

THEY'RE ALL QUEENS— Here are five of the six candidates for the title of Tech's Rodeo Queen. Voting is based on a penny-a-vote principal with voting boxes set up in the Tech Union. Shown

above, left to right are: Barbara Quintanilla, Linda Osborne, Leta Merle Roberts, Dale Simmons and Almeida Ratliff. The sixth queen, not shown is Genevieve Poage. (Staff Photo)

BEGINS MAY 7

NIRA Rodeo Set Here

Tech Rodeo Association will sponsor the NIRA Rodeo beginning Thursday, May 7, and running through Saturday, May 9, at the Coliseum.

NIRA is the National Intercollegiate Rodeo Association which is divided into several regions throughout the United States. Tech is a member of the Southwest region which includes colleges in Texas and New Mexico.

EIGHT SCHOOLS in the surrounding area will send six-man teams to compete against Tech's team for money and other valuable prizes. "The prizes will include belt buckles, trophies, shirts and hats," said Lum Turk, manager of the rodeo.

Each school in the region holds a rodeo and teams from the other schools compete. At the conclusion of the spring semester the contest is over and one of the

teams will be selected to represent the Southwest region at the national contest to be held in Idaho sometime this summer.

SCHOOLS INCLUDED in the Southwest region are Tech, Hardin-Simmons, Abilene Christian College, New Mexico A&M, West Texas State, Lubbock Christian College, San Angelo Jr. College, Sul Ross State, and South Plains Jr. College.

Entry fees will be charged for each event and proceeds will make up cash prizes for winners in various events.

OTHER EVENTS will include a wild mare race for three-man teams entered by fraternities and a goat sacking race in which any sorority many enter a two-girl team.

Admission of \$1 will be charged any Tech student, \$1.50 for adults, and \$.75 for children.

Any proceeds not needed to cover the \$5,000 cost of the rodeo will be used to buy jackets for the rodeo team.

Applied Arts Is Mexico Bound

Ancient cities, world famous beaches and art centers are sights those taking the applied arts field trip credit course will see in Mexico this summer.

THIS TWO hour course will be conducted by Mrs. Meda Johnston, assistant professor of applied arts during the first term of summer school.

The trip begins at Nuevo Laredo, stopping first at San Miguel de Allende, Guanajuato. From here the group goes South by bus through mountains and ranch country to Mexico City. There the group will visit Chapultepec Park, Palace of Fine Arts and the Museum of Anthropology.

THE GUADALUPE Shrine and the Pyramids, both monuments to religious ideologies will be seen before going further southward to Oaxaca, to the Mexican State Museum.

The group returns to Mexico City on June 29 where the students will have another opportunity to see and do things left over from the first visit.

RESERVATIONS, including \$25 deposit, should be made by May 15 through Arne Randall, applied arts department head.

Tourist cards are required for entry into Mexico and a proof of citizenship, either a birth certificate or affidavit, should be included with the reservation. Small pox vaccination certificates, a requirement for re-entry into the U. S., must be filed with Mrs. Johnston no later than May 25.

Toreador Needs Summer Editor

Applications for summer Toreador editor and business manager are now being taken in Room 101 of the Journalism Building.

The Toreador is published once a week during the summer. The editor is in charge of the editorial side of the Toreador and the business manager is in charge of all national, local and classified advertising accepted for publication.

Pair Named To Address '59 Graduates

Dr. William M. Elliott, Jr. and Fred F. Florence are featured speakers for Tech's 33rd annual Spring Commencement.

Dr. Elliott, minister of Highland Park Presbyterian Church of Dallas, will deliver the baccalaureate

sermon at 8 p.m. Sunday, May 31, in Jones Stadium.

A FORMER moderator of the Presbyterian United States General Assembly, Elliott has made two trips to the Far East for its World Missions Board, surveying missions in Japan, China, Korea and Taiwan.

Before becoming pastor of the largest Presbyterian Church in the United States (4,900 members) Dr. Elliott served congregations in Druid Hills, Atlanta, and Fifth Avenue Presbyterian Church, Knoxville, Tennessee.

HE HAS BEEN active in education, teaching at the Presbyterian Seminary at Louisville and speaking at colleges and universities.

Dr. Elliott received his Ph.D. from the University of Edinburgh, Scotland. He holds a B.D. degree from the Louisville Seminary and a B.A. from Park College, Parkville, Mo. Dr. Elliott is the author of four books.

FLORENCE, a Dallas banker, will deliver the commencement address June 1. Florence will speak to more than 700 students from Tech's six schools who are candidates for degrees at the ceremonies which will include the conferring of an honorary doctorate on the main speaker.

He began his banking career more than 50 years ago at the

Quiet Ones Start New Publication

"An anonymous group of campus leaders" recently proclaimed the establishment of a new campus publication — "The Church Key."

ANNOUNCEMENT of the new non-profit, "high-quality" publication was made in an anonymous contribution-soliciting letter sent to many campus leaders.

"The Church Key," which is designed to provide "an improved means of communicating the facts and truths" will begin circulation this fall.

STAFF OF "The Church Key" will consist of "dedicated and successful past and present campus leaders" who wish to remain unknown — not to hide from criticism — but to create an "atmosphere of freedom." They also ask that contributors remain anonymous.

Working in this "atmosphere of freedom," the new publication hopes to avoid non-student pressures which tend to distort or completely avoid the truth.

"THE CHURCH KEY" will discuss such subjects as campus politics, academic freedom, administration policy, college dating problems, campus religions, fraternity and sorority influence, and other local, national, or world problems.

The "high-quality" paper will also be a non-profit publication. Its only support, according to the anonymous letter, is "you — the student."

DONORS OF \$5 or more will receive "The Church Key" free for one year.

Money, ideas, and articles may be sent to "The Church Key" Publishers, Box 4709, Tech Station.

This box is reportedly registered in the name of Thomas Jhrome.

ROTC Attends Buccaneer Day

The Tech Army ROTC drill team, the Sam Houston Rifles, leaves for Corpus Christi tomorrow to participate in the city's annual Buccaneer Days celebration.

THE TEAM WILL march in the Buccaneer Days parade and will participate Saturday in drill competition, representing West Texas colleges. The 20-member team will be guests of the Corpus Christi Chamber of Commerce.

Accompanying the Sam Houston Rifles will be the unit sweethearts, Karen Williams, freshman of Dallas, and Peggy O'Neal of Houston. Also making the trip are faculty sponsors Captain Lyons and Sergeant Carter.

The unit returns Sunday.

Fred F. Florence

First National Bank at Rusk, where he became assistant cashier.

SINCE January, 1957, he has been chairman of the executive committee and chief executive officer of Republic National Bank.

He is a past president of the American and Texas Bankers Assn. In 1956, Florence was chairman of the banking committee in President Eisenhower's "People to People" program to promote international understanding.

HE IS A DIRECTOR of the National Merit Scholarship Corp., member of SMU executive committee, trustee and holder of other executive positions for the Texas Research Foundation.

Claiming his attention also are activities as treasurer and trustee of Southwestern Medical Foundation and chairman and trustee of the St. Paul Hospital of Dallas.

He is director and treasurer of the State Fair of Texas and Texas Mid-Continent Oil and Gas Assn.

FLORENCE served in 1911 on the American Exchange Bank in Dallas. He became vice-president of the Alto State Bank in 1912 and was named president there in 1915.

In 1920 he became first vice-president and director of Guaranty Bank and Trust Co. of Dallas, forerunner of Republic National Bank.

Symposium Bill Sets Tech Friday Night

Texas Tech's music department presents "Styles in Brass, Strings and Madrigals" Friday night at 8:15 in the Music Building Auditorium, as part of the 8th annual Texas Symposium of Contemporary Music.

FIRST NUMBER is a brass suite for seven instruments, Opus 24, followed by Intermezzo from "Music for Brass Instruments" featuring Dalvin Boon and Martin Jones, trumpet; Ronald Lemon and E. J. Matsler, French horn; James Metzger and Robert Deahl, trombone; and James Sudduth, tuba.

Tech String Orchestra, conducted by Paul R. Ellsworth and featuring Dalvin Boone, with a trumpet solo do "The Hollow Men." The orchestra then does "Tafelmusik" featuring Kathleen LaMar, flute and Lowell Cross, clarinet.

"JAMAICAN Rhumba" features the string orchestra and percussion conducted by Paul Ellsworth. "Six Chansons," is a melody on original French poems by Ranier Maria Rilke.

"Jenny Kissed Me" features the Tech Madrigal Singers under the direction of eGne Kenney.

THE SINGERS are composed of sopranos: Marilyn Campbell, Linda Hart and Mary Parks; altos: Deniese Magness, Dorothy Pijan and Yvonne Skinner; tenors: Von Prah and Douglas Pummill; basses: Troy Felber and John Gilbert.

Coed Picked Aggie of Year

Perry Thompson, a city girl majoring in animal husbandry, has been picked as Tech's Aggie of the Year.

THE 20-year-old Dallas miss is the first female to win the coveted award in Tech's 34-year history. Last year she was picked Tech's Rodeo Queen.

Miss Thompson was picked for the Aggie honor from over 730 Aggie students by the Aggie Club. Only nine of these are women.

DR. ROBERT H. Black, dean and director of agriculture at New Mexico State University, spoke at the banquet at which Thompson received her reward.

Thompson is the daughter of Mr. and Mrs. E. I. Thompson, 4444 Fairway, Dallas.

OFFICERS PICKED

Staffs, Clubs Meet

An emergency meeting for all La Ventana staff members has been called at 5 p.m. tomorrow in the reading room of the Journalism Bldg. Anyone not able to attend please contact the editor or front office, asks Jerry Martin, co-editor.

★ ★ ★
BETA ALPHA PSI

Beta Alpha Psi, accounting fraternity, elected new officers for

the fall semester at their regular meeting Tuesday.

They are: Buddy McCree, president; Jim Spencer, vice president; Tom Anthis, secretary; and Melvin Kowhler, treasurer.

★ ★ ★
PI BETA PHI

Pi Beta Phi celebrated their 92nd anniversary with a Founder's Day Banquet at the Lubbock Hotel Tuesday evening. This is the chapter's sixth year on the Tech

campus.

The Amy Burnum Onken award for the outstanding senior went to Pat Rainer. Barbara McDougal received the Chapter Service Award. Scholarship award went to Peggy Malinak; Martha Kaiser was named Golden Arrow Girl for the month of May; and Anne McElhenny received the scholarship improvement award.

South Plains Women Take Secretarial Exam

Texas Tech will be host Friday and Saturday, to South Plains business women taking a Certified Professional Secretary exam.

The two-day battery of tests will be administered by Charlotte Ewing of Tech's secretarial administration faculty. Sponsoring the exam is the Caprock chapter of the National Secretaries Assn.

The Chapter will honor test participants with a 12:30 p.m. luncheon Friday in the Union building.

Those who pass the exam will have a rating similar to that of other certified professional persons.

Tech is one of nine Texas centers for the exam this year. Eighty-two other U.S. centers are

offering the tests, which cover business administration and law; secretarial accounting, skills and procedures; and personal adjustment and human relations.

There currently are 1,446 CPS's, according to Caprock chapter officials. The first exam was given in 1951 to 287 applicants. Last year, more than 1,600 applicants went through the tests in 62 centers.

Purpose of the exam is to certify high professional standards for secretaries. Fifteen persons have applied for the exam at Tech.

SAE's Present Basin Street

Dixieland Jazz from the Cell Block Seven will make feet beat at the Sigma Alpha Epsilon annual Basin Street dance from 7:30 to 11:30 p.m. Friday at the National Guard Armory.

THE OPEN HOUSE will be held in a New Orleans setting; the band will be in prison dress and dancers in costumes reminiscent of the "birth of the blues" era.

Cell Block Seven is a sextet of former SMU students whose clowning and danceable jazz have made them famous. Their forte is "spontaneous" music, for they have rehearsed only three times since they were organized, and also spontaneous, zany stunts.

ONCE WHILE going through "When the Saints Go Marching In" they played for 27 minutes, marching between the aisles and out into the street.

Their trademark is black and white striped pajamas and derby hats.

'Love Is A Wild Assault'

A NOVEL

by Elithe Hamilton Kirkland
Published by Doubleday & Co.

by MELINDA HUSBANDS

The Caddo Indians called her the "Kishi-woman" or kindred to Ida, the Earth Mother. Some people said she was the bravest and most beautiful woman in the Republic of Texas. There were still others who branded her as a common adulteress.

Harriet Potter, a legendary and almost forgotten figure from the early days of Texas history, has been brought to life again in "Love Is A Wild Assault."

The incredible story of Harriet Potter was brought to the attention of the author by several members of the Texas State Historical Association in 1953, who felt that a fascinating novel could be molded from the vast amounts of stories, legends and documents which they had on hand.

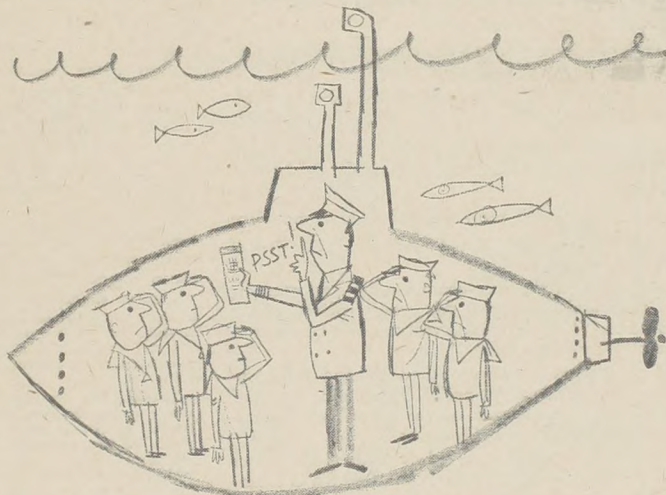

After doing extensive research in the archives and libraries of the University of Texas, the clerk's office of the Texas Supreme Court and various county courts, the author set about the job of creating an interesting and realistic story about the "Kishi-woman."

The book covers a period of time from when Harriet comes as a young wife and mother to the vast, untamed territory of Texas during its fight for independence from Mexico until the early 1900's in the cosmopolitan city of New Orleans.

The story is told in the form of a journal which Mrs. Potter compiles for her young granddaughter to be read after her death. Mrs. Potter begins her story with her marriage to the young gambler, Solomon Page, and the hardships she faced after he deserted his family to go to war for Texas; continues with an account of her life with her second husband, Senator Robert Potter, and ends with the death of her young daughter. Mention is made of Charles Ames whom she later married. The last two chapters are set ten years later when 18-year-old Trickey falls in love and discovers her grandmother's journal.

While Mrs. Kirkland has done an excellent job of combining fact with fiction into a readable novel, her style of writing leaves something to be desired in that parts of the book, particularly the first chapter, are as rough and jerky as a ride on an old-time train.

After the book gets "a full head of steam" it becomes fairly smooth. It would be even more so if it were not over-loaded with "poetic" descriptions and "deep" philosophy on life. For the most part, the book accomplishes its purpose, which is to entertain the reader and nothing more.

golfers honor tech with championship

TECH HISTORY WAS MADE Monday, as the Red Raider golf team, composed of John Paul Cain, John Farquhar, Don Kaplan and Chris Blocker, defeated Baylor 4 1/2-11 1/2 to clinch Tech's first South-west Conference championship.

Cain deserves praise for sinking, under pressure, the three-foot putt on the final hole to hold Baylor to 1 1/2 points — the largest number of points Tech could lose in the match and still clinch the title.

The feat of winning Tech's first SWC championship ranks second only to Tech's winning a membership in the SWC, and represents two years of hope and work by Tech.

After an unimpressive fifth-place finish last year — when they were picked as championship contenders — the golf team was viewed with skepticism this year by the experts. However, this year the group jelled, and Tech's fine record shows that the 3-3 match against TCU is the Raiders' poorest showing of the season in conference play.

Three golfers — Cain, Farquhar and Kaplan — competed for Tech in regular season play for the last time Monday. Incidentally, these three played on two border conference championship teams as well as this year's SWC championship team.

Tech has come close to SWC championships in other sports, but didn't quite make it.

In basketball, Tech had third place finishes both this year and last year. This year an inability to win on the road kept Tech from finishing higher in the standings, and last year a late-season slump hurt the Raider basketballers.

Last year's tennis team finished in a second place tie, but bad luck has caused Tech to lose key personnel this year.

But after all the near-championship performances of Tech athletic teams, this year's golfers finally proved that Tech athletics is well developed enough to win a SWC championship.

They jumped to an early season lead and held on to it for the title, preventing TCU's winning its third conference championship of the year. They had already won in football and basketball.

The Raider golf team certainly honored themselves and Tech by bringing home Tech's first SWC championship. We sincerely hope that the golf team, and other Tech athletic teams, will continue this practice.

A Little Bit

James Hamm

In order to insure against making too big a mistake in reasoning, a person should make allowances in his basic theories to meet the necessity of adapting them.

Many persons have theories and concepts that are too set and rigid, and the theories and concepts often become outdated because they cannot be adapted to changing situations.

The only thing that is reasonably certain is that there will be change, and individuals must adapt to new situations.

A theory can be basically sound at one time, but may not be applicable at another time. But there are those, either because of insecurity in the face of change or because of a desire to have a pat set of rules to live by, who will develop a belief and claim that this belief is right — every part of it — and anything to the contrary is wrong.

In religion, this is particularly so, as many religious groups continue to labor under medieval concepts. Persons belonging to these groups will defend those same concepts to the bitter end, rather than try to adapt them to the modern situation. In fact, many of those concepts can't be adapted.

Politics is another area that shows little adaptability. In order to bring about a change in political theory, a revolution is usually necessary.

Many highly idealistic, but highly impractical and rigid theories abound in economics. One of the more flagrant of them is the belief in free enterprise and capitalism as the prime answer to all economic ills.

In the first place, our country doesn't have a complete free enterprise system. It isn't logical in a modern democratic society.

A system of this type depends on the exploitation of labor and natural resources. In a democratic country, a concept based on the exploitation of its citizens cannot exist.

Luckily, the American economic system has been able to adapt, combining the good points of free enterprise with the good points of socialism, which protects labor and the common man from exploitation.

While developing a theory, a person should do so with the reservation that it isn't one hundred per cent right, and that he can change it or completely drop it if the need arises.

By talking to other persons and allowing their good ideas to affect your theory, a theory can be improved to a large degree.

Another way to improve a theory is to test it with an open mind against real-life situations. A theory can look good in a book or in your mind, but if it isn't usable in life, it isn't worth much.

After the best theory possible has been developed, it should only be used with the reservation that it can be changed or completely discarded when it is proven that it is weak.

Rigid theories can be very harmful, and should be discarded. Individuals should develop theories that are adaptable, so that the theories can meet an outside change and still be useful.

'LITTLE MAN ON CAMPUS' — Bibler

tech students can reduce accidents

THE RECENT DEATHS of two Tech students pointed up an increasingly larger Tech problem — traffic accidents and resulting fatalities and injuries.

These are only two of a comparatively large group of Tech students killed or injured in traffic accidents during the past few days. Maiming injuries, as well as death, have resulted from these accidents.

These accidents for the most part have been due to carelessness, and could have been avoided. Excessive speed and lack of attentiveness on the part of the driver have caused a large per cent of the accidents.

Some of the accidents occurred because of carelessness in bad weather conditions. One Tech male student had his legs smashed between two cars, because the driver of one of the cars was going too fast on the slick, snowy surface.

Not all of the serious accidents involving Tech students have been in the traffic category. Asphyxiation and other less common mishaps have also killed and injured a number of Tech students.

As is the case with traffic accidents, the last group of accidents have been caused to a large degree by carelessness, and can be avoided.

More care and attentiveness on the part of Tech students will prevent a majority of the accidents — or at least reduce the seriousness of injuries.

But a large per cent of the Tech student body isn't careful or attentive. They seem to think that an accident couldn't possibly happen to them — or else they must think that life isn't worth living if it requires effort on their part.

This careless attitude results in the loss of many lives, and the damage done goes beyond the persons killed and their families.

College students are supposed to be the future leaders of our country, and the loss of any of those students hurts the country as a whole.

Tech's reputation — and the reputation of the entire system of higher education — is hurt by careless accidents involving Tech students.

But the major damage is naturally done to the student involved. A person's life is his most highly prized possession, and, also, no one desires to be permanently maimed by an injury.

For his own sake, and the sake of his family, school and country, Tech students should develop a more careful and attentive attitude. Accidents involving Tech students can be greatly reduced by a better personal attitude on the part of the students.

Stomp Award Speech Prizes

Trophies for the Intramural Speech Tournament will be presented tomorrow at 9:15 p.m. in the Tech Union ballroom. The Tech Union, in conjunction with the speech department, is sponsoring a Western Stomp for the purpose of awarding the nine trophies.

A SWEETSTAKES trophy will be awarded to the organization that has accumulated the most points in all events. Eight trophies will be awarded the organization with the most points in each of the events, provided they have members on their team.

These events are Bible reading, poetry reading, radio speaking, impromptu speaking, oratory, after dinner speaking, declamation and dramatic interpretation.

Making the presentations will be Mrs. Vera Simpson. Following the presentation, there will be a reception in the Anniversary Room of Tech Union. Punch and cookies will be served.

Flower Festival Plans Started

Plans are underway for the Horticultural Festival Oct. 18 at Tech, under direction of the Horticulture Club, which will host the Sagebrush and Skies.

In keeping with expansion of campus, new classes will be added to all divisions of arrangement, horticulture, and vegetables. Traveling trophies will be awarded best specimens in dahlias, mums, vegetables and roses.

Society Elects Fall Officers

Techsans Honored

The need for language students to seek foreign study and travel was stressed by Dr. G. E. Giesecke in his address at the annual foreign languages department award banquet Tuesday night.

TWENTY foreign language students were presented awards following Dr. Giesecke's address entitled "The International Exchange of Person."

"Texas Tech has not been sending out to other countries its proper share of exchange students," Dr. Giesecke explained. "The reason seems to be that students do not make the effort to get these fellowships."

"RESIDENCE in a foreign country provides the best possible opportunity for growth in understanding one's own people and one's self," Dr. Giesecke said. "The world today is providing ever more opportunity for person to person diplomacy."

Dr. Giesecke stated, "To be a good representative of one's own country, as well as an intelligent

guest in another country, requires careful preparation. In our society, the individual citizen has the responsibility to better international understanding and to prepare himself to do his part for bringing it about."

BILLIE JEAN Stroehle, Memphis junior, who is president of Tech German club and next year's president of the Texas Assn. of German Students, was winner of the Leadership Cup.

Winner of the Roscoe Wilson Memorial Scholarship for the 1959-60 academic year was Amelia Ann McElheny, Dallas sophomore. This \$270 scholarship is presented each year by Mrs. Roscoe Wilson of Lubbock.

LEE Huddleston, senior from Anton, was presented the Sigma Delta Pi "Columbus Medal" as the outstanding student of advanced Spanish.

A senior chemistry student from El Paso, Karin Smith, was presented the Anderson Cup for being the best German language stu-

dent in this year's pre-medical curriculum. The cup is awarded each year by Dr. William F. Anderson, Lubbock medical doctor.

JOE BEN Hudgens, senior from Pecos, was presented the French Consulate award as the top third-year French language student.

The Optimates, Tech Latin club, awarded its third-year medal to Jane Pipkin, junior student from Lubbock, Marilyn Guetersloh, senior from Levelland, received the second year Latin award.

FIRST YEAR Latin medals went to Virginia Ann Dowdy, business administration freshman from McKinney and Camuel Lytal, freshman from Lubbock.

Winners of the French Embassy awards, made on the basis of examination, were: first year medal — Curtis Bradford, arts and sciences freshman from Lubbock, first place; and Jody Ruhl, arts and sciences freshman from Houston — second place.

SECOND YEAR French Embassy medals went to Eleanor Clayton, first place and Samuel Lytal, second place — both from Lubbock.

Honorable mentions for French Embassy medals were given Virginia Stowell, freshman from Chester Depot, Vt., and Linda Howard, freshman from Dallas.

AMERICAN Assn. of Teachers of German certificates of merit were presented to twelve students. To qualify, students must have studied two years of college level German, have three semesters with A's and an A grade at mid-term of the fourth semester.

Second year students receiving certificates were: Bryan H. Collins, Rose Marie Hill, Jack Mason, Elsa Dockray and Nancy Wilten.

THIRD YEAR students were: Karin Smith, Nancy Nelson Griffin, and Billie Jean Stroehle.

Tech Credit Union Set For Faculty, Employees

Texas Tech Federal Credit Union, a savings and loan association for faculty and employees of

the college, held an organizational meeting Tuesday at 4 p.m. in the Women's Gym.

Stomp Awards Speech Prizes

Trophies for the Intramural Speech Tournament will be presented tomorrow at 9:15 p.m. in the Tech Union ballroom. The Tech Union, in conjunction with the speech department, is sponsoring a Western Stomp for the purpose of awarding the nine trophies.

A SWEEPSTAKES trophy will be awarded to the organization that has accumulated the most points in all events. Eight trophies will be awarded the organizations with the most points in each of the events, provided they have five members on their team.

These events are Bible reading, poetry reading, radio speaking, extemporaneous speaking, original oratory, after dinner speaking, declamation and dramatic interpretation.

Making the presentations will be Mrs. Vera Simpson. Following the presentation, there will be a reception in the Anniversary Room of Tech Union. Punch and cookies will be served.

APPROVED as members of the Board of Directors were Hubert L. Burgess, Ray Downing, Virginia Snelling, Burl Abel, R. L. Rouse, Ray L. Chappelle and Fred Harbaugh.

Robert B. Brice, Haskell G. Taylor and Ellis R. Forman were approved as members of the Supervisory Committee.

APPROVED as Credit Committee members were C. F. Libby, H. A. Anderson, Hubert L. Burgess, Mina W. Lamb and L. J. Powers.

In further action Wednesday morning, the Board of Directors elected officers. They are Burl Abel, president; R. L. Rouse, vice president; Virginia Snelling, secretary; and Hubert L. Burgess, manager and treasurer.

THE BOARD purchased a blanket fidelity bond for the treasurer to cover 100 per cent of the investment, and also voted to join the Texas Credit League.

First National Bank was chosen as a depository for credit union funds. The interest rate on loans was set at one percent per month on the unpaid balance, and approximately 60 employees were approved as members.

INDIVIDUAL loans are restricted to ten per cent of the paid in shares or \$400 whichever is the lesser without security.

The board chose the second Tuesday of each month as its regular meeting date.

LOANS WILL be available after May 1, but investments can be made before them. A total of \$2400 has already been invested in stock which sells at \$5 per share.

After May 1 the credit union will have its offices in the Room Reservation Office.

Flower Festival Plans Started

Plans are underway for the Fall Horticultural Festival Oct. 18-19. Tech, under direction of the Horticulture Club, will host the show, Sagebrush and Skies.

In keeping with expansion on campus, new classes will be added to all divisions of arrangements, horticulture, and vegetables. Traveling trophies will be awarded to best specimens in dahlias, mums, vegetables and roses.

Tech's Art Center Offers Art Courses

Tech's new Fine Arts Center, amid the mountains in Moab, Utah, offers two art courses and a feature writing workshop, lasting three weeks beginning June 3.

ONE ART CLASS will study and practice art applications in elementary education while another will work with art appreciation emphasizing water colors. Each course includes activities for the advanced as well as beginning student.

The art courses will be taught by Arne Randall, applied arts department head. Mrs. Florence Carr Randall, not related to Arne, a free lance writer, will teach the non-credit course in feature writing.

THE ART education course gives three semester hours credit and the art appreciation course gives two semester hours credit.

In addition to paying Tech tuition and fees for the art courses, or a \$20 fee for the writing work-

shop, students may find living quarters in the area for as little as \$10 per person per week, according to Randall.

The art and writing courses are only the initial program at the Center. Courses will be added in music, speech and other fields plus the producing of an annual Utah pageant.

Mortar Board Makes Retreat

About 35 old and new members of Mortar Board will spend Sunday afternoon at Barbara McDougal's ranch near Abernathy.

The orientation retreat is planned to review this year's activities and work and to help the new group plan for next year, according to Dean Jacqueline, Sternor, sponsor.

FOR GINNERS

Tech Slates Clinic

Two workshops for South Plains ginners and gin managers have been slated at Tech during June and July. Prof. Ira Williams, agricultural engineering department head, announced.

A COTTON Ginning Workshop, June 15-26, will cover subjects ranging from machinery operation to fiber quality preservation. Laboratory work will include making adjustments on gin machinery and touring local gins and compresses. Registration fee is \$45.

Ginner supervisors and owners will attend a Cotton Gin Managers Workshop July 6-10. It will feature principles of machinery selection, plant arrangement, quality pre-

servation, materials handling, power selection and distribution. Besides management studies during field trips, a session on drilling and managing labor is also being planned, Williams said. Managerial course fee is \$30.

BOTH workshops will make a field trip to the spinning mill at Post.

Deadline for registering for the classes, which will be instructed by qualified personnel from industry, extension, research and teaching fields, is May 15. Interested persons in either of the courses should write Joe Jones, agriculture engineering department, Tech.

Three Tech Coeds Get Dietetic Intern Jobs

Three Tech coeds have been awarded dietetic internships at hospitals in Colorado, New York and California. The internships are approved by the American Dietetic Assn., Dr. Mina Lamb, food

and nutrition department head, said.

AFTER GRADUATION this spring Joyce Roberson of Lubbock will intern at the Colorado State Hospital in Pueblo. Annese Thomas of Abernathy will go to a Veterans Administration Hospital in the Bronx, N. Y., and Jill Dodge of Pasadena, Tex., will intern at the University of California Hospital in San Francisco.

Dietetic internships provide for a cash stipend and meals. Some times quarters are furnished. They range from \$2,000 to \$4,000 annually in total value.

AFTER completing a dietetic internship, the graduate dieticians have positions available to them with a salary range of \$400 to \$600 a month. Without an internship, the salary offered newly graduated dieticians is around \$300.

Best Page Layout Judged In Annual

"Best Page Layouts" for La Ventana are now being judged. Winners in the Greek and Non-Greek competitions should be announced in two weeks.

Sororities Vie In Olympics

Tech sororities will compete in the Fiji Olympics at 2 p.m. Saturday on the green between H and Drane Halls.

PLEDGES of the Phi Gamma Delta fraternity will carry a torch to light the "Victory Fire."

Plaques will be awarded to first, second and third place winners in each of the events, and a sorority compiling the highest overall score will receive a special plaque and the traveling trophy.

THE TRAVELING trophy may be kept if a sorority wins the Olympics two years in a row.

Ribbons will be given to each member of a team placing in any of the following events: pojo stick relay, sack race, tug-of-war, egg toss, wheel barrow race, softball throw and three legged race.

Army Inspects Tech ROTC

Today is inspection day for Tech's Army ROTC unit as they are visited by a three-man team of inspecting officers from Fourth Army headquarters at Ft. Sill, Houston, San Antonio, headed by Colonel Raymond Darrach, Chief of the ROTC Division, Fourth Army area.

THE TEAM will inspect military science classes, record administration and the training of cadets. Colonel Darrach will visit President Jones in the morning and make a report to him at the end of inspection activities this afternoon.

This afternoon there will be a ceremonial parade, open to the public, at which the brigade athletic award will be presented to the company winning the recent brigade athletic competition. Cadet Captain John Bates will accept the award for company G. During the second hour of drill, the team will inspect the ranks, and cadets for military knowledge, bearing and appearance.

THE ARMY ROTC unit has an enviable record, 35% of last years graduating class ranked in the upper quarter in Army Service schools, a distinction matched only by four other schools in the 28-college Fourth Army area.

MAY SCHEDULE ONLY, REGULAR SCHEDULE STARTS MAY 30

Trying to rush the swimming season along are Mary Lynn Peveto, Glynda Doggett and Carolyn Symes

Saturday, May 2

K. N. Clapp pool, located at 46th & Ave. U, will be open from 3:00 p.m. to 8:00 p.m.

RALPH RAMBO

Hope you are making plans here Saturday. You know the outstanding school and college will be school meet, open to all preference or region, the meet from West Texas State.

Some of you have jumped, Dub Thornton, second nationally in the race last week at the Dray - don't miss the Race.

A lot of people seem to get out of the pennant race. Wrong assumption. Don't get the pitching, hitting and Of course I realize the Yankees! but you just wait from the hot July sun separates the men from the Baltimore - so will the Yankees.

Our choice in the San Francisco Giants, and down their batting the Braves and Pirates way, but it looks like the

Don Sparks, Tech from Los Angeles - one of our high jumper for Tech will be in Los Angeles in the Coliseum Relays for if you hear they will appear.

Hats off to the Tech our first Southwest Con back. A title in the we all know - it takes time. Our golf team pr

"When the visiting is of good basketball play Wednesday as he discuss of the better players are expect to go on a while over the state have indicate you can bet Robison will.

Tech Fencers Score Victory

Red Raider Fencers sweep North Texas Divisional Championship held recent Texas Tech.

IN TEAM competition they placed first in foil, sabre, Frank Griffin, coach Raider fencers, took two places, sabre and foil, in individual competition. Royce of the Raiders, took third competition.

Teams entered in the meet were North Texas State, YMCA, Dyess Air Force Base, Abilene and Fort Worth YMCA.

MEMBERS OF the Raidering team are Frank Griffin, Royce Bruce, Wendell M. Bobby Blackburn, Donald and Billy (Dud) McAfee.

AGAINST ODESSA NINE

RALPH'S RAMBLINGS

by
Ralph W.
Carpenter

Hope you are making plans to attend the Red Raider Relays here Saturday. You won't be disappointed in what you see — some of the outstanding track and field stars of both high school and college will be performing. Besides the regular high school meet, open to only state qualifiers regardless of conference or region, the meet Saturday will include college teams from West Texas State, McMurry, Hardin-Simmons and Tech.

Some of you haven't been able to see Tech's fine high jumper, Dub Thornton, in action. The Aspermont lad ranks second nationally in the high jump with his fine 6-9 performance last week at the Drake Relays. He will perform Saturday — don't miss the Relays.

—RWC—

A lot of people seem to be counting the New York Yankees out of the pennant race already. Personally, I think this is a wrong assumption. Don't sell the Yankees short — they have the pitching, hitting and experience to wrap up another crown. Of course I realize the Yanks are off to a rather slow start (for them) but you just wait and see who starts taking command when the hot July sun starts bearing down. July heat always separates the men from the boys — Cleveland, Chicago and Baltimore will be no exception to the rule. When the weather gets hot — so will the Yanks.

Our choice in the National League this season is the San Francisco Giants. The Giants have power to burn up and down their batting order and an improved pitching staff. The Braves and Pirates may make the going rough all the way, but it looks like the Giants from this corner.

—RWC—

Don Sparks, Tech track coach, has been awarded a trip to Los Angeles — one condition — he has to bring Dub Thornton, high jumper for Tech with him. Both have agreed to go and will be in Los Angeles on May 15 where Dub will compete in the Coliseum Relays for the second time. Don't be surprised if you hear they will appear in a movie while there.

—RWC—

Hats off to the Tech golf team. These boys brought us our first Southwest Conference Crown and deserve a pat on the back. A title in the SWC is not easy to come by — as we all know — it takes hard work, ability and determination. Our golf team proved they have all these assets.

—RWC—

"When the visiting is over, we'll come out with our share of good basketball players," Coach Polk Robison remarked Wednesday as he discussed his cage recruiting program. Most of the better players are still visiting the schools and Robison expect to go on a while longer. Several of the top performers over the state have indicated a desire to play in Raiderland — you can bet Robison will welcome them with open arms.

Frosh Score 3-2 Win

by J. VERNON STEWART

Tech's Picadors came fighting back to score two runs in the last of the ninth to edge Odessa Junior College 3-2 Wednesday.

Trailing 2-1 going into the ninth the Frosh appeared to be on the way to their second loss of the year. Bill Boyd led off the ninth by grounding weakly to the first baseman and OJC was two outs away from victory.

LOREN LANGSTON drew a walk and Marvin Henderson, running for him, reached third when Odessa catcher Jodie Barker threw the ball into centerfield. Ken Wofford, pinch hitting for Del Ray Mounts, placed a perfect

squeeze bunt in front of the plate and Henderson slide across with the tying run. Wofford stole second and rode home on Larry Savage's sharp single to left.

EDDIE BOBBITT Tech's starting pitcher and Tommy McMorris, OJC hurler, locked up in a scoreless pitching duel the first six innings. Odessa broke into the scoring column in the seventh on a single and a triple. Mounts relieved Bobbitt at this point and fanned McMorris but a line shot off Mounts' glove brought the second Odessa run in from third.

Eddie Pierce led off Tech's half of the seventh with a double down the left field line. He advanced to

third on an error but was picked off base and tagged out. Loren Langston followed with a home-run over the left field fence and for a while it appeared the base running error might cost Tech the game.

Tech outit Odessa eight to six and had men on base in seven innings but couldn't come through with a clutch hit until the ninth.

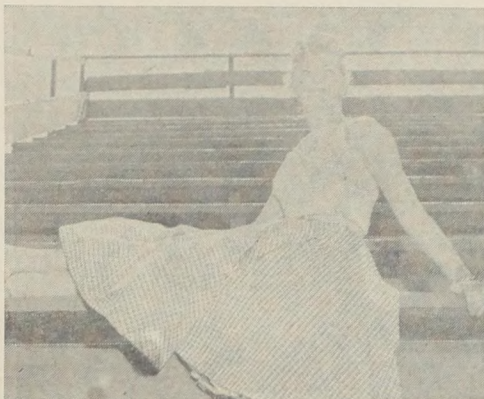

Bob Fouts, Tech's shortstop led the Raider hitting attack with three singles in four times at bat. Twice he reached third but did there as McMorris beared down to end both threats.

Odessa was led by Bobby Gillham who singled twice and walked in four trips to the plate. Bobbitt was tough in the clutches, allowing only one man to reach second base. He was helped out of this mild jam by a double play that third baseman Mike McElrath started by taking a ground ball, touching third and firing to first.

The winning pitcher was Mounts who relieved Bobbitt in the seventh and shut out Odessa for the next two innings.

McMorris suffered his first defeat of the year against three wins.

Wednesday's game closed out the season for the Picadors and gives them an 8-1 record for the year.

ROOM FOR MORE— Petite Ginger Gilbert, Amarillo freshman, had plenty of room to relax at the ball game Wednesday. She was one of the few fans who turned out to watch the freshmen close out the season.

SWC CHAMPS

THE CHAMPS— Tech's golf team, winner of the Southwest Conference crown, are shown above in a happy mood. The golf championship is the first SWC title to be won by Tech since it was admitted into the conference. Players are (back row L-R) Chris Blöcker, John Paul Cain, John Farquhar, Don Kaplan and Don Nix, (front row

Ben Alexander, Don O'Neal and Jimmy Johnson. Tech sewed up the title in its final match of the season with a 4½-1½ victory over Baylor here Monday. Southwest Conference individual championships will be played next week and the Raider golfers are expected to be tough in this department too.

Raiders Enter Nine In Saturday Relays

Nine track and field men will be entered in the Red Raider Relays Saturday.

PARTICIPATING against Hardin-Simmons, West Texas State, and McMurry, Texas Tech's Varsity will be running on its own track in actual competition for only the second time since the cinder track was completed in 1955. The other occasion was the Border Conference meet in 1956.

By event, with best marks in parentheses, Texas Tech's entries include:

HIGH HURDLES — Dick Murphy of Odessa (14.5), James Pettit of Commanche (14.8), Ken Osborne of Aamarillo (15).

100-YARD DASH — James

Morris of Brownfield (10.1), **440-YARD DASH**— Tommy Davis of Granbury (48.5), Roger Crawford of Waco (49.0)

LOW HURDLES—Pettit (23.1), **440-YARD RELAY**— Crawford, Murphy, Pettit, Davis (42.2)

880-YARD RUN— Charles Dwyer of Amarillo (1:56.0), Pettit of Fort Stockton (1:57.0)

MILE RUN — Dyson (4:22.0), **MILE RELAY** — Crawford, Davis, Murphy, Draper (3:19.4)

HIGH JUMP — W. L. Thornton of Aspermont (6-9), Murphy (6-0)

POLE VAULT — James Leonard of Abilene (13.3)

BROAD JUMP— Pettit (22 ½), Morris (22-8), Leonard (21-

Netters Will Battle Two Tough Opponents

Texas Tech plays the two strongest collegiate tennis teams in Texas this weekend, meeting Trinity University Friday and Rice Institute Saturday on the Tech courts.

RICE, DEBENDING Southwest Conference champion, will be seeking to wrap up its second consecutive title this weekend. The Owls have lost only one conference singles match, and hold a 6-0 win over Texas, generally considered the second strongest team in the conference.

Coach George Philbrick's net-

ters, who lost to Trinity in San Antonio last Friday, 6-0, will be attempting to make a better showing on their home courts, with Bob Macy, junior letterman from Coral Gables, Fla., considered to be Tech's only chance against the Tigers.

MACY, UNDEFEATED in conference singles before losing to Texas Saturday, now has a 4-0 record in conference singles and is 13-4 in singles matches for the season.

Teaming with Macy in the No. 1 doubles will probably be John Kniffen from Clyde, No. 3 man of the Tech team. Phil Meisinger of El Paso, the only Tech netter to win a set at Trinity last week, plays the No. 2 position and teams with Danny Soales, No. 4 man from Lubbock, in the No. 2 doubles.

TECH, NOW 13-12 IN conference matches, has a 5-2-2 record in dual match play for the season.

WORKOUT SLATED

Walter Bingham, manager of the intramural All-Star softball team, announced Wednesday that he would conduct a workout for the team today at 6 p.m. Field four will be the site of the drill.

Stadium Expansion Swings Into Gear

Dismantlement of Texas Tech's Jones Stadium pressbox to permit construction of larger facilities will continue through next week.

DESTRUCTION OF THE pressbox, built in 1946, was started Thursday. Workers also have already removed a fence around the south end zone stands preparatory to building new athletic department offices. The stands, seating 3,000, will be moved to the track and field area.

Cain and Cain of Fort Worth has the stadium contract.

Tech Baseballers Meet Midwestern

Raider baseballers play their final home games of the season against Midwestern Friday and Saturday. Both titles are slated to get underway at 3 p.m.

TECH, 5-5 FOR THE season, has divided a pair of games with the Indians, losing 4-3 and winning 14-3.

The Raiders returned home Wednesday after losing a pair of games on the road. Texas A&M dropped the Raiders 11-4 Monday and Rice downed them 13-3 Tuesday.
