

Goodwin Endorses Efforts

IFC Takes Look At Lodging Plans

Texas Tech's Interfraternity Council gave overwhelming support Wednesday night to plans seeking a "go-ahead" signal for fraternity lodge construction on campus.

In a two-hour meeting attended by Tech President R. C. Goodwin and more than 30 representatives of campus fraternities, the Council reviewed wording of the minutes of a 1958 housing corporation laying plans for fraternity and sorority lodges on campus.

Both fraternity and sorority systems at Tech have previously indicated a desire to begin lodge construction plans, but the National Panhellenic Council has a ruling which prohibits sororities from beginning work on sorority lodges or houses unless space is provided for all campus sororities.

Under the 1958 charter, only the 20 fraternities and sororities then in existence were provided for in a 25-acre plot located north of 16th street just east of Quaker Avenue, west of Tech campus.

Since then two sororities, Phi Mu and Chi Omega, and a fraternity, Kappa Alpha, have been organized here.

The 1958 minutes said that paving and utilities could proceed on campus lodge plans at the expiration of a two year period "if such paving and utilities are requested by three-fourths of the organizations participating therein."

All involved have been paying taxes on the land since then, but the paving and utilities were never requested. Representatives of the 1958 meeting were not aware of the NPC rule.

To free itself from the bind which the NPC presently has over both groups, the IFC has suggested a revision to the corporation minutes reading: "Upon payment of the paving,

utility and platting costs by three-fourths of the 10 men fraternity members pro rata share, then one-half of the acreage shall be platted and deeds given each of the 10 and they shall proceed." The IFC voting members "passed" the amendment 10-0 in an unofficial straw vote.

The amendment must be approved by three-fourths of the corporation (15 of the 20 fraternities and sororities) to pass. It will be voted on at a March 12 meeting of both groups.

"It would strictly be a courtesy on their part if they approved it," Dean Thomas Stover said of the Tech Panhellenic Council and its part in the amendment. "They are not bound in any way by it."

Earlier, President Goodwin encouraged the group by telling them he wished them success in their attempt to get lodges on campus.

"I wish you had them; I wish you did have fraternity lodges we could be proud of. But there's not too many of you who can go out today and buy a \$20,000 lot and build a \$50-\$60,000 lodge on it," he cautioned the representatives.

He told them chances of passage were good for a bill presently before the state legislature to seek permission for Tech to grant the corporation an additional 10 acres, if needed, to facilitate plans in the proposed lodge area. If this bill is passed, there would be necessary land for the three new sororities and fraternities.

Chances for fraternity and sorority housing in the near future are slim, since there is presently a \$16-17 million debt on campus dormitories, and until this debt is paid, campus officials must see that dorms are filled to near capacity. With fraternity and sorority housing, too many students would be taken from dormitories.

Rift Looms On Election

A dispute concerning the right of the Student Council Election Committee to determine qualifications of persons running for office will be decided by the Tech Supreme Court today.

Amon Burton, chief justice of the Supreme Court, said the court would hear the case at 3 p.m. in the Union, with the meeting place to be posted in the Union foyer. All interested persons are invited to attend, he said.

The case arose after James Perry, who earlier in the week filed a petition to run for a position on the Student Council, was declared ineligible to run in Friday's election by the Election Committee.

Violates Committee Ruling

Perry, presently serving as junior class vice president, said Wednesday he was informed that he was ineligible to run for the position since he was holding a class office. He said the Committee told him this was in violation of a ruling passed last semester.

He said he protested the decision of the Election Committee since there was nothing in the Council constitution that gave the Committee authorization to take such action.

"It is not my responsibility to say whether it is right or wrong," Perry said. "It is right that the constitution should say to that effect whether it is right or wrong. I feel that a rule should be set up one way or another."

Should Be Inserted

He continued, "I don't challenge their reasoning, but I challenge the fact that there is nothing there . . . that they're going by precedent. If it's so vital, it should be inserted in the constitution . . ."

Burton said Wednesday that, according to the constitution, "The Student Council shall provide for the holding of election and shall enact an election code therefore."

Burton said that this provision gives the Student Council the right to carry forth the election, and in line with that it set up the Election Committee.

By-laws of the Council, Burton said, say the Election Committee has the right to formulate detailed election rules. He explained that the question involved was whether or not the Committee has the right to restrict class officers from running for Council positions, or whether the Committee's act is in direct conflict with the constitution.

Overstepped Bounds?

"We are going to rule," Burton said, "on whether or not the Election Committee has overstepped its bounds in carrying forth the elections."

Student Council Secretary Karen Anderson, who is also chairman of the Election Committee, said the Committee passed a ruling saying that "no person may hold the position of Student Council representative, class officer or cheerleader simultaneously."

Miss Anderson said the Committee made this decision at an Oct. 1 meeting last semester and that it was formally approved by the Council Oct. 2.

This decision was made, Miss Anderson said, after it was learned that two Student Council members were planning to run for class offices.

Burton said this would be the first time the Supreme Court has met this semester.

He said that this is not the first time the Election Committee has been challenged. He said it was challenged last spring in a controversy over write-in votes.

At that time, Burton said, the Supreme Court ruled in favor of the council, saying that candidates must be nominated in the proper procedure of filing petitions.

AT DENTON

Legg Attends Meeting

Robert Legg, Student Council representative and head of Texas Interscholastic Student Association

at Tech, leaves today to attend the 15th annual TISA Convention at Texas Women's

University in Denton Saturday. Special Week

Proclaiming this week TISA Student Recognition Week in Texas, Gov. John Connally says "Never before in our history has there been a greater need for educated leadership. Texas is blessed with many outstanding institutions of higher learning. The faculty and administration of these colleges and universities are dedicated to the good of providing quality educational programs to all levels."

The convention is the culmination of a special week of observance calling attention to the importance of the higher education system and particularly to the potential and achievement of students.

Founded in 1949, TISA has labored as a student government service organization dedicated to the ideals of providing educational means for developing qualities of vigorous and effective leadership as well as responsible and informed citizenship.

Police To Increase Parking Lot Control

A series of thefts from automobiles on campus has caused Campus Security officers to increase surveillance of parking lots.

Bill Daniels, chief of Campus Security, said late Wednesday that there has been a marked increase in the number of cases involving theft from automobiles.

"Our thefts kind of run in a cycle like this," Daniels said. "I've watched this over a period of years and this always follows through."

He added, "We're watching the parking lots more carefully." He said most of the thefts have taken place in the lots and at night. If the thefts continue, he said, officers will be staked out on the lots.

Daniels urged students to take greater care in protecting their property and recommended six protective measures.

1. Movable articles on or in automobiles should be marked for easy identification.
2. Automobiles should be locked at night.
3. Unusual activity of any person or persons in the parking lots should be called to the attention of officers.
4. Valuable articles should not be left in cars.
5. Luggage or clothing should not be left in cars overnight.
6. Theft should be reported to Campus Security as soon as they are discovered.

STUDENT RECOGNITION WEEK—Gov. John Connally gives the proclamation designating this week as TISA week to Fred Head, SMU senior law student, president of the Texas Interscholastic Student Assn.

Driving In Parking Lot? Be Prepared To Duck

By VERNON SMITH
Toreador Staff Writer
For a person who has been at Tech for a full semester, there is really no excuse for persisting in attempts to drive on campus dur-

ing class changes. Many Tech students have come to accept this as impossible.

But then I have always been willing to try almost anything once.

IN THIS CASE, only once. As I resolutely attempted to maneuver my way through a crowded parking lot during a class change a few days ago, I heard a sudden dull thud from the rear. A harried pedestrian, in his eagerness to reach class on time, had walked headon into my rear fender.

OTHER DRIVERS may take such things passively, but personally I consider this an act of aggression.

Evidently, the day has arrived when pedestrians are going to assert their rightful place in our motorized world. This seems only fair; however, we must remember that with equal rights come equal responsibilities.

Now a clean-filling, smooth-writing,
money-saving Parker cartridge pen...only \$3⁹⁵
New PARKER ARROW

This pen can save you money on cartridges. Parker Super Quink cartridges are BIGGER and last longer (each is good for 8 or 9 thousand words). But, even if you didn't save a dime, this pen would be worth the extra price. It's a Parker.

And only Parker gives you a solid 14K gold point tipped with plathanium—one of the hardest, smoothest alloys ever developed. It should last you for years no matter how much you use it.

The pen won't leak the way cheap ones do. It has a built-in safety reservoir, and meets most of the tough specifications we set for our \$10 pens.

If you have trouble saying it, say it with a Parker. If you're a little shy and have difficulty saying "I love you" or even "I like you very much"—say it with a Parker.

The new Parker Arrow makes a beautifully expressive gift and looks as if you paid a small fortune for it.

The new Parker Arrow comes in black, dark blue, light blue, light gray, and bright red, with a choice of four instantly replaceable solid 14K gold points. Includes five free Super Quink cartridges with pen-protecting Solv-X (49¢ value).

PARKER Maker of the world's most wanted pens

APPEARING HERE FRIDAY—Ferrante and Teicher, well-known pianists, will present "The Many Moods of Ferrante and Teicher" at 8:30 p.m. Friday in Municipal Auditorium. The popular duo has sold over six million single records and two and one half million L.P.'s in the past two years. They have appeared on the Dinah Shore, Perry Como and Ed Sullivan Shows, as well as the Dick Clark Show. And their concert and night club engagements have taken them throughout the United States and Canada. Tickets are on sale in the Tech Union, Tech Bookstore and Wayne's Record Shop. They are 75 cents for students and \$1 for faculty.

Speech Students Place In Arizona Tournament

Tech students walked off with honors at the University of Arizona's debate and forensics tournament in Tucson last week.

Marilyn Marek, Temple junior,

placed third in women's interpretive speaking with Karen Day, Midland sophomore, taking fourth place. The debate team of Keith Strain and Kip Glasscock won two of three contests.

Tech students were in competition with representatives of 40 schools from 11 states including Hawaii. Other schools competing were Air Force Academy, UCLA, University of Denver, University of Oklahoma, Brigham Young University, University of California and Colorado College.

"All the schools we were matched with in competition were large schools that placed in the finals. Considering the competition, Tech showed up very well," said J. C. Robbins, debate coach.

Infraternity Council is also represented.

Two Courses Named Open For Visitors

Two classes are open to visitation today, the Student Honors Council has announced.

Man and the World, non-credit honors course — Social Science Bldg., room 215, at 11 a.m. Dr. J. W. Davis will speak on "Social and Political Organizations."

English 134—C&O Bldg., room 124, at 10 a.m. Dr. Hugh Pendexter III will speak on "Adonais" and other works of Shelley.

These classes are open to any student and seating is available on a first-come, first-served basis.

The class visitation program was recently approved by the administration. The Honors Council hopes to expand the program so that Tech students can attend any class on campus, according to Bill Helms, project chairman.

Salinger Backs Present News Handling Plan

NEW YORK (AP)—Pierre Salinger, President Kennedy's press secretary said Wednesday night, "I think the news management story is a greatly overworked one."

He had been asked on a taped CBS television program, "Self-Portrait," whether he consciously for the President, managed news as an instrument of national policy.

CRITICISM of the Kennedy administration's information policies was heightened last Oct. 30 when Arthur Sylvester, assistant secretary of defense for public affairs, told newsmen that the Pentagon controlled news as a weapon during the Cuban crisis.

On the television program, Salinger said, "I think I see my job, and the President sees my job, as getting out the information to the press, all the information we can within the limits of national security."

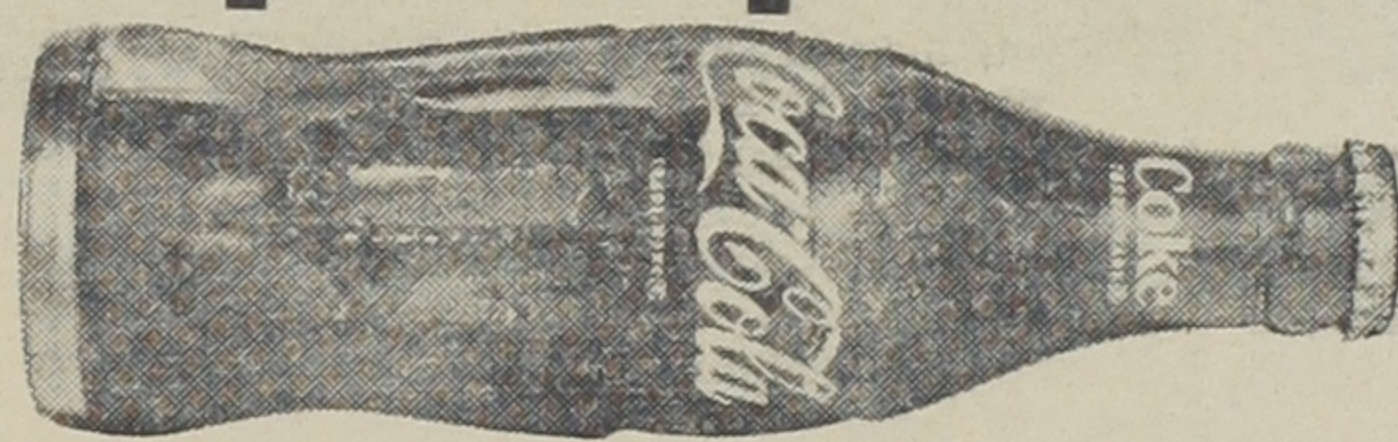

SALINGER ADDED, "I've always held to the theory that the news should go out as it happens, and in most cases that's exactly what we do. Now there are, as I say, matters of national security, that you don't."

In the latter category, the press secretary cited the case of U2 spy pilot Francis Gary Powers, who was shot down over the Soviet Union and imprisoned.

"**WE KNEW FOR** a period of time that negotiations were under way for his release," Salinger said.

"We didn't say this to the press at the time, because I think any premature release of those negotiations would have prevented his return. That's the kind of thing that I'm talking about, when you talk about holding back news. But I think legitimately news should be put out as it happens."

Please Don't Cry, Mom— Being Dropped Didn't Hurt

Editor's Note: This is the first in a series of features about the romantic habits of college students. Following these will be articles about being pinned and engaged.

By **JOHNNIE LOU RABORN**
Toreador Society Editor

"I can't understand it," wrote one father. "Don't worry honey, it isn't so bad to be dropped by a boy," he continued. Common misconception? It isn't in the world of fraternities and college coeds. Parents are the ones that can't seem to bring the new romantic jargon in focus.

—Picture on page 7—

Being dropped, explained one daughter, is the sophisticated way to go steady. The symbolism changes, but the facts remain the same. The senior ring and football jacket are traded in on the fraternity letters "dropped" down from a chain. The other form is a lavalier, the fraternity crest also dropped from a chain.

Why be dropped? There are several reasons. Sometimes girls get on a merry-go-round of dating different boys in one fraternity. They never know when they will double with the boy they dated the night before. The same goes for the men. One pledge might be vying with an active for the attentions of one girl. It doesn't strengthen fraternal love.

So, they decide to hop off the merry-go-round and settle down somewhat. What does it bring? It

depends on what the person is looking for. One girl said, "I had never been dropped—I just wanted to see what it was like." At certain periods of the year many get this way. It becomes a fad and a status symbol to be pitched in the shower to emerge soaked and smiling.

Others feel the need to have a breathing spell. They get tired of exerting mounds of energy just to date different people all the time. Being bright, vivacious and captivating with each new face can be quite a task.

They long to be carefree and out of that "rat-race" of competition. The easy way out—get dropped!

Taking the easy way brings out another reason for dating only one person. It is old and hackneyed but a true description—the feeling of security. It can be rationalized and renamed, but it comes down to the girl knowing that she has a date every weekend and the probable conclusion of steady companionship. Surprisingly enough, these are the ones that last the longest, and sometimes drift into more stable relationships.

Of all the reasons to be dropped, just plain old being "snowed" or "blitzed" is the nicest. There is one boy or girl that is the most fun, interesting or promising to be with. The obvious action is to get dropped. This means phone calls, coke dates, in-between-class meetings in the Union and whole, long weekends to date, or study and simply be together.

This is the relationship that changes the most after getting the drop. It is less formal and more relaxed, yet still intense in dates and meetings. It is a middle ground. There hasn't been time enough to really get into a rut and begin to take each other for granted.

As the newness wears off, more changes occur—some couples break up, others plan a pinning ceremony... And that is another story.

A Phi O Lists Spring Pledges

Alpha Phi Omega, national service fraternity, announced 35 spring pledges Thursday.

Pledges are John R. Barnhart II, Kress; Pat Bates, Fort Worth; Ted Boedeker, Lubbock; Jim Cain, Borger; and John Cater, Baytown.

Also pledging are Jim Currin, Kilgore; David Fisher, Crane; Tom Fisher, Midland; Don Handley, Midland; Bill Henly, New Deal; Chris Hernandez, Seagraves; Jimmy Huckabee, Floydada; Fred James, Houston; and Jack Keels, Plainview.

Others are Sewell Keeter, Lubbock; Don King, Dallas; Jimmy Kondo, Big Spring; Billy Lane, Turkey; David Lewis, Lamesa; John Lewis, Dallas; and Gill Linnartz, Lake Jackson.

Pledges also include Allen Lueck, Temple; Joe Martin, San Angelo; David McCulloch, Whitney; Harold McEaren, San Angelo; Gail Lee McLain, Amarillo; James Reed Jr., Abilene; Bob Nieman, Morton; Richard Schwitzer, Duncanville; Harold Snowden, Lubbock; Charles Spellman, Brownwood; John Thomas, Wellington; Ronnie Thomson, Memphis; Paul Thompson, Midland; and Wayne Von Gosston, Big Lake.

CAMPUS ART CONTEST

Entry blanks for the annual campus art contest, sponsored by the Union Art and Design Committee, will be available in the Union beginning March 11. Preliminary judging will start April 18 with the final judging on April 27.

Contest divisions this year are oils, drawings and prints, photography and sculpture. Entry blanks are due April 17.

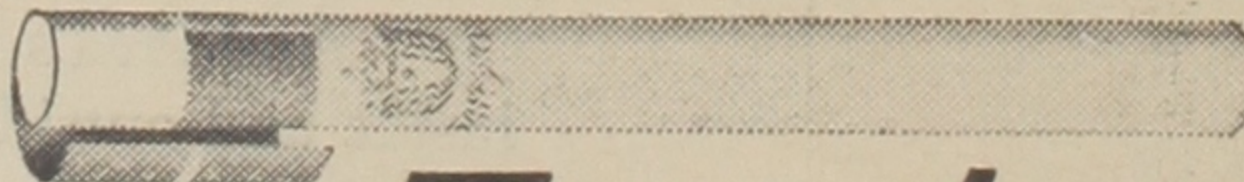

Hungry for flavor?
Tareyton's got it!

"Tareyton's Dual Filter in duas partes divisa est!"

says **Lucius (Poppa) Marius**, he-man historian and author of *Inside Caesar*. "Homo sapiens today sure appreciates fine flavor," quoth Poppa. "Nota bene the popularity of Dual Filter Tareyton. Reason: flavor—*de gustibus you never thought you'd get from any filter cigarette.*"

Dual Filter makes the difference

Raider Tennis Team Plays Tough Trinity

Trinity University of San Antonio brings an outstanding tennis team to the local scene at 1 p.m. Saturday.

The top two tennis players in the nation headline an unbelievably powerful court team. Chuck McKinley and Frank Froehling, No. 1 and 2 amateurs respective-

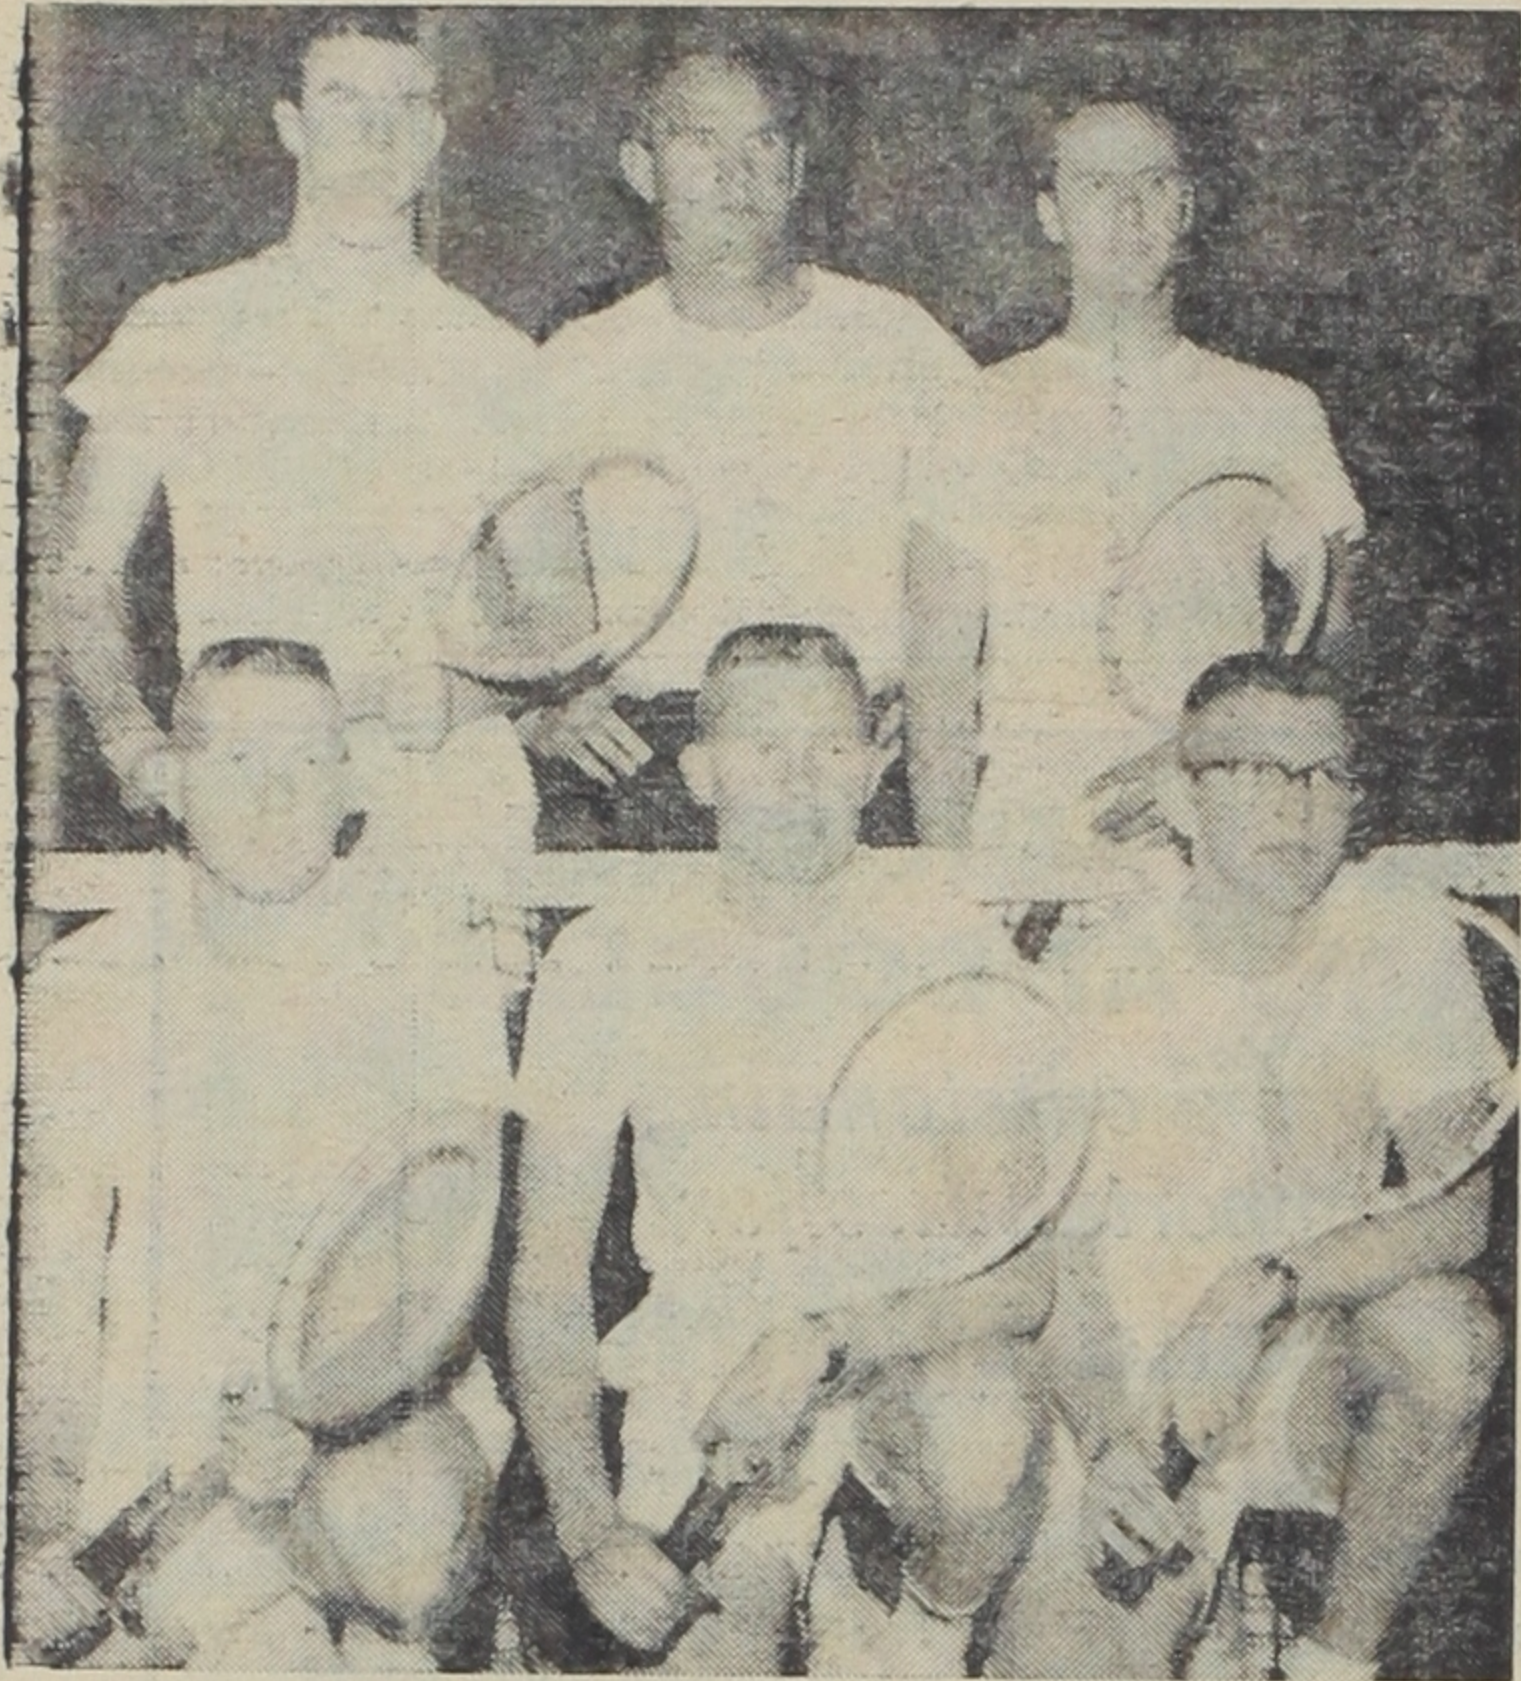

ly in the nation, are the featured players of the Tiger team. Also on the Trinity squad is Cliff Buchholz, 25th-ranked amateur nationally, Butch Newman, 50th in the nation and Bobby Joyner, from Lubbock, ranked 12th in Texas.

This will be the year's first action for the Raiders.

Daryl Allison and Beau Sutherland, top SWC doubles players

last year for Tech, will probably be paired against McKinley and Froehling. Allison has been playing the top singles game for the Raiders and will meet McKinley in one singles match. Sutherland will meet Froehling and Greer Kothmann will probably play Buchholz.

erson and Kothmann will meet Buchholz and Newman in the second doubles contest. "We realize that we are playing a team that is probably out of our competition category, but I think we can give them a real fight," Coach Philbrick commented. He added "It is good to play teams like Trinity to sharpen the boys and improve their game."

TEAM THAT CHALLENGES TRINITY—This squad of Tech tennis players challenges the nation's number one tennis power, Trinity University, Saturday, on the varsity courts. They are, first row left to right, Don Draper, Robert Peterson and Greer Kothmann. Standing, left to right, are Beau Sutherland, Coach George Philbrick and captain Daryl Allison. —Staff Photo

Track Team Competes At SW Rec Meet

Texas Tech, in its first outdoor track and field competition of the year, will enter 11 varsity performers and an equal number of freshmen in the Southwestern Recreation Meet at Fort Worth Saturday.

Junior hurdler Ronny Biffle of Apton is the only returning place winner from the 1962 varsity division of the meet. He was third last year in the high hurdles, fifth in the lows.

Jerry Brock of Fort Worth and Eldon Mongold of Amarillo, who both placed in the freshman division last year, are also among the participants. Brock took the mile run last spring, and Mongold was fifth in the 880.

By events, Texas Tech is entering:

440-yard relay — Noel Carter of Seminole, Rodney Smith of Rising Star, Biffle, and Walter Cunningham of Galena Park. Freshmen—Harold Nippert of Quanah, Mack Highfill of Carlsbad, N.M., Gary Cook of Fort Sumner, N.M., and Leslie Lee of Booker or Bobby Kitchens of Silverton.

High hurdles — Biffle. Freshmen — Dale Edgeworth of Lubbock.

100-yard dash — Smith. Freshmen — Highfill, Cook, Lee, Kitchens, or Nippert.

880 — Gary Don Bowe of Happy, Mongold. Freshmen — Ronnie Davis of Brownwood.

440 — Carter, Norman Donelson of Stanton, Nippert, John Semelko of Houston.

220 — Smith. Freshmen—Highfill, Cook, Kitchens.

Intermediate hurdles — Biffle. Freshmen—Edgeworth.

Mile — Brock. Freshmen—Richard Palmer of Lubbock, Davis.

Mile relay — Bowe, Richard Vogan of El Paso, Donelson, Carter. Freshmen — Highfill, Cook, Lee, Nippert.

Field Events—Discuss: Richard Barker of Friona. Freshmen—Roy Brown of Carlsbad N.M. Broad jump — Smith. Freshmen—Edgeworth. High jump—Twink Terry of Amarillo. Freshmen — Steve Stephens of Roswell, N.M.
