THE UNIVERSITY DAILY Monday March 5, 1979 Texas Tech University Vol. 54, No. 109 Eight Pages

NEWS BRIEFS

Candidate platforms

Platforms for Student Association candidates are due at 3 p.m. today in Room 210 of the Journalism Building.

The platforms should be no longer than 125 words, typed, triple-spaced and signed by the candidate.

Busy legislative agenda

AUSTIN, Texas (AP) - A possible confrontation between Gov. Bill Clements and state agency heads, a resumed filibuster and House committee action on tax relief should heat up the legislative session this week.

The 66th biennial meeting of the Texas Legislature has been a weird one, strangely quiet. Daily floor action has been perfunctory. Minor issues abound while issues of substance lie dormant.

"It's been a strange session, the strangest I've been in," says House Speaker Bill Clayton, who has been a legislator since 1963.

A sideshow that should interest the lawmakers occurs Tuesday afternoon when Gov. Bill Clements talks with state agency heads about his plan to reduce state employment by 25,000 jobs in four years.

Electric company refund

BANGKOK, Thailand (AP) -China reportedly told foreign diplomats Sunday it will withdraw from Victnam as soon as possible, but Hanoi said Chinese troops had launched new attacks and "fierce battles" were raging near the captured Vietnamese town of Lang Son.

A Japanese Foreign Ministry spokesman in Tokyo said Chinese Foreign Minister Huang Hua told Japanese Ambassador Shoji Sato in Peking that the withdrawals would take place but did not say when.

Japan's Kyodo news service quoted Chinese Vice Premier Li

Xiannian LiHsien-nien as saying, "We have already decided to withdraw from Vietnam. Our purpose has been almost achieved." He did not elaborate.

Chinese sources in Peking said some Chinese troops had already ceased fire and were returning to China, Kyodo reported.

But Vietnam gave no indication of a stand-down. The country's Communist Party Central Committee declared Sunday that "every village in Vietnam should be a defense post, every province a strong wall" against the Chinese. Hanoi claimed a half-million Chinese troops, 500 tanks and 700 artillery pieces were still involved in the invasion, which started Feb. 17. It did not say how much of this force supposedly is on Vietnamese soil.

China considers troop withdrawal

The official Vietnam News Agency said six Chinese divisions - 60,000 men - and hundreds of artillery pieces and tanks had launched new attacks around Lang Son. The Soviet news agency Tass quoted VNA as saying the Chinese were suffering heavy losses.

Western intelligence sources confirmed earlier that Lang Son, a provincial capital 11 miles inside

Vietnam, had fallen to the Chinese. Analysts say its capture might be the major blow the Chinese hoped to strike before pulling back across the border.

The Chinese said from the outset that they sought only to "punish" Vietnam for alleged provocations and did not plan a protracted war.

Despite Western intelligence reports to the contrary, China claims that main-force Vietnamese army units have been badly battered in the fighting. After pulling out, Peking might point to this as another "punishment" inflicted on Vietnam.

Throughout the weekend's flurry of reports of an impending withdrawal, there was no indication whether China would pull back to the generally recognized border or would hold on to 38 square miles of disputed territory scattered along the Vietnamese side of the line.

Hanoi claimed Sunday to have killed 42,000 Chinese soldiers and to have destroyed 259 tanks and 66 artillery pieces from the start of the invasion up to last Friday. Western sources in Bangkok say these casualty claims are probably highly inflated.

OPEC leader links oil to Mideast settlement

ABU DHABI, United Arab Emirates (AP) — The head of the OPEC oil cartel said Sunday that future oil sales to consumer nations should depend on whether they help bring about a Mideast settlement favorable to the Palestinians.

Mana Saeed al-Otaiba, current president of the Organization of

The Arabs want an independent Palestinian state in territories now occupied by Israel.

In late 1973 Arab states, angered over American support of Israel in the 1973 Mideast War, cutoff oil shipments to the United States briefly, sending supplies plunging and prices soaring. Major American oil companies reported profits for the last quarter of 1973 up as much as 70 percent over the same period a year earlier. Otaiba said the sharp reduction in Iran's oil output, caused by antigovernment strikes, and severe winter weather in North America and Western Europe have combined to stretch oil suppliers thin. "Most of the major petroleum companies have abused the current market situation" by sharply raising prices, he said. He claimed some companies had tried to boost prices by 80 percent for refined products sold to the United Arab Emirates, but the U.A.E. refused to pay the higher cost. Other suppliers have begun adding their own surcharge to the base price, claiming it is unfair for the companies to cash in on reported shortages while the OPEC countries stick by their previous prices. Otaiba told reporters he would propose at a scheduled OPEC meeting in Geneva, Switzerland, on March 26 that the cartel "blacklist" companies capitalizing on supply problems to make excessive profits. Kuwait's oil minister, Ali Khalifa al-Sabah, added that the companies also should be fair in distributing supply shortages among developed and under-developed countries or "measures will be taken." Libyan Oil Minister Ezzedine el-Mabrouk announced here that this country would raise the price of its crude oil by 52 cents a barrel, on top of a 68-cent-a-barrel boost announced Feb. 21. This puts Libya's prices roughly into line with Kuwait's. Both have now raised prices by \$1.20 a barrel above Jan. 1 levels set by the entire OPEC cartel. On Saturday, Venezuela announced it would increase some grades by up to \$1.70 a barrel effective April 1. Although Iraq announced last week it is opposed to an intermediate price increase, it has asked customers for a "voluntary" premium, the authoritative Middle East Economic Survey reported.

AUSTIN, Texas (AP) — If Texas Electric Service Co. were ordered to refund \$17 million to ratepayers, one in four residential customers would receive about \$3.36, says a company official.

"In my opinion, TESCO's bond rating would be lowered, which would raise the cost of longterm financing for many years," company vice president E. D. Scarth said of effects from a refund.

Scarth's prepared testimony will be offered Monday as rebuttal to recommendations from the Public Utility Commission staff that the utility made improper transactions with its affiliates.

About 25 percent of TESCO residential customers use between 200 and 500 kilowatts month, said Scarth, an electrical engineer.

African drought appeal

OUGADOUGOU, Upper Volta (AP) - The countries of Africa's Sahel region, annually devastated by drought, appealed to the international community Sunday to send vital supplies "as rapidly and effectively as possible."

Djibrill Sene, Senegal's rural development minister, issued the appeal here in the Upper Volta capital on behalf of the Permanent Inter-Govermental Committee Against Sahel Drought.

Pope's Naples address

VATICAN CITY (AP) - Pope John Paul II on Sunday expressed his sympathy with the people of Naples, hit by the mystery disease which has taken the lives of at least 71 babies in 13 months in the southern Italian city.

Addressing a crowd of 50,000 gathered in sunny St. Peter's Square for his noon blessing, the nope said:

"I pray the Lord that such a painful test comes to an end and gives Neapolitans serenity and the joy of living."

Also in his address, spoken in Italian, the pope said he was praying that God "inspires and helps all responsible leaders to put an end to every hotbed of war and assures every people the invaluable gift of peace."

Nuclear contamination

OKLAHOMA CITY (AP) - Jury selection begins Monday in the trial of an \$11.5 million lawsuit alleging that nuclear worker Karen Silkwood was contaminated with plutonium as a result of negligence by the Kerr-McGee Corp.

The case has drawn national attention. Ms. Silkwood, who was killed in a car wreck in 1974, has become somewhat of a martyr to some opponents of nuclear power.

consent of the Student Senate.

president.

By ILENE BENTLEY **UD** Reporter

Decision making procedures of Texas Boards of Regents is none of the students' business, according to Marshall Formby, Coordinating Board member, Texas Colleges and University Systems. Formby spoke to approximately 70 students on the topic of a voting student regent during a panel discussion at the Texas Student Association (TSA) Spring Convention here this weekend.

"Would you let me serve on your supreme court here if I was a member of the Tech board again," Formby asked. "Would you let me serve in your Senate? You certainly would not. It's not our business, it's your business."

Students in the audience reacted with boos and remarks.

"If the business and affairs of the university are none of the students' business, I don't know what is," said Michelle Monse, Tech senator.

State Rep. Mike Ezzell agreed the idea of a voting student regent is unrealistic.

"I'm very open minded about it;

one member expiring Sept. 30 of

"In making the initial appointments, the president of the students' association shall designate one member for a term expiring in 1980 and one member for a term expiring in 1981."

for a balance of power, Dowell said. Two other bills concerning student regents, have been filed also, according to Steve Morrel, TSA legislative advocate.

as a voting member on the Board of Regents for the University of Texas System. The bill is now in subcommittee, Morrel said.

Not only will the issue and bills be

Petroleum Exporting Countries, brandished the Arab "oil weapon" in another way as well, threatening a "black-listing" of foreign oil companies that have raised prices sharply because of market disruptions caused by the Iranian oil shutdown.

Meanwhile, the OPEC countries' own price boosts continued. Libya announced it is raising its prices an additional 3 percent, on top of a 5 percent hike imposed just two weeks ago.

"Countries that expect us to maintain our supplies of petroleum should help us to arrive at a rightful solution to the Palestine situation," Otaiba told the opening session of an Arab Energy Conference here.

Such a solution would include the "liberation of the Palestinian people and the freedom of Jerusalem," he said. Otaiba is oil minister of this Persian Gulf nation. The OPEC presidency rotates every six months.

rejected in the state House, but also

Skies will be fair today with temperatures in the lower 60s. Winds will be from the west at 10-15 mph. Fair skies and warmer temperatures are expected for Tuesday.

but it's made up," Ezzell said.

Students argue a voting student regent is needed for more student input on the boards, he said.

"I do not know of a single Board of Regents, at this time, that does not welcome student input," Ezzell said. "The opportunities are there at the present time."

According to Ezzell, one voting student regent would not make a difference in a board decision.

"You say, 'They'll pay more attention to me if I'm there,"' he said. "We want to be in on all that stuff that goes on behind the closed doors. We want to make the decisions about this and that.' And we loose sight of the fact that what we're trying to do is have input, and the opportunity for input is there now.

"They're not going to listen any more with a student on the Board of Regents with the right to vote.

WASHINGTON (AP) - President Carter, in a fresh effort to salvage Mideast peace prospects, gave Israeli Prime Minister Menachem Begin new proposals on Sunday. The proposals were described by an Israeli official as "important and interesting." The contents were kept secret, but Sen. Jacob K. Javits, R-N.Y., told reporters after a meeting with the president that the proposals were in the nature of "pragmatic guarantees" designed to build trust between Egypt and Israel.

"It may be the cement that binds this treaty," Javits said. He refused to provide further details.

Begin referred the proposals to his government in Jerusalem and told Carter he hoped to have a response before he leaves the United States this week.

Meanwhile, a White House statement said Carter would review the situation with Egyptian President Anwar Sadat. And Sen. Charles Percy, R-Ill., said the two leaders were already in touch.

"I think he's gone the last mile," Percy said of Carter's intensive effort to guide Egypt and Israel to completion of the elusive treaty.

The White House statement, still not providing specific details, termed the proposals "suggestions designed to help resolve some of the outstanding differences between Egypt and Israel."

It was the first positive development since Begin arrived here Thursday. At the time, Begin described the negotiations as in deep crisis.

"The proposals are important because, in our estimation, they are different from previous proposals," said the Israeli official, who asked not to be identified.

Begin had been expected to go to New York Monday evening, and it was not clear whether the developments would cause a change in his plans.

Before Sunday's meeting with Begin, Carter had indicated a failure to break the impasse in negotiations.

Begin, meanwhile, vowed, again that Israel would not sign "a sham document.

"I do not adopt the theory of 'now or never'," Begin said on a nationally televised interview program. "We shall have to

in the second

negotiate again, and I con't see any tragedy in it."

Ultimately, he said, there would be peace in the Middle East. Begin made his comments on the

ABC television program "Issues and Answers."

Carter volunteered a bleak assessment in a Bible class at the First Baptist Church, several blocks north of the White House.

"We did not make any progress," he said flatly and without elaboration.

In Cairo, U.S. Ambassador Hermann Eilts gave Sadat a report of the negotiations in a one-hour meeting Sunday. Sadat said Egypt would make a decision on Carter's message Monday and "I shall be in a position to tell you lots then."

Letters:

Bucy-isms

To Regent J. Fred Bucy:

In 1975 in the United Way luncheon speech, you made known your attempt to change a university, a place for questions and researches, into a vocational school by calling for the elimination of English and other "unnecessary" courses in favor of courses with more technological orientation. (UD Feb. 7, 1979. p2)

Last year, you were famous for your fantastic idea of linking alcohol and socialism by saying, "I think Tech is in a unique position, it is one of the strongholds last of conservatism, if we allow this pub, we will be moving down the road to liberalism and the socialism that goes with it." (UD Feb. 6, 1978. p1)

This year, you may as well be remembered for your lack of foresight in discouraging researches in the Tech Medical School. This thinking fits into your 1975 speech that you are just interested in making bunches of skilled workers: physicians, engineers, accountants and alike, but not intellectuals, not those who question and search.

Also, when you suggested that the tuition of foreign students be raised to handle the problem of their lack of proficiency in English, are you suggesting that the more money a foreign student possesses, the better his handling of English will be? Will not a raise in the academic and English requirements for admission be a more logical and reasonable approach?

As both a foreign student and a U.S. high school graduate

William Safire

myself, I had presented not only my TOEFL (Test of English as a Foreign Language) result but also my SAT scores in applying for admission to TTU two years ago. For the TOEFL, we are required to have a minimum of 550 out of 700, while for the SAT scores, it is 800 out of a maximum of 1,600. (Of course, TOEFL does not test mathematic skills, but there seems to have no complaints about foreign students' mathematic ability so far.) Actually, the academic admission requirements for a foreign student to enter TTU is already higher than those generally required.

About your remark on the copying of engineering lab reports from U.S. students, I demand evidences to back your statement, since this is an insult to the student body as a whole, both U.S. and foreign.

The international reputation of TTU was built up through the hard works of the whole university. In 1960, TTU's foreign enrollment was 38 (data from International Institute of Education publication, Open Door), now it is over 650. But, what you, Regent Bucy, had done in this past two years hurt these reputations so badly that TTU is still viewed as a "cowtown college", with close minded and stubborn regent member.

Finally, Mr. Bucy, as you are the President of an international corporation (Texas Instrument) and a member of the Board of Regents in a major university in Texas (Texas Tech University), you are no doubt a brilliant and successful figure, I would like very much to learn

from your ideology, but, please be logical and open-minded. Tony Y. Chan

Request KTXT

To the editor:

In reply to Rick Jones letter of Wednesday 27 concerning **KTXT-FM** requests. Since January when KTXT-FM increased its power, requests have become a tremendous problem as they are with most stations. At 10 watts, KTXT-FM had few listeners so requests were welcome, but now the sheer number of requests makes it impossible to play even a small portion of the total number.

We use a popular trade magazine for selection our Album Oriented Rock (AOR) music. If the magazine lists a song that is popular in large AOR markets like Dallas, LA, New York, then we play it. If a request is made for a song that is not AOR we will not play it. On the other hand we try to please all of the students some of the time rather than some of students all the time. Our staff works daily to compile music to be aired that we think will satisfy most of the students. I invite you, Rick Jones, to come by the station and find out why we do what we do if this reply is not sufficient.

We have received many positive comments about our present format but I hope this letter might answer some questions listeners have about our request policy. We welcome your comments at FM88 and hope you will continue to support our operation.

Trent Poindexter Student Manager KTXT-FM

Opinion_____ Bucy's non-university

Gary Skrehart

The Associated Press learned something recently The University Daily and the Tech community discovered many years ago. Give J. Fred Bucy a public forum and he will find a way to alienate some group.

The AP quoted Bucy regarding his comments to a State Senate Subcommittee. Bucy described foreign students as "a burden to other students."

Bucy also commented he felt there was no need for more research doctors in Medical Schools. This surely offended several individuals whose research has led to better medicine.

But Bucy's most revealing comment was "I don't know how many toes I may have stepped on there." Stepping on toes is what Bucy does

best. He seems to take a certain pride in it.

Stepping on toes sometimes is required, but you shouldn't continue to stand on toes. If Bucy would move on to a solution for even one problem, his tactics might be justified.

But most of what Bucy has done is offend and offend again various groups.

Bucy is not only damaging his own image but the image of Texas Tech University. Bucy, as a representative of Tech, should try to place the university in the best possible light. Bucy does seem to be doing what he thinks is best for the university, but by any wise measure he is moving in the wrong direction. His ideas move contrary to the basic concept of a university.

From his past comments. it is obvious Bucy would prefer a vocational school populated by conservative middle-class Americans. This narrow scope contradicts the belief that a university should provide a broad education and experience to the student.

Many of Bucy's ideas are good, but not good for a university. He should be a regent on the board of a vocational school. There is a place for many of his ideas.

Tech is striving to be a great UNIVERSITY. Bucy would rather turn out mechanics than wellrounded, thinking persons who can offer more to society than a good day's work.

The complex society of today requires more of person than Bucy would realize.

Universities exist for a greater purpose than to produce engineers for Texas Instruments.

WASHINGTON - Muaamar al-Qaddafi, radical Arab strongman of Libya, has a problem: nearly five years ago, Libya bought eight huge C-130 troop transport jet aircraft from Lockheed Corp. But the Nixon administration, sensing the mischief that could be undertaken if the most proterrorist Arab state had a powerful strike force to deliver paratroops, refused to grant an export license.

Now, those eight Libyan C-130s sit mothballed in Marietta, Ga. Since Libya has become the most militant of the Arab "rejectionists," providing support for terrirists and seeking to engineer coups in Yemen, each succeeding administration has refused to permit delivery of the jets.

A COUPLE of years ago, Qaddafi set about trying to change U.S. policy. He had great oil leverage - the U.S.

DOONESBURY

 but oil leverage wasn't doing him any good, since prices and production are set by OPEC. But the president of the United States came from the State of Georgia; and the next chairman of the Senate Foreign Relations Committee. Frank Church, came from Idaho.

buys \$4 billion a year worth of

Libyan low-sulphur crude oil,

or 11 percent of our oil imports

The seduction of the president's brother, Billy Carter, to the Libyan cause in Georgia is well known, and is the subject of foreign-agent registration queries by the Justice Department. Not so well known is the Libyan campaign to win the hearts and minds of the voters of Idaho. **THROUGH** Ahmed James Araji, an Iraqui-born American professor at the University of Idaho, the Libyans arranged an invitation to visit Idaho to study the possible purchase of farm commodities. The Idaho Farm

appointments with local and to get their jets delivered." state political leaders.

Soon, delegations of Idah Carter helped the Libyan farmers and businessmen were emissary, Ahmed el-Shahati, to being entertained in Libya. Unfortunately, the kind of the only congressional staffer wheat that is grown in Idaho is in view was a man working for not the kind that is eaten in McClure; next day, the Libyan Libya, but about \$30 million in envoy lunched with the senator. wheat deals were reportedly consummated that enabled Idahoans to be middlemen for midwestern wheat.

ALSO INVITED to Libya was Republican Sen. James McClure, an intelligent, softspoken conservative who is likely to become a far more effective spokesman for Arab causes than the recentlyretired James Aburezk. Another Idaho politician who of Qaddafi is Church, who the met with Qaddafi was Rep. Libyans think could change Stevens Symms, a Republican administration policy who intends to contest in 1980 regarding the C-130 troop the Senate seat held by Church. transports. The let-'s-get-

> host a reception in Washington, During that week, Congressman Symms sought to have an off-the-record luncheon for members of the Agriculture Committee with Shahati; however, columnist Jack Anderson discovered the invitation that promised "no public exposure" to those who attended, and the attendant publicity cut the attendance. OF COURSE, the real target friendly-with-the-Libyans message has been delivered by

"trade office;" Church replies that his approval is "irrelevant," since any country can open a trade office wherever it wishes.

Reporters Charley Blaine of the Idaho Statesman and Lonnie Rosenwald of the Twin Falls Times-News have been exposing the Libyan attempt to bring pressure to bear on Idaho's representatives in Washington. To my mind, it is an international rather than a local story.

SO FAR, Church has resisted the pressure: "This C-130 sale was cancelled by the State Department as contrary to our national security interests. This policy was begun under President Nixon and continued under Presidents Ford and Carter. I support it. Libya is not only hostile toward Israel, but also toward Egypt and other moderate Arab government. I see no reason to sell the

That's a gutsy statement especially in view of the way his probable Senate opponent is allowing himself to be used by the Libyans. Symms tells me he, also, now opposes the arms sales, and fails to see how he is being manipulated: "there are no Libyan votes in Idaho." He is closing his eyes to the growing Libyan economic influence.

AS A registered rightwinger and unabashed hawk, I have flayed Church on many an occasion including, ironically, for his unwillingness to use trade as a weapon. But when a dictator uses his money to get businessmen to exert influence on the chairman of Senate Foreign Relations to get the U.S. government to cave in to arms demands — that is a blatant attempt to subvert American institutions, and conservatives from Washington to Boise should close ranks to resist.

NASA official to discuss shuttles

An explanation of the development and use of the National Aeronautics and Space Administration's new space shuttle program will be the topic of a public lecture at 7 p.m. Tuesday in room 101 of the Mass Communications Building.

James C. Shows, deputy manager of the Space Shuttle Systems Engineering Office of NASA, will discuss the development and use of the space shuttle, the history and progress of the program, and some technical aspects regarding components and space design.

The lecture is sponsored by Tau Beta Pi, an engineering professional honor fraternity. Vice President Rick Husband, in charge of the organization's programs, said the regular monthly meeting has been opened to the public because of the general interest in the speaker's topic.

Journalists receive awards

University Daily staff members won several awards Saturday at the 49th Annual Southwestern Journalism Congress in Arlington.

Tod Robberson won first place in investigative and interpretative reporting with his story about possible violations of the Texas Open Meetings Act and Open Records Act by the Lubbock Country Hospital District board members. Larry Elliott, former UD staff member, won second place in the same category with his story about surveillance of the Tech Campus by the Central Intelligence Agency.

Bill Baldwin, former UD staff member, won third place in best general news story. Doug Pullen won third place in best critical writing.

Chino Chapa won the \$150 scholarship sponsored by the journalism congress.

Several major universities from Texas, Arkansas, Louisiana and Oklahoma participated in the competition.

Camera shortcourse begins

A 35mm camera shortcourse will begin today and is open to Tech students.

The beginning photography course will be devoted to the operation of the camera, how to compose and shoot good pictures, lighting, focusing and timing.

The course requires that students use their own cameras and have their work processed commercially.

The course will be taught by John McKinney, a former cover photographer, and member of the mass com-

Tuition for the course is \$30 per person. Information and enrollment forms are available in Room 102 of the Mass Communications Building.

Freshmen discuss Who's Who

Plans to complete a freshmen Who's Who were discussed at a Freshman Council meeting last week. The Freshman Life Committee hopes to have plans for this program completed in two weeks.

The Budgeting and Finance Committee estimated \$92 will be raised through the Freshman Council candy sales. The money will be used for projects and the Freshman Council Office.

The importance of keeping office hours was once again stressed by the Review Board.

Several candidates running in the March 14 Student Association elections spoke to Freshman Council concerning their platforms.

The next Freshman Council meeting will be 9 a.m. March 14 in the Student Senate Chambers of the University Center.

Black women's group formed

Delores Mack, counselor in the University Counseling Center, is organizing a black women's interest group. The first meeting will be today from 5 to 6:30 p.m. in Room 216 of West Hall.

"The purpose of the group, is to explore various aspects of female sexuality and the particular problems facing black female students on a predominantly white campus," Mack said.

"Black women seem to have problems with such things as black-white dating, being independent or dependent with their mates, or just a number of things," Mack said. "We will be discussing some of these problems in the group."

The black women's interest group will meet each Mongay for six weeks, Mack said.

Any woman interested in participating in the group should call 742-3674.

Home landscaping course offered

In response to numerous requests the park administration and landscape architecture department will once again offer its short course in landscaping your home.

The course is scheduled for March 19-23, with classes from 9:30 a.m. to 12:30 p.m. A fee of \$40 covers the cost of two resource books and other expenses.

Registration is now open and class size will be limited to allow for individual instruction. For additional information, call the park administration and landscape architecture department at 742-2858.

CAMP COUNSELORS YMCA Summer Resident Camp will interview male and female students today at Career & Placement. 1 year of college required. \$60 - \$80 per week.

'Poppa' McGuire directs debate with 'down-to-earth' style

By LEZLIE ROBERSON **UD** Staff

The Tech debate squad crossed the border into Juarez devote any amount of time," one evening last year with 10 Price Ainsworth, a freshman squad members and Vernon debater, said. McGuire, director of forensics.

As McGuire parked his van, happened to McGuire on He received his degrees from a young Mexican boy various trips. approached McGuire and watched the 10 squad members get out. When the van was empty the boy leaned

over to McGuire and softly Tournament, McGuire went asked, "You, Poppa?" As director of forensics, the motel desk, a young man McGuire has served as a

"poppa" for Tech debaters for 14 years. McGuire understands tre

problems of students," Henry O'Hair, assistant director of forensics at Tech, said.

Student actor

Debaters stop by McGuire's office throughout the day to discuss various problems, not

all related to forensics or debate. "McGuire is willing to explained that he was a debate

judge. business, where he held The debaters like to tell executive positions with stories about things that have several companies in Kansas.

Kansas universities, where he Last year when the squad was a college debater himself. arrived in College Station for He left the business world to the Southwest Conference enter university-level Championship Debate teaching because "I wanted to get out of the business world into the motel to register. At for a while."

"Originally I had planned to approached McGuire and only stay for a year, but then when I got involved in the aksed if he was a judge from Tech, to which McGuire forensic program, I decided to stay," McGuire said. answered that he was.

The young man then told McGuire finds time to be a McGuire, that the cattle were leader in state and national ready for him to judge. After a forensic and speech few seconds, McGuire organizations, serving last realized that the young man year as president of the Texas

was expecting another judge Speech Communication from Tech. McGuire Association.

He has been nominated for the national presidency of McGuire came to Tech from Delta Sigma Rho-Tau Kappa Alpha this year. DSR-TKA is the forensic honorary fraternity.

> Even with his extensive responsibilities, McGuire is still a down-to-earth person, finding enjoyment in such tasks as caring for his lawn, washing his car, and being a friend as well as a coach and a teacher to his debaters and students.

> Maybe part of his success can be attributed to his coaching philosophy. McGuire thinks that any student interested in debate and oral interpretation should be allowed the opportunity to compete in inter-collegiate competition.

Another part of his success can be attributed to the respect he receives from students.

Professionals hire agents to promote services Marketing specialties:

and dentists are defying exclaims.

\$30,000 a year to get their however.

on TV. volvement in public relations.

"It gives me a bad taste in my mouth," says a Manhattan plastic surgeon who has become a minor celebrity but does not want to be named here. "There is an edge of something unethical about it."

The trend, which seems to have attracted mainly those physicians in the intensely competitive speciality of plastic surgery, probably had its genesis in publicity appearances for book authors. But it was after the Federal Trade Commission in 1975 began attacking advertising restrictions on lawyers, doctors and dentists that selfpromotion caught fire for professionals without books. For example, the American Medical Association adopted guidelines that prohibit only false, misleading or deceptive advertising.

While public relations is not specifically mentioned, AMA

attorney Bruce Nortell says, "It bothers some people, but it doesn't really concern me as long as it doesn't involve deception."

"It gives me a bad taste in my mouth...There is an edge of something

unethical about it."

Society of America takes no stand on the issue. Yet Ms. Hauser contends that patients could be attracted to a doctor for the wrong reasons - say, his charm on TV - risking failures that could mean even disfigurement. "It is buyer beware," she continues. Dr. Kaj Holmstrand is a case a point. Publicist Saul Richfield got the Manhattan plastic surgeon on a local television news show and, Richfield says, that led to 40 or 50 calls from prospective patients. But Holstrand's license to practice medicine was revoked in December for gross incompetence and negligence, and for fraud.

Another doctor whose case is being investigated was certified as a specialist in eye, Publicist Morton D. Wax, ear, nose and throat medicine.

NEW YORK (AP) - An "We found a whole new had prompted numerous relations firm. No reliable estimates exist

who retain publicity agents. Many doctors note that even

contract with PR agencies, professional associations and hospitals often do so on their behalf.

or near flawless, sound system. He talks a lot on stage. A clear, uncluttered

member backing unit to its slender singer whose luscious Buffett's show seems all the voice intertwined with Buf-Fingers Taylor's explosive, expressive harmonica to make for an almost indescribable sound.

Keyboardist Jay Spell added his liquid fluorishes, making the musical mesh as solid as any hard rocker's, yet more expressive and human.

Add Buffett's execution to pressive, overwhelming piece stuck to a basic concert

structure; that is, spend the first third of the show mixing a hit or two with some less familiar, but equally moving material. The mid-section is comprised of acoustic and slow numbers; a portion of the show which showcases the entourage's individual talents. The last portion is made up of a gradually enrapturing crosssection of moderate and fast songs.

It's the kind of show which leaves a crowd hanging. Hell, the best of them do it. So why, then, is it such a surprise to see Jimmy Buffett do it so well?

Jimmy Buffett I guess you had to be there.

Vanessa McVay

Literary work discussed

Wolfgang Iser, a literary theorist, will speak on "The Art of Failure. The Stifled Laugh in Beckett's Theatre," today at 7 p.m. in the UC Senate Room.

The lecture by Iser, a professor of comparative literature at the University of California at Irvine and the University of Konstanz in Germany, is sponsored by the department of English as part of its biannual speakers series.

Iser will speak on the peculiar way people react to Beckett, how stifled laughter is the peculiar reaction, and what causes this to happen.

Women's tennis competes today

The Tech women's tennis team tries to get in the winning column today as the netters face South Plains Junior College at the courts behind the Intramural Gym.

Tech's dual match record is 7-7-1, but 0-4 in 1979.

The Raiders will send Debbie Donley, Karen Schuchard, Cary Garton, Peggy O'Neil, Sandra Carrillo and Carrie Settree to attempt breaking the current losing string.

Tech's first dual match victory of the year came against South Plains 8-2 in October. However, the Texans came back to beat the Raiders in the Midland Tournament 7-2.

crowd at Saturday night's indoor meet between the United States and Russia.

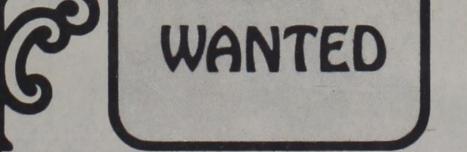

Candy Young, a high school junior at Beaver Falls, Pa., took the breath of the 9,218 in Tarrant County Convention Center with her explosive start in the 60-yard women's hurdles race - the first event of the evening.

She had a clear lead at the first hurdle, and the roar grew as she moved down the wooden track and hit the tape in 7.27 seconds, far under the world record of 7.5 seconds she set a week earlier at the AAU indoor championships at Madison Square Garden.

It was the first of three world indoor records to be set or tied during the evening, which ended with the United States a narrow 121-118 overall winner. The U.S. men won 75-66 and the Russian women won 52-46.

Russia's Lyndmila Storezhkova ran the 60-yard dash in 6.63 seconds as the first three finishers all beat the old mark of 6.72 seconds.

And Dan Ripley of San Jose State made the highest indoor vault ever, a leap of 18 feet 5¾ inches.

Lubbock's newest restaurant and lounge at 3838 50th is now hiring for all positions. Experienced, professional management combined with an excellent employee benefit program and highly competitive salaries make "3838" an exciting place to work for the experienced as well as inexperienced. We will feature live entertainment, late night dining in our lounge, as well as an unique dinner menu in the restaurant. We will be taking applications between 10a.m. and 6p.m. Monday through Friday. Please apply in person to Steve Farrar or Jim Griffin.

Keller's bat shines in Tech, Rice split

By DOUG SIMPSON **UD Sportswriter**

OUTFIELDER JOHN **KELLER** drove in five runs and pitcher James Miller limited Rice batters to just two hits, helping the Raiders to a 15-7 win over the Owls Sunday in the second game of a doubleheader at the Tech diamond.

The win prevented the Owls loaded the bases. from sweeping a three-game twin bill. Rice defeated Tech 9-6 in Friday's series opener. The Raiders are now 6-5 for the year and 1-2 in Southwest Conference play. Tech invades Baylor for a three- Ibarguen in the fourth. game series this weekend.

IN SUNDAY'S SECOND game, the Raiders relied on the high-flying bats of outfielders Larry Selby and Keller to break open leads of more. one and two runs on three different occasions.

Rice took a 2-0 lead in the first inning when walks by Tech's Steve Ibarguen and **Baldwin and Jimmy Michalek** from third.

But Mike Farmer led off the looper to center to advance picking up clutch basehits. Farmer to third.

hitting deep to right for a save. Tech used three pitchers

Then, on one of the game's strangest plays, Rucker and Newton both scored when Mike Farmer slashed an infield single which Rice first basemen Mike Horn couldn't handle.

TECH LED 5-3 at that point. Rice threatened again in the third as a throwing error and a

The Owls narrowed the gap series with the Raiders, who by a run when outfielder John lost 7-0 in the first game of the O'Keefe hit into a double play, sacrificing home Michalek. The score stood at 5-4 until the Raiders broke the game open in the last of the fifth.

Tech inserted Miller to relieve

runs in the fifth inning, with Keller driving home two runs and a series of Tech hitters getting basehits to tack on two

THE RAIDERS LED 9-4 at the end of five.

Rice cut the gap to 9-7 with three runs in the top of the sixth, but Tech added three Miller scored Owls Kenny runs in the seventh and three more scores in the eighth to seal up the victory.

Selby, Keller, and Randy bottom of the inning with a Newton led the charge for the walk and Selby followed with a Raiders, driving in runs and Ibarguen got the win on the

Determination and vets dot Houston line up

Sports

By MICHAEL A. LUTZ

AP Sports Writer HOUSTON (AP) - Cesar Cedeno is scared, the pitching staff is determined and Bob Watson is still an Astro as the Houston Astros converge on Cocoa, Fla. this week to begin another quest for the National League playoffs.

made the playoffs, dipped to a fifth place finish in the NL Western Division last year despite batting third in the league and J.R. Richard's record 303 strikeouts.

Houston's season was marred by an inconsistent pitching staff and the loss of Cedeno for 112 games following knee surgery but ever-optimistic President-General Manager Tal Smith sees brighter days ahead.

"We didn't always have a major league lineup on the field last year," Smith said. "But with the return of Cedeno and our improvement up the as the Owls took two games from Tech. (Photo by Mark middle, it could be a different story this year."

The 1979 Astros story starts unfolding Tuesday when the full team will join pitchers and catchers in workouts. Players are not required in camp until Thursday but most of the team a member of this team. If he is already is present. Houston obtained catcher

Alan Ashby from Toronto and All-Star shortstop Craig The Astros, who never have Reynolds from Seattle during the off-season and Smith feels the return of centerfielder Cedeno should complete the Astros' fence-mending up the middle.

> Cedeno, who returned for two of the Astros' final three games of the season, said he feels stronger than ever before but he's anxious to find out how his knee responds to the rigors of sliding.

"I have to admit in a way I'm a little scared," Cedeno said. "I just have to get that off my mind. The exercise machines show my leg is strong but I just have to slide on it first."

least expected The returning Astro is first baseman Watson, who asked to be traded following last season. Smith was unable to make a deal during the baseball winter meetings.

So Watson, the Astros' only lifetime .300 hitter, is gearing up for another season in the Astrodome and his presence likely will delay an infield

"Bob Watson will go to spring training as the incumbent first baseman," Smith said. "We have prepared for Bob Watson to be not, then we would go another way."

Richard, who last year became the first NL righthanded pitcher to strike out 300 batters in one season, again will be the heart of the Astros' unsettled starting rotation.

Joe Niekro, Ken Forsch and Vern Ruhle are the other starters and either Joaquin Andujar or To Dixon will be the fifth starter.

Richard, 18-11 last season, is the only Astros pitcher who remained in the starting rotation the entire 1978 season. Forsch started the season as an effective short and middle reliever but was forced into the starting rotation and compiled a 4-2 record as a starter, including a shutout of

Los Angeles Sept. 8. Niekro started the season in the regular rotation but was removed after winning only one of his first five decisions. Niekro regained a starting role and finished with a 14-14 record.

Ruhle signed with the Astros as a free agent, worked his way up through the minors and finished the season in a shuffle that would have put starting role where he games.

NIT offers Tech bid

Tech's basketball team will participate in the National Invitational Tournament starting Thursday when they take on the Indiana Hoosiers in the Lubbock Coliseum at 7:30 p.m.

Indiana will enter the first round contest with an 18-12 record. The Hoosiers are members of the Big Ten Conference Tech has a 19-10 record entering the shootout.

Tickets for the NIT game go on sale at the Tech athletic ticket office Tuesday. Student tickets will cost three dollars and all other tickets will cost five dollars. The office opens at 9 a.m.

There will be no reserved tickets for this game.

Tech polo club forming

Polo is considered by many to be a sport for the royal and the rich, and certainly not a sport common to West Texas. Not yet, anyway.

While most West Texas horses are used on the range or racetrack or in the rodeo arena, Prince Charles' favorite sport may be Tech's next club sport.

"We want to have polo played here by Tech students," Monte Williams, president of the Tech Polo Club said. Promoting polo in general in this area will be their main goal. They also hope to have polo recognized by Tech as a sports club.

Polo is played on horses, of course, with four players to a team. The field is 300 yards long and 150 yards wide. The game is divided into six seven-minute periods of "chuckers."

C. D. Simpson, assistant professor of range and wildlife management, started a polo club at Texas A&M University before coming to Tech. Simpson wants to see a polo club team here and will act as sponsor for the club.

For those interested in joining the Tech Polo Club, a meeting will be held March 12 at 7:30 p.m. in room 101 of the Range and Wildlife Building. You do not need to have your own horse or polo equipment to be involved with the club. Dues are \$5 per semester.

"Stick and ball" practice will be held every Sunday beginning March 11. Field location has not been set. There will be separate teams for men and women.

For further information on the Tech Polo Club, contact Monte Williams at 792-9693 or Julie Poux at 742-7512.

be the fastest overweight man in the pole vault. Texas A&M double winner, taking firsts clocked a 1:49.29 in the 880 to 1966 mark of 1:50.3.

> University division athletes Defending champion Rice topped two Border Olymplics Meanwhile Tech...

> > Despite a second-place finish from half-miler James Mays, the Tech track and field team fell to ninth place in the 47th annual Border Olympics in Laredo Saturday.

In a battle for the team championship, the meet came down to the final event before Texas A&M University pulled away from Baylor University to take home the trophy with a

118 point total. Baylor amassed 96 points for second place, Rice University took third with 77 points, and the University of Texas nailed down fourth position with 53 points. Tech finished ninth in the meet with 11 points.

Leading the individual performances for Tech was James Mays. Mays held off three runners in the final straightaway of the 880-yard Chica dash to finish second behind Rice's Bruce Gingrich. Mays' time of 1:50.9 is the second fastest half-mile run in Tech Phoen track history. San D

The Tech tracksters finished sixth in three other races. Marc Johnson ran 14:04 in the three-mile run; Marc Taylor threw the discus 153 feet, 4 inches; and David Thompson scaled 14 feet, 6 inches in the pole vault.

Also for Tech Freshman Keith Alexander and Dean Crowell made it to the finals in the 440-yard intermediate hurdles. Alexander clocked 55.0 and Crowell ran 55.3

Next Saturday the Tech thinclads travel to Portales for the Eastern New Mexico All-Comers Meet.

third baseman Enos Cabell at compiled a 3-3 record in 13 first.
