

## 'The Champs' Win Again

TECH'S FAVORITES

... were announced at the Coronation Ball Friday night. Wayne Underwood is the 1962 Mr. Texas Tech. Karen Moore, Union program director, accepted the crown for Miss Texas Tech, Kay Woody, who was attending the game in Fort Worth.

### Kay Woody, Underwood Win Mr., Miss Tech Title For '62

### 17 Coeds Enter Contest For Tech Rodeo Queen

Pennies will select a queen—a Texas Tech Rodeo Queen.

Friday was the deadline for entering the contest and 17 coeds have signed up for the race. Later this month the field will be narrowed to five finalists. Students will cast penny votes for the queen April 2-7 in Tech Union.

Finalists will be selected on the basis of ability to ride and western dress. The riding contest is scheduled for 2 p.m. March 17 at the Jack Aull Arena. The candidates will be judged on western attire at a date tentatively set for March 21.

The 1962 Rodeo Queen will reign over the annual Tech Rodeo Assn. festivities April 19-21. She will ride in the Rodeo Parade and will be honored at a dance featuring Hank Thompson.

The queen will also be given a \$50 gold and silver belt buckle and will be pictured in La Ventana.

Judges for the contest are Joe Kirk Fulton and Gladys Abernathy.

Girls entering the contest are Connie Mitchell, Pi Beta Phi; Valdene Garner, Sigma Kappa; Diane Palmer, Alpha Chi Omega; Nathalee Britton, Rodeo Club; Susie Couch, Tech FFA Club; and Rosa Ruth Clark, Tau Beta Sigma.

Other contestants are Wanda Boatler, Block and Bridle Club; Barbara Hudman, Phi Gamma Nu; Elizabeth Sullivan, Newman Club; Kelly Davis, Drane Hall; Carol Lou Burden, Angel Flight; Nancy Friend, Zeta Tau Alpha; Martha Criswell, Chi Omega; Jimmie Bibb, Kappa Alpha Theta; Sue Hill, Freshman Council; Diane Ferguson, Phi Mu; and Myla Henderson, Delta Delta Delta.

Amid a fanfare of trumpets Kay Woody and Wayne Underwood were named the 1962 Mr. and Miss Texas Tech by Carlyle Smith, Student Assn. president. The announcement came at the all-school Coronation Ball Friday night.

Miss Woody made a repeat performance as she was chosen senior class favorite along with Mike Denton.

Receiving honors in the junior class were Pam White and Amon Burton. Carolyn Wood and Gary Strickland were chosen sophomore favorites in Wednesday's favorite election. Gay Gillespie and Robert Legg took freshman favorite honors.

All the honorees were given gifts commemorating the occasion by James G. Allen, dean of student life. Miss Woody, a member of Pi Beta Phi sorority, is a cheerleader. Underwood, vice president of the Student Council, belongs to Sigma Chi fraternity.

The naming of school favorites was a highlight of the ball which featured Johnnie "Scat" Davis and his band in the first dance given in the spacious new Tech Union Ballroom.

By CHARLES RICHARDS  
Toreador Sports Editor

FORT WORTH—A determined squad of Texas Tech Red Raiders fought their way into the NCAA playoffs Friday night, taking a 71-67 victory over Jan Lourdermilk and company from Southern Methodist University. By virtue of the win the Red Raiders now advance to the regional NCAA basketball playoff berth opposite the Air Force Academy in Dallas Monday, the second game of a doubleheader.

Texas Tech fans have been allocated 3,000 tickets for the Tech-Air Force game, and these tickets will go on sale at the Tech Athletic Office at 1 p.m. Saturday on a first come, first serve basis.

Loudermilk closed out his basketball career with 30 points to lead the Mustangs as Dave Sigmond made 19. But from there on out the show belonged entirely to the Red Raiders, who claimed with the win the unofficial title of Southwest Conference champion. Tech and SMU finished the regular season tied for the lead with identical 11-3 marks. And Friday night's clash was the rubber game of the three game series between the two clubs this season. They split a pair of round robin games.

Texas Tech followed the valiant scoring of four seniors to take the important win. Roger Hennig was high with 22, Mac Percival made 16, Del Ray Mounts accounted for 15 and Harold Hudgens contributed 10.

Jim Hammond was the only other Southern Methodist player to finish in double figures. His 11 points and the seven of Frank Bumstead wrapped up the SMU scoring. No other Pony player scored. It was one of the best overall team responses of the year by Texas Tech. Mounts and Hudgens came through with good games, but the two All Conference players from Tech were overshadowed by the play of their high-scoring teammates Hennig and Percival.

Sid Wall came in and did a good relief job for the Red Raiders with good defensive work and seven timely points. Bobby Gindorf couldn't connect on four field goal attempts but he was a stalwart on the field. He made one point on a free throw.

Although the SMU fans were more plentiful—they were given 1,100 additional tickets originally allocated to TCU—Red Raider followers were out in mass to see Tech corral the Mustangs. Attendance at the game was 7,510, an all-time record crowd for a basketball game in Fort Worth. And the Tech fans had something to yell about, too, as they saw their Raiders score in the first five seconds of play and move on to the win.

"I think they're wonderful, I think they're just wonderful," was the way Tech coach Gene Gibson put it as the game ended. And no one disagreed.

Although Tech suffered a cold first half, being out-hit from the field by SMU, they bounced back in the last period to mark up the decision. The Red Raiders hit only 38.7 per cent the first half while SMU was a bit warmer with 45.8. But the last half was a different story. The Raiders came back onto the court after intermission and worked for the good shot. And when the returns came Tech showed a blistering 60.9 percentage from the field to best a good 50 per cent effort by the Mustangs.

Tech started a man for man defense, but after Hudgens was charged with his third personal foul with 3:03 left in the first half the Raiders shifted into a zone and stayed in it the rest of the way. Although Tech trailed only twice in the entire game and never by more than one point, the contest was a nip and tuck affair all the way with the Raiders finally getting the win with the aid of a successful delay game.

Tech's biggest lead was six points, a margin that was reached only twice. The halftime score was Tech 33, SMU 30.

## Business Honorary Announces Pledgeships of 12 Tech Coeds

The Lambda Chapter of Phi Gamma Nu, honorary sorority for business women, announced the pledgship of 12 girls.

Requirements for membership in the organization are a major in business with a 1.5 overall average and at least six hours of commerce.

The new pledges are Loubeth Sanders, Odessa; Carlet Kight, Arlington; Betsy Addison, Midland; Linda Vandenberg, Spearman; and Carolyn Garrett, Lubbock.

Other pledges are Susan Collett, Dallas; Betty Gray, Abilene; Doris Gross, Odessa; Donna Richardson, Lubbock; Alayne Kornbluh, Dallas; Carol Bray, Dallas; and Kay Keltner, Crane.

## Coeds Nominate Officers For '62 AWS Wednesday

Nomination of next year's AWS officers will be made at 5 p.m. Wednesday in the upstairs Ballroom of the Tech Union. A slate of nominees will be presented and nominations may be made from the floor.

Election of officers will be March 21. All women students may vote by showing their I.D. cards. Ballot boxes will be in the Tech Union, Ad Bldg. and the residence halls.

Installation will be on Women's Day in May.

Qualifications for AWS officers are as follows:

The president must be a senior during her term and must have been a member of AWS Council for at least a year previous to her term of office.

First vice president must be at least a junior during her term and must have been a member of AWS Council at least a year previous to her term.

Second vice president must be at least a junior during her term and must have been a member of AWS or Women's Residence Council for at least a year previous to her term.

Third vice president must be at least a junior during her term and

must have been a member of AWS Council at least a year previous to her term. She must be enrolled in summer school or be in the surrounding area for the summer during her term of office.

Secretary and treasurer must also be at least a junior during their term.

Judiciary chairman must have been a member of the Judiciary Council, Panhellenic Judiciary Council or Advisory Council at least one year.

Law representative must be at least a junior during her term and must be able to go to the AWS Convention.

All officers must have been a regularly enrolled student at least one semester before being nominated or elected. She must maintain a 1.5 over-all average and a 1.5 for the previous semester.

AWS — Association of Women Students — helps coeds to get the greatest benefits from college life by promoting unity and fellowship among women students. AWS acts as a coordinating body of all women's organizations in setting the standards for campus living.

## Sigma Chi, Pi Beta Phi Rank First

Pi Beta Phi ranked highest scholastically among the 12 social sororities on campus. The sorority averaged 1.92 for both members and pledges.

Kappa Kappa Gamma ranked second with a 1.81 average, Kappa Alpha Theta, with a 1.67, was third, followed by Delta Delta Delta, 1.67; and Gamma Phi Beta, 1.67.

Other sorority averages are Alpha Phi, 1.63; Sigma Kappa, 1.60; Chi Omega, 1.59; Delta Gamma, 1.45; Alpha Chi Omega, 1.44; Phi Mu, 1.43; and Zeta Tau Alpha, 1.41.

The average of the 12 sororities was 1.61.

Sigma Chi ranks highest scholastically among the 11 social fraternities on campus. The fraternity averaged 1.32 for both members and pledges.

The second, third, fourth and fifth fraternity averages respectively were Phi Gamma Delta, 1.30; Phi Kappa Psi, 1.29; Kappa Alpha, 1.28; and Sigma Alpha Epsilon, 1.27.

Other fraternity averages in descending order are as follows: Phi Delta Theta, 1.24; Sigma Nu, 1.20; Pi Kappa Alpha, 1.18; Alpha Tau Omega, 1.17; Kappa Sigma, 1.14; and Delta Tau Delta, 1.13.

The 11 fraternities averaged together a 1.23.

## Kennedy Speaks To Tech Students

S. M. Kennedy, dean of Arts and Sciences, will speak Sunday on "East and West—the Political Shape of the Conflict."

Dean Kennedy's talk will be given before members of the Canterbury Assn. who have invited all interested students to attend. The talk, which begins at 7:30 p.m., will end a two-week program on conflicting ideas between peoples of the Eastern and Western worlds.

## Your Future in Electronics at Hughes

As the West's leader in advanced electronics, Hughes is engaged in some of the most dramatic and critical projects ever envisioned. Challenges for your imagination and development are to be found in such diversified programs as:

**Project Surveyor (soft lunar landing)**  
3-dimensional Radars  
Plasma Physics, Ion Propulsion  
Solid State Materials and Devices

**Communications Satellites**  
Digital Computer Systems  
Hydrospace Electronics  
Infrared

These are among the more than 500 outstanding programs now in progress at Hughes. These programs require the talents of E.E.'s and Physicists who desire to work with professional scientists in research, development and manufacture.

In addition, Hughes sponsors advanced degree programs for academic growth. These programs provide for advanced degree study at many leading universities.

## Banquet Begins Dedication Of Million-Dollar Annex

Dedication of the new million-dollar Tech Union annex begins with a banquet at 5:30 p.m. March 19 and ends with a movie at 8 p.m. March 23.

Wayne Stark, director of the Memorial Student Union at Texas A&M College, will give the main address at the dedication banquet, while James G. Allen, dean of student life, will trace the history of the Union expansion program.

Official dedication of the new addition will be made by Don Roper, president of the Tech Union program council. Presentation of the keys to Nelson Longley, Union director, will be made by Atmar Atkinson, building architect.

After a ribbon cutting ceremony by Dr. R. C. Goodwin, president, the Union is sponsoring an open house from 8 p.m. to midnight.

Attending the banquet will be administrators, Union officials, Student Council and student body leaders, representatives from campus organizations and local citizens.

Guided tours of the new Union will be conducted Monday through Friday at 10 a.m. and 3 p.m.

Other special programs are planned during the week, Karen Moore, Union program director, reports.

Tuesday and Wednesday, the movie "Compulsion" will be shown at 4 p.m. in the upstairs Ballroom. Bob Priem, representative of the University Travel Agency, will show films and explain the European travel tour sponsored by the Union at 7 p.m. Tuesday in the upstairs Ballroom.

At the same time a Hideaway Hop will be going on in the snack-bar area downstairs.

Wednesday night entertainment will include a style show and the regular games night activities.

The style show will focus on fashions for the economically minded bride. Clothing will be furnished by Margaret's and modeled by sorority members.

## Fish Discuss New Marker

The issue of a new school marker for the Broadway entrance was discussed at the Freshman Council meeting Thursday night.

Mike Horridge, vice president of the Freshman Council, reported that the situation had been investigated, and the council discovered that Alpha Phi Omega, service fraternity, has been discussing a new marker for several years. However, no plans have been drawn up for a new marker.

He also said that the Ex-Student's Assn. is not in favor of a new marker.

"The council does not feel that the responsibility of the matter should be placed entirely in its hands," Horridge said.

The council is in favor of the project if the funds can be appropriated, he added. If this can be done, the council will draw up the plans for a new marker.

## Dean Little Speaks To Channing Club

Dr. Ivan Little, head of the philosophy department and assistant dean of Arts and Sciences, will speak on the various theories of the origins of religion at the Sunday meeting of the Channing Club.

The title for his topic will be "In the Beginning."

The club will meet at 7:30 p.m. in the Student Organization Room, Tech Union.

## Toreador Needs New Photographer

Applications are now being accepted for the position of Toreador news photographer.

Any student wishing to apply may contact Bobby Gee or Cal Wayne Moore, Journalism basement, during the afternoons, MWF.

Interested students must have a 1-point grade average to qualify.

Girl watching is not strenuous

## LESSON 9 - Advantages over bird watching

Although girl watching will inevitably be compared with bird watching, it enjoys many obvious advantages. For one thing, it is less strenuous.

The bird watcher usually has to hike out into the woods where there is often a great deal of climbing over rocks and fallen trees and, occasionally, some swimming

across rushing streams. Girl watching sites, however, are generally accessible to the watcher's home, school or place of business and can usually be reached without great effort. Perhaps no other hobby is so easy to enjoy. (Pall Mall is easy to enjoy, too. That's because Pall Mall's natural mildness is so good to your taste!)

Compare all three! Smoke "traveled" through fine tobacco tastes best. See the difference! With Pall Mall, you get that famous length of the finest tobaccos money can buy. Pall Mall's famous length travels and gentles the smoke naturally... over, under, around and through Pall Mall's fine, mellow tobaccos. Makes it mild... but does not filter out that satisfying flavor!

Pall Mall's natural mildness is so good to your taste!

So smooth, so satisfying, so downright smokeable!

# From Politics To Pool

*j. petty*

The absence of "Texas Tech University" from Wednesday's name-change ballot caused quite a stir around the campus.

It seems that name was the one the Executive Board of the Ex-Students Assn. had originally gone on record as supporting as its choice. And when Techsians weren't given a chance to vote on it, some of the exes were very upset.

Carlyle Smith, Student Assn. president, termed the omission an "oversight," and said that, although the tabulations are not complete as to the name that the students selected, "Texas Technological University" was one of the names receiving "quite a few votes."

They (the exes) seem to have forgotten that the vote Wednesday was a STUDENT vote—it was to let current Tech students vote on a choice of a new name for the school.

The student body is only one faction involved in the name change. Certainly the exes will have a voice in the final decision—a very strong voice—but what name the student body decides upon is, to put it bluntly, its own business.

If these particular ex-students are so concerned that the name they want was not considered, why don't they push for a vote among the ex-students? Ballots similar to the ones used on campus could be mailed to all ex-students through Wayne James' office. Let those interested mark their preference and return them.

And, for these exes who like to run down the student body, the student council and the student paper, "Texas Tech University" could head the list of proposed names.

The more than 5000 Techsians who voted in Wednesday's election pointed up something that Carlyle Smith and the Student Council CANNOT overlook—give Tech students some issues in an election and they will turn out to vote.

Nothing could have shown more dramatically that Tech needs campus political parties than this. The Toreador and the Student Council constantly bemoan the fact of apathy among students, but this vote—in which over half the campus participated—blasts that idea.

If this interest in campus matters is to be continued, Tech has to have these parties. If the Student Council is ready to do its part in keeping this current interest high, it will push the idea of political parties.

But, if the Student Council is willing to let the elections fall back into "personality" races that they have always been, it will forget the idea and elections will return to the forces of the past.

The University of Houston paper, The Cougar, ran a front page interview with a well-known Houston criminal lawyer, Percy Foreman, recently in which he said:

"If a boy is old enough to be sent to the penitentiary, he ought to be able to buy a drink."  
The story went on to quote Foreman as saying that boys and girls at 11 today know more than 21-year-olds did years ago.

Concluding his apparent push for more booze to be sold to more people of all ages, Foreman said that "(Texas) legislators are not dry, but they haven't the courage to vote their convictions."

I suppose Foreman is pushing for more pliable liquor laws in Texas, but he's going about it in the wrong way, it seems to me, when he advocates selling drinks to 17-year-old kids.

## LITTLE MAN ON CAMPUS

"WANNABE, IT'S NOT SUCH A POPULAR COURSE. IT'S JUST WHEN THEY HAD SEATS EVERYONE FELL ASLEEP."

## On Election Turnout

# Toreador Nibbles Crows--Gladly

Once upon a time a man saw a bird fall and decided birds could no longer fly. Another man one day saw a bearded man with one leg and henceforth believed that all one-legged men wore beards.

When yet a third man noticed that the tree frogs chirped just before a rainfall, he thought they caused the rain.

All of which goes to prove that prediction and generalization can be risky business.

In a recent editorial, the student body was severely castigated for an imagined lack of interest in the important project of changing Tech's name. The writer assumed, because of small attendance at a panel discussion on the same matter, that the students were not interested in the controversy. He was—happily—wrong.

He doesn't presume to think his editorial had anything to do with the overwhelming rush of over 5,000 going to the polls. He is glad to admit his error.

The turnout of over 50 per cent of the student body to express by vote their personal opinions on the name-change was by far the greatest number ever polled on this campus on any issue. It should not be too surprising; this is the most important issue the students have ever been involved in.

And Tech students showed they were equal to the responsibility of deciding it.

This is exactly the response the editorial writer bemoaned as impossible. Nothing but this response could have made this giant step forward in the name-change controversy. Nothing but this same enthusiasm and interest will maintain the long work of changing the name of this university.

The writer has revamped his viewpoint. Now he's saying "Thanks" for proving him wrong and "Please" for making him moreso in every future campus election.

# Toreador Mail Call...

Dear Editor:

We understand that there is a Student Council proposal to the effect that classes be dismissed this Friday so that those students desiring to do so, may be able to make the trip to Fort Worth in order to see Tech win the SWC basketball championship again this year.

In view of the fact that this is the most important sports event of the current year, we feel that the team deserves maximum support from the student body it represents. Likewise, the student body deserves the opportunity to give the Red Raiders this needed support.

We feel sure that the administration can realize the importance of this event, as does every Techian, and will act accordingly.

Respectfully yours,  
17 Tech Students

Dear Editor,

On page one of the March 6 Toreador was an article describing the "genuine concern among Techsians" generated by the name change vote. On page four of the same issue was an editorial criticizing the lack of such interest among the same Techsians. I suggest that this and other similar inconsistencies in Toreador issues tend to divide the paper into two opposing camps.

This situation could be considered an effort to represent two political groups like those discussed in the March 3 Toreador (i.e., Alliance for Progress at Tech and College Re-Actionary Party). To follow this idea further, the two parts of the Toreador might be labeled according to the party they support. The difficulty here would be in deciding which pages to call the APT sheet and which to call the other.

Sincerely,  
Linda Kerr

Dear Editor,

Mr. Hiett's article is undoubtedly one of the poorest which I have been so unfortunate as to read. His lengthy dissertation on the

faults of R.W.C. is in my opinion completely worthless. Mr. Hiett constantly refers to R.W.C. and his so called 'clan,' as some sort of gremlin who should be removed from the campus as soon as possible. I personally could hardly disagree more with Mr. Hiett.

First, let us consider Mr. Hiett's criticism of the parking problem. Surely, Mr. Hiett, you could not be so in the dark as to lay full credit (or blame) at the feet of R.W.C. pertaining to the parking problem. Perhaps Mr. Carpenter's proposed solution to the traffic problem is rather radical, but at least it is a start for further discussion. And whether right or wrong, Mr. Carpenter's proposal was offered not as a mandate but as a suggestion.

Pertaining to Mr. Hiett's criticism of the daily Toreador, I seriously wonder whether or not Mr. Hiett is allergic to dissent, dissatisfaction, and controversy. It would certainly seem so in light of the fact that Mr. Hiett's main criticism of a daily Toreador, is not directed at a daily issue itself, but at the consternation he seems to feel that a daily paper edited by R.W.C., and full of controversy, would produce. Personally, I am in favor of a person feeling dissatisfied with something and having the courage to speak out against it even though it be controversial. People who do not care enough what is going on to express a dissent, are precisely those, whom I feel, are leading our country toward ruin. These same people are also making it that much easier for Communism to take over our country.

As regards your criticism of the name change issue which you seem to feel was instigated, sustained, and finally brought to a vote due to the sole efforts of Mr. Carpenter, Hurray for Mr. Carpenter! Did not indeed the largest percentage of students ever polled, vote overwhelmingly in favor of a change? To me that seems to indicate that R.W.C. was right in helping to bring the issue to a vote. Had the issue been nothing but a controversy of Mr. Carpenter, then it would seem reasonable that the issue would have died of its own accord, and would certainly not have been so heartily supported by the student body. The voice of the student body as evidenced by the tabulation of votes, Mr. Hiett, does nothing but prove you wrong. In short, Mr. Hiett, I believe that your article was nothing but a personal slam directed at R.W.C. and 'clan.' I certainly believe that you could have much more easily utilized your tremendous talents of critique, toward a project more worthy of criticism. In conclusion; three cheers for R.W.C. and 'clan.' I only hope that R.W.C. and 'clan' will use their position in the best interest of the school and observe the main purpose of a college newspaper, which is to present the news and enlighten the student body as to problems which directly affect them, as they have already shown an inclination to do.

Yours truly,  
George R. Walters

P.S. — Let's not see the end of, and be afraid of controversy and intelligent discussion.

# Students Discuss Poetry

What is poetry? What are its values? Is it communication, emotions or beauty?

These were the high points in the discussion of "Poetry As We See It" that featured the "Harbinger" poetry winners Thursday afternoon in the Tech Union.

"Poetry is a natural way of expressing oneself. It goes beyond that which is easy to express in prose," Sherry Perry, first place winner, said.

"It expresses beauty of life and emotions," she continued, "and if it does not express an idea or emotion, it is meaningless."

"People tend to believe that poetry is a separate branch of art that can only be understood by the person who writes it," she said.

Michael Bone, second place winner, pointed out that poetry is intended to "capture a moment forever. It is a mode of expression with certain values that you possess, and you have to use words instead of musical notes or a paint brush."

"It is an intangible thing and you must deal with it that way," he continued.

George Ford, who is primarily an artist, has lately "recognized the parallel between pictorial and oral expression."

"Writing is more intentional than an impulse for me and I base my poetry on art," he said.

"The structure of my poems take on a vein of life from pictures that I've created," he said.

He pinpointed this fact by reading a poem that he wrote while painting a picture of a canyon. The poem, "Canyon Places," illustrated what Ford saw and what he painted.

Miss Perry and Bone read their selections from the "Harbinger."

The next Poetry Hour will be March 22 and will feature Kenneth Kennamon, instructor in English.

HARBINGER WINNERS

... express their ideas on poetry at the Union's Poetry Hour. George Ford, Sherry Perry and Michael Bone discussed "Poetry As We See It," commenting that poetry can be based on art, "expresses beauty of life and emotions, and is intended to "capture a moment forever." The next Poetry Hour, scheduled for March 22, will feature Kenneth Kennamon, Tech English instructor.

# Engineers Gather At Joint Meeting

A joint meeting of the Panhandle Plains division of the American Institute of Electrical Engineers and Institute of Radio Engineers will be conducted at the Ming Tree Restaurant Monday, 6:30 p.m.

The program consists of competitive speeches by Tech engineering students.

## WANT TO LEARN SPANISH?

LULAC OF LUBBOCK will offer a basic course in Spanish beginning Wednesday and Friday, March 14 and 16 at 7:00 p.m. The meetings will be held at the EL CHARRO No. 1 on 19th Street. Here's your chance to learn Spanish at very little cost.

# which button for Buffalo?

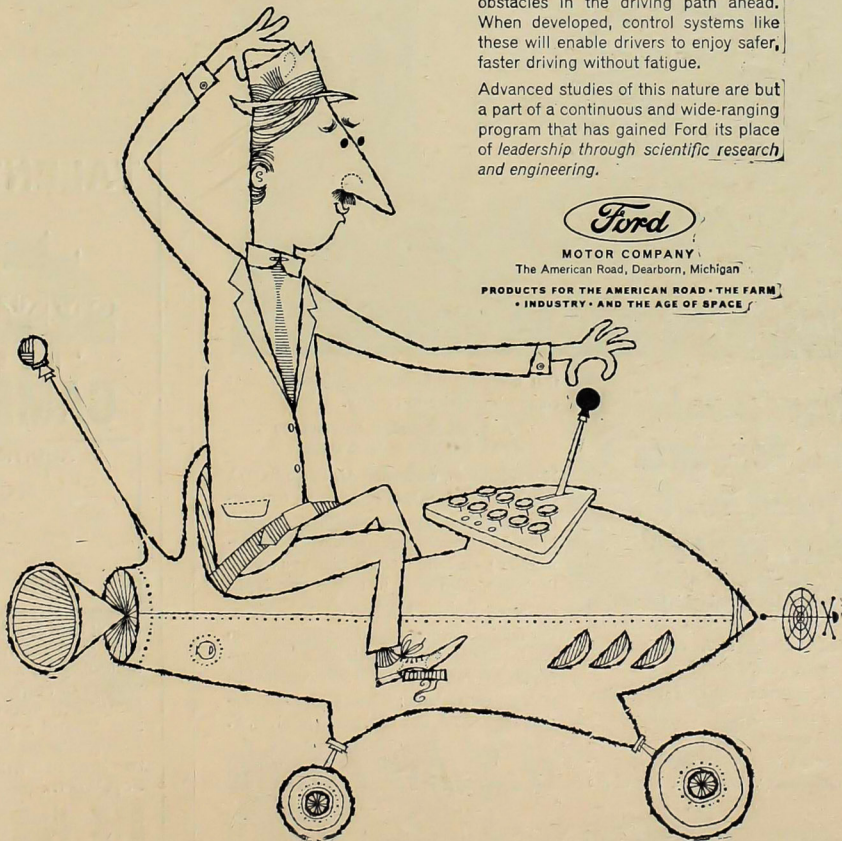

Automatic cars with button and lever controls may seem far out right now. But Ford Motor Company scientists and engineers are busy prying out and buttoning down some fantastic computer-controlled guidance systems for future Ford-built cars.

Among the controls now under study at Ford is a radar system that warns a driver when he gets too close to the vehicle ahead. Another is a short-range radio frequency device that extends the limits of drivers' senses by giving advance information on road surface and weather conditions, evaluating and appraising obstacles in the driving path ahead. When developed, control systems like these will enable drivers to enjoy safer, faster driving without fatigue.

Advanced studies of this nature are but a part of a continuous and wide-ranging program that has gained Ford its place of leadership through scientific research and engineering.

# Tech, Highlands Split Doubleheader

BE A HITTER DOUG...

...yells the group from the Raider dugout as "Porkey" Cannon stands in for the pitch from Highland southpaw James Mayo. Tech collected a pair of hits in the last inning to spoil Mayo's bid for a no hitter. Berl Huffman's group took the first game from Highlands Friday at Mackenzie, 7-4, but dropped the nightcap, 4-1. A single game will be played today at 1 p.m. between the two clubs, also at Mackenzie.

By JIM RICHARDSON  
Associate Sports Editor

Coach Berl Huffman and his Red Raider baseball team won its first game of the season against New Mexico Highlands University Friday at Mackenzie Diamond—and lost the second.

The Tech club rallied from a three-run deficit early in the first contest to win, 7-4, but bowed to the Highlanders in the nightcap, 4-1.

In the opener, Highlands pushed to a 3-0 lead in the top of the third. With a runner at first, Bill Lomas hit into an error and reached first, with the baserunner, Serna, taking second. Hal Pfeiffer rapped Raider hurler Roger Evans for a single, scoring Serna.

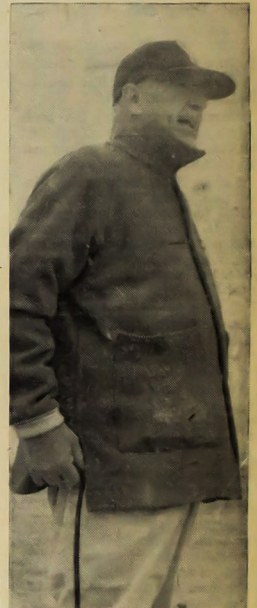

The next batter struck out, but Jim Harris managed a single to bring in both Lomas and Pfeiffer. Evans struck out the following batter and the next grounded out to end the profitable Highlands inning.

Doug Gibbins reached first via an error to start the Raider rally in the last of the third. Darwin Hilliard struck out, then Charles Harrison singled in Gibbins.

Cagle Davis cleared another one-bagger to score Harrison before the Tech group ran out of steam. reguez managed a bloop single to score Mayo. Lomas came in on Harris' sacrifice.

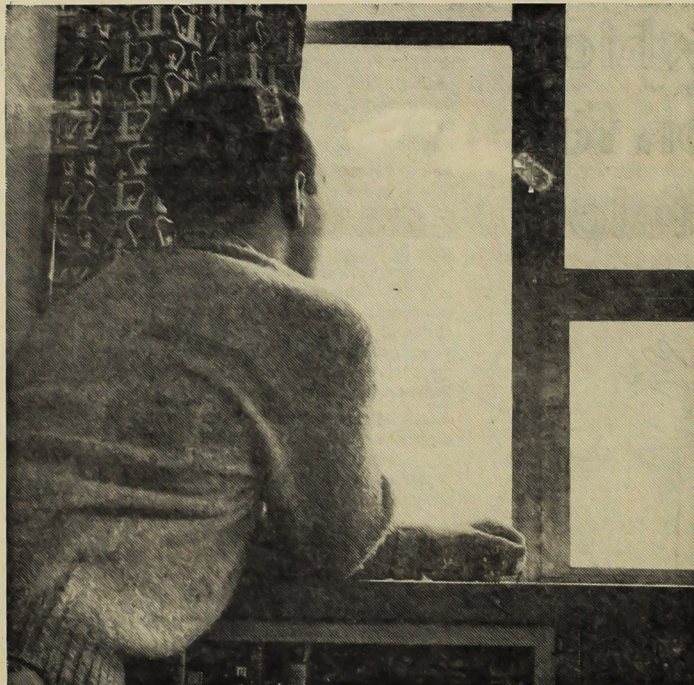

And the Raiders scrambled and did little worth mentioning. It wasn't until the last of the seventh See RAIDERS WIN, Page 7

GOT 'EM NOW...

...Raider coach Berl Huffman shouts. Huffman is starting his second year as head baseball mentor at Tech.

## How would you forecast your next few years?

Today, the young man planning his life realizes as never before that in today's world his own future is tied inevitably to America's future. How can he serve both?

Many college graduates, both men and women, are finding a rewarding answer on the Aerospace Team — as officers in the U. S. Air Force. Here is a career that is compelling in its challenge and opportunity. And it is a way of life

that holds the unsurpassed satisfactions that come with service to country.

As a college student, how can you become an Air Force Officer?

If you have not completed Air Force ROTC, Officer Training School provides an opportunity to qualify for a variety of vitally needed jobs in the Aerospace Age. A graduate of this three-month course earns a commission as a second lieutenant. Also open to college men is the Navigator Training program.

For full information — including the chance to obtain graduate degrees at Air Force expense — see the Air Force Selection Team when it visits your college. Or write: Officer Career Information, Dept. SC23, Box 805, New York 1, N. Y.

# KEYBOARD WANDERINGS

JIM RICHARDSON

Ever look back in Toreadors a year, two years past? Interesting...

Early February, 1960... Del Ray Mounts, sophomore basketball whiz, says, "Give the guys the credit," after he scored 35 points in the Raiders' 82-79 conquest of Arkansas... Freshman sports writer Charles Richards wrote his first column under the heading, "From the Sidelines"—he talked about intramurals... In the column "raider review," sports columnist John Petty served a notice to Wilt Chamberlin. "Watch out Wilt," Petty said, and went on to tell that intramural players were scoring 30, 35 and 40 points individually to possibly overshadow Wilt... Chamberlin scored 100 the other day...

... first rumors emerge that Ingo might let Patterson have a rematch June 22 at the Polo Grounds... Carpenter, then sports editor, commented, "Dammit, we don't mind losing, but getting robbed is different," talking of officiating at the Tech-Texas game... Petty became associate sports editor... Richards tells of upsets in intramural play... "I am happy to be a member of the Texas Tech coaching staff," says Gene Thompson... "I always get butterflies."—Gene Arrington... here's a picture of three members of the great Midland basketball team watching a Tech-Texas game. Midland was 29-0 at the time with state "wrapped up." Midland lost two games later to Berger... Only one more section of stands to move back... "A handful of Davids left Lubbock this morning heading for the land of Goliath with giant-killing in mind," says Petty as Big Red goes to A&M. David's sling broke...

... Early March... Raiders open Spring training with Bobby Layne on hand... of the new American Football League Layne says, "I honestly don't see how they will make a go of it"... Weaver looks for a 5-5 record this coming fall... ha, ha... Del Ray Mounts reports for baseball practice, led freshmen last year in pitching... Carpenter says, "Athletic competition is here to stay." (?)... Richards says 'mural play will begin... Snow delays work on stadium... Snow!!!... snow ???

# Tech Breaks SWC Record

Although Texas Tech's basketball team compiled a better win-loss record on the road than at home in Southwest Conference play, the Red Raiders certainly are not blaming lack of support by the home folks.

That's because the fans on the South Plains once more broke Southwest Conference attendance records.

For seven conference games at home Texas Tech attracted a total of 65,650 fans. That's an average of 9,379 fans a game. The old record, established by the Red Raiders' first Southwest Conference title last year, was 65,380, an average of 9,340.

The all-season mark was broken again, too, by the turnout of 105,050 fans for 13 home games—an average of 8,081 per contest. Last year the Red Raiders attracted 103,250 fans to 14 games.

Texas Tech didn't break one of its records, however. There were 10,380 fans for the University of Texas game here last winter, but fire safety precautions limited the top draw to 10,250 for the windup with Texas A&M this season.

Texas Tech, in trying for the Southwest Conference championship, won five of seven games played in Lubbock, six of seven on opponents' courts.

Red Raider fans like to travel,

too. Texas Tech was allotted 2,300 tickets for its playoff game with Southern Methodist Friday night in Fort Worth, 300 miles away, and they were gone within two hours.

## Colts Lose Olivares

APACHE JUNCTION, Ariz. (AP)—The National League Houston Colts have lost Eddie Olivares, a \$60,000 infielder, for five weeks.

Olivares received a severe sprain Thursday while sliding into second base in an intra-squad game.

## Fulbright Fellowship Offers Study Abroad To Faculty

April 15 is the deadline for applying for 1963-64 Fulbright-Hays fellowships for university lecturing and advanced research abroad.

Area faculty members interested may contact Dr. D. M. Vigness of the Texas Tech history department.

The fellowship, authorized under the Fulbright-Hays Act, are under the guidance of the U. S.

Department of State and the Board of Foreign Scholarships.

A minimum of one year of college teaching experience is required for assistance in lecturing. A doctoral degree or recognized professional standing is necessary for the advanced research fellowships. In certain cases the knowledge of the host country's language is required.

For application forms and additional information, faculty members may write to the Conference Board of Associated Research Councils, Committee on International Exchange of Persons, 2101 Constitution Ave., Washington 25, D.C.

## Pre-Law Club Stages Trial

The annual Pre-Law mock trial will be staged April 19, 7:30 p.m., in the upstairs Ballroom of the Tech Union.

Preparation for the annual trial began Thursday night at a meeting of the club in the Tech Rec Hall. Defense and prosecution attorneys were elected.

Defense attorneys are James Vardy, Ronnie Suiter and Ray Brummett. Prosecution attorneys are Dwain Pruitt, Sarah Harrison and Frank Cosey.

Jury foreman will be Mike Thompson, and bailiff will be Maurice Richard.

John Ross Campbell, Pre-Law president, said that no admission will be charged for spectators who attend the trial.

## 'Astro-Nette' Seeks Praise Of Space-Conscious Public

By LINDA BECK  
Toreador Staff Writer

With all the recent conversation concerning astronauts and rockets, it seems that the male has captured the complete attention of the American public. This trend has placed women in the undeserved position of second place.

From a completely unbiased feminine viewpoint, I would like to make some observations.

First there are few, if any, reasons for placing the masculine astronaut in precedence over the feminine "astro-nette." She, like all females, is able to make decisions and stick to them. She may not be able to decide in which part of the room she wants her sofa, but I am confident that she could decide in which direction to fly her rocket.

She is always in complete control of her emotions, even though she does cry at weddings or becomes ecstatic when she hears the phone ring.

Another factor favoring our astro-nette is the amount of interest she would create. Imagine the reac-

tions of some formerly disinterested souls at seeing the excellent form space suits would take when placed on the feminine astronaut.

Being entirely unbiased, I do realize that some points in the argument favoring the astro-nette are rather weak.

She is very fashion conscious and wouldn't think of boarding a rocket without having a specially dyed-to-match space suit. Her lipstick quite naturally would have to be flame-colored.

Problems would also arise in the process of news photography. Our astro-nette might be quite the flirt, and it would certainly not be proper to present a picture of the first woman in space winking wickedly at the nation.

The biggest problem of all would be in recovering the capsule. There would be great disciplinary problems for the captain of the destroyer which retrieved the capsule. The prospect of having a female abroad would cause many restrictions and complications.

I yield to no one in my admiration for the astronauts who have been fearlessly rocketed into space, but it would be a far prettier sight to see an astro-nette embarking for Mars or Venus.

## Professor Attends ASCD Convention

Billie F. Williamson, associate professor of home economics education, is attending a convention of the Association for Supervision and Curriculum Development in Las Vegas March 4-8.

"Coordinating Educational Resources" is the theme of the convention. Miss Williamson will participate in sessions dealing with "New Directions in the Education of Teachers," "Supervision of Student Teaching" and "Current Issues and Problems in Evaluation."

ASCD, a division of the National Education Association, is holding the conference for school superintendents and principals, directors of curriculum and school supervisors.
