples have been collected by the geology department. Elba Hunt, E.E. student, arranged the exhibit in the museum.

Thirteen different metals are displayed. These were sent here from all over the world—Africa, Asia, Europe, Australia, South America and the South Sea Islands.

Nickel, great in strength and ductibility and used for armor plates, projectiles, gun shields, structural work, axle gears, surface plating, chemical reagent, and as a pure metal, is found in Ontario and New Caledonia.

Manganese abounds in India, Brazil, the Caucasus Mountains and the Gold Coast of Africa. It is found as an oxide, carbonate, or silicate. Germany, France, the

HOT WEATHER and records again take the spotlight with Artie Shaw soon to release his disc of "I Cover the Waterfront," and "Alone Together." These will be played in the same styles as "Dancing in the Dark" and "Smoke Gets in Your Eyes," the Avenue favorites. It's Shaw's plan to bring back the best show tunes of the past with recordings by his Gramercy Five. He'll also record "Moonglow" in the near future. All these are Bluebird records.

The up-and-coming band of the nation is Charlie Barnett, now featured in a tour of East coast fraternity parties and theatres. Barnett has a new vocalist, negro gal Lena Horne. Barnett discovered Lena Chamber by accident and she stops every show with her voice.

Her specialty is the low-down, gut-bucket stuff that is the trademark of most colored singers. But she can sing anything. She may be heard on a new platter called "Good for Nothing Joe."

Followers of classic swing will be interested in hearing the Chamber Music Society of Lower Basin Street to be heard Monday nights from NBC Blue network (KGKO, Fort Worth; KGNC, Amarillo).

It's dedicated to the preservation of the three B's; Barrelhouse, Boogie Woogie, and Blues, and features Dinah Shore, and a wonderful band that can play swing as it is never played elsewhere. The Chamber is being preserved for posterity by a new Victor album of records.

Radio is serving its purpose well now in bringing the best dance bands in the land to the mike for late evening airing. Best bets, night by night, are:

Sunday: Larry Clinton, Joe Reichman, Sammy Kaye.  
Monday: Lanny Ross (thru Friday), Basin Street Society, Artie Shaw.  
Tuesday: Glenn Miller, thru Thursday.  
Wednesday: Tony Paton, Dinah Shore, Shep Fields.  
Thursday: Tommy Dorsey, Cugat and Yvette.  
Friday: Wayne King, Abe Lyman, Vaughn Monroe.  
Saturday: Hill Parade, (Bea Wain, Barry Wood) Larry Clinton, others.

Radiologists will give you the clew to time and station. I suggest buying Radio Guide every issue.

KFOY is now ethering some good bands on Mutual sustaining programs, and local programs use records, Lombardo, Del Courtney, Orrin Tucker, Freddy Martin, Van Alexander, and Alvino Ray are now on the KFOY schedule.

Later on, when daylight saving time comes in, the local five-watter will add a number of new and interesting programs. Daylight time means later hours in the East and therefore more bands will be available for the broadcasting. Winchell says Mutual may make up with ASCAP first. If so, KFOY will be set for the rest of the year.

Students enrolled in engineering defense training course in production engineering visited defense plants in Dallas and Ft. Worth last week accompanied by Cecil S. J. Phillips, instructor. Plants visited in Ft. Worth were: Swift & Co. and Gul Refining Co. Those visited in Dallas were: Mosher Steel Co., Koehler Furniture Co., North American Aviation Co.

Technicians making the trip were: L. J. Fulton, Weldorado; S. E. McKinnor, Morton; Claud N. Wilson, Carlsbad; Clarence C. Davis, Lubbock; W. P. Dowden, E. Dowden, Plainview, and J. A. Dickson, Lubbock.

## Students Visit In Defense Plants

Seven students enrolled in engineering defense training course in production engineering visited defense plants in Dallas and Ft. Worth last week accompanied by Cecil S. J. Phillips, instructor. Plants visited in Ft. Worth were: Swift & Co. and Gul Refining Co. Those visited in Dallas were: Mosher Steel Co., Koehler Furniture Co., North American Aviation Co.

Technicians making the trip were: L. J. Fulton, Weldorado; S. E. McKinnor, Morton; Claud N. Wilson, Carlsbad; Clarence C. Davis, Lubbock; W. P. Dowden, E. Dowden, Plainview, and J. A. Dickson, Lubbock.

A chemist at the University of California has developed a method of studying hot atoms of a million degrees centigrade or more.

batteries, and dye manufacturing zinc is necessary. Zinc producing countries are the United States—40 percent, Belgium, Poland, Germany, France and Canada.

As an alloy with other alloys molybdenum is useful. The United States produces a large amount of molybdenum.

China is the major source of antimony which is necessary for the manufacture of bullets and shrapnel.

Lead is used as pure metal for its weight and malleability for lining acid chambers, pipe coils, and packing pipe joints. Resources of lead are in the United States—40 percent, Mexico, Spain and Australia.

Sources of aluminum, noted for its lightness and resistance to corrosion, are France, Yugoslavia, Dalmatia and Istria and the United States.

Federated Malay States and the Dutch East Indies produces the world's tin. 50 percent of produced tin is consumed by the United States.

Mica, a common rock mineral, is mined in North Carolina, New Hampshire, New Mexico, South Dakota, Virginia, Georgia, Colorado, South Carolina, and Connecticut.

Copper, used extensively in electrical industry for generators, motors, switchboards, and transmission lines, has its deposits in the United States, Chile, Peru, Mexico, Alaska, the Congo, Rhodesia, Spain and Portugal. Cheapness and abundance characterizes copper.

# Raider Gridders Back To Brass Tacks

## No Easter Hunt Now, As Spring Drills On Anew

Half-Hour Scrimmage Daily Diet For 1941 Rejuvenated Raiders

By GERALD SPRAGUE  
Toreador Sports Editor

NOW THAT THE Easter vacation period is out of the way, Tech's spring training program is in full swing again as the boys are settling down to hard work.

With a 30-minute scrimmage scheduled each day Coaches Morgan and Huffman are whipping the squad into fine shape and they are looking better every day. Morgan says that they are now able to tell more about the ability of each individual and he is optimistic over the progress made this far.

So far most of the players have been retained at their old position with only three important changes. Joe Albright, veteran guard, has been converted into center, a position he hid down on the fish squad and in high school, and is expected to add much strength to the pivot slot. Art Weber, former end who was out last season with a leg operation, is back in uniform and has been placed in the quarterback, or blocking back, position. Weber, a sure fire blocker, is expected to aid materially at this spot.

In the backfield another important change has taken place. J. R. Callahan, triple-threatener up from the Pic ranks, has been removed from fullback to the left halfback, or tailback, hole. Callahan, an able punter and excellent passer, is one of Bert Huffman's main hopes for a good backfield next year. Despite the fact he was hampered somewhat by an injured leg, which has now healed, he was one of the best backs on the frosh team last fall. Railbirds who have been following him all the time are expecting great things for this lad in the future campaigns.

Coaches have been stressing pass defense every day and there is a thirty minute period set aside daily for this phase. Much work has been done on defensive line play with man-to-man blocking the order of the day. These parts coupled with the scrimmage and the customary calisthenics and wind sprints constitute a practice session.

As is usually the case, many of the new boys are stealing the show this spring. Buck Ewen, 185 pound center, has been showing up well at the snapper position. Byron Gilbreath, basketball flash, and Harold Crossen, freshman who hat crossed the fence, are highlighting the end play. Both of these are good defensive blockers and can snap passes well. Several guards are looking good. Line Captain Loyce Bailio is leading the parade with Jimmie Jay, squadman, Pat Farris, Pleador, and James Merriman, husky sophomore, showing up well.

In the backfield Marvin McKown has been outstanding at the fullback slot along with Callahan who is now running from the tail- See GRIDERS Page 4

## Track Team Back With Sixth-Slot El Paso Honors

Texas Tech's track squad returned Sunday from El Paso, where they participated in the Southwest relay meets with a sixth place rating. The Raider cindermen garnered six points at the meet which was practically a relay carnival. This meet featured relay races with only three field events (two with only three field events) and the high hurdles as special attractions.

Lawrence McCullough won third in the high jump event. Leon Powers placed fourth in the 120-yard high hurdles.

In the relays, Tech placed fifth in the sprint medley with Weldon Barton running the 40, Bob Duncan and John Chandler stepping off the 220, and John Campbell running the 880 or half mile.

In the 440-yard relay the Raiders captured fourth with a team composed of Don Austin, Bob Duncan, Powers, and Chandler. The same team gained a third spot in the 880-yard relay with the exception of Powers who was replaced by Barton.

The meet was won by Santa Anna Junior college of Santa Anna California.

## Hamlet Takes Singles Title With Upset Over Roberts

JIM HAMLET, Los Camaradas singles ace, upset Dick Roberts, Kemas star and pre-season favorite, 3-6, 7-5, 9-7 to capture the social league singles crown.

Roberts then teamed with Johnny Phillips to down Wyman and Brown, College Club doubles combination, in straight sets 6-2, 6-3 to send Kemas into the finals of the social loop doubles race. Los Camaradas has already earned the final berth by downing an outclassed Centaur club.

Hamlet had to come from behind twice to defeat Roberts but he always had what it took and

## Reynolds Signs Gold Sox Paper

Techsan To Hurl For Amarillo Outfit

Paul Reynolds senior arts and science student from Petersburg, has signed a contract to pitch for the Amarillo Gold Sox in the West Texas-New Mexico League.

Reynolds worked with the Gold Sox in their training camp at Hot Springs, New Mexico during the Easter holidays and pitched in some of the games they played. Monday he started against the House of David nine in Amarillo and encountered difficulty in getting the hitters out and was knocked from the box in the first inning.

He will report to the Sox about the first of June to begin regular work with them.

Reynolds has participated in Tech basketball and was a candidate for varsity football one season. Between now and the time he must report to the Sox he will keep in shape by twirling for the Rats, independent intramural baseball club, in the "mural" race. Reynolds is the manager of the Rats.

## Latin Students Dine Thursday At Mexican Inn

SPQR club's annual Latin banquet was given Thursday at 6:30 p.m. at Mexican Inn. White candles, and souvenirs from Mrs. William Dingus' trip to Italy decorated the ivy draped tables.

Judge H. C. Pipkin of Amarillo, former president of the Texas bar association, was the principal speaker. Dorothy Margaret Forbis spoke on Germany 2,000 years ago and a skit from "Aeneid" was given by club members.

Committee members included Archie McDonald, general chairman; Genevieve Ferguson, favors; Thelma Payne, decorations; Miriam Peckham, program; P. E. Shannon, reception; and Billy Trice, menu. Special guests attending the banquet included: Mrs. William Dingus club sponsor, Dean and Mrs. J. M. Gordon, Dean Mary W. Doak, Dean Margaret W. Weeks, Dean and Mrs. O. V. Adams, and Dr. and Mrs. C. B. Qualla.

## Jays Advance As Intramural Play Gets Underway

By L. D. WHITELEY  
Toreador Staff Writer

KEMAS AND LOS Camaradas captured tilts in the social loop baseball race to highlight this week's play. Kemas eked out an 8 to 7 victory over Centaur while Los Camaradas was plastering an impressive 19 to 10 decision over the Wranglers.

Harry Shaw went all of the way in pitching Kemas to victory using a slow curve to tease Centaur batters, but he got himself into numerous holes by failing to get the ball over the plate, only heavy hitting by his mates saved him. Claude "Jeep" Jarrett led the Kemas attack with three hits.

Buster Smith, Los Cam's ace chunker, led his club to an easy triumph over an outclassed Wrangler club in a game that could have been classified as a track meet, 29 runs crossing the plate in five innings.

Smith was content to coast behind the big leads his mates piled up for him and never did bear down. The Wranglers paraded three pitchers to the mound in trying to stop the onslaught but the Los Cam batters had no mercy for any of them.

In the independent league No-Star forfeited to the Jaywalkers as scheduled teams failed to appear for their tilts. This afternoon Los Ratos and Kappa Kappa Psi will tangle in a match originally scheduled for Tuesday afternoon.

The official complete schedule for both leagues released by Doc Spears, intramural director is:

Social League  
Centaur vs. Wranglers April 21  
Kemas vs. Silver Key April 22  
Centaur vs. College Club April 23  
Silver Key vs. Los Camaradas April 24  
Wranglers vs. College Club April 25  
Centaur vs. Los Camaradas April 26  
College Club vs. Kemas April 29  
Centaur vs. Silver Key April 30  
Kemas vs. Wranglers May 1  
Los Camaradas vs. College Club May 2

## Faculty Members Marry At Easter

Marriages were as prevalent among faculty members as among students during the holidays. Mrs. Edna Lyles, assistant professor of clothing and textiles, and E. R. Heiman, associate professor of mathematics, exchanged vows Good Friday at noon at the Presbyterian church in El Paso. They will be at home at 2005 Madison.

E. F. Hebrank, instructor in industrial engineering and engineering drawing, wed Miss Lois Caruthers April 12, in New York. The couple will reside at 2208 14th street.

## Raider Netters Lose Seventh Straight Meet

TECH'S TENNIS team ran into difficulties Tuesday and lost their seventh straight match, Texas Mines taking them 5-2.

In four of the seven matches Tech's men won the first set, but only No. 1, Frances (Red) Hightower was able to hold his lead.

In No. 1 singles, Hightower defeated Borunda of the Mines, 6-3, 6-4. In No. 2, Lovelace lost to Cottingham, 6-1, 6-2. Jack Shanks forfeited to Brown of the Mines in No. 3. David Storey really put up a battle in losing to Hungerford, 2-6, 6-4, 8-6. In the final set Hungerford was leading 5-1. Storey then won five straight games to go ahead at 6-5. Hungerford rallied to win, 8-6. Lloyd Brunson in the final match lost to Camp, 2-6, 6-2, 6-3.

Hightower and Lovelace lost the first set of their match against Cottingham and Borunda, but came back to win, 6-8, 6-4, 6-2. Storey and Shanks lost to Brown and Hungerford, 2-6, 6-2, 6-3.

Dean James G. Allen, coach of the team, announced a match with Eastern New Mexico College of Portales for 1:30 today.

Special guests attending are: Miss Ruth Pirtle, Mr. R. L. Lee, Miss Annah Jo Pendleton, Mr. Casey Fine, Dean and Mrs. James G. Allen and Dean Mary W. Doak and sponsor, John Harding and Mrs. Harding.

## On Tap

Continued From Page 1

that my room-mate was inebriated, but it did look kinda silly, him a grown man standing there in a drug store eating tennis balls and every once in a while saying, "Have an orange?"

Once home, I poured him into our boudoir where he applied his body to such physical contortions as to give him the appearance of a symphonic pretzel. He groaned like a Fordson tractor plowing a mortgaged farm and vociferated curses enough to annihilate any fiend in Christendom, but he never did quite manage to get those pants off over his head.

It doesn't do much good to lay an egg anymore; Someone always breaks it.

It's things like Camp Bowie that make being born a girl baby something of an accomplishment. (This sentence has six meanings. If you find them all, fill in this sentence "I am nuts because..." with 25 additional words or less, and we will gladly mail you the latest 1941 model Durant with three wheels and a corresponding number of pistons.)

I wish, since the movies are getting so exciting, that they would make the edges of the seats wider—that's all we ever sit on anyway.

Bobs Watson and Mickey Rooney are pictured above on the arm of Spencer Tracy who is also pictured together in the mighty sequel of a very wonderful story... When M-G-M brought "Boy's Town" to the screen, it was good, but now they say this sequel is much better — showing at the Lindsey Theatre at the prevue tonight through next Wednesday, "Men of Boys Town".

## Whoops! So Sorry. But It Looked Like Golfing Weather To Us!

Well, THE TOREADOR thought someone was going to qualify in THE TOREADOR'S 1941 Invitation Golf tournament.

Someone said there was going to be a tournament. The sports editor wrote there was going to be one. But, there weren't any golfers. There were no officials. In fact, there was nothing but a sandstorm.

It seems that all the upper minds of Texas Tech golfdom either were caught in a purge or were out-of-the-city on business.

But, there will be a 1941 golf tournament and according to plans underway today, the matches will be played on a grass green, just when, no one knows; least of all, THE TOREADOR.

## Gridders

Continued From Page 3

back position. Capt. Bain is carrying most of the burden at the blocking back, but Joe Bob Foster, transfer, Kenneth Robbins, squadman, and Joe Alford former fish star, rapidly improving daily.

There have been some plans tentatively made for an open house scrimmage some time before the current training period is over, however due to inadequate lighting facilities these plans may be abandoned. Spring training will be concluded April 29.

Coach Morgan issued an invitation to all students to come over and watch the team work out any afternoon they wish.

The complete spring roster is as follows:

Centers: Wayne Pipes, 197, Ed Irons, 178, Billy Hale, 175, Garland Head, 178, and James Melody 210.

Guards: Loyce Baillo 185, Jimmie Jay, 190, Doyle Caraway, 190, Charles Daniel, 185, James Reid, 185, Pat Farris, 190, Fount Merrill 180, James Merriman, 190, and Charles Jacobs 185.

## Three Weddings Held During Easter Holidays

Faculty Members Are Married In El Paso Friday At Chapel

Of interest to past and present Tech students are three weddings which took place over the Easter holidays.

Miss Cecile Horne, daughter of Mr. and Mrs. Cecil Horne of 2224 Broadway, was wed to Dr. Townsend Smith of Tucson, Ariz., son of Mr. and Mrs. Townsend Smith of Tyler county, West Va., Sunday morning in Archbishop Lamy's chapel in Santa Fe, N. M.

Mrs. Smith is a graduate of Tech where she was a member of Las Chaparritas club and of Forum. She received a bachelor of journalism degree in advertising from the University of Missouri and was a member of Chi Omega sorority there.

Doctor Smith is on the University of Arizona faculty at Tucson where the couple will make their home.

Mrs. Edna Anderson Lyles and E. Richard Heineman were married Friday at the El Paso Presbyterian chapel.

Mrs. Heineman is assistant professor in clothing and textiles at Tech and has been teaching at the college since 1937. Mr. Heineman is associate professor in mathematics at the college, and has been here since 1938.

After May the couple will be at home at 2005 Madison street.

Violet Mattson, of Houston, and John Parter Baird, of Lubbock, were married April 11 at the First Presbyterian church with Rev. J. M. Lewis, pastor reading the ceremony.

Ruth Spalding, assistant loan and reference librarian, and C. M. Goodeve, attended the couple.

Mr. Baird is a graduate of North Texas State Teacher's college in Denton, and is now in military service at Camp Bowie, Brownwood.

Mrs. Baird is a graduate of Rice Institute in Houston. She will continue her work as reference librarian at Tech.

Queens college is offering a new historical survey of the American scene in terms of its ballad and song.

## Maritime

Continued From Page 1

of the U. S. Department of Commerce for a position paying from \$160 to \$210 per month. Promotion will be made to Second Assistant Engineer of those qualifying at a salary of \$180 to \$220 a month.

Candidates for cadet training who are placed on the eligible list will be assigned to one of three schools, either at New York, New Orleans or San Francisco. Preliminary training at the school takes from four to eight weeks, and the cadet is assigned to a position aboard ship which will qualify him for license examination. They are paid a minimum of \$30 a month. In some cases, bonuses are paid and subsistence and quarters are provided in addition to pay.

175, Edd Harris, 171, and Peter Blanda, 170.

Eight halfbacks: Don Austin, 162, Thayne Amonett, 180, Glenn Lowe, 190, Maxey McKnight, 160, and Roy Williams, 165.

## Coed's Corner

### Tech Girls Wear Latest Styles This Season

By Doris Peavy

Broom-stick skirts, thin blouses and anklets compose the school wardrobe of all Tech coeds. Spectator pumps, printed silk frocks and navy blue, light weight coats with starched white collars and matching poke bonnets hats with flowers and veils are hanging in all closets ready for wearing.

With the missing of a couple of the issues of THE TOREADOR we have a little society news to catch up on.

First, Las Vivarachas elected its officers for the coming year. They are as follows: President, Waldeen Donnell; Vice-president, Dorothy Lou Emmitt; secretary, Beth Newton; treasurer, Anna Katherine Davenport; inter-club council representative, Camille Graves; parliamentarian, Lucille Payne; AWS representative, Flora Lee Williams; reporter, LaVerne Allen, and sergeant-at-arms, Grace Rooney.

Second, Las Chaparritas members and pledges entertained their patronesses with a breakfast carrying out the Easter theme, Sunday, April 6. President, Jane Hill presided and Bobbie Read, Patricia Selby and Beatrice Wright presented a musical program. Corsages of spring flowers were given the guests as favors.

It's a shame that all of us couldn't go to the Kay Kyser dance in Amarillo last night, but cheer yourself up by taking a gander at the circles under the eyes of the chosen few who did get to go. Wonderful, aren't they?

I hear the boys' clubs are really limiting their guest lists for their dances, which is a very wise move. Silver Keys are bound to have a wonderful dance, and their plan was to give each member of the organization one bid to be presented to a girl who could ask some one to take her. Lubbock dancing space is so limited that we are forced to do something, and limitation seems to be the only solution. Maybe someday we will have a student union building, maybe.

## Ko Sharis Trek To New Mexico For Initiation

Thirty-One Pledges Become Members In Traditional Rites

To initiate 31 new members, Ko Shari social club went on its traditional trip over the holidays to the romantic Santa Fe, N. M. Five days of entertainment and visits to historical spots were topped by a supper at Arrowhead Camp and the initiation services in the ceremonial kiva, which dates back to the 14th century and is a part of a pueblo under excavation by Dr. W. C. Holden, Dean of Historical and Anthropological Research and a group of archaeological students of Tech.

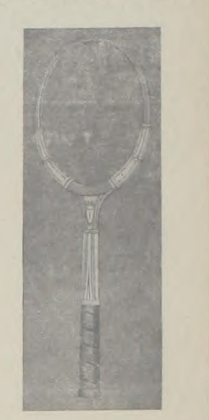

In traditional form a bracelet was awarded to Billy June Hittson, recognizing her as the best pledge for the fall semester. Carolyn Surratt was given honorable mention. For the spring pledges of 1940 Joanne Cox received the award.

Girls initiated were: Nettie Belle Batton, Joanne Cox, Frances Gordon, Ruth Loflin, Aurelia McDonald, Jerry McIlhenny, Helen Rosenquists, Margaret Cammack, Louise Chapelle, Betty Cram, Patti Crawford, Maxie Felts, Eleanor Gillham, Billy June Hittson, Evelyn Jones, Julia Jones, Mildred Kaykendall, Jo Ann Lewis, Louise Lewis, Mildred McGlasson, Betty O'Mara, Mona Lou Pierce, Jean Renner, Dorothy Dell Schehagen, Heidi Schneider, Mary Mennon Stangel, Carolyn Surratt, Joyce Swan, Jane Temple, Patsy Williams and Dora Woods.

Franklin and Marshall college is offering free swimming instruction to all undergraduates.

With the Stars  
**It's Chesterfield**  
with a Cooler, Milder, Better Taste  
that everybody likes

With the stars, and with every smoker who enjoys Chesterfield's Definitely Milder, Cooler, Decidedly Better Taste, Chesterfield is known as the smoker's cigarette.

Its famous combination of the best tobaccos from our own Southland and from far-off Turkey and Greece makes Chesterfield the one cigarette that truly satisfies.

EVERYWHERE YOU GO They Satisfy
