

The Big Spring Herald

Big Spring, Texas, Friday, May 2, 1924

By Jordan & Hayden

OIL DEVELOPMENT IN THIS SECTION

New Wells in Reagan County Causing Big Oil Companies to Look to W. T. for Big Field

At McDowell No. 4

An expert shooter was here last week to place some shots of "nitro" in McDowell well No. 4, so the casing could be pulled.

Beginning at the 3600 foot mark separate shots were set off but casing did not respond. After being subjected to a strong pull it gave way several hundred feet below surface and Mr. Day will have to use some special tools at Sterling before he can proceed with the work of pulling the casing.

The casing from this well will be used in McDowell No. 3 which is to be deepened to the big oil stratum which has been encountered in McDowell No. 4—but could not be tested on account of inability to shut off the above oil sand.

Another Well in Big Lake Field

A two mile extension of the Big Lake field was made this week, when well No. 5 gave conclusive evidence of being a producer.

This test, more than two miles west of Santa Rita No. 1, the primary well, is reported to be being brought in by the pay which is capped at 2965 feet.

It is rated as having every evidence of being a better well than the Santa Rita, which after a year is producing approximately 150 barrels per day.

This will cause all development in Texas to take on a greater impetus for several large Mid-Continent operating companies, long centered in Oklahoma, are turning toward Texas fields for future development—a tendency which has been felt in all Texas fields from the Northeast Texas lying in the Balcones fault zone to the Panhandle, and to the Reagan Webb County fields toward the west.

Reagan County Oil News

The fourth producer for Reagan county was brought in last Friday at noon when it flowed an estimated 50 barrels. Several flows after first run the initial production was approximately 500 barrels. In one hour it flowed 104 barrels. The well was converted into storage tanks.

The storage tank with about 250 barrels burned Friday night after the tank had been filled by the first flow. It is believed that either a spark caused the ignition or the gas pressure had settled near the tank.

The gas pressure seems to be better in No. 4 than in either Nos. 2 or 3. The bit reached the 3,060 level and it is understood that the company will deepen its present well, which is expected to increase production to perhaps 500 barrels or more.

It is officially reported that this well is now good for from 300 to 500 barrels as now stands.

Lake, will spud in today. The Shannon No. 1 of the Crockett Drilling Syndicate is drilling at 2800 feet and will be drilled to 4500 feet. If no production at this depth the well will be plugged back and shot at about 2850 feet.—Big Lake News.

Gambling at Carnivals Prohibited. Sheriff W. W. Satterwhite and County Attorney Carroll Barnett have pledged the three hundred and more women, who have asked that Carnival companies be prohibited from operating games of chance, petty gambling devices and questionable shows in our city in the future, that these objectionable features will surely be eliminated if it is in their power to do so.

The Sheriff and County Attorney in this connection desire the hearty cooperation of every organization in Big Spring and Howard County in seeing that the just and reasonable demands of these good women are complied with. If the various organizations which usually sponsor these carnivals and shows will refuse to sign up with same to come to our city and operate their questionable games and devices the matter can be readily handled. If however you feel that your rights are abridged by this reasonable request, you can at least ascertain from the officials what of the various devices are prohibited under our laws. Better do this than sign up with some carnival which may assure you they can "get by," only to have charges of gambling filed against all who operate games which are purely petty gambling.

The plea that it is for a worthy cause has enabled the carnivals to "get by" because some responsible organization has lent its name as sponsor; but in the future all games and devices must be permitted by law or they will not be tolerated in our city. It will therefore be well for the various organizations to join wholeheartedly in this movement to discourage the shows and carnivals which depend on near violations of

Precinct Conventions Sat., May 3rd. Precinct conventions are to be held throughout our county at 1:30 p. m. Sturday, May 3rd for the purpose of electing delegates to the County Democratic convention. The various precincts are entitled to elect the number of delegates listed: Big Spring; precinct one, 3; precinct two, 5; precinct three, 9; precinct four, 5; precinct five, 1; precinct six, 1; precinct seven R-Bar, 1; precinct 8 Auto, 1; precinct nine Coahoma, 5; precinct eleven Center Point, 3; precinct twelve Moore, 1; precinct 13 Knott, 1; precinct fourteen Morris, 1; precinct 15 Soash 1. Because so few of our folks took the trouble to vote in the general election in 1922 our representation in the State Democratic convention will be much less than it should.

The same is true as to our County convention which will be held Tuesday, May 6th.

To Remodel Bank Building

C. A. Talbot has been awarded the contract for remodeling the First State Bank building in this city, work to start as soon as material arrives.

The bank building is to be overhauled and rebuilt and will be one of the finest, most conveniently arranged and best lighted banking institutions in West Texas. A new granite front will be installed, and a new tile floor will be laid in the granite front will be erected, and more skylights and larger working quarters will be provided for the benefit of the employees.

Two vaults will be built; one for the bank's use and the other for safety deposit boxes. These vaults will be constructed of reinforced concrete and will be as substantial as any that can be constructed, practically burglar proof, and of course, fire proof.

Handsome and substantial furniture and fixtures to harmonize with the handsome new building will be installed.

The remodeling of the building and new fixtures will cost approximately \$20,000.

J. F. Plock who underwent an operation for appendicitis at the T. & P. Hospital at Marshall two weeks ago is now able to be up and is getting along fine. He will spend his time in Fort Worth and Dallas until he is able to return to work so it will be some time before he returns to Big Spring.

METHODISTS OPEN REVIVAL SUNDAY

Rev. M. Phelan Will Conduct the Services and the Public is Extended Cordial Welcome

The revival meeting at the Methodist Church will open next Sunday, with a communion and consecration service Sunday morning at 11 o'clock, and a regular preaching and evangelistic service at night. The pastor will do the preaching during this meeting, and Mr. J. M. Manuel will lead the congregational singing. Our choir has made special preparation for this meeting in organization and practice, and we can at least promise the public splendid music and singing. All singers are invited to come and take part.

This is the time for all the church membership to show themselves and to show their colors, and we hope for a large attendance at all services. A special meeting is called for 4 p. m. on Sunday for conference, and we want a good attendance of officials and members at this meeting.

Members of other choirs and churches are invited to attend and take part with us, and the public generally has a special invitation to attend our services, especially at night. The hours for the services during the week will be announced.

Stolen Automobile Recovered

A Maxwell coupe belonging to P. L. Fletcher of Coahoma which was stolen from Coahoma has been recovered at Tahoka. A young man who has been working around Coahoma has been arrested at Tahoka and is being held by the sheriff. He had in his possession a suit of clothes belonging to Mr. Fletcher.

Automobile thieves should consider that every automobile stolen in Howard County the past two years has been recovered. This record should discourage the slickest auto thief in the country.

Campbell's Tailor Shop Moved

James Campbell this moved his tailor establishment from its former location at 112 Main street to the Pike building, 211 Main street—in the space formerly occupied by the F. P. Woodson grocery.

Mr. Campbell was compelled to move because the Postal Telegraph Company had secured a long lease on the building at 112 Main, where they will maintain a commercial telegraph office and also install a plant to take care of "boosting" the messages over the long distance between Fort Worth and points West.

Miss Margaret Weisen after a visit with her parents Mr. and Mrs. Max Weisen, left Wednesday night for her home in Fort Worth.

SHOULD BOOST FOR W. W. RIX

Howard County Should Send a Delegation to Brownwood to Help Elect Him President

Big Spring has a fine chance to win the honor of having a home man elected to the office of president of the West Texas Chamber of Commerce. The committee in charge of his campaign are receiving hearty endorsement of his candidacy from many points in West Texas.

If Big Spring comes alive and sends a big and aggressive delegation to Brownwood there isn't a doubt but that W. W. can be elected.

San Angelo is going to send 500 delegates to boost for their candidate, and Eastland County is going to send 1,000 delegates to boost their candidate.

Much interest is being manifested in this race as is shown from the following article from the Fort Worth Record:

"San Angelo is more concerned over putting Walsh in the presidency of the organization than the selection of the next meeting place," chamber of commerce officials and business men declare. That is one of the reasons that San Angelo is preparing to send 500 delegates to Brownwood "to fight it out," as they express it.

Pitted against Walsh in the race for presidency are W. W. Rix of Big Spring and Colonel R. Q. Lee of Cisco. The former is a member of a firm which operates a chain of furniture establishments from Big Spring to Lubbock. He is an outstanding figure in the development of the West. The latter is president of the Cisco and Northern railroad, a financier and capitalist. Mr. Lee is very strong in the oil field and other sections.

The three-cornered race is expected to develop much rivalry among the sections and thereby add to the interest and speculation that will attach to the convention this year in Brownwood. Walsh headquarters here it is learned that almost all this section, especially the sheep and wool territory, is lined up solidly for the San Angelo candidate.

From the Lee headquarters at Cisco comes word that the entire oil belt is ready to buckle on its armor and make the fight at the Democratic national convention in New York look like a mere bagatelle beside the scrap at Brownwood next month.

Harking from Big Spring way comes tidings that the West and much of the Plains is ready to measure swords with the sections that want to put over Walsh and Lee. All in all, the fight is going to be spectacular. The nominating committee is reported much troubled.

Rabbit Drive at Phillips' Ranch

That the rabbit drives which have been held at the various points in our county have been instrumental in thinning out these pests was evident in the drive south of Big Spring Tuesday.

Forty hunters covered a six and one-half section territory and only killed about 700 rabbits. The rabbits were supposed to be plentiful down that way but this hunt proved they are disappearing.

The hunters enjoyed a fine barbecue dinner with everything else good to eat that one could wish for at the noon hour at the Hart Phillips ranch home.

Stanton Manager Says no Game

Mr. Haynie of Stanton, manager of the Stanton baseball team was here Tuesday and requested The Herald to announce that the proposed game between Stanton and Big Spring would not be held next Sunday.

Our Booster Edition

The Booster Edition of The Herald that the City Federation is getting out, is now in the final process of completion. So generously have been our merchant friends, of every line of business, that we have increased the size of our paper from 32 to 40 pages, to accommodate the 20 pages of advertising in booster material thus secured. Alternating with these ads, we have 20 pages of reading matter.

These are some of the various things you will find upon our Booster pages: Our schools and churches, together with mention of various fraternal orders.

The Y. M. C. A. and all its phases of activity.

The Experiment farm; Our American Legion; The Elks and their work; Interviews with prominent ranch and stock men; our potash possibilities; Chamber of Commerce; Our Women's clubs; Department of Household Hints; Department of Civics and Health; Department of Matrimonial and otherwise; A section devoted to our famous brief; Music and Arts departments; Question and Answer department; poetry and invention; railroad and shops; progress and development in building.

These are only samples of the many, many good things with which our enormous Booster paper groans.

The Editor is indebted to scores of men and women who have been so kind about helping in every possible way to make our paper a success!

Orders are already coming in. For our annual Tag Day to be held in May, we plan to sell our Booster Herald, ten cents per copy, and tag free all our friends who buy. It has been the earnest desire of the City Federation to give a Booster paper that will be "different." The force that is working day and night to have it ready for the Brownwood Meeting, assure us it is unique—nothing like it in all their years of varied experience!

Place your orders early for our fair West Texas Chamber of Commerce Maccabee Ladies Entertainment.

The members of Review No. 45, Woman's Benefit Association of the Maccabees entertained Mrs. Sallie D. D. Botzler of Dallas, Deputy Supreme Commander and Mrs. Lillie Holford of El Paso, district deputy, Saturday, April 26 and Monday, April 28.

Especially interesting sessions, also presided over by Commander were held while the visiting officials were here. Very instructive talks were made by the Deputy Supreme Commander and the District Deputy. Mrs. Koberger after responding for the Review presented Mrs. Botzler and Mrs. Holford and also Mrs. W. A. Miller, a former Commander of No. 45, who accompanied Mrs. Holford here from El Paso, with a remembrance from the Review. Each expressed their appreciation for the gifts.

At the close of the meeting Monday, refreshments consisting of sandwiches, fruit salad, ice cream and cake were served by a committee composed of Mesdames Rogers, Morris and Hayden.

New enthusiasm was aroused by the visit of the officers and plans made for the year.

Stanton Defeats Big Spring

In a very closely and interestingly played game of baseball Stanton defeated the Big Spring team here Sunday 5 to 4 in twelve innings. The game was nip and tuck throughout and the score was in doubt until the first of the twelfth inning when a walk, a stolen base and a passed ball resulted in Stanton winning the game. Very few errors were made by either side and Stanton showed well enough that they were out to win from the start.

Stanton scored in the 6th, 7th, 8th and 12th innings, while Big Spring scored in the 2nd, 3rd, 5th and 9th. Winslow pitched a fine game for Big Spring as did Newsome for Stanton. A good crowd was out to see the game and everyone was well pleased.

"Wake Up"

Come to town and hear the band from 11 to 12 Friday, May 2nd

Dallas Boosters, 150 strong will parade here. They will distribute souvenirs. Every auto show Dallas the liveliest town in West Texas.

Sells 38 Registered Hereford Bulls.

That it pays to advertise by letting folks know what you have, and especially so if you have the best is proven in the case of I. B. Cauble, breeder of registered Herefords and owner of the Cauble Hereford Farms here.

Mr. Cauble took a small number of his Herefords to the Fat Stock Show at Fort Worth in March and folks who saw his fine animals were eager buyers. He has disposed of his entire 1923 crop of Hereford bulls, thirty-eight in number, at prices ranging from \$125 to \$1,000.

Purchasers here last week took everything he had to offer. G. W. Stephenson of Sonora made the trip of 190 miles with a truck to take two of the Cauble Herefords to his ranch.

Thompson Bros. of Austin who own large ranches in Schleicher and Sutton Counties purchased ten registered Hereford bulls from Mr. Cauble last week, these animals being delivered at San Angelo Tuesday.

Ten discriminating buyers have sought out Cauble's Herefords this year and everyone of these buyers will seek more animals of the same breed from year to year because they are bred right and from a true strain.

Enjoy the Rabbit Drive

In the neighborhood of 500 long-eared bit the dust in a formidable drive on the Hart Phillips and John Phillips ranches last Tuesday. Some 50 citizens, captained by J. J. Phillips, Jack Arrington, G. W. Overton, T. I. Hardin and El Capitan Johnson caught the unsuspecting enemy in a cross fire of shot and little chance had Mr. Rabbit. Several ladies accompanied the warriors and contributed much to the slaughter, and incidentally prepared a sumptuous feast for the noon hour. The North side bunch, although they had the easy riding took off all the honors in the drive.

Have You Made Up Your Mind?

Every day we encounter someone who has not yet decided whether or not he is going to Brownwood, May 12th. Guess they plan to wait until the last minute—only to find it is too late to secure them the accommodations they might desire. Let the C. of C. know today if you intend to go.

Fast Ball Game Sunday

Quite a large number of baseball fans were at the ball park last Sunday afternoon to witness the game between Big Spring and Stanton and this was one time every spectator agreed that he received his money's worth, and then some. The game went twelve innings and was won by Stanton by the score of 5 to 4.

Jim Winslow pitching for Big Spring had only one bad inning—the seventh when the Stanton players made three scores. They made one in the sixth inning and the winning run in the twelfth. Frankie Rutherford made a home run the first time up for Big Spring but the Stanton pitcher tightened up, and the Big Spring batters swatted 'em high so the fielders could get them.

Fine Rain Encourages Planting

A large portion of our county came in for fine showers last Thursday night, this rain storm coming from the southwest and being most generous to that portion of the county. In most of the county the rain was sufficient to warrant planting and the farmers lost no time in getting their planters in operation.

This rain of course came at a time when it could be appreciated and our only kick is that the entire county was not soaked.

Anyway the showers are getting started and we expect plenty of rain during the present month.

City Federation Meets May 6th

The regular monthly meeting of the City Federation will be held at the Rest Room at 3 o'clock Tuesday afternoon, May 6th.

All members are urged to attend this meeting as some special business will be up for consideration.

Recital Thursday, May 8th

At the First Baptist Church at 8:00 o'clock Thursday, May 8th, Mrs. Harry Hurt will present her music pupils in a recital.

The public is cordially invited to attend.

J. W. McCutchan and Will Dempsey of Lamesa were here Thursday enroute for an auto trip to Junction City, Del Rio and Uvalde in the hope that a lower climate will benefit Mr. McCutchan's health.

Bascom Reagan and family spent last Sunday in Sweetwater.

Herald want ads get quick results.

Garden Winners at the White House

Boy and girl winners in the National Garden Contest, conducted by the Department of Agriculture, were greeted by President and Mrs. Coolidge, their rewards for best gardens. Front row: Charles W. Krueger of New York and Grace Bush of Ohio. Back row: Mrs. Naplee and Hugh Johnston of Ohio and Henry De Long of Ohio.

Fights Corruption

Senator James Couzens of Michigan, another multi-millionaire at Washington—who, like Frank A. Vanderlip of New York, is spending his own money to weed out corruption in public office. Senator Couzens personally engaged Frances J. Heney, to assist in investigating the Internal Revenue Department.

Won When Bobbed

Ruth Ellington of St. Paul was "passed by" by the judges, so she rushed out and had her hair bobbed, then returned and was selected "Queen" in the city's beauty contest.

Daugherty Ignored Evidence Against Tobacco Trust

HUSTON THOMPSON

HARRY N. DAUGHERTY
Huston Thompson, Chairman of the Federal Trade Commission, testifies that the Commission tried for a year to get Attorney-General Daugherty to start criminal prosecution of the Tobacco Trust, on evidence collected, but had been unable to get even an answer from the Department of Justice. The Wheeler Committee is now investigating the charge that Daugherty's old law firm was attorney for the American Tobacco Company.

Daugherty Sat Silent While Tobacco Trust Mulcted Public

Written Specially for The Herald
By Edward Percy Howard
(Through Autocaster Service)

Disclosures before the special Senate Committee investigating the operations of the Department of Justice, some months ago to the effect that any effort to stop the exploitation of either the tobacco growers or the consuming public would be quite futile under Daugherty's administration.

It is now known that the Federal Trade Commission has made several attempts to have the Department of Justice modify a decree so as to restrict certain operations by the tobacco companies to hold down the price paid for raw material to the grower and yet keep up the prices charged the consumer. Every such attempt, however, has been blocked and ignored.

Houston Thompson, chairman of the Federal Trade Commission, was the chief witness before the investigating committee when tobacco was dragged into the sunlight in the place of oil.

Thompson testified that the last case the Commission had sent to the Department of Justice in the hope of getting criminal prosecution was one involving The American Tobacco Company and the Lorillard Company. This was as far back as 1922.

The first complaint submitted in detail and accompanied by a letter of complete explanation was utterly ignored by the Department of Justice. A second letter followed and again not even the courtesy of an acknowledgment was received by the Federal Trade Commission.

The complaint was for alleged violation of the Sherman Anti-trust law. There was no lack of evidence upon which to base a proceeding. However, it was impossible for the Commission to get action of any kind until the Keller impeachment proceedings against Daugherty were started. Then Daugherty seemed a little more interested in the tobacco situation. He even sent some attorneys from the department to confer with the Trade Commission, but even after that nothing resulted. Every tobacco case remained unprosecuted.

Senator Wheeler caused a laugh when at this point he said, "Well, the Keller investigation did some good, then, after all."

Thompson's testimony links the former attorney general with neglect of duty and wrongdoing more thoroughly than any evidence that has yet been produced. The expectation is that the tobacco probe proceeds further inactivity will be disclosed for there are a great many

cases pending against the tobacco companies in which so far the Commission knows absolutely nothing has been done.

The Committee is now seeking the reason why Daugherty failed, neglected and refused to prosecute the Tobacco Trust.

Charges have been made that Daugherty's old law firm over in Ohio was attorney for the American Tobacco Co., and the Committee seeks to determine if that was the cause of Daugherty's failure to prosecute.

The spot-light will next turn on the new Attorney-General Stone, to see what action, if any, he will institute to protect the tobacco growers on the one hand and the tobacco consuming public on the other, as against the Tobacco Trust.

THE PASSING DAY

By Will H. Mayes, Department of Journalism, University of Texas

The Honey Grove Citizen calls attention to the fact that a recent murder trial cost Fannin County more than \$1,000. If the Citizen will make a closer study of the question it will find that the average cost of murder trials exceeds \$1,000. In the case referred to, doubtless the time of the court officers—district judge, attorney, clerk, sheriff and other court attendants—was not considered, nor was the expense of the grand jury and its officers. While allowance was made for jury and witness fees, the fees paid to jurors and witnesses in no way compensate them for the time given to such trials. It would be nearer correct to say that the average cost of a murder trial in Texas is \$2,000, which is but a small sum when compared with the industrial loss due to the murder. Texas pays too much for murder and too little for schools.

The West Texas Historical Association has been organized for the purpose of preserving the history of that part of the State. Most states consider themselves fortunate in having a state organization for that purpose, but Texas is so large and has so much history that these division associations can serve a most useful purpose. One of the benefits that will come from the proposed Texas Centennial Exposition will be an awakened interest in the history of the State. There is much of historic interest hidden away in attics that the Exposition should be the means of bringing to light.

and is not considered one of Texas' wealth counties, but that county held a fair last year that made a net profit of 30 per cent, that starts in this year with a nice cash balance, and that will be enlarged in every department. The citizens are showing much interest already in the preparation of exhibits. The county fairs throughout the State are developing a county spirit and pride that are sure to redound to the good of every community where fairs are held.

The Texas Interscholastic League meets throughout the State, culminating in May in the final meet at the University of Texas, are doing much in the development of Texas young people. The contestants get acquainted with each other in a way that creates permanent friendships, and the various intellectual and athletic contests develop the best that is in youth. I heard several debates last week that would have been creditable to groups of leading lawyers and orators and showed an understanding of governmental questions hardly conceivable in such young students. The astonishing thing in connection with these debates was that the young girls were as well informed on the subjects debated as the boys, and were even better in the presentation of the points involved. Our grandparents would have thought this impossible.

San Saba has organized a "Seventy and Over" club, composed of those who have reached seventy years of age. That is a good kind of a club provided it does not allow itself to grow too reminiscent. It does not pay to allow the mind to dwell over-much in the past. While not forgetting the past, we should, as we grow older in years, live joyfully in the present, availing ourselves of the opportunities of the day, and looking hopefully toward better days yet to come. Much retrospection is likely to develop morbid introspection. So far as it is humanly possible the aged should try to keep in touch and sympathy with all that is young about them.

Texas is abloom now, and the whole State looks like a great flower garden. Nature has done wonders in supplying the most gorgeous flowers and in distributing them so that almost every one may get them in great abundance for the gather-

"THE HOUSE THAT QUALITY BUILT"

The Tool That Gets Results

A revolver in the hands of an insane man is a perilous menace to society, but we do not condemn the revolver for its wild or foolish application.

Advertising can be misused. Like all great forces it must be planned and directed with intelligence.

In the big job of making business be of service to both buyer and seller, advertising is the best tool that can be used.

Those who have used advertising have seen what it has been able to do in the way of establishing better relations with their customers.

Advertising is as necessary to the bank, particularly the one offering a diversified service, as it is to the retail store.

It is a powerful force and no one deserving the right to apply it to his business should be denied that right.

Manufacturers during the past few years have had an opportunity to measure as never before the real worth of their advertising.

They have seen their trade-marked lines hold up in sales and their unadvertised goods shrink to a small percent of their former volume.

Retail merchants can tell a similar story. The number of makes carried of each item has grown smaller until only the best known and most frequently called for are kept in stock. They have learned that their customers want advertised goods.

ing. The bluebonnet, the Indian pink, the cactus—multiplied acres of them—are vying with dozens of other native plants in the effort to put on the most beautiful display imaginable. Get out in the great open and reveal in the pictures painted for you and that may be enjoyed without cost.

Liberty and Justice for All

A recent proposed bill in a state legislature would have made it unlawful to teach in a public school "any theory or doctrine contrary to the teaching of the Bible." Luckily for teachers, students, legislators, courts and judges, the act failed to become law. For who is wise enough to decide what is "contrary to the teaching of the Bible?"

Doctors of divinity cannot agree. Churches cannot agree. Students cannot agree. The wisest men of all ages have disagreed as to the interpretation of many portions of the Bible. To give to any man, or any set of men, the legal power to say "this is contrary to the teaching of the Bible, but that is in accord with the teaching of the Bible," is to hamper free thought, and put in the hands of the few, the right to dictate the religious belief of many.

This nation was founded upon toleration of religious belief. The right to worship God as one pleases is an inherent American right. The man who believes it is against the teachings of the Bible to pick a flower on Sunday has as much right to his opinion as has the woman who thinks flowers were made to pick and sends her babies into the country on the Lord's day to enjoy his jewels. The man who believes that some of the teachings of modern science are con-

trary to Biblical revelation has as much right to his opinion as has the scientist who finds no conflict between the Great Book and the "books in the running brooks, sermons in stones and good in everything" which his laboratory teaches him.

Through discussion, talk, the printed word, teaching and argument, man struggles through ignorance and darkness to truth and light. What is sunshine for one man is darkness for another, and each believes he is right. The forefathers of this nation decided in their wisdom, that, so far as the law was concerned, both are right. Any attempt to take away that liberty of thought, to interpret the Bible or any religious belief, by law, for any one, is an encroachment upon the inalienable rights of American citizens, and should be resisted stoutly by all who have the cause of true religion, true knowledge and true freedom at heart.

1882 **J. & W. Fisher** 1924
The Store That Quality Built

Large Crowds Attending Meetings.

Last Sunday was a big day in the evangelistic campaign at the Church of Christ. The day began with a record breaking bible school, and closed with a packed house and scores turned away at the evening service. It was a day of inspiring music, uplifting sermons and wonderful fellowship. The contest between the Reds and Greens is going strong, and creating a great deal of enthusiasm. At the evening hour the big chorus choir of thirty voices under the direction of Miss Charlie Reeves, rendered splendid service. The children's Bible drill and Junior chorus conducted by Howard T. House and Will Reeves began on Monday night. Between 30 and 40 children from the various churches and Sunday schools of the city are taking the work which has been assigned to them of school age, up to 15 years old. The class meetings are starting at 7 o'clock at the church. Between 30 and 40 have been baptized every evening at 7:30. It was announced that on Friday night Dr. Vawter will speak on the subject, "What Must I Do to be Baptized." Sunday morning will be the third of the series on the Lord's Supper. The theme will be "Why we Practice Open Communion." Sunday evening "Why I Love the Old Book."

The above clipping is from the Sun, Redwood Falls, Minn. The Dr. C. R. L. Vawter mentioned will be in Big Spring in July to assist in the big revival to be held here by the First Christian Church.

Notes From Ackerly

The members of the Polyantha club were delightfully entertained on Wednesday afternoon, April 16th by Mrs. Ervin Stewart, assisted by Miss Pearl McClure, at the home of their mother, Mrs. W. L. McClure. Plans for a play, which is to be staged by the ladies to help raise funds for furnishing the Methodist Church, which is to be started soon, were mapped out and the play, "The Red Carpet Bee," was decided upon as the one suited for the occasion. Very appropriate and impressive music filled the afternoon's program. Appetizing refreshments of iced lemonade, cakes, jello and whipped cream were served to Mesdames Walter Williams, L. E. Parmley, W. A. Earnest, J. B. Burns, Flint Cosby, Lester Brown, Mosley and Forest Parker.

Thursday night and Friday afternoon brought refreshing showers of rain to our section of the country. Some hail was also intermingled with the rain on Friday.

The members of the Methodist Church met Sunday morning and organized a Sunday school composed of four classes, primary, junior, senior and Bible class. The classes assemble each Sunday at 10 o'clock and we are glad to extend a cordial invitation to all who desire to be with us at these meetings.

Mrs. J. B. Burns has been real sick with pneumonia. Mrs. J. T. Stewart has been confined to her bed for several days on account of having stuck a nail in her foot.

Mr. Glen Shoemaker and Miss McEachen were married last Thursday night at Big Spring. Reporter.

This is to certify that at a stockholders meeting of the First State Bank of Big Spring, Texas, held at banking house on March 31, 1924 the stockholders voted to convert to a National Banking Institution and the conversion will be effective on May 20th, 1924 and that on and after that date the business of the said bank will be operated as a National Banking Institution and that the depositors will not be protected under the depositors guaranty fund of the State of Texas.

On and after May 20th, 1924, said banking institution will be known and operated as The State National Bank of Big Spring, Big Spring, Texas. 32-41

Card of Thanks

It is with the greatest appreciation that we extend thanks to our friends for their most kindly help during the illness and death of our dear beloved wife and mother. The beautiful flowers sent by the good ladies afforded her much pleasure while she lived. May God's richest blessing ever be with you all.

Phone 192, Lamesa, Texas, for flowers for Mothers Day.
MRS. J. R. WEAVER
Will also pack and mail packages.

Presbyterian Auxiliary Notes

The business meeting of the Auxiliary last Monday was well attended and most interesting.

The Circle reports for the first meeting since the shifting of members were excellent. The new year books were distributed, the blanks filled in and the yearly budget decided upon. The new White Cross work, which is the making of surgical supplies for hospitals in the Foreign fields, was briefly discussed and will be taken up more fully later.

On Sunday night, May the 18th the Auxiliary will have charge of the services. The birthday of the Auxiliary and of the Training School at Richmond, Va., will be celebrated at that time, with an appropriate program of musical numbers and talks by the women. Further particulars will be given later.

Next Monday at the church at 3:00 o'clock the meeting will be devoted to Bible study. Each member is asked to come and bring her Bible or Testament and an hour's study on the sayings of Christ in Matthew's gospel will be taken up together.

Nyal's Face Cream—You'll like it. It's better. Clyde Fox Jewelry & Drug Co.

Wall paper will make you enjoy those old rooms more. . . . Cunningham & Phillips.

Bessie Wills of Los Angeles, Calif.

FEVER

In fever the pores of the skin closed. Excess heat is being produced in the body, but is not being carried off in the usual way, by perspiration, because of the closed pores. Chiropractic Massage treatments reduce fever in a natural way, by causing the pores of the skin to open, so that the excess heat. You can prove for yourself the next time you have a fever, with a cold, sore throat, or bilious attack. No matter how long fever ever runs course under Chiropractic Massage treatments.

Saving and Spending

Everything considered, we are more prosperous than at any time in the history of this country. True prices for everything we buy are too high, and prices for everything the farmer and livestock raisers have to sell are too low, in comparison.

The farmer's dollar is only worth in purchasing power about 67 cents. A very large majority of both city and country people wear good clothes and ride in automobiles. Most everybody, men, women and children, attend picture shows, and most all take in every circus that comes, and few are so poor that they have to crawl under the tent to see the performance.

Many unfitted for the job are leaving the farm for high wages in the city, and when the exodus is thru, these competent farmers remaining will supply the demand for food and fiber, and secure prices on a more even level than they are now getting.

Appetites and digestive organs only require sufficient food to satisfy them. Why produce more? There never was a time when it was easier to borrow money or contract debts than it is right now.

When you come to town, the signs of money lenders, both honest and grafting, meet you everywhere.

Too many are borrowing and spending. Too many are otherwise getting in debt for things they could well do without. There are times when it is wise to contract a debt or borrow money. It is rarely profitable to do so.

Young people, particularly, should work and save. After they have established themselves beyond the fear of the proverbial rainy day, and as middle or old age catches up with them, it is wiser to spend for necessities, and even for luxuries, only the net income.

Hoarding money or property beyond a competency, and beyond the possibility of financial disaster, is just as foolish as spending when one can't afford it.

All come into this troublous old world without bringing anything with them, and when they take the final long journey, they take nothing with them.

While living, endeavor to help, as far as possible, as many others to secure happiness and prosperity, and get as much sane happiness as you are able to secure between the time you arrive and depart.

If you know a better philosophy, let us know about it. W. R. Purser & Sons, Ranch.

5-Passenger Car at a Bargain

An Elgin, 5-passenger touring car, to go at a real bargain, for cash. Call at 306 Johnson street. It

The Forty-Acre Farm

Many farmers who are now renting would own farms if they could satisfy themselves that they could make a good living on forty acres. But with an average cotton production of 135 pounds of lint per acre, corn around twenty bushels and other crops in proportion, many are afraid to make an investment in a farm unless they can gain control of at least 160 acres. Many of those who have tried buying 160 acres with only a small payment down have found the struggle to make payments and keep up the interest just a bit too much and have gone back to renting.

There are many forty acre farms in Texas and in other States that are producing a good living for a family and something besides, but these farms have been built up to a high condition of fertility, and the owners make it a practice to diversify and produce food for the family and feed for the livestock before they produce for the market. Forty acres without poultry and livestock and bare of orchard and garden, no matter where it is located, will not produce a good living for a family, on a ten year average, and the man devoted to one crop farming had better remain a renter rather than try to own and devote his entire time to a small farm.

If the five and ten acre yield contests in Texas this year are successful from an economic standpoint, it is possible that many farmers who are now trying to operate a large acreage with inadequate capital will be converted to the small intensive cultivated farm idea. Many small farms properly managed are paying a greater profit than large farms. There should be more profitable small farms in Texas. Farm and Ranch.

Tax Exemption Curse of Government

In commenting on the necessity for doing away with the tax-exempt bond the Commercial Appeal of Memphis says: "All over the country there has been a demand that no more tax-free bonds be issued. The demand is plain. It is the privilege of the citizen to invite a man to risk his money for him."

"The country grows through industrialism. The country is great because railroads cut out all through it and because there are mines, steel mills, lumber mills, factories, automobile plants, furniture factories, cotton mills and packing plants."

"Now, if these industries issue bonds they are taxed, and, being taxed, they must pay a high rate of interest. The public must, therefore, pay bigger money for the products of these industries because their taxes are high."

"The public pays the taxes on so-called untaxed bonds. The government needs money to run. The holder of an untaxed bond pays nothing. A producer who pays an income tax makes up the deficit along with buyers using taxed products."

"Under the present system certain securities are escaping taxation. This thing has cursed governments from the beginning. It is the first start of privilege."

It is remarkable the length of time Congress can resist this tax reform which is so necessary to equalize present day tax burdens.

Beautify Your Home

A fine living-room suite would be appreciated by every member of your family and we can furnish you same at very reasonable prices. Call and let us prove this to you. W. R. Purser & Sons.

The Improving Country Press

Chas. Moreau Harger, in the April Scribner, discusses the powerful influence which the rural press has exerted in the making of a nation: "Coming as it does close to the hearts of its readers, the old home paper—even if its policy be not always commended—commands respect and confidence."

He shows that to the family in the country town or on the farmstead, the weekly visit of the country paper or the small city daily is an event enjoyed by all.

Cartoonists in the metropolitan press have visualized for the public a ridiculous and peculiar type as representing the country editor's personality but this writer shows that his readers know him and are not disillusioned.

"He is close to his constituency. Further, it is a constituency with more leisure than any other, more time for reading the news and opinion of the day." This makes the country paper a vehicle of opinion and a mode of political leadership.

The country paper is loyal to the government and continues to take a large part in earnest discussion of public affairs, from a disinterested standpoint. It is the country weekly and smaller city daily that makes the path of radical and demagogue difficult, standing as it generally does for prosperous, independent American homes.

Average Motorist's Signal Code is a Dangerous One

Have you ever stopped to consider the signal code of the average motor car driver? It is a very simple code and not in any sense difficult to acquire. It follows:

To indicate a right turn—stick out your hand.

To indicate a left turn—stick out your hand.

To indicate that you are about to stop—stick out your hand.

To indicate that you are about to back—stick out your hand.

To emphasize your conversation with your fellow passenger—stick out your hand.

To flick the ashes off your cigar—stick out your hand.

This is a generally accepted code. Under the circumstances it is remarkable that accidents are not more frequent, although the present toll in human life and limb is appalling and steadily growing.—Fred Caley.

New Building Next to Slaughter's Filling Station

Our country and municipal expenditures have doubled in seven years increasing from \$1,214,000,000 in 1914 to \$2,460,000,000 in 1921. Taxation grew from \$330,000,000 to \$1,126,000,000, or 23 per cent. federal taxes increased 619 per cent in same period. Direct taxes aggregate more than \$200 million for every person able to engage in productive effort in our country.

Remember the food sale Saturday by the ladies of the First Christian Church—in basement of First Christian Bank.

Electric railways of the States will spend \$362,000,000 in 1924 for purchase of new plant, equipment and maintenance materials. Of this total \$150,000,000 will be expended for improvements and expansions.

Old Folks' Ailments

"I began taking Black-Draught over fifty years ago and my experience with it stretches over a good long time," says Mr. Joe A. Blake—more, a Civil War veteran and former Virginian, who is now a prominent citizen of Floyd, Texas. "It is the best laxative I know of for old people. A good many years ago, in Virginia, I used to get bilious and I found that

Theford's

BLACK-DRAUGHT

was the best and quickest relief I could get. Since I came to Texas I have these bilious attacks every now and then—a man will get bilious anywhere, you know—and I find that a little Black-Draught soon straightens me out. After a few doses, in little or no time I'm all right again." Theford's Black-Draught is a purely vegetable liver medicine, used in America for over eighty years. It acts on the stomach, liver and bowels in a gentle, natural way, assisting digestion and relieving constipation. Sold everywhere.

Use More Water in Concrete

Some years ago considerable attention was attracted by a toy which provided means by which a boy could make his own building blocks out of portland cement mortar, but for some reason many of these blocks were not a success. The reason was finally discovered. "We put the blocks on the radiator to dry and as soon as they were dry they crumbled all up."

This serves to illustrate how far most people fail to realize the definite distinction between the hardening of lime mortar and the setting of portland cement. The first is accomplished by dehydration or drying out. The second takes place through a crystallization, requiring the presence of water until the process is complete.

The failure to understand this distinction has been responsible for many concrete failures. Sometimes the fault is not the result of ignorance of the action of cement but of failure to appreciate the extreme evaporating powers of hot sun and dry air. Concrete work in desert areas has given considerable trouble from this abuse. The water evaporates before the concrete is thoroughly cured, with the result that much of it disintegrates while other portions are of extremely low strength. It is of no small interest in this connection to note that it has been found by experiment that the application of water to concrete, which is weak because of this cause, may be measurably strengthened by a subsequent period of thorough saturation, even though several years have elapsed since the concrete was poured. But this example is an extreme one. The same faults have occurred to a minor degree in humid climates. Concrete must be protected against evaporation of the water of crystallization until the process of curing is thoroughly completed.

Our business last month showed an increase over November or December—we are humbly grateful for this and sincerely thank you. P. & F. COMPANY.

President Brady of Federation Bank says there are 20 labor banks in United States with capital stock in excess of \$4,000,000 and over \$40,000,000 in surplus and deposits. He estimates total resources at \$50,000,000.

Report of Food and Drug Inspector.
As Foods and Drug Inspector with the State Board of Health, I have finished an inspection of Big Spring and find the food handlers generally in good shape and willing to comply with the law.

In cooperation with the City authorities, a cleanup campaign was put on in the business section, giving special attention to back premises and vacant lots. This was put on in order to prevent the breeding, as far as possible, of flies and mosquitoes, and it was very gratifying at the manner the business in a neighborhood. It is to be hoped the clean-up will be continued and extended until all the tin cans, waste paper, trash and rubbish is removed from the entire city. Then when your sewage system is completed, all breeding places, such as toilets and cesspools, can be removed. The installation of the sewage system in Big Spring was a fine sanitary and forward movement and the citizenship is to be congratulated.

In the clean-up of the business section, each business house was requested to clean their back premises and accumulate their tin cans, waste paper and rubbish so the city wagons could gather and haul away.

Two days later a second inspection was made and the places were graded according as to whether any cleaning had been done and those who cleaned up were given 95 per cent, and those where some cleaning was needed but who made no apparent attempt to clean as requested were graded zero. The zero-grade does not mean that these premises were exceptionally dirty but that no apparent attempt was made to clean-up the accumulation of papers and trash as requested.

Below is a list of those visited and their grades: Pool-Reed Co., 95; per cent; Elite Confectionery, 95; Williams Dry Goods Co., 95; Cunningham & Phillips, 95; Frank Gary & Son Gro., 0; Yell Bros. Wins Colonial Dames Prize

Miss Nancy Hudnall of the Senior class of the Gonzales High School was awarded the annual prize of \$10 in gold offered students of the high school by the Colonial Dames for the best essay on colonial history. Miss Hudnall's essay on the Georgia colony was one of sixty submitted by students of the high school.

At informal exercises held this morning at the opening hour in the high school auditorium the presentation was made by Hon. T. E. Harwood in behalf of the Colonial Dames, Mr. Harwood paying a tribute to the organization for their efforts in presenting the deeds of these first settlers of the original colonies and their laudable efforts in creating a love and interest in young minds for the history of that early period.

The reading of the essay by Miss Hudnall followed the presentation and was heard with much interest, being an entertaining and able account of the founding of the colony and its early struggles.

The school joined in the singing of "America" as an opening feature and Principal E. W. Kee presided, introducing Mr. Harwood in a few brief remarks, in which he paid warm tribute to Mr. Harwood's efforts in preserving everything of historical nature with reference to Texas, and his authority on that subject.

It was through the efforts of local members of the Colonial Dames, especially those of Mrs. W. B. Houston, that the Gonzales High School is one of ten in the State on the list of schools to be offered this annual prize.—Gonzales Inquirer.

Miss Nancy is the granddaughter of Mr. and Mrs. Jno. Clarke of Big Spring, and will be remembered as a former student of the Big Spring public school.

Oats, chops, shorts and other feed. P. & F. COMPANY.

The WINDMILL with a RECORD

The Auto-oiled Aermotor has behind it 9 years of wonderful success. It is not an experiment. The Auto-oiled Aermotor is the Genuine Self-Oiling Windmill, with every moving part fully and constantly oiled. Oil an Aermotor once a year and it is always oiled. It never makes a squeak.

The double gears run in oil in a tightly enclosed gear case. They are always flooded with oil and are protected from dust and sleet. The Auto-oiled Aermotor is so thoroughly oiled that it runs in the slightest breeze. It gives more service for the money invested than any other piece of machinery on the farm.

You do not have to experiment to get a windmill that will run a year with one oiling. The Auto-oiled Aermotor is a tried and perfected machine.

Our large factory and our superior equipment enable us to produce economically and accurately. Every purchaser of an Aermotor gets the benefit from quantity production. The Aermotor is made by a responsible company which has specialized in steel windmills for 36 years.

The Best Way

- Honor the Chief—there must be a head to everything.
- Have confidence in yourself—make yourself fit.
- Harmonize your work—let sunshine radiate and penetrate.
- Handle the hardest job first each day—easy ones are pleasures.
- Do not be afraid of criticism—criticize yourself.
- Be glad and rejoice in the other fellow's success—study his methods.
- Do not be misled by dislikes—acid ruins the finest fabrics.
- Do not have the notion that success means money-making.
- Be enthusiastic—it is contagious.
- Be fair and do at least one decent act every day in the year.—Exchange.

DANCE AT KNOTT, TEXAS

There will be a Dance at the New Cafe at Knott, Texas, every Friday night at 8:00 o'clock. Good music and a good time. Everybody invited. 30-4t-pd.

Trotsky, Japs and U. S.
"Imperialistic America," spouts Trotsky as he leaps nimbly back into the limelight after a year's mysterious sojourn in shadow, "is carefully preparing for war."

Right now, he goes on to tell a shuddering world, the United States is developing a diabolical war machine with which it intends to snuff out "enfeebled Japan."

After that, he indicates, we will proceed to annihilate Europe.

All of which suggests that Trotsky must have spent most of his recent sojourn in a padded cell.

According to Rear Admiral Nomura, leading Japanese naval expert, we are not only already deficient in ships, but are daily getting farther behind.

Unless the United States immediately gets down and rushes to complete a whole flock of such ships, by 1927 Britain will have far more and Japan more than twice as many.

The United States for capital ships led by the Washington arms conference for America, Britain, and Japan respectively, has been fairly maintained, it seems, but in naval air strength and man-power we again lag sadly behind.

When we have it over Japan, the Japanese expert points out, is in destroyers and submarines. We have our share of those. But such ships are home defense weapons and virtually useless for offensive purposes 5000 to 8000 miles from their base.

Inasmuch as the only way to lick Japan—or Europe—is first to gain and keep control of the seas, this looks terribly like "preparing for war," doesn't it?

We may be headed towards war, but if so it is strictly unintentional. Our government is unaware of it and certainly is not making preparations for it. If it comes it will hit us before we know it.—Fort Worth Press.

The Stinnes Kind

Hugo Stinnes, the rich man of Germany who has now gone to whatever reward is his due, was very like the dethroned kaiser in many ways. Power was his ambition, his god. He sought it not thru blood and iron, as did the kaiser, but he reached for it thru money. Out of the varied conditions of his country he wrung his gold with equal facility and success. Whether prosperity or poverty reigned about him mattered little, for he made either and both turn a huge profit to his pockets. He was hard, cold, arrogant, egotistical and greedy. His only human attribute was a love for toys and his children, and that love was lost in the deep shadows of all the other and repulsive elements in his character.

The kaiser craved a power born of battle and desolation and death. Stinnes aspired to a power wrung from hunger and helpless slavish toilers. The world execrates such men because they take everything from it and give nothing and leave nothing in return. What the world beyond offers them no one knows and few care.—Fort Worth Press.

High School News

The Home and School club treated the Home Economics department to a picnic Tuesday, April 29. They went to the City Park in cars. There were lots of good eats, and everyone had a grand time.

The baseball game at Roscoe had to be called off in the third inning. The score was then 3 to 1 in favor of Roscoe. The two teams played Wednesday, April 30 in Big Spring at the ball park.

The members of the Home Economics department are planning a picnic for Saturday, May 3rd.

The Home Economics department of Big Spring was represented at the Girl's Clothing Contest in Galveston by Misses Nola Forrest, Essie Bradley and Josephine Pazdral, as chaperone.

Over five hundred girls from all over the State of Texas gathered at Galveston to compete against each other. Big Spring was represented in 4 feature garments out of 9. Miss Nola Forrest was fortunate enough to win honorable mention on a green voile dress that she had made. We are proud of our girls and next year we hope to send 7 girls instead of two. Big Spring must win next year.

We wish to thank the Home and School club for their aid. It was only by their help that it was possible for us to be represented. We also wish to thank every individual who helped us in a financial way or by giving us their loyal support. We hope each of you. And next year we hope that you will make it possible to send seven girls to Austin.

First Baptist Missionary Meeting.

The ladies of the First Baptist Church held their regular missionary meeting at the home of Mrs. A. T. Lloyd Monday afternoon, April 28, at 3:30 o'clock.

Quite a large number attended and enjoyed the interesting and instructive program, which follows:

- Leader—Mrs. C. T. Tucker.
- Subject—South America.
- Opening Hymn—Must Jesus Bear the Cross Alone
- Prayer—For our Missionaries in South America.
- Bible Study—Tithing—Mrs. Dodge
- Personal Service Period.
- Hymn—I Gave my Life for Thee.
- Prayer—For international integrity of the Americas.
- Seeing South America—Mrs. Tucker.
- A Circular Tour—Mrs. P. G. Stokes.
- Do We Need South America?—Mrs. Menger.
- Does South America Need Us?—Mrs. Buchanan.
- Protestant Missions in South America—Mrs. Strother.
- Brazil—Mrs. Homer McNew.
- Argentina, Uruguay and Paraguay—Mrs. Travis Reed.
- Chile—Mrs. Henley.
- Woman's Work—Mrs. W. W. Grant.
- Report of District Meeting of W. M. U. at Haskell—Mrs. K. S. Beckett.
- At the conclusion of the program delicious refreshments of cream and cake were served by Mesdames Lloyd, F. W. Bettie, and W. W. Hatcher, who were assisted by Mesdames Menger and Shick.

Silver Tea

On May 2, 1924, at 4 p. m. the mothers of the North Side will give a Silver Tea at the Central School building for the benefit of the North Ward school which was destroyed by fire several months ago. The public is given a hearty welcome to attend.

Program—Prayer—Rev. Strother. Reading—Polly Thomas. Remarks as to our school—Supt. Bittle.

Reading—Dorothy Jordan. Piano Solo—Nancy Dawes. Reading—Margaret Bettie. Vocal Solo—Zou Hardy. Reading—Janice Mellinger. Piano Solo—Dorothy Ellington. Reading—Thelma Louise Marlin. Our Home and School—Mrs. Koberg.

4 different kinds—fresh every day. **Clyde Fox Jewelry and Drug Co.**

A Powerful Picture

IT MADE BROADWAY STAND-UP AND CHEER

"The Silent Command"

Monday and Tuesday
MAY 5 AND 6

It's a story based on a plot of jealous foreign powers to destroy the Panama Canal. A big theme put over in a big way.

IMAGINE—the most terrifying storm at sea that your mind can possibly create—mighty ships being torn to bits on the rocks—waves as high as the top of the mast, the vengeance of the gods—men and supplies being washed overboard—and inside the cabin two men, one the enemy of every true American, with whom the other, a martyr to a nation's honor, is fighting to the last drop of blood to prevent a deadly message from being flashed through the air—

That's just one of a thousand sensational thrills in this mighty drama of love and intrigue on the high seas.

General John J. Pershing, commander in chief of the U. S. Army, says: "I have seen "The Silent Command," produced by William Fox, and I consider it an effective, intensely interesting, inspiring picture that should stir the patriotism of every true American."

Good Road to California, Visitor Says

Roads from Abilene to California are good with the exception of small stretches from Abilene to El Paso, and from Yuma, Ariz., to the California state line, declared Dan J. Nee, official scout of the American Automobile Association, Tuesday morning. Mr. Nee spent Monday night in Abilene, leaving early Tuesday morning for Washington, D. C.

Roads should be worked through Texas immediately, in the opinion of Mr. Nee. The strip of bad road near Yuma is being worked at the present, and when this is completed a good road will be open all the way from El Paso to California.

Mr. Nee, whose headquarters are with the American Automobile Association, 1108 16th Street, N. W., Washington, has made a check of all the roads in Arizona, New Mexico and Western Texas. Data on the road conditions have been obtained in a very detailed manner.

"The roads through West Texas should by all means be put in first class condition," Mr. Nee said. "This is the logical route to follow to California, and if the roads were improved it would turn a large number of tourists through this section. I have found that there is enough travel in this state to improve all the roads without much cost." Abilene Reporter.

First Christian Church Notes
Bible school 9:15 a. m.
Preaching 11 a. m.

There will be no night services until after the meeting at the Methodist Church closes.

One of our successful farmers last year kept tab on what he secured from his various crops and found that he made more money on some of his feed crops than he did on his cotton, had less expense in harvesting and had less trouble even though the feed was not sold at a much higher price than usual while cotton brought thirty cents per pound. According to his accounts he secured about \$150 for every three acres of cotton whereas he secured \$180 from three acres of feed. This was harvested as bundle feed which he sold right in the field at ten cents per bind.

Joe Bibb who resides north of Big Spring has crops up and coming along fine since the rain of last week. He has four acres of corn that is sure coming great. Also ten acres of cane and sudan up, and seventy acres of cotton now coming thru the ground. On his 160 acres he will have 118 acres in cotton and 53 acres in feed.

T. H. Johnson returned Monday from Snyder where he had been called by damage to a building he owns there. This is a two-story concrete 25x80 feet and the roof was so badly damaged by hail during the storm at Snyder Thursday night of last week that it was necessary to have an entirely new roof put on.

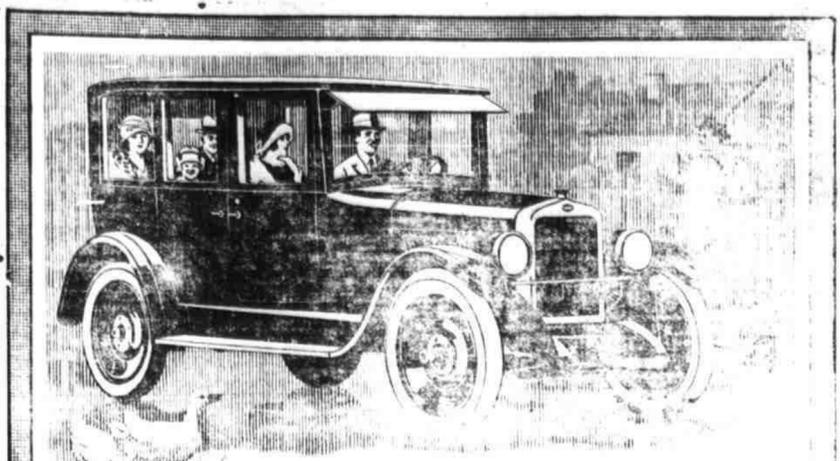

If folks who go pleasure riding in autos will take a target or shotgun and kill all the rabbits along the roads it will prove a big help. The rabbit crop of our county has been thinned down by the many rabbit drives and we should continue to keep the crop-destroyers on the run.

Everybody is busy planting these days and even the politicians are going to have a hard time finding anyone to whom they can tell their troubles.

Mr. and Mrs. Geo. McEntire were here Tuesday from their ranch on the Concho river.

Consider This Sedan at \$1445

THIS Oakland Six sedan incorporates more advanced construction than you will find in any other sedan selling at a similar price. You can verify these facts for yourself.

Oakland's new six-cylinder engine is compact and powerful. Its advanced design gives it the smoothness so desirable in a closed car.
Oakland's four-wheel brakes are sound. In the Sedan, a family car, don't overlook this safety feature.
The body is Fisher-built, beautiful and complete. Complete with increase your desirability.
Oakland's new Drive shaft is a revelation. In no other car, similarly priced, can you get this finish.
The control system is exclusive. Horn, throttle, ignition switch, choke and light controls are on the steering wheel.
Disc steel wheels are standard. They are better looking, more desirable.

These are the facts and the sedan price is \$1445 at factory. To insure complete satisfaction you don't need to pay more. Consider the Oakland Sedan, drive it and then decide for yourself.

FOLKS IN OUR TOWN
Pop Puts One Over
By Edward McCullough
AUTOCASTER

YOU NEED NOT FAIL

YOU NEED NOT FAIL

How's this for a struggle upward? "Bob" Osborn, millionaire refiner of petroleum in Portland, Me., was paralyzed when born in the tiny back-woods post township of Phillips, Me., in 1880. His father was a woodsman, cutting logs for a lumber mill. Until he was six Bob was confined to a crib, his little form emaciated and twisted and weak. Burned in a forest fire he was taken to Lewiston and left to die in a hospital. Kindly doctors interested themselves in him and when he was ten he walked for the first time. In the endless days in the hospital he learned to read, then to study. By the time he was 14 he had read 283 books, could "finger fractions" and knew something of the petroleum industry—its source and manufacture.

When the hospital changed management he was allowed to "earn his keep" by peeling potatoes in the kitchen and mopping the dormitories at daybreak. At night he slept in the haymow of the hospital stable. Running away, barefooted and hatless, he made his way slowly on foot to Portland, earning his living en-route by assisting at odd jobs on farms which he passed.

In 1900, when he was twenty, this friendly boy secured a job in a petroleum manufacturing plant as a sifter at \$2 a week. His room and board in a workman's hut cost him \$1.75 a week. With his remaining 25 cents, he bought cheap vol-

umes on petroleum manufacture and studied these at night after 11 hours of toil in the factory. When he was 26 years old he was foreman of a gang. When he was 30 he became one of the "white collar" brigade and was placed in charge of a department. When he was 32 he had saved \$1,800 and became a speculator on his own account in crude petroleum. When he was 39 he had visited Boston and New York and piled up a fortune in "conservative speculation." Today he is one of Portland's richest men.

Changed Disposition
Mr. Repartee: "And so you are the lady who is giving my wife painting lessons? What sort of a pupil is she?"
Miss Daubber: "Well, sir, I find her very apt, to say the least."
Mr. Repartee: "That's funny. I always find her very apt to say the most."

This is Why
The rain, it raineth on the just
And also on the unjust fella.
But chiefly on the just, because
The unjust steals the just's umbrella.

The Kid Was Clever
Bix: "So you let your old book-keeper go. What was the trouble, couldn't he balance his accounts?"
Bax: "He could—and so well that he was beginning to juggle them."

Interesting Items From Coahoma

Mrs. Otis Salters, nee Reba Williams, spent last week with relatives in Coahoma. She makes her home near Stanton.

Mrs. Floyd Thomason and children spent the week end with Mrs. Thomason's father in Big Spring.

W. W. Lay and family motored to San Marcos last week where they visited friends and relatives.

We were glad to see Otis Wolfe among the young people Sunday. Since he is working in Colorado he is often home with his mother.

Friday night some one stole P. L. Fletcher's coupe. It was found near Tahoka, very much damaged. Mr. Fletcher however was glad to have home the wreck, which was shipped in on a freight.

Vance Yates made a business trip to Colorado Wednesday.

Mr. and Mrs. Kimbly were host and hostess to 20 or 25 young people Saturday night. They certainly did enjoy the evening.

Mrs. J. A. Roberts is in Dallas this week.

Reubin Reeves spent most of last week in his old home town—Lindale, Texas. He reports a pleasant trip.

The children are practicing for Mothers Day program, which will be given this year in the M. E. Church. Frank Logan has charge of the musical part of the program.

Mr. and Mrs. Griffin of Iatan were in the audience at church Sunday.

Messrs Pat Roberts and B. R. Thomason went to Fort Worth Thursday night, to be initiated into the Shriners. Jess Collins accompanied them.

Mrs. Jess Collins and Mrs. Archie Thompson were among the number to attend the Schriener dinner at Stanton Easter Sunday.

Some weeks since Sam Smith sold his barber shop, who last week in turn sold the fixtures to B. R. Thomason. The location being vacant, Mrs. Burt Runyan has moved her stock of millinery and accessories into the building.

Mrs. Tom Sullivan and tots, with Mrs. John Sullivan who for several days had been in Tahoka, returned home Saturday.

Our nine met Lamesa's baseball team on Lamesa's ground Saturday, giving the victory to Lamesa.

Cleve Holden bought our Logan and Graham grocery Saturday, and took immediate charge.

Warren and Chas. Dinwiddie who some three weeks past, were in our little city, are again with us, after touring Arizona. They claim to have seen the most deserts and crossed the most mountainous country of their experience. The scenery is beautiful, so they report, but they like Howard County better.

The Senior C. E. met with a full house Sunday evening. Louise Graham's circle had the program and every one on, responded promptly—with only two cases of reading the parts. Putman Cramer's circle has the program for next Sunday and parts given out. Johnnie Graham is leader for the evening.

The Intermediate C. E. met at the usual hour, with five members absent, Sunday, April 27. After house was called to order by president, song No. 282 was sung, then reports of committees. Only six visits had been made, and one lunch sent. So all know that there is not much sickness now. There were 14 volunteers for quiet hour—a report to be given each Sunday. Eleven joined the tenth legion, they too give in reports monthly. The program was short, but showed study on part of some of the members. The Mizpah benediction closed the services.

The Junior C. E. met immediately preceding the Intermediates. They have asked the Intermediates to exchange hours with them. All of the Intermediates who have been spoken to about the change have heartily agreed—so, 2 p. m. each Sunday will be the hour for Intermediates and 3 p. m. for the juniors. After singing No. 105, the visiting committee reported having made two visits and sent one lunch. The lookout committee is busy. Under new business it was decided to give a "Quarter Social" at the home of the superintendent Saturday, May 3rd. Each junior is to bring a quarter and tell in poetry how it was made. The best composition is to receive a little gift. The appointed hour for meeting is 3 p. m. So be on time. Several juniors pledged to observe the quiet hour each day—five minutes devoted to prayer and Bible reading is what is required of the little ones—while our intermediates observe the fifteen minutes as do the seniors. Several too, pledged themselves to tithing, even

tho it be only a few cents that they made.

Joe Denver of San Angelo spent the mid-week here with relatives, Rollin Keller and family.

John Sullivan who is one of Coahoma's boys, is this year at school in Floydada. He is doing good work and especially in oratory. He won first place in the school, as well as in the county.

The drug store in our city is putting on its new spring outfit in the shape of a new fountain, which enhances the value of the entire location, by adding beauty to its surroundings.

Mesdames Kate Wolfe and Robert Guthrie accompanied Jake Wolfe to Wilson Easter Sunday to visit their sister, Mrs. Crump. They enjoyed the trip and visit.

Panther Draw News

This vicinity was visited by a good shower last Thursday night. Every body delighted to see it.

On Friday of last week G. W. Overton and Johnie Phillips went to Ballinger on a visit to relatives and friends. They report a lovely time, but lots of mud on the road.

Mr. and Mrs. John Phillips took Sunday dinner with Mr. Reeder and family.

Mr. and Mrs. Pittman and children attended church at Fairview Sunday and came back to Panther Draw to Sunday school.

Mrs. Settles and Mrs. Lyle Currie gave Mrs. Geo. Overton and Mrs. Gilbreath a pleasant call last Saturday morning.

Mr. and Mrs. Hart Phillips visited Grandma Phillips Sunday afternoon. We are glad to state grandma

is a little better.

Mr. and Mrs. Hull have had friends from Snyder visiting them.

Mr. McFarland has returned from Oklahoma.

Misses Ida Overton, Gladys Turner and brothers, Everett Overton and Cliff Turner, made a pleasant call at G. W. Overton's home Sunday evening.

Mrs. John Graves visited Grandma Phillips Saturday evening.

Thomas and Mary Hardin visited Dee Hardin near Big Spring Sunday.

W. B. Currie shipped a bunch of cattle to Kansas City last week.

The rabbit drive held near Panther Draw Tuesday was quite a success considering the high wind. Quite a few rabbits were killed. We did not learn the number. A nice dinner was served at Hart Phillips ranch. The school took a holiday and attended the rabbit drive.

Mary Hardin spent Tuesday night with the little Misses Pittman.

Reuben and Jesse Overton spent last Sunday with Herbert and Victor Phillips.

For the better class of watch repairing go to Clyde Fox Jewelry & Drug Co.—(advertisement.)

Frankie Rutherford arrived last week from Hurley, N. M., for a visit with his parents.

MODART CORSETS

Front Laced

MODEL S-678

This corset is lightly boned through the front, designed for the stout or average figure with a long, low hip line. Cut low in front above the waist, graduating to a slightly higher shoulder and back with long, flat back and long hip. Made of fine quality pink ribbed batiste; priced \$7.50.

OTHER MODELS AT
\$3.50 to \$10.

MODEL H-108

Designed for stout and average figures requiring a well-boned corset. Above the waist, the corset has rubber in the bust and rises to a slightly higher and fuller shoulder. The back below the waist is flat with rubber across the bones, graduating to a slightly longer hip with elastic insert at the sides. Of pink fancy brocade; priced \$8.50.

OTHER MODELS AT
\$3.50 to \$10.

A FROCK IS NO SMARTER THAN THE CORSET BENEATH

HOW IMPORTANT THEN, to the woman who desires to register an impression of charming poise, that her selection of a corset be made from among the smart and practical models of the Modart.

For only with the Modart can nature's curves be subtly and gently coax'd to follow the mode of the moment.

Lightly-boned, front laced, exceedingly dainty, the Modart assures a comfortable and fashionable figure foundation for the current vogue.

Here in our corset department you will find the Modart Front Laced Corset that is exactly suited to your individual figure.

BE FITTED BY AN EXPERT CORSETIERE

Our corsetiere, Miss Saunders, is a graduate of the Modart School of Scientific Corsetry. She will gladly give you a trial fitting and assist you in the selection of the proper model that you should wear.

WEDNESDAY MAY 7

Mrs. G. B. Cunningham Entertains.

Mrs. G. B. Cunningham delightfully entertained the members of the 1922 Bridge Club, last week.

In the series of enjoyed games Miss Zou Hardy made club high score and Mrs. T. B. Woods made visitor's high score.

Delicious refreshments were served at the close of play.

"CARNATIONS"

Is the flower designated for Mothers Day. If you want the best, see GUY TAMSITT, or phone 446.

Pure Mebane Cotton Seed

Have about 50 bushels pedigreed Mebane Cotton seed—for sale. See me. JOHN L. BURNS. It-pd.

Rooms For Rent

A set of nicely furnished rooms for light housekeeping. Call at 512 Main street or phone 542. It-pd.

Post-Lenten Bridge Party

One of the loveliest post-Lenten affairs was a bridge party at the home of Mrs. J. D. Biles last Friday afternoon, when Mrs. H. D. Hilliard, Mrs. W. W. Rix and Mrs. J. D. Biles were co-hostesses. The home was a bower of loveliness in its decorations of beautiful roses, gorgeous poppies and lovely Chinese pinks which were everywhere in profusion. The spring idea was also carried out in the score cards and the ice which was molded in the shape of roses and lilies. There were thirteen tables of players and the fact that three bells were used made everyone speed up.

After the fifth game refreshments were served in two courses consisting of combination salad molded in gelatine, nut bread sandwiches, olives and peach ice cream with macaroons. Mrs. Gordon Phillips made high score, receiving a pink linen bridge cover. The second favor went to Mrs. M. H. Jones, a set of score pads and markers. The prize for low score, a hand done guest towel was awarded Miss Pool.

Good Home for Sale

Five-room bungalow, near the High School, for sale; good terms if desired. Also three lots for sale near the high school. See R. L. COOK, Office over J. & W. Fisher Store.

Bathing suits at cheaper prices... Cunningham & Phillips.

Who Blocks Tax Reduction

Would you hire a doctor's automobile? Would you arrange the financing of a hotel?—No, you would not. Then why is every Congressman and every Senator capable of figuring out a plan for financing our government than are the employees of the United States Treasury responsible for a sound financial policy for this nation?

Men not capable of corner grocery store feel qualified to inflict upon the billion dollar annual budget than do the employees of the Treasury Department. The people have been tax reduction but instead of it to them, our ragged politicians in Congress have been to figure out some plan to override the very business proposal of the Secretary of the Treasury and his assistants, who have lopped over \$500,000,000 the tax bill for 1923 if adopted.

Politicians may be all right as it confines itself to matters, but it is a curse when it dips into business. The question is a problem of pure and simple and a vote getting vehicle for or Democratic politicians.

We are doing our best market for your country are you helping us?

H. B. Arnold and... visitors in Sweetwater...

GROWTH OF HOSTILITY TOWARD RAILROADS IN TEXAS

By Walter Solawn, Railroad Commissioner of Texas

(Continued from last week)

As early as 1876 Governor Coke in his message to the Texas Legislature said "That abuses exist in the operation of some, if not all, of the railroads in Texas is unquestionable; where the remedy is to be found is not quite so clear. The difficulty is one which exists in every state containing line of railroad and its solution has been the subject of voluminous discussion in many of them. Some of the abuses are remediable by specific statutory legislation, while others have been impossible to reach or provide in that way. The difficulties surrounding the subject are such as to call for more than ordinary care and a reference to the experience of other states in determining action. I recommend an examination of the system in Massachusetts which seems to work satisfactorily. In the state the whole subject under general law is placed in the hands of a board of three commissioners with extensive powers and discretion, whose supervision extends to everything connected with the organizations of railroads, their operations and the running and management of the roads in which the state or any of the people have an interest. They ferret out abuses where complaints were brought to the notice of the proper authorities of violation of the public or private rights, making regular reports, suggesting legislation etc. The legislature on this subject while protecting fully the interests of the public, should carefully avoid crippling or interfering with legitimate operations of the corporations." In 1890 James Stephen Hogg in opening his campaign for Democratic nomination for Governor of the State voiced the public discontent of the time with railway managements. Among other things, he said: "I promise to show that these railway companies are levying an unjust tribute by way of unreasonable tariff rates upon the commerce of the state. They are discriminating in favor of outside producers, manufacturers, and business men against home people and they will continue to do so unless they are checked by an intelligent Commission created and supported by the enactment of the law."

(To be continued)

Wattle Culture

We have received a communication from W. H. J. Page of the Department of Commerce, Washington, suggesting that it would be profitable for some of our farmers in West Texas to engage in "Wattle Culture." According to Mr. Page every step toward encouraging the growth of wattle in this country will eventually build up a source of state and individual wealth which will in time be of inestimable value to the tanning industry in particular and the public in general. But it is well to bear in mind that wattle can be cultivated profitably on a small scale. If particularly interested in this we suggest that you ask the Department of Commerce at Washington to furnish you with "Trade Information Bulletin No. 211." Respectfully yours, Porter A. Whaley, Mgr., W.T.C.C.

The Guilty Should Be Punished

It may be too early to make an estimate of the results of the exposure of graft and corruption in high places by various senatorial investigation committees in Washington. One thing is apparent, however, and that is, an effort is being made to muddy the waters by the introduction of irrelevant testimony and by bringing so many indictments or charges that there will be small chance of ever bringing even a small portion of them before the proper courts, or successfully concluding the inquiries before the committees. No doubt there are hundreds of instances where the Government has been robbed in a careful and deliberate manner, and hundreds of other cases where through criminal carelessness and indifference to duty, officials have permitted personal friends to profit by inside information. If all these could be brought before the court and given adequate punishment, the clean-up would be well worth the shame one would feel for our country.

This is a political year and for that reason those who are sincerely making an effort to discover the truth and punish the guilty are handicapped by partisans who would rather see the guilty escape than have party chances injured. Democrats are trying to smear Republicans, and vice versa. Loyalty to party coupled with personal interest in continuing in office outweighs the ultimate good of the country.

There are other reasons why the investigations should be continued along straightforward, legitimate lines. An important reason is found in the fact that the finger of suspicion has been pointed at many innocent men. To drop the investigations in order to protect the party, or to whitewash the guilty, is to leave a stain on the name of men who have always proved loyal and who have given honest service. These men should be vindicated.

Finally, the members of Congress, or other public officials who oppose any move to drop from Government service, or otherwise punish, men who have been guilty of grave negligence, or of graft, no matter how small a degree, should themselves be retired to private life. This is the year when the voters of the country

capacity to serve them in administering the affairs of the Government—Farm and Ranch.

The Chain Letter Humbug Again.

About every so often the newspapers of the country are flooded with chain letters. There is one letter in particular that clutters up the mails and fills the wastebaskets in many newspaper offices. Unfortunately, some editors give space to this letter and thus keep it going. The letter referred to is one alleged to have been written by Christ. It carries an injunction to the effect that it must be passed on or else bad luck will be visited upon the recipient. It does not occur to those who send the letter to newspapers for publication that there were no such things as newspapers in the days of Christ, and therefore it is unreasonable to believe that Christ asked its publication.

This letter has been declared a fraud. There is nothing about it that indicates authenticity in any particular. It is distinctly modern in form and expression and evidently originated as a joke some forty or fifty years ago. Every few years some person digs it up and starts it off through the mails. It has served to frighten many who have not taken time to give it thoughtful consideration. Most people who sit down and spend hours in copying it to send to others and to newspapers would tear it up or burn it if they exercised the judgment they ordinarily use in connection with their other affairs.

Editors who publish this letter encourage a fraud on those inclined to reveal in mystery. Why lend assistance to a scheme to humbug the people?—Farm and Ranch.

Ever so often the editor of The Herald is compelled to cast this chain letter into the wastebasket.

Beautiful weather-proof colors, reasonable prices, every home should be supplied with these window shades. The porch shades make an inexpensive sleeping porch.

Ask your dealer for Saak Exposed Shades. If they do not carry them in stock, write me for full description of the shades and give me the name of your local dealer, and I will see that you are supplied through your dealer. 29-1f.

E. G. PORTER
Saak Rapids, Minnesota

If there are any dead men senate investigating committees haven't heard of, it is probable the investigators would like to have their last known address, in order to determine whether they ever were offered a job in the cabinet, ever made a campaign contribution or divided any "profits" from the sale of liquor.

School officials of an Indiana county have ruled that teachers with bobbed hair will not be employed next fall. But perhaps they will not want to be, if they continue to wear their hair short.

No man can ever amount to very much until he learns the difference between growing and swelling.

Shorty, The Sole Doctor!

It's the soles of the people I keep in view For I am the Doctor of foot and shoe. And I serve the living and not the dead— With the best of leather, wax, nails and thread I can sew on a sole or nail it fast. And do a good job and make it last. There is nothing snide about what I can do— Doubt not my statement for work proves it true. I can give you a lift too in this life, Not only you, but your family and wife A great many patients come to my door. Worn out and run down, besides feeling sore, Though I don't use poultice, plaster or pill, I cure all sick shoes no matter how ill.

By ARTHUR BRISBANE

Cal Overlooks Ruth—A World of Mystery
We Need Airships—A Human Bluebottle—Sodom Found

President Coolidge advises American women to vote, and interest themselves seriously in politics, and in maintaining our form of government.

Good advice. Luckily our form of government will maintain itself. And women are more and more taking an interest in politics.

Mr. Coolidge might say a few words to the men, millions of whom, presently, will forget all about the oil scandal, and everything else, because of their deep interest in Babe Ruth's home runs and similar important matters.

Out in the ocean, off Cape Race, is a gigantic iceberg, more than a mile long, towering a hundred feet in the air. To bump into it would mean destruction to any ship.

In old days men would have said, "Let us pray that no unfortunate ship will strike that fearful iceberg."

Praying is good, especially when accompanied by deeds. Now this Government sends the revenue cutter Modoc, to trail along beside that iceberg as it moves slowly and majestically to its melting place near the equator. And as the big iceberg moves, the little cutter broadcasts warnings, telling ships to keep away. That's a sign of civilization.

Mr. Le Boutillier is president of the Long Island Railroad. Nevertheless, a rude Government seized his private car, stocked with choice liquors, and threatens to seize and sell the car.

That is pushing prohibition beyond the joke stage. Keeping beer from workmen is all right. Keeping champagne from the president of a great railroad is quite another matter.

This is a world of mysteries. We send messages by electricity, and we don't know what electricity is—only what it does. We send radio music and messages through the air without wires and say it goes through the "ether." We don't know what the ether is, and cannot even prove that it EXISTS.

Now Dr. Banting a brilliant young scientist who discovered insulin, cure for diabetes, says that having discovered it, he is doing his best now to find out what it IS. One thing is sure, it is an expensive product.

Pure insulin, enough to make a nice little pile on a twenty-five cent piece, would cost half a million dollars.

Pacifists and those who favor the League of Nations please read. The British House of Commons has just been informed that Japan is building 36 fighting craft, 13 of them submarines.

Japan goes ahead quietly with determination and intelligence. And she knows enough to build SUBMARINES. For what purpose do you suppose she is building them? Not to take the Mikado for a little trip, certainly.

The future war will be by submarines and flying machines. And this country should have plenty of both. More than any other nation. We can't afford it. They CAN'T. So much the better for peace.

The learned M. G. Kyle, on behalf of the Xenia Theological Seminary of Missouri, has carefully and scientifically explored that part of Palestine around the Lower Dead Sea, and announces discovery of the location of Sodom and Gomorrah.

Some graves there date back to Abraham. The discovery should fully confirm the Biblical story of the destruction of Sodom and Gomorrah, says Mr. Kyle.

First it's the jaw bone of the missing link. You're told the gorilla is your cousin. Then comes proof of Sodom and Gomorrah, and you are comforted and so is the gorilla.

In the Sing Sing death house, where murderers are kept, lives Mrs. Annie Buzzi, convicted of killing a man named Schneider. She has appendicitis, so a fraternal surgeon will operate on her, and endeavor to save her life for the electric chair.

That reminds you of the little boy scolding his slater for killing a big bluebottle fly. He wanted to kill the fly himself.

If Mrs. Buzzi had killed no one and were living at home she might die of appendicitis forty times, for all great New York State would care. But when she's sentenced to death it's different. She must not spoil that plan.

Poem by Uncle John

The turtle-dove enralls us with her soul-entrancing song, which the great Creator gave her—she couldn't sing it wrong, for, she's practiced it unceasing through the centuries I guess, till, she's got it to perfection—nothin' more an' nothin' less . . .

It's the song of angel-purity—of gentleness an' love, and, there's pathos mixed with gladness in the coolin' of the dove, 'Ain't no sort of human singin' that's so soothin' or sublime, unless it's Mother's symphony—at Baby's rockin' time!

I reckon I am ignorant, an' maybe shouldn't feel that the simple song of Natur' beats the addicteed squeal—but, I'd take God's feathered songsters for the music of my choice, in preference to the fashionable, cultivated voice!

"SIX CYLINDER LOVE," FAST

Filled Long Seasons in New York and Chicago

The play selected by Charles F. Hurner for the premier Circuit "Six Cylinder Love" is a worthy successor to the "Whirlwind Comedies" of past years. It is produced in the same excellent way as past ones have been. A thoroughly competent Metropolitan cast is a matter of course.

It has been said that the world has two kinds of people. Those who own automobiles and those who would like to own them. "Six Cylinder Love," Anthony Maguire's comedy has to do with two families who could not afford an automobile and had one.

This situation is so common in every city and town in America, that the comedy and tragedy of it is apparent to everyone.

"Six Cylinder Love" is a powerful sermon against extravagance; but it is crammed full of the finest kind of comedy.

"Six Cylinder Love" ran for 54 weeks in New York and after that a full season at the New Harris theatre in Chicago. During the last few months it has been produced for the screen.

ICE CREAM

4 different kinds—fresh every day. Clyde Fox Jewelry and Drug Co.

Jno. D. Biles returned Saturday morning from Pittsburg, Texas, where he had been to visit his mother. On his way home he stopped at Fort Worth to take part in the big Shrine ceremonial and was one of the novices to make the trip over the burning sands.

Fred B. Whipkey one of the proprietors of the Colorado Record and W. E. Reed, an employe on the Record were visitors here Sunday. They also visited Lawrence Simpson of the Lees community.

Dr. R. L. Davis left Sunday afternoon in his auto for San Antonio to attend the annual session of the State Medical Association. William Menger Jr. accompanied him to San Antonio.

W. F. Cushing was in Monday and states things are in fine shape down his way. He has one hundred acres of wheat that is coming along in great shape also thirty acres of cotton just beginning to come up.

Mrs. J. F. Kennedy and little daughter and Mrs. R. E. Lloyd spent the latter part of last week with their daughters who are attending the College of Industrial Arts at Denton.

Texas Weekly Industrial Review.

Grand Prairie — Installation of \$65,000 sewer system nearing completion.

Tyler — Tyler Guaranty State Bank, capitalized at \$50,000, opened to public.

Shreveport — Tri-State Transit company planning to establish regular motor bus service to Longview.

Lufkin — Building permits issued during March totaled \$86,737, net gain of \$40,000 over same month last year.

Houston — Ground broken for construction of \$80,000 Woodrow Wilson school.

Nacogdoches — Approximately 1,400 mules purchased by Nacogdoches County farmers since September, 1923.

Houston — NuGrape Company of Houston, subsidiary of NuGrape Co. of America, opens big local plant.

Austin — State department of agriculture reports tremendous increase this year in citrus production in lower Rio Grande Valley.

Yoakum — Plans being made for construction of hard-surfaced highway to Kenedy, via Cuero, Yorktown, Nordheim and Runge.

Carrizo Springs — Dimmit County farmers start moving huge onion crop to market, estimated output 1,000 cars, or 40 full train loads, with value of \$2,000,000.

Marlin — Community Light and Power Company setting poles for new high power line to Mexia thru Groesbeck, doubling present voltage.

Panhandle — Construction of modern hotel during coming summer practically assured.

Corsicana — Stroube & Stroube bring in No. 3 Hill well making initial flow of 3,000 barrels daily.

Ardmore — Over fifty new tests to be started immediately in Graham district resulting from extension of field by Skelly Oil Company's new 325-barrel well.

Nederland — Hollywood addition, comprising 125 lots to be placed on market at once.

Tahoka — Construction of \$40,000 hotel at Sweet at Lockwood streets under way.

Corsicana — Contract awarded at \$44,690.60 for construction of new city hall.

Colorado — Surveys completed for 14-mile high pressure pipeline connecting new \$150,000 refinery

and Mitchell County oil fields.

Port Arthur — March shipping, entering and clearing from local port, shows \$1,000,000 increase over February figures.

Bridge Luncheon

One of the delightful occasions of the Lenten season was the Luncheon given Thursday afternoon April 24th, by Mrs. Bob Anderson, Mrs. J. N. Blue, at the home of Blue.

The spacious rooms were decorated with many bowls and vases of roses in the spring colors of pink and yellow. Thirteen tables were each containing a charming piece of pink and yellow place cards.

A most delicious luncheon was served in color scheme of pink and yellow carried out in the first course grape-fruit cocktail to the ice cream moulded in roses with cake in contrasting colors.

This was followed by coffee, Mrs. Wilke assisted in serving.

In the series of absorbing which followed the luncheon H. D. Hilliard won high honors received a beautiful silk pillow, W. W. Rix, who made a most artistic flower holder, and Walter Pike received the prize a dainty embroidered pillow.

The guests in departing most enthusiastic in their opinion for this delightful party and certainly one of the most successful affairs ever given in our town.

STARTLING-EFFECTS FEATURE BAND PROGRAM

A Magnificent and Spectacular Concert

After the first buzz of excitement has died down in the big tent and when director Gilbert raises his baton for the opening strains of the first selection, the audience will get their first thrill of many on "Band Day."

Edsworth Gilbert as a director, is spectacular without being freakish. His band answers his slightest wish as one man. That is the result of many rehearsals and splendid co-operation. But, the magnificent program is supplemented by many novel features in scenic effect and stage lightings which have not been attempted heretofore by any band on tour.

A very clever scientific arrangement of seating the men enhances the effect of each instrument to the audience. The specialties and surprises which are used to heighten the effect of the various numbers in a descriptive and atmospheric way, leave an impression not only of remarkable musicianship in execution but there is the additional pleasure of getting an impression thru the eye as well as the ear.

Japan must know that it wasn't the congress of the United States that raised a relief fund after the earthquake.

M. W. Harwell and Ed Long returned last Friday from a business

BOLLWEEVIL CONTROL METHODS

approved by State & Government Experts

Boll weevils are not unlike inhabitants of cities. When "city folks" find the crowds in mid-summer are becoming unbearable they want to get away to quiet places where they will have more "elbow room." When the square "tenements" of the boll weevils become too crowded, they also become restless and take to the air. However, it is not necessary that they be crowded before their movement begins for their migratory instinct prompts them to seek new fields.

The weevil moves from place to place by flight. Although it does not fly far as compared with many other insects, it has been known to cover a distance of more than forty miles in a short time. It is unable to continue flight very long but by a series of short flights, especially when the wind is favorable, it may cover considerable distances.

The first movement is in the spring from winter quarters to the nearest cotton, usually a short distance. After the weevils reach the field there is very little movement except from plant to plant until well along in the summer. Over-wintered weevils and their offspring for several months only move like a slowly advancing overflow. Up until August about 90 per cent of the weevils in any field are those which develop practically where they are found.

About the middle of August an instinct of the part of the weevils to move about becomes noticeable. During this period weevils become restless and take to the air very actively, flying in all directions. This is sometimes due to heavy infestation in the field but seems primarily to be an instinct that has caused the extension of the infested area in the United States year by year until now it covers more than 600,000 square miles.

With the approach of cold weather there is another distinct movement on the part of the weevils. This is into winter quarters in and about the cotton fields, and usually is a short flight.

One of the most striking things about the boll weevil is the rapid advance it has made across the cotton belt. The insect made its way into Southern Texas about 1892 and since has swept across the cotton territory to the Atlantic seaboard and as far north as Virginia. The annual advance has been from 49 to 169 miles.

Under some conditions the boll weevil is sometimes spread by man through the shipment of cotton and cotton products or of any commodity which originates on the farm. Spread by this means, however, has been of very little importance.

BOLLWEEVIL CONTROL METHODS

approved by State & Government Experts

Contrary to the general belief that boll weevils must be eradicated or reduced in numbers by expensive poisoning in order to produce a cotton crop, it has been proved by successful farmers that increased yields and profits may be had under boll weevil conditions in spite of the weevil and without the use of poisons where the infestation is not too heavy. Most of the steps required are included in what may be called "better farming." As they have to do mainly with the growth and culture of the plant, they are generally known as "cultural methods of boll weevil control."

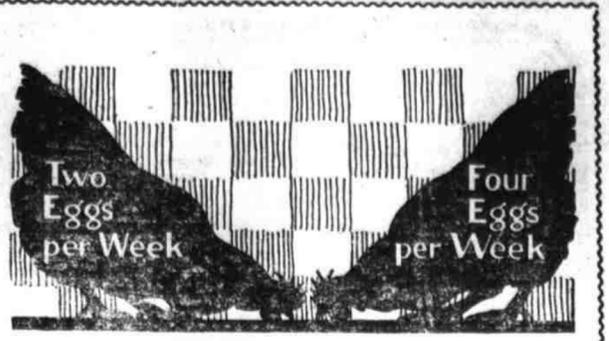

However, the foregoing statement should not be understood to mean that poison is not required to produce a maximum yield and profit. Cultural methods should go hand in hand with the use of poison and by the use of both in the proper way a profitable crop is assured. Use of cultural methods alone is practicable only when conditions are such that poison can not be used and when the infestation is slight.

Where no poison will be used it is especially important to use for cotton only the most fertile, well-drained soils where the yielding ability is good and if possible, located away from woods which might shelter weevils in the winter. To reduce the weevil attack cotton should not follow cotton. A change of crops reduces insect attack and increases yields.

Beating the boll weevil depends not on an extra early date of planting but on the crop making a very rapid growth after it is planted. Early preparation of the ground, so there will be a firm, smooth and well settled seed bed at planting time, is very important. Planting should be delayed until all danger from frosts and cold is past and the soil is warm enough to insure quick sprouting, rapid growth and a good stand.

Shallow cultivation should be given every week or ten days, and continued as late as necessary to keep the crop free from weeds and grass. Cultivation promotes the growth and fruiting of the plant but does not kill boll weevils directly. It is a known and proven fact that with heavy or light infestation of the weevils, with the application or without the application of poison, better farming pays under any and all conditions.

Further information may be obtained from the county agent, state college of agriculture, or the National Boll Weevil Control Association, Room 220 Whitney Building, New Orleans, La.

SAME HENS-- Fed Differently

Ordinary chicken feed will make a good hen lay two eggs a week. PURINA will make the same hen lay four eggs a week, so don't ask for chicken feed. Demand PURINA CHICKEN CHOWDER and PURINA HEN CHOW in checkerboard bags. Please do not feed Chowder without Hen Chow or Hen Chow without Chowder—to do so upsets the scientific balance and loses you extra eggs. Feed as directed on the instructions with each bag and get more eggs.

Lookout for Grasshoppers

By R. R. Repper, Entomologist

Farmers in many parts of Texas are fearful lest last years damage from grasshoppers may be repeated this season. From some of our western counties are coming reports of grasshoppers already hatching, although at this early date no damage has yet resulted.

It is difficult to foresee what the outcome may be. Last year the dry weather reduced the pasture growth and drove the hoppers to the cultivated field bringing about heavy damage that might otherwise have been avoided. With the moisture in the soil this season it is possible that even if large numbers of the hoppers emerge they will remain in the pastures and the damage to cultivated crops may thus be light.

At the same time, farmers should be fully prepared to make a fight if necessary. Success in saving the crops will depend mainly in promptness in destroying the hoppers previous to their actual entrance into the fields. Do not wait until they have destroyed half the fields.

The following formula is the one recommended, having been used with success in Texas as well as in other states.

Wheat bran, 25 pounds; white arsenic or paris green, 1 pound; lemons or oranges, 6 fruits; low grade cane or sorghum molasses, 2 quarts; water, 2 gallons.

Mix the bran and poison thoroughly while dry. Dilute the molasses with the amount of water as named. Squeeze the lemon juice into this diluted molasses, then grind the rind of the lemons with a meat chopper and add this also to the liquid. Now mix the liquid thoroughly with the poison bran mixture. After an even mixture has been obtained, add more water and mix, until a mash is obtained so that after being squeezed in the hand, it readily falls apart.

Grasshoppers feed in the morning, and as the bait loses its attractiveness when dry, it should be applied so as to be as moist as possible at this time. It will therefore be best to put it out about sunrise. Provided the ground is not so hot and dry as to remove the moisture during the night, it may be put out late in the evening in case the area to be treated is too extensive to be quickly covered in early morning. The mixture should be scattered, as if sowing seed, by hand, or any type of seeder capable of distributing it. The amount given in the formula should cover about five acres.

Where the hoppers have become distributed over the cultivated field, the entire area should be sown, and the application repeated in a few days if necessary. If the hoppers are found to be advancing from pasture lands, distribute the mash in front of their line of march for a distance of a couple of hundred yards, keeping also the margin of the pasture land treated daily until the danger of damage has passed.

The mixture should be made exactly as directed, leaving out no part. Where the infestation is general, community action is recommended. The materials should be provided in large quantities, and a large amount of the mixture made up at a central place late in the evening, or better, well before daylight in the morning. Each farmer will then take his portion and apply immediately.

Suggested steps in carrying out a campaign:

1. Watch for numbers of the insects in the pastures and along the fences.
2. If found abundant there, locate sources of the various ingredients of the formula (write the wholesale drug companies in the larger cities of Texas regarding supplies and prices of the poison).
3. Have the County Commissioners establish a revolving fund for the purchase of poison and its resale to farmers at cost.
4. If the hoppers threaten the crops, start action at once. Establish central mixing plants.
5. Persist in the fight till the insects are destroyed and the crops saved.

Be guided by the advice of your county agent, such assistance will be given by the Extension Entomologist as is physically possible.

A substitute for the fruit in the formula above:
Experiments in Montana have shown that amyl acetate, substituted for lemons, has increased the effectiveness of the poison bait. The most effective formula there appeared to be as follows:

Wheat bran, 25 pounds; salt, 1 pound; white arsenic or paris green, 1 pound; low grade cane or sorghum molasses, 2 quarts; amyl acetate, 1 ounce; water, 10 quarts.

Amyl acetate as a substitute for the fruit has been tested in Texas by the Federal entomologists, and while the results were successful, we hardly think the work has been sufficiently extensive to justify it.

The Secret Fear

In the black recesses of every mind is the secret fear that the day will come when through accident, breakdown, or illness the ability to earn a living will be gone. It isn't often any of us bring out this fear for a close inspection and mastery—but it exists nevertheless—and no better time than NOW will ever be available.

The defeat of this fear is easy. It requires only strength of will to hush fear for all time. A systematic plan of saving—regularly putting aside a portion of what you earn—is the way. Then later maybe an investment in first mortgage bonds—a guaranteed investment.

Lactae

Waco Times-Herald: The esteemed Fort Worth Record credits an Illinois man with the invention of condensed milk. That paper seems not to be up on Texas history.

That a Texas county should be called Borden and its capital city Gail is indicative of the beginning and the beginner of condensed milk. Condensed milk was invented by a Texas ranchman, a ranchman who had a vision wider than his pasture and an idea that was bigger than beef. Few of the old ranchmen were interested in milk. They were interested in the meat tonnage per unit of cattle, with a less keen eye on the hide and tallow. Milk was for the calf until he was old enough to graze and keep up with the herd. But Gail Borden envisaged a day when the milk business would be coequal with the beef business, so today we have great herds of cows bred to yield milk rather than meat. And canned milk now has become a world-wide foodstuff, a necessity in many regions, a luxury in others and in most cases both luxurious and necessary. Leaving out condensed milk, and considering milk fresh from the source, few of our people aware from the great population centers realize how vast is the industry. In the North and East the farmer is a dairyman. His barn is a milk factory, his fields are mines which produce the raw material which his cows transmute into money. And our millions who dwell in the streets of cities are today consuming proportionately more milk and less beer than any other people on earth. But lots of them would like to have the proportions reversed, even if it should, as it would, be bad for the children and the farmers.—State Press in Dallas News.

Tom Sullivan and family and Hendricks and family have returned from a fishing trip to Jones County, reporting a good time but the "big ones" got away.

Presbyterian Notes

Sabbath morning at 9:45 a. m. our Sabbath school will meet for Bible study. And at 11 a. m. will be our regular hour of worship at which time the pastor will speak on: The Four Anchors.

And at 8:30 p. m. I will begin a series of sermons on the Seven Friends of Jesus, which will continue for seven Sabbath evenings. The first one next Sabbath evening will be: Joseph, the Providential Friend of Jesus.

You will always find a welcome with us in any or all of the services in the house of our God.

Home Again
When we arrived home last week from our vacation trip in the Rio Grande Valley where we had a very pleasant stay with our children, we were very happily surprised to find so many good things in our home, that had come from the hands of our good people here, and for which we want to show our appreciation at least in this slight way.

Rev. W. L. Sheppard.

Think: Is it better to have your Dentist to examine your teeth twice a year or is it better to risk your health. Cunningham & Phillips.

Citation by Publication

THE STATE OF TEXAS,
To the Sheriff or any Constable of Howard County—Greeting:

You are hereby commanded, that you summon, by making publication of this Citation in some newspaper published in the County of Howard if there be a newspaper published therein, but if not, then in a newspaper published in the nearest County to said Howard County, for four consecutive weeks previous to the return day hereof, Carl Bach, Wagner A. Hoover, W. H. Gartin, Jr., Hattie Adeline Wenner, W. M. Smith, E. T. Seleich, David E. McKelvey, Ezra Tuttle, C. C. Selman, James W. Embree, T. B. Bennett, W. M. Peterson, Geo. H. Ray and J. B. Knighton, if said persons be living and the unknown heirs of Carl Bach, Wagner A. Hoover, W. H. Gartin, Jr., Hattie Adeline Wenner, W. M. Smith, E. T. Seleich, David E. McKelvey, Ezra Tuttle, C. C. Selman, James W. Embree, T. B. Bennett, W. M. Peterson, Geo. H. Ray and J. B. Knighton, if said persons be dead, whose residence is unknown, to be and appear before the Hon. District Court, at the next regular term thereof, to be holden in the County of Howard at the Court House thereof, in Big Spring on the First Monday in September A. D. 1924, the same being the first day of said month of September A. D. 1924 then and there to answer a Petition filed in said Court, on the 30th day of July A. D. 1924, in a suit numbered on the Docket of said Court No. 958, wherein Minnie Slaughter Veal joined by her husband George T. Veal are plaintiffs, Carl Bach, Wagner A. Hoover, W. H. Gartin, Jr., Hattie Adeline Wenner, W. M. Smith, E. T. Seleich, David E. McKelvey, Ezra Tuttle, C. C. Selman, James W. Embree, T. B. Bennett, W. M. Peterson, Geo. H. Ray and J. B. Knighton, if said persons be living and the unknown heirs of Carl Bach, Wagner A. Hoover, W. H. Gartin, Jr., Hattie Adeline Wenner, W. M. Smith, E. T. Seleich, David E. McKelvey, Ezra Tuttle, C. C. Selman, James W. Embree, T. B. Bennett, W. M. Peterson, Geo. H. Ray and J. B. Knighton, if said persons be dead, defendants. The nature of the plaintiffs' demand being as follows, to-wit: Plaintiffs reside in the County of Dallas and State of Texas and the residence of the defendants is unknown and plaintiffs further represent to the court that on or about the 1st day of January A. D. 1924 they were lawfully seized and possessed of the following described land and premises, situated in Howard County, Texas, holding and claiming the same in fee simple, to-wit: all of the N. E. 1-4 of the N. E. 1-4 of Section No. 29 in Block No. 33, T. 3 N. of the Texas & Pacific Railway Company surveys of land in Mitchell County, Texas; that on the day and year as aforesaid defendants unlawfully entered upon said premises and ejected plaintiffs therefrom, and unlawfully withheld from them the possession thereof, to their damage in the sum of one thousand dollars; that the reasonable annual rental value of said land and premises is two hundred dollars;

Wherefore plaintiffs pray judgment of the court that defendants be cited to appear and answer this petition, and that plaintiffs have judgment for the title and possession of said above described land and premises, and that a writ of restitution issue, and for rents, damages and costs of suit, and for such other and further relief, special and general, in law and in equity that they may be entitled to.

Herein fail not, and have you before said Court, on the said first day of the next term thereof, this writ, with your endorsement thereon, showing how you have executed the same.

Given under my hand and seal of said Court, at office in Big Spring, this 30th day of July A. D. 1924.

J. I. PRICHARD, Clerk.
District Court, Howard County, Texas.
(Seal) 46-4t

Citation by Publication

THE STATE OF TEXAS,
To the Sheriff or any Constable of Howard County—Greeting:

You are hereby commanded to summon L. P. McDonald by making publication of this Citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your County, if there be a newspaper published there, but if not, then in any newspaper published in the 32nd Judicial District; but if there be no newspaper published in said Judicial District, then in a newspaper published in the nearest District to said Judicial District, to appear at the next regular term of the District Court of Howard County, to be holden at the Court House thereof, in Big Spring on the 1st Monday in September A. D. 1924, the same being the 1st day of September A. D. 1924, then and there to answer a petition filed in said Court, on the 30th day of July A. D. 1924 in a suit, numbered on the docket of said Court No. 959, wherein Willie McDonald is Plaintiff, and L. P. McDonald is Defendant, and said petition alleging that plaintiff is an actual bona fide inhabitant of the State of Texas and has resided in Howard County for at least six months next preceding the filing of this suit; that on or about April 30, 1923 in Howard County, Texas, plaintiff was lawfully married to the defendant; that they continued to live together as husband and wife until on or about Nov. 8, 1923, when, by reason of the cruel and harsh treatment and improper conduct of defendant toward plaintiff, she was forced and compelled to permanently abandon him, since which time they have not lived together as husband and wife.

That during the time plaintiff and defendant lived together as aforesaid she was kind and affectionate to him, and was mindful of the duties of her marital vows, but defendant failed in the duties and obligations which he undertook in his marriage vows, and that within a few months after plaintiff's marriage to him, he failed and refused to support her, and she was forced to earn her own living; that

plaintiff along with him, and that while there, and also at Graham, Texas, defendant refused and failed to support plaintiff, and that plaintiff was forced to earn her own living; that only a short time after plaintiff's marriage to defendant, he began a course of unkind, harsh and cruel treatment toward plaintiff, which continued until plaintiff was forced to abandon defendant as aforesaid; That defendant, on one occasion while plaintiff and defendant were living at Graham, Texas, defendant accused plaintiff of being unfaithful to her marriage vows, and imputed a lack of chastity to plaintiff, which said accusation was wholly false, and when plaintiff resented imputation, and started to pack her trunk to leave defendant, he drew a pistol on plaintiff and threatened to shoot her if she packed another garment; that on other occasions plaintiff has been falsely accused of lack of chastity by defendant, and that on several occasions defendant threatened her life, with a pistol; that such cruelty on the part of defendant has been the cause of mental anxiety and suffering to this plaintiff, and she has been put in fear of her life to such an extent that her physical being has been impaired thereby; that said marriage relations between plaintiff and defendant still exist.

That defendant's actions and conduct toward plaintiff generally are of such nature as to render their further living together as husband and wife insupportable.

Plaintiff prays that defendant be cited to answer herein and for judgment dissolving the said marriage relations, for the restoration of her maiden name of Willie Carpenter, for costs of suit and for such other and further relief, special and general, in law and in equity, that she may be justly entitled to.

Herein fail not, and have before said Court, at its aforesaid regular term, this writ with your return thereon, showing how you have executed the same.

Given under my hand and seal of said Court, at office in Big Spring, this 30th day of July A. D. 1924.

J. I. PRICHARD, Clerk.
District Court, Howard County, Texas.

How Do You Figure Baby Chick Loss?

Do you actually figure it in dollars and cents? Suppose 20, or 30 or 50 chicks from your hatches die. How much would these baby chicks cost you to replace?

Purina Chick Startena (With Buttermilk)

is a real baby chick food. It is balanced to supply all the elements that the tender baby chicks require in the first few weeks. Buttermilk, which authorities specify as important for baby chicks, is one of the principal ingredients. The other ingredients in Startena blend with buttermilk to make a perfect growing ration.

Save more baby chicks and get early layers next year by feeding Purina Chick Startena and Baby Chick Chow on the double development guarantee. Give us your order today.

Former Citizen Killed at Douglas.

W. W. House, aged 54 years, was shot and killed in front of the home of his brother in law, Seth Erwin, at Douglas, Arizona, Friday, August 1st as he and his brother H. L. House were approaching the Erwin home. House was shot from within the house through the front screen door.

Seth Erwin, when arrested by officers, admitted having shot House and he is now held in the county jail for examination on a charge of murder.

According to H. L. House, brother of the dead man, W. W. House and Erwin had some trouble or misunderstanding two years ago at a ranch in the Swisshelm mountains, but he had heard nothing more of it. He said he started to the Erwin home for the purpose of visiting his wife who is a sister of Erwin.

E. H. House of Coahoma, a brother of deceased, left Big Spring shortly after noon last Friday via automobile for Douglas accompanied by Will House and Mrs. E. H. House.

REWARD OFFERED

For information leading to conviction of any party throwing trash and garbage on roadside in or out of the City Limits, we will give \$25.

There is a City Garbage Ground 300 yards South of the public road, about one mile east of Big Spring, and any and all persons are welcome to dump garbage there, free of any costs. But better not drop the trash near the public road.

Report violations to either City or County officials.

J. C. Horn returned last week from a business trip to Seminole.

Kiwanis Clubs to Work for Vote

A vigorous campaign to get all voters to vote in the fall elections is being planned by all the Kiwanis clubs of the country, in accordance with policies which have been adopted by Kiwanis International at a meeting just concluded at Chicago.

In 1896, 80 per cent of all those eligible voted in the presidential elections; in 1900, 73 per cent; in 1908 the percentage decreased to 66 per cent; in 1912 there was a further decrease to 62 per cent; and in 1920 less than 50 per cent of the voters exercised their franchise.

"This campaign," said Victor M. Johnson, newly elected president of Kiwanis International, "will be to urge all citizens to express the desires of the entire people, and not less than half of them. A continuation of the present low voting percentage would certainly lead to the impracticabilities and danger of a radical minority. The work of the clubs will be part of our general campaign to promote an intelligent, aggressive and serviceable citizenship."

"There is no partisanship in this campaign, and no fund is being raised to carry it on. Members of each of the 1250 Kiwanis clubs will work in their communities, purely on a basis of developing this much needed citizenship."

Fox Stripling will again represent the South Texas Cotton Oil Co. of Houston. He buys cottonseed in carload lots for this firm, his territory extending from Putnam on the east to Midland on the west and as far north in the Plains section as he cares to go. He secured more than one hundred carloads of cotton seed for this firm last season.

Cody Deck, a carpenter of this city had the misfortune to lose the sight of an eye when struck by a nail while working on a job here last week. Mr. Deck is under treatment at Fort Worth. His many friends here regret to learn of his misfortune.

A. C. Hayden returned Wednesday morning from a two weeks visit in Galveston.

Citation by Publication THE STATE OF TEXAS

To the Sheriff or any Constable of Howard County—Greeting:

You are hereby commanded to summon Hugh Cole by making publication of this Citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your County, if there be a newspaper published therein, but if not, then in any newspaper published in the 32nd Judicial District; but if there be no newspaper published in said Judicial District, then in a newspaper published in the nearest District to said 32nd Judicial District, to appear at the next regular term of the District Court of Howard County, to be held at the Court House thereof, in Big Spring, Texas, on the 1st Monday in September A. D. 1924, the same being the 1st day of September A. D. 1924, then and there to answer a petition filed in said Court on the 25th day of July A. D. 1924 in a suit, numbered on the docket of said Court No. 957, wherein Willie Cole is Plaintiff, and Hugh Cole is Defendant, and said petition alleging that, for cause of action, the Plaintiff is and had been for a period of twelve months prior hereto an actual bona fide inhabitant of the State of Texas, and has resided in the said County of Howard for more than six months next preceding the filing of this suit; that said Defendant resides in place or places unknown to Plaintiff; that on or about the 26th of October 1919, Plaintiff was lawfully married to Defendant in Eastland County, Texas, that they continued to live together as husband and wife for about three years, till October, 1922, when by reason of cruel and harsh treatment and improper conduct on the part of the Defendant toward Plaintiff, she was forced to permanently abandon him, since which time they have not lived together as husband and wife. Plaintiff alleges that she at all times while living with her husband was kind and affectionate to him and fulfilled her duties and obligations as his wife; but that the defendant unkindly of his marital vows and obligations was unkind to her, led a wild and sorry life, was convicted of a felony much to the humiliation and disgrace of Plaintiff, abused her, cursed her, without cause or provocation without cause whatever on the part of the Plaintiff, was jealous of Plaintiff of each and every act and occasion possible, often hit Plaintiff in anger, and this course of conduct on the part of Defendant grew and became more intense till along about October, 1922, Defendant soundly whipped Plaintiff, hitting her with his fist and twisting her wrist, unmercifully, whereupon Plaintiff quit the bed and board and company, resolved forever to abandon him because such course of conduct on his part rendered their further living together as husband and wife insupportable and impossible. Plaintiff prays that Defendant be cited to appear and answer this petition and that the marriage between Plaintiff and Defendant be dissolved and declared null and void.

Herein fail not but have before said Court, at its aforesaid regular term, this writ with your return thereon, showing how you have executed the same.

Given under my hand and seal of said Court, at office in Big Spring, Howard County, Texas, on this the 29th day of July A. D. 1924.

(Seal) J. I. PRICHARD, Clerk, District Court, Howard County, Texas.
