Morrison's Ponies Seek Vengeance On Matadors Eighteen Hundred Students Enroll For 1st Semester

College Registration Incomplete As Enrollment Shows Gain; Cotton Checks To Boost Number

Prexy's Paragraphs

The first general convocation of the institution will occur today at eleven o'clock. I am exceedingly anxious that we shall have a full attendance of both students and faculty members. We owe it to ourselves to have a convocation every now and then in order to get together and really find how many there are who constitute this great family we call Texas Tech. Come and let's have a good attendance.

Seating arrangements should be as follows: Faculty—front seats at the left-hand side; Seniors—front seats at the right and immediately back of the faculty; Juniors—main floor at the rear; Sophomores—left-hand bleachers; and Freshmen—right-hand bleachers and north side bleachers.

It is exceedingly important that every one should finish their registration. I know how difficult are our financial obligations. They never were more difficult for many of us than they are now. While prices of things generally have advanced, and while the cotton checks are coming in to lighten the hearts of many, salaries of teachers have been reduced and many of us are struggling with financial problems.

The new law makes it mandatory upon the college to collect the tuition fees—we have no choice about the matter. The Attorney General of the State has so decided it. We regret very much, but it is unavoidable, the members of the Legislature of the State of Texas fixed the duties of the institution. We shall do all we can to lighten the load and adjust the situation so as to make the burden as light as possible. We cannot get away from the fee charges imposed upon the students by the Legislature of the State of Texas.

We ought all of us to be encouraged by the fine appearance of the new class in college. We should be hopeful regarding the splendid return of the older students to take up their work again in college. The year begins auspiciously. Let us work together to make it a record year for Texas Technological College.

If the institution and the student body are to follow the policy of requiring freshmen to wear freshman caps, then it has always seemed to me that we ought to exercise some discretion, some sense of fairness and some common sense regarding such a rule. To my certain knowledge, there are freshmen coming here to register this year who have found themselves without even a dollar left after they have paid their fees and bought their books. They want to buy freshman caps and they will buy them as soon as they can get the money to do so. Fairness and common sense would warrant any responsible person in waiting for them to obtain the money to get the caps.

I know positively of students stealing or taking caps from freshmen by force. That is a dangerous practice. It is unfair and cowardly for two or three to jump on to one and take his cap, whether by force or intimidation or otherwise. We cannot conscientiously enforce a rule by requiring freshmen to have caps and then tolerate such unfairness as this would indicate.

I know from long years of experience also that it may easily lead to other acts of violence and, therefore, I want to put this word of caution before those who have so far forgotten themselves as to indulge in this practice. Let us try to set a better standard at this school. Such acts as these go way back into to seventy-five years, into ancient history. We have passed clear on by that sort of philosophy in life. In trying to set new standards of conduct in America, why not be up-to-date? Invent some new spirit of fairness and consideration and do not act according to the standards of fifty years ago.

On Friday night we are to have as our guests at this institution, the S. M. U. Football Team and their friends. Let us strive to set a good example on this occasion. It is not necessary that we should hate a rival in order to defeat him. Let us win this game and, at the same

Part Time Teachers Given Regular Jobs As Demand Increases; Last Day For Registering Is Set For Sept. 30

The enrollment at Texas Tech this year is proceeding slowly. 1,814 students have applied for admission to Texas Technological college up to the close of business on Tuesday, September 26. This is about 75 more students than were registered at the same time last year.

In all probability there are more students who have delayed their registration on account of the lack of finances than was the case last year. The registration has been slow mainly on account of student finances. Many students are waiting on cotton checks. The administration is sure that it has had to handle more emergency cases involving some slight delay in order to get funds for the payment of fees than it had to handle last year.

The enrollment, however, is for a very full number of registered students. Apparently, it soon ought to reach from 50 to 100 more than last fall. This is best indicated by the fact that the enrollment in Freshman chemistry exceeds by 100 the number at this time last year. The enrollment in Freshman physics has also greatly increased. The number taking Freshman English has required the placing of half-time teachers on full-time basis, resulting in the employment of one full-time additional teacher in the department.

Additional help is necessary in both chemistry and physics. It is too early to analyze the enrollment by divisions. Students will be enrolling all during the present week. The last day for enrollment is Saturday, September 30. The enrollment without permission of the College Council is October 7.

Practice House Has Five Girls

Five senior home economics students are staying at the Home Management house for the first nine weeks of this semester. They are Misses Mary Leidigh, Wilda and Wilma Spilke, Florence Barrett and Laetitia Kunkle.

The Home Management house is located on the campus east of the Home Economics building. All senior girls of the home economics division are required to live there several weeks before they may graduate. In past years the time has been one term, but since the adoption of semester system, it has been shortened to nine weeks.

During their stay, the girls have certain specific duties which are alternated every week. In this way each has an opportunity to test her knowledge of home economics.

Miss Mayne Twyford, associate professor of foods, has charge of the Home Management house. Visiting hours are from 4 to 6 o'clock every day except Saturday and Sunday.

Twenty per cent of the timber cut all the world is wasted in the sawdust.

Dumber Yet Frosh Figure Deans Out Wrong

Years may come and years may go, but college freshmen will be as green as ever. Two examples of fell dummies are outstanding this year. A boy with a green cap peeked timidly into the Toreador office Tuesday where a member of the staff was peering at a typewriter. "Could you tell me where to find Dean Knickerbocker's office?" he stammered.

The other honor occurred during registration. It was necessary for Miss Luella Gill to place a number and her name on a certain card which every freshman had to present. The result puzzled one fish, so determined not to let anyone put anything over on him, he approached another professor and demanded, "Say, what in the world does four gills mean?"

Tech May Have Two New Dorms On The Campus

Plans for two dormitories for Tech costing \$650,000 were outlined by President Bradford Knapp during the past week. The college hopes to obtain the funds from the Public Works administration.

The proposed dormitories, one for boys and one for girls, will house 200 students each. The front of the dormitories is to be 210 feet long with an L running back 152 feet from one end. They will be four stories high.

The buildings will front toward the double road entrance to the college, the boys' unit being located on the north and the girls' dormitory on the south, near the practice house and home economics buildings. The buildings will cost approximately \$325,000 each, fully equipped with dining room, supply room, kitchen, cold storage, a large parlor, matron's and supervisor's rooms.

Both dormitories, President Knapp announced, will be fireproof, modern in construction and design, with same type of architecture as the present buildings on the campus.

The Board of Regents concluded this is the ideal year to launch the construction, because the college has reached its maximum registration which can be accommodated within the town, and funds are available through the Public Works association. With this step taken, many more students will enroll in Tech, especially girls.

Under the provisions of the Public Works association the institution would receive an outright donation of 30 per cent of the cost of labor and materials and would be compelled to return to the government 70 per cent of all costs within 30 years.

"In reasonably modest payments the institution can pay for these structures within that time," President Knapp said. The construction will give work to 200 for 8 to 10 months.

Because of the present conditions of the state finances, it would be impossible to obtain aid for building the dormitories for years to come. Under the present plan, there will be no burden upon the taxes of the state nor upon the present income of the institution. Room rentals will provide the revenue for the yearly payments to the government.

Engineers Meet Here October 2

Master Mind Of The S. M. U. Mustangs

Coach Ray Morrison, wily grid strategist of Southern Methodist university, will pit his Ponies against the Matadors tomorrow night at Tech field in the season's official opener. Morrison has gained nationwide fame for his ability to produce tricky, passing teams.

College Avenue Baptist Holds Revival In New Building

Rev. Boyd P. Milborn, pastor of the College Avenue Baptist church has announced that a revival is being held in the new building every night at 7:30 o'clock. The Rev. Willis J. Ray is conducting the services.

Pre-Meds To Have Special Meet To Get Acquainted With Fresh

The Pre-Med club will have a special called meeting at 7:00 o'clock Thursday night in room 101 of the Chemistry building.

Fish Beware Frosh Must Serve One Year At Tech

As requested by the 1931 class, freshmen students are not to sit on the Double T bench on the south lawn of the Ad building.

Convocation To Be Held In Gym At 11 Today

Dr. Knapp will be principal speaker at first all-college gathering of year; students urged to attend

The first general convocation of the year will be held in the gymnasium this morning from 11 to 12 o'clock. Dr. Bradford Knapp, president of the college, asks a full attendance. He will speak on a number of "important matters affecting the institution."

Dr. Knapp requests that all students pay special attention to the new seating arrangement for upper- and underclassmen. The first rows on the left side of the main floor will be reserved for the faculty. Seniors will be seated in the first rows at the right side of the main floor and immediately behind the seniors on the main floor.

Night Classes For Texas Tech

Extension Department Offers Courses To Citizens Of The City And Students With The Approval Of Deans

Night classes on the college campus will be available this year as in former years. On the request of ten or more persons for a given class, a class may be arranged.

The classes are composed of those persons who cannot attend the regular day classes, and the local citizens and teachers of the near-by public schools. Resident students are also admitted on the approval of their respective deans. Fees are \$10.00 per quarter or \$16.00 per semester. All persons who are interested in taking advantage of the night courses are requested to communicate with the Extension department of the college in the Ad building.

Many Requests Requests have been made for courses in Astronomy, chemistry, economic principles, practice teaching, freshman English, advanced English, geography, advanced American history, first year Spanish, and freshman zoology.

Astronomy 123 and descriptive Astronomy is to be given by Dr. S. Underwood of the Mathematics department. This is a non-math course that is open to any student or faculty member. Any citizen may also take the course.

Holds Masters Dr. Underwood took his masters degree in the University of Chicago in astronomy, and was a student assistant in the Yerkes observatory, Williams Bay, Wisconsin. The course will be based on an interesting text of a popular nature and on observations and study of the constellations. The course may be taken either as a credit or non credit unit.

Another new course in retailing is to be given by Professor H. R. Nisley of the Department of Business Administration. While this course is intended for merchants and employers, some students may also be interested, and will be admitted on the approval of the dean of their college.

Southern Methodist, Matadors Renew Feud Of Last Year, Pony Football Team Brings New Men

College Prexy Talks To Fish Wednesday A M

Dr. Knapp Urges Use Of College Bulletin For 4 Years During College Career; Student Celebrities Speak

Approximately 600 freshmen attended the orientation exercises held under the direction of the college administration at the gym last Wednesday. Dr. Bradford Knapp, president of the college was the principal speaker.

President Knapp opened the program with a welcome address to the senior class of '37. After pointing out the value of freshman orientation, he introduced Dean J. M. Gordon of the Division of Arts and Sciences, Dean O. V. Adams, Division of Engineering; Dean Margaret W. Weeks, Home Economics; Dean Mary W. Deak, Dean of Women; Dean A. H. Leidigh, Division of Agriculture; and W. R. Clement, registrar of the college.

Use Catalogue On the grounds that the catalogue is the contract under which a student enters Texas Tech, Dr. Knapp advocated the use of it throughout the four years of college. He also stressed the knowledge of English, history, and economics as being the essential factors in overcoming the present economical situation.

Climaxing his speech, the president said, "You are now the molder of your lives and the architects in constructing your education and character."

Student Prexy Speaks Ray Moore, president of the student council was introduced to the class. The student prexy made a short talk, explaining the proper school spirit and some of the traditions of the college. Other student speakers were Bob Tracy and Bruce Zorns of the student publications. Both speakers urged the freshmen to purchase their La Ventana and Toreador for the ensuing year.

Campus Women To Meet In Gym

First Women's Convocation To Be Held Oct. 4 At 11 A. M.; Co-Eds Will Be Dismissed; Deans To Attend

The first mass meeting of the women students of Tech will be held in the gym October 4 at 11 o'clock. Officers of the Association of Women's Students will conduct the program. Members of the faculty who will be present are President Bradford Knapp, Dean Mary W. Deak, Dean Margaret W. Weeks, and

A. W. S. CABINET MEETING The first meeting of the AWS cabinet will be held Monday evening October 2 at 5 o'clock in room 207 of the ad building. All members are requested to be present to make the final plans for tag days and AWS dance.

Mrs. Eleanor Childwood. All girls will be excused from class to attend this meeting.

Plans for the annual tag day will be explained. The tag days this year will be October 6 and 7. Tickets to the AWS dance, the first all-college dance of the year, October 9, will be sold with the "howdy" tag. Sales will be made from tables in the east rotunda of the ad building, while members of the AWS cabinet and the Junior Council will sell them on the grounds.

Dallas Boys Out For Vengeance On Cathown's Machine With A Different Outfit Than The One That Lost Mud Battle

Southern Methodist university's Mustangs, with a lineup studded with brilliant sophomores, will vie with the Texas Tech Matadors for grid supremacy tomorrow night under the floodlights at Tech field. The Ponies' invasion will officially blast the lid off the Techsters' 1933 schidule.

Captain Ray Morrison's Mustangs are always a colorful and smooth working machine and have gained nationwide recognition in the past few years for their smart football and uncanny passing ability. Earlier in the season, dopesters picked the S. M. U. aerialists to finish at the top of the Southwest conference heap, and according to reports dribbling out of conference centers Southern Methodist is still being touted as being a strong contender for championship laurels despite a recent non-conference setback.

Loss To North Texas Eagles Strung by their 7-0 loss to Jack Sisco's North Texas Teachers last Saturday in Dallas, the Morrison-men will be all the tougher when they line up against the Mats. Two reverses at the hands of non-conference opponents in the past week would be a blot on the Mustangs' record as it would wreck their aspiration for a successful season.

Coaches Cathown and Dutchy Smith have spent most of the week in perfecting a pass defense which will be a real test for the S. M. U. aerial circus. If the Mustangs find it difficult to penetrate the Tech front wall, it is almost certain that they will fill the atmosphere with passes, and an SMU air attack is something to be feared by any team.

Rough Spots Something Out The rough spots that cropped up at intervals in the skirmish with the fish gridders last week have been polished, and a smoother-working machine is expected to be seen in action against the 1931 Southwest conference champions tomorrow night.

According to the Tech coaching staff, all the Matadors are in the peak of physical condition. Matt Hitchcock, veteran wingman, who has been suffering with a minor injury, is ready for service again.

The SMU Sports Schedule Out is made up of sophomores. Morrison is reputed to have the most powerful line and the most versatile backfield he has had in years. Several of his sophomore ball carriers and line busters have won renown on Texas high school football fields.

Nifty Ball Toters The galaxy of Pony ball toters includes James Russell, 184 pound halfback from Dallas; "Curly" Woodward who once performed for Sunset High school of Dallas; little Bob Wrench, fleet all-state back from Corsicana; "Hack" Ross, 220 pound fullback from Farmersville; Bob Turner, 175, halfback and Jack Little and J. R. "Jackrabbit" Smith, former Peacock Military Academy linemen.

forward wall is well fortified with several top linemen interspersed with sophomores of equal caliber. In Ray Fuqua and Louie Smith, Morrison has two of the greatest ends in the conference. Clyde Carter, Goodwin Bray, and Truman Spain, 204 pound tackle, will make it hard for the Matadors to find holes at the tackles.

It is probable that the Matadors will have to concede poundage to the Mustangs. The Pony backfield as a whole will probably be slightly heavier than the Tech secondary. The lines will tip the scales more evenly.

Elsa "Tubby" Baker, senior guard from Abilene, has been appointed captain for the game.

Two thousand of the 40,000 doctors in England are women.

other members of this committee. Nancy Fayer, chairman of the fine arts committee, will outline the musical evening plans, the first evening to be held October 14 in Seaman Hall.

Officers of the AWS will be introduced, those of the Junior Council will be discussed by Emily Davis, president. There is to be a discussion of partial self-government for women at Tech following a report by Margaret Green, chairman of the housing committee, who is making an investigation of house-mothers and housing conditions. Mary Frances Johnson, May Tom Howell, and Lora Cammack are the

THERE SHALL BE NO REGRETS

The Toreador is proud to announce that the sales of athletic tickets has a decided gain over the sales of last year. That does not mean however, that the Athletic department is satisfied with the progress of the sales. Every student should own one.

Those students who have not yet purchased their tickets, will realize the advantage of being the owner of an athletic ticket by tomorrow night. For when the Matadors line up against the Mustangs, it will be official start of one of the most hectic seasons in the school's history. No student will want to miss any of the home games to be played here this fall.

Texas Tech has already placed itself high up on the national football ladder by its glorious season just past. The record hung up by them was made possible by the loyalty of the students and the generosity of the town-folk. This year, their changes for a winning team are about on a par with that of the season past.

If you have not purchased that ticket, do it now. Football games are not all that is included in the small booklet. In addition to six major contests on the gridiron, there will be some fifteen basketball games, at least two track meets, and a goodly number of other athletic events. The Toreador's advice to each and every student, is to buy an athletic ticket. Remember there shall be no regrets.

STRIKE UP THE BAND

Since the opening of The Texas Technological college there have been sensational developments in every branch of the institution, but one of the greatest has been the growth of the college band. Under the instruction and direction of Harry LeMaire the band has developed from an organization of a few members to an organization, which hopes this year to have a marching unit of one hundred members and a concert unit of fifty.

Last year, its seventy members, resplendent in their scarlet and black uniforms, ranked with the best college bands in the state. Give them new uniforms this year and the band boys will do themselves proud while on parade.

It may be that clothes make the man, but after all it is the music that makes the band and it is a certainty that with an organization of a hundred members, all accomplished musicians, the Matador band will reach the height of its musical career.

The loyalty of the band to the other departments of the college deserves in turn the loyalty of every student of

Mysterious Mike Moses Around

Wal, fellers, it looks like skule am about to start agin. From the expressions on some of these here FRESHMAN faces, it should have started YEARS ago, or maybe education just don't have nothin to do with the way they look. Ole Mike was snooping around over at the REGISTRATION booth day and shore had a lot of fun WATCHING them students go thro' they was LOTS of them victims what had to look on their cards after the first four or five steps to find out what their NAMES was.

Ole Mike would like to give some of these here GIRLS clubs a tip, if BEAUTY has anything to do with being a good member this here LASSIE LASSIE COLUMN should be PREXY CLAUDE GOLDSMITH is in town. The SILVER KEYS had an open HOUSE.

Wonder what happened to the A.W.S. PRES HENRY orientation plans. Guess JENNINGS can't take it. I ain't never seen DOBINS bluish, but she shore can turn PALE. Skule has started agin; the winter shades has changed from BROWN to PINK. AKE LOUHRIDGE is holding a TORCH. DON MADDOX ain't. BRUCE ZORNS don't know ... FISH SMITH has met HAZLEWOOD.

TOLBERT LEDBETTER has the conviences of a SHOWER BATH at his place. CURFMAN has a protege—don't ask him what it means. SKINNIE ROBERTS is in town. A. G. HALL is in town. JOHNNIE FREEZE ain't. That makes them EVEN. BILL CALDWELL had a

date agin. Them SILVER KEY boys has got their furniture out of hock. The WRANGLERS has another house. HANK MORGAN is house-mother.

ZARAFONITIS can still TAKE it. WARD GARRISON cant. JELLY BROWN is here agin. JASPER HUBBERT says he is OVER 16. MIKE is going to do a ROPE JUMPING act at the AGGIE ROTUNDA. BILL GREGORY am the manager. They is going to be lots of hoeses and things BUSTED over there. From what I hear, them SMU Mustangs is going to get busted agin this year when they cum out here FRIDAY. COACH PETE has been workin his boys purly hard fer this here fracas. CARLTON THOMAS has a book about FISHES in his room. Guess he thinks he will have some trouble RECOGNIZIN one.

BILL STUBBS and his assistant MARLIN MINTER am going to do some good work this year with their yell leading provided the students will help them. MIKE thinks BRUCE ZORNS am hard of hearing or maybe a HILL had sumpin to do with it.

FISH WATTS is tryin to court a gal named ROYAL CURTIS. LLOYD HAL HITCHCOCK says he ain't a FISH no more. FISH WAKEFIELD trum way down on the GULF coast didn't go to the GERMAN THE COLLEGE CLUB put on a SHOW Sunday nite. So fer, EYE ain't heard any skandal on the LAS CHAIRS. They don't go in fer publicity—much. MOSES ain't no count.

S'long, MIKE.

The Emperor Claudius was saluted with the phrase, "We who are about to die, salute thee," by the gladiators who entered the ring as participants in contests.

KEEP A CLEAN ROOM

College men recently have taken over the attitude that in order to be collegiate, their rooms should be decorated with junk and trifles of every description.

Stickers, real estate signs, street signs, nude pictures, and scraps of unprintable literature are found in rooms of supposedly upright college men. In addition to this, the general opinion is, that cigarettes, scraps of paper and trash must be scattered about the room. All of which is not clever and humorous, but in many cases, crude.

A student can make his room attractive by pinning on the walls a few pennants, but when he starts tacking up the trophies of his conquests, the room becomes dull and takes on the air of a Bronx bar. It casts a reflection on his home life. Besides, it tends to distract his attention from his studies. A quiet tidy room is just naturally easier to study in.

Don't let someone get the wrong idea about your character by the way you live while in college. Of course if the student lives in an untidy room at home, we want him to feel at ease to do so here.

That is, if he lives by himself.

Alumni News

BY MIAMIE WOLFFARTH

Another school year is well under way. Classes started Monday morning at 8 o'clock. Prospects for a good football season look very bright judging from the varsity-fish game Thursday.

Here's what some of Tech's alumni are doing. Miss Mariana Bachman '31 is primary teacher in Clinton, Texas.

Use Wolf Home Ec. graduate of '32 is teaching vocational home economics in Estelline, Texas. Her sister, Mina Wolf, '32 is teaching in the public schools of Rule, Texas.

W. Haynie Spencer is refrigerator engineer for the United Fruit company in New York City. Spencer graduated in Electrical Engineering in 1920.

Guy Stark, Jr., '28, is now superintendent of the Dunn Schools. He has a young daughter, Donnie Jean Stark, who is now eight months old.

Miss Katherine Smith, '30, is a teacher in the Cotton Center Independent School, Hale Center, Texas. Roger Pryor Allison, engineering graduate of '31, is now employed by the Brown County Water Improvement District, No. 1, Brownwood, Texas.

Miss Ruth Alexander '32 is a teacher in the Cadwallader school, Ysleta, Texas.

Miss Lila Allred '28 is teaching Home Economics in Slaton High school.

E. M. Ballengee, M. A. of '29, is principal of the Junior High school in Plainview, Texas.

L. D. Barrick '31 received his M. A. from Texas University this year and is acting as a tutor in chemistry, in the university.

Donald E. Boggs '31 is a graduate student in the University of Texas and is a tutor in the department of accounting there.

Floyd Orion Boles, M. A. '30, is principal of the Littlefield High school, this year.

Mrs. Curtis Bond is teaching in the Lehman school, Cochran county, Texas.

Miss Rhea Merle Boyles is teaching Home Economics in Quanah, Texas.

Miss Weneva Buck '32 is a teacher in the Crosbyton schools.

Mrs. Mary Dale Buckner is now employed by the department of foreign languages in Tech.

Robert L. Burns, B. S. in M. E. 1929, is employed in the building

maintenance department of the Southwestern Bell Telephone company, Dallas, Texas.

H. Bailey Carroll '28 is an assistant in the department of history, University of Texas.

Conrad Clark '31 is one of the

partners in the Clark-Oriswell Oil company and lives in Megargel, Texas. His partner Delmar R. Criswell '31 lives in Olney, Texas.

Miss LaVerne Burgess is teaching in Posy, Texas.

New Girls Are Honored With Cabaret Party By WAA Members

Floor Show Heads Evening Entertainment; Costumes Are Modeled; Piano And Accordion Solos Are On Program

Amid gay and colorful surroundings, members of the Women's Athletic Association honored new girls and freshman girls with a cabaret party and floor show in the college gymnasium last night. Approximately 375 attended.

A low ceiling of nets covered with multi-colored crepe paper flowers furnished an attractive setting for the entertainment. While the guests were assembling, Misses Crystelle Scudder and Virginia McGee entertained with a group of piano selections. Music for the remainder of the evening was furnished by Ned Bradley's varsity band.

Between dances, members of the organization presented a program under the direction of Miss Virginia Hash, president. Appearing were Miss Kathryn Royalty playing a group of accordion numbers; members of the Walker school of dancing furnishing several dance numbers; and a group stunt in which members of the WAA pantomimed "The Handicap."

Heading the evening's entertainment was a floor show, in which girls modeled both active and spectator sports clothes. In the spectator group, a wool dress, wool skirt, sports coat, and a sweater and skirt were worn. Active sports costumes for boating, tennis and archery, basketball, beach wear, dancing, formal riding habit, baseball and volleyball, tumbling, bicycling, golf, skating and bowling were included.

Those modeling were Misses Lois Cammack, Jorga Barkham, Harriett Roach, Lorene Childers, Dorothy Dobbins, Dorothy Vandergriff, Virginia Brown, Linda Caldwell, Lorena Carter, Ann Caldwell, Virginia Bacon, Mary Genevieve Hardberger, Margaret Duff, and Emily Davis.

The party was planned and managed by the twenty-four returning members of the women's association. Program: Geraldine Turner, Jorga Barkham, and Lela Hill; decorations: Floyce Snodgrass and Aithals Williams; table: Dolly Clements, Daisime Humphries and Evelyn Hudman; refreshments: Marie Reddell, Elizabeth Conner, and Catherine Cox; favors: Brookie Mae Spurlock, Sybil Hazel, Evelyn Gregory, and Frances Parkinson.

WAA officers for the ensuing year are Virginia Hash, president; Magdaline Deserick, vice-president; Louise Campbell, secretary; Marie Reddell, treasurer; and Frances Parkinson, AWS representative.

D. F. D. Club Has Dinner Tonight

Club colors of blue and gold are to be used in table appointments as the DFD club dinner which is to be given tonight in the Chimayo room of the Hilton hotel.

The guest list will include Misses Katherine Hill, Mary Burke, Freddie Edwards, Margaret Birdsong, Oretta Killian, Judith English, Bird L. Glass, Floy Stanard, Lorene Miller, Jane Scheneman, Sara Sue Stewart, Rosemary Duff, Josephine

Freshmen Girls Honored By Las Leales Club

Open House Held At Seaman Hall Sunday Afternoon; Club Members And Special Guests Make Up Party

Honoring freshman girls, members of Las Leales club, entertained with an annual open house from 3:30 until 6 o'clock last Sunday afternoon at Seaman hall.

Club members and several special guests made up the house party. Misses Ruth Mildred Rylander, Fay Brown, Florence Anderson, Ellitabel Tilroy, and Ferne Holand furnished musical selections.

Hostesses were Misses Mary and Katherine Leidigh, Margaret Green, Louise Lawson, Eunice Cone, Pearl Harrison, Orene McClellan, Kathryn H u d man, Hermona Shadle, Ruth Thompson, Ruth and Emma-jean Douglas, Pearl Edmondson, Pauline Garrigues, Margaret Lindsey, Lucille McCrummen, Mesdames Howard Scoggin, Wilbur Pearson, and Clarence Whiteside.

Others in the house party were Misses Sylvia Wilson, Jean Ayres, Marjorie St. John, Emily Davis, Brown, and Kathleen Jennings. The list of special guests included Dr. and Mrs. Bradford Knapp, Dr. and Mrs. James M. Gordon, Mrs. M. Gordon, Mrs. Mary W. Doak, and Miss Margaret Weeks.

Home Ec Club To Hold First Meeting Of Year October 2

Home Economics club will hold their first meeting October 21 at 7 o'clock in room 104 of the home economics building to meet new members and welcome back old members. Evaughn Clack, president, welcomes back the old members and especially welcomes all freshman home economic students and new upperclassmen. All Home Economic students are urged to become members of this club.

The meeting will open with a business session, which will be followed by an interesting program for the members.

A picnic has been planned for all the home ec girls with the freshmen girls as guests on October 14.

Powell, Lea Beth Drury, Betty Pack, Helen Applewhite, and Jeanette Hambricht.

Club members to be present are Misses Marjorie St. John, Lorena Carter, Sara Tom Jones, Lillian Parrish, Geraldine Wicker, Martha Alice Penny, Evelyn Hawkenson, Edith Sanders, Faye Foote, and Mrs. G. E. Davis.

Patronesses and other guests will be Mrs. J. A. King, hostess, Mrs. C. C. Mansell, Mrs. G. E. Benson, Miss Annah Jo Pendleton, Mrs. Mary W. Doak, and Mrs. Claburn Bell.

Music will be furnished by members of the Varsity band.

SOCIAL CLUB HIGHLIGHTS

We do not want Mysterious Mike to feel offended or think that he is being given a bit of competition by the news in this article. The form of the subject matter may be suggestive of Mike but never will this columnist resort to the most emphatic and underhand manner in which Mr. Mike puts his ideas over.

Since the Tech-S. M. U. football game holds the center of attraction for the coming week-end, three social clubs see fit to entertain on Friday.

LAS VIVARACHAS club girls will entertain guests with a rush bridge party at 3 o'clock Friday afternoon in the P. R. Friend residence. Frances McKee, club president, is in charge of arrangements. Mexican pottery and autumn flowers will be used in featuring the Mexican motif when members of the SANS EOUOI club entertain with a supper in the home of Miss Mary Lee Bardwell, 2205 Broadway tomorrow evening at 5:30 o'clock. The party will go from the supper to the Tech-S. M. U. game.

KOSHARI club members are honoring rushees Friday evening with a buffet supper in the home of Dr. and Mrs. W. C. Holden, 3109 Twentieth street before the game. Favors will be in turquoise blue and silver.

The COLLEGE club announces as its official club house the J. W. Baze residence, 2310 Sixteenth street. Drew Dickson is president of the club. The club entertained guests with a smoker Sunday night at the Hilton hotel.

LAS CHAPARRITAS club will entertain with a coffee in the P. R. Friend home, 2005 Broadway, Sunday morning. Guests will call between the hours of 8:30 and 10:30 o'clock. Fall flowers will be used in table decorations.

Members of the WRANGLERS club will entertain guests with a smoker Saturday evening at their club house, 2424 Fourteenth street. Jamie Lauderdale, vice-president of the club, is acting as president in the absence of Douglas Keffer who is not in school this semester. Other officers are Aubrey Edwards, secretary-treasurer and Gene Mitchell, reporter.—L. C.

Further announcements about the picnic will be made later.

Miss Mabel Erwin, head of clothing department, is sponsor.

The Rev. Luther A. Arthur of the First Baptist church is the pistol instructor for the Huntington Beach, Cal., police department.

Win In Big Swim

These three girls were very much in the swim at the recent far-western A. A. U. swimming and diving championships at Los Angeles. They are Dorothy Poynton, center, Ruth Nurni, left, and Betty Henke, who took first, second and third places, respectively, in the meet.

Home-Ec Students Enter Universities

Four graduates of the Home Economics division are now studying for master's degrees at four different colleges in the United States.

Miss Nena Robertson, who received her B. A. in 1928, is doing graduate work at Cornell university this year. She had been home demonstration agent at Greenville, Texas, since leaving Tech. Miss Christova Sawyer is working on her M. A. at Columbia. She graduated with the class of '31.

A graduate of '31, Miss Frances Lorimer, is doing graduate work at the University of Texas. She had been an assistant in the Home Eco-

nomics division for the last two years. Miss Lila Allred is studying for her master's degree at the Colorado State Agricultural college at Boulder. Since her graduation in 1929, she had been home economics teacher at Slaton.

Cleveland statisticians estimated in early July that there were 41,000 fewer jobless in the city than three months before.

Picadors Meet Cadets Saturday; Varsity Humbles Fish

Tech's Scarlet-Clad Matadors Unveil Current Pigskin Season In Battle With Brawny Frosh

Under The Double "T"

BY LOMER NELSON
Foreador Sports Editor

A choicy grid menu will be served football fans tomorrow night at Tech field. The Matadors will attempt to rope, hobble, and corral those galloping Ponies from S. M. U. Those of you who saw that 6 to 0 thriller of last year will not be studying textbooks tomorrow night. The writer, the Techsters, and everyone else still remember that game. The S. M. U. air attack in the first half and a torrent of rain in the last half, Malcolm "Moon" Marlin's touchdown dash in the third period on an end-around play; and when Southern Methodist had the ball on the Tech 2 inch line (we didn't know it was raining by that time); and finally the welcome bark of the timer's gun, leaving the Ponies two inches from at least six points.

Don't take that 7 to 0 S. M. U. defeat at the hands of the North Texas Teachers seriously. The Ponies will be just that much harder to ride now. There is such a thing as upsets, you know. (Seems like we've heard something about the Tech-Simmons till last Turkey day.) The Methodists were advancing deep in Tech territory most of the time and had a first down advantage of 15 to 4. Jack Sisco's North Texas Eagles, Texas conference champion last year, are nobody's doornail anyway.

You won't recognize the Matadors tomorrow night if you judge them by the game last Thursday night. Pete and Dutchy have been busy this week ironing out those wrinkles that appeared in the varsity-frosh scrap. The Matadors weren't exactly a well-oiled machine that night. There were a few fumbles, some bad passing, and poor blocking at times, but all this will have been remedied when the Scarlet squares off with the Methodists. Watch 'em and see.

The Mustangs are tough. But there are other tough teams on the Tech schedule. The S. M. U. game is the first of several on a "uicide" pigskin program. There is not exactly a "breath-er" in the lot. The Baylor Bears, Haskell Indians, and the Kansas Aggies are just samples of what the Cawthonmen will be up against within the next two months.

Dutch McIntosh, S. M. U.'s line coach, scouted the Matadors in their battle with the frosh. We wonder if he found out much? Coach Cawthon decided that two could play at this scouting game, and accordingly went to Dallas over the week-end and got the lowdown on three Tech foes — S. M. U., Simmons, and Dixie university.

Pep rally tonight. Leaders Bill Stubbs and Marlin Minter started generating enthusiasm Monday night at the gym, and succeeded in rousing the spirit of the student body to a high pitch. Prexy accelerated that spirit still more when he took charge of a few yells. Grapevine telegraph tells us that more times had better make their presence known at the gym tonight.

The Dixie university Rebels must be skidding. They nosed out Abilene Christian and then dropped to Simmons Cowboys, 17 to 6. When the Cowboys out-talked and outscored the Law-ers, it was the first time a college outfit had turned the trick in a long time. Last year, the Rebels, known then as the Jefferson university Rangers, pushed aside with comparative ease all collegiate competition, bowing only to the pro Portsmouth Spartans. The Matadors clash with the Rebels October 6 in Dallas.

Tech is making a place for itself

Bullfighters Score Heavily In Second Quarter But Slimes Long Runs Feature

Unveiling the 1933 Tech pigskin season, the Matadors whipped the fish 39 to 0 last Thursday under the lights, in a typical inter-club, early season game. Coach Dell Morgan's husky Picadors, although outclassed and outbatted about rather freely by their more experienced foes, put up a more stubborn battle than the score would indicate. The defeat was the most decisive sustained by the frosh at the hands of the varsity in the history of the school.

The Matadors, playing listlessly and raggedly most of the time, flashed brilliantly at intervals. Poor blocking, mixed signals, and fumbling could probably be attributed to the continual stream of substitutes. Coaches Cawthon and Smith kept parading to the officials. Virtually all of the Bullfighters saw service at one time or several times during the melee, no combination being allowed to remain long enough to click effectively.

Fresh Attack Battered Up The freshman running attack was squelched almost from the start by the veteran Scarlet walls. Unreeling several long sprints, the varsity ball luggers rolled up 482 yards from scrimmage and 13 first downs as compared with 56 yards and one first down for the slimes.

Directed by Ed McKeever, Adrian Clark, and J. V. Beauchamp, the Matador offensive department struck five times in the second quarter and once in the third to tally the night's scoring.

The first period, neither team gained in the way of all-ins, but the Matadors were advancing the ball in freshman territory most of the time. A brand new varsity lineup introduced itself at the beginning of the second frame and almost at once the counters began to mount.

McElroy Tattles First D. M. McElroy, speedy halfback from Dallas, romped over the goal line from the frosh 24-yard mark for the first touchdown after he and "Bear" Curfman, burly fullback, had advanced it from the Picador 40-yard stripe with two long plays.

Marion "Studd" Harris, fullback from Oklahoma, stabbed a freshman punt a few minutes later on the 45-yard line and sprinted over for another counter. A 30-yard dash by McElroy and a plunge by Curfman netted another marker.

On the first play after the kick-off, Yancy Price, playing his first game halfback, tucked the pigskin under his arm and scouted 80 yards for the night. Thereafter Matadors and Picadors pushed up and down the field on comparatively even terms for the remainder of the skirmish.

Price, Sillis, McElroy, and Harris on the nation's football map. In the last issue of the National Football magazine, the Matadors are given their share of publicity. Tech is ranked 57th among the country's teams and pictures of Coach Cawthon and Matt Hitchcock appear in the magazine together with write-ups. Matt Hitchcock and "Julcy" are referred to as "players who can play in anybody's company." Hitchcock labeled a back instead of an end.

In one write-up by George White, sports scrivener for the Dallas News, Tech is grouped with the Southwest conference clubs, the only team outside the conference appearing in the story. At one place the magazine says: "Meet the Matadors—an up and coming outfit that aims to make a high mark in the football world."

Frosh To Meet Roswell Team

Freshmen Are Out To Take In Cadets; Many High School Stars Included In Roster Of Tech's Gridders

Saturday night Texas Tech Picadors will meet New Mexico Military Institute at Roswell, New Mexico in an attempt to break a jinx that has hovered over Tech's freshman team for several years. Tech fish have never beaten the flashing NMMI cates.

This year with some of the outstanding high school stars of last year anxious to learn collegiate football and to emerge with the best team in Tech's freshman history, the frosh are eagerly awaiting the fray Saturday night.

The squad has several husky men who will bid for a berth on the Matador eleven next fall. With the daily addition of new recruits, the squad numbers 47.

Outstanding Picadors at present are O. H. Britton, Dallas; Tox Wigginton, Chillicothe; Charles Duvall, Sherman; George Winters, Dallas; Alvin Kattrola, Granger; L. E. W. Spear, Lubbock; Robert Hale, Lubbock; Walter Davis, Farmersville.

The probable starting lineup for the Picador-NMMI fracas will be Spears and Hale, ends; Browning brothers, tackles; Graves, Goodenough, guards; Wigginton, center; Duvall, quarterback; Britton, Neill, halfbacks; Winters, fullback.

Awards consisting of plaques and trophies will be presented at the end of the season to the Matador players outstanding in different departments of play by the coaching staff. The awards are now on display at the Hub Motor company, Tenth street and Texas Ave.

Plaques will be given to the following: the best blocking halfback, the best open field blocker, player getting the largest number of tackles, person blocking the largest number of punts, and the best line blocker. The name of the winner will be inscribed on the award to be kept permanently.

The player intercepting the largest number of passes and the player recovering the largest number of fumbles will be given trophies. The trophies are football players of silver mounted on a wooden base.

Three years ago H. R. "Doc" Weller of Olathe, Kas., then coach at Phillipsburg high school, developed an outstanding halfback—Lyman Abbott. This fall Weller, after two years out of school, is back at Kansas State College to take his last year of eligibility. Competing against him for a halfback position is his former star pupil—Lyman Abbott.

turned in creditable showings in the Cawthon-coached secondary and the blocking of several linemen stood out at times, especially when the backs got away on their long jaunts.

Tubby Graves, husky guard from Sherman; the Browning brothers, tackles from Snyder; Tox Wigginton, center from Chillicothe; and Walter Nowlin, tackle from Houston were standouts in the Picador front wall. "Jim Neill, halfback from Brownfield, looked good both on offense and defense.

The starting Lineups:
Varsity (39) Freshmen (9)
W. Gilmore L. E. E. Felm
Young L. T. B. Browning
E. Harris L. G. Goodenough
Crawford C. Wigginton
Davis R. G. Graves
Williams R. T. Nowlin
E. Gilmore R. E. Spear
McKeever Q. E. Dupall
Gaylor L. H. Neill
Blitts R. H. Light
Dowell P. Winters

Score:
Varsity 0 32 7 0—39
Freshmen 0 0 0 0—0

Captain Baker

ELVA BAKER—GUARD—Elva "Tubba" Baker, giant Matador tackle from Abilene, has been chosen to lead his mates against the Southern Methodist Mustangs tomorrow night at Tech field. Baker, a senior, is playing his third year with the Matadors.

Council Begins New Program

Three Meetings Of Orientation For Women To Be Held Today And Tomorrow; Students Will Preside

Junior councillors, beginning their work for the year, will hold the first Tech's student-conducted orientation classes today and tomorrow. The councillors, working with Deans Mary W. Doak and Margaret W. Weeks, will have complete charge of the programs, the subject of which will be "College Divisions and Traditions."

"College Traditions" will first be presented in the home economics building to the orientation classes of Dean Margaret W. Weeks this morning at 10 o'clock. This afternoon at 2 o'clock two sections of the arts and sciences freshmen will hear it, and tomorrow morning at 11 o'clock five sections of the arts and sciences division and one of the home economics division.

The following girls will talk to the different sections: May Tom Howell, N. W. Cleveland, Emily Davis, Ruth Priddy, Melba Tatum Maxey, past president of the Association of Women Students, Fay Brown, Elizabeth Dryden, Elizabeth Montford, Sue Michie, Helen Frances Eiland, and Nancy Fayer.

Miss Myrtle Dunn and Mrs. Carl Scoggin will have charge of the music.

Pre-Med Students Plan For Season

The Pre-Med club has planned an instructive as well as a nentertainment program for this school year. In addition to the customary professional speakers, the program will include lecture tours through the hospitals, clinics, and sanitariums of this section. On the social program there will be an initiation for new members, a theater party, a banquet, the annual dance, and a picnic. There will be one regular meeting of the club before the initiation. The date and time of the meeting will be announced in the next issue of the Foreador.

The department of Commercial Arts can boast a larger increase in enrollment than any other department in Tech. There is an increase of 150 per cent at the present time and new students are coming in every day.

Professor Kleinschmidt stated that there is also a large number enrolled in the course, which leads to a degree in Commercial Arts.

Mysterious Mike has a new spy to report all the doings of the student body to him.

Have you tried the personality hair dress at the Campus Beauty Shop yet? Located in the rear of the Tech Barber Shop. Adv.

Van Bebber Is Added To Staff

World's Champion Wrestler Will Assist In Athletic Department And Teach Aggie Economics In Division Of Agriculture

Jack Van Bebber, World's Olympic champion of 1932, will tutor Texas Tech's future wrestling teams. He is the assistant wrestling coach and also the assistant in agriculture economics under Dr. Ellsworth. There will be two classes daily of wrestling in the physical education department which he will coach.

Van Bebber holds eleven wrestling titles besides the Olympic crown. He was three times National Inter-collegiate champion, and winner of four National A. A. U. titles, holds the Pacific Coast championship, and was Oklahoma high school champion and winner of the Oklahoma Aggie team in 1931. He won his titles in the 168 pound division.

A graduate of Perry, Oklahoma, high school, Van Bebber graduated from Oklahoma A. & M. this past spring and is now working on his Master's degree at Tech. He holds a Bachelor of Science degree in agriculture economics.

Entering high school at Perry as a boy fresh from the country, he found it hard to become acquainted with the students in town and to be someone of importance at first. "I have always lived on the farm," he said, "and am just a regular country boy."

He much prefers college life to that of high school. "In college everyone has an even start and we country boys are right along with the rest of them," he stated. He was a member of numerous organizations and associations in college.

Ed Gallagher, the father of collegiate wrestling, was his coach in college. Gallagher is noted for coaching the winning team in the National championship matches for 10 years. His pupils at one time won 71 consecutive matches.

Van Bebber quit college for one year to go to Los Angeles to train for the Olympics. After returning to college and graduating, he attended the coaching school here this summer and assisted Gallagher in demonstrating the science of wrestling.

He is 26 years old, single, and lives at Lovell Hall. He is a strict adherent of training rules. He says that anyone has to train to be a champion.

A state raccoon ranch near Milan, O., covers 24 acres and is expected to have from 1,500 to 2,000 young coon for distribution in Ohio forests this year.

Miss Ruth Hutchinson is planning to attend Texas university this fall.

John Anna Boyd is spending a few days on her father's ranch.

Miss Sue Brown is visiting in Byrum, Texas.

Howard Hurnance and Art Prestwich are visiting relatives of Mr. Prestwich at Idaho Falls, Idaho.

Miss Floye Taylor, sister of Miss Marguerite Taylor will attend Texas Tech this year.

Miss Lyall Pickett will teach in the Post grammar school this year.

Frances Ford will be a student of University of Virginia.

Leroy Vaughn will attend Texas university.

Miss Julia Davis will attend Sophie Newcomb college in New Orleans.

Miss Lois Houston is in Lubbock visiting Miss Frances McKee.

Miss Dorothy Rushing will teach in the Lubbock public schools this year.

Anne and Linda Caldwell attended both terms of summer school. They will enroll for the first semester of the long session.

Misses Lois and Melba Watson spent two weeks in Chicago this summer where they attended the world's fair.

Tech Professors Are To Have Handball Organization

All faculty members who are interested in playing handball are requested to attend a meeting in Professor Shelton's office, room 310 of the Engineering building. Plans will be made for the organization of a club and the building of a court for the use of the faculty players.

The meeting is called for Friday at five p. m.

Holland Bookstore Orders Lab Manual Written By Miss Erwin

An order was received Monday from a bookstore in Amsterdam, Holland, for a shipment of laboratory manuals written by Miss Erwin. The manual, "Practical Dress Design," was published this summer by the Litho Publishers, Norman, Oklahoma.

Orders have also arrived from various colleges throughout the United States, Miss Erwin said.

60 Report To Band Practice

Large Turnout Of Candidates For Band Expected Within The Week; Vacancies Necessitate Election

According to Harry LeMaire, director of the Tech band, the Matadors are going to have one of the largest band units in the state this year. Sixty-three men have already reported for the first two rehearsals, and by the end of registration week, the total number will reach around a hundred members.

At the Fish-Varsity game last Friday night, a large group of old band boys and freshmen turned out. The freshmen organized themselves, temporarily during the game and gave their support to their fellow classmates.

So far there have been two rehearsals in the band house at the entrance to the campus. One of these was held Sunday afternoon from two until four o'clock. LeMaire has announced that the band has voted unanimously to hold their regular band practices at seven in the morning six days a week.

Officers will be elected within the next two weeks. There may be some vacancies left by the failure of some of the officers to return to the band this year.

David Rutledge will return to the campus Sept. 10. He has been spending the summer in Ft. Worth.

Where Collegians Feel At Home

Seven Faculty Members Here

New Tech Instructors Added To Fill Vacancies Caused By Leaves; Records Given Up-on Arrival

Coincident with increased enrollment, the Texas Technological college faculty has seven new members this year, although some are replacing members on leave.

Dr. Bradford Knapp, president of the college, Tuesday afternoon said between 1,800 and 1,900 students had been and were being registered.

Dr. A. G. Barnett, Ph. D., comes from West Texas State Teachers college at Canyon, where he has been for seven years, as associate professor in education. He is a graduate of Peabody College and received his Ph. D. degree there. Before going to the Nashville school Dr. Barnett taught in the Universities of Florida and of Arizona.

Takes Ogden's Place
E. H. Plank, M. A., who has just come from Leland Stanford university, is in the department of government and takes the place of M. E. Ogden, who is on leave this year. Last year he had a fellowship at Leland Stanford. Mr. Ogden is himself studying at the California school this year.

Francis C. Cook, Austin, graduate of the University of Texas and an instructor there, is in the foreign language department as instructor. He takes the place of N. D. Moulton, who is on leave while studying at Columbia university, New York City.

Is Rice Graduate
Miss Carrie Hodges, instructor in foods and nutrition, is a graduate of Rice Institute, Houston, and holds an M. S. degree from Iowa State college at Ames. She taught at Nacogdoches and more recently has been on the faculty of the North Texas Agricultural college at Arlington. Another division of home economics faculty member is Miss Josephine Looney, instructor of clothing, textile and applied arts. She holds a B. S. degree from the University of Minnesota and a M. A. degree from Columbia university. After graduation there, she taught in Connecticut before coming to Texas.

Olympic Star Here
Jack Francis Van Beber is graduate assistant in the department of agricultural economics and also wrestling instructor in the physical education department. A graduate of the Oklahoma A. and M., Stillwater, he is an athlete of note, having been an Olympic wrestling champion and also holder of several collegiate records.

C. Luker, Texas A. and M. graduate, will represent the vocational agriculture work on the faculty as a member of both the division of agriculture and the department of education. After graduation from A. and M., where he was a member of the stock judging team, Luker went to near San Angelo and then to San Antonio where he made an outstanding record as a vocational teacher. Later he went to Bryan in a similar capacity and it was there that his school was used as a laboratory training school for students in vocational work.

"We have had to put on three student assistants," Doctor Knapp said. "They are in the chemistry, physics and government departments. Besides, we made two half time instructors in the English department, full time instructors, or an additional full time man. Our enrollment in these departments is very large."

On the basis of present increase over last year, Dr. Knapp believes by the middle of October there will be 2,000 enrolled. A year ago there were 1,752 enrolled at this time, compared to between 1,800 and 1,900. By the middle of October, 1932, the number had grown to 1,950 and using this as a basis, Dr. Knapp sees enrollment above the 2,000 mark within three weeks.

"A lot depends upon receipt of cotton checks," he added. "Many want to come in now, but their families have not yet received checks. We will be registering students for a little while, yet."

Quadruplets Enter College

They may not look it, but Roberta, Mary, Leota and Mona Keyes, left to right above, are quadruplets—said to be the only living quadruplets in the United States to reach maturity. The 18-year-old sisters of Hollis Okla., dressed identically, are pictured as they entered Baylor University at Waco, Texas, the other day.

Tech Students Dig Out Ruins

Archeologists Headed By Holden Make Research Study Of Arrowhead Ruin; Regular Army Routine Followed

Texas Tech archeologists turned back the centuries this summer at Arrowhead camp, twenty-two miles east of Santa Fe, when they excavated Arrowhead ruin.

Twenty-five students under the direction of Dr. W. C. Holden, director of Archeology research, with picks, shovels and trowels excavated and restored the main portion of the ruin. The diggers rose at 6 o'clock every morning except Sunday, ate a hearty breakfast of hot cakes, bacon and coffee. They then threaded their way up to Arrowhead Hill along its long narrow path.

At 6:30 the work of excavation started and was interrupted only by an occasional find by one of the diggers or taking time out for water. At 12 o'clock, the work was suspended for an hour off for the crew to stomp the mess hall. After dinner the party attended lectures on

FOOTBALL DAYS

Sporting Youth demands "Sporty" Clothes!

We believe in sensible Football Clothes. We believe in Wools that are just as warm as they are smart. We'd stake a lot on the striking Sport Coats that we are showing for Football time. We'd swear by Snyderknit Dresses and Suits with a bright, young air . . . and don't forget that we religiously believe in prices that are practical.

Lubbock Churches Have Open House

Lubbock churches held receptions for new and old Tech students last Friday evening. These open houses at the beginning of the

some phase of the Pueblo Indians of the southwest. At 2 o'clock the digging began anew and lasted until six.

Sundays were spent visiting all surrounding ruins, and pueblos near Santa Fe that were occupied by the bronze Indians of that section. The students were piled in a truck and visited the picturesque hills and fertile valleys of New Mexico.

school year are an annual event. Episcopal students and their friends were guests at a reception in Seaman hall. Music was furnished throughout the evening by Ross Edwards' orchestra. Those in the receiving line were Bishop and Mrs. E. Cecil Seaman of Amarillo, Dean Mary W. Doak, Misses Mary Thomas, Sue Michie, and Helen Barstow.

The open house in the First Methodist church parlors was attended by several hundred students. Members of the Wesley foundation had charge of the program. The receiving line was made up of the pastor, the Rev. J. O. Haymes; Mrs. Haymes, Dr. C. A. Bickley, presiding elder, Mrs. Bickley, Marshall Rhew, minister of education, Miss

Myrtle Dunn, Miss Mary Alice Walden, and Garland Smith, president of the Wesley association.

One of the innovations of Napoleon was the metric system of weights and measures, with the meter as the basic unit, which came compulsory in France in 1801. Jean Piccard, French astronomer who lived from 1620 to 1682, is given original credit for the idea.

Tech Textiles May Make Band Uniforms Here

Knapp Suggests Modification Of Present Uniform; Texas Tech Textile Departmental Help To Do Work

Tech's famous Matador Band may soon appear in all the splendor of new uniforms. Even more interesting the material for the uniforms may be made on our own campus, by our own students.

Dr. Knapp, in a talk to the band Tuesday morning, suggested that the new uniforms be a modification of the present dress uniform of a U. S. Naval officer. The jacket would be of scarlet with wide lapels, and the trousers of black with a scarlet stripe. In hot weather a scarlet shirt could be worn.

It has been suggested that the material be made by students in the Textile department, and that the weave be similar to that in the suit which is being presented to President Roosevelt this week.

It two looms in the Textile mill could be put into operation about 450 yards of the needed material could be made in a month. The band has at the present time, about half enough to pay for the uniforms.

Parade Friday Band To Lead With Floats To Follow

Pep Parade for the Tech-SMU game will be held Friday afternoon at 5 o'clock, with all Tech students meeting at the band house, where the parade will start.

The social and professional clubs on the campus are to have floats for the parade. Texas Tech's Matador Band will lead the parade followed by all freshmen. There is to be a pep rally tonight in the gym at 7:30, where all the football players will be introduced to Tech students. All freshman girls are to wear green badges around their arms at the game Friday night, and freshmen who have athletic tickets are to form a Double T in the grand stand with placards at the game.

Ten thousand tons of bottles of medicine are used annually by the 12,000,000 persons covered by national health insurance in England.

De Kol Plus Legis Dixie, a Holstein Friesian cow, produced 33,454 pounds of milk and 1,349.3 pounds of butter fat in one year.

The cornerstone of the original U. S. Capitol building was laid by President Washington, Sept. 18, 1793.

and as other plans are carried out the fund will be increased to provide uniforms for 70 band members.

"Across From Campus"

Why—

Tobaccos grown in this country are "seasoned" with tobaccos from Turkey and Greece

THE ANSWER IS VERY SIMPLE:

TOBACCOS to taste right in a cigarette need to be flavored or seasoned just the same as you might season a steak or a pudding.

No tobaccos have ever been found that equal the spicy aromatic tobaccos of Turkey and Greece for this purpose. That's why we send 4000 miles for aromatic tobaccos from Samson and Smyrna, Xanthi and Cavalla.

When blended and cross-blended in just the right amounts with Chesterfield's mild ripe Domestic tobacco, the result is a rich flavor and a fine fragrance.

Chesterfields are seasoned right—they taste right. May we suggest you try them.
