BIG PROBLEM — These gamelious lovelies offer quite a problem, and justly, for a sleepy beauty judge in the third act of "Milestones in Melody". The show, which features many song, dance and talent routines, will present the year's La Ventana beauty nominees in the final performance tonight. Left to right, they are Bettye Colquitt, Mary Ann Kelley, Levora Manning, Joan Booth, Beverly Zeleny, Betty Stewart, Patty Jo Musson, Joyce Boren, Barbara Williamson, Johnnie Bice and Shelly Furr. Also to be presented, but absent from the picture are Peggy Hicks and Glenna Winston. (Roper-Gibson)

'Milestones' Declared Success; Last Performance Set Tonight

By CHARLES SCHAFER
Toreador Copy Editor

The curtains will close on the final performance of the 1949 Varsity show, "Milestones in Melody", tonight in the Lubbock Senior High school auditorium.

The three-act musical divertissement playing to satisfied audiences for the past two nights and is considered one of the most entertaining shows ever presented by Tech students. Curtain time is at 8 p.m., and the show runs for approximately two hours.

Ruth Cook, author of the show and a senior home economics education major, has realized her expressed goal of presenting a musical comedy with a maximum of entertainment and a minimum of plot.

On the whole, the show moves swiftly from scene to scene and shows evidence of expert directing. Only in the first act is it rather inept. An inexplicable Indian dance is performed, but a sultry dance by Patti Jo Musson is commendable.

In the second act, Joe Meador, veteran Varsity show performer, plays the part of a decrepit janitor and his acting makes him a worthy contender for a Tech "oscar".

But it is a group of girls dancing the Charleston that elicits the most audience response in this act. Dressed in the style of the late twenties, they personify the flapper age beautifully. The dancers are Helen Moore, Betty Willis, Janet Moore, Mary Ruth Norris, Pat Flinnigan, Carol Sherrod and Jane Armstrong.

The softshoe and boogie dances are also outstanding. "Apache", a dance by Jimmie Carter and Jo Simmons, shows off their artistry to perfection.

A lighthearted act number by Bill Jackson, Bob Parkinson and Lamar Jackson, almost steals the show. The trio sing several songs to the accompaniment of a guitar.

Tonight's performance will be dedicated to Dr. D. D. Jackson, education professor, and W. H. (Bill) Tinney, dairy manufactures lecturer. They are faculty sponsors of the show. Monday night the show was dedicated to Dr. D. M. Wiggins, president, and Tuesday night to Dr. E. N. Jones, vice president.

But it is a group of girls dancing the Charleston that elicits the most audience response in this act. Dressed in the style of the late twenties, they personify the flapper age beautifully. The dancers are Helen Moore, Betty Willis, Janet Moore, Mary Ruth Norris, Pat Flinnigan, Carol Sherrod and Jane Armstrong.

The softshoe and boogie dances are also outstanding. "Apache", a dance by Jimmie Carter and Jo Simmons, shows off their artistry to perfection.

Poultrymen Slate Conference Here

With the purpose of stimulating more interest in egg and broiler production, poultrymen from over the state will gather at Tech this weekend for the South Plains Poultry conference.

The conference, first of its kind to be held in this area, will feature talks on all phases of poultry raising with emphasis being placed on broiler production, stated H. L. Mathews, professor of animal husbandry.

Wiggins Okays Student Members On Disciplinary Committee In Fall

Pres. D. M. Wiggins has approved the Student Council's plan for the appointment of a man and woman student to serve on their respective faculty disciplinary committees, Clint Formby, president of the council, has stated.

The 1949-50 school year will be the first year of student participation on the committees and will be on a probationary basis. If the arrangement does not prove satisfactory to the college administration and student body, the student members will be removed from the committees.

Committee members for next year will be selected by the Student Council at a later date, Formby said. They need not be on the council to hold the position.

The disciplinary committees, one for women and one for men students, are presently composed of four faculty members each.

Students elected to serve on the committees must have made pass-

Tech Students Win Convention Contest

First place in the ASME convention speech contests, held at Tech April 1-2, was awarded Larry Johnson, Tech senior ME from Amarillo, announced E. L. Bednorz, publicity chairman of ASME. Third prize went to Beldon Peters, ME student at Tech, from Channing.

Awards were made by L. J. Powers, professor of mechanical engineering, at the banquet Saturday night in Cactus Inn. Johnson was given \$100 and an all expense paid trip to the Hughes Tool company in Houston and the Chance-Vought Aircraft company in Dallas. Second place prize of \$70 and a wrist watch, contributed by Lucian Thomas, went to a Texas University student.

Eleven speakers from the eight schools represented were heard by an impartial team of judges composed so that no speaker was judged by judges from his own school. One student and one faculty member composed each team of judges.

These speeches were the high point of a two-day meeting which included tours of service plants in this area, a luncheon, and the annual banquet-dance at the end of the convention.

The conference of ASME schools has now been expanded to include Louisiana Polytechnic. Their delegates were presented an electric clock as a token of welcome.

President and Mrs. Wiggins were special guests of the convention dance. Among the other guests were Earl Eckhart, of the University of Texas, who spoke at the banquet, O. V. Adams, dean of engineering; R. F. Spikes, public relations director of West Texas Gas company; H. T. Dowell, personnel representative of Chance-Vought Aircraft and Daniel J. Martin, vice-president of Hughes Tool company.

Over sixty students represented the eight schools which are members of ASME. These delegates represented Texas university, SMU, LSU, Louisiana Polytechnic, Texas A&M, Rice, Tulane and Tech.

Office Seekers Must Draw For Ballot Slots

All candidates seeking election April 12 must meet at 4 p.m. today in the Student Council office, Ad-323, to draw for places on the ballot, Clint Formby, president of the Student association, has announced.

Head cheer leader aspirants are to meet in the office at 5 p.m. Thursday for instructions concerning wells. The cheer leaders will demonstrate their ability at the intrasquad football game Saturday night in Jones stadium.

There are now 86 candidates running for office. This figure is subject to change as eligibility requirements for all the candidates have not been checked. There is a candidate for every office except editor of The Toreador.

Candidates who have not been listed before are: Jack Shelton, senior arts and sciences student from Midland, and Kenneth White, junior arts and sciences student from Oklahoma, business manager of The Toreador; Bill Miller, head boy cheer leader; Wynona Hamilton, junior from Plainview, Billie Hutchings, junior from Lubbock, and Alton Griffin, sophomore from Crowell, Student Council representatives from arts and sciences division.

Joe Mac Montgomery, junior from Longworth, Cooper Slay, senior from Mission, Timothy O'Connell, freshman from Colorado, and Rex Darling, junior from Houston, Student Council representatives from engineering division; Joyce Pember, freshman from Slaton, and Joy Williams, junior from Shamrock, Student Council representatives from home economics division; and Don Crow, junior from Slaton, Student Council representative from business administration division.

Dean Speaks To Music Club

Mrs. Margarette W. Walker, dean of women, spoke at a meeting of the Federation of Music clubs in Dallas last week. While there, Mrs. Walker also was guest of honor at a banquet sponsored by the Dallas alumnae of Mu Phi Epsilon, professional music sorority of which she is president.

Cabinet Officer To Speak May 7

Secretary of Agriculture Charles F. Brannan is to be the principal speaker at a \$10-a-plate barbecue scheduled for Saturday, May 7 in Aggie grove.

The barbecue, one of three Democratic party rallies being staged in Texas, is expected to be of much interest to businessmen and farmers in this area, said Howard Davidson, arrangements committee head.

Invitations to attend will be extended to party leaders from over Texas and to prominent Democrats from the western section of the state.

BA SORORITY HOLDS MEET

Lambda chapter of Phi Gamma Nu, national business administration sorority, held its first professional meeting of the year last night.

Principal speaker of the evening was Miss Marian Leigh Simmons, personnel manager of Sears Roebuck and Co., in Lubbock, who spoke on "What the Employer Expects from the Employee." A program was presented by several pledges of the sorority.

Denny To Be Rec Hall Speaker

George V. Denny, Jr., president of New York's Town Hall, and founder and moderator of "America's Town Meeting of the Air," will appear at 8 p.m. Friday in the Recreation hall, as part of the

GEORGE V. DENNY

scheduled recreational program. Denny established "America's Town Meeting of the Air," radio's outstanding public service program, in 1935 to "maintain the great American principle of free speech and free discussion—the essence of the democratic form of government." He returned to revive one of America's heritages, the town meeting, so that the democratic way of thinking and of solving problems would be recaptured.

This radio discussion program has won numerous awards, including the Peabody Award, which it has received twice for its excellence as a public service radio feature.

He took his first trip to Europe in 1936, where he attended peace conferences and advised the World Foundation on the draft of a peace proclamation. He returned to England in 1943 on a government appointment to organize discussion groups among our fighting men overseas.

Denny attended the University in his native state, North Carolina, and received his BS degree in commerce in 1922. While still an undergraduate, he joined the newly-formed Carolina Playmakers which subsequently grew to national fame as a student acting troupe. He worked his way through school and after graduation served as instructor in dramatic productions at the university from 1924-26.

Denny had a rather short, unsuccessful Broadway career prior to assuming the position of manager of a lecture bureau. This led to the directorship of Columbia University's Institute of Arts and Sciences.

In 1930, Denny became the assistant of Robert Erskine Ely, director of the League for Political Education, which since in the 1890's, has presented distinguished political orators from its platform. He became president of this organization eight years later when Ely retired and the name was changed to Town Hall, Inc. As president of Town Hall, he has kept alive its many lectures, discussion groups and short courses. He has broadened its influence immeasurably with the radio program, "America's Town Meeting" which has promoted listening-discussion groups all over the U.S.

Winners Of Rodeo Contests Named; Students Tied For Two Top Awards

Winners of eight contests in the fourth annual All-College Rodeo have been announced by Woodrow Allen, publicity chair-

man for the student-sponsored event.

Tying for the best all-around cowboy award were Leon Jones, senior from Ennis, and Jack Buchanan, junior from Snyder. Tibba McMullan, freshman from Big Lake, tied with Janet Hightower, Garden City, sophomore, for the title of best all-around cowgirl.

By contestants, other winners were: Broncho bull riding: Kit Pettigrew, Big Spring, first; B. F. Yates, junior from Pampa, second; Tommy Bell, junior from Valentine, third; Billy Thomas, freshman from Post, fourth.

Team tying: Bill Elland, junior from Snyder, first; Johnnie McMullan, senior from Big Lake, second; Bobby Gray, freshman from Snyder, third; Harry Middleton, sophomore from Big Spring, fourth.

Goat roping: H. C. Beiford, sophomore from Midland, first; Johnnie McMullan, second; Bell, third; Cecil Martis, sophomore from Muleshoe, fourth.

Saddle bronc riding: Buchanan, first; Paul Read, sophomore from Lubbock, second; Tommy Taylor, sophomore from Otton, third; Bill Tilton, junior from Denison, fourth.

Barrel race: Jones, first; Buchanan and Raymond Haby, junior from Elyade, tied for second and third; Middleton, fourth.

Ribbon roping: Jones, first; Tom Cowden, sophomore from Midland, second; Beiford, third; Frank McMullan, sophomore from Big Lake, fourth.

Tech Is Saturday Host To Texas Seed & Plant Board

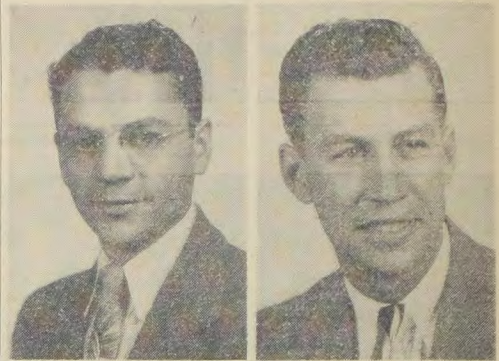

There will be a meeting of the Texas Seed and Plant Board Saturday on the campus, Dr. A. W. Young, head of the department of plant industry, said Monday.

Dr. Young, chairman of the board, has called this meeting to work out new methods of regulations in connection with seed production.

Mr. R. V. Miller, board member from Austin, and C. B. Goethey, from Texas A&M, will be present. Two Texas seed inspectors will be at the meeting. They are W. A. Goethe, seed inspector of the West Texas area, and M. D. Lacy, chief inspector of the Texas seed inspectors.

Girls' goat-tying: Josh Cook, senior from Post, first; Tibba McMullan, second; Alice Barron, senior from Lamesa, third; Betty Franks, junior from Rock Springs, fourth.

Barrel race: Janet Hightower, first; Betty Franks, second; Helen Calicoe, senior from Rankin, third; Tibba McMullan, fourth.

THE WINNERS—From a field of 11 speakers representing eight colleges and universities, these mechanical engineering students took two top honors for Tech at the ASME convention Friday and Saturday. Left is Lawrence S. Johnson, senior from Amarillo, first place winner. At right is Beldon Peters, senior from Channing whose speech took the third place award. (Koen Photos.)

Leiderkranz Picks Officers

Members of Leiderkranz, German club, have elected spring semester officers, Miss Livia Remmler, sponsor, has announced.

Officers elected are Selman Cooke, president; Houston Hodges, vice president; Molly Org, secretary; and J. C. Webb, sergeant-at-arms.

All students who desire bumper signs for their automobiles advertising the Engineers' show may obtain these signs in the Engineering library.

Tomorrow Set For First Showing Of French Movie

French movie, "Le Collier de la Reine," will be shown at 3 p.m. and 7 p.m. tomorrow and Friday in the Extension auditorium. Mrs. Beatrice Alexander, language instructor, has announced.

Le Cercle Francais, French club, is sponsoring the movie. Tickets may be bought from members of the club or at a booth in the rotunda of the Administration building. Price of tickets is 35 cents.

Witty, Bell Named To AWS Positions

Kathryne Witty and Doris Bell were victors in the run-off election of officers for the Association of Women Students, stated Margaret Clark, chairman of the Student Council election committee.

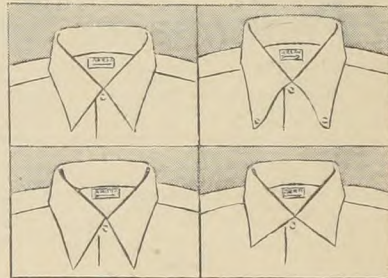

Miss Witty was elected vice president and Miss Bell, reporter, Thursday. The vice president received 132 votes. Her opponent, Sue Ann Roberts, received 97. Miss Bell was elected reporter with 131 votes, 38 more than her opponent, Guida Miller.

Other officers elected in the first balloting March 25 include Levora Manning, president; Joyce Byrom, secretary; and Mary Stanford, treasurer.

Giant Tech ROTC Ball Is Scheduled Friday, 9-12 P. M.

Dance To Be Held At Lubbock AAF

The largest ROTC ball in the history of Texas Tech will be held from 9 to 12 p.m. Friday at the Lubbock Army Air Field officers' club. Fred Gibson, publicity manager of the unit, said. The annual affair will entertain approximately 250 cadets, their dates, and honorary guests.

The ballroom will be decorated with crepe paper streamers and balloons. Shadow boxes containing emblems of the Signal Corps,

Corps of Engineers, Infantry, and Air Force, will be featured on the walls. Refreshments will be served, and music will be furnished by Earl Hubbard's orchestra, Gibson said.

The purpose of the ball is to acquaint the prospective Air Force and Army officers with the social side of the service, Gibson stated. Jerry McKee will be master of ceremonies.

Buses will be placed between Drane hall and Girl's dormitory III to furnish transportation to and from the dance, Gibson said.

Chaperones will be Lt. Col. and Mrs. Robert P. Riordan and Captain and Mrs. W. M. Neubauer. Special invitations have been extended to Dr. and Mrs. D. M. Wiggins, Dr. and Mrs. E. N. Jones, Dean and Mrs. James G. Allen, Major and Mrs. James R. Samsel, Mr. and Mrs. R. L. Razor, Col. and Mrs. J. B. Lowrey.

Dean and Mrs. W. C. Holden, Dean and Mrs. O. V. Adams, Mr. and Mrs. W. P. Clement, Dean and Mrs. R. C. Goodwin, Dean and Mrs. Haskell Taylor, Dean and Mrs. W. L. Stangel, Major William McPherson, Lt. E. L. Gillis, Mrs. Margarette W. Walker, and Mrs. Margaret W. Weeks.

FLOWMAN SINGS

Elton Flowman, baritone, Lubbock voice teacher and choir master of the Episcopal church, presented a program Sunday in the lounge of Women's Dorm IV, Guida Miller, social chairman, said.

Flowman sang "Flow Gently Sweet Afton", "Young Richie", "Oh, Mistress Mine", "Songs of Araby", "Night and Day", the aria from "Pagliacci", "Softly As in a Morning Sunrise", "Without a Song" and "The Green-Eyed Monster with the Thirteen Tails". As an encore he sang "The World is Mine Tonight".

He was accompanied by Mrs. Flowman, Miss Miller said.

ADAIR TAKES OFFICE

Bill Adair was installed as president of the Westminster Student fellowship Sunday morning at the First Presbyterian church, W. F. Rogan, director of Westminster house, said.

Other officers taking office were: Houston Hodges, vice-president; Barbara Hazlewood, secretary; Brent Blomqvist, treasurer; and Ruth McMinn, representative.

Five commissions chairmen, appointed by the new officers were also installed. They were: Eleanor Miller, program commission; Lloyd Gilmore, enlistment; Eddie Hart, publications; Bob Schmidt, fellowship; and Emma Lu Garrett, service.

A joint business meeting of the old and new officers was held Monday night to organize the commissions, transfer business from the old council to the new and make plans for the semester.

CHAPS SET TEA DANCE

Patronesses of Las Chaparritas social club will entertain members pledges and their dates with a tea dance from 5 to 8 p.m. Friday at the Hilton hotel, Lou Lawson president said.

Music will be furnished by Earl Hubbard's orchestra at the annual informal affair, Miss Lawson said.

ACCOUNTING SOCIETY PICNIC

Junior and senior accounting majors are extended an invitation to attend the annual spring picnic of Tech Accounting society April 29 at MacKenzie park, Yvonne Bear, society reporter, announced Monday.

Francis Brockman, president, appointed a picnic committee which includes Wilbert Hair, chairman; Royce Hopkins, Jan Clark, and Calvin Stewart. Elections of officers will be the highlight of the picnic, which will feature a short business meeting. Nominating committee includes Welton Dunavant, Beasy Howard and Wayne Howard.

RELIGIOUS COUNCIL PICNIC

The Student Religious council will have its spring picnic at 6 p.m. Saturday in Mackenzie park, Jane Franks, secretary of the council, said.

It is for members of college church school classes which cooperate with the council. Those who desire to play baseball at the picnic should go to the park at 5 p.m., Miss Franks said.

The program will consist of skits, sing-song, and weapon review. Chairmen for the picnic are: Willa Faris, arrangements; Marion Woods, foods, Newma Timms, entertainment; and Margy Bullen, publicity.

Weddings

SMITH-DRISKILL

Wanda Lou Smith and John Edward Driskill were married Sunday at St. Johns Methodist church.

Texie Keeton attended the bride as maid-of-honor. Bridesmaids were Misses Klitten Mills, Eva Johnson, Bonnie Holland and Dorothy Harrison. Robert Driskill, brother of the bridegroom, served as best man.

The bride is the daughter of Mr. and Mrs. W. Dow Smith of Lubbock and the bridegroom is the son of Mr. and Mrs. O. S. Driskill of Coleman.

The couple attended Tech where the bride was a member of the Las Vivarachas club and the bridegroom was a member of College Club.

BURKHALTER-BLAKE

Norma Sue Burkhalter and Gilbert H. Blake were married recently in the chapel of the First Methodist church.

Bobbie Lou Blake, sister of the bridegroom, was maid-of-honor. Dan Burkhalter, brother of the bride was best man.

The bride is a former student of Tech.

How much FUN can you cram into a record?

Hear Ray McKinley's

musical kidding in "SUNFLOWER" (an RCA Victor Release) and you'll know!

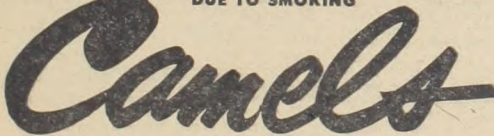

You'll have a lot of fun with Ray McKinley, his band and his vocalist serving up a platterful of "corn" for your listening and dancing pleasure. Yes! Ray knows about musical pleasure—and smoking pleasure, too! As Ray beats it out on his drums—"Camels are a great cigarette—they're mild and full-flavored!"

How MILD can a cigarette be?

Smoke Camels for 30 days—and you'll know!

In a recent coast-to-coast test of hundreds of men and women who smoked only Camels for 30 days—an average of one to two packs a day—noted throat specialists, after making weekly examinations, reported

NOT ONE SINGLE CASE OF THROAT IRRITATION DUE TO SMOKING

Money-Back Guarantee! Test Camel mildness for yourself in your own "T-Zone." T for taste, T for throat. If, at any time, you are not convinced that Camels are the mildest cigarette you've ever smoked, return the package with the unused Camels and you will receive its full purchase price, plus postage. (Signed) R. J. Reynolds Tobacco Company, Winston-Salem, North Carolina.

Drummer Ray McKinley talks it over with his featured vocalist, Jeanie Erley.

THE MILDEST CIGARETTE? WHY, CAMELS, OF COURSE! I LEARNED THE ANSWER WHEN I MADE THE 30-DAY TEST!

30 DAYS? I'VE SMOKED CAMELS FOR YEARS. I KNOW HOW MILD CAMELS ARE. AND WHAT RICH, FULL FLAVOR THEY HAVE!

Change Needed In Mode Of Choosing Editors

The decided lack of candidates for publication editorships in the coming election indicates more than ever before, the inadequacy and fallibility of the methods by which these offices are filled.

One candidate was declared eligible for the La Ventana post. No qualified person was concerned enough to make the race for editorship of the Toreador. This in itself, is a disgusting situation, but things could be worse.

The offices were left in a position to be filled by the sorriest editorial material in the history of the school. Any opportunist with the 9 required hours of journalism, regardless of his ability, might easily have slipped into the office of Toreador editor by last minute acquisition of 300 signatures and by writing a letter to the publications committee. He could be suited in journalistic talents, only for a job of digging ditches, yet he would have automatically become Toreador editor.

The present candidate for editor of La Ventana may be the most suitable editor we could possibly choose. We're not qualified to say. Let's suppose for a moment, keeping personalities out of the question, that he isn't. What can you as a student, exercising your democratic prerogatives, do about it? He is, for all practical purposes already editor.

How an officer is chosen makes very little difference it seems to us, as long as he is the best and most logical candidate for the job. When the mode of choice begins to show decided weaknesses, as far as acquiring this logical candidate, however, we believe it is time to change the method.

The condition existing this year is not rare. There are several reasons, however, why the Publications committee might be better qualified to make a logical choice even in the event of hotly contested elections. For unfortunately handshaking and ability to make friends has more weight in winning an election than does knowing how to edit a paper or yearbook. Then too, there is the possibility that the best candidate for an office will not make the race.

We might ask who would be qualified to tell who would make the best editor of The Toreador.

It is impossible that all 5,500 students could decide who might have ability and who might not. The Publications committee, however by reason of the fact that it has only 12 members could make it a point to find out. Quite easily, these members could thoroughly investigate all possibilities. Not satisfied with waiting for people to brave the storm of an election, they could actively seek out the best qualified person and urge him to take the position.

We must state that we are against taking rights from the students. But giving the publications committee this power would not take the choice away from students. For not counting the chairman, who is a faculty member and ordinarily does not vote, students outnumber faculty members 6-5.

We sincerely believe that such measures should be taken. Students this year were placed in a position where they could not protect themselves and it was only by good fortune that the choice was thrown to the publications committee.

We cannot forever run the risk to which we have been exposed. The best way to insure against it is to ask for an amendment to be voted in the coming general election.

"Youth, though it may lack knowledge, is certainly not devoid of intelligence; it sees through shams with sharp and terrible eyes"—H. L. Mencken.

"Our liberty depends on the freedom of the press, and that cannot be limited without being lost."—Thomas Jefferson.

"Good loafing is like an appetizer—like the pause for refreshment in the middle of an ardent task. It is like play in the old maxim to the effect that 'all work and no play makes jack a dull boy'."—H. Y. Benedict.

QUESTIONS RULING ON ELIGIBILITY

Letters To The Editor

March 31, 1949

Dear Editor:
Do our prerequisites for candidacy for La Ventana Editor apply justly to the two persons now aspiring to the office?

The requirements are:
90 semester hours
1 year of experience on the staff.

Roy Grimes is running with the qualifications of hours; however, he lacks the experience.

Paula Fix was disqualified because she lacked 90 hours.

Her overwhelming background of experience should waive this requirement because:

She was editor of THE WESTERNER, Lubbock High School annual which won 1st place in state competition in 1947 and placed in national competition.

Her work on the La Ventana staff this year has been highly commendable.

Paula's 3 point grade average substantiates the dependability of her work.

Still more important, she is a journalism major.

I recommend that Paula should be declared eligible.

If, however, this is impossible, some provision should be made for future instances in which two or

more unqualified persons seek this office.

Sincerely,

Rachel Dunaway

CC: Publications Committee

Student Council

(According to the student president there exists an amendment to the constitution which states that only 90 hours is a prerequisite for candidacy for La Ventana editor. Apparently this amendment has not been added to all mimeographed copies of the constitution, for it is absent from ours also.-ed.)

Dear Sir:

Concerning your March 26 article, College Communist Law Will Start Witch Hunt, I cannot agree with your viewpoint.

Any person in the State of Texas who will pledge or infer allegiance to a foreign government has, in my opinion, committed second degree treason and should be deprived of their citizenship and deported.—On the other hand, any person who will put Texas and the U.S.A. above his political beliefs should enjoy their full constitutional rights and benefits, regardless of his communist, or other, convictions.

A nation doesn't have to tolerate traitors in order to deserve the term Democracy!

Sincerely,

Albert E. Hill.

BY FRANK McNEILL

Crumbs Of Wisdom

The author of "Crumbs" is now the victim of a plot. It has been decided that the column has to be shorter. It may go even farther; there is a move on to make the column sensible.

The editor gave me the word several days ago. "McNeill," he said, "you're getting crumbs all over the paper. It's a damnable waste of good space. If you want to stick around you had better get on the ball".

Well friends, I almost lost control. But then I thought, take it easy boy, he's bigger than you. That seemed to do the trick; immediately I dropped back into my usual state of lethargic unconsciousness.

In keeping with my new frame of mind (a small frame for a small mind), I have decided to present the following story of a fellow victim of oppression who was driven onto the downward path. This story of the underworld is taken straight from the annals of the WCTU.

"Gat" Roscoe Doolan stood in the battered doorway of the one room hovel which he called home. Contemptuously, he spit or rather spat across the narrow alley on which his home fronted. A perverse breeze seized the projectile and returned it to him, somewhat

soiling the zoot suit he was forced to wear. Infuriated, he gasped, "Who's respon--uh, who done that?" Receiving no answer, he impetuously dragged out his artillery and opened fire on a nearby tax payer who happened to be looking his way. "That'll learn yuh dern yuh," he spat out in a clipped tone. Assuming a sneer which denoted the hatred he felt for the oppression wrought on him by modern urban society and the local police force, he snarled, "I think I'll go on the downward path". "Think twice before taking this rash move my son", mumbled his care worn old mother. "Aw shut yer yap yuh old bat; I've already thought about it twice. I think I'll go down town and rub out a few "coppers" or knock over a bank". "Yes my son", she replied. "I know your sentiments are full well. The deplorable conditions under which we live have forced you into a state of moral decay which causes your juvenile delinquency. I attribute the blame wholly to the depressing influence of our modern urban society and the local "bull". When yuh go down tub rub out them coppers, take yer old man's tommy gun along. It ain't safe to go out without it no more!"

EL TORO GRANDE

Where Supervision Ends And Petty Prying Begins

By ORLIN BREWER

Throughout the year we have heard complaints from various girls about the type of supervision given in the dorms and the campus in general. We have had little sympathy for these girls because we felt they were exercising their prerogative to exaggerate a little and complain a great deal.

Today, our opinion has changed. We have in mind one particular incident, which if indicative of the work done by the women's division of the administration, shows that some staffs have forgotten where an adequate job of supervision ends and being prying and useless begins.

One small letter printed in the March 30 issue of the Toreador pretty well establishes this fact. The context of that letter follows:

"Dear Editor:

Three cheers to Alschuler's! We guess this Lubbock business man knows what the majority of the Tech students want! How about taking an opinion poll of the subject?
Here's to Pot!"

This was sufficient to send a dorm supervisor to see various of the 10 girls listed as having signed the letter.

She is quoted as saying that the letter was met with disapproval by the dean of women's office and that it was a disgrace to the dormitory in which the girls lived.

Now we ask you as a student, or we ask the administration, is it the duty of any supervisory official in a dorm to reprimand a student for the contents of a letter to the Toreador. In our way of thinking, it is an attempt to stifle freedom of thought and speech, as well as action.

As an isolated incident, this letter is of little significance. If however it typifies the usual attitude of those paid to counsel (and a number of the girls apparently think it does), we believe someone should re-define their duties for them.

As to how we feel about Pot, it is dead. No more letters will be printed on the subject and we hope we are not forced to write more about it. The column in El Cuspidor was revived simply to spike persistent rumors that Pot was discontinued by administrative decree. The editor has the power to start the column again. He refuses to do so. And that ends that.

THE TOREADOR

THE TOREADOR, student newspaper of Texas Technological college, is published every Wednesday and Saturday on the Campus of Texas Technological college at Lubbock by the associated students of the college.

Entered as second class matter, October 31, 1925, at the postoffice in Lubbock, Texas, under an Act of March 3, 1879.

From Squealing Pigs To Chops Is Story Of Tech Meats Lab

By DARRELL WHITFIELD

Curious freshmen attracted by the squealing of hogs are astonished when they trace the source to a one-story building just north of the dairy barn back of the Aggie building.

Entering the building, the student is confronted with a beehive of activity that is confusing at first, but the results come quickly and unmistakably.

All in a period of minutes he sees a hog driven into the building, thrown on his back and stuck with a wicked-looking knife, hoisted and weighed, scalded in a large vat, scraped free of hair, and hung by the hind feet ready to be carved into the chunks of meat one pays so dearly for at the corner grocery store.

Another surprise comes when the student recognizes the faces of the workers as those he sees at the dances and on the campus every day. Inquiring, he learns that this is the Meat lab. No test tubes, reagents, or bunsen burners are used there; just meat, knives, and animals. This is a lab where students of agriculture learn the different cuts of farm meats by experience.

Asst. Prof. Stanley E. Anderson, instructor, graduated from Iowa State College where he worked in a similar lab. He has been with Texas Tech since September and handles our meats lab with top efficiency.

Slaughtering, cutting, and in case of pork, curing, is done in this small-scale packing house which consists of: a killing room with 780 square feet of floor space; a cutting room with 710 square feet of floor space; one large and one small cooler with floor spaces of 300 and 80 square feet, respectively. The larger cooler is for cooling meat to be cut, and the smaller for curing meat.

Butchering is done for individuals as well as for the college. Anderson says, There is no charge to the individual except that he must furnish his own curing material. Some college meat is butchered and sold by the carcass.

Anything is butchered that is brought in. If a farmer brings in a steer or a lamb the class will kill it and cut it up for him. In the case of hogs they will cure the

meat, also. The lab meets four times a week from 2 to 5 p.m. and tries to kill either four hogs, four lambs, or two hives in one meeting.

Asked if the meats lab could furnish the dorms, Anderson replied that it could not unless a larger lab with better equipment were built. The present lab has no steam, use of which could make slaughtering much easier and more extensive. The lab also needs a smokehouse.

Besides teaching the different cuts of meat, Anderson also teaches meat judging. Last year at the Fort Worth Exposition and Fat Stock show, the Tech team was second highest. The team was first in judging beef with a high individual in grading and classifying of beef carcasses.

The meats lab was built in 1936. For several years before that Dr. F. G. Harbaugh, professor of animal husbandry and veterinarian, taught the lab without a building.

Last year, additional floor space was added for the cutting room, one cooler and a dressing room for students.

STUDENTS PLAN FIELD TRIP

Approximately 25 mineralogy students, under the direction of P. Eldon Dennis, lecturer in geology, will make a field trip to Palo Duro canyon this week-end.

The students will leave Saturday morning at 8 a.m. and spend the entire day studying geology and mineralogy of that area. Mayor Holbrook of Plainview will act as guide for the trip. The group will return to Tech Saturday night.

DOUBLE T TO MEET

A called meeting of the Double T association has been announced for 7:30 p.m. tonight in College Inn by Marshall Gettys, club president. The association will approve candidates for cheer leader and make plans for a picnic, he said.

Ed Clepper Paces Raider Trackmen At Texas Relays

Ed Clepper, Tech's top point man last year, placed second in the high jump to lead the Raiders' efforts in the famed Texas Relays at Memorial stadium in Austin Saturday.

The quarter-mile relay team came in a weak fourth behind Oklahoma, Nebraska and Texas A&M, and the mile relay quartet placed fifth.

Charley Reynolds, Moon Mullins, Seth Murphy and Clepper composed the fourth-place quarter-mile relay team, and Reynolds, Murphy, Costin Bufkin and Ben Wilson ran the mile relay.

Tech, finishing eighth in the unofficial point tally, still finished ahead of SMU, TCU, Baylor, Drake, LSU, Tulane, Arizona, and Arkansas. The meet was dominated by the Midwestern schools.

Clepper's efforts in the high jump were 6 feet, 3 3/8 inches, the best on behalf of the Raiders during the meet. Charley Pinnell, also in the high jump, cleared the bar at over 6 feet, but could not stay with the other jumpers. Clepper ended in a tie with Bob Walters of Texas and Jack Heintzman of Bradley, the defending champion. Clepper barely missed 6'-4", his best when he had cleared that height.

In the mile relay, an unusual incident occurred during the first lap. Don Mitchell of Texas A&M, running close to Costin Bufkin, got impatient to pass so he pushed Bufkin in the back. The crowd roared as Bufkin shot ahead by four yards as the result of the shove.

Mineralogy Is More Profitable As Hobby, Tech Lecturer Says

By BENNIE BABE
Torreador Staff Writer

"Mineralogy is much more profitable as a hobby than as a profession," says P. Eldon Dennis, geology lecturer and collector of precious and semi-precious gems.

Since leaving Utah, where he was a charter member of the Utah Mineralogy society, four years ago, Dennis has not enlarged his collection. Before that time he spent seven years building up his present assemblage. Dennis said

that it is just a hobby with him and that he gives many of his gems away for gifts.

The prize gem of the collection is a variety of Spodumene weighing 20 carats. Dennis has had this flawless stone made into a lavaliere for his wife. Another choice stone is a small uncut diamond. To give contrast, for every polished stone there is an uncut and unpolished stone of the same variety.

Included in the collection of gems are several gem beryls; an emerald, an aquamarine, golden beryl and a martinite; a ruby; a sapphire; several opals; a large variety of kunzite; Brazilian and Utah topaz; numerous quartz gems; and an Utah variscite which is the outstanding opaque gem of the collection.

Dennis is considering beginning a mineralogy hobby club. The club will do lapidary work and study different collections. Many of his mineralogy students have shown an interest in his assemblage of gems and he said he believes they would be interested in beginning collections of their own.

The public will have an opportunity to see these gems at the coming Engineering show. The display will be placed on a rotating table under lighting needed to bring out the highlights of Dennis' collection.

Theta Sigs Set Initiation For 10 Pledges Thursday

A group of 10 pledges will be initiated into Theta Sigma Phi, national honorary journalism fraternity, Thursday evening.

Services will be held at 7:30 p.m. at 210 21st street, Mrs. Louise Allen, sponsor, said. Fall pledges to be initiated are Julia Short, Mary Faye Bonds, Daina McIlroy, Glenna Winston and Jane Skinner. Spring pledges to be initiated are Bobby Stone, Mac Strong, Jeanne Dudley and Charlotte Blackburn.

The agenda for this meeting includes election and installation of officers, Mrs. Allen stated. A delegate will also be elected to represent Tech at the National Theta Sigma Phi convention to be held in Dallas in July.

Keys Win MICC Cage Title; Sneed Third Defeats Rebels

By HILERY MATHER
Toreador Staff Writer

Silver Keys took the MICC intramural basketball crown after edging past Kemas, 32 to 29, Thursday.

It was a perfect season for the Keys. They were undefeated and untied.

Joe Wheatly, top scorer for the Keys, made 12 points, and Monte Roy was high point man for Kemas with 12 points. Wheatly was high scorer for the entire league, making a total of 75 points in six games. He also scored 25 out of 32 free throws, an average of 78 per cent. Roy was top Kemas scorer of the year with 55 points in six games.

Wranglers, 1948 league champ-

ions, won second place in the league by defeating Socii, 31 to 26. Carter Page scored nine points for Wrangler and T. Balliff netted seven markers for Socii.

Los Camaradas dropped Centaurs, 18 to 16. Smith made 10 points for Los Camas, and Bucy scored six markers for Centaurs. Centaurs failed to win a game this season.

KEEP OFF!

Signs have been put up on the hard surfaced tennis and basketball courts for a purpose.

Some students and more downtown people have been guilty of wearing hard soled shoes on this "hot-topped" area. This tends toward destruction of YOUR recreation facilities.

These courts were constructed for students at a great expense to the school, and proper attention and care must be given them if they are to stay in good condition for any length of time. Since it is impossible to hire someone to patrol this space to maintain and enforce rules, the athletic department is making an appeal to students to take pride and interest in the area provided for their pleasure and convenience.

If this space is properly cared for, there is a possibility that more courts may be constructed on the campus — maybe around the girls' dorms.

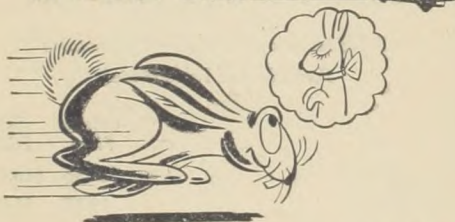

Press Bulls Lead

After the first night's rolling in the City Association Bowling tourney, the Press Bulls lead with 2,780 pins. Three teams from the college league entered the tournament which will be comprised of teams from every league in the city.

Along with the Bulls, were the Termites and the Shamrock Rollers. The Rollers were second with 2,670 pins and the Termites rolled a total of 2,665.

High individual for the night was Jerry Henderson with 615. Hershey of the Termites was in second place for the evening.

Preview Of Raider Grid Talent Scheduled For 8 P.M. Saturday

By BILLIE CREAUGH
Toreador Staff Writer

The Double T Sports Parade, with emphasis placed on an intrasquad football game between the Ranchers, coached by Glenn Lewis, and the Farmers, coached by Bill Kelley, will be held at 8 p.m. Saturday at Jones stadium. The grid tilt will mark the conclusion of spring training for the Raiders.

The Saddle Tramps, Tech pep organization, have been divided into teams to promote ticket sales. Ernest Sears, president, is in charge of tickets for the Farmers. Tommy Scott, vice president, is pushing tickets for the Ranchers. Arch Lamb and George Langford are promoting downtown ticket sales. Tickets, at 60 cents for students and \$1 for adults, are available at the stadium, in the lobby of the Hilton hotel or from any Saddle Tramp.

The event has a three-fold purpose. It is hoped by the athletic

council that this will be an annual event which will prove profitable. The primary purpose is to aid the Athletic council in its effort to raise money for an athletic dormitory that will house all of Tech's athletes. The present athletic quarters are much too small to house all of the boys, not to mention visiting schoolboy athletic prospects.

Secondly, it is hoped that a spring football game will foster and increase football spirit among students on the campus. The third purpose is to have a dress parade of the fall football talent. This will give the students an idea of how their team will look in action, as well as giving the local residents an opportunity to look over the kind of team that Tech will field against its foes in the fall.

Coaches Dell Morgan, G. B. Morris, and Tipp Mooney have divided the spring training squad into two teams, and the game Saturday night will be played between

these squads. All yell leader candidates will perform, which will give the students an opportunity to see which candidates do the best jobs on the gridiron. This will enable students to vote on performance rather than name alone.

Tech's pep organization, the Saddle Tramps, will be divided into two equal sides for the purpose of giving each team support and for competitive ticket selling for the Saturday night performance.

To aid the two different sections of the Saddle Tramps in their cheering efforts will be the Tech Band, which will also be divided into two parts. The band will perform at halftime with music and stunts. The Physical Education classes will also provide some half-time attractions.

A returned check calls for a penalty of fifty cents, which will be charged against the student's breakage deposit.

U.S. ARMY

Part of the Team for Security

This April Sixth, the men and women of your new career Army will parade in celebration of their service's anniversary day.

They march as part of our powerful peace team, the Armed Forces of the Nation.

Large Attendance Seen For Relays Here April 15-16

Invitations to the second annual South Plains Relays to be held at Jones stadium April 15-16, have been sent to approximately 150 schools in Texas and the eastern part of New Mexico. Athletic Director Morley Jennings announced yesterday.

Saturday was the deadline for entries in the relays, and programs are being printed to be sent to schools participating in the two-day meet. Last year's relays were held for only one day, but due to the great increase in the number of schools to send track and field teams to enter the meet this year, the relays have been scheduled for two days.

Last year 35 schools participated in the relays, as compared with this year's possible 150.

Preliminaries will be held at 2 p.m. Friday, April 15. Finals will be held the next afternoon at 2 p.m.

First, second and third place winners in all events will be presented gold, silver, and bronze miniature track shoes, and first, second and third place high point men will receive individual trophies. The schools placing in the meet will receive trophies.

Odesa won first place in the meet last year; Lubbock won second; and Abilene placed third. Individual high point man was Byron Townsend of Odesa with 13 1/2 of his team's 30 points.

Object of the South Plains Relays is to foster competition in track and field events among public schools of Texas and eastern New Mexico. Rules of the Texas Interscholastic league will apply to all contestants and teams. Out of state teams must comply with rules in their respective states.

Texas Tech is sponsoring this year's meet in cooperation with Lubbock Public Schools, Lubbock Chamber of Commerce and the City Recreation Department.

Modern Dancers To Appear April 25

The Texas State College for Women modern dance group, directed by Dr. Anne Schley Dugan, will appear at 8:15 p.m. April 25, at the Lubbock Senior High school auditorium, announced Miss Sue Rainey, assistant professor of women's physical education yesterday. The dance group will be sponsored by the women's physical education department.

Student admission will be 60 cents, adult \$1.20. Ticket sales will begin April 19 and continue to April 23, at Lattimore's Gift shop and in the Administration building.

The college will not accept a check from a student who has once been suspended for giving a worthless check.

Bill Henderson To Test Tough Opponent In Friday Night Bout

By OTICE GREEN
Toreador Staff Writer

Bill Henderson, Tech student from Levelland, will fight one of his stiffest bouts of the season Friday night at 8 p.m. in Sled Allen's arena, when he meets Paul Guerrero from Juarez, Mexico.

Guerrera has seen Henderson in action in El Paso, which gives him a certain advantage. Henderson will have to do all his "feeling out" of Guerrero on the night of the bout. Guerrero respects the Tech student, but he also feels that he can beat him.

Guerrera is only 26 years old and has had 32 fights, more than twice the number that Henderson has had. He has appeared in Old Mexico, El Paso, the West Coast and other centers. He has fought main events and has never been knocked out.

Henderson has been fighting professionally only a little more than a year, but during this short time he has an impressive record of 14 victories in 15 fights. He has had only two 10-round fights, winning his first by a TKO in the 10th round, and losing his second by a knockout to the former French lightweight champion, Jean Mougain.

Henderson has recently had more time to do roadwork and is in better condition than when he fought Mougain. But Guerrero also has a fine record and is reputed to be a slugger.

Henderson remarked of Guerrero's record, "Well, they say he's never been knocked out but that doesn't mean much anymore, because I know a guy that was never

knocked out either until he met a certain Frenchman".

Three local boys will also appear on the card Friday with Henderson. Charley Neff of Petersburg takes on Conrado Castunou of Juarez, a 22-year-old fighter who has had only eight fights. But he has shown great promise, and Neff will be expected to beat him. It promises to be a battle royal and is slated to go six rounds.

Two Lubbock boys will fight in the preliminary spots. Gene James, who twice won Lubbock regional Golden Gloves titles but could not win at Fort Worth, meets Jack Wortham of Amarillo. This will be James' professional debut as a light heavy-weight fighter.

Wortham is strictly a fighter, not a boxer, and is a rough test for James. The Amarillo boy has been fighting main events and has made a good showing. James will have a slight weight advantage and a little reach on his opponent. Bill Pollard, a local boy who has never shown here as a pro, returns to take on Frankie Guzman of Juarez in a welterweight fight that should bring down the house. Pollard has been getting better with each fight and Guzman is already established.

The semi-final bout features Dickie Weinhold of Amarillo and Jesse Robles of Juarez in a mid-dewweight match. Weinhold is a main event fighter who has appeared in St. Nick's arena in New York, the Parkway and other club fight centers. He is a great prospect at 19 years old.

Robles is only 21 years old himself and has won 21 of his 23 bouts, two of them draws.

Home Ec Prof To Attend AAUW Meeting In El Paso

Mrs. Vivian J. Adams, professor and head of home economics education, will leave tomorrow to attend the national meeting of the American Association of University Women in El Paso Friday and Saturday.

Mrs. Adams is the program chairman for the meeting at which opportunities university women may achieve will be discussed.

Dr. Pearl O. Ponsford from Texas School of Mines, is president of the Texas branch of A.A.U.W.

Tech C Of C Plans \$1,000 Ball Diamond

The Tech Chamber of Commerce has made plans to build a softball diamond, announced Bill Jackson, vice president of the organization. The field, costing approximately \$1,000, will be lighted for night play and will be grassed infield and outfield.

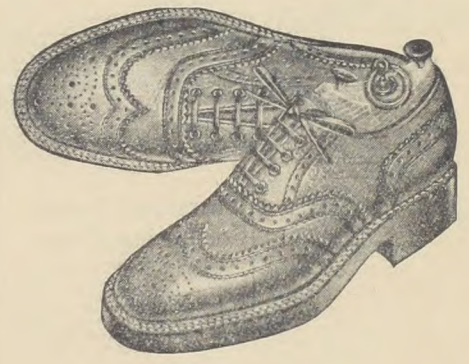

The diamond will be available for use to all social clubs and campus organizations. Jackson said. It is to be completed by next fall, at which time it will be turned over to the college for upkeep.

The new field will give the advantage of having more games by being equipped with lights than otherwise, and will also be an added feature to the summer recreation program, stated Jackson.

Work will begin on the diamond as soon as a landscape architect selects a spot for it.

Parade, Open House Highlight Army Day Tomorrow

Texas Tech's military science department will reach the peak of its annual events tomorrow when it participates in the twelfth official celebration of Army Day. Lt. Col. L. C. Adams, professor of military science and tactics, has announced.

Cadet personnel, numbering 520 students, will march in a colorful parade through the Lubbock downtown section beginning at 3 p. m. tomorrow and will end with a "Retreat" parade on the grass plot east of the flagpole, at which time an award of the Certificates of Proficiency from the Department of the Army to Texas Technological college will be presented to Frank Junell, assistant to the president, who will accept the cer-

tificate for President D. M. Wiggins.

In addition to parade procedures, Lieutenant Colonel Adams said the military science training facilities, representing an army investment of \$160,000 in buildings and technical equipment, will be open to the public all day both today and tomorrow.

Many pieces of equipment, including the latest in Army field weapons and such Air Force equipment as the Norden bombsight and gyro-stabilizers will be available for public inspection.

Visitors will be shown through classrooms, the two basement rifle ranges, and storerooms which supply the cadet student with complete uniforms valued at \$105 each.

"We are proud of our unit and are happy to be able to give the public this chance to observe the work we are doing", Lieutenant Colonel Adams said.

Academic credit is given for military science training without cost

to the student, and after four years a reserve commission or second lieutenant is given. Advanced students during the third and fourth years receive subsistence payments amounting to approximately \$600 for the last two years of their

basic cadet training.

Commissions will be given this year to seventy-two students, both of Reserve Army and Reserve Air Force status. Five students are being considered for direct regular commissions.

Exhibits To Show Importance Of Chemistry To West Texas

Pharaoh's serpents, magic mothballs and the "Tracherous Towel" are just some of the live wire exhibits to be shown in the Chemical Engineering exhibits in the 17th annual Engineers' show to be held April 22-23 on the campus.

The theme of the Chemical engineering exhibits this year will be the importance of chemistry and its relation to the mode of living in West Texas.

Analysis of feeds, soils, and fertilizers as well as demonstration of methods used for the utilization of agricultural products as raw materials in the chemistry industry will be featured.

Among these exhibits will be a complete model plant which shows

the extraction of oil from cotton seed and the uses that may be made of this oil.

Of interest to the housewife, farmers and others with insect problems, will be the preparation of DDT, the miracle insecticide which has been so widely marketed since the end of the war.

The pure chemistry part of the Engineers' show has been organized into four main divisions. The analytical division under the chairmanship of Fred Brokesoulder, will demonstrate methods used in modern analytical chemistry. Crystal growth and application of indicators to modern chemistry will be presented in the inorganic division under the chairmanship of Bobby Slagle.

Preparation of well known foods, medicines, and insecticides will highlight the organic division activities with Giles Carter as chairman.

Those Serpents Magic Mothballs and the Tracherous Towel will all be applied in the "Chemical Magic Show". This division of the show will demonstrate some of the interesting oddities which have arisen in the science of chemistry. Basically the exhibits have been designed to show the serious side of chemistry, but the "Magic Show" will bring out much of the unbelievable that is associated with chemical science.

Keys To Pantex Given To Wiggins

With no definite transfer of property involved, keys to the Pantex Ordnance plant near Amarillo have been presented to Pves, D. M. Wiggins.

The keys were handed to Doctor Wiggins Thursday by Duncan Meyer, a War Assets administration official from Dallas.

The presentation precedes by ten days the Monday meeting of the college Board of Directors in Austin. The directors will give consideration and possible approval to the terms of the WAA contract which will transfer the 16,900-acre plant to Tech.

On March 8, the WAA gave its final approval of the contract, thus making available to the college property which cost the government more than \$24,000,000 to build and which has a fair market value of \$8,500,000.

Sears, Scott, Kiker Named Officers Of Saddle Tramps

New officers were elected for the Saddle Tramps organization at a recent meeting. Those elected were Ernest Sears, president, Tommy Scott, vice-president, Louis Kiker, secretary, Cobb Miller, treasurer, and Cecil Mardis, sergeant-at-arms.

Pledge captains are Holmes McLeish, Buddy Ward and Spencer Street. The new president has announced that all men interested in pledging Saddle Tramps must submit their application this semester. Applicants must have a 40 average and 31 hours credit by next fall.

WHO IS WILBUR?

"Wilbur" will be guest of the Couples club dance Friday in Men's Dorm IV, and will be introduced to his admirers, Earl Mizell, dorm counselor, said.

Couple club dances, limited to 20 couples, are scheduled from 8:30 to 11:30 p. m. each Friday in the lounge of the dorm. The identity of Wilbur will not be revealed until the night of the dance, Mizell, said.

Interviews Slated For Spring Grads

Graduating seniors interested in positions with Vought Aircraft, B. F. Goodrich company, Y.M.C.A. or Arthur Anderson & company, will be interviewed on the campus today through April 13, Mrs. Jean A. Jenkins, executive secretary of the Placement office, said Monday.

Harlan T. Dowell, engineering personnel representative of Chance Vought Aircraft, will interview June graduates with mechanical engineering majors on Monday and Tuesday.

Graduating seniors in the business administration division will be interviewed April 13 by H. D. Chandler, store supervisor for The B. F. Goodrich company. Seniors interested in the field of merchandising will also be interviewed. A general meeting will be held at 5 p. m. Tuesday in Ad-210. Students may check with the Placement office for individual interviews and pamphlets concerning the positions.

Clyde R. Seely with the Southwest Area Council of Y.M.C.A. will meet senior men and women in a general meeting at 5 p. m. Tuesday in Ad-206 who are interested in administrative positions and group work with boys and girls. General information will be available for students who plan to go into this field of work later.

Charles Watson, representative from Arthur Anderson & company is on the campus today interviewing June graduates who are accounting majors. Students interested in positions with this public accounting firm may check the Placement office for the time of the interviews.

ATTENTION: PIPE SMOKERS
Unusual Values From Our Man's Shop
IMPORTED
BRIAR PIPES
by "Danco"

Made to Sell for 1.50-6.50!

45 Styles to Choose From

\$1

Individually Boxed

Each

Pipes made by the world famous "Danco" . . . every one turned from the finest imported briar blocks obtainable, and designed for cool smoking. Choose from virgin grain, walnut, plum, mahogany and rustic finish pipes . . . all fitted with metal filters and hard rubber bits. Don't miss this unusual opportunity!

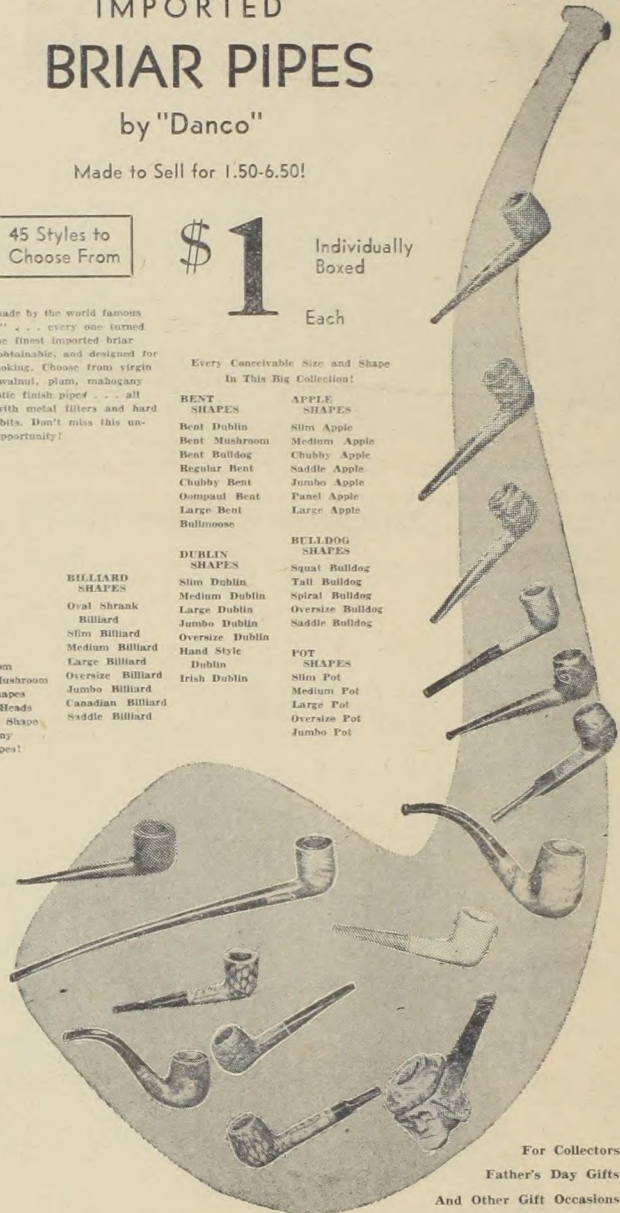

Every Conceivable Size and Shape In This Big Collection!
