Two Instructors Join Faculty As Change Explained

Two changes were announced by President Bradford Knapp in the faculty of the college effective February 1, both of which have been approved by the Board of Directors.

Toreador Printed First Time In New Plant In Engineering Building By Student Labor

After six or seven years of dreaming and effort on the part of a good many students and faculty a printing plant is about to become a reality, according to Cecil Horne, publicity director of Texas Tech.

Has Three Degrees

Dr. Schneider is a Texas man, holding two degrees from the University of Texas and one from the Massachusetts Institute of Technology.

Fully Equipped

There are a good many reasons why the college needed a shop of its own.

Eleven In Class

Number in the class is now 11, including chemical, textile, mechanical, and architectural engineering students.

Members In Court

Those who are to be in the queen's court are: Katherine Hill, Billie Bloom, Francis Burns, Kathryn Gray Kirk, Loraine Miller, Dinaween Bridgeman, Betty Pack, Charlotte Ratliff and Sara Sue Stewart.

PRE-MEDS HEAR DR. WAGNER IN MEETING

Dr. C. J. Wagner of the West Texas Hospital spoke to the Pre-Med club Tuesday night on the subject of "Emergencies and Their Common Treatment."

Printing Will Be For Tech College

After six or seven years of dreaming and effort on the part of a good many students and faculty a printing plant is about to become a reality, according to Cecil Horne, publicity director of Texas Tech.

The school plant would not be in position to set up accounts, establish credit rating, and extend credit. The founders of the plant and the president are not desirous of competing with local shops as a matter of policy.

There are a good many reasons why the college needed a shop of its own. All college printing, practically has been done out of the city. That makes it impossible to get printing done quickly. It entails loss of time and often results in costly delays.

With about 100 students in the college taking journalism, a plant is greatly needed for use as a laboratory. The Tech plant has been designated by President Knapp as a journalism laboratory where students will be able to get practical knowledge of printing.

The plant will provide employment for a number of students, making it possible for them to pursue work in the college. Money for the college printing which has heretofore been sent out of Lubbock will go to students and will be spent in Lubbock.

A major portion of the money used in putting in this print shop (Continued on page eight)

Special guests were Misses Mary Burke, Laura Belle Underwood, Floy Stannard, Mary Cammack, and Annah Jo Pendleton, Mrs. C. C. Wicker and daughter, Ardella, and Miss Almo Garland, all of Slaton, also attended. Dates included Bob and Charles Stahler, Billy Hazelwood, Mark Halsey, Jr., Fred Williams, Homer Hall, Woodrow Wilson, Harold Humphries, Croft Bigham, Alton Hankins, Jack Nowlin, Jimmy Disumkes, Carlton Thomas, J. P. Buhman, Donald Vanhook, W. T. Stokes, Leonard Curfman, Clarence Mast, and Jerry L. Dean.

Still to ourselves in every place, consider that we make or find. Our own felicity we make or find.—Goldsmith

# Month Of February Ushers In Many Campus Festivities

## Queen Elections Held In Shortest Month; Social Club Has Annual Formal

### Military Ball Is To Take Place At Hilton On Seventeenth; Forum Celebrates

With the idea that February is a good month to entertain the same as it's being the shortest month in the year, many organizations on Tech campus have planned most of the major entertainments of the year to occur during February's twenty-eight days.

Las Chaparritas club will entertain with their formal dance presenting new members tomorrow evening in the auditorium. The presentation is planned to be made at 9:45 o'clock.

### Coronation of Freshman Queen

The annual freshman dance and coronation of Miss Jane Schneeman, newly elected freshman queen, will take place Saturday evening at the Auditorium. Nominees for the queen will be in her court during the coronation ceremony.

Las Leales club are planning an annual banquet which will be served on the evening of February 12 at the Hilton hotel honoring sponsors and new members.

The Forum is sponsoring a musical tea at Seaman hall February 15. All members of social clubs and men and women students are invited.

### Military Ball February 22

The annual military ball, sponsored by the service battery of the One Hundred and Thirty-First Field artillery, Texas National Guard, and cadet corps of Tech will be given at the Hilton hotel February 22.

### Seven Alpha Beta Pledges Are Honored At Smoker

Seven prospective pledges to the Alpha Beta chapter of Sigma Gamma Epsilon were honored by the members at a smoker given in the Chimaya room of the Hilton Hotel last Friday night. A buffet supper was served and several short talks were made welcoming the prospective members.

### Tech Students Marry Here At Noon Saturday

Miss Jimmie De Loach, daughter of Mr. and Mrs. W. G. De Loach of Sudan, and Arlois Coward, son of Mr. and Mrs. A. J. Coward of Crosbyton, were married at high noon Saturday with the Rev. R. C. Campbell, pastor the First Baptist church, officiating at his home, 1913 Broadway.

Miss Zelpha Bussey of Sudan was maid of honor and Comden Lawson of Crosbyton attended the groom as best man. The bride wore a blue crepe with beige accessories.

Visit Carlsbad  
The couple left immediately after the ceremony for a trip to Carlsbad Caverns and other points in New Mexico. They are at home at 2120 Fourteenth street.

Mrs. Coward attended John Tarleton college before enrolling at Texas Technological college. Mr. Coward is a sophomore student at Texas Tech.

### Katherine Klett Honored With Farewell Dinner

Miss Katherine Klett, daughter of Judge E. L. Klett of this city, left Tuesday night for Nashville, Tennessee where she will enroll in Ward Belmont as a second semester freshman.

Miss Klett was complimented by friends Monday night with a dinner at the Hilton hotel.

Miss Klett was enrolled as a freshman in the division of arts and sciences here last semester and was presented by the Sans Souci club at their formal dance honoring pledges.

### Former Co-ed Marries JTC Stud In Moran

The marriage of Miss Wilda Kane, former student at Texas Technological college, and J. C. Dyer, Jr., both of Moran, took place January 25 at Moran in the home of the bride.

The couple are now residing at the ranch of Mr. Dyer, near Moran. Mrs. Dyer, the daughter of Mr. and Mrs. L. W. Alvey of Moran, made her home with her aunt, Mrs. D. A. Forbess, 2803 Twenty-First street, and worked at a variety store here and attended college. Mr. Dyer is a former student at John Tarleton college.

### Ballroom Dancing Class Organized For WAA

A class in ballroom dancing is being organized for WAA girls, with Johnnye Gikerson, head of

the Physical Education department as sponsor.

The class will meet at Seaman Hall on nights through the week, which Miss Gikerson will decide for the convenience of those who wish to take the course. Every one interested is urged to see Miss Gikerson at once.

### Soccer, Tumbling, Golf Specified For Girls

The following sports for girls will be held on the specified hour, according to Miss Johnnye Gikerson, head of the Physical Education department for women.

Soccer is to be held on Wednesday and Friday of each week at five o'clock p. m. Tennis will be held on Monday at five o'clock.

Tumbling takes place at three o'clock on Fridays, and riding Tuesday and Thursday at four

o'clock. Golf, Tuesday and Thursday at four o'clock is to be another sport activity.

All sports will be held at the gym.

The Forum will be at home to all Tech students, men and women, February 15 at 7 until 9 o'clock at Seaman hall. A musical program is planned. Written bids have been sent to all social clubs.

### A VALENTINE FOR TWO

A boy was in a quandary,  
For his troubles had begun,  
He didn't know what to send her,  
So he just called 221.

"This is Ribble, the Florist,  
Oh! You only have a buck,  
Well, we can send her several roses,  
And add another just for luck."

Oh, roses are red,  
And violets are blue,  
But the flowers from Ribble's  
Bring the "I love you."

More or less,  
And they're as red as bleeding hearts.

Telephone 221 today and order your Valentine (or perhaps it's Valentines). Or, better yet, come down and see our beautiful array of roses, carnations, gladiolas, and potted plants, especially for VALENTINE'S DAY.

# Arizona State Basketeers Invade Local Court

## Tech Plays Flagstaff Teachers; Two Games Will Decide Cage Title

### Under The Double "T"

LOMER NELSON  
Toreador Sports Editor

Dell's prodigal-son Matadors return to local pastures for hoop competition for the first time in many moons. The last time they made a home stand was against the unshaven ones from Michigan way back about the first of January. Tonight the lanky Tech fadom in the first of a two game engagement against the Flagstaff Teachers, officially labeled the Arizona State Teachers college and unofficially the Flagstaff Lumberjacks.

These Arizona colleges are as hard to keep straight as the Teachers college of Oklahoma. There are two schools with the same name in Arizona, both of 'em members of the Border conference fraternity. They are referred to, officially and otherwise, as the Arizona State Teachers. One is located at Tempe and one at Flagstaff. The 'jacks from Flagstaff are the ones we are concerned with right now.

"Fifty Bucks, Boys"  
Dan Crumley, ye olde sports scribe of The Cocoonino Sun of Flagstaff, who watches over the destinies of the Lumberjacks like an old hen tends her chicks, claims that the Matadors refused to play Flagstaff last year and sent this reply: "Fifty bucks, boys, is what we'll give you."

Evidently Dan got his wires crossed somewhere as the statement is entirely devoid of truth. This, however, coupled with the fact that the Lumberjacks and the Matadors are not the best of friends, will add much interest and zest to the twin bill. Judging by comment of the Arizona papers during the Mats' recent invasion of the West, the Arizonans and Texans are not apt to fall into any affectionate embraces.

If Tech can stow away both games in the twin bill, it will practically clinch the Border conference crown for the Matadors. This season, Coach Morgan has scheduled enough conference tilts so there won't be any argument to the title if the Matadors succeed in holding their position on the top rung.

Perfect Quintet  
Our personal nomination for the perfect basketball team goes to the Ogdin Boosters of Utah who parade into the Tech "barn" Monday and Tuesday nights. The last account we had of the men from the Mormon country, the Boosters had won something like 38 out of 39 contests. When you consider the vastly different conditions under which each game was played, you can appreciate the feat. Strange floors, different officials, and constant travelling are only a few of the handicaps which must be faced each night.

This department has a letter from E. G. Cauble, Jr., asking for the scores of the Tech-University of Arizona conflicts. If we remember correctly, they were 33-29 and 25-23 with the Matadors on the long end of each score. E. G. was an Aggie and an outfielder with the Martin Drug nine, Texas Tech intramural champs last spring. The story of the Arizona road-trip wasn't published because of lack of space. Since this sheet is moving into its new plant the editor tells us that we'll have enough space to carry all sports stories.

Another Will  
Coach Pete Cawthon is getting to be a rival of Will Rogers as a good will ambassador, altogether of a different type. Pete was in Sherman Monday where he aided in the formation of a Kangaroo club at Austin college, an organization similar to the Matador club here. The Tech general has been kept busy all winter making speeches at football banquets. And he is proficient in the art, too.

Things we'd like to see:  
"Bear" Curfman doing a fan dance... Ted Wilson walking a tight wire... "Mule" Dowell and Jim Neil as the leading men in a nudist moving picture... Pete Cawthon playing tidley-winks... Dell Morgan pouring tea at a meeting of the Ladies Sewing Circle... Gaines Davis in knee pants... Woodrow Wilson topping the 220-yard hurdles... and Larry Priddy playing marbles.

### Matadors Hope To Cop Border Conference Flag Race

BY ED MCKEEVER  
A well-coached Texas Tech quintet, setting the pace in the Border Conference basketball race, and fresh from a successful invasion of New Mexico and Arizona in which they won five games and lost one, will play a two-game series with the fast breaking Arizona State Teachers college from Flagstaff, in the only conference games to be played at home during the current season, tonight and tomorrow night, the game starting at eight o'clock at the Tech gym.

Chance For Title  
Victory in both games will clinch the championship for the Matadors, since their standing is better than that of the New Mexico university Lobos, their nearest competitor, who boasts of two victories and two defeats.

The series with the Matadors will climax a ten-day road trip for the Flagstaff Lumberjacks, which has taken them through New Mexico, playing New Mexico university and New Mexico A. and M., and into Texas to meet the Texas School of Mines, West Texas State Teachers at Canyon, and finally Texas Tech.

Green and Thomas Out  
The loss of two stellar guards, Truman Green, and J. C. Thomas, will cripple the Matador defensive game, yet Coach Morgan will have one of the best teams in Tech history with Co-captain Alvin Crews, and Leroy Crews, forwards; Co-captain Polk Robinson, center; Larry Priddy and Will Gilmore, guards and Lem Weaver, alternate guard.

The Lumberjacks, coached by Aaron McCreary, and led by their brilliant forwards, Chubby Overson and Harold Crumley, should be at their peak against the Matadors. Ham Pratt, center, Chet Fuller, and Lewis Phelps, guards, along with Overson and Crumley, will form the Teachers' line-up.

### Who Wants Him?

Big Brute Offers To Take All Corners  
A certain big brute has sent a challenge to the so-called fighters of Lubbock and vicinity. He says that he wants someone to fight him on the night of March 6 (nice of him to give the acceptor so much time to get in shape.) Tech has a whole class of boxers training every day; they should be in shape. The Armory has been sponsoring boxing matches, saying that they had some of the best fighters in the Southwest. Surely someone in the whole Southwest is good enough and has enough nerve to take on a man who will challenge anybody who will get in thring with him. He even goes so far as to be cocky enough to say that he will promise not to hit as hard as he can, but will just spar around with him a little.

Well to get down to the point, the brave challenger weighs around 200 pounds, has had a little experience at slinging his mits, but now is rather old.  
Who wants to take him on for a round or two of his so-called light sparring? His name is Jack Dempsey.

Prof's F. A. Kleinschmidt and Edgar Shelton of the department of architecture were called to Becton last Saturday to inspect the school building and to make recommendations as to needed repairs. The trip was made at the request of the Becton school board.

## They Tackle The Lumberjacks Tonight

Texas Tech's Matador sharpshooters, pacing the Border conference with five victories and a loss, defend their laurels tonight against the invading Flag-staff Teachers in a conference go. Thus far the Morganmen have won nine games out of 13 starts. Two victories over Flagstaff will clinch the bunting for the Tech men.

### Double T Members Adopt New Laws

At a special meeting held in the club room Monday night, the TT club adopted a new constitution and accepted Sam West, St. Louis Browns outfielder, as an honorary member. West spends his summer months in St. Louis playing baseball, and spends his winter months in Lubbock at his home. He was accepted into the club by a unanimous vote of its members. The new constitution drawn up by a committee representing the club assisted by "Dob" Girard, local lawyer, was read and explained to the members of the club. The new constitution will go into effect immediately. The new laws provide that the club will meet every Wednesday night instead of once a month as previously. Every member will be requested to attend all meetings or be fined unless excused by the president.

### COGDILL PRESIDES AT TUESDAY AGGIE MEET

Ralph Cogdell, senior Aggie, as vice-president of the Aggie club, succeeded Uel Bell, president, Tuesday night at their weekly meeting in the aggie pavilion. Bell did not return to school this semester. Jot Smyth, Junior Aggie, was elected vice-president and Henry Elder, junior Aggie, was elected reporter.

The club discussed giving the Senior Livestock Judging Team medals. Members of the team are: E. R. Steen, Bill Gregory, T. L. Leach, Jesse Young, Odie Holly, and Ernest Barton.

### ASME And ASCE See Slides Tuesday

The junior branch of the ASME met with the ASCE Tuesday night to review an illustrated lecture on "Heat, Transmission, and Insulation," sent by the Johns' Mansville company from New York City. The slides were shown in the engineering auditorium at 7 o'clock.

E. R. Steen, Bill Gregory, T. L. Leach, Jesse Young, Odie Holly, and Ernest Barton.

## McMurray Indians Are Scheduled For 1934

### Ten Opponents Are Listed On Matador Card For Next Year; Baylor Comes Here

After some three months of negotiating and planning, the 1934 Texas Tech Matador football schedule is at last complete with the announcement that the Cawthonmen would play the McMurry college Indians of Abilene on September 28. The signing of McMurry brings to ten the total number of contests carded for the 1934 season. Site of the Tech-McMurry game has not been definitely fixed but will be announced in the near future.

Five At Home  
Excluding the McMurry clash, the schedule calls for five games at home and four away. The card is thickly studded with inter-sectional tilts. Teams from seven states are included on the list. Tech plays in five different states and plays host to eleven here from three states.

The Matadors unveil the season with the University of Texas Longhorns here September 29. Following the McMurry and Baylor games, the Mats ramble from east to west for the last three weeks in October. Tech embarks to Oklahoma City for a skirmish with the Goldbugs, then jumps to Ruston, La., for a setto with the Louisiana Poly Bulldogs, then to the Pacific coast to meet the Loyola university Lions at Los Angeles. From there the roving Matadors return home and take on Simmons, De Paul, and North Dakota State in succession. Turkey day will find the Scarlets on the road again, stopping at Tucson for the only Border conference game on the schedule with the University of Arizona Wildcats.

1934 Card  
Texas Tech's 1934 football schedule follows:  
Sept. 22—University of Texas at Lubbock.  
Sept. 23—McMurry college (place not determined).  
Oct. 6—Baylor university at Lubbock.  
Oct. 12—Oklahoma City university at Oklahoma City.  
Oct. 20—Louisiana Polytechnic at Ruston, La.  
Oct. 27—Loyola university at Los Angeles.  
Nov. 9—Simmons university at Lubbock.  
Nov. 16—De Paul university at Lubbock.  
Nov. 23—North Dakota at Lubbock.  
Nov. 29—University of Arizona at Tucson.

### Mat And Ring Men Prime For Meet With New Mexico

BY ELMER FORTNER  
Preparing for a meet with the University of New Mexico Lobos next Friday night, the Tech boxers and wrestlers resumed work for the first time since final examinations Monday. The bouts will be held in the Tech gym.

With three new men reporting practice, Coach Jack Van Ebbler expects to be able to pit a class A team against the Lobo aggregation. "Bear" Curfman, 210 pound Matador fullback, Everett Williams, 145 pounder and Johnie Ammons, 155 pound class, are the new men who show probabilities of strengthening the team. With 25 candidates out now, Van Ebbler expects at least 50 by the end of the week.

Eliminations Tomorrow  
Eliminations to decide the best in each weight will be held Friday and Saturday in the gym. Champions from last year who will be defending their respective weights are: Tom Zorns, 135 pound class; Walker Nichols, 145; "Turkey" May, 155; Matt Hitchcock, 165; and "Delicate" Ted Wilson, 175, and the heavyweight champ is "Juicy" Owen.

Tech Fighters  
Marion Harris, boxing coach, announces that there will be no eliminations among the college leather pushers. The following will probably shoulder the fighting burden against New Mexico: Robert Prim, 115 pounds; Paul Jacoby, 125 pounds; Herman Payne, 135 pounds; "Scrappy" Emerson, 145 pounds; John Prim, 165 pounds; R. C. Mitchell, 175 pounds, and big Harry Guthrie, Texas Tech champ, rules the heavyweights.

FORMER STUDENT WORKS IN U. S. INDIAN SERVICE  
Lennon G. Bell, '31, is now chief of a locating party for Indian roads, according to a letter received early this week by Dean O. V. Adams of the divisions of engineering. His present address is Crown Point, New Mexico. Bell is in the employ of the United States Indian service.

### Newman Is Signed For '34 School

#### All-American Quarter To Help Harry Kipke With Texas Tech Coaching Classes

The latest notable of the American sport world to be signed by Pete Cawthon for the fourth annual Texas Tech coaching school is Harry Newman, versatile all-American quarterback at Michigan university in 1932.

Newman, who enjoyed a successful season with the national champion Chicago Bears professional team last season, will join his teaching and demonstrating the famous Michigan "three P's" system of play—a punt, a pass and a prayer.

#### To Teach Fine Points

While he did not mention the prayer phase of the game, Newman said in a letter to Cawthon: "I will be delighted to come there this summer and teach all I know about punting, passing and general quarterback play."

Kipke describes the man as "the best athlete I ever coached or saw would not otherwise attend the school will be here to see this great performer in action."

#### Already Signed

The other three coaches signed to teach here this summer are: Noble Kiser of Purdue, Harry Kipke of Michigan, and Fritz Crisler of Princeton. Others are expected to be signed in the near future.

The Tech athletic department has announced that a definite date and location has been reached on the Baylor game for next fall. The Bears will return to Lubbock again for the third consecutive year on October 5. For the past two seasons the Waco lads have been sent home with the low end of the score.

### Fish Quint Has Height, Experience

#### Former Stars of Many High Schools Work Under Coach "Juicy" Owen

Tall men, tall men, and more tall men. That's the way to describe Coach "Juicy" Owen's Pleasor cagers. Short men on the squad are as scarce as "A's" on final exams. The two midgets on the team are only five feet and ten inches tall. On the opposite end of the height chart are two six feet four men. The others range from five feet eleven to six feet three.

Page Mr. Garrett. In Judge Garrett, six feet three inch goal looper deluxe from Bellview, New Mexico, Owen has an offensive threat that has not been subdued so far. He has carried off high point honors in every game. The Butler boys, each six feet one, are both good men to have when scoring is needed. Conway Butler, forward from Turkey, is one of the starting five.

Lonnie Butler, from Elida, New Mexico shows promise of developing into a real floor star. "Curly" Wilkinson, six feet four Lubbock lad, shows he knows that a basketball is something besides an inflated cowhide. Robert Hale, another freshman football player from Lubbock, has displayed some fine defensive work as a guard. His "pot" shots have also caused

### Matador Cagers Meet Lanky Boosters Here

#### Four All-Americans Play On Utah Club; Stars Include Edwin Comer And Fortenberry

The Ogden Boosters, from Ogden, Utah, the peer of amateur teams of the nation, who have won 38 out of 39 games to date, and with a lineup composed of four All-Americans and one All-American candidate, will meet the Texas Tech Matadors Monday and Tuesday in a two-game series beginning at 8 o'clock at the Tech gym.

Originally Wichita Henry's of Wichita, Kansas, the formation of the Boosters is the realization of a dream of Al Warden, Ogden Standard-Examiner Sports Editor, who organized the team to secure world-wide advertising for the Ogden community.

#### Four All-Americans

With four All-Americans, Johnny Callahan, team captain and guard; Melvin Miller, Ross McBurney, and "Tex" Gibbons, of Stratford, Texas, forwards, the problem resolved in one of finding another quartette of cagers to give the Boosters a complete line-up and sufficient reserve strength. Warden's next move was to reach into the "Valley of the Giants," and take four players averaging six-feet-six in height from West Texas State Teachers College, at Canyon.

#### Old Enemies

All the players, Fortenberry, center; Comer, forward; Colvin and Clark, guards—are well known to Texas Tech fans as the Matadors have met the Buffs six times, with as many losses in the last three years, while these players formed the nucleus of the Canyon attack.

The Matadors will place one of the finest teams in its history against the Boosters; a team that is leading the fast Border Conference race, and one composed of such stars as Alvin Crews, and Will Gilmore, forwards; Polk Robinson, center; Larry Priddy, and Leroy Crews, guards.

Besides playing in the national tournament at Chicago, the Boosters will tour Hawaii the last of March for a ten-game exhibition.

#### the opposition some trouble.

#### Hugh and Joe

His running mate at guard is Hugh Snodgrass from Monroe, that metropolis just northeast of Lubbock. "Snoddy" is a good floor man and handles the ball well. Joe Headstream from Ropesville, which was one of the contenders for the state high school title last year, is another promising prospect. His six feet four inches give him an advantage that he knows how to use. His accurate eye for the basket is one of his best features.

Olen Crews, another of the Crews family of basketball players, hails from Wilson the same as his big brothers, and shows promise of making them hustle to keep ahead of him in the future. Jim Nell, the big bruiser from the fresh football team, is giving notice that he knows how to play indoor games also. He is from West Thirty-fourth street (Brownsfield).

Young, Meacham, and Arnold are all from Turkey High school. Parker, Brookfield, and Williams are the other thinny clads.

#### Dean Margaret W. Weeks of the Home Economics faculty will attend the second Texas Conference on Child Health and Protection at Austin February 8, 9, and 10, as the representative from Texas Tech.

She will preside at the opening session.

Thirty-four new students have enrolled in the Home Economics division this semester, Dean Margaret W. Weeks announced Tuesday. This is the largest number of new students ever to enroll in this division at mid-year registration, she said.

### Intramural Push Gets Underway With Four Clubs

Texas Tech's intramural gridiron push got underway Monday as a disappointing number of candidates for the four teams limbered up stiff and dormant muscles in preparation for the big drive.

Coaches of the intramural machines expressed disappointment at the small number of gridirers answering the call for practice. Tuesday afternoon, Mentors Lacy Turner and Harold Crites, coaches of the social clubs, did not have enough players on hand to work out. Unless more football interest is shown among the social clubs, the team will be disbanded, leaving only three elevens to fight it out for the campus bunting.

#### Plenty Of Artists

The Aggies have only a mere handful of men reporting for drills while the Engineers are somewhat more gifted with material, at least as far as quantity is concerned.

Whacker Barton, Ealy Harris and Lefty Soils have the largest number of grid prospects taking their turn for the Liberal Arts. Right now the Artists appear to have the edge on the other teams with several veterans on the roster. Johnny Walker, former varsity halfback, Tracy Watson, and Rucy Baird are just a few of the seasoned performers on display with the liberal arts.

All teams have seasoned campaigners that have proven their caliber in past campaigns, but it is too early as yet for coaches to get a line on their material.

If the intramural men show enough interest in the sport, equipment will be issued next week. The schedule has not yet been made out, pending outcome of the loop.

### AWS Entertains Fifty Guests As Students Gather

About fifty guests called between 4:30 and 5:30 o'clock when junior council members of the Association of Women Students entertained with a tea at Seaman hall Friday afternoon as an honor to freshman girls at the college.

Miss Emily Davis, president of council, was at the door. Others in the house party were Misses Nancy Favor, Elizabeth Montfort, Agnes Abernathy, Helen Frances Eiland, Lorene Childers, Kathleen Jennings, Mrs. Lawrence Priddy and Mrs. Mary W. Deak.

#### Favor Pupils Dance

Pupils taught by Miss Favor danced during the afternoon and Miss Sue Brown sang. Miss Lucille McCrummen, secretary of the A. W. S., presided at the tea table, which was decorated with primrose. The Valentine motif was used in appointments. Miss McCrummen was assisted in serving by Misses Sara Tom Jones and Lorena Carter.

### Mats Split Two Tilts With Buffs

#### Morganmen Come Back After First Loss To Take Second; Crews Is High

In a game packed with a thrill a minute, the West Texas Buffs eaked out a 23 to 22 win over the Matador quintet in the Buff fieldhouse Thursday night.

There was never a time during the game when the score was separated by more than five points. At the half the score was 15 to 8 in favor of the Herd, but Tech tied the score twice before the final whistle. The score was tied at 17-all and again at 19 apiece.

#### Crews High

Co-captain Alvin Crews was high point scorer for the night with nine points. Wilson Gilmore was next with eight. Priddy and Robinson exhibited some fine defensive playing.

#### The box score:

WEST TEXAS (23)	FG	FT	TP
Stroud, f	3	1	7
Walker, c	1	0	1
McMinn, f	2	2	6
Boedecker, c	0	0	0
Richards, g	1	0	1
Phillips, g	2	2	2
Totals	9	5	23

TEXAS TECH (22)	FG	FT	TP
A. Crews, f	3	3	9
Gilmore, f	2	0	2
Robinson, c	1	0	2
Priddy, g	1	1	3
Weaver, g	0	0	0
L. Crews, g	0	0	0
Totals	7	8	22

#### Tech Comes Back

Saturday night, following their one-point defeat, the Matadors staged a comeback and defeated the Buffs 29 to 22. This was the third team in Tech history to split a series with the Canyon school. Tech won a game in 1928 and again in 1929.

The contest was played on an even basis during the first half with the Buffs leading 15 to 14 at the close of the first period. In the last half Matadors held the Herd to two field goals and ran up a 7-point lead before the Canyonites registered. The Buffs took twice as many shots as the Matadors, but they could not hit the loop.

Leroy Crews was high scorer with 11 markers. McMinn of Canyon was next with nine and Wilson Gilmore followed with six.

#### NEW STUDENTS HONORED AT HOME EC MEETING

New students in the home economics division were recognized and welcomed by the president of the Home Economics club, Evaughn Clark, at the club meeting Tuesday night at 7 o'clock. The club council, made up of club officers and one representative from each class, had charge of the meeting.

Dean Margaret W. Weeks conducted a parliamentary drill, and Gertrude Samson played a violin solo. A financial report by the secretary and discussion of future club programs completed the meeting.

### Sock And Buskin To See Wayland College Players

Wayland College of Plainview, will present a program before members of Sock and Buskin at the next regular meeting, February 20, according to an announcement made by Miss Ruth Pirtle, sponsor, at the Tuesday night meeting.

#### Officers Named

Officers elected for the new semester are: Charles Maedgen, president; Billie Crenshaw, vice-president; Margaret Carroll Robertson, secretary-treasurer; Clay Thompson, sergeant-at-arms; and Lois Mullins, reporter.

Plans were made for about 20 members to charter a bus and attend Katherine Cornell in "The Barrets of Wimpole Street" at Amarillo, February 17.

#### Dramatic Program

Texas Intercollegiate Dramatic tournament plans were discussed. Tickets for the tea-dance from 2 to 5, April 6, will be 35c for dramatic club members, and 50c for outsiders. Tickets to the eight or twelve plays will be 25c per night, or 50c for both. Twelve colleges have accepted invitations to attend the tournament April 5 and 6. Plans for housing the guests were discussed.

Members will be allowed to bring one guest to the Wayland College program, which will begin at 7:30. To complete plans for the trip to Amarillo, a call meeting has been set for next Tuesday night.

### The Way to a Woman's Heart

There's no surer way to please sweetheart, mother, or sister than this delightful remembrance. It's the Artstyle Red Satin heart box that sells for only \$1.50. Nowhere will you find a wiser choice. You'll find other Artstyle boxes priced from 25c to \$3. Have your Rexall Drugist reserve yours NOW.

### FACULTY WOMEN MEET IN REGULAR MONTHLY SOCIAL

Tech faculty women met in their regular monthly social hour last Saturday afternoon at 3 o'clock at Seaman hall.

A program was presented by Mrs. Alan Strout, reading a group of Irish selections, and Miss Allie Eason, singing a group of Mexican folk songs. Sewing was the diversion of the meeting.

Hostesses for the affair were Mesdames G. W. Woodbury, W. T. Gaston, W. B. Gates, W. A. Jackson, L. T. Patton, George Smallwood, W. R. Waghorn, W. C. Cole, S. T. Cummings, Roscoe Wilson, P. W. Horn, and John K. Wherry.

# CONGRATULATIONS - TOREADOR - ON YOUR NEW PRINTING PLANT

1926

1934

Since the opening of Texas Tech's doors to the youth of West Texas in 1925, there have been visors of a printing plant for the use of the students who wished to get the practical knowledge of the field of Journalism. Now this dream has become a reality. What is only a college weekly at present may grow into one of the most powerful elements in molding free thinking tomorrow.

The staff of the Toreador is establishing a code of journalism ethics for the youth of tomorrow to follow when they become enrolled in Texas Tech college. Though the plant is only in its infancy now, it will be handled according to our laws and ethics of journalism. The publishers are striving to raise the standards of American journalism to the highest degree of efficiency.

# Dreams Are Realized As New Printing Shop Gets Trial By Tech Students

### Machinery Is Tested In Publishing Of Paper This Week; Wiemhold, Eaton Operate

Dreams for a Tech owned printing plant have at last been realized and this week's edition officially ushers in the new undertaking. Formerly all Toreadors have been printed by a down-town newspaper. Now, along with Tech's other improvements an office has been secured and equipment is being put in use by college students. Forrest Wiemhold and Wilmot Eaton, experienced printers, are being employed to print the paper and Tech students will also do the proofreading and copyreading.

### New Location

The plant is located in the north end of the basement of the Engineering building. Partitions are being built to enclose the printing equipment and one-half the space will be used for the business office and editorial rooms. New office furniture has been ordered and a telephone installed. The Toreador's new home when completed will be one of the most modern and up-to-date college printing plants in the state and it will prove far more convenient than the old plan under which it has been operating.

### Deadlines, according to Bob Tracy, Toreador editor, will be the same under the new plan as formerly, and members of the staff are making every effort to co-operate with the editor, business manager and printers in order to make Tech's newest undertaking a success. Besides adding another improvement to the college, the fact that it has a newspaper plant of its own will raise the school's journalism standard and provide a laboratory for journalism students.

### Worth \$15,000

The new printing establishment will have its own mat service. Included in the equipment is an in-typewriter, casting box, power paper cutter, steel metal cutter, type cases, Miehle press, job press, two composing tables and a proof machine. The approximate value of the new plant is placed at \$15,000.

### TECH DAIRY DEPARTMENT HOSTS TO LUBBOCK CLUB

The Tech dairy manufacturing department will have as its guest next Monday the women of the Home Demonstration Club of Lubbock county. The women will gather here for a one-day demonstration course.

Mr. K. M. Renner, head of the department of dairy manufacturing, announces that the students and professors of the department will demonstrate the process of making cheese, butter, ice cream, and the general care and use of milk.

### Engineering Society Plan Annual Banquet In Monday Night Meet

At a called meeting of the Engineering Society held in the Engineering building Monday night, plans were made for the coming Engineering banquet and new officers for the year 1934 were elected.

The following officers were elected: vice-president, Truman Green; secretary, Paul Hall; treasurer, Robert Harding. These officers are to serve until the second semester of the school year 1934-35.

Plans for the Engineering Banquet were discussed. This banquet is to be held March 3, 1934, with Professor Doughble of the Mechanical Engineering department as

### Professor Plank Speaks To Groups

Ellsworth Plank, professor of political science, spoke on "Relieving Human Misery and Transforming Unjust Social Systems" Sunday afternoon when he addressed a number of students assembled at Seaman hall under the auspices of the college Young Men's and Women's Christian Associations.

The horrors of war, its adjustments pro and con, were featured in the address by Mr. Plank.

Tea was served during a discussion which followed the talk.

Mrs. Robert E. Withers, sponsor of the Y. W. C. A., was present with 21 students.

### Rhew To Speak

Marshall Rhew, student minister at the First Methodist church, will talk Sunday at 4 o'clock at Seaman hall on "Beauty and Gaining Vision and Serenity Thru Silence," two of the topics discussed in "Living Creatively," the theme of the association.

Miss Elizabeth Conner will have charge of a short devotional preceding the talk.

### Librarian Warns That No Books Are Loaned Without Library Card

Under the new plan no books will be loaned students without a library card, according to Miss Elizabeth West, librarian, who requests that students call for their cards at once so that there will be as little delay as possible in securing books.

Each time a student incurs a fine for losing a book or in bringing them in late, the amount of his fine is deducted from his breakage deposit of \$7.50. At the beginning of this semester this amount was included in his fee-card in order to bring up his deposit to the required \$7.50.

Throughout the semester the library will make a monthly report to the auditor of all fines. This report, according to Miss West, will be posted for several days before being sent to the auditor, and if a student prefers, he may pay his fine in cash in order to keep his deposit intact. All fines must be paid at the auditor's office.

The library will be opened each week day from 8 a. m. to 10 p. m. except Saturdays, from 8 a. m. to 5 p. m.

Those assisting Miss West this semester are: Assistant Librarian and head cataloguer, Miss Emma L. Main; Assistant cataloguer, Miss Lula Stine; Reference Librarian, Mrs. W. C. Holden; Graduate assistants, Herbert (Fritz) Southworth and Carl Harper; Undergraduate assistants, C. E. Mitchell, Cecil Key and Jim Allen Hart; Miss Evelyn Heatley is secretary to Miss West.

toastmaster, and Mr. H. L. Allen, manager of the Texas Utilities Company, as principal speaker. The men elected to represent their classes as speakers are: Senior, William Luce; Junior, Truman Green; Sophomore, Fleming Austin; Freshmen, Jack Quinlan.

Further arrangements including the sale of tickets will be announced later. All specific committees pertaining to the banquet will be appointed by the executive council.

### Jackrabbit? Maybe The Staff Saw Spots Before Eyes

When the Toreador moved into its new home located in the north wing of the Engineering building basement this week, another occupant had already established the site as his domicile.

Late Monday night when members of the Toreador staff and printers were working on the first edition to be issued from Texas Tech's new \$15,000 printing plant, a large jack-rabbit scampered across the floor of the shop dismayed with disgust at the unusual amount of noise prevailing in his home.

According to Jack Hightower, Tech nightwatchman, the long eared jack had probably used the basement for a considerable length of time, because he seemed to know every crook and turn in the lower part of the Engineering building while fleeing from his possible captors.

An Engineering student who witnessed the event said that as long as he confined his residence to the basement he would absorb most of the lectures wasted on students in the upper building.

Texas Technological college may be the only college in the nation that can boast of an educated rabbit. At least we can say that he has been exposed to an education, because so far he has eluded his would-be captors.

### TEXAS LIVESTOCK HEAD VISITS CAMPUS FRIDAY

John Barcus, manager of the Texas Livestock Marketing Association of Fort Worth, and trustee of the 8666 ranch of Benjamin, was a visitor to Texas Tech Friday.

Mr. Barcus is a former head of the department of Animal Husbandry of Texas A. & M. College. W. L. Stangel, now head of the Tech A. H. department, was trained under Barcus at College Station and later did assistant work there.

Barcus is recognized as one of the leading judges of all breeds of stock in the United States.

### Artist Course Will Bring Two Artists To Tech In Spring

Metzenauer And Ruth St. Dennis Appear This Semester

The college artist course committee has arranged tentative dates for two numbers booked for the month on the 14th and 16th or 23rd. These numbers, presenting a noted soprano, Miss Margaret Metzner, and famous dancer and lecturer, Miss Ruth St. Dennis, will be given in the Lubbock High school auditorium. The time will be 8:15 o'clock in the evening.

Miss Metzner, holding the distinction of being the first singer requested by a local audience to fulfill a return engagement, is with the New York Metropolitan Opera company. Because of the numerous requests Miss Metzner, who appeared on an artist course number last year, has been asked to return and will appear either on the date of February 18 or February 23.

### St. Dennis Dances

Miss St. Dennis, one of the world's foremost artists, is a most delightful and informative speaker whose remarks are always spiced with a rich vein of humor. Following her talks comes a group of her most famous dances. She has appeared in the three most important lecture courses in New York—The League for Political Education at Town Hall, The Brooklyn Institute of Arts and Sciences, and The Institute of Arts and Sciences of Columbia University. Her program will be on one of the following topics: "The Right Use of Leisure," "one of her newest topics," "The Dance as a Cultural Force," "Spiritual Art of the Dance," "The Future of the Dance in America," and "The Philosophy and Dance of the Orient," all given under the man-

### Sophomore Class Calls Dance Meet

Plans and arrangements for this year's Sophomore Hodge Podge will be discussed by the members of the class of '37 in a called meeting to be held next Monday night at seven o'clock in the Chemistry building auditorium.

The date of the dance will be discussed and sponsors will be appointed, according to Hop Halsey, president of the class. All members of the Sophomore class are urged to be on hand to lend their support to the class officers.

### ENROLLED AT MISSOURI

Miss Cecile Horne, ex-student of Texas Technological College, is enrolled as an advanced student in the University of Missouri School of Journalism. She is located at the Chi Omega house, 506 Burnham street, Columbia, Missouri.

agement of Edward W. Lowrey of New York.

Students will be admitted on tickets purchased at registration last Thursday. Others desiring tickets can secure them through the offices of the artist course committee members.

### Campus Campanile Is Architectural Problem In Class

A campanile for this campus, to be placed where the flagpole now stands, is the new problem for design in the class of elementary architecture. The bell tower is to conform in type to the architecture of the campus buildings and to the allotted ground.

Although there is no hope of constructing such a tower right away, according to Prof. F. A. Klein-schmidt, head of the department of architecture, a scop model will be made of the most satisfactory design. A "Temple of Love," based on the Temples of Vesta at Tivoli and Rome, and upon the real "Temple of Love" at Versailles, is being completed by the same class now.

The commercial art class, also taught by Prof. Klein-schmidt, is working on advertisement for "Saxet" perfume.

Austin Davis, who was out of school the first semester, has resumed his work in the engineering school.

Send The Toreador to a friend.

### College Students Get Five Millions CWA Allotment

### Uncle Sam To Send Students To College Under New CWA Plan

President Knapp announced that the Federal Government, through the Civil Works Administration, set aside the sum of \$5,000,000.00 to use for the purpose of helping students in colleges to remain in school. Each college will be able to furnish jobs for ten per cent of the enrollment of the college as of October 15, 1933.

The students will work at jobs to be assigned to them by the college. Each job will be for a sufficient number of hours each month to earn \$15.00.

It is understood that seventy-five per cent of those who will receive these jobs will be old students and twenty-five per cent new students. President Knapp has immediately filed application by telegram for allotment of funds for the Technological College.

### WAA Choses Four Sport Chairmen For New Year

At a regular meeting of the WAA held Monday night, four new sport chairmen were chosen to carry out athletics for the rest of the year.

The chairmen include: Gertrude Ford, volley ball; Ponice Reaves, ping-pong; Pearl Dedmon, skating; and Helen Williams, tumbling.

Several new sports will be offered this semester including soccer, ping-pong, and tumbling. Later in the semester volley ball and baseball will be offered, with plans being made to have archery.

Each of these sports counts points toward a Tech letter offered by the athletic department. All sports except group games and horseback riding are four points an hour. The latter vary.

Each girl making 500 points will be given a small Double-T letter; those making 1000 points will be awarded a large letter, both to be given early in the Spring at the annual WAA banquet.

All college girls are invited to become a member of the WAA. Those wishing to join should see Miss Gikerson or Miss Reigel of the Physical Education department or Jimmy Hash, president of the WAA.

Tennis, golf, and horseback riding will be included in the activities for the Spring semester.

### Printing Plant

(Continued from page one)

has been made by the college publication. It has come by careful management of the publication and by the loyal support of the student body. Representative students of the institution have been clamoring for a printing plant for several years. The administration has cooperated in the effort and has aided in financing the venture. All material, equipment, and machinery has been paid for in cash. The shop will start operation without owing a cent.

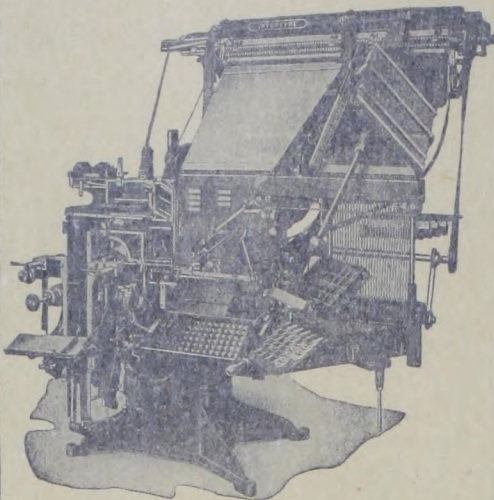

### Club Dance

(Continued from page one)

Council members are to make ten rules of dance etiquette to be observed at all club dances. Each girl's social club is to make five rules for boys' social clubs and five rules for boys' social club, and each boys' social club is to make five rules for girls' social clubs and five for themselves.

Money for the Inter-Club Council page in La Ventana must be given to Rob O'Hair or Rosemary Leaverton by today.

### Here's How Intertype Looks

Above you see a modern Intertype type-setting machine, which is one of the greatest inventions ever contributed to the printing industry. Operation of the Intertype keyboard is somewhat similar to the use of a typewriter, excepting that on the Intertype much less physical effort is required. It is not an uncommon thing for a good operator to set two full columns of type on one of these machines in an hour without a single error.

### Music Purveyors

NEW YORK, N. Y.—The works of Aristotle, Plato and Nietzsche are elementary compared with those of Whiteman's Vale, Lombardo or his own orchestra, Eddie Duchin, popular 24-year-old radio maestro, stated in an interview recently. Present day collegians find it considerably easier, he said, to select a favorite philosophy than a favorite dance orchestra.

Duchin threw an interesting sidelight upon the great American educational scene when he pointed out that many college men and women in freshman year, and sometimes earlier, decided upon the merits of Socrates, Stoicism, Neoplatonism or any of the many other philosophies while it often requires four full years in which to weight the respective merits of the various orchestras sharing collegiate popularity.

"I have learned," he stated, "from personal contact and correspondence with students representing more than a score of our leading colleges and universities including Notre Dame, Fordham, Alabama, University of Wisconsin and Bowdoin, that the average collegian is unusually well informed regarding

### First Tech Student

### Irvin Coleman Is Houston Lawyer

Irvin W. Coleman of Lubbock, the first student to enroll in Texas Tech, has joined the legal staff of an oil company in Houston after resignation as a law clerk in the State department, according to an announcement made by the Texas supreme court Monday. John H. Johnson of Galveston, law librarian, will succeed Coleman.

Coleman was the first student to enroll in Tech coming here from Vernon early in the summer of 1925 and entering the employ of E. L. Dohoney, late registrar of the college. He received his bachelor of arts degree from the college in 1928 and went to Austin to study law.

the activities of the better known dance orchestras. This is probably due to the fact that they have built up a student following through their radio and varsity work to the point where their every move now becomes an item of major interest on the campus."
